

Gen. Clay Promises U.S. Will 'Keep 'em Flying'

NEW 'AIRLIFT' FIELD—A French guard of honor watches the first plane, an American Skyraider, land on Tegel airfield in Berlin during ceremonies marking the opening of the new "airlift" field.

Demos Plan 8 to 5 Committee Split

WASHINGTON (AP)—Democrats intend to lead top Senate committees with eight of their members to five Republicans in an effort to push President Truman's program through the new Congress.

A Democrat official who asked not to be quoted by name told a reporter he feels his party should make its new 54 to 42 Senate advantage count at critical spots.

Marshall to Meet Truman This Month

PARIS (AP)—The possibility of a halt in the East-West cold war brought a surge of Armistice Day hope to United Nations delegates today.

American delegation sources confirmed that Secretary of State George C. Marshall will meet President Truman in Washington later this month for a complete review of foreign policy.

While the survey would include all aspects of the current policy conflicts between the U.S. and Russia, the American delegation said it knew of no definite plan for a meeting of Mr. Truman and Soviet Prime Minister Stalin.

Dispatches from Moscow yesterday reported all newspapers carried stories of a possible meeting between the two chiefs of state. Most delegates here took the widespread publicity in Moscow to mean the Russians attached some importance to the possibility of a meeting.

At Key West, Fla., where Mr. Truman is vacationing, a White House spokesman said there are no plans of any kind for a Truman-Stalin meeting. The spokesman said the President has no intention of going to Moscow, but stands by his offer to confer with Stalin if the latter wishes to visit Washington.

The Moscow dispatches, interpreted by some delegates here as showing a new Russian willingness to attempt to settle the East-West conflicts, were just one move in the Soviet's fresh diplomatic pattern.

So far in the American delegation even interpreted recent Russian Bloc attacks on John Foster Dulles, Republican foreign policy expert, as preparation for a "peace offensive." These sources said the slurs on Dulles may be intended to show the Slav peoples that a settlement with the U.S. is possible now that the "warmongers" have been kept from office in the U.S.

Barbecue for Ropers Tonight

Directors of the Pampa Roping Club will serve as waiters to tonight at the club's free barbecue banquet for its members, wives and children at 7 p.m. in Recreation Park.

The barbecue will be done up by Frank Lord, of the Roping Club, and music for the old time dance following the dinner will be furnished by Jeff Guthrie.

All members and their wives were asked to wear Western clothes for the affair.

Today

31st Day of the Year

Peter Dostoevsky, the Russian author of the famed "Crime and Punishment," was born on this day, in 1821. . . on this day, in 1909, Pearl Harbor was selected as the U. S. Naval base for the attack on Pearl Harbor. . . today is a universal democratic holiday, dating from the cease-fire of WW. I. . . Actually, the armistice was signed Nov. 10, 1918 in Marshal Foch's hall at Compiègne, France. . . today we also celebrate Indian Summer, the day that follows the first frost, which according to legend is a mellow time that followed St. Martin's good deed of dividing his cloak with a beggar. . . a verse from the Bible for today: "But be not carnally minded; be death; but to be spiritually minded is life and peace."—Rom. 8:6.

WEST TEXAS: Partly cloudy this afternoon, tonight and Friday. A little warmer this afternoon.

Reds Threaten to Force Down Planes

BERLIN (AP)—American and British planes flew the supply route to Berlin today in the face of a Russian threat to force down planes straying from the 20-mile wide air corridors to the former German capital.

The American answer to the Russians' threat, made last night, was a terse promise from Gen. Lucius D. Clay, American military governor, that "we will keep them flying."

Both British and U.S. authorities said publicly the Russians would be held responsible for any action they take.

The Russians, citing a long list of alleged violation of their territory, also said they would force down "all aircraft without identification marks of nationality" flying over the Soviet Zones, including the three air corridors. The second threat presumably refers to non-military planes, which do not carry nationality marks. The Russians have complained of commercial flights in the Berlin air corridors.

Some official sources tended to discount the Soviet note as another move in the "war of nerves." The Russians posted another warning at the Berlin Air Safety Center that they will hold three hours of air-to-air (probably plane to target) firing practice today over a field in the British Euckenburg air corridor. At other points in the corridors, they said, they will hold "local flying maneuvers."

Although both Britain and the U. S. have said in the past they would use fighter escorts if necessary to keep the airlift going, American pilots said they had standing orders to obey any Soviet fighter plane seeking to force them to land.

A senior American air officer who declined to be quoted by name said: "If this is a Russian bluff and it looks like one—we called it. Now it remains to be seen how far they intend to go."

Another group of Allied officials took a more serious view of the Russian threat. They pointed out that the three air corridors against the airlift had been made in the Soviet press but the Russians had not heretofore committed themselves in official notes.

The three air corridors between Berlin and Western Germany were established by four-power agreement. They are approximately 20 miles wide each. In addition there is an international air band around Berlin 20-miles wide.

The Russians have tried to alter the corridor agreement and recently claimed no such agreement existed. The Western powers have rebuffed the Soviet moves.

Dr. Douglas Nelson, pastor of First Presbyterian Church, compared the sights he saw in Scotland on Nov. 11, 16 years ago and the Munich street scenes of Hitler's first conscription a few days later, in an Armistice Day talk at the weekly meeting of the Pampa Rotary Club.

The people of the British Isles, he said, call Nov. 11 "Remembrance Day" instead of Armistice Day and red poppies are sold by the blind, maimed and crippled veterans. At one park, the minister of the Scotch Watch with the names of famous Scottish regiments. Including The Gordon Highlanders, The Seaforth Highlanders, The Black Watch and many others. As people go into the park they purchase a small cross and place it at the foot of the regimental cross in remembrance of some soldier dead of that regiment. Dr. Nelson, a classmate, on that day, placed a cross in memory of John Poe, son of Edgar Allen Poe, who dropped with the Scotch Watch during the battle of the Somme in World War 1. Poe was a graduate of Princeton University, where Dr. Nelson also graduated.

This, he compared with the scenes of wild hysteria among the German youth during the Munich in their new German Army uniforms on the day of Hitler's first conscription a short time later. He said it made him wonder how any group of people could think about going through another such war.

The aftermath of the Munich scene, he added, was World War 1 that lasted six years and one day; cost a total of 15,000,000 soldiers and sailor dead; another 6,000,000 disabled men; 10,000,000 civilian deaths; and 25,000,000 displaced persons.

He asked everyone in hearing of his voice to spend "just a little more than two minutes remembering" today at 11 a. m. It was announced that Ladies Night will be held on Nov. 22 and will be informal with the men wearing brogans, and overalls while the women come in gingham dresses and aprons. Other announcements included the invitation to attend the annual banquet of the Adobe Walls Council, Boy Scouts of America, to be held in Borger on Nov. 22 when Dr. Albert K. Fretwell, president of the National Boy Scout Council, will speak. Tentative plans for sending food to Europe under a guaranteed supply delivery plan were discussed by President Steve Matthews. Matthews also announced that a district conference attendance contest with Borger for the meeting in Plainview on May 4, 8, and 9 had been set, the losing having the ham and eggs after the governor's ball.

Then Columbia pulled its own coup.

The trade was started by the news that Amos 'n' Andy, who had graced NBC since the crystal set days, were going over to CBS. The complicated deal was a lawyer's delight, but roughly it goes like this:

Amos 'n' Andy incorporated themselves, then sold their entire rights to the Harlan characters to CBS. A. J. A. will receive a reported \$2,000,000 over five years, plus a weekly salary, plus a share of profits. The sale is reported to the Treasury Department as capital gains, taxable at 25 percent, instead of the sliding income tax scale.

Many another tax-weary radio star eyed the deal with envy. CBS let it be known that it was gunning for the popular Amos 'n' Andy, Bergen Sunday air team, and was romancing with top stars on other evenings.

The threat rushed NBC President Niles Trammell to Hollywood to help keep the network's stars in the stable. Armed with millions, CBS is aiming to end the older network's position as "Mr. Big" of radio.

Radio Networks in Talent Battle; Jack Benny Show Is Main Objective

HOLLYWOOD (AP)—The war of the networks broke into the open today with the Jack Benny Show as the main battleground. Both NBC and CBS are dangling million-dollar offers before the "lightwad" comic. Daily Variety reported NBC the winner with an estimated lure of \$4,000,000. Benny's lawyer denies a deal has yet been made.

Meanwhile, CBS is bringing up reinforcements. Bossman William Paley arrives in town today. This is no cold war. It has been waged hot and heavy over cocktails in Hollywood's huckster havens.

It started a year ago when NBC dealt a heavy blow by luring away such CBS stalwarts as Jimmy Durante, Ozzie and Harriet, Take It or Leave It and the Hit Parade.

Bereft of all but one topnotch show (Radio Theater), CBS tried to develop its own new ones. With one exception (My Friend Irma), the efforts failed. Then Columbia pulled its own coup.

