MUSTANGS TO INVADE EAGLES NEST FRIDAY

The Wheeler Mustangs this Friday will invade the nest of the Lakeview Eagles. The game will be Homecoming for the Eagles. The Eagles, always a scrappy team, have had small luck this year in that they have not won a game. This being the Homecoming Game they will be out there trying harder than ever to get in the win column.

Coch J. D. Atwell stated this week that the Mustangs were all in good condition after their week's rest. Injuries have had an opportunity to get well and the boys are full of spirit.

Jackie Johnson, who received a broken leg in a practice session the other day is reported to be getting along nicely. Most of the

SOIL PRACTICE RECORD GIVEN

Approximately one-half of the Wheeler county farm and ranch acreage which in 1950 was listed as needing soil conservation practices, has been improved.

A report of the Wheeler Soil Conservation District, released in connection with Town & Country Week, by George Taylor, district technician in charge of the Wheeler office, shows 281,000 acres of an estimated 574,484 have been improved. The number of farms and ranches on which improvement practices were made was smaller 400 out of 1,100 estimated as needing conservation work in 1950.

Out of an estimated 65,000 acres of seeding grass needed, the accomplishment has been 17,000.

So The People May Know

(An Editorial)

The owners of The Wheeler Times want to discuss the newspaper situation in Wheeler, openly and frankly.

Faced with lowering revenue (about \$400 per month less than a year ago) and mounting expenses, we announced a month ago this newspaper was for sale at a price of \$20,000, which was below replacement cost. We had no takers. A group of Wheeler business men offered us \$17,500 which we finally agreed to accept. The parties withdrew their offer.

We have advertised the property for sale in leading dailies of Texas and Oklahoma and have had no inquiry—that from a man whose worth was less than \$5,000 and who had no experience whatever in newspaper work. We advised him against the purchase.

Scarcity of trained labor and mounting expenses have caused many publishers to quit the business; and few indeed are those looking for a new field, regardless of the price of the offering.

The situation we find ourselves in is no different from that of farmers, ranchers and retail business men. Our advertising rate has remained the same for several years while our operating costs have doubled. We are selling a manufactured product at less than the cost of materials and labor.

At the same time Wheeler business men, many of them faced with problems that are similar to ours, have had to cut down on their newspaper advertising even though it was being sold at less-than-cost prices. The expenses of operating grocery stores, department stores, and automobile agencies in Wheeler have also shot up; and profits have dropped, the same as in the newspaper business.

Wheeler merchants may now be spending as much for advertising as their present potential business justifies, we do not know. We do know that during the past two years most of them have been paying several dollars a month dues to the Chamber of Commerce, an expense they did not previously have. They have been paying several more dollars a month in a "Kitty" in the "Silver Dollars" give-away program, another expense they did not have several years ago.

All of this expense is charged up as "advertising." This several hundred dollars per month expenditures helps explain why advertising revenue of The Wheeler Times has dropped \$400 per month in the past year. The Wheeler Times itself pays \$13 per month into these two projects, and we are not saying it is a waste of money. We are raising the question can local firms afford to buy newspaper advertising and continue to pay out large sums for other forms of advertising.

The monthly "Dollar Days" are another problem with The Times. At the time the "citywide" merchandising program was started, this newspaper quoted participating merchants an advertising rate that was based on 4 solid pages of advertising in each monthly circular. After 18 months the number of participating firms has dwindled to the point there is now slightly more than two pages, instead of four, and the newspaper absorbs the loss.

A few firms insist the "Dollar Day" promotion be continued, while several others say they cannot afford to participate longer.

The owners of The Times have endeavored to publish a newspaper that was conscientiously dedicated to the development of Wheeler and the North part of the county. We have tried to promote the area as a desirable place in which to live and trade. We love the people of this community. The people are warm and cooperative, understanding and progressive. We do not believe there is a better community its size in the whole world. We take pride in being a part of Wheeler.

But we must be frank. We want you to know our position. We know you want a newspaper and that you would prefer that it be 100 per cent home-owned. We would be just like you. A community without a newspaper seldom grows and prospers, but the cold fact is that many small communities have seen their newspaper wither on the vine, and die. There are situations where newspapers are not financially feasible. A tight labor market and rising costs of production have priced newspapers advertising out of the reach of many towns of Wheeler's size, regardless of how badly the rank and file of citizens wanted to keep their home paper.

