CRANE HIGH SCHOOL, CRANE TEXAS — OCTOBER 15, 1957

NUMBER 2

Crane, McLean, Attend Math, Science, Meeting In Austin, October 3-5

Two Crane High teachers, Doug Crane and John McLean, attended a meeting for math and science teachers in Austin at the University of Texas. It started Thursday, October 3 and ended Saturday, October 5. The purpose of the meeting was to promote math and science teachings in high school to be able to keep up with college demands.

The first thing that they did after they arrived was to go on a guided tour of the different departments of the university.

At 5:30 they went on a trip up Lake Austin. The place where they held this first meeting was 15 miles above the dam. Only about 300 of the 600 who registered at the meeting attended this meeting.

There were five main sessions. The first one was Thursday afternoon, the second Friday morning, the third one was Friday afternoon, the fourth Friday night, and the fifth and final meeting was held Saturday morning.

Outside of the five main sessions they attended, two swap sessions in which the teacher exchanged ideas and problems, were held. Several of the schools in the Permian Basin were represented by teachers at the meeting.

Mr. Crane and Mr. McLean returned Saturday night. They reported that the meeting was very interesting and inspiring as well as profitable.

Crane Principals To Attend Annual Meet In Ft. Worth

C. A. Carroll and Murray Ford, principals of the high school and junior high respectively, are going to attend the Texas Association of Secondary School Principals meeting in Ft. Worth, October 27, 28, and 29.

The meeting is scheduled to be held in the Hotel Texas. The first general session, a dinner meeting on Sunday, October 27 at 6:30 p.m., is to be provided without charge to the principals. A fine inspirational speaker has been secured for this occasion in the person of Dr. Travis White, president of Midwestern University.

On Monday, October 28, at 8:30 a.m., there will be a general meeting of the Texas Study of Secondary Education. Dr. Paul E. Elicker, executive secretary of the National Association of Secondary School Principals, will be the principal speaker at the second general session at 10 a.m. on Monday.

Dr. Elicker, a person with professional stature and prestige will speak on the subject of "Secondary Education in the Next Twenty-Five Years."

The speaker for the luncheon at 12:30 p.m. on Monday will be Mr. Wallace McKenzie, executive secretary, Hemphill Heights Masonic Lodge, Ft. Worth. Group meetings are scheduled for 2 to 4 p.m. on Monday afternoon.

Among the many interesting topics suggested for these meetings were "Implementing the New Graduation Requirements," "The Principal's Function in Supervising Classroom Instruction," "How Far May Schools Go in Prescribing the Dress and Appearance of Students?"

A nationally known inspirational speaker, Fred Smith, is to address the third general session at 7:30 p.m. on Monday.

Mr. Smith of Fred Smith Associates, a former vice-president of Operations of the Gruen Watch Company, was a speaker at the convention of the National Association of Secondary School Principals in February, 1957. His subject is "The Art of Management."

The conference will be concluded with the breakfast and business session at 8 a.m. on Tuesday, October 29.

Crane Girls Like Foreigners Best

It seems the Crane girls aren't satisfied with the boys here in Crane. Some girls have been corresponding with foreign boys. Vaneta Lowery wrote to the League of Friendship in New York and asked for further information. The League is a correspondence link to form better feeling's between our countries.

Vaneta received a letter from the secretary of the league. She is to write to an 18-year-old boy from West Germany. Jowanna Shipman is going to write to an 18-year-old boy from Austria. Dell Snyder received the address of a boy from West Germany. The letter stated he was 98 but Dell is hoping that it's a misprint and they mean 18. Mary Ann Barker is to write to a 19-year-old boy from Italy.

These girls told the secretary about their interests and a little about themselves, who they would like to write boy or girl what age, and other requests. They have written to the boys but haven't received an answer to their letters as yet.

This corresponding between countries is only one of the many ways to make other countries our friends. The Crane thinks this is a very nice gesture, and hopes they will let us know about these boys when they receive their letters.

NOTICE!

Burn the Badgers! Everyone Come. There will be a big bonfire Thursday night, October 17 at 7:00 between the junior high building and tennis court. Help is needed from everyone. You may help by collecting wood and other materials on Tuesday, Wednesday, and Thursday afternoons. Let's make this a big one. Beat McCamey!

\$2500 Reached In Magazine Sales

The Crane Elementary and Junior High School reached a final goal of \$2500 for the overall magazine sale this year.

Henrietta Bangeman was high saleswoman for junior high. She was awarded a Movie Camera. Lynn Joy Heard was high saleswoman for the elementary grades, she received a Record Player.

Bill Hannon's Seventh Grade sold the most magazines in junior high. Mrs. Joe Beyer's Fifth Grade sold the most in the elementary building. They were given an Ice Cream party. The P.T.A. received about \$900, but \$300 of it was spent buying the awards.

Student Talent To Be Presented

Miss Inez Elmore has announced that the Student Council will sponsor an interschool talent night January 25. They have decided to have this program instead of the Southern Assembly program.

All the classes will take part in this program. Every class has 30 minutes to present their talent and a prize will be given to the best act.

There will be no charge for this program and it will take place at night with out-of-town judges.

Mrs. Elmore wants the classes to be planning their part now and turn in to her their plans no later than January 10.

Student Council Is Ten Years Old

The Student Council of Crane High School was organized ten years ago with Baker Davis as president. Mrs. Inez Elmore was sponsor and has been sponsor ever since.

Other members of the Student Council of 1957 were: David Bonner, Jean Garratt, Pat Dickson, Bill Schoonover, Bruce Patterson, Joyce Sharp, Kenneth Pearce, Ray Knox, Jency Porter, Buster Pendleton, Gene Miller. The first state meeting they attended was that year in Dallas.

The Student Council for 1957-58 will be installed October 22 with David Bonner as guest speaker. He will be introduced by Nancy Wilmoth.

The Student Council had some rough sledding for the first few years as it was something new and it took time for students to understand just what its purpose was. Some got the idea that the seniors were to rule the school or that the Student Council would have the power to discipline students. A Student Council had never been considered. But in the last five years the Student Council has grown up and is very active and feel that they have the co-operation of the administration, faculty and student body. This year they are very glad to have Mrs. Inez Elmore as their sponsor and Paul Patterson as their co-sponsor.

INDUSTRIAL ARTS CLUB INITIATES SIXTEEN

Only 11 clubs are operating in Crane High this year as compared to 21 last year. However, all are extremely active and meet every Monday, or some night during the week.

The Industrial Arts Club held initiation ceremonies, Tuesday, October 2. Sixteen new members

were initiated, and to impress upon them the importance of public relations they were made to line up in front of the cafeteria at noon time and do a song and dance act. One night a week will be used as hobby night, so the members can have more time to work on their projects.

Members of the Golf Club, three boys and two girls, are learning the terms of golf and golf etiquette.

Junior Historians plan to go to Alpine and visit the museum sometime in the spring. They also sold pillows during the Crane-Coleman game.

The Library is proving quite interesting. They serve cake at every other meeting. Members pay five cents a week dues and

Doug Crane To Speak At Local TCTA

Doug Crane, past-president of the local Texas Classroom Teachers Association, is to be featured on a Classroom Teachers program in Fort Stockton, October 26.

As the member of a panel he will discuss "Through Participation in Active Local C. T. A."

The executive committee, consisting of J. P. Harrison, Billy Mayes, Bill Teague, Charles Stroder, Mrs. Pearl Pittman, Mrs. Joe Beyer, and Paul Patterson met Monday, October 7, to plan the program for the year and to put on a drive for members.

Officers for the year, elected at the last meeting in the spring are J. P. Harrison, president; Billy Mayes, vice president; Mrs. Pearl Pittman, secretary; and Charles Stroder, treasurer.

The organization hopes to send a delegate to the T.C.T.A. convention in Austin November 2.

Crane High Gain Six; Loses Nine

It seems Crane High just can't settle down to the same familiar faces. We have gained six new students and lost nine.

We have two new seniors Sammy Shipman from Snyder who attended school here last year and Kenneth Swafford from San Angelo. The sophomores have Terry King from Andrews and Edward Reid from Roscoe. In the freshman class are Bill Klinge from Perryton and Pat Ridling from Andrews.

