

THE JUNCTION EAGLE

Volume 45

Junction, Kimble County, Texas, Thursday, March 14, 1929

Number 48

JUNCTION CITIZENS

ASSIST P. T. A. 'S IN CLEAN UP CAMPAIGN

The Parent-Teachers' Association is accomplishing some worthwhile results in the clean-up campaign that is going on in the city. A vast amount of trash was burned last week and many truck loads of rubbish were hauled to the dump ground. The rains the first of the week delayed the work to some extent, but the campaign will continue until the entire town is cleaned.

Members of the committee from the P. T. A. have visited practically all the premises in Junction and have met with wonderful encouragement. The people generally seem willing to assist in making Junction one of the cleanest towns in Texas. There are a few vacant lots in the city whose owners live elsewhere and some difficulty is being experienced in getting these cleaned up.

The Parent-Teachers' Association is anxious to get all the rubbish cleaned up before the weeds begin to grow so that it will be easy to keep the weeds cut during the summer. Mayor Holkamp repeats the statement that the city will haul off all rubbish placed accessible to the streets.

A home beautiful contest is planned and the Eagle hopes to be able at an early date to give the rules pertaining to the contest. The courtyard, the Fritz Hotel, West Texas Utilities Co., the Loeffler Motor Co. and several homes are already places of civic attractiveness. The Eagle would be glad to have the citizens called to any place that deserves special mention. With an ample supply of water it will be easier to make Junction beautiful than formerly. Everyone should encourage the P. T. A. in their work of beautifying the city.

WOMANLESS STYLE SHOW

The Fidelis Class of the First Baptist Church will give a womanless style show in the auditorium of the Junction High School Friday evening at 7:45. The "women" are practicing and those who avail themselves of the privilege will be entertained to the fullest extent.

It has leaked out that the Rev. G. W. Crabb will represent Cupid. Mr. M. Awbrey has made an appointment for a permanent wave for the occasion.

A small admission charge will be made to secure funds for the new church building. The women have had a big part in the erection of the new building.

FIRST ANNIVERSARY

The Awbrey-Bell Drug Company celebrated its first birthday in Junction last Saturday, March 9. This company has had a successful year and has enjoyed a liberal patronage. Mr. Awbrey, the manager for the Junction store, is well pleased with the liberal patronage received and desires to thank the people of Junction and Kimble County.

ST. PATRICK TEA

A Saint Patrick's Silver Tea will be held at the Alex. Wahl home on Friday afternoon, March 15, from three to six o'clock for the benefit of the Primary department of the Methodist Sunday School. Everybody is invited.

CITY MARKET IMPROVES

In a recent issue it was stated that the City Market had installed a new cooling system. Mr. Weldon is now improving and modernizing the interior of his shop. He believes that the best is none too good for Junction.

Arthur Thompson spent the first of the week in San Antonio.

Junction Women Show Interest In Schools

The number of women who were present at the school building on visitors' day is an indication that they are interested in the schools and are willing to assist in upbuilding the school system. Elder J. S. Newman is the only man reported as being present. The men are busy, and their duties make it hard for them to get away for these visits.

Mesdames Tom Jones, J. M. Livingston, Clay Secrest and W. P. Riley were hostesses. The following visited the school during the afternoon:

Mesdames G. R. Pepper, J. L. Massie, B. L. Smith, E. R. Osborne, A. S. Rieck, Roy Williams, Annie Highsmith, Howell Wright, Beatrice Wright, John Taylor, Avery Stewart, H. O. Patterson, H. O. Denman, D. L. Turner, Dee Taylor, Robt. Ragland, H. A. Summers, F. M. Cowser, F. S. Bissett, W. M. Taylor, B. W. Davis, M. E. Blackburn, Joe H. Ramsey, H. H. Lawler, S. A. McDonald, Sanford Roe, J. L. Hodges, Carl Glosbrenner, T. E. Sheppard and the following children: Preston and Gwen Wright, Patricia Patterson and Ornell McDonald.

Golf Tournament In Junction March 24

Local golf enthusiasts are looking forward to the golf tournament that will be held here Sunday, March 24. Mr. O'Bryan states that the course is in good condition and the players are taking great interest in the game. Nearly sixty players were on the course last Sunday.

To make the tournament more interesting two prizes have been offered for the tournament which is open to every player in Kimble County. The first is a \$40 bag and set of clubs, while the second is a \$15 driver.

Messrs. Joe Bissett, Buddy Hurte and Howard Blackburn constitute the committee that has the arrangements in hand. This committee is prepared to give information about the rules for the contest. The main thing wanted is for every golf player in Kimble County to register and enter the contest. There will be no registration fee. This will be the biggest golf tournament ever held in Junction.

Election Officers Ensuing Two Years

At the last meeting of the commissioners court the following election of officers for the next two years were appointed: Junction, No. 1—C. T. Holkamp, C. F. Hamer, H. O. Denman and K. G. Durst.

Telegraph, No. 2—Guy Wynne and Tom Guthrie.

Copperas, No. 3—A. F. Winkle, O. F. Weaver.

Bear Creek, No. 4—R. H. Spiller, W. A. Bannowsky.

Gentry, No. 5—Goodall Kothmann, John Robbins.

London, No. 6—Jack Goodman, Ed Furr, Dick Weaver, Robt. McKinney.

Noxville, No. 7—Jesse Parker, Jesse Coffey.

Segovia, No. 8—Frank Rembold, Burt Kirkpatrick.

Murr, No. 9—John Graham, Chas. Holland.

Rosevelt, No. 10—Will Allison, August Simon.

The first named in each precinct is the presiding officer while the others are judges.

Mr. and Mrs. M. Awbrey and son, Tom, were San Antonio visitors this week. It is reported that Mr. Awbrey was getting his dresses for the womanless style show at the school building Friday evening.

Mrs. Grace Stone, wife of Dr. D. S. Stone, formerly of Junction, is reported quite ill in a San Antonio hospital.

Dr. and Mrs. L. L. Skaggs and son, Jack, of San Antonio visited relatives here the past week-end.

CAPTAIN IRA C. EAKER LEAVES BROWNSVILLE FOR PANAMA SATURDAY

The fact that Captain Ira C. Eaker was reared at Eden makes his sensational flying the past few months in the more interesting to people of this section. He will hop off from Brownsville Saturday morning at 4 o'clock on his dawn-to-dusk flight to France Field, Panama, weather permitting. Captain Eaker will fly from Kelly Field to Brownsville Friday.

These plans were announced by him Wednesday afternoon at Kelly Field after newspapermen had informed him that the War Department in Washington had issued instructions to permit the flight, which was postponed March 11, because of the Mexican revolution. Captain Eaker had not received official notice from Washington.

Lieuts. D. H. Hunton and B. S. Thompson, "pathfinders" for Captain Eaker, will hop off from Kelly Field Thursday morning for Tampico and Minatitlan, Mexico, respectively. They will be accompanied by Master Sgt. R. C. Jones and Technical Sgt. L. H. Montes, respectively.

These four will be at the two cities, the first two refueling stops, on the flight route to aid Captain Eaker in refueling and in giving the plane any service that it might need.

They will leave Kelly Field early Thursday to "fly as far as possible."

Wednesday night Captain Eaker dispatched cablegrams to his agents at Tampico and Minatitlan in Mexico, Cristobal, Guatemala; Managua, Nicaragua, and David, Panama, where he is to make refueling stops, informing of his intentions to hop off Saturday morning. He also informed France Field of his intentions. He expects to receive answers sometime Thursday.

In the meantime he will get a report from the United States Weather Bureau concerning weather conditions along the route and if the report is favorable go to Brownsville early Friday.

Captain Eaker was scheduled to hop off from Brownsville last Saturday morning. Friday the War Department cancelled the flight due to the revolution in Mexico. At the time he was ordered to "stand by" at Kelly Field for further orders.

NEW MOTOR COMPANY OPENS IN JUNCTION

Mr. and Mrs. Sayres Farmer and George Cavaness returned this week from Dallas where they made arrangements to handle Buick cars in this territory. Mr. Cavaness drove a demonstration car back with him and is now ready to give demonstrations.

The new company will be known as the Farmer Motor Company and has closed a deal for the lots in front of the Powell Motor Company, known as the Baker property, where they will erect at an early date a modern building for the sales and service department. A complete garage will be maintained in connection with the sales and service department.

REGULAR MEETING OF C. OF C. MARCH 19TH

Next Tuesday night is the time for the regular meeting of the Kimble County Chamber of Commerce. Every member of the organization and every one in Kimble County interested in the progress and development of the county is invited to be present at this meeting.

The executive committee meets once each week, but this committee is anxious for the counsel and advice of the entire organization and invites every one to meet at the courthouse next Tuesday night, March 19, at 7:45 o'clock.

SCHOLASTIC CENSUS IS NOW BEING TAKEN IN KIMBLE COUNTY

Judge J. B. Randolph is making a strenuous effort to get all children in Kimble County within scholastic age enrolled. The census enumerators are now taking the census in this county and they should have the hearty co-operation of all parents and guardians in securing a complete enrollment of all children within scholastic age in Kimble County.

The enrollment of each child will mean about \$15 for the district in which the child lives. The enumerator would not have to miss very many until enough would be lost to maintain the school one month. All children between the ages of seven and seventeen on the first day of September, 1929, should be enrolled. Putting it in other words, all children seven years old before the first day of September, 1929, should be enrolled, and all who will not be eighteen until after September 1, 1929, should be enrolled. All children within these ages should be enrolled in their respective districts whether they attend school or not. The enumerators should not overlook Mexican or negro children as all should be enrolled that are within the age limit mentioned above.

Parents living in the county, who have children out of the district temporarily, should not neglect to enroll them here. Their home is where their parents live and enumerators should be careful to enroll all the children in the districts where their parents live. If children move into the district during the month who were not enrolled before moving here, the enumerator should not overlook them. The blanks furnished by Judge J. B. Randolph explain just how the census should be taken, and all these instructions should be studied carefully. The rolls should be held until the close of the month before filing with Judge Randolph.

