Community Chorus Spring Concert, Sunday, Mar. 31

The Community Chorus hopes that the general public will set aside Sunday to come to the High School Auditorium to hear the spring concert entitled "A Spring Extravanga." The date is March 31, and the time is 8:15 p.m.

The Chorus this year boasts 38 voices. All of the selections the Chorus will sing will be in four or five parts. This concert will be directed to the average listener and music lover; therefore, the program contains both long hair and short hair selections.

It will feature pop tunes, standards, a medley from a Broadway show, a patriotic song, a spiritual medley, as well as two religious numbers. In addition to this, the Chorus will feature some of its members in barbershop quartet and women's trio.

The members have worked hard for two and a half months to perfect the selections on the program and are quite anxious for the citizens of Aransas County to hear them. This year the Chorus is directed by Bob Massey and the accompanist is Mrs. Letitia Massey.

The coordinator is Bill Christian.

A large number of "angels" have contributed to the Community Chorus this year. The members wish to extend their special thanks to them.

They are the First National Bank of Rockport which provided the musical scores, and the sponsors who are Key Allegro Development and Sales Co., Chas. T. Picton Lumber Co., Security Real Estate Co., Canterbury Construction Co., The First National Bank of Rockport, and Mr. and Mrs. Travis Bailey, Sr.

City Council Minutes Open for Inspection

Mayor Delmar R. Hiller made the following statement at the beginning of Monday night's city council meeting:

"We should from time to time remind everyone that the approved Council minutes, the financial records, the ordinances, tax records and all the records of the City are public records and may be inspected by any one during regular office hours.

"Also, we might remind everyone that Rockport operates under the "weak mayor" form of government, in which the Mayor presides at the Council meetings but has no vote unless to break a tie. He administers the ordinances and policies of the Council.

"All Council meetings are open to the public and we would encourage people to attend these meetings either for information or to discuss items of interest with the Council. The regular meetings are on the 2nd and 4th Mondays at 7:30 p.m."

City Sets 1970 Centennial Year

The city council on Monday night set 1970 as the centennial year of Rockport and directed that a resolution to this effect be widely published as an invitation "to our many friends in this county and in this state to join us in a fitting Centennial celebration to mark this occasion."

Basis for the declaration was an action by the 12th legislature of Texas which "in special session on Aug. 13, 1870 did pass an act to incorporate the town of Rockport . . . and authorized the Governor to appoint a Mayor and five Aldermen for the term."

Mayor Delmar R. Hiller said, "We hope everyone in the community will participate in a general cleanup effort between now and our Centennial Year.

"In the near future the Council will name a Centennial Commission to direct the Centennial effort. The Council will devote most of its time to improving city services, and we look forward to accomplishing as much as possible by 1970 to make Rockport an even better place in which to live."

Other actions at the Council meeting included:

—Authorized preparation of specifications for a new water well and advertise for bids to be opened on April 22. Considerable discussion preceded the decision since it has been predicted that the new water supply from the San Patricio Municipal Water District will be available by late summer of 1969.

The aldermen expressed doubt that the new water supply would be ready by that date and decided to have a new well drilled to prevent any water shortage this summer or next. It is expected that the new well will cost approximately $15,000.

—Voted to advertise for bids for a used motor grader, listing the required specifications.

Authorized payment of up to $500 to Urban Engineering Co., Corpus Christi, for engineering work in connection with improved drainage in the Tulle ditch. Engineers will section a mile of the ditch, run profiles and design it to improve drainage.

EDITOR'S VIEWPOINTS

WHOSE ENGLISH? THE QUEEN'S?

Speaking as the president of the English Association, Oliver Lyttleton, otherwise known as Lord Chandos, says the purest English anywhere is spoken in Boston. At first glance that sounds like an unqualified compliment. But is it? It depends on whether he meant the purest English or the purest American English.