Crane High has lost only one senior, Gail King who moved back to Bowie, Texas, and three juniors, Leon Simmons to Peacock, Gene Simon to Odessa, and George Thompson. The Sophomore Class lost only two, Lillie Clark to Odessa and Edward Reid. The freshman lost three also, Eva Leatherwood to Odessa, Barbara Murphy to Modesto, California, and Mike Noble.

Crane High will always be sorry to see students leave but will also be glad to see new faces in our halls.

two girls bring a cake apiece with a nickel in each cake. The member who finds the nickel in her slice of cake will bring a cake for the next meeting. The library staff is now studying the Dewey Decimal Classification with old staff members helping the new staff members.

Math Club is an all-male affair this year. They are learning to use the slide rule.

Girls' Athletic Club is involved in practice games now. Teams will be organized soon.

The Busy Bodies are living up to their name; they have already visited the sheriff's office, the jail, and the bank in the order named. Soon a representative from the bank is to answer all questions concerning banking.

The Stage Band has been working on the regular band pieces; new music will be in soon. The Study Club reports no news except study (which is generally news).

The C Club's sponsor, Coach Dan Anderregg, is giving the boys the latest tips on coming games and by the way, they have decided to win them all.

S.O.S. Club members are going to type blood soon. They have been studying the plants of this area.

Crane High Budget Set For Coming 57-58 Year

The Crane High School budget has been set up for another year. The cost per pupil for this year hasn't been figured yet but the cost per pupil last year figured on current cost was \$440.60.

The budget for this 57-58 school year is set up as follows: instruction, \$36,891; administration, \$36,891; instruction of white, \$409,242; instruction of colored, \$26,690; operation, \$61,500; maintenance, \$16,365; auxiliary agencies, \$45,515; fixed charges, \$9,556; capital outlay, \$38,100.

The total of this year's budget is \$643,858 and debt service is \$181,363.

NECESSARY TO LIKE YOUR TEACHER? "NO" SAYS FAMOUS EDUCATOR

The Crane ran across an article arguing the pro and con of whether it is necessary for the student to like his teacher.

Dr. Walton Manning, a famous educator says it is not necessary. Read and see what you think.

HE HATES TEACHER This may surprise you, but children do not need to like their teachers in order to learn.

Some very careful studies have been made about learning and the attitude of pupils toward teachers, and these studies show that children can learn even though they "hate" their teachers. On the other hand, pupils can fail to learn from a teacher they claim to like very much. Grades are too often used by parents as the sole basis of their attitude toward a teacher. Parents should try to discover whether good grades reflect a real improvement in the child or are merely a good-will gesture by the teacher.

I KNOW, FOR EXAMPLE, of a high school English teacher who enjoyed considerable popularity (she gave high grades) until former students came back from college complaining about their high school English preparation.

Many parents and teachers believe all is well if children like their teacher. Some teachers allow children to do as they please in order to avoid conflict and thus gain the children's affection.

THESE TEACHERS give higher grades than children can earn, allow the children to avoid tedious details or to quit if something seem difficult, and always make a complimentary remark about the children, both of them and to their parents.

Does such a policy really pay off? Liking and respect are not synonymous. Most colleges want teachers that they must do what is necessary (even if this requires sternness and unsmiling firmness) to gain control of their pupil at the very outset. Then, as control is gained, they can relax and be more pleasant and informal.

CHILDREN HOWEVER, must learn to respect authority, learning, good study habits, etc., and teachers who create this respect eventually will be respected as individuals. Do children and parents really pay as much attention to "liking the teacher" as some teachers seem to think? I doubt if all do, yet one can find examples of teachers who get by, year after year, with "soft-soaping" the parents and the children.

I know a first grade teacher who for four years has fooled the parents. The principal of the school and all the teachers (particularly those who get her children) know that children learn very little in her room, but she believes "it is foolish to teach first grade children any-

thing; they just forget it. I just enjoy my children and they enjoy me."

One would think that when parents found that their children were way behind other children their ages, they would remark about the children, both of them and to their parents. Parents blame the upper grade teachers for their children's failure.

NOT POPULARITY CONTEST I REALLY BELIEVE children would learn more if we could sell parents on the idea that the "best-liked" teacher may not be the best teacher. Teaching is not (or should not be) a popularity contest. I suppose all teachers want children to like them, but if this affection must be secured by watered down control and less effective learning, then it is something too dearly bought. Generally speaking, we all retain the most admiration for teachers who demanded our best efforts.

In the school year that follows, parents could be a great help to good teachers and to their children if they became more interested in why children like or do not like certain teachers.

It takes a lot of courage for a teacher to remain firm and insistent in the face of parental pressures for high grades and an easy life at school. Teachers who have this courage need to be supported by parents who place respect for learning above temporary whims and sugar-coating.

BEAT McCAMEY
Crane and McCamey have been old rivals for years. They have a slight edge on us in games won. Let's really tear them up this year. Hail to the football team.
BUY A RAH RAH CARD
The Seniors want your money. Buy a rah rah card and be in style this year. Still only 10 cents.
ALL THE WAY TO DISTRICT
Let's get behind the football team and give them some support this year. They are doing their best and they deserve all the support the student body can give.
DEMERIT SYSTEM
The demerit system is still in effect. Far too many kids have gotten demerits this year so let's watch our conduct and avoid useless demerits for such things as unexcused tardies to class and chewing gum. This will go on your record and nothing you can do will clean up your record later.
BUY YOUR ANNUAL
The Annual price is still only \$3.00 until November 1. The prices will then go up to \$3.50 so you will save money by buying your Annual now. Also, Annual sales will stop November 15, so hurry and get your Annual before it's too late.
KEEP OFF THE GRASS
The grass in front of the building is looking poor because too many students think it is a sidewalk. This is not a sidewalk, so try to keep off the grass as much as possible or drastic measures may be taken by the Administration.
GOLDEN CRANE BAND
The Golden Crane Band has really been working hard so far this year. They have done some precision marching and they have made several formations during halftimes this year. Very nice!
HELP THE JANITORS
The janitors in our building have a hard time cleaning up after a day of school. If we all would just help a little, they would have a lot less work to do. So next time you are tempted to throw a paper wad or some other trash on the floor, think twice before you do it.

PERSONAL INTERVIEWS SHOW HOMEWORK TIME

Have you ever stopped to think of how much actual time you spend on your homework? It might improve your grades if you tried doing it more often. When asked how much time is spent on homework, here is some of the answers received.
PATTY KNAELL — About one and a half or two hours a day.
GAIL HUNNICUT — Varies from 10-30 minutes a day. I get all I can in study hall.
EDDIE PRICE — About an hour and a half each day.
ALTA BARTON — As little as I can get by with. It's usually less than five minutes a week.
JOWANNA SHIPMAN — About an hour a day.
JERRY SWIFT — About half of my study hall. The other half is spent in the library.
NINA GAYLE BARR — About two hours counting study hall.
LA NELLE VAN ZANDT — About an hour and a half.
PATSY PRESLAR — One and a half hours approximately.
SUE TOWNSEND — About one or one and a half hours a day since I'm flunking everything. (She's not really!)
JAN PARKER — About one and a half hours of actual study

KEEP OFF THE GRASS

Here we go again fussing about the same old thing. Stay off the grass. It's getting monotonous but if something was done about it we'd shut-up.

We're all so proud of our school and the greenery makes it look a lot prettier. But dead and trampled grass looks terrible. Not only 99 per cent of the students take short cuts but the teachers do too. Now teachers, is that any way to set an example?

It doesn't take but a few extra seconds to go to the sidewalk and it would make our grass look so much better. We're down on our knees pleading with you, please try to co-operate.

If you were constantly trampled on and then when you finally pulled yourself together you were crushed to the earth again. Well, put yourself in the grass's place and have pity on it and keep it alive. Please stay off the grass!

Crane Owes Its Growth To Oil

What would the city of Crane be like if it were not for the oil it is built around? It would more than likely be a very dismal place with no paved streets or any other modern facilities.

