Remember Pearl Harbor!

The Lynn County News

"I wholly disapprove of what you say but will defend to the death your right to say it."—Voltaire.

Volume 38 | Tahoka, Lynn County, Texas, Friday, February 27, 1942. | Number 29.

Grocerymen Adopt New Closing Hours

Co-operation Of Public Asked

Proprietors and operators of grocery stores in Tahoka are to be commended for the sensible step they have taken in agreeing upon closing hours that will give them and their employees more time for rest and recreation and at the same time working no inconvenience whatever on their customers.

As will be noted elsewhere in this paper, they have agreed to close their places of business promptly at 8:00 o'clock on the evenings of all week days except Saturday, when they will close promptly at 11:00 p. m.

This will afford a better opportunity for them and their employees to attend any church services, programs, entertainments, or gatherings of any kind that other folks attend, and on Saturday nights they will get off duty in time to get a full night's sleep without putting in half the morning on Sundays in bed.

Customers are respectfully requested to make their purchases well before these hours named for closing, so that it will be easy for grocers to adhere to this agreement. Do not insist on grocers opening their doors to wait on you after these hours, for they cannot do so without breaking faith with the other grocerymen. Especially are Saturday night shoppers requested and warned to make their purchases well before eleven o'clock. These are reasonable requests and should be complied with to the letter under all circumstances.

Four Enlist In Armed Forces

James Preston Davis, son of P. A. Davis of O'Donnell, and Dorotheo Reyes Rodriguez, a Mexican, filled the call for two men from Lynn County Wednesday to go into training in Uncle Sam's Army.

In the meantime, two other Lynn County men had volunteered for service in the armed forces. Jackson Carman Morian, son of J. E. Morgan of the Garnolia community, enlisted in the regular army. That was on Tuesday of last week. On the preceding day William Derrell Ward, son of W. W. Ward of the Morgan community, enlisted with the Marines and was sent to Oklahoma City for preliminary training.

Final registration returns showed that 798 persons between the ages of 20 to 44 inclusive registered in this county on Monday, February 16.

There were five registration places in the county, and the figures for the five places are given as follows: Tahoka, 354; O'Donnell, 212; New Home, 101; Wilson, 86 and Draw, 45.

It has been announced from Washington that the drawing will be held on March 17 to determine the order in which undeferred registrants will be inducted into the service.

New Teacher In Local Schools

Miss Elizabeth Steele, former fifth grade teacher of State Orphan's Home in Corsicana, Texas, began teaching in Tahoka High School on Monday, February 23.

The new teacher filled the vacancy of Miss Ruby Nell Smith, who began teaching in the Dupre Grade School at Lubbock. Miss Steele is teaching the seventh grade and the Journalism Class.

Her home for the past three years has been at Lubbock. She obtained her B. A. degree at S. M. U., Dallas, Texas, and has done some work on an M. A. degree.

F. L. Prater is still in a critical condition, according to reports received from the Lubbock General Hospital, where he has been a patient for several weeks.

Funeral Services For Mrs. Dabbs Thursday Morning

Funeral services were conducted at 11:00 o'clock Thursday morning in the Church of Christ at Southland for Mrs. Flora Dabbs, 71, who died of a heart ailment at 6 o'clock Monday morning at the home of a daughter, Mrs. G. W. Shahan, near Tahoka. Services were conducted by Garnie Atkisson, minister of the Church of Christ.

Burial was made in the Southland

(Continued on back page)

Defense Guard Visits Air Base

Tahoka Defense Guard will be entertained at the Lubbock Army Advanced Air Base this (Friday) afternoon at 4 o'clock, Capt. Donald Turner announces.

Members of the guard will leave Tahoka at 3 p. m., from the north side of the square, and transportation will be available in cars and a Tahoka High School bus.

The Air Base is closed to almost everyone, and since it is almost impossible for a private citizen to gain admission, this is considered a rare privilege. Air Base commanding officers are arranging a review for the occasion. The visit is made possible by A. M. Cade, commander of the American Legion here.

Uniforms for 67 members of the Guard were ordered this week, and drill rifles ae being tuned out by the Lamesa NYA shop. Several members of the local company are yet to be measured for uniforms, and several lack their physical examinations, Captain Turner says.

W. V. McIlroy reports that the recent benefit dance netted the Guard company $209.25.

County League Meet Dates Set

The Lynn County Interscholastic League meet will be held March 27-28. Mr. Hope Haynes stated that although other schools of Lynn County were not participating in the county meet this year, Tahoka would carry on as before.

O'Donnell, Wilson and New Home will not take part in literary events but they will in some athletic events.

Supt. W. T. Hanes, in a speech to the student body said, "This year of all years the students should take advantage of all opportunities which our school offers."

Singers Of Area Meet In O'Donnell

A district singing convention will be held in the First Baptist Church in O'Donnell next Sunday afternoon beginning at 3:00 o'clock, new time, according to announcement made by C. H. Mansell of that city.

Among the good singers expected to be present is Odis Echols of the Echols Melody Boys, who sing over KFYO, Lubbock, each Sunday morning at 8:00 o'clock.

The people of Lynn County are extended a cordial invitation to be present, and especially are good singers urged to come.

FIRE WARNING

Residents of the city are warned to be careful in burning grass and weeds in the city limits. The fire department has been called out several times recently to extinguish such fires that were endangering property.

Attention is also called to the fact that trash in the fire limits should be burned only in cans. Burning of trash in the open in the fire limits is forbidden by City Ordinance.—W. M. Lee, City Marshal.

G. C. Grider and family are now residing on Route Four, Tahoka, after spending some two or three years in Comanche County.

BOMBER DRAWS A BEAD

Passed by Censor

THE art of bombing isn't learned in a day. It is an art, and for it men have to be specially selected and must undergo weeks of constant, careful training. The job is usually that of the observer to whom is also entrusted the task of navigating the ship. He must also know how to handle the rear guns in a pinch and he must also understand enough about flying to bring the plane down safely if the pilot is put out of action. He is probably the least publicized and yet the most important member of a ship's crew. The photograph shows a young Canadian observer at the bomb sight in the belly of a Fairey Battle Bomber, one of the many types of machines which Canada is using in the greatest flying school in the world, the British Commonwealth Air Training Plan. Ten per cent of the men in training are Americans.