The recent legislature lowered the school age to six years, but this does not go into effect until next year. Children who will not be seven years old before September 1, 1929, should not be enrolled.

Premier Ranch Sells 40 Hereford Bulls

One of the best and snappiest individual Auction Sales of this section was held on the Premier Ranch on the afternoon of March 7th by Elgin O. Kothmann of Mason County, Texas, with Colonels Fred Reppert and Earl Gartin in their usual good form presiding.

The Sale cattle were presented exactly as advertised, in ordinary good range condition, and the bidding was spirited throughout. There were many bargains bought due to lack of condition of the cattle. There were no high prices paid as those in attendance were buyers of bulls for the range. The sons of Repeater 76th, No. 1098133, were in good demand and averaged \$385.00, one of them topping the sale at \$500.00.

A crowd of about five hundred people, consisting of stockmen and their families, were in attendance.

Rev. E. G. Hughes of Brady was a Junction visitor Tuesday. He was here to confer with the Rev. G. W. Crabb on some denominational matters.

Mrs. Jack Molesworth and son, John Mudge, of Sierra Blanca arrived Monday for a visit with their parents. Mr. and Mrs. A. L. Mudge. They were met at Fort Stockton by Fred Mudge.

Mrs. Pierce Hoggett returned Friday from Austin where she was the guest of Mr. and Mrs. Coke Stevenson.

Trustee Elections Saturday, April 6

An election for the purpose of electing trustees for the various schools of the county should be held on the first Saturday in April which comes on April 6th this year. In this issue is a notice and appeal by Judge J. B. Randolph urging the people of the respective districts to see that the election is held.

It is only three weeks until that date and the people in the school districts interested in the progress of the schools should co-operate with Judge Randolph and see that the election is held. Anyone in any district interested should read the notice in this paper and then call at Judge Randolph's office and get the proper blanks and instructions for holding the election.

Another matter of vital importance to the schools at this time is the scholastic census which must be taken during the month of March. It is very necessary that every child in the district between the ages of seven and seventeen on September 1, 1929, should be enrolled for the district to get the full benefit of the state's apportionment for the schools of Texas. Money is appropriated only for children enrolled according to law.

New Skating Rink Has Large Crowds

The opening of the Junction Entertainment Company in their new building one mile east of the city on the Kerrville highway Tuesday evening surpassed the expectations of the management. There were one hundred and seventy-five skaters and many spectators. This is one of the best skating floors in the country, being made of hard maple. The hours of opening will be stated later. Many plans are to be worked out. It is the purpose of the management to have one of the best places of amusement in the entire country. At present the only amusement is skating. A cold drink stand and dining room will be opened soon.

For several days the management has been besieged with the question "When will the new skating rink be opened?" It was hoped that all the details could be worked out before the opening. The formal opening will likely be held later when everything, including the cold drink stand and dining room are completed. It is stated that no dances will be held, and that the floor will be used for skating alone.

FREILING-CROW

Mr. Leslie E. Freiling and Miss Lois Crow, both of San Antonio drove to Junction Friday and were married Saturday by the Rev. G. W. Crabb in the new Baptist Church building. They returned immediately after the ceremony to San Antonio where the groom is employed.

Mr. Freiling is a nephew of Mrs. Crabb and visited Mrs. Crabb while in Junction. They were accompanied by Mr. and Mrs. W. J. Miller and daughter, Dorothy, and Miss Ruth Freiling.

WEATHER REPORT

The weather man has been good to Kimble County this week. The weather has been pleasant and the best part is the good rains Sunday night, Monday night and Tuesday night, totaling an inch or more. The rains fell slowly and is more beneficial than rains of two or three inches that falls in a short time and does not go into the ground.

Weeds and grass will grow rapidly which will help the goats, sheep and cattle. Goat shearing is now well under way and it will not be long until the sheep will be giving up their winter clips. Ranchmen report the clip good and that the sheep and goats have wintered well.

FORMAL OPENING OF NEW BAPTIST CHURCH SUNDAY, MARCH 17TH

Workmen are putting the finishing touches on the new First Baptist Church building preparatory to the formal opening Sunday morning, March 17. The committee is planning an all-day meeting and homefolks are requested to bring well-filled baskets and come prepared to spend the day. A good program has been prepared and many out-of-town people will be present to take part on the program.

It will be a high point in the life of the Junction Baptist Church. Hon. Horace E. Wilson of San Antonio will be present to give the early history of the church, and other distinguished men will add to the pleasure of the day. There will be some sorrow mingled with the joy. While everyone rejoices that a beautiful new building is replacing the old one, yet there are many pleasant memories connected with the old building. Some will be present who attended the first service in the old building. Many will be present who were converted in the old building and others whose children were saved in it. These memories will bring a degree of sadness as the old building is abandoned for the new, but the increased opportunities for service in the new building will overshadow these memories and it will be a day of rejoicing and thanksgiving.

The new building is fifty feet wide and eighty feet long, facing the east on the same ground occupied by the old building which was moved back to make room for the modern structure. It is built of hollow tile and concrete with concrete floor, metal ceiling and roof, making it a fireproof building. The outside walls are covered with a selected stucco and the inside plastered and given a pleasing tint. The auditorium has a seating capacity of about five hundred. Special quarters have been provided for the primary department of the Sunday school.

An invitation has been extended to everyone to attend the formal opening Sunday. The following program will be rendered:

9:45 to 10—Music
Song—"The Way of the Cross Leads Home"

Invocation—Rev. G. W. Crabb
Song—

Prayer—T. J. Meredith
Scripture Reading, Psalm, 122
Address of Welcome—Edgar McLendon

Music—
Talk—Hon. Horace E. Wilson
Song—"Footprints of Jesus"

Talk—Rev. Oren C. Reid
11:00 o'clock, Preaching Service
Song—"Onward Christian Soldiers"

Sacred Overture—Band
Invocation—Rev. Milton F. Hill
Song—"All Hail The Power of Jesus' Name"

Scripture Reading, Psalm, 84, and Luke 4: 14-21
Offertory—Band

Address of Welcome—Rev. G. W. Crabb
Special Music—Professor Cameron Marshall and Mr. Harold Scott, of Howard Payne College

Sermon—Dr. M. E. Davis
Song—"Blest Be the Tie That Binds"

Benediction—Elder J. S. Newman
Lunch will be served in the building at the close of the service to out of town visitors, and all homefolks are requested to bring well filled baskets.

NOXVILLE ROAD

The commissioners Court will meet in the Noxville community next Wednesday at 1:30 o'clock to discuss with the people the new road from Junction to Noxville. The court hopes to begin on the road at an early date.

VALUABLE TABLE FOR CENSUS ENUMERATORS

Easy to Find Year of Birth if
Age is Known

Census enumerators now engaged in enrolling the school children will find the little table given below very valuable. The manager of the Eagle was engaged in school work twenty-one years and took the scholastic census in order to get better acquainted with the home life and parents of the children entrusted to him for nine months in the year. In taking the census he found that very few mothers and practically no fathers could give the year in which their children were born. They could tell you (the others could) how old their children were and usually the birth-days. In order to eliminate errors in getting the year in which the children were born, the writer worked out this table which makes it easy to get the year of the children's birth when the age is known. To illustrate: If a child is eighteen years old before the first day of September, he was born in 1911 and is too old to enroll, but if he was born after the first day of September he is only seventeen and should be enrolled. Suppose a mother tells you that a daughter is 13 and was born on October 10, but she does not know the year. Look at the table below and you will see that one 13 in October was born in 1915. Suppose another mother tells you that her boy was nine in February. Look at the table and you will observe that a boy nine years old in February was born in 1920. Some mothers who have children born in 1922 will be anxious to get them in school. If their birthday is before September 1, they will be seven and should be enrolled; but if their birthday is after September 1, they will be only six and too young to enroll this year.

If census enumerators will study this table carefully it will save much time and many errors. Make you a table like this one or cut this out and paste on a piece of cardboard and see how valuable it will be to you who are now taking the scholastic census.

Before	Sept. 1	After
18	1911	17
17	1912	16
16	1913	15
15	1914	14
14	1915	13
13	1916	12
12	1917	11
11	1918	10
10	1919	9
9	1920	8
8	1921	7
7	1922	6

SEWER ELECTION

The election for sewer bonds to install a sewer system in Junction will be held next Tuesday, March 19. Mayor Hokekamp stated to the Eagle representative that after the second year the receipts from the water system would pay for the bonds and that no levy would have to be made to take care of the bonds. Nothing would add more to the sanitary condition of the city than a modern sewer system. The overflowing cess pools are becoming such a nuisance that some action will have to be taken to remedy the condition. A good sewer system would relieve this situation in Junction.

THE METHODIST CHURCH

Responding to the gracious invitation extended by the Baptist Church for our morning service we shall unite in the dedication service of the new Baptist church building. We take this opportunity to congratulate the pastor and membership of our sister denomination upon their splendid achievement in completing their beautiful new building which we feel to be a distinct forward movement in Christian influence and religious activity in our community.

All the other services of the church will be held, Sunday School, 10 a. m. Golden Hour service, 8 p. m. Midweek service, 8 p. m. Wednesday.

MILTON F. HILL,
Pastor.

Many go out for wool and come home shorn themselves.

TEXAS MARINE IS DEAD SHOT

Though many medals for marksmanship adorn the breast of Sergeant C. J. Cagle, U. S. Marine from Texas, he is likely to win more decorations soon. The sharpshooting Texan has been selected to take part in the International Rifle Team try-outs to be held at Quantico, Va., early in April. If he shows his usual skill in hitting the bull's-eye, he will go abroad with a team representing the United States, which will compete in the international matches to be held at Stockholm, Sweden, in July.

Sergeant Cagle achieved distinction in the National Matches held at Camp Perry, O., last September, when he won the National individual rifle match by outshooting 1,453 crack riflemen, both military and civilian. He is 28 years old, was born in McGregor, Texas, and has been with the U. S. Marines about eight years.

