Thursday update

IN BRISCOE'S EMERGENCY PROCLAMATION

New District Courts Asked

By LEE JONES
Associated Press Writer

AUSTIN, Tex. (AP)—Gov. Dolph Briscoe set his first emergency measures to the new legislature today, asking it to create 23 new district courts to unclog criminal dockets and to hasten gas utility rate decisions by the Texas Railroad Commission.

The emergency proclamations mean the legislature can ignore rules that force special appropriations measures to wait in line behind the general spending bill.

Senators meanwhile, scheduled a vote on Briscoe's appointees as the first three members of the Public Utility Commission.

Briscoe asked quick action on a bill SB331 transferring $188,974 from the railroad commission's appropriation for oil and gas regulation to the agency's gas utilities division.

The division has been overloaded with appeals from refusals of city councils to grant rate increases requested by gas companies.

The new courts Briscoe requested were contained in a bill that was killed by a Senate filibuster in the closing moments of the 1975 legislature. Funds already had been provided for them in the general appropriations bill.

THE SNYDER DAILY NEWS

VOL. 28 NO. 229 SNYDER, TEXAS (79549) THU., JAN. 27, 1977 12 PAGES 15c

Mondale Meets Pope

VATICAN CITY (AP) — Pope Paul VI met with Vice President Walter F. Mondale today and told him President Carter's pledge to work for an end to the arms race will be "of immense service to the world."

"I will bring your blessings to the President and your strong message of freedom, justice, compassion and peace which we want to be the centerpiece of our new government," the vice president told the Pope at the end of their meeting.

Mondale then flew to London for a meeting with Prime Minister James Callaghan that an aide said would focus on Rhodesia, South Africa and Cyprus.

Labor Chief Sworn In

WASHINGTON (AP) — F. Ray Marshall took the oath of office today as secretary of labor, completing the installation of President Carter's Cabinet.

Carter, who stood behind Marshall as Chief Justice Warren E. Burger swore in the new secretary, expressed confidence Marshall will enable him to fulfill his pledge of putting people back to work.

In brief remarks at the White House ceremony, the President noted Marshall's background as an economist but said he also possesses the knowledge and understanding of the personal impact of unemployment on workers.

More Aliens Expected

SAN YSIDRO, Calif. (AP) — With the holiday season over and economic troubles mounting in Mexico, immigration authorities expect a record flood of illegal aliens across the southern border of the United States this year.

"I don't think we will have to wait for spring this time," says Robert D. McCord, assistant chief of the Border Patrol for the San Ysidro area. "They're already starting to flood in. Last Sunday we caught 700 of them."

Readable Policy OK'd

AUSTIN, Tex. (AP) — State Board of Insurance Chairman Joe Christie announced approval today of the first accident and health insurance policy to comply with new rules on readability.

American Life and Accident Ins. Co. filed its "basic hospital surgical expense" policy with the board Jan. 13.

"I'm proud that our citizens now are offered an insurance policy with an outline of coverage that is as easy to read as Reader's Digest," Christie said.

The SDN Column

Well, they've done it.

Usually, about this time of year, we like to remind our readers that the next football season will begin in less than five months.

This always is a jolt to some wives, we are told, but is encouraging news to fans who have already explored all channels on their television sets since the Hula Bowl Game and determined that there is very little worth watching on the tube.

This year, it will be a little longer before the 1977 football season begins. They have confirmed that the Coaches All-America game has been scratched from the schedule.

For some 16 years, this game has launched the season, most of the time on the fourth weekend in June, and for the past several years it has been played at Lubbock.

Now, they say that there is no chance for this game to be played this year due to a lot of problems involving the professional teams and their player contracts, plus the high cost of providing insurance and other essentials for the players involved in the game.

So, it appears that we must wait until some time in July for the first football game of 1977, and we must look to the pros for it.

★ ★ ★

The retail sales figures announced by State Comptroller Bob Bullock the other day shocked a lot of people. Scurry County came off extremely well in these statistics, which are actual figures and not estimates based on samples, hit-or-miss surveys, etc.

The figures are interesting to most people, and they probably are more interesting to retailers than others. It gives them an opportunity to determine whether they are getting their share of the retail business, and if not, to try to figure out why.

The cactus patch philosopher says that in business there is a factor known as supply and demand, but when a man gets married this changes to demand and supply.—WACIL McNAIR

CLEAR WEATHER

SNYDER TEMPERATURES: High Wednesday, 62 degrees; low, 36 degrees; reading at 7 a.m. today, 46 degrees; precipitation, none. Total precipitation in 1977 to date, .58.

West Texas: Fair and warm tonight. Partly cloudy and turning colder north Friday. Lows tonight 20s north to 40s south. Highs Friday 40s north to 70s south.

Exxon Blasts Injure 17

BAYTOWN, Tex. (AP)—A series of explosions rocked an Exxon tanker, sank a tugboat and left at least 17 persons injured and four missing early this morning in the Houston Ship Channel just outside this coastal city.

A Coast Guard spokesman said three of the persons missing were crew members of the tugboat. He said the explosions aboard the Exxon San Francisco apparently were caused by sparks from the engine of the tugboat that ignited fumes from fuels being loaded aboard the tanker at the Exxon refinery here.

Coast Guard spokesman Lt. Dennis Sande said:

"They were loading heating oil through a loading arm when the arm broke spraying heating oil over the dock. According to reports, the commercial tugboat Nathan B. which was docked on the other side of the pier from the San Francisco, started her engines and it was shortly after that that the explosions occurred."

Coast Guard officials and Civil Defense spokesman said earlier that about 15 to 20 crewmen were unaccounted for. But Lt. Sande said at midmorning that all the San Francisco crewmen were accounted for and those missing were three tugboat crewmen and a crewman from the CYS Brilliance, a Liberian tanker tied at the same dock.

The Coast Guard spokesman said at least three persons were aboard the tugboat Nathan B when "it went down." Eye-witnesses said the bottom of the tugboat could be seen just above the water. The dock area was sealed by the Coast Guard, and at least 45 persons in nearby homes were evacuated and taken to the Baytown Civic Center. Although the fires were contained, flames could still be seen early in the morning from about 300 yards away.

Baytown Civil Defense spokesman Glenn Walker said 17 persons were injured. The Coast Guard said at least three required hospitalization.

The explosions occurred at 2:04 a.m. as the 800-foot tanker was taking on heating oil and gasoline.

2 Youths Face Murder Charges

Murder charges were filed here Wednesday afternoon against two suspects in the fatal shooting last week of Clyde Dennis.

The slain man's grandson, Jerry Mac Dennis, 18, and another suspect, Danny Ray West, also 18, were both charged with the murder yesterday by District Attorney Pete Greene.

Bonds for the two men were re-set this morning in Justice of the Peace Bobby Goodwin's office. Each of the men was in county jail in lieu of $35,000 bond on a murder charge and $20,000 bond on an auto theft charge.

The cases of the two men are expected to be presented to a Scurry County grand jury when it convenes in early February.

Sheriff's authorities said this morning that a .22 caliber magnum rifle, believed to be the murder weapon used in the slaying of Clyde Dennis, 78, was recovered yesterday from South Champion Creek, approximately seven miles south of Colorado City. The gun was found in the creek by a scuba diver in water estimated to be about 4 to 4½ feet deep.

Two credit cards, believed to have come from Dennis' wallet, were found in the victim's 1976 Chevrolet stationwagon that was allegedly stolen after the murder.

The car was located by authorities in a pasture outside Snyder Tuesday.

West is reported to have turned himself in to lawmen Tuesday afternoon and Dennis was arrested the same day by officers.

Clyde Dennis was found slain in his 2809 Avenue Q home shortly after 11 a.m. Saturday. He had been shot three times

Rex Miller Dies; Rites Set Friday

Rex Miller, 64, prominent Snyder merchant who lived at 3005 35th St., died 6:05 p.m. Wednesday in Cogdell Memorial Hospital following a brief illness.

Funeral service has been set for 2 p.m. Friday at the 37th Street Church of Christ where Mr. Miller was a member. Pat Abbananto, minister of the 37th Street Church, and Sam Kitching, minister of East Side Church of Christ, will officiate. Burial will be in Hillside Memorial Gardens, under direction of Bell-Seale Funeral Home.

A native of Paris, Tex., Mr. Miller had lived in Snyder since 1941. He had been in the retail grocery business here for a number of years, owning nad operating a store on College Avenue at the site now occupied by Hinshaw's House of Flowers before building a larger Everybody's Thriftway store in the Snyder Shopping Center at 35th Street and College.

REX MILLER

Mr. Miller is survived by his wife, Babe, of the home; a daughter, Mrs. Milton (Jo Ann) Ham of Snyder; a son, Dr. Fred Miller of San Angelo; two sisters, Mrs. Ruby Smith of Blossom and Mrs. Annie Mazy of Pattonville; a brother, Max Miller of Paris, and four grandchildren.

IN LAMAZE CLASS AT WTC

Mothers Learning What To Expect In Childbirth

By JOHN LONG

"Try blowing out and bearing down at the same time," the class instructor exhorts her students.

"Now suppose you're having your contractions and you want to push, but the nurse tells you that you're not ready yet," resumes the instructor. "What do you do then?"

What to do next is a question faced by many women during childbirth. Some women in Snyder, however, are studying the Lamaze method of childbirth and learning what to expect and how to cope with the various stages and aspects of having children.

The classes are a part of a program being offered by Western Texas College. Class instructors are Winnie Poyner, director of the vocational nursing program at WTC, and Diane Beard.

"So many people have a misconception of the Lamaze method of childbirth," Miss Poyner said.

"In natural childbirth you have no medicine, and children are often delivered without doctors," Mrs. Beard continued.

The Lamaze method does stress, however, childbirth through natural methods. These natural methods include breathing exercises and, to an extent, mind control to help alleviate physical stresses.

Some teachers of other methods of childbearing stress totally natural childbirth. "But in Lamaze we stress education and tell women what to expect and how to react to the various aspects of childbirth as they arise," Mrs. Beard said. "We try to allow the women to be in control of the situation as much as possible."

"If you know what is happening, you won't be as afraid of it," Miss Poyner said.

