EDDIE CANTRELL HOME GUTTED BY FIRE ... Volunteers were called out shortly after 7 o'clock last Thursday morning a stubborn blaze in the Cantrell home in south Floydada, a blaze on the home hampered firemen in chopping through quickly the blaze believed to have started in the upstairs portion, an hour and a half before firemen considered the blaze under control. No one lived in the home at the time of the fire, but the furniture was still stored there. Fire officials said a member of the family had put out rat poison the evening before by candlelight upstairs and they surmised the candle ignited articles in which went unnoticed and smoldered through the night.

NORMA JEAN MEADOR

Mrs. Meador Coordinator

Mrs. Joe Meador, the former Norma Jean Moore, daughter of the late Judge and Mrs. Frank Moore of Floyddale, is new Volunteer Service Coordinator of the Central Plains Mental Health/Mental Retardation Center in Plainview. The center serves a nine county area of which one is Floyddale.

The coordinator recently joined the center's staff, having moved to Plainview from Crowley with her husband, who is Texas OEO program consultant, and their two children, Joe Douglas, 13, and Stacy 12.

Mrs. Meador says involvement and training of qualified volunteers to serve out-patients and former patients was the most immediate need. Contacts will be made through appearances before civic and community groups in towns in the area served by the center.

"There are many persons in need of companionship and concern who can be helped by volunteer workers in their own communities," she said. "Visits with families of patients can also be extremely helpful as well."

Plans by Mrs. Meador also include the establishment of day-care centers to serve those out patients who are unable, because of distance from the center, to come in for the center's daily programs.

Mrs. Meador will also be responsible for securing materials used in the center's handicraft activities. She said they are currently in need of books for the library in addition to occupational therapy supplies such as yarns, sewing machines, sewing fabrics, decorative items and paints and painting supplies. Persons wishing to donate such supplies are requested to contact Mrs. Meador at the center.

Mrs. Meador is a native of Floyddale and was secretary to the director of nursing at Vernon State Hospital from 1962-66, and was activities director and housemother at Smithtown Maternity Home in Lubbock.

Peggy's Meddlin's

BY PEGGY MEDLEY

A NOTE of mystery hung over Floyddale last Thursday and still does for that matter, after a supposedly injured man was never found by officials. An employee at Cates Chemical Co., in Sunray picked up a portion of a distress signal over his two-way radio from a person, believed to be male, stating weakly that his legs were pinned and he was needing help. In trying to give his location he said he was at "Gate Sweet or Suite, 8 or A near Floyddale" and gave the phone number of A. C. Neff in the Cedar Hill community before evidently passing out. The man hearing the distress call in Sunray immediately got in touch with Neff and an investigation started which involved patrolmen and air officials, who thought possibly the man might be in a downed plane.

Neff thought at first it might possibly be his brother, Noble of Crosbyton, who has a plane. Noble was located safe and sound, so the investigation started anew and continued throughout the day with no injured person located. To this writing investigators are still wondering, was it a crank or was there such a person injured?

THE Henry Loves, longtime Floyddale residents, will be observing 60 years of marriage August

I HEARD the definition of a muddle head was a guy who told his doctor he couldn't remember things one minute to the next, the doctor asked, "How long has this been going on?" He replied, "How long has what been going on?"

WHEN it comes to wedding showers for a bride-elect it seems the groom to be is kind of left out. Not so in the town of Happy, Tex. Becky Dunlap and her fiancé, Gary Culp, were given a shower there last week and the night before the event, the Dunlap family and others of Floyddale, the Culp, who reside in Happy, and a bunch of other relatives gathered at the Mary Jane Miller home in Happy for the opening of gifts by Becky and Gary. It was a grand time for all and daddys and mamas even got in on the fun. Coffee, cakes and cookies were served during the informal occasion. The wedding gifts were then ready for display for the guests invited to the shower the next day.

HELEN and R.G. solved their wedding gift shopping for Becky and Gary in the way of a "paid honeymoon trip," but in a most tactful way. Helen glued a U.S. map on cardboard and drew the couple's route of their honeymoon. At starting point in Floyddale was a miniature hon-

eymoon car with all the lettering on the outside, complete with tiny tin cans and such and inside the car, the newlyweds, miniature dolls of course, but that took some doing. At the point of destination for the couple, was placed a tiny flag and underneath, a rolled-up check from Mom and Dad for honeymoon expenses. This creation was displayed at the shower in Floyddale for Becky and it was some time afterwards before she found out that in all that talent displayed by her mother, there was a check from her parents.

ITS time to demote tweed skirts and sweaters for they are in for winter fashions. The bolder the plaid or tweed the better. Its schoolgirl gray flannel time again too and after a season or two of mixing, it's now matching time. The skirt - is at the knee - for fall and may be pleated or A-line. Good solid colors this fall beside gray include the always favorite basic black, and fuchsia, turquoise, royal blue, red and Kelly green. Pant fashions will be found with very wide legs, wide cuffs and more on a mannish style.

CLARKS VISIT HERE AFTER FIVE MONTHS IN EUROPE

Mr. and Mrs. Dane Clark and their children, Brooks and Cameron have been visiting relatives in the Floyddale area after being in Europe the past five and a half months.

The Clarks toured through France, Luxembourg, Germany, Spain, Italy, Yugoslavia, Austria, Switzerland, Belgium, Holland, Denmark, Sweden, and Norway.

From Norway a ship was taken to England and Scotland where the Clark family visited friends. The return trip to the U.S. was made by an ocean liner, the S. S. France, which the Clarks would be particularly enjoyable.

Dane is the son of Mr. and Mrs. L. L. (Pete) Clark of Santa Fe, N.M. Joan is the daughter of Mr. and Mrs. Clark Harris of Lockney.

Pirates Win Floydada T-Shirt Tournament

PIRATES T-SHIRT LEAGUE and tournament winners with coaches Ken Weaver, Roger Gooch and Bud Rainey. At right Jack Covington presents trophies after 17-1 victory over Idalou. Players left to right are: Phillip Kirk, Steve Weaver, Darrell Gooch, Billy Collins, Manuel Hernandez, Steve Weaver, John Fortenberry, Macolyn Collins, Todd Wells, Martin Samuels, Todd Beedy, Jeff Rainey, Bobby Hendrickson.

The Floydada T-Shirt Pirates, playing with three T-Shirt all-stars looked like the champions as they clobbered Idalou 17-1. They received trophies for tournament and league champions.

Mecolyn Collins, Martin Samuels and Jeff Rainey were the winning pitchers and almost every Pirate player was getting hits. Their fielding was up to par also.

It wasn't this way Saturday night when Idalou beat the Pirates 8-7. The Pirates were making errors. Collins and Samuels pitched this game. On Thursday night the Pirates beat Abernathy 10-3 and Samuels went all the way as winning pitcher.

In other tournament games last week Idalou beat Silvertown 13-5, Idalou beat Abernathy 9-8. Abernathy received the "Sportsman Trophy" for the tournament.

Pirate coaches are Ken Weaver and Bud Rainey.

THOUSAND OAKS, Calif.

— Duane Thomas, professional football's biggest mystery and one of its most talented running backs, has been traded to the San Diego Chargers.

The Dallas Cowboys, whose troubles with Thomas in 1971 have been renewed this year, dealt the third-year star to the Chargers Monday night, shortly before the midnight interconference trading deadline, for wide receiver Billy Park and running back Mike Montgomery.

The trades touched off a flurry of deals by the two teams. The Chargers dealt Jeff Queen, a regular fullback last year, to the Oakland Raiders for a

third-round draft pick in 1973, and the Cowboys swapped veteran wide receiver Glover Richardson to Oakland for an undisclosed draft choice.

Silvertown Clinic Gets Donation

SILVERTOWN — The Briscoe County Clinic Association has received a check for \$120,000 from the Martha Ann Cogdell Hospital Trust to build and maintain a new clinic and to buy a new ambulance for the Volunteer Ambulance Association.