We would suggest to Wheeler merchants and business men that whether Wheeler keeps its newspaper in its present form, might be the most important civic question this community faces at this time. The owners of The Times do not pretend to know the answer. We are thinking of several angles which we plan to discuss with advertisers and customers in private within the next few days. We want to get their angles, and that is the purpose of this editorial. It is possible somebody will come up with the right answer.

Any way we want the public to know the true facts and want you to feel free to make any suggestions you think might be helpful.

Mobile Chest X-Ray Unit Here Nov. 1-3

Wheeler county's annual free chest X-ray program will get underway next Tuesday, November 1, when a mobile unit of the Texas State Health Department sets up in Mobeetie at 1 p.m.

The X-ray unit will operate in Mobeetie from 1 until 6 p.m., Tuesday only, moving to Wheeler Wednesday.

Wheeler residents, 15 years of age and older, will be given chest X-rays between 1 and 6 p.m. Wednesday, November 2, and from 9 a.m. until 1 p.m. Thursday, November 3. The unit will be placed in the Wheeler high school gym.

Hoping to set a new record in number of Wheeler county residents X-rayed, sponsoring organizations pointed out that purpose of the annual clinic is to discover every possible case of tuberculosis in the county. And a person who shows no trace of the

disease may have become one the following year, they are explaining why the clinics are conducted each year.

MANAGER REQUESTS ARRANGE FOR THESE EMPLOYEES TO HAVE CHEST X-RAYS

Owners of businesses in the Wheeler and Mobeetie areas are urged to work with the health department making it possible for every person 15 years of age and older to participate in the X-ray clinic which will be in Mobeetie on Tuesday afternoon and in Wheeler Wednesday afternoon and Thursday morning.

All employers should take it upon themselves to see that everyone in his place of business has an opportunity to drop by the unit conveniently located in the High School Gym, in Wheeler.

School Carnival Be Held Monday Nite

The Parent-Teachers Association has completed the plans for the School Carnival and Dinner to be held Halloween night according to a statement made by Mrs. Earl Barnes, Chairman, early this week.

The Pre-Carnival Royalty Contest got underway October 11 as an annual activity which is creating much interest among the different grades throughout the school. Grades 1 to 3 have nominated candidates for the title of Crown Bearers. Nominees for these grades are:

Mrs. Farmer's room — Elizabeth Hubble and Villard Hunter.
Mrs. Weems room — Jane Thomson and Dale Smith.
Mrs. Hubble's room — Linda Weems and Terry Courtwright.
Mrs. Liston's room — Vickie Walker and James Moore. This contest will be closed at 11:30 noon, Carnival day.

Contenders from grades 4 to 7 for the Prince and Princess title are:

Virgil Jamison Shamrock Speaker

The Scout Commissioner Virgil Jamison of Wheeler was the principal speaker at a meeting of boys and parents held in Clark Auditorium at Shamrock on Tuesday night of last week. As result of Jamison's inspiring talk, organization of a Cub Pack was formed with four den prospects of one or two more.

Jamison is regarded as a top speaker and worker in Boy Scout circles in the Adobe Walls area. Besides his work with the Wheeler Boy Scout Units, he is a member of the executive committee of the Adobe Walls Area Council which embraces the entire Panhandle.

SCHOOL TO HOLD CARNIVAL FRI. BRISCOE GYM.

The Briscoe School will have its Halloween Carnival Friday night, October 28th in the School Gym under the Sponsorship of the P-TA. The Carnival will open at 7 p.m. and run until 10 p.m. at that time the booths will close for the crowning of the Carnival Queen.

There will be a food sale of pies, sandwiches, hot dogs, coffee, and pop in the school cafeteria and there will be fun booths such as: Dart throw, Ball Toss, Fish Pond, 42 tables, Cake and Pie walks and many other fun games in the Gym. Prizes will be given in all booths.

REDDY'S Farm Report

FROM THE AGRICULTURAL DEVELOPMENT DEPARTMENT
SOUTHWESTERN PUBLIC SERVICE COMPANY

Inexpensive lamp kit, put together at home, looks good and gives
plenty of proper light for reading, sewing, studying and other close
tasks.

