At July 24 Meeting

Group Meets With Hospital Board

Members Present: Vernal Zeissel, Bernard Brown, Maurine Reeder, Benny Grill, Ray Lynn Hardin, David Perdue, Buster Lowrey.

Others Present: Newton D. Neufeld, D.O., Randy Abernathy, Brenda Muncrief, Dane Altman, Bruce Taylor, Joe Walaski, Betty Albus, Gladys Grindstaff, Jean Kuehler, Ann Tibbets, Anne Eells, Lena Tackitt, Peggy McGaughey, David Counts, David Albus, Billye Angle, Joe McMahon, Shari Henderson.

The July 24, 1984 meeting of the Knox County Hospital Board of Directors was called to order at 8:00 p.m. in the Physical Therapy Department of the hospital by Board President, Vernal Zeissel. The minutes from the June Board meeting were read and approved.

Mr. Zeissel then addressed everyone present regarding the recent problems the community has experienced because of the rumors that have circulated concerning Dr. W.F. Thompson and the Hospital Board of Directors as a result of action taken by the Board in their June meeting. He expressed the Board's concern about the situation. Mr. Zeissel referred to an article that recently appeared in an area newspaper regarding

Medicare's decertification of a hospital due to delinquent charts. He pointed out that Knox County Hospital has a very high percentage of occupancy of Medicare patients and the importance of keeping our Medical Records current. Randy Abernathy explained some of the Medicare regulations concerning Medical Records and the laboratory. Mr. Zeissel invited those present to comment on their feelings or to ask any questions that might help clear up the confusion. Several of those present expressed concern over the situation, and voiced their support for the hospital and the doctors; also their willingness to help to rectify the situation.

Under old business, Randy Abernathy introduced Dane Altman and Bruce Taylor with the physician recruitment firm of Jackson and Coker located in Dallas. Mr. Altman gave the Board a detailed description of what their physician searches consist of, stating that their firm matches the physician to the community. After discussion and questions, Mr. Zeissel stated that the Board would have Randy Abernathy contact Jackson and Coker regarding the Board's decision on whether to retain their firm for assistance in locating an additional

physician for our community. Mr. Abernathy stated he had spoken with two physicians who are possibly interested in coming to this area. The Board wanted these possibilities to be checked out first.

Also under old business, Brenda Muncrief reported that Dr. W.F. Thompson still has 118 incomplete charts. She also presented the results of the latest on-site DRG audit. After brief discussion, Bernard Brown made a motion that the Board suspend Dr. Thompson's Medical Staff privileges temporarily as of July 25, 1984 and that a certified letter be sent to Dr. Thompson and a copy of the same letter hand carried to the Knox City Clinic stating the same. Maurine Reeder seconded the motion which passed unanimously. Vernal Zeissel asked that the administrator construct and send the letters.

Under new business, Randy Abernathy then presented the Board members with copies of a Budget Comparison and the 1985 Proposed Budget for Knox County Hospital District. The Board is to hold its budget hearing just prior to the next regularly

NEWS DEADLINE
10:00 A.M.
TUESDAY

BEAUTIFUL RAIN clouds rolled into Knox City Thursday afternoon, raising the hopes of residents who watched day after day this summer as the clouds disappeared to the east, producing little if any moisture. This area was very fortunate in receiving much-needed precipitation both Friday and Saturday. It seemed as if the rain would slack off occasionally to allow the moisture to be soaked up by the parched soil and then begin again. Knox City reported 2.50 inches, Benjamin 3.75 to 4.00 inches, O'Brien 2.10 inches, west of town 3.50 inches, and southeast of town between 3.50 and 4.00 inches. The rains came in time to revive some of the dryland cotton and stockmen were overjoyed to have tanks filled again, following one of the driest years on record.

Radioactive Discussions Surface Again

The Knox County News has been advised that the Texas Low Level Radioactive Waste Disposal Authority is once again seriously considering the Big Country area and possibly even land in Knox County to be used as a disposal site for low level

radioactive waste.

The same release of information earlier brought a very strong show of support against the idea from an overwhelming number of concerned citizens from Knox County and the surrounding area.

Public meetings were held in the area and many citizens took the opportunity to verbally oppose the idea of locating such a site anywhere in this area. Rob Harrison, manager of Bob's Super Save here in Knox City, soon became the spokesman for

those in opposition to the idea and he spent a lot of time and effort in the fight against a disposal site in Knox or the surrounding counties.

