MEDICARE COMES BACKThe Medicare proposal was dormant for a time, hav-
ing found insufficient favor in Congress. But it was never
dead. And now it is back in the headlines.The program proposed by this Administration is al-
most precisely the same as that proposed by the late
President Kennedy. It would provide a range of medical
services to everyone drawing social security benefits. And
the objections are as cogent as ever.It would give these benefits to a selected group of
people whether they wanted them or not and whether they
needed them or not.As study after study has shown, the financial situa-
tion of the elder portion of the population is far better
than seems to be generally realized. Great numbers of
them have, in addition to social security, substantial pen-
sions, savings, investments and property.The dramatic expansion of voluntary medical insur-
ance has reached the elder as well as the younger groups.The medical profession has an extensive going pro-
gram under which medical assistance and service is pro-
vided for all who need it, regardless of the ability to pay.Existing legislation, based on a federal-state coopera-
tive principle, provides still another buttress for the
needy, and it is working well. Additionally, there are all
manner of welfare services offered by local governments.Most important of all, Medicare would inevitably lead
to an increasing government domination of the medical
arts. That is the road to retrogression. American medical
standards have no superior. Let's keep them that way.**GRASS ROOTS OPINION**ARGO, ILL., NEWS: "The printed words include atti-
tudes of others, hatreds and evil. The fanatic, the fool
and the despot all utilize this tool of communication to
a wide degree as well as do the wise, the intellectual and
the dreamer. The pen should remain mightier than the
sword for the sword seldom has the power to settle the
agitation caused by discussion of the problem."**Get Your Car Ready for Summer**

POWER STRETCH**LET JOHN DO IT**Who do you suppose that tall fellow in the stovepipe
hat and the white chin whiskers is over there in Cyprus
helping the British to settle what is distinctly their own
mess? It's Sam, still trying to be a Boy Scout after John
Bull has just thumbed his nose and said he'll not only
continue trading with Cuba, but is increasing his business
there. He is also, of course, trading with Red China.In Cyprus, the Greeks and Turks are feuding, as they
always have. We have given \$21 million in aid to the half
million Cypriotes, over \$3.5 billion to Greece and nearly
\$4.2 billion to Turkey. Nearly half of the Greek largesse
and more than half of the Turkish was for military aid.It hardly makes sense now to spend still more send-
ing U. S. Marines to Cyprus as targets for the bullets we
bought—even to help the Mother Country.A rubber stamp is the greatest labor and time
saving device of the modern bank, office or
factory. Used in countless ways for the small
investment involved it has no equal in business
equipment.Order by mail or telephone—we guarantee
satisfaction and to fill your order correctly.

Turn In Your Order at

The Office of This Newspaper**How to get MORE
out of your tax refund**When you get your '63 tax return
(Form 1040), take a look at line
23 on the bottom of the page.It gives you the option of taking
your refund in U. S. Savings Bonds
instead of a check for the total
amount.

There are two big advantages:

1. Taking your refund in Savings Bonds gives you an easy way to hang onto it.
2. When your Bonds mature, your refund becomes 33 1/3% bigger. You get back \$4 for every \$3.

You also get a nice red, white and
blue feeling from knowing you're
helping your country's future as
well as providing for your own.Think it over when you ask for
your refund this year.**Quick facts about
Series E Savings Bonds**

- You can buy Bonds where you work on the Payroll Savings Plan
- You pay no state or local tax and can defer the federal tax on interest until the Bonds are cashed
- You can get your money when you need it
- Your Bonds are replaced free if lost, destroyed, or stolen

**Keep freedom in your future with
U.S. SAVINGS BONDS**The U.S. Government does not pay for this advertisement. The Treasury Depart-
ment thanks The Advertising Council and this newspaper for their patriotic support.**ODDLY ENOUGH****SAFETY**What's a traffic light mounted
on to assure that it will remain
in place even during high winds
and violent storms? Strong, long-
lasting steel pipe, of course!
Meanwhile, steel pipe conduits
protect the electric power lines
that keep traffic signals in oper-
ation.Outdoor semaphore stands and communication systems, used to
keep U.S.A. railroads safe, almost always rely on butt-welded
steel pipe.

PLASTICS IN THE DRIVER'S SEAT

THE PLASTICS INDUSTRY'S influence in automotive production is clearly indicated in this Allied Chemical Plastics Division exhibit. The outline shows a 1964 model car with 81 plastic parts arranged in place. Makeup of the average auto will include 33 pounds of plastic this year and, experts claim, 70 pounds by 1970.

