

BEAM

By J. W. King, Sr.

President Truman Tuesday asked Congress to provide for compulsory military training in peace time for young men 18 to 20 years of age. Whether Congress will pass the required law or not is uncertain. Some members have responded favorably and some unfavorably.

This country has never had compulsory military training in peace time and ordinarily we would not favor it but with conditions in the world as they are now it would seem foolish to discontinue training young men for any eventuality. The world is at peace now, at least the major portion of it, but who knows what will happen in a few years. We believe we should be prepared for anything.

MARGARET NELL WILSON HONORED ON BIRTHDAY

Mrs. T. C. Wilson entertained with a game party, Thursday evening, honoring Margaret Nell on her 17th birthday.

Games were played on the lawn and also indoor games were enjoyed. The group wished Margaret Nell happy birthday and she opened many birthday gifts.

A refreshment plate of birthday cake and hot chocolate was served to 20 guests.

SIDELIGHTS FROM WASHINGTON

By George Mahon

Figures make dry reading, but I believe the following will be of interest. A few days ago the House, on the recommendation of the Appropriations Committee, rescinded fifty-two billion dollars (\$52,000,000,000) in appropriations money which had heretofore been approved for war spending. The biggest slice was recovered from the Army—thirty billion (\$30,000,000,000). From the Navy seventeen billion (\$17,000,000,000) was recovered. The remaining amounts were subtracted from other agencies.

In money World War I cost us twenty-six billion dollars. Total expenditures for World War 2, including the money spent on national defense just prior to the war, will exceed three hundred and forty billion dollars (\$340,000,000,000). The amount of money being recovered now as a result of the end of this war is twice as much as the cost of World War I. And these figures do not take into account the greatest cost, the cost in human life.

Recently a visitor from Lubbock told me that he planned to attend the Sunday morning service at a certain Washington church. I cautioned him to arrive at the church by ten-thirty or he probably could not get a seat. He later reported that he followed my instructions, but was only able to get standing room in the rear of the church. The minister of this church began last Sunday a system whereby he will conduct two identical services on Sunday mornings, one at nine o'clock and one at eleven. This practice is already being followed by a few other churches in the city. There are many churches in the city where people have difficulty in getting seats at the eleven o'clock hour.

But unfortunately the people of Washington are not breaking any records for church attendance. Only eighty thousand out of a population of well over one million in metropolitan Washington attend church on Sunday. According to a report recently made, twenty-three percent of the white children of public school age attend religious services on Sunday; the attendance rate for the negro children is thirty percent. There are five hundred churches in Washington of which one hundred and sixty-one are colored.

For weeks there has not been an issue of a Washington paper that did not carry some kind of story in regard to the atomic bomb. Many have been the speculations as to the future of the bomb. One editorial writer had this to say: "The atomic bomb is here to stay—but are we?"

Lions Sponsor Local Landing Field

The Lions Club Tuesday voted to sponsor and help in every way possible in securing landing strips for Loraine after Harold Martin reported the progress already made. Mr. Martin reported that land can be leased from Mr. John Johnson sufficient for two landing strips, each 2000 feet in length and 200 feet wide. These interested in forming a flying club will meet in the near future to organize. The strips will be graded and ready for use shortly after the first of the new year.

The club also voted to have a Christmas party for members and their wives, the date to be set by the entertainment committee.

Prospects for a factory making paper specialties were also told to the club by J. W. King who had an inquiry from a Chicago concern seeking a new location. The factory requires a building with 20,000 square feet of floor space and will hire local labor as much as possible. Of course there is no building of such proportions available in Loraine but the advantages of this section for such factory were forwarded to the company for their consideration.

Mrs. M. C. Carpenter and daughter Mildred returned home Sunday after spending three weeks in Marlboro for Mrs. Carpenter's health.

Mrs. Noel Yates of Plainview is spending this week with Mrs. C. H. Thomas.

H. W. Gaston spent last week in San Antonio attending the Southwest Texas Methodist Conference.

Mrs. Lily Bennett left Tuesday for Galveston, where she will meet Ensign Byron Bennett, who is to be in port there for National Navy Day, October 27.

PM2e and Mrs. Charlie Marth spent Saturday and Sunday with relatives in Levelland.

Mr. and Mrs. Wiley Walker and Mrs. S. H. Hart spent the week end with Mary Love and Emma Jean Walker at Texas Tech. Mrs. Hart visited her sister and family.

Tody Crownover of Odessa spent the week end here with his family.

Mrs. W. W. Martin left Thursday night for San Antonio after receiving the word that her daughter, Mrs. L. J. Burdine, had undergone operation for appendicitis there Thursday.

H. E. Hile returned Tuesday night from Prescott, Arkansas, where he attended the funeral of his sister, Mrs. W. A. Newth, who died of heart attack.

Mr. and Mrs. Buck Taylor visited with Mr. and Mrs. H. G. Tidwell in Sweetwater Sunday.

School To Have Halloween Carnival

The annual Halloween Carnival sponsored by the Parent-Teachers Association will be held this year at the high school gymnasium Saturday afternoon and night of October 27.

There will be all kinds of carnival booths operated by various classes in school, and the festivities will be climaxed by election of a king and queen of the carnival.

SEWING CLUB

Mrs. S. E. Brown entertained the Sewing Club Wednesday afternoon. The group enjoyed visiting and sewing during the afternoon.

A refreshment plate was served to Mrs. J. D. McDonald, Lily Bennett, T. F. Finley, D. E. Gunn, K. L. Taylor, Percy Bond, E. P. Kuck, Frank Johnson, and Glen Coon.

Mr. and Mrs. Alvis Mayo and children of Grand Prairie visited with Mr. and Mrs. Plez Beatty and other friends here Saturday.

Wimberley Butler returned to his home at Fort Stockton Friday after visiting his sister, Mrs. Grady Furlow, and brother, Dan Butler, here the past month.

Mr. and Mrs. Buck Taylor and Mr. and Mrs. Willie Taylor were guests in the home of Mr. and Mrs. E. R. Jacobs in Sweetwater Thursday night.

Mr. and Mrs. W. O. Stewart and Mr. and Mrs. W. O. Stewart Jr. of Commerce are spending this week with Mr. and Mrs. Plez Beatty.

Mrs. R. K. Thornhill left Monday and spent the first of the week buying at the Dallas markets.

At Simmons of Spearman spent the week end with his wife and parents. Mrs. Simmons returned with him and they will make their home there.

SOCIAL SECURITY MAN IN COLORADO CITY NOV. 1
Ralph T. Fisher, Manager of the Abilene Social Security Board field office, will be at the Colorado City Chamber of Commerce office next Thursday, November 1, at 3:00 P. M. In making this announcement, Mr. Fisher stated that he will be glad to have any person having business with his office to meet him at that time.

Persons wishing to file retirement claims or death claims under the Social Security Act, and those who want information or assistance in connection with their social security cards or social security records, should call to see Mr. Fisher. Anyone wishing to see him is requested to call promptly at 3:00 P. M.

Mrs. Alfred Richy, Mrs. John Horton, Mrs. Garland Cary, and Mrs. Harris Hamilton visited Mr. and Mrs. Cliff McKay in Coleman Sunday.

Gift Party Honors Recent Bride

The Builders S. S. class entertained with a gift shower honoring Mrs. Herman Morris on Friday afternoon from 4 until 6 at the home of Mrs. Dale Johnson.

Mrs. Johnson received the guests and introduced them to the honoree and her mother, Mrs. C. W. Morris.

Mrs. Al Simmons registered guests and gifts in the bride's book, after which Mrs. Frank Beights and Mrs. J. D. McDonald served spiced tea and cookies.

The party rooms were decorated with varicolored dahlias. The centerpiece for the lace covered dining table was a crystal bowl of roses flanked with white candles. Miniature hatchets with Marjorie and Herman written on them were given as favors.

For the entertainment Mrs. W. R. Martin gave an original sketch entitled "A Love Story" which concerned Marjorie and Herman 50 years from now. Included in this sketch she sang "I Love You Truly" and "Loves Old Sweet Song."

After the program Mrs. Martin presented the gifts to the honoree.

JUNIOR 4-H CLUB

The Junior girls met at the school building Thursday afternoon at 3 o'clock and organized a Junior 4-H Club. Miss Graham Hard met with them and helped to organize the group.

The following officers were elected: President, Fay Montgomery; vice president, Ladoyce Beatty; secretary, Barbara Small.

At this meeting Miss Hard helped us get started on working on hand embroidery cup towels. There were 34 present. We will meet on the second Thursday in each month.

Methodist Church

John W. Price, Pastor

In the absence of the pastor Sunday the laymen of the church will have the service, Mr. John Mahon leading. We urge every Methodist to be in his or her place at Sunday School and this service.

Youth Fellowship at 6:45 with Merlyn Bruce leading in interesting program.

In the evening the service will be given over to a singing. You will enjoy this hour of song. Prayer Meeting Wednesday night at 7:15.

Doris Butler, who has been employed at the Bombardier field at Big Spring, is spending this week with her parents, Mr. and Mrs. Dan Butler. Doris and Avis Bennett will leave Saturday for Austin, where they will enter State University.

Mrs. Glen Chamness is spending this week with friends in Abilene.

Cotton Ginning Report

The four gins in Loraine had ginned 1137 bales of cotton during the past week with a total for the season of 2356 bales.

Heavy dew almost every morning during the week cut down the total by several bales.

ANNOUNCEMENT

The Lone Star Home Demonstration Club will meet the first Wednesday in November at the home of Mrs. H. W. Gaston. Reupholstering work will be displayed. Also putting in bottoms of cane chairs. Anyone interested get in touch with Mrs. Gaston for materials.

Mr. and Mrs. Paul Stewart and children of Sweetwater, Mrs. Auti Turner and son Travis of Roscoe, Cecil Miles and son Elmer of Colorado City, and Mr. and Mrs. Allen Beatty and children visited in the home of Ted and Laverda Miles Sunday.

Mrs. J. S. Mias and Mrs. Otis Muns visited in the Harvey and Claude Muns' home in Sweetwater Sunday.

Guests in the home of Mrs. Lee Walker and Mrs. Frank Johnson Saturday night and Sunday were Mrs. Nannie Baker, Mrs. Grace Jackson, and Mrs. Lenley Stephenson and son of Abilene.

Mrs. W. E. Wimberley spent several days last week with relatives in Winters and Bradshaw.

Mrs. Emma Leggett left Friday and is spending this week with her nephew, Cecil Beal and family, at Weatherford.