PETITION TO CITY COUNCIL

THE STATE OF TEXAS,
COUNTY OF KIMBLE.
To the honorable Mayor and City Council of the City of Junction:

We, the undersigned qualified tax paying voters of the City of Junction, Kimble County, Texas, a town duly incorporated under the laws of the State of Texas, respectfully petition the Mayor and City Council to order an election in accordance with the laws of the State of Texas, in such cases made and provided for the purpose of determining whether or not bonds shall be issued in the amount of (\$45,000.00) Forty-five Thousand Dollars for the construction of a sewer system, and (\$15,000.00) Fifteen Thousand Dollars for street paving purposes.

Witness our hands this 31st day of January, A. D. 1929.

W. B. Buster, Mrs. W. B. Buster, C. A. Goodwin, Ovie Buster, Chris A. Schraub, Cleve Stephens, John M. Hankins, Milton F. Hill, Forrest Weldon, Jas. A. Miller, Emil A. Loefler, C. T. Hokekamp, Edgar McLendon, W. P. Riley, Joe Fritz, L. R. Hodges, Alton Mason, C. G. McDonald, C. W. Vest, Cecil H. Craven, F. M. Chase, S. P. Woodward, H. G. Hubert, W. O. Gann, T. B. Phillips, A. P. Boyett, H. O. Denman, Lillian Kindrick, A. J. Bierschwald, P. Joseph, Lanan Bissett, F. M. Cowser, J. O. Wright, E. O. Lowgren, Earl D. Tracy, B. D. Williams, M. Awbrey, Mrs. M. Awbrey, Rowland Martin, Mrs. Roland Martin, H. C. Hubbell, J. H. Savage, C. W. McCarrall, Leon R. Powell, Marx Wiesse, Mrs. Flora Hardin, J. C. Murff, G. P. Bessent, M. Wilkinson, W. M. Tinsley, Alex H. Wahl, H. H. Lawler, T. A. Wood, W. E. Cloud, B. H. McBee, W. A. Stephenson, W. H. Stephenson, J. J. McWright, J. D. Lucas, L. V. Hazelwood, Albert Becker, A. G. Farmer, C. R. Snider, Albert Taylor, B. B. Ragland, W. B. May, W. T. Carpenter.

Does it really pay you to say anything detrimental to someone's character?

Success may sometimes be more injurious than failure for us.

Remember, you don't have to go very far to do a good turn for someone.

—C. E. Kaufman.

Your little light may throw its beams a great way into darkness.

NOTICE OF ELECTION

THE STATE OF TEXAS,
CITY OF JUNCTION,
COUNTY OF KIMBLE:

Whereas, the City Council of the City of Junction, Texas, deems it advisable to issue the bonds of the said City for the purpose hereinafter mentioned:

Therefore, be it ordered by the City Council of the City of Junction, Texas, that an election be held on the 19th day of March, 1929, at which election the following propositions shall be submitted:

"Shall the City Council of the City of Junction, Texas, be authorized to issue the bonds of the City of Junction, Texas, in the sum of \$45,000.00 and \$15,000.00, respectively. (Forty-five Thousand Dollars for the purpose of construction of sewers, and Fifteen Thousand Dollars for the purpose of Street paving), payable serially within any given number of years not to exceed fifty years from the date thereof, bearing interest at the rate of not to exceed Six Per Cent (6%) per annum, payable semi-annually, and to levy taxes sufficient to pay the bonds at maturity, said \$45,000.00 bonds being issued for the purpose of construction of Sewers, and \$15,000.00 bonds being issued for the purpose of Street paving, within and for said City, as authorized by the Constitution and General Laws of the State of Texas, particularly Chapters 1 and 7, Title 22, Revised Statutes, 1925."

The said election shall be held at the Court House in the City of Junction, Texas, and the following named persons are hereby appointed managers of said election, to-wit:

Chris Schraub, Alton Miller, D. P. Taylor, W. B. Buster, and Clifford Hamer; and the said Chris Schraub shall be presiding judge, and the said Alton Miller and W. B. Buster shall be judges, and the said D. P. Taylor and Clifford Hamer shall be clerks at said election.

The said election shall be held under the provisions of the Constitution and Laws of the State of Texas, and only qualified

voters who are property taxpayers of said City shall be allowed to vote.

All voters desiring to support the proposition for the issuance of Sewer bonds shall have written or printed upon their ballots the words:

"FOR THE ISSUANCE OF SEWER BONDS."

And those opposed shall have written or printed upon their ballots the words:

"AGAINST THE ISSUANCE OF SEWER BONDS."

And all voters desiring to support the proposition for the issuance of Street paving bonds shall have written or printed upon their ballots the words:

"FOR THE ISSUANCE OF STREET PAVING BONDS."

And those opposed shall have written or printed upon their ballots the words:

"AGAINST THE ISSUANCE OF STREET PAVING BONDS."

The manner of holding said election shall be governed by the laws of the State governing General Elections.

A copy of this order, signed by the Mayor of the City of Junction, and attested by the City Secretary of said City, shall serve as a proper notice of said election.

The Mayor is authorized and directed to cause said notice of election to be posted at the Court House (the place designated for holding said election) and at two other public places in the City of Junction, all of said notices to be posted for at least thirty (30) full days prior to the date of election.

The Mayor is further authorized and directed to have said notice of election published in the Junction Eagle, a newspaper of general circulation, published in said City, and which notice shall be published once each week for five weeks, the date of the first publication to be not less than thirty (30) full days prior to the date of election.

Passed and approved on this the 12th day of February, 1929.

E. HOLEKAMP,
Mayor, City of Junction, Texas.

Attest:
JOHN S. MUNN,
City Secretary.

BOY WANTED

Wanted—A boy who stands straight, sits straight, acts straight and talks straight.

A boy who listens carefully when spoken to, who asks questions when he does not understand and does not ask questions about things that are none of his business.

A boy whose finger nails are not in mousing, whose ears are clean, whose shoes are polished, whose clothes are brushed, whose hair is combed and whose teeth are well cared for.

A boy who moves quickly and makes as little noise as possible.

A boy who whistles in the street but not where he ought to keep still.

A boy who looks cheerful, has a ready smile for everybody, and never sulks.

A boy who is polite to every

man and respectful to every woman and girl.

A boy who does not smoke cigarettes and has no desire to learn how.

A boy who never bullies other boys or allows other boys to bully him.

A boy who, when he does not know a thing says, "I do not know" and when he makes a mistake says "I am sorry," and when requested to do a thing says, "I'll try."

A boy who looks you in the eye and tells you the truth every time.

A boy who had rather lose his job, or be expelled from school than to tell a lie or be a cad.

A boy who is more eager to know how to speak good English than talk slang.

A boy who does not want to be "smart" nor in any way attract attention.

TRUSTEE ELECTION

Notices have been posted calling for the election of two trustees for the Junction School District on Saturday, April 6, 1929. These elections are held under the regular election laws of Texas.

DANCE

There will be a dance at the Dismukes Hall in Rocksprings on Friday night, March 22. Music by Al Clark's six-piece orchestra of Del Rio. They are good. Hear them. 48c

HEART OF THE HILLS SUNDAY SCHOOL CLASS

Thursday evening the members of the Heart of the Hills Bible Class held their regular monthly meeting in the Sunday School room of the Methodist church.

The class president, Mr. Ovie Buster, presided during the business meeting, which was followed by a series of amusements.

Sandwiches and coffee were served at the close of the meeting to Messrs. Ovie Buster, Frank Patterson, W. M. McDonald, L. W. Myers, Joe Bissett, A. B. Hodges, Ramsey Randall, Roy King, Howard Ragland, Jack Dalton, Albert Bierschwald, Clay Secrest, Rev. M. F. Hill and Mr. Brown.

THEY ALL FALL

A maiden passed with silken hose.

Well suited for display;

A spinster puckered up her nose,

And turned her head away.

The maiden went her way content,

The men all stopped to stare;

The spinster saw, and then she went

Two is company, but three is

a bloc that will try to get a law

passed.

WANTS EVERYBODY TO KNOW ABOUT SARGON DECLARES CAMPBELL

"For three years I was a constant sufferer from liver disorders, acid stomach, and other troubles. Sargon is the only medicine I ever found that overcame my troubles, and I wish

T. M. CAMPBELL

it was so that everybody in Texas knew about this wonderful medicine.

"No matter how careful I was about my eating, I suffered after every meal with gas pains, and indigestion. I had no relief for even the most tempting dishes. My liver was inactive and I had to take strong laxatives continually. I felt tired and run-down, and became so nervous I would roll and toss about for hours every night. As I could not get to sleep,

Sargon went to my troubles after everything else had failed. It put my stomach in perfect condition and I got real pleasure out of my meals now for I eat everything I want and I have such a fine appetite I relish every bite. I even eat between meals and at night, and now have a moment's trouble from indigestion. My nerves are strong as steel again and I sleep like a top from the time I hit the pillow until time to get up in the morning. I have gained weight and I feel fine all the time.

Sargon Soft Mass Pills completely overcame my constipation. I never have to take laxatives now for my liver is in perfect condition.

"I have already told many of my friends what a wonderful medicine Sargon is. It deserves full credit for it does just what they say it will do."

The above statement was made recently by T. M. Campbell, electrical engineer in charge of all electrical work at Fort Sam Houston, San Antonio.

Sargon may be obtained in Junction from J. A. Heyman.

SALT HARDENS TOOLS

A new steel hardening process by means of an electric furnace of revolutionary design has recently been perfected and may have a notable influence upon the tool hardening industry, according to Professor Wesley B. Hall, Electrical Engineering Department, Sheffield Scientific School, Yale University.

Electric heat has not hitherto been available for steel hardening, because the temperature required is above the melting point of the resistance units used for electric furnaces.

The new furnace consists of an insulated pot, a transformer and the necessary electrical connections. Into the pot a special salt is put, and current is passed through the salt from a vertical rod in the center of the pot to the outside walls. The resistance of the salt produces heat and at 2,800 degrees, the necessary temperature, the salt becomes molten. The tools to be hardened are dipped into the molten salt, which not only excludes all air and prevents oxidation of the steel, but is automatically maintained at the precise temperature required.

