34th Anniversary Talco Chap. OES

Talco Chapter No. 846 Order of the Eastern Star observed its 34th anniversary Tuesday night. Worthy Matron, Mrs. J. W. Via pinned a corsage on the only two charter members left out of 32 as they entered the Chapter room. Charter members were Mrs. Sidney Frugia and Mrs. Ivy Smith. Mrs. Frugia was a member before coming to Talco and she helped the few other members from various chapters in East Texas to get one organized in Talco. Past Worthy Matron, Florence Reed and Past Worthy Patron, M. A. Childress were present to assist, also C. O. Whiteman of Clarksville who is now an honorary member of this chapter.

On Oct. 28, 1937 there were 21 members initiated at one time. Mrs. Smith is the only member that has served all these 37 years and she and Mrs. Frugia were presented lifetime memberships in the chapter. They and Mr. Whiteman were also presented by the Worthy Matron, framed certificates in recognition of 34 years of faithful service. Also D. F. Dixon, who has been appointed by Worthy Grand Matron, Aileen Houston as Visiting Committee and Mrs. Smith who was installed as a Home Endowment Fund Committee at Grand Chapter were escorted to the East and welcomed as Grand officers, the first that Talco Chapter has ever had.

The hall was beautiful with its new platform in the East just completed by the Masons. "Happy Birthday" was sung to C. O. Whiteman who had just celebrated his 56th birthday and who is healthy, happy and very active in the Eastern Star work.

After the meeting closed Mrs. Ruby Cogburn and Mrs. Via served dips, chips, sandwiches, pie and coffee in the dining room.

Henry Cooper is a patient in the Titus County Memorial Hospital after surgery on Thursday.

Austin — The Texas Highway Commission remains convinced its new 520 million state headquarters building should be located near the capitol and the governor's mansion.

A re-evaluation study of the controversial site, ordered by the Legislature, was delivered last week to Gov. Preston Smith.

Legislators suggested the site southwest of the capitol and across the street from the governor's mansion should be developed as a park parking lot and tourist information center. They recommended moving the new highway building far from the downtown Austin area.

The Commission on review of its plans, concluded the massive building, rising to 16 stories at its tallest point, would "enhance the beauty and interest of the capitol complex."

At least, observed the new report, the structure will be the most-attractive thing ever located on the barren block, now given over largely to a parking lot and the remains of old buildings.

The historic Lundberg Bakery still on the site will be preserved, incorporated into the new building and used as a tourist center and Texana museum for artifacts uncovered in excavation. The temporary state capitol once stood on the block.

North and east portions of the highway building are planned at two-story level to maintain scale with the governor's mansion and preserve the view of the capitol from there. Maximum height of 10 stories will be reached at the south edge of the block.

Architects plan a public plaza with pools, greenery and shaded walkways along 11th St. nearest the capitol. Landscaping will comprise about 50 per cent of the block if plans are finally approved. The building will be by far the largest of many new state structures in the capitol area.

BUSINESS GEARS FOR POLITICAL YEAR — Organized labor announced its political priorities three weeks ago, and last week in Houston business leaders in Texas looked at their "public affairs" programs for 1972.

At the 49th annual Conference of Texas Industry by the Texas Manufacturers Association, representatives of the business community heard:

Sen. John Tower ask for labor law reform.

Richard Armstrong, Washington, D. C., challenge businesses to develop public affairs departments.

Irving Shapiro vice president, E. I. duPont de Nemours & Co., ask business to work with labor to develop new national objectives — with everybody sharing the gains.

TMA also passed resolutions asking state legislators to require 10-year budget projections for all "new" state programs approved by the next legislature.

Senator Tower laid the blame on the nation's existing economic ills on "existing labor laws that are in dire need to reform."

Both Tower and TMA leaders spoke out in opposition of laws which permit strikers to receive food stamps and other state and federal aid programs while on strike.

"Labor unions should be placed under existing anti-trust laws," Tower added, and pointed out that he had sponsored legislation to establish a Commission on Labor Law Reform.

NEW SPEAKER CANDIDATE

Diamond King Funeral Sunday

Funeral services were held Sunday afternoon for E. Diamond King at Detroit Baptist Church with burial in the cemetery there.

E. Diamond King, 70, a retired ranch employee living at Detroit, died Thursday at 4 a. m. in Red River County Hospital at Clarksville, where he had been since suffering a stroke a week ago. He was born at Tishomingo, Ok., March 29, 1901, son of Dolph and Mollie (Rensner) King, but had lived at Detroit since childhood.

Mrs. Ethel Brown of Mt. Vernon visited Saturday with her aunt, Mrs. J. L. Perry.

Mrs. Leona McFerrin is visiting a few days this week with her mother, Mrs. Ella Davis of Cookeville.

URGED — More than 30 legislators last week picked Rep. Jim Nugent of Kerrville as their choice for House speaker.

Most of the group were previously aligned closely with Speaker Gus Mutscher who now says he may not even be a candidate for re-election to the House. ((Mutscher, under bribery indictment, says he has three options: running for re-election and a third term as speaker, seeking another term in the House but not the speakership and retiring.))

Rep. Rayford Price of Palestine says the lawmakers, meeting in San Antonio, were mainly trying to stop his own drive for speaker. Price claims 70 pledges of support in the 150-member House, and adds the Nugent endorsement means nothing to his candidacy. Opponents maintain Price has no more than 42 firm supporters.