Dr. Homer Johnson left Saturday for Midland, where he will resume his practice as Pediatrics specialist. Dr. Johnson recently received his discharge from the army. He spent Friday night with his mother, Mrs. Frank Johnson, and brother, Dr. Bruce Johnson and family.

Mrs. Ellen Doyle returned to her home at San Angelo Monday after spending several days with Mrs. Tom Seown. Mrs. Roxie Mathis returned with her to visit this week.

CELEBRATES 1st BIRTHDAY

Mrs. Lester Webb entertained for Linton Sunday afternoon from 3 until 5 honoring him on his first birthday. Games were played and refreshments of birthday cake and punch were served to Larry Gene Bullard, Joe and Judy Brown, Chaney Jones, Joretta Hall, Barbara Small, Doris Dee Lombardo, Marger Lou and Melba Thompson, Richard and Melvin Gale, Junior Thompson, Mr. and Mrs. J. M. Thompson of Colorado City, Mr. and Mrs. M. A. Webb of Westbrook, Mrs. Buel Bullard, Ed Brown, Howard Jones, Price Hall, Ed Small, Ruth Lombardo, J. H. Thompson, R. L. Gale, and C. E. Thompson.

Ragain Brothers Home After Years As Japanese Prisoners

Sgt. Loyd and Sgt. Stanley Ragain, sons of Mr. and Mrs. W. R. Ragain, arrived home Monday from San Antonio, where they were released on 30 day furloughs. These boys were released from a Japanese prison camp on September 4, 1945, after being held prisoners since May 10, 1942.

They were captured on the island of Mindanao in the Philippine Islands and were held at Malaybalay, then carried to Davao prison camp in September and remained there until June 6, 1944, when they were crowded onto a ship and started for Japan. This trip, which ordinarily would have taken about 8 or 10 days, took them 3 months. They encountered so many storms which caused the delay. The boys remained together throughout the long months until 3 months before the surrender of the Japs.

These brothers look swell now after gaining from 128 and 114 to their present weights of 170 and 180. The prison diet was very poor, made up mostly of rice, though at times they were given cooked carrot tops and potato vine. The treat on Sundays was beef stew, of course there was only one beef for about 2000 boys, the Japs holding out the choice cuts, but that sufficed for a concoction which they called beef stew and was certainly welcomed. The death rate among the boys at this camp last winter was very low. Out of the 600 in their camp there were only 16 deaths. Loyd and Stanley each had three attacks of malaria, some of the boys had as many as 50 attacks, and there were only 6 of the group who never came down with the fever at all.

While working in the rice fields in the Philippines Loyd went without shoes for a year. They had no cigarettes. At first they tried drying the green tobacco leaves and making them into cigarettes but found them too strong. Later they boiled the leaves to keep them from being so strong, but finally they learned to smoke them without boiling.

They didn't receive any packages until in 1944 just before they left for Japan. At that time they received packages from home and also some Red Cross packages from the American, Canadian and South African Red Cross which was certainly appreciated. If they had been allowed to stay in the Philippines two months longer the Americans would have been there to release them.

They were at Davao camp while Col. Dyess was there and at the time of his escape. It was this camp where they were grouped in groups of 10 and if one of the group escaped they killed the other 9 of his group.

When they were in Japan they worked in the copper foundry. The Japs brought all articles of any kind of metal from China and the islands they captured into Japan by the ship loads. In this particular place where Loyd and Stanley worked they melted

the articles which were made of copper and refined it for further use.

There were many slight earthquakes in Japan, they lasted through a 2 month season and one got used to them and would recognize the sound which resembled the sound of an approaching train. The worst one happened one day while they were inside the copper foundry working and because of the noise of the machinery they did not have the warning that it was coming. It rocked the high smoke stack as if it were a weed in the wind. The Japs ran in every direction. In fact everyone ran but the earth was shaking so they would fall. It seemed as if the earth was waving as ocean waves. At this time the damage was so great it stopped the work for a month until repairs could be made.

The religion and customs of the Japs is almost unbelievable. They worship the Sun, Moon, and most of all their Ancestors. That is the reason they do not value their lives. They believe when they die they will join their ancestors. The lower class considers it a privilege and honor to die for their leaders. At one particular time a Jap officer said to a lower class Jap to "Go jump in a volcano crater" and he took him at his word and did just that. This started a panic and they went in great numbers and jumped into the volcano crater thinking they were doing what their superiors wanted. The police were called out to stop this wholesale suicide.

While in Japan they slept on straw mattresses which were on the floor, but in the Philippines they slept on boards. They were slapped by the Japs but never beaten. They knew better than to resist or try to escape. Those who did try to escape and were caught did not live to tell of it.

On August 15 they heard that the war was over. Later the British aircraft carriers dropped food and clothes for them, then the Japs led them to a Marine group and from then on they were free men.

They had been separated before their release and met again when they arrived in Manila, Stanley arriving there about 3 days ahead of Loyd, and left 3 days ahead of him. He arrived in San Francisco 3 days ahead of Loyd and on to San Antonio but waited there until Loyd caught up with him and they came in together.

Loyd and Stanley enlisted in the Air Corp Ordinance on July 15, 1941. After two months training in the States they were sent to the Philippines. They both received the Asiatic, Philippine and American Defense Campaign Ribbons with four battle stars, the Presidential Citation with two oak leaf clusters and the Good Conduct Medal.

After a 30 day furlough they will report to Brooke hospital in San Antonio.

James, the youngest Ragain son, is in the Marines and is expected to arrive home soon.

Joyce Lee and Pvt. and Mrs. Mac W. Pyle of Midland spent last week end with Mr. and Mrs. Charlie Lee.

Rev. and Mrs. J. W. Price and Sonny left Wednesday for St. Louis, Mo., where they will visit their daughter and sister, Mr. and Mrs. Fred Langley.

Mr. and Mrs. J. E. Derryberry and Mr. and Mrs. Olan Moore of Snyder were guests in the home of Mr. and Mrs. E. N. McCollum and children Thursday.

Mr. and Mrs. H. A. Cook of Colorado City and Captain and Mrs. John Wood of Nashville, Tennessee, visited Mr. and Mrs. John Marshall and Mrs. Ruby Robertson Friday.

Dr. and Mrs. Bruce Johnson, Mrs. Dale Johnson, Rodney Walker and Don Narrell attended the football game between Texas Tech and Baylor at Lubbock Saturday night.

Mrs. Jewel Russell, Mrs. Glen Mantooth and daughter, and Avus Baird of Midland spent Friday and Saturday with Mr. and Mrs. Joe Bennett.

Mrs. F. H. Baumann and Armonda went to San Antonio Wednesday to meet Edward Baumann who was expected to arrive there today after spending several months in the Pacific.

Mrs. W. H. Findley left for Crane today to visit with her daughter, Mrs. Ira Crownover, until Thanksgiving.

Guests in the home of Mr. and Mrs. Fred Williams Sunday, honoring their nephew Floyd Miller of Colorado City, were Mr. and Mrs. M. E. Miller and Mrs. McShan and son of Colorado City, Mrs. McCaughan, Mrs. Leah and Mr. and Mrs. O. R. O'Neal and daughters of Ballinger. Floyd has recently returned to the States after being held a Japanese prisoner.

Navy Day

Acknowledging the part of its NAVY in final victory, a grateful nation celebrates Navy Day, Oct. 27. The war won, the importance of its air and seapower recognized, the "world's greatest Navy" readies itself for a vigilant peace; guns, ships, planes and men on the alert. The final story of the Navy's careful integration of sea, air power and landing forces, will go down in history as an epic of military achievement. These official Navy photographs show several facets of the hard-fought struggle.

PRESIDENT GOT MODEL OF SURRENDER SHIP, U.S.S. MISSOURI

L. to R.: Vice Admiral Randall Jacobs, President Harry S. Truman, Secretary of Navy James Forrestal, Fleet Admiral Ernest J. King.

Iron Across Length
When ironing, press with the length rather than across the width of fabric wherever possible. But if a skirt, slip or nightgown is cut on the bias, then iron on a slant, along the grain or straight of the material. This will prevent the stretching and sagging which makes hems uneven.

Keeps Mouth Shut
The reason a dog has so many friends is that his tail wags instead of his tongue.

MRS. ALLEN'S HUSBAND GIVES HER A SURPRISE

WEST MONROE, LA.—Mrs. Carl C. Allen of West Monroe, Louisiana, has an interesting story to tell about how she discovered Faultless Starch. Here is what she wrote:

"Last week my husband brought home a box of Faultless Starch. I decided to use it, thinking that all starches were about the same. You can imagine my surprise when I began ironing. My iron fairly flew and I was finished in no time. My clothes were so bright, with no rough starch blotches to mar their sleekness. I felt I just had to tell you how wonderful your starch is. My husband was just as proud as I when he saw his shirts. I wish all women could just try your product."

Now there is a thoughtful husband. That box of Faultless Starch really meant more to Mrs. Allen than a box of candy—and here is why.

SAVE 468 MINUTES A YEAR

Let's say it takes ten minutes to make hot starch when you have to cook it and stir it over a hot stove. But you can make hot Faultless Starch in a minute. That means you save nine minutes each time you make it. If you wash only once a week, in one year you would save 468 minutes, or seven hours and forty minutes. Would you rather have a box of candy or a box of starch that saved you better than seven hours a year?

SAVE 26 HOURS A YEAR

And that isn't all! Many people tell us that Faultless Starch makes it possible to save half their ironing time. Let's be conservative and say that Faultless Starch might save you half an hour each ironing day. In a year you would save twenty-six hours of hard ironing time! Which is best—a box of candy or a box of Faultless Starch? Why go on starching and ironing the hard way when you can do it the easy way with Faultless Starch. Or, better still, ask your grocer for a box today. You deserve Faultless Starch, too.—Adv.

When Your Back Hurts—And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with stinging and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won country-wide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

DOAN'S PILLS

Upset Stomach

Relieved in 5 minutes or double money back

When excess stomach acid causes painful suffocating gas, sour stomach and heartburn, doctors usually prescribe the fastest-acting medicine known—antacid tablets. No laxative. No harm. No discomfort. A little or double your money back on return of bottle to us. See all drug stores.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

Here's a SENSIBLE way to relieve MONTHLY FEMALE PAIN

Lydia E. Pinkham's Vegetable Compound is famous not only to relieve periodic pain but also accompanying nervous, tired, high-strung feelings—when due to functional monthly disturbances. Taken regularly—it helps build up resistance against such symptoms. Pinkham's Compound helps nature follow her own directions. Try it!

