Proclamation

National Fire Prevention Week is again at hand. The object of the occasion is to remind the public of the seriousness of the large fire loss of this country, both as to life and property, and bring to the attention of everyone the fact that nearly all of this destruction could be avoided if greater care were taken in the construction of buildings, if litter and rubbish were removed from homes and places of business, if children and grown people were thoroughly educated in the handling of fire and taught the importance of extreme carefulness.

NOW, THEREFORE, I, W. C. Bryan, Mayor of Perryton, in cooperation with the nationwide movement for the elimination of preventable fires, do hereby designate October 6 to 12, 1935, as Fire Prevention Week in this city.

On those days I ask our civic and commercial organizations, our school officials and teachers, and our citizenship as a whole, to join with the chief of our fire department and our city fire marshal in helping prevent fires, as well as to impress the seriousness of the wastage that it causes and the need for utmost care for the protection of life and property.

During Fire Prevention Week I urge that a thorough inspection of the entire city be conducted for the purpose of locating and removing fire hazards, and that the work thus inaugurated be hereafter expanded into a Fire Prevention Year.

IN TESTIMONY WHEREOF, I hereunto sign my name and affix my seal of office on this, the 2nd day of October 1935. A. D.

W. C. BRYAN, Mayor.

URGE STUDY TO PREVENT FIRES

MAYOR W. C. BRYAN PROCLAIMS OCTOBER 6 TO 12 AS FIRE PREVENTION WEEK HERE

The week of October 6 to 12 will be observed as fire prevention week in Perryton according to Mayor W. C. Bryan who has issued a proclamation to this effect, in keeping with the national observance of the occasion.

Every citizen of the city should take every step possible in preventing fires which are usually common at this particular season of the year. Gas connections should be checked to make sure that they are free of leaks, chimneys and flues examined to see that they are in perfect condition before fires are started.

R. H. Gamel, fire marshal for the city, cautions that all property owners should clean up around their premises, removing all dead weeds and rubbish from the yards and going through the house to make sure that no old accumulations of papers and clothing in cellars, attics and closets offer a menace to the property in the way of fire hazards.

It would also be a good idea, Mr. Gamel states, to check all electrical connections and wiring to see that it is in good order, especially examining fuses to see that they have not been plugged in the past and forgotten. A large percentage of fires are caused from faulty wiring, the fire starting from shorts where insulation has been rubbed bare.

Perryton has always enjoyed an excellent fire record which is an achievement to be proud of and one that saves insurance policy holders hundreds of dollars annual. It is because of the great care exercised by Fire Marshal Gamel and the members of the city volunteer fire department and other officials that this has been maintained. Fire prevention is observed here every week in the year but the week of October 6 to 12 is set aside as a period of inspection and cleaning up for the winter season.

Rogers Film Coming

Romantic Film Of Mississippi Stars Will Rogers In Thrill-Packed Comedy

Laughter and tears, comedy and near-tragedy follow each other in quick succession and bring drama and suspense to Will Rogers' rousing picture of Mississippi steamboat life, "Steamboat Round the Bend," which comes to the Ellis Theatre this week.

The first showing will be at a special prevue starting at 1:30 o'clock Saturday night. Two matinees will be presented Sunday, starting at 2:00 and 4:00 o'clock with regular showing Sunday and Monday nights.

Two unusual entertainment elements combine to make the great and moving story of "Steamboat Round the Bend." One of the laugh-filled rivalry of Will Rogers and Irvin S. Cobb, America's two greatest humorists, as the crusty captains of competing boats; the other is the wistful and tender romance of Anne Shirley and John McGuire.

McGuire is a river pilot, nephew of Rogers who owns the "Claremore Queen". In a quarrel over Anne Shirley he kills another man in self-defense.

Rogers is hostile to the girl because of the trouble she has brought to McGuire. But, when the boy is condemned to hang, their love for him draws them together in the fight to save him.

They join in the struggle to get money for the boy's appeal and to find a missing witness who can save him. Their adventures with a wax museum are among the high points of the picture's comedy, their narrow escapes from antagonistic river folk among its thrills.

But the great thrill is saved for the last, when Rogers' boat is involved in the great race down to New Orleans as he is hurrying to save his nephew. How Rogers manages to beat pompous old Cobb and his "Pride of Paducah", and at the same time save the boy, is revealed in a surprise-filled climax.

In the suporting cast are Stepin Fetchit, Eugene Pallette and Berton Churchill, assisting Rogers in comedy characterizations.