"Childbirth is never going to be painless, but we try through education to make it as painless as possible," Mrs. Beard said.

Women who have studied the Lamaze method of childbirth can, in part, control through breathing and thought control the physical stresses involved in giving birth, and they do not require as much sedation as women who do not know how to handle their physiological reactions.

Because they require less medication, they therefore are more conscious and more aware of their childbirth, the nurses said.

"We've had numerous women come in and tell us how beautiful their experiences were in childbirth. They had not been heavily sedated and they knew what was happening," Mrs. Beard said.

"Previously, everyone in the delivery room knew what was happening except the mother. Now, she knows too," Miss Poyner said.

Because the Lamaze method requires that the woman be assisted by a coach throughout the childbirth, the position is usually filled by the husband.

"The father is happy that he had a part in the birth of his baby," Miss Poyner said. "And the babies are coming out crying, not sedated or groggy," she said.

Miss Poyner and Mrs.

PRACTICE SESSION—Gray Pieper is shown assisting his wife, Frances, as they prepare for the birth of their second child. They are studying the Lamaze method of childbirth at Western Texas College. Pieper is shown clutching his wife's leg to simulate a contraction. Their baby is due April 10. (SDN Staff Photo)

ASSISTING HIS WIFE—Another couple studying the Lamaze method of childbirth, Dee and Kim Warren, are shown preparing for March 14, the expected date of the arrival of their second child. (SDN Staff Photo)

THE ANSWER IS 546372891—The question is on the blackboard in background. It says, find the 23rd root of a 201-digit number. Shakuntala Devi, a world-recognized mathematician, is shown sitting on a stage at SMU in Dallas, Tex., Tuesday, working on the answer. She came up with the correct answer in 50-seconds. It took Univac more than a minute to compute. It took a professor more than 4-minutes to write it on the board. (AP Wirephoto)

SCHOOLS, FACTORIES CLOSED

New Artic Cold Blast Hits East

By DEAN LOKKEN
Associated Press Writer

The Winter of '77 hit the East, Midwest and parts of the South with a new arctic cold blast today as already critical natural gas shortages forced more closings of schools and factories.

The entire school system of Pennsylvania was shut down by Gov. Milton Shapp so that natural gas could be shifted to industries. State officials said the state's 2.6 million public and parochial students may be out for longer than the three days already scheduled.

Pennsylvania and Ohio got a taste of the renewed cold front as the new arctic storm moved down from Canada Wednesday night and dropped temperatures by as much as 20 degrees in three hours.

Snow squalls hit sections of Ohio and Indiana Wednesday night, blocking roads and causing scores of traffic accidents, officials said.

Major north-south roads were blocked in Indiana, with hundreds of motorists stranded.

Some 150 school districts in 20 northeastern Indiana counties, including the 40,000-pupil Fort Wayne system, the state's second largest, canceled classes today.

The area south of Toledo, Ohio, was hit heavily by the storm, with most roads, including some main highways, closed.

Power failures, blamed indirectly on the winter weather left about 36,000 Greater Cleveland residents without electricity for several hours Wednesday night and knocked out power to Cleveland Hopkins International Airport and Southwest General Hospital. Both reported that operations continued on auxiliary power facilities.

Temperatures plunged elsewhere in the Midwest and East Coast freeze belt as winds gusting up to 40 miles per hour pushed the frigid air mass, into the nation.

And the National Weather Service reported Wednesday that there appears to be no long-term warming trend in sight. The service forecast lower than normal temperatures over much of the East for at least the next two weeks.

Earlier Wednesday, President Carter asked Congress for emergency authority to transfer natural gas to areas with the worst shortages.

Carter told a news conference that natural gas shortages due to the cold have closed some 4,000 plants and forced layoffs of an estimated 400,000 people and are now threatening those who use natural gas to heat their homes.

Carter also renewed his appeal for Americans to lower their thermostats to 65 degrees by day and lower at night, although an aide said later that the President did not want people to break any local or state laws that mandate higher temperatures.

And, there were indications last week's freeze in Florida was forcing up prices of groceries in many areas of the nation.

Parts of Maryland and Virginia around the Chesapeake Bay were declared federal disaster areas because the frozen bay has put many boatmen and fishermen out of work. The ice has blocked shipments of fuel oil and grain.

Outside Pennsylvania, school closures were scattered.

Mothers

(Continued from page 1)

Beard studied the Lamaze method of birth last January in San Antonio under the sponsorship of WTC and several local doctors. They have been teaching the birth process here since last May.

The Lamaze method of birth derives its name from Dr. Ferdinand Lamaze, a Frenchman, who traveled to the Soviet Union in 1951 and studied the methods of birth employed there.

Dr. Lamaze returned to France with his findings and began teaching his own version of Soviet practices. An American woman, Maryone Karmel, studied childbirth under Dr. Lamaze and delivered a baby by the Lamaze method in 1959. She is credited with bringing the practice to this country.

Miss Poyner's and Mrs. Beard's Lamaze classes meet one night a week for three hours. Class sessions last six weeks. Following a brief interval of about two weeks another series of classes begin.

Counting the students currently enrolled, 36 expectant women along with their coaches have taken the course. Twenty-one of the women have given birth to their children in the Lamaze fashion. The other 15 women have not had their deliveries yet.

Of the 21 deliveries one baby was stillborn and complications arose in the births of four others. Approximately 12 of the deliveries were made in Cogdell Memorial Hospital.

Some of the women are studying the Lamaze child birth method for the delivery of their first child. Other women have already had one or two children by conventional delivery before studying the Lamaze method.

Most of the women who have taken the course come from Snyder. Some women have come from Hermleigh, Roscoe and Colorado City.

Being pregnant is virtually a requirement for class admission. The nurses said they prefer the women to be approximately seven months pregnant. Also, the consent of the woman's doctor is needed for admission to the classes.

In the classes, the women are taught muscle control and breathing exercises, how to coordinate the two, and how to employ them in what stage of the childbirth.

The nurses said they also teach the women what to expect in childbirth and what the standard hospital practices are. Nutrition during pregnancy and the various physiological reactions that occur in woman's body are also taught as well as post-partum baby care.

"We tell the women to work as a team with the doctor and the nurses and we also tell them that the doctor is the head of the team," Miss Poyner said.

There is no pass-fail grading system in the Lamaze method of childbirth. "We're just aiming for a more satisfying childbirth," the nurses said.

OWNERS OF NEW HEALTH FOOD STORE—Mary Wilson, left, and Flora Stephens, the co-owners of the Health Food Center located at 2200 25th St., are displaying two of the items in their store. An open house is being featured at the store Friday and Saturday. (SDN Staff Photo)

Opening Event At Health Food Store

Health food enthusiasts in Snyder no longer have to drive to area cities to obtain their food supplies. A health food store has opened in Snyder and is observing its grand opening Friday and Saturday.

Mary Wilson and Flora Stephens, co-owners of the Health Food Center, have invited Snyderites to come by the store and see the food offerings they have in stock.

The Health Food Center is located at 2200 25th St. and is open from 10 a.m. until 6 p.m., Monday through Saturday.

In stock in the store are natural vitamin supplements, diet aids, sugar free candy, salt free foods, high protein foods, and stone-ground whole grain flours.

The owners said they also have in stock herbal teas, high fiber bran flakes, natural honey, and ginseng.

The foods found in the Health Food Center have no artificial preservatives added to them and are naturally preserved.

Sugar Task Force Formed

WASHINGTON (AP)—Agriculture Secretary Bob Bergland has established a task force on sugar to suggest ways of helping sugarcane and sugarbeet growers and the sweetener industry.

The task force will make an interim report by mid-February.

It will be headed by Robert R. Stansberry Jr. of USDA's Agricultural Stabilization and Conservation Service. Other members will come from the Foreign Agricultural Service and Economic Research Service.

Growers have requested aid because world sugar prices dropped by almost 50 per cent between July and September as supplies exceeded demand in the U.S.

Grain Projections Raised

WASHINGTON (AP)—The Agriculture Department has raised its projections of corn and wheat surpluses because of low demand and healthy stocks in competing countries during the last quarter of 1976.

When the new wheat marketing year begins June 1, the U.S. is expected to have 1.1 billion bushels on hand, compared to 664 million bushels at the same time in 1976 and 430 million the year before, USDA said Wednesday.

The corn surplus as of Oct. 1, the beginning of a new marketing year for that grain, will total 724 million bushels USDA estimated. The surplus in 1976 was 398 million bushels. For 1975, it was 359 million bushels. USDA said that wheat and feed grains were used in smaller quantities than expected during the latter part of 1976. Large supplies of wheat and other grains were available for export from countries that compete with the U.S. in grain production. At the same time, world demand continued to be weak.

BIRTHS

Mr. and Mrs. Alan Roberts, 602 29th, are the parents of a 7 lb. 2½ oz. boy, born at 7:40 p.m. Jan. 26 in Cogdell Memorial Hospital.

MARKETS

Cotton

NEW YORK (AP) — Cotton futures were higher at midday.

Renewed speculative demand firmed futures prices, brokers said.

The average prices for strict low middling 1 1-16 inch spot cotton declined 34 points to 69.31 cents a pound Wednesday for the 10 leading markets, according to the New York Cotton Exchange.

Midday prices were: 1 75 to 82.25 a bale higher than the previous close. March 73.56, May 74.06, and July 74.25.

Grain

CHICAGO (AP) — Wheat No. 1 soft red winter 2.70½n Thursday. No. 2 hard red winter 2.70½n. Corn No. 2 yellow 2.37 at hopper 2.40 at bin. Oats No. 2 heavy 1.04n. Soybeans No. 1 yellow 7.20n.

No. 2 yellow corn Wednesday was quoted at 2.37n hopper 2.40n bin.

Livestock

AMARILLO, Tex. (AP) — Cattle demand for steer and heifer beef moderate. Trading limited. Limited sales steer beef steady, except yield grade 4 steady to 50 higher. Choice heifer 25 higher, good not established. Cow beef still in very light demand, breaking utility steady, other cow beef 1.00 lower. Steer beef: Choice 3 500-900 lbs 59.50; choice 4 600-900 lbs 57.00-57.50; good 3 500-800 lbs 55.50. Heifer beef: Choice 3 500-700 lbs 59.25. Cow beef: Utility breaking 3-4 42.00; utility boning 2-3 44.00; cutter and cutter 1-2 42.00-44.00.