Lydia E. Pinkham's VEGETABLE COMPOUND

COLD'S CHEST TIGHTNESS quickly loosened by Penetro—Grandma's old-time mutton nest idea developed by modern science. Inhaled counter-irritant, vaporizing salve that brings quick, comforting relief. 25c, double size 50c.

Softly Draped Handbags Tuned to Stunning Fall, Winter Costumes

By CHERIE NICHOLAS

DESIGNERS are on the qui vive this season to create handsome handbags that shall measure up to the fashion glory and the new elegance of the stunning costumes which go to make up the fall and winter style picture.

In assembling your fall-winter wardrobe, keep in mind that this year your costume will be only as smart as the handbag you carry with it. That's how important handbags really are. You will have no trouble in finding as handsome handbags and as versatile as ever fancy might picture. Be sure to make your selection with meticulous care, for this year's handbags make a decided departure from the stereotyped styles of yore.

The three voguish Jenny handbags shown in the illustration are typical of the new movement toward the feminine look, achieved through soft draping. These bags are styled as American women prefer them, with elegance and stark clean lines, and in fabrics that mean fashion and wearability.

With your perfect dawn-to-dusk trotter, the bag to the left will be ideal. It is spiced with the new soft look via uniquely quilted and gathered supple goatskin. You'll take real pleasure in this bag because it is so roomily built to take care of your feminine possessions, and it sure is a winner in "looks."

Simple enough for tailored casuals, feminine enough for all your frills is the handbag centered above. It tells you that the under-arm bag has lost its strictly tailored look, has been lifted out of its frill season with soft pleats and deft

draping, as you see. The supple goatskin that fashions this bag is most attractive not only to the eye but to the touch. The mock tortoise that makes such a good-looking trim is outstanding in the news when it comes to adding the touch that tells to this season's smartest handbags.

Sleek, smooth, quality-kind broadcloth, the fabric that fraternizes with most every costume makes the good-looking bag to the right. In this instance, the designer takes the ever-popular underarm handle bag and artfully drapes a pleated handle through a graceful span of mock tortoise.

Speaking in general of what's what in new handbag fashions, the most exciting innovation in many a season is the advent of little bulbous pouch bags done in eye-catching silhouettes. These pouch bags certainly have cunning ways and they are staging a display of breathtaking novelty. Made of practical broadcloth, faille and various wearable media, they carry on in a modest way by day. When it comes to the dressy cocktail party and gala after five occasion, however, the little pouch bag puts on a spectacular display that fairly bubbles over with all the glitter and intriguing fussiness imagination can devise.

Just now it's the whimsical pouch bag of black satin that holds forth in the fashion spotlight. Women are buying these bags to go with the satin hat and with the all-satin gown that is so style-important this fall. These black satin bags are perfect with afternoon and evening clothes. The party bags fairly scintillate with the glitter of sequins or tiny steel or jet beads. Most of the box bags have straps to sling over the arm. The newest news of all is the little shoulder strap bags that become a decorative part of the frock when dancing.

Released by Western Newspaper Union.

Blouse Favorites

Sheer lingerie blouses of loveliest texture, and exquisitely detailed with lace register as topflight fashion with the young set this fall to wear with the dress-up suit. Shown at the top is a charming "come hither" blouse in batiste by Judy Bond, a young college girl and stylist who is combining a career and schooling with high success. The other blouse in judiana rayon crepe is the wanted kind for college wear. Its highspot style details are the triple-stitched convertible V-neck, closely set pearl buttons and french cuffs. Comes in white and voguish colors.

Furred Cloth Coats Make Fashion News

The short cloth coat with intriguing fur trim is taking over in a tremendous way for fall. The top news is luxurious wool coats with gorgeous borders that either trim the flare hemline or are applied in a tuxedo manner down the front. Important is the style message of fur sleeves in cloth coats, such as the belted wool shorties in neutral shades that are fashioned with waist deep sleeves of black Persian. Interesting also is the cloth coat with a fur yoke. Contrasting the voluptuous fur trims is the use of fur in discreet ways, as for instance, the cloth coat that is bound all around the edges with Persian or beaver or other smooth peltry. There is also indication that one type fur will trim another. Designers are doing wonderful things with fur, not only in trimming but in accessories, and fur hats are being turned out in endless versions.

Color Contrast Extended To New Evening Dresses

The idea of color contrast is associated in our minds for the most part in connection with sports clothes and daytime dresses. It's interesting to note that this color technique is carrying on in the realm of formal evening gowns. In one instance a noted designer introduces a panel that extends from the right shoulder to the floor hemline of the dress. The panel is made up of time and red, flashed against a black background.

Sequin Ornaments on Combs

Sequin flower motifs on combs are among the hair ornaments that are best sellers. Some are designed especially for top hairdress and others for top-knot hair-do.

Schools Open

Red Crepe Dress

This American beauty red crepe dress is styled with the new deep arm-holed sleeves and dip backed peplum which rank style-high for fall.

Minute Make-Ups By GABRIELLE

For that Starry-Eyed look, rest your eyes! Cover them with a pack of cotton saturated with eye lotion, or a mild skin freshener. Just drift and dream for a few minutes. Then clever makeup and clever "making with the eyes" to capture his heart! Bell Syndicate.—WNU Features.

"GAY GADGETS"

Associated Newspapers—WNU Features

By NANCY PEPPER
LOG O' RHYTHMS

Are you in a como about Perry? Are you in a swoon about Sinatra? Or are you in a haze about Haymes? Well, it really doesn't matter, because you'll want to know the latest results of our own hit parade. Here are some of the platters the teens are playing and praising.

"I Begged Her" and "If You Were But a Dream" by Frankie.

"I'm Beginning to See the Light" by Harry James and Kitty Kallen.

"Candy" by Johnny Mercer and Jo Stafford.

"My Dreams Are Getting Better" by Bing Crosby.

"Duration Blues" by Johnny Mercer.

"The Boy Next Door" by Judy Garland.

"There, I've Said It Again" by Vaughn Monroe.

WIT PARADE

Hi, fish, bite the bait—we have some new giggle gags that will make you fan your fins. You're an Ichabod (that's Washington Irving for "icky") if you don't know them.

164 Questions

What did the class say to the teacher just before the exams?

"Is This Test Necessary?"

Why are your report-card marks under water?

Because they're all below "C" level.

What do a cow and ducks remind you of?

Quackers and Milk.

TRIXIE TEEN SAYS—

Wouldn't you like to know the 164 answers to these questions? Why does the telephone always ring just as you get into the bathtub? Why does your favorite boy wait until you have a date to ask for one? Why is your best dress always at the cleaner's when you need it most? Why does your hair look out of this-world when it doesn't matter? Why do the stage wait until your Big Moment finally dances with you to cut in? Why do you always meet the Man in Your Life when you're looking like a Fowl Friend? Why bother to ask these questions—and why bother to answer?

Take My Word For It!

By FRANK COOLBY

HANDBOOK OF PRACTICAL ENGLISH

Q.—Is there something wrong with the expression, "I didn't use to do it"? My English class really wants to know.

A.—Use to, in the meaning of "accustomed at some time in the past," is not sanctioned. The only form recommended is "used to." Your sentence, then, would have to be recast: I used not to do it. But it is awkward at best in the negative. In the positive, however, it is quite proper: I used to live in New York; we used to go to the same school; she used always to spend her vacations with us.

Q.—Whenever I read that, "The meeting was in charge of Mrs. John Doe," I suffer a mild nervous breakdown! The meaning is, of course, that Mrs. Doe had charge of the meeting. Can't you DO something?

A.—Strictly speaking, Mrs. Doe is in charge of, or has charge of the meeting. Also, the meeting is in the charge of Mrs. Doe; or the meeting is in Mrs. Doe's charge. But the form "the meeting is in charge of Mrs. Doe" has become so firmly established in the American vocabulary that I doubt whether a B-29 block-buster would even budget it. It is thus that idioms are born, and, as it often happens, today's grammatical error is tomorrow's good usage. English is like that.

"Colby, you're wrong," says J. W. of Paso Robles. "You recently spoke of 'the incredulous theory' . . . Tch, tch, tch. Really, it's incredible!"

A.—I am uncertain whether my use of "incredulous" was a slip of the pen, or merely a throw-back to days when "incredulous" was proper in the meaning of "incredible." However, that usage, say the dictionaries, has been obsolete since 1800—hey, what am I saying?

Pastel Corduroy

The college "junior" puts in a pretty appearance at teas and dances in this dress of shocking pink cotton corduroy designed by Horwitz & Duberman. The jacket has a high, cut-out neckline, self-covered buttons and a drawstring waistband at the back. The skirt features a kick pleat in front.

Lighter Buses
New buses made of aluminum weigh from 1½ to 2 tons less than previous models.

Japs Like Baseball
Baseball is more popular in Japan than anywhere else except in the United States and Canada.

Lacks Nitrogen
The firing of corn during the exceptionally wet weather is principally due to a lack of nitrogen.

SNAPPY FACTS

about RUBBER

Largest inflatable rubber unit ever made (200 ft. long and 2½ ft. high) were the pneumatic breakwaters used to control the waves on the beaches during the Normandy invasion.

The various raw materials used in the manufacture of tires come from 35 different states.

35.7 pounds of synthetic rubber are used up in driving a car 20,000 miles at 35 m. p. h. 61 pounds are used while driving the same number of miles at 50 m. p. h.

Sponge rubber, a century-old discovery, may become a hundred-million-dollar industry.

Rotenone Imports
In 1931, the first year in which this country imported rotenone roots in commercial quantities, our imports were only 8,400 pounds. By 1940 they had expanded to 6,500,000 pounds. Rotenone is used in insecticides.

Versatile Fruit
Peaches adapt themselves readily to innumerable types of desserts and salads. In addition to delicious flavor, they offer fair amounts of vitamins A and C.

Illinois Crop Land
Corn, soybeans, oats and hay comprise 90 per cent of the total crop-land in Illinois.

HELP BUILD UP Cold Resistance
with **HIGH ENERGY TONIC**
If you catch cold easily—because you lack all the natural A&D Vitamins and energy-building, natural oils you need—you may be amazed how Scott's Emulsion can help build energy, stamina and resistance. Try it! See why many doctors recommend this good-tasting, high energy, food tonic. Buy at your drugist's.

SCOTT'S EMULSION
YEAR-ROUND TONIC

Have You Tried PINEHURST CIGARETTES
Made with Gin-Seng Extract?

