

Powdery Snow Hits Area As Arctic Blast Endures

Most Roads Hazardous

A winter about-face in thick clouds brought powdery snow to the Snyder area today, as most of Texas remained in the clutches of a vicious arctic blast.

Snowfall had covered the ground in a dusting here this morning as the front moved on. The snow was light, but it was enough to make the roads hazardous. Weathermen said the snow probably would continue through the afternoon and then subside tonight.

Schools and highways throughout the area were hazardous to traffic and most vehicles on the roads moved at a slow pace.

Although the cold weather had been expected to last a few days, precipitation represented a quick switch from official forecasts of Tuesday. Most of the clouds had cleared out of West Texas early yesterday, but the weather had turned cold and a snow fall in the Snyder area was expected.

Elsewhere over the state, snow-sleet and freezing rain prevented the Dallas-Fort Worth area from seeing a heavy snow. Light rain in South Texas.

Many schools closed. Gas for some use was interrupted in south Longview. Roads were open but driving was hazardous in all of Texas north of San Antonio.

Four inches of snow was on the ground at Lubbock in mid-morning and heavy snow continued. One to three inches of snow covered the ground from Wichita Falls west to El Paso.

The weather bureau forecast that the Dallas-Fort Worth area will see a heavy snow tonight.

Heavy blowing snow piled in drifts at Lubbock. Big Spring and Bowie were hit by moderate amounts of snow. A steady rain fell at Dallas. In the Dallas-Fort Worth area, a steady rain fell at Dallas. In the Dallas-Fort Worth area, a steady rain fell at Dallas.

Big Titan Has Longest Test Today

CAPE CANAVERAL, Fla. (AP)—An intercontinental range Titan missile was successfully launched on its longest range test flight today.

The test was a critical one for the troubled Titan and it passed perfectly, boosting a dummy warhead nearly 5,000 miles to an ocean target.

The Air Force announced the test was successful. An announcement said "It was the first in a series of extended range flights designed to test all the major subsystems."

The success should take some of the pressure off the Titan, which has "flown perfectly" only once before in the past 10 months.

Congressional committees are looking into failures which have plagued the program.

The 80-foot Titan thundered off to a good start on the underpass at the 300,000 pounds of thrust generated by its first stage engines. The missile rose smoothly from its pad and cut a fiery path across the sky.

Two minutes later, the missile's huge second stage ignited with a puff of fire visible to ground observers.

The Titan eventually will have a range of up to 8,000 miles. But today's missile was not fully loaded and was programmed for the shorter range.

This was the second time the 80,000-pound thrust second stage has been ignited at altitude. The first time was Feb. 2, when the Titan-1 missile scored its first success since last May.

Rail Chief's Appeal Fails

AUSTIN, AP—The Supreme Court refused today to release the president of the Missouri-Kansas-Texas Railroad from a Dallas District Court order that would send him to jail.

Whether W. N. Derasimus III was to serve a 240-day jail sentence, and pay a \$4,000 fine, because M-K-T freight trains blocked a Dallas street crossing 86 times, was left to Dist. Judge W. L. Thornton at Dallas.

The court split 6-3 in making the decision. Dissenting with the majority opinion were Associate Justices Robert W. Calvert, Clyde Smith and Joe Greenhill.

Thornton gave Derasimus one 30-day suspension while the railroad began work on an underpass at the disputed crossing. At the end of the three months, the underpass construction was under way, but Thornton ordered Derasimus to appear for sentencing under the contempt of court ruling.

It was then that Derasimus' attorneys asked for a mandamus to halt Thornton's procedure.

In arguments before the Supreme Court Feb. 3 attorneys contended that it was up to the Supreme Court to send Derasimus to jail to reverse the Dallas district judge.

The principal complainant in the case is Neuhoff Packing Co. which has a plant near the Dallas-Alamo St. crossing.

Derasimus' attorneys said that under state law Derasimus could not ask relief on grounds of violation of his constitutional rights (habeas corpus) without first going to jail.

The majority opinion said the court is reluctant to depart from a judicial path so well marked by granting a mandamus in place of a writ of habeas corpus, especially since the claimed inadequacy of habeas corpus in this instance is one common to all cases where escape is sought from the penalties of a contempt judgment.

"This in itself we think is sufficient justification for our refusal of this application," the opinion said. "To do otherwise would completely change the procedure long followed in this state and allow in every case an attack on the order of contempt by way of mandamus."

Moreover, the presumption obtains that a judge will not attempt to enforce a void order and direct confinement thereunder. He has not yet acted and since the order for these parties to appear was issued by the trial judge some three months after the termination of the period of suspension, and the condition of the suspension, namely, commencement of construction work on a grade separation, has been complied with, it is entirely possible that he contemplates an enforcement of the penalties assessed for it.

DRESSED IN WHITE—The Snyder landscape sported a covering of snow this morning as clouds returned to the area and sub-freezing temperatures endured. The cold weather discouraged a thaw, even on West Twenty-fifth Street in the above scene. (Staff photo by Gerry Burton)

Ike Tells Brazilians Of U. S. Peace Hopes

BY MAX HARBELSON
RIO DE JANEIRO, Brazil (AP)—President Eisenhower, grinning broadly, rode triumphantly through Rio de Janeiro today amid the greatest crowds this Brazilian metropolis ever has seen.

