Long Takes Oath As Senator But War Of Governors Resumed

DISPUTE OVER OFFICE IN LOUISIANA IS RENEWED TODAY

(By The Associated Press)

WASHINGTON, Jan. 25—Huey P. Long was sworn in today as senator from Louisiana.

By taking oath as senator, Long, a Democrat, discarded his title as governor of Louisiana, renewing the dispute over that office.

Under normal procedure, Long would have taken his oath as senator last December but preferred to remain at the head of the state government until after the primary at which his successor was chosen.

Long's seating brought the senate membership up to its full quota of 96 for the first time this session.

TWO MEN LEFT IN LOUISIANA ARENA

NEW ORLEANS, La., Jan. 25 (AP)—The war of the governors is on again in Louisiana.

Governor Huey P. Long's departure for Washington and his seat in the senate has left the arena to two men—one his friend and the other his foe—and armed guards today patrolled the capital against invasion by the enemy.

The foe, Paul N. Orr, the elected lieutenant - governor, announced readiness to take up the battle he left off when the supreme court decided against him in his attempt to oust Long and take his job on grounds Long could not be both governor and a senator-elect.

Meanwhile, the friend, Alvin O. King, president pro-tempore of the senate whom Long appointed lieutenant-governor on the contention Cyr's action in taking the governor's oath in his ouster proceedings lost him his elected job, held the fort as acting governor.

ALVIN KING TAKES OVER GOVERNORSHIP

BATON ROUGE, La., Jan. 25 (AP)—Alvin O. King, in the absence of Governor Huey P. Long, took over the duties of the governor's executive offices at 9:15 a. m. today.

King drove from his hotel to the executive mansion in the rain accompanied by his brother, Jean M. King, and his 16-year-old son.

As he entered the west wing of the mansion, he was saluted by armed men guarding the mansion.

INQUIRY OPENS IN SATURDAY GAS BLAST

CAUSE OF EXPLOSION WHICH INJURED MAN IS SOUGHT TODAY

A court of inquiry was begun this morning in connection with a terrific explosion which late Saturday night wrecked the Guy Herring home at 2202 Seventeenth street and knocked Herring unconscious 40 feet back of the house. Wiley Metcalfe, city fire marshal, presided at the inquiry in the police chief's office in City hall. Burton S. Burks, assistant district attorney, did the questioning.

Herring, dismissed from West Texas hospital after regaining consciousness about noon Sunday, was to appear before the court for examination this afternoon. He has disclaimed knowledge of how the explosion occurred. Fire damage following the blast, believed caused by ignition of accumulated gas, was comparatively light. The explosion, however, virtually wrecked the one-story brick veneer residence.

Witnesses examined this morning were:

J. D. Young, a Lubbock plumber who made a gas extension in the Herring home last month; D. J. Schlieg, city building inspector; W. A. Hood, city fire man, and W. E. Twitty, city fire chief.

Norling To Testify

Oscar S. Norling, United States immigrations officer, here was expected to be the next witness in the inquiry.

HARVEY COUCH, JESSE JONES ARE CHOSEN

TEXAS AND ARKANSAS MEN WILL DIRECT BUSINESS GROUP

(By The Associated Press)

WASHINGTON, Jan. 25.—Two southerners were named today to the board that will direct a two billion dollar injection to quicken the pulse of business.

Harvey C. Couch of Arkansas and Jesse H. Jones of Texas were appointed by President Hoover as two of the three Democratic directors of the reconstruction finance corporation. A third probably will be named in a very short time.

Confirmation Seen

Quick confirmation of the nominations is expected of the senate, along with that of Charles Gates Dawes—named to be president of the corporation.

Only those formalities and the passage by the senate of the measure appropriating $500,000,000 are necessary to get the corporation ready to function financially.

The other directors are Eugene Meyer, governor of the federal reserve board; Paul Bestor, farm loan commissioners, and Secretary Mellon.

Couch, a prominent financier living in Pine Bluff, is well known in the capital through his connection with various industrial and other activities.

Jones Well Known

Jones was especially active in connection with the last Democratic national convention held in his home city—Houston.

Mr. Jones is identified with several banking interests and is owner and publisher of the Houston Chronicle. He is the owner of five hotels in Houston and also the tallest office building in the south built in the same city.

He is the owner also of big building, not only in other Texas cities but also in New York. During the war, Jones was designated by President Wilson to aid in Red Cross work and assumed a prominent role in those activities.

The recommendations of Democratic congressional leaders had a large part in guiding the selections. Speaker Garner is a Texan and Senator Robinson, party floor leader, hails from Arkansas.

White House officials said today shortly after the president named Couch and Jones, the chief executive now is interested primarily in legislation designed to relieve depositors in closed banks.

SUICIDE PACT KILLS ONE

HUSBAND DEAD, WIFE WOUNDED IN TEXAS DEATH PLOT

By The Associated Press

PITTSBURG, Tex., Jan. 25.—Hamp Leake, 28, was killed, and his 29-year-old wife was wounded last night in what officers believed was a double suicide attempt. The shootings occurred at the home of Mrs. Sam Goldberg. Mrs. Leake's mother, here.

Mrs. Leake, shot in the chest, was expected to recover. The bullet struck a bone and came out at the shoulder. The inquest verdict was suicide and attempted suicide.

Mrs. Leake was shot first. Several women visiting at the house heard the shot and rushed to her room to find her wounded. A few moments later another shot was heard from the yard. Investigating, the women found Leake's body. A bullet had entered his head.

Supply Measure Is Given Sharp Slash

WASHINGTON, Jan. 25. (AP)—A sharply-trimmed interior department supply bill was reported today to the house by its watchful democratic-controlled appropriations committee.

Carrying out Chairman Byrns' policy of pruning government recommendations where possible, the committee slashed $6,273,000 off the budget estimates and allowed the department $80,431,000 for its activities the coming fiscal year. This is $18,911,000 below the appropriations for the current year.

Slander Suits Are Dismissed In Court

DALLAS, Jan. 25. (AP)—Federal Judge William H. Atwell today dismissed slander suits filed by the Rev. Rembert G. Smith of Sparta, Ga., against Bishop John M. Moore of Dallas, of the Methodist Episcopal church, South, and Rev. E. V. Cox, former editor of the Texas Christian Advocate, church publication.

Judge Atwell dismissed the suits when they were called on the docket today, for failure to amend and failure to prosecute. Rev. Mr. Smith was not represented by counsel before the court today and did not appear himself.

NEGRO SUSPECTS SOUGHT

STATE LIKELY TO REST IN JUDD CASE

ANNOUNCEMENT THAT END NEAR COMES AS A SURPRISE TODAY

By The Associated Press

PHOENIX, Ariz., Jan. 25.—County Attorney Lloyd J. Andrews announced the state probably would complete its case against Winnie Ruth Judd by late this afternoon or tomorrow morning.

The announcement came as a surprise since more than 30 witnesses remain to testify against Mrs. Judd.

Andrews' statement indicated he will await construction of the defense case before he presents testimony which previous announcements showed the state was depending on to send Mrs. Judd to the gallows for the slaying of her two former friends, Mrs. Agnes Anne LeRoi and Miss Hedvig Samuelson.

State witnesses called for rebuttal testimony probably will include J. J. Halloran, wealthy Phoenix lumber dealer, as no indication was given by Andrews that Halloran would be used before the state rested its case.

The lumber dealer is listed in the court clerk's records as a state witness. It was Halloran who, during the investigation of the slayings, admitted friendship with all three women involved in the case, and added he had been innocent, but perhaps indiscreet.

Andrews has suggested the move for the killing was Mrs. Judd's alleged jealousy over Halloran.

Troops Guard After English Pen Revolt

TWO DEAD AND MORE THAN SEVENTY ARE HURT IN RIOTS

(By The Associated Press)

DARTMOOR, England, Jan. 25.—Today's was a cold, gray dawn for 300 prisoners in grim Dartmoor prison who yesterday failed in their attempt at a break which turned out to be the most violent in the history of British jails.

Two of their number were reported dead and between 70 and 95 wounded after an all-day battle with prison guards and police. Last night, with the weather cold, they were forced to shiver in clammy cells because the prison heating plant was put out of commission during the fray.

Extra Guards Used

Extra police who assisted in putting down the revolt, arriving just in time to prevent a break, stayed through the night watching with the regular guard.

The bloody day began over lack of sugar in the breakfast porridge. The prisoners claimed mistreatment, which, they said, reached its climax when their cereal was furnished them unsweetened. Long before dawn yesterday the prison was in a hubbub with the prisoners beating on the doors of their cells and walls in protest.

Guards released them into the courtyard for exercise before chapel services and the fight began. Led by one prisoner blowing a bugle, they attacked the guards in groups and had nearly gained their freedom when police reinforcements arrived from Plymouth.

In the meantime, they had set fire to the principal prison buildings and one group, breaking into the office of the governor, S. N. Roberts, forced him to flee for his life. He escaped through a rear door, locking it as he went, and took refuge in a cell block occupied by prisoners who had not joined the riot. The prisoners then burned the administrative records, carrying them out and throwing them into a pile.

LYLE LOOKING FOR FIGHT

CHICAGO JUDGE PUTS HAT IN RING FOR STATE ATTORNEY

By The Associated Press

CHICAGO, Jan. 25.—A one time teamster who came to Chicago from Tennessee 30 years ago was looking for a fight today, naming suppression of gunmen, bombers, kidnapers and racketeers in general as his objective.

The self-styled "nemesis of gangsters"—Municipal Judge John H. Lyle, who studied law during his teamster days, was the man. He made his declaration that he was out for a fight in formally announcing his candidacy for the Republican nomination for state's attorney of Cook county.

"When the well-known hoodlums and gangsters who have headed the murderous gangster organizations of Chicago are arrested during my administration, they will at least have their hair mussed—if they are brought in alive," Judge Lyle said.

"High bonds" is the gangster's name for Judge Lyle. He won the description during his campaign a year ago to harass gangsters during which he was criticized by the bar association and his colleagues for going a trifle outside the law in his efforts to punish the men named by the Chicago crime commission as "public enemies."

LOCAL MAN FACES ASSAULT CHARGES IN STABBING HERE

J. D. Wynn, about 30, of Lubbock faces a charge of assault to murder in connection with a stabbing here, and his wife, Rose Wynn, has filed suit for divorce and asked an injunction to keep him away from her and their 10 children. Seven are minors.

Wynn was charged in Justice of the Peace H. K. Porter's court after L. E. Brown, about 35, of Lubbock, was stabbed in the left side late last Thursday night or early Friday morning. The attending physician at West Texas hospital then said Brown's condition was serious. The wounded man was dismissed Sunday.

After an aggravated assault and battery charge had been filed Friday in county court, to hold him until it was decided whether evidence justified a more serious charge, the assault to murder count was entered against him in justice court. Peace Justice fixed bond at $500, after Wynn had waived examining trial, to await action of a grand jury convening in February.

Three Dead, Eight Dying Of Poisoning

FRESNO, Calif., Jan. 25 (AP)—Poison eaten in tortillas has killed three of a group of eleven Mexicans and physicians regard the cases of the other eight as hopeless.

The Mexicans, in county hospital here, are victims of the deadly thallium poisoning for which no antidote is known. The tortillas were made from poisoned grain intended to kill squirrels.

HIGHWAY LAW INVALID

WASHINGTON, Jan. 25. (AP)—The supreme court, without a written opinion, today affirmed the order of a federal court in Texas which said that that state's highway law regulating the shipment of cotton was invalid.

HUNT STARTED WHEN ATTACK ATTEMPTED

TWO AMARILLO GIRLS LURED AWAY; ONE SHOT IN LEG

(By The Associated Press)

AMARILLO, Jan. 25—All peace officers in Amarillo and Potter county have joined forces to round up vagrant negroes.

More than a score of negroes who could not give a satisfactory account of themselves still were in the county jail here this morning.