Treat yourself to the pleasure of this fine smoke—smooth, mellow, mild cigarette—made of selected tobaccos, especially blended to the popular American taste. Pinehurst is truly one of America's standard cigarettes—not a shortage substitute—enjoyed for years by smokers who demand satisfaction from their cigarettes. Pinehurst's exclusive Patented Panax Process employs extract of Gin-Seng root for modern moisture conditioning—the only cigarette permitted to do so.

The use of Gin-Seng Extract as a hygroscopic agent is an exclusive, patented process of this company. The moisture features of Gin-Seng Extract may help to relieve dry throat, clear the cough, and soothe irritations due to smoking. These cigarettes may be found much more pleasant and safe for those with ordinary colds and other respiratory difficulties such as hay fever, asthma, etc.

Blooming Hats
It took clothes-ration points for an Australian girl to buy a hat. Knowing this, United States soldiers often brought to their dates specially made headpieces of fresh flowers. This custom, started by our troops, became the rage in hat-scarce Australia.

Progressive Century
The barometer and the thermometer were developed in the 17th century.

Heating Safety
One of the most notable innovations in safe heating is the wet base boiler in which water circulates under the ash pit. The fact that the boiler can be placed on a combustible floor is of interest in connection with the trend toward the basement-less house. In such houses it is often desirable to install the boiler on a wooden floor in a utility room or kitchen. Other safety features of modern boilers are foot-treadle door openers, ball-shaped, air-cooled handles and side shakers, making it easier to open and close doors.

Lucky Stones
Emeralds were once believed to be beneficial to the eyes and ametheysts were thought to prevent drunkenness, according to Encyclopaedia Britannica. The belief in lucky stones still exists.

Bath Banishes Blues
According to etymologists, the English word "bath" comes indirectly from a Greek word meaning "to drive sadness from the mind." Which goes to prove again that the classic Greeks were a modern people and that they knew the full value of bodily cleansing. Bathing frequently and thoroughly, and thus "drive sadness from the mind."

Plan Baths
If the man of the house has been accustomed to taking his daily shower in the morning, reserve this time for him. The children might bathe in the evening, allotting the time according to their ages and when they go to bed. The younger children might be bathed before dinner, older children later. Plan your own bath for whichever hour will give you the most relaxation.

Eggs Nutritious
Eggs help keep the body healthy. They make strong muscles and red blood. A child needs four to five eggs a week. An older person needs three to five eggs a week. Eggs may be eaten plain, or mixed in other foods.

Whip Soap Flakes
Whip your soap flakes in a little hot water with an egg beater and you will need fewer flakes and get better results.

Sugar Restrictions Prevent Solution Of Dessert Problems

Mounds of creamy ice cream ride on top of peach halves set on squares of tasty, hot milk sponge cake. A dessert sauce made of the peach juice is a delightful foil for the fruit, ice cream and cake.

Now that food rationing has loosened up in most of the eatable goods, and we are once again able to get back on a prewar standard, cooking problems need not be pressing. However, in spite of this lifting of restrictions, we still have at least one major problem—that of sugar.

Little relief is in sight right now, and the situation will probably prevail for some months. What shall we do about dessert?

Well, first of all there are fruits which can be dished up in any number of perfectly delightful ways. There's whipped cream and ice cream, and, of course, sugar substitutes.

One cup of sugar or less is a good rule to follow if you are using recipes calling for this sweet but scarce commodity. If your cake calls for 1½ cups of sugar, use ¾ cup of sugar with ¾ cup of corn syrup. In this case you must use 2 tablespoons less milk than the recipe calls for and 2 tablespoons of flour, additional.

The fat scarcity also limits us to some extent on the baked goodies we want to make. That's why sponge cake will be popular, as in this following recipe:

Peach Sponge à la Mode.
(Serves 8)

Sponge cake
1 No. 2½ can peach halves
1 quart vanilla ice cream
Dessert sauce

The cake used uses 4 eggs and is made with scalded milk to give it a fluffy texture:

Sponge Cake.
2 cups sifted cake flour
¼ teaspoon salt
2 teaspoons baking powder
4 eggs
1 cup sugar
1 cup milk, scalded
1 teaspoon vanilla
3 tablespoons butter, melted

Sift flour and measure. Sift three times with salt and baking powder. Beat eggs with rotary beater until thick and lemon colored. Add sugar gradually and beat until fluffy. Fold in flour mixture, then milk, flavoring and melted butter. Fold until well blended. Pour into square cake pan lined with waxed paper. Bake in a moderate (350-degree) oven for 30 minutes. Cool in pans.

Dessert Sauce.
Liquid from peaches
2 teaspoons granulated sugar
Remaining peach halves, chopped
¼ cup salted almonds, silvered
1 tablespoon brown sugar
Cook the peach liquid down to ¼ cup. Stir in the granulated sugar

Lynn Says:
Make Meals Good: No family enjoys eating the same, same foods every meal. It's a good idea not to repeat dishes more than once every three or four weeks. Even favorite foods get monotonous when served too regularly.

To get contrast in every meal, follow the basic seven charts to see that you get in all different types of foods.

In planning a meal, have some things crisp, others soft, and still others hard. For example, meat can be the "soft" food, while broccoli or salad add the crispness, and rolls are the "hard" part.

Try to combine colors, too. Cauliflower, potatoes and creamed chicken may all be good, but they don't stimulate the appetite. However, consider the colorfulness of creamed chicken with french fried potatoes and peas with carrots.

There should also be a combination of hot and cold dishes. Even with a salad luncheon, the hot foods can be soup and coffee.

Some cooked, some raw is another good rule. Be sure to have a salad—a big one, too, if you are having roasted meat, cooked vegetables and pie or pudding, which are all cooked.

Creamed Potatoes
Celery Sticks
Molded Plum-Pear Salad
Corn Sticks
*Open-Faced Apple Pie
*Recipe given.

and chill. Serve over the peach halves à la mode and top with nuts mixed with brown sugar.

To serve, arrange a peach half on a square serving of cake. Top with a mound of ice cream and serve with the dessert sauce.

If it's apples you want, then you will like this pie which is easy on fat because it does not have to have a top crust. It uses an egg for richness and flavor:

Open-Faced Apple Pie.
(Serves 6 to 7)

3 cups sliced apples (about ¼ pound)
1 egg, well beaten
¼ cup sugar
1 tablespoon flour
½ teaspoon cinnamon
½ teaspoon grated lemon rind
¼ teaspoon salt
2 tablespoons melted butter
Plain pastry for 1 crust (about 1 cup flour)

Line pie pan with pastry, building up the edge. Fill with sliced apples. Add remaining ingredients to beaten egg; beat well. Pour batter over apples. Bake in a hot (425-degree) oven for 25 to 30 minutes.

Apples which are best to use in this type of pie are Rome Beauty or Macintosh.

Black walnuts can lend a distinctive flavor to pie when fruit supplies dip to a low during the cooler weather as in this recipe:

Black Walnut Pie.
2 cups milk
1 cup sugar
6 tablespoons flour
2 egg yolks
¼ teaspoon salt
1 teaspoon vanilla
2 teaspoons butter
1 cup black walnuts
Baked pastry shell
Whipped cream

Make a custard of the milk, sugar, flour and egg yolks, cooking until thick in a double boiler. Add salt, vanilla and butter. Cool. Add nutmeats and pour into a baked pastry shell. Let set and cool. Serve with whipped cream topping.

This novel apple pie saves shortening by using just one crust. For delicious flavor and good, old-fashioned heartiness, add an egg to the apple mixture.

The old-fashioned puddings are always popular because of their molasses sweetness and fragrant spices. Suet is usually used for the base, but one of the fats may be substituted if it is unavailable. Buttermilk is used to give that fluffy texture which is so appealing.

Quaker Pudding.
(Serves 10)

2½ cups sifted flour
1½ teaspoons soda
½ teaspoon salt
½ teaspoon nutmeg
½ teaspoon cinnamon
½ cup buttermilk
1 cup ground suet
1 cup molasses
1 cup raisins or other chopped dried fruit, or candied fruit
¾ cup rolled oats

Sift flour with soda and salt. Add all other ingredients in order given and mix thoroughly. Pour into two one-quart greased molds. Cover and steam for 3 hours. Serve with Foamy or Orange sauce.

Stuff green peppers with creamed chicken or turkey and rice. The peppers should be parboiled first, and after stuffed, they may be heated for 10 minutes in a moderate oven.

If you like stuffed green peppers, try them with a stuffing of corned beef hash mixed with onion. It's mighty good.

Like sweet potato pudding? One way to make it is to mash six cooked sweet potatoes with 6 tablespoons butter, 2 tablespoons grated lemon rind and 1 cup of orange juice. Bake this mixture in a greased casserole in a moderate oven for 15 minutes.

Improved Uniform International LESSON

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for October 28

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

TEMPERANCE BEGINS AT HOME

LESSON TEXT—II Timothy 1:16-3:14-15; Titus 2:1-4, 11, 12.
GOLDEN TEXT—As for me and my house, we will serve the Lord.—Joshua 24:15.

The influence of the home on the character of a child is the strongest factor in the development of high and holy standards in the life of the man and woman. "Train up a child in the way he should go; and when he is old, he will not depart from it" (Prov. 22:6).

Emphasis is placed on temperance in our lesson, and it is clear that in the home, real temperance principles may be built into the thinking of boys and girls. It is not easy for a young person who has been brought up right on this matter to go astray, no matter how severe the temptation.

I. Our Family Is God's Gift (II Tim. 1:1-5).
Paul, the apostle of Christ, addressed his son in the faith, Timothy, with affection and appreciation. He knew the good which was in this fine young man and saw the possibilities for service for God.

He knew that as the background of that faith, there was a godly line of ancestors, those with an "unfeigned faith." This young man, so precious to Paul and so successful in the ministry, owed a deep and abiding debt of gratitude to these godly women who had directed his steps aright, who had instructed and encouraged him in the right way.

II. Our Faith in God's Guidance
(II Tim. 1:6; 3:14, 15).

The gift of God for preaching which Timothy had was recognized by the church, and he was sent forth to proclaim the gospel. But alas! the burdens of life and the pressure of service cause a man to forget or neglect his calling so there comes often the need of stirring up the gift of the Lord.

God gave it. He will bless us as we use it to its fullest possible extent. He wants us, too, to stir it up—this blessed, divine gift and calling.