RANGER FIELD GRID SCHEDULE OPENS FRIDAY

New District Setup Puts Canadian In This Section Of New District 2

Will Be Formidable Rival

Canadian Has One Conference Victory To Credit With Defeat Of Follett

A formidable band of Canadian Wildcats will be losed on Ranger Field Friday afternoon at 3:30 o'clock to meet the local gridsters in the first home game and the first conference game of the 1935 season.

Having tasted defeat at the hands of Borger and in turn trounced an inexperienced Dumas eleven, the Burkmen are going to have to look to their laurels if they succeed in subduing the invaders to keep their conference record clean. The Canadian squad has always been the underdogs in meetings between the two school but their record this season would indicate that they have reached a turning point.

By defeating Follett last Friday evening on the newly lighted Canadian field by a 19 to 13 score, the Wildcats offer a threat that cannot be taken lightly. Earlier in the season they won from Wellington by a 27 to 6 score and lost to the all-powerful McLean squad by a 32 to 0 count.

Formerly, meetings between Canadian and Perryton were non-coference affairs but this has been changed, due to a new setup. Perryton, Spearman, Follett and Canadian will play for the championship of Section 1 of District 2 this year. The winner will play the champions of Section 2 composed of Panhandle, Groom, Phillips, White Deer and Claude.

The Rangers have been undergoing intensive workouts this week in an effort to smooth out the rough spots that have been apparent in the two previous games. Having found their scoring stride last week in the Dumas game, it is hoped that they will be able to deliver against Canadian although they are certain to meet stiffer resistance.

To show their support of the Ranger football team, Perryton merchants and business men have purchased a page of the Herald this week to assist in advertising the first home game of the season. With it goes the hope of a successful season for the local squad.

J. A. Pearson Dead

Prominent Legion Official Was Former Resident of Ochiltree and Glazier

Pampa, Texas, September 30—The world war claimed another victim this morning when J. A. Pearson, 58, died at his home in Lincoln, Ark. Gas, one of the inhuman instruments of the recent war, was the cause back of the sudden death of the former Pampa man.

The Pearsons moved to Pampa in 1920 and made Pampa their home until last year, when they moved to Boerne, near San Antonio. A few months ago they moved to Lincoln, Ark., to make their home. Mr. Pearson had just returned from the national convention of the American Legion when he was stricken.

Mr. Pearson enlisted in the motor transport section of the First division in 1917. He served 18 months in France, returning to America in 1919, a sergeant. He immediately became active in veterans organizations. He was chief de gare or commander of the Pampa post and was later elevated to that post in the state organization.

His ability to lead men and his level headed administration received the attention of the national organization, and he rose to the office of Sous Chemin de Fer or vice-president of the national body. At the time of his death, he had held the post of grand historian of the National Forty and Eight.

Surviving Mr. Pearson are his wife and two daughters, Mrs. M. M. Mitchell, Indianapolis, Ind., and Winnie Pearson, Lincoln, and three sons Jimmie Pearson, Pampa, and Willie and Dan Pearson, at home. —Pampa News.

Funeral services were conducted Wednesday afternoon at both Lincoln and Fayettesville, Arkansas, burial being in the national cemetery at the latter place. "Pete" Pearson was well known to many people who lived at Ochiltree and Glazier. For many years he operated a motor stage running between Ochiltree an Glazier.

"Pete" Pearson was a close friend of the Herald editor and only last Wednesday evening, it was our pleasure to have a long visit at the national Legion convention in St. Louis with this grand old veteran who has passed on to his final home above where there are no wars and conflicts.

Debral Johnson left Sunday for Van Buren, Ark., to get Mrs. Johnson and son, who have been with her parents for several weeks. They will return Friday.

Mr. and Mrs. C. E. Whippo left Wednesday morning on a business trip to Dallas.

CAMP TO WORK BEAVER COUNTY

AUTHORIZATION RECEIVED TO PERMIT CCC CAMP TO WORK IN OKLAHOMA

According to David E. Autrey, superintendent of the soil conservation service in Perryton, authority has been received to permit the local CCC camp to extend services into Beaver county, Okla., within the twenty-five mile radius of the camp.

This will mean that residents living not more than twenty-five miles from Perryton can avail themselves of the soil conservation program being offered through the CCC camp. The preliminary program of getting Oklahomans to sign up for this service will start at once, Mr. Autrey advises.

The camp has already started work west of Perryton, removing cactus at the L. R. Conner, Herman Hargrove and Ben Peckenpaugh places and working Thursday on Mrs. Theresa Wright's place, east of here. Literally thousands of cetipedes have been uncovered while the boys have been grubbing out the cactus.

