HERE IN MITCHELL COUNTY

New Associate Agent Reviews Farm, Home Development Plan

By ALFRED BYRD, Associate County Agent.

Miss Elinor Harvey, county home demonstration agent, and I would like to take this opportunity to thank the people of Mitchell County for the friendly manner in which you have received us.

Everywhere we have been, the warmest of friendship has been given us.

James Trammell, the previous associate county agent, initiated the Farm, Ranch, and Home Development program in Mitchell County. During the two years in which Mr. Trammell worked with the program, several families have taken advantage of the many benefits which may be enjoyed from it.

Some benefits enjoyed are: better and more efficient farming methods; time and money saving ideas in the home. Both tend to create a happier and more prosperous farm and home environment.

The plan as sponsored by the Texas A&M Extension Service is spreading in all parts of the nation. Thousands of farm families in Missouri, the spearheading state, have been developing their plans under this system of farm and home planning for the past two years.

The idea has caught fire so well in Clark County, Wis., that there is a waiting list of 80 families who would like to participate but there are not enough County Agents to efficiently serve them.

Kaufman County here in Texas has over 50 participating farm families and has had that number

since the program was established approximately two years ago. In some drought-stricken localities, a few families have hesitated to inquire into the plan because they thought the lack of moisture would prevent them from reaping any benefits.

But as a matter of fact, one reason the program was devised is to assist the modern dry farmer who wants to employ the use of more efficient farm and home management practices, so that he can have a better chance to survive and prosper during times of climatic and economic chaos and retardation.

Farming, as most farmers are beginning to realize, has become a business which necessitates the use of all the scientific, economic and managerial knowledge at his disposal. The smaller the margin created by drought and discouraging agricultural economic conditions, the better scientist, business man, and manager he must be.

The Farm and Home Development Plan does not have any "magic" ingredients, but it is a sound and workable plan that will greatly assist the present-day farm and ranch family. Its success depends upon how well the program is administered and how fully farm families wish to co-operate.

The plan does not attempt in any way to tell the farmer what he must do, but merely assists the farmer in any way possible to achieve his goals. Neither does he have to "sign up" or patron-

ize the plan for any set amount of time. He may feel free to discontinue the plan any time he wishes.

Additional information may be obtained from Jack Burkhalter, county agent; Miss Elinor Harvey, home demonstration agent; or Alfred Byrd, associate county agent. We will be most happy to work with all interested parties.

SCHOOL + PLAYGROUND

Here in America almost every school has a playground. Our American system of public education recognizes the fact that many valuable lessons can be learned better on the playground than in the classroom.

America's churches also have an outstanding system of public education—religious education. And it, too, recognizes the "playground principle."

The playgrounds of our system of religious education reach many miles beyond our churches. They consist of the homes, farms, factories, and offices of the community—every place where boys and girls and men and women have opportunity to practice their Christian religion.

Common sense tells us that playgrounds without schools could not sustain the intellectual level of America. Nor can a busy week—without a Sunday in Church—sustain the spiritual alertness and moral character of individuals.

Attend Church Sunday. Live Your Faith daily!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

AT FOOTBALL BANQUET

Humble Awards to Boyd and Harrell

James Boyd, local wholesale agent for Humble Oil products, Refining Company held its annual "kickoff" banquet, marking the start of the 1956 football season and fall sales campaign. Boyd completed his 10 years with the company in July. He operated the Humble service

station on East Second St. here for eight months in 1945 prior to becoming wholesale agent in 1946. Also receiving an award Tuesday in Snyder was Charles Harrell. Humble station operator on Hickory St. Harrell was selected as one of the first members of the Abilene area's "Top Ten Club" for his balanced sale of Humble products.

He was presented a cigarette lighter.

Humble representatives reported that the company will broadcast Texas college football games for the 23rd consecutive year this season.

Six Southwest Conference grid games will be televised live this year with 61 games to be broadcast over a large number of radio stations.

Approximately 115 persons from Snyder, Colorado City, Sweetwater, Rotan, Post, Roscoe, Lorraine and Hermleigh attended the banquet which was highlighted by the showing of Humble's color film, "Highlights of the Southwest Conference in 1955".