Kissinger Gets Printing Award

NEW YORK (AP)—Former Secretary of State Henry A. Kissinger has been awarded the printing industry's Benjamin Franklin Award gold medal as a "courageous and incredibly gifted negotiator."

The wart hog is a wild pig found in eastern and southern Africa. It gets its name from three great warts on each side of its long, flat face.

Snyder Man Charged In Nolan Theft

Melvin Riggins, 19, who was arrested here Tuesday afternoon, has been charged with theft of some $5,000 from the BeeGee Liquor Store in Sweetwater.

He was being held in the Nolan County jail without bond. Nolan County Sheriff's Deputy Ben Arguimaiz said it was believed that all of the money reported taken in the theft had been recovered. Two others were reported to be involved in the theft which occurred Monday afternoon.

Nolan County officers, along with Scurry County Sheriff's department officers and Texas Ranger W. D. Vickers of Snyder arrested Riggins following a search of a house Tuesday afternoon.

Panel 'Speeds' Through Highway Finance Plan

AUSTIN, Tex. (AP) — There were no roadblocks when the governor's highway financing plans sped through the House Transportation Committee Wednesday night by a lop-sided 10-0 vote.

"I'll probably bring it up for full House debate next week," said Rep. Jim Nugent, D-Kerrville, obviously pleased by the show of strength for what is considered one of the prime issues of this legislature.

A long line of state and local spokesmen urged adoption of Nugent's bill.

The sole voice of dissent came from Col. Wilson Speir, director of the Department of Public Safety, who complained of a provision that would limit the DPS to $20 million annually from the state gasoline tax.

"The DPS deserves a high priority too," he said.

The other witnesses tried to outdo each others in urging support.

"Our highways will continue to deteriorate without new funds," B.L. DeBerry, engineer-director of the State Department of Highways and Public Transportation, told the committee.

"And without new funds the maintenance costs will increase dramatically. We are going to have a tremendous reconstruction job this year because of the unusual bad weather throughout the state."

The plan calls for dedication of 75 per cent the state sales tax on motor vehicles and all of the sales taxes on parts and accessories to the highway fund, plus allocation of $167 million in federal revenue sharing funds. In addition a ceiling of $20 million annually would be placed on the amount taken from the highway fund for support of the Department of Public Safety.

Marcus Yancey Jr., assistant engineer-director, said the bill eventually would produce $7.1 billion toward the $11.9 billion backlog of waiting highway projects, about $825 million for the next two years alone.

"House Bill 3 will get us on the road toward stopping this deterioration," Yancey said.

"If the Lord is willing and the Texas legislature is willing we will build every dern one of the $11.0 billion backlog of road projects," promised commissioner Dewitt C. Greet.

Commissioners Reagan Houston, San Antonio, and Charles E. Simons, Dallas, also urged support of Nugent's bill.

"This brings us to another road financing benchmark and points up the need for priority assignment of funds," Simons said.

Simons pointed out that even with passage of Nugent's bill there would be needed roads that are unbuilt in 1990.

Scuba Class Needs More

Five more students are needed for a beginning course in scuba diving to be offered this semester at Western Texas College, Lee Burke, instructor, has reported.

Burke said that anyone interested in taking the course should meet him at the WTC pool between 1 p.m. and 5 p.m. Friday.

Those completing the course will be eligible for certification by the Professional Association of Diving Instructors.

Enrollment for all spring semester courses at WTC will close on Feb. 1.

Future Cars To Use Less Gas

WASHINGTON (AP)—The new American cars sold in the year 2000 will get an average of 25 miles to the gallon due to more use of plastic and light metals in their construction, a study by the Department of Transportation says.

One result will be that the projected 16 million cars sold that year will use less fuel than the 10 million cars sold this year use. This year's cars average about 15 miles per gallon.

The study of trends in transportation for the rest of this century was released earlier this month.

ROBYN TRAIL
...checking consistency

INGE HEFEL
...converts metric measurements

Robyn, Inge Bring Recipes From Austria, New Zeland

Inge Hefel, exchange student from Austria, is staying in the home of Mr. and Mrs. Claude McCormick, Jr. Inge stays very busy with school activities, but took time to translate and convert these recipes for the Snyder Daily News. She stated that Austria uses the metric system, so with the help of her American mother (Barbara McCormick) these favorite recipes were prepared so that interested persons might clip them out and try them.

Robyn Trail, exchange student from New Zealand, is staying with the Guy Sullivan family. Mrs. Sullivan found Robyn's favorite American foods, which she had never eaten, have been Mexican foods and cornbread.

Both girls admit they stay very busy and have little time for cooking, but hope these recipes which they have brought from their native homelands are tried and enjoyed.

AUSTRIAN RECIPES

VEAL-STEAK CORDON BLEU

(Good with rice or potatoes)

8 3 oz. tenderized veal steaks
4 thin slices cooked ham
4 slices Swiss cheese
Salt, pepper and tomato-ketchup
1 egg, flour, whole-wheat flour
1 lemon, cooking oil

Put pepper and salt and very little ketchup on one side of the steaks. Then lay 1 slice ham and 1 slice cheese on each steak and top with another veal steak. Put into edges a rolled meat spike. Heat oil in a heavy fry pan. Dip steak into flour, then into the beaten eggs and after that roll into the wheat flour. Fry on each side until golden brown. Serve with a slice of lemon on top of each steak.

POLENTA

(Good with goulash or beef)

7 oz. maize grits (Corn)
1 qt. watered milk (skimmed)
1 soup-cube (bouillon)
3 oz. butter or margarine
Pinch nutmeg and grated Velveeta cheese

Cook skimmed milk and butter till it boils. Then put slowly maize-grits in it stir continuously. After that put the soup-cube in and let is cook for 20-30 minutes. Spice it with nutmeg and leave it covered for half an hour. Just before serving put grated cheese on it and stir.

MARMORGUGELHUPF

(Cake)

7 oz. butter or margarine
1 lb. sugar
5 eggs
1 teaspoon vanilla
1 cup milk or cream
1 lb. flour
1 teaspoon baking powder
3 tablespoons cocoa

Beat butter till foamy, then put in sugar and beat. Put 5 egg yolks, vanilla and the milk in and stir very good. Then add flour and baking powder and stir. Beat until stiff and fold in whites of 5 eggs. Divide this into 2 bowls and mix into one of them the cocoa. Alternate tablespoons of white batter and chocolate batter into a greased and floured bundt pan. Bake 1½ hours on med. (350-375 degrees) oven. After baking, let it cool and sprinkle with powdered sugar.

KAISERSCHMARRN

(Old traditional sweet dish, main dish)

5 eggs
3½ cups sugar
9 oz flour
½ cup milk
2½ cups butter
Pinch salt, rind of lemon
3 oz. raisins
Shortening

Beat egg yolk and sugar till foamy. Slowly and alternately add flour and milk to it. Put melted butter, salt and rind of lemon in it. At last fold in the beaten egg whites, then the raisins.

Pour about ½ inch batter into just enough shortening to cover bottom of heavy skillet. Cook until it is golden yellow and then flip it over and then tear into pieces with a fork. Remove from skillet when it is golden on both sides, place it into a dish and keep it warm. Sprinkle with powder sugar. Repeat process until all batter is cooked.

Good served with fruit compote.

NEW ZEALAND RECIPES

Roast Lamb with Mint Sauce

Roast Lamb:
Leg of Lamb (approx 4 lb)
Cooking fat or oil or butter
Kimaras (Sweet potatoes)
Potatoes
Pumpkin

Heat oven to 400 degrees F. Place seasoned meat in roasting pan. Add butter or lard. Cook for 10 minutes at 400 degrees F. to seal and keep in the juices. Lower temperature to 325 degrees F. for remainder of cooking time (2-2½ hours). Baste frequently.

About an hour before end of cooking time place peeled even-sized salted potatoes around meat. Fifteen minutes later add sweet potatoes and pumpkin in same manner.

Remove meat and vegetables from roasting pan when cooked. Make gravy from juices in pan as follows (on a burner): Pour off most of the fat. Sprinkle 2 tablespoons flour in roasting pan, brown while stirring all the time. Add hot water, a little at a time until required consistency is reached. Add salt and pepper to taste.

Accompany roast meat and vegetables with mint sauce and serve a green vegetable such as peas with the meal.

Mint Sauce:
¼ cup chopped fresh mint
½ teaspoon salt
1-2 tablespoons boiling water
1 tablespoon sugar
shake of pepper
½ cup vinegar (approx.)

Place the finely chopped mint, sugar, salt and pepper in a bowl. Pour the boiling water over them and stir well to dissolve the sugar and seasoning. Add the vinegar and pour into a serving jug

Pavlova (Cake)

4 egg whites
pinch of salt
1 teaspoon vanilla
1 generous cup fine sugar
1 teaspoon white vinegar
whipped cream and sliced fruit

Beat egg whites and pinch of salt until stiff and dry, then gradually beat in sugar until dissolved. Fold in vanilla and vinegar. Place mixture on round piece of buttered waxed paper (6 to 8 inches in diameter) on cold oven tray. Place in preheated oven at 250 degrees F. for 1½ hours. Turn oven off and leave cake in for a further 30 minutes to cool or otherwise the shell may crack quite badly. Remove the paper gently. Top with whipped cream and decorate wth sliced fruit. Typical New Zealand fruits would include kiwi fruit, passion fruit, peaches or strawberries.

For a centre which has more of a marshmallow consistency, a teaspoon of cornstarch may be added. The pavlova may also be cooked in a round baking tin, perhaps 8-10 inches in diameter if a deeper dessert is preferred. Either way, the mixture should always be cooked on waxed paper which, according to the authorities, should be held under cold water for a moment so the cake will be less likely to stick.

COMMUNITY CALENDAR

FRIDAY

Open duplicate bridge at Country Club at 1:30 p.m.