The Oil Progress in Crane County is due mostly to many men that saw a future in the oil business and put their knowledge to work in the oil field.

The city of Crane proper would be in an awful mess if many oil companies had not come in and set up their businesses and hired many men to work for them. That is where many of the people of Crane are employed at the present time.

If it had not been for the oil, Crane might have been one of the smallest towns in West Texas, but now Crane is a thriving city with a population of more than 6000 people. All of the businesses in Crane would not have very much business if it were not for the oil progress.

There will be a big Oil Progress Show in Odessa during the month of October. It would be a very interesting and educational trip for anyone that is interested in oil and the oil field equipment that is used today.

There have been some new tools that have come out lately that have revolutionized the oil business. Long years ago it took more than a month with a cable tool rig to drill a well and now it can be done in about thirty hours using air or in about a week or ten days using a rotary rig.

All in all the city of Crane owes its growth and prosperity to the oil under this great earth that the Lord has provided for people of His Great Kingdom.

New Automobiles, New Threat

As time goes by things change more and more. Only a few years ago who would have dreamed that so many people would own television sets or that girls would wear "crew-cuts" and "duck-tails". All of these and many others have developed since earlier years.

One of the developments which is useful and common to each one of us is the automobiles. Have you ever stopped to think of what it would be like if we didn't have this luxury?

Our school is almost completely surrounded by automobiles, some old and some new, but each one serves its purpose — it takes us where we are going quickly and safely if they are driven right. One must think ahead about what they are going to do. Remember that no matter how good and safe you may drive there is always a chance of an accident with a person who isn't as careful as you. You have to watch the other fellow as much or if not more than you do yourself because you know what you are going to do but you don't know what the other person is going to do.

Our highway patrolmen and city police have a full time job today. They aren't fining you and punishing you just for the heck of it; they are trying to protect each and everyone of us and prove to us what danger we are in and the threat this is making to someone's life. We really have them to thank because of the time and effort they put out to try to teach us the important points of good driving and the danger we are really living in.

Remember that to be able to drive fast and reckless like this may be a luxury but let's not have to pay the luxury tax with someone else's life. Think of all the lives that are cost each day — only because someone thought that they knew what they were doing and were going to show the other people what he could do and get by with it. These are usually the people that end up taking their last ride to the cemetery, or causing other people, innocent people, to lose their lives or the lives of some loved one.

Next time you get in your car or "hot-rod" take a few minutes just to think of what danger you are really in and tell yourself that you are going to do your part in making safe driving a "habit" instead of making fast and reckless driving a "horror". Remember the old, but true, saying: "Drive safely, the life you save may be your own."

Crane Chapter of TSTA Meets September 24

The local chapter of the Texas State Teachers Association met Tuesday, September 24 in the small auditorium of Crane High School with President George Grounds, president; Darrell Warren, first vice president; Jane Black, second vice president; David Tiner, treasurer; and Laverne Crane, secretary.

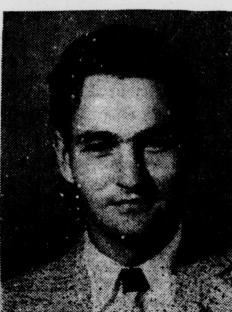

THE CRANE

The Crane is published bi-weekly except holidays by the journalism students of Crane High School, Crane, Texas. Subscription rates are 50 cents per year.

(Entered as Second Class matter at the Post Office at Crane, Texas, under the Act of March 3, 1879.)
Editor: Martha Johnson
Business Manager: Cindy Burrows
Reporter: Jowanna Shipman
DeLois McDougal, Rae Nell Tooke, Dell Snyder, Vanetta Lowrey, David Harris, James Williams.

THE CRANE'S CREED:
THE CRANE'S PROMISES:
To be strong that nothing can disturb his peace of mind.
To talk health, happiness and prosperity to every person he meets; to make all his friends feel that there is something in them; to look at the sunny side of everything and make his optimism come true.
To think only of the best; to work only for the best, and to expect only the best.
To be as enthusiastic about the success of others as his own; to forget the mistakes of the past and press on to the greater achievements of the future.
To give so much time to the improvement of himself that he has no time to criticize others; and to be too large for worry too noble for fear, and too happy to permit troubles.
ARE YOU A CRANE?

Trosper, Active Athlete Enjoys Riding Around

This young lad that you see above was born January 31, 1940 in the fair city of El Reno, Oklahoma was named Richard D. Trosper, better known to all of us as Dickie.

Dickie has attended several different schools before deciding to settle down in Crane and call that home until he graduates. He attended schools in Andrews, Kermit, Hobbs, and finally came to Crane a little over four years ago.

To make Dickie happy, sit him down to a dinner which consists of T-bone steak, potatoes and

gravy, corn on the cob, and ice tea. For dessert serve him cherry pie and ice cream. After meals he enjoys a Camel and several in-between meals.

DRIVING AROUND
Dickie states he enjoys riding around in town and talking to all the kids and just see what's going on in general.

Dickie's most exciting moment came last year when he beat Coleman in the regional football game in San Angelo. Dickie does not have a real embarrassing moment. He says he does not get embarrassed very easily. Dickie is very active in sports. He has participated in high school football for four years, both junior high track and basketball. He is also a member of the C Club, and has been in the Science Club.

Dickie's plans after graduation are going to Hardin-Simmons University in Abilene and he is planning on majoring in some field of engineering. After that he plans on getting married if the right girl comes along at the right time.

The Crane wants to wish a mighty senior all the luck and happiness in the world.

Song Of The Week FASHIONETTES

THERE OUGHT TO BE A LAW

There ought to be a law,
Against breaking people's hearts.
There ought to be a law,
Against tearing them apart.
There ought to be a law,
Against making people cry,
There ought to be some kind of law,
And I will tell you why.
You take my heart, and you run away,

Leave me longing, all day,
I do the work, you do the play
And that's just not the way.
There ought to be a law,
Against cruelty to love,
And you would have to change your ways,
Or you'd get thirty days.

There ought to be a law,
Against driving one insane,
There ought to be a law,
Against loving in vain.
There ought to be a law,
Against making people cry,
There ought to be some kind of law,
And I will tell you why.

Then I'd be guilty, and you would too,
They'd lock us up together, just us two.
There ought to be some law to say,
That I must be with you.

There ought to be a law,
Against cruelty to love,
And you would have to change your ways,
Or you'd get thirty days.

JUST BECAUSE

By JOWANNA SHIPMAN

Just Because . . .
You have a cast on your foot.
They Say . . .

"Did you break your foot?"
"You wear glasses all the time."
"Can't you see without your glasses?"
"You have soap lather all over your face."
"Are you going to shave?"

"You come in the building with your hair standing on end."
"Is the wind blowing?"
"Everyone starts griping on Wednesday morning when announcements are being made about home room."
"Don't you like home room?"
"You say you love to dance."
"Can you dance?"

"You say be careful and don't fall in the river back there."
"Is there a river back there?"
"You say go lock all the doors and windows."
"Aren't you going to let them in?"
"Sunday morning you get up and put on a suit."
"Are you going to church?"
"Someone said don't hit my shot arm."

"Did you get a shot?"
"A girl writes a certain boy's name all during class."
"Do you like him?"
"Someone is trying their best to get around you."
"Do you want by?"

Mr. and Mrs. Bennie Patterson, 1957 graduates of Crane High School, were home from Sul Ros to attend homecoming on October 5.

Exchanges

WHAT IS A HIGH SCHOOL?
An inquiring person passing
Some high school one day;
Stopped them and asked the question.

What is a high school, pray?"
The students were heard to answer,
"It's a building of wood and brick,
With classrooms, teachers and pupils,
And many a volume thick."
"But I've heard so much about it."
The inquirer did reply.

"Is there nothing more to tell me
Than the thing that meets the eye?"
The companions of my story
Then regarded him thoughtfully.
And one was quick to answer,
"But careless, as you shall see,
"It's learning nothing that's useful,
The same old routine all the time,
Or writing notes out of boredom
(Which is often considered a crime)
But the other thought more deeply.