DETROIT—Plastic materials were in the driver's seat when automotive engineers recently convened at Cobo Hall for the annual SAE Automotive Engineering Congress and Exposition.

With 200 million pounds of plastics already being consumed by the automotive industry, experts predict the average car will include 70 pounds of plastics by 1970.

"A major reason for the enthusiasm," says E. Davis Caldwell of Allied Chemical's Plastics Division, "is the area between the front seat and the windshield. This seems to be the likeliest area for future development with plastics."

Sound engineering and imaginative design, claims Caldwell, are paving the way for great strides in plastics usage. "In the future," he says, "that usage will include entire instrument panels, the front cowl area to the left and right of the seat, and the entire fire-wall separ-

ating the engine from the passenger compartment.

"These aren't blue-sky applications," Caldwell continues. "It's only a matter of very little time before those articles are produced with plastics."

"For the present, though, the plastics industry is justifiably proud of the role it is playing in the production of 1964 automobiles."

Allied displayed the silhouette of a 1964 automobile at the exposition, with present and future plastic elements indicated.

"Our exhibit indicated 81 instances of the use of plastic materials by auto manufacturers, with 53 of these actually present on 1964 model automobiles."

"One look at the silhouette explains why the plastics industry is looking to the near future with predictions of production of one-half billion pounds of plastics for the nation's automobiles."

VETERANS Questions & Answers

Q—A veteran I know is going to school under the GI bill and is also getting a GI loan to buy a house. How can he get double benefits?

A—There is nothing in the law that prohibits a veteran from receiving these two benefits simultaneously.

Q—As the widow of a veteran who died of service-connected disabilities, I receive a monthly compensation payment. I have been thinking of going back to work. A friend tells me that I will lose the compensation payments. Is this so?

A—No. Compensation payments are made without reference to your income. Your friend is thinking of VA pension payments, paid to widows of veterans who died of non-service-connected causes. Income limitations do apply in these cases.

Q—Has the so-called "Long Bill" been passed by Congress to allow reinstatement of lapsed GI insurance policies?

A—No. None of the bills

which would have allowed reinstatement of lapsed GI insurance policies have been passed by Congress.

Over 2,600 buildings in the heart of Baltimore were destroyed by a fire in 1904.

Lutherans Will Hear Muslim Missionary

REV. HENRY J. OTTEN

The Rev. Henry J. Otten, Lutheran missionary to the Muslim people of Kerala State, India, will be the guest speaker Sunday morning at Grace Lutheran Church. He is a brother of Grace Lutheran's pastor, the Rev. Phil Otten.

Rev. Henry Otten was one of the first two missionaries of the Lutheran Church — Missouri Synod to be sent to the Muslim people of India. He began his work there in May of 1950 and has continued in the same evangelistic efforts since that time. After attending public schools in Sioux City, Iowa, Rev. Otten entered Concordia College, Milwaukee, Wisconsin, in 1933 and Concordia Seminary, St. Louis, Missouri, in 1943. After additional studies at Washington University, St. Louis, he attended Kennedy School of Missions, Hartford, Connecticut, where he received his M. A. degree in 1949.

In June of 1949, Rev. Otten married Mary Esther Briggs of Frankfort, Ohio. Mrs. Otten is a graduate of Ohio State University and Columbia University. The Ottens have four children.

The Otten's first furlough was in 1956 and 1957. They plan to return to their evangelistic work in India by the end of May.

The public is invited to hear Missionary Otten in the Sunday service at 10:30 a. m. The public is also invited to attend an illustrated mission lecture by Rev. Otten of his work at Trinity Lutheran Church, Clara, at 7:00 p. m.

Shop Rite Foods Names Wichitan Vice President

Ross Hanna of Wichita Falls was elected a vice president of Shop Rite Foods at a meeting of the board of directors March 19th in Albuquerque, New Mexico. Also elected to office from Wichita Falls was H. W. Sanders, assistant secretary of the company.

J. S. Reinhart of Albuquerque was named president of Shop Rite, succeeding Herbert Wilcox, who was elected chairman of the board and chief executive officer. Wilcox and Reinhart were co-founders of Shop Rite and opened their first store in Albuquerque, New Mexico in July, 1953. Shop Rite now operates 75 Piggly Wiggly supermarkets in Texas, New Mexico, and Oklahoma.

At the annual meeting of stockholders preceding the board meeting, all members of the board were re-elected including Garnett Parker of Wichita Falls. Parker, a stockholder, remains active in the direction of the company as a board member. The 14 Parker Stores in Wichita Falls and vicinity were purchased by the company in 1963.