The admonition (v. 14) is to "continue" in that which was learned, to remain true to the Word of God. We show our faith in His guiding hand, as we resist by His grace, the ever-present temptation to get away from the only true foundation of a life of usefulness and joy.

What we have learned as children we should hold fast in spite of all the devices of Satan and every weakness of the flesh. Stand fast in the faith!

III. Our Fellowship in God's Gospel (Titus 2:1-4).
Old and young are to be united in a great communion of believers proclaiming the gospel of God's grace by a living testimony, by a life devoted to the things of God.

Sound doctrine is the only source of sound living. To be "sound" means to be healthy, vigorous, free from defects, suited to a purpose. That means that everyday Christian living must express the vigorous soundness of the gospel.

Men and women are to be "temperate," not given to excess, and particularly in mind here is the use of intoxicants. To be temperate in such a day and land as ours can mean only one thing, and that is to abstain altogether. Christians ought to keep entirely away from intoxicants, and that includes beer and wine.

IV. Our Faithfulness by God's Grace (vv. 11, 12).

God's grace has brought salvation to man through Jesus Christ and His atoning death on the cross. That grace calls for and calls forth from the believer a renouncing of that which is ungodly and lustful (and in there) and a determination to live right in faithful devotion to God.

That brings about right relationships to self, to others, and to God. The Christian is sober and self-controlled as to anything which could "intoxicate" him, whether it be liquor, or lust, or pride, or any other such thing. He also shows that grace of God before men in a life of righteousness. Then he finds his true place in a reverent devotion to God which makes him a worshiper "in spirit and in truth; for the Father seeketh such to worship him" (John 4:23).

Faithfulness to our Lord will count more than our words in the great battle against impermanence. Let us stand true to Him.

Cotton Damage
Most of the ginning damage to cotton occurs during the first three to four weeks of the ginning season. The cotton is "green" and damp because of the high moisture content of the seed.

Cotton Pickers
The leaves of the cotton must be removed by chemicals in order for picking machines to do the best jobs. Cotton is easily stained by green leaves and this makes dyeing of the cotton difficult.

Garden Superstition
As late as 1740, people in New England thought potatoes would shorten men's lives and make them unhealthy.

Towel Laundering
Increased use of towels means more frequent laundering. Hang towels straight on the line rather than by a corner. After using bath towels, spread them out on racks to dry instead of folding or bunching them. Never pile wet towels on the floor or in a laundry bag. Soggy towels can mildew overnight in hot weather.

Palm Wine
Fermented palm wine is often used as a yeast substitute for bread making in Liberia.

Canned Carp
A Minnesota manufacturer is about to can carp and market it, graded, tuna-style, under the name of "Lakefish."

CHEST COLD? WITH PETER PAIN SPIKING YOU?

..RUB IN Ben-Gay QUICK

Yes, rub in Ben-Gay quick...and quickly get relief from chest-cold symptoms. Soothing, gently warming... Ben-Gay acts fast. Ask your doctor about the famous pain-relieving agents, methyl salicylate and menthol. Ben-Gay contains up to 2½ times more of these ingredients than five other widely offered rub-ins. Get genuine Ben-Gay!

BEN-GAY—THE ORIGINAL ANALGESIQUE BAUME.

Date-Bran Muffins, good as cake!
(Take no sugar, no shortening!)

These delicious, new ALL-BRAN muffins made with chopped dates will have a big appeal for the "sweet toothers" in your family! They're so moist. And they're so tender—so good. That's because KELLOGG'S ALL-BRAN is milled extra-fine for golden softness.

2 cups Kellogg's ALL-BRAN
¼ cup molasses
1½ cups milk
1 egg
1 cup sifted flour
1 cup seltzer soda
½ teaspoon salt
½ cup chopped dates

Add KELLOGG'S ALL-BRAN to molasses and milk and allow to soak for 15 minutes. Beat egg and add to first mixture. Add sifted dry ingredients and fruit. Fill greased muffin pans.

two-thirds full and bake in moderately hot oven (400° F.) about 20 minutes. Makes 15 light, luscious muffins.

Good Nutrition, too!
ALL-BRAN is made from the VITAL OUTER LAYERS of finest wheat—contains "concentration of the protein" elements found in the whole grain. One-half cup provides over ½ your daily minimum need for iron. Serve Kellogg's ALL-BRAN daily!

OUR BOYS
IN SERVICE

Cpl. and Mrs. Bouldin Green of Childress spent the week with her parents, Mr. and Mrs. Otto Hackfeld.

T/Sgt. Russell Howell of Tarrant Field spent Wednesday and Thursday with Mr. and Mrs. Clyde Banks.

Sgt. and Mrs. Twaine Price of Camp Crowder, Mo., are spending the week end here with her parents, Mr. and Mrs. Dee Finch. Sgt. Price is being transferred to Camp Bowie at Brownwood.

Cpl. Lawrence Perkins of Temple, Oklahoma, is spending this week with his grandparents, Mr. and Mrs. S. H. Hart.

Cited for Meritorious Service
For excellent performance of duties in connection with operations against the enemy on Siapan, Marianas, Islands, from 15 June to 9 July, 1944, serving as a driver in a Motor Transport Company, Private First Class James Ragain by cool and capable direction and in an outstanding manner, aided in the delivering of supplies for front line troops. His conduct throughout was in keeping with the highest traditions of the United States Naval Service.

Flight Officer Harold Jones came in Saturday from Tampa, Florida, where he received his discharge from the Army Air Forces. He has been in service two years last April. He is visiting his mother, Mrs. Nora Jones.

Cpl. and Mrs. Royce Mahon and baby of Denver, Colorado, spent the week end with her parents, Mr. and Mrs. J. B. Mahon. Mrs. Mahon and daughter remained here and Royce returned to Denver Sunday afternoon.

Cpl. and Mrs. Lowell Baird spent the week end and first of this week with Mr. and Mrs. Joe Bennett. Lowell received his discharge from the Army Air Forces at Wichita Falls last Thursday after three years in service.

Pvt. Bryan Mahon of Shepherd Field spent the week end with his parents, Mr. and Mrs. J.

B. Mahon.

Sgt. and Mrs. W. W. Wilson and baby of Brownwood are spending this week with her parents, Mr. and Mrs. J. W. Richburg.

Pvt. Trent Simmons arrived Tuesday from Amarillo and will spend a 15 day furlough with his parents, Mr. and Mrs. W. E. Simmons. Harold arrived last Friday from California, where he received his discharge from the Marines. Harold has been in the Pacific for three years.

Gene Baird arrived home Friday night after receiving his discharge from the Army Air Forces at Randolph Field in San Antonio.

Carl Lucas arrived home Friday from Tennessee, where he received his discharge from the Air Forces.

Paul Geron GIMC arrived Sunday from California, where he received his discharge from the Navy after serving three years. He was on the USS South Dakota in the Pacific. His wife and baby have made their home here with her parents, Mr. and Mrs. Charlie Lee.

Glenn Thomas S1C arrived Saturday from San Francisco, California, to spend a 15 day leave with his mother, Mrs. C. H. Thomas in Loraine and with his wife and other relatives in Colorado City.

Vernon Adams arrived Monday from Winters and is spending this week with his aunt and uncle, Mr. and Mrs. J. A. Faulkenberry. Vernon recently received his discharge from the army after serving in the Pacific.

Mr. and Mrs. Faulkenberry received word this week that their son, S/Sgt. Sam Faulkenberry, had left Guam on October 23 for the States.

Sgt. John Hile and wife left Friday for Camp Crowder, Mo., after spending three weeks with his parents, Mr. and Mrs. H. E. Hile. Mr. and Mrs. Hile received

word this week from Edward that his ship, the USS Dent, was being carried through the Panama Canal to Philadelphia, where it will be junked. He expected to be home soon.

LEGION OF MERIT
FOR LT. RAY PRESTON

1st Lt. H. R. Preston, entered the 3rd Bn. Aid Station in March 1941 as a private. He served faithfully with the same aid station until he was transferred 4 July 1945 as the result of the Army redeployment plan.

When the gallant 36th Division landed on the bloody beaches of Salerno, Italy, on 9 Sept. 1943, Lt. Preston, then T4 quickly demonstrated his ability under rugged combat conditions to put on dressings, apply splints and to administer plasma in such a way to win the eternal and complete confidence of his superior officers and fellow workers, and men of his Battalion. As the division slogged its way up the mountainous terrain of Italy into the Liri Valley, T4 Preston continuously braved small arms, mortar and artillery fire through the battles of Mt. Cavinnelle, San Pietro, San Vittore, and hill 1205, T4 Preston played a major role in the rapid and efficient evacuation of more than 500 casualties in this less than 40 day battle which cracked the German winter line.

At the ill-fated Rapido River crossing T4 Preston crossed the river following the assault troops and set up a forward aid station which could not function adequately because the depth of the bridgehead was less than 1000 yards and the entire area swept with cross bands of machine gun and small arms fire. He and accurate mortar and artillery fire knocked out the foot bridges across the river, thereby forcing the aid men and litter bearers to ferry the wounded back with assault boats. Because of this slow process the casualties were extremely heavy on the enemy side of the river and T4 Preston spent more than 24 continuous hours in the treatment of the wounded in the area continuously poured by Nebelwerfer and mortar fire. He aided in the evacuation of more than 800 men of the regiment during the time of this operation and from 31 May to 27 June 1944 the 3rd Bn. Aid Station had only one medical officer. During this period the division successfully broke out of Anzio and bypassed Velletri to capture Rome and pursue the enemy north of Rome for more than 200 miles. Frequent long distance moves required that the aid station operate in two sections. He was continuously in charge of the forward aid station and he treated many seriously wounded soldiers. Here he not only did his technical work but he also, since no doctor was available, it was his judgment that plasma was given, routes of evacuation were planned and the priority of patients evacuations were planned. It was the opinion of the battalion surgeon that Lt. Preston (then T3) fulfilled his responsibility as adequately as any medical officer under similar conditions.

On 15 July 1945, T3 Preston was promoted to the grade of 2nd Lt. M. A. C. and appointed

assistant Bn. Surgeon. Rumor reached the enlisted personnel of the 3rd Bn. that when Lt. Preston was to be commissioned he would be transferred to another Bn. Aid Station. Unknown to him to this day a petition was drawn up containing the names of hundreds of infantrymen and it was presented to the Regimental Surgeon requesting that Lt. Preston remain with the 3rd Bn. This petition was just one example showing the popularity with the fighting men of the line company. Never has one man been so popular as Lt. Preston. Innumerable men considered him their best friend and he literally had no enemies. Hundreds of men from the Bn came to him personally with their problems and he aided them regardless of whether it was the duty of the Chaplain, Red Cross worker, or Commander.