The drive started Sunday following an attempt at criminal assault upon a young white girl, who was lured from her room by a ruse.

The girl, Marian Fay Davis, 22, was shot in the leg by a negro as she fled from the trap set for her and a companion, Lucille Pierce, 21, who ran 17 blocks to notify police. The Davis girl is in a hospital here.

Two of the four suspects sought were caught in the city-wide net.

Wiley B. Hervey, negro hotel porter, admitted he held the pistol from which the shot which struck Miss Davis was fired. Lee Willie Jones, negro, is held in connection with a threat upon the life of Miss Pierce.

A delegation of prominent citizens late Sunday called at police headquarters to demand segregation of negroes. Several complaints have been lodged recently with city officials against the practice of allowing negroes not employed to live in servant quarters in exclusive residential districts.

Bootlegger Tax Is Offered In Hearing

WASHINGTON, Jan. 25 (AP)—A proposal to tax bootleggers and speakeasy operators 25 per cent of their gross receipts was presented today to the house ways and means committee as an aid to balancing the government's budget.

In addition, the committee heard Senator Connally (D., Tex.) oppose a federal tax on gasoline on the ground that revenue-raising method was primarily a state tax and they needed the money to build and maintain highways.

Two Persons Dead In Ft. Worth Fire

FORT WORTH, Jan. 25 (AP)—Two persons were burned fatally and two others less seriously in a fire which swept through the second floor of a rooming house yesterday.

The dead were L. O. Sechrist, 39, of Stephenville, and his sister-in-law, Mrs. Mattie Sechrist, 41. The man's body was found on the bed in his room as firemen fought the blaze. Mrs. Sechrist died several hours later of burns received as she tried to save belongings in her trunk.

GANG TRICKED BY OFFICERS, NEWSPAPER

DENVER BAKER FREED WITHOUT PAYMENT OF ANY RANSOM

(By The Associated Press)

DENVER, Jan. 25.—Return of Benjamin P. Bower from a mountain cabin in which kidnapers held him five days was followed quickly today by revelation of a coup whereby police and a newspaper tricked the gangsters into suspecting each other of treachery and thus broke up the plot to extort $50,000 from Bower's family.

Bower, 62-year-old Denver bakery manager, was taken by motor car to west Denver and released yesterday. His eyes were covered with adhesive tape which he was instructed to wear until he could no longer hear the motor of the kidnapers' car.

In a copyrighted article, the Rocky Mountain News revealed it had published last Saturday morning a false note, written by Police Chief Albert T. Clark and purporting to have been received by Mrs. Bower from the kidnapers, to create suspicion in the minds of the gangsters.

Although almost identical with one written by Bower to his wife Friday, the note differed in designation of a place of rendezous for the payment of the ransom.

The desired result was achieved and Bower was released as a result. Smaldone, both men, the News said. It reported there were four men in the gang, including "the chief."

In the same article the News said Mrs. Bower, in answering Bower's note, had driven to the Denver home of Joseph P. Roma and delivered a note to Roma as directed. It also said she delivered another such note to a man named Smaldone, both men, the News, accepted the notes for delivery to Mr. Bower in his captivity.

The News further stated that, after acceptance of the note by Roma, Chief Clark called Roma to his home and told him he would hold him personally responsible for Bower's safety and that Bower was released soon afterward. Neither Roma nor Smaldone had been arrested early today.

Bower was kept under heavy police guard at his home because of a threat made by one of his captors as he was being released.

"You'd better get that $50,000 together because we'll be back to see you in a day or two," Bower said he was told.

The News said it was "reliably informed that not one cent of the $50,000 demanded by Mr. Bower's abductors has been paid, and not one cent will be paid."

SLAYS WOMAN, SUICIDES

DOUBLE TRAGEDY IS END OF ROMANCE OF MAN, WOMAN

(By The Associated Press)

DETROIT, Jan. 25.—Murder and suicide have closed the book for Mrs. Josephine Hudson, 24, and David Schaefer, 35.

The body of Mrs. Hudson, a divorcee, a bullet in the neck, was found yesterday in an automobile in suburban Dearnborn, not far from the Ford airport and only a few paces from the heavily travelled Chicago-Detroit trunk highway.

Later in the day when officers went to question David Schaefer, who had deserted his family for Mrs. Hudson, he killed himself.

The report of a shot, believed to have been that which killed Mrs. Hudson, was heard about 5 a. m. Sunday but it was four hours later before her body was found.

Sheriff Andrews of Washtenaw county sent three deputies to the farm home where Schaefer's wife and their six children live. While they were talking to Mrs. Schaefer, the fugitive killed himself.

Mrs. Schaefer said her husband came home during the morning, said he was "all through" with Mrs. Hudson and played with the children he had not seen for six months.

Crest Of Flood Is Moving Southward

GLENDORA, Miss., Jan. 25 (AP)—The crest of the Mississippi delta's flood waters moved slowly southward today and relief workers made ready to extend aid to Humphreys and Yazoo counties where waters were spreading over large areas.

Belzoni, county seat of Humphreys county, today fought back waters that have broken through the levee north of the city.

TRIES TO WIPE OUT FAMILY

MAN KILLS PARENTS, SHOOTS BROTHER, BUT GUN FAILS

By The Associated Press

FORT WAYNE, Ind., Jan. 25—What was believed by police to have been an insane attempt to wipe out an entire family was partially frustrated yesterday by failure of a gun after it had been used to kill Mr. and Mrs. Martin N. Hoffman, both 60, and to wound their son Ernest, 26.

The killer, Walter Hoffman, 38, brother of Ernest, was charged with first degree murder.

Walter Hoffman shot down his father and mother at their farm home, wounded his brother, then drove to the home of another brother, Oswald Hoffman. He pointed his revolver at Oswald but the trigger failed to explode the weapon and others present overpowered him.

From a hospital bed Ernest, wounded in the arm and chest, said had his brother been successful in shooting Oswald, the next intended victim would have been a sister, who lives at Napoleon, Ohio.

Police were told Walter, a World war veteran said to have been gassed in the service, had been given to violent fits of temper recently.

Seek Incendiaries For Bridge Flame

PRESIDIO, Jan. 25 (AP)—Authorities of two countries today were looking for incendiaries, who, they believed, set fire to the Santa Fe railroad's international bridge here. Fire yesterday virtually destroyed the $250,000 structure spanning the Rio Grande.

The bridge was built in 1930. It closed the gap between the Santa Fe lines in Mexico and the United States. Its completion was the occasion for an international celebration and an excursion to Chihuahua City.

Corzine Funeral Is Held Here Sunday

Funeral services for M. L. Corzine, 40, of near Lubbock, found dead about a mile and a quarter southeast of here Saturday morning, were conducted at 2:30 o'clock Sunday afternoon at Bynum-Morgan Funeral home. Rev. J. O. Haymes, pastor of the First Methodist Episcopal church, officiated. Burial was in Lubbock cemetery.

A justice of the peace ruled that Corzine died of a self inflicted gunshot wound in the head. Corzine, object of a search since late Friday, was found stretched across a shotgun, fingers on the trigger.

The father, four brothers, and a sister survive.

Platform Is Chief Task Of Oklahomans

OKLAHOMA CITY, Jan. 25. (AP) With Governor W. H. (Alfalfa Bill) Murray assured support of Oklahoma Democrats for the presidential nomination, the chief task of the state convention here Feb. 20 will be to write a platform.

Naming a delegation to the national convention and election of a national committeewoman share in interest.

Expressions of county conventions Saturday ranged from Love county's mandate to "vote yes every time Murray says anything" to the refusal of Tulsa county to instruct its delegates.

Kansas Man Slain; Relative Is Held

PITTSBURG, Kas., Jan. 25. (AP)—Everett Kent, 30, was shot and killed in his home here early today and police held Arthur Epple, 40, brother of Kent's divorced wife, in connection with the slaying.

The officers said Epple admitted the shooting saying he killed Kent in self defense.

ROOSEVELT LEADING HIS DEMOCRATIC RIVALS BUT FACES SERIOUS HURDLES

(By The Associated Press)

WASHINGTON, Jan. 25.—Now formally in the race for the presidential nomination, Governor Roosevelt of New York finds his candidacy far in front of Democratic rivals but facing hurdles of a most difficult sort.

Announcement Saturday that Roosevelt accepted campaign efforts on his behalf, came with west and south lined up for him about as well as possible at this stage of the campaigning. But the eastern states and New England offer a challenge which may nullify this advantage, while scattered "favorite son" states hold off to see which way to jump. Besides the several yet undeclared possible contestants and the announced candidacy of Governor Ritchie of Maryland, the eastern challenge is largely tied up with the engrossing question of Alfred E. Smith's intentions.

The silence of the party's 1928 nominee, combined with active efforts on his behalf along the northern Atlantic seaboard, lies directly across the path of his successor in the New York governorship. The answer may come early in March when New Hampshire holds its preferential primary. Roosevelt's campaign is to be waged there also. Smith's volunteer supporters are at work.

By contrast with the Democratic leader's prospects, President Hoover is in the Republican race substantially by himself, so sure of renomination that some foes within the party are giving earnest thought to organizing outside the regular G. O. P. fold.

CARLSBAD CAVERNS HIGHWAY HEADS SEEKING TO EXTEND ORGANIZATION

BY GORDON WEBB
Of The Journal Staff

QUANAH, Jan. 25. (Special)—Three years ago a group of road boosters gathered here to map a road from El Paso to Oklahoma City and make plans to secure state and federal designation of that route. Today, in the same building, 154 delegates of three states planned to extend the organization of the Carlsbad Caverns U. S. 62 Highway association to Niagara Falls, N. Y. along 2,355 miles of federal designated road.

Going directly to state highway commissions, the original association has secured federal designation of a north-south route, with "a drink at each end," which crosses every east-west federal highway and all but three of the north and south routes.

The extension move was first mentioned by A. B. Davis, Lubbock Chamber of Commerce manager and association secretary, who introduced R. A. Singletary, manager of the good roads division of Oklahoma City's Chamber of Commerce, this morning's principal speaker.

"This association has secured federal designation, what we need and must have now is traffic," Mr. Davis said. "And until we organize and properly publicize this route we cannot secure traffic."

J. H. Hankins, Lubbock, association president, is in charge of today's sessions and J. H. Brock, of the Lubbock Chamber of Commerce, is also representing that city. The work of Secretary Davis as secretary was lauded as was that of J. J.

NEW POLICY IN CHINA LOOMS

FOREIGN MINISTER OF NEW GOVERNMENT HAS GIVEN UP POST

NANKING, Jan. 25 (AP)—Eugene Chen, foreign minister of the new Chinese national government which succeeded the government of Chiang Kai-Shek last month, resigned today and his resignation was understood to be the fore-runner of an important switch to a more moderate Chinese policy toward Japan.

It was brought about, it was learned, by rejection of a policy he was understood to have proposed, which included severance of diplomatic relations between the two governments and other measures of a firm character.

As a result of the change, the government was understood to have begun to map a much more moderate policy and W. W. Yen, Chinese representative at the League of Nations, was to be given a complete new set of instructions by cable governing his procedure, as well as an outline of the new plan to be presented before the league.

Chen, a well-known journalist and perhaps the member of the new Chinese government who is best known in the United States, was a leader of the Canton faction after the split which resulted in setting up two organizations, at Canton and Nanking. When Chiang Kai-Shek's government resigned he succeeded to the foreign office post vacated by Dr. Wellington Koo.

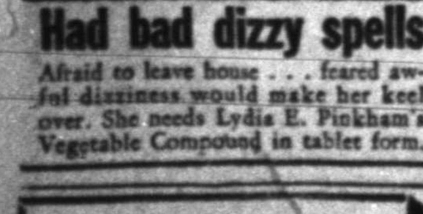

Shortly after he became foreign minister, he declared the Japanese occupation of Chinchow was "in defiance of the will of the civilized world" and he charged the previous administration with failure to resist Japan's activities in Manchuria.