Getting the correct lighting for
reading, sewing or studying is easy
with an attractive lamp kit which
you can assemble at home and to
suit your decorative tastes.

Many 4-H's have found fun in
the project, and only recently Mrs.
Harriet Brummett, County Home
Demonstration Agent in Floyd
County, Texas, assembled one of
the kits in less than one afternoon.
"My husband thinks it is the best
reading lamp in the house," says
the proud Mrs. Brummett, who adds,
"the amazing part about this qual-
ity lamp is the low cost. The kit and
the approved R-40 bulb cost only
about \$4.00."

Your Home Demonstration Club,
4-H Club or other groups can set up
a craft lamp-building project with
the help of your County Extension
Agent. It's not only fun, but the kits
come in a variety of colors permit-
ting the homemaker to choose lamps
which harmonize with the motif of
the home. The Floyd County Home
Demonstration Clubs are already
planning similar craft lamp projects
for this winter.

Important is the fact that al-
though the lamp is extremely at-
tractive, it still entails the design

of good lighting. Good lamp light-
ing requirements call for a shade
that is open at the top for upward
reflection of light, sloping sides
which direct a soft but adequate
flow of light downward on the sub-
ject matter being seen. The shade
may be opaque and lined in white
for maximum light output, or trans-
lucent and light in color.

For proper "seeability" a lamp is
actually only as good as the bulb
used. In this lamp recommended
usage calls for a 150 watt, 150 R/W
white indirect, bulb. This inside
white bulb acts as its own diffusing
reflector thus eliminating the use
of a glass bowl for that purpose.

Again, the lamp is tall enough to
cover a wide working area, and its
base is large enough to prevent tip-
ping.

Every home needs several good
reading lamps, and here is your op-
portunity to have as many good
reading lamps as you need at a cost
you can well afford. With the school
season in full swing, good lamps
are an investment in good eyesight.
Lamps can be replaced as styles
change, but eyes are non-replace-
able and should be given the proper
light to see by.

side. Another group, well in evi-
dence, takes the view that Ameri-
cans have no goal in life, other
than to get as many dollars to-
gether as possible. This group feels
this applies to all Americans and
that, therefore, the United States
does not know how to enjoy life
just for the sake of living. There

is, of course, the very substantial
group who feels most friendly to-
ward Americans and so obviously
shows it. Some look with great
suspicion on any foreigner from
across the sea, but by and large,
this is a marked minority.

The Scandinavian countries all
enjoy a very high standard of

living, with Sweden holding top
rank. There are more automobiles
and other luxury items that are
not so much in evidence in the
other countries. The rural areas
appear in excellent shape. Mostly
small farms. Many women are
seen working in the fields. One
Swedish woman says this explains
why the farms are so well kept
and in such excellent condition.
Both animals and machinery are
used. The horses are huge draft
animals. The Swedes love their
animals and take good care of
them.

Only the other day, while en-
route to a conference at the
Swedish Shale Oil Company Plant,
I saw an old woman driving a
large horse to a small wheeled
wagon. Traffic had gotten congest-
ed and someone behind the old
woman blew a horn. This frighten-
ed the horse and made him skit-
tish. A bus driver pulled his large
bus to a stop, blocking traffic in
all directions, got off the bus,
went up to the horse and placed
his hand on his bridle, patting the

horse with the other hand. This
reassured and quieted the horse
and created a most grateful look
on the face of the old woman. The
driver said something to the horn-
blower in Swedish. I couldn't
understand it, but I venture to
say that the hornblower thinks
twice before he scares another
horse.

I mentioned that we were en-
route to the Shale Oil Company
Plant for a conference. Sweden
has no production of oil or gas
other than that produced from
shale or rock. This process was in
an experimental stage when Ger-
many invaded and occupied Nor-
way and cut off Sweden from any
possible oil imports. The Swedish
government immediately ordered
the building of the actual plant,
although the research was far
from finished. The plant was built
and sufficient oil was produced
from this rock shale formation to
answer emergency needs during
the war.