As the 36th Division went on into combat he not only knew the name of every man in the Bn. but also could tell in what engagement any given man was wounded and the extent of his wounds. It is estimated that well over 90 percent of the casualties that were evacuated through the 3rd Bn. Aid Station during its entire combat period were treated by Lt. Preston. Since Lt. Preston had such an intimate knowledge of all the men in the Bn. he was a constant source of information for the many new surgeons who were in charge of the aid station. His advice was always asked-in questionable exhaustion cases as to how much combat a man had previously been through, whether or not the man had been a good soldier in the past. Lt. Preston's judgment as to whether a man would be of further use to this combat outfit was uncanny. In fact he would often predict a month in advance that a certain soldier would break down. This judgment was not just magic but was learned in confidential conversation with the various men in the line companies during which he always helped find out the courage and stamina to carry on their daily inner battles.

Lt. Preston made the invasion of southern France with the 36th Division and continued superior work at all times constantly setting up forward aid stations. As an officer he took complete charge of the administration of the aid station, trained the enlisted men, made out training schedules and charted routes of evacuation, set up forward aid stations and continued in the care of the wounded.

On the night of 15 March 1945 the 3rd Bn. making the main effort of the 36th Division took off from LaWak, France, for the fight of Bitschoffen. Company K of the 3rd Bn led the attack and their casualties were heavy for the first few hours. The aid station was crowded with soldiers that had their legs blown off by Shu Mines in three unsuccessful attacks on the town in less than four hours during total darkness. Here Lt. Preston worked constantly on the wounded soldiers, some of them his best friends. A stranger walking into the room would hardly believe his eyes or ears. In spite of the fact that there were men who had lost their precious limbs, their morale was high. Lt. Preston was the biggest reason for this mental status as he not only served as a doctor but also was a master of ceremonies kidding this one good naturedly and making another laugh in spite of great pain with well timed remarks and jokes. Here Lt. Preston put on more than a dozen splints. He developed a speed and efficiency on putting on the most difficult splints that it is impossible for any fellow workers and doctors to imagine anyone better. He not only has great speed but also a gentleness in handling tissues and limbs that a surgeon would envy.

Lt. Preston at the time of the breakthrough of the Siegfried Line near Bergzabern, Germany, went up with the leading company of the Bn. to get the first hand tactical information in order to chart the routes of evacuation. When the Rhine River was reached on 23 March 1945 the 143rd Inf. Regt. attempted nightly patrols across the river through the 3rd Bn. sector. Daily Lt. Preston would map out the routes of evacuations for possible casualties from the Regt. patrols. While doing this work he would voluntarily go down in front of the Bn. outpost facing the enemy less than 75 yards away.

Through his continuous courageous efforts under enemy fire for more than 375 days in Italy, France, and Germany Lt. Preston has served the enlisted men and officers of the Bn. in a superior manner. His daily inspiration has greatly enhanced the esprit de corps of the entire Regt. and he has gallantly fulfilled his daily chores. His example of personal bravery and self sacrifice have inspired the entire Bn. and saved countless lives on the battlefield.

Veteran's
SERVICE
BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Small Business Aid

The small business division of the U. S. Department of Commerce is taking particular interest in veterans who are returning from the wars with the intention of entering the small business field.

The small business division has given the subject considerable time and thought and now has available for veterans a booklet, "Veterans and Small Business" which answers numerous questions in the minds of the returning soldier.

The booklet covers many facts of the highly competitive small business field and covers subjects such as, "Postwar Plans for GIs"; "Industry's Job to Place Servicemen"; "The GI Bill and Small Business"; "What About These Veterans' Loans?"; "Factors in a GI's Business Success"; "Getting Started in Your Business"; "How Long Can I Stay in Business?"; "Survival Chances of Retail Stores"; "Risk-taking in a Postwar World"; "Training Program for Small Business"; "Marketing Facts On a County Basis"; "Small Town a Most Important Market," and seven other factors or subjects.

These chapters were written by experts and information contained will be invaluable to the veteran contemplating entering the small business field.

These booklets are available to veterans by writing to the "Small Business Division" of the United States Department of Commerce, Washington, D. C.

Questions and Answers

Q. Can a mother who is all alone and in poor health, have a son released from the Army if he has been in since Jan. 25, 1943, and in the South Pacific since June 19, 1943, and has never had a furlough? Mrs. D. W., Greenwood, Wis.

A. The War Department says that the fact the mother is all alone and in poor health would not necessarily bring about the son's release. If the case can be considered a "hardship case" release might be given, but each case must be decided upon its merits and be recommended by the commanding officer. If your son, however, has been in the army since the dates you give, he possibly has enough points for his discharge now, or at least in the very near future. Without points for battle stars or decorations, which count five each, he has approximately 63 points. He is eligible for application for discharge now at 70 points and the number is fixed at 60 points November 1.

Q. My daughter wishes to know whether she will be entitled to services of a doctor and hospitalization benefits when her new baby arrives, if her husband who is now in the navy is discharged under the point system before the baby arrives?—Mrs. W. A. L., Mill Iron, Mont.

A. The Navy Department says that if she is now receiving navy medical care to which she is entitled, the navy will do everything it can to help her provided she does not move from the area where she is under treatment and the pregnancy is in the later stages. Suggest she contact the nearest navy hospital or dispensary for specific information.

Q. Is there a course of study in fire fighting listed in the educational program for veterans and are there any books available on this subject?—G. E. D., Philadelphia.

A. Many schools approved by State Boards of Education have instructions in fire fighting. For instance, the University of Maryland, College Park, Md., and Northwestern University, Evanston, Ill., have such a course. It may be possible that the University of Pennsylvania has such a course. Suggest that you write one of these schools.

Q. Will a soldier who has been in service for two years and 11 months in the States and 13 months overseas receive mustering-out pay if he is given a dependency discharge?—Wife, Treloar, Mo.

A. The War Department says that if his dependency discharge is honorable he is entitled to mustering-out pay.

Q. Please advise if an ex-serviceman can obtain a loan to join up in an open shop in one or more unions?—J. C., Coffeyville, Miss.

A. Can find no regulation which prohibits for a loan to join a union.

It Pleases Us
To Please You

We look upon a Drug Store as a Service Institution and endeavor to conduct our business with that idea in mind.

It pleases us to know that many of our customers rely upon our recommendations for drug items and upon us for every service a modern up-to-date drug store should render.

Sophs Have Penny Pitching

All of the Sophs can relax now after those dreaded exams. We are expecting a large crowd at the father and son banquet. The Home Ec. girls are going to serve.

The contest for Hallowe'en king and queen ended. Our candidates are her majesty Martha Herm and his royal highness Bobby Johnson. Our attraction will be penny pitching and a wishing well.

Some sophs better start working on algebra. Those exam grades were awful.

Seems as though everyone in the pep squad had a good time at the game Friday night.

We wish everyone luck when they get their report cards.

Junior Newsflashes

It's that time of the year again you know "vote for so and so." This time the Juniors are asking you to vote for Jackie Walker and Marie (Doodle) Preston. So if you haven't been robbed as yet, just be patient, your time is coming.

We're still waiting for the outcome of our six-weeks exams. From all accounts the American History papers were the best yet.

For our concession at the Hallowe'en Carnival, we are going to have a Bowling Alley, so all you people want to work especially hard these next few days, so you'll have a little extra cash.

If you see any members of the pep squad going around with a gleam in their eye, then here's the reason: When they stopped in Sweetwater on the way back from Rotan, they entered a boy's town, or so it seemed. And to them, that isn't anything to hoot at—Howls are better, and they must have worked, from all accounts!

Eighth Grade News

It seems that carnival time has rolled around again. The eighth grade is going to have the cat-rack for our attraction, and we hope that our candidates, Margetta Pettit and Dale Baird have a big part in the coronation. So if anybody wants to have some fun, just visit our cat-rack, next Saturday night.

Rotan Friday night.

The Rotan boys had a very tough team, and although the Bulldogs were defeated, they put up a very good fight.

A number of the pep squad girls made the trip to Rotan. They were almost yelled out by the time they got there but summoned the strength to yell some more at the game.

After much persuasion "Prof", stopped at Sweetwater on the way back where practically everyone had a very good time. Loraine has an open date this week. The following week they play our deadliest rival, the Colorado City Wolves.

Seniors To Help In Carnival

Last week all classes ran for candidate to determine which boy or girl from each class runs in the final races this week for the Hallowe'en King and Queen, which end Saturday night at the Carnival. Vote for Don Narrell and Jo Welch. Also patronize the Senior Bingo stand.

The Seniors are very proud of their places in the FFA Sweetheart run-off as they got second place. Know who our candidate was: Dorothy Jean Hallmark.

Did everyone hear, Margaret Nell had her seventeenth birthday? I bet she feels grown. All kidding aside, it was a nice birthday party. Shorty, what do you mean?

Freshman Boast FFA Queen

Well, the six weeks exams are over. Everybody was pleased about his grades. There were a few low grades though.

Everybody is excited about the Hallowe'en King and Queen contest. Some of the kids got up a campaign Saturday night. It seems they had a lot of luck. Our candidates are Reagan Martin and Lora Nell Jean. Our booth will contain a cake walk.

We are proud of our FFA chapter sweetheart, Patricia Martin.

A number of the Freshman girls are going to serve at the FFA banquet.

FFA News

The FFA contest is over. The Juniors thought it was in the bag but a last moment slipup sat the freshmen on top. The Seniors came second, the Juniors third, and the Sophomores fourth. Patricia Martin is our 1945-46 F. F. A. Sweetheart. Those who will attend the banquet are Dorothy Hallmark, Janell Henderson, Jeannine Martin and Patricia Martin.

Mr. and Mrs. Dewey Compton had a telephone call from Gerald S2/c Wednesday saying he had arrived in San Francisco on Saturday.

If your car needs Greasing
Sinclair will do it.

W. A. Miles passed the Navy
examination at Abilene on Wednesday and left today for Dallas for his final examination.

GOOD NEWS! To All Who Need a Laxative Now-and-Then

When you feel sluggish, stomach upset, low in spirits and somewhat "no account"—because you need a good cleaning out, what you then should try is Kruschen—speedy saline laxative—which the knowing Public the world over has bought to the tune of over 245 MILLION bottles to date.