A CLOSE CALL

PORTERVILLE, Cal.—Jack Bassler, resident of a local auto camp, was eating breakfast when a stranger walked in his tent, pressed a revolver against his side, and announced he was going to kill him. Twice the stranger pulled the trigger. Twice the pistol failed to fire. Neighbors rushed in and wrested the gun from his hand. It contained defective bullets.

A single district of New Brunswick, Canada, plans to export 1,000,000 Christmas trees to the United States for Christmas this year.

CHILD TRAINING

WHEN I was a boy in the country school we used to read from a book whose name I have forgotten, "The Supposed Speech of Samuel Adams". With apologies to the author of that speech, let me presume to write a supposed speech of an elementary school principal to a group of parents of her pupils.

"My Fellow Teachers: We at school are trying to do our best to help your children grow as they should physically, mentally, morally. You are teachers, too, even though you may not think you are. We wish you parents at home would train these children as well as you are able, to depend upon themselves, and to take responsibility. Please let them wash their own dirty hands and faces and find their own things. Merely inspect and observe the time. Let them know without doubt what the consequences will be if they are a minute late in leaving or are not clean enough to pass.

* * *

"We wish you would so work out the morning program that your children would leave home each morning in a hopeful, happy frame of mind; that they would return to a home each evening where they are welcomed heartily and look forward to a happy dinner hour with the family.

"We wish you would see to it that your children go to bed at a reasonably early hour, sending themselves to bed by the clock and not by a ticking tongue; that never before a school day will they be allowed to go away from home, that as soon as they receive home study assignments you would see to it that each evening by the clock each child goes at his lesson at a regular place free from interruption. When you help your child with his lessons walk away and go to bed the moment you find, because of irritation, your breathing irregular or your voice rising. You are not then fit to be in his presence.

* * *

"When the children bring home papers graded high express appreciation, and when bad ones come say nothing. Please behave in like manner when the report cards come home. Never, never will you, if you are thoughtful, compare the children in behavior or school achievement, nor hold on child up as a model for another. When you come to school to see me, please talk only of the child's good things in his presence. If you must discuss his faults with me do so in his absence. Come to school more often when everything is going well. Tell us about the things we do at school which you like, and tell the teacher, too, when you are pleased with her. Also often compliment your children for the good things that they do.

"Those of you who have children too young for school, begin now to teach them reasonable restraints and set yourself to learning how to annoy them less and to help them keep alive their zeal to learn and to express themselves."

(Each Monday at 2 p. m. Doctor Myers speaks over WHK, Cleveland, on the general subject, "Home and School." Mexican Confesses To Slaying Woman

SAN ANTONIO, Jan 25. (AP)—A young Mexican arrested by Sheriff W. A. Smith of Live Oak county at Oakville, has admitted he killed Virginia Martinez here and buried her body beneath a pile of rubbish, authorities said today. He is being held in city jail.

In a statement to detectives last night the Mexican said he killed the woman the night of Jan. 5 during an argument at her house. After striking her in the head with an ax handle the Mexican said he placed her in bed and left her there for two hours, after which he placed the body in a cart and hauled it to the banks of Alazan creek and buried it in the rubbish pile.

The Independence, Kas., baseball club will have a six-foot-six pitching recruit this year in the person of Dan Bronson.

When Sports Clothes Take On That Winter Air Of Chic

Down the toboggan with real chic go the latest snow-proofed costumes: Left: Russian in cut is the snow-suit of black, green and white, with the stripes running horizontal across the body and sleeves of the jacket which closes with a slide fastener pulled up with a little green tassel. Right: Maroon red corduroy fashions the trows and lumberjacket of another winter sports suit, while the hand-knitted cap, scarf mittens and sox are gray, maroon and white striped.

NEW YORK, Jan. 22.—With the first snows and freezing weather, fashion thoughts point north.

This winter, especially, with the Olympic games at Lake Placid scheduled for February 4 to 13, winter sports costumes gain real importance.

It is only during the past few years that any great number of women had special costumes for their skating, skiing, coasting. To be numbered among this few meant you were indeed snooty!

Winter vacations have changed all that. Anybody who really likes the snappy pleasure of exercising in the wintry blasts can look smart as if dressed for a party and still not pay a million for her clothes.

Skiing in the Mode

You can be Norwegian this winter, if you ski, aping the Nordics in a practical sweater and cap.

You can be a bit Russian in a side-fastened over-blouse of suede and a Cossack cap.

You can be a good, old American lumberjack, in feminine disguise.

Or you can have a novelty suit such as only Alpine sportsfolk usually wear. This would include novelty checked or striped trousers, a warm sweater pullover and atop it a gay sleeveless suede jacket with some trick cut.

Suede things are more than mild passions with some of the outdoor gals this year. There are even whole suits of suede, though the leg[illegible] jacket is nearer to most of their [illegible].

Nappy sweaters abound, the smartest double-breasted [illegible] warmers, or gay beauties with diagonal or straight or fancy stripes enlivening them.

Water-proofed gabardine, corduroy or novelty wools make most of the trousers. The jackets may or may not match, depending on how much of an ensemble you work out for yourself.

Your outdoors silhouette this year widens your shoulders, cinches in your waist and gives you a slim line by fitting your full trousers smartly over the hipline.

As to gloves and shoes, nobody cares how big your hands and feet look, so long as they are warm! But your head should look sleek. Berets or knitted wool caps have the vote.

Ski suits may be black, white and some gay color such as red, green, orange. They may be of the rich, dark green that is new and so pretty. Navy blue, black, brown and a ruddy plum red are good backgrounds. Use sweaters, gloves, scarfs, caps and sox of bright hue to high-light them.

If it is skating that holds your greatest interest, you will be interested in the divided skirts. They come in all kinds of material, are short enough to be comfortable, long enough to be chic and look like an ordinary skirt until you begin cutting fancy figures.

Fancied riding calls for either skating or skiing costume. You can take your pick.

One of the pretty new skating outfits has its coulotte of dark green velveteen and atop it is a heavy shaker knit turtle-necked sweater of pure white. With a white cap and white gloves and sox with green stripes, you would cut a fancy figure even before you begin skating.

More Norwegian than a native would you be in a navy cheviot skiing suit of trousers and the new jacket with wide lapels, a trim double-breasted jacket and no belt, please! Under it is a jaunty turtle-neck sweater, with sprightly pattern in red, white and blue, and the mittens match up in color with the red beret topped by a white pompom.

Proof Against Snow

For tobogganning, two good outfits that are snow-proof against the elements are, respectively, of Cossack and lumberjack inspiration. The Cossack girl wears a black, green and white outfit, her Russian jacket or the white with black and green broad stripes running horizontally across the body and the sleeves and the collar black, fastened with a zipper topped by a green pompom. Her green St. Moritz cap has a white pompom too. The lumberjack costume is of red corduroy, with novelty scarf, cap and mittens in gray, white and red.

Sauce For Gander

LEXINGTON, Ky. — County Attorney George Vaughn has learned what is sauce for the goose may be apple sauce for the gander. He had a vaudeville troupe headed by Danny Jacobs arrested for violating the blue law forbidding work on Sunday. Jacobs retaliated with a warrant charging Vaughn also violated the non-work ordinance by swearing to the warrant against the troopers on Sunday.

Look At Calendar

NORFOLK, Va. — Residents had to look at the calendar twice to make sure it was January. A ripe, eight-pound watermelon was picked; ripe tomatoes were found in gardens and fisherman reported catching herring and shad.

Urge Too Strong

NEW YORK—The urge was too strong to resist. Mrs. Marie Hill, 44, who said she was jobless and feeling blue, felt like hurling an ash can cover through a grocery store window. She did. Today she's serving the second day of a 10-day sentence in the workhouse.

No Longer Proud

WASHINGTON — Cornelius Vanderbilt, jr., isn't as proud of his watchdog as he used to be. Things are different now. He left his full-blooded police dog in his automobile to watch over two overcoats and some baggage. When he emerged from a hotel the clothing, bags and dog were gone.

Leads The Way

COPENHAGEN, Denmark—A son committed suicide upon discovering that his father had embezzled 300,000 kroner ($57,000). A few days later the father, Judge Holger Hansen, became conscience stricken and ended his own life. The youth wrote his father he could not live in shame.

Weather Record

NIAGARA FALLS—This pussy willow weather has set a record here. For the first time in 24 years no ice has formed below the falls. The huge ice mountain usually is one of the chief lures that brings tourists. But there's no ice and consequently few visitors.

Would If He Could

NEW YORK—Mayor Walker would if he could but he can't. He'd like to appoint John Ringling, circus owner, to the park commission and thereby get a good zoo in the bargain. But Ringling is a resident of Florida and that squelches the plan.

Decides To Eat

SAN FRANCISCO—Forty one days ago H. E. Carson, 72, announced he would starve to death before accepting alms. A doctor announced plans to feed the man forcibly. Carson, not caring for that idea, has decided to eat of his own free will.

"B. C." Relieves Headaches and Quiets Nerves

Realizing that no one drug can conquer even ordinary headaches, as they come from so many causes, a North Carolina pharmacist has developed a combination of several ingredients, used by many physicians, so blended and proportioned as to accomplish in a few minutes what we believe no one drug formula can do in so short a time.

You can get this formula wherever drugs are sold under the name "B.C." 10c and 25c packages, and when you have one of those violent, nerve-racking headaches, from inorganic causes, "B.C." will give you soothing relief in three minutes.

"B.C." should also be used for the relief of muscular aches and pains, common colds and neuralgia, reducing fever, and for quieting a distressed nervous system without opiates, narcotics or such habit forming drugs. (Adv.)

BLAIR TO SEEK ATTORNEY'S POST

Dan Blair, local attorney, will be one of the candidates for the office of district attorney of the 72nd judicial district, it was learned today. Mr Blair's announcement will be made in the near future, he said when questioned regarding his candidacy.

ROOSTER IS FREAK

QUANAH, Jan 23. (AP)—A rooster with three legs was shown here by A. T. Cummings, owner of the bird.

The third leg is of almost perfect development, but grew out in such position that it does not touch the ground when the bird walks. The big rooster is not hampered in moving about by the extra leg.

Texas legislators taking the oath of office are still required to swear they never fought a duel or acted as a second.

The P.-T. A. Choral club meeting scheduled for this evening at Senior High school auditorium has been postponed, it was announced this morning by Mrs. H. F. Godeke.

CREDIT SPEAKER WILL COME HERE

Frank Caldwell, field representative of the National Retail Credit association, of St. Louis, will inspect the Retail Merchants association bureau here and speak at the Lubbock Lions club luncheon at the Hilton hotel.

Members of the local retail association have been invited by the Lions club to attend the luncheon. Paul Sherrod, a Lion and a former president of the Retail Merchants association, will be chairman of the program.

Caldwell's visit at the bureau here will be of a routine nature. He has been in Texas since last September 1 and intends to go to California about February 1. He was to speak at Tulia today. From Lubbock, he will go to Plainview and then to Big Spring.

The field agent's subject at the luncheon here will be "How to Make a Profit In Dollars and Cents In Cooperation With Fellow Merchants and the Credit Bureau."

Three all-weather runways are under construction at the Abilene airport.

Debs Take To The Backless Fashion

Atlee Wirgman is among the Washington debutantes who are wearing the backless ball gown this season, thus profiting from the summer's recreation and exercise that gave them grace and suppleness.

WASHINGTON—Backs are to the fore this season in capital debutante circles.

Dresses appearing at the opening balls in the capital are almost backless.

Narrow pieces of silk, ribbon or rhinestones hold the garments in place. Corsage bouquets are worn at the waist in the back instead of in the front.

Athletic pursuits during the autumn have produced the supple graceful back necessary to this style of gown. The debutantes still ride horseback and play tennis between coming-out teas and dances to retain their slenderness.