A blizzard of confetti and streamers showered down as Eisenhower's motorcade passed down the Avenida Rio Branco, the main business street of Rio, and onto the bay-side drive in sight of famous Sugar Loaf peak.

The U. S. President passed through the jammed streets after a reception at which he expressed the hope that money now spent on arms can one day be diverted to global attacks on disease, ignorance, and poverty.

Police officials declined to estimate the size of the city's turnout but said there never had been anything like it.

"Eisenhower, Eisenhower," giving two syllables to the President's nickname.

Eisenhower sat on the back of a car seat and acknowledged the greetings by holding both hands above his head. Brazilian President Juscelino Kubitschek rode bearing beside him.

At one point student groups leaned from windows to shout "Fidel, Fidel" in honor of their hero, Prime Minister Fidel Castro of Cuba. The crowd on the sidewalk cheered, and Eisenhower smiled.

The parade route started at the Naval Ministry and ended at the U. S. Embassy residence, where Eisenhower had arranged a luncheon.

At the Navy Ministry he received a formal welcome to Rio. "I come here as the representative of 180 million citizens of the United States," Eisenhower said in welcoming ceremonies. "They share with me this fervent wish: 'That war and all forms of coercion be forever banished from the earth; that leaders of all nations harken to the prayers of their people for peace with justice—for a peace founded on mutual respect, understanding and collaboration, a peace in which

Snyder Man Dies Of Gunshot Wound

Eugene C. Loven, 35, died in Coddell Memorial hospital at 10 o'clock last night, some 12 hours after he was found suffering from a gunshot wound.

Justice of the Peace W. C. Davidson said this morning that he was entering a coroner's verdict of "death from a self-inflicted gunshot wound."

Loven was found Tuesday morning in a cabin on West Twenty-first Street which he occupied.

Friends and acquaintances said he had been dependent recently. Alton Canady, Loven's former brother-in-law told a Daily News reporter that Loven had indicated that he planned to consult a doctor this week.

Police found Loven after he had been called by a friend who had called on Loven and found his door locked.

Judge Davidson said Loven was

Danish Royalty To Visit United States

WASHINGTON (AP)—The King and Queen of Denmark will pay a state visit to the United States next October.

The White House announced today that King Frederik IX and Queen Ingrid have accepted an invitation from President Eisenhower to come to this country early in that month next year.

Exact dates have not been worked out.

During their stay, the White House said, the royal couple will officially inaugurate the Danish exhibition, The Arts of Denmark, in New York City.

San Antonio School Brawl Is Probed

SAN ANTONIO (AP)—Juvenile authorities continued their inquiry today into a brawl at the Edison High School cafeteria in which two athletes were stabbed.

Gary Black and Dennis Richards, both 17 and football players, were treated Tuesday for stab wounds suffered in a scuffle which said involved 10 or 15 youths.

Dynamite Blamed For Crash

BY GEOFFREY GOLD
WASHINGTON (AP)—Government sleuths say they've pinned down the cause of the North Carolina plane crash that killed 34 persons Jan. 6. It was a dynamite bomb.

They say furthermore that the bomb, set off by a dry cell battery, exploded near the seat of Julian Frank, a young Westport, Conn., attorney who carried a million dollars in life insurance.

There was a hint the tragedy might have been the result of a conspiracy by two or more persons.

The theory that Frank committed suicide and carried away one else aboard to death with him had been voiced unofficially before, but some doubt later was expressed that a bomb had caused the crash.

James R. Durfee, chairman of the Civil Aeronautics Board, told the Senate Aviation Subcommittee Tuesday it has now been definitely established that a dynamite bomb caused the wreck. The CAB and the FBI are continuing their investigations. He said.

Frank's body was found on Kure Beach, N.C., along with interior cabin parts and part of the plane's fuselage skin. The plane itself traveled 20 miles further before crashing near Bolivia, N.C., where all the rest of the victims were found.

Durfee said "Foreign bodies were found deeply imbedded in Mr. Frank's body, small pieces of steel wire, cloth fibers and black deposits which were later determined to be manganese dioxide, a substance found in dry cell batteries."

Durfee noted that Frank had taken out his insurance policies within a year preceding the accident. The beneficiary was his wife, a former magazine model and mother of their two children. She has said she'll never believe that Frank killed himself by building the bomb.

The conspiracy hint came when

however, he turned on bridges and overpasses, and streets in the city became slick. Many minor traffic accidents were reported.

The ice storm in the Austin area, though many residents unaware because the late night forecasts had not predicted freezing rain.

Bridges led over in the Cleburne area, south of Fort Worth, after a heavy snow fall. Temperatures there hovered at 20 degrees. Schools remained open.

The lowest temperatures Wednesday morning ranged from 10 to 15 degrees below zero. Amarillo had a low of 8 and Lubbock 12.

Light snow fell from the El Paso region some 70 miles eastward near the Dallas-Fort Worth area. Blowing snow and hazardous driving warnings were posted for southeastern New Mexico.

Freezing rain put a heavy white mantle on much of Central Texas and East Texas. Light rain in the Dallas-Fort Worth area was near-freezing weather in South Texas.

Snow began in the Big Spring area Sunday. Other midrange and west areas were hit by snow. Light snow fell in the Dallas-Fort Worth area Sunday. Light snow fell in the Dallas-Fort Worth area Sunday.