Open Forum On "America In War" To Be Held At Tahoka High School

The students of T. H. S. will conduct an open forum on different phases of America in the war in the high school auditorium next Tuesday morning and each Tuesday following.

Supt. W. T. Hanes stated that he invited all the students to participate in a portion following the speeches and to volunteer for future programs.

The subject for Tuesday is "The Founding of America." Speeches are: 1. Causes for dissatisfaction in Europe, Helen Pemberton; 2. Why England won the race for settlement of America, Edwin Rodgers; 3. The Mayflower Compact, Tommy Sparks; 4. Causes of dissatisfaction of American colonists with English rule, Joan Owens; 5. Patrick Henry, Billie Burleson. 6. James Otis, Billie Riddle; 7. Paul Revere, Gladys Carter; 8. Valley Forge, Jerry Noble; 9. Money troubles of the new republic, Benoy Gattis; 10. Committees of correspondence, Mary Ruth Edwards; 11. Star Spangled Banner, its history, La Voyle Richardson.

Supt. Hanes will be the first chairman but in later forums, students will be entirely in charge, with only a faculty advisor as help.

J. D. SMITH CRITICALLY ILL

J. D. Smith, father of A. L. Smith, who has been operating a grocery store at Grassland, is critically ill in the home of his son here. He suffered the bursting of a blood vessel in the brain while at his store about 8:30 o'clock Wednesday night.

The family and a physician were summoned and he was brought into Tahoka soon thereafter. Little hope for his recovery is entertained.

Mrs. T. M. Ellis Has Cataract Removed

Ehe condition of Mrs. T. M. Ellis of Three Lakes is reported by her daughter, Mrs. J. C. Sparks, to be satisfactory following an operation in Lubbock General Hospital on Thursday of last week in which a cataract on one of her eyes was removed.

Surgeons were unable to determine the extent to which her eyesight would be affected, however. The other eye is said to be slightly affected also, but it is hoped that serious trouble in that eye will not develop.

ATTEND DEMOCRATIC MEET

Truett Smith and Elbert Boullioun attended the Democratic Dinner and Washington Birthday celebration at the Texas Hotel in Fort Worth Monday night.

They report that many of the leading Democrats of the state were present and that it was a great patriotic and political rally. Very few South Plains people were there, however.

WEST TEXAS STATE EXES WILL MEET

Ex-students of West Texas State from the South Plains area are being urged to attend a dinner Monday evening at 6:15 o'clock at Mexican Inn, Lubbock, 1905 Ave R.

Following the dinner, they will attend the game between the nationally famous "Tall Buffaloes" and Texas Tech.

Reservations should be sent to Ishmael Hill, 3618 Ave. U, Lubbock, by Monday noon.

Every Patriotic American Salutes His Nation's Flag

During the ceremony of hoisting or lowering the Flag, or when the Flag is passing in a parade or in a review, all persons present should face the Flag, stand at attention and salute.

Those present in uniform should render the right hand salute.

Those men not in uniform should remove their headdress with the right hand and hold it at the left shoulder, the hand being over the heart.

Women should salute by placing the right hand over the heart.

The salute to the Flag in a moving column is rendered as the Flag approaches the spectator and is held until it has passed.

'Plant For Victory' Week March 1-7

Head of Utilities Company Speaker At Rotary Club

Lon Watson, Plainview, president of the Texas-New Mexico Utilities Co., was the speaker at the Tahoka Rotary Club Thursday at noon. He was introduced by Walter Anglin, who had charge of the program for the day.

Mr. Watson took for his subject, "Work," and discussed it from the electricity angle.

The facts and figures which Mr.

(Continued on back page)

Boxing Contests Next Tuesday

Monahans and Tahoka boxing teams will vie for team honors in 14 three-round matches in the local gymnasium next Tuesday night at 9 o'clock, Coach Leo Jackson announces.

By a narrow margin, Tahoka lost to Monahans in a tournament in that city last week, and will be trying to regain its prestige Tuesday.

Tahoka came out of the Slaton tournament with the team trophy and two jackets, having shaded Lubbock, Slaton and Littlefield for the honors.

Some of the boys who will be fighting here next Tuesday night are:

Jerry Edwards, Tahoka, who lost to George Hanson in a close bout at Monahans for the 90 pound class.

Irvin Lehman, who lost to Pete Smith, 105 pounds.

John Bigham, who slugged out a victory over Bob Watson.

Werner Shaffner, who knocked Albert Hansen down in each round but lost the fight.

G. W. White, winner over Chester Nelson.

Buster Driver, winner over Earl Cranson.

James Babousett, who lost to J. Smith.

Durwood McClintock, loser to Roy McMinn.

Kelly King, loser to Jr. Turner.

Elwood Wright, who fought to a draw with Albert Hansen.

Programs Boost Defense Bonds

Under the direction of Mayor Doen Nowlin, county chairman, defense bond programs are being held in the various towns and communities of Lynn County with gratifying success.

A meeting was held in the O'Donnell high school auditorium Tuesday night with Dr. Harry T. Kent of the Texas Tech faculty as the main speaker. His address was packed full of valuable information, and it was listened to intently by a large audience.

A Defense Bond and Patriotic rally will be held in the Draw school building on next Tuesday night March 3, at 9:00 o'clock, Mr. Nowlin announces. Judge B. P. Maddox of Tahoka will deliver the main address of the occasion, but there will be other entertaining numbers of a patriotic nature on the program.

Roy's Garage Has New Equipment

Roy Scott, operator of Roy's Garage, has recently installed complete Bear wheel alignment and wheel balancing equipment, and is otherwise improving his shop.

The building housing the garage is also being completely remodeled.

FARM HOUSE BURNS

The house recently occupied by Mr. and Mrs. Harlon Dikes, two miles west of Central Baptist Church caught fire and burned to the ground Wednesday morning about 10 o'clock. No one was at home at the time. The house and all the contents were destroyed.