MATADOR BASKETEERS INVADE OKLAHOMA FOR SERIES OF GAMES

SPYING ON SPORTS

BY COLLIER PARRIS

Del Morgan and his apparently luckless Texas Tech Matador cagers cross a state line today and open a six-game series with strong Oklahoma teams. They play at Durant, Ada and Oklahoma City this week, meeting outstanding teams of the Big Four and Oklahoma Intercollegiate conferences.

* * *

The trip, indeed most of the season so far, has been unsuccessful so far as winning games is concerned. They dropped a pair to the Simmons Cowboys and strode into Cowtown proper to drop a single engagement to the Southwest conference champion Horned Frogs of T. C. U. In the latter game they displayed a wonderful fortitude, it is reported, but little else. They caught the Frogs napping and outbattled them for most of the game, only to lose in a final-period rally by the Schmidtmen. Mister Francis Schmidt has a way with him about turning out championship stuff, or at least winning teams. His University of Arkansas teams of the past and his Horned Frog team of last year bear undeniable testimony.

* * *

No official all-tournament team was selected at the close of the recent Lubbock High basketball joust, and the instigators and conductors of that tournament left the honor up to this undeserving public servant. It was a good tournament, one of the best we have ever seen. It was conducted in a most pleasing and systematic manner. Everybody knew what to do and when to do it, thanks to the earlier work of Swede McMurry and the chamber of commerce. Games were started on time without a hitch. There was no fretting and fuming, no bellyaching about anything and everybody seemed highly pleased with the two days work of thirty teams. It was good for the players, good for Lubbock High, good for Lubbock and good for the South Plains, even if a team outside the South Plains had the final finger in the pie. Big Spring's great team of Steers were justified winner, but it had to play good basketball to win.

* * *

One could name as his all-tournament team the entire Big Spring lineup and one would not be cruelly criticized. But there were other good players in the lot. Without further ado we hereby present what appeared to be the outstanding five players.

Player	Position	School
L. Crews	Forward	Wilson
Hopper	Forward	Big Spring
Reid	Center	Big Spring
Snodgrass	Guard	Monroe
Harris	Guard	Ralls

* * *

There were other individuals who were outstanding, and who deserve particular mention. A second team, might we suggest, would be made up of the following: Peel of Abernathy and Morgan of Big Spring, forwards B. Arthur of Ralls, center; Schooler of Abernathy and V. Payne of Ropesville, guards.

* * *

But even that does not include all the stars. Clehe Brown of Lubbock, though he did not flash characteristic form in the tournament, is really one of the neatest goal tossers, when he's on his feet, of the tournament. Phillips of Monroe, lanky forward; H. Payne of Ropesville, a natural basketball player; Waters, Monroe's grinning center; Jenkins of Ralls, one of the hardest working boys of the tournament, Partin of Wilson and Exum of Monroe played good basketball, steady all the way. And of course you cannot forget Forrester and Dyer, Big Spring's guards.

* * *

A prize was awarded Loflin of Friona, one of Bill Stevens' guards, for being the best physically equipped and best built man to appear on the tournament floor. Loflin was good to look at, all right, tall, blond and beautifully muscled. But Tack Dennis, halfback on the Big Spring football team for so many seasons and mentioned by more than a few, particularly by Blondy Cross of San Angelo, as an all-state halfback, was here last weekend. He was not on the regular lineup and did not play more than a few minutes, but we have our grave doubts that there was a man in Lubbock last week with a more beautiful body than Tack Dennis. He may look like a ball of bone and muscle in a football suit, but put in him basketball regalia and you have a sight for sore eyes. Plenty pretty, that boy's makeup. And not a bad looking face to go along with it.

* * *

In connection with the tournament this department would emphasize the smoothness with which the affair was handled. We would congratulate Swede McMurry again, express appreciation and confidence in the work of the officials, Ed Hambright, Jimmie Gammill, Burl Huffman and Ernest Nelson, and would pay respects to Timer Ernest Dowell, who worked with this department at the high school, and Timer Bo Williams who worked at the Tech games, and our gratitude to Reporter Bob McCall who scored the games at the Tech gymnasium. Bob pinched-hit, if that's the way to say it, for this column yesterday and did a good job of it, if you ask us.

RICE CAGERS MEET BAYLOR TONIGHT

TECH TEAM TO MEET STRONG OPPONENTS

SOUTHWESTERN STATE TEACHERS ARE ON PROGRAM TONIGHT

Although defeat has dogged their footsteps thus far in their 10-day jaunt over Texas and Oklahoma the Texas Tech Matador cagers invade the Sooner state today for the first of a string of games with strong Oklahoma Intercollegiate conference teams.

Added disappointment struck the traveling Matador clan Sunday when Coach Del Morgan was informed that the Oklahoma City university Goldbugs of the Big Four conference would not be in position to meet the Matadors this week. According to an earlier schedule Coach Morgan and his crew were to play the Goldbugs on Friday night, but information from the Matador mentor Sunday implied that the Oklahoma City institution had cancelled the game. The Bullfighters are trying to card a game with the Austin College Kangaroos for Friday night.

Tonight the Tech outfit engages the Southwestern State Teachers college Bulldogs at Weatherford, playing only one game. They move to Lawton tomorrow to play a series of two with the Cameron Aggies this being another change in the original schedule. On Thursday night the Matadors meet the loop leading East Central Teachers' Tigers at Ada in a one-game stand. Friday night is open so far, and on Saturday night the Matadors are in Durant for a contest with the Southeastern State Teachers college Savages. They are due to return home Sunday.

Home again, the Matadors open a local schedule by meeting the University of New Mexico Loboes in a two-tilt series beginning next Monday night.

YOUTH, NEGRO BOX TONIGHT

MIDDLEWEIGHT CROWN AWAITS WINNER OF CHICAGO BATTLE

MILWAUKEE, Jan. 25. (AP)—An experienced ring campaigner and a youth fighting his sixteenth professional battle match blows for ten rounds or less tonight to gain recognition of the National Boxing association as the world's middleweight boxing champion.

Gorilla Jones, Akron negro, rated as one of the cleverest ringmen in his division, and Oddone Piazza, 22-year-old champion of Italy, who left the amateur ranks but two years ago, compete for the title vacated by Mickey Walker.

The National Boxing association's belt, emblematic of the middleweight championship in 29 states, goes to the winner. Jones and Piazza are the survivors of an elimination tournament last August sanctioned by the N. B. A.

Because of his ring experience, Jones was an 8 to 5 favorite.

New Ski Jumping Mark Is Recorded

CANTON, S. D., Jan. 25. (AP)—A new local ski jumping mark of 193 feet was held today by Sverre Fredheim of the Norwegian-American Ski club, Minneapolis.

He made the leap at the annual tournament of the Sioux Valley club here yesterday in competition with members of the United States Olympic team and others. The old mark was 183 feet. It was broken seven times yesterday.

Roy Mikkelson of Chicago and of the Olympic team jumped 190 feet while Pedar Falstad, Sioux Valley also a member of the team, made 186 feet. Fredheim is not on the team.

Contests Are Held In Speed Skating

OCONOMOWOC, Wis., Jan. 25. (AP)—A former titlist and two near champions rule the nation's amateur skating realm.

Victories in the national speed skating championship on an inlet of Lake Montrey this week-end gave them the scepter.

Of the two defending champions entered in the meet, Wilbur Marks, 17-year-old champion, retained the boys' intermediate championship by sweeping the field in three events yesterday.

Miss Helen Bina of Chicago took the women's championship. James Webster of St. Paul nosed out Art Peters of Chicago by 10 points to win the senior men's championship formerly held by Frank Stack, Canadian, who failed to maintain residence requirements.

Business Men Will Form A Club Here

"SWEDE" McMURRY TO DIRECT EXERCISE FOR NEW GROUP

The first meeting of the "Underprivileged Business Men's Club" will be held tonight at the Lubbock High school gymnasium, John "Swede" McMurry, director of educational athletics and Lubbock High basketball mentor, will be in charge and will supervise the endeavors of Lubbock's exercise-seeking business men.

There will be no set rules or regulations, Coach McMurry says. The men will be allowed to "do practically as they please" and take any form of exercise available. "They can do what they like—play basketball, on the horses and rings or anything else they prefer," McMurry said.

The gymnasium is well equipped for almost any form of corrective and muscle-forming exercises, and McMurry is anxious that the first turn-out of men be large enough to warrant the continuance of the practice.

The service clubs of Lubbock have gone on record as favoring the introduction of a gymnastic class for Lubbock's business men who otherwise find it difficult to get in a normal amount of exercise. With cold weather forbidding golf it is held that the classes in a warm gymnasium will prove highly beneficial.

MAX CAREY CAN LAUGH OR HAVE REAL GOOD CRY

NEW YORK, Jan. 25. (AP)—Max Carey, manager of the Brooklyn Dodgers, can suit himself. He can look at the 1930 National league batting averages and laugh; or he can glance at the 1931 figures and have a good cry.

With the purchase of Lewis Robert (Hack) Wilson from the St. Louis Cardinals, Carey can point to an outfield roster—Wilson, Babe Herman, Frank O'Doul and Johnny Frederick—which hit for a collective .366 in 1930 and then fell off last year to be a meagre .297.

Some part of that tremendous drop can be blamed on the deadened National league ball and to the new sacrifice rule but a greater portion was due to bad slumps on the part of all four members of the quartet.

Herman, who amassed a fat .393 average in 1930, dropped to .313 last season; O'Doul from .383 to .336, Wilson from .356 to .261 and Frederick from .334 to .270.

The more optimistic of Brooklyn fans will be inclined to believe the 1930 averages more truly represent the collective batting power of this "big four" than do those for 1931.

AMERICAN LEAGUE TEAMS PLAN FOR EXHIBITION TILTS

CHICAGO, Jan. 25. (AP)—If there's any pre-season loafing in the major leagues this year, the Americans can be counted out.

The American league clubs are scheduled for 178 exhibition games between March 5 and the opening of championship play April 12, with prospects this total may be increased as the result of the operation of the Toledo American association by the Cleveland Indians.

Manager Billy Evans has indicated by assigning the Mudhens training quarters near New Orleans that they will help bring both Cleveland and Washington to opening shape.

The Detroit Tigers will work the hardest with a schedule of 33 games, 14 of them with other major league clubs training in California.

The Yankees play 28, the Philadelphia Athletics 27, the Cleveland Indians and the Chicago White Sox 20, the St. Louis Browns 18, and the Boston Red Sox 11, with a chance they may schedule more.

Altogether the competition will be furnished by 65 major and 110 minor league clubs and the White Sox have booked the University of Texas.

Only One Unbeaten In Billiards Meet

CHICAGO, Jan. 25. (AP)—Thanks to young Jake Schaefer of San Francisco, Augie Kleckhefer, Chicago southpaw, today was the only undefeated player in the world three-cushion billiard championship tournament.

Kleckhefer and Otto Reiselt of Philadelphia started the second week of the tournament unbeaten in three starts but Schaefer found himself last night and played brilliantly to defeat the Philadelphian, 50 to 31 in 40 innings.

In the other match last night, Tiff Denton of Kansas City, a former champion, accounted for his first victory in four tournament starts, defeating another former titleholder, Johnny Layton of Sedalia, Mo., 50 to 46 in 57 innings.

Oklahoma Leads In Big Six Conference

KANSAS CITY, Jan. 25. (AP)—Oklahoma rules the Big Six basketball race as the campaign enters the annual mid-winter period of virtually suspended activity in difference to college examinations.

The Sooners and Missouri descended together in percentage Friday night but Oklahoma won a conference contest from Nebraska Saturday night while Missouri was squaring up an exhibition account with Creighton.

NEW RECORD SET

OAKLAND, Calif., Jan. 25. (AP)—A world speed record for 45 cubic inch displacement motorcycles was set at Oakland speedway yesterday by Howard Whitner of Berkeley who made a mile lap in 40 2-5 seconds. The previous record of 41 2-5 seconds was held by Al Chasteen.