Send Christmas Bags

Prepared By Volunteer Service Of Local Red Cross Chapter For Soldiers

Mrs. Harriet Thornton, chairman of the volunteer service department of the local Red Cross chapter, reports that six Christmas bags have been prepared and sent to San Francisco this week to be distributed to invalid soldiers in government hospitals during the Christmas season.

Each bag contains at least ten gifts that could be used by the veterans receiving them. The bags are given to those who have no close relatives or friends to remember them.

This is only one of the services that the local Red Cross chapter performs. Earlier in the year fifteen bedside bags were prepared under the direction of Mrs. Thornton for use in hospitals.

Rev. and Mrs. W. B. Vaughn, Mr. and Mrs. W. E. McMillen and Mr. and Mrs. Clyde Pinson, Canadian, were Sunday dinner guests with Mr. and Mrs. Obe Glasgow and Horace.

Mr. and Mrs. R. B. Yoakley and E. M. Moore were in Fort Worth over the week-end. Mr. Moore was called to the bedside of his father, who was improved when they left. Mr. Yoakley visited with his mother, Mrs. J. R. Yoakley.

WHEAT CHECKS PAYMENT PART OF 1935 HERE

Acceptance Received For Nearly Three Hundred Thousand Dollar Payment

Checks For $137,613.20

Many 1934 Contracts Returned Where Wheat Land Was Over-Seeded

Wheat allotment checks totaling $137,613.20 are being distributed this week to Ochiltree county farmers, received Tuesday as a partial payment of the $275,600.00 due on 1934-35 contracts.

The checks received are all on 1935 contracts, none of the 1934 checks being received although acceptance totaling $298,808.49 were received last week-end. Checks for the balance of $161,195.29 are expected by the local allotment board daily.

A large number of 1934 compliances have been returned to the allotment office, in cases where the contracts were violated by overseeding of wheat land. These are cases where more than ninety per cent of the land was seeded, not leaving out the full ten per cent required in the contract. Just what disposition can be made is not known but will be taken up by the allotment board immediately.

In view of this condition, board officials caution farmers to hold strictly to their new contracts and not overseed their land. Only five per cent reduction in acreage is required this year but it must be maintained to the letter of the contract, and if more than ninety--five percent of the wheat acreage is planted it will be considered a violation of the contract.

In addition to the wheat payment received this week, corn-hog contracts signers have received a total of $4,665.00 for the first half payment. This figure accounts for all but $80.00 of the total amount due at this time.

International Sunday School Lesson

By A. C. Williams Minister Perryton Church of Christ.

GOD'S BEST PROMISE

Lesson 1—Oct. 6, 1935

Verses for memory work: Isa. 53: 5; 1 Jno. 4:10; Matt. 1:21.

Lesson Text: Isa. 53:1-12.

I. A Great Question (Isa. 53:1)

This "gospel prophet" lived some 700 years before Christ. Corrupt Jeroboam II was upon the throne of Northern Israel which crashed upon the rocks about 721 B. C., being captured by Shalmanezer III of Assyria and utterly swallowed up by that kingdom. In Judah Isaiah paralleled the reigns of Uzziah, Jotham, Ahaz and Hezekiah. The first two kings of this span were like Jeroboam II of Israel, and we are not surprised at the outward show and inward corruption of the times. It seemed that no one was willing to listen to the warnings or hopes of the prophet.

"To whom hath the arm of the Lord been revealed"? cries Isaiah. Eyes had been closed and hearts hardened through sin. Even the promise of the Redeemer did not arouse much interest. Heaven's messenger cries out in desperation. It would seem that men of those were little interested in things divine. No one is so blind as those who refuse to see. No ears so deaf as those who refuse to hear. But the words of Isaiah will ring down the centuries. And though they are not heard in his own land and time, thousands would later be lifted from the swoon of despair and pillow their aching hearts upon those rich and refreshing prophecies of Him who was to become the Savior of the world. The saving arm of God would, in time, be completely revealed. Men from all quarters of the globe would gladly rest upon it for salvation.

II. A Tender Plant, Despised And Bruised (2-6)

Great things have humble beginnings. A few rills start toward the sea, gaining width and depth until they have become a mighty stream. A few Pilgrim families found a colony that grows into a nation. Even Jesus' career upon the earth must begin as a tender plant. Born of the humble Mary, cradled in a manger, and reared in obscure Nazareth, Jesus was to become King of Kings. It seemed impossible for the Jews in Christ's day to conceive of any good thing coming out of Nazareth. How strange to see a Root growing in such an unexpected place. But we see that plant after being bruised and crushed by the hand it came to bless, waxing strong and spreading out its branches in healing over the wounds of the world.