Board Planning For Observation

The week of March 1-7 has been designated by the Texas U. S. D. A. War Board as "Plant for Victory Week" in Texas, reports John C. Key, Chairman of the Lynn County U. S. D. A. War Board. All counties are expected to have some kind of celebration designed to tell the story of agriculture's war effort and to re-emphasize the importance of achieving all Food - for - Freedom goals.

The Lynn County U. S. D. A. War Board will meet Thursday, February 26, to lay plans for the celebration in Lynn County, and as soon as the plans are made the public will be informed, Key said.

Arrangements have been made for a nation-wide radio broadcast to the farmers of the nation by President Roosevelt and Secretary of Agriculture Monday night, March 9, as the grand finale of "Plant for Victory Week," Key informed.

Farmers of America were called upon in November of last year to make pledges on their farms toward meeting the Food - for - Freedom Program. Now these goals have been raised and the American farmer must not only meet the pledge already made, but he must exceed these pledges in order to produce the required food and feed for victory, Key said.

Drive For Scrap Iron Under Way

Reports given to the News by the Farmers' Cooperative Gin and the Tahoka Cooperative Gin Wednesday indicated that in response to the appeal made last week by the Chairman of the County U. S. D. A. War Board and other local agencies, farmers had brought in to these two gins twelve or thirteen tons of scrap iron.

No report has been obtained from the cooperative gins at O'Donnell, Wilson, Grassland, New Home, or other places, but the indications are that considerable amounts of scrap iron have also been brought in to some of these plants.

The bulk of the metal was brought in Monday, reports from the Tahoka gins would indicate.

Farmers are paid for this iron, and it is hoped that practically all of the discarded and useless iron to be found on the farms of Lynn County may be collected and brought in by the end of this week, when the campaign closes. This Government can use it to great advantage in building up her war equipment, and it might help us win a war.

Edward Buckaloe Dies At Houston

Mr. and Mrs. Leroy Moyers, of Draw, returned during last week end from Shepherd, San Jacinto county, in the general vicinity of Houston, where on Thursday of last week they attended the funeral of a brother-in-law, Edward Buckaloe, about 36, who died at about 2 o'clock Wednesday morning in a hospital after a long period of ill health.

Funeral services were conducted in the Methodist Church at Liberty, of which the deceased was a member and he was buried with Masonic honors.

The deceased was the son-in-law of A. H. Moyers of Draw, who formerly resided in Tahoka, and his wife, before her marriage, attended school here. She was Velma Moyers.

Mr. and Mrs. Leroy Moyers were called to the bedside of the sick man about a week before his death and remained until after the funeral services.

Mrs. Lois McMahon, secretary for the county draft board, was able to be back in her office Monday after a few days illness.

Yates Have Four Grandchildren In Uncle Sam's Service

Mrs. M. A. Yates called at the News office Monday feeling the thrill of pride which only a grandmother can feel because of the worthwhile things being done by her grandchildren. She was greatly pleased in that four of her grandchildren are now engaged in the service of Uncle Sam.

Jean Barham, daughter of Mr. and Mrs. Newt Barham and granddaughter of Mr. and Mrs. Yates, is employed in the Army recruiting office in Lubbock.

Another grand-daughter, Pauline Hale, daughter of Mr. and Mrs. Tom Hale, is employed in the Lynn county draft office, and a grandson, Tom Hale Jr., is in the service somewhere out on the West Coast.

But the achievement that possibly gave her the greatest thrill was the announcement that their granddaughter, Miss Marie Yates, daughter of Judge and Mrs. Madison Yates of Lamesa, had just been given a job as mechanics' helper at the Sub-Depot of the Army Advanced Flying School near Lubbock.

Miss Yates recently graduated from an aircraft school at Dallas, and is a licensed pilot and has had 50 hours in the air. After graduating at Lamesa High School, she studied first in John Tarleton College, Stephenville, and then at North Texas Agricultural College, Arlington.

And now she is actually at work assisting in the repair of airplanes so as to "keep 'em flying."

Her picture and that of the only other girl employed at the Lubbock Flying School as a mechanics' helper, Miss Deljuan Clark of Jayton, appears in three different poses on the front page of the second section of the Lubbock Avalanche-Journal of last Sunday.

Navy officials have given orders that 91 Naval R. O. T. C. cadets at the University of Texas will make a cruise this summer with ships of the Gulf Sea Frontier Command.

Revival In Progress At Assembly Of God

An old-time religion revival began Sunday night at the Assembly of God, three blocks east of the bank in O'Donnell, according to Mrs. Clara Newton, pastor of the church. Rev. H. Paul Holdridge, district secretary-treasurer of the West Texas District Council of the Assemblies of God and pastor at Plainview, Texas, is the evangelist. He is being assisted by Rev. and Mrs. Randall Ball of Olton, Texas, special singers and musicians. Rev. Ball is also a licensed minister, and will be bringing a special message to the young people Saturday night.

Special singing, choir singing and music will be featured during this revival. The plain truths of the word of God will be brought out each evening in the gospel messages. Emphasis will be placed on the essentiality of a born again experience, the need of power from God to stand in the face of present day evils and holy living.

Services will begin promptly at 8:15 (Central War Time) nightly. Rev. Holdridge will be speaking Sunday night on "Blackouts in America." The "little church with a big welcome" cordially invites the entire public to attend this "old fashioned revival."

W T. Hanes Talks To Father-Son Banquet

"If the United Nations had been prepared five years ago to do what they are now doing, our present dangerous condition would not now confront us" Supt. W. T. Hanes told a Father-Son group of some 100 people at Union, Terry County, Tuesday night at an annual Future Farmers of America banquet.

He further stated that there is nothing to be gained by worrying now about what might have been. "We have a job to do and it must be done—it is going to be done. In return for the opportunities and privileges that America gives us, there is a corresponding responsibility upon each one of us. Our responsibility at this time is to see that the production lines of our country are kept going as they have never before done.

"Farm production is just as essential to our winning this war as the assembly lines in our factories," he stated. "The only difference is that the people of America are not worried about the farmer and whether or not he will get the job done in his end of the line—we know he will! According to General Hershey, head of the Selective Service Board, the farmer is the most patriotic of all selectees. No draft boards have ever been bothered with farm boys trying to get deferments.