Heavy blowing snow piled in drifts at Lubbock. Big Spring and Bowie were hit by moderate amounts of snow. A steady rain fell at Dallas. In the Dallas-Fort Worth area, a steady rain fell at Dallas.

Man Is Slain In Shooting

FRANKIE D. JAMES, 26-year-old Snyder, was pronounced dead on arrival at Coddell Memorial Hospital this morning following a shooting.

Officers said James was shot three or four times during an altercation on the corner of West Thirty-third Street at about 10:45 a.m.

Another Negro man, Howard Smith, was treated for a wrist wound and was questioned by sheriff's department officers.

The victim's body was carried to Bell Funeral Home where funeral arrangements were to be made.

Weather

ANOTHER WEATHERMAN'S HIGH TODAY, 41 degrees; low, 15 degrees; precipitation, 0.

Forecast: Occasional rain in south and west Texas, with a heavy snow or sleet in north portion ending about 10 p.m. Mostly clear, with a light snow or sleet in north and west Texas, with a heavy snow or sleet in north portion ending about 10 p.m. Mostly clear, with a light snow or sleet in north and west Texas, with a heavy snow or sleet in north portion ending about 10 p.m.

Civil Rights Bill Backers Withhold Debate Curb Move

BY JOHN CHADWICK
WASHINGTON (AP)—Civil rights advocates today withheld any move to shut off Senate debate in hopes that other pressure would overcome the resistance of Southern foes.

"For the time being the principal effort apparently will be directed at swaying down the Dixie forces by longer and longer Senate sessions in an election-year battle now in its second week."

Majority Leader Lyndon B. Johnson, D-Tex., and Minority Leader Everett M. Dirksen, R-Ill., joined Tuesday in serving notice that round-the-clock sessions may start Monday in a drive to bring civil rights legislation to a vote.

Lengthening sessions were in prospect for the rest of this week. Tuesday the Senate was in session for more than 11 hours, before quitting at 10:11 p.m.

The Southern's chief strategist, Sen. Richard B. Russell (D-Ga.) said they would combat round-the-clock sessions with every rule in the book.

Russell protested that other bills had been debated for much longer periods without similar efforts to bring pressure on their opponents.

Sen. Jacob C. Javits (R-N.Y.) told newsmen he knew of no plans now to try to cut off debate. Similar work came from an aide of Sen. Paul H. Douglas (D-Ill.) Javits and Douglas are among the chief sponsors of civil rights proposals, advocating even stronger measures than the Eisenhower administration program now pending before the Senate.

Plebiscite For Germans Hinted

WASHINGTON (AP)—The United States may propose to the Soviet Union that the Germans themselves settle the future status of Germany in a plebiscite.

Under the plan, Germans would be polled on whether they prefer:

1. A united Germany with a single peace settlement.
2. A divided Germany with separate peace treaties.

Secretary of State Christian A. Herter reportedly favors making such a proposal. But Soviet and Soviet officials have rejected the idea several times in the past.

In effect, the plebiscite voters from both West and East Germany would be deciding whether they want to follow Soviet or American policy.

For years Soviet Premier Nikita Khrushchev has been campaigning for separate peace treaties, which would freeze the division of Germany. On the other hand, the Western powers say they want a single treaty with a united Germany.

For some months Herter has been thinking of the plebiscite as a possible proposal for the Western leaders when they meet with Khrushchev at the East-West summit conference in Paris beginning May 16.

The idea has been tossed around by representatives of the United States, Britain, France, and West Germany in the past few weeks as they have exchanged views on summit policy.

If a plebiscite were held, West German leaders are convinced the German would vote for unification and a single peace treaty.

J. A. Wortham Rites Today

Funeral services were to be held this afternoon for Joe Albert Wortham, 201 Twenty-fifth Street, who died Tuesday. A retired farmer, he had been a resident of Scurry County since 1937.

Born April 8, 1887, in Scottsboro, Ala., he is survived by his wife, Mrs. Elzie Wortham; one son John D. Wortham of the home; three daughters, Mrs. Odie Snellgrove of Hermitage; Mrs. Virgil Leatherwood of Snyder; and Mrs. Dreville Kenner of Camp Spring; one sister, Mrs. Lillie Durston of Alabama; three brothers, Virgil Wortham, Rob Wortham and Sam Wortham, all of Alabama; and 17 grandchildren.

Rev. J. Gerald Cates was to officiate at the 3 o'clock services at the First Baptist Church with Rev. B. C. Chick, pastor of the Calvary Baptist Church in Stamford assisting.

Palbearers are Hubert Starnes, Alvin Reeves, Doug Burnett, Mijam Fowler, Dick Fowler, and Elbert Hill.

Burial will be in the Snyder Cemetery under the direction of Bell Funeral Home.

Johnny Must Eat To Grow

By DOROTHY V. WHIPPLE, M.D.
AP Neutrologist

Super time had been an especially busy battle. You wouldn't eat his carrots. Lola dawdled over her milk and Marie insisted she couldn't chew the meat. Mother had made a beautiful lemon meringue pie for dessert, but none of the children would touch it. The doctor's long-established rule is that they must have their plates before they could have their pie. Neither Dad nor Mother could enjoy the pie in the presence of three varieties of tantrum.