What a picture this bruised Plant presents! Despised and rejected of men, Jesus was spurned by those he came to save. He was crucified by an ungrateful people who knew not what they did.

The innocent suffered for the guilty. It was not for any wrongs done by Jesus that He must die. But the blows laid upon his shoulders and the stripes of His lacerated back were for our peace. He must be slain if the world would be redeemed, for "without sheding of blood is no remission". (Heb. 9:22).

This wonderful prophecy was the text used by Philip to the Ethiopian as they rode along one day in a chariot (Acts 10:35). We learn from it that to "preach Jesus" we must preach his person, life, death, resurrection, commands and promises. It is worthy of note that the Ethiopian was baptized upon a simple confession of faith in Christ when he and the preacher reached "a certain water". At the completion of the baptism, the candidate went on his way rejoicing in the new found faith and obedience to his Lord.

III. A Straying Flock (56-6)

The Jews were sheep of Jehovah. But how they had strayed. How far from the Shepherd's voice had they gone. Idolatry had become the religion of many of them. God's prophets had warned them days without numbers. All day long God had stretched forth his hands unto a disobedient and and gainsaying people. It remained for the Savior himself to come to earth and seek and save that which was lost. The Sheperd and Bishop of men's souls (1 Pet. 1:25) who "bare our sins in his own body on the tree" (1 Pet. 2:24) healed our broken and bruised hearts (Pet. 2:24; Isa. 60: 1-3), and purchased our souls with His own life stream (Acts 20: 28) is now Head of the body, the church that in all things he might have the preeminence (See Col. 1:13-22).

But Christ came to save Gentiles as well as Jews. "Them also I must bring, and they shall hear my voice; and there shall be one fold and one shepherd" (John 10:16).

IV. A Reward For The Savior (53:12)

One proof of the Bible's inspiration is its prophecies. No one could have guessed the events Isaiah foretold. Circumstances seemed to indicate the very opoosite to his teachings. But history has verified with unerring record the accomplishment of items voiced by God's prophet seven centuries before the gospel era. Though "numbered with the transgressors, Jesus rose triumphant over the tomb, ascended to heaven, and is at the right hand of God where he is now officiating as King of Kings through his law of the kingdom, even the gospel. He makes intercession, as the prophecy said he would do. So those who hear, believe, repent, confess Christ and are baptized for the remission of sins are washed in the "crimson flood". Their past alien sins are blotted out. But the Christ does more than that. When Christians make errors, as they are apt to do sometimes, they may repent of those sins, confess them and plead through this Mediator for forgiveness, Covered by the bolld, the child of Jehovah rests secure, for this bruised plant has ointment for every ill that afflicts the soul.

"O haste to help, ere we are lost!
Send preachers forth, in spirit strong,
Armed with Thy Word, a dauntless host,
Bold to attack the rule of wrong;
Let them the earth for Thee reclaim,
Thy heritage, to know Thy name.

"And let Thy Word have speedy course,
Through every land be glorified,
Till all the heathen knows its force,
And fill Thy churches far and wide;
Wake Israel from his sleep, O Lord,
And spread the conquest of Thy Word!"

Magician Is Coming

Mel-Roy, The Great, one of the greatest magicians of this generation has been secured for one program to be given in the high school auditorium on Friday evening, October 25 at 8 o'clock.

The special activities of the school will sponsor this program and an advance sale of tickets will be made. Popular prices of twenty cents and thirty-five cents have been arranged.

This will be the leading outside attraction brought to the school this year. Everyone will want to see this program of magic by one of the leading magicians of the world.

Mel-Roy has a company of several people with him as helpers. He has a program that is very different from the Birch program of last year. However, Mel-Roy may use the Box-Escape trick—and if so, he promises to escape in half the time that Birch did. Everyone should plan to attend this program.

GIRLS BASKET BALL

The basketball girls and E. D. Kelley, coach, are planning on starting practice next week.

They are in need of more girls. We have some new ones from other schools and we will be glad to have a lot more.

The people of Perryton are taking interest in boys' football and basketball, why not take the same interest in the girls. We are going to fight hard this year and try to make the people realize that girls basketball is as interesting as football, so every one please cooperate with us so that we may have a good team.

CHAPEL

The program, Thursday, September 26, was prepared by Effie Jones.