Rob has received an invitation to be present for a meeting of the Low Level Radioactive Waste Disposal Authority to be held in Austin on Wednesday, August 22. The topic of discussion will once again be the idea of locating the dump site in this area. The authority has placed classified advertisements in other area newspapers for purchasing land in Knox or Baylor counties.

Planning to be present himself at the meeting next week in Austin, Rob Harrison urges all those who are still in opposition to the dump site to talk with him prior to the meeting and discuss feelings on the potentially dangerous issue that faces all the residents of this area. Rob is planning to attend the meeting as a spokesman for those in opposition to the plan of locating a dump site for radioactive materials in the big country. Harrison can be reached at the store during business hours or at home during the evenings and over the weekend.

Senior Citizen Report

By Janie Wilkinson

Hello to each of you. We have had a good week until the sad news of losing one of our dear friends, H.R. Beauchamp. Let's remember the family in our prayers.

We've had lots of visitors this week and eight new members added to our big happy family. We are still enjoying cucumbers and cantaloupes from the Grady Ellises, and watermelons from the Donald Johnsons. John Wilkinson (my dad-in-law) from Wichita Falls gave a large stainless steel knife to the Center. Thanks to each of you and what would we do without friends.

June and Sammy Tankersley were our guests Thursday and June played piano. Thank you, June. Please come again and play. Wynelle and Howard Mayfield of Fort Worth and Orville Dear also played for us.

On Friday, Mildred Simpson of Haskell attended with her mother, Lena McGee. Howard Mayfield played Omni, a new instrument here in the States. It was very interesting.

Remember exercise Monday at 10:00 a.m. Blood pressure check also on Monday. We need you and you need us. Please come and give a few hours, a week of your time. You will be rewarded some way.

Milton Simmons was one of our guests Friday. He has joined our happy family. Welcome, Milton.

Wasn't the rain wonderful? Let's say thank you to our higher power that provided it. See you all next week!

BICYCLES AND BICYCLE SAFETY

Bicycles are fun and a lot of enjoyment for young people. It should be remembered that bicycles are vehicles and that they are subject to the same traffic laws as any other vehicle.

Under Article XXI of the Texas Motor Vehicle Laws it states the rules governing the use of bicycles and play vehicles.

a. It should also be remembered that a violation of this act or any traffic law is a misdemeanor for any person and failure to comply with the act means you can be fined on.

b. The parent of any child and the guardian of any ward shall not authorize or knowingly permit any such child or ward to violate any of the provisions of this act.

c. These regulations applicable to bicycles shall apply whenever a bicycle is operated upon any highway or upon any path set aside for the exclusive use of bicycles subject to those exceptions stated here in.

d. All provisions of this Act applicable to bicycles also apply to motor-assisted bicycles unless because of their nature they can have no application to those vehicles.

Article XXI Sec. 179 states that traffic laws apply to persons riding bicycles.

Last week there was an accident involving two young children on it. It was very fortunate that the driver of the vehicle was not going very fast or there could have been some serious injuries.

We as parents, sometimes in our zest to make our children happy, tend to overlook certain aspects of toys with which we provide them to play with. We must remember that our children are learning and what may be obvious to us may not be to them. It is important to provide our children with things to do, but it is also important to give them the proper instructions on how to operate whatever we give them. It is also important to remind them of these instructions, because it is very easy to forget especially when you are young and when you are having fun.

It's been said and I truly believe that God is looking over us and I am sure that God was looking over those

young people on the bicycle the other day. We should all remember that God stays pretty busy watching over everyone and that anything we can do to help him should be done.

Please remember that when you give your child a toy, take the time to show him how to play with it for his safety and the safety of others around him.

Lake Water Has Odor

During the past few days, several readers have called the News office to inquire about the foul odor coming from the water they are receiving in their homes. Speculation by some indicated that the recent rains in the Big Country area might have caused the lake sediment to turn, thus causing more sediment and minerals from the lake bed to be pumped into local water systems.

The lake is about 10 feet below the original spillway. We are just waiting for another rain."

No apparent direct cause for the odor coming from the water has been determined, and hopefully the smell will be gone before it becomes a bigger problem.

Benjamin Graduate Receives Scholarship

Information received from Pete Beecher of the North Central Texas Municipal Water Authority office in Munday on Tuesday of this week indicated that the recent rainfall in the area did not change the water level at Millers Creek Lake. Mr. Beecher stated, "There has been no change in the lake from the last watershed, everything at the lake is running smoothly." He went on to say, "Of course, we are pumping a lot of water and

Doggett To Speak To Farmers Union Banquet

CROWELL -- The annual Texas Farmers Union District 3 Banquet will be held Saturday, September 1, District 3 Director Floyd (Buster) Borchardt has announced.