The end of the war brought ex-
pansion of this plant and the pro-
duction of many by-products. The

operation has been subsidized, but
the management tells me that pres-
ent figures indicate its subsidy-
free operation within the near
future. It might be pointed out
that the oil content of this shale
is only 6 per cent. The United
States has a pilot plant in Colo-
rado engaged in the same type of
operation. But the oil content of
our shale is many times that of
the Swedish shale. The entire
operation here has been the source
of much helpful information in the
development of the process and
more is being contributed each day.
Its development under the circum-
stances left little doubt as to the
resourcefulness of the Swede and
his self-sufficiency in a tight. They
are a proud people, and rightfully
so.

Finland is the most surprising of
all the Scandinavian countries. An
industrial exhibit, equal to anything
any of us have ever seen, was in
progress, and we were escorted
through and had many surprises
on the way. These people manu-
facture everything from telephones
to textiles. They are great boat
builders, especially icebreakers.
They have about everything you
can imagine except television.

INFORMATION FOR VETERANS

Q I am a disabled World War II veteran, and I have just come home after several years in a VA hospital. I want to take Public Law 16 training, but I understand I will have to complete it by July, 1956, less than a year from now. Could an exception be made in my case, since I wasn't able to begin training before this time?

A You possibly could have until July, 1956, to complete your training. The law allows disabled veterans an additional four years, if they were not able to start on time because of their disabilities. Since VA decides each case individually, you should get in touch with your nearest VA office to

learn whether the extra time applies to you.

Q I have just been discharged from service, and I intend to apply to VA for disability compensation. Will I be required to take a VA physical examination?

A Not necessarily. If you file a claim within six months from the date of your separation, it may be rated initially based on the records of the service department, unless it appears that an error might result from such a rating.

Q I am a disabled Korea veteran. What is my deadline for applying for the special GI insurance available to disabled Korea veterans?

A You must apply and pay your first premium within one year from the date that VA has determined your disability to be service-connected.

Q Are VA's special "wheelchair housing" grants available only to disabled World War II and Korea veterans?

A No. Veterans of all wars, as well as those with peacetime service only, may qualify, so long as they meet the eligibility requirements of the law.

Scout Camporee Huge Success

Frank Walker this week announced that the Advancement Camporee held at Camp Ki-O-Wah last week was a highlight in the lives of the boys attending.

Someone got the place wrong and no other troop showed at Ki-O-Wah but the local boys stayed and thoroughly enjoyed the activities. Studies were conducted on merit badge and rank advancements.

David Kiker helped take the boys to camp and return them home. Milton Finsterwald stayed with the boys on Friday night and Frank D. Walker, assistant Scoutmaster lead the training session.

Boys in attendance were: Chas. Davidson, Lynden Lee, David Strawbridge, Bruce Taylor, Kenneth Burks, Leonard Kiker, Larry Strawbridge and Frank Walker, Jr.

TWO LOCAL MEN GIVEN AWARDS

Two Wheeler area employees of the Southwestern Public Service Company will be honored tomorrow night (Friday) at the Parhandle Division's seventh annual service awards dinner.

Paul Green of Wheeler will receive a 15 year award, while recognition for 10 years service will go to Odeil Upchurch of Mobee. T. W. Gilstrap will present awards to 79 employees for period of service ranging from 5 to 30 years.

Bert Huffman, manager of the Albuquerque Chamber of Commerce, and former football coach in this region, will make the principal address of the evening.

DUCK SEASON TO OPEN NOV. 2

The duck season opens in Wheeler county next Wednesday, November 2 and lasts through January 15, Game Warden G. P. Davis has announced. Coots are included in the same regulations as ducks, he said.

Shooting hours are one-half hour before sunrise to sunset and the big limit is 5 ducks, including not over one wood duck and one merganser. Possession the first day is one day's limit taken that day, and possession the remainder of the season is not more than 10 ducks of all kinds, including not over one wood and one hooded merganser.

The goose season in Wheeler county is from November 17 through January 15, the same as duck. The daily bag of geese and Bryant is five with not more than two Canadian geese or sub species, or more than two whitefronted geese, or more than one of each. Possession limit is one day's kill.

A. C. Alton Seitz returned to Abilene Air Base Sunday after spending a four day pass with his wife, Edith, and other relatives and friends in Wheeler and Mobee.

Mr. and Mrs. Thurman Rives, Ronald and Donald returned Saturday from a vacation trip to points in New Mexico and Colorado.

George S. Gandy attended a business meeting in Lubbock the first part of the week.