When you want relief you want it PRONTO—you don't want to wait for hours (Kruschen acts usually within an hour)—and with Kruschen there's a minimum of sudden inconvenient demands and recurrences.

So whenever you feel the need of a laxative, just LET YOURSELF IN FOR THE QUICK RELIEF THAT KRUSCHEN SALTS CAN BRING YOU. Notice how much more alert—more active you feel after your first experience with Kruschen Salts. There are a lot of surprising things we could tell you about Kruschen Salts but we will let you find them out for yourself.

You can obtain KRUSCHEN SALTS from any drug store on the maker's assurance of double your money back if not actually overjoyed with the pleasing results. Caution—use only as directed. Regulate the dose to suit your own requirements. Get KRUSCHEN SALTS today

Melton York and Homer Lucas have arrived in Brooklyn, New York, where they are in training for the Merchant Marine.

Mr. and Mrs. A. G. Furlow Jr. and Mrs. Russell Cope spent the week end with Mrs. Cope's sister and family in Dallas. They returned by way of Grapevine and visited Dr. and Mrs. June Yates and son Richard. Richard came home with them and is spending this week with his grandparents, Mr. and Mrs. A. G. Furlow.

Mr. and Mrs. O. C. Lucas went to Odessa Sunday to see their son, John Lucas, who is in an Odessa hospital suffering serious injuries sustained at an oil field where he was working Saturday night.

The G. A.'s met at the Baptist basement Wednesday evening with Willie Mae Rankin acting as hostess. The title of the program was "Tomorrow". Willie Mae brought the devotional. The title topics were I-Information and E-Education.

The hostess served grape juice and cookies to several members and one visitor.

All intermediate girls are urged to be present every Wednesday evening at 6:30 at the basement.

To All Who Suffer Gas Pains-Distress After A Good Meal

Try Hot Water and A
Little Neutradid

If you or any relative or friend suffer the symptoms of acid indigestion, gastritis, heartburn, sourness, gas or other stomach distress due to gastric hyperacidity, then by all means get a box of Neutradid—put a teaspoonful in half a glass of hot water and drink slowly after meals.

Neutradid is new—made especially for the symptomatic relief of gastric hyperacidity so often the cause of stomach distress, acid indigestion, gas pains, heartburn, burning sensation, and other upset conditions.

Never have you had more blessed relief. Get a box today—ask for N-E-U-T-R-A-C-I-D at Hutchins and Hall and all good druggists. (adv)

Yes Mam! GOIN' TEXAS AND PACIFIC

"Now that the war is over, people are ready to travel—and they are going Texas and Pacific.

"It's great to be able to step aboard a Texas and Pacific train and relax in comfort or walk around and leisurely visit with friends. Today, you may find that some of our trains are crowded, as many of your traveling companions are returning veterans on their way home. It is our privilege to see that they have the best.

"We promise you that in the postwar future the new Texas and Pacific lightweight passenger trains will provide the finest in rail transportation.

"Your constructive criticisms and suggestions are earnestly solicited."

FRANK JENSEN, Passenger Traffic Manager.
DALLAS 2, TEXAS

THE TEXAS AND PACIFIC RY.

Most Thrilling Exploit of War Wins High Honor

Lone Yank Officer Repulses Tank Attack Led by 250 Germans.

WASHINGTON.—A young officer who manned a machine gun atop a blazing abandoned tank destroyer and beat back a tank led assault by 250 Germans has been awarded the nation's top decoration.

He is First Lt. Audie L. Murphy, 21, of Farmersville, Texas, who won the Congressional Medal of Honor near Holtzwihr, France, last January 26. He was still a second lieutenant and new to the command of his company in the third infantry division, says the Chicago Tribune.

The citation accompanying the medal, which was to be given to Murphy in Europe, credited him with killing or wounding 50 of the Germans with machine gun fire and with directing artillery fire earlier in the fighting which killed "many" more. Some of Murphy's buddies estimated that he accounted for 100 Nazis in the hour-long battle.

Swept From Woods.—Murphy was in front of his company when the two German infantry companies, paced by six heavy tanks, swept from a woods. He ordered his men to fall back to prepared positions while he stayed at his advance post to call for artillery fire to smash the Germans in the open. He was alone except for a tree and the tank destroyer about 10 yards to his right.

First Lt. Walter W. Weisfennig, an artillery officer of Fredonia, N. D., who witnessed the action, said later the artillery fire that Murphy directed "had a deadly effect."

"I saw German disappearing in clouds of dirt and snow," he related. Then a German 88 mm. shell crashed into the tank destroyer and its crew bailed out, falling back to join the remainder of the company. Smoke and flames spurted from the destroyer. The German tank crews swung wide around it, fearing that its gasoline and ammunition would blow up.

With the German infantry only 100 yards away, Murphy dashed over to the destroyer, climbed into the turret, and began blasting the Nazis with his 50 caliber machine gun. Weisfennig called it the "bravest thing I've ever seen a man do in combat," adding:

Exposed to Fire.—"He was completely exposed to the enemy fire and there was a blaze under him that threatened to blow the destroyer to bits. Machine gun, machine pistol, and 88 shellfire was all around him.

"Twice the tank destroyer was hit by direct shellfire and Lieutenant Murphy was engulfed in smoke and flame. His clothing was riddled by flying fragments of shells and bits of rocks. I saw that his trouser leg was soaked with blood."

Twelve Germans tried to sneak up along a ditch and flank him but he swung the machine gun and killed all of them at a 50-yard range. The Nazi infantry was stalled. Without the infantry, the enemy tanks couldn't advance and the whole attack collapsed.

Murphy dropped wearily off the destroyer, his ammunition gone, and crawled back to his company. Refusing treatment, he reorganized his company and led it in an attack that routed the Germans.

Murphy, a native of Farmersville, joined the army on his 18th birthday and fought throughout the African, Sicilian, Italian and French campaigns. He has been wounded three times and wears the Purple Heart with two clusters.

United States U-Boats Sank 1,256 Jap Ships

WASHINGTON.—U. S. submarines operating in far Eastern waters in the last three months of the war sank 69 enemy vessels, the navy announced recently, bringing to 1,256 the number of Japanese ships sunk by American undersea craft in the war.

None of the sinkings in the last three months had been announced previously. The figures were compiled from reports of submarines after their return from Pacific action.

The latest bag included 20 Japanese warships and 49 noncombatant ships. The warships sunk were two Japanese submarines, one mine-layer, two minesweepers, two large submarines, eight special sub-chasers, four coastal defense frigates, and one torpedo boat.

'Jobs for All' Goal Seen In 150 Billion Income

WASHINGTON.—Treasury Secretary Vinson told congress that a national income of 150 billion dollars will be needed to provide jobs for all who are willing and able to work. To assure employment for 60 million people, purchasing power must be increased enough to boost consumption 50 per cent and to expand construction and investment by 100 per cent over prewar levels, Vinson said in a statement for the senate banking committee.

Vinson endorsed the so-called "full employment" bill, which the committee is considering, but cautioned that "ultimate reliance for jobs must come from an expansion of private consumption and investments."

Gets Sweet Revenge; Bass Hooks Angler

SPOKANE, WASH.—County Assessor Don H. Thompson was hooked by a fish.

Thompson related that he hooked a two-pound bass, and suddenly he found the situation reversed and the bass had him hooked. The fish bit his thumb, sinking the hook in so deeply that a doctor had to remove it.

Will Be Rewarded For Her Kindness

To Get Estate of Soldier She Befriended.

TUCSON, ARIZ.—A query from a Wisconsin newspaper brought to Mrs. Scott Marie Dyer the first word that a veteran of World War I she befriended 22 years ago at Chicago intended to remember her in his will.

Word was brought to Mrs. Dyer by reporters as she sat outside her small home about eight miles from Tucson. The soldier, Capt. Victor S. Byrne, started the search by a message to the Wisconsin police asking assistance in locating the Dyer family.

Chief of Police Harry Mueller of Fort Atkinson, Wis., said he had received a telegram from Captain Byrne of Los Angeles asking the whereabouts of Mrs. Dyer, a former resident of Fort Atkinson. The telegram said:

"I am very ill and may not live many months. I wish to leave Marie Dyer an entire estate for her kindness toward me when I was a poor discharged soldier in Chicago. Now, I am a very wealthy man."

Mueller said that he had wired the information to Byrne and had received a reply thanking him and saying that the sender of the message planned to communicate with Mrs. Dyer soon.

Mrs. Dyer, wife of an electrician, filled in those details. The friendship started in Chicago in 1923 when Captain Byrne, unemployed, met Mrs. Dyer and lived with the family "quite a while."

"He always acted like one of us," she said. "For several months after he left, he kept in touch with the family by mail, but when he moved to his present residence in California, the contact was broken."

"This is the first news we have had of him since that time." The Dyers moved to Arizona in 1941.

Baby's Face of Future Is Fixed at Four Days

CHICAGO.—The facial outlines that a four-day-old baby will have when he grows up can be predicted, through X-ray studies of head growth at the University of Illinois college of dentistry.

The X-rays have shown that the main proportions of the skeletal framework of the human head and face present at birth remain virtually unchanged throughout life.

In fact, if growth rates could be predicted, it is possible that after an examination of such X-rays an artist could draw a fairly reliable sketch of the face of the future citizen at the age of 21.

These studies of the head bones are made under the direction of Dr. Allan Brodie, dean of the college of dentistry and professor of orthodontia.

If the length of a four-day-old baby's nose is 43 per cent of the distance from bridge of nose to tip of chin, that nose length will still be 43 per cent at age 65 or at any other time.

The size of bumps on a head at birth remain in the same proportion throughout the life, as do the many contours and positions of all of the features that are fixed by bones.

Martin Designs Plane To Lower Airline Fares

BALTIMORE, MD.—The Glenn L. Martin Aircraft company, for years almost exclusively a producer of larger type war planes, announced plans for mass production of a 30-passenger, twin-engine commercial ship which "promises passenger fares lower than first class rail rates."

A full scale "mock-up" of the plane was inspected by newsmen, who were told the mass production would begin immediately after the initial demonstration flight of the first completed plane, required by the civil aeronautics administration.

The plane, designed for operations on main domestic trunk lines, is a low wing monoplane with a cruising speed of nearly 300 miles an hour. It is expected to be especially good for ranges of 250 to 700 miles, where larger four-engine transports cannot be operated economically.