There is a difference. Bostonese sounds more like London English than it does like the kind we hear out here. H. L. Mencken used to contend that the purest English spoked in this country was to be heard in the Chicago region and that the best speaker of it was Gov. Thomas E. Dewey, native of Owosso and graduate of the University of Michigan.

Of course Mencken was writing as an American and an authority on the American language. But then, we are not sure that Mr. Lyttleton isn't writing as an Englishman and an authority on the English language as he hears it around such places as London, Liverpool and Manchester.—Grand Rapids Press.

EXCHANGE OF STUDENTS

More than 114,000 students and teachers were involved in educational exchanges between the United States and 150 nations during the past year. The Far East sent 35 per cent of the total of 82,709 foreign students. Latin America was second with 13,998 students, and the Middle East third with 11,217 students.

There has been a tendency for students to concentrate in a small number of institutions. This also applies to Americans studying abroad. Benefits would be greater if they spread out more, instead of congregating in California and New York colleges in such large numbers.—Hartford Courant.

This column of questions and answers on Federal tax matters is provided by the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q—I made a mistake in filing the pre-addressed Form 1040 I got in the mail. What should I do?

A—The label on your form may be peeled off and put on another Form 1040. Use of this label will help avoid mistakes or delays in processing your return since it contains the information needed to identify your account.

Copies of tax forms are available at most banks and post offices as well as local offices of the IRS.

Q—How does the retirement income credit work? Does it reduce your income or the tax you owe?

A—The retirement income credit is a credit against your income tax. Taxpayers qualified to claim this credit can reduce their tax by up to 15 percent of their "retirement income." Use Schedule B, Form 1040, to claim this credit.

Further details on this credit are contained in the booklet, "Retirement Income and Credit," Document No. 5018. Send a post card to your District Director for a free copy.

Q—I am itemizing my deductions. Should I send in my expense records when I file?

A—No, do not send in records with the return. If your return is selected for audit, then you may be required to either send or bring them in.

Note that for some deductions or exclusions, schedules or supplementary forms must be filled in an attached to Form 1040. Check your 1040 instructions carefully before you file.

Q—Does interest from a savings account have to be reported as income if it's under $10.

A—Yes, this interest income must be reported if you are required to file a return.

Q—How should I figure my deduction for state gas tax?

A—On page 9 of the 1040 instructions there is a table you can use. It is based on the state rate and the mileage driven.

Q—Are the dividends on GI life insurance taxable?

A—No, they are not. Dividends on other insurance policies are not taxable either when they represent a return of premiums paid.

Q—Can a single person use the head of household tax rates?

A—Yes, if he furnished over half the cost of maintaining a home for a dependent relative or his unmarried child, grandchild or stepchild. Details on this may be found on page 3 of the 1040 instructions.

Q—Are tips taxable?

A—Yes, they are. Tip income should be reported to your employer if it amounts to $20 or more in any month. This will enable your employer to withhold Social Security and income taxes on the tips from your regular salary.

Q—Last year I sold stock I inherited from my grand father. What figure do I use as my cost to determine whether I made a profit?

A—The cost to you is generally the fair market value at the date of the decedent's death. Your stock broker may be able to determine the fair market value for you.

Q—Our daughter was married last fall. Can we claim her as a dependent since we supported her most of the year?

A—If your daughter does not file a joint return with her husband and the other dependency tests were met, you may claim her as a dependent.

Q—My widowed mother lives with us and her only income in interest from a savings account. Can we claim her as a dependent?

A—You may claim your mother as a dependent if you provide more than half her support and her income from all sources is not $600 or more.

Q—Are cigarette taxes deductible if you itemize?

A—No, taxes on cigarettes and other tobacco products are not deductible for Federal tax purposes. Page 8 of the Form 1040 instructions lists the taxes you can deduct on your income tax return.

Q—I was greatly over-withheld last year on my income tax. What can I do to reduce my withholding?