And answered in words like this,
A high school means years of study
You wouldn't want to miss.
It's a preparation, a proving ground,
Striving earnestly to learn.
It's working together, giving your best,
And gaining friends in return.
It's the pep of the town, the fun of sports,
And building a level head:
A spirit that's part of a person's life
That lives on in the days ahead."
Then wisely the passer-by replied,
"From what you said I take it
That the answer is what you make it."
Well might we heed this observation
"Tis true of schools and lives,
The things one reaps depends upon
The things toward which he strives.
Yes, everyone in high school
Can build his school or break it
Let's work together to build the best
For a high school is what you make it!"

Corkey

Wilmoth Popular Senior; Likes Music; Basketball

The charming young lady you see pictured here is Nancy Wilmoth. Nancy was born in Crane on March 7, 1940 and has lived here ever since. She has grown up to be a charming young lady standing 5'3" tall. She has brown eyes and blonde hair.

Nancy is very musically inclined. She has been in the Golden Crane Band for six years and she is a twirler this year. She has won medals in five Inter-scholastic League events and was elected Most Musical in 1956-57. She plays first chair solo clarinet in the band.

High on the list of her likes is basketball and she was chosen Basketball Sweetheart for 1956-57. Her favorite dish is Mexican food. She likes lemon pie and iced tea along with it. Her favorite colors are green and red. Her favorite subject is biology but she has no favorite teacher, saying that she likes them all. The best movie she has ever seen is Magnificent Obsession. Jeff Chandler and June Allyson are her favorite movie stars. Her favorite pastime is playing piano, at which she is very good. Her pet peeve is for people to hit her where they shouldn't. Other than this, Nancy is easily pleased girl.

Nancy has been very active in school. She is on the Annual Staff, and is a member of the Stage Band, of which she is vice president. She was elected Reporter her freshman year, and she has been in the Industrial Arts club. She was a Student Council representative for 1956-57 and 1957-58.

Upon graduation, she plans to go to North Texas State College at Denton and after college she plans to be a Primary music teacher.

JUKEBOX PERSONALITIES

Just Call Me George — Gary E.
Moonlight Swim — Pat E., Margie K., Randy M., Don K.
Whole Lot of Shakin' Goin' On — Almada F.
Over the Mountain — Cindy Burrows.
I'm Available — All girls not going steady.
Can't Believe You Wanna Leave — Juniors to seniors.
Have I Told You Lately — Suzie to Herbie.

Oh, How I Wish — Vaneta.
Rock & Cry — Gloria G.
While Silver Sands — Sandra I Hear You Knockin' but You Can't Come In — Jerry A.
Down in Mexico — We know who.
The 12th of Never — Everyone that likes it.

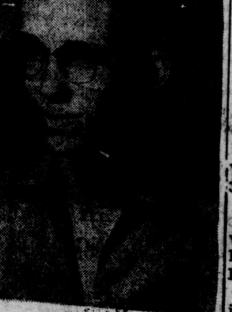

Pearly Lee — Alta B.
Is it Wrong — to park?
Try Again — Carolyn to Jerry
Short Fat Fanny — Jan P.
Fourteen Karat Gold — Our class rings, we wish.
Send for Me — Butch.
Texas Fiddler — Jimmy Carroll.

A Place Called Heaven — School?
Tammy — Jerry to Lucy
Pay Thing — Ruby.
Peanuts — Sharron.
Empty Arms — To all the girls whose boyfriends are gone to college.
Let's Have A Picnic — Seniors.

Let There Be You — Patty Jimmy.
Take It Like A Man — Tom C.
Miss Ann — Butch to Ann.
A Teenager's Romance — Robert P. to R. H.
Lucinda — Lucinda Burrows
High School Dance — All dances sponsored by the high school.

To the Aisle — Doris Dean
Jailhouse Rock — Sammy Madison.
Black Slacks — To all girls who have black slacks.
Chain Gang — Alta, Charlotte, Patty, Suzie, La Nelle, Nancy and Patsy.
Slow Train — Crane High busses on the way to the ball games.
Young Blood — All freshmen
I Want a Rock & Roll Wedding — All girls engaged.

FREEMAN IS BOP FAN FUTURE PLANS, DOCTOR

The handsome lad pictured above is the well known Hubert W. Freeman (better known as Butch) who first saw this world January 17, 1940. Butch is now 5 feet 7 inches tall. He has light brown hair and green eyes.

Butch, who has traveled a lot, was born in Eldorado, Arkansas. He attended school in Germany for three years. After moving from Germany he moved to Crane.

FILES

16 Years Ago — 28 new students enrolled in Crane High School and made the total enrollment 175.
12 Years Ago — The itch epidemic in Crane, catching near the whole school.
11 Years Ago — Survey was taken for the new school building.
4 Years Ago — Crane field house was improved and enlarged.
2 Years Ago — Crane stopped the Ft. Stockton Panthers 33-0 for the second win of the season.

Let There Be You — Patty Jimmy.
Take It Like A Man — Tom C.
Miss Ann — Butch to Ann.
A Teenager's Romance — Robert P. to R. H.
Lucinda — Lucinda Burrows
High School Dance — All dances sponsored by the high school.

To the Aisle — Doris Dean
Jailhouse Rock — Sammy Madison.
Black Slacks — To all girls who have black slacks.
Chain Gang — Alta, Charlotte, Patty, Suzie, La Nelle, Nancy and Patsy.
Slow Train — Crane High busses on the way to the ball games.
Young Blood — All freshmen
I Want a Rock & Roll Wedding — All girls engaged.

Butch states that Ann Critchden is his favorite pastime and his favorite color is blue.
Exciting Moment
His most exciting moment was when he bought his car. His car is a nice looking black '50 model Ford.
Butch has been a very prominent member of the Science Club every since he has been in high school. He has been vice-president for about two years.

Football Favorite Sport
Being a real Crane Butch's favorite sport is football. He likes any music especially rock. His hobby is collecting records. Butch says that his pet peeve is for Dickie to pull cover off of him. (Pull back, Butch).
Algebra II is his favorite subject.

Embarrassing Moment
Butch says his most embarrassing moment was too embarrassing to tell but, the place was at the back of the Corner Drug with Don Kinsey.
James Dean is Butch's favorite actor. His favorite actress is just any good looking chick.
Butch plans to be a doctor in the future.

The "Crane" takes this opportunity to wish a grand guy the best of luck and happiness in all ways.

The Crane game is a because of are such the two same size.

After several boarded passengers in 1954. It was game and of 4,500 people rain fell even this spirit of ed the test.

CRANE; McCAMEY, LONG TIME RIVALS MEET AGAIN

The Crane-McCamey football game is a big event every year because of the fact that they are such big rivals and because the two towns are about the same size.

After seven long years Crane roared past the McCamey Badgers in 1955 for a 39-2 victory. It was Crane's homecoming game and an estimated crowd of 4,500 people attended. A slight rain fell during the game, but even this couldn't dampen the spirits of the fans as they cheered the team on to victory.

In 1954, McCamey barely edged past the Golden Cranes for a 7-0 victory. To keep up the winning streak over McCamey, Crane again beat them in 1956 for a 21-6 conference win. This was the first year McCamey was placed in the same district with the Cranes.

PAST BACKS
McCamey's 1957 line-up consists of ten seniors, four juniors, five sophomores, and four freshmen. The average weight is 159. Ends — Frank Muschalek, 185, sophomore, squad; Billy Ritchie, 190, senior, letterman; Freddie DeBuck, 160, senior, letterman; Don Martin, 160, senior, letterman; Gary Huffman, 170, freshman, junior high experience. Stamford knocked them out of Guards — Buenger Dickson, the race for state championship.

The Badgers won seven games, lost two, and tied one for the 1956 football season. They were defeated by Sonora (26-7) and Crane (21-6). They tied with Monahans (14-14).

The Golden Cranes won seven games, lost four, and tied one. Two of these games, one of sophomore, squad; Billy Ritchie, which they won and one of 190, senior, letterman; Freddie DeBuck, 160, senior, letterman; Don Martin, 160, senior, letterman; Gary Huffman, 170, freshman, junior high experience. Stamford knocked them out of Guards — Buenger Dickson, the race for state championship.