Covered dish luncheon 12 noon at Senior Citizen Center at Western Texas College.

SATURDAY

Say Cheese!

If you're not using dental floss now to remove embedded food between teeth - and to help erode plaque deposits - it just may be something to consider. Check with your dentist.

On Braids

Braids may be dazzling on you, but ugly elastic bands aren't. Try not to let them show or use the kind that add rather than detract from the look.

Glasses Make Younger Sophisticated Look

NEW YORK (AP)—Women often make passes at men who wear glasses, says a New York optician, who adds that it all depends on the style of the spectacles. Changinig glasses can make a man look younger, jazzier or more sophisticated, he says. And it can do the same thing for a woman.

"A new frame style can do what a new dress or a new haircut can do," says Vienna-born Afred Poll, who has been making glasses for almost three decades.

In the last five years wearing glasses has become so fashionable that top designers like Christian Dior, Pierre Cardin, Givenchy and Pucci began making spectacle frames, and many people today wear glasses who don't need them to see. "I only wear these for glamour," said one Manhattanite, twirling her large, non-prescription, gray-frosted specs.

When Poll first started grinding lenses 27 years ago, people had very little choice in frames, he recalls. "They could have standard square, oval or slightly upswept ones," he said. Today there is a much wider choice.

Large, large glasses are still the most popular ones for both women and men, said Poll.

"Jackie Onassis started that trend." But, he cautions, big lenses must be ground more carefully to insure that the focal center of the glass matches the focal center of the eye. Narrower shapes are popular for nighttime wear.

Strong lenses can be made to appear weaker by beveling, surface coating and a suitable frame, he said. There are also new glasses without center circles for people who have had cataracts removed.

And there is even an attachment, the ptosis crutch, which fits inside the frame and is designed to help keep the eyelid open.

Glasses today are also more specialized, Poll points out. There are specific glasses made for tennis, golfing, boating, fishing and skiing. There are glamour glasses for evening, fold-up glasses for the opera and even the monocle is making a minor comeback, he said.

For many, glasses have become not only a necessity, but also a major accessory, Poll notes.

Miss Hefel Enlightens Ira PTA

The Ira PTA Unit met in a regular meeting with 3 officers and 15 members present.

The meeting was called to order by Mrs. Floyd House, president. The devotional was given by Mrs. J.L. Byars.

The following recommendations were approved; to give the FFA Chapter $50 to use on the local stock show, and to buy a camera and strobe light for the annual staff.

Those elected to the nominating committee for the selection of the 1977-78 officers were Mrs. Billy Calley, chairperson, Mrs. Donnie Dunn and Mrs. J.L. Byars.

The room count was won by the 7th grade.

The program was introduced by Mrs. Marshall Parham. Ingelborg Hefel, exchange student from Austria, gave an informative talk and slide presentation about her country. Mrs. Claude McCormick Jr. was a special guest.

Sr. Citizens Luncheon Set

A covered dish luncheon for senior citizens is planned at noon Friday in the Senior Citizens Center at Western Texas College.

The Senior Center is located in the Learning Resource Center and persons needing directions to the building may inquire at the information desk in the Museum Building. Persons needing transportation to the Center may call Kay Albin, Senior Center Director, at 573-0444 before 8:30 Friday morning.

SPRING STYLES LOOK FAMILIAR—Romance is in the wearing for Spring. Peasant fantasy is in via softly gathered lace and eyelet and ethnic-inspired floral tapestries. Chessa Davis matches softly gathered peasant blouse with a Mexican garden of flowers replete with gay ribbons and beads.

Opening lead — K ♥

By Oswald & James Jacoby

This year's Vanderbilt and Spingold were both won by a team captained by Dr. George Rosenkranz of Mexico City that included Dr. Richard Katz, Larry Cohen, Roger Bates and John Mohan. The team averaged just over 40 years in age. Dr. Rosenkranz' 60 years brought the average up.

In this hand from the finals, five diamonds is a very shaky contract. It makes due to the favorable lie of the cards. That is, it makes if it is bid.

Dr. Rosenkranz stopped at four quite properly. The defense started with two rounds of hearts and shifted to a club. George won in his hand and since he was in four, laid down the ace of diamonds as a safety play. He continued with the queen after the jack dropped and wrapped up his contract.

South became declarer at three notrump at the other table, but wound up one down after John Mohan opened the king of hearts and continued the suit with Roger Bates carefully playing the jack and then the 10 so as to unblock for John's fifth heart.

Ask the Jacobys

A Nebraska reader wants to know your rebid with: ♠ A K x x ♥ A x x ♦ x x x ♣ K x x after you open one club and partner raises you to two clubs.

The correct rebid is a pass. You have a minimum opening and undoubtedly two clubs is the best place to play the hand. Your partner should have at least four clubs for his raise.

It's Easy To KILL YOUR BUSINESS

Don't Advertise

Just pretend you don't have anything to advertise this week. Forget the thousands of items you have on the shelves of your store, or the service you have to offer. Don't let potential customers know about them. IT'S A GOOD WAY TO KILL YOUR BUSINESS!

Don't Advertise

Say you don't have the time to fix up an advertisement this week. Just let opportunity after opportunity to promote your business pass by—it will take less of your time And you'll be less busy serving customers if they don't know what you have to offer. IT'S A GOOD WAY TO KILL YOUR BUSINESS!

Don't Advertise

Assume everybody in the trade territory knows what you have for sale, that you've been in business so long you don't need to advertise since the customers will come to you without it. Forget that there are new potential customers coming into the community, that you have new and better products to offer. Forget that you have to keep reminding your established customers to trade with you. Forget you have Big City competition trying to attract more customers. IT'S A GOOD WAY TO KILL YOUR BUSINESS!

Don't Advertise

Tell yourself it costs too much to advertise—that you don't get enough out of it. Overlook the fact that advertising is an investment in selling—not an expense. Be sure you don't provide for an adequate advertising budget for your firm. IT'S A GOOD WAY TO KILL YOUR BUSINESS!

Dr. Lamb

Treatment helps facial pains

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB — I am being treated by a neurologist for a condition called tic douloureux. It occurs unexpectedly as a series of severe stabbing pains, between the right temple and the ear which sends me to the floor, slapping at my head. The attack lasts 15 seconds, recurs in 30 seconds. It is not triggered externally.

For years I had only an ice pack to stop the attacks. Then my doctor gave me a prescription of the Tegretol tablet, two Valium and two Dilantin capsules. This combination taken at once worked beautifully, stopping the attack in 30 seconds. I am now taking four Dilantin a day to prevent an attack. The side effect of the Dilantin is an occasional loss of balance, stumbling, and unsteadiness.

My doctor suggested a half tablet of Tegretol four times daily. I am afraid to take this instead of Dilantin, because if my body becomes used to Tegretol, I will have nothing to stop an attack.

Is Dilantin the best preventer of an attack? Has any research found a cure for "tic?"

DEAR READER — You may be more fortunate than some with tic douloureux (trigeminal neuralgia). Some have repeated sharp lightning-like pains to the side of the face or jaw and the severe pains may last for hours.

The medicines you are taking are commonly used in the treatment of this difficult and painful disease. The combination of medicines has to be worked out for each patient.

Dilantin is not as effective as Tegretol but it has less side effects. Your doctor wants you to take the Tegretol in an effort to prevent your attacks.

In severe cases that cannot be adequately controlled by medicines there are other approaches to the disease. The pain is along the distribution of the pain fibers of the trigeminal nerve (hence the term trigeminal neuralgia). This nerve is directly from the brain to the side of the face and jaw. Its motor divisions enable you to contract and relax the jaw muscles.

The nerve can be injected with alcohol but this will only be temporary and when the nerve trunk regenerates the pain returns. Surgery may destroy more than just the pain fibers and cause a person's face to be numb and unfeeling on the affected side.

In recent years a technique of electrocoagulation has been developed. A needle is inserted into the nerve fibers. By introducing an electric current the pain fibers can be destroyed. Because the pain fibers are not covered with a sheath they are more sensitive and can be destroyed without seriously damaging the rest of the nerve that affects the side of the face. The selective destruction of the pain fibers cures the problem. It is a delicate operation but many neurosurgeons are now trained to do it.

You might ask your neurologist if he thinks it would be advisable in your case. It would be one way of getting off medicine entirely.

For information on man's most common bowel problems send 50 cents for The Health Letter number 3-1, Spastic or Irritable Colon and Constipation. Include a long, stamped, self-addressed envelope for mailing with your request. Write to Dr. Lamb in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

Police Stop Ad Campaign

RED BANK, N.J. (AP)— Steven DeAngelo had a great $3 advertising campaign until the police stopped it.

When DeAngelo opened a shop on Broad Street here, he put dimes in 30 expired parking meters and advertising notes on automobile windshields. The notes said, "For your convenience, a dime has been deposited in your expired meter compliments of Ishka Bibble's Paradise." That's the name of DeAngelo's clothing store.

Police Chief George Clayton Jr. didn't object to DeAngelo's largesse, but he didn't like the notes. It's against the law in Red Bank to put leaflets on car windshields.

"I don't want to fight city hall," DeAngelo said, announcing the end of his ad campaign.

The capital of New Zealand is Wellington, located on the extreme southwestern tip of North Island.

'Roots' Author Named An Honorary Texan

By ROBERT HEARD
Associated Press Writer

AUSTIN, Tex. (AP)—The author of "Roots" feels his book "touched a public pulse. It shows what we all are."

All of us are immigrants, Alex Haley told a crowded House chamber Wednesday.

"We tend to fear the unknown," he said. And when we don't know the history of a people, "whole groups are labeled spics, wops, niggers. That's patently a lie. Human beings are not like that."

Haley said he got his start as a writer by penning love letters for fellow sailors in World War II.

He struggled for eight years after that before he sold a short article to a magazine. Later he originated the Playboy interview.

Now, his book publisher tells him "Roots" has sold 900,000 hard cover copies in four months, ranking it second only to "Gone With the Wind," which sold 1 million copies in five months.

Black caucus members presented Haley with a certificate from Gov. Dolph Briscoe naming him an honorary Texan, with Texas flag that has flown from the roof of the Capitol, and with a House congratulatory resolution signed by Speaker Billy Clayton. Briscoe attended a brief reception for Haley in a lounge off the House floor.