"If we could only feel as positive that our factory and industrial workers will stop their bickering and "slow-down" tactics as we are positive that the farmer will "deliver the goods," we would already be well along the road to final and complete victory."

Shampoo Grubby Cattle-County Agent

Heel flies in the spring means grubby cattle in the winter. Grubs or "wolves" in the backs of cattle causes unthriftiness. Now is the time to get rid of them.

Lynn County farmers and stockmen report an unusually large number of grubby cattle this winter, and County Agent Don Tumer suggests the following effective remedy:

12 ounces derris root 5% (rotenone)
4 ounces neutral soap
1 gallon water.

Dissolve the soap in the water and stir in the derris root. The derris root should contain 5% rotenone, for it is the rotenone that kills the grub. Make a convenient sprinkle by punching 12 holes in the metal top of a quart fruit jar. Use a stiff brush and sprinkle the solution on the backs of the cattle. Wet the hair and skin good. Continue vigorous rubbing with the brush. Give the animal a good shampoo and don't spare the elbow grease. The above amount of solution will treat 10 to 15 animals. Repeat the application every 21 to 30 days during the grub season as all the grubs do not reach the surface of the animal's back at the same time.

VERNONS HONORED ON WEDDING ANNIVERSARY

Mr. and Mrs. L. B. Jones entertained with a dinner Sunday, February 15, in their home south of Draw, honoring Mr. and Mrs. Ben Vernon of Lubbock on their eighteenth wedding anniversary.

Special guests were Mr. and Mrs. Russell Vernon of Tahoka, Mr. and Mrs. Joe Allen Samples of Lubbock and his brother, Jelly Samples of Acuff, Mrs. J. B. Clark and daughter Joyce of Slide, Mr. and Mrs. S. J. Terrell of Lubbock, and Mr. and Mrs. L. M. Jones and small son Larry Dow of Tahoka, L. M. being the son of L. B.

The honorees formerly lived just north of Tahoka, Ben Vernon being a brother of Russell.

Mrs. Shelton Holmes, better known here as Miss Aletha Goodnough, visited her husband at Camp Bowie recently, just before he left with his division for Camp Blanding, Florida.

These timely values pierce the gloom of the rising cost of living and light the way to SAFE SAVINGS! VICTORY in the making

Through the combined efforts of the research scientist, the physician and the pharmacist, man is winning victory over his most feared enemy—disease. In the pharmacist's hands rests the final step for it is his duty to translate the skill of his two allies into scientific medicine, made-to-measure for the particular requirements of the individual.

Salmon Vegetable Dinner
Broadcast by: Mary Lee Taylor, Feb. 26

2 cups drained, flaked salmon, freshly cooked or canned (1-lb. can)
6 tablespoons uncooked, rolled oats
¼ cup finely cut green pepper
¾ teaspoon salt
⅛ teaspoon pepper
¾ cup Pet Milk

Turn on oven and set at slow (325° F.). Grease six 3-inch muffin tins. Put salmon in mixing bowl. Add oats, green pepper, salt, pepper and milk. Mix thoroughly, then divide among the greased muffin tins. Bake 35 minutes, or until mixture is firm to the touch. Loosen sides and let stand about 5 minutes. Garnish each with slice of hard-cooked egg, if desired. Serve at once with Creamed Peas (See Below). Serves 6.

Creamed Peas

3 cups drained peas, freshly cooked or canned
1½ tablespoons butter or other shortening
3 tablespoons flour
¾ teaspoon salt
⅛ teaspoon pepper
¾ cup liquid off peas or water
¾ cup Pet Milk

Drain and save liquid from peas. Melt butter in saucepan. Blend in flour, salt and pepper. Stir in liquid off peas. Boil 2 minutes, stirring constantly. Stir in milk. Add drained peas and heat thoroughly, but do not boil. Serve at once. Serves 6.

ODDS & ENDS

by Eee Eye, the Elder

We certainly wish that the gloom-spreaders in Washington would get off the air and stay off.

To hear them talk, one would think that we have one chance in about a hundred to win this war.

We heard one of them Sunday night. "The way things are going, we are losing the war," he intoner very solemnly and positively.

Those easy-chair country-savers in the capital seem to think that they must continually mess up the air with these doleful warnings in order to pep up the, morale of us folks away out here in the country far removed from the intelectual centers of Washington and New Yawk.

It's enough to give the bravest of our men and boys the "just-as-well-quit" blues; we can't win, that's a cinch; the Japs have already got big old Uncle Sam by the nape of the neck and are about to hurl him headlong to perlition. Let's take it out, boys.

That's the way their lugubrious 'luminations would affect us if we didn't have enough "guts" and common sense not to believe them.

✣

As a matter of fact, we know that the little "yellow bellies" got the run on us. We know that they caught us asleep at Pearl Harbor. And it has begun to dawn on us that a lot of the watchmen whom we had placed on the wall to watch up at Washington had also gone to sleep and had been asleep for years respecting the "doings" of these same Japs and even respecting the progress that had been made the past few years in the devising of new implements of war.

Some of the gentlemen who imagined that they were awake and alert had been busy building the world's greatest battleships when they should have been putting some of the money into big bomber airplanes and submarines and torpedo boats and army tanks and other modern equipment with which the Germans and Japanese have been winning so far. Pearl Harbor and the fate of the Prince of Wales and the Repulse on the Malayan Coast early in December showed these gentlemen suddenly just how far wrong they had been—how helpless a big battleship, unprotected, may be when attacked from the air and from under-sea.

Yes, the Japs got the run on us at Pearl Harbor, due to the in-expert knowledge of certain gentlemen in high places in Washington; and they caught us unprepared. We found that we didn't have adequate fortifications on the few islands which we held in the Pacific—Guam, and Wake, and Midway. We didn't have half as many men in the Philippines as we should have had, and not a tenth as many airplanes and army tanks.

And the Japs had built up a much stronger war machine than we had even dreamed; and they had fortified under our very noses the mandated islands that had been placed in their care and keeping at the close of World War No. One, which the Japs were honor-bound not to fortify, but it had never occured to our watchmen up in Washington that Japanese military leaders have no honor.