The trade was started by the news that Amos 'n' Andy, who had graced NBC since the crystal set days, were going over to CBS. The complicated deal was a lawyer's delight, but roughly it goes like this:

Pampa News

VOL. 47—NO. 154 (18 Pages) PAMPA, TEXAS, THURSDAY, NOVEMBER 11, 1948 Sundays 10 Cents Weekdays 5 Cents AP Leased Wire

Taft-Hartley Administrator Says He'll Follow 'Business as Usual'

WASHINGTON (AP)—Despite the administration's pledge to seek repeal of the Taft-Hartley labor law, its chief agent, Robert N. Denham, intends to follow a "business-as-usual" policy.

Denham said in an interview today he will keep on administering the Republican-sponsored labor law "as if nothing had happened," so long as it is on the books.

He has some ideas of his own for changing it, but "nobody has asked me for any so far."

A number of labor leaders have suggested privately since President Truman's upset election victory that Denham either should resign or be ousted in a revision of the law's terms.

But to questions about his future, the 63-year old general counsel of the National Labor Relations Board responded:

"I am still general counsel and I will be until the law is changed. 'Nobody has asked me for my resignation yet,' he laughed.

As general counsel at a \$12,000 annual salary, Denham has a four-year term dating July, 1947.

One-time Texas cowhand with a colorful career, Denham was an NLRB trial examiner when Mr. Truman appointed him general counsel after Congress enacted the Taft-Hartley law over the presidential veto.

The new labor law built up the general counsel's position to one that labor unions have said made Denham a virtual "labor czar."

Whereas the NLRB under the Wagner Act has been prosecutor, judge and jury over labor cases, it became simply a deciding court under the Taft-Hartley law. Full power over prosecutions was given to the general counsel's office.

Denham, a Republican, quickly stirred the wrath of labor unions by his rigid enforcement of the new law.

Denham has been tough with management as well as labor in administering the law. He quickly sought, and got, an injunction against the General Motors Corporation when it changed its insurance provisions for employees without consulting their union.

Scouts Will Meet Leader

All Cub and Boy Scouts in Pampa have been invited to be at the Santa Fe station at 7:45 a. m. Monday, Nov. 22 to greet Dr. Albert K. Fretwell, Chief Scout of the Boy Scouts of America.

Knox Kinard, superintendent of schools, said Scouts in uniform will be excused if tardy to school. The night at the camp and Troop 80, led by Claudie Gallman and sponsored by the First Methodist Church, will set up a one-day campsite Sunday afternoon preceding Dr. Fretwell's Monday morning arrival. The Scouts will spend the night at the camp and serve breakfast to the Chief Scout. The campsite will be on hand to greet Dr. Fretwell, posed of eight tents, troop, American and patrol flags.

"The public is invited to inspect the camp," Paul Beiseherz, Scoutmaster of the Adobe Walls Area Council, said.

Harold W. Lewman, regional Scout executive of Region 9 will arrive from Dallas at 7 a. m. to be here to greet the Chief Scout. The two men will speak at the 20th annual Adobe Walls Area Council banquet in Borger Monday night.

A public address system will be set up at the depot so Dr. Fretwell can greet the Scouts.

Meade Bakery Buys Warehouse

The Meade Baking Co. Amarillo, today were winding up negotiations with the J. Wade Duncan Real Estate Co. here for the purchase of a warehouse in Pampa located on S. Barnes, below Five Points.

Duncan told The News the company intends to remodel the building and use it for storage of merchandise and housing for trucks during the winter months. Amount of the transaction was not disclosed.

Peddler Pays Man For Friendly Word

LOS ANGELES (AP)—Robert Pettey, 35, is wearing a \$1,000 smile today.

It's all because he had the smile and a friendly word for an elderly shoeing and pencil peddler during the past two and a half years, his friends say.

The peddler carried some war bonds yesterday and presented the astonished Pettey, a parking lot attendant, with \$1,000 in cash. Pettey doesn't even know his benefactor's name.

Mother of Pampa Succumbs in Dallas

Word was received last night from Mr. and Mrs. B. M. Behrman, who were attending market in Ft. Worth, that Mrs. Behrman's mother, Mrs. Jenny Winer of Dallas, died yesterday.

Mr. and Mrs. Behrman went to Dallas, but the details of the death are not yet known.

For printing see Rusty Ward, Texas Printing Co., 313 N. Ballou.

INDICTED—Miss Helen Campbell, above, has been indicted by a grand jury with Representative J. Parnell Thomas on charges of conspiracy to defraud the government by taking salary "kickbacks" from Thomas' Congressional employees. She formerly was secretary to Thomas, a Republican from New Jersey.

Greatest Battle in Chinese History Is Raging Today

NANKING (AP)—The greatest battle in Chinese history—involving more than 1,000,000 men by government estimate—raged north of the Yangtze today with Communist troops having a slight numerical advantage.

Government spokesman Lt. Gen. Teng Wen-Yi said the battle was joined along the Suchow defense line which guards the road to the national capital.

Teng said government troops outflanked the Reds during the opening phases of the giant battle but that they had made successive withdrawals to "shorten their lines."

He said Reds under General Chen Yi, Liu Po-Cheng and Chen Keng already were throwing all available manpower into the fight, on which hinges the fate of North China.

The government, too, was bringing up reinforcements, Teng said, with some troops from along the Peiping-Hankow railroad line already moving into battle.

Teng said the Reds had hurled 21 armies numbering 500,000 men into the battle.

(Communist broadcasts heard in San Francisco by the Associated Press said the Reds have bottled up 350,000 government troops in the Suchow area.)

The government spokesman said the Communists had already suffered 30,000 casualties around Suchow. He said that was more than three times the number suffered by government troops.

Government warplanes of all descriptions from Nanking were hurled into the battle, described by Teng as larger and more bitter than any fought during the Sino-Japanese War.

In Nanking and Shanghai martial law restored order after riots had disrupted both cities yesterday.

Food shops reopened in Nanking. Residents calmed down from yesterday's hysteria. But in Shanghai many jammed railroad stations trying to get out of the city to safety in the country.

Local Jaycees to Pick 'Key Man'

Next Tuesday the Pampa Junior Chamber of Commerce will vote on its "Key Man," it was decided at this week's luncheon meeting.

The "Key Man" of the organization is the one who, in the opinion of the members, has contributed most toward the betterment of Pampa through the Jaycees during the past year.

During this coming week, a nominating committee will be appointed to pick nominations for the posts on the club's board of directors. An election will be held on the first Tuesday in December to elect seven directors and five alternate directors to the board.

Schneider Hotel Has Minor Blaze

Firemen were called out the back door of the fire station at 9:20 a. m. today to extinguish a minor fire in the lobby of the Schneider Hotel.

Fire Chief Ernest Winborne said the fire was probably started from a cigarette. The room in which the fire started was a room with miscellaneous items in it.

TROOPS ON HOLIDAY

TOKYO (AP)—Armistice Day passed quietly today with American occupation troops taking a holiday. There was no speech making and no parade.

Girls Hold Observance

Girl Scout Troop 28, led by Mrs. O. L. Statton and assisted by Mrs. Dick Peplin, spent yesterday afternoon commemorating World War I and II dead.

The regular bed of ground between Terrace and Duncan was dedicated to the war dead after the Girl Scouts planted poppies and blue and white iris in the tract of land. The Scouts sang "Golden Light" and "God Bless America" as one of the girls read the dedication.

Following the dedication ceremonies, the Scouts went to the cemetery to place flags on the graves of servicemen. After giving the flag salute and Girl Scout pledge, the 18 girls from Troop 28 visited the grave of Kenneth Folsom, Merle Folsom, who was interned Tuesday, Kenneth Folsom, son of Mr. and Mrs. E. J. Folsom, was killed in action in Holland.

Grade Schools Plan Open House

Open house and a social at each of three grade schools and at Junior High School will be held tonight prior to a program at the Junior High Auditorium. It is Father's Night—being conducted by P-TA organizations of Woodrow Wilson, Horace Mann and B. M. Baker Grade Schools, and Junior High School.

Held in connection with National Education Week, the individual event at each school will be a meal served to parents of children in the separate schools, and parents will have a chance to meet their children's teachers, it was said.

Guest speaker at the Junior High program, beginning at 8, will be Wes Izzard, Amarillo newspaperman. His subject will be "The Home—A Democratic Unit for World Peace."

Charles Back, 64, Dies at McLean

Charles Back of McLean died at St. Anthony's Hospital in Amarillo last night following a week's illness. The 64-year-old man was brother to Jack Back of Pampa.

Besides his brother, Jack, Mr. Back is survived by five brothers, Joe, Oklahoma; Vic, Johnny, Wm. and Bud, McLean; one sister, Mrs. Raymond Glass, McLean and six children.

Funeral arrangements are pending at the Womack Funeral Home in McLean.