In a recent meeting the clinic board discussed plans for the new building. The board will meet with an architect soon and select and purchase a location for the new clinic.

The board voted to give the ambulance association \$10,000 with which to purchase an ambulance. The ambulance association previously had decided to buy a heavy type vehicle for the comfort of the patient and for handling ability due to the distance traveled to hospitals. A fully-equipped ambulance of this type will cost \$13,000 to \$14,000. The association now will have to decide whether to buy a smaller and lighter-weight vehicle or to try to raise the rest of the money to buy the better ambulance.

Dorsey L. Baker Receives Master Of Patent Law

The One Hundred Eleventh Commencement Exercises of The John Marshall Law School were held Saturday, June 17, at 8:15 p.m. in the auditor- ium of the Prudential Building, Prudential Plaza, Chicago, Ill.
 The Honorable Joseph H. Goldenhersh, Justice, Illin- ois Supreme Court, Fifth Dis- trict, delivered the commence- ment address.
 Taking as his theme the role of lawyers in today's society, he warned against "strict con- structionism" as a judicial approach to the problems of law and society, pointing out that such an approach would have prevented virtually all of the great social changes of the last one hundred years, judicial interpretation being the age- old means of bridging the gap between the law, which is pro- gressive.
 Mrs. Justice Goldenhersh was awarded the LL.D. (honor- ary Doctor of Laws degree). Seventy-one degrees were awarded at the commencement exercises. The Lawyers Insti- tute, graduate school of The John Marshall Law School, awarded two degrees of Mas-

ter of Laws in Taxation and one degree of Master of Patent Law. Ten graduates were awarded the J. D. degree "with honor", and fifty-eight receiv- ed the J. D. degree.
 Dorsey L. Baker, 28 W340 Indian Knoll Trail, West Chi- cago, was awarded the degree

of Master of Patent Law. He holds the LL.B. from Southern Methodist University Law School, and is a patent attor- ney with Continental Can Co., Inc. His parents are Mr. and Mrs. Dorsey Baker, of Lock- ney, Texas.

TOWER OF STRENGTH

Maybe you know her as Miss Lizzie or Granny Hill or Aunt Mary Jones. Through the years she's been a tower of strength in her community... helping with the sick, sharing with the poor... a friend to all.

She doesn't seem to worry about the future, just looks to the brighter side and is happy. You envy her, thinking she gets much out of life that you miss. Does she have a secret, a magic formula?

No, you can't say that her fellowship with God is a secret, for God is for everyone!

Would you like to possess some of her strength to look ahead, to face danger and conquer fear? The Church can help you reach this goal. All through the years it has strengthened mankind and helped him find the best in himself and in others.

What Future Exists For Depots of Old?

By STEVE CORNETT
Staff Writer

They're just sitting there. Brick and wood reminders of what we used to be.

Brick reminders of the corporate affluence of the 20's, still standing solid alongside the Fort Worth & Denver lines in Lockney and Silverton.

And wooden ones in Clarendon and Claude. Reminders of a still earlier day, when wide-eyed and sunburned immigrants stepped from spark-scarred cars, a carpet bag in one hand and a cyclo-pedia of dryland farming techniques in the other.

They're depots. Passenger depots which were converted to freight depots when the passengers quit coming. Depots that became nothing but a reminder of other times as the FW&D began to implement more efficient service.

Small town depots have gone the way of the horse collar and the outhouse. They're not practical anymore, and they're hard to use effectively in display of antiques.

So the Fort Worth & Denver is throwing theirs up for sale. The high bid submitted by Aug. 15 gets the depot.

They have four depots and the old section hands' apartment house in Sterley for sale.

Charles Jordan, with the FW&D's engineering department at Fort Worth, said bids on the structures should be in the office of the chief engineer at Fort Worth by the bid opening date of Aug. 15.

He was unable to put exact dates of construction on any of the buildings, but said the depots in Clarendon and Claude went up shortly after the turn of the century or before, and the Silverton and Lockney units were erected as the FW&D was extended

through those towns between 1928 and 1932.

The newer ones are of brick construction, with the Clarendon depot being of brick and wood and the Claude facility of wood alone.

The apartment complex is masonry.

Since the early 50's, when the trains' passenger service began to lose its battle with the more individual forms of transportation, the depots had been either abandoned or converted to freight processing facilities only.

As the FW&D moved to more practical centralization of their freight centers—Claude is served by Amarillo, Clarendon by Memphis and Silverton and Lockney by Plainview — they even lost their usefulness as freighting points.

And the barracks at Sterley?

"Sterley," Jordan explained, "is a few miles south of Silverton. We decided to move the men to Plainview where more services were available. There isn't even a

grocery store at Sterley." Jordan said that the company "would be willing to listen to a lease proposal" on the buildings "but they don't encourage it."

Which means the old depots will have to be torn down or at least moved from the FW&D's property unless somebody can come up with a good enough offer to get the railway to lease them.

"And I don't think," Jordan mused, "that anybody is going to find any way to come out on leasing an apartment house at Sterley."

SPECIAL — It's no secret...4-H is growing...And it's growing in many directions including into America's largest cities.

A record five million young people are participating in some phase of the 4-H program. They come from all segments of society including urban centers as well as America's farms. Neither their economic and cultural backgrounds nor their place of residence provide barriers to learning in the informal 4-H youth education program.

Three of 10 4-H members reside on farms, 43 percent live in rural towns and communities and the remaining 24 percent come from cities and suburbia.

Volunteers Assist

Behind the five million 4-H'ers and lending their valued assistance are more than 500,000 volunteer adult and junior leaders. And coordinating the many and varied educational offerings are professional staff members of the Cooperative Extension Service which conducts the 4-H program nationwide.

Another organization which for the 51st year is contributing mightily to 4-H is the National 4-H Service Committee, Chicago. The non-profit, educational organization supported by some 55 corporations and foundations, has budgeted nearly \$3 million for 4-H member incentives and recognition, leader training, educational aids and other services during the current year.

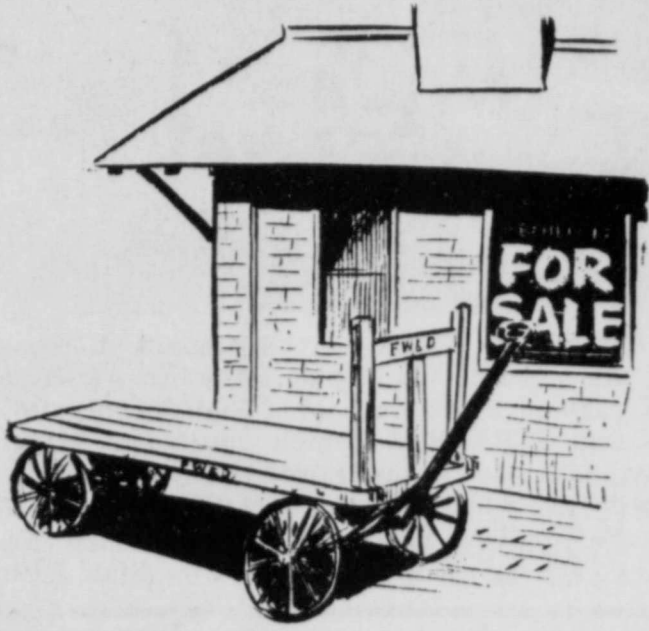

Scholarships, Trips Offered

More than 245 educational scholarship grants valued at nearly \$172,000 are to be awarded through the Committee at the 1972 National 4-H Congress in Chicago, Nov. 26-30. Some 1,600 teens are expected to participate in that event.

Among the National Committee's prestigious list of donors are five corporations which have supported 4-H programs for more than four decades. These include International Harvester Company;

Montgomery Ward; Wilson & Co., Inc.; Kerr Glass Manufacturing Corp.; and Armour and Company. Four railway companies which have been supporting 4-H for a similar period are the Burlington Northern; Chicago and North Western; The Milwaukee Road and the Santa Fe.