And so, through the perfidy of the Japs and the smug complacency of gentlemen at Washington, came the tragedy of Pearl Harbor, when at one fell swoop from air and sea some of our biggest and best battleships were sunk or put out of commission, scores of the few airplanes that we had were destroyed, the lives of three thousand of our boys were snuffed out.

✣

But Pearl Harbor aroused the nation. It not only opened the eyes of the high moguls in Washington but it put the fighting spirit into the people throughout the country. The most trying thing on their morale has been the lack of equipment with which to fight and the lack of ships with which to transport our soldiers and sailors over into the war zones.

The best way to pep up our morale is not by sounding out mournful "spiels" from Washington about the perils that surround us nor about the way the Japs are winning this war, but by handing us a gun.

✣

We like the spirit of old John Garner. He gave out the first interview in months a few days ago, which had the ring of common sense and optimism. Such views as he expressed will do more for the morale of the country than all the mournful emanations that have come from Washington since the war began. We quote from him as he was quoted in the Star-Telegram Sunday.

"There is no lack of morale and no complacency among the people of the United States. They realize the Nation is in greater danger than at any time since the founding of the Republic.

"They know that the preservation of freedom and everything dear to human dignity and human decency is at stake. They know a shadow has been cast across their future and their Nation's future.

"They have sent their sons away to war. They are ready for sacrifice taxation. They may be confused in some points, but they have not lost sight of the main issue—that this war can only end by our complete military victory. There will be no compromise short of this.

"The temper of the people is all right. They are going to support, even insist upon full mobilization. They expect the best leadership to come to the top both in the field of production and on the battlefield. They know there are men capable of giving wise direction in both fields. If there are people in these high places who do not belong where they are they should go and doubtless will."

✣

That's the way to tell it. We are going to win this war. It may take a long time, or it may not take as long as some think, but we are going to win it.

We were not ready when the war broke, but we are getting ready. Already our big bombers are hitting some mighty blows in the Dutch East Indies and in the Rangoon area. They are going to grow mightier. We have just begun to fight. Some of these days we are going to strike at the heart of Japan. Some of these days our bombers are going from some base—we don't know whether it will be from the Aleutian Islands, that long bony finger of Alaska pointing accusingly out toward Japan — or whether it wil be from some base in China, or in Siberia, or elsewhere, but some of these days we are going to send a fleet of bombers that will blast the very vitals out of the munitions plants and factories of Japan. The havoc wrought will make Pearl Harbor look like the work of a mere little dry-weather whirlwind as compared with some terrific tornado.

Some of these days, it may be a year or two hence, but some of trese days we are going to wipe the Japanese Navy off the seas. Some of these days, whether it comes soon enough to save MacArthur and his men we know not, but some of these days we are going to drive the Japs back out of the Philippines and out of the Dutch East Indies, and send them scampering back to their own home land or hurtling to the bottom of the sea.

✣

And while we are whipping the Japs, those Russians, with the help of our bombers, are going to attend to Hitler. He is a gone gosling. He may try to stage a winning comeback this Spring, but he will never "cut the mustard."

And so, we hope those professional gloom spreaders in Washington will soon call off their hounds and quit the drive. Just now we don't have any place for pessimists in this country.

Gid-dap, Pete, we've got a big day's work ahead of us plowing up this field of pesky Japs.

SOUTHWESTERN LIFE INSURANCE MAKES REPORT

With a gain of $24,077,074 for 1941, Southwestern Life Insurance Company enters the new year with $405,210,008 insurance in force, C. F. O'Donnell, president, reports in the 39th annual financial statement to policyowners.

Copy of the report was received here today by the Company's local representative, Mrs. Gladys M. Stokes.

The continued progress of this Texas institution records numerous items indicative of the financial strength of Southwestern Life.

Assets are $80,618,343.61 reflecting an increase of $7,203,213.84 for 1941 —a gain of $977,304.50 over the increase reported for 1940, which was the largest in the company's history.

The company continued its enviable record of never having had a default of either interest or principal on any bond owned by it. The report also shows that the company carries no real estate in excess of current market value and that it continued to earn a rate of interest during 1941 in excess of 4 per cent.

During the past year, the company continued to pioneer innovations in the field of legal reserve life insurance business. At its annual agency convention held in Galveston during last June, Mr. O'Donnell announced a retirement program for agents which has been nationally acclaimed as one of the leading pension plans to be adopted in the industry. The company began a sales training program for new agents in 1940 which has attained enviable results, and the institution was one of the first to inaugurate a salary plan for new salesmen, as an income floor to guarantee revenue beneath which they would not fall during their first year in the business.

The company confines its business to the state of Texas and aside from its investments in United States government securities, practically all of its investments are in Texas.

Since 1903, the 39th annual report shows that Southwestern Life has paid out to policyowners and beneficiaries $76,597,298.15.

Quitting Time?

...Not for Us

QUITTING time doesn't mean a thing to your Electrical Company. Twenty-four hours a day, every day of the year, it brings better living to thousands of homes at the snap of a switch. It serves equally in industry, working as one of the most versatile tools ever given man's hand.

In this time of stress, when our whole country is devoted to production, we in the Electrical Industry are proud of the part Electricity is playing in making this land of ours a safer place for democracy. We are proud, too, that we were not found wanting when we were called on to serve.

No quitting time for the buying of U. S. Defense Bonds, either!

PANHANDLE PRESS ASSOCIATION MEMBER

President Roosevelt's address Monday night was a calm presentation of the war situation as it appears at the present time. While not delivered with the same vigor and aggressiveness as some of his former addresses, it was calculated to give no comfort to the dictator nations with whom we are at war. He did not minimize the reverses that we have suffered, yet he called attention to the losses we have inflicted on the enemy and assured the world that this nation and its allies will soon be in position to assume the offensive. He recited some of the heavy blows we have delivered in the Dutch East Indies, and for the first time it was officially stated that already we have many American soldiers there to meet the enemy. He highly praised General MacArthur and his soldiers, both American and Filipino, for the heroic and effective work they have done in the Philippines, and explained to the people of this country that it had been impossible to get reinforcements to MacArthur for the reason that the Japs had the islands surrounded even before they struck at Pearl Harbor. Again he expressed the determination and the confidence that we shall be victorious in this war.