Wilcox announced to stockholders that sales in 1963 increased for the tenth consecutive year to \$97.6 million. Profits reached a record high of \$1,183,000. Wilcox advised that continued growth was anticipated in 1964, including the opening of nine new stores.

Miss Ruby Lange Honored With Pre-Nuptial Shower

The faculty of the Hardin Grade and Primary Building Schools, honored Miss Ruby Lange, School Secretary, with a pre-nuptial shower, at the home of Mr. and Mrs. J. Z. Dunn, 1104 Commanche.

The theme of the party was "April Showers." The guests were entertained with a game of Pass Word, using words pertaining to flowers.

Mrs. Anne Paul Ragan favored the group with a vocal solo, "April Showers." Mrs. Viola Reynolds read the poems, "The Violet," by Jane Taylor, and "True Happiness" by Mabel Wilton.

A gift of silverware from the group was presented to the honored guest by Mrs. Dunn, who read an original poem "A Tribute to Miss Lange."

The refreshment table was covered with a white net cloth over taffeta, centered with an arrangement of violets, flanked by orchid candles. A white taffeta and net umbrella, decorated with ribbon streamers and violets was suspended above the table. Miss Lou Ann Grady served the small white frosted cake squares decorated with little umbrella designs. Mrs. Estella Martin poured the punch.

Miss Jewel Reed registered the guests in a white taffeta and net guest book, fashioned in the shape of an umbrella.

The guests attending were: Estella Martin, Tharon McClain, Margie Briscoe, Carol Maye, Hazel Wagoner, Louise Mullens, Othello Hooker, Esther Leitner, Jewel Reed, Cleona Hardeman, Virginia Turner, Ida Kerr, Viola Reynolds, Herbertine Olson, Irene Dunn, Miss Travis Cowan, Miss Lou Ann Grady, Mrs. Lilla Morris, and Mrs. Anne Paul Ragan.

A gift was sent by Mr. and Mrs. James L. Pearson.

The hostesses for the occasion were Mrs. Herbertine Olson, Mrs. Irene Dunn and Mrs. Othello Hooker.

Theta Epsilon Met In Eaton Home Monday, March 23

Theta Epsilon Sorority met March 23rd, in the lovely home of Helen Eaton.

The opening ritual and business meeting was conducted by the President, LaDonna Shepherd.

A report on the scrapbook was given by Pat Dunn. "Around the World," a cruise on the S. S. Theta Epsilon will be the theme used.

Mary Tullis, Welfare Chairman, reported that the essays will be picked up April 1, and the winner will receive a \$75.00 scholarship.

A report on the District VI meeting held in Hotel Texas March 22nd, in Fort Worth was given. La Donna Shepherd was chosen from the district as second Outstanding ESA. LaDonna also won second in the "Miss Congeniality" district contest.

A very interesting program was presented by Helen Eaton. We enjoyed taking a trip to Brazil and Old Mexico with her through colored slides her son, Bob Eaton, took while going to college there. Slides were very colorful, interesting, and the architecture in Brazil was very outstanding.

To complete her hostess duties delicious refreshments of lemon chiffon cake, punch, Cokes, coffee, and candied fruits were served to Mesdames LaDonna Shepherd, Mary Janek, Shirley Spinks, Evelyn Farris, Pat Dunn, Mary Tullis, Clodella Bridges, Marilyn Howard, Kathleen Brammer, Audrey Tibbets, Bobbye Slusher, Bobbie Klinkerman, Ruby Van Loh, Aubene Henderson.

The next meeting will be held in the Texas Electric Building with Bobbie Klinkerman as hostess. Preceding the meeting the Pledge test will be given at the home of Bobbye Slusher at 7:00. The meeting adjourned and all participated in the closing ritual.

Den 4-Pack 156

As each one arrived for our den meeting on March 2st, we sat down to see how many birds we could name until everyone got there. When everyone had arrived, the meeting was opened by Ed Green and Alan Pyne holding flags for the pledge of allegiance with Danny Ward leading. Reports were given on achievements and dues were collected. Then we started making bird houses with milk cartons and coat hangers. These will be finished at our next meeting on April 4th. A regular meeting will not be held over the Easter weekend.

The meeting closed with the living circle. Refreshments were served and we said goodbye to Alan Pyne who is leaving for St. Louis, Missouri.

DANNY WARD,
Keeper of the Buckskin

The fulfillment of God's word...