SILVER \$ DAY CROWD LARGE

Ed Gilmer of Wheeler, won the first award for \$25.00.

Mrs. Taylor Patterson, Wheeler, won the second award for \$12.50. E. E. Wilsford of Wheeler, won the third award for \$7.50.

C of C Notes

By DICK GUYNES, Sec.

The next monthly meeting, and luncheon of the Wheeler Chamber of Commerce will be Tuesday November 8th. won't you make a special attempt to attend as this is your service club, and we need your support in every way. It don't take much of your time once a month to come out and eat a good meal, and fraternize with your neighbors. You might have some ideas, and suggestions that would be of vital interest to the community, and you are always welcome to express your sentiments on any subject that would be of value to the community. This is the only way in which we can get across section of opinion on what is best for the general welfare.

The Chamber of Commerce is a non-profit, unselfish organization that will do for you, that which you cannot do for yourself. All that is required of you is a little of your time, a little of your money, and a lot of ideas, and boosting on your part. The few men in any community that take the interest of their community too heart, and assume the responsibility of working and planning for better economic, christian, educational, and social reforms should be commended for their efforts, and be encouraged in every way. Good attendance at all meetings will assume them that their labors in trying to make a better community are appreciated.

The program for the next meeting will be announced next week. Conservation Note: Let's don't permit cotton bolls go to waste, they are too valuable as the best of soil building elements.

You wouldn't take a Million Dollars for this Picture!

It's the X-ray picture that proves you're free from tuberculosis.

It's a picture that brings you peace of mind... the comfort and security that come from knowing an inside story of your health.

And if you should be one of those who have active tuberculosis without knowing it, your chest X-ray will probably detect it in its early

stages and point the way to prompt, effective treatment.

Remember—if proper treatment is started in the early stages of TB, the cure is comparatively easy. The longer TB goes undetected, the longer and costlier the cure.

Protect yourself—protect your family—by having your chest X-rayed today.

All persons age 15 years and over are urged to take advantage of this FREE X-Ray Service, the Commissioners Court stated.

The ? Mark

How is it with you today? Is the fog too heavy for you to find your way to church? Does Saturday's dissipation bear too heavily for you to dare try worshipping God on Sunday? Have clouds obscured from your eyes the light of the cross? Do you shun all responsibility of citizenship in building a better community, a better church, a better world? *How big is the question mark before your eyes?* There is a way that seemeth right to a man but the ways thereof are the ways of death. If you have no concern for truth and honor... if your end is gain at the expense of your fellowman... if your horizon is the patch of woods a few feet before you... then your contribution to mankind and God is questionable, and if all men were like you, the millennium might never come. We are charged with being our brother's keeper, building churches, and bringing in His Kingdom. *God will reward every man according to his stewardship while here.* Why not clear up the question? See the cross caught in the focus of the great lights. It beckons you and me. And make no mistake, *we'll reap just what we sow.* Don't fail your church. Don't fail God. Don't fail yourself... attend church regularly.

**YOU IN THE CHURCH
THE CHURCH IN YOU**

Character is the product of the church. It is here that young and old alike are schooled with benedictions, prayers, scriptures, and sermons for a better citizenship and a lasting religion. Character determines today's destiny. The officers of state in these perilous times. Then we on Sunday. You in the Church and the Church in you form a combination far good as a regular CHURCH. STUDENTS SHOWN FOR GUIDE

Some time-worn cause were connected with non-fatal accidents already reported. A sixteen-year-old boy picked up a loaded cocked gun by the barrel and it was discharged striking him in the chest. A twenty-year-old lad was shot in the legs when a companion fell down crossing a ditch and discharged his shotgun.

"It's pretty rough," said the Executive Secretary, "and the thirteen gun fatalities to date this hunting season compares with only seventeen fatalities reported all last year. But hunting is the oldest custom and certainly is here to stay."

"But it does seem that we are asking too much when we send more unescorted youngsters out with their own crowd with assorted firearms and expect them to observe safety precautions which simply are beyond their own capacity."

The toll calls for the cooperation of all parents and interested persons in training youngsters to safely use firearms.

"With four children, you want to heat water the SAFE WAY... of course, it's Electric!"

says Mrs. Roy N. Byrd, Jr.
1209 20th STREET,
CANYON, TEXAS

"When Roy and I picked a water heater for our new Canyon home, the safety of our four children was the first consideration. We had two electric water heaters at our farm, so we knew that we could be safely sure with an electric water heater in our new city home."