The Texas Farmers Union official also announced the commitment of United States Senate candidate Lloyd Doggett to speak at the event, which is to be held in the Crowell Ag Pavilion in Foard County, beginning at 7:00 p.m.

Doggett, the Democratic candidate for the Senate seat vacated by John Tower, is currently the state senator from the Austin area. He won a close victory over fellow Democrats Bob Krueger and Kent Hance in the May primary and June runoff to become the Democratic nominee for the slot.

"We are real pleased to have state Senator Doggett with us at our annual banquet," Borchardt said.

"Every year we try to have a guest speaker that we think that our members will find interesting. Senator Doggett certainly fits that description; he has been a friend to family farmers and ranchers in the Texas Senate, and we feel like he will be a friend to us in the U.S. Senate."

The Texas Farmers Union is an organization of approximately 10,000 members across the state. The Farmers Union works on behalf

of small farmers and ranchers in the state and national legislatures, and offers several different services for their membership. Part of the National Farmers Union (which was founded in 1902 here in Texas), the Texas Farmers Union is headquartered in Waco, Texas and is governed by a president and a board of directors, all of whom are elected from the organization's membership.

B-K Meet Is Held In Seymour

On August 10, 1984 the 38th regular annual meeting of B-K Electric Cooperative, Inc. was held in the Seymour High School Auditorium. The doors were opened at 6:00 o'clock p.m. to the music of the band, "Boots and Saddles". The band entertained the members and guests until registration closed at approximately 7:00 o'clock.

John L. Grindstaff Sr., President then authorized the General Manager Don Gregg to act as Chairman and to proceed with the business meeting. Pete Winn asked the members and guests to stand for the invocation, which was given by the Reverend W.A. Tigert of the Calvary Baptist Church in Seymour. After recognition of the guests, directors, and employees, the meeting was turned over to Stanton Brown, one of the directors of B-K. A note was read from Representative Jack Hightower's office in regards to his inability to be present at the Annual Meeting due to ongoing legislation in Washington, D.C. Stanton introduced the guest speaker, Frank Bushnell who is the Executive Assistant to th Manager of Brazos Electric Power Cooperative in Waco. Bushnell gave a very informative talk on the new Comanche Peak Nuclear Power Plant which is located in Glen Rose.

The business meeting was called to order by Don Gregg. Stephane Sosolik, office manager of the Cooperative, read the minutes of the last Annual Meeting. The minutes were approved as read by the members of the Cooperative. John L. Grindstaff Sr. and Charles T. Porter were both reelected to serve on the board of directors. Don Gregg informed the members that B-K was in the process of paying Capital Credits for the years of 1959 and 1960. As the business meeting came to a close, Dee Wall came forward to help with the drawing of prizes. Some prizes were given away by the Cooperative. The grand prize, a Tappan microwave oven, was won by Mr. and Mrs. Ike Gresham of Munday.

STREAMS IN DESERT PLACES By OZELLE STEPHENS

He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty. He alone is your refuge, your place of safety. If you are trusting Him and obeying His Word, loving your fellowman as He loves you, He will rescue you from every evil. He will protect you from the fatal plagues. He will shield you with his wings, they will shelter you in time of storms and terrible trouble. His faithful promises are your armor. You don't need to be afraid any more of the dark, or fear the dangers of the day.

If you choose to live for Jesus Christ, the son of God who gave his life for you, no evil will overtake you or any plagues will come near you.

Remember He promised that his angels will protect you wherever you go. They will steady you with their hands to keep you from stumbling against the rocks on the trail. Jesus said this because He loves you. We must remember He is the vine and we are the branches and we can do nothing without Him, or save ourselves. Seek Him with all your heart and always dwell in the secret place of the Most High so you can abide in the shadow of the Almighty.

I am sorry that some of the readers didn't like my little jokes about the nurses. But I couldn't have wrote about them if they hadn't told me it was alright to do so. I love everyone of them, the cooks and housekeepers. I hope everybody is as thankful as I am for the rain. I am so glad for the farmers, they sure did need it.

Look like that sickness I had just took something out of me. I can't get back.

Me and my dreams. The other night I dream my friend cleaning her back yard and found a stack of boards which had a hole under them. My friend couldn't go under them so her husband said I will go. So under the boards he went, got half way and started backing out and out come sweet peas, popeyes baby with a cannon.