The first number was a trio of Spanish singers, Carmona, Mendoza, and Mortney, from the C. C. C. Camp. Although most of the school could not understand the words to the songs, loud were the cheers for another. The second proved to be enjoyed as much as the first: The last number was a solo by one of the boys. He sang "Good Night, a Thousand Good Nights". It was enjoyed by everyone.

SPECIAL CHAPEL

As the orchestra played a march, the school assembled into the auditorium for their second chapel, Thursday, September 26. Mr. W. I. Byron led the song, "Home on the Range." After prayer, Mr. Blonnye Foreman, a missionary from Brazil, gave a very interesting talk on the people, homes, and animals of that country. He contrasted the equipment of the school where he taught and that of our school. It was a very interesting talk. After Mr. Irvin made the announcements, the school passed back to their work.

McMILLEN NOTES

Earl Waide, Reporter

Most of the wheat fields in this community are greener than they have been for several years at this time of the year. Several of the fields are being pastured now and if it would come another rain all of them would be ready for pasturing.

The members of the True Blue Sunday School class were entertained with a party in the Clifford Finney home last Friday evening. Games were enjoyed until a late hour, after which refreshments consisting of sandwiches, cookies and cocoa were served to the forty-eight guests present. The class wishes to thank Mr. and Mrs. Finney for the hospitality.

Mr. and Mrs. S. F. Waide visited in the J. L. Bryan home Sunday. In the afternoon they all attended the baseball game at Buler.

There were seventy-three at Sunday School Sunday. This was below the average attendance for the quarter just ending as the quarterly report showed an average attendance of eighty-one. We are proud of this record for a country Sunday School.

Mrs. Earl Ernest and children from Borger are visiting in the home of her sister, Mrs. Calep Howard, this week. Her son, John Earl is attending school at McMillen.

Mr. and Mrs. J. W. Jantz and family and Mr. and Mrs. D. P. Unruh and family were Sunday dinner guests in the H. B. Urban home.

Many from this community enjoyed the ball game at Buler Sunday afternoon. We believe that the Buler team was about as badly surprised over the seven to one trouncing they handed Wolf Creek as the other team was. But it was a good game from beginning to end.

Mr. and Mrs. Clifford Finney and family visited with friends in Pampa Sunday.

According to reports, there will be more money in the community by the time this paper is published as some of the wheat checks are expected the fore part of this week.

Mr. and Mrs. Forrest Forgey and family visited Sunday in the H. B. Crooks home, Spearman.

Miss Wilma Hardy who has been staying in the Byers' home in the Notla community, spent Sunday at home.

Some folks say there ain't no ghosts and other folks say they never saw any ghosts but if they will stay around McMillen for a while they will change their minds. Something spooky is in the air. Just watch and listen.

Miss Lucille Hardy is staying in the Travis Flowers home for a few days.

Lester Ferguson returned to his home at Stinnett Tuesday after spending several days visiting in the home of his brother, Ira Ferguson.

Mr. and Mrs. D. D. Shanks went to Childress Sunday to take her mother, Mrs. D. W. Alsbrook, who was met there by another daughter, Mr. and Mrs. Aubrey Crowley, Hamlin, where she will go for a few weeks visit.

In Will Rogers' "Steamboat Round the Bend", coming Sunday and Monday to the Ellis Theatre, one of the most romantic events in the lives of the Mississippi river folk, the annual race from Natchez to New Orleans, is re-enacted. A half-dozen packets are matched in the thrilling race which brings the picture to its climax.

Duane Roberts and Elton Ruppprecht were in Amarillo over the week-end for an educational meeting of the dealers and employees of the Willard Batteries.

Miss Ardice Reed, a graduate nurse of the St. Francis hospital, Wichita, Kans., came in Monday to work at the Perryton hospital.

Mrs. Lois Trollinger left Monday for a weeks vacation which she will spend visiting with relatives and friends in Oklahoma City.

Forrest Campbell, Winston Brown and Jim Murphy of Dodge City, Kans., were business visitors in Amarillo, Sunday.

Frank Mayo, former star of the silent screen, is making a comeback with a small role in Will Rogers' new starring picture, "Steamboat Round the Bend," which comes Sunday and Monday to the Ellis Theatre.

Mr. and Mrs. Ernest Records and family of Follett were in Perryton Sunday visiting with friends.

Mr. and Mrs. J. C. Barton were week-end guests in the home of Mr. and Mrs. C. W. Claybaugh.