Texas A&M Looking to Expanded Farm Program

WASHINGTON (AP) — Top officials of Texas Agricultural and Mechanical College expressed hope Wednesday that the turnover in control of Congress will mean an expanded farm program in their state next year.

Here, for the Association of Land Grant Colleges and Universities convention, the Texans are headed by A. M. Chalmers, G. B. Gilchrist.

Explaining to a reporter the overall operations of the college in administering such programs as the Texas Experiment Station and Extension Service, Gilchrist said:

"We now receive between \$2,000,000 and \$3,000,000 annually from the federal government under various appropriations."

"These programs carried out by land grant colleges are so popular with both major political parties that we don't ever suffer too much when there is a change in administration."

"However, we certainly don't expect to receive less next year than we did during the past two years when the Republicans controlled Congress."

Dr. J. P. Trotter, state extension service director, was quoted as saying that the money would be available, he said:

"Our total farm program passed a law authorizing annual appropriations for that extension services, which began to begin with \$2 million for the first year, increased to \$3 million the second year and go up to \$12 million for the third and each succeeding year."

"This year, the first time the full amount was due, Congress decided that \$12 million would be enough, so that is all we got. That's for all states."

"We anticipate that the 81st Congress convening Jan. 3 will appropriate the full \$12 million." He went further to express hope that this might even be increased to meet higher operating costs.

Texas' share of the full ap-

propriation would be \$825,000—or \$275,000 for each \$4 million. State and county governments also contribute to the extension service budget of \$3,500,000 annually.

As an example of rising costs, he said county agents formerly could be employed for \$2,400 yearly where it takes \$3,500 now to engage the same caliber man.

The extension service also wants to increase its program. Trotter said, cited as an example a request of wheat farmers in the Panhandle.

He said he has discussed with officials here the possibility of obtaining a wheat specialist, to work out of Amarillo, who would help growers in that part of the state produce a more uniform and higher quality grain. Such improved and uniform varieties are in greater demand by mills and would bring farmers more cash per acre, he said.

Others here from Texas A & M include:

President F. C. Bolton; Dean Charles N. Shephardson of the School of Agriculture; Dean P. B. Pearson of the Graduate School; and Dean H. W. Barlow of the Engineering School.

The visitors were guests of the local Texas A & M club at a capital luncheon Tuesday. Others present included Rep. Teague (D-Tex) and his secretary, Earl E. McHenry; Del Bentzel, Civil Aeronautics administrator; Maj. Gen. O. P. Weyland, assistant commander of the War College; Col. Guy Meloy, a former commander at A. and M. who now is at the War College; and Commissioner Thomas A. MacDonal, public roads administration.

Election of Truman OK'd By Russia

By DEWITT MCKENZIE

AP Editor at Large

Soviet Foreign Minister Molotov, in opening the Moscow conference on the "Cold War," announced that the Soviet government had decided to support the election of Truman as president of the United States. He declared the defeat of "Thompson E. Dewey" in the presidential election shows that the great majority of Americans are against a policy of aggression. Molotov declared right in thinking the great majority of Americans don't want war. But he is wrong in drawing this conclusion from Governor Dewey's defeat, since the latter persistently campaigned for peace.

Americans want peace, and the thing that grips us most is that the Communists expect to have it. Sure, we are arming; we are bolstering our fighting forces; we are helping non-Communist Europe get on its feet economically and militarily; and we are considering a military alliance with Canada and countries of Western Europe.

But all this is in the interest of defense. Were the Russians so much as to think we would sell two thousand bombers and let the Red government have them?

Yes, the American people want peace. I think they want peace. But the American people don't want a Communist government. The scores of millions of Americans are ruled by a small group of fanatics who dominate the government and the foreign policy of the United States.

Thus the problem is how to release the world from the fear of this minority dictatorship which has spread itself by strong arm methods in many countries. The way things look now the solution is to continue the erection of barriers of military preparedness and to hold the Red advance until the peoples already under its domination are able to deal with the menace in their own way.

There is nothing more certain than that the oppressed peoples will revolt against totalitarianism in due course.

Do You Really Want to Take Off That Ugly Fat?

Recently there has been a number of new reducing preparations on the market, some of them based on the diet and vitamin "plan." It is obvious that vitamins will not reduce the body weight, so one must depend on diet to reduce. But it is also obvious that one cannot go on a strenuous diet over a protracted period, and any weight lost will be restored if the former eating habits are gone back to.

So what to do? Well, here is a tip to you "overweight gal" who wants to fight "the Battle of the Bulges" in a different way. Ask any well stocked Texas druggist for four ounces of Barcinate. Mix with 12 ounces of grapefruit juice and take two tablespoonfuls twice a day.

This preparation contains nothing harmful and the makers agree to refund your money on the very first bottle if it does not show you the way to lose ugly fat and help regain slender, trim, graceful curves. Barcinate is low in cost and is not based on the diet and vitamin "plan." You need never know a hungry moment while reducing with Barcinate.

Texas Soil Erosion Problems Discussed

BROWNWOOD —UP. Soil erosion problems were discussed at the annual meeting of supervisors of Texas 150 conservation districts yesterday.

The supervisors are farmers who serve without pay on the governing boards of the soil conservation districts which embrace 80 percent of the state's land area.

One of the speakers was E. J. Kyle, former A. & M. dean and ambassador to Guatemala, who discussed some of the agricultural problems of Central America.

Also on the program was J. C.

DELIGHTFUL DESSERT FOR FROSTY AUTUMN APPETITES

You'll know why this cake is such a favorite when you taste how delicious it can be made with quick-dissolving Imperial Pure Cane Sugar. For best cake baking results always use pure cane, and for the finest in pure cane, insist on Imperial. Imperial is Pure Cane, Real Cane, and reaches you fresher because it's refined right here in Texas.

Autumn Flavor PECAN CAKE

1 cup butter 2 cups Imperial Pure Cane Sugar
3 cups sifted flour 1 teaspoon vanilla
1 egg yolk 1/2 cup milk 1 cup chopped pecans

Mix baking powder with 2 1/2 cups of flour and sift well. Add vanilla to milk. Cream butter until soft and light colored; add Imperial Sugar gradually and continue creaming to make a light, fluffy mixture. Beat egg yolk until thick and lemon colored and add to creamed mixture, beating vigorously. Add milk and dry ingredients. Add nuts to remaining one-fourth cup flour and beat into batter. Bake in three greased and floured layer cake pans in moderate oven (350° F.) for 30 minutes. Cool. Ice with frosting.

DEMAND IMPERIAL Pure Cane SUGAR AND GET WHAT YOU ASK FOR DEPT. C8

PROOF IS TRUTH

PERK with Armocel*

CUTS WASH TIME 1/2

...WASHES CLOTHES REALLY CLEAN!

Here's proof beyond question from 1,218 washing tests

PROOF

PERK SAVES WEAR ON CLOTHES, TOO

Scientific tests proved it. A 10 minute or even a 5-minute wash run with new Perk gets clothes really clean... cleaner than a 20 minute run with other types of soap. Saves wear and tear on clothes, too.

Put Perk to work on your family wash.

***ARMOCEL — the Double-Action Wash Perfector**

Only Perk contains Armocel, Armour's exclusive new ingredient that gives you: 1. **Magnet Action:** Perk with Armocel draws dirt out of clothes like a magnet, seals it in the water so dirt cannot settle back. Removes accumulated grime, prevents future grime. 2. **Sunshine Action:** Perk with Armocel gives clothes a new sunshine brilliance that reflects the radiant, sunny new whiteness and brightness in all of your wash.

PROOF TELLS YOU WHY PERK IS YOUR BEST BUY — for clothes — for dishes

Dykes of Washington, assistant chief of the U. S. Soil Conservation Service, Dykes, a native of Dallas, was stationed in Fort Worth and other Texas cities before going to Washington.

Kent Leavitt of Millbrook, N.Y., national president of the supervisors' association, also attended.

Early colonists brought herbs with them when they migrated from Europe.

Fort Bliss Has Been Restraining Hand On Lawlessness of Pioneer El Paso

FORT BLISS—Defiance of law and order in El Paso's smoke-filled gambling halls during the 1880's was enough to earn the riotous Rio Grande outpost the sordid sobriquet "Hell Paso." But there is no safe guess how reckless the gunmen's rendezvous might have been had it not been for neighboring military garrison at Fort Bliss.

El Paso's "Saloon Row" in those days was veritable testing ground for pistol-toters of frontier states. Killer who believed they could shoot first on the draw were attracted to the border town, intoxicated by the risks and morbidly confident in their own trigger technique.

Unknown outlaws whose real-life records parallel the legend attributed to "Billy the Kid" were legion. But it is a point of significance that "Billy" always kept 100

Sellman, taking no chances, sent a bullet crashing through Hardin's head.

