TEXANS LETS TALK TEXAS

The Scurry County Times

AND SNYDER SIGNAL

OFFICIAL NEWSPAPER FOR THE CITY OF SNYDER AND SCURRY COUNTY

WEST TEXAS' LARGEST WEEKLY NEWSPAPER

SNYDER, TEXAS, —The busiest small city in West Texas, inhabited by the busiest people living and the best in the world!

VOLUME XLIII — SNYDER, TEXAS, THURSDAY, AUGUST 15, 1929 — NUMBER 9

CHEVROLET COUPE AND COACH GIVEN FREE BY TIMES-SIGNAL

OVER $1800 IN HANDSOME AWARDS TO BE GIVEN THE LADIES, MARRIED OR SINGLE, LIVING IN SCURRY COUNTY; ENTER YOUR NAME NOW

In co-operation with the Yoder-Anderson Motor Co., Chevrolet dealers, the Scurry County Times-Signal will give away free two late model Chevrolet automobiles.

To the ladies, married or single, living in Scurry County, or for that matter anywhere in the trade territory covered by the Times-Signal, you are welcome to enter your name in our salesmanship club circulation campaign.

Over $1800 in handsome awards will be given free, featuring two Chevrolet automobiles as grand prizes. To the lady, married or single, receiving the greatest number of vote credits, she will receive either the $735 fully equipped Chevrolet Coupe or a $735 fully equipped Chevrolet Coach, the very latest models.

The purpose of this salesmanship club campaign is to win a hearty welcome into every home in Scurry County for the Times-Signal, and incidentally to advertise the Chevrolet Six.

Those ladies, married or single, receiving the greatest number of vote credits will receive the handsome gifts in the order named. The lady having the greatest number of credits will receive her choice of the two Chevrolet automobiles, the next highest will receive the other car and so on down the line. To those not receiving one of the six gifts as advertised, they will receive 15% commissions. There can be no losers. "Everybody Wins!" In order to share in the handsome awards to be given free by the Times-Signal, your spare moments is all that is required of you. It will not cost you a penny now, or later. Just gather the vote credits issued every week in the Times-Signal. Each and every one of the vote credits you receive will give you 100 votes. Vote credits will be given also on renewal subscription payments to the Times-Signal. Of those there are hundreds of your friends that will vote for you under the circumstances. Then again, there are many friends of yours not taking the Times-Signal; they will subscribe with the understanding that you shall receive the free vote credits issued on subscription payments.

Still another added feature that will help you be successful is that you can secure vote credits anywhere, any place and at any time.

In casting about for handsome gifts, the Times-Signal selected for third prize that widely known Majestic Radio, "The Mighty Monarch of the Air." This model is valued at $188.50 and was purchased from Ollie Bruton of the Dixie Radio and Tire Co., where it is now on exhibition for you to call and see this lovely gift.

Each and every gift was purchased here in Snyder, Texas. The local merchants, who are assisting the Times-Signal in its big salesmanship club campaign, will guarantee each and every prize. The same consideration will be given had you paid the cash for them. Being a cooperative plan, the Times-Signal invites people from the four corners of the county to enter their names.

We earnestly request the country folks to enter their names. One never knows what her success will be; you have everything to gain and nothing to lose.

"Everybody Wins For Sure" will be our slogan. You can profit handsomely if you will enter your name today. What's more, you need not be a subscriber to share in the handsome gifts.

October 5th, a few weeks hence, will be a gala event for those ladies entering their names in our big prize offer.

Your earnings will be better than $100 per week—think of that! Still a greater satisfaction will be to have it said the Chevrolet Coupe or Coach is yours personally, to go and come, as you please.

Turn to page seven and let your eyes feast on the nomination coupon, fill in your name and address, and this will give you 5,000 free votes that can seat you in the Chevrolet Coupe or Coach.

Bring your nomination entry coupon to the Times-Signal. Here you will receive your credentials free of charge, then you can start out immediately getting the free votes.

If you live in the country and can't get to town at once, call the campaign department of the Times-Signal on the phone, our expense, and your needs will be cared for at once.

Taking into consideration the Miss that loves precious jewelry, Mr. H. G. Towle was seen with regards to same. For fourth prize a lovely diamond ring was selected, valued at $100.

The next gift selected at Towle's jewelry store was a Gruen watch valued at $50.

Then another selection was made, and that was none other than a Whiting Davis Mesh Bag. The three gifts selected at Towle's as well as the other prizes are guaranteed absolutely, the same had you yourself paid spot cash.

That the contestants will have every cooperation necessary for their success, the Times-Signal will have as its representatives Mr. and Mrs. Frank Kane, sales managers. These folks come to us highly recommended for their many successful sales campaigns on other publications. It will be their pleasing duties while conducting our campaign to be of assistance to each and every sales person, making your work in the campaign helpful and profitable as well.

Every feature connected with the sales campaign has been carefully arranged. Circular letters will be given out to contestants that you can notify your friends that you are after the first grand prize and high honors.

Receipt books will also be in readiness Saturday for your early start that you may receive as many votes as possible that will seat you in the Chevrolet automobile October 5th.

Of general importance to contestants is the announcement that each and every contestant can enlist the aid of her many friends to assist her in vote getting. Receipt books will be supplied without cost. As a matter of fact, we want you to be successful; your success is our success.

Be among the first to enter your name see the grand prizes on the street Saturday, then make haste to the Times-Signal office and enter your name.

"LET'S GO!"

RULES OF CAMPAIGN

Campaign will officially open on Saturday, August 17th, closing Saturday, October 5th, 1929.

Any lady, married or single, living in Scurry County or nearby trade territory, is eligible to enter her name and compete for any of the free gift) as advertised.

No employe or near relative of any employe of this newspaper is eligible to enter her name, however this rule does not bar country correspondents if not related to Times-Signal ownership.

At the conclusion of the salesmanship campaign, sales people will select their judges that will canvass the vote credits thoroughly before awarding the prizes.

No person connected with the Times-Signal will have any part in counting the vote credits.

However, the Times-Signal will guarantee every sales contestant entering her name fair and impartial treatment.

Winners of prizes will be decided by their accredited vote credits, said credits being obtained by getting new and renewal subscription payments to the Times-Signal, as well as clipping free vote credits from the Times-Signal as published from week to week.

Cash must accompany all subscription orders where vote credits are to be issued. There will be no exception to this rule.

Vote credits are free. It costs the subscriber nothing extra to vote for his favorite contestant when payment is made on new or renewal subscription.

Vote credits cannot be bought at any time during the campaign, nor can vote credits be transferred from one person to another.

Sales contestants cannot withdraw from the race and transfer their votes to another contestant. Once a sales contestant withdraws, her votes will be cancelled.

A partial vote standing will be given from week to week during the campaign. However, the vote given does not necessarily mean the actual vote of the sales contestant. To do so would expose the actual vote of the sales contestants, and we deem this method unfair to each and every contestant.

In fairness, though, every sales contestant will know for sure her own particular vote as issued by the campaign editor from time to time.

Vote credits will be given on subscription payments made to any sales person where that subscription has been extended one or more years. This is termed extension orders.

When the campaign has been brought to a close, the judges selected by the sales contestants personally will meet at an appointed place where the sealed packets holding the contestants' vote credits will be opened and the count begun.

This method insures absolute fairness and will preclude the possibility of any favoritism being shown by anyone.

The Times-Signal assures every sales person absolute fairness, and if any question of moment arises, the decision of the management will be final.

NEW MANAGER FOR LLOYD STORE COMING

According to H. F. Lloyd, of Post, Doc Redman of Wichita Falls will succeed I. R. Moore as manager of the local store. Mr. Redman will arrive in Snyder in about ten days to take charge.

The store is receiving new goods this week, and Mr. Lloyd is expecting a good fall season here he said.

One third of the commercial spinach crop of the United States is grown in Texas, most of it in the Rio Grande Valley.

Dixie Radio & Tire Company New Firm Here

Ollie Bruton Announces The Opening of Store on South Side

The Dixie Radio and Tire Co. is the name of the new radio and tire store recently opened on the south side of the square with Ollie Bruton, formerly manager of the Dixie Service Station, in active charge. Associated with Mr. Bruton in this new enterprise is J. C. Dawson, for many years prominent in Snyder business circles.

The new store has received a new and large stock of the famous Federal tires and tubes as well as all the various models of the Majestic radio, "The Mighty Monarch of the Air." In connection with the selling agency of radios, Mr. Bruton announces the arrival of the latest and most modern radio servicing equipment on the market. This apparatus is known as the Jewell Radio Set Analyzer, which detects any sort of trouble in any radio set. There is no other like it in this section, and Mr. Bruton, widely known as a radio expert, is now equipped to do radio service work.

The Dixie Radio and Tire Co. is this week calling attention to its Federal tires and Majestic radios in an advertisement on page two.

Attend Family Reunion at Palo Pinto Aug. 9-11

Mrs. D. P. Lane, Mr. and Mrs. Hugh Boren, Judge and Mrs. Fritz R. Smith and two sons, Coleman and Dodson, and Miss Elizabeth Gracey Smith returned home the first of the week from Palo Pinto where they attended the Gracey family reunion which was held at Loyer's Retrat on August 9, 10 and 11.

A business meeting was held at which time they went into a permanent organization with the following officers being leected: Judge Fritz R. Smith, president; G. Henderson, San Marcos, secretary; and Mrs. J. D. Sandefer of Abilene, historian.

An interesting event occurred Sunday when Mrs. J. D. Sandefer related certain facts that she had obtained in her search of the family tree.

The three days were happily spent in camps.

Other guests who attended the reunion were: Mr. and Mrs. Gracey Kerr and son; G. Henderson and sister, Miss Ruby, of San Marcos; Mr. and Mrs. J. T. Roberson and granddaughter, Lois Roberson, of Springtown; Mr. and Mrs. W. B. Mathes and nephew, Cecil, of Clovis, N. M.; Ben F. Smith, Big Spring; J. Tom Pickard, Miss Anna Kerr and Adlie Kerr of Weatherford; Dr. and Mrs. J. D. Sandefer of Ahilene and two sons of Breckenridge; Mrs. W. T. Talley and son, Shearer, Bruice, and newhep, Ervin Bruice, of Tyrone, Okla.

Mrs. D. P. Lane of Snyder was the oldest Gracey descendant present.

Fluvanna Well Drilling in Red Beds at 450 Feet

According to a report brought this newspaper by W. L. Power, Tuesday morning, the Cottingham & Briscoe Truss No. 1, which was several weeks ago spudded in about two miles south of Fluvanna, is steadily drilling in the red beds. The bit was down to around 450 feet on Tuesday.

The drillers expect to encounter about 1700 or 1800 feet of this formation before entering the lime, which will be considered some indication as to the outcome of the well. With the progress of drilling, it is noted that real estate and oil leases and, royalties are being bought and sold with increasing rapidity in the immediate sector of the Truss location.

LOGAN URGES EARLY ACTION IN GETTING READY FOR FAIR

"The Scurry County Fair catalog is being printed, the premium lists have been greatly increased, and now is the time for everyone to start getting his stock groomed, and his feed crops selected, and other exhibits lined up." Said County Agent Logan, Monday. "Each community or district should have an exhibit. Get your score cards and be ready to know what counts in an exhibit, use just the things called for, and get quality and attractive display arrangements. Union has a score card already, so does Fluvanna, and some others. Get yours. Don't let them ahead. Sept. 26 will be here quick."

Methinks 'tis better to be thought a fool than to speak and remove all doubt.

Important! See Page 7!

Horace Busby To Preach In Revival Here

Ten-Day Meeting to Begin Sunday at The City Tabernacle

Elder Horace Busby of Fort Worth, widely known evangelist of the Church of Christ, will do the preaching in a series of services to be held here under the auspices of the Church of Christ which worships on East Bridge Street. The meeting will begin next Sunday, Aug. 18, and will continue through August 28. The services will be held at 10 a. m. and 8 p. m. at the City Tabernacle, according to announcements being made at the church and on placards and auto stickers the past week.

Elder Busby has held meetings for many years in West Texas and is considered one of the denomination's best evangelists.