March of Dimes Polio Funds Up to \$16,589,874

NEW YORK.—Contributions to the 1945 March of Dimes of the National Foundation for Infantile Paralysis totaled \$16,589,874, or more than 50 per cent above the 1944 total of \$10,973,491, Basil O'Connor, president of the foundation, has announced.

O'Connor said that as of August 11, there were 3,558 cases of poliomyelitis throughout the country compared with 5,008 for a like period last year.

Women Baseball Fans Go All Out With Cheers and Boos

Ladies' Day Brings Out Enthusiastic Crowd Who Know Fine Points of Game

Because it isn't in the nature of a woman to resist a bargain, Ladies' Day in the nation's ball parks is an event that rivals the World Series in attendance. We can imagine the deep sighs heaved by diamond impresarios who survey the packed stands and bleachers and murmur, "If only they were paying." For the clubs do not profit from Ladies' Day. When the distaff side comes out to honor the national pastime with its patronage, the ladies pay only the entertainment tax demanded on such occasions by Uncle Sam and the state, plus a small service charge.

As the grand march starts to parade through the turnstiles on Ladies' Day, toddlers of pre-school age mingle with the bobby socks generation and their grandmothers. There used to be a time when few of the patronesses on this occasion knew much about what was happening on the diamond. But nowadays, they are experts, and as unrestrained in voicing their opinions of the playing and players as the male fans. There are no more Mesdames DeFarge who calmly count their knits and purrs while the diamond goes mad with frenzy and tension. They are as vociferous in urging a violent demise for the umpire as in exhorting the runner to make home plate—if he is running for their favorite team. And the "razzberries" are equally heartfelt and ringing.

The accompanying candid photographs reveal the depths to which the national sport has embedded itself in the hearts of the fair fans at a recent game on Ladies' Day at Yankee stadium.

Area in Danger of Drouth Can Be Forewarned by New Forecasting Method

Farmers may look forward to keeping "one jump" ahead of the weather, if U. S. department of agriculture studies can be given practical application. Knowing when drouth would come to a specified area, as well as other weather hazards, could have an important influence on U. S. farm production. It is pointed out, since the possibility of annual crop loss would be greatly lessened.

A Complex Method.

Government researchers have developed a statistical method of gauging the probable occurrence of drouth in any locality in the United States at any time of the year. Too complex for use except by scientists, the method produces information that may be used by agronomists and others for the farmer's benefit. In adopting soil and water conservation work, as well as other farm activities, to weather conditions. Charts might even be prepared for individual farmers to show the probability of weather hazards in their localities for virtually every day of the year.

Because the information obtained shows when sequences of dry or rainy days are most likely to occur, it can be valuable in checking day to day weather forecasts and in long range planning as well. It is pointed out. The knowledge can be used, for instance, in planning terrace construction programs for periods when rain is least likely to cause erosion of unfinished embankments; or in extensive seedings of grass, for selecting a planting time when a killing drouth is least apt to occur during the period needed for germination of the seed. Agricultural workers probably will evolve many other practical uses for the material provided by the study.

Probable Table Used.—Applying to drouth the theory of probability used by insurance authorities in deriving life expectancy

"Come on-o-on!" Nothing phlegmatic about these young fans. A possible home run pulls them out of their seats, and a successful slide to home plate practically starts a jive session right in the bleachers.

On Ladies' Day you'll find every generation represented, and the mothers are as enthusiastic as their daughters. They are also equally unrestrained in exercising the spectators' privilege of making their voices heard across Yankee stadium. Trying to, anyway.

tables, climatologists and other scientists now have a technique that also can be employed to discover probable occurrences of other climatic hazards such as intensities of rainfall and extremes of temperature. Drouth was selected for trying out this method because drouth data already has been compiled and tabulated from weather bureau records of 1899 to 1937, for stations representing every climatic area of the continental United States.

N. Africa Offers Chance for Development of Brisk Trade to U. S. Commercial Interests

Morocco, Algeria and Tunisia, where American G.I.s began their Victory march in 1942-43, are expected for several reasons to become larger in American post-war foreign trade.

Before the present war French North Africa trade was part and parcel of French economy, and the mother country cornered the lion's share, says the National Geographic society. Recent studies of French industrial production in the light of war damage, however, indicate that the bulk of North African needs for the remainder of 1945, 1946 and probably 1947 will have to come from the United States.

In the next six months, North Africa, bled by two years of Axis exploitation, will require imports, exclusive of wheat shipments, estimated at more than \$100,000,000. The "Maghreb," as the Arabs call French North Africa, normally enjoys a substantial wheat surplus, but drouth has produced four successive crop failures. Arrangements are in progress whereby the U. S. farmer will provide North Africa with 2,500,000 tons of wheat during the next 12 months. The French plan to pay cash for the wheat out of their limited foreign exchange reserves, a sacrifice which emphasizes the importance they attach to keeping these restive lands well fed.

French North Africa has been called "a museum of minerals," a

"GAY GADGETS"

By NANCY PEPPER
FUNNY BUSINESS

Do you know how many of our own tricks for teens are actually converted into big business? Too bad you can't claim royalties on them. Every time you introduce a new fad there's a smart manufacturer waiting to turn it into a fashion. Stand up and take a bow for these brain storms that were whacky enough to be put to work.

Jabberwocky Fashions—You've been writing Jabberwocky and autographs all over your station wagon coats for years now, haven't you? Well you inspired the very successful "Alive with Jive" coat with a lining printed in a design of Jabberwocky and names. Then, you've been embroidering Jabberwocky across your velvet headbands, haven't you? Along comes the Jabberwocky Bandleader—a hair band with assorted slangue embroidered across the top. Aren't they the copy cats?

S.W.A.K.—You teen-agers started the fad for imprinting lipstick lipographs on your envelope flaps. Now you can buy boxes of ip-shaped, red paper stickers with gummed backs, all ready to stick on the back of your important letters.

Stop and Go—We reported that you were fastening bicycle reflectors to the backs of your belts and, before you could say "Tom Drake," there was a ready-made leather belt with red and green reflectors across the back. You'll find it at your favorite Gadgeteria.

DAFFYNITIONS
Palate Plush—A super-goody concoction at the Soda Fountain.
Dope Fiend—A guy who hangs around the Marble Slab.
Hi, Ping—How's Pong?—That's how you greet a half of any "steady" team.
Hi, Candle, Who Else You Out?—A new way of saying "Hello."
Don't Be Hasty, Pudding—Don't get angry.

PARTY PATTEN
Here are some teen tricks to make your next get-together a heat and reel meet.

Mother-and-Daughter Teas—It's a new fad throughout the country. One girl invites her best friends AND their mothers to an afternoon tea. If you're serving Iced Tea, be sure to read the easy-to-follow instructions in the cook book.

Clang, Clang, Clang—We can't guarantee that you'll meet Tom Drake on the way, but Trolley parties are going full speed these summery days. At the End of the Line, there's a picnic.

Fire Alarm—A Fire party is Hot Stuff. You send out your invitations on brown paper with burned edges, telling guests to come to the party exactly as they were dressed when they received the invitation. Anything can happen from Pajamas to bath towels. All the guests are instructed to bring their most precious possessions, which are auctioned off for war stamps later in the evening. You get some Prize Packages with this gag.

abundance. Behind the Tell, ranges of the Atlas mountains, reaching 14,000 feet in some places, roughly parallel the Mediterranean coast. In the southern reaches of the mountains is a high and somewhat arid tableland, where nomad natives tend large flocks of sheep and goats. Farther south are limitless stretches of desert and wasteland with isolated oases, where dates are the principal product.

Dry in Summer.—The climate of the northernmost belt is not unlike that of southern California. There is fairly abundant rainfall along the coast and on the seaward slopes of the mountains, but little rain in the summer. No rivers of economic importance flow through French North Africa.

Normally, prewar trade between France's North African lands and the United States was comparatively small. From 1937 to 1939 exports to the Maghreb averaged under \$8,000,000 a year, while imports averaged under \$5,000,000. American exporters sent chiefly tobacco and cigarettes, lubricating oil and grease, refrigerators and parts, and farm machinery. Americans bought in exchange sausage casings, skins and furs, leather goods from Morocco, olive oil (both edible and for soap), gums and aromatic oils and cork. Manganese imports from North Africa began shortly after the historic Anglo-American invasion of the region toward the end of 1942.

Geography has marked North Africa into three east-west zones. Along the coast, where American marines fought the Barbary pirates 140 years ago, stretches the Tell, a belt of fertile slopes, and occasional alluvial plains, where citrus fruit, grapes, olives and cereals grow in

One Way to Exit With Uncle Sam Is Devised

SEDALIA, MO.—An exhibitor at the state fair here has been operating on a sort of "pay as you exit" plan . . . and he says it pays him, too. Patrons are asked to leave a "silver donation." Which prompted a customer to opine that it seemed like good psychology.

"Psychology nuts!" replied the showman. "This way I don't have to pay any federal amusement tax."

Unconscious, Pecked to Death by Unfed Chicks

PUEBLO, COLO.—A flock of unfed chickens that attacked the unconscious body of their owner were blamed recently for a woman's death. Deputy Coroner H. Elwyn Davis said Mrs. Elizabeth Marie Cravens, 63, was found lying unconscious on her kitchen floor with swarms of chickens pecking at her face and eyes. She died two hours after she was admitted to St. Mary's hospital.

Texas Law Halts Touring Sailors in Texan's Car

CORPUS CHRISTI, TEXAS.—Texas law fenced in two Swedish sailors with a yen to see Texas—in a Texan's car.

The sailors admitted stealing two automobiles between Sinton and Beeville. After the first car ran out of gas, they stole a second one. It was left in Beeville, and the Swedish adventurers were found while attempting to see more of Texas via thumb.

AMERICAN HEROES

by WOODY COWAN

SEEING his two squads of infantry pinned down by enemy machine-
gun fire, Lt. Beryl R. Newman, Fargo, N. D., boldly advanced,
wounding two with his Tommy gun and chasing two others into a
house. When the latter two attempted to retake a gun, he killed
them. Then he kicked in the door of the house and forced eleven
armed enemy gunners to surrender. He was awarded the Medal of
Honor. Victory Bond investments can support men in all services
who made this drive for final victory.

LOW GRADE ORE HELPS

Recent advances in mining and
metallurgy added hundreds of thou-
sands of tons of low grade ore to
Idaho's mineral wealth. More than
50,000 persons earn a livelihood
taking the ore from the mountains,
and the operations will increase in
postwar years. A business that in-
volves the outlay of over \$25,000,000
annually will enhance the Nation's
wealth behind your Bonds.