Attending from Colorado City, in addition to Boyd and Harrell, were R. E. Tyson, Quarterback Club President, Joe Salter and Jeff Taylor, Coaches Bob Rely, Joe Burk, Ocie Lambeth, Winfree Talley, Ronald Services, Superintendent of Schools Ed E. Williams, Porter Richardson, Drew Ballard, Goodwin Simpson and Joe Ed Boatright.

From Lorraine was Mayor Vance Dickenson.

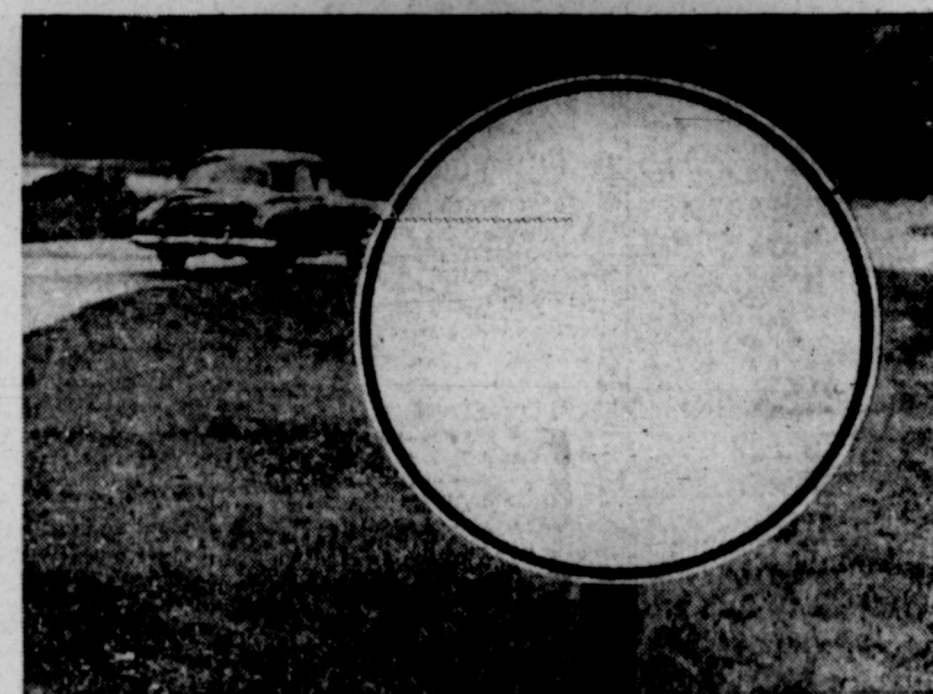

The first ship to enter the harbor of Santiago, Cuba, after it fell to American forces during the Spanish-American War was a Red Cross relief ship.

SHELL SAFE DRIVING QUIZ NO. 3

Can you tell a road sign by its shape?