In the Old Testament Our Lord's birth, death, and also His resurrection were foretold. These events were proclaimed and written about long before Jesus came to earth. God saw that these prophecies were fulfilled — that these things were accomplished. Hosea 6:2 prophecies Christ rising from the dead. The scriptures say that Jesus is now alive, that He sits on the right hand of God and intercedes for us, and that as He rose from the grave, we, who are in Christ, will rise also. On this commemorating Easter let us all be in God's house to rejoice in this promise.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Roger W. Babson Weekly Report

ROGER W. BABSON

BABSON DISCUSSES COMPUTERS

BABSON PARK, Mass.—Every year or two as readers become acquainted with what computers can do, to reduce county taxes at least. Readers who wish to reduce local and state taxes should send for a salesman from a leading computer manufacturer, such as International Business Machines.

What Florida County is Doing In a talk which I had recently with Mr. Paul Pickett of Orlando, Florida, who is on the Budget Committee of Orange

BEETLE BAILEY Mort Walker

THE SERVICEMEN ARE DOING THEIR PART-- YOU CAN DO YOURS BY BUYING U.S. SAVINGS BONDS!

Business Leaders Boost Bond Drive

New York — Heading a volunteer committee of business leaders whose aim is to enlist a million new U. S. Savings Bond subscribers through Payroll Savings in 1964 is Frank R. Milliken, President of Kennecott Copper Corporation.

The industry-organized campaign urges employers and employees to enjoy a greater "Share in America" through regular purchase of Bonds. A successful drive will provide some \$200 million additional in E and H Bonds for the owners as well as help the government in its management of the public debt and its efforts to promote the stability of the dollar.

President Johnson hailed the business-led campaign, being launched today, as "worthwhile and highly deserving."

college buildings. The taxes which voters are now assessed for the maintenance and operation used for educational purposes can be considerably lowered and the efficiency of the teachers increased.

Time Now Wasted

Fore some peculiar reason, parents want their children to spend more time at school. Are they really anxious to have their children learn more; or are they using the school as a sort of "parking lot" for the care of their children a good portion of the day? Of course, I am opposed to the large number of "drop-outs"; but the present educational system may be more responsible for these drop-outs than in the children.

At any rate, from visits I have recently made to schools, I do not see much change in the methods of education from when I was in school many years ago. Most leaders of Parent-Teachers Associations and other organizations probably agree with me. The immediate question is: Who runs the school? Do the parents, or the teachers, or the taxpayers, or the politicians? It is a very complicated situation; in most communities the school committees are made up largely of businessmen and others who know very little about proper improvement of their schools. When some one committee member makes a study and tries to bring about a reform he is persecuted as one who simply wants publicity.

Importance of Computers

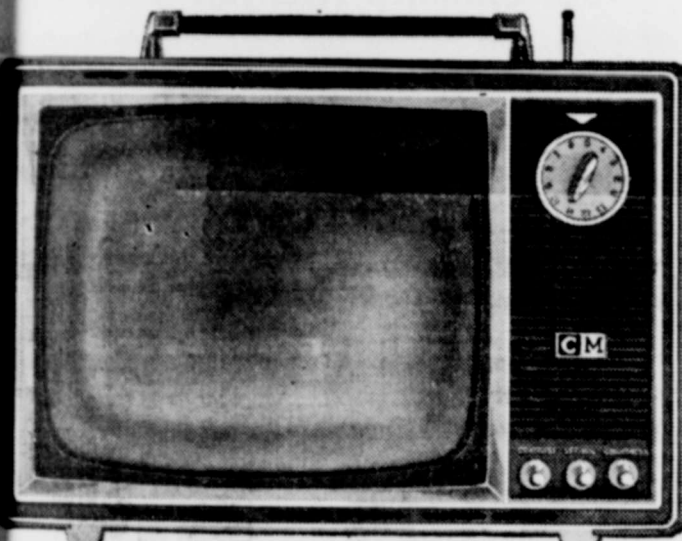

The early part of this column explains how the budget commissions of many states are using computers to reduce expenses, but I forecast that computers must also be used to in-

crease the efficiency of teaching. Parents seem to believe that the amount of time spent in school determines their children's education. This is all wrong. Instead of the time being increased, it should be decreased. This will someday be done with greater use of computers.

There are several companies which will demonstrate how

this can be accomplished — resulting in fewer teachers, better education, lower taxes, and children trained to concentrate and get real jobs for which they are best fitted. Research and new machinery have entered almost every phase of family life except education. I believe education is on the verge of a revolution in which computers will play a prominent part.