A—If you are presently claiming all of your exemptions for withholding purposes you may be able to claim additional allowances based on the size of your itemized deductions. This is explained in Schedule A (Form W-4) available at local IRS offices.

Q—If somebody has a job overseas, do they still have to pay U. S. income tax?

A—Income earned overseas is fully taxable for civilian or military employees of the U. S. Government. Those who work for a private concern overseas may be able to exclude all or part of their income from U. S. tax.

For details, send a post card to your district director for a free copy of Publication No. 54, "Tax Guide for U. S. Citizens Abroad."

Q—Our daughter earned several hundred dollars last year babysitting. Does she report this income or do I since she is my dependent?

A—If your daughter earned $600 or more last year, she is required to file a tax return. You should not report her earnings on your return even though she is your dependent.

Q—Are Social Security benefits ever taxable?

A—No they are not.

Q—Where can I buy a copy of "Your Federal Income Tax"?

A—Most local offices of IRS have copies or you can write the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402. The cost is 50 cents.

Taylor Oak News

The pot luck supper held March 26 was attended by 76 persons.

This affair was somewhat of a sad occasion with many of the guests leaving Monday for their homes in all parts of the United States.

Pot luck suppers will continue through the month of April.

The ladies hobby workshop each Thursday afternoon was enjoyed and well supported through the winter months. Many interesting things have been made.

While the hobby shop was in progress, the men were busy playing dominoes, chess and other games. The coffee pot is kept going all day and the cookie jar is well filled.

Aransas County Public Library continues to receive new books every few days. Two of these books which have been requested will be of interest to many.

"The Printing Industry," by Victor Strauss, is a comprehensive manual explaining in simple style the complexities of modern graphic arts and their relation to each other. It is an indispensable resource work to those interested or involved in printing, publishing, advertising, and manufacturing.

The second book of great interest in "Chilton's 1968 Auto Repair Manual." This is a complete manual on repairing any make of American car, models from 1960 to 1968. It is based on the most authentic existing source, the AMA.

The text on all subjects has been carefully screened, written and edited to about a seventh grade school level which provides more information to the most people whether a beginner or a mechanic technician. The manual is divided into three main sections: "Trouble - Shooting, Hard Starting and Engine Performance," the "Car Section," and the unit "Repair" section.

There are many other new arrivals, including some of the best sellers.

Vote For Gene Clyne FOR MAYOR
★
If Elected

1

I shall clean up some of the filth that is within (4) blocks of the County Courthouse. Imagine walking into a house that does not have a toilet. It is bad enough to have one outdoors, but not to have any is ridiculous. When I asked the tenant how they were able to handle this situation, I was told that his wife and the little boy used a bucket and that he would dump the waste out in the back yard. This certainly is very insanitary and should not be allowed in the City.

2

It has been announced that a steel plant covering 3,000 acres is to be located in the Corpus Christi area. In all probability it will be located in the Ingleside area. If we can make our city sufficiently attractive, we might be able to get some of their employees and executives to build homes in the City of Rockport. It certainly would help our city tax wise. But let's clean the city first.

Sincerely,
GENE CLYNE
(Paid Political Ad)

Vote For Gene Clyne FOR MAYOR

Last week I told you how I would finance all that I proposed to do without raising taxes. Here is how I shall do it.

I have been approached by a representative of an OUT OF TOWN Oil and Gas operator and asked if I am elected Mayor what my attitude toward the development of the City of Rockport for oil and gas purposes. I have been assured that the operator of the well drilling about 2 miles south of town, has a large well of many sands, both oil and gas and that at this time there is an active lease play on in the subdivided part of the city of Rockport that is not within the City Limits and that it is just a matter of time before there will be an active lease play within the City Limits of Rockport. Townsite assembling and drilling is expensive and requires all the co-operation from all of the city officials. I certainly propose to give such co-operation and get that additional tax money rather than raise taxes on some retired people with a fixed income, or a modest home owner. It has been known for years that an oil and gas structure underlies the City of Rockport, but it will take the discovery of the well south of town to develop enough interest to lease up the Townsite. Naturally I would have to assure myself that there will be no damage to persons or property within our city limits and at a minimum inconvenience to our residents.