Dr. B. R. Pittenger of the University of Texas and President of the State Teachers Association is quoted as declaring recently that "Democracy must be taught in the school room if it is to be preserved." We agree that it is highly important that it be taught in the school room, and we are gratified that it is being taught in some fashion in many of our schools. We believe that the essay contest staged in the Tahoka schools in which more than three hundred students participated, vieing with one another in setting forth the principles of democracy, provoking them to give much thought and research respecting the great principles on which our government is founded, was one of the finest things that could have been done for our children. The superintendent and the faculty are to be commended for staging this contest.

We can't understand the brand of patriotism of those Pacific Coast workers in machine shops who refused to work on the Washington birthday holiday last Monday because employers refused to pay them double wages. Union laborers had exacted contracts from their employers for double time pay for work done on all holidays. War conditions didn't affect the situation in so far as they were concerned. They still demanded their pound of flesh. When employers refused to pay it, they took out for the day, and 17,000 men working in small industrial plants in San Francisco and Seattle remained idle. Such guys as that ought to be inducted immediately into the army or navy but widely scattered and closely watched so as to be prevented from committing any acts of treason or disloyalty while in the armed forces of our country.

Press reports are that under the advice of physicians, Secretary of State Cordell Hull is taking a rest. He is a sick, over-worked man. A great character and a great statesman is Cordell Hull. It is to be hoped that he is soon entirely well again and that a number of years of service to his country may yet be his lot.

It seems to us that in the teaching of Civil Government in our schools, the teachers have the finest opportunity and the gravest responsibility possible to teach to our children the great principles of justice and righteousness on which our government rests. If the children are made to understand these principles and become imbued with the spirit of democracy in their early years, there is little likelihood that they will "fall" for anything like Nazism or Fascism or any other brand of totalitarianism when they grow up. We are glad that our own school and many others in the land are giving special attention to this matter.

A lot of folks in this country are inclined to criticize Great Britain for her alleged mistakes and shortcomings in this war. But people who live in glass houses can not afford to throw stones. Remember what a mistake we made in not being on guard at Pearl Harbor? Have you noticed that so far we have been unable to stop the pesky little Japs? And our exasperation grows every day as we are unable to get reinforcements to General MacArthur. It's not you, Britain, it's us "a-standin' in need o' prayer" — and guns.

It is still being prophesied in political circles that Judge James V. Allred, former governor of Texas and now a federal judge at Houston, will become a candidate for the United States Senate to fill the seat now occupied by Senator W. Lee O'Daniel. There may be some warm politics in Texas yet, in spite of war and high water.

LEON JENNINGS (re-election)
C. H. (Claude) REAGAN

For Justice of the Peace, Prec't. 1:
P. D. SERVER

Victory Book Campaign Starts In Lynn County

Mrs. G. M. Stewart, director of the Victory Book Campaign for Lynn County, has organized her forces and is making preparations for a drive in every community and every school in the county for books to be donated for the soldiers and sailors in the service of our country.

Lynn County's quota of books has been fixed at 1,325. It is hoped that this quota may be exceeded.

Boxes with appropriate signs thereon are being set up in the stores and various other places of business in Tahoka, O'Donnell, and Wilson, and probably will be placed in business establishments at other points in the county also.

Mrs. Stewart reports that County Superintendent Lenore M. Tunnell will serve as director for the campaign in the schools of the county.

Almost any good book will be acceptable. Among the type of books listed are: Military publications, Current Affairs, English Grammars, Arithmetic, Algebra, Geometry, Trignometry, Calculus; up-to-date technical books, such as short-hand, accounting, lettering and mechanical drawing, photography, cartoons, geography, sports, poetry, travel (for the last ten years), biography (of the shorter and more popular type), history (recent), good fiction; and any of the best magazines.

It is hoped that some one in each community may be found or may volunteer to lead in the campaign in his or her community.

Lynn County's quota should be raised easily.

Yes, we think those French leaders who have shown a friendly attitude toward Hitler will bear watching. And any attempt on their part to deliver the French fleet or any part of it into the hands of Hitler should be forestalled by the United States if possible.

ELDER DRENNON'S NOTES

A few notes to let my friends in good old Lynn County know I am still in the running.

I had a very pleasant letter from my good friend, Mrs. Lenore Tunnell; also a visit from two good friends from O'Donnell, Mr. Jack Miles and wife, whom I was sure glad to see. But the letter and the visit made me a little homesick for Beautiful Texas.

The last note I wrote Brother Hill was too modest to publish, but he acted on my suggestion and gave us some fine thoughts on Christianity in his Odds and Ends column last week. I wish more editors would write along this line.

I believe the only sure defense of any nation is in God; and history tells of the story of nations that have forgotten God, such nations as Israel. The Egyptian Empire, also the Babylonian Empire, fell, besides a host of others.

I feel that if this war shall bring America closer to God, it will prove to be a blessing after all; and I fur God is with us.
ther believe that we will fail unless

The movement of broom-corn is in full swing. We have almost as many bales of broom corn on the ground around the warehouses as we had cotton around the gins in O'Donnell in 1937. But the crop is so badly damaged, the cost of gathering so high, and the price so low, that the farmers are not realizing much out of it.

Yours for more people who will put more trust in God than in the arm of flesh.—R. P. Drennon.

Keep 'Em Reading.

Special No. 3
BRAKE ADJUSTMENT AND TIRES SWITCHED
1. Adjust Brakes
2. Change 4 Wheels
Now only - $1.25

YES SIR! Your old bus will have to keep on rolling or you'll be walking or riding with the neighbors.

WILL YOUR CAR LAST 3 — 5 — 10 YEARS? Your car is in for the duration, maybe 3, 5 or even 10 years. Factories won't be changed back until the war is over. Then it will take months—maybe years—to fill demands.

GET YOUR CAR SET FOR THE DURATION—NOW—The sooner you get your car tuned up for the duration, the less it will cost and the longer your car will last. It is vital that you keep your car in good condition, for yourself and for defense.