Among the many occasions of violence was the Salt War which grew out of a dispute over ownership of nearby salt-bearing lands in late 1877. The Fort Bliss garrison had been temporarily withdrawn and bitterness finally engulfed the citizens of several towns. Tensions diminished with prompt return of the garrison in 1878.

In the early '80s, four constables serving under one mayor met violent deaths. Another mayor was kidnapped. Another city administration was besieged at City Hall by unsuccessful opponents who finally forced another election.

Fortunately, however, the military post was never again abandoned. Incidents of violence never again spread into major conflagrations, and under the stabilizing influence of Fort Bliss, the tumultuous little town finally came of

Prop Wash Is Peril to Jets

NEW YORK — The U. S. Air Force is warning its jet fighter pilots against prop wash, a potent defensive weapon of propeller-driven bombers, according to Aviation Week.

The magazine says that during simulated gunnery runs against a B-29 formation a Republic F-84 disintegrated when it encountered the B-29 prop wash.

"The pilot was killed on another similar exercise with Lockheed F-80s against B-29s," says the article. "One F-80 pilot was cocked over in a nearly vertical bank to the right as he made a pass at the bombers. When he hit the prop wash it flipped him over into a vertical bank to the

left and tore off his left wing tip tank and part of the wing. He was able to make an emergency landing in the damaged plane."

The article adds that observers who have sampled the tremendous prop wash of the B-36 six pusher props wonder if attacking jets could close to an accurate range in passes from the rear without serious trouble.

Planets or tiny planets were formed, according to one theory, by the explosion of a larger, primitive planet.

White Deer FHA Has Initiation

WHITE DEER — (Special) — Eleven members were initiated into the White Deer chapter of the Future Homemakers of America at a formal ceremony held Thursday evening in the home-making department of the high school.

Violet Thornburg, president of the chapter, was in charge of the initiation. Evelyn Kalka, vice president, presented the candidates for membership, and each one lighted a red or white candle as she stated one of the purposes of the F. H. A. Laraine Bednorz, secretary, read a letter received from the state president, Miss Thornburg, then gave each initiate a small red candle, which she lighted and held as all repeated the pledge.

After the ceremony, refreshments carrying out the club colors of red and white were served. Miss Thornburg presided at the punch bowl.

Present were: Initiates Clarice Schaeff, Virginia Little, Celia Thompson, Elouise Gentry, Frances Potter, Carol Taylor, Dorothy Cooper, Margaret Moran, Sue Cowart, Margaret Thornburg, and Mary Lee Bednorz; the sponsor, Miss Mary Green; old members Ann Scott, Evelyn Kalka, Laraine Bednorz, and Violet Thornburg; and special guests Mrs. Alma Thornburg, Mr. and Mrs. Leo Little, Miss Pauline Little, Mrs. H. T. Moran and Mrs. E. A. Kalka.

Teachers Group Discusses Bill

The Pampa Classroom Teachers Association held a business meeting Thursday evening at the Junior High School Auditorium.

Mrs. J. L. Spencer president, had charge of the meeting. Knox Kinard, superintendent of schools, met with the group to discuss the skeleton form of the Gilmer-Aiken Bill and how some of its provisions affect teachers and students locally.

The association will combine with the Gray-Roberts County Association for a dinner meeting at 7:30 p.m., Nov. 18, in the High School Cafeteria. After dinner speaker will be Dr. James B. Boren, president of Hardin College at Wichita Falls.

The third molar are called wisdom teeth because normally they are not cut until a person is between 18 and 25 years old.

In the 18th Century "pop" was British slang for "paw" or "hook."

Nearly 2,000 planetoids or tiny planets have been catalogued by astronomers.

Shamrock Woman Is Honored at Shower

SHAMROCK — (Special) — Mrs. Hester Dodson was honored at a pink and blue shower Monday at the home of Mrs. E. S. Lasater.

Co-hostesses were Mmes. John Hefley, J. D. Clay, Claude Foshee and Thomas Daugherty.

Azaleas, arranged in a blue bowl centered the lace-covered table in the dining room. The arrangement was flanked by two blue pitchers and the punch bowl placed at one end of the table.

Mmes. Hefley, Clay and Foshee, poured alternately.

Guests were registered by Miss Olea Carver.

Plate favors were miniature storks and nut cups emphasizing the pink and blue color scheme.

Sandra Burden and Frederick Abbott entertained the group with readings, piano and accordion selections.

One hundred and thirteen guests called during the receiving hours.

Shirts should be fastened to the neckline by the tail, since wear at this point will show up least.

2 Pampans Plan To Enter Borger Antique Show

Two Pampa women will have exhibits in the second annual hobby and antique show sponsored by the Collectors Club Nov. 13 and 14 in Borger at the Weathery cafe.

Mrs. Bob McCoy 210 W. Harvester, plans to display a number of small articles, principally hand painted china plates, cups and saucers.

Mrs. W. M. Daugherty, 1313 Duncan, plans to show various articles including hand painted china bowls, cups, saucers and a tea set, as well as dolls and possibly some pictures and cut glass.

The exhibit will be open to the public for a small fee Saturday and Sunday from 2-8 p.m. One exhibit will be a rare collection of Japanese dolls shown by Mrs. James Kuroki, Borger.

These dolls represent the traditional Japanese "Giri Festival," observed March 3 and "Boys Festival," May 5. Only on these festival days are the dolls ever displayed in Japan.

Private collections alone will show heirlooms as widely varied as old lamps, clocks, stamps and buttons. There will also be a number of table settings in old china, glass and silver.

Antique dealers from Amarillo, Dumas, Pampa and Borger are expected to have displays in the show.

Penicostal Drive Is in Full Swing

The drive to supply Pampa needy with food and clothing for Thanksgiving and Christmas holidays sponsored by the Missionary Club of the United Pentecostal Church, 1046 W. Brown, is in full swing, according to Rev. H. W. Fletcher, pastor.

Cooperation of local dry goods and grocery stores has been helpful Rev. Fletcher said.

Individuals who wish to contribute food and clothing may send it to the church or call 2819W or 1650-J.

Planetoids, also called asteroids, are tiny planets revolving around the sun, mainly in orbits between Jupiter and Mars.

Ceres is the largest planetoid, and is about 480 miles in diameter.

Being Movie Star Not A Young Person's Job

By BOB THOMAS

HOLLYWOOD —(AP)— So you think being a movie star is a young person's job? Would it surprise you to learn that the average age of top male stars is 40 years?

And for the women—32 years? Those are two of the startling facts I have uncovered in a survey of the 100 top stars in U.S. movies.

First of all, we must understand what a star is. Not every film personality is a star. The best way to judge is whether the person's name means anything at the box-office. Does the person attract a large audience on the strength of his or her name alone?

Strangely, there are more male stars than female. Thus it was harder for me to narrow down the men's list to 50 names. But I finally reached a count of 100 names, equally divided between the sexes, and the list contains every star who is really important in Hollywood.

The matter of ages is a big eye-opener. The male average of 40.7 and the female of 32.4 years may cause some controversy about whether the screen is giving youth sufficient opportunity. Of course, it can be argued that some of the younger players have not reached star status, and it takes time.

Oldest male star is Wallace Berry, 59, and youngest is Mickey Rooney, a mere strapping of 28. Marlene Dietrich, the world's most glamorous grandma, is the eldest of the ladies at 44. Film Veteran Shirley Temple ranks youngest at 20.

Male stars have averaged 14.4 years in the movies, the women 11 years. It should be noted that some of them worked here several years before reaching stardom. The highs and lows:

Myrna Loy and Joan Crawford, 22 years apiece; Elizabeth Scott, 4; Wallace Berry, 59 years; Burt Lancaster, 3.

The survey may help to explode notions about the multiple marriages of stars. The 50 women have been wed 75 times for an average of 1.5 apiece (if you can picture that). Bringing up the average are Bette Davis, Lana Turner and Joan Bennett with three apiece. Lone spinster is Liz Scott.

The men have married less—a 1.4 average. Bogart, Gable and Dick and William Powell are the three-time husbands. James Stewart is the only one who has never been induced to trek to the altar.

Here's an arresting note—17 of the female stars have had no children, five more have adopted theirs. The average is exactly one child per woman. Joan Bennett leads with four.

The men are more prolific. The 50 have 84 kids. Does a college education help one become a movie star? The record answers no.

Only 33 of the 100 stars went to college. And several never got past grammar school.

Couple Ordered to Pay Rental Overcharges

DALLAS —(AP)— A federal court judgment ordering a Corsicana couple to make restitution of \$507 in rental overcharges was entered here Wednesday by U.S. Judge W. H. Atwell.

The judgment was against Mr. and Mrs. J. T. Newsom and ordered the couple to make payments to tenants occupying houses owned by them. It also enjoined the Newsoms from collecting rents over OPA ceiling prices in the future.