DETROIT PRO IS WINNER OF MEET

PHOENIX, Ariz., Jan. 25. (AP)—Ralph Guldahl, a tall young professional from Detroit, held the Arizona open golf championship today because of his disregard for par.

After shooting an opening round for a 67, which set a San Marcos course record, Guldahl played the final round of the tournament yesterday over the Phoenix country club course in 68, three under par.

Guldahl's total for the 72 holes was 285 and included in addition to the par shattering rounds, a 74 and a 76. He was five strokes ahead of his nearest competitor and collected first money of $600.

John Perelli of Chicago won $400 as second place prize with 71-74-74-71—290. Trailing Perelli by one stroke was Harry Cooper. Gene Sarazen, former national open champion, shot 293 to take fifth place.

NEVERS HURT AS HIS TEAM DOWNS CARIDEO STARS

SAN FRANCISCO, Jan. 25. (AP)—Pounding over a 26 to 14 victory in the Knights of Columbus charity football game here yesterday, Ernie Nevers, former all-American football player of Stanford university, broke his left wrist in the last play.

Nevers' win was over Frank Carideo's all-stars. It marked the final competition for the Stanford player who for several years has headed a group of professional football players which has played throughout the United States.

Behind a strong line, Nevers scored every point for his team which battered the Carideo line for four touchdowns on sustained marchers of 69, 14, 45 and 20 yards.

Paid off by his employers in shoes instead of money, M. G. Wilson donated 500 pairs to the poor of Shawnee county, Kansas.

CAGE RACE TO REACH LULL THIS WEEK

ONLY ONE GAME WILL BE PLAYED; BEARS HOLD TO LEAD

BY BILL PARKER
Associated Press Sports Writer

DALLAS, Jan. 25. (AP)—After a siege of 12 championship combats since Jan. 8, the Southwest conference basketball campaign hits a temporary lull this week. The only game scheduled will be tonight at Houston between Baylor and Rice.

As the conference stopped to catch a second breath, it found Baylor leading the race with two wins and no defeats and Rice and Arkansas tied for second with three victories and one defeat each. Adolph Dietzel, Texas Christian center, is pace setter for individual scorers with 19 field goals and 10 charity shots for 48 points. Texas university is the leading offensive team with 127 points in five games.

Baylor Powerful

Tonight's game would monopolize interest this week even if other conference members were scheduled. Having defeated Texas Christian, 1931 champion, 32 to 24, and stopped A. and M., 29 to 23, there is now no doubt but that critics must accept Baylor as a powerful contender for this year's championship.

Rice has resembled a championship unit in all but a 47 to 22 defeat last week by Texas Christian. However, Rice had the stuff to come back to whip Southern Methodist 24 to 19 and Texas 25 to 22.

Although last week's schedule was heavy, there were no upsets. Arkansas' 46 to 20 and 29 to 20 victories over Southern Methodist were expected. The Mustangs have first four conference starts. Last year they finished as runners-up to Texas Christian.

Saturday night at College Station, Baylor got a stout fight from the Texas A. and M. Aggies but managed to finish in front because of an early lead that allowed the Bears to finish the half, 14 to 8.

Texas uncovered a phenomenal comeback in the second half against Rice but did not have enough to keep going and finished on the poor side of a 25 to 22 score.

Conference standing:

Amateurs Compete In Texas Tourney

SAN ANTONIO, Jan. 25. (AP)—This was the second day of qualifying rounds for amateurs in the eleventh annual Texas open golf tournament.

Because of the wind and cold only 15 simon pures shot their 72 holes yesterday for a position in the tournament pairings. Most of them hoped for better weather today or tomorrow.

Sam Beck of Kenedy shot a 79 seven over par, to lead the field. Fred Eanes of San Antonio was second with 81.

The tournament proper will open with an amateur-professional best ball event Thursday and continue through Sunday.

A two hundred thousand dollar oil refining plant is being built near Baird with a daily capacity of fourteen hundred barrels of oil.

OKLAHOMA CITY, Okla., Jan. 25. (AP)—Out where the west begins John Leonard (Pepper) Martin, tramping the game fields with his dogs and gun, wonders if they will love him in April as they did in October.

In "Pepper's" athletic life there have been only three real loves—baseball, football and hunting. He'd rather tote a gun than a baseball bat. But it was the power of his bat that earned him the leisure to hunt this year as he never has been free to before.

After collecting $15,000 for post season activities, including a stretch of vaudeville, "Pepper" put his affairs in order. He paid off the mortgage on his mother's home, bought a house for his wife and youngster, hired a secretary to take care of hundreds and hundreds of fan letters and then took to the woods.

When the spring rolls around, the colorful kid will put away the firearms and step out to answer those who wonder if his world series uprising was just a flash in the pan.

"Pepper's" ball playing ability—and the experts will bet you that he becomes one of the great players of the game—just happened to him but his speed on the bases he can definitely trace.

His father, George Washington Martin, won the family's first home in a foot race, starting from scratch at the crack of the gun, for a mile dash across the prairies to stake his claim to several choice acres during one of Oklahoma's land grants.

His mother wanted him to be a lawyer or a doctor, Oklahoma City, tried to make a shortstop of him, Greenville a second baseman, and Branch Rickey an outfielder. He wanted to be a pitcher. The Athletics wish he'd stayed in Oklahoma.

TRACK STARS TO FACE SCHOOLBOYS

NEW YORK, Jan. 25 (AP)—The nationally-famous stars of the board track must share the spotlight with schoolboy competitors this week as the Newark Athletic club games, which include the national interscholastic championships, carry the indoor track season to the end of its first month.

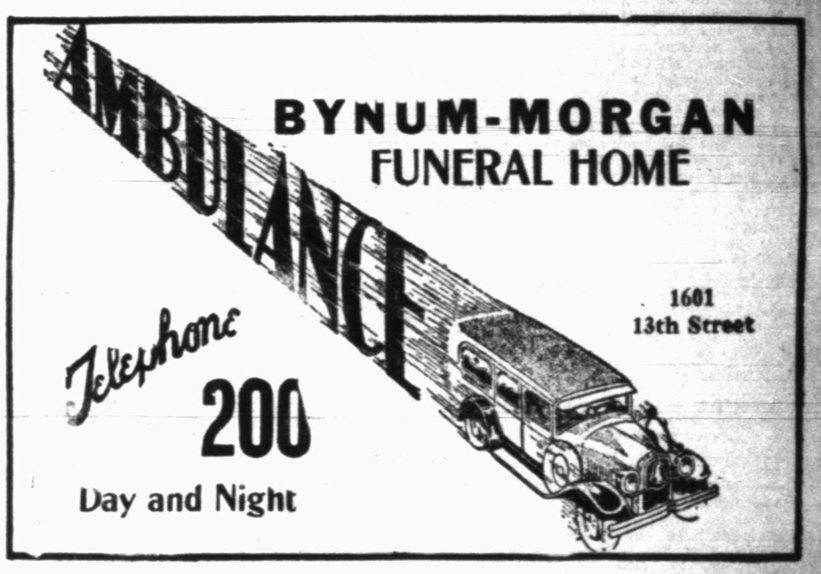

Although Ray Conger and Ira Singer, national indoor champions at 1,000 yards and in the sprints, are entered in feature events, a lot of interest goes to the scholastic dashes, in which Sol Menaker, schoolboy sensation of the recent Jefferson club games, is slated to run.

Conger, making his first appearance of the season, is entered in a 1,000-yard race against such stars as Frank Nordell of New York university and H. St. Clair Davidson of the Millrose, A. A. Singer faces a sprint field that includes Ralph Sickle, University of Kansas sprint star who is making his eastern debut this week, Ed Siegel, brilliant New York youngster, and several other seasoned campaigners.

MAKES OWN PLANES

BUENOS AIRES—Argentina, instead of relying on airplane manufacturers of other countries for its planes, has a modern government factory which produces planes for military purposes. Since October, 1930, more than 60 military planes have been built at this factory. In addition, parts for foreign engines are bought and assembled at this factory.

In 1919 there were 1,655,847 dozen golf balls manufactured in the United States. They were valued at $6,444,727.

Thought For Today

So he fed them according to the integrity of his heart; and guided them by the skillfulness of his hands.—Psalms 78:72.

* * *

What we frankly give, forever is our own.—Granville.

The Great Liberal

It seems strange that Oliver Wenrell Holmes should be leaving the supreme court because of the failing health that extreme age has brought him; for here, if anywhere, there seemed to be one man on whom age had no effect.

Conservatism often is the handmark of age—yet Justice Holmes is, and has been for many years, one of the nation's foremost liberals. Nearly 91 years old, he has managed to keep what many of us lose before we reach half that age; an open, inquiring mind, a forward-looking attitude that is every ready to hail a new horizon, a willingness to recognize change and a desire to meet that change unhampered by too great reliance on the precedents of the past.

Could such a man be called old? In years, of course; he has gone far beyond the scriptural allotment of three score and ten. But mentally he has been one of the youngest men on the bench, and he has given the nation's supreme court a tradition of liberalism that has leavened it for years.

And now he is retiring; and few Americans of any time had a finer record of service to look back upon.

* * *

It is startling to realize what a long period his active life spans. He served in the Civil war, seeing much of the hottest fighting of that fearfully sanguinary conflict, and being wounded in action three times—next Richmond, at Antietam and at Fredericksburg. He returned to Massachusetts, the distinguished son of a distinguished father, to finish his education, to teach law at Harvard and to serve for 20 years on his state's supreme court leaving it only when President Roosevelt elevated him to the United States supreme bench.

Few men have compiled so bright a record. And yet it is not the record alone that has endeared him to his countrymen. It is a thing harder to define, harder to grasp—a thing that is most easily summed up in the overworked word of everyday conversation as "personality." It is what he is, more than what he has done, that makes his final retirement such an unpleasant bit of news.

Heaven knows, Justice Holmes has earned a rest, and we cannot begrudge it to him. We can only regret that it finally became necessary for him to take it. In the quaint, old-fashioned phrase, he has deserved well of the Republic.

Gang Kings' Money

American newspaper readers in recent years have heard a good deal about the late Arnold Rothstein, big shot New York gambler, racketeer and general, all-round leader of crookdom. The man's power and wealth have been described over and over, and are accepted now as part of the underworld legend.

But the other day the administrators of Rothstein's estate went into court and pleaded that they could not meet a debt of $2076—because the liquid assets of the estate are only $290!

Something seems to have happened to those vast riches. Can it be that some of our underworld "kings" are not as plentifully equipped with funds as we have been supposing?

Crooked Finances

News that a $415,000 rake-off was paid to official circles in Peru by an American banking firm anxious to float a $100,000,000 loan for the Peruvian government tells a good deal—not only about that particular Peruvian government, but also about the banking house.

The money, according to testimony before the Senate Finance Committee, was duly paid, and the loan was duly floated. American investors, knowing nothing of the skullduggery, trustingly bought their $100,000,000 worth of bonds—and presently the issue blew up.

For those bonds are now in default. Sold at about 90, they are now quoted at 5 or 7.

That Girl on Broadway says the only thing that stops falling hair and dandruff is a dark coat.

Bad luck is usually cussed for bad luck and good luck is taken as a matter of course.

* * *

PERHAPS you haven't noticed it, but never-the-less it is a matter of fact that Lubbock is getting the new talking pictures hot off the griddle—and has been getting them that way for a number of months.

Taking them by and large, the new cinema hits are getting to Lubbock before they are getting to any other West Texas city, advertisements in Amarillo, Wichita Falls, Abilene and San Angelo newspapers prove it.

* * *

If perchance, you read Liberty, Time or other periodicals which include among their features comments upon the new shows, you have noticed that many talkies described in them have already been here—or are here the week those magazines are received.

And if you've done any traveling to the larger cities of the southwest and have sought to kill time at a movie, you've noticed that in most cases they've already been to Lubbock.