A STITCH IN TIME SAVES NINE — MAYBE TEN! Wheels frequently get out of alignment, even on new cars. This means dangerous tire wear. Bad breaks cost much vital rubber. And tires should be switched from wheel to wheel for maximum wear.

WITH OUR NEW AND MORE CONVENIENT Grease rack, we are better prepared to give you the satisfying service you have always wanted.

Let Us Check Your Car Over Now! Just Phone Us.

No One Hurt In Car Wreck

It seemed like a miracle that no one was seriously hurt when a Plymouth car driven by a tourist, Mrs. Robnett, who said her home was 80 miles northwest of Dallas, struck a car driven by a Mexican on the highway about eight miles south of Tahoka Wednesday afternoon.

Mrs. Robnett was coming from Big Spring and was destined for Lubbock, where a son and a daughter reside when she noted a car stopped by the pavement ahead of her. Seemingly without seeing her car, the driver started the parked car and started to turn it on the highway. Suddenly sensing the danger, she honked her horn, decreased her speed, and swerved her car to one side in an effort to miss the other car, but unsuccessfully. Her car struck the front end of the other one and almost completely demolished it, although neither car turned over. Her own car was badly damaged. It was pulled into the garage of the Tahoka Motor Company, for first aid treatment, and her son in Lubbock was called.

One of the lenses of Mrs. Robnett's glasses was broken but she received no personal injuries. The Mexican driver was also uninjured but his daughter, who was in the car with him, received some bruises on the face.

Mechanical Training School Revived

The mechanical training school which was started in Tahoka several weeks ago but which was suspended for a time has been revived and is now elicting much interest.

It is being operated as a high school project under the direction of Broadway Browning teacher of Vocational Agriculture. Jack Corley has been engaged as instructor and he is giving the training lessons in the Bovell Buildin next door south of the Tahoka Bakery.

The building is now being reconditioned in the interior to meet the needs of the school.

There are now 31 men and youths enrolled for the training, and lessons are being given every night. A course covers a period of ten weeks.

Youths who take this training almost invariably get ratings when they enter the army or get jobs in industrial plants engaged in the production or repair of war equipment and hence the training is very valuable from a financial standpoint.

Mr. Corley had experience in training youth in this kind of work in World War No. 1, and he is an expert at the business.

There is no age limit for students, Mr. Corley says, and even married men may take the training.

It certainly offers a wonderful opportunity for youths who are mechanically inclined.

Mr. and Mrs. J. L. Nevill, Mr. and Mrs. Everton Nevill and Ray and Miss Jennie Reba went to San Antonio Saturday afternoon after getting word that their son and brother expected to be moved soon. They returned Sunday night, reporting that, although some men were moved, Elwayne is still at Randolph Field for the time being.

Tahoka Students Give Radio Program

Members of the Future Farmers of Americe and of the Future Home-Makers of the Vocational Agriculture and Home Economics departments in the Tahoka High School gave a fifteen minute program over KFYO, Lubbock, beginning at 3:15 o'clock Tuesday afternoon.

Charles Reid of the F. F. A. acted as master of ceremonies, or director.

"Dub" Fulford discussed "More Eggs for National Defense," while Jasper Nixon's subject was "More Dairy Products for National Defense."

Ray Fern Pennington of the Future Home Makers talked about "Food Preservation," and Lois Sproles about "Foods for Nutrition."

Each of these discussions had not only been well prepared but they were well delivered. The students performed like veterans. Too often, when amateurs undertake to give a radio program, they fall into a singsong tone as they read their manuscripts, but these students talked naturally and did not stumble and stammer along in their reading as some do.

It was a program that did credit to the students and to their teachers, Leslie Browning and Miss Lucille Wright.

MONTGOMERY DAUGHTERS VISIT IN HOME

Will Montgomery came into the office Wednesday afternoon all pepped up, and well he might have been, for all three of his daughters, who are teachers, had spent the week end in the home just northwest of town.

Miss Grace, who teaches at Bronte, was accompanied by her room-mate, who is also a teacher in the Bronte school. They had roomed and taught together three years at Sylvester before going to Bronte.

Miss Marietta is teaching her fifth year in the Brownfield school, and Miss Lois is teaching at Tuscola.

It was a most happy reunion of the family.

WALTHAL LITTLEPAGE IS PROMOTED IN AIR CORPS

The News has received the following communication from Capt. C. L. Prichard, Air Corps Recruiting Officer, Advanced Flying School, Lubbock.

"It gives me great pleasure to announce that Corporal Walthal L. Littlepage of this station has passed the examinations for Flying Cadets with a very high score of 98 points and will be placed on an eligible list for training at Kelly Field, Texas, as an officer in tre Army Air Corps.

"Corporal Littlepage has an excellent record as a soldier and will undoubtedly make an excellent officer."

Paul R. Johnson, of Route 3, has moved to Comanche County, where he has bought a farm.

Congratulations To . . .

Mr. and Mrs. Wade Holland on the birth of a son in Lubbock General Hospital Saturday morning. He weighed 7 pounds and 10 ounces and has been named Charlie McCoy Holland.

Mr. and Mrs. Ben Moore of Tahoka, Route 5, on the birth of a nine pound daughter at Tahoka Clinic on February 23. She will be called Sandra Anne.

At the Churches . .

BAPTIST CHURCH

Services at the Baptist Church will be held hereafter as follows:

Sunday School ..... 10:45 a. m.
Preaching Service ..... 12:00 M.
B. T. U. ..... 7:30 p. m.
Preaching ..... 8:30 p. m.

Other services are timed accordingly. No change from real time heretofore.

Baptist Revival Starts

With Rev. Clyde Jackson of Abilene doing the preaching, revival services began at the Baptist Church Wednesday night. A fairly good crowd was present at the opening services.

Melvin Ratheal is directing the music, with Mrs. Ratheal at the piano, and the choir work promises to be excellent.

Rev. Geo. A. Dale is very hopeful that this will be a real revival in the church and the town.

Everybody is cordially invited to the services, which begin at 10:00 o'clock each morning and at 8:30 each evening, Central War Time.