The commercial catch of oysters in Texas dropped from 114,729 barrels in 1910 to 78,993 in 1927.

No other state in the Union having even approximately the population of Texas has such a large percentage of rural residents.

FACTS ABOUT THE BIBLE

The Bible holds the distinction of being the first printed book and the King James or Authorized Version of the Bible is today the best selling book in the world. It is the only authorized Standard of America.

The Bible contains 3,566,480 letters, 775,693 words, 31,102 verses, 1,189 chapters and 66 books.

The word "and" occurs 46,277 times and the word "revere" but once.

The 19th chapter of 2 Kings and the 87th chapter of Isaiah are nearly alike.

The middle verse of the Bible is Psalm 118:8.

The twenty-first verse of the seventh chapter of Ezra contains all the letters of the alphabet except J.

The longest verse is the ninth verse of the eighth chapter of Esther. The shortest verse is the thirty-fifth verse of the eleventh chapter of John.

The 119th Psalm is the longest chapter in the Bible and every verse in it excepting two, 122 and 123, contains a reference to the Word of God.

The shortest chapter is Psalms 117.

The word Lord occurs 1,855 times. The longest word is in the 8th chapter of Isaiah, first verse.

In the New Testament there are about 243 direct quotations from the Old Testament.

The first book to issue from a printing press was the Mazarin Bible, printed between 1450-55 by Gutenberg.

The first division into chapters was made in the thirteenth century by Cardinal Hugo.

The first division into verses in 1551 by Robert Stephanus.

The Old Testament opens with five Books of history. The New Testament opens with five Books of history.

The King James or Authorized Version of the Bible was printed in 1611 by Robert Barker. The Cambridge University Press—the earliest of existing presses to produce a Bible—issued the King James or Authorized Version first in 1629.

The first Bible printed in this country was in 1663.

The first Bible in English printed in this country was in 1782.

The first Pocket Reference Bible was printed by Bagster in 1812.

The first Bible in flexible binding was bound by Bagster in 1816.

The first Bible printed on India paper was published by Bagster in 1823.

The overlapping or divinity circuit style of binding was originated by Bagster in 1865.

The Scriptures in whole or in part are published in about 835 languages and dialects.

You Should Know Where to Find: The Lord's Prayer (Matthew 6); The Ten Commandments (Exodus 20); The Beatitudes (Matthew 5); Paul's Conversion (Acts 9); Christ's Great Prayer (John 17); Greatest Verse (John 3:16).

Two hundred and fifty titles are given Jesus in the Bible. The name "Jesus" occurs 973 times. The title "Christ" occurs 556 times. The title "Lord" occurs 780 times.

The name "Jesus" means literally, "God who is salvation." The New Testament may be read through in just one year by reading five chapters each and every Sunday.

The Bible may easily be read through in one year by reading three chapters each week day and five every Sunday.

HERE IS A BARGAIN

In a real automobile—Six Hudson 4-Passenger Coach.

Fully equipped; has special oversize balloon tires that give 20,000 mileage; New battery, new top, original paint, in fact car is O. K. and sold originally for \$1500 without extras. It is a good car for anyone that wants quality in a second-hand car. Had the finest care taken of it, and is worth double the price asked.

Has two extra rims with good tires on each and four extra good tires on car. Biplax bumpers, good brakes, etc. \$850 buys it and part terms if you want it, and may take trade in.

Lots of power, speed and easy riding. Come and drive it. See Alex J. Hamer or Clifford Hamer.

WILL WEDDINGS EVER BE WRITTEN LIKE THIS

Did it ever occur to you that in the usual news of a wedding a man gets about as much attention as a delegate from a fourth-class principality at a conference of nations? It doesn't seem right. The other night when repeated failures to get to sleep dragged along until the early hours, the observer resolved to change that particular failing. Some time he is going to write a wedding story where the Princess Mary gets no more space than Count Lascelles. If he likes the method, it may become universal.

Mr. Phil Bert, son of Mr. and Mrs. Brazil Nut, of Nottingham, became the bridegroom of Miss Equal Wrights at high noon today. The ceremony took place at the home of the groom's parents and was largely attended.

Mr. Nut was attended by Mr. Pecan as groomsman. As the groom approached the altar he was the cynosure of all eyes. Blushing prettily he replied to the questions of the clergyman in low tones but firm. He was charmingly clad in a three-piece suit consisting of coat, vest and pants. The coat of some dark material was draped about the shoulders and tastefully gathered under the arms. A pretty story was current among the wedding guests that the coat was the same worn by his father and grandfather on their wedding days. Mr. Nut neither affirms nor denies the truth of this sentimental touch. The vest was sleeveless and met in front. It was gracefully fashioned with pockets and at the back held together with strap and buckle. Conspicuous on the front of the vest was the groom's favorite piece of jewelry, an Odd Fellow's pin and from the upper left pocket was suspended a large Ingersoll watch, the bride's gift to the groom, which flashed and gave the needed touch of brilliance to a costume in perfect taste and harmony.

The groom's pants were of some dark worsted and were suspended from the waist, falling in a straight line almost to the floor. The severe simplicity of the garment was relieved by the right pantaleet which was caught up about four inches by a Boston-Brighton worn underneath revealing just the artistic glimpse of brown hole-proof above the genuine leather shoes, laced with strings of the same color. The effect was rather chic.

Beneath the vest, the groom wore blue galluses, attached fore and aft to the pants and passing in graceful curve over each shoulder. The pretty and useful part of the costume would have passed unnoticed had not the groom muffed the ring when he groom's man passed it to him. When he stooped to recover the errant circlet the cerulean hue of the galluses was prettily revealed.

His neck was enriched with a collar characterized by a delicate sawedge and around the collar a loosely knotted scarf that it rode up under his left ear with studied carelessness which marks supreme artistry in dress.

Mr. Pecan's costume was essentially like the groom, and as the two stood at the altar, a hush of awed admiration enveloped the audience at the complete and wonderful harmony of the raiment. Actually you could hardly tell one from the other had it not been for the patch of court plaster worn by the groom over the niche in his chin made by a safety razor.

Neither Mr. Nut or Mr. Pecan wore a hat at the ceremony.

As Miss Wrights led her groom from the nuptial ceremony, she wore the correct costume with orange blossoms.—Exchange.

TEXAS STATE FLOWER

The Texas flower is the Blue Bonnet which covers the meadows and fields of a vast portion of the State. By legislative enactment in 1901 this flower was made the State flower. The five petals of the flower stand for the five prongs of the "Lone Star."

Texas' largest tree is a giant live Oak at Rio Frio, in the southeastern part of Real County. The spread of its branches is 100 feet.

AMONG OUR SUBSCRIBERS

New subscriptions and renewals continue to come in each week. The management appreciates the hearty response on the part of our readers. Every effort is being put forth to give a good paper and our large number of readers express their appreciation of the efforts and tell us that the Eagle is a good paper.

Our readers are asked to watch the label on their papers and renew as soon as the paper has expired. If the label has 28 on it your subscription has been over some time. If it reads 3-29 it means that your subscription expires this month.

The following have paid during the past few days: M. C. Hull, H. O. Denman, A. A. Edmundson, B. H. Allsup, Mrs. J. O. Davis, Mrs. H. D. Taylor, L. R. Hodges, Carl Wolf, J. W. Pearl, T. T. Randle, Gully Cowert, Mrs. Ollie Fleming, S. A. Stewart Ollie Fleming, J. S. Walton, L. M. Walton, Tom Wilson, B. W. Davis, J. F. Ragsdale, Chas. Schmidt, O. T. Murr, I. S. Foley, J. D. Baker and H. I. Taylor.

DID YOU KNOW THAT—

The South produces
All of the Nation's bauxite?
99.9% of the Nation's sulphur?
99% of the Nation's phosphate?
99% of the Nation's graphite?
99% of the Nation's carbon black?
94% of the Nation's barite?

MEMBER
TEXAS PRESS
ASSOCIATION

A genius is one that puts
more into life than he takes
out of it. That's the reason
we have so few geniuses.

A good home does not always
assure a happy marital life, but
it goes a long way in paving
the road over which the couple
travels.

The oil men keep on coming
to Kimble County. They seem
to think that oil is here, and
they are out to prove it. Much
activity is centered about the
London community at present.
Noxville is getting in on the
movement also. Even if no
oil is struck the activity will
aid in clearing many land titles
in the county.

The county health officer, Dr.
H. E. Luehrs, made an appeal
to the citizens of this county
last week for their concerted
co-operation in making Kimble
County a healthier place in
which to live. He is interested
in improving living conditions
among our people, and deserves
the support of the populace.

Judge J. B. Randolph spent
some time last week visiting in
the rural schools in the county
and becoming better acquainted
with the situation in this coun-
ty. Judge Randolph has the
best interests of Kimble Coun-
ty at heart and is proving it by
the interest he takes in the road
situation, the court house lawn
and the schools.

The officials of the Interna-
tional Exposition and Live Stock
Show of San Antonio were dis-
appointed with the support San
Antonians gave to the show this
year. A number of people of
people from Junction attended
the exposition and declared it
worthy. It goes to show that
humans are all about alike,
whether they live in cities or
the country. We never appre-
ciate fully the things nearest
us. Distance always adds glam-
or to the most mediocre things,
and the best things do not fulfil
expectations when viewed from
close range.

Quite a number of the people
have taken the clean-up cam-
paign to heart, and are improv-
ing the looks of their property
by having all the rubbish car-
ried off and the premises beau-
tified. Mr. Chas. Ramsey has
already had the trash cleaned
up behind his variety store and
several of the business men are
entering upon the campaign
in earnest. It will take time to
get the whole city cleaned up,
but a good start now will hasten
the good work. And a few shin-
ing examples will do much to
encourage others to get to work.
It is well to remember that
a city cannot take too much
interest in the civic develop-
ment. Constant effort and per-
severance will aid much in
making Junction a real show
place.