Donors of awards and other 4-H support for 30 or more years are Westinghouse Electric Corp., Coats & Clark Inc. and The Conrad Hilton Hotel.

Just sitting there . . . a reminder of other days.

GSPA Proposes New Basis For Farm Program

The Grain Sorghum Producers Association is proposing a new plan for future farm programs. Elbert Harp, GSPA Executive Director, said, "We are introducing this new plan as a means of obtaining a parity of income for our grain sorghum farmers. We feel it is applicable to all commodities and will easily be understood by farmers, Congress, and the American people."

Under the GSPA proposal, the Secretary of Agriculture will ask the land grant college of each state, in cooperation with the commodity and farm organizations, to conduct an intensive study of the cost of production of each price supported commodity produced within the state. This study shall include all costs which are typical expenses, and shall consider different cultural practices, such as irrigation as opposed to dryland farming, different soil types, and other regional variations affecting cost.

These cost studies will also consider:

1. Interest on land investment, figured as the current interest rate of the Federal Land Bank times the present market prices of the farm land under each type of farming by area.
2. The current property taxes on farm land and buildings.
3. Interest on farm equipment and average operating capital required times current bank rates for farm operating loans.
4. All other costs that are normal and typical within a given state or region.
5. Labor, to be figured at current minimum wage levels.
6. A percentage of all other expenses, added as management costs or profit. When these studies are complete, the Secretary will use them as a basis for computing the National Average Cost of Production for each price supported commodity. This will be done by multiplying the typical cost by the total amount of production, which will give the weighted average cost figure for each given commodity, or the "National Average Cost of Production."

Through the use of CCC Loan and Price Support Programs, the Secretary shall administer a production and supply control program that will set a minimum return to farmers who comply with the required production restrictions, as set by the Secretary, of not less than the current year's National Weighted Average Cost of Production for that given commodity, including a profit margin for management.

Harp stated that Texas A&M University has done some preliminary studies on the cost of production nationwide. He said, "We know that such a study is feasible and that a national weighted average cost of production can be obtained. We feel that this is a business-like approach to setting the price levels for grain sorghum and other commodities in farm programs of the future."

GIRL SCOUTS DONATE TREES TO PARK . . . Members of Junior Girl Scout Troop 297 help plant one of the 12 pine trees that Floydada Girl Scouts placed in the park in Floydada east of High School, site of the Girl Scout Day Camp E-HA-WEE, which concluded Friday. Robert Fein, silviculturist with the Texas Forest Service, was on hand to assist the girls with the planting. SUSAN SUDDUTH, granddaughters and Mrs. A.E. Richards of Ralls are a pile of small fish, which farm hand Solas reports seeing flowing from irrigation line at the B.L. Anderson Sr. mile and a half west of Crosbyton this week. (Ralls Banner Photo)

journalist has forsworn golf in favor of bowling. "Last night, for instance, I bowled hours and didn't lose a single ball."

RAVE fun this summer? Walk into an antique shop and see what's new?"

OUND SAFE to keep all Babe's money Babe Jones is pictured with safe from National Bank in Truscott, Texas. His one time banked there, and the safe years old. (Staff Photo)

Solas said. He was very positive about it. "There is no place else they could have come from" he said.

Frank Rayner, manager of the High Plains Under Ground Water District in Lubbock told Afton Richards, editor of the Ralls Banner, in his judgement there is just no way these fish could have gone through the pump and lived. Pumping water from below 200 feet, the pump has several stages to it, and it is just not possible for them to survive the actions of the pump, he said.

Marvin McLaughlin of Ralls agrees with this opinion. He says he has noticed where a lake was being pumped, the tad poles and other forms of life going through the pump, were all chopped up.

Solas, who noticed the fish coming out of the water on two separate rows has a good question, "If they didn't come from the well, you tell me where?" And there is no answer.

The well is out of the middle of a flat field, with no lake nearby. The flow-

lines, coming from an aluminum pipe, are only a few rows from the well. The well had been running constantly for several days, immediately before he found the fish. "If the fish had been in

some underground water formation, they would have no eyes," Rayner said.

"I'm not calling anyone a liar" he said, "but in my opinion, there is just no way these fish could have come

through the pump."

He says every once in awhile this report is spread but there has never been a confirmed case of fish being pumped through an irrigation pump.

And, so this still leaves an unanswered question, and that is, if not through the pump, what is the source of the fish? And, in the meantime Julian Solas is sticking by his story that he saw them

come out of the irrigation pipe. If you don't believe him, all you have to do is just give him a reasonable, logical explanation of their origin. And that seems fair enough.

FLOYD COUNTY IRRIGATION FACTS

1. The first well dug in the High Plains was probably never recorded; however, the first recorded successful well was drilled in 1911 on the J. H. Slaton farm 4 miles west of Plainview, Texas. Irrigation began to get popular in the 1930's and then really accelerated during the 1940's and 50's.

3/ Total for 51 counties includes the Texas High Plains and some bordering counties.

3. Playa lakes pumped and tailwater systems (from 1971 High Plains Irrigation Survey).

Number in the 15 county area = 1,841 lakes + 1,084 pits = 2,925

Number in the 42 county area = 2,529 lakes + 2,171 pits = 4,700

4. Ogallala formation ranges from 0 to over 500 feet in thickness.
5. The depth to water in over 850 wells in the District is measured each year during the first of January.
6. The water table in the District is declining at an average of 2 to 3 feet per year, with some declines of up to 10 feet.
7. Rates of water application: cotton, milo, wheat - 1/2 to 1-1/2 acre-feet per year; alfalfa - up to 3 acre-feet per year.
8. Water pollution. There has been some groundwater pollution caused by oilfield salt water disposal pits and from other disposal operations; however, groundwater pollution in the High Plains is not a major problem.

WATER EQUIVALENT TABLES

1 cubic foot of water = 7.48 gallons = 62.4 pounds

1 acre-foot of water = 43,560 cubic feet = 325,850 gallons

An acre-foot of water covers 1 acre of land with 1 foot of water

1 million gallons of water = 3.07 acre-feet of water

1 million gallons per day = 1,120 acre-feet per year

1,000 gallons per minute = 4.42 acre-feet per day

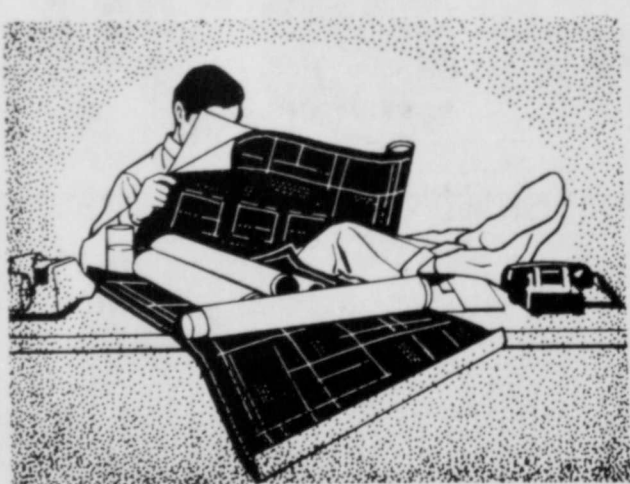

At 10¢/1,000 gallons, 1 acre-foot of water would cost \$32.59

At City of Lubbock rates for minimum water use, 1 acre-foot of water would cost \$353.00.

Rural Part Of America Due Funds

Is now the time to build or improve?

A new home, modern buildings, increased efficiency for handling livestock, land improvements — investments like these are too important to postpone. A Federal Land Bank loan, made for extra years and at reasonable cost, makes such things possible for many who might otherwise be forced to delay them.