The author was here to speak at the University of Texas.

Haley said he worked as a cook on an ammunition ship in the southwest Pacific in World War II. To fight boredom, he wrote "lots and lots of letters."

On the ship's infrequent visits to port, the crew looked first for women. Later, the more vocal lovers asked him to write love letters for them, he said.

Demand for his talent increaesed after the letters increased the sailors' success, he said.

That ended his career as a cook. "All I did was write love letters the rest of World War II," he said.

Years later, he worked on assignment for Reader's Digest for a time before Playboy asked him to do a piece on trumpeter Miles Davis, who "hated interviewers."

Haley had to get in the ring with Davis, an accomplished boxer as well as musician, before Davis opened up. They became friends, and Davis would sometimes telephone, say one word, "Chili," and hang up. That meant Haley was to get over to Davis' house for chili.

Haley used a question-and-answer format for his article on Davis for Playboy. "That was how the Playboy interview was born," he said. For the next three years, he wrote nearly all of the Playboy interviews, he said.

Working Wives Do Double Time

By Abigail Van Buren

© 1977 by Chicago Tribune-N. Y. News Synd. Inc.

DEAR ABBY: We hear so much these days about women's liberation and the joys of the career woman versus the "slavery" of housework. This is puzzling.

Part of what attracted me to my husband was what I thought was his belief about the basic old-fashioned attitude that "a woman's place is in the home." Now that we're married, I find that he is just as "modern" as the next fellow. He says, "Any woman who stays at home all day is lazy."

He has no idea of what is involved in housework; he thinks I watch TV all day. When I suggest that we take turns doing cooking and cleaning, he says, "No way—that's woman's work!"

The point of my letter is: Just who is "liberated"? What kind of garbage have women been programmed to believe when they make statements like: "I work because I enjoy getting out of the house; housework's a drag!" So who does their housework for them while they're at the office?

Every employed woman I know does her housework when she gets home at night after eight hours of "office" work. And while she's doing housework, her husband is drinking a beer, watching TV, reading or sleeping.

When advocates of Women's Lib interview working wives and mothers, they often paint a rosy picture. These women should be interviewed when they've dragged themselves to work after a night of staying up with a sick child, then they'd hear such statements as, "I wish I didn't have to work—but Charlie wants a boat just as big as Mr. Jones' boat."

PUZZLED

DEAR PUZZLED: I don't have any statistics on how many women work in order to provide their husbands with bigger boats, but those who do are already sunk.

DEAR ABBY: I have a distressing problem that needs an early answer. My niece's husband gets his "fun" from tickling his 4-year-old daughter until the child is exhausted. The mother says she is helpless and can't stop it. My husband has talked seriously with the father, describing his action as torture. But our nephew says it is just "fun," and he does this continually.

Please hurry with your advice—our nephew reads your column.

KENTUCKY MOTHER

DEAR KENTUCKY: Your nephew is unwittingly approaching the danger zone of child abuse. He should be warned by a doctor that this form of "fun" has ominous overtones.

Act on this advice immediately. If I knew his address, I would!

DEAR ABBY: Writing to Dear Abby seems to be the best way to get this message to millions of people, so here goes:

When calling a senior citizen, please let the phone ring at least seven or eight times before hanging up. We oldsters sometimes can't get to the phone in three or four rings. (We're not exactly teenagers, and we don't move so fast anymore.)

It is so frustrating for us to hear the phone ring, then get nothing but a dial tone by the time we get to it. As for me, I keep wondering all day long who called me and what they wanted.

I don't express myself too well, Abby, so put this into your own words and get the message across, and we senior citizens will bless you.

SLOW SENIOR

DEAR SLOW SENIOR: Your words express your thoughts perfectly, and here they are.

For Abby's booklet, "How to Have a Lovely Wedding," send $1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. Please enclose a long, self-addressed, stamped (24¢) envelope.

Snyderite's Son Promoted

Ricky L. Icenogle, son of J.D. Icenogle, 2401 24th Street, Snyder, has been promoted by the U.S. Air Force to the rank of senior airman.

Airman Icenogle is serving at Seymour Johnson AFB, N.C., as an aircraft maintenance specialist.

PLAQUE PRESENTED—Bert English, right, who has served as chairman of the local chapter of the American Petroleum Institute for the past year, was presented a plaque by Neely Wright, API advisory board chairman. The presentation Tuesday night was in recognition of English's service to the chapter and his work to re-activate the API unit here. (SDN Staff Photo)

Fog Hits Texas Areas

By The Associated Press

Blind fog cloaked coastal areas and much of East and South Texas today, making travel hazardous and putting a virtual halt to shipping.

Visibility down to zero at many points interrupted aviation and marine operations in early morning.

Clouds overhung the foggy sections and far West Texas. Skies were mostly clear in Central and North Texas.

Forecasts called for clearing weather in all sections later in the day.

Temperatures near dawn dropped as low as 25 degrees at Dalhart and 27 at Childress in the Texas Panhandle. Elsewhere they ranged up to 59 at Corpus Christi, McAllen and Victoria in the south.

Wednesday's top marks climbed as high as 78 at Brownsville in the Lower Rio Grande Valley and 82 at Presidio in the Big Bend of West Texas.

Camels once populated all continents except Australia. Today there is only the one-humped or dromedary, used for riding and the two-humped bactrian, used as a beast of burden. The South American llama, alpaca, guanaco and vicuna are close relatives.

'SET UP' GIVES DISTINCTION

Interchangeability Of Auto Engines No Secret

By TOM DE COLA
Associated Press Writer

DALLAS (AP) — If you find that your new Pontiac has a Chevrolet-built engine in it, don't panic. It's all on the up-and-up.

A minor furor arose in West Texas recently when a man found just that.

Rumors began flying that GM stuck in any available engine, which makes for a story of great consumer impact.

The problem is, that's just not the way it happens.

True, some cars in the Pontiac-Buick-Oldsmobile lines do use engines made by other divisions of GM.

But it's all part of a plan that saves the car companies money as they try to keep costs down while adapting to government controls that add to the sticker prices.

"The basic fact is true," said Jack Harned of GM in Detroit. "Engines, like some other parts, are oftentimes used by more than one division." GM also makes Cadillac and Chevrolet. Those two divisions produce all their own models' engines.

"The engines are certified with the government for emissions and economy, and a given engine might be used by more than one division," Harned said.

One of the easiest examples is to look at Pontiac's Astre and Chevrolet's Vegas. The cars are made in the same plants, off the same body styles and both use Chevrolet Division's 140 cubic inch engine as the standard power plant. Installed in an Astre, the engine would carry a Pontiac identification, but the distinction would not be significant.

To those within the industry, the interchangeability of engines is not secret, but buyers and some dealers apparently haven't received the word yet.

Engine-car plans are made at the beginning of a model year. "It's certainly not a case of 'you might get one or you might get another'," Harned said.

Engines aren't the only items with mutliple uses. Other parts like frameworks, doors, instrument panels and seats may also be the same in several different models.

The various divisions "set up" the cars differently to give them distinctive traits. Varying drive trains and suspensions does the trick. Pontiac, for example, is set up as a sporty car while the Buick ride is softened, and the accents placed on luxury, Harned said.

Freeze To 'Hit' Wallets

GAINESVILLE, Fla. (AP) — From Florida oranges to Florida tomatoes, consumers will have to pay more after word that last week's freeze destroyed nearly all the state's winter vegetables and almost half its citrus crop for losses exceeding $250 million. As damage estimates mounted Monday, Gov. Reubin Askew asked the federal government to declare the state an agriculture disaster area. The rest of the East, thawing but threatened by further cold and snow today, struggled with crippling natural gas shortages and frozen waterways blocking transport of fuel and supplies.

'Fences' Pay Off

DALLAS (AP)—Federal and local officers posing as "fences" at a Dallas gas station have identified nine suspected thieves and recovered $45,000 in stolen merchandise over a five-week period, authorities say.

Asst. Dist. Atty. Jon Sparling said Wednesday the agents spent $3,800 to buy stolen goods that included everything from color television sets to a bear-skin rug.

Sparling said officers from the DA's office, the Dallas police department and federal alcohol, Tobacco and Firearms unit rented a gas station, equipped with videotape cameras and opened for business. He said the agents let it be known they were interested in buying stolen goods, particularly guns.

Police refused to say if any arrests resulted from the operation.

Man Killed In Accident

BAY CITY, Tex. (AP)—State police reported Michael J. Rose, 22, of Corpus Christi was killed about 3 a.m. today when his car hit a bridge. The accident occurred on Farm Road 252 about 9 miles south of Elmaton, which is southwest of Bay City.

One metric ton 1,000 kilograms is equal to 1.102311 short tons.

WTC Cage Units Face Clarendon

Western Texas College basketball teams pull into Clarendon tonight for Western Junior College Athletic conference basketball games, and the Westerners regard tonight's action as especially significant.

The WTC men's team has absorbed defeat only twice this season, and Clarendon pinned one of these losses on the Westerners. It happened back on Dec. 2 and it took place in Snyder. Moreover, it was the conference opener, which makes it an even bigger score for the locals to settle. The score in that Dec. 2 clash was 61-58.

Both the Westerners and the Dusters are riding high in the conference. The Westerners are 20-2 for the season and 7-2 in conference action, which puts them on top of the heap.

The Dusters are 10-5 for the year, and hold a 2-0 record in conference place.

Coach Mike Mitchell of the Westerners is expected to start a quintet composed of Allen Corder, 6-3 sophomore from Lake Charles, La., and Lawrence Butler, 6-3 sophomore from Glasgow, Mo., at guards; Larry Orton, 6-8 sophomore from Portsmouth, Va., and Butch Person, 6-5 sophomore from Brooklyn, N. Y., at forwards, and Darryl Smith, 6-8 sophomore from College Park, Ga., at center.