* * *

DURING the past two and a half months The Plainsman has been in four of the largest cities of Oklahoma and Texas and in each case has been forcibly struck by the fact that the talked-about pictures in each of them had either already been shown in Lubbock or were being shown in these cities at the same time they were being run off in Lubbock.

This fact is particularly true in Houston, according to cinema reviews in The Gargoyle, a periodical which The Plainsman reads with avid interest each and every week.

* * *

Lubbock is well taken care of in a moving picture way and considering the fact that the movies are our chief source of amusement and entertainment in Lubbock, that means more than it ordinarily would.

Cliff Lindsey and Jim Lucas are getting the new releases right off the bat for the Lindsey and Palace theaters and at the remodeled Lyric, W. A. Maulden is bringing other types of first run pictures, together with the best of the returns.

Such operations of our movie houses express enterprise as well as offer to local and South Plains theater-goers an opportunity to keep abreast of the cinema times.

AN POME

When Noah sailed the waters blue
He had his troubles, same as you,
For forty days he drove the Ark
Before he found a place to park!

But when he found a place he stopped,
He breathed a sigh and out he hopped,
He reveled in that peace ofmind,
He didn't fear a parking fine!

ONE of the younger Tech professors was sounding off for the benefit of his listeners, who couldn't help themselves, gathered about the boarding house dinner table.

"The study of the occult sciences interests me very much", he boomed in his best-chosen bass "I love to explore the dark depths of the mysterious, to delve into the regions of the unknown, to fathom the unfathomable, as it were, to—"

That being the case", remarked the graduate student to his left, "have a little more of this hash, professor!"

* * *

The eyes of a good many Lubbock people are fastened upon Terry county.

Before many moons, Terry county will vote on a proposal to pave some of its highways, among them Highway No. 137, linking Lubbock and Odessa. Arrangements have already been made to hardsurface this route with the exception of that part which is in Terry county and eight miles across the corner of Hockley county. If Terry county come in on the paving project the state, if it follows its set rule, will pave the Hockley county cutoff without cost to Hockley county citizens.

* * *

TERRY county eventually will vote to pave No. 137. Just when, nobody knows although some Terry county citizens believe the first bond issue, to be called probably early this year, will pass.

Paving of No. 137 from Lubbock to Odessa will mean a lot to this country for it will give the South Plains an almost 100 percent paved or hardsurfaced connection with El Paso and points west.

It is a highway project of first importance to this area.

Looks As If Something Concrete Must Be Done If Some Of Democrats Expect To Keep Nomination From Roosevelt

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, Jan. 25—There's a lot of dispute about this, but one guesses that some concrete thing must happen or be brought about if the anti-Roosevelt leaders in the Democratic party are to be able to keep the nomination away from the New York governor at the Chicago convention five months hence.

Dutcher

Al Smith might speak up and alter the picture considerably. Governor Ritchie of Maryland might force ahead as a strong runner-up to Roosevelt, either by defeating the latter in the Pennsylvania primaries where they are expected to fight for delegates or by a combination of support among anti-Roosevelt forces. Or someone else might unexpectedly accumulate a flock of delegates and shape up as a real contender.

But the present theory that Roosevelt can be blocked by a huge field of favorite son delegations which may or may not comprise a majority seems rather weak. It's all very cute, of course, if that's really the theory of the stop-Roosevelt politicians. Nevertheless, if the governor shows up on the first ballot with even a minimum of 400 delegates and the rest of the vote column shows a long string of also-rans headed by Senator Ham Lewis of Illinois with only 58 delegates, it's a splendid bet that the rush to Roosevelt will give him at least a majority on the second ballot. And a majority at that convention, nearly everyon agrees, will mean victory even though the party still maintains its antiquated two-thirds rule.

* * *

No one but Roosevelt has yet shown any substantial delegate strength outside his own state. Someone will have to be built up by the opposition leaders or by an impressive run in the forthcoming presidential primaries—as no one now seems likely to do. As long as Smith and Newton D. Baker stay out of the race the only candidate who may be conceded a chance to do anything outside the home grounds is Ritchie of Maryland, who has the support of important Pennsylvania leaders. If Ritchie won a majority of Pennsylvania's 76 delegates his stock would soar and Roosevelt would suffer.

There will be 1154 delegates with 770 necessary to nominate. Thus the Roosevelt opposition figures that 385 votes will block the governor. One hears that they hope to have 500 or more favorite son and controlled delegates who will stay put a couple of days stopping Roosevelt and allowing time and opportunity for deals which will put over someone else.

* * *

But present tabulations of that combination's probable strength include about 150 delegates for the favorite sons of such states as Texas, Arkansas, Tennessee, Kentucky, North Carolina and Louisiana. And, somehow, one can't quite imagine all those delegates staying hitched while northern vets such as Smith, Chairman Raskob, Frank Hague of New Jersey and Mayor Cermak of Chicago encompass the defeat of the candidate who has been attracting majority support through the dry south and the west.

Bitterness against Roosevelt seems deep in spots, but it isn't so widespread now as to promise that a third of the delegates can be persuaded to fight him to the death and threaten repetition of the terrible South-McAdoo battle of 1924, not even if a candidate builds up to a point where he may be regarded as a real competitor.

There's the chance that Roosevelt may weaken in the meantime, but it's no better than the chance that he will gain strength. The primaries will test his popularity with the Democratic voters outside New York.

Perhaps the leaders have a deeper plot in mind than the favorite son gag. If so, they're keeping it dark. Any thought that they are helpless in the face of the present Roosevelt strength is somewhat qualified by the fact that they include a majority of the cagiest, most experienced and usually most powerful of the party veterans.

"COMMON COLD"

THE HOUR for the cold is at hand. They are especially numerous, says one of our best text books on medicine "in midwinter during January and February, and again in the spring, late in April."

Dr. Clendening

"The common cold," so science names it. It is the most frequent of all human afflictions. It causes more economic loss than a depression. In any industry there is more disability from colds than from all other diseases put together.

A careful study in Hagerstown, Md. showed that of the principal causes of illness in a year, 418 sicknesses per thousand persons were due to colds.

Whereas it took influenza, la grippe, tonsilitis, headaches, digestive diseases, childbirths, accidents measles and whooping cough all together, to equal this figure.

What medical science actually knows for certain about this commonest of all human diseases can very easily be squeezed into the rest of my space for today.

The Common Cold

It is the commonest of all human afflictions, hardly anyone between the ages of 12 and 35 escaping without one attack a year.

It is highly contagious in the early stages. It is certainly caused by some sort of a germ, but that germ has not been identified. Most investigators agree that it is one of the filterable virus, which are too small to be seen with our present model microscopes.

After the virus has made its initial attack on the membranes of the respiratory tract, many secondary infections are implanted there, such as staphylococci, micrococci, catarrhalis, influenza bacilli, etc. These cause many of the disagreeable and prolonged symptoms during the later stages.

The course of the disease consists of the stage of invasion with slight fever, malaise, chilly sensations, headache and backache, and loss of appetite. A feeling of stuffiness in the nose, rawness in the throat and tightness in the chest are localizing symptoms. The stage of invasion lasts from 12 to 36 hours and is succeeded by the stage of exudation when discharge from the nose, cough and expectoration begin during the onset of this condition most of the symptoms of discomfort marking the stage of invasion disappear. The stage of convalescence marks the drying up of the secretions. The entire process covers a period of two to three weeks.

There is no certain drug, serum, or method of treatment which will prevent a cold, or shorten its course or abort an attack in the early stages.

Many treatments directed toward making a patient comfortable are highly successful.

Science is rather cool on the subject of colds. We will turn our attention to some of these treatments which make the patient comfortable.

NEW YORK, Jan. 25.—Something like 35 years ago—the time is as uncertain as the quality of a simile—a young reported sat in the editorial room of a Boston newspaper preparing to write a yarn on a local disaster.

There had been an explosion, followed by a conflagration.

He picked up four different papers. And somewhere in the early paragraphs of each he read: "It spread like wildfire."

Going to the desk of one of the editors, he moaned: "Great heavens, can't a conflagration spread like something except wildfire? Must it always be wildfire?"

"Aw, run along, you're as annoying as a guy with whooping cough at a musical show," growled the busy editor.

"That's what I mean—similes"—"Get a book——"

And the young man tried to get a book hours later. He tried in the local libraries and the outside libraries, but nary a book of similes there was.

* * *

Which is how, my lads and lassies, that Frank J. Wilstach became the simile king of America.

But many years elapsed before his first volume of them appeared. His latest has but recently come from the presses and much to my chagrin, he has not accepted the sub-title of "Or As You Like."

The Wilstach similes have been coming around since as regularly as the landlord. His first appeared about 1916.

And it was no simple job getting it out. For he was, even then, a press agent. He had represented Sothern and Marlowe and had gone to the Shuberts.

He haunted libraries during those hours when he was as idle as a customer's man on Wall Street.

He became as impressionable as a new sheet of carbon paper—

See what happens when you read a book of the darn things!

* * *

Well, at any rate after somethink like 15 or 20 years, he finally got out his first volume.

Today, he'll admit, he has little to do other than sit down and edit.

For similes began to come in like margin calls from a broker's office. They now arrive by the tens of thousands and from every country on the globe.

But even Wilstach cannot live by similes alone. It's his bright and particular hobby. He works in the office of Will Hays, the czar of the movies, and there he has been for the past half dozen years or more.

* * *

Wilstach gets out an edition annually because last year's similes are as out-of-date as a mustache cup. They need to have their phrases lifted.

Looking but a few volumes back he finds references to gas lights and the cranking of Fords.

At the moment something becomes "as necessary as Ghandi's safety pin," but next year there may be an invention to take the place of the safety pin and Ghandi's costume may be a historic relic.

SAFETY GASOLINE

NEW YORK—A non-inflammable gasoline has been developed by engineers of Standard Oil of New Jersey. This new fuel will not catch fire at temperatures under 100 degrees Fahrenheit. It has been extensively tested in airplanes and is said to be more combustible than present high-test aviation fuel. It may eliminate the hazard of fires to planes which are involved in crashes.

A newly elected mayor says chambers of commerce should be abolished. But then who would take credit for everything good in the community?

Turtles are said to have a larger percentage of bone than any other animal. But that must have been said before the stock crash called attention to investors' heads.

BILL MURRAY DRAWS PRAISE AND MAD STONE SUBJECT IS INTRODUCED ONCE AGAIN

Dear Plainsman: I sent in my "straw vote" for W. H. Murray.

I would vote for him because I am personally acquainted with him and know that he is a real man. To my way of thinking he is another Abraham Lincoln, honest and qualified. A man who is not for sale. He does what he thinks is right regardless of what people think. He can't be nominated because he is in sympatny with the poor and middle classes and the money powers are against him.

He is a Moses for the people and if they could elect him as President he would pull them out of this depression.

Yours very truly,
J. E. Watts, Abernathy.

(Dear Mr. Watts: Thanks for your letter. While I am not a Murray supporter, I am sure "Alfalfa Bill" must have something. I know a lot of people in Oklahoma who feel about him like you do.—The Plainsman.

ON THE MADSTONE

Dear Plainsman: Due to the kindness of a friend, I have been reading several copies of your paper lately. I especially like what "The Plainsman Says" and I note in the issue of October 20 that you asked for testimony for the potency of the "mad stone."

Well, about the year 1898 I was living with my parents in a little dug-out just under the caprock where I had just seen the light of day a few years before.

As my grandmother was visiting us and occupied the bedstead and my father was away from home, my mother and I slept on the bed made down on the floor (dirt, of course). Shortly after midnight, a polecat brushed across my mother's face and stopped to smell of me. Evidently the "smell" was pleasant as he immediately bit me twice on the upper lip near the nose. Then as I flung out my hand he bit my finger.

Mother grabbed the pole-cat and pitched him out the door at same time calling the dog which made quick work of him. Then she sound the finger with the only medicine on hand—kerosene and soda.