"I was really surprised when one new 40 gallon electric water heater proved to be enough in our new home—especially after having two. But, we've never run out."

"My clothes washer works every day—at least once—and yet the water heater keeps up with it and the dishwasher, too, which I use at least two times every day."

"Then, at the sink, I'm always using hot water for cooking, to prepare food for the freezer, or to wash out things for the children. There's always enough."

"Four children can produce a lot of dirty hands—and keep the baths busy. We have a shower and a tub so that we can clean them up in shifts—and that takes lots of hot water."

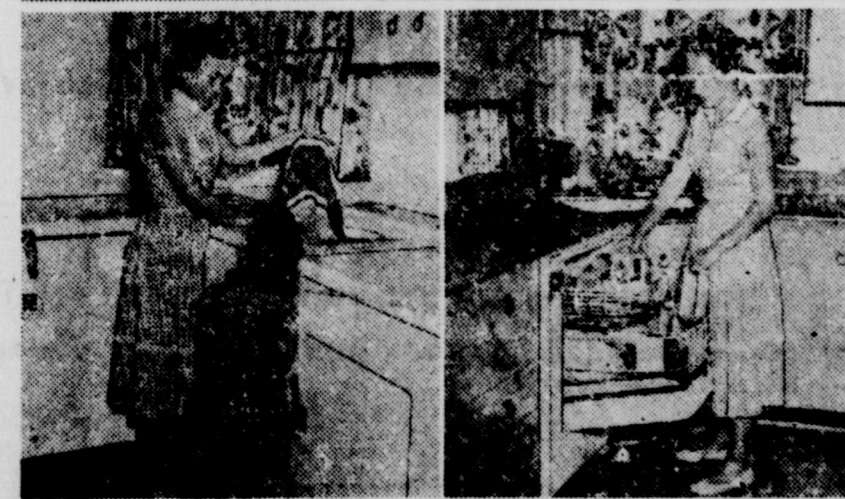

"My electric water heater gives me plenty of hot water, an extra counter space, and a feeling of complete safety about my children. It goes perfectly with the other work-saving electric appliances in my home."

All physicians highly recommend the service.

Early detection of tuberculosis may save the victim's life; hence the goal of this year's program is to X-ray every possible person over 15 years of age. The X-ray requires only a few minutes and no disrobing is necessary. Chest pictures are taken and reports are mailed to all persons X-rayed by

the state health department within a few days.

The Lions club and the American Legion are sponsoring the clinic at Mobeetie, and the Kiwanis club is the Wheeler sponsor. The Boosters club acts as sponsors at Shamrock, the dates for which are November 4 and 5.

In Mobeetie free transportation may be arranged by contacting Boyd Beck, Boss Lion, or Jim Hathaway, commander of the Legion.

In Wheeler transportation is available if any one will dial 2121. Frank Wofford; 2551. Watson Burgess; 3141. Jesse J. Dyer; 4662. Geo. Gandy; 3551. Harry Wofford; 2221. C. J. Meek; 5651. Thurman Rives; 5011. The Times. Last year there were 360 persons X-rayed at Mobeetie, compared with 269 in 1953 and 201 in 1952. At Wheeler, 887 were X-rayed in 1954 and 63 in 1953.

"I'M VERY SORRY, MISS MURCHISON, BUT YOU DON'T HAVE TO UNDRESS TO GET A CHEST X-RAY"

It's so easy to get a chest X-ray. Just step up to the X-ray machine and—"Jack Robinson"—it's done!

A chest X-ray is a must to spot tuberculosis. That's why every man, woman and teen-ager should get a chest X-ray once a year—no matter how healthy he feels.

For TB is highly contagious. It strikes without warning. In its early stages it frequently shows no symptoms of any kind. But TB can't hide from the X-ray!

If you detect TB in its early stages, the cure is comparatively easy. But the longer the germs go undetected, the longer, harder, and more costly is the cure.

Protect yourself and your family—now!

Be sure your chest is O.K.—now!

Follow the new health rule and Check Your Chest at least once a year.

Get that wonderful "It's great to know you're healthy!" feeling—now! You'll be glad you did!