E. M. Taylor of Snyder will conduct the music during the meeting.

VISITING PLANE IN CRACK-UP AT AIRPORT SUNDAY

Weakened Landing Gear Cause of Minor Damages to OX-Swallow

An OX-Swallow plane, owned and piloted by O. V. Sims of Slaton, conductor of the Western Union line crew now working here, was damaged when landing at Yoder Field late Sunday evening. A shock absorber cord fastener broke, causing the entire landing gear to collapse. The propeller striking the ground after the collapse of the landing gear, was demolished, and there was slight damage done to the lower left wing.

Neither Sims nor the passenger accompanying him was injured.

The plane is now in the hangar at Yoder Field awaiting the arrival of a new propeller and being repaired.

BAND ELECTS OFFICERS AT ITS TUESDAY MEETING

The Snyder Municipal Band went into a permanent organization at its regular meeting Tuesday evening, electing W. W. Hull, leader; Watt Scott, manager and Mrs. J. W. Crowley, secretary, treasurer and reporter.

Bandmaster Jas. W. Crowley states that the band is preparing some concert numbers to use when the band plays at the Dallas Fair this fall, and that members expecting to be in the personnel of the band at that time and other times when concerts are given will have to be prompt and punctual in attending rehearsals, as this will be a deciding factor in the selection of the players for all concerts.

The band will enter the six month class, and all members must have been active members for 60 days prior to the contest and attended 75 per cent of all rehearsals in order to qualify.

There is still room in the organization for new members, Mrs. Crowley says. Playing members are not asked to pay fees; it is an "open house" band. Application blanks for membership are obtainable from the secretary.

SNYDER TRANSFER NOW OPERATING UNDER R. R. BODY

The Snyder Transfer Company was last week notified by the Texas Railroad Commission of the issuance of a Class A Carrier's Certificate of convenience and necessity, which was authorized by the 41st legislature in an act to supervise and regulate the operation of motor lines making regular schedules.

The Snyder Transfer operates a daily truck service to Sweetwater via Roscoe. Pete Bridgeman last week had a large placark printed at the Times-Signal office telling of the various merits of his hauling service. He has an ad in this issue.

Lack of snowfall last winter and scarcity of rain this season has changed what were once sparkling pools to dried bogs and thousands of the feathered game in the providence of Saskatchewan, Canada, have died through lack of water.

Be positive, not a negative, force in town, Advertise!

Many Planes Attend Airport Dedication

Snyder's Plane and Aviation Boosters Take Part in Celebration

Airplanes in the air, airplanes on the ground, 260 acres of it, commercial planes, army planes, of all types and sizes, even a motorless glider, planes in speed contest, races, stunts, doing dives, loops, wing-overs, flying on their backs, parachute jumps—all this gives a general idea of the opening day of dedicating her municipal airport.

With hundreds of cars and thousands of people from many West Texas points present to witness the spectacular air events, Saturday's opening program was a decided success and a curtain raiser for Sunday's events, which included a larger number of stunts, including balloon bursting contests, more glider flights and parachute jumping.

The dedication of the Sweetwater airport, which has been in operation since March, brought pilots and ships from all over Texas, including San Antonio, Houston, Fort Worth, Dallas, El Paso, Abilene, Big Spring, Breckenridge, San Angelo, Wichita Falls, Snyder and from Tulsa, Okla., and Los Angeles. Thirty-five planes of all types were present for the opening day's events and others joined Sunday.

Cotton Holding Up Good Under Long Drouth

According to unofficial reports from over the county, the cotton seems to be holding up well in spite of the dry weather. The actual condition of the crop, however, is exceedingly hard to determine. The situation is somewhat peculiar in that the cotton is needing rain, while if it should rain enough to do the growth and fruiting much good, the same rain would encourage leaf worm which wrought havoc to cotton in this section last year.

The feed crop is suffering because of the dry weather. However, if it should rain soon a lot of feed will be made.

County Agent, W. O. Logan has the following to say in regard to poisoning the leaf worm:

"The leaf worm has been playing havoc with cotton, but the farmers know how to stop him. When a necessity arises to stop insects or diseases that prey on field crops or livestock it's interesting to watch how quickly homemade mixtures, or tools, or methods and ways are developed. The A. & M. College or county agent, gives a general outline; a few use it, money is scarce and home inventions come along.

The Commissioners court, through Judge Holley, has kept calcium arsenate available for Scurry County farmers. That's real service this year, for poison has been hard to locate and keep. Worms do their damage in a few days.

"We do not recommend white arsenic for use against leaf worm, but some fellows keep using it. If you are going to use it anyway, the satisfactory way seems to be: 5 lbs. white arsenic, 5 lbs. sal soda, or 5 lbs. lye, and 5 gallons of water. Mix and boil for twenty minutes. Then of this mixture use one-half gallon to every five gallons of water.

"We recommend calcium arsenate for leaf worm, 4 pounds to fifty gallons of water. In case of emergency you can use one pound of Paris green to fifty gallons of water."

HIGHWAY GARAGE MAKING GOOD TIME IN ZEPPELIN RACE

The Highway Garage will be well over its quota of sales of Goodyear tires and tubes by the end of this week in the national Goodyear Zeppelin race, according to J. R. Hicks, manager of the local garage.

The Snyder quota for July and August was set by district headquarters at 296 points, while Mr. Hicks had already passed the 230 point mark at the end of the fifth week. Each tire sold counts 1 point and each five tubes one point. Mr. Hicks sold 160 Goodyear tires and 147 Goodyear tubes in July.

The four dealers in the Dallas district making the highest per centage over their quota will be awarded a trip to the Goodyear factory in Akron, Ohio, and the local firm is in the race to win one of these trips.

"I consider that the extensive national advertising campaign being conducted by the Goodyear company and the intensive local advertising campaign are the two big factors contributing to the large volume of business we have enjoyed," Mr. Hicks said Saturday.

A Challenger powered Curtiss-Robin plane, piloted by Hugh Smith, an official of the Texas Air Transport, Fort Worth, landed at Yoder Field Sunday afternoon.

Hereford claims the largest single wheat field under one fence in Texas. It comprises 5,000 acres.

School Board Will Enforce Tax Payments

Delinquent List to Be Made Public and Drastic Action Started

At a recent meeting of the board of trustees of the Snyder Independent School District, it was decided that drastic action was now necessary to cause payment of delinquencies in tax payments. Accordingly, the following notice was approved and handed the Times-Signal for publication. It is self-explanatory:

NOTICE TO TAXPAYERS

It is the duty of the board of Trustees of the Snyder Independent School District to assess and collect taxes for school purposes on all real and personal property within the confines of the district. This we have tried to do by fair and honest means, being as conservative at all times as was consistent with the needs of the school.

In spite of our efforts, a long delinquent tax list has grown, the aggregate of amounts delinquent reaching into the thousands of dollars. Such a status of affairs is not equitable to those who have borne the burden of taxation and should not be allowed to exist. For the past two years, the Board has endeavored, through personal letters and otherwise, to effect collection of delinquent taxes, but we have been unsuccessful. Appeals to patriotism and public spirit and pride have been without avail.

The time has come for more drastic action. Next week, we expect to publish a list of the names of delinquent tax payers together with the amounts due and unless settlement is made at once, we will proceed under the law through the courts to enforce payment of these just obligations. We regret to be compelled to take action of this kind and do so only as a matter of last resort.

BOARD OF TRUSTEES
By J. S. Bradbury, Sec'y.

100 IN TRAINING SCHOOL CONDUCTED BY MISS DURANT

About one hundred young people are attending the B. Y. P. U. study course being conducted by Miss Agnes Durant of Fort Worth at the First Baptist Church this week. Miss Durant is giving lectures on the various phases of young people's work and is aiding in the perfecting of organizations.

Each evening, Miss Durant makes a talk and then directs a 15-minute fun period. In this period two sides are organized—the Rattails and the Polecats—each with its appropriate sign and yell, that are vieing for honors in an enlistment program for the week. After the fun period in the basement of the church, Miss Durant leads another study period.

Miss Durant had charge of the two church services Sunday and acted as general director of the general organization of Baptist Young People's Unions. She will be in the services again next Sunday.

FINE COTTON ON WILL CLARK FARM SOUTH OF TOWN

Ninety Acres Looks Fine With No Trace of Boll Worm or Signs of Drouth

Will Clark brought in two fine stalks of cotton Saturday which were taken from a field of ninety acres on his place five miles south of town where Elvin Thompson is his tenant. The two stalks were about two feet high and were completely rfuited with squares, blooms and large bolls. The tap root was almost a foot long and was well developed.

Mr. Clark said this cotton came up on June 5 and that a fine yield will be gathered from the field if nothing happens to it. There are no boll worms at all in the field, while there have been found a few leaf worms which have not done any material damage, however.

BROTHER OF THOS. LEE IS DROWNED IN LAKE ERIE MONDAY

Thos. H. Lee left Monday for Toledo, Ohio, to attend the funeral services of his brother who was drowned in Lake Erie Monday. He received the sad news shortly after the drowning and left immediately. He is expected to return to Snyder the latter part of the week.

YES, IT DOES!

What does?
Advertising!
Does what?
It pays!
Pays what?
Pays you large returns on the small amount of money invested—not spent—in it.

H. H. Thomas, manager of the J. C. Penney Co. local store, last week placed an ad in the Times-Signal classified columns asking for the return of a dog valued as a pet by his child. Before he could say "Scatt!" the dog was returned, and his youngster was happy. Times-Signal classified ads will do the same for YOU.

SNYDER GUARDSMEN WIN HONORS AT CAMP PALACIOS

CAPT. SENTELL PLACED AS INSTRUCTOR IN SCHOOL OF COMBAT

Wins Streamers

Scurry Boys Receive Copies Of Times-Signal and Extend Thanks

Outdoing their last year's fine record at camp, Company "G," 142nd Infantry, Snyder's National Guard company, under the command of Capt. John E. Sentell, has been signally honored and widely recognized this year at Camp Palacios, according to a special dispatch from Sgt. Walter C. Dever early this week.

Captain Sentell was honored by an appointment as instructor in the Regimental School of Combat Principles and Tactics, and reports are that this year's camp has the best school in the history of the division. This appointment of necessity leaves the company of over fifty men in the hands of First Lieutenant Moore and Second Lieutenant Cook, who are bringing the organization to high efficiency.

Company Honored

On Friday afternoon, August 9, units of the regiment assembled on the parade grounds for decoration. There were three streamers to be given away: first, a white streamer for Very Satisfactory rating at Federal Inspection (the highest rating given); second, a red streamer for having 30 per cent of the men in the company qualified with rifle; and the third streamer for having 100 per cent attendance. When the companies of the 142nd regiment had assembled, the officers and "guide on" carriers did front and center to the tune of Yankee Doodle, forming lines immediately in front of the reviewing stand to receive the streamers they were entitled to. As the company letter was called, the "guide on" was lowered and the streamer tied on. Company G's guide on was lowered three times, carrying off all three of the streamers. There were only three companies in the entire regiment that received all three of these streamers, and Co. G was the only company in the Second Battalion to receive them.

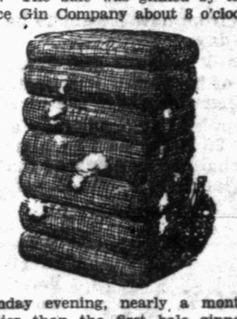

Thanks Times-Signal

A bundle of twenty-five papers was mailed to the boys in camp last Thursday. Sgt. Dever in his letter pays the Times-Signal a fine compliment by saying, "We received the papers for which the officers and men of Company G thank you. We are always glad to hear from home, and receiving the papers at this time convinces us more than ever that we have the best paper in West Texas. We want to thank you for the write-up and for the printing of the picture in the paper and tell you that we appreciate the co-operation and help you have given us."

Company G entrained for Palacios Saturday afternoon, August 3 and arrived there at 10:30 the following day. The afternoon was spent pitching tents and getting ready for two weeks intensive drilling activities. The company will arrive in Snyder Monday morning at 1:00 o'clock on a special train. Company G's car will be sidetracked, and the men will detrain at 6 o'clock.