BURKBURNETT, TEXAS

County, I gained some very interesting information. He tells me that one of these computers, at a rental of about \$7,000 a month, should save the county a net of over \$20,000 a month, on extra help. Now such a modern computer could do the schedule programming in few days that it takes school teachers (supplementing their regular employment) several weeks to accomplish. When I asked Mr. Pickett whether the school teachers would complain, he stated, "Many of them will be glad to have extra days off; while many of those who take their places when they have time off are housewives with no regular employment. Thus the employment situation as a whole should not be upset."

In view of the activity of salesmen of the leading companies, it is probable that many more counties may be making this same saving. Whatever the facts are, I am only passing this along to readers as an illustration of what the introduction of computers may accomplish, or upset — according to the circumstances.

Revolution In Education
As the Federal Government is constantly assuming more of the cost and maintenance of road building, the present trend indicates that the greatest "local" expense will be our public

schools. It looks now as if the education of our children could be considerably improved at lower cost by the use of computers.

I feel certain that fewer new school houses will be built and that computers may materially reduce the construction of new

'64 Jet-smooth Chevrolet Impala Sport Coupe (119-in. wheelbase)

New Chevelle Malibu Sport Coupe (115-in. wheelbase)

'64 Chevy II Nova Sport Coupe (110-in. wheelbase)

'64 Corvair Monza Club Coupe (108-in. wheelbase)

'64 Corvette Sting Ray Sport Coupe (98-in. wheelbase)

Chevrolet will go to any length to make you happy

Things have changed a lot since a Chevy was only a Chevy. Especially your ideas of what you want a Chevy to be.

So now you have the Jet-smooth Chevrolet—17½ feet of pure luxury, bumper to bumper. The size makes it a luxury car. But not the price.

Or you can choose the thrifty Chevy II, a 15¼-foot family car with all kinds of passenger and luggage space.

This year, your choice might be the new 16-foot-plus Chevelle, sized to fit nicely between Chev-

rolet and Chevy II (and between parking meters, with five whole feet left over).

Then, too, there's the sporty 15-foot Corvair, so right for so many people (you girls, in particular) that we've never touched an inch of it. And finally, Corvette—still 14½ feet and still too much for any true sports-car lover to say no to.

The long and short of it is, you don't have to go to any length to find exactly the kind of car you want. Just see the five different lines of cars at your Chevrolet dealer's.

THE GREAT HIGHWAY PERFORMERS Chevrolet • Chevelle • Chevy II • Corvair • Corvette

Midwestern Science Fair Winners

Jay Forrest, left and Alan Klem are the recipients of blue ribbons won for their entries in the Midwestern Science Fair.

Two high school boys, Jay Forrest 17, a junior and Alan Klem 14, a freshman, are the proud owners of blue ribbons which they won for their entries in the Midwestern Science Fair. Both were entered in the First Division.

Jay's entry which he called "The Effect of Reward Upon Learning," was a scientific experiment conducted with rats, proving an animal which receives a small amount or reward learns and performs consistently, while one given rewards in excessive portions loses interest and ceases all action.

Other awards received by Jay are the National Aeronautics and Space Administration Space Life Science Award, an invitation to visit the Manned Space Craft Center in Houston.

"Testing the Effects on Penicillin on Bacteria," was the entry which Alan used to show

the reaction of eight colonies of bacteria when in contact with penicillin.

Jay and Alan plan to attend college upon receiving diplomas from high school. The University of Texas is the choice of both boys, at present.

Jay, son of Mr. and Mrs. Elmer L. Forrest of 801 Mimosa, says he will major in Biology or Electrical Engineering.

Alan, son of Lt. Col. and Mrs. N. Klem, of 111 Falcon Blvd., Capehart, Sheppard Air Force Base, states his choice of college will depend on where his father, retires, and if he chooses Wichita Falls or vicinity, Texas University is where Alan wants to go. He is not certain what his major will be, but since he is a freshman, there is time to decide.

One thing is certain. These boys, teenagers, will become useful and upright citizens.

Eddie Hill Shows Dragster He Built

Eddie Hill of Wichita Falls, professional drag race driver, holds a photograph of one of the dragsters he has built and raced, while Bonnie, his wife and their pretty daughter, Sabrina, stand proudly by his side. He was guest speaker at a recent meeting of the Pacemakers Auto Club, where he talked about drag racing, its rules, top drivers and methods used to keep it one of the safest sports today. Hill also showed many pictures of dragsters.