Dr. Sid Simpson, coach of the Dusters, is likely to start Janice Verden, 6-1 sophomore from Wheeler, at post; Pam Tatum, 5-8½ freshman from Happy and Cindy Luttrell, 5-10 freshman from Laverne, Okla., at forward, and Rosemary Scott, 5-8 sophomore of Slaton and Temi Baker, 5-8 sophomore from Knox City at guards.

Other Westerners available for duty will include Walter Benjamin, Robert Brown, Doug Worthington, Lonnie Nichols, Charles Gipson and Wayne Jamison.

Others on the Duster squad, several of whom will see considerable playing time, are Annie Tillman, Barbara Denman, Debbie McIvor, Cathy Minton, Marketa Sissom and Jamie Branch.

SHS Gymnasts Show Progress

The Snyder High School Gymnastics team has improved considerably, Coach Doug Fitzjarrell observed following their latest competition in an invitational meet at Midland.

The Snyder team scored 67.90 points, which is a 13.28 improvement over the previous meet which was held in Odessa.

"Our beam routines were rough and need a lot of work, but all of the basic requirements are being met," said Fitzjarrell. "Once we smooth out a little, we should be scoring well on the beam.

"Vaulting is another weak spot, but we are improving every day and I feel we will soon have a strong vaulting team. Uneven bars now are one of our strongest events. This event has taken longer to improve, but it has now become our strongest events.

Snyder scored heavily on the uneven bars at Midland, with Laura Cameron placing first, Lisa Blankenship second and Pam Blankenship fourth.

"Our tumbling is still weak, but the girls show an extreme amount of poise and their dance work is our strong point."

Teams competing at Midland were Midland Lee, Midland High, Odessa Permian, Snyder, Midland YMCA, Nards Club, Gym World Club and several other high schools.

Snyder gymnasts scored as follows: Floor exercise -- Teri McCarty, 6.75, second place; Pam Blankenship, 5.55, fifth place; Inge Hefel, 4.70, ninth place. Beam--Rita Black, 5.30, fourth place; Inge Hefel, 4.35, sixth place; Teri McCarty, 4.00, eighth place; Pam Blankenship, 3.45, 10th place. Uneven bars--Laura Cameron, 7.65, first place; Lisa Blankenship, 7.10, second place; Pam Blankenship, 6.55, fourth place; Sara Youngkin, 6.35, sixth place; Tammy Bell, 6.05, seventh place. Vaulting--Laura Cameron, 5.80, fifth place; Teri McCarty, 5.75, sixth place; Pam Blankenship, 4.40, seventh place; Lisa Blankenship, 3.40, eighth place.

Pitt Coach Completes His Staff

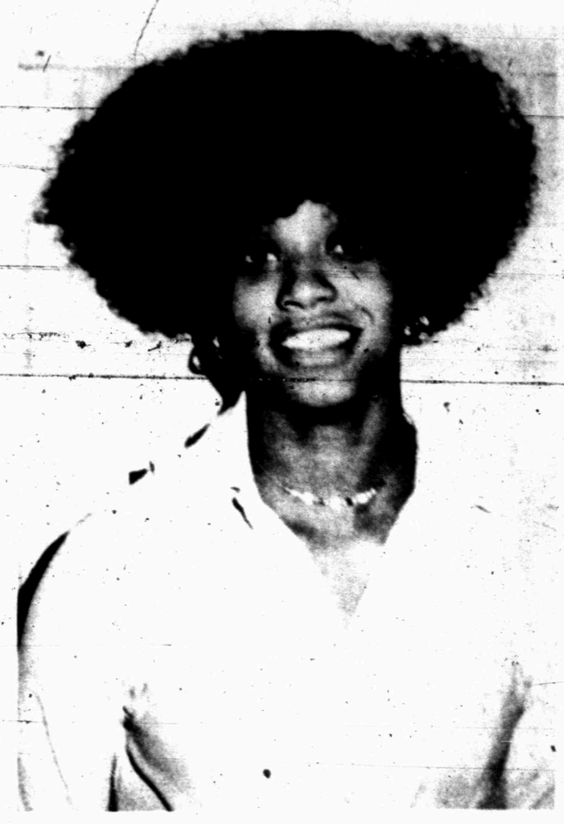
PITTSBURGH (AP)—Jackie Sherrill, new head football coach at the University of Pittsburgh, says he has chosen the last of his eight assistant coaches.

Don Boyce, former offensive line coach at Oklahoma and Arkansas, will have similiar duties at Pitt. And Otto Stowe, an outstanding professional receiver before he coached with Sherrill at Washington State last season, will be Pitt's receiver coach.

Boyce is a native of Midland, Tex., and was a fullback-line-backer at the University of Texas at El Paso from 1961-1964. He most recently coached under Frank Broyles at Arkansas.

Stowe was a two-time All-Big Eight receiver and set four all-time Iowa State records for former Pitt Coach Johnny Majors. He was drafted by the Miami Dolphins and was a member of the Super Bowl teams in 1971 and 1972.

He was traded to Dallas in 1973 but an injury halted his career early.



DELLA BRAZIEL
...all-stater

Della Braziel On All-State Team

Della Braziel, senior, two-year letterman on the Snyder High School Volleyball Team has been named to the Class AAA All-State team.

The daughter of Mr. and Mrs. Robert Braziel, she was a mainstay on both the 1975 and 1976 SHS teams, making the all-tournament team in the Abilene Tournament in 1975 and piling up a big list of honors in 1976. During the 1976 season she made the all district and all regional teams while playing spiker, and she also served as team captain. She made the all-tournament team in the Sweetwater Tournament.

Della plans to attend East Texas State University at Commerce next fall.

"Della has been one of our better all-around players," said Coach Joyce Elrod. "She has been an outstanding team leader and has been very dedicated to the game of volleyball."

SMU Wins Three-Way Swim Meet

DALLAS (AP) — Southern Methodist University, led by diver Scott Reich, dominated the University of California and Princeton Wednesday en route to its first victory at the annual Dr. Pepper Invitation swimming competition here in three years.

The Ponies placed first in eight of the 13 swimming and diving events, scoring a total of 95 points. California was second with 75 and Princeton washed ashore with 28.

Reich took top honors in the one-meter diving with 327.4 points and placed second on the three-meter board with 325.4.

When Joe Pignatano, New York Mets bullpen catcher and coach, flies south he goes from Newark, N.J., airport. He lives in Staten Island, N.Y., and avoids heavy auto traffic by that route.

Baltimore's New GM Is Just Full Of Surprises

By GORDON BEARD
AP Sports Writer

BALTIMORE (AP) — Dick Szymanski, the new general manager of the Baltimore Colts of the National Football League, is full of surprises.

In accepting the job Wednesday - after having served 22 years as a player, coach, scout and front office employe - Szymanski surprisingly said it was not a challenge.

"I'm not going to say it's a challenge," Szymanski said at a news conference. "Life is a challenge. This is pleasure."

And, players' agents may be in for a surprise, too, when they encounter the former center and linebacker across the negotiating table.

"Agents are easy to deal with," Szymanski said. "I can let my hair down with them. If they want to yell, I can yell, too.

"But with a player, you have to be low key. If they tell you they're the best at their position in the NFL, you don't want them to lose that feeling. If they think like losers, you'll have a losing team."

Szymanski said he would continue the club policies of deposed general manager Joe Thomas in refusing to offer no-cut contracts or to renegotiate existing agreements with players.

"I won't be an easy mark for anybody," the 44-year-old Szymanski said. "Agents will find I know what I'm doing."

He said he had handled negotiations on low-round draft choices in the past, with agents who also represent the No. 1 picks, and had discussed with Thomas his talks on the top choices.

"This change upset me very much," Szymanski said of the front office relignment by owner Robert Irsay. "Joe Thomas was a friend of mine, and I was loyal to him."

Irsay, who was brought into the NFL by Thomas in 1972, fired his original general manager last week following his continuing rift with Coach Ted Marchibroda.

Marchibroda quit a week before the opening game of the 1976 season, citing front office interference, then was rehired two days later following a threatened players' revolt in his behalf led by quarterback Bert Jones.

Ford, Bob Hope Share Spotlight

HOUSTON (AP) — Former President Gerald Ford and comedian Bob Hope will share presentation responsibilities tonight in naming the winner of the Vince Lombardi Award, symbolic of the nation's outstanding college football lineman.

Ford, a former center on the University of Michigan football team, and Mrs. Betty Ford, are special guests at the $100 per plate dinner, which benefits the American Cancer Society. Hope will be the featured speaker.

Finalists for this year's honor, named for the former Green Bay and Washington Redskins Coach who died of cancer, are: Notre Dame defensive end Ross Browner; Texas A&M middle linebacker Robert Jackson; Pittsburgh middle guard Al Romano and University of Houston defensive tackle Wilson Whitley.

"There are a lot of good linemen in the country so just getting this far is quite an honor," said Jackson, who led the aggressive Aggie defense to a 9-3 season and a victory over Florida in the Sun Bowl. "I think all four of us should win it."

Browner, so intense a performer he was depressed after missing two tackles in Notre Dame's victory over Penn State in the Gator Bowl, might be considered the favorite since he earlier won the Outland Trophy, which also honors the nation's outstanding lineman.

Five of the six previous Lombardi Award winners also have won the Outland. Browner, however, is a junior, and no junior has won the Lombardi.

The Fords were scheduled to arrive shortly before the dinner.

Haller Discipline Gets Sluggish Bears Moving

By DENNE FREEMAN
AP Sports Writer

New Baylor Coach Jim Haller's brand of discipline paid off for his first collegiate basketball victory Wednesday night.

Haller, who replaced resigned Carroll Dawson, decided to bench high-scoring Larry Spicer for a poor effort Monday night against Houston.

What it did was turn the talented Spicer, a 6-foot-8 sophomore from Memphis, Tenn. into a scoring-rebounding machine against Rice. Spicer was benched for the first 12 minutes of the game against Rice then came on like a fireworks display.

Spicer scored 31 points and corralled 13 rebounds in an 89-76 victory over the Owls. In the only other Southwest Conference game of the night, the Texas Aggies whipped winless Texas Christian 79-60.

SWC action swings into high-gear tonight with Arkansas 7-0 trying to protect its unblemished record against Southern Methodist in Dallas while Houston 5-1 tries to keep pace in Lubbock against tough Texas Tech.