Sincerely,
GENE CLYNE

Enrollment Now Open For Medical Insurance Under Medicare

By H. H. Cleveland
District Manager

About 17½ million people over 65 are enrolled for the supplementary medical insurance under medicare, which helps pay doctors' bills and other medical bills not covered under hospital insurance.

But about 1.4 million did not sign up, either because they did not want this insurance or overlooked the first opportunity to enroll.

A new enrollment period is now open for those who did not sign up before. These people will be receiving an application blank in the mail soon which will give them through April 1 to indicate whether or not they want the supplementary coverage. If they sign up by April 1, their coverage will begin July 1, 1968.

Those now enrolling, who for a year or longer had been eligible but had not signed up, will pay a premium that is 10% higher. The premium for those who enrolled in time will be $4 a month, so the premium for late enrollees will be 40c higher. The Government will also pay $4 on the premium, so the insurance is worth twice the amount paid by the person who enrolls on time.

A person who is not enrolled for medical insurance may enroll during the first three months of any year, provided this period begins within three years after he had his first opportunity to enroll. People already 65 or older who do not have medical insurance may enroll through April 1, 1968; if they do not enroll by that date, they will have to wait until 1969 for another opportunity to do so.

If you are the son or daughter or guardian of an elderly parent who is a bit absent-minded or has reading difficulties, and you are not sure whether he is signed up for medical insurance, we suggest you check to see whether he gets the letter in January offering this opportunity to enroll. You may want to advise him, or help him be sure the application for this important protection is mailed back. Remember, more than 95 out of 100 people over 65 in this area already have it.

To the Citizens of Rockport Who Do Not Know Me and My Past Records

I decided to place my name on the ballot as a candidate for Mayor of Rockport on my own initiative; I was not solicited by anyone to run for office.

I retired from the Community State Bank of Runge, Texas as its President on January 1, 1967 and moved back to Rockport; our home is at 2004 Cochran Lane in Little Bay Shores Addition in the city limits of Rockport.

I have watched with pride over the years the City's growth. I feel that the city needs someone who can devote full time to the Mayor duties.

I can do this because I am not engaged in any type of business, and with my experience I am well aware of some of the financial problems of a city.

I will also have the time to carefully consider the needs of Rockport and do all that lies in my power to help the city to continue to grow.

SOME OF THE DUTIES BESTOWED UPON ME WHILE I LIVED IN RUNGE, TEXAS

The twenty-one years that I spent in Runge, Texas I served as President of the Runge Chamber of Commerce for five years, President of the Runge Rotary Club, and served on a committee in organizing the Eclecto Creek Water Shed District comprising the counties of Karnes, Wilson and DeWitt.

I was voted the outstanding businessman in 1961 for Outstanding Service to Soil Conservation in the Counties of Karnes and Goliad. Some of the duties were the control of run-off water and drainage control of the water shed districts.

I hold a life Honorary membership Chapter Certificate in Vocational Future Farmers of America, a distinguished Service Certificate for twenty years service in Boy Scouting, and helped to organize troop 49, and served as its Scout Master in Rockport back in the late twenties.

I also served as School Trustee for several terms and helped to organize and served as manager of the first football team in Rockport.

SCHOOLS RECEIVE USED CLOTHING

The response to the schools' request for good used clothing for children has been gratifying. Especially helpful were the smaller sizes for children 6 to 10.

Thanks also go to those churches and civic organizations which brought in new coats and blue jeans in different sizes, or offered to supply new shoes if the supply of used shoes failed.