Eventually the Anderson household quieted down and two lagged out parents met each other in the living room. "Peg," said Harry, "this awful rowing about what the kids eat has got to stop. Why don't you just let them eat anything they want to eat? But they have to be properly nourished."

"Yes, I know, but I read about an experiment where kids were allowed to choose their own diets and they all came out all right."

"But you know they would all have eaten pie and not much else tonight, if we'd let them."

"Oh, I know, but I read about an experiment where kids were allowed to choose their own diets and they all came out all right."

"But you know they would all have eaten pie and not much else tonight, if we'd let them."

"Oh, I know, but I read about an experiment where kids were allowed to choose their own diets and they all came out all right."

"But you know they would all have eaten pie and not much else tonight, if we'd let them."

"Oh, I know, but I read about an experiment where kids were allowed to choose their own diets and they all came out all right."

"But you know they would all have eaten pie and not much else tonight, if we'd let them."

"Oh, I know, but I read about an experiment where kids were allowed to choose their own diets and they all came out all right."

"But you know they would all have eaten pie and not much else tonight, if we'd let them."

"Oh, I know, but I read about an experiment where kids were allowed to choose their own diets and they all came out all right."

"But you know they would all have eaten pie and not much else tonight, if we'd let them."

"Oh, I know, but I read about an experiment where kids were allowed to choose their own diets and they all came out all right."

"Oh, I know, but I read about an experiment where kids were allowed to choose their own diets and they all came out all right."

"But you know they would all have eaten pie and not much else tonight, if we'd let them."

"Oh, I know, but I read about an experiment where kids were allowed to choose their own diets and they all came out all right."

The experiment Harry quoted did show that children could and would select good diets for themselves but there were some things that that experiment that Harry didn't know.

The experiment was done by Dr. Clara Davis in an orthopedic hospital. A whole ward of youngsters who were essentially healthy children had to live on the hospital's long-established rule that they must have their plates before they could have their pie.

Neither Dad nor Mother could enjoy the pie in the presence of three varieties of tantrum.

Eventually the Anderson household quieted down and two lagged out parents met each other in the living room.

"Peg," said Harry, "this awful rowing about what the kids eat has got to stop. Why don't you just let them eat anything they want to eat? But they have to be properly nourished."

"Yes, I know, but I read about an experiment where kids were allowed to choose their own diets and they all came out all right."

"Oh, I know, but I read about an experiment where kids were allowed to choose their own diets and they all came out all right."

"But you know they would all have eaten pie and not much else tonight, if we'd let them."

thing was served as it grew in nature—cooked where cooking was essential, but no foods were refined, nothing was added to them, nothing was taken away. That means there were meats, fruits, vegetables, eggs, milk, whole grain cereals. There was not any white sugar or chokes or cookies or pastries or jellies or jam made with refined sugar or any other refined products.

What this experiment shows is that the human child like every other animal species can select an adequate diet from natural sources.

Nobody gives a course in nutrition to wild animals, and yet they manage to eat what they need. The same is more or less true of man in primitive societies.

But in our society we have learned to do all sorts of things to foods. We make foods which we think taste and look better than the natural ones. Some foods we change so they will keep better and we can transport and store them more easily.

In "improving" our foods we have also destroyed some of their nutritive value. Whole grain eaten as is, or ground into cereal or flour is a nutritious food. But pure white wheat flour has had removed from it the germ of the wheat and the outside covering of the grain.

Most of the vitamins and minerals of the original grain have been removed. When we "educate" our taste to prefer refined wheat flour to the whole grain grain then we have altered our natural instincts.

As soon as a child or adult for that matter has eaten all the calories he needs he is no longer hungry and we say his appetite has been satisfied.

If his calories have been supplied by natural food substances he would have received along with his calories the vitamins, minerals, protein present in the original food.

The science of nutrition, one might almost say, is an evolutionary adaptation made necessary by man's ability to alter his natural foods to suit a perverted palate.

What do we conclude from this famous experiment in natural selection of foods by children?

You cannot let children fill up on lemon meringue pie. But then we really know that in the first place, by some sense.

If you're having trouble with your children, try giving them only natural foods. Give them milk, eggs, butter, whole milk, cheese, all fruits, all vegetables, give them only whole grain cereals and bread made from whole grain flour and give only natural sugars, like molasses, honey, maple syrup. Let them eat what they will. All your desserts will probably be fruit.

PINEAPPLE CHIFFON
INGREDIENTS: 1-2 1/2 cups canned crushed pineapple with syrup (just as it comes from can), 1 envelope unflavored gelatin, 4 teaspoon vanilla, 2 cups Whipped Milk, 1/4 cup flaked coconut.

METHOD: Drain pineapple; there should be about 1/4 cup syrup. Add enough water to syrup to make 1 cup; heat gently in a small saucepan with gelatin, stirring constantly, until gelatin dissolves. Mix in drained pineapple and vanilla. Chill until slightly thickened. Fold into whipped milk with coconut. Turn into dessert dishes; chill until firm. Makes 6 to 8 servings.

WHIPPED MILK: In a bowl mix 1/4 cup nonfat dry milk with 1/4 cup ice water, beat until soft peaks form (2 to 4 minutes). Add 2 tablespoons lemon juice, continue beating until firm peaks form (3 to 4 minutes). Gradually beat in 2 cups milk.