WATER EXPANSION LOSES

WICHITA FALLS —(AP)— A million-dollar water and sewer system expansion was voted down by a wide margin in a special election here Tuesday. Only 2,720 voters of an eligible 10,000 turned out.

REDS VOTED DOWN

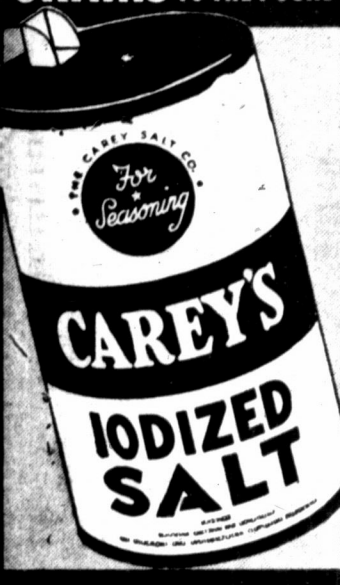

PARIS —(AP)— The United Nations Political Committee voted down Soviet efforts to seat Albanian and Bulgarian observers with rights to participate in discussion of the Greek question.

Manchuria's Big

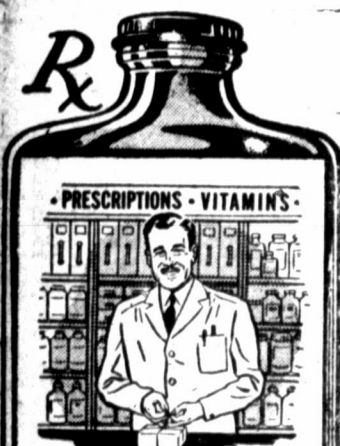

A state-proud Texan in Manchuria would have to pipe down, because Manchuria, as the diagram shows, is nearly twice the size of the Lone Star State.

The Maharajah Travels Light

The Maharajah of Indore, heading back to his home in Pakistan with a party of eight, sent his luggage by plane. Airline traffic representative Susanne Rudinger, assigned to check baggage at LaGuardia Field, New York, holds her head in amazement at the mountain of grips. The Maharajah paid \$4003.80 in excess weight charges.

In Hollywood

By ERSKINE JOHNSON

HOLLYWOOD —(NEA)—Hollywood's economy panic has reached the comic stage. A studio press agent was sitting behind his cluttered-up desk when an executive passed by. "Better clean up your desk," suggested the executive, "our efficiency expert might not like it."

So the press agent stuffed the loose papers and notes and clippings into a couple of drawers and left the top of the desk immaculate. For several days the press agent was careful not to leave any papers around. Then another studio executive passed by.

"Better clutter up your desk," said the executive. "Make it look like you're really busy. Our efficiency expert, you know."

The press agent started to explain, thought better of it and ever since has carefully kept one-half of the desk clean and the other half cluttered.

At the age of 70, Charlie Grapen says he's quitting the screen. He's been acting on the stage and in pictures for 52 years and now he wants to try television.

RED-MICK TEAM NIXED

Red Skelton and Mickey Rooney would like to do a movie together. But MGM is keeping Red under lock and key and he can't even consider an independent deal lest the studio take away his radio privileges.

Jane Wyman already has an Oscar for "Johnny Belinda," a gold loving cup from Boston College. Gary Cooper sold his Lagonda racing car, which he bought five years ago, for \$6000—thousand more than he paid for it.

Usually best-dressed Joan Crawford gets a good dose of speculation in "Pia in the Road." Wears faded blue denim, coarse black stockings, battered tennis shoes and no make-up for a prison scene.

Sonny Tufts says he overheard it in a producer's office: "I just can't seem to find her a story with a low neckline."

Meredit Willson's book, "And There I Stood With My Piccolo," is a wonderful blend of reminiscences, gags and sound musical comment. If you're wondering about that title, here's the story Willson tells:

"A very important king hired a whole orchestra to play for him one night during his supper. This orchestra was so great the king told the boys to go to his countinghouse and fill their instruments with gold pieces. I can still hear that happy clatter as heck after sack of golden tiddies strewn into the tuba and alighted down the neck of the bassoon and spilled out over the

bell of the French horns. And there I stood with my piccolo."

ALIBI WONDER

One of the wonders of Hollywood is the way producers can alibi over poor box office. There isn't a day, week or month that hold no alibi. A brief calendar of such apologies:

Winter: When the weather's bad, people stay home.

Spring: Business always falls off during Lent.

Summer: The weather is hot, so everyone is out of town.

Fall: Too many kids go back to school and must be in bed early.

Mid-Fall: Tough competition from football games.

Pre-Christmas: Everybody is shopping.

Post-Christmas: Everybody is broke.

Post-New Year's: Natural let-down from the holidays.

Now it's winter again, so you'd think it wouldn't ever be possible for a picture to succeed. The fact remains that people will brave the weather and dig up a spare sou IF the picture is good enough.

LATEST BULLETINS

(Continued from Page 1) inland position the Egyptians held in Southern Palestine. Elsewhere, they hold only Gaza and a thin coastal strip to the south.

The informant said a white flag rose over the village at noon and a delegation walked to Israel lines. The Jews started occupying the village immediately.

Munitions to China

WASHINGTON —(P)—The first major shipment of American guns and ammunition to China since the Communist sweep in Manchuria was said today to be nearly ready for departure.

The report lacked details and official confirmation. But it came from both Chinese and American sources after the State Department disclosed that more than \$112,000,000 has been withdrawn by China from the \$125,000,000 Congress voted this year for military assistance.

HST Studies Peace

KEY WEST, Fla. —(P)—The 30th anniversary of the close of World War I found President Truman grappling today with the problems that beset the peace again.

From his vacation retreat of this Naval submarine base, he kept a close watch through advices from the State Department over newest Russian maneuvers involving blockaded Berlin.

Hunting, fishing and golf are the favorite hobbies of baseball players and executives, a recent poll shows.

Showgirls Must Dress for London

LONDON —(AP)— Showgirls can prance around without brassieres in Paris—but not London. Especially not on a television show. That's the breathless word from the British Broadcasting Corporation which found it necessary to pull quite a lot of wool over customers' eyes this week. Occasion was a television show of the famed Paris Lido Cabaret—imported look, stock and curves for 40 minutes of Parisienne frolicking. The BBC put its foot down quick when goggle-eyed producers saw four semi-nudes dressed, as one put it, "with their chests free." Brassieres, and "filmy bits" for elsewhere, were hastily ordered. Signed likewise 20-year-old Yvette Comets: "I knew the English were particular about these things. Anyway, it makes a change."

Stork Boards Southern Pacific

PHOENIX, Ariz. —(AP)— The stork boarded the Southern Pacific's eastbound Sunset Limited west of here Tuesday night. A seven-pound, eight-ounce daughter was born aboard the train to Mrs. Joyce Ripp, 22, wife of Cpl. Robert J. Ripp, a soldier stationed at Great Falls, Mont. Mrs. Ripp was enroute to the home of her parents, Mr. and Mrs. S. R. Culbertson, Clute, Tex. The conductor assisted in the delivery. The mother and child were removed to a hospital here and were reported in good condition Wednesday.

Farm Taxes Are Reviewed

By LOUIS FRANK
Extension Editor
Texas A & M College

When—in recent years—did you pay the least amount of taxes on your farm or ranch land? It was in 1946 at least by one way of looking at it. And the most you've ever paid was in 1931. It's a pretty smart thing to look into taxes and tax trends, especially if you're figuring on buying a farm or ranch or adding to your holdings. Because there are two ways of looking at the tax load that land carries. One is the actual amount of the tax in dollars and cents—the economists call this the absolute tax. The other is the relative tax, or the relation of the tax rate to prices of farm products. Texas A & M Department of Agricultural Economics and Sociology, L. P. Gabbard and Robert G. Cherry, have just made public their findings of a study of Texas farm and ranch taxes over a 57-year period. Gabbard is head of the department and Cherry is an economist in farm taxation. It turns out that land taxes in Texas from 1890 to 1947 have been marked by three distinct trends, according to a digest of the study prepared by Tad Moses, chief of publications for the Station. 1. For the first 42 years, the average taxes per acre climbed slowly but steadily, from 2.9 cents per acre in 1890 to 29 cents in 1931, the record high. 2. From 1932 through 1935, the average fell rapidly, from 29 to 18.1 cents per acre. 3. The third trend, from 1936 through 1946, has been one of stability. The average tax per acre has not varied more than a cent during this 11-year period. These figures are for the absolute, or actual, rate. Gabbard and Cherry think maybe too much attention is paid to the importance of taxes in terms of dollars and cents. They believe the relation of taxes per acre to prices of farm products really gives a better picture of the tax load, and point out that farm taxes have often moved in the opposite direction from farm prices.