Nugent finished first in the straw voting at San Antonio over (in order) Reps. Dean Cobb of Dumas, John Traeger of Seagraves, James Slider of Naples, David Finney of Fort Worth and Joe Salem of Corpus Christi. Traeger, Slider and Salem indicated they will go along with Nugent, 43, who will reveal soon whether he will actually make a race.

REDISTRICTING CHALLENGED — An unexpected lawsuit filed in Dallas federal district court challenged constitutionality of the congressional reapportionment by the Legislature this year.

Another suit has been promised attacking state House of Representatives redistricting.

The Dallas class action lawsuit maintains the new congressional district lineup does not meet federal requirements that 24 congressional districts be "compact, contiguous and as nearly equal in population as is practicable."

Plaintiffs offered the court a plan of their own, which they said would create districts which vary only 1 per cent in population.

COURTS SPEAK — State Supreme Court upheld lower court decisions barring Sun Oil Company from using fresh water from the Ogallala formation beneath Hockley County farmer's land for injections to build pressure in company oil wells.

High Court set a December 15 hearing on whether private non-profit water supply corporations must pay school taxes.

State laws banning LSD sale or possession were upheld by the Court of Criminal Appeals.

SHORT SNORTS

Texas Public Employees Association will seek a 10.2 per cent pay raise for state workers in a special legislative session next year.

The sixth annual governor's conference on tourist development is scheduled for the Inn of the Six Flags at Arlington, November 10-11.

Texas' state governmental planning efforts won a national merit award at the American Institute of Planners conference in San Francisco.

Railroad Commission will hold a November 22 hearing to determine whether Dillard Creek is being polluted by brine from Talco oil field in Houston County.

The Texas Public Welfare Board was informed by budget experts that a welfare reform bill approved by the U. S. House of Representatives would add 750,000 more to aid rolls, raise the cost \$153.4 million, and impose \$170.9 million in medical aid costs.

D. T. Swearingen Rites Thursday

Funeral services were held Thursday for D. T. Swearingen Sr. of Petty, who died Tuesday in St. Joseph's Hospital, Paris, after six weeks illness. He was the step-father of Mrs. Hobard Dickson of Deport.

Services were held in Paris with burial in Hickory Grove Cemetery, south of Petty. Mr. Swearingen is survived by his wife, the former Mrs. Anna Jack, also a son, Drew Swearingen of Rouston, two grandchildren, and three great-grandchildren, also a brother and five sisters and a step-daughter, Miss Bonnie Bell Jack of Paris.

Cecil Stockton has been dismissed from a Dallas hospital, where he had been for surgery.

TROPHY WINNERS — Employees of the Northeast Division of Community Public Service Company, which includes Deport, Bogata and Talco, won first place in the 1971 President's Contest, a competition based on sales, safety and operating efficiency. Board Chairman R. L. Bowen is shown, left, presenting the Bowen trophy to Northeast Division Manager C. C. Hennig at a recent employee awards dinner at the Sherman Holiday Inn.

LEBANON -- A HOLIDAY HEAVEN

All year long, towns and villages in Lebanon are busy with festivals of interest to tourists. Folk dances and sabre-dances are immensely popular; and they perpetuate costumes belonging to the distant past.

The dances are presented every day in the theater of one of the major hotels in Beirut. There is dancing until dawn, every night, in all the nightclubs and discotheques. The spectacular floor shows at the Casino restaurants have been compared with the best of those in Paris or Las Vegas.

From a sporting point of view, every sport is practiced in Lebanon, including skiing, water-skiing, yachting, surfing and water polo. And many clubs are open to tourists for golfing, tennis, fencing, bowling, go-kart racing, skating and riding.

The Lebanese stud farms, which produce Arab thoroughbreds and broodmares, are fascinating places to visit and with the Beirut race track hold great appeal to the horseracing enthusiast.

To top it all off Lebanon has some of the world's most modern hotels combining Western efficiency and conveniences with the splendor and comfort of the Near East; and delicious cosmopolitan cuisine, including tempting arrays of kebbe, shawarma, tabboule and mezze (Lebanese hors d'oeuvres).

Three major skiing resorts and several minor ones are today open as long as seven months of the year. Skiers at the resorts can enjoy a choice of accommodations from luxury hotels to private chalets and youth hostels.

Oldest of the three big resorts in Lebanon is "The Cedars" - so named for its stand of ancient cedar trees, associated with Lebanon since Biblical times. A cedar tree adorns the national flag. Solomon used cedars for his temple. Some of the 400 old trees still standing have a circumference of 40 feet and predate the birth of Christ.

The Cedars has three T-bars, a two-stage chair-lift over 7,000 feet long, and a ski school. It also has seven hotels, three pensions, about 150 private chalets - some for rent - a youth hostel, a snack bar and stereo clubs where young people from the world over gyrate to the rhythms of the latest hit records.

Mount Herman, whose exposed slopes guarantee it a long season of deep snow, is also emerging as a likely site for future improvements.

Swimming Year-Round

As Lebanon enjoys 300 days of sunshine, swimming is as practical on a mild winter day as it is in summer. Facilities range from luxurious hotels and private clubs to beaches that charge a moderate fee and are furnished with snack bars and restaurants, cabanas and lifeguards.

One of the loveliest beaches in Lebanon is the beach of historic Tyre which soon will have a government-run hotel and cabanas.

From the way the Lebanese go at it, they might have been the ones that originally coined the word "leisure". Pursuits of leisure are plentiful and an art in this small, democratic stronghold of the Mediterranean.