NOTE: A 1 1/2-ounce can of crushed pineapple will give the exact amount of fruit and syrup needed in this recipe.

WOMEN

The Snyder (Texas) Daily News, Wed., Feb. 24, 1960 3

Woman Is Hunting Guide In Mountainous Colorado

GLENWOOD SPRINGS, Colo., AP—Most folks undoubtedly think a woman hunting guide in mountainous Colorado would be a strident gal at least slightly on the masculine side.

There's News In Swimsuits, Brevity, Bikinis, All Wool

Brevity is the word in swimwear for 1960. Leg lengths are shorter, often cut higher at the side or side-front. Maillots abound but the more modest maidens need no guilms, plenty of quarter and half skirt styles are available and some flatteringly draped and/or flared all-around skirted models.

The two-piece still has been making small advances in sales, for the past several seasons and, this year, takes a giant step forward to the point where some manufacturers report them on a par with the one-piece styles. Important among the two-pieces are the bikinis of which there are many versions. Some trunks are pared down to the hip-bone on the sides and need expert engineering in the cut to keep them firmly in place, there seems to be plenty of skill in that department, however. Some styles are cut into deep V's in the back, some swish down in front to the point where the navel is no novelty. Like it or not, the bikini is with us!

Knits grow stronger in popularity each season with all wool and latest combinations continuing to show importance in many stores. The sharkskin stitch, variegated jacquards such as giant houndstooth, all over florals, heringbones, stripes from narrow to blazer width, paisley, etc., big and little rib that often look hand-done, moose, flat Italian type, bubbly matelasse effects and occasional pretails are important in the new line for resort, Spring and Summer.

A WINNING ISSUE FOR 1960

Attack Against Sack Gets Full Support Of VFW Post

By INEZ ROBB

It is no secret that I have been moaning mightily low the past three weeks — when I had the strength — feeling outraged that a civilization that can lift satellites into the blue can do anything about the common cold or viruses. Or zippers.

I have been suffering from all three — the common cold, that latest West-Coast virus and a balky zipper on a bed jacket. I have been simply miserable, thank God, and even a darling husband bringing home fresh vegetables (from Chile) and asparagus (from Mexico) to tempt my sullen appetite scarcely penetrated the gloom.

Then the tide turned and suddenly it's almost spring, although the snow and ice on the terrace beyond the apartment windows don't know it yet. The thaw came when the mailman brought a letter from the stationery of the Andrew Johnson Post 1960 of the Veterans of Foreign Wars of the United States, of Greenville, Tenn.

James N. Hardin, commander of the post, has written to tell me that the men — and what men! — of the post stand four-square behind me in my valiant fight against the sneaky Petes of the international couture who are trying to slip the discredited sack down back on the American woman.

"In more than one spring and summer fashion line," I wrote in a Paul Revere alert to the American people on January 15, "the waistline has already collapsed to the hipbone, where it is loosely indicated, if at all. It is the old, 1958 bag reworked."

In that famous year, 1958, true blue American men and women liked the socks off the couture and the bag off women by refusing to buy this reworked Mother Hubbard. In January I warned, the

public that we had won only the first battle, not the war.

"Never let it be said that the Cassandra of the 'Sixties went unheeded!" Commander Hardin writes.

"Dear Mrs. Robb:

"Following a discussion of your editorial at a Post-meeting, first we wish to commend you for taking the viewpoint that every red-blooded American boy should support.

"We (the Post) have gone on record as being of the opinion that the Lord created us in his image and the attempt of the couture to change the silhouette or shape of the American woman to a point where it is unrecognizable by the opposite sex is truly a catastrophe and a loss of the Battle of 1958 — as had as our peace treaties following World Wars I and II.

"We continue in our beliefs and do not wish the female figure to perish from the earth.

"Again, we wish to congratulate you in joining the fight that we think all men should be dedicated to.

"Very truly yours, James N. Hardin, Commander Post 1960."

As I keep reiterating, day in and day out, if you give American leadership and guidance in matters of great national import, you will always find them arrayed on the right barricades. Here is a powerful affirmation of this thesis.

"Give light and the people will find their own way."

Well, they aren't going to find the way if woman's light is hidden under a bushel or a bag! By the way, the second most-crushing indictment of beakies (the first is that they're dirty by choice and doctrine) is that in dress it would be impossible to tell the women from the men if the latter didn't wear beards. Maybe, come to think of it, that's why the men

wear beards. Makes for less confusion in the pads.

Anyway, I am eternally grateful to Commander Hardin and the brave boys of Post 1960. They have not only made me feel that life is worth living again but have given me heartening assurance that I am not holding the bag alone.

Public Is Denied Facts On Defense

By BEM PRICE

WASHINGTON (AP)—You have yet to be told the facts about this nation's defenses in relation to those of the Soviet Union and it is unlikely that you ever will be.

At the moment there is a fierce debate in and out of Congress over whether U.S. defenses are lagging. President Eisenhower has said our military posture is adequate. In general the Republicans agree. The Democrats disagree.

What you are being given is an assortment of opinions based on individual interpretations of facts which are top secret.

A democracy supposedly functions best when the people are told the whole truth and allowed to make up their minds. This theory collapses when applied to military operations.