Jaycees Take No Stand on Poll Tax

WICHITA FALLS —(AP)— Melvin B. Evans, president of the Texas Junior Chamber of Commerce, denied Wednesday that his organization has taken any action on a proposal by Senator Rogers Kelley of Edinburgh for a special election to decide whether the poll tax should be abolished. Kelley said in a statement at Austin Saturday that he had "secured favorable action" on his proposed legislative resolution from several organizations, including the state Junior Chamber of Commerce. "This organization has not taken any action on this issue," Evans stated in a telegram to the Associated Press.

Sleeping Angler Fined for Fishing

NEW WESTMINSTER, B. C. —(AP)— A magistrate fined a fisherman \$25 for fishing in his sleep. Ed Simmonds of Steveston told Magistrate H. J. Johnston he set his net at 3 a. m. and set an alarm to awaken him at 5 a. m. The alarm failed to awaken him and a fisheries patrol found Simmonds, still asleep and with his net still in position, at 7:50 a. m.—an hour after the fishing season closed. The magistrate disregarded Simmonds' plea that "there was no conscious violation." One machine can produce as many as 56,000 paper bags per hour.

Harvesters Invade Butler Field Saturday Afternoon

Pampa News, Thursday, November 11, 1948 Page 13

SANDIE GROUND-GAINERS

CHARLEY PRIOLO, left, and Claude Fox, right are two Sandie ground-gainers that the Harvesters must stop Saturday, if they are going to win their first game in history on Butler Field. Priolo, a 145-pound speed demon, is very shifty and elusive. Fox, however, is a bruising 176-pound fullback with plenty of power.

Fifty Games Are Set This Weekend

By HAROLD V. RATLEFF
Associated Press Sports Editor

The pieces start falling into place this weekend in the jigsaw that is Texas schoolboy football. More than 50 games will be virtually determined in four. The big schedule starts with a dozen Armistice Day clashes today, headlined by the Brownwood-Breckenridge game at Breckenridge. The only undefeated teams of District 7 Class AA, the victor will be considered "in."

This is the most crucial of today's tilts but tomorrow night

PILES Hurt Like Sin! But Now I Grin

Thousands change groans to grins. Use a real doctor's formula for distress of piles: anal drugs. by noted Thornton & Minor Clinic. Surprising QUICK palliative relief of pain, itch, soreness. Helps soften hard parts; tends to shrink swelling. Use doctor's way today. Get tube Thornton & Minor Rectal Suppositories. Follow label directions. PAMPA BOWL

From where I sit... by Joe Marsh

To Dunk or
Not To Dunk?

Dunking doughnuts is Sober Hopkins' favorite morning pastime... and for a long time Ma Hopkins has been trying to break him of the habit. Feels it sets a bad example for the children.

So one morning she puts a heavy frosting of chocolate on the doughnuts... Agitating that will stop him. Sober thinks it over for a while and then: Dunk! Taste? Smile! And Sober compliments the misses on the lovely mocha flavor!

I guess there'll always be two schools of thought: to dunk or not to dunk. But from where I sit, it's a matter of personal choice and taste—like some folks prefer beer to cider, ale to beer. And the less we criticize those differences of taste, the better.

In fact, Ma Hopkins got so curious about the flavor of chocolate-covered doughnuts dunked in coffee, that she tried it herself. Now— you've guessed it—she's a daily dunker, too!

Harvesters to Try for First Victory in Amarillo Stadium

By GENE GARRISON
News-Sports Editor

The 1948 squadmembers of the Pampa Harvesters have a chance to carve their names into an everlasting inscription in the Pampa High School Hall of Fame. For Saturday is the day they invade Amarillo's famed Butler Field for a game with the highly-touted Amarillo Golden Sandstorm.

The Pampa lads will be striving for their first victory in history on Butler Field, and their fourth over the Sandies in the last 18 years. In the nine games played at the Amarillo Stadium, the Harvesters have scored only three touchdowns, and never more than one in a game.

The last time the Harvesters downed their rivals was the eventful day in 1943 when Charlie Boyles tossed a 45-yard pass to Gene Robbins for a tally that gave the locals a 7-0 triumph. In 1941, the Pampa schoolboys outscored the Sandies, 16 to 13, and back in 1931, they turned the trick, 13-4.

The scores of all the games are as follows:

1930—Amarillo 2, Pampa 0
1931—Pampa 13, Amarillo 6
1932—Amarillo 7, Pampa 0
1933—Amarillo 9, Pampa 0
1934—Amarillo 13, Pampa 6
1935—Amarillo 18, Pampa 0
1936—Amarillo 20, Pampa 6
1937—Amarillo 6, Pampa 0
1938—Amarillo 14, Pampa 0
1939—Amarillo 14, Pampa 0
1940—Amarillo 27, Pampa 0
1941—Pampa 16, Amarillo 12
1942—Amarillo 39, Pampa 7
1943—Pampa 7, Amarillo 0
1944—Amarillo 13, Pampa 0
1945—Amarillo 24, Pampa 10
1946—Amarillo 27, Pampa 0
1947—Amarillo 21, Pampa 0
(*) denotes games played at Butler Field.

It seems almost certain that the Amarillo School Board will see fit to build a new stadium, next year so this will be the Harvesters' last chance to win on Butler Field.

Both teams will be in near top shape, although the Harvesters will probably be missing Bobby Jack Phillips, rugged 185-pound tackle. Phillips has spent most of the last year in the hospital with an attack of flu. Bo Jack has alternated throughout most of the season with Leroy Troop, and Troop is almost certain to be the one filling the tackle post.

Lamar Lively, top-notch Harvesters quarterback who was injured Oct. 1, against Vernon, may see limited action in the Sandies fracas. The rugged defensive player and shrewd field general has been out with a chipped vertebrae. His replacement, however, has been doing a wonderful

Yannigans, Guerillas, Meet Friday

AMARILLO — The Amarillo Yannigans have been preparing for two weeks to undertake the task of extending their victories to five when they tangle with the Pampa Guerillas at Pampa Friday afternoon.

The last game of the Yans was at Lubbock two weeks ago when they went in defeat at the profit of the Lubbock Cowhounds. The Junior Sandies had scheduled a game last week with the Canyon Eagles but it was called off because of severe weather conditions.

The Yannigans have won four and lost three this season. Their victories were over Texhoma, 27-12; Plainview "B," 19-0; Matador, 39-6; and Perryton "B," 12-0. Boise City, Okla. whipped them 32-0, in the season opener. Since that time they fell behind Price College, 6-0, and the Cowhounds 20-0.

The Yannigans are in top shape for the Guerillas.

ham at Sherman, Denison at Greenville, Grand Prairie at Denton, Texarkana at Henderson, Marshall at Longview, Kilgore at Tyler, Temple at Waxahachie, Waco at Hillsboro, Ennis at Corsicana, Palestine at Jacksonville, Bryan at Conroe, South Park (Beaumont) vs Beaumont, Port Neches at Port Arthur, Freeport at Baytown, Galena Park at Texas City, Pasadena at Galveston, Texas Military Institute (San Antonio) at Kerrville, Victoria at Austin, Laredo at Corpus Christi, Harlingen at Robstown, Edinburg at San Benito, McAllen at Brownsville, Alice at Kingsville.

Saturday — Sunset (Dallas) vs Crozier Tech (Dallas), Poly (Fort Worth) vs Paschal (Fort Worth), Jeff Davis (Houston) vs San Jacinto (Houston), Burbank (San Antonio) vs Brackenridge (San Antonio), Pampa at Amarillo, Plainview at Lubbock.

Fans Wonder, 'Will Garner Run Wild?'

By PUTT POWELL
Amarillo Globe-News

AMARILLO — Pampa's Tom Tipps is rated as one of top young coaches in the business. But football fans are wondering just how he is planning to handle James Garner, Golden Sandie left-end when the rivals square off for the District 1-AA football championship here on Butler Field Saturday afternoon? The speedy Sandstorm captain hasn't been stopped from grabbing aerials from Marvin McNeil all season. Already considered the leading candidate for the All-State first team, the clever 165-pounder is the top Amarillo scorer, taking nine touchdown passes for 63 points. Joe Coleman of Odessa is considered to be one of the better coaches in the profession. He expected his Bronchos to slow Garner down. At least two Bronchos were placed on the Sandie star. But Garner just lined up in various spots in the backfield in order to confuse the rivals even more. Garner snagged two touchdown passes in the 33-6 victory over the Bronchos. Yes sir, football fans are wondering just now Coach Tipps plans to stop Garner?

job. Carroll Smith, up from the most of the last year, hummed the quarterbacking slot and has proven himself a capable ball handler and passer.

If the field is dry and fast Saturday, and the breaks are evenly split, don't be too surprised if the Harvesters come up with a one-touchdown victory.

Lee Nalley May Set Record For All-Time Punt Returns

NEW YORK —(AP)— Lee Nalley of Vanderbilt is well on his way to setting a new all-time college football record for returning punts.