Special thanks go the the women of the Mobile Inn Trailer Park Hobby Club who made new blouses, skirts, and dresses during their weekly Hobby Club meeetings. They have offered to make more clothes next fall when they return to Rockport if there is a need for them.

Information On 1% Sales Tax

With qualified voters of the city to have the opportunity to vote April 6 on adoption of a 1 per cent municipal sales tax, the following information from the Texas Municipal League will be of interest.

Voters in 160 Texas cities containing 70 per cent of the state's urban population approved the 1% municipal sales tax in elections held during 1967. The tax was defeated in only 22 citties.

Widespread acceptance of the one-cent sales tax — by large and often overwhelming majorities — in local-option elections held thus far is indication, according to the Texas Municipal League, that citizens recognize the need of cities for a broader source of revenue to supplement the ad valorem property tax which has offered virtually the sole support for local government and services in this state.

As broad affirmation became well established TML President Judson F. Williams of El Paso commented in early December: "We are very happy and gratified and not particularly surprised. As we told the Legislature during the last session, 'Give Texas cities the tools to work with, sales tax authority, and the citizens will respond'."

Actual collection of the tax, authorized on a local-option basis by the legislature last spring, began Jan. 1, 1968, in 14 cities where elections were held and results reported to the state comptroller before the end of September. The comptroller administers the tax and returns proceeds, except for 2% covering his expenses, to the city or origin, but the law allows a full calendar quarter to elapse between election and collection. Refund of first quarter sales tax receipts to the 14 cities will probably be delayed until summer, while the comptroller is refining procedures.

Cities where collections have begun include Aransas Pass, Austin, Brackettville, Corpus Christi, Elgin, El Paso, Henrietta, Ingleside, Nacogdoches, Orange Grove, Port Aransas, Taylor, Texarkana, and Wichita Falls. Retailers in municipal sales tax cities collect 3% (2% state and 1% city) of the price of purchases beginning at the 17c-49c range, where the first penny of tax falls. An additional penny for both state and city tax purposes is levied with each increase of approximately 33c, or fraction, of purchase price.

In 146 cities voting the tax between Oct. 1 and Dec. 31, 1967, collection will begin April 1.

More than 6,230,000 city dwellers reside in the 160 Texas cities which have adopted the local sales tax, not counting those who reside elsewhere but do their buying inside the sales tax cities. The municipal levy applies only to items taxable under the state sales tax law. Population of cities defeating the tax last year totaled less than 378,000.

Municipal sales tax elections during the first month of 1968 are being held in over a dozen cities.

To Inform You...

Pat Mixon was born in Runge, Texas at the turn of the century where he received his education as far as high school, then went on with business education and courses which prepared him for his successful business life from which he retired about a year ago.

Pat married a Rockport girl before he came to Rockport to make his home in about 1925.

From the time he moved here in the mid twenties he worked at The First National Bank on through the depression and the years after until about 1946 when he was offered the banker's job at Runge in a new bank being formed.

He was president of this bank until he retired last year.

To his marriage were born three children who now live in Rockport or the area.

After his retirement and being footloose to go where he would, he chose Rockport for his new retirement home and now lives in Little Bay Shores.

Retiring to Rockport last year he brought with him a wealth of experience including tolerance, aggressiveness, and poise of body and mind.

His record reflects his ability to work with the high and wealthy yet being respected by them even though his stronghold is with the little people who all love him and swear by him in gratitude for his always helping hand.

He is a tailor-made man to do the job of Mayor. He has the background coupled with the desire to do a job for this community, where his heart certainly lies.

Pat Mixon is footloose and does not belong to or owe obligations to anyone.

Where could you find a list of qualifications any better than those possessed by Pat Mixon, your leading candidate for Mayor?

(This letter, picture and political ad composed and paid for by ten of his friends and admirers who respectfully request that you take a good look at Pat Mixon for your next Mayor of Rockport.)