Early the next morning she took me behind her on a cowpony about 12 miles to where my father was working. He borrowed a buggy and hitched our two work horses to it. Then we went on about 15 miles to where we knew there was a family who had a mad stone. They brought the stone out and first soaked it in warm sweet milk and pressed it to my finger.

Of course, I was very tired and sleepy so they put me to bed where I slept soundly all night. The stone was still stuck tight and fast next morning and did not loosen until about noon. When it could be pulled off they again put it in warm milk and it actually seemed to "fry" the poison out. They tried it two or three times but it would only stick a short time and finally refused to stick at all. Then they felt sure that all the poison was out.

This mad stone was about one and one-half inches long and one-half inches wide, smooth and glossy black, very much like a piece of common comb until put into milk when it showed to be porus. They said it came from the internal organs of a white deer and was given to them.

I have never seen a Plainsman with the horrible features that heads your column. Why not use a picture of your former sheriff, Bud Johnston? He is typical.

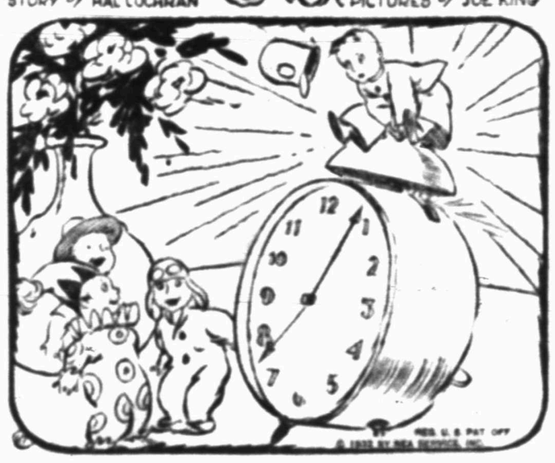

Emma B. Russell,
Roaring Springs, Texas.

* * *

(Dear Mrs. Russell: Are you any kin to Bud Russell? I am always glad to get a letter from Motley county because I know that lots of good things come out of there—in fact I married a girl from Matador. I also know all about the fine beef you raise up in that country. Mr. Rufe Moore sends me some occasionally and I have also eaten steak from a milk fed Matador ranch calf, barbecued by Henry Pipkin and furnished by Mr. Riley, the general manager of the Matadors. On top of that, I've got a saddle horse from Motley county and the first time I ever heard of a mad stone was over there. I'm sorry you don't like my picture and admit I'm not as handsome as our mutual friend, Bud Johnston, who is now on the ranger force at Del Rio. Write me again.—The Plainsman.)

The TINYMITES

STORY by HAL COCHRAN PICTURES by JOE KING

(READ THE STORY, THEN COLOR THE PICTURE)

The lantern, with its real bright light, was pleasant to each Tinymite. The flame sent out a bit of warmth that everyone enjoyed. Said Duncy, "This is fine to use when we wish to take a snooze. We'll cuddle down in front of it where we won't be annoyed."

A good idea," Scouty cried. "All of you snuggle side by side and go to sleep. I'll stay awake. We need a guard, you see. If Mr. Giant should return to find we've made his lantern burn, I'm sure it would provoke him. He'd be mad as mad can be."

"I have a better plan," said one. "I think it would be lots of fun to set a big alarm clock. Then we all can sleep at once. Twill ring whenever we set it for and wake us with its ringing roar. You Tinies must admit I think of very clever stunts."

They found the clock, a great big thing. Then Windy set it so twould ring in just an hour. And then the bunch slipped off to slumberland. The ticking sound fit in real slick. It lulled them off to sleep right quick. Poor Tinies! They all were so tired they simply couldn't stand.

Each one had dreams of thrills galore. Perhaps that is what made them snore. The lamp begsh to flicker and then went out, with a puff. 'Twas 'cause the thing ran out of oil, but even so it didn't spoil a single thing, because the room was plenty warm enough.

And then the big alarm rang loud. It started all the Tiny crowd. "I'll shut it off," cried Coppy. Then he took a graceful hop and landed right on top the bell. But, shucks, he didn't do so well. Said he, "We'll have to wait till it runs down. Then it will stop."

(The Tinies make a funny cart in the next story.)

BUSINESS MEN URGE PEACE

CHINESE MERCHANTS IN MOVEMENT TO END TERROR

SHANGHAI, Jan. 25. (AP)—Chinese merchants stepped into the role of peacemakers today, urging the national government to order acceptance by Shanghai city officials of Japan's demands for suppression of Chinese boycott organizations.

An atmosphere approaching terror in the city was intensified by a terrific explosion in the Whangpoo river in which a fleet of Japanese warships is anchored. A lighter carrying a cargo of explosives blew up just outside the French concession, shattering windows in the city, sinking a number of small boats in the river and killed 20 laborers, according to an official report.

Albert Porges, Austrian employe of the American Express company and a former New Yorker, was shot and killed by a Chinese guard who fired into Porges' automobile. Porges was motoring with a young woman at the time. She said the soldier fired without warning as she and Porges passed a group of guards outside the French concession.

The barge that exploded was taking a load of powder from a Chinese powder mill on the banks of the river almost opposite Shanghai to the Kiangnan arsenal on the outskirts of the city. Several nearby buildings were wrecked and an ocean-going steamer anchored in the river had its deckhouse blown away. The powder was believed to have been ignited by sparks from a towing tug.

Another burden was added to the already strained relations when an attempt was made to burn the home of Japanese consul-general Mural in the French concession. Fireman quickly put out the blaze. They found inflammable material soaked with kerosene under the front porch.

Japanese consular and naval officials reiterated their demands that the anti-Japanese societies be broken up. The Japanese Cotton Spinners association added another threat. They said they might be forced to close their mills in the city if the Chinese boycott were not ended. This would throw 70,000 Chinese employes out of work.

BLAST INQUIRY

(Continued from Page One)

the inquiry which began shortly after 10 o'clock and continued until noon. It was to reconvene early this afternoon.

Conspicuous points in this morning's evidence pertained to:

(1) A crack, estimated to be four or five inches long in one of two pipes, with fittings, removed from the basement of the Herring home by investigators after the blast.

(2) Removal of the two pipes by Fire Chief Twitty by hand.

(3) Young's inability to identify either of the pipes as one he had installed about December 29 in making a gas extension.

(4) Tests, in which no leaks were found, by Young and Schlag after the extension had been completed, and testimony of both that the crack and the loose pipes would have been discovered in the inspection.

Young said Herring told him he wanted the extension for installation of a laundry stove in the basement. The plumber testified the crack in the pipe was "clear enough" and would have prevented the line from holding "any pressure of anything."

Schlag introduced city permit and test records and testified to the test and removal of the exhibited pipes without use of a wrench or other tool.

Roof Lifted

The explosion, the building inspector explained, evidently had lifted the roof and walls were bulged and cracked.

Hood told of seeing Twitty and Fred Joyce, a plumber, take out the two pipes. The firemen, as did Schlag, identified the exhibited pipes as those taken from the basement of the wrecked home.

An electric heat-reflector was focused in the corner of the basement where paper had been scorched, Hood testified.

Twitty first person to enter the smoked-filled house, told of what he had found then and on an inspection Sunday afternoon. Glass from the windows was found 30 paces, or about 60 feet, away, he said.

The explosion occurred at about 10:25 o'clock Saturday night. Herring was found unconscious and face down on a sidewalk by Police Chief John Lemond.

Herring suffered shock, and no fractures or bruises, hospital attendants said. Although weight of the coma began to lighten by 2 o'clock Sunday morning, he was not fully conscious until noon.

He asked attendants how he happened to be in the hospital, they said.

Shoplifter Jailed When Caught Here

Although a young man had succeeded in taking 15 pairs of hose from a show case in the Lubbock Drug store, 911 Broadway, late Saturday without attracting the attention of employes in the back of the sales room, the alleged shoplifter failed to escape when a policeman entered the store. The suspect said he was from Seymour. He was in city jail this morning and no charge had been filed. The arresting officer did not know of the attempted theft until he entered and saw the man with the boxes of women's hose.

DAILY MARKETS

Cotton Market

NEW YORK REPORT

NEW YORK, Jan. 25. (AP)—Cotton opened steady today, unchanged to 3 points up in response to firm cables and a moderate trade demand. May sold at 6.79.

Buyers were supplied by some southern and local selling but there was a continued foreign trade demand in comparatively small lots and some covering by near month shorts which gave the market a generally steady tone. At the end of the first half hour, May was selling around 6.81 and July 7.00, or 2 to 5 points net higher on the active months.

Some early selling was attributed to liquidation of western long accounts. Liverpool cables reported local buying, covering and trade calling in that market and said the demand for cotton cloths was sustained with the demand for yarns improving.

Prices fluctuated within a narrow range later in the morning with demand from trade sources in sufficient volume to absorb offerings and maintain a steady undertone. There was considerable switching or transferring from March to later deliveries without much change in the differences between months. At midday May was holding around 6.83 and July 6.99, with the general market 3 to 5 points net higher.

NEW ORLEANS REPORT

NEW ORLEANS, Jan. 25 (AP)—The cotton market opened rather steady. Liverpool cables were better than due and first trades here showed gains of 2 to 4 points.

While prices eased off 1 to 4 points soon after the start on a rather disappointing opening of the stock market, they rallied shortly afterward as stocks improved and March advanced to 6.67, May to 6.83 and July to 7.00, or 4 to 6 points above Saturday's close.

Near the end of the first hour the market was steady and showed a disposition to advance further.

After easing off a point or two early in the second hour on some hedge selling, the market improved again, in sympathy with an advance in stocks and due to some price fixing in trade buying. March advanced to 6.70, May to 6.85 and July to 7.02, or 6 to 8 points above Saturday's close. Around noon the market was quite steady and at the highs.

NEW ORLEANS OPEN

NEW ORLEANS, Jan. 25 (AP)—Cotton futures opened steady today: Jan. 6.66-bid, March 6.67, May 6.82; July 6.96; Oct. 7.15; Dec. unquoted.

NEW YORK OPEN

NEW YORK, Jan. 25 (AP)—Cotton futures opened steady today:

Grain Market

CHICAGO REPORT

CHICAGO, Jan. 25. (AP)—Grain prices averaged lower early today. Enlargement of world shipments of wheat together with absence of aggressive buying, rather than any unusual pressure to sell, formed the chief bearish influence. Opening unchanged to 3-8 down, wheat afterward sagged all around. Corn started unchanged to 1-4 higher and subsequently reacted.

Over Four Thousand At Sunday Schools

Sunday school attendance in Lubbock churches totaled 4,450 Sunday morning. Several institutions are beginning an enlargement campaign to continue until Easter. The First Baptist church reported an enrollment of 1,174 and First Methodist, 972. Others were as follows:

Church of Christ, 395; First Christian, 344; First Presbyterian, 319; Sanders Union, 237; Asbury Methodist, 224; Calvary Baptist, 168; Cumberland Presbyterian, 122; Church of the Nazarene, 117; South Side, 114; Salvation Army, 64.

LOSES THREE LIVES

STUART, Fla.—A large cottonwood moccasin here threatened to outlive any cat with nine lives. Jacob Blakeslee first saw it and ran a fishing spear through it. A few days later Blakeslee's father saw the snake near the same spot and hit it with an oar. Shortly after that Jacob again saw the snake. He made sure he killed it and then conducted a post mortem. He found spear marks on the side and a partly healed wound near the head.

HICCOUGH VICTIM UNCHANGED TODAY

The condition of Isaac B. Greer, 52, of Lubbock, in his third week of hiccoughs, was unchanged, attendants at West Texas hospital reported this morning. His condition was considered improved Saturday.

Luther Williams, son of Rev. L. G. H. Williams, former Episcopalian rector here, returned to West Texas hospital Sunday and remained. He suffered a broken jaw in an intramural football game at Texas Technological college Saturday afternoon.