The military contend that to tell the people the whole truth would also inform the enemy. Thus, in the final analysis the only way the people can ever learn whether defenses are adequate is when they are tested in actual conflict. Certain privileged congressmen

and assorted high ranking members of the executive branch are given briefings on what intelligence officers believe to be the enemy's capabilities.

The defense debate arises from interpretation of the known facts and the intelligence estimates.

Intelligence work has been described as a field in which 95 per cent of the information is drawn from careful study of unclassified sources, 3 per cent from semi-cover sources and about 2 per cent from secret agents.

You may ask, then, why isn't the 95 per cent made public? The military argument is that to tell the enemy what we know is to expose either our ignorance and ineptitude, or allow him to evaluate our intelligence operations.

The enemy will know what information came from unclassified sources, what could have been obtained only from secret agents.

If the enemy learns we are over-estimating his strength he may be encouraged to gamble; that is, in theory, in a bit of international blackmail.

Men More Loyal To Clothing

NEW YORK (AP)—One difference between the sexes in America is in the realm of "clothing loyalty."

Most men have it. Few women.

Most women like to get rid of an old dress as soon as possible and buy a new one. But men are just the opposite.

Where women love new clothing, men love old clothing. They cling to a well-worn suit with the same ardor they show the memory of their sainted mother.

There are many kinds of war—hot, cold and lukewarm—in every marriage. But in most homes there is one kind of warfare you are sure to find.

This is the long-continued guerrilla action by which the husband desperately tries to hold on to the old clothing his wife is equally determined to throw away—or give away.

My apartment has been a battlefield in this respect for 22 years. The morning after we married my bride, Frances, across the threshold of our first apartment she tried to get me to discard the suit in which I had led her to the altar.

"It was bad enough to be married in that suit," she said. "Surely you don't intend to wear it to work."

"I certainly do!" I told her firmly. "Why, I couldn't possibly throw it away. I wore that suit when I graduated from college—only five years ago—and I only bought it the year before that."

"It's practically new. Anyway, it's got a lot of memories."

But women, to give a new remark, don't give up easily. Every year since then I've had to fight an endless tug of war to keep my wardrobe.

My wife is always calling up the Salvation Army man to come take my old clothes, and I have to meet him at the door and pay him to go away empty-handed.

There is no real solution possible for this kind of marital warfare. And the reason is simple. Women have no loyalty to old clothes because they have the idea that being up-to-the-minute in fashion makes them look younger.

SPORTS

The Snyder (Texas) Daily News, Wed., Feb. 24, 1960 5

Between You and Me

By Jerry Jackson

A conference with Ace Amos has approximately the same end result as would one with Casey Stengel—it's an enjoyable breath of garbulous fresh air, and when it's all over the interviewer isn't quite sure just what the interview was supposed to have been about in the first place, but still doesn't regret the situation in the least.

The talk which transpired went on to the Junior High Senior High Faculty Game which is slated to take place this coming Friday night here. Ace is the playing manager of the Junior High contingent which is presently making feverish preparations for said encounter against Coach Ollie Peck's Senior High Five.

Reverend Amos was bubbling over with quiet confidence concerning the eventual outcome of the contest, assuring me that, "We'll take 'em by the neck by 20 points," but further adding that, "The last time I got to feeling confident we got beat 26-0." That whitewash was in a football game of course for Ace has yet to get skunked in a cage tilt. He added that the first basketball game in which he ever participated was one in which four of the starting five, including himself, "had" never even so much as seen a roundball game, with the result that his bunch got edged out by 45-1. But

he's yet to be blanked!

He had his formidable starting lineup jotted down on a piece of tattered paper, which included such proven veterans as Ned Underwood, Bob O'Day, Bill Hartfield, Dub Holt, and Ray Courtney. Of Underwood, he commented that, "I'd bet real fine ball player—just about the best in town," and went on to tell how he (Ned) dropped in 74 points in a city league game last year, but still was on the losing team. "Everybody fouled out but Ned and one other guy, and we got beat by something like 98-96."

He also had a choice statement or two to pass along concerning the play of Hartfield. "He makes any kind of crazy shot and misses the straight ones. He can dribble in and shoot behind his back, bounce 'em up with his head, shoot 'em in through the rafters—all that Globetrotter stuff—but he misses the easy ones."

Some of the name players who are scheduled for double duty chores on the High School team include Marshall Parham, Bob Cole, V. V. Shearburn, Donald Robbins, Horace Binsick, James Wesson (a surprise package smuggled in from North Lemeray) J. P. Ward and John Conley.

Parham Poses Problem

AMOS PREDICTED a hard-fought battle and sang the praises of not one but several of the above opponents. Of Parham, he related that, "He's the best defensive boy I've ever seen on a basketball court. Not a darn one on offense, but a regular demon on defense. He oughta be, for," (and this he said with a modest wink) "I coached him three years down at Menard."

As Coach Conley, he had only this to say: "I just hope ol' John and I don't run into each other out there!"

While on the same subject, he said with a wry smile that, "We're having a lot of fun, but it'll be a wonder if one of us doesn't get killed before it's all over."

Being of a curious nature, I asked him just why it has been holding secret workouts with his team, and he passed

along the reason in a hushed, confidential undertone. "We were so out of condition that we didn't want anybody to see us."