A number of comments were
received upon the last issue of
the Junction Eagle. It was the
largest paper ever published in
this county, and was dedicated
to the department store which
Philip Joseph opened last Sat-

urday. It was an indication
that the field of rural or com-
munity journalism has yet room
for much exploiting. The small
print shop of two decades ago
could not get out such a paper
on short notice. Better equip-
ment, more modern methods and
more skilled workmen are the
reason that such issues are pos-
sible today. We still contend
that the community paper occu-
pies an integral part in the com-
munity life. A town without
a good newspaper cannot go
forward. The gauge of the
activity and success of a town
is the local paper.

IS FOOD NECESSARY?

The war between the food
interests and one of the big
cigarette manufacturers has in-
vaded the halls of Congress, and
has appeared frankly uncensor-
ed in the Congressional Record.
Food manufacturers and dis-
tributors feel that they have
been unfairly attacked by the
cigarette company's nation-wide
propaganda designed to win
women from eatables to smokes.
The food people are putting up
an aggressive defense with an
impressive group of Senators
and Congressmen as their
spokesmen and allies.

The style to be thin, which
has claimed the persistent de-
votion of femininity since the
War, has been called upon by
these tobacco interests. Women
are pictured as willing to give
up anything, even wholesome
foods, in order to acquire and
retain attenuated figures. The
big idea behind the cigarette
advertising seems to be—smoke
more cigarettes because they
destroy the craving for "fattening
foods." The food industries
are indignant at the promotion
of the doctrine that the artifi-
cial destruction of the natural
appetite for food by smoking
is a benefit to health.

Meanwhile, one of the women
political leaders in Washington
rises to remark: "Taking the
past history of our sex as a
criterion, there is no ground for
supposing that mere propaga-
nda can induce it to abandon
sweet foods for cigarettes,—not
for any length of time at least.
The fair sex and sweets go
together, and their proper and
moderate use has nothing at all
to do with obesity. There is
sound feminine philosophy in
the slogan devised by a cigarette
manufacturer who says: 'Eat a
chocolate, light a Blank brand,
and enjoy both.'"

V. A. CLASS PLANS
RADIO FOR SCHOOL

The Vocational Agriculture
class has voted to donate a
radio to the Schreiner High
School. The "Progressive Far-
mer" in connection with the
American Radio Co. have de-
cided to help as many high
schools as will put forth some
effort to get a radio in the
school. This is the way they
offer to do it. The radio com-
pany makes reductions on the
radios, and the Progressive Far-
mer gives the radio to the
school for securing a certain
number of two-year subscrip-
tions to their weekly farm pa-
per. For 150 two-year sub-
scriptions at \$1.00 each, they
will give a Radio "18" which
would cost \$147.00 if bought in
the open market. For 200 sub-
scriptions at \$1.00 each they
will give a Radio "60" which
would cost \$203.00 if bought
in the market.

President T. O. Walton of
A. & M. College and State
Supt. S. M. N. Marrs are both
endorsing the plan and state
that they would like to see a
radio in every high school in
the State, and that this would
be a decided forward step in
our educational system.

We feel that this is a fine
project for the vocational class
to undertake and they are to
be highly commended for so
doing. It is going to take quite
a bit of work for the boys to
put this over, and they will
need the co-operation of the
people of the community. Let's
help them. The "Progressive
Farmer" is a good farm paper
and a two-year subscription is
well worth your dollar.

Mr. C. L. Davis, State Super-
visor of Agriculture Education,
recommends that every farmer
and every vocational agricul-
ture boy take this paper.

Contributed.

An Iowa man shoveled the
snow off his sidewalk and then
hanged himself. He is likely
clear of that job whatever else
happens.

W. P. RILEY CHAIRMAN
PHILIPPINE DAY HERE

May 1st, the anniversary of
the Battle of Manila, has been
designated as Philippine Day by
the Trustees of the Leonard
Wood Memorial for the Erad-
ication of Leprosy, and every
town, city and village in the
United States has been asked
to join in this observance. On
May 1st, 1927, Major General
Leonard A. Wood appealed to
the American nation for a fund
of \$2,000,000 to eradicate lepro-
sy in the Philippines, where
the largest colony of these pit-
iful human beings found any-
where are living under the Stars
and Stripes. The response was
instantaneous, over \$1,000,000
having been contributed; and
on May 1st, 1928, an effort will
be made to reach the objective
of the campaign—completing
the memorial of this great sol-
dier's work among the lepers of
the Philippine Islands.

Mr. W. P. Riley, president of
the Junction State Bank, has
been invited to act as local
chairman in Kimble County. If
you are interested in relieving
those afflicted with leprosy
communicate with Mr. Riley.

LATE NEWS ITEMS

Attorneys for former Con-
gressman Harry M. Wurzbach
Wednesday filed a motion to
quash the Federal indictment
charging him with having vio-
lated the corrupt practice act,
returned recently at Waco. The
motion as placed on the docket
may be taken up any day now
upon agreement of the United
States district attorney, accord-
ing to Hugh R. Robertson, at-
torney for Wurzbach. Should
the district attorney fail to call
up the motion it will probably
be set for hearing on or before
March 23, Robertson said.

By the overwhelming vote of
95 to 12, the House Wednesday
sustained Acting Speaker Fred
Minor of Denton in overruling
points of order that would have
had the effect of declaring the
road amendment finally passed,
in spite of the fact the last vote
was 97 ayes, 80 noes, and four
pairs on the bond plan. The
validation of the votes of the
three persons paired and pres-
ent who voted for the amend-
ment, as votes for the bill, was
the purpose of a group of bond
plan proponents, led by Repre-
sentatives Frank Baldwin and
Emmett Morse.

Federal army aviators explor-
ing the country between Saltillo
and Torreon along the Coahuila
& Pacific Railway reported that
rebel forces in that vicinity
were in disorderly retreat. They
had abandoned their trains be-
cause of lack of fuel for the
locomotives.

A bit of scandal is often a
red herring drawn across the
trail to divert attention from
the scandal-monger's own mean-
ness.

Are You
A Partner?

If you are not, you will be happy when you become
one for then you'll be on the right road—the road
to thrift and saving; if you follow that road to the
end it will lead to financial independence. Invest
in our \$6 Preferred Stock, it will put you on the
right road.

In the extension of our lighting and power service
we are constantly in need of new capital. The
proceeds derived from the sale of Preferred Stock
will be used in developing the properties of the
Company. At the present time we are serving 108
growing cities, towns and rural communities in
West Texas with electric energy, ice, gas or water.
This affords security with proven earning power.

When you become a PARTNER you will have a
safe investment of high yield and marketability,
an investment in one of the basic industries of the
Nation, where your money is put to work at home.

Shares at \$36.00 each (no par value), with divi-
dends payable every three months at the rate of
\$6.00 yearly per share can be purchased from any
employee of the Company or direct from our In-
vestment Department.

POULTRY COLUMN

(By F. W. Simpson)

Chicks to Roost
Get the chicks on the roost as early as possible. This will prevent crowding and many other troubles, common to growing chicks. It will help them feather more quickly. Some think crooked breast bones are caused by roosting too early. This is not true in the majority of cases. Faulty rations are a more common cause of crooked breast bones. A good way of roosting chicks early is to build a sloping roost close to the floor in the rear of the house, covering the underneath side with a one-inch mesh poultry netting; this naturally causes them to go up the roosts. At first only a few will use the lower roosts, but as night more will use them, until soon a large portion of the flock will be on the roosts at night. The roosts may be hinged to the back of the house so they can be raised up against the inside of back of house during cleaning time.

Separate the Males

In the case of early hatched chicks at the age of 10 weeks to 12 weeks, remove the cockerels, and either place them on the market or fatten them for a week or ten days. Early hatched cockerels are best marketed as broilers. At the present time 1½ to 2 pound cockerels are bringing all the way from 30 cents to 40 cents per pound depending upon your local market and also upon the breed. At least it is necessary to separate the cockerels from the pullets at between 8 and 10 weeks of age. This will make more room in the house for the growing pullets. Crowded pullets in the houses will retard their growth and cause such diseases as colds and roup. If you are going to sell the cockerels locally, we recommend crate or battery fattening, on the other hand, if you are going to ship them any distance to the market, crate or battery fattening is not very profitable, because they will lose too much enroute which the commission merchant will figure off as shrinkage. A shrinkage of from 7 percent to 10 percent may be had on battery fattened broilers shipped long distances. For fattening any of the good commercial fatteners may be used, mixed with milk preferably butter milk, to a consistency where it will readily pour from a bucket. Do not stuff them too much the first few days of the fattening period, but keep them a little hungry, and the last 3 or 4 days give them all they will eat 3 times a day. As soon as they lose appetite dispose of them.

Range and Shade

The more nearly ideal conditions you can provide for your flock, the better they will do, and the less trouble from disease. If possible allow them to run out doors, on a well drained range, where no chickens have been the past twelve months or better still, the past 24 months. An ideal place is one with clean soil, well shaded with plenty of green food. Shade is important during the hot summer months. Green food is always important.

Chick Losses

There are a great many things that can cause the loss of baby chicks. It is surprising the number of people that do not appreciate the importance of preparing for baby chicks, and then giving them good care and attention. No doubt the majority of chicks manage to exist in spite of the reckless care they receive. Thousands of people each year raise the chicks in make-shift brooders, on the same ground with the grown hens. It is not surprising to know that more than 50% of the chicks hatched die before they are three weeks old. It is surprising that not more die. The average brood of baby chicks is not given a fair chance to live and grow.

White Diarrhoea

Many people confuse White Diarrhoea with common bowel trouble. The external symptoms are very much alike. Nobody can diagnose this disease without sending the chicks to a laboratory for a microscopic examination by trained men. Before you pronounce the trouble as White Diarrhoea, investigate the possibility of mismanagement as being the chief cause. Chilling the chicks or over-heating them after they have been fed is a common cause of bowel trouble. Chilling is probably the greatest cause of them all. Watch the

WIFE FINDS HUSBY IS ANOTHER WOMAN

London.—The "wife" of "Capt. Leslie Barker" was surprised to learn her "husband" was a woman.
"Captain Barker," a boxing instructor, was arrested in connection with a bankruptcy proceeding and is being held in the woman's prison at Holloway.
"He" married Elfrida Howard, daughter of a druggist at Little Hampton, at Brighton, in November, 1923, after a courtship of two years. The wedding was witnessed by the parents of the bride, who said their daughter at first was very happy but later became miserable and left "him" two years ago.