Two other Technological college students, Ray Karr, 20, of Spur, who suffered concussion of the brain in intra-mural football practice, and Ira D. Jones, 18, of Monroe, who received head injuries in an undetermined manner while en route home, have been dismissed from West Texas hospital.

Roy D. Williams, 1212 Tenth street, suffered a broken arm and was received at Lubbock sanitarium about noon Sunday for emergency treatment.

POULTRY MAN IS VISITING IN AREA

Conferences with vocational agriculture students in four high school and three night meetings comprise the three day program of Harley Kelly, extension representative of Swift and Co., who has been making Lubbock his headquarters for the past week.

"My work here is largely with the improvement of poultry products," Mr. Kelly said. "We are trying to build up better produce and to secure better produce from farmers and others.

"There will always be a market for quality produce products. I can see a great improvement in the quality we are receiving in this area over a year or two ago."

Mr. Kelly's schedule includes: Monday, with vocational classes at Abernathy and Hale Center and the night meetings at Tulia; Tuesday, vocational classes at Tulia and Plainview, night meeting there; Wednesday in Plainview, with a night meeting in Lubbock county.

During the past week Mr. Kelly held two and three meetings a day, working out of the local Swift plant. He cooperates with county agents and vocational teachers. Mr. Kelly was formerly with the federal department of agriculture as an extension worker and has been in county agent work. He has been with his present firm for four years and travels all over the United States and into Canada. His home is in Northern Missouri, where he owns a farm in the edge of the famous Iowa corn belt.

PAUL CYR SILENT ON HIS PLANS

JEANERETTE, La., Jan. 25 (AP)—Informed that Huey P. Long took his oath in the United States senate today, Paul N. Cyr, claimant to the Louisiana governorship, said he would have no comment to make until he consulted his attorneys.

Previously Cyr had said he would start a movement to claim the governorship as soon as Long took the oath and replace Alvin O. King, who assumed the duties of acting-governor today.

Cyr remained in his dental office and said he was ready to transact any state business.

HUEY LONG FAVORS SOUTHERN CANDIDATE

WASHINGTON, Jan. 25 (AP)—The Democratic party was urged today by Governor Huey Long of Louisiana to nominate for president Speaker Garner, Senator Harrison of Mississippi, or Senator Robinson of Arkansas.

The colorful Louisiana political leader gave his views in an interview shortly after his arrival to be sworn in as Democratic senator.

Long got out of bed to talk with newspapermen and was clad in pink pajamas as he discussed the political situation and national affairs.

He pledged cooperation with President Hoover to restore world tranquility and prosperity and indicated he would favor cancellation of war debts if necessary to achieve that end.

NEW AND HIGHER TAXATION BECOMES MAIN ISSUE IN CONGRESS THIS WEEK

BY JAMES COPE

WASHINGTON, Jan. 25 (AP)—New and higher taxation, designed to attain in combination with stringent economy a balanced budget once again, becomes the issue of paramount importance in congress this week.

Removal of the reconstruction corporation from the foreground of the legislative scene caused attention to swing to this question which will affect directly or indirectly every pocketbook and should have a vital bearing on the speed with which economic recovery is obtained.

A taxation plan, substantially amended from the program offered by the treasury, is promised in the house within a week or so. Even before hearings are ended by the ways and means committee leaders of the controlling Democratic side are indicating an intention to tap rich resources of revenue left alone by the administration as alternative to some of the taxes recommended. For instance, electric power production has been suggested as a likely field for levies.

The enormous importance all the congressional leaders attach to the otherside of the budget balancing picture—government economy—has been revealed meanwhile in striking fashion through a totally unprecedented move to ascertain in advance the amount of expenditures which will be voted by the present congress. Speaker Garner and Floor Leader Rainey for the Democrats and Minority Leader Snell for the Republicans addressed to each committee letters asking a report on money bills it expected to present.

The formidable nature of the tax-raising job was accentuated by the treasury's announcement that the federal revenue dropped more than a billion dollars last year. This recapitulation of government income was issued while representatives of several industries singled out by the treasury for new taxation were doing their utmost to defeat the proposed levies affecting themselves.

TRIPLOIL
Is not a common oil. TRIPLOIL is something different. Triploil is a redeemed oil—only the toughest particles or molecules remain in TRIPLOIL. Do not confuse triploil with cheap priced oils. It will give you longer wear and better lubrication than other oils. Save your crankcase drainings and have them refined.

Gives Up Elevator Job For Title

Sir Reginald Wolseley and Lady Wolseley are shown here as they decided to forsake life in Waterloo, Ia., where Sir Reggie was an elevator operator, and return to the ancestral mansion in Devonshire, England, where Sir Reggie is a baronet. He fulfilled his mother's dying wish by marrying her nurse who followed him to America. However, he would not return to England, and his wife left him. Now all is forgiven and they are on their way to Devonshire.

DEFINITE MOVEMENT TOWARD SLASHES IN TAXES IS UNDER WAY IN AMERICA

(Editor's Note: This is the first of three articles on state and municipal taxing prospects in the United States).

BY MORRIS C. WATSON
(Copyright, By Associated Press)

NEW YORK, Jan. 25 (AP)—There is a definite movement toward tax reductions in many parts of the United States.

With some exceptions, it appears likely, from reports over a wide area, that the average citizen may offset the contemplation of increased federal taxes with the prospect of paying less into the coffers of his municipal and state governments.

A Harry Moore, newly-inaugurated Democratic governor of New Jersey, gave fluent voice to the movement last week when he proposed the return of more than $16,000,000 to the taxpayers and asked the legislature to throw out 95 agencies and 35 commissions in favor of a less expensive form of government.

Nebraska began slashing its governmental overhead last year and the taxes came down accordingly.

The state board of equalization in Idaho met last August and reduced assessed valuation of nearly all property except that of public utilities 20 to 25 per cent.

Iowa expects to reduce its tax collections $10,000,000 to $12,000,000 during the current year. A legislative committee is now at work studying the possibilities of reduction in governmental expenses in 99 counties.

The 1931 tax rate in Kansas, at 1.43 mills, was the lowest since 1920. The 1932 rate has not been fixed, but the expenses fo the first six months of the current fiscal year were $337,000 under the same period of the previous year and the governor has demanded economies in all departments.

The Missouri state board of equalization meets next month with one member demanding a flat reduction of 20 per cent on the assessed valuation of all real estate.

North Carolina's legislature caused a general reduction of 33 cents on the $100 valuation in 1931 by turning the six months public school term and maintenance on all public roads, including county highways, over to the state government.

Salaries of all but constitutional officers were cut 10 per cent.

WATCH THESE HOURS!

LONDON—If you are a student airplane pilot, the three times in your career at which you are most likely to crash are, according to Capt. A. O. Lamplugh, British expert, the following: After the 20th hour and before the 30th; between the 80th and 120th, and between the 500the and 600th. Capt. Lamplugh has studied thousands of accidents to arrive at these figures.

Many large business, apartment and industrial structures are being in South Africa.

MARTIAL RULE IN SALVADOR

REPUBLIC'S MILITARY JUNTA SEEKS TO END UPRISING

SAN SALVADOR, El Salvador, Jan. 25 (AP)—The republic of Salvador was under martial law today as the military junta which went into power itself less than two months ago after a revolt sought to put down what is said was a communist uprising in which an undetermined number were ... killed and wounded.

An official communique last night said armed hordes [illegible] disorders in several towns in the interior and that the mayor ... secretary, local army commander ... and a telegrapher were ... at Colon in the department of ...

Barracks at Ahuachapan and ... and Sonsonate also were attacked, it said, and several houses were burned at Juayua. Troops met strong resistance from the revolters at Sonsonate, the communique said, and fired upon them, killing and wounding an undetermined number.

All persons holding private permits to carry arms were authorized by the government to defend themselves if necessary. The revolters, the government said, planned to kill the "bourgeoisie."

The government of President Arturo Araujo was overthrown Dec. 3 by a military revolt and a directorate, headed by Max H. Martinez, has ruled the country ever since, although it was not recognized by neighboring Nicaragua and Guatemala.

AIR PILOTS' GUILD

QUEBEC—The Canadian Guild of Air Pilots has been organized in Canada to protect professional interests from legislative enactments, establish minimum requirement of skill, and establish minimum rates of pay. All pilots belonging to the guild must have 200 or more hours in the air to their credit.

Tax collections in southeast Missouri are reported better for 1931 than for the corresponding period a year previous.

DOGDOM'S ALL-AMERICA

G-r-r-r Woof, Woof! Dogdom has just selected its 1931 All-America football team from the Bow Wow Conference. The judges claim there was never a more talented or harder hitting team of Springer Spaniel footballers. The backfield, above, is extremely fast while the line, below, is a stonewall against any offense. Mrs. Lois Tolliver of Omaha, Neb., is head coach of the All-America squad and hopes to arrange a game with the Kitty-Cat Conference All-Stars.

SEEK TO DOWN INDIA DRIVE

GOVERNMENT TO MAKE "NO COMPROMISE" WITH GANDHI

NEW DELHI, Jan. 25 (AP)—The British government can make no compromises in its decision to put down Mahatma Gandhi's civil disobedience movement, Viceroy Lord Willingdon said today in his inaugural address to the Indian legislature.

"While the government will take the necessary steps to guard against any abuse of the special powers vested in the authorities," he said, "there can be no relaxation of the measures now in force against civil disobedience so long as the circumstances exist which make them necessary."

After declaring the work of the last round table conference would be carried forward and details of the new constitution for India fully and rapidly explored by the three committees which are due to arrive here from London Jan. 29, the viceroy said:

"I feel it a great privilege to ward the end of my public life to be leading India on to her promised position as an absolutely equal partner with the dominions under the crown."

India's economic and financial situation, he said, is sound and healthy, comparing favorably with any other country. He denied the Gandhi's charge that the government had scrapped the Gandhi-Lord Irwin truce and placed the blame squarely on the Mahatma himself.

Friendly Suit To Settle Fee Issue

DALLAS, Jan. 25 (AP)—A friendly court suit was decided upon as the means of determining whether Sheriff Hal Hood was entitled to retain $11,571 paid him by federal Authorities for keeping their prisoners in 1930.

A private auditor's report held Hood owed the amount to the county, in addition to several expense items they said were not allowable. The total the auditors contended Hood owed the county was $20,684.87.

The sheriff stated he had believed he was entitled to the money for keeping the federal prisoners.

W. L. STANGEL IS STOCK SHOW HEAD

W. L. Stangel, head of the department of animal husbandry of Texas Technological college, has again been named as superintendent of the swine department of the annual Southwestern Exposition and Fat Stock show which is to be held in Fort Worth, March 5 to 13. Mr. Stangel has served in this capacity for the past several years.

Besides the Fort Worth show, Mr. Stangel serves as an official in many of the other fairs and stock shows of the southwest. He is an official in the annual Panhandle-South Plains fair here and also takes a leading part in the activities of the Texas Panhandle-Plains Dairy show at Plainview and the annual Fat Calf, Pig and Cured Meat show here.

The wheat acreage has been reduced twenty per cent in the Panhandle according to recent estimates.

"... and just think! It's a Maytag!"

Yes, it's the NEW MAYTAG at $89.50

The more you know about washers, the more you will wonder how anyone could make a low priced washer of such unquestionably high quality.

Here's the answer.

In the Maytag factory, the world's largest washer factory, precision workmanship and rigid inspections are *routine*. Workmen are trained to *think* high quality. They don't use anything but *highest* grade materials and precision machinery.

Naturally a washer made in such a factory is going to be a fine washer. Not only when it is new, but after years of hard service. Because the quality is *built in*. Every hidden part is as carefully made as tools can make it.

So don't let the low price of this New Maytag confuse you as to its quality. If you are one of the millions of women who have put off buying a washer till you could afford a Maytag, *now is the time.*