I felt him out about a picture taken for the team, and he rambled on with, "Yeah, come on any time we're working out. Our uniforms are dirty, but we're sort of dirty, too." Couldn't tell whether he was referring to team hygiene or team tactics, but dropped the subject rather than trying to pose what might be an embarrassing question.

As a change of pace, we eventually began talking about favorite sports, and the whys and wherefores of same. Ace was strong in favor of football, and commented with a wistful, nostalgic, faraway look in his eyes that, "I'll sure be glad when it's time to start working out again."

Dislikes the Likes Of Balls And Strikes

BASEBALL is another thing, however, and is a sport in which the Deacon has become beset with a deep-seated mental psychological block. It all started when he was just a mere boy, still in the knicker- and -all -day - sucker stage.

"If they'd of just let me pitch I think I would've got like baseball, but I always got stuck out there for nine innings and get maybe one ball hit to me, and would usually manage to miff it. Then when I come to bat someone like Ted always got hit by the ball, so I just finally gave up the sport. Ever notice how much time the pitchers take to throw the ball? That's another thing. They'll wind up like they're going to let it loose, then stop

for a second, squint at the catcher, and then shake their head. Then pretty soon a bunch of players will get together out on the mound and have a huddle. I never have figured out what they could be talking about in that huddle."

Oh, well, the only "pitching" that Amos will get to do Friday night will be at the backboard, so he won't have to fret too much about his unhappy association with the national pastime.

He speaks with a distinct air of confidence as far as Friday's game is concerned, though, and let me with the comforting thought that, "What we lack in hustle we'll make up for in experience."

YOU try to figure it out, dear reader.

Farmers' Plow Is Cleaned By Ponies

By RAYMOND HOLBROOK
Associated Press Staff Writer
Southern Methodist University Tuesday night stayed in contention for a share of the Southwest Conference basketball crown by slaughtering the Texas Aggies, 81-53. And at the same time they paved the way for the University of Texas to represent the loop in the NCAA playoffs.

Both Texas, which edged by Baylor, 68-62, in an overtime session, and SMU now have 9-2 conference records and each have three more loop games to play. But even though they wind up as co-champions, Texas will beat the NCAA bid because it has beaten the Mustangs twice in conference play.

The Aggies lost more than a game at Dallas Tuesday night, they also lost an opportunity to strengthen their chances for a share of the crown in the fast-fading conference season which winds up next week.

The Aggies, who were in a three-way tie with Texas and SMU for the lead, now have an 8-3 loop record. Texas A&M also has three games left. It will have to win all three and count on Texas and SMU stumbling if the Aggies are to share in the title.

In the third loop game Tuesday night, Texas Tech shaded Texas, 68-61, for the Raiders' fourth conference win. It assured them of at least a share of sixth place in the final standings. It was TCU's ninth loss in 11 league games.

The Mustangs employed a tight defense to bottle up the Aggies and then combined the fast break with deadly accurate shooting to smother them in the loop-tilt till before 9,000 fans.

The Mustangs held a 42-22 halftime advantage after the Aggies hit a sickly 21.9 per cent of its shots to drop hopelessly behind. Max Williams paced the Mustangs with 23 points. Don Stanley of the Aggies also racked up 23 points.

Texas had to come from behind to defeat Baylor in the rough and ragged game at Austin. The Bears held a 29-26 halftime advantage and staged a rally in the closing erase the Longhorn lead and force the tilt into overtime. Albert Allen, who slammed in 25 points during the evening — accounted for most of the 141114 in the Longhorn's overtime victory. David Pierce of Baylor was high man for the evening with 26 points.

Texas Tech took an early 30 lead and was never headed. They held a 38-32 halftime advantage. Tech's Mac Perceval was high scorer with 19 points.

Friday's journey to Fayetteville to meet the seven-day, grueling Arkansas Razorbacks while Tech will be host to the Aggies. Those are the only two games scheduled for the weekend.

Miss Chris Van Salta of Saratoga, Calif., won five gold medals in swimming events at the Pan-American Games in Chicago last summer.

SHADES OF SWAN LAKE—It's neither ballet nor hore down in this shot, but rather a basketball game. Fighting for the wayward sphere during last night's Hermleigh-Highland bi-district fracas is Hermleigh's Wallace Wall (13) and a quartet of Highland Flyers including Phil Wright (40), Darrell Pettit (10), Woody Owens (32) and John McRee (30). Highland won the game by a score of 66-30 to advance into the regional playoff starting Friday in Canyon. (Photo by Thomas Boyd)

Hornets Slap Cards In Playoff Contest

HERMLEIGH — The veteran-studded Highland Hornets tackled Hermleigh's Cardinals here last night in a Class B bi-district encounter, and when the smoke had cleared the H's blunders found themselves on the long end of a 66-30 score.

The victory enabled the Hornets to four-see into the regional tournament this Friday in Canyon, where they will meet the District 7-B representative Meadow, at 6:30 Friday night in the first round competition.

The game was an extremely clean, hard-fought contest, as evidenced by the lack of fouling present. The Cards made good on 6 of 17 attempted free throws, while Highland canned 8 of 14.

The Cards, who experienced a cold night from the field in hitting at a 24 per cent clip, were still a good, but hustling all the way, reports Coach R. C. McLaren.