Five Ex-Crane Athletes Receive Scholarships

Five Cranes who graduated last year have received scholarships for their out-standing ability as athletes. Two scholarships were given for football the others were for track, basketball, and boxing.

Wayne Young and Guy Lindsey both received football scholarships to Sul Ross. Roger Kelly was given a scholarship for track to Ranger Junior College. J. H. Green, an outstanding athlete, received a scholarship to Odessa Junior College for basketball. Billy Pina has a scholarship for boxing at a college in Corpus Christi.

McCamey has won everyone of their games this year scoring 184 points allowing their opponents to score only 64 points. They have beat Comanche (56-12), Odessa Ector (14-0), Big Lake (33-7), Sonora (25-21), and Wink (56-24).

Crane has won three games and lost one this year. They have scored 59 points and allowing their opponents to score only 37. They have beaten Winters (13-6), Pecos (6-0), and Big Lake (39-19). They lost to Monahans (19-6).

Let's all go to the Crane-McCamey game and support the Golden Crane football boys. It is to be played Friday, October 18, on the Crane field.

By DELOIS McDOUGAL Get The School Spirit

The Student body has been doing real good so far. Let's keep it up and try to do better. The football team can always play better when the school spirit is going good. The Pep Squad girls have been active. These girls are always on the ball painting the windows down town and putting up posters in the halls.

Support The Tennis Teams
There are few boys out for tennis this year. They work out every afternoon. The girls haven't come out yet, but they will before too long. Let's all support the tennis teams and we will have another district team.

Great for All-State
James Byerly and Jerry Ash who received honorable mention last year for All-State are being boomed again for this position. We think they have a very good chance with another year of experience. We don't see how any sports writer with 20-20 vision could overlook these boys.

Odessa College Wranglers
We have two exes who are now playing on the Odessa College Wranglers. These boys are J. H. Green a 1957 graduate and Bill Preslar a 1956 graduate. These boys were all-district basketball players in Crane and we know they will do good in college.

Blast The Badgers
McCamey may have a good team but, we have one just as good, and better. Keep up the good work and play as hard as you have been playing and we will beat McCamey.

Junior High Teams Win Over Big Lake By Scores Of 39-0, 14-0
The junior high team and the seventh grade team both came out victorious over Big Lake junior teams on the Big Lake field Thursday, September 26.

The seventh grade team played the first ball game of the afternoon and won it by a margin of 14-0.

The junior high team played the second game of the double-header and won over Big Lake by a score of 39-0. The scoring was done by Paul Lively, Charley Bower, and Scott Coffield. Coffield had three touchdowns on intercepted passes called back because of clipping.

The junior high team plays Fort Stockton there on Saturday, October 12. The seventh grade team plays Pecos in Pecos Thursday, October 10.

Both of these games were played after the paper went to press and we were unable to get the score.

Three Crane Students Appear On Television
The Speech II class of Crane High will appear on Television. Three students will be chosen from the class to represent the school. These students will prepare speeches to be given.

They will be on the Gandy Milk Program Monday October 28, at 8:30 p.m.

Crane High is the first to appear on this program. Other schools will be on later.

Bob Erwin, is the speech teacher, having replaced Mrs. Jane Black who moved to the English Department in Junior High.

Two Sweethearts Are Crowned At Coleman Game

The Crane High School Band performed a very original program for the halftime of the Big Lake game. The theme was "Poor Little Joe".

This little boy symbolized all the little children less fortunate for whom we give our dimes and dollars. The band formed the letters J-O-E and played "Ragtime Cowboy Joe" then they formed a star and played "When You Wish Upon a Star" because Little Joe was wishing for things he couldn't have. Next a bell was formed and they played "Wake the Town and Tell the People" because Little Joe was happy again, he had been given all the things to make him well and happy again. Next the band formed the letters G-I-V-E and played "Because of You" because it was truly through the kindness of your heart that Little Joe and all the others can be happy again.

The Coleman game half time was a "crowning success." The football sweetheart Lucy Crawford was crowned by the captain. The Pep Squad sweetheart Gayle Morgeson was crowned by Janyne Brown and presented an identification bracelet.

The music was furnished by the band and everyone seemed well-pleased with the choice of sweethearts.

CRANE HIGH GIRLS BACK IN SHAPE FOR ROBIN HOOD DAYS
The P E girls have now started archery. If you see a girl running around with a bow and arrow in her hand don't think she is back in Robin Hood days. She is only in P E class.

Mrs. Ann Mayes is getting more generous these days. Every year before this one she has said she would buy a coke for any girl that could make a score of 60. (This is perfect) I don't think she ever had to buy a coke. But, now she says she will buy a coke for anyone making a score of 45 or over. Of course there is a catch to this. If a girl makes lower than 10 Mrs. Mayes gets the coke. (The girls are going broke) So far Janyne Brown, Sherry Johnson, Barbara Davidson, Mary Blue and Jan Pearl have won cokes with Pannye making 46, Sherry 46, Barbara 51, Mary 49, and Jan 49.

For some girls it is difficult to pull the bow, but mid-tv Joan Woodbury is so powerful she pulls so hard she breaks the string on the bow. (She has a bruised arm to prove it).

If you would like to go hunting ask Mrs. Mayes to loan you a bow and arrow.

Three Crane Students Appear On Television
The Speech II class of Crane High will appear on Television. Three students will be chosen from the class to represent the school. These students will prepare speeches to be given.

They will be on the Gandy Milk Program Monday October 28, at 8:30 p.m.

Crane High is the first to appear on this program. Other schools will be on later.

Bob Erwin, is the speech teacher, having replaced Mrs. Jane Black who moved to the English Department in Junior High.

Golden Cranes Downed 27 to 7 By The Bluecats

The Crane Golden Cranes and the Coleman Bluecats battled it out on the local grid iron Friday night, October 10. With the Bluecats coming out on top with a score of 27-7.

Coleman's speedy back, Tommy Allsop, and his sidekick, Dale Byerly, were too much for the Cranes. Allsop picked up two touchdowns and Byerly kicked three extra points and scored a touchdown for the Bluecats.

Crane's single score came in the fourth quarter after Coleman had already moved the count to 27-0.

Allsop started the scoring when he went 13 yards in the second quarter. Byerly's kick was no good.

Five plays later Byerly took a Crane punt on his own 40 and tracked all the way back for the second Coleman tally. Byerly's kick was good and Coleman led, 13-0, a half time.

Coleman accounted for its third touchdown early in the third quarter when Allsop ran 52 yards into the Crane end zone. Byerly's extra point was good again.

Jim Norris went 60 yards early in the fourth quarter to cap Coleman's scoring. Byerly's extra point was good again.

At that point Crane's James Byerly took the spotlight when he intercepted a Coleman pass on the Crane 40. Crane halfback Jimmy Leo went over from the five after Crane had driven the 60 yards.

Winston Freeman added the extra point.

Golden Cranes Topple Owls 39-19 For Homecoming
Crane's Golden Cranes defeated the Big Lake Owls by a score of 39-19 here October 5 in a non-conference game.

During the first quarter Crane scored 27 points with Larry Stiger making the first touchdown. Then Winston Freeman blocked a punt and recovered it to carry it across the goal line for another six points for Crane. Fred Webb and Freeman tackled a Big Lake runner for a safety.

Next, Freeman ran 55 yards to score on a punt return and then Jimmy Leo went 10 yards to score after he intercepted a Big Lake pass.

In the second quarter, Gayle Morgeson took the ball on the one-yard line and crashed over to make the score 33-0.

Big Lake broke through shortly before half time when James Matlock eluded over from the six-yard line to make the score 33-6 at the end of the second quarter.

In the opening of the third quarter Tommy Link raced 70 yards with a punt to make a second touchdown for Big Lake. Bill Loftin kicked the extra point.

Stiger then ran over from the one-yard line to make another tally for Crane.

In the fourth quarter, Matlock scored again on a five-yard run leaving the final score of the game 39-19.

Betty Vickers, 1957 graduate of Crane High School, was home from Lubbock to attend the homecoming on October 5.