Building material and labor costs aren't likely to come down in the near future. Loan costs? The Land Bank is committed to provide credit at reasonable interest. And you may prepay your loan at any time without penalty.

Let us analyze your plans for housing or expansion and come up with a practical way to meet your goals. We usually can find ways to get you started toward greater income and more comfortable living without unnecessary waiting.

FLOYDADA, TEXAS

WASHINGTON — The House voted Thursday to rebuild rural America through a development program authorizing about \$500 million a year in new grant funds and extensively expanding loan authority.

Backers of the Senate-House compromise bill won a crucial parliamentary battle 214 to 162 to technicalities involving key features. Then, the House passed the bill 339 to 36 and sent it to the Senate for concurrence.

The legislation is aimed at campaign to spur economic growth of countryside communities and eventually to help lure people away from the nation's crowded central cities.

Senate-House conferees created the compromise by settling 52 specific points in conflict between separate bills originally passed by the Senate and House. They discarded a revenue-sharing plan by which the Senate originally sought to pump \$500 million a year into

rural development.

President Nixon had called for a new \$1.3 billion rural credit system linked with revenue sharing under a plan for countryside development and business loans.

However, the House initially accepted a combination of \$380 million in grant authority plus sweeping new loan powers.

The eventual compromise would create a range of programs to improve rural living conditions and make small towns more attractive.

The legislation would cover towns of up to 10,000 population, with industrial loans provided to cities of up to 50,000.

Grants would go to improve conditions in such programs as pollution abatement and development of industrial centers providing jobs for the unemployed.

For the first time, the Farmers Home Administration could make loans to small business and industry as part of the industrial-parks program.

JULY FARM PRICES
REACH RECORD
HIGH SECOND TIME

WASHINGTON — Further increases for cattle and hogs helped boost farm prices in July to a record high for the second successive month, the Agriculture Department reported Monday.

July index for raw farm products was up 1.5 per cent, the department said. In June it also rose 1.5 per cent to break an all-time mark set in February 1951.

13 Per Cent Up

Compared with a year ago, farm prices in July were 13 per cent higher.

Officials said higher prices for hogs, cattle, potatoes, eggs, milk and onions contributed most to the increase.

Lower prices were reported for cotton, peaches, lettuce, grapefruit, hay, tomatoes and oranges.

Administration price curbs do not apply to raw products sold by farmers, and middlemen can pass added costs on to consumers.

Dipping facilities have been built just west of the Floydada Livestock Auction.

FOR MOVEMENT

Cattle Dipping
Now Required

AUSTIN — A quarantine on movements of all cattle from counties in the Plains and Panhandle will be imposed by the Texas Animal Health Commission, effective Aug. 1.

George W. Apple Sr., chairman, said the A.H.C.'s dip movement quarantine order came about because sporadic scabies (cattle scab) infestations have been confirmed in the Panhandle, posing a potential threat to the Texas cattle industry, as well as those of other states.

The order applies to Castro, Floyd, Hale, Lamb and Swisher counties, as well as Armstrong, Bailey, Briscoe, Carson, Childress, Collingsworth, Cottle,

Dallam, Deaf Smith, Donley, Foard, Gray, Hall, Hansford, Hardeman, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Motley, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman and Wheeler.

Official dipping will be required on all cattle being moved within the 34 counties, except cattle moving directly to slaughter; cattle moving to slaughter through a livestock market; cattle moving to a livestock market for sale and dipping; cattle released from livestock market to an official dip point with permit, and under some other circumstances.

GSPA To Sponsor Swine

Study Tour In Europe

Approximately 20-25 farmers, ranchers and investors with a special financial interest in swine production will tour Germany, Austria, Switzerland and France in October on Grain Sorghum Producers Association's Swine Study and Market Development Tour. The 15-day tour, beginning Sunday, October 15, will provide the opportunity for studying both commercial and family owned swine, breeding, feeding, processing, curing, marketing and research facilities in central Europe. The itinerary also allows time for sightseeing and shopping.

People throughout the United States who are interested in any aspect of swine production are invited to participate in the tour. The cost of \$1,050 per person includes coach class air transportation from Lubbock or Dallas (\$907 for New York boarding passengers), all transfers and ground transportation in Europe by deluxe motorcoach with English speaking guides, first class twin bedded hotel rooms, continental breakfast throughout, tips, and taxes. The tour is a tax de-

ductible business expense for tour members with swine and grain sorghum market development business interests. Ladies are welcome as tour participants.

Dr. T. D. "Tank" Tanksley, highly respected Swine Specialist for the Texas Agricultural Extension Service and Associate Professor at Texas A&M University, will be escorting the group as tour leader.

The itinerary includes visits to a hog finishing farm, a progeny testing station, a feed mill, the research farm of the University of Göttingen and the Institute of Animal Husbandry in Berlin. Highlights of the non-technical part of the tour are an excursion to the Bavarian castles, evening tours of Berlin and Munich, and sightseeing in Switzerland and Paris.

For further information about the tour and for making reservations, contact GSPA, 1212-14th Street, Lubbock, Texas 79401, telephone (806) 763-4425. Reservations must be made by September 15.

Senator Tower Opposes Reduction
In Farm Payment Limitations

WASHINGTON — Senator John Tower, R-Texas, today opposed a reduction in farm payment limitations, and supported programs for screw-worm eradication, insect con-

trol, foreign meat inspection, rural electrification and rural environmental assistance, as the Senate considered this year's Agricultural Appropriations Bill.

As a result of actions by the House and Senate in Washington over recent weeks farmers can expect labor costs to increase by at least 15 percent later this year and by over 30 percent beginning in the Fall of 1973, according to Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc. The House on May 11 passed a bill increasing the agricultural minimum wage from the present \$1.30 an hour to \$1.50 this year and to \$1.70 a year later.

The Senate, ardently courting the favor of organized labor, voted July 20 to raise the farm labor minimum to \$1.60 this year, \$1.80 next year, \$2.00 in 1974 and \$2.20 in 1975.

"Thus the hourly minimum wage for agriculture in the years ahead will be decided by a House-Senate Conference Committee," Johnson said, "and a 30 percent increase by 1973, as written into the House measure, is the smallest increase that can be hoped for."

Also hanging in the balance when the Conference Committee meets will be the fate of overtime exemptions traditionally given to cotton gins, oil mills and other seasonal processing industries. The House version retains these exemptions but the Senate bill wipes them out. If the Senate version holds, some sources estimate the cost of ginning cotton will be increased in the neighborhood of \$5 per bale.

The House bill would increase non-agricultural labor from a \$1.60 minimum to \$1.80 this year and to \$2.00 in 1973. The Senate would jump the minimum for non-farm workers to \$1.80 this year and to \$2.20 an hour in 1974.

Ostensibly the Administration was pushing on the Senate floor for new minimum wage provisions much more in line with those adopted by the

House, including a \$2.00 top for non-farm labor and an increase to only \$1.80 for agriculture. But Republicans as well as Democrats would like to gain support from organized labor in this election year, and numerous defections from the more modest wage approach were noted in Administration ranks.

Democrats in the Senate were especially anxious to mollify labor union leaders, most of whom were thoroughly disenchanted with procedures followed at the Democratic Convention and with the party's presidential nominee.

Political expediency notwithstanding however, both Texas Senators — John Tower, a Republican, and Lloyd Bentsen Jr., a Democrat — voted for a substitute bill with minimum wage increases similar to those approved by the House. That bill was defeated by a vote of 46 to 47 and the minimum bill from the Senate Labor Committee passed 65 to 27.

Presidential nominee George McGovern flew back to the Capitol from South Dakota to vote against the substitute bill.

Without the farm vote there would be no support for Tower's contention.