Polar Man Gets First Bale 1929 Cotton to Snyder

J. W. Parr of Polar received the honor this year of bringing the first bale of 1929 cotton to Snyder Monday. The bale was ginned by the Trice Gin Company about 8 o'clock

Monday evening, nearly a month earlier than the first bale ginned last year, when H. J. Turner brought the first bale on Sept. 5, 1928.

The bale weighed 425 pounds, was classed as middling, and was bought at auction by Hugh Taylor & Co. for 20 cents a pound. The business men of Snyder made up a purse amounting to $52.50 for Mr. Parr. Last year's first bale was also sold to Hugh Taylor for 21.25 cents, and weighed 455 pounds.

Who will bring the second bale?

Ancestors of Circle Bulls Win Awards

"This is good news to Scurry County breeders, just red hot off the Jersey Bulletin," says W. O. Logan, county agent. "Sophie's Agnes' Laddie 179327, another fine bull of Hood Farm Breeding, has qualified for a Silver Medal. This new Silver Medal sire, formerly owned by W. R. Kenan, Jr. of Lockport, New York, has the distinction of having three out of the six nearest ancestors in exclusive Medal Merit class. Both his dame and graddame have world records for production. In addition to the Silver Medal records made by his daughters, one of his sons, Sophie's Fairland Tormentor, 212910, has recently won Silver Medal award. At least half of the thirty-one daughters of Sophie's Agnes' Laddie made their records with first calf. In the total of thirty-eight complete records, twenty are all above 500 lbs. butterfat, all except seven being made in 305 days tests. The high production ability of his daughters is further shown by the fact that one has produced 888 lbs. butterfat as a four year old, another 7444 pounds as a four year old and a third 711 as a two year old, and eight others over 6000 pounds.

Both Mr. Kenan and Mr. Lasater think well of this bull, and at present Mr. Lasater has twenty of his daughters on test, several of which have produced above 60 pounds of fat in a month.

Bull Circles one and two of Scurry County have seven sons of this great bull. They are real blue blood bulls, and farmers here have a chance at their service. Surely you realize what a great chance this means to Scurry County."

"The members of the Bull Circles," Mr. Logan says, "can't realize that they have in their control the most widely recognized Tormentor blood to be found. They have sons of the above great bull and half brothers to a Silver Medal bull. This kind of breeding is very hard to obtain today, and when obtained is very high. By treating these circle bulls right, and feeding them right they are good for many years, and better blood cannot be had."

TRACY T. SMITH APPOINTED JUDGE AT BIG SPRING

The following article is taken from the Big Spring Daily Herald:

"Fifteen and cost."

"Yes, yer Honor."

Beginning at 10 o'clock each morning on the second floor of the City Hall you'll hear words about like those, for the Big Spring Corporation Court is in operation.

By appointment Tracy T. Smith has been made corporation judge. City Attorney James T. Brooks, of course, is the prosecutor in this court, with Chief E. A. Long and his force in charge of the enforcement end of the business.

Two members of the same family—father and son—now hold court in Big Spring.

Fritz R. Smith of Snyder, is district judge of the 35th judicial district, and presides over district court here. City Judge Tracy T. Smith is the district jurist's son.

This is an unusual honor for our friend, Tracy, and the people of Snyder will be happy to learn that one of the boys from the old home town is making good in his chosen profession. The Times-Signal extends congratulation to Tracy now Judge Tracy T. Smith.

Act Like a Success—Advertise.

CHURCH OF CHRIST CLOSES REVIVAL MEETING SUNDAY

The first Church of Christ last Sunday evening closed what is said to be the best meeting this congregation has had in several years. At the end of the second week interest had grown to the point that it was advisable that the meeting continue another week.

Thomas M. Broadfoot, local minister preached during the three weeks series of services, and Paul Campbell, singer-artist, had charge of the singing and presented a unique program of art and song during the three weeks. His work with the young folks was remarkable. Brother Broadfoot delivered sound and profound sermons morning and evening throughout the three weeks.

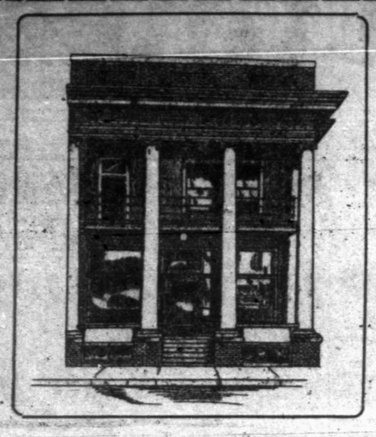

Eighteen new members were added to the church, nine of whom were received by baptism and nine by statement.

Brother Broadfoot left early this week for his vacation which he will spend in Weatherford and Dallas. Accordingly, there will be no preaching services at his church next Sunday. Sunday School and Communion will be observed, however, he said.

MOTHER OF HORACE LEATH DIES MONDAY AFTERNOON IN ALABAMA

G. H. Leath received the sad news Monday evening that his mother, Mrs. H. T. Leath, had died that afternoon at 4 o'clock. Mr. Leath left immediately for the family home near Jamestown, Ala., where the funeral was held Tuesday afternoon at 3:30. Mrs. Leath was 69 years of age and had been in ill health for some time.

The Times-Signal offers sincere condolence to the bereaved loved ones.

A SUCCESS STORY

"Twenty-five years from now I want to be worth at least $50,000," said a young man one day.

So he opened a bank account and saved about $90 out of each month's income. Part of his money was kept in the bank and part of it was wisely invested otherwise under the direction of his banker.

He really saved from his pay check only a little more than $20,000, yet at the end of the 25 years he had almost $60,000. Such is the power of interest in behalf of money that that is wisely kept at work.

This bank will be glad at any time to assist in your investment and other financial problems.

It requires 50 pounds of tallow candles to produce as much light as 1,000 cubic feet of gas.

Mrs. Frank Darby was removed from the local sanitarium to her home Sunday. She is doing nicely.

Mrs. J. R. Huckabee and daughter, Miss Mary Bob, and Miss Jonnylee Shaw spent Sunday in Roscoe.

Mr. and Mrs. Ben Lockhart of Lubbock were guests of Mr. and Mrs. Bert Baugh Saturday and Sunday.

Mr. and Mrs. Alfred McGlaun and little son, Billy, returned home Friday from a week's visit in South Texas points.

Mr. and Mrs. Willard Jones and little son and J. C. Smyth returned Sunday from a trip to the Carlsbad Cavern.

J. B. Baugh, Melvin Wylie and Hilton Lambert returned last Wednesday evening from a trip to the Carlsbad Cavern.

Elmo Crowder and Cleve Blackard returned Friday night from their vacation spent in Riodosa, New Mexico.

Mr. and Mrs. L. A. Richards and three children returned to their home in Pecos Mnoday after a several days visit with Mr. and Mrs. R. H. Bell.

Show the town you're alive and young in spirit—Advertise!

Sheriff J. R. Jenkins and daughter, Frances, of Gail spent Wednesday and Thursday with Mr. and Mrs. N. M. Harpole.

Miss Esther Hargraves returned to her home in Dallas Friday after a week's visit with Miss Mary Lynn Nation.

Mr. and Mrs. D. K. Allison of Post and daughter, Mrs. Entler Edwards, of Dallas were guests of Mr. and Mrs. R. E. Gray Sunday.

Mr. and Mrs. J. R. Joyce left Sunday for Houston where they are guests of Mr. and Mrs. Beckton Templeton.

Mrs Anna Bynum, who has been a guest in the Gray home for the past week accompanied Mr. and Mrs. Allison to Post Monday.

Misses Gladys and Bess Hudson returned to their home in Lubbock Sunday after a week's visit with their sister, Mrs. W. S. Gillum.

Mr. and Mrs. Raymond Cole and two children returned to their home in Fort Worth yesterday after a week's visit with relatives here.

Mrs. Mark Benton and son and Miss Bessie Benton of Jayton spent last week-end with Mr. and Mrs. A. H. Trice and Dollie Trice.

Mrs. J. A. Farmer, Mr. and Mrs. Raymond Cole and two children of Fort Worth and Miss Doris Pope Elza were guests of relatives in Lubbock Tuesday.

Mr. and Mrs. A. H. Trice spent last week in Waxahachie, Boyce and Bardwell. Mr. and Mrs. T. J. Trice returned home with them from Hillsboro.

Mr. and Mrs. O. S. Williamson daughters, Misses Lila Mae and Hilda Gene, left Sunday for Tahoka where they will be the guests of relatives several days.

Mr. and Mrs. H. G. Towle and daughter, Mary Margaret, and Mr. and Mrs. John Carmichael of Odell returned home Tuesday evening from a trip to the Carlsbad Cavern.

Mrs. J. D. Isaacs and daughters, Misses Lela, Mable, Farene and Jeffie D. and Miss Polly Harpole left Sunday for Hereford where they will visit Mr. and Mrs. Howell Harpole.

Mrs. Z. T. Champion left last week for Fort Worth where she is the guest of Mrs. Charles J. Harkness. Mrs. Champion also attended the Old Settlers Reunion at Alvarado on Friday.

A. P. Morris left Sunday on a business trip to Houston and San Antonio. Hs was accompanied as far as Brady by his daughter, Miss Alma Nell, who will visit at the J. L. Martin home there.

Mrs. Joe Strayhorn and daughters, Misses Cecile Dorothy and Neoma, left Monday for Los Angeles, Calif., where they will be the guests of Mr. and Mrs. J. W. Templeton, Jr.

Joe Harrington returned home Sunday from Temple where he accompanied his wife to the sanitarium at that place. She is being treated there for throat trouble. She is reported to be rapidly improving.

Mr. and Mrs. Charley Reichardt and family left Monday for Big Spring where they will make their home. Mr. Reichardt will be connected with the Williamson & Miller Gin Company in that city.

Mr. and Mrs. C. H. Eoff and son and daughter arrived Friday from Stephenville and are guests in the homes of Mr. and Mrs. Abe Rogers, Mr. and Mrs. Jess Eoff and Mr. and Mrs. Ixon Joyce.

Mrs. P. D. Gilbert of Lamesa, who was en route to Fort Worth last Friday, spent a while in Snyder with her sister, Mrs. J. L. Daugherty, who accompanied her. They returned home Sunday.

Mrs. Abe Rogers and children, Mrs. Ben Thorpe, Sherman and Miss Vallie Eoff, Miss Lillian Pratt of Sweetwater, Mrs. E. C. Neeley and Miss Lucille Davenport returned Tuesday evening from a trip to the Carslbad Cavern.

Mr. and Mrs. I. R. Moore were called to Hollis, Okla. Friday on account of the illness of Mrs. Moore's father. Mr. and Mrs. Moore have resigned their positions with the Lloyd Dry Goods Store here and will be connected with the Jones Dry Good Co. at Crosbyton after their visit in Oklahoma.

The Times-Signal wishes to make correction of a local that appeared in our issue last week. The local read: Dr. and Mrs. H. E. Rosser and Mr. and Mrs. W. R. Minor returned home from Roswell, N. M. The item should have read: Dr. and Mrs. C. E. Walker and Mrs. W. R. Minor returned from Roswell.

Mrs. Mary E. Banks returned Tuesday from Plainview where she has been visiting Mrs. A. B. Roberts. Mrs. Roberts is now improving and is able to be up some.

Mrs. Thos. H. Lee returned home Sunday from Hot Springs, New Mexico, where she enjoyed a several weeks vacation.

Mrs. Claude Sims returned home Monday from Abilene where she underwent an appendicitis operation. She is doing nicely.

Miss Frances Ratliff of Midland arrived Sunday and is a house guest of Miss Dixie Ruth Smith.

Mrs. Dixie Smith and daughter, Miss Dixie Ruth, and Miss Frances Ratliff spent Monday in Abilene.

President J. W. Hunt of McMurry College of Abilene experienced his first airplane ride with Pilot R. L. Lowry at Yoder Field last Friday. "A wonderful experience!" he says.

Carl Yoder and Fred Yoder flew with Pilot Lowry to the Sweetwater airport dedication last Saturday. D. P. Yoder drove down later in the day.