The wife is now living with her parents, who said she was unaware of the masquerade until she read the newspaper stories.

brooding temperature very closely, especially the first ten days. The proper brooding temperature is fully as important as the feed and feeding. Feeding spoiled feed quickly causes bowel trouble and great mortality. The best way to feed baby chicks is to buy any of the good commercial baby chick feeds and feed it according to the directions of the manufacturers. The old home mixtures are satisfactory, but a good commercial baby chick starter is much superior. A few chicks saved will more than pay for the higher price of the ready mixed feed.

Patent Diarrhoea Cures
It has been our experience, that medicine is of little value in curing either bowel trouble or White Diarrhoea. Cleanliness, Sanitation and other common practices of good poultry keeping. It is good practice to prevent these ailments rather than trying to cure them. White Diarrhoea among baby chicks at present is considered incurable. Good care and feeding is the best medicine for baby chicks and growing chicks.

Toe-Picking
Is a bad habit generally caused by improper feeding and management. Over-crowding will cause the trouble. Too close confinement will also cause it. If they develop the habit, paint the toes or other parts attacked with coal tar, roofing cement or a special remedy put out for this purpose and remove the cause, if possible. Give more room, allow chicks to run out doors and feed plenty of green food and milk. It is not often that the ration causes the trouble. Keeping the chicks too warm also, sometimes develops this bad habit.

An "anti-necking lamp" law in Japan requires that all autos be fitted with a dome light which must be illuminated when driving at night. New light on an old subject.

We have appointed Mrs. W. W. Chaison as our EXCLUSIVE AGENT for JUNCTION and vicinity. Having our own greenhouses and being the LARGEST FLORISTS and GROWERS west of San Antonio are always able to take care of any and all orders, NO MATTER HOW LARGE, for funerals, weddings or for any occasion. We also carry a full line of bulk Garden Seed, Bulbs, Plants, Insecticides, Fungicides and Fertilizers.

BLACK HEN ADOPTS SIX COLLIE PUPPIES

Kerrville.—Six Collie puppies on the ranch of J. N. Harrison, 10 miles from Kerrville, have been adopted by a black game hen inclined to be motherly and having no brood of her own. Grows from the mother of the 3-week-old puppies do not bother the hen. She looks after the welfare of the little dogs during the day and attempts to spread her wings over them during the night. Upon finding a morsel of food that might appeal to chicks, she clucks loudly to the puppies.

INCOME TAX REPORT

The time for filing reports with the Internal Revenue Collector will close on March 15 unless an extension is obtained. In case of sickness an extension may be obtained. Many have to make reports who pay no taxes. The government employees could be saved much time if some way could be worked out so that the large number of non-payers could be relieved of making the reports. Much worry and annoyance would be removed from those who are compelled to make such reports.

SOLAR SYSTEM

The planets in the solar system, in the order of their distance from the sun, are Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune. Mercury is 35,960,500 miles away from the sun and is the planet nearest to it. Neptune is furthest away—2,793,487,000 miles distant. The earth is 92,897,400 miles away from the sun.

After you think you've learned to say a firm "No" to certain propositions, a man comes along with something that seems different and you promptly say "Yes" and lose another \$500.

MRS. MURRAY ACCEPTS SHERIFF APPOINTMENT

Mrs. Alma Murray, widow of Allan T. Murray, was appointed to the office of county sheriff and tax collector by the County Commissioners Court Tuesday afternoon to fill out the unexpired term of Mr. Murray. Mrs. Murray has accepted the appointment and plans to make bond and meet other requirements for office within the next few days in order that she may be legally recognized holder of the office in time for district court which convenes here Monday, March 11.—Mason County News.

Two of the newer additions to the list of 21,000-odd uses of gas are a hair drier for women bathers, which does the trick in a few minutes, and an air heater and accessories, including a recirculating system which dries papier mache speakers for motion picture theatrical work.

OLD DOC BIRD

Value and Possibility of Native Pecan Groves

The present valuation of our native pecan groves is very low as per statement made by a man from the Federal Reserve Bank of Houston, Texas. The valuation of native pecan groves is based on the actual production of such groves and not what it might do when properly cared for.

The reason for the low valuation is as follows: A pecan grove that produces ten thousand pounds of native pecans every year is valued as per income from the crop. The grove, when cleared and thinned out to a reasonable stand, gives the pecan trees lots of room for root pasture and air drainage which is very necessary in the western part of the pecan belt of Texas. By clearing out the underbrush and weeds which rob the moisture from the trees it will then bear regular crops. Why? Because it can get enough moisture and plant food to produce a crop of pecans and also grow enough limbs to set another crop the following year.

This same grove in ten years, when properly cared for, will produce one hundred thousand pounds of nuts a year. This is not guess work or paper talk but actual facts.

The grove that was valued at an estimated crop of ten thousand pounds is now, after ten years, valued at an estimated crop of one hundred thousand pounds. The cost of clearing the native grove is very small and the cheapest way is the deadening of the timber with a tree poison which costs about two to five cents per tree.

The trees when dead will not interfere with the growth and production of the pecan trees that are left as permanent trees. The dead trees will soon fall, and they can be burned during the winter months.

The native grove can be made more valuable by topworking the trees with a better and more regular bearing variety. Over 50 per cent of the native trees are irregular bearers and these shy bearers and trees with small and inferior nuts should be topworked first. It is useless to topwork pecan trees that are crowded with other timber, because they will not bear good nuts and regular crops. Very old trees and large trees without a good framework of limbs are undesirable to topwork.

It is needless to say the cheapest and quickest way to obtain a real improved pecan

orchard is by topworking the native pecan trees. Texas has millions of native pecan trees that have grown up in the best pecan soil in the world. The fact that the pecan trees have grown on these soils for untold number of years, makes it a fact that this is the best kind of soil to grow pecans on with the least expense such as cultivation, irrigation and fertilization.

Topworking Large Pecan Trees is topworking large pecan trees a success or failure?

Topworking large pecan trees is not a new experiment. The work began some 35 or 40 years ago and now we have some trees that were over three feet in diameter when topworked and these trees have complete new tops of improved pecan and are bearing regular crops of fine nuts.

A small tree six inches in diameter topworked with eight buds will bear a nice crop of nuts the third year if properly budded and cared for. A large tree twenty-four inches in diameter budded at the same time with 80 buds will produce about nine times the amount of nuts the third year. The cost of topworking the twenty-four inch tree will probably be as much as the cost of topworking nine small trees six inches in diameter. One good crop of nuts either the third or fourth year will pay for the work done on each of these trees.

Now here is the difference between the two trees; it took the large tree probably seventy-five years to grow that size. In five years after budding it has paid for all the work done on the tree and has regained its normal size. The small tree will do likewise. The comparison of the trees is as follows: The large tree will bear 225 pounds of pecans in one year; the small tree will bear fifteen pounds. This is the reason it would be foolish for a man to destroy a large well framed tree and save a small six inch tree to topwork.

Most men think it is more economical to topwork the small tree but figures show that he is a loser. It is a good practice to topwork the small tree before it gets too large, but it is foolish to sacrifice a large tree with a good framework of limbs for a small one.

MESSAGE FROM STATE DEPT. OF EDUCATION

(by S. M. N. Marrs)
We are sending out this week a payment of \$3.50 on the per capita apportionment. There remains \$5.50 yet to be paid. You may expect to receive the major portion of this in April.

Teachers' Contracts. I wish again to call your attention to the fact that the Legislature has not passed the rural aid law for 1929-1931. This will be enacted in the Special Session. No contracts affecting rural aid schools should be made until the terms of the law have been fixed by the Legislature and the State Board of Education. This will prevent much confusion and misunderstanding on the part of teachers and trustees.

Six Year Olds. No change will be made in the status of the six year olds for the session of 1929-1930. They will not be enumerated until March, 1930, and consequently, will not become the beneficiaries of the free schools until September first, 1930.

Scholastic Census. The census is being taken this month. Great care should be exercised by school officials to exclude all duplicates. The law is very definite that children shall be enrolled in the district in which they live. There has been some complaint to the effect that local trustees have failed to enroll children who habitually transfer to other districts. Such negligence is a violation of the statute.

Certificates. The legislature has amended the certificate extension law so that only three college courses are required in summer schools instead of four, and certificates may be extended from year to year by summer school attendance.

THE MOON

The mean distance from the earth to the moon is 252,715 miles. The surface of the moon contains about 14,657,000 square miles. The earth's satellite is in perigee when it is nearest the earth; it is in apogee when it is furthest away. The average time required for the moon to revolve around the earth is 27 days, 13 hours, 18 minutes, 33 seconds.

CUTWORMS FEED AT NIGHT

Cutworms take unfair advantage of the home garden and carry on their depredations at night, and sometimes on dark, cloudy days. Investigation of the soil close to the injured plants, however, will often disclose the guilty worms hiding in small burrows. It is easy to get rid of them by a poisoned bait, and the U. S. Department of Agriculture recommends this one: Mix 5 pounds of dry bran and 1/4 pound of Paris green, stirring very thoroughly. Mix 1 pint of sirup or molasses with 3 or 4 quarts of water, and add this solution to the bran and poison, stirring the whole mixture constantly and slowly. Add only enough water to make a crumbly mash. Put the bait around late in the evening so that it will not dry too much before the worms come to feed. It can be broadcast or sown by hand along the rows or about the base of the plants. Many kinds of cut worms overwinter in the soil and begin to work early in the spring; therefore early treatments before the crops are planted, or before they come up, will be of great advantage in the prevention of crop damage by these pests.

CHICKEN THEFT BILL SIGNED BY GOVERNOR

Austin, March 9.—Chicken theft is now punishable by imprisonment in the penitentiary. Governor Moody Monday signed the bill making theft of a chicken, turkey, duck, goose, guinea or other domestic fowl a felony. It carries the emergency clause and becomes effective immediately.