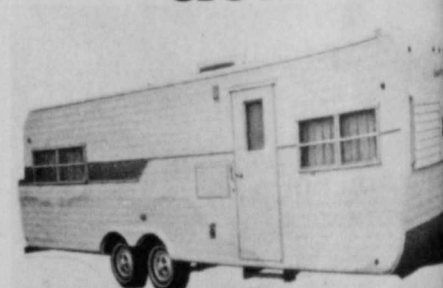

"It would be a disaster, indeed, if we pass a minimum wage bill and the minimum wage is not raised," he said.

Ultimately the sure would jump minimum wage for non-agricultural labor by almost 50 percent, farm labor, the increases in history.

Noteworthy is that of the minimum wage provisions which even enacted in the House, the chairman of the committee on Labor of Pennsylvania, the battle on the House bill almost identical to the Senate bill will no doubt head off conferees on the bill.

Washington observers expect the Conference Committee to meet next week to work out a compromise between the House and Senate versions.

Try It! You Will Like It!

The Chinese tell the story of a young man who raised a tiger. He kept him in a cage, and when the tiger was full grown his young owner was fond of telling everyone how ferocious and brave and powerful his tiger was.

But his friends mocked him, "That tiger's not wild any more," they laughed, "He's as tame as a tired old house cat."

This dialogue went on for quite sometime, until one day a wise old man came along. As they were talking, he interrupted and said, "There's only one way for you to know whether or not that tiger is ferocious. Open the cage."

The young man smiled at his friends. He went over, put his hand on the latch and asked them, "Want to try out my tiger?"

There are many who think today that Christianity is toothless, tired and weak-kneed, and are not afraid to say so - at least by their actions. And it is possible that Christianity has lost its power to influence and redeem life. If that be the case, the least we could do is ask "Why?" The answer may well be that Christianity has been locked in a cage for so long that we really don't know whether it has power or not.

The Jews marveled at Jesus' teachings in the temple one day. They heard things that left them bewildered. And they asked each other, "How is it that this man has learning, when he has never studied?"

So Jesus answered them, "My teaching is not mine, but his who sent me: if any man's will is to do his will, he shall know whether the teaching is from God or whether I am speaking on my own authority." In essence Jesus is saying to them - there's only one way for you to understand the teachings of God - do them! Try them for yourself, and you will find, as I found, their truth authenticated in my life. And He says the same to all today! There's only one way to know! Others may say it is so, but no one really knows until he has opened the door of the cage, and tried His teachings for himself.

The Jewish Law taught tithing as the standard of giving to God. Jesus did not disapprove, and Christianity has taught the need to be really generous in ones giving. The testimony of millions of Christians confirm tithing to be a genuine source of personal satisfaction, and happiness. But a fine Christian man who became keenly interested in the stewardship of his material possessions did so after trying it solely as an experiment in giving. "I found such joy in the experiment, I would never consider doing less than the minimum, and always more as the circumstances permit." Undoubtedly, he speaks for all who have tried it.

Seldom in history has there been such a desperate search for some meaning and purpose to life as there is at the present. So many good things of the past have been rejected as irrelevant to modern life, as being out of place in the present world. Honesty, truth, purity, faithfulness to vows and obligations, treating others as one desires to be treated, - have somehow gotten locked in the cage all too often today. The debate may go on as to their value, but before they are completely lost - let the cage be opened - let's see if they have lost their power!

Jesus said, "I am the Way, the Truth, the Life." He also said, "I have come that they may have life, and have it abundantly." And again, "He that comes to Me I will in no wise cast out." Beautiful words - all! True words - all! Powerful words - all! But they authenticate themselves only to trial.

How long has it been since you took Him at His word? Why not open the cage of your heart to Him and His truth and discover - either anew, or for the first time, the power of Christianity?

Try It! You Will Like It.

BUD SPARKS AND TOMMY WYLIE RECEIVE CUSTOMER SERVICE AWARD

A special award was presented July 29 to S. E. Sparks and Tommy Wylie who are owners of Sparks and Wylie Conoco, 420 S. 2nd in Floydada. The award, a plaque bearing two rare silver dollars, two Kennedy half-dollars, and a specially minted commemorative coin set in an automotive engine design, was presented for exceptional customer service by a representative of The Gates Rubber Company.

The Denver-based rubber company sponsors a nationwide contest (now in its 40th year) to reward service station personnel who provide exceptional customer service. A

fleet of "Gates Mystery Cars" regularly travels across the country stopping at service stations. Each "Mystery Car" has a worn fan belt. Award plaques are presented to station personnel who notice the defective belt and offer to replace it.

Proposed

CONSTITUTIONAL AMENDMENT

NUMBER 5 ON THE BALLOT (HJR 35)
General Election November 7, 1972

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2, Article VIII, Constitution of the State of Texas, be amended to read as follows:

"Section 2. (a) All occupation taxes shall be equal and uniform upon the same class of subjects within the limits of the authority levying the tax; but the legislature may, by general laws, exempt from taxation public property used for public purposes; actual places of religious worship, also any property owned by a church or by a strictly religious society for the exclusive use as a dwelling place for the ministry of such church or religious society, and which yields no revenue whatever to such church or religious society; provided that such exemption shall not extend to more property than is reasonably necessary for a dwelling place and in no event more than one acre of land; places of burial not held for private or corporate profit; all buildings used exclusively and owned by persons or associations of persons for school purposes and the necessary furniture of all schools and property used exclusively and reasonably necessary in conducting any association engaged in promoting the religious, educational and physical development of boys, girls, young men or young women operating under a State or National organization of like character; also the endowment funds of such institutions of learning and religion not used with a view to profit; and when the same are invested in bonds or mortgages, or in land or other property which has been and shall hereafter be bought in by such institutions under foreclosure sales made to satisfy or protect such bonds or mortgages, that such exemption of such land and property shall continue only for two years after the purchase of the same at such sale by such institutions and no longer, and institutions of purely public charity; and all laws exempting property from taxation other than the property mentioned in this Section shall be null and void."

"(b) The Legislature may, by general law, exempt property owned by a disabled veteran or by the surviving spouse and surviving minor children of a disabled veteran. A disabled veteran is a veteran of the

armed services of the United States who is classified as disabled by the Veterans' Administration or by a successor to that agency; or the military service in which he served. A veteran who is certified as having a disability of less than 10 percent is not entitled to an exemption. A veteran having a disability rating of not less than 10 percent nor more than 30 percent may be granted an exemption from taxation for property valued at up to \$1,500. A veteran having a disability rating of more than 30 percent but not more than 50 percent may be granted an exemption from taxation for property valued at up to \$2,000. A veteran having a disability rating of more than 50 percent but not more than 70 percent may be granted an exemption from taxation for property valued at up to \$2,500. A veteran who has a disability rating of more than 70 percent, or a veteran who has a disability rating of not less than 10 percent and has attained the age of 65, or a disabled veteran whose disability consists of the loss or loss of use of one or more limbs, total blindness in one or both eyes, or paraplegia, may be granted an exemption from taxation for property valued at up to \$3,000. The spouse and children of any member of the United States Armed Forces who loses his life while on active duty will be granted an exemption from taxation for property valued at up to \$2,500. A deceased disabled veteran's surviving spouse and children may be granted an exemption which in the aggregate is equal to the exemption to which the decedent was entitled at the time he died."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1972, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment allowing certain tax exemptions to disabled veterans shall be null and void."

CONSTITUTIONAL AMENDMENT

NUMBER 4 ON THE BALLOT (HJR 61)
General Election November 7, 1972

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article XVII, Constitution of the State of Texas, be amended by adding a Section 2 to read as follows:

"Section 2. (a) When the legislature convenes in regular session in January, 1973, it shall provide by concurrent resolution for the establishment of a constitutional revision commission. The legislature shall appropriate money to provide an adequate staff, office space, equipment, and supplies for the commission."

"(b) The commission shall study the need for constitutional change and shall report its recommendations to the members of the legislature not later than November 1, 1973."