J. H. Shearer and Ralph left Wednesday for Tucson, Ariz., where they will visit Mrs. Ralph Shearer and daughter, Paula, a few days before going on to Los Angles, Calif., to join Mrs. J. H. Shearer.

Mrs. Robert Lawrence underwent an operation at the Shattuck hospital last Friday. She is getting along nicely.

Miss Irma Allen, supervisor of the Perryton hospital, had her tonsils taken out Tuesday and is recovering nicely.

Editor and Mrs. B. A. Humiston of the Sharon, Okla., News were in Perryton Sunday enroute to Guymon Okla., where they were to spend the night visiting with her daughter, Mr. and Mrs. Thrall.

Mrs. W. M. Good, Notla, was a week-end visitor in the home of her daughter, Mr. and Mrs. Ira Ferguson.

Dr. Powell, eye, ear, nose and throat specialist, will be at Drs. Brewer & Kengle office, Tuesday, Oct. 8th. Glasses fitted, tonsils and adenoids removed. 37-1t-c

---

Mr. and Mrs. Carl Humphrey announce the birth of a daughter on Monday, September 30. The name, Madolyn Jean, has been chosen for the young lady, who with her mother, is resting nicely at the Perryton hospital.

Mr. and Mrs. Dewey Allen and children and A. L. Carter were visitors in Miami Sunday.

S. S. Dodson has been quite ill with tonsilitis the past week.

Mr. and Mrs. E. E. Shupe and sons, Eldon and John, were visitors over the week--end in the C. E. Woods home. Mr. Shupe, a former coach of the Perryton Rangers, is now superintendent of the Ford, Kans., schools.

Takes Pleasure In Presenting A New And Delightful Free Cooking School Which You Should Not Miss . . . .

The Kitchen Chautauqua

. . . **A Series of Culminary Programs to save you time, effort and energy!**

MONDAY---TUESDAY---WEDNESDAY

OCTOBER 21--22--23

Time: 2:00 To 4:00 P. M.

AMERICAN THEATRE

PERRYTON, TEXAS

Now and again some particularly fine feature or program of entertainment is available to you. It may be a lecture or a play, an Uncle Tom's Cabin show or grand opera.

One of the finest of such programs—and a feature that comes for your enjoyment but once a year—is the Kitchen Chautauqua. The Kitchen Chautauqua is a cooking school—but what a cooking school.

Whether you're a bride of a month or a grandmother, you'll enjoy these sparkling programs with the age-old theme of cookery. There are many short-cuts and many roads leading to culinary success and perfection—the Kitchen Chautauqua gathers them all up and shows them to you, right before your eyes.

Every recipe and every kitchen suggestion that has a part in this cooking school—the theme of which is "the happy kitchen"—has been tried and tested by a whole staff of practical housewives. Don't come expecting to see nothing but a batch of party dishes—they have their part, of course, but the main things you'll see and hear at the Kitchen Chautauqua will be the simple, easy little workaday hints and time-savers that make cooking a real pleasure. And without these hints and time-savers, your three-meals-a-day are likely to become a drudge.

Cooking can easily be turned into romance—the thrill of discovery and the satisfaction of seeing a thing well done. Attend the Kitchen Chautauqua—then try the frying-pan recipe on the family grouches!

We are happy this year to have obtained the services of Mrs. Beulah Mackey Yates, noted home economist and lecturer, who has recently conducted very successful cooking schools at Pampa and Shamrock. We invite you to come as our guests!

Have the material clean, free from spots, and follow directions accurately as to the amount of dye, proportions of mixing dyes for certain shades, boiling, and rinsing were hints on successful dyeing given by other cooperators at the meeting. Mrs. Henry, our wardrobe demonstrator, was unable to be present to give the dyeing demonstration as she was called to the bedside of her mother, who is seriously ill.

The club urges that all members, though you have not been in regular attendance, join in making the Ball Jar Contest a success by etering a quart of fruit and a quart of non-acid vegetables. Any make of jar and any type of lid may be used. We must have 100 exhibitors from the county home demonstration clubs.

CHRISTIAN SCIENCE

"Unreality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 6.

The Golden Text is: "What is the chaff to the wheat? saith the Lord" (Jeremiah 23:28).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The wicked worketh a deceitful work; but to him that soweth righteousness shall be a sure reward" (Proverbs 11:18).

The Lesson-Sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Jesus' demonstrations sift the chaff from the wheat, and unfold the unity and the reality of good, the unreality, the nothingness, of evil" (page 269).