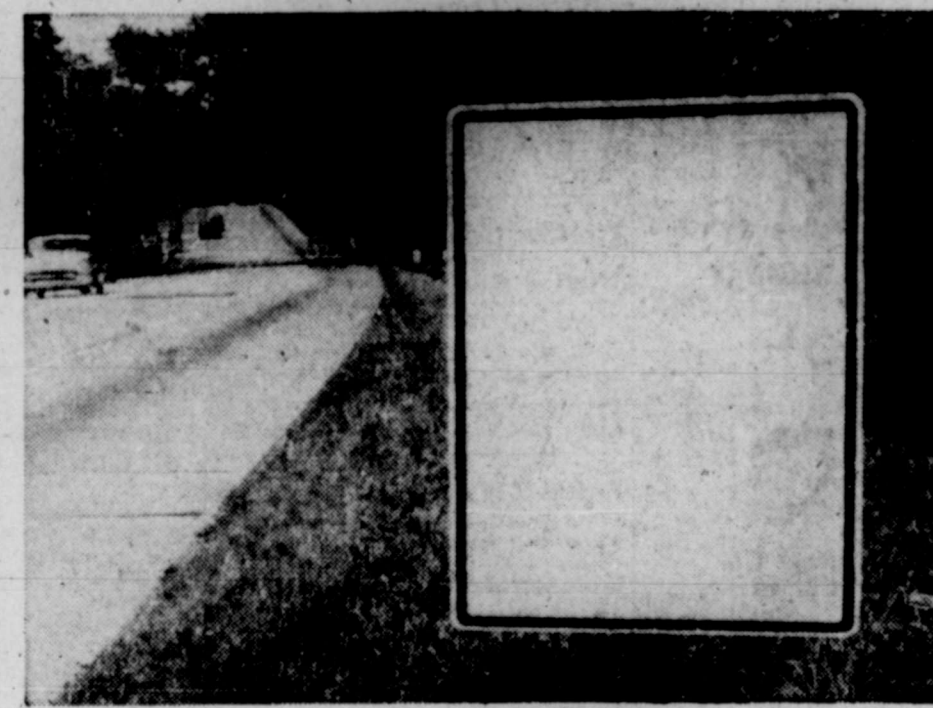

1. At crossroads, this octagonal sign means only one thing, regardless of wording.

2. When you see this sign, you listen carefully.

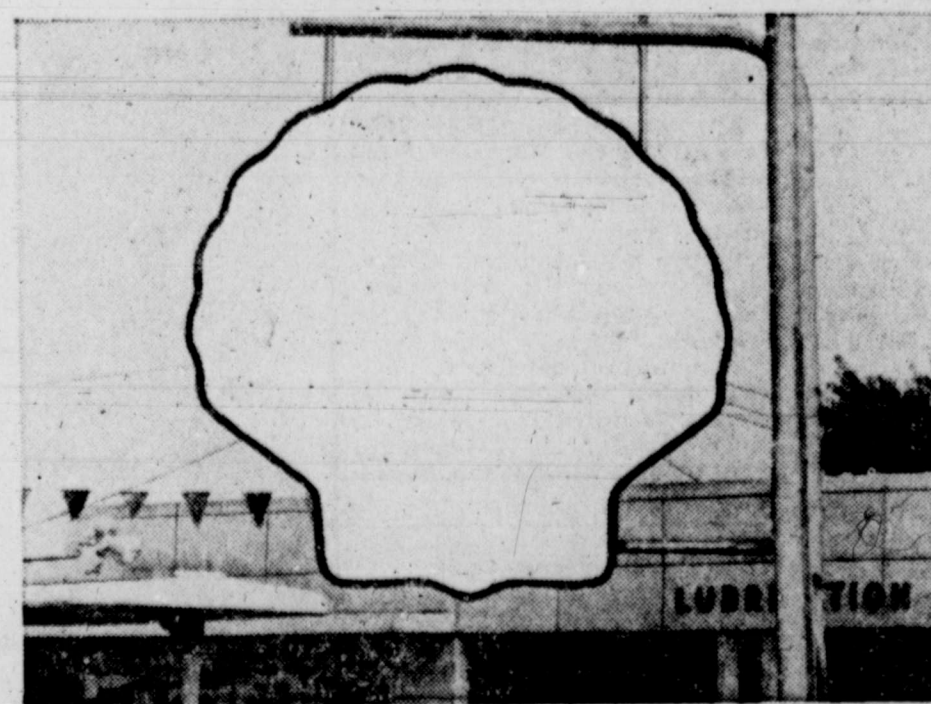

3. This shape suggests a very important word in driving.

4. This sign places certain limits upon every driver.

Read and obey your signs of life!

5. Here's the sign of a better future whenever you see it.

We believe that being a good neighbor calls for more than just providing you with good products. Part of our job is to help keep you safe on the road. That's the reason for this message. America's highways form a great personal transportation system. When all motorists use these highways safely all the time, that's the sign of a better future... for you... for all of us.

- Octagonal signs always mean "Stop". Take a good look at cross traffic before you proceed.
- Round signs mean railroad crossing. "Stop, look and listen" is still sound advice.
- Diamond signs: caution, slow down. "Diamonds" are good friends on the road.
- Rectangular signs give you road rules and directions. Follow them to the letter.
- Shell sign: good products, good service, good going for you and your car.

Sign of a better future for you