"(c) The members of the 63rd Legislature shall be convened as a constitutional convention at noon on the second Tuesday in January, 1974. The lieutenant governor shall preside until a chairman of the convention is elected. The convention shall elect other officers it deems necessary, adopt temporary and permanent rules, and publish a journal of its proceedings. A person elected to fill a vacancy in the 63rd Legislature before dissolution of the convention becomes a member of the convention on taking office as a member of the legislature."

"(d) Members of the convention shall receive compensation, mileage, per diem as determined by a five member committee, to be composed of the Governor, Lieutenant Governor, Speaker of the House, Chief Justice of the Supreme Court, and Chief Justice of the Court of Criminal Appeals. This shall not be held in conflict with Article XVI, Section 33 of the Texas Constitution. The convention may provide for the expenses of its members and for the employment of staff for the convention, and for these purposes may by resolution appropriate money from the general revenue fund of the state treasury. Warrants

shall be drawn pursuant to vouchers signed by the chairman or by a person authorized by him in writing to sign them."

"(e) The convention, by resolution adopted on a vote of at least two-thirds of its members, may submit for a vote of the qualified electors of this state a new constitution which may contain alternative articles or sections, or may submit revisions of the existing constitution which may contain alternative articles or sections. Each resolution shall specify the date of the election, the form of the ballots, and the method of publicizing the proposals to be voted on. To be adopted, each proposal must receive the favorable vote of the majority of those voting on the proposal. The conduct of the election, the canvassing of the votes, and the reporting of the returns shall be as provided for elections under Section 1 of this article."

"(f) The convention may be dissolved by the vote of at least two-thirds of its members; but it is automatically dissolved at 11:59 p.m. on May 31, 1974, unless its duration is extended for a period not to exceed 60 days by resolution adopted on the vote of at least two-thirds of its members."

"(g) The Bill of Rights of the present Texas Constitution shall be retained in full."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1972, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment providing for a constitutional revision commission which precedes the convening of the members of the 63rd Legislature as a constitutional convention in January, 1974, for the purpose of submitting to the voters a new constitution or revisions of the existing state constitution."

Pioneer Earnings Show Increase

AMARILLO - Pioneer Natural Gas Company's consolidated net income and earnings per share showed an increase for the second quarter of 1972 over the same period a year ago, according to an announcement made today by Burton P. Smith, company president.

Consolidated net income for Pioneer Natural Gas Company and subsidiaries for the quarter ended June 30, 1972, amounted to \$2,523,906. This compares with \$2,243,589 for the second quarter of 1971. For the first six months of this year, the consolidated net income amounted to \$5,817,647 compared to \$5,221,622 for the same period in 1971.

Earnings per share for the second quarter amounted to 34¢ on the 7,468,132 average num-

ber of shares outstanding during the period. This compares with 30¢ per share on the 7,468,132 average shares outstanding during the same period last year. Earnings per share for the first six months of 1972 are 78¢ compared to 70¢ per share for the same period in 1971.

ending a satellite up to send
back down to tell us how much
flowing into a river or lake, this
ing to a lot of trouble to tell

us what we already know. It's like taking a
poll to find out who won an election 10 years
ago.

You suppose science is running out of some-
thing to do? Why just last week I read that
Russian scientists have now perfected an in-
strument that can measure the temperature
of a burning match from more than 6,000
miles away.

I don't know who they sent 6,000 miles
away to strike that match or how they could
tell they were focusing on that particular one,
it could have been a cigarette lighter in
Floydada or the pilot light in somebody's
water heater, but even if they got the right
one, couldn't they have found out a lot easi-
er just by striking one in their own labora-
tory and holding it under a thermometer?

It may be true, scientists are running out
of something to do, although I'm not sure about
this. Right now, science is still building new
appliances a lot faster than repairmen can fix
them.

Yours faithfully,

Cadet David Cogdell Returns From ROTC Camp

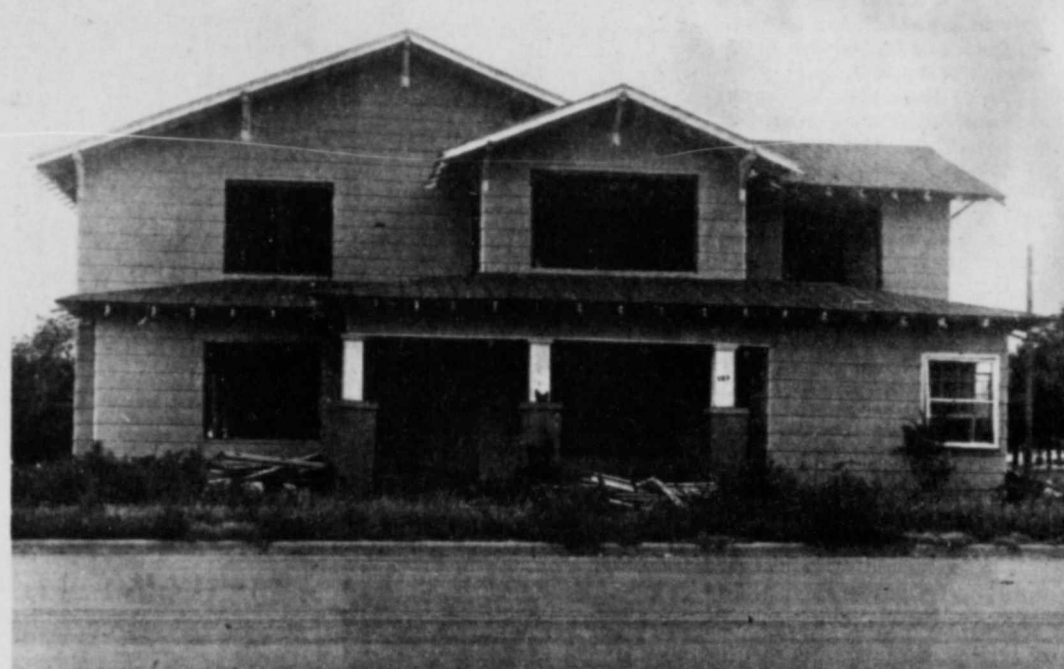

FT. RILEY, Kan. (AHTNC)—
Cadet David H. Cogdell, 21, son
of Mr. and Mrs. Ralph R. Cog-
dell, 215 W. Crockett, Floyd-
ada, has received practical
work in military leadership at
the Army Reserve Officers
Training Corps advanced sum-
mer camp at Ft. Riley, Kan.,
from June 17-July 28.

Cadet Cogdell, who is sched-
uled to receive a B.A. de-
gree in 1973 from Texas Tech-
nological University, Lubbock,
is one of more than 10,000
students attending Army ROTC
training at six installations in
the U.S.

The six-week ROTC advanced
camp provides an opportu-
nity for cadets to develop and
demonstrate leadership capa-
bilities in a field training en-
vironment. The instruction
supplements theories and con-
cepts which cadets learned in
the classroom on campus.

Cadets normally attend the
training between their junior
and senior years. This enables
them to better comprehend
their final year of classroom
work and to function as cadet
leaders on campus.

Cadet Cogdell is a 1969 gra-
duate of Floydada High School.
He is a member of the Scab-
bard and Blade Society.