The National Collegiate Athletic Bureau reported today that Nalley has run back 31 punts for 557 yards in seven games. Only two players in history have returned punts for more yards in a full season. And Nally has four games left to play.

The Vanderbilt team uses set blocking assignments on punt run-backs and Nalley is the key man. He has returned all but four of the kicks made against the Commodores.

Bill Gregus of Wake Forest is tops in kickoff returns, he's brought back 16 for 420 yards. John Freeman of the University of Portland is second with 385 yards.

Bill Boston of Montana State has the best punting average—45.3 yards.

Six catches in Saturday's game with Duke made Red O'Quinn of Wake Forest the No. 1 pass receiver in the country. He's caught 31 for 521 yards and six touchdowns.

Bill Olson of Columbia hasn't intercepted a pass since the fourth game of the season—he's played seven—but he still leads the nation in interceptions with seven.

Individual leaders include: Punt runback: Jack Sims, Baylor, fifth, 12 for 303 yards. Kickoff runbacks: Bob Goode, Texas A & M, fourth, 354 yards. Punting: Doak Walker, Southern Methodist, fifth, 20 punts for 41.9 yards average; Fred Wendt, Texas Mines, seventh, 23 for 41.6.

Pass receiving: Bob McChesney, Hardin-Simmons, tenth, 22 for 197.

Nimrods Get a Shot at Ducks

Duck season will open tomorrow noon (12 o'clock) and will run through Dec. 16.

The law states that hunters may begin shooting 30 minutes before sunrise, but must stop one hour before sunset.

Bag limit is five ducks, and of that number only one may be a woodcock. Possession limit is two days' kill.

The Detroit Tigers made three triple plays in 1911. The Boston Red Sox tied that record in 1924.

Tru-Value Shop Plans Open House

MRS. ED STIDHAM

Tru-Value Ladies Ready-to-Wear Shop, 221 N. Cuyler, will hold a two-hour open house tonight from 7-9 p.m., Mrs. Ed Stidham, manager, said.

The formal opening will be tomorrow when the shop will begin selling its nationally-known lines of hosiery, lingerie, sportswear, bags, suits, coats, dresses and formal. They have stocked junior sizes from 9-16 and ladies' sizes from 8-44.

Mrs. Stidham has had nearly 15 years of experience with ladies' ready-to-wear. She has been in Pampa for the past two years and formerly was the Lubbock Tru-Value Shop.

The little clear-vision shop has a terracotta and chartreuse color scheme with blonde maple woodwork. Construction was begun in May.

Besides Mrs. Stidham, the store will employ nine persons. They are: Misses Evelyn Owen, Bob Love, Rex Ellison, Grover Lewis, Virgil Howell, Ola Isbell and Jess Hulsey, Miss Gay Ola Johnson, maid and Jerry Davis, window boy.

Miss Lela Mead, supervisor, from Wichita Falls, will remain at the local shop for several days after its formal opening. There are approximately 50 Tru-Value Shops in operation throughout the United States.

Leaves From a Correspondent's Life Note Book

By HAL BOYLE
NEW YORK (AP)—If you were born poor and homely, take heart, man.

A hundred years from now the scholars may be turning hand-springs over you.

At least the most exciting literary re-discoveries of recent years have dealt with two men of genius who were regarded by their contemporaries as uncouth in appearance—or downright ugly.

One was Abraham Lincoln. The opening of his longsealed papers in 1947 still has historians astir. They expect them to throw new light on the Civil War era.

A single letter by the gangling, awkward Lincoln, who learned to read and write by firelight and rose from the log cabin to the White House, sold at auction here last April for \$5,800.

Equally as dramatic as the opening of the Lincoln Papers was the assembling of a lost treasure trove of literary material surrounding Dr. Samuel Johnson. It is the outstanding literary event of 1948.

The collection climaxes a 22-year search by Lieut. Col. Ralph H. Isham, son of a New Jersey railroad financier, who drained his own personal fortune to buy it.

It consists of literally thousands of papers left at his death in 1795 by James Boswell, whose monumental study of Johnson is the best known biography in all literature. They were lost for more than a century in the rubbish of castles in Ireland and England.

Scholars expect them to give a complete new picture of this golden age of England, over whose literary life Johnson ruled with an iron tongue.

Johnson is only a dimly remembered figure to most school boys. But to those who have taken the trouble to wade through Boswell's massive biography he is one of the most interesting men who ever lived.

He was a kind of Noah Webster, Dorothy Parker, Alexander Woollcott and H. L. Mencken rolled into one. And something more, too. But except for Boswell, who trotted at his heels for 21 years noting down everything he said, Johnson would be known today only as a minor poet, dictionary maker and literary historian.

For few people now bother to read what Johnson himself wrote. They read what Boswell says he said. Such as: "Patriotism is the last refuge of a scoundrel."

"Hell is paved with good intentions."

"A man of genius has been seldom ruined except by himself."

"The noblest prospect which a Scotchman ever sees, is the high-road that leads him to England."

"No man but a blockhead ever wrote except for money."

But the tart-tongued doctor's charm was purely conversational. Here is how he looked to Boswell at their first meeting:

"Mr. Johnson is a man of a most dreadful appearance. He is a very big man, is troubled with sore eyes, the palsy and the King's Evil (scrofula)."

"He is very slovenly in his dress and speaks with a most uncouth voice."

But homely or not, Dr. Johnson, who came to London with nothing in his pockets but five cents and an unpublished tragedy, became the titan of his time—the "Age of Reason."

Texas Lizards Don't Fly!

AUSTIN — Sorry, folks, but there is no such thing as a flying lizard in Texas.

Dr. W. Frank Blair, University of Texas zoologist, who knows the name and habitat of practically every animal in the state, said recent reports of "flying lizards" in Central Texas were erroneous.

A report that a flying lizard had been seen, that it had webbed feet, and could "fly" from tree to tree was investigated by Dr. Blair and associates.

"After we examined the so-called 'flying' lizard, we found side grooves which might have led some people to believe that the lizard had wings. However, there is no lizard in Texas that even remotely resembles one that can fly," Dr. Blair said.

"The 'plated' lizard is a fairly common variety in Central Texas," Dr. Blair said, "and it comes out this time of the year, living around rocks. It has an unusual, elongated body, but it is not an unusual variety."

Spiking a last rumor, Dr. Blair said, "We do have barking frogs in Texas, but there are no barking lizards, as some people reported."

Much Topsoil to Wash Away Warns Conservation Speaker

BROWNWOOD —(AP)— Almost 800,000,000 tons of Texas topsoil will wash away in the next year. That warning came from W. S. Davis, Jr., of League City, president-manager of the Soil Conservation District Supervisors Association. The association's eighth annual convention ended here yesterday.

Addressing a convention dinner last night, Davis said: "A total of 798,748,000 tons of topsoil is going to wash and flow off the surface of our great, proud state in the next twelve months. Letting our topsoil, our lifeblood, disappear this way and at this rate is squandering astronomical sums of money."

"The ten million dollars we are asking the State Legislature for during the next two years is peanuts by comparison. In years to come, continued losses such as these are going to cost us and our children the civilization we know today."

Another speaker, J. C. Dykes of Washington, urged the supervisors to adopt a policy of dealing only with organized groups instead of piece-meal with individuals. Dykes, assistant soil conservation service chief, said this way the job would be done "faster, cheaper and better."

The state association re-elected Davis as president-manager and unanimously adopted a \$28,000 annual budget. E. Tom Holmesley of Yaleta was elected vice president to succeed R. G. Dunlap of Lockney.

Other new officers: E. C. Sparks, Texarkana, secretary-treasurer, an R. M. Boswell, Kenedy, council member of the national association. Directors named were O. V. Hartshorne, Dalhart; J. Barrett, Brownfield; Joseph M. Vander Strucken, Sonora; Dr. J. E. Bauer, Refugio; Frank Hamm, Lancaster, and Walter Hamilton, Dublin.

Physician Declares Many People Are Being Scared Into Sickness

CHICAGO — Health campaigns which employ fear techniques to scare dollars out of the public may be doing a lot of harm. Some people are actually being scared sick in our effort to keep them well, declares Dr. Irvin S. Koll, Chicago physician, in the November Journal of Living.

"Fear, too, can be a disease," says Dr. Koll. "Moreover, it can be the forerunner of other diseases. He urges people to remember that a few simple symptoms can cover a multitude of ills, only the smallest number of which may be termed deadly or even serious. But when horror enters the picture, many things may happen. By the power of suggestion, people may literally think themselves into sickness, he says. Others become so frightened that they avoid diagnosis for fear of what it will reveal. The mental pain suffered in these cases may exact a toll as great as the worst of what is feared."

Dr. Koll believes that a positive approach—health-mindedness, not disease-mindedness—is sorely needed. He recommends periodic examinations especially after the age of 40, by a competent physician.