"Ever since I took this job I wanted to inspire concentration, intensity, and aggresiveness," said Haller. "I told the players that the ones who demonstrated these qualities would be the ones on the court. Spicer didn't do that against Houston."

Will Spicer start Saturday against Arkansas?

"We'll determine that in the next two days of practice," Haller replied.

The Texas Aggies found some unexpected scoring punch from Willie Foreman, cousin of heavyweight boxer George Foreman, to floor. The younger Foreman and senior guard Steve Jones each scored 23 points against TCU, now 0-8 in SWC play.

"The win was a just reward for a lot of hard work...our players deserve some success," said Aggie Coach Shelby Metcalf. "Willie Foreman is going to be a good player. He's got a lot of tools, he just needs to get more consistent."

The SMU-Arkansas tussle in Dallas is a must game for the home team's championship hopes. SMU is 5-2 after a last-second loss to Texs Tech Monday night.

Houston meets a dangerous Tech team which is 5-3 and still in the thick of the joust for the regular season title.

The 15th ranked Razorbacks have yet to be tested since a non-conference loss to Memphis State. Arkansas has won 15 out of 16 games.

Stadium To Be Enlarged

SAN MARCOS, Tex. (AP) —Plans are being considered for expanding Southwest Texas State University's Evans Stadium to double its current seating capacity.

The project would include a 7,500-seat deck, an all-weather track and a new press box, said Dr. Eugene Payne, vice president for finance and management. He said the cost is estimated at $1.5 million to $2 million.

Evans Stadium currently seats about 7,500 persons.

"My three sons aged 7, 9 and 11 will be baseball players, and good ones," says Vera Clemente, widow of Hall of Famer Roberto Clemente. They play Little League ball in Puerto Rico every Saturday.

EXPERIMENT IS SUCCESS

Whooper Is Wintering With Sandhill Cranes

By JULES LOH
AP Special Correspondent

SOCORRO, N.M. (AP) — The show starts every day an hour before dusk. With luck, one of the cast will be a special celebrity: a whooping crane.

"Look that way," Dick Rigby instructed, pointing north. "They feed in cornfields there all day long and all of them are back before dark."

Through binoculars, weaving threads of black laced the ginger sky and then the overture began, a distant, eerie trilling that grew ever louder, closer, tightening the pores.

Without sufficient warning they were overhead, just overhead, so low they seemed almost within touch, and there were tens of thousands of them, ducks frantically flailing the darkening sky, majestic snow geese in chevrons of white barking a high-pitched arrival song, squadrons of raucous Canadas, and at last the cranes, lordly birds, long necks outthrust in rightful disdain of all lesser creatures that fly.

"There's one! There's a whooper!" Rigby cried.

And there it was. As the formation winged past the curtain of a mountain, the whooper appeared as a single glistening pearl in a pale gray strand.

The formation circled, listening to the invitations of thousands of insistent kin to come join them on the ground for the night, and finally chose a group bedded down in an appealing marsh 200 yards away.

The whooper took up a position on the edge of the great gathering of his dusky cousins.

Do the sandhill cranes make him keep his distance?

"No," Dick Rigby said. "He has a place in the pecking order like all the rest, but he's not rejected. They don't seem to notice he's any different."

But he is. Different and special.

The whooper is one of six wintering in New Mexico in an experiment, successful so far, aimed at starting a second flock of the rare breed in North America and thus removing them from the endangered species list.

Sandhill cranes are their foster parents. Dick Rigby is their godfather.

Rigby, a big, bluff man with a hard voice and a gentle nature, is manager of the Bosque del Apache National Wildlife Refuge, a 57,000-acre sanctuary of life situated, with glaring irony, about 25 miles from the site of history's first atom bomb test.

"My job is to watch over them, see that they are well fed and able to get through the summer at the nesting ground and get back here for winter."

The experiment was the brainchild of Roderick Drewien, an expert on cranes at the University of Idaho and a pal of Dick Rigby's. It was Drewien's idea to steal whooping crane eggs from the great birds' only nesting site, in far north Canada, and put them in sandhill crane nests at the sandhill nesting site in Idaho.

So if the experiment works there will be two whooping crane flocks, the second one flying side by side with the sandhills between Idaho and New Mexico.

Carter, Ford Share Room

OMAHA, Neb. (AP) — Carter and Ford are roommates in the hospital here, but they didn't know it until the staff introduced them.

"We had only introduced ourselves by our first names, and we weren't initially aware of the coincidence," said Jane Ford, who shares Room 936 at Nebraska Methodist Hospital with Mrs. Ruth Carter.

The two are getting along well, Mrs. Carter said.

County Equipment Use Probed

DALLAS (AP) — Dist. Atty. Henry Wade says he has decided private use of county equipment by three Dallas County commissioners is "near enough to crime" to warrant a grand jury investigation.

Wade's statement Tuesday reversed comments made previously that the use of county cars for personal trips by Commissioners Roy Orr and Jim Tyson probably isn't covered by criminal statutes.

Wade had said earlier that he will ask the grand jury to look into Commissioner David Pickett's use of county equipment to demolish buildings on private property.

Tyson has admitted making several trips to race tracks in Louisiana and Arkansas in his county car and county gasoline credit card.

Orr said he drove his county car to South Texas last July on a combination business-vacation trip.

Wade said the grand jury will probably consider the cases late next month. He said the delay is necessary to obtain witnesses.

William "Boss" Tweed died in 1878 in the Ludlow Street jail in New York City.

Over The Area

Lions Session Is Set At Colorado City

COLORADO CITY — More than 200 Lions Club members and their wives are expected here this weekend for the annual mid-winter conference of Lions District 2-A-1. The district covers a 25-county area.

Conference sessions will be held in the Civic Center, with the two Colorado City Clubs hosting the event. District Governor Russell DeVore will preside.

Registration is set for Saturday afternoon, and a banquet will be held at the Civic Center on Saturday night, followed by a dance at the Col-Tex Club. Seminar sessions are set for Sunday morning, and a Sunday luncheon will conclude the conference.

Annual Fisher Auction Set

ROBY — Fisher County Young Farmers have scheduled their annual farm machinery auction here on Feb. 19. The auction will be held at the Fisher County Fair Grounds.

The Young Farmers organization will get a commission of 10 per cent on all sales up to $100 and five per cent thereafter. There is a maximum commission of $50 for any one item and 50 cents minimum. There will be a special section of the sale for items donated to the West Texas Rehabilitation Center.

C-City School Contract Let

COLORADO CITY — K-Lain Construction Co. of Big Spring was the successful bidder on a school remodeling project here.

The firm submitted a bid of $99,943 for remodeling the old junior high building into a modern administrative and curriculum center. It was the lowest of four proposals received.

The Big Spring firm is currently constructing a surgical suite at Root Memorial Hospital here.

Coahoma May Get New Pool

COAHOMA — A community meeting has been called for 7:30 p.m. Friday to discuss a proposed swimming pool project here.

The meeting was called by Major Joe Swinney after the City of Coahoma was offered a grant of $50,500 by the State Parks and Wildlife Department for the project, contingent on matching funds from the community. Several contributions have already been received by the city, and a plan now under consideration is to raise a substantial part of the city's portion through the sale of $60 season tickets for families.

The pool would be located in a park development which already has picnic tables, barbecue pits and shade trees and is adjacent to the Little League baseball park.

Sweetwater Has New Animal Law

SWEETWATER — A new animal control ordinance has been adopted by the city commission here.

It requires the licensing and tagging of all dogs in the city. A yearly licensing fee of $2 per animal will be assessed.

The ordinance permits livestock to be kept in the city, provided it is kept in a safe enclosure not closer than 100 yards to the nearest dwelling house or business establishment, other than the dwelling of the owner of the livestock.

Patrolman Is Hired At Rotan

ROTAN — Richard Quisenberry of Lockney has been employed as a police patrolman here, Police Chief Chuck Renfro has announced.

Quisenberry has 22 years of experience as a law enforcement officer, including 15 years in the military as an Air Patrolman, and seven years as a civilian peace officer. He and his wife, Ruthel, and a daughter, Renee, 17, will move here from Lockney. They also have a son, Larry, 19, who is serving in the Marine Corps.

Panel Approves Vote On Bingo

AUSTIN, Tex. (AP) — The little old ladies who play church bingo got a thrill Wednesday.

By a resounding voice vote the Senate State Affairs Committee approved a proposal that would let Texans vote on legalizing bingo or raffles conducted for the benefit of a non-profit charitable organizations.

Sen. Frank Lombardino, D-San Antonio, put his first supporting witness on the stand but before he was finished the committee approved the proposed constitutional amendment.

Only Sens. Peyton McKnight, D-Tyler, and Kent Hance, D-Lubbock, asked to be shown as voting "no."

Lombardino said that if his measure was approved by the legislature and then by voters in November, 1978, "it would authorize the legislature to pass laws legalizing what a lot of people have been doing already," he said.

Present legal interpretations hold that bingo games and raffles are a form of lottery, which is prohibited by the constitution.

The senator then introduced Jodie E. Balcar, an American Legion spokesman from San Antonio.

"The funds from our bingo games are used for Boys State and for our baseball teams and we use them to pay for our childrens programs at Christmas," he said.

Balcar added that bingo games give persons seeking recreation something to do besides "drinking, smoking and dancing."

Sen. Raul Longoria, D-Edinburg, interrupted to suggest that he thought the committee was ready to vote, even though Lombardino had another four witnesses lined up to testify.

"Then let's vote," said Sen. Bill Moore, D-Bryan, committee chairman. "Is there objection?" And he slammed down the gavel.

Lombardino put back in his pocket a petition with 1,112 signatures that he had planned to present the committee.

In other action Wednesday the committee:

-Approved for floor debate a bill that would require the state to pay any damages assessed any state employe as the result of a civil suit while on duty.

-Approved a bill that would let the Texas Aeronautics Commission set limits of liability for airlines in intrastate service for lost baggage and other shipments.

-Postponed until next week a vote on a subcommittee report that would let voters say whether the state's "right-to-work" law should be written into the state constitution.