Under the law an offender can be punished by confinement in the penitentiary for two years or sentenced to jail for not more than 100 days or fined not more than \$200 or both.

Anger, gossip and grouches work both ways, every time.

RACES OF MANKIND

Three principal races are now recognized, these being the white, yellow-brown and black. The white includes the Mediterranean, Nordic and Alpine. The yellow-brown includes the Mongoloids, Malays and American Indian. The black includes the Negrito, Negritos, Bushmen, Melanesian Negroes, African Negroes and Australian Negroes.

Special Bargain in a Chrysler 72 Sedan, nearly new

Clifford Hamer

17th June Ann

Another young lawyer arrived in Junction, and is staying at E. R. Blackburn's and will call him soon.

R. A. Peterson and F. M. Chase have bought the O. H. Lee business property on main street; consideration \$4,500.00.

Joe Platen, a prominent Bear Creek ranchman, was in Junction Monday.

Amel Walker has bought the McWilliam's place.

Max Coleman has sold 11,000 head of cattle to Mr. Kirkpatrick.

Jack John, Barney Bagland and Ed Thompson made a flying trip to Kansas this week.

Rayman is having some considerable improvements made at the City Drug Store.

A. C. Green, president of the Linn Irrigation and Milling Co., and Mr. Henny, civil engineer, both of Houston, are here this week prospecting with a view of improving the company's property.

Mrs. John M. Hankins and Edith Mabel Lee and Eliza left this morning for a visit in Nevada and San Antonio.

Miss Mary Russell, who has been teaching on the Divide, returned Sunday to her home in Kentucky.

Quite a number of our ranchmen are overhauling their sheep and goat taking off their winter coats.

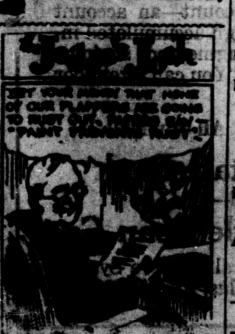

Bessie and Fenton are in the land when it comes to fish, but with our beautiful Lake and the abundance of water fish will soon be plentiful.

Miss Mary Curtis that could be by no means less was demonstrated to a surprised public here Sunday morning. The little lass was a member in a great deal over another communication of the continued efforts. Before we had time to return from Friday's surprise, the news greeted us of another farming of matrimony. In westward we learned the week yesterday to be a wedding. The bride and groom were Mr. and Mrs. Curtis. The contracting parties were Mr. H. H. Henderson and Miss Anna Curtis. Nothing so satisfactory from anyone save the County Clerk, but without making it generally known their intention the young couple had themselves in the Junction hall square Sunday morning where the Rev. H. Jeffrey, pastor of the Methodist church, made them man and wife.

The wedding ceremony was held in the Junction hall square when the young couple were married. The bride was escorted by Mr. Henderson and his bride took to sit like their husbands but quietly slipped off to the Durst home Friday evening where the ceremony was performed by Elder John S. Durst. Mr. Henderson is a very popular young business man of this place. All his friends declare him exceedingly fortunate in having one so charming and accomplished lady as his bride. As these two happy souls launch out on the broad ocean of love's most chaste realities may their sail be made ever delightful by the golden radiance of the pleasure of matrimony and by the attendance of the brightest pretensions of all earthly joys.

It is believed Texas can reach a population of 10,000,000 without becoming predominantly urban.

Happy is the man who takes his wife to his work every day.

LIST OF BOOKS P. T. A. PLAN TO SECURE FOR HIGH SCHOOL LIBRARY

Below is a list of the books the Parent-Teachers' Association of Junction is planning to buy for the Junction Public Schools. Everyone interested in the schools and the books the children read are urged to read the following list carefully, and if you have any of these books that you will give to the school members of the P. T. A. will appreciate it if you will call up any member of the association, who will be glad to see that the books are properly labeled and placed in the library.

In the absence of a public library, those interested in a library for Junction should assist the P. T. A. in building the school library so that it will serve the people of the county. The women will arrange for the library to be open at stated times during the summer months if enough books can be placed in the library to justify some one to keep the library open on stated days during the week while school is not in session.

Read the list below and if you can donate books or money for the library it will be duly appreciated.

Arabian Nights
A Man for the Ages—Bacheler.

Peter and Wendy—Barrie.
Mary Cary—Bocher.
Rob and His Friends—Brown.
The Secret Garden—Burnett.
Little Lord Fauntleroy—Burnett.

The Three Fates—Crawford.
In the Palace of the King—Crawford.
The Heart of Rome—Crawford.

Whoever Shall Offend—Crawford.
Green Mansions—Hudson.
The Blue Window—Bailey.

NEW PONTIAC BIG SIX AT POWELL MOTOR CO.

Mr. and Mrs. Leon Powell and son, Milton, returned last Friday from San Antonio with one of the New Pontiac Big Sixes. Mr. Powell is glad to demonstrate this big car with power, speed and smoothness "at a price you're glad to pay."

"Here, truly, is a new idea in low cost motoring luxury," stated Mr. Powell in talking about the new Pontiac. "A car conceived, designed and built for those who want something more than the cheapest."

This new Pontiac is now on display at the Powell Motor Company and Mr. Powell invites those interested in the New Pontiac Big Six to call and let him demonstrate the superb qualities of the new car.

CHRISTIAN CHURCH

Services will be conducted by the Rev. John Thompson of Mason at the Fannie Dupuy Memorial Church Sunday at 11 a. m. and 7:30 p. m. Everybody invited to these services.

BUILDING MATERIAL

When in need of any kind of building material, such as lumber, cement, lime, tile, etc., call or see Dan St. Clair.

The word "Texas" comes from the Spanish pronunciation "Teh-as" the name of an Indian tribe encountered by the Spaniards in 1519.

Novelty Bags

Novelty Bags to match your Spring ensemble. See them now at

LEGISLATURES 90-DAY LAWS IN EFFECT JUNE 12

Austin—Ninety day laws of this session of the Legislature will become effective June 12. That day will be the 90th day after the adjournment of the Legislature on March 14.

It is the custom to make most criminal laws become effective 90 days after adjournment. Many other acts also become effective on that date for various reasons, such as failure to receive a recorded two-thirds vote in each branch.

Even though a bill has the emergency clause calling for the measure to go into immediate effect it does not so respond unless there is a record vote in each house showing that two-thirds of those present voted for the bill.

A large number of laws enacted at the current session will go into effect on June 12.

BEAUTIFUL COURT-YARD

With the approach of spring the Kimble County court-yard is becoming a real beauty spot. Judge J. B. Randolph takes a pride in the appearance of the yard and plants trees, flowers and shrubbery that are both useful and beautiful.

Abstracts for your lands can be secured on short notice from E. Holckamp; 25 years in business; we know how. (adv)

RHEUMATISM

Pain in neck, shoulder, arm, hip, hand or foot may be due to rheumatism. Dr. J. B. Randolph, 25 years in business; we know how. (adv)

CHEER UP

There is nothing so bad that it cannot be worse: There is no cloud so dense The sun cannot disperse; Oh, winter is long but The spring comes at last With renewal of life; let's Forget the dark past; Let the days be all sunshine And laughter and love. Cheer up! see through the Clouds, the sun is above. Cheer up and be happy.

There is nothing so bad that it cannot be worse: There is no cloud so dense The sun cannot disperse; Oh, winter is long but The spring comes at last With renewal of life; let's Forget the dark past; Let the days be all sunshine And laughter and love. Cheer up! see through the Clouds, the sun is above. Cheer up and be happy.

'Tis a message of cheer, Cheer up and get busy, There's nothing to fear; For trouble is nothing But thought after all, So, we may as well think it Is nothing at all. Life's just what we make it, So let's while we're here, Cheer up! and be happy— There's nothing to fear! Jamie Heron.

If you're paying all your bills you're doing pretty well.

If You Are Mr. Average Chevrolet Owner We Know You Are Interested In Low Upkeep Cost. When We Service Your Car You Save Money In Four Ways:

1. GENUINE CHEVROLET PARTS. Because in using nothing but Genuine Chevrolet Parts for all replacements, they wear longer, give better satisfaction and also cost less to install because these parts are manufactured with the same precision methods that are used in the manufacture of the car originally.
2. FLAT RATE CHARGES. Our service charges are based on a low Flat Rate System worked out by Chevrolet factory experts. All our work carries the

minimum charge for first class workmanship and genuine Chevrolet parts.

3. FACTORY TRAINED MECHANICS. Our mechanics are specially trained in Chevrolet service work at the Chevrolet factory and can perform every service operation intelligently.

4. SPECIALLY DESIGNED EQUIPMENT. Our shop equipment is designed for Chevrolet service work—every machine is built to do its job perfectly and in the most efficient manner.

Your car was built to give good hard everyday service but a reasonable amount of care is required—give it that and you will find your car responding with service fit to brag about.

You can depend on us to keep your car running satisfactorily at the least cost to you because every satisfied owner means increased business for us.

Junction Trade Notes

FOR INCREASED TARIFF ON PECANS

Junction Texas, 3-8-'29
Ways and Means Committee,
House of Representatives,
Washington, D. C.
Gentlemen:

Permit us to write you in the interest of the pecan growers of Texas, who have just passed through a disastrous marketing year due to low prices. In the trade territory of the town of Junction alone it is conservatively estimated that 250,000 lbs. pecans remained ungathered on account of unprofitable market, and we feel sure the same condition prevailed in other pecan sections of the State.

In this section pecan culturists have expended a great deal of money in improving their orchards by top-working and grafting methods, but this work and expense may go for naught in the face of bad markets, and the pecan industry of Texas, which has promise of becoming one of the important basic industries of the State, may be set back for an indefinite time due to, no dereliction of the Texas producer, but to competition with cheaper living standards and cheaper methods of production in Mexico.

Only recently, newspapers noted the importation of 40,000 lbs. shelled pecans through the port of Eagle Pass during the month of December. That may appear as a small item but it is easy to visualize what may be the consequence to Texas pecan culturists if the importation becomes general, which it is sure to do unless an adequate tariff, that will equalize production methods, is laid.