Mrs. Williams was sick last week and Mrs. Neal Grimes took her place for a few days. Mr. Thompson built some shelves for the counseling room to put books.

CHS Football Field Gets Several Improvements

The CHS football field has several improvements as you probably noticed if you have been going to the Golden Cranes football games.

One of the first improvements you will notice is that the score board has been moved from the north end of the field to the south end.

The controls for the score board have been moved from the press box to a moveable stand on the side-lines of the field, which will make it easier to keep in touch with what is going on. In order to move the controls new wiring and cable had to be installed.

Another change you will notice is that they moved the well house out completely and hauled in dirt and leveled the ground off where it was.

The track has been remodeled and is now the regulation size, 440 yards.

Also the fence around the playing field has been completed.

Other improvements in the field consist of the planting of more grass to beautify the field.

Three Cranes Proved Guilty By Judge Mayes

The pep rally for the Big Lake game was going full force when in burst Judge Billy Mayes.

Judge Mayes took his place in the C. H. S. gymnasium court and called for order. Then the defendants, Suellen Davis, Sue Townsend, and Don Edwards, were called before him.

The first defendant, Sue Townsend, was accused of not wearing school colors. The defendant pleaded guilty and was sentenced to wear a purple and gold tie throughout the rest of the day.

The second defendant, Suellen Davis, was accused of not using her big mouth and yell as she should. Miss Davis pleaded guilty and was sentenced to wear a purple and gold tie throughout the rest of the day.

The third defendant, Don Edwards, was accused of not attending all of the football games like a true Crane should. The defendant pleaded guilty and was sentenced to wear a purple and gold tie throughout the rest of the day and was given a ticket to the game to make sure that he would attend.

After all were convicted they had to lead the student body in a yell.

The court was adjourned until someone else was found guilty of these charges, and the pep rally continued with more spirit than before.

DISTRICT COUNCIL OF 4-H GIRLS MEETS TUESDAY

The District Girls 4-H Council had their first meeting this year Tuesday, Oct. 1, and elected new officers for the year.

Elected were Joyce Woody, chairman; Patty Stiger, vice chairman; Gloria Grissom, secretary, treasurer and reporter. The rest of the members of the council will be the president and an elected delegate from each club.

Mrs. Edith Hughes, County Home Demonstration Agent, presented a schedule of meetings for the coming year and the chairman appointed Patty Stiger, Gloria Grissom, and Ann Elson for the planning committee for the year's events.

Byerly; Ash Tri-Captains All-State Candidates This Year

James Byerly and Jerry Ash, school football. He is doing a good job for Crane this year and will probably go to college on a football scholarship.

James Byerly was also picked on the Pecos all-opponents team last year. He was chosen for the all Permian Basin team and also for all-district. He was beaten out for all-state by Allen Barnett of Coleman against Jerry Ash whom he had played twice. Bar-

because he was a senior and Byerly was junior and had another year left to play. James is also a captain on the football team this year and plans to try to get a scholarship at Oklahoma University in the fall.

Both Jerry and James are predicted to go a long way in the ranks of football this year. A lot, of course, will depend on how well Crane does in football.

McCamey Downs Crane B 13-6, Or Badger Field

McCamey B-team came out on top of Crane B-team 13-6, Saturday, September 28 on their own field.

It was a close ball game all the way. McCamey scored in the first quarter of play to make it 6-5. The score stayed that way until the third quarter when Frank Van Court ran 70 yards on the kick-off for a touchdown which tied the ball game. In the last few minutes of the ball game McCamey scored to make the final score read McCamey over Crane 13-6.

Lynn Thompson, Richard "Red" Whittaker, and Bobby Brunson were the outstanding men on defense for Crane.

The next game for the B-team will be against Fort Stockton in Fort Stockton, Saturday, October 12.

The game was played after the paper went to press and we were unable to get the score.

DENVER CITY HOPING TO ESCAPE LOOP CELLAR

The Denver City Mustangs beaten and almost unthreatened and the Golden Cranes are to meet at Denver City, October 25 which is likely to be a very good game.

The Golden Cranes have defeated Winters and Pecos and was defeated by Monahans.

The Mustangs have defeated Sudan, Tahoka, Post and Wink. They were defeated by Sundown. Each team has only lost one game at press time.

Denver City's football Mustangs became involved in an embarrassing series of setbacks over the past few seasons, with the result that they'll find themselves in the change of a new taskmaster as rehearsals begin for the 1957 campaign. The Mustangs simply have found themselves outgunned and unable to produce touchdowns with the desired rapidity. This was all quite a comedown from 1952 when Denver City marched un-

beaten and almost unthreatened to the state quarterfinal meet at Denver City, October 25 which is likely to be a very good game. Crane will have to watch mighty Charles Mobley, a 135-pound senior, John Johnson, 165-pound junior, and Jimmy Allison, a 165-pound junior. Crane is now holding third place in District 5-A season standings at press time. Crane has a very outstanding backfield. Gayle Morgeson has made three touchdowns. Winston Freeman, Jimmy Leo and Jerv Stiger have each made two touchdowns, with Jerry Mills making one touchdown. Crane has had several injuries during the previous games, but will be strong and ready for this game. Crane defeated Denver City last year by a score of 40-7.

Lowery, Dainty Blonde Has Big Future Plans

A very bright pupil of Crane High School is Vaneta Lowery, who was born in Weatherford, May 4, 1940. She is a dainty, 5'2" blonde with blue eyes.

After a bit of wandering around, she moved to Trent and stayed until she was in the second grade. Then she moved to Crane where she has been ever since.

While making good grades all through school, Vaneta has also been busy with other activities. She has been a member of the Library Club for four years and is their secretary this year, a member of the Dramatics Club for one year, and has been in the choir for four years. For two of the four years in the choir, she has been in the A Cap-

ella Choir. She has also been in the Pep Squad for three years.

In her junior year, Vaneta played the part of "Miriam" in the play "Dear Ruth". She has been stage manager for the contest plays for the past two years.

LIKES LIVING

For Vaneta's favorite colors she has chosen pink and beige, and her favorite pastime is just running around and enjoying life. To please this pretty blonde you can take her to dinner consisting of fried dove, french fries, salad, and tea, and chocolate cake for dessert. After dinner she would enjoy a movie starring James MacArthur or Luana Patten. Her favorite of all movies is "The Bad Seed." Her favorite songs are "It's Not Fair For Me To Say" or "Diana".

Vaneta says her most exciting moment was right before the curtain went up for the junior play. When asked what her pet peeve was, she said, "I'd like to strangle every snob." (Nuff said?) She could not think of a most embarrassing moment at the time.

She likes chemistry and journalism better than any other subjects, and football leads the sports list as her favorite.

At present Vaneta's plans are to attend Sul Ross and become a teacher. Let's wish her a lot of luck in her happy life ahead.

Most New Students Impressed With CHS

Interviewed as to how Crane High compares with their former schools, most new students were especially impressed with Crane High's facilities for both study and entertainment. Also, CHS' scholastic standards appeared to have rigid discipline, in many opinions, however, pupils from smaller schools seemed, in many cases, to feel that discipline and rules were more lenient.

Here is the way the poll ran:

DAVID INGRAM (North Ridge, Calif.) I think Crane is harder but the rules are not as strict. Crane has better equipment and the kids are more friendly. Crane has about the same entertainment.

SUE ABERNATHY (Holdenville, Okla.) Crane has better equipment but the rules are stricter. The kids are more friendly. Crane has about the same entertainment. The school work is harder.

DORIS DEAN (Odessa, Texas) The kids are friendlier. Crane has better equipment. The rules are about the same, and so are the lessons.

JOHNNIE SCZEPANIK (San Angelo, Texas) Crane has less work and more entertainment. It has about the same equipment and rules. The kids are more friendly.

PAT RIDLING (Andrews, Texas) School here is about as hard as it was there. Crane has better equipment. The rules are "more stricter", but less work. The kids are not as friendly because I came from a smaller school.