Highland is a perennial playoff team and profited from the experience garnered in previous seasons while the Cards were hurting in the department. Highland hit for 62 per cent from the field in romping to the win.

Darrell Pettit was the big noise in the Hornet attack as he crammed in 39 points to show the way to the victory. Woody Owens followed with 17, while Phil Wright was good for an even dozen.

Mickey Winter topped the Cardinal scoring with 12 points, with James Vernon chipping in 6 for second high point honors. A trio of Hermleigh players made a total of 4 points each, including Bruce Withers, Wallace Wall, and Joe Pate.

Coach McLaren had high praises for the Highland five, stating that, "They have one of the finest ball teams that I've seen all year long. They monopolized play

CONFIRM MARRIAGE REPORT—Jenny Ann Lindstrom, 21, daughter of actress Ingrid Bergman, and her husband, Fuller E. Calloway III, 28, pose in the doorway of their San Francisco apartment. The couple confirmed they were married last Sunday at Elko, Nevada. Jenny Ann is a student at Mills College in Oakland and Calloway is business manager of an electronics firm in Palo Alto but lives in San Francisco. (AP Wirephoto)

Industry Major Goal Of Daniel

AUSTIN (AP)—Gov. Price Daniel labels the attraction of new industries to Texas a "primary goal for 1960 and the years ahead."

He appointed nine members of the expanded Texas Industrial Commission Tuesday and said the state's aim should be for at least one new industry for each of the 254 counties in 1960.

Daniel said Texas added 137 new plants last year.

Dallas steel executive E. B. Germany was renamed chairman of the board.

Reappointed to the commission were Houston Harte, publisher of the San Angelo Standard-Times, and Chester Wine, district manager of the Central Power & Light Co. at Laredo. Germany is president of Lone Star Steel Co.

Other appointments were Al H. Chesser of Austin, state representative of the Brotherhood of Rail-

road Trainmen; James Redmond of Beaumont, construction employee; Richard LeTourneau of Longview, member of the board of R. G. LeTourneau Inc.; Robert Haynsworth of El Paso, building contractor and former member of the Texas Commission on Higher Education; Morris Higley, publisher of the Childress Index; and Ray Horton, president of the Humble division of Humble Oil and Refining Co., Houston.

Germany and Horton were named as employer representatives, and the others were selected as public members.

Germany will serve with Daniel and Herb Petry, chairman of the State Highway Commission, on the Texas Development Board created by the last Legislature to promote and advertise Texas campaign to attract tourists and industry.

Widow Denies Killing Mate

DETROIT (AP)—"No, it isn't true," the pretty widow screamed. "How can they do that when they know it's not true. I didn't kill Bill."

Nelle Lassiter, 38, was near hysterics Tuesday when suddenly she was charged with first-degree murder and conspiracy in the shooting of her slain husband, Gordon Watson, 44, friend and business associate of the slain suburban Royal Oak car dealer.

Watson was arrested in Los Angeles where he had been in jail since November. He said he would waive extradition and "go back to Michigan and clear it up."

Mrs. Lassiter was arrested in the chambers of Circuit Judge Joseph Rashid. She was waiting to appear as a prosecution witness against three men the state contends murdered her husband last April 6.

Five others were named as co-conspirators but not defendants in the charge against Mrs. Lassiter and Watson. They include Roy C. Hicks, also a Lassiter business associate, and Richard W. Jones, who the state said was the inter-

mediate cause of the car dealer's death.

Hicks, Jones and Charles W. Nash, all of Chattanooga, Tenn., were brought to trial last week on first-degree murder charges. Jones pleaded guilty to second-degree murder last Thursday. Hicks entered a similar plea Tuesday. First-degree murder is pre-meditated.

Lassiter was killed after returning from a business flight. The state said he was met at the airport by the three men, taken to a lonely spot, beaten and shot to death. His body was found in a field near Willow Run Airport. The prosecution maintains Hicks set up the killing by offering the other two a \$500 fee and whatever money would be found on the body. The car dealer was known to carry large sums of money but had only \$320 the night he was slain.

Boy Found Alive In Refrigerator

HOUSTON, Tex. (AP)—Jean Allgayer found her son Ronnie, 4, after two hours in a refrigerator Tuesday.

Mrs. Allgayer awoke from a nap and started looking for Ronnie in the apartment house where they live. Finally she heard Ronnie's muffled voice from an unopened apartment. "Mommie! Mommie! I'm here—get me out!"

At City-County Hospital, doctors ordered a hot bath for Ronnie. He appeared to suffer no ill effects.

Birthday Of Chopin Celebrated

UNITED NATIONS, N.Y. (AP)—The celebration of the 150th anniversary of the birth of Frederic Chopin opened officially Tuesday night, 150 years and a day after he was born near Warsaw in Poland.

The conductor of the National Philharmonic Orchestra, Stanislaw Skrowaczewski, led 60 members of the New York Philharmonic in the two Chopin piano concertos, and for soloist had a youthful countryman, Adam Harasiewicz.

The invited audience in the General Assembly hall was welcomed by Secretary-General Dag Hammarskjöld. He saluted the Polish pianist-composer as a patriot representing the "independent and free spirit of his people" who "in his greatest works reached universality."

In addition to the E minor and F minor Chopin numbers, both written in Poland but published