We believe the pecan industry of Texas and other States would be materially strengthened, and its future permanency assured, by employing the tariff to overcome cheaper living standards and resultant cheaper methods of production that prevail in Mexico.

Yours very truly,
Gann Grocery Company.

Hill Country.
Kerrville Chick Hatchery.
46-4c Kerrville, Texas.

KNOW TEXAS

The total population on tenant
farms in Texas is about
1,250,000. On owned farms it
is 862,000.

About 1,000,000 persons residing
in Texas were born in
other states, Tennessee leading
with 115,861 and Alabama next
with 103,244.

The number of families in
Texas has increased from 575,
734 in 1900 to well over a million
at present.

The center of population of
Texas is about 13 miles south-
west of Waco.

The population of Texas has
increased about 17.6% since
1920, being estimated at more
than 5,490,000.

The population per square
mile in Texas is about 20.9,
as compared with 40.4 for the
entire United States.

If you wish to be someone
you must act according to your
best conviction.

THE NEW FORD

It required seven years to
build a MILLION Model T
Fords. But in about fifteen
months the million mark was
stamped on the Model A. This
happened in the early part of
February this year. Thus with
this remarkable production
achievement, Mr. Ford answers
the doubts of the doubters.

The January total for World
production of the Model A was
159,786 cars of which 132,072
were built by domestic plants,
16,765 comprised the foreign
total, and 10,943 was the figure
for Ford of Canada.

Production records for Janu-
ary show that Ford had the
highest percentage for many
months past. Ford production
represented 33% of ALL cars
and trucks turned out in do-
mestic factories.

Registrations for the month
of January for Texas for ten
cars shows the new Ford ahead
of all the others put together
by 401 cars. No wonder you
are beginning to meet a new
Ford every few minutes.

If you have been thinking of
investing in a new car, investi-
gate the new Ford. Ask the
many owners you see how they
like it. Compare it part for
part and point for point with
any other car in its price class.
Drive it and note the easy,
comfortable riding qualities, the
ease of guiding it along the
road and over rough spots. Compare
the price and the advan-
tage of no yearly models, good
for one year, two years and
some more years and still run-
ning good. Why not buy a
Ford and save the difference?

Can make prompt deliveries
and a demonstration does not
obligate you in any way. Call
on us any time, we are at your
service.

Loeffler Motor Co.

ORGANIZATION OF BAPTIST CHURCH APRIL 4, 1880

Our thoughts go back half a
century, to almost forgotten
days, when the inhabitants were
few, their hardships many, and
everything different—even the
name of the town being then
Junction City.

Eight among the early citi-
zens were of the people called
Baptists. Eight souls—with the
faith that moves mountains, and
who kept steadfast in their pur-
pose of holding Divine Worship.
By the aid of Z. M. Wells of
Menard (a minister of the Gos-
pel—as he subscribed himself in
the old church record of
April 4, 1880), the First Baptist
Church of Junction was organiz-
ed with 8 members.

One of these charter mem-
bers is yet living—Brother N.
C. Patterson, church clerk in
1880, and now one of our hon-
ored trustees.

Everyone should read their
Church Covenant for it breathes
the very Spirit of God, and our
hearts are inexpressibly
touched by the consecrated lives
of those early members, and the
self-sacrifice of the pastors who
ministered to them. For those
pastors travelled either on
horseback or by buggy in every
sort of weather, over the rough-
est of roads to carry the mes-
sage of Life.

The first Sunday School and
Church services were held in
the old "Junction City" court
house which was destroyed by
fire in 1884. After this, the
Baptists had the privilege of
worshipping in a community
church, one Sunday a month
being reserved for each denom-
ination—until two years later,
when Junction Baptists built
a church of their own. That
certainly was one great time.
There is no need to describe the
place, for, until today we our-
selves have worshipped in that
building, hallowed with the
memories of forty odd years.

With hearts full of gratitude
we pay loving tribute to our
fathers and mothers who "kept
the faith" and by their loyalty
to Christ laid the foundation
of the blessings we now enjoy.
Faith of our Fathers!
Holy Faith!

We will be true to Thee
till death!

—Contributed.

Plant a pecan tree today.

School Notes

The Junior Class entertained
the Senior Class with a picnic
at Mason Crossing last Thurs-
day evening. A large crowd
enjoyed the hospitality of the
Juniors. A lot of good eats
was served and then we de-
parted. Mr. and Mrs. Earl
Bowers were chaperones.

The report cards were given
out last Thursday. Some of the
pupils were smiling because
they had made such grades,
while others were looking very
sad. The following students
are permitted to read for pleas-
ure in the library: Eighth
grade—Emma Hensley, Vivien-
ne Livingston, Ralph Meador,
Marie Davis, Harry Ethel Hub-
bell, Sarah Schneider and Ver-
nelle Tinsley; ninth grade—
Lorena Couey, Carleton Wright,
and Ella Simon; tenth grade—
Lorraine Wilson; eleventh grade—
Nevada Blackburn. Ella Si-
mon is the only pupil in high
school who has made an aver-
age of "A" in everything this
school term. She has no other
grade except "A" on her report
card.

Stella Mae Roe of the sixth
grade has made a record that
no other one in her grade has
made. She has made an "A"
average this term.

Zula Taylor, Edgar Koon, Lo-
rena Smith and Lonnie Davis
are new pupils in the first
grade. This grade is still grow-
ing. What will it be when
school is out? Miss Durst says
she is greatly in need of more
desks.

The Seniors had a class meet-
ing Monday afternoon. Arrange-
ments for Commencement exer-
cises were discussed. Nevada
Blackburn is valedictorian; Pair-
alee Linn is salutatorian; War-
ren Braley is historian; Herbert
Newman is class prophet; and
Virginia Strong is to write the
class will.

The Juniors of '29 have order-
ed their class pins, and hope to
receive them soon.

Beatrice Smith and Pairalee
Linn, who are both members of
the Senior Class, have the dis-
tinction of being the only two
girls in high school who have
long hair since Kaleta Taylor
succumbed and had her's cut.

A CORDIAL INVITATION

Everyone will be welcome
next Sunday morning, March
17th, to the formal opening of
the new First Baptist Church
in Junction. Sunday school at
9:45 to be followed by the
preaching service at 11 o'clock.

Special congregational sing-
ing, assisted by the Junction
Band. Vocal solos by Professor
Cameron E. Marshall of Brown-
wood accompanied on the violin
by Mr. Harold Scott.

Sermon by Dr. M. E. Davis
of Brownwood.

Everybody is cordially invited
to attend these services. Lunch
will be served at the close of the
service. All homefolks will
please bring baskets.

Rev. G. W. Crabb,
Pastor.

ITEMS OF INTEREST

The Evening Post of New
York says that former Gov.
Alfred E. Smith has taken up
music, the sort of music often
heard on the lower East Side,
where he first learned to love
the sidewalks of New York.

The McCarroll Lumber Com-
pany with headquarters in San
Angelo has purchased a site
and will soon open a new yard
at Eldorado. The company has
yards in Junction and Menard
in addition to their San Angelo
yard.

No traces had been found
early Wednesday afternoon of
two youthful robbers who es-
corted employees of the First
National Bank at Brownwood
into the institution as they ar-
rived for work Wednesday and
escaped with between \$5,000
and \$6,000.

Determined to prevent smug-
gling of arms and ammunition
across the Rio Grande, the
United States Government is
considering the advisability of
sending two observation planes
from San Antonio for service
in conjunction with the Ameri-
can border patrol.

That millionaire ink manu-
facturer's daughter who has
made her debut on Broadway
should make her mark.

Society

PICNIC PARTY

Saturday a group of girls
belonging to Mrs. Ovie Buster's
Sunday School class, with a
number of their friends, enjoyed
a picnic at Cedar Crossing.

At noon an appetizing picnic
lunch was partaken of. Those
present were Eula and Lula
Motley, Vernelle Tinsley, Made-
line England, Maydelle Lowrey,
Vivian Livingston, Katherine
Johnson, Temple Boone, Stella
Bissett, Maxine Wright, Jewel
Riley, Eleanor Highsmith, Vera
Mae Wilson, Ella Annie Hender-
son and Ruby Johnson.

The party was chaperoned by
Mrs. Buster and Miss Ruby
Johnson.

"DIVORCE COUNSELORS" APPOINTED BY CHURCH

New York.—Five "counselors
of divorce" to rule on the re-
marriage of divorced persons
have been appointed by the
Presbytery of New York to
replace a committee appointed
for that purpose about a year
ago.

Clergy asked to perform mar-
riage ceremonies in which either
of the contracting parties is
divorced will be asked to con-
sult a counselor if in doubt
whether the ground for the
divorce were of a nature that
the Presbyterian church would
permit remarriage. The min-
ister would not be obligated to
accept the counselor's decision
but by going against it would
subject himself to be called
to account by the ecclesiastical
authorities.

The appointment of a com-
mittee of three was found un-
satisfactory because meetings
were required and it often was
difficult to get the members
together in time to act.

CHURCH OF CHRIST

Elder J. S. Newman announ-
ces that Bible classes will be
held at the Church of Christ at
10 o'clock Sunday morning and
communion at 10:45, after
which the congregation will ad-
journ and worship with the Ba-
ptists in their new building.

Cross-country touring is one
pastime that can be said to be
gaining ground.

So drive that when your sum-
mons come you may lie as con-
vincingly as possible.

All golf players don't lie about
their score. Some don't keep
score.

If we could see ourselves as
others see us we couldn't believe
our eyes.

Spring Cleaning made easier

SPRING Cleaning is hard work—it takes strength and energy to do the job right. But by using the correct accessories your work is considerably lightened. Let us equip you—and at a mighty low cost.

Tools—that cut your work in half

- Scrubbing Brush
- Straw Broom
- Insect Spray
- Dust Cloths
- Floor Mop
- Floor Wax
- Dust Pan

We carry a full line of all quality hardware for all purposes. Let us fill your car with gasoline and oil.