1912 STRUCTURE COMING DOWN IN FLOYDADA. The Crum home, lo-
cated on the corner of Main and Houston, is being dismantled. The house
was built for Judge and Mrs. T. F. Houghton, early day pioneers in Floyd-
ada. Judge Houghton was a brother of Floydada's pioneer physician, Dr.
Wm. Houghton. According to the original abstract, the land, containing
three lots, was first bought by Carolyn V. Price, daughter of Bob Crum.
The three lots changed hands a number of times from 1890-1909, before
all three were purchased by Judge Houghton in 1909 for \$135.00. After
his death, his wife, Bertha, later sold the house and lots to a Lubbock
County resident, C. E. Maedgen, who sold it shortly thereafter to Miss
Lucy Crum in 1929 for \$3,000. Miss Lucy, Miss Mollie and their brother
resided in the house some 40 years. Upon their death, Miss Lucy Crum
being the last, the Crum estate sold the home and lots recently to LeRoy
Burns and City Auto. The dismantled lumber, which is said to be well
preserved despite its age, is to be used for an addition to the Shorty
Turner home. The lots, where the home is being torn down, will be used
for commercial purposes, according to the new owners. (Staff Photo)

Nursing Home Happenings

(By Faye Walters)
Saturday night, July 22, was
something special for resi-
dents of the Floydada Nursing

amendment. The first notice
shall be published not more
than 60 days nor less than 50
days before the date of the
election, and the second notice
shall be published on the same
day in the succeeding week.
The Legislature shall fix the
standards for the rate of charge
for the publication, which may
not be higher than the news-
paper's published national rate
for advertising per column
inch.

"The election shall be held in
accordance with procedures
prescribed by the Legislature,
and the returning officer in
each county shall make returns
to the Secretary of State of the
number of legal votes cast at
the election for and against
each amendment. If it appears
from the returns that a majori-
ty of the votes cast have been
cast in favor of an amendment,
it shall become a part of this
Constitution, and proclamation
thereof shall be made by the
Governor."

"The foregoing constitu-
tional amendment shall be
submitted to a vote of the
qualified electors of this state
at an election to be held on the
first Tuesday after the first
Monday in November, 1972, at
which election the ballots shall
be printed to provide for vot-
ing for or against the proposi-
tion: "The constitutional
amendment revising provisions
on the time and method of
proposing amendments to the
state constitution and the time
and method of publishing no-
ti- proposed amendments."

PUBLIC NOTICE CONSTITUTIONAL AMENDMENT

Proposed
NUMBER 9 ON THE BALLOT (HJR 20)
General Election, November 7, 1972

BE IT RESOLVED BY THE
LEGISLATURE OF THE
STATE OF TEXAS:

Section 1. That Section 33,
Article XVI, Constitution of
the State of Texas, be amended
to read as follows:

"Section 33. The Account-
ing Officers of this State shall
neither draw nor pay a warrant
upon the Treasury in favor of
any person for salary or com-
pensation as agent, officer or
appointee, who holds at the
same time any other office or
position of honor, trust, or
profit, under this State, except
as prescribed in this Constitu-
tion. Provided, that this restric-
tion as to the drawing and pay-
ing of warrants upon the Treas-
ury shall not apply to officers
of the National Guard or Air
National Guard of Texas, the
National Guard Reserve, the Air
National Guard Reserve, the
Air Force Reserve, the Of-
ficers Reserve Corps of the
United States, nor to enlisted
men of the National Guard,
the National Guard Reserve,
the Air National Guard Reserve,
the Air Force Reserve, and the
Organized Reserve of the United
States, nor to retired officers
of the United States Army, Air
Force, Navy, and Marine
Corps, and retired warrant offi-
cers and retired enlisted men
of the United States Army,
Navy, and Marine Corps, from
holding in conjunction with
such office any other office or
position of honor, trust or pro-
fit, under this State or the
United States, or from voting
at any Election, General, Spec-
ial or Primary, in this State
when otherwise qualified."

Sec. 2. That Section 40, Ar-
ticle XVI, Constitution of the
State of Texas, be amended to
read as follows:
"Section 40. No person shall
hold or exercise, at the same
time, more than one Civil Of-
fice of emolument, except that
of Director of a Soil and Water
Conservation District, Justice
of Peace, County Commissioner,
Notary Public and Post-
master, Officer of the National
Guard, the National Guard Re-
serve, and the Officers Reserve
Corps of the United States and
retired officers of the United
States Army, Navy, and Marine
Corps, and retired warrant offi-
cers, and retired enlisted men
of the United States Army,
Navy, and Marine Corps, from
holding in conjunction with
such office any other office or
position of honor, trust or pro-
fit, under this State or the
United States, or from voting
at any Election, General, Spec-
ial or Primary, in this State
when otherwise qualified."

Sec. 3. The foregoing constitu-
tional amendment shall be
submitted to a vote of the
qualified electors of this State
at an election to be held on the
first Tuesday after the first
Monday in November, 1972, at
which the ballots shall be
printed to provide for vot-
ing for or against the proposi-
tion: "The constitutional amend-
ment to provide that directors
of soil and water conservation
districts are not disqualified
from holding or being compens-
ated for more than one of-
fice."

PUBLIC NOTICE CONSTITUTIONAL AMENDMENT

NUMBER 3 ON THE BALLOT (HJR 41)
General Election November 7, 1972

BE IT RESOLVED BY THE
LEGISLATURE OF THE
STATE OF TEXAS:

That Article XVI,
Constitution of the State of
Texas, be amended to read

"All district offi-
cials of the State of Texas
shall be elected by the qual-
ified electors of the State,
in counties having a popu-
lation of twenty
(20,000) or more, ac-
cording to the last prece-
dent Census, shall be
elected on a salary basis.
The Courts shall be
elected by the qualified
electors of the State, on
a fee basis or on a salary
basis, with the ex-
ception that the Com-
missioners Court may di-
rect. All Notaries Public,
county surveyors and public
weighers shall continue to be
compensated on a fee basis."

Sec. 2. The foregoing constitu-
tional amendment shall be
submitted to a vote of the
qualified electors of this state
at an election to be held on the
first Tuesday after the first
Monday in November, 1972, at
which election the ballot shall
be printed to provide for vot-
ing for or against the proposi-
tion: "The constitutional
amendment to require the
commissioners court in all
counties of the state to com-
pensate all justices of the peace
on a salary basis."

PUBLIC NOTICE CONSTITUTIONAL AMENDMENT

NUMBER 7 ON THE BALLOT (HJR 16)
General Election November 7, 1972

BE IT RESOLVED BY THE
LEGISLATURE OF THE
STATE OF TEXAS:

That Article I of
the Constitution be
amended as follows:

"Section 1. Equality under
the law shall not be denied or
abridged because of sex, race,
color, or national origin.
The amendment is self-opera-
ting."

The foregoing

TOWER FROM 2

income of the farmers" by lowering the farm payment limitations, he stated.

Tower further argued: "In farming, payment plans for land and equipment investments are not made on a year-to-year basis, but rather on the basis of a 3-year plan. Our farmers have a right to expect to participate in a program which will not change in the middle of that plan. They have a right to expect the government to live up to its commitment to them."

"Over 42% of the total acreage in the U.S. devoted to cotton was grown in Texas. Of the 2,556 farmers in Texas who received more than \$20,000 in farm payments in 1971, there were 205,623 acres set-aside in the cotton program - more set-aside acreage than the total acreage in cotton production in many states. These same 2,556 Texas farmers also totally 83,784 acres of wheat set-aside, and 46,528 acres of grain sorghum set-aside."

"The U.S. has always been a place for initiative. People who are operating large farms should not be penalized for their productivity."

"If the 2,556 Texas farmers who received over \$20,000 in 1971 (farm payments) had been under the proposed \$20,000 limitation, Texas farmers would have received \$30,196,579 less in price support payments - a devastating blow to the economy of Texas, and an even more crushing blow to the individual farmers who would have been unable to meet their own financial obligations."

"Farmers are forced to compete with goods produced in countries where the wage scale is only a fraction of that in the U.S., yet they must purchase their equipment, and other goods at costs which reflect the American wage scale. Because of this inequitable trade situation, American farmers

are unable to compete on an open-market basis, meet their high costs of production, and still receive a fair return on their investment. If America is to be assured of a sufficient food supply, the farmer cannot be put out of business. To be able to continue to produce a profitable level without price supports, the market price of food would have to rise considerably. The price of food today would not approach that required if price support payments were discontinued. Ultimately, it is the consumer who benefits from price support payments, for they insure the continued food supply while keeping the cost down."