Pilot "Slim" Lowry will fly the Curtiss-Robin plane owned by L. H. Plain of Lubbock at Plainview next Sunday carrying passengers. The noted stunt man, Percy Miller, a one-legged parachute jumper, will make a jump from the plane Sunday.

Mr. and Mrs. Ed. Thompson and children and Mr. and Mrs. Earl Clanton returned home last Thursday from Joplin, Mo., where they visited relatives.

Mr. and Mrs. Fred L. Ebling left this morning for Memphis, Mo., where they will visit with Mr. Ebling's parents for about ten days.

Mr. and Mrs. O. Randolph and Dr. J. G. Hicks and son, Bobby, spent Sunday in Memphis visiting relatives.

Ben F. Smith, formerly editor and owner of the Times-Signal, was a visitor here Monday en route to Big Spring after attending the Gracey family reunion near Palo Pinto.

Judge and Mrs. C. R. Buchanan and Mr. and Mrs. George D. McJimsey spent Saturday and Sunday with relatives in Childress. They were accompanied home by Miss Doris Buchanan who had been visiting there for the past week.

Judge and Mrs. C. R. Buchanan, Miss Doris Buchanan, Mr. and Mrs. George D. McJimsey, Mrs. T. S. Egerton and Miss Virginia Egerton left Wednesday for a week's visit with relatives in Midland and Marfa and to attend together the Bloy's camp meeting near Fort Davis.

Judge and Mrs. Fritz R. Smith and sons, Fritz R., Dodson and Coleman, Dutchie Cauble and Pete Hutchinson left yesterday morning for a vacation trip to the Davis Mountains.

Chain Banking Coming Next

While many oppose it, Texas bankers seem practically unanimous in their belief that chain banking will soon be here, states E. H. Brown writing in the August issue of the Texas Commercial News.

The effect of chain banking on the welfare and success of Texas business men is a matter of paramount importance. The article quotes the views of a number of bankers from all sections of the state. Some are against chain banking in Texas and take the position that it will drive the smaller country banks out of existence. Others, feeling that service to the customer is the keynote, believe that chain banking represents a great step forward and are, consequently, in favor of it.

Some bankers entertain the opinion that chain banking will never made a successful entree into legal and other reasons. These, however, seem to be in the minority. Of all classes of business men, bankers keep in closer touch with general tendancies of business than all others, and they realize that mergers, consolidations and chains are the order of the day. They know, too, that chain banking has has made a successful entree into financial field both on the Pacific and the Atlantic, and are convinced that it is only a question of time until it will appear in Texas.

The article in the Texas Commercial News discusses chain banking from the standpoints of its influence on business men, its effect in promoting or holding back territorial development, and its results on the social and economic structure of the state.

GRADUATION EXERCISES AT THE TECH AUGUST 23

Graduation exercises for the summer session of Texas Technological College will be held from 10 to 12 o'clock August 23, with Dr. T. D. Brooks, dean of the School of Education of Baylor University, delivering the address. Sixty-five candidates will receive bachelor of arts degrees, and ten candidates will receive master of arts degrees, making a total of 171 bachelor's degrees and eleven master's degrees conferred by the college this year.

In the old days they made a young man who applied for a bank job submit to a test on the adding machine. Now they see how good he is with a gun.

LUBBOCK GETS THIRD CREAMERY

With the opening of the new $200,000 poultry packing and creamery plant of the Lubbock Poultry and Egg Company, Lubbock now has what is claimed to be the largest poultry packing plant in the Southwest. The plant has just been completed and occupied. The latest modern equipment and conveniences have been installed, according to Dick White, manager.

S. U. Cowboys Face Hard Grind

Eleven games have been scheduled by the Simmons University Cowboys of Abilene for the coming football season. They include two Southwestern Conference tilts, five Texas Conference games, two games with T. I. A. A. teams and one with a non-conference aggregation.

Feature games of the season are the opening game with Texas University at Abilene September 28, a contest with Texas Christian University at Breckenridge the following week, and the Thanksgiving game with Texas Tech at Abilene.

With two games less to play than they had last year the Cowboys expect to come through with a better record for the coming season. Five games were played within three weeks during the first part of last November and the heavy schedule took its toll from the reserve strength of the Cowboy team.

The schedule: Sept. 26, Texas University at Abilene; Oct. 6, T. C. U. at Brecekenridge; Oct. 12, Open; Oct. 19, Daniel Baker at Brownood; Oct. 26, West Texas Teachers at Amarillo; Nov. 1, Austin College at Abilene; Nov. 8, Southwestern University at Abilene; Nov. 11, Trinity University at Waxahachie; Nov. 22, St. Edwards University at Abilene; Nov. 28, Texas Tech at Abilene; Dec. 6, Howard Payne at Abilene.

Mutual Interest and Profit

$ $ $

Of course maintaining an account will make a man a bank depositor, but—not necessarily a success.

A person may deposit a certain amount regularly and still not make the most of his banking connection.

Wise is the man who deposits his money regularly and cultivates a close relationship with his banker.

It is our intent and desire to take a personal interest in our depositors—and merit their friendship. The natural result of interest and friendship is mutual profit.

Don't forget this is your bank. Call often.

The Snyder National Bank

Nearly a Quarter Century of Complete Banking Service

but some of them are not earning operating expenses. If a railroad is fortunate enough to earn more than 6 per cent, the government takes one-half, and regulate the use of the other half.

The intent of the law was that the government should use the excess it takes for making loans to weak railroads. Still, so far as is generally known, it has never used a dollar of this money for that purpose. In fact, its requirements for security are such that the borrowing road could, with similar collateral, get the money from any bank in the United States at a lower rate of interest than the government exacts.

Another prevalent hallucination is that freight rates vitally affect retail prices. Consider that the cost of mailing a post card will carry an average pound of freight 1,815 miles, and a common argument for advanced retail prices is blasted.

COMMUNITY PROJECTS

A LIBRARY BUILT BY LOVING HANDS

In behalf of the Culture Club of Grand Rapids, Ohio, I want to tell you of the splendid gift we gave our small town. Almost five years ago we saw the need of a library. Without money it seemed an impossible achievement.

After much thought, however, we decided to ask for a book donation. A house to house canvass was made, and we finally collected nearly four hundred books. We then secured a room in the town hall, cleaned and re-decorated it in blue and yellow.

Our club gave an amateur play, which netted us $75.00. Some friends donated about $20, and a sale of old papers and magazines gave us ten dollars more. We used this money to buy new floor covering, pretty curtains for the windows and lovely furniture, painted blue and orange. This made an attractive background for our books.

At Christmas each club member gave a new book as a gift. Later she was asked to collect three books from three friends. More money was needed, so we decided to try the ever popular "Tag Day." Sixty dollars was secured in this way. We continue with the "tag day" and "old paper sale" each year.

Twice a year we buy new books and charge 5 cents a week for their use. Today we have about twelve hundred books. This year we added a new set of Encyclopedia in a special bookcase.

The library is free and each club member serves as librarian two days in the year.

We also planted an evergreen tree in our little park; this will be lighted and used as our community Christmas tree this year.

Mrs. Edward N. Oberle
Grand Rapids, Ohio.

This article used through the courtesy and by permission of Anna Steese Richardson, director of the Good Citizenship Bureau of the Woman's Home Companion.

DERMOTT NEWS

Our community needs rain badly, crops are burning. The worms have started on the cotton crops and several in the community have been poisoning their cotton, rain would be very muchly appreciated.

"NOAH'S ARK" PROVES TO BE WONDERFUL SOUND PRODUCTION

Last Wednesday and Thursday Snyder enjoyed one of the most stupendous and marvelous screen productions in her history when the Palace Theatre presented the Warner Brothers Vitaphone picture, "Noah's Ark." This screen triumph proved what it was advertised to be—the best the screen has offered.

While the story was not strictly orthodox nor accurate in its entirety, the theme of the greatest catastrophe of all ages was carried through in its purity. The modern parallel of the deluge was depicted in vivid scenes of the world war.

The remarkable scenes, which included the train wreck in the opening part of the film, the war action a little later on, the magnificent court and idol worship scenes of the time, and finally the almost unimaginable depiction of the flood. One must see this last colossal scene to fully appreciate it, and then its picturization almost exceeds the imagination.

The musical score of the Vitaphone Symphony Orchestra gave added realization to the awe-inspiring production.

And all this was done in a movie lot in California! Truly, science and the motion picture industry have not been divorced.

The people of Snyder should be congratulated on having the opportunity of seeing such outstanding creations as this picture and others that Mrs. Lollar is bringing to the Palace from time to time.

SCURRY COUNTY BOYS WIN TWELFTH PLACE IN STOCK JUDGING

The Scurry County boys that judged dairy cattle at A. & M. during the Short Course won 12th place with fifty-odd teams competing. The boys scored 939 points, while the five high teams went to 1000 and above, but the others were only ten to twenty points above Scurry. Martin Murphy scored 327, S. D. Hays 316 and J. T. Beavers 296. The highest individual score was won the contest and will go to the with 363. The Lubbock county team won the contest, and wil go to the National Dairy Show representing Texas. There's another contest next year, and Scurry County boys look like excellent prospects, if they want it.

HALF OF BAYLOR'S $2,000,000 FUND UP, DR. BROOKS SAYS

More than one-half of the Baylor University campaign for $2,000,000 to erect new buildings and provide other improvements, has been subscribed, it was announced by S. P. Brooks, president of the Waco institution, who spoke twice Sunday at the Travis Avenue Baptist Church, Dallas.

"Citizens of Dallas and Baptists and other friends of the University in various parts of the State have subscribed to more than $1,000,000," Brooks said, "The people of Waco have agreed to raise $1,000,000, and already have subscribed and contributed a large part of a special fund of $400,000 for the erection of Waco Hall, a chapel building. This building is under construction. A woman's dormitory to be paid for out of the general fund also is under construction.

The Rexall Drug Store

C. E. Johnston, president of the Kansas City Southern Railway Co., says:

THAT it is amazing how a twist of ambiguity implants facts topsy-turvy in our minds.

For instance, there is a widespread impression that railroads are guaranteed a certain rate of return by our government. Nothing is farther from the truth.

Under the Transportation Act, the Interstate Commerce Commission set 5¾% as a fair return on the group valuation of all railroads, this valuation being assigned by the commission itself.

The duty of the commission was then to fix freight rates sufficiently ample to earn the 5¾%. Yet, during the period 1920 to 1928 inclusive, there was only one year in which railroads of the United States as a whole, despite general prosperity and higher efficiency, earned the full return prescribed as fair. In the western group, embracing all railroads in the territory west of the Mississippi, the designated "fair return" has never been reached. The difference has never been made up by the government, or any other agency—so how can it be constructed as a guarantee?

Should a railroad earn more than 6 per cent on its assigned valuation, one-half of the excess amount must be paid over to the government, and the other half must be placed in a reserve fund. Consequently, not only are railroad companies not guaranteed any return,

ALIVE

with spirit and the will to go

Once you drive a new Dodge Six, you'll never cease to marvel at its dash, its vim, its sparkling alacrity. It is so much more than just a piece of machinery. It is fairly surcharged with life and animation—alive with spirit and the will to go. It typifies the finest, most modern design and construction. In the quality of its materials and the precision with which it is manufactured it is unsurpassed. Scores of other refinements give the new Dodge Six a zest, a smoothness and a flexibility unapproached by any other car comparable in price. It is, indeed, an unmatched value.

WEAK SPELLS

"I WAS so weak," says Mrs. Josephine Cockcroft, of Baldock, S. C., "that I was not able to do anything.

"At certain times, I suffered dreadfully with pains in my back and sides. My head would hurt—felt like it would split open. Spells of weakness would last for weeks.

"I read of Cardui. I sent for a bottle and began taking it. My case was stubborn, and at times I almost lost hope, but I could see a little improvement. At last I began to feel much better. Then I improved rapidly. For the last year I have been in better health than I ever have been before.

"I give the credit to Cardui, for after I had given it a thorough trial, I got well."