Uncle Sam's Selective Service

Editor's note: Below are questions now being asked at draft boards. The answers are by Colonel Morris S. Schwartz, State Selective Service Director, 209 W. Ninth Street, Austin, Texas 78701. He will welcome your questions.

Q—I read where the National Security Council took some action regarding the draft deferment of college students. Did this affect all college students?

A—No. It doesn't affect students working on a baccalaureate degree as under graduate students, but it does affect a great many graduate students.

Q—Just what did the National Security Council do?

A—With respect to graduate school deferments, the Council advised the Director of Selective Service that it is not essential for the maintenance of the national health, safety, or interest to defer for study in fields other than medicine, dentistry, veterinary medicine, osteopathy, and optometry.

Q—What about graduate students already entered upon study in other fields?

A—The recommendation of the Council does not affect existing regulations governing deferment for graduate students who entered their second or subsequent year of graduate study in the fall of 1967. It does affect students graduating from college this year, as well as those who entered the first year of graduate school last fall.

Q—Who heads the National Security Council?

A—The President of the U.S. Also on it are the Vice President, Secretary of State, Secretary of Defense, and the Director of the Office of Emergency Planning.

Q—Did the Director of Selective Service concur in the Council recommendation?

A—Yes.

Q—When I reported for physical examination at the armed forces examining station, I was rejected for being 10 pounds overweight. I've lost 10 pounds. Am I expected to report that change to my draft board?

A—Yes, you're required to report it within 10 days of the date you discovered it.

Q—I'm in jail for 90 days, and my 18th birthday is coming up next week. I'm in enough trouble now. How do I get registered for the draft so I don't get in more?

A—Ask the superintendent of the institution. He may have a registrar who will register you when you get out. If not, he'll help you find the nearest one. Register immediately after your release and explain the delay to your local board in writing.

Q—I'm classified I-Y. Does this mean I'll be re-examined?

A—You may or may not be. If other men your age and circumstances are examined, your local board will review your case.

Visiting in the home of Mr. and Mrs. C. W. Brisbin last week was her uncle, T. R. Tompkins and cousin, Dale Cooke from Tulsa, Okla.

Miss Jill Jeffers from Stephen F. Austin College, and brother Mike of Southwest Texas State College are home this week for their spring vacation.

More Social Security For the Man In Service

Of special interest to military men and women and their dependents is a provision in the new social security law which promises greater protection for them and their families.

Under the old law only a person's military base pay was counted toward social security benefits. Starting with January 1968, an additional $100 will be counted for each month in which the person in military service is receiving active duty pay.

Since social security benefits are based on average earnings over a working career, you and your family may be able to receive higher benefits later because of the additional credits.

The Congress recognized that under the old law, the social security protection of a worker might be impaired during a period when he is in military service, because of the relatively low earnings covered under social security. This new provision seeks to take into account the value of payment in kind—such fringe benefits as food, housing, and clothing, and medical services, which are actually part of the serviceman's earnings.

These earnings credits will automatically be credited to your social security account, and you do not have to make any kind of application to receive them. No additional social security contributions will be taken from your paycheck; the extra cost will be paid to the social security trust funds from the general funds of the Treasury.

How do you like the new look of our business district, now that the new street lights have been installed and are operating?

If you haven't taken a drive on Austin Street since the new light standards were erected, do so tonight and you'll be mighty pleased with the great improvement you'll see.

You can really SEE now. The lights, although efficiently illuminating the downtown area, produce no glare to hurt your eyes.

Mrs. Charles Roe, Sr., stopped in the Pilot office early this week and said, "I think congratulations are due to everyone who had anything to do with this project. It's one of the greatest things that ever happened to Rockport."

We agree with Mrs. Roe and the many other residents who are saying nice things about the new lights. To all concerned, we say thank you.

With new center medians in place in the center of the street, the new lights consist of forty 20,000 lumen mercury vapor lights on 22 metal standards — 18 double light ornamental standards and four single light ornamental standards.