1500 Texans Killed

Automobile Toll Greater Than That From Disease; Represents Real Hazard

Austin—Comparatively few people seriously realize the automobile's deadly power, but, according to Dr. John W. Brown, State Health Officer, over 1500 Texans are killed each year by autos. Very logically considered as a major recreational and useful mechanism, its ability prematurely to maim and kill makes little impression upon most of us. In fact, the daily list of casualties in the papers indicated indifference to the situation. Nevertheless, as a menace to life and limb the automobile unfortunately represents a real hazard.

In addition to its pleasure and utility factors, the motor-car has its devastating side also. Decidedly this fact should not be overlooked. And in this connection education alone can be relied upon to bring results. There is no serum, no drug, no quarantine procedure, nor any ef- automobile's damaging power. Automobie accidents caused more deaths in Texas last year than the combined deaths from typhoid fever, smallpox, measles, diphtheria, scarlet fever, whooping cough, and infantile paralysis.

Whether human nature can be sufficiently bridled by public opinion as to result in more careful driving and more cautious walking remains to be proved. But the fact is that a major health and life problem is involved in the present circumstance.

Safe water, clean milk, disease control, slum clearance, sanatoria, and indeed modern medicine and surgery are all of small avail to the speed-maniac who kills himself and others. Medical science also is equally powerless to save pedestrians who are knocked down by the careless driver, or who carelessly connect with careful drivers.

Citizens generally could well seriously consider this ever increasing challenge to life and health. Upon them rests much of the obligation definitely to reduce the ever increasing casualities.

Lower Age Requirement

CCC Will Accept Boys From 17 To 28 Whose Families Are On Relief Rolls

Austin—Minimum age limit for CCC enrollees has been lowered from 18 to 17, State Enrollments Supervisor Neal E. Guy announced Saturday.

The ruling will apply for the October enrollment, when every eligible person in the state is expected to be given a chance to enlist in the CCC.

Enrollment will be open for all unmarried men between 17 and 28 whose families are on relief rolls. The dates are inclusive, and a person who has passed his seventeenth birthday is eligible, as is one who has not reached his twenty-ninth.

Mandatory discharges have been discontinued, and enrollees may stay in camps indefinitely. Also, persons honorably discharged may reenlist, provided their previous service was not less than four months. Eligible enrollees, however, honorably discharged prior to October 21, 1933, may be re-selected without regard to length of previous service.

Guy advised persons in the lower age brackets, particularly the 17-year-old who are in school, to continue their schooling as long as possible, with the hope of enlisting later. For those who cannot continue in school, the CCC conducts an educational program in each camp, he pointed out.

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxines. Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.

Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

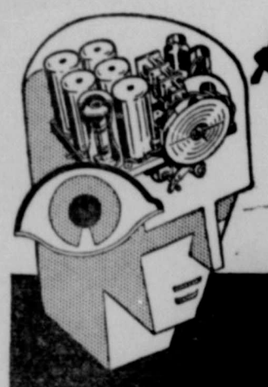

Winter--Yesterday and Today

YESTERDAY — Winter was synonymous with uneven temperature and its resulting illness, with the drudgery of shoveling coal, and its resulting aches and distemper, with uncleanliness caused by soot and smoke and its resulting cleaning bills.

TODAY — We can greet winter with a smile for GAS has driven away all its nightmares. The turn of a valve gives us an evenly regulated temperature, without the wearying labor of shoveling coal or carrying ashes and gives us maximum heating efficiency at minimum cost.

Install GAS and enjoy winter as only those enjoy it who have taken advantage of nature's most practical fuel.

Signs of hard winter?

SKIP COLD-WEATHER RISK...MAKE SURE YOUR ENGINE stays oiled

Conoco is not the only oil refined by modern methods. But notice what all the usual processes are said to *take out*. Then notice what the exclusive Germ Process—fully patented—*PUTS IN*.

Nothing vague about this process.

It tops off everything else known to Refinery Science, by putting in the Hidden Quart which makes your engine *stay oiled*.

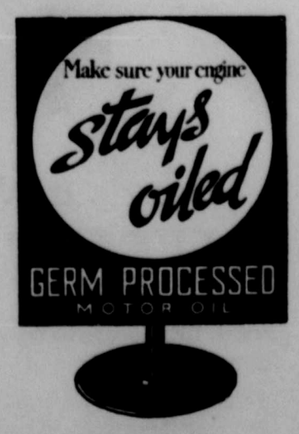

You can park your car for hours in blizzards; stand for days in a cold garage. But you cannot make a dragging, expensive, engine-eating start.