To combat the scare campaigns, Dr. Koll has this advice: "Don't read or listen to symptom discussions. If you are troubled by any disorder, don't look it up, or attach meanings to it and don't be misled by talk of what it may be. If you are checked up regularly, you need not live in fear of disease."

themselves into sickness, he says. Others become so frightened that they avoid diagnosis for fear of what it will reveal. The mental pain suffered in these cases may exact a toll as great as the worst of what is feared."

To combat the scare campaigns, Dr. Koll has this advice: "Don't read or listen to symptom discussions. If you are troubled by any disorder, don't look it up, or attach meanings to it and don't be misled by talk of what it may be. If you are checked up regularly, you need not live in fear of disease."

SS Benefits May Be Hiked By Congress

By JAMES MARLOW
WASHINGTON — (P) — President Truman has promised a better social security program, covering more people and giving higher benefits.

It now covers about 30,000,000 workers. He wants it widened to take in over 20,000,000 more.

To go into those parts which affect retired workers and their dependents:

Congress passed the Social Security Act in 1935 for this purpose:

To give workers some protection—in the form of insurance—when they become too old to work, and insurance for their dependents when they die.

This was not charity. Workers and their employers have had to pay equally for this insurance through a social security tax.

The employee pays a yearly tax of one percent on his wages or salary but only up to the first \$3,000 he makes a year.

And the employer pays a tax of one percent on the wages or salaries his employees make but only up to the first \$3,000 for each of them.

This tax goes into a fund called the Social Security, Old Age and Survivors Insurance Fund. Payments from it are running about \$466,000,000 a year.

About 2,055,000 men, women and children are receiving benefits now under the program.

But not every worker is covered. Who are those 20,000,000 unprotected people whom President Truman wants brought under the act?

They include farmers, farm workers, self-employed people, domestic servants and people working for non-profit organizations like the Red Cross.

Who gets the insurance among the 30,000,000 workers who are covered?

Retired workers, men and women, who have reached 65; an additional monthly benefit to a retired worker's wife if she is 65, and for his unmarried children under 18.

If the covered worker, under or over 65, dies, monthly benefits go to his widow, if she is over 65; his widow of any age if she has dependent children under 18; unmarried children under 18; his parents if they were chiefly dependent on him and if he left no widow or children.

What's the most insurance a 65-year-old worker can get if he retires right now?

The maximum for him would be \$44.80 a month and then only if he has been paying his tax into the fund since 1937 and if his salary since 1937 has averaged at least \$250 a month (\$3,000 a year).

And the most his wife can get if she reaches 65 now, is half of the sum a retired husband gets—or \$22.40.

But—although the maximum pay to a retired worker now is \$44.80 a month, the average is only \$28. The minimum is \$10.

Last spring President Truman asked Congress—without result—to do this:

Increase the maximum pay by 50 percent, so the retired worker who'd be getting only \$44.80 would then receive \$67.20. If he dies his widow's share would be greater too.

He probably will ask Congress to increase the present one percent tax on employers and employees to one and a half percent on each, starting maybe around July 1.

And, instead of taxing only the first \$3,000 of pay each year, the first \$4,800 probably would be taxed. At least that's what President Truman asked for before.

Decentralizing Of Industry Is Believed Near

AUSTIN — Decentralization of industry may prove to be the next important long-term phase in the economic development of the United States, Earl Bunting, managing director of the National Association of Manufacturers, said here a few nights ago.

Addressing the 1948 Texas Personnel Association Conference at the University of Texas, Bunting cited the growing tendency of industry toward decentraliza-

tion because of its social, economic, and national defense considerations.

"A certain amount of this shifting of industry is inevitable," Bunting said. "In many instances, our huge cities have reached a point at which further growth exacts an economic toll in excess of the economic benefits. In other instances, industries located in great centers of population have grown so rapidly that the problem of adequate space and facilities has become acute. In addition to these decentralizing influences, there is the further important factor of the social penalty often inflicted by a metropolitan location."

Small Jet Plane Is Considered

NEW YORK — The possibility of using a small jet engine in an all-plastic light plane built by a new process is revealed in the publication, Aviation Week.

The magazine says several designs are being considered for the first airplane, and are partially dependent on whether the U.S. Air Force remove certain small type power plants from the secret list.

The new process aimed at the fabrication of a reinforced all-plastic airplane is under development at the Golladay Aeronautical

Laboratory, Cumberland, Md.

"Present research is concerned with selection and testing of various types and combinations of thermosetting resins," the article says.

The term "biplane twins" was first applied to Chang and Eng, joined twins born in 1811 at Meklong, Siam.

Sawyer Urges Revision of Farm Project

By SAM DAWSON

NEW YORK (AP)—Secretary of Commerce Charles Sawyer said the farm price support program should be revised to furnish "some relief to the taxpayer and the housewife."

The Aiken Bill passed by the 80th Congress "gave recognition to this need," but "will not be effective, however, until Jan. 1, 1950," Sawyer said in a speech at the opening session of the 35th National Foreign Trade Convention. The Aiken Bill continues present price levels until 1950 and then puts them on a sliding scale.

It was Sawyer's first speech since the presidential election in which his chief, President Truman, won in an upset regarded by many as giving approval to Truman policies, including continuance of farm price supports. Even before the election Sawyer was at odds with the Agriculture Department, the commerce secretary urging the lowering of farm price support levels.

Sawyer said any revision of farm support laws must, however, keep in mind "the original and still important objective of aiding the farmer and of providing an incentive for increased food production for our growing population."

The United States must maintain a sufficient carry-over of wheat from this year's bumper crop to guard against "two important possibilities war and a bad crop."

The secretary said the United States may have an additional 25 million bushels of wheat from this year's crop to export since domestic consumption is not as high as first expected. He had earlier estimated that at least 400 million bushels of wheat would be available.

The real name of the common chicken hawk is red shouldered hawk. Actually, game and domestic poultry comprise less than two percent of his diet.

Some peaks of the Andes are more than 20,000 feet high.

Six Southern States Plan Overseas Farm Shipments

Atlanta — Six Southern states are now actively engaged in campaigns to collect trainloads of farm commodities for overseas relief. It was announced here by Thomas F. Byrd, director of the Southern regional office of the Christian Rural Overseas program (CROP), sponsor of the trains.

The six states—Alabama, Georgia, Louisiana, North Carolina, South Carolina, and Texas—are included in a total of more than 30 states which will support food trains by the end of the year.

It is expected that Southern states will assemble donated commodities between Thanksgiving and Christmas, for shipment from Southern ports. Alabama, Georgia, Louisiana, and Texas have already organized down through many counties and parishes and volunteer canvassers are going from farm to farm accepting pledges for commodities to be delivered at a later date.

Commodities most needed include: seed cotton, corn, peanuts, rice, milk and syrup. Whenever practical, unprocessed commodities will be shipped, thus providing employment as well as relief. Seed cotton is especially needed. All CROP cotton is manufactured into finished articles overseas. None of the cotton is sold there to cover costs of processing.

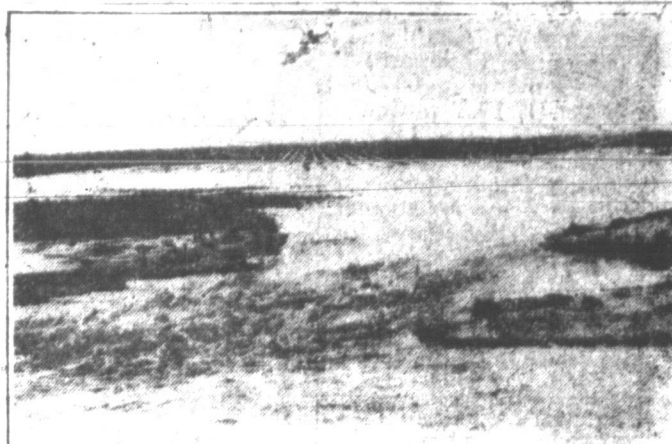

Georgia has set a goal of 69 carloads of commodities, according

Pampa News, Thursday, November 11, 1948

ROBERTS COUNTY SOIL CONSERVATION DISTRICT fields had the appearance of the above picture during the recent rain. Terraces are needed to prevent both sheet and gully erosion on the cultivated fields.

Fields in Roberts County Have Terrace System Need

During the recent rain many of the fields in Roberts County were in need of terraces to prevent sheet and gully erosion in the cultivated fields. It was announced from the Roberts County Soil Conservation District.

Also, the need for grassed water ways are needed, as shown through the fields. In most of the draws the wheat in the bottom washed out. To remedy this situation, the soil conservation district recommends that the fields should either be protected by a terrace system or planted into a good cover or should be planted to grass and used as a natural waterway for terrace water. Western wheat grass is good for this purpose and can be planted now.

The terrace system serves to "walk" the water slowly out to the edge of the field allowing it to run off on grass. This slows the movement of the water on leaving the field, prevents erosion and saves time for more water to soak into the ground.