CHARLES LINDSEY (Sweetwater, Texas) The equipment is better at Crane and the kids are more friendly. Crane has more homework and rules are about as strict, but are different. Crane has more entertainment.

FIDEL FUENTES (Brownfield, Texas) The rules are stricter but easier work. The kids are more friendly here. We have about the same equipment.

KEN SWAFFORD (San Angelo High) The rules, equipment, and kids are about the same. Less homework and not as much entertainment here.

C. B. CURRY (San Angelo High) Crane's rules are not as strict. The equipment and entertainment are better at Crane. The kids are friendlier and about the same amount of homework.

1961 Graduates May Require 20 Credits

This year's Freshman Class may be required to have 20 credits to graduate, according to a plan under consideration by the Texas Education Agency.

Nine and a half credit hours to be required are: Two and a half years of Social Studies, two years of Lab Science, three years of English and two years of math.

Counseling Dept. Of C.H.S. Solve Students' Problems

The students of Crane High are very fortunate in having a very competent counseling department. The department is to help you with any problem you have, personal, career or any other.

The teachers acting as counselors are Mrs. Ann Mayes, periods one through four; J. R. Dickason, period five; George Grounds, period six; and Doug Chrane, period seven. All these teachers are very capable, but Mrs. Mayes is the only one who has had a course on this line in college.

Some of the services offered through the conference room are aptitude tests, tests that help determine what a person is more capable of doing; interest inventories, tests that tell where a person's interests lay; problem check lists, lists that determine a person's chief problems; career information, information on all types of careers; college bulletins that all about colleges and what they offer; and many others.

There are also a group of standardized tests given through this department.

The Iowa Achievement Test is one of this type. It is given to the entire student body. This test will be given in the near future.

The Kulman-Anderson Intelligence test is another standardized test given. It is given to only the nine and 11 graders. It is also given every year.

Mooney Check list, a problem check list, and Kuder Preference Record, aptitude test for occupation, are two more of these.

Also offered through this department are scholarship tests for seniors. One of these tests to be given October 22, is the National Merit Scholarship Test. It is given to the top three senior students free of charge, any others desiring to take it must pay a fee of \$1.

Although all students are welcome to come to the conference room the Senior Class produces its more frequent visitors.

All students in high school are urged to take all their problems to the conference teachers, whether they are personal, career-wise, big or small or any other.

Increase In Feed; 613 Regular Boarders

Mrs. Nettie Kelly, chief dietitian of the cafeteria, stated that more people are eating at both cafeterias than ever before. A total of 613 as an average are eating there. Mrs. Kelly hopes the students will continue to like to eat in the cafeteria.

Mrs. W. M. Heard a regular hand in the cafeteria is in the hospital because of a severe burn on her feet. Mrs. Loyce Plummer is replacing Mrs. Heard.

BOOK NOOK | 12 Boys, 15 Girls Out For Basketball In Bethune Gym

RUN SILENT, RUN DEEP by Commander Edward L. Beach, USN.

Henry Holt and Company is proud to publish a book which will take its place with **THE NAKED AND THE DEAD**, **BATTLE CRY**, and **AWAY ALL BOATS** as a novel of yet another service which distinguished itself in World War II.

This is a story of the silent service the submarine crews which destroyed the Japanese merchant marine. A narrative, taut with drama, told with the intimacy of a confession, it deals with two strong-headed men: their loves, their jealousies, and their destinies in the lonely and desperate struggle between the hunters and the hunted. Few war novels will rival **RUN SILENT, RUN DEEP** in the naked realism of its action. None will surpass its rising excitement and brilliant descriptions of men in combat.

Unlike many war novels, here is a story that deals with war from the perspective of command. Commander Beach recreates with fidelity the anguish, agony, and triumphs of command decisions. In Commander Richardson, he has created a character that is human, in an excellent naval officer. In a sense **RUN SILENT, RUN DEEP** is a monument, not to the misfits and the mistakes, but to those men who rose to greatness under the sometimes unbearable tensions of action.

Bostwick, Sheppard United In Marriage

Carolyn Bostwick and B. D. Sheppard, graduates of the 1956-57 Senior Class, were married at 6:00 p.m. September 13, 1957 in the First Baptist Church.

Bro. H. F. Dearing read the Double Ring ceremony. Bob Haney sang "I Love You Truly" and Mary Rita Corbell played the organ.

Either side of the altar was flanked by two large standing baskets of flowers.

The bride was given in marriage by her father, J. E. Bostwick. She wore a long torso dress of lace and chiffon. The ballerina length dress had a full skirt and three-quarter length sleeves and was trimmed with pearls. The waist length veil which hung from a tiny lace-and-pearl hat was trimmed with lace flowers and pearls. The bride carried white carnations on a white Bi-

The bridesmaid, Catherine McKay, wore a red faille princess dress, red shoes and a finger tip pearl veil hung from a tiny red pearl trimmed hat. She carried a red carnation bouquet.

The best man was Charles Sheppard, a brother to the groom.

The wedding reception was held in the Fellowship Hall of the First Baptist Church.

The bride and groom spent their honeymoon in San Antonio, and are now at home in Crane.

Bethune is looking forward to two good basketball teams this year with several tournaments in the planning.

Coach Elroy Hall has 12 boys trying their best to make the starting "five". The girls outnumber the boys by three having 15 battling for starting positions.

Boys trying out for the team are by name; Charles Foster, Glenn Jeffrey, Clarence Jones, Luther Morris, David Walker, Roy Milton, Jimmy Lee Finley, Johnny Hollins, Willie Del Morris, Maurice Powell, Jr., Freddy Waker, and Curtis Jeffrey.

The girls who work out every afternoon, by name are Katherine Lane, Patricia Montgomery, Mary Washington, Linda Ann Hollins, Autha Lee Lane, Elma Jean Morris, Margaret Price, Ruby Jones, Zella Mae Jones, Ernestine Jeffrey, Bobby Jean Lane, Betty Ruth Miles, and Hazel Hollins.

The coach at Bethune is working with Coach Freeman on the basketball schedule so the games will not conflict with any of Crane High's ball games.

They are working on having a tournament that is to be held in Bethune gym on the second Friday in January.

The women of the faculty played the girls basketball team on Thursday, October 10, in Bethune gym. The outcome of that game had not been received by press time.

Bethune is planning on having a Halloween Carnival in their gym on the night of Thursday, October 31.

PROGRAMS FOR YEAR ANNOUNCED AT MEET OF BETA SIGMA PHI

The Omi Crom Po chapter of the Beta Sigma Phi met in the east wing of the Community Hall Tuesday, Sept. 24 with Mrs. W. Orr, president presiding.

The program chairman, Mrs. David Tiner, announced the hostesses and programs for the year and passed out yearbooks followed by the naming of the committees for the rush party by Mrs. Jeff Robins, social chairman. The rush party is given each year for prospective members and is set for the third of October for this year.

Mrs. Pat Pauley was chosen Valentine Girl to represent the Crane chapter in national competition for the Valentine Girl of the Year, and a very interesting program was presented by Mrs. Charles Culbertson.

Hostesses for the meeting were Mrs. Pat Pauley and Mrs. Charles Swinson who served the following refreshments: Mmes. Jeff Robins, Fred Wilkinson, Ted Hogan, David Tiner, Harold Pettit, Dan Anderegg, and W. W. Orr.

SCHOOL STARTS OFF WITH A BANG IN CIVICS CLASS

The second day of school, which had been the usual thing, was almost at a close. It was sixth period and all the classes were studying hard.

But something different was happening in Civics class because, you see, George McCasland is in this class. The Class was listening to Mr. Hogg with great interest when all of a sudden George shot his hand up in the air. Mr. Hogg asked George what he wanted and George began explaining to Mr. Hogg that the top of his desk was loose and he needed a screw driver to fix it with. Mr. Hogg said he didn't have one but George could go get one from one of the custodians of the building if he wanted to. George left and class discussion went on. But this peaceful scene only lasted for a short time until George returned with a screw driver in his hand. He retreated to his desk and set his "Do it Yourself" mind to work while Mr. Hogg continued class.