THAT ETERNAL QUESTION

That the tariff should come in for the larger share of the interest of the next session of congress is not surprising. It always does immediately following the advent of a new administration and new congressmen. Now that the Farm Board has been created, Will Rogers will have to write copy about the dull subject of the tariff. So much has been said on this suject, both serious and humurous, that it is hardly worth while to discuss it thoroughly.

Tariff opinion according to the Texas Commercial News, is divided into three classes: Those who want no duties at all, those who favor wholesale upward revision, and those who, like Pres. Hoover, advocate moderate changes which experience has proven necessary.

The first class would allow foreign goods to flood the American market at prices which domestic manufacturers, paying high wages, could not meet. The result would be a higher cost of living, and an imperiled foreign trade. If foreign producers could not sell their goods here, they would have no money with which to buy our exports.

The logical attitude is that of the third class. They realize that American industries and workers must be protected; but they realize likewise that fair, equal competition, made possible by reasonable tariff, is best for all concerned.

Certain sections of our present tariff undoubtedly need revision, either upward of downard as conditions warrant. Sound business principles, not emotion or politics, should dictate the change.

THE AUTOMOBILE AND THE MOVIE

A year or so ago, the first talking picture appeared, and there were those who said that they would never do, that they could never replace the old silent photoplay. There were those who scorned the studios for dashing, as they thought, wildly into the talking picture. It may have been a wild dash, but it was proved that the studios knew what they were about. This is proved by the number of astonishingly fine talking pictures that have been produced during the year.

Turning back a few years to the automobile, if the critics had been listening to there would not be the developements we have today. In the early days of the automobile, you entered from the rear, and usually the machine was without a top or a windshield. Most of the highways were dirt roads. The result was that after an afternoon's driving, you returned home covered with dust and dirt.

In those days if you drove five hundred miles without changing a shoe, you were lucky. And that was a pretty good job! It was rare thing to drive an afternoon without smutting all the spark plugs. That was another nice job—taking out the spark plugs and cleaning them off! If you parked your car some cool night, what a pretty time you had cranking it.

While all these shortcomings were inherent in the automobile, the fault-finders were busy at work; but at the same time the automobile people were busy at work devising means of overcoming these shortcomings.

While heads have been shaken at the talking picture, the studio people have been finding means to overcome deficiencies. The automobile did not come as a full blown miracle, nor did the talking motion picture.

But when they did come—my, with what speed!

CIRCULATION CAMPAIGN

The Scurry County Times-Signal in this issue takes exceedingly great pleasure in announcing a big prize subscription campaign.

The purpose of the subscription drive is to increase the already fast growing circulation of the Times-Signal. We are not contemplating any increase in advertising rates, but are doing this to be able to render better service to those who buy space in the paper.

In other words, we want the Times-Signal to be a welcome visitor in the home of every family residing in the trade territory of Snyder, Texas.

To accomplish our purpose we are willing to spend hundreds of dollars during the next few weeks, till in the end of the subscription drive we will have added 2,000 bona fide subscribers to our present subscription list.

The prize list we are offering is, to say the least, a most pretentious one. Two very late model Chevrolet automobiles will be given those two ladies receiving the greatest number of vote credits issued during the campaign.

A model 92 Majestic Radio will be the third grand award, while other prizes consisting of jewelry will make up the balance of the prize list. In all over $1800 in prizes will be given away absolutely free to those who will surely enter their names.

A commission feature has been added to the prize list that will guarantee those not receiving one of the prizes as advertised 15% on every dollar collected on new and renewal subscription orders.

In order that this campaign will not be found wanting of anything necessary to its success, we have engaged the services of that well known circulation firm, Frank Kane and Company of Fort Morgan, Colorado. Both Mr. and Mrs. Frank Kane will be in charge of the campaign till the very close on October 7, 1929. We know they will be a great help to the ladies who will enter their names in order that they can drive off one of the Chevrolet automobiles October 7.

The Times-Signal has great faith in Scurry County as is evidenced by the fact that we are spending hundreds of dollars in this campaign that will prove a great service to those advertisers whose messages appear weekly in the Scurry County Times-Signal.

EXAMPLE OR EXHORTATION?

Showing a man how to do a thing doesn't make him willing to do it. Yet exhorting him to do better has no effect until you show him how. You must show him the beautiful valley till he wants to be in it, and then gingerly take his hand and lead him there-unto.

Men are sensitive about being helped. If you show a hundred men who cannot help themselves how to begin helping themselves, most of them will tell you to mind your own business. The story is related of a corporation president who hired a $15,000 counsellor to tell him what was wrong. The counsellor told him; whereupon the president not only discharged him but sued him for libel.

Barring calamity, the seat of a man's success or failure is in his brain. If he is a success, he will be flattered to hear this; if he is a failure he will be offended to hear it; because the everage man won't stand for a reflection on his intelligence any more than he will for a reflection on his wife. But—

We are not average men, are we? Sh' say not! We've got the courage and sportsmanship to step up to bat no matter what kind of curves the pitcher's throwing! If a straight fast one hits us in the midriff, we'll curl up in the grass for a moment and then as breath comes back get up and laugh it off! That's the kind of boys we live for in this sanctum.

How to Raise Poultry

By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

ARTICLE XXXI

The Great Molting Mystery

The Puzzling Phenomenon of Molting May Be Used as a Valuable Guide When Culling Flock to Eliminate Poor Egg Producers.

Editor's Note—This is another story in a series of 52 stories on poultry raising written by the well-known national authority, Dr. L. D. LeGear, V. S., of St. Louis. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

A rather amusing story has gained considerable circulation among poultry fanciers. Young Mrs. Newlywed stopped the local veterinary on the street and demanded that he come over immediately to inspect her flock of blooded leghorns. A lot of them, she said, had suddenly become afflicted with a strange, apparently contagious malady.

When asked for a description of this peculiar disease, she explained that, one after another, they had ceased laying and then begun to lose their feathers in a most alarming fashion. Starting with the neck feathers, they had successively lost in turn the body feathers, then the tail feathers and, finally, most of the wing feathers until they were practically nude and truly pitiable objects. The young woman was naturally quite relieved when the old doctor informed her that it was just as natural for her hens to shed their feathers at a certain time of the year as it was for certain kinds of trees to shed their leaves. They were simply molting and would recover shortly without any great effort on her part.

I shall make no effort to vouch for the truth of this story. I do not hesitate to say, however, that I have often been amazed at the comparative lack of knowledge even among a great many experienced poultry raisers on the subject of molt. For example, there is a considerable difference of opinion even among experts as to whether the molt affects and controls egg production, or whether egg production controls the molt. Some contend that a hen stops laying because she is getting ready to molt and others maintain with equal spirit that the hen won't molt until after she is through with the business of egg production, for the time being at least. I, myself, am strongly inclined to the latter theory and I am supported in my belief by a great many qualified observers who also have given the matter considerable scientific study.

The exact sequence is of no particular moment to practical poultry raisers, however. The fact remains that molting does not start until after egg production has ceased, only in exceptional cases, regardless of which governs the other. Just why hens are committed to this peculiar habit of shedding their feathers once a year is another matter which has been the subject of a great many profound treatises by learned scientific men. The average poultry raiser is, however, mainly concerned with the fact that this peculiar phenomenon may serve as a very valuable guide in the culling out of poor layers from the rest of the flock.

Most authorities now agree that the hens which start molting earliest and keep it up longest are the poorest layers. Good layers seldom start molting until later in the fall and are completely finished in from six to eight weeks. Less productive hens, on the contrary, may start as early as June, July or August and fiddle around for four or five months before they have regained something like what President Harding would probably have called "A state of normalcy."

While nearly all feathers are molted at one time or another, the most reliable guide is the manner in which wing feathers are molted. High producing, late molting hens molt faster than one feather at a time, or else they molt only a part of their feathers, carrying others over to another year. Poor layers, on the other hand, may molt but one wing feather at a time so that the process may require as long as 24 weeks. Most poor layers take very nearly this long to complete the molting of their wing feathers, so it can be seen that this is a very accurate index of productiveness.

Although the alleged dismay of young Mrs. Newlywed as related at the beginning of this article is doubtless more or less of an exaggeration, there is no escaping the fact that a hen during the molting time is really very much out of condition and should receive extra food and attention. The care and feeding of hens at this time might be the subject of a separate article in itself. I shall, therefore, let it suffice to say that molting hens should have plenty of good shade, nourishing food and ample protection from bad weather. A good mineral tonic should also be given them so their appetites will be whetted for an abundance of food. Then they will take the necessary nutriment to offset the strain on their system, grow their feathers again and get back to laying.

Feed a variety of good, sound grains, such as oats, wheat, corn and bran. But do not feed too much corn, as that is too heating. Feed also some sunflower seed and linseed meal. Also a little more of meat, green cut bone or meat scraps than is usually fed and give plenty of milk, if possible. Feed an abundance of greens. Have pure, fresh water available at all times. All this will help to bring the hen back into laying condition rapidly.

(Copyright, 1929)

Optimism is in the air in Scurry County with the thought that this year's crops will be the best for many a year. Surely no finer season could be wished for than what is in the ground at this time.

The trouble today is that too many are willing to ride in the band wagon but are not willing to walk in the parade.

Beaumont Man Gains 25 Pounds

"Before I started taking Sargon I was down in weight to 140 pounds and was badly run down after years of suffering. Since taking Sargon I have gained 25 pounds and am back to my normal weight which is 165 pounds.

"Up to a few years ago I had been in fine health, then I commenced to be troubled with indigestion and constipation. It looked like I couldn't digest anything. I put myself on a light diet, I became badly undernourished and lost weight rapidly. I lost my strength and energy and it was all I could do to stay on my job.

"Almost as soon as I began taking Sargon I started eating again and took on weight rapidly. I tell you it's fine to sit down at the table and eat a man's meal again. I am as full of strength and energy as I ever was and can do more work in one day now than I could do in two before.

"The Sargon pills toned up my liver and I no longer suffer from biliousness and constipation.

"After gaining 25 pounds I am feeling like my old self again and I think that is enough to convince everybody the Sargon treatment is wonderful."—Joe N. Canizard, 348 Washington Boulevard, Beaumont, Texas.

Sargon is now called "The Medicine With a Million Friends." Its marvelous record of achievement is probably without parallel in the history of the drug trade of this country.

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Caletabs—once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs are the greatest of all system purifiers. Get a family package with full directions. Only 35 cts. at drugstores. (Adv).

Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

Church Services

The union meeting is progressing nicely. Large audiences are in attendance—especially on Sunday and at nights. Dr. Surface is bringing to us great Gospel messages to which the people are giving rapt attention. Apparently there is only one serious difficulty in the way; while several persons have made public profession of faith in Christ, the irreligious have not, thus far, responded as they should have done. We long to see them turning more numerously and spontaneously from the ways of sin to the Savior of all who will trust Him. It is expected that the meeting will close next Sunday night.

Ted and Mrs. Melton lost their only child, a son of two and one-half years, last Sunday morning. The funeral services was held at the arbor Monday p. m. before a large and sympathetic audience. The writer brought the message of chere and comfort; while undertaker Odom, of Snyder, was in charge of the burial service. Several relatives from other communities were in attendance.

The First Baptist church expects to begin its annual meeting on the fourth Sunday in this month.

Business Affairs

The appearance of cotton worms, in considerable numbers, has caused much anxiety among our farmers (and every body else); hence, many have been poisoning the worms during the last several days. Somehow it seems that the worms have violated all precedents in that they have made this determined sally on our cotton in the midst of very hot, dry weather. This is not unusual but very unfair.

Our school board is quite busy getting matters adjusted and ready for the beginning of the erection of the new school building.

W. C. Miller shipped eight cars of muttons, Monday, to Fort Worth market.

Visits and Trips

On account of the death of the Milton baby, little Thomas Frederick, the following relatives from other parts of the county were here for the funeral: Mr. Bridges and family of Justiceburg, Mrs. Bridges being Mr. Milton's mother, Mrs. W. A. Chaney (Mrs. Milton's sister) of Tahoka; T. C. Hoy and wife of Crosbyton, (Mrs. Hoy is a sister to Mrs. Milton); and Mesdames Joe Brosigve and Joe Parker and son, both of Crosbyton.