Fast action also has been initiated in beginning the big job of removing overhead wires and power line poles.

Wieting Announces For Re-Election

Rep. Leroy J. Wieting announces for re-election to the 44th District which encompasses Aransas, San Patricio, Live Oak, McMullen and La-Salle Counties. Rep. Wieting is now in his third term in Austin and is presently serving on five major House Committees. Having served on the powerful Revenue and Tax Committee all three terms, he also is Vice-Chairman of the Contingent Expense Committee and serves on Urban Affairs Committee (bills affecting municipal and private corporations,) Mental Health and Mental Retardation Committee, and Common Carriers Committee.

Rep. Wieting has been very active in local and State-wide bills affecting this area of the State. He was the author of the Enabling Act which re-enacted the Veterans' Land Program which some $200,000,000 will be loaned to Texas Veterans. He has been the author of several bills affecting future water for this area These include the bill sponsored by the Coastal Bend Water Authority to provide future water for all this area of South Texas; the bill that created Aransas Conservation and Reclamation District that will provide water across Aransas County and legislation for the Conservation and Reclamation District in San Patricio County. He introduced the bill that created the Taft Hospital District; the bill to create the Copano Bay Causeway Fishing Pier; the bill to clear Lake Mathis from water hyacinth; the bill providing $500,000.00 for San San Patricio County to issue certificates of indebtedness for right-of-way for better highways; the bill that placed Aransas County under regulatory authority, the first Coastal Water County in the State; and passed bills creating several sancturaries. In total he has passed some 30 proposals that are now in effect.

Rep. Wieting has been co-author and an active sponsor on many bills such as the bills affecting all phases of educations; agriculture; cities, large or small; student loans; Padre Island; industry and tourism.

Rep. Wieting, formerly of Runge, Karnes County, Texas, was educated in the Runge school system, Texas A&I and University of Corpus Christi. He and his wife, Dorris, also formerly from Runge, reside in Portland, Texas, at 114 Jannin Circle North. They have two children, L. J. 16, and Becky 12. Rep. Wieting stated "I want to first thank all the people of my District for having elected me and giving me the opportunity to serve. I seek this fourth term because I feel I can be most effective under the new rules system of seniority, since only some 27 members have more seniority than I have in the House of Representatives, consisting of 150 members. It is important for small towns and rural areas to have a greater voice because many have lost most of their representation to large metropolitan areas. I want to spend as much time as possible in legislation for a new dam on the Nueces, working with my elected city and county officials in providing better highways and working with our school systems in providing better education for our children as well as many other local problems which I am currently working on."

Brief Articles On the Draft Law And Regulations

(Editor's note: This is one of a series of 10 short articles on the draft law and it's rules and regulations.)

Ignorance of the law excuses no one.

That is something everybody has heard, and it applies to a draft board's deliberations and actions, as well as to any other agency set up to administer public law.

The law makes it the responsibility of the individual to do everything that the law requires of him. The law requires him to do these things within a certain time limit. If he doesn't do them, he can lose privileges and rights given him under the law.

"It is the duty of every man registered with a draft board to be alert and protect his rights under the law," advises Colonel Morris S. Schwartz, state director of Selective service.

"Certainly it is the moral responsivility of parents to have their sons make themselves aware of the necessity of complying with all provisions of law and regulations," he says.

"It is too bad that some young men, their parents, and employers often sleep on their rights until it is too late, or extremely difficult under our regulations, to do anything about their cases," he says.

Colonel Schwartz says that sometimes young men, parents, and employers never request anything at a draft board until after an order to report for induction is issued.

Registered men, parents, and employers should begin to concern themselves about the selective Service law and regulations immediately after men register, Colonel Schwartz points out.

The state draft director reminds all registrants, their parents, employers, public officials, and citizens in general that the doors of Texas draft boards are always open to tell the people how to get information and help with draft problems.