When only about ten minutes of the class was left George had supposedly completed his mission of fixing his desk, and raised his hand to ask Mr. Hogg a question. When Mr. Hogg called on George, George let his arm fall back to his desk. It was at this moment it happened. The top of George's desk flew across the floor.

Wedding Bells Ring All Summer In Crane

Wedding bells rang all summer long in Crane.

Several of the couples married were Sherry Williams and Benny Patterson, Peggy Milam and Corkey Dickson, Jim Preslar and Glenna Mills and Wanda Day and Roy Damron. Cindy Scott, Wanda Johnson, Lynn Williams, Sandra Garrett and Eloise Neeley were married also.

Sherry and Benny will make their home in Alpine, where they will attend Sul Ross.

Cindy, Lynn and Sandra, married to Frankie Burrows, Kenneth Simon and Earl Stivender, respectively, are living in Crane.

FOUR CHS TEACHERS SUMMER SCHOLARS

Four high school teachers attended school this summer.

Charles Stroder, who is a math teacher, attended Mississippi College. The college is close to Jackson, Mississippi. Mr. Stroder studied education.

Paul Patterson, Spanish and journalism teacher, attended college in Geneva, Switzerland. This college is sponsored by the State University of New York in Buffalo, New York. He studied the operations of United Nations and the Red Cross.

Miss Mae Featherstone, who is teaching English, attended the University of Texas at Austin, Texas. Miss Featherstone studied Graduate English.

Bob Ervine, the new speech teacher, attended North Texas State College at Denton, Texas. Mr. Ervine studied speech and English.

40 Per Cent CHS Pros Hold Master's Degrees

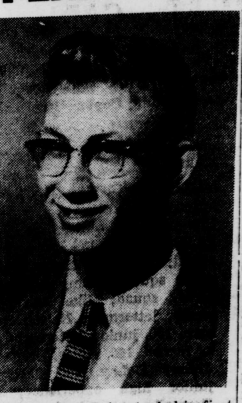

Approximately 40 per cent of Crane High's teachers hold master's degrees.

James Harrison, English teacher, holds a master of arts degree from North Texas State. J. R. Dickason, band director, received a M. A. degree from Texas Tech. George Grounds holds an M. A. degree from Texas Western. Mrs. Ann Mayes holds an M. A. degree from North Texas State, and Billy Maves holds an M.A. from North Texas State. Mrs. Mayes teaches girls' physical education and Mr. Maves is shop instructor.

Don Edwards, shop teacher, holds a master of education degree from North Texas State. Farrell Hogg, social studies, holds a master of education degree from Texas Tech. with John McLean, science instructor, holding a master of science degree from Tech also. Miss Lorene Davis, English teacher, received her Master of Arts degree from George Peabody College. Doug Chrane holds a master of science from Sul Ross State. Mr. Chrane teaches math.

Gloria Looney, an ex-Crane who attended school here last year is attending school at Redford School for Girls in El Paso.

PRICE. LOYAL 4-H'ER. PLANS TO BE RANCHER

Eddie Price took his first shocking glance at this world on August 22, 1940 in Silver, Texas. He has grown a little since then. He now weighs 160 pounds and is 6 feet and 3 1/2 inches tall. He has blond hair and roving blue eyes.

Eddie started school in McCamey and then he discovered Crane and moved here in the third grade. He wanted a little peace and quiet so he moved way out in the country and went to school at Garden City. Finally

Crane Students Field House Completed New, Modern Equipment

The new football field house has been completed for the football season this year.

It is very modern and certainly meets with the approval of the teams. This building contains dressing rooms for "A" and "B" and junior high teams with showers and lockers. For the convenience of the team it has a training room where the whirlpool, heat lamp and so forth are kept. The coaches of both high school and junior high have offices also. It has black board facilities for drawing plays with modern equipment.

This building has central heating and is air conditioned.

Your reporter has never seen the interior of the field house due to not being on the team but she was told the boys and coaches are very pleased and satisfied with their new building.

Crane drew approximately \$2100 at the gates from the Big Lake-Crane game.

after he could stand to be passed from Crane no longer he passed back in the ninth grade.

This tall lanky Texan went to go to stock shows for a time or watch John Wayne and Kim Novak in a movie.

Eddie is quite a 4-H'er. For six years he has been a loyal hard working member. He was vice-president of the Junior FFA Chapter in Garden City and received the Achievement Medal. He won the conservation award for District six and went to A&M to compete in the state contest. He had the honor of being awarded the meat packers' award.

Eddie had the reserve champion Fine Wool sheep at Dallas in 1955 and the Grand Champion Fine Wool in 1956.

Eddie's exciting moment was when he showed the Grand Champion lamb at San Antonio. He stated he had never been embarrassed.

Eddie doesn't have a dream car — he'll take anything of four wheels that will run.

The 4-H'er plans to continue his ranching in the future attending A&M next year.

The Crane wishes this tall Texan all the best luck and success possible.

GARDEN CLUB IS WELL REPRESENTED IN SAN ANGELO

The Castle Gap Garden Club of Crane was well represented at the San Angelo Garden Club's annual flower show school, the San Angelo College, where eight members attending Sept. 24, 25, 26.

The first day was occupied with flower arranging led by Mrs. Jason Robinson of Arroyo using different wild flowers as well as garden grown ones. An arrangement which was especially lovely was of hyacinth, their best.

Mrs. J. A. Kindall of Arroyo the way ton gave instructions on how to culture the second day at the local club stated they thought they "didn't know as much about when flowers as they thought the club had."

Another school is planned for six months and several will attend from Crane. A wonderful time was reported by following: Mmes. R. L. Damm, Wayne Ervin, Bob Hutson, Charles Ogle, P. W. Burton, J. D. Dammron, Charlie Passur, and H. Currie.

BOOST THE FOOTBALL TEAM

Although the school spirit was lagging at the first of school it has picked up quite a bit. But it could get a lot better.

The cheerleaders have really worked hard this year. They started practicing early in the summer and are still practicing everyday after school. Three cheers to the cheerleaders!

The Pep Squad is doing a real swell job this year too. We heard comments at several of the ball games from the opponent's fans that the pep squad can be heard real well on the visitor's side. Also the pep squad has been spreading their spirit to the merchants by painting the windows of the stores down town.

Let's get behind these Cranes and give them a boost by adding our spirit to theirs.

We'd like to take this opportunity to tell the band how much they are appreciated around here. H. S. too. It wouldn't seem like a football game without their band. They have put on some real nice halftime programs.

Keep up the good work, boys. Let's all get to work and give our support to the Crane football team and leave all the work up to the people. Let's all show them we are proud of them by boosting them a the way.

PRICE, BUSINESS TEACHER HONOR GRADUATE COLLEGE

Miss Imogene Price attended all four years and graduated with honors. This was about the most exciting moment she ever had.

When Miss Price was a senior in high school she started her career by competing in the inter-scholastic league in short hand and won.

Mexican food is one of her favorite foods although she likes several other dishes that are new. Miss Price spends any extra time she finds reading. She likes all kinds of books as long as they are interesting. She also says that it isn't very often that she gets through preparing her lesson and grading papers to do much of anything.

Miss Price likes popular music but hasn't any certain song she likes the best.

CRANE TEACHER AT RAM

Approximately 40 per cent of Crane High's teachers hold master's degrees.

James Harrison, English teacher, holds a master of arts degree from North Texas State. J. R. Dickason, band director, received a M. A. degree from Texas Tech. George Grounds holds an M. A. degree from Texas Western. Mrs. Ann Mayes holds an M. A. degree from North Texas State, and Billy Maves holds an M.A. from North Texas State. Mrs. Mayes teaches girls' physical education and Mr. Maves is shop instructor.

Don Edwards, shop teacher, holds a master of education degree from North Texas State. Farrell Hogg, social studies, holds a master of education degree from Texas Tech. with John McLean, science instructor, holding a master of science degree from Tech also. Miss Lorene Davis, English teacher, received her Master of Arts degree from George Peabody College. Doug Chrane holds a master of science from Sul Ross State. Mr. Chrane teaches math.

Gloria Looney, an ex-Crane who attended school here last year is attending school at Redford School for Girls in El Paso.