Mrs. Reader and daughter, Mrs. Edith Bosse, of Dallas spent the week end here visiting relatives and old friends. Mrs. Bossie (when she was Miss, Reader) wes a very proficient teacher in our school here several years ago.

Other people have visited our village either as visitors or on business during the past week whose names V. P. failed to get because he has been very busily engaged in the meeting above mentioned. We hope to do better next time.

John Stavely took Mrs. C. F. Landrum's four children to the Lubbock sanitarium last Sunday afternoon where they visited their mother who has been so seriously ill for a long time.

Mrs. Clark, previously mentioned in this column, has returned from the same sanitarium and is reported to be doing well. This is good news.

YES, THEY COME FROM EVERY STATE TO TEXAS

Every state has contributed to Texas' population, ranging from the 234 from Delaware and Nevada on up to the 115,861 from Tennessee. Outside the South, Missouri with 63,336 leads, but Oklahoma has sent 58,492, Illinois 39,941, Kansas 21,537, Ohio 19,863, Pennsylvania 15,463 and New York, 15,437.

TEXAS WEALTH INCREASES

A conservative estimate is that Texas' wealth is increasing at the rate of more than $1,000,000 each day. The state leads all the Southern states in income tax payments and building permits in all cities since 1920 total $725,000,000; with bank debits in 15 leading cities averaging $950,000,000 each month. The resources of Texas building and loan companies are $100,000,000, an increase of 1300 per cent since 1920.

EDUCATION PAST AND FUTURE

The late C. W. Barron, noted financial writer and economist, has, on various occasions, remarked on our unsound educational system. In an address before the National Association of Cotton Manufacturers, Mr. Barron stated:

"Education has not kept pace with science progress, social progress, business progress, or financial progress."

He further remarked:

"A remedy is to co-ordinate the education of school and college with the education of business."

The old system of education, which crammed the mind with a mass of unrelated facts and figures, is now rapidly passing into the discards. It was supposed that a brain packed to capacity with information was ready to cope with all the great problems of life. Confronted by any eventuality, it was only necessary to turn on the tap of the "think tank" and draw off the "final analysis." Mere memory was rated higher than cerebration.

The old system is now in disrepute. The brain is no longer regarded as just so much storage space, but as a delicate organ which must be trained to think logically and accurately. Long ago Montaigne pointed out that a strong memory was usually accompanied by an infirm judgment.

The aim of modern education, then, is to create a thinking mind, and instruct it how to secure such facts as are essential in working out various problems. The encyclopedias are no longer worn under the hat, but ranged within easy reach on the reference shelves.

"Seen any mysterious strangers around here lately?", casually inquired the detective from the city.

"Waal," answered Uncle Eben, "there was a feller over to town with the circus last week what took a pair of rabbits out of my whiskers."

FOUR ANNOUNCE FOR POLICE CHIEF IN ABILENE RACE

When Abilene voters go to the polls Sept. 9 to elect a chief of police they will have a full ticket of candidates from which to make their selection. Four men announced their candidacy yesterday after the city commissioner called the special election at the regular session Friday afternoon. The vacancy was created by the death of the late Chief R. E. (Bob) Burch who was killed in an automobile accident near Trent, July 27.

A bore is that man who, when you ask him how he feels, tells, you.

SCURRY WOMEN WILL ENTER NATIONAL CANNING CONTEST

$1250 Offered for Best Jar Jar of Canned Food in Canning Contest

Just how good at canning are Snyder and Scurry County women and girls?

This question suggested itself today from an announcement in Chicago of a National Canning Contest to find the best jar of canned fruit, vegetables or meat in the country. Twelve hundred and fifty dollars ($1250) in cold cash awaits the woman or girl in the United States whose entry is selected as the best jar of canned food entered in the contest.

The contest which is sponsored by the Sears-Roebuck Agricultural Foundation, seeks to acquaint more housewives with the economy and healthfulness of home canned foods. For years the U. S. department of agriculture and home demonstration agents throughout the country have worked for increased production of native canned foods. It is to further this excellent idea and at the same time to help absorb the threatened surplus of farm products in many sections, that this canning project was conceived.

Two hundred and twenty-two cash prizes, totaling $5,825, will be distributed to the winners in the contest, which has three major divisions: fruit vegetables and meat. The best entry in each division will be awarded $250, and one of these will also receive the thousand dollar sweepstakes prize, thus bringing the total cash prize for the best jar of canned food in the contest to $1,250. Second prize in each of the three divisions will be $200, third prize $100, and fourth prize, $50. There will also be five prizes of $25 each, ten prizes of $10 each and 50 prizes of $5 each. In addition, a thousand dollars will be awarded to the home demonstration agent whose county sends in the greatest number of entries, $500 to the agent whose county has the next largest number, and $100 to the agent whose county has in the third largest number of entries. A number of lesser merchandise prizes are also offered.

Contest Closes October 15

According to the rules, the contest is open to every woman and girl in the United States. There are no restrictions as to the nature of the food sent, any fruit, vegetable or meat, whether home grown or purchased, is acceptable. Contestants may enter one, two or all three divisions. Entries, regardless of when canned, must not be sent in prior to August 15 nor later than October 1, which is the closing date of the contest. No entries will be returned, but instead these will be sent, with the name and address of the contestant, to an orphanage, hospital, infirmary or other charitable institution to be selected by the Foundation.

Specimens of canned fruits and vegetables in the contest will be judged on the basis of clearness, color, pack, neatness, flavor and texture. Meat speciments will be judged in their relation to pack, neatness, texture and flavor. There will be three judges, to be selected by the Foundation from a list of outstanding authorities on home economics, domestic science, and canned food. Their decision will be made known as soon as possible after October 1.

"Any method of canning may be used for this contest," annuonces Anne Williams, director of the contest. "The use of a steam pressure canner is highly recommended by canning experts and sure cooker, however, is highly recby the U. S. Department of Agriculture, especially in canning meats. Not only does this method of canning save time and fuel and assure absolutely, sterility and preservation, but food canned under pressure retains all its natural flavor and texture, which are vital points in any canning contest."

That the judging may be thoroly impartial and the display of canned samples absolutely uniform, contestants are required to submit their entries in standard glass jars of the quart size. All contestants will be furnished with one Ball mason jar and carton for sending in a canned article, but those making entries in more than one division are expected to supply their own jars and shipping cartons. The sample jar and prize entry labels may be sesubmitting entries may be secured without cost by communicating with the headquarters of the National Canning Contest, 925 S. Homan Ave., Chicago, Illinois.

NEW FIELDS THAT ARE GREEN

Something over ninety per cent of the business enterprises organized each year fail. There are a number of reasons for this; but when, as occasionally happens, an old and apparently well-established business fails or goes out of business, it is usually through the sacrifice of old customers to new. The neglect of the small regular clients for those with larger and more attractive buying powers, or the complete surrender of profit to sales volume as offered in larger and more highly competitive fields. Many business men who have become so inoculated with the volume bug that it has destroyed the white corpuscles of profit could take this simple fable as an object lesson.

During a snowstorm in the depth of winter, a goat herder drove his goats for shelter into a large cavern in a rock. It happened that some wild goats had already taken refuge there. The man was so struck by the size and looks of the beautiful wild goats that he gave them all the food he could collect. The storm lasted many days and he continued to feed the wild goats to the neglect of his own, until the tame goats, being entirely out of food, died of starvation. As soon as the sun shone again, the wild goats ran off and made their way to their native wilds. The goat herder had to go home goatless and was forced to earn his living by working for another shepherd who was never tempted to neglect his flock.

The teacher was giving a class a lecture on "gravity."

"Now, children," she said, "it is the law of gravity that keeps us on this earth."

"But, please, teacher," inquired one small child, "how did we stick on before the law was passed?"

"Sorry, madam," replied the polite warden, "but your party has just hung up."

SORE BLEEDING GUMS

Only one bottle Leto's Pyorrhea Remedy is needed to convince anyone. No matter how bad your case, get a bottle, use as directed, and if you are not satisfied druggists will return your money.

STINSON DRUG CO. NO. 1

FOR THE FARMER

Feed silage to the dairy cow immediately after milking. It may flavor the milk if given before or during milking.

"Dehorning, Castrating, Branding, and Marking Beef Cattle" is the title of a recent Farmer's Bulletin, 1600-F, issued by the U. S. Department of Agriculture. It can be obtained by writing to the department at Washington, D. C.

The timeworn theory that "sheep having a covering of wool over their faces are best," is now being exploded. Studies made by the U. S Department of Agriculture show that ewes of the Rambouillet breed that are free from heavy face covering yield the heaviest fleeces, both scoured and unscoured.

The only redeeming trait that cockroaches have, according to entomologists of the U. S. Department of Agriculture, is that they sometimes eat bedbugs, but most people don't want to keep roaches around for this purpose. Fortunately it is easy to kill them, by sprinkling powered sodium fluoride or sodium fluosilicate wherever they appear.

There are in the United States more than one thousand dairy-herd improvement associations which provide for the testing and classifying of nearly a half-million dairy cows. The cows entered in these organizations produce an average of 295 lbs. of butterfat yearly while the average production of all cows in the United States is but 180 pounds of butterfat a year.

RUPTURE EXPERT HERE

C. F. Redlich, Minneapolis, Minn:. nationally famous Rupture Appliance Expert, will demonstrate without charge his unequalled method at the Blue Bonnet Hotel, Sweetwater Tuesday Aug. 27th, from 10 A. M. to 4 P. M.

Mr. C. F. Redlich says:

The "Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief and contract the opening in a remarkably short time.

The secret of their success is in their simplicity. An expertly adjusted device seals the opening without discomfort or detention from work. It is practically everlasting, sanitary, comfortable and actually holds ruptures which heretofore were considered uncontrollable.

"IF YOU WANT TO HAVE IT DONE RIGHT—SEE REDLICH."

Doctor J. W. Seaver, for many years in charge of the Physical Education of the students of Yale College, has recorded 75% cures with this system.

Mr. Redlich is internationally known and speaks English, German and Spanish.

SOCIETY

MISS LIGON HONOREE AT PRETTY PARTY

Mrs. G. B. Vinsant entertained with a bridge party on last Wednesday afternoon honoring Miss Jessie Lee Ligon of Eastland.

The color scheme of yellow and white was very attractively carried out in tallies of yellow roses in baskets, the score pads decorated with yellow roses and the covers of white bordered with yellow roses.

The refreshments of angel food cake, iced in yellow, and orange tea, with a yellow rose favor on each plate, were served to the following guests: Mmes. Tom Gates, G. B. Clark, Maurice Brownfield, O. O. Harris, Ivan Dodson, W. B. Lee, George Oldham, Addison Casstevens and George McJimsey, of New York, and Misses Jessie Lee Ligon, Cecile Strayhorn, Neoma Strayhorn and Joyce Clemmer, of Clyde.

Mrs. Tom Gates won high score prize, and Miss Ligon was presented with guest prize.

MRS. H. G. TOWLE ENTERTAINS AT BRIDGE

A prettily planned bridge party was given last Wednesday afternoon by Mrs. H. G. Towle at her home.

Mrs. A. H. Sams Jr. of Pecos showed her skill in the play of bridge by being the successful winner of high score.

Dainty refreshment plates were passed at tea time to Misses Dixie Ruth Smith, Dorothy Strayhorn, Martha Gray, Frances Harris, Mary Lynn Nation, Frances Stinson and Mesdames J. C. Stinson, R. H. Curnutte Jr.; and out of town guests, who were Mrs. A. H. Sams Jr. of Pecos and Misses Nell Harper Green and Virginia Stoneroad of Colorado, Esther Hargraves of Dallas and Dora Dean Smith of Lometa.

MRS. JOE CATON ENTERTAINS WITH BREAKFAST

Mrs. Joe Caton was the gracious hostess to the members of her Sunday school class of the Methodist Sunday School when she entertained with a delightfully planned breakfast last Thursday morning at her home.

Those present were Misses Martha Gray, Margaret Dell Prim, Mary Lynn Nation, Dorothy Strayhorn, Dixie Ruth Smith, Pauline Boren, Ruth Belle Boren, Ola Lee Cauble, Maurice McClinton, Doris Pope Elza, Grace Holcomb, Mildred Patterson, Doris Dean Smith of Lometa, Lucille Carpenter and Mesdames W. W. Hamilton, A. H. Sams Jr. of Pecos and Alma White.