Commenting on the Agriculture Appropriations Bill in general, Tower stressed:

"Approval Committee recommended increase of \$3,116,000 in the screwworm control program. 'The outbreak of screwworms in Texas this year, one of the more severe ever recorded, could possibly have been contained with proper funding. Further, it is an indication of what can happen next year. This additional funding and the prospect of a cooperative program with Mexico now being negotiated, should be effective in preventing the costly losses which occurred in Texas this year.'"

"Supported recommended increase by \$500,000 in the funding level for construction of an agricultural research plant in Temple, Texas, to modernize the insect control program. 'Plants such as these will, in time, prove invaluable to both the farmer and the environmentalist. New alternate methods of pest control are greatly needed, and we cannot afford to lose valuable research time.'"

"Supported Committee recommendation of \$995 million for the Rural Electrification loan program. 'In our efforts to provide a comprehensive plan for rural development, we cannot overlook the importance of the role played by the Rural Electrification Administration in providing one of the basic essentials for attracting new business and industry - adequate electrical power.'"

"Supported Senate Committee action on the Rural Environmental Assistance Program (REAP). 'Because of his direct dependence upon the land for a source of income and a way of life, the farmer knows the importance of protecting and conserving that environmental resource. The Rural Environmental Assistance Program is one of the most effective means of providing such protection, and the individual farmer is willing to match federal funds to provide programs to insure continued protecting and expanded productivity of his most important resource.'"

"Supported the Committee increase of \$5 million for an expanded program of meat at inspection for plants in foreign countries which export meat to the U.S. 'With the recent relaxation of import quotas on meat, we are faced with a new responsibility to both our nation's cattlemen and to the consumer - we must assure them that the federal government is making every effort to control the quality of that imported

CENTER NEWS

By Mrs. J.E. Green

CENTER, July 31-Hewtime flies! July nearly gone.

Sunday was such a nice day. There were two public get-togethers in town - the 14-county annual singing convention which met at the High School, and the three community reunion at the Duncan Elementary School. We attended the latter and enjoyed it very much - saw so many old friends.

At Calvary Baptist Church, in the absence of Pastor Hollis Payne, who was in Kansas holding a revival meeting, we had a Wayland College student, Dale McCleskey. We enjoyed having Dale and his wife for both services.

Revival begins at Calvary Baptist Church next Sunday, August 6. Come and be with us. Evening services 7:30 p.m. Bro. Calahan of Amarillo will preach. We expect the Paynes home today.

Mrs. A. W. Anderson had most of her ten children with her at Sunday dinner. Out of county ones were Roy and wife and son from California; Estelle and Ausie Watson from Abilene, Dorothy Thompson and family of Petersburg. Local sons and families, Floyd, Otis and Louie and I don't know how many "grands" and "great grands." The sons and daughters attended the Lakeview Reunion in the p.m.

Let us remember the Center community reunion coming up on Labor Day week end, I think, in the new Massie Recreation Center. More about that later.

Mr. and Mrs. Claude Carpenter spent some of last week in Lubbock visiting their daughter and husband, Claudine and Joe Conway.

Mr. and Mrs. Dale Carpenter and 12 year old twins, Dana and David, came by last Thursday for a visit with the parents. They were on their way home to the Dallas area from a trip to California, Saturday morning. Otis and Roy Anderson came over and all had a good time talking about old times when they were growing up at Center.

Mrs. Green visited Mrs. Harvey Thomas Sunday p.m. Mrs. Ava Jackson spent Saturday night with Mr. and Mrs. Leo Frizzell.

Sunday p.m. the Frizzells accompanied Mr. and Mrs. Luther Holmes on "a drive in the country" out Starkey way, former home of the Holmes'. Mrs. Ava Jackson accompanied some relatives to Lockney Sunday p.m. to be with the family of her sister-in-law, Mrs. Dwight Jackson, who died from suffocation from a smoldering fire in her home early Saturday. Our sympathy is with the loved ones.

Mr. and Mrs. Roy Glen Denison and son of Dallas came by for a short visit Saturday with his uncle and aunt, Mr. and Mrs. C. W. Denison. They were on a vacation trip to California.

Mr. and Mrs. Denison attended the Singing Convention Sunday. Mrs. Denison has been ailing lately with an ear infection, but is better now.

Mrs. C. E. Finley and Mr. and Mrs. Earl Cooper of Lockney, spent the weekend in Sweetwater visiting Mrs. Finley's sisters.

Mrs. Finley visited Thursday with Mrs. Lloyd Cumble. Mrs. Frank Dunn is entering

meat. We simply cannot afford to put either our cattlemen in a position of having to compete with inferior quality meat products, or our consumers in a position of having to accept it."

taining her four year old grandson, Lane. He is the son of Mr. and Mrs. Joe Lee Dunn of Houston. He is also visiting his other grandparents, Mr. and Mrs. Son Jackson.

Mrs. Dunn and Mrs. Lillian Marble visited Mrs. Effie Roland one p.m. last week.

Mrs. O. C. Vinson and Mrs. R. C. Ross attended the Singing Convention Sunday.

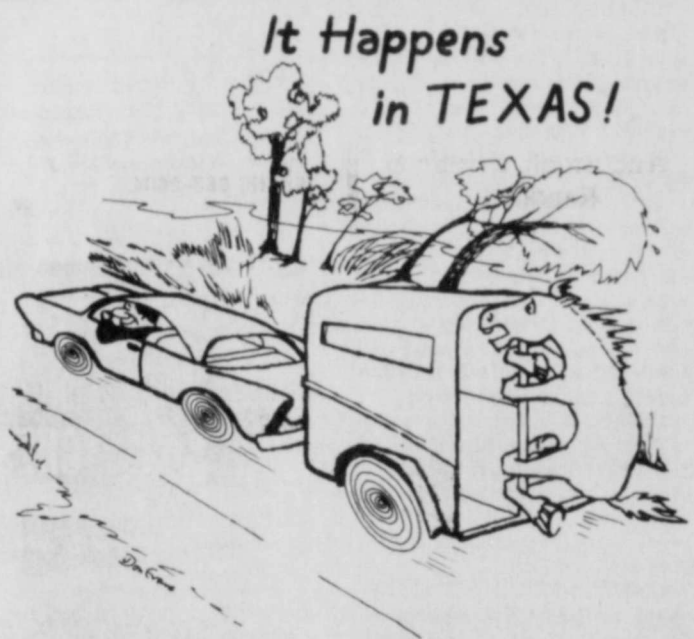

Mrs. Luther Holmes visited Mrs. Vinson Saturday.

Visitors at the Charley Spence home some time last week were Mrs. Everett Miller, Mr. and Mrs. John Fowler, and Willie B. Eakin. Tomorrow the Spences are to take Shirley, Orville's daughter, to her home in Sherman.

Mrs. Ola Warren accompanied her brother, Burl Huckabee, on a weekend trip to visit relatives down state. They spent Saturday night in Weatherford with a brother and wife; and on to Fort Worth Sunday for a visit with his son, Kenneth and family, then by Stephenville for a short visit with another brother and wife, Mrs. Burl Huckabee is in Oregon with a daughter and family, helping take care of a new grandbaby.

Last Monday Mr. and Mrs. Clarence Ashton and son, Bobby, visited in Amarillo with her mother, Mrs. Fuqua, and with a sister and family.

Mrs. Ashton visited her sis-

ter, Mrs. Joe Dunn Friday. Mr. and Mrs. Plumlee had their Plainview children, Mary Alice Hines and family, home Sunday.

The Dale Millers' Sunday guests were Mr. and Mrs. Lee Andrews of Fresno, Calif., Mr. and Mrs. Charles Miller of Plainview and Mrs. Miller Sr., Washington.

Mr. and Mrs. Hal Thomas visited in Post Sunday with Hal's sister and family.

Word from a sister in Dallas following surgery, states she is doing as well as expected.