Bicentennial Not Over For Burtons

CHESTER, Va. (AP)— For most Americans, the Bicentennial is over, but for Hazel Burton it'll last as long as her clothes do.

Mrs. Burton celebrated the nation's 200th birthday last year by acquiring a red, white and blue wardrobe.

"I wondered if I could wear red, white and blue all year," she says. "I found I could. I have navy pants, red pants, blouses, dresses - just everything you can think of. My husband even gave me a red, white and blue umbrella.

Mrs. Burton also has blue ashtrays, candles and pillows at home, and small flags in her flowerpots. Her bedroom is blue, with red and white candles. The Burtons had a red, white and blue Christmas tree.

Berry's World

"My group is VERY disappointed in the low percentage of people in top positions who are baldheaded!"

Most of the biggest mountains on the North American continent are in Alaska. Mt. McKinley is the largest, with an elevation of 20,320 feet.

DRILL BIT MAGAZINE

Drill Bit Magazine, one of the oil industries most-read publications, will feature an in-depth article on Snyder and Scurry County in its March issue, managing editor John Pitts announced.

"As the most prolific producing in the nation, Scurry County is most deserving of this special coverage, and Drill Bit plans the most extensive coverage yet given to Scurry County in an oil and gas publication," Pitts said.

"Articles will deal with history, people, production, discoveries, units and recovery techniques," Pitts pointed out.

The magazine, with a 20,000 circulation, is published in Midland with headquarters located in Denver. The publication had its birth in Snyder years ago under the direction of Herb Feather.

We are very fortunate to have this much attention focused on our county and community and should take great pride in the fact that the publication is devoting so much of its March issue to us. It's a quality publication and has great readership among the nation's oil and gas people.

TAX SEMINAR

The "Tax Strategy Seminar" was held at WTC Tuesday night with about 65 in attendance. While the number on hand was less than anticipated, the program on changes brought through the new 1976 tax law was excellent.

Ed Daniels, director of community relations for Bashe Halsey Stuart, Inc., and Jack Bridges, chief tax man for the company, gave interesting discussions on how the new law affects taxpayers as well as information concerning investments as a hedge against increased tax liability.

The two men were impressed with Snyder and may schedule another seminar here next year. If you have any questions concerning the new tax law or on investment opportunities, they'd be happy to talk with you about them. Just call the Chamber office for the address or phone number.

LOGO CONTEST

Monday is the deadline for submitting your entry in the logo contest. Several good ones have already been submitted and we'd like to have yours. If you have any questions concerning the contest, please call. But remember, Monday is the deadline.

NEW COMMITTEE CHAIRMEN

Several new committees and chairmen were announced this week by new Chamber president Henry F. Clark. A meeting will be held shortly to orient these new leaders on committee activity and program plannings as well as to give them ideas on specific projects to be undertaken in the future.

Many of you will be called to serve on these committees. Hopefully, you will take the opportunity to participate in the growth and direction of Snyder and Scurry County. Committee activity is very important if we are to accomplish the many programs needed to improve Snyder's quality of life.

To be an effective leader in the community, the chamber must have your personal as well as financial support. In looking over the new committees, you may find something you are interested in being involved with. If so, call the committee chairman and contribute your services. If there are not any mentioned that "turn you on", call the office and tell us. There may be others in the community who would like to devote time to an area you are interested in.

We want and need your involvement in the organization. It cannot function without you.

LEGISLATIVE CONFERENCE

Ray Engelhardt, Mel Gilbert, Bassett Keller and I are in Austin today taking part in a statewide Conference on State Government. Governor Briscoe, Lt. Gov. Hobby, Speaker Bill Clayton and Comptroller Bob Bullock are to give talks on what they foresee during this session. Rep. Mike Ezell and Senator Ray Farabee are expected to be in attendance as well.

Grass Fire Is Extinguished

A grass fire was extinguished yesterday afternoon by city firemen.

The fire occurred Wednesday about 4:30 p.m. approximately 15 miles east of Snyder on the Roby Highway.

Jomo Kenyatta, president of Kenya since its independence, is called "Mzee" the Old Man by his people.

"Not that stuff, you gotta add water."

Tax Package Should Be Ready By February 14

By LEE JONES
Associated Press Writer

AUSTIN, Tex. (AP)—A bill repealing the sales tax on household utilities should be ready for floor action shortly ater Valentine's Day, says the chairman of the House Ways and Means Committee.

The tax package he has in mind also would bring inheritance tax relief.

Rep. Joe Wyatt, D-Bloomington, said Wednesday he wants to "handle right away" House Bill 1, a package containing both utility arid inheritance tax relief.

Quick House passage, however, would not necessarily bring similarly rapid action in the Senate, which might decide to wait until the general appropriation bill has been passed before cutting taxes that might be needed to balance it.

Repeal of the state sales tax on residential gas and electricity would cut state revenue by $344.1 million over the next two years, according to the comptroller's department.

Wyatt announced at the committee's first meeting that it will hold a hearing Feb. 3 on repealing the utility sales tax, which adds 5 per cent to most Texans' bills.

On Feb. 7, the committee will hear inheritance tax proposals, most likely an increase in the $25,000 exemption that has been in force since the 1920s with no increase to reflect changes in the buying power of the dollar.

Other proposals to cut taxes, such as general sales rate reductions, will be heard Feb. 9, Wyatt said.

Then on Feb. 14, "I hope we can kick out a bill," he said.

Wyatt said this is a good time to cut taxes because of the anticipated $950 million surplus at the end of this fiscal year and an extraordinary $2 billion projected growth in revenue over the next two years.

"The best way to hold down spending is to reduce the temptation by eliminating some taxes," Wyatt said.

Walt Lilie, the comptroller's planning and research director, said it would take an addition of $400 million to present spending levels to maintain state programs as they are and keep pace with inflation.

He and revenue estimator Bill Allaway predicted a leveling off of the rise in state revenues resulting from inflation and rising oil and gas prices.

'Hearing Ear' Dog Aids Mom

LEWISVILLE, Tex. (AP)—A child cries. But its deaf mother doesn't hear. The crying could be because of a wet diaper or a bedroom fire.

If not for an 18-month-old Australian Sheperd dog named Banjo, Linda Davis would face such a dilemma next month when her second child is due.

Banjo is one of a new breed, called "hearing ear" dogs, trained through the use of a tape recorder to respond to three specific sounds. And Mrs. Davis, who lost her hearing last July, is one of the first to receive one of the animals.

The dog has been trained to dash back and forth between the source of a specific sound and its owner. In Mrs. Davis' case, Banjo will be alerted by a baby's cries and "tell" his deaf master.

Banjo's trainer, Agnes McGrath of Denver, flew to Dallas Tuesday to present the dog to Mrs. Davis and her husband, Bill. Mrs. McGrath said it takes four to six months to train a dog to respond to the recorded sounds.

Robert White, administrator of special programs for the American Humane Society, said the remarkable canine is the eighth trained "hearing ear" dog to be placed and only the second since the American Humane Society headquarters in Denver took over the program from a Minnesota pilot project that trained the first six dogs.

White said he believes "hearing ear" dogs will someday out-number the estimated 25,000 "seeing eye" dogs now in use by the blind. He said Colorado, Connecticut and California have already passed laws extending to "hearing ear" dogs the same protection extended to "seeing eye" guide dogs such as allowing them access to public transportation and public places where dogs are not usually allowed.

Ten more dogs are trained and ready for placement. White said, but the list of 50 persons waiting for the dogs continues to grow.

"The only way we can keep the supply up to the demand is to start training trainers and expand on a regional basis," he said.

Johnny, Liz Cop Awards

CAMBRIDGE, Mass. (AP)—NBC Tonight Show host Johnny Carson and actress Elizabeth Taylor are 1977 Man and Woman of the Year for Harvard University's Hasty Pudding Club.

The nation's oldest theatrical organization, producer of musicals for the past 129 years, announced the awards Monday.

Astro-Graph

by Bernice Bede Osol

For Friday, Jan. 28, 1977

ARIES (March 21-April 19) Intuition tells you you're fortunate materially, and it's right. Don't feel, however, your good luck extends to discussions with a partner or mate.

TAURUS (April 20-May 20) You won't be too happy at work today. Perhaps your mind is elsewhere. You'll feel better when the whistle blows and you can join your pals.

GEMINI (May 21-June 20) Higher-ups voice their approval today, but don't let it go to your head. Later, socially, you'll have to earn your applause.

CANCER (June 21-July 22) Plan something that gets you out of the house today. You'll be restless if you stay home and will blame the family when it's not their fault.

LEO (July 23-Aug. 22) You're not attuned to things mechanical today, so take care working with tools or machinery. Your best concentration is on an emotional level.

VIRGO (Aug. 23-Sept. 22) You have an erroneous idea that you must impress people with your financial status today. Keep things on a philosophical plane.

LIBRA (Sept. 23-Oct. 23) The family may give you some flak today because you just want to be left alone. Solitude is like a panacea to you, so you'll find your own little corner.

SCORPIO (Oct. 24-Nov. 22) Although you're very restless today, moving around won't solve your problem. Being close to an understanding mate or pal may help.

SAGITTARIUS (Nov. 23-Dec. 21) Friends may try to lure you into situations that will cost you a wad of dough. Get involved in some inexpensive project at home!

CAPRICORN (Dec. 22-Jan. 19) An unfortunate day to talk to the boss or become embroiled in any serious conversation. Keep all things light and carefree.

AQUARIUS (Jan. 20-Feb. 19) You could feel down in the dumps today. It would help if you break open that piggybank and do something fun with the family.

PISCES (Feb. 20-March 20) While you feel the urge to mix with people today, don't stray too far from the beaten path. Overly innovative actions can cause trouble.

Your Birthday

Jan. 28, 1977

Don't lose heart and feel that you're not making progress this year. When the little benefits are added up, you'll fare better than you thought.

(Are you an Aquarius? Bernice Osol has written a special Astro-Graph Letter for you. For your copy send 50 cents and a long, self-addressed, stamped envelope to Astro-Graph, P.O. Box 489, Radio City Station, New York, N.Y. 10019. Be sure to ask for Aquarius Volume 1.)