MISSES PAULINE AND RUTH BELLE BOREN ENTERTAIN

Red verbenas and yellow cannas gave floral charm to the rooms of Mrs. Ike Boren's home when Misses Ruth Belle and Pualine Boren entertaind Friday aming with a bridge party. At the conclusion of the bridge play Miss Ora Norred and Elmer Spears received high score awards.

The hostesses served refreshments of punch, sandwiches and cake to the following guests: Misses Faye Joyce, Bertha Hicks, Polly Porter, Pauline Jones, Ora Norred, Mary Joyce, Christine Eoff, Nona Carr, Mr. and Mrs. Wayne Boren, Messrs. Gardner Martin, Hilton Lambert, J. C. Strayhorn, Tom Carr, Herman McPherson, Preston Morgan, Marvin Norred, Elmer Spears, Gaither Bell and Max Brownfield.

MISS NATION ENTERTAINS

Miss Mary Lynn Nation charmingly entertained with a bridge party Friday afternoon at the pretty home of her parents, Mr. and Mrs. J. C. Stinson in West Snyder.

At the conclusion of the game hour, Miss Hattie Herm was presented with high score award.

At tea plates of frozen salad were passed to Misses Dixie Ruth Smith, Dorothy Strayhorn, Dora Dean Smith, of Lometa, Martha Gray, Margaret Dell Prim, Hattie and Gertrude Herm and Mrs. H. G. Towle.

MISS DORA DEAN SMITH HONOREE

Miss Dora Dean Smith of Lometa was named honoree by her aunts, Mrs. C. C. Higgins and Mrs. W. W. Hamilton, at a delightfully planned breakfast Saturday morning at the home of Mrs. Higgins.

Those enjoying this happy occasion with the honoree were Misses Pauline and Ruth Bell Boren, Dixie Ruth Smith, Mary Lynn Nation, Dorothy Strayhorn, Eloise Scott, Martha Gray, La Frances Hamilton and Mesdames R. H. Curnutte Jr. and A. H. Sams, Jr. of Pecos.

The Evangelisitc Work ... Fred Day.

The Educational Work ... Alta Bowers.

The Medical Work ... Mary Nell Moton.

Time; :30. Visitors cordially invited. Members urged to be present.

GIBSON-ENGEL

The marriage ceremony which united Dan Gibson, son of Mrs. Dora Cunningham of this city, and Miss Marian Engel, daughter of Mr. and Mrs. Ernest Engel, was performed last Monday morning at 7 o'clock at the Presbyterian Church at Sequin, with Rev. B. D. Kennedy of Coleman, long a friend of the family, officiating in the presence of relatives and friends of the couple.

Mrs. Bertha Ayres played Lohengrin's wedding march as a processional and during the ceremony softly played Mendelssohn's wedding march as a recessional.

The bride was gowned in an attractive dress of white crepe meteor with accessories to match.

Immediately after the ceremony a lovely wedding breakfast was served to the members of the wedding party and out-of-town guests at the home of Mr. and and Mrs. Ernest Engel.

Mrs. Gibson was graduated from the College of Industrial Arts in 1927, having done creditable work there. She was a teacher in Snyder High School the past year and will be a member of the faculty again this year.

After graduation from Snyder High School, Mr. Gibson attended A. & M. College of Texas. For three years he was connected with the Elrod Engineering Company of Dallas, and for the past seven years Mr. Gibson and his mother, Mrs. Cunningham, have been engaged in the cattle business.

Mr. and Mrs. Gibson will make their home with Mrs. Cunningham until their unique home of Spanish design is completed.

The Times-Signal joins with this young couple's many friends in extending congratulations.

MISS CLEMMER HONOREE AT BRIDGE PARTY

Miss Joyce Clemmer of Clyde was named honoree at a prettily planned bridge party given by Mrs. G. B. Clark Jr. at her home Saturday afternoon.

Six tables were arranged in a setting of charm for the bridge play. In the games Mrs. Melvin Blackard won high score, and the honoree was presented with a guest prize.

Refreshments were passed to Mesdames Alfred McGlaun, Wayne Williams, Ivan Dodson, C. B. Vinsant, George Oldham, Warren Dodson, Maurice Brownfield, J. G. Hicks, R. H. Curnutte Jr., Jesse Sellars, A. H. Sams Jr. of Pecos, Clyde Shull, Tom Gates, Melvin Blackard, Lewis Blackard, Ixon Joyce, W. H. Ritzenthaler, Alma Hood White, Will Williams and Misses Alma Nell Morris, Myrtle and Faye Harrell, Larry Beth Waskom, Jessie Lee Ligon of Eastland and the honoree.

BRIDGE CLUB ENTERTAAINED

The gentlemen members of the Thursday Night Bridge Club entertained the ladies with a swimming party and chicken fry at the Country Club Monday evening. Those present were Messrs. and Mmes. W. T. Raybon, George Oldham, Ivan Dodson, Maurice Brownfield, Sam Hamlett and Wayne Boren.

MRS. DAN GIBSON HONORED AT RECEPTION

Mrs. Dan Gibson, a recent bride, was complimented yesterday morning with a reception, an outstanding event of the week, at the home of Mrs. Dora Cunningham, with Mrs. Cunningham and two daughters, Misses Mattie Ross and Maurine, as hostesses.

About one hundred and forty guests, calling during the hours of receiving from 8 to 11:30, were greeted by Mrs. Cunningham and the honoree. The house party included Mesdames Joe Monroe, Hugh Taylor, O. D. Carter, Melvin Blackard, J. E. Sentell and Misses Mattie Ross and Maurine Cunningham, Kathrine Stallings, Eula Pearl Ferguson, Martha Gray, Florentz Winston, Nona Carr, Wynona Keller and Jean Taylor.

Yellow marigolds, sunflowers, flags and greenery made a delightful setting for the occasion and a pretty background for the attractive green and yellow gowns worn by the members of the house party.

The entertaining program composed of readings, piano selections and vocal solos was given by Misses Martha Gray, Wynona Keller, Jean Taylor, Katherine Stallings, Nona Car and Eula Pearl Ferguson and Mesdames J. E. Sentell and O. D. Carter.

The color idea was again emphasized in the refreshments of green and yellow brick ice cream and angel squares served on green glassware.

STRAYHORN FAMILIES HOLD REUNION

A reunion was held Sunday at Strayhorn's Dam by the Strayhorn families.

After attending church services Sunday morning the guests motored to Strayhorn Dam where a delightful picnic was spread.

A happy afternoon was spent by Mr. and Mrs. R. R. Cole and two children of Fort Worth, Mr. and Mrs. Rob Strayhorn and two children of Rotan, Mrs. and Mrs. J. A. Farmer, Mr. and Mrs. Erle Grantham and children, Mr. and Mrs Joe Strayhorn and family, Mrs. and Mrs. Roy Strayhorn and family, and Mr. and Mrs. D. P. Strayhorn, Mr. and Mrs. David Strayhorn, Mr. and Mrs. S. T. Elza and daughter, Miss Doris Pope.

Rev. J. G. Winsett of Abilene, who held a meeting here last summer, is conducting a revival meeting at Clyde under the auspices of the Clyde Baptist church. Services are being held morning and evening.

A new television instrument, so simple that it may be attached to an ordinary radio receiving set, is said to have been perfected in Germany.

Between 1920 and 1925, 75,000 new farms were brought into cultivation in the United States. Thirty thousand of them were in Texas.

Telephones In U. S. Outnumber Rest of World

There are more telephones in the United States than in all the other nations of the world combined. In fact, sixty per cent of the telephones of the world are in this country, according to official statistcs just recently released by the Telephone and Telegraph Company in a booklet entitled, "Telephone and Telegraph Statistics of the World."

Germany, with its government owned communication service, has approximately 10 per cent of the world total and ranks second to the United States while Great Britan and Northern Ireland have but little more than five per cent.

The report shows that there are 30,990,304 telephones in the world and that 18,522,767 of them are operated in the Unied States while Germany has 2,814,996. Great Britan has 1,633,802 while Canada has 1,259,987.

There are 15.8 telephones to every 100 perosns in the United States but Canada runs a very close second with a percentage of 13.2. New Zealand is surprisingly well equipped with an average of 10 phones to each 100 in population. Germany has but 4.4 while Great Britan ranks very low with 3.6.

Paragua, the little South American country, has but 413 telepnones and 183 of them are government owned, while private companies operate 230.

China, with its 400,000,000 population, has only 130,000 telephones, with India, ranking second in world population has but 51,838. India, with only one telephone to every 5,000 persons, has less per hundred than any other country in the world, not exculding such remote countries as South Africa, Egypt and Siberia.

New York City leads all the cities of the world in the number of instruments with 1,599,915, Chicago being second with 903,460. London ranks third with 578,322 while Berlin takes fourth place with 448,030.

San Francisco leads all the larger cities in the number of telephones per hundred persons, having a mark of 32.8 while Stockholm, Sweden, is second with 28.9. Chicago and Washington are less than one per cent under Stockholm's mark.

Dallas leads Texas in both number of telephones in use and the per centage per capita, the figures being 69,013 and 25.9, respectively.

Houston ranks second in both respects, having a total of 62,270 telephones and a percentage of 23.3. San Antonio has 43,118 instruments but falls below Fort Worth with a per capita mark of 18.5 the latter having 22.6 with 25,547 telephones.

New York has 26.1 telephones to each 100 population and Berlin has 10.9, London's mark being but 7.7. Canton, China, a city of one million people, has less than 2,500 telephones.

A wire basket is a good accessory to have in canning tomatoes or peaches. As these fruits must be scalded to get the skins off, use the wire basket to lower the material quickly into the boiling water and out again.

CHEVROLET

Another Record!

a Million

SIX CYLINDER CHEVROLETS

on the road in less than eight months!

Less than eight months have elapsed since the first Chevrolet Six was delivered into the hands of an owner—*and already there are more than a million six-cylinder Chevrolets on the road!* And the reasons for this overwhelming success are easy to understand.

Into a price field that had hitherto been occupied exclusively by four-cylinder cars—Chevrolet has introduced a six-cylinder car of amazing quality and value. Not only does it offer the smooth, quiet, velvety performance of a great six-cylinder valve-in-head motor—but, from every standpoint, it is a finer automobile than was ever before thought possible at such low prices! Its beautiful new bodies—which are available in a variety of colors—represent one of Fisher's greatest style triumphs. And its safety and handling ease are so outstanding that it's a sheer delight to sit at the wheel and drive. In fact, the new Chevrolet Six has completely changed every previous idea as to what the buyer of a low-priced car now has a right to expect for his money.

You owe it to yourself, as a careful buyer, to *see* and *drive* this car. For it gives you every advantage of a fine six-cylinder automobile—*in the price range of the four and with economy of better than 20 miles to the gallon!* Come in today!

CARD OF THANKS

Not being able to express to each of the individuals who so readily came to our assistance during our recent supreme affliction and trial; we take this method of expressing, so far as it is possible for us to express, our most hearty appreciation, and our profound gratitude to all the people who so kindly came to our assistance during the time of the illness and death of our beloved little son, Frederick. Words cannot express our gratitude.

Ted and Mrs. Milton.
W. and Mrs. Park and families.

"I guess I've lost another pupil," said the professor, as his glass eye rolled down the kitchen sink.

NOTICE IN PROBATE

THE STATE OF TEXAS,

To the Sheriff or any Constable of Scurry County, Greeting:

You are hereby commanded to cause to be publishe donce each week for a period of twenty days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Scurry County, a copy of the following notice:

THE STATE OF TEXAS,

To all persons interested in the estate of Martha Guinn, deceased, R. H. Curnutte, administrator of the estate of Martha Guinn, deceased, in cause No. 539 has filed in the County Court of Scurry County, Texas, his final account of the condition of the estate of Martha Guinn, deceased, together with an application to close said administration, which said application will be heard by said Court on the 9th day of September, 1929, at the Court House of said County, in Snyder, Texas, at which time all persons interested in said estate are required to appear and contest said application, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Snyder, Texas, this 6th day of August, 1929.