Unlike other oil, no matter how free-flowing, Conoco Germ Processed Oil needn't wait for your starter or oil pump. The Hidden Quart is up on guard in advance. It hasn't drained down because it can't. The Germ Process has let it "marry" into the inner surfaces of your engine for good . . . a strange though natural "affinity" well known to scientists.

Even the new copper-lead, high-lead and cadmium-alloy bearings, as well as conventional babbitt bearings, are far better protected by Conoco Germ Processed Oil than by plain mineral oils. Scientific tests have proved this.

But millions whose only laboratory is under the hood, can tell you a lot about the Hidden Quart and Germ Processing. They'll tell you the battery stays up, the oil level stays up, the old winter worry and expense stay away.

All you need to tell your nearest Conoco man is "Change mine right now!" Continental Oil Co., Established 1875.

GIVE JOBS TO 18 IN COUNTY

LOCAL YOUTHS GET STUDENT AID UNDER NYA; TOTALS $108.00 PER MONTH

Austin—Lyndon B. Johnson, State Director of the National Youth Administration of Texas, Sunday evening issued a warning to county superintendents of schools to allocate high school aid jobs to high school pricipals at once in order to prevent the possibility of their allotments being lost to them and transferred to other counties.

The National Youth Administration on September 14 mailed to 248 county superintendents of the 254 counties in Texas, allotments of the students eligible in each county to participate in the $6 per month high school aid program.

The National Youth Administration has made preparations to give this assistance to 8,547 high school students in Texas. County superintendents of schools and principals of idividual schools, working in cooperation with caseworkers of the Texas Relief Commission, make the final selection and assignments. However, if a county does not avail itself of the opportunity and place the full number of students in part-time jobs the allotment will be transferred to another county where the demand exceeds the supply.

"It is unfortunate that there are more applications than jobs available under the federal allotment of funds for Texas," Johnson said. "But we are eager to see that the allotment is used one hundred percent. Inasmuch as it is incumbent upon the school officials to initiate the movement and to see that it is put through, the need for immediate action is urgent. School has started already in many places and will start in others in the very near future. In order that there may be no waste whenever a county fails to avail of its funds, they will be transferred and given to other counties."

"It is doubtful that a county which fails to act this week and distribute its quota of funds to high school principals will have the opportunity to do so next week."

The NYA student aid program will provide jobs for 18 high school students in Ochiltree County, at the rate of $6 per month, or a total of $108.00.

Starting WPA Projects

Over Five Thousand Transfers To Work Programs Have Been Made In State

SAN ANTONIO—With several thousand Texans already transferred from the dole to creative labor, Works Progress Administration officials today were preparing to cut still deeper into the diminishing relief rolls of this state with the release of work authorizations for thousands more during the coming week.

Although 5,530 former relief clients have been assigned to projects by WPA, officials stated that other work orders have been mailed to the districts and estimated that many more will be at work by the end of this week.

Cheered by President F. D. Roosevelt's approval of $3,990,134 for expenditures in Texas, state WPA officials were confident that many millions more will be flowing into the state to provide more jobs soon. To these federal allocations local sponsors will add $1,135,309 for completion of the work.

Flood damage repair jobs, recipient of first federal approvals for Texas, have been started in more than a score of localities and allotment of the final portion of this $300,000 allocation will be made shortly. It was on work of this nature that the first group of laborers last week were automatically removed from the dole by receipt of their first checks in Sweetwater.

News of federal approval of the $30,500,000 Brazos River flood control and water conservation project, which contemplates the construction of thirteen flood control dams and reservoirs on the 900-mile long river, had prompted sponsors to seek land for initiation of the job which proposes to provide jobs for thousands of laborers in several Texas WPA districts.

CCC Camp News

By W. H. Phillips, Company Clerk

A new feature was inaugurated at the camp Friday night. The camp's first stunt night was held with an excellent program which consisted of guitar solos, an imitation of Kate Smith singing, and several good harmonica solos. This was the first of a series of programs to be held to determine who will represent the camp on a radio program which is to be given by the CCC headquarters at Lubbock. The public is invited to attend these programs which are held every Friday night at seven o'clock in the recreation hall.

Our athletic equipment arrived last Saturday, and reminiscence of by-gone days were soon in evident as the boys chunked the old pigskin back and forth. We expect to give the other CCC camps in this district plenty of competition if and when we get a team organized. Boxing, volley ball, soccer, tennis and croquet are also to be included in the camp's athletic program.

The technical staff has announced that work on the project is well under way. Twelve contracts have been returned approved and are ready for work to commence.