(Seal) MABEL Y. GERMAN,
Clerk, County Court,
8-3tc Scurry County Texas.

DIRECT COTTON SALES; GROWER TO SPINNER

COLLEGE STATION, Aug. 6.—Claiming that sales of cotton by farmers through an exclusive sales agent constitutes the nearest approach at present to direct sales from grower to the spinner, J. B. Stokes of Dallas, explained this system before the farm crops section of the Farmers Short Course at the A. & M. College Tuesday afternoon.

"Collin county farmers were producing uniform cotton of the Sunshine variety," Mr. Stokes said, "and felt that the prices paid by street buyers were not always satisfactory. They asked me to handle their bales on an individual basis which I did last year with satisfaction to the more than 100 farmers who participated. As soon as a bale was ginned it was placed in compress or warehouse and a sample was forwarded to me together with a compress or warehouse receipt giving me authority to sell the bale. The next morning I classed the samples and arranged them for buyer inspection. The highest bids were accepted and by the next morning farmers had their checks."

The advantages of this plan of selling, according to Mr. Stokes, are that many more buyers bid on the cotton than is the case in the street market, that sales can be adjusted to the condition of the market, and that cotton is sold on its merits. Collin county farmers, it was pointed out, are growing more than

WHAT'S DOING IN WEST TEXAS

DIMMITT will enter enthusiastically into the preparations for the 28th annual Anniversary Picnic of Castro County. Hundreds of sandwiches will be prepared and wrapped for the guests. Concession rights have been sold, and speakers are being procured.

OLTON will be reached by the new high line of the Texas Utilities Company. It will come in by Hart, thence south to Olton into the main plant, dropping back one mile north to Lee Highway and on into Plainview, tying up all their plants into one.

FRIONA'S home beautiful contest being staged by the Women's Club, is announced to close on August 15. The two classes of homes entered will be judged on points gained, front yard and curb, back yard and alley, trees and shrubbery, flowers, lawn, painting and general attractiveness being counted,

CALIFORNIA will see another caravan of West Texas poultrymen dairymen and farmers soon. B. M. Whiteker of the West Texas Chamber of Commerce will conduct the tour of perhaps thirty people who want to learn the productive California methods of raising crops, chickens and cows.

CROSBYTON will entertain all the old settlers on August 15 and 16. Public speaking, rodeo performances, old time square dances, old fiddlers contests, rides for the children and a free ball game each day are some of the attractions that will draw settlers to the Blanco Canyon where the reunion will be held.

McLEAN has gained 11 affiliated credits during the time Supt. Tummins has been head of the schools. Three of the credits were gained recently in Spanish and chemistry. The school has a total of 27½ credits. Better work is expected in the new buildings.

CLARENDON is doing quite a bit of building. The Latson building on the corner of Kerney and Second Streets will be started in the immediate future. The new building will be of brick and will cover the entire fifty-foot front and will extend back to the alley.

ALLANREED will have lights and power in the future since a contract was recently consumated with the Panhandle Power and Light Co. for these modern commodities. New oil derricks on the edge of town are causing an increase in population and a shortage in hotels and residences.

WEST TEXAS TODAY for August will be out the first of next week. The wheat crop comes in for its share of attention in this issue. Several towns where much building is being done have stories illustrated with pictures of the largest buildings.

PAMPA will entertain the second annual American Legion rodeo on August 30 and 31 and Sept. 1. Lon Blanscet and Bill Jackson of Pampa will manage the affair. Rodeo stars from Cheyenne, Wyo., will be present. A purse amounting to $2,150 has been guaranteed for prizes.

BIG LAKE public schools will open September 3. Prof. Caverns, who was instrumental in the building of the splendid new high school building, has resigned as superintendent to enter other fields of work. The school has 13½ units of affiliation.

LOCKNEY is bidding for a new post office. Congested office conditions caused by rapid increase in population during the past several years was the reason given for the enlargement of quarters.

Los Angeles, Aug. 10.—The death of H. C. Witwer, widely known humorist and writer, was caused by pulmonary tuberculosis which followed a nervous breakdown, his physician, Dr. E. C. Fishbaugh, announced today. Mr. Witwer, 39 years old, died at his home here yesterday after an illness of several months.

The Texas public road system comprises about 180,000 miles of which nearly 20,000 miles are known as "improved". State and Federal improved highways total 9,645 miles and there are about 10,000 miles of gravel, sand, clay or other "improved" roads.

Doctors say that healthy babies should be a delicate pink. The next door neighbor's got one who's a robust yeller.

As a rule a man's a fool.
When it's hot he wants it cool
When it's cool he wants it hot,
Always wanting what is not.

Mrs. J. C. Cluer of Montclair, N. J., is in a hospital after discovernig a gas leak with the aid of a lighted match.

Medical Student: "Give him something to make him sick and then administer an antidote."

Professor: "Don't waste any more time here. Hang out your shingle."

Rectal and Skin Specialist
419 Alexander Bldg
Abilene
Will be in Snyder
Sunday, August 18
at Manhattan Hotel
From 12 to 5 P. M.

DERMOTT NEWS

(Too Late For Last Week.)

The Baptist revival meeting began Sunday morning with a good attendance. Bro. Sanders has preached good sermons. We most cordially envite every body to attend the meeting and work and pray that many may be saved during this meeting. Do it now; closed eyes cannot see the white roses, cold hands cannot hold them, you know; breath that is stilled cannot gather the odors that sweet from them blow. Grim Death, with a peace past all dreaming. His children of earth doth He endow. During life is the time that we can help them, so give them the flowers now.

We are sorry to hear of the sudden death of Grandma M. R. Chowns who was found dead Monday morning in her bed. Heart trouble was the cause of her death. Mrs. Cowns was 71 years of age she had been a christian for many years, a member of the Baptist church in Louisana. Her body was sent back to the Louisana home for burial. She leaves several sons and one daughter as the bereaved ones. We extend our sympathy to the family and relatives.

Grandma Welch who has been sick for the passed week is able to sit up some now.

Mrs. Hale of Fluvanna spent Monday with her daughter, Mrs. Flora.

Mr. George Chowns of Big Spring, Mrs. Chowns brother and family of Chalk spent Monday with Mr. William Chowns and family.

Mrs. Alfred Browning and daughter, Cara Nell left last week to visit a few days with her mother at Lorane.

Bro. Robertson from the Holy Lands, preached at Dermott Saturday night.

Mr. and Mrs. L. N. Periman visited in Justiceburg Thursday.

Mr. McAtee and wife and baby moved to the Fluvanna community the last of the week.

Mr. Oscar Sulenger and sister of Farwell, Texas, spent the latter part of the week visiting relatives here.

Mr. and Mrs. Jacobs of the Bethel community spent Sunday with Mr. and Mrs. W. E. Boss.

Mrs. A. H. Grigg left the first part of last week to spend a month with her daughter near Elida, N. M.

Mr. Squires and Miss Nealy Squires of Fluvanna spent Monday afternoon with Mrs. Sallie Scrivner.

Mrs. Joe Wilson is visiting with her daughter, Mrs. Loy Edmonson, in Snyder this week.

Mr. and Mrs. Claxton, daughter, Lora, and son, Beauland, of Loraine, Mr. and Mrs. Bob Browning and little baughter Cara Nell of this place went fishing up on the river near Polar last week. They reported catching plenty of fish and a real good time.

Her proudest possession
. . . . a diamond of course!

Her school-girl "Memory Book" holds many a treasure, no doubt—but none can compare with the diamond on her finger. For aside from its value, the gift of a diamond best expresses true devotion . . . . Why not, like many other careful buyers count on our expert advice — whether your choice is a fine solitaire or one of our exquisite diamond-set Gruen Guild wrist watches?

Diamond Rings in a wide choice of designs $25 - $50 - $100

Do you know this newest use for GAS?

Heat and cold are opposites. Yet, a tiny gas flame operates a remarkably efficient refrigerator in the paradox of the age. Small, this flame uses a negligible amount of gas. Quiet, there just isn't any noise. Efficient, moving parts are reduced to a minimum. And that saves service calls and all their attendant bother.

Its makers call this refrigerator, "Electrolux." But electricity has no part in its triumph. Gas alone performs the greatest paradox in the home appliance field . . . ice from heat! And incidentally, gas teaches the class in mechanical refrigeration something new about that great big word E-C-O-N-O-M-Y

Electrolux is at its best in this Natural Gas belt where its economies are even more pronounced due to the low cost of fuel.

Learn more about the economy and convenience that Gas brings to you in the housekeeping business. Refrigeration, while the newest, is only one instance of what Gas, the modern fuel, is doing today.

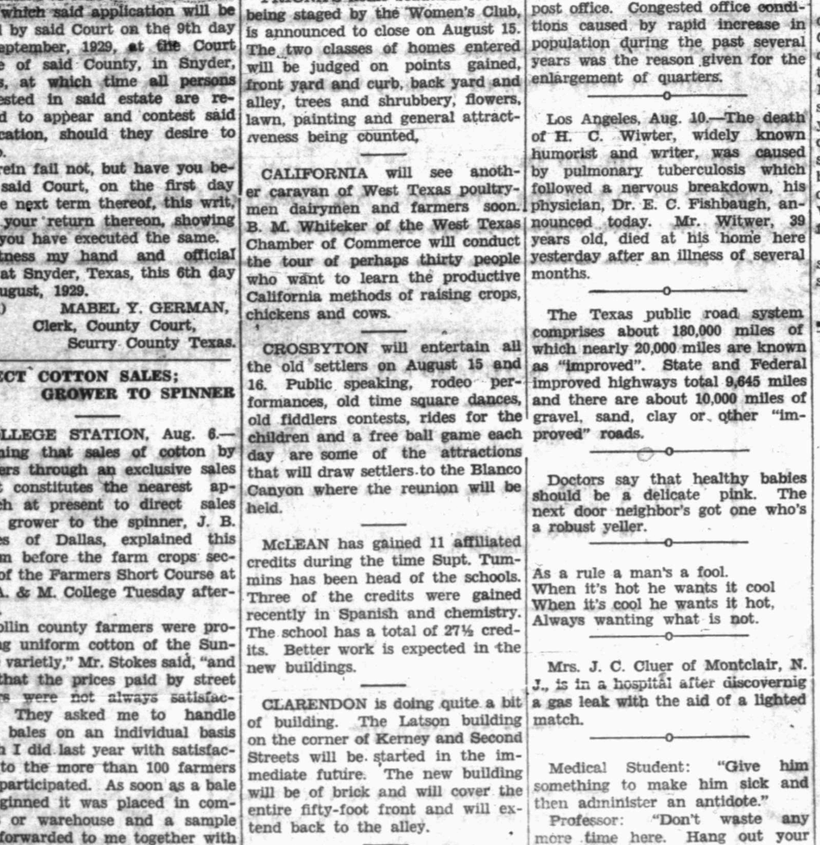

GAS
PIPED FROM THE WELLS TO YOUR CITY

Lone Star ★ Gas Company

Supplying Gas Wholesale to
Community Natural Gas Company

STARGAS The "Compressed Natural Gas" developed by Lone Star to serve suburban and rural homes not yet reached by its pipe lines. Ask about this new home installation. No obligation.

DON'T BE DECEIVED

A RUMOR has been circulated around Snyder by some of our competitors that our gasoline, which we are selling from two to five cents a gallon cheaper than other stations, is an inferior gasoline. We want to say to the people openly and emphatically that these statements are untrue. We invite anybody to test our gasoline in any way they may see fit. We have tested ours and all the others and find that it is as good as the best and better than the majority of the brands being sold in Snyder. It is good as can be bought—made under the U. S. Navy specifications. But our price is still 20c, including the 4c tax.

SAVE MONEY ON GASOLINE—NOT CHEAP GAS—BUT GOOD GAS—AT

20c a Gallon

For many years we have given this community the very best fuel and oils money could buy, and we are not going to begin now selling inferior grades. But we have come out in the open and cut the price. (We do not believe in underhanded methods.)