Methodist Church

Services will be held as usual Sunday morning. "The Silent Curfew" topic at 12 and Sunday School at 10:45.

The question has arisen about evening services. This Sunday evening we will dismiss for the Baptist meeting. We have been considering having Vesper services before supper from six to seven o'clock which is also before dark. The pastor would be glad to have your reaction to this. Old folks and mothers with small children can attend these services, who could not come at night. Then visitors could visit our services before attending their own church worship. Call your pastor over the phone and talk to him about it. No change will be made until announced from the pulpit and paper.—Geo. E. Turrentine.

Presbyterian Church

Rev. W. B. Gray, pastor of the Presbyterian Church of Tahoka, will fill his regular appointment here next Sunday, March 1.

The Adult Union Sunday School Class will meet at 11 o'clock. The Morning Sermon at 12 (Central War Time). Topic of the morning sermon will be "The Life That Counts." The evening service starts at 8 o'clock (CWT). Topic: "Winning a Hard Life." John 4:14-39.

The public is cordially invited.

BAPTIST WORKERS CONFERENCE WILL MEET AT CENTRAL CHURCH

The Central Baptist Church will entertain the Workers Conference of the Brownfield Baptist Association next Thursday, March 5.

"A challenging program has been arranged," stated Rev. Frank Thomas, the pastor, in making the announcement.

Rev. R. I. Riley of Allred is scheduled to preach the Conference Sermon and Rev. Clyde Jackson will bring an inspirational message at 3 p. m.

The Conference will begin at 11 a. m. Central War Time.

Rev. Frank Thomas just recently accepted the pastorate of the Central Church for full time. There is preaching there every Sunday now.

SUDDARTH SPEAKS IN SEMINOLE M. E. CHURCH

Ushering in the observance of "Laymen's Week," W. E. Suddarth of this city spoke in the Methodist Church in Seminole at 11 o'clock last Sunday morning.

Mr. Suddarth is regarded as one of the leading laymen in the Lubbock district and is rendering a great service among the men of his church.

Mrs. Jane Minor, proprietor of Jane's Beauty Shop, has had several blood transfusions in the hope that they would have the desired effect, but reports are that her condition has not improved as had been hoped. She was stricken with heart trouble a few weeks ago.

Lloyd Leath, who has been residing for some time out on route four, has moved to Kaufman County, near Terrell.

Anniversary Service at O'Donnell Assembly Of God Sunday

Sunday, March 1, marks the close of the first year for the Assembly of God Church in O'Donnell. To commemorate the achievements of the past year, the pastor, Mrs. Clara Newton, is announcing an all day service with basket lunch at the noon hour. District Superintendent H. M. Reeves, of Plainview, will be speaking in the morning at the eleven o'clock service. Rev. Homer M. Sheats, Sectional Presbyter, and pastor at Big Spring, will be speaking in the afternoon, and the Evangelist who is in a revival at the local church, Rev. H. Paul Holdridge, of Plainview, Texas, will speak at the evening service. The subject to be discussed at the evening service will be "Blackouts in America."

The Church, with its pastor and congregation, cordially invite the entire public to attend this anniversary service, as well as the Anniversary Revival now in progress.

ELIZABETH LINK ACCEPTS POSITION IN HEALTH UNIT

Miss Elizabeth Link has accepted a position in the office of Mrs. Gladys Davis, health nurse for the Palo Pinto-Parker Counties unit, at Mineral Wells. Miss Link will be a clerk in the office.

Miss Link is a graduate of Tahoka High School and has had considerable experience in clerical work. She is a very capable young woman, and her many friends here know that her work in the Palo Pinto - Parker health unit will be well done.

MRS. INEZ KNIGHT UNDERGOES OPERATION

The condition of Mrs. Inez Knight, who has undergone three operations for sinus trouble in the West Texas Hospital recently, is said to be improving.

Mrs. Knight was taken to the hospital about the middle of last week suffering intensely from the affection. It is hoped that she will be able to come home within the next few days.

Veteran Editor Dies Last Week

Funeral services were held at the First Christian Church in Snyder last Friday afternoon for Ben F. Smith, 69, veteran newspaper man, who died the preceding Wednesday night of a heart attack.

Smith was a native of Arkansas but came to Texas in early life and entered newspaper work at Weatherford when he was 16 years old. Later he published newspapers at Rosenberg and Wallis in South Texas and then became connected with the Firm Foundation in Austin. His next newspaper adventure was with the Manor Enterprise, and he came to Snyder in 1908, where he purchased the Snyder Western Light.

Then he bought the Lockney Beacon and published it for more than a decade. He returned to Snyder in 1923 and founded the Scurry County Times. A little later he sold that paper and founded the Slaton Times, which he published only a few years, selling it and retiring from the newspaper field. He came to Slaton soon after the present owners of the News came to Tahoka, and we were neighbors in the newspaper publishing business.

For a few years he engaged in other business and then was compelled to retire on account of ill health.

All together, he was in the newspaper business for more than forty years.

He was a brother of the late Judge Fritz R. Smith of Snyder, who was also well known throughout this section of the state.

Mrs. H. P. Caveness has been sick in her home the past ten days or two weeks. She has been able to be up a part of the time, however. A little grandson now in their home, Bob Dixon, has recovered from a mild attack of bronchial pneumonia.

Z. R. Ingle, who had been residing on Route One, east of Tahoka, writes the News that he has purchased a home in Norman, Okla., and requests us to send his paper there in the future.

James Minor Now In Fort Blanding

Along with other Tahoka boys and thousands of other soldiers, Lieutenant James Minor, son of Mr. and Mrs. John W. Minor of this city, was transferred early last week from Camp Bowie to Camp Blanding in Florida, according to his mother.

James, who made a record here and at Howard Payne College as a student and a football player, was inducted into the army in November, 1940. Within a month he was made a sergeant. In March, 1941, he was advanced to the rank of a second lieutenant. Last September he was promoted to first lieutenant.

His advancement has been steady and his many friends and admirers here are expecting him to render distinguished service if and when he is ever sent to the fighting zone.

Mr. and Mrs. Garland Pennington received word from J. C. Womack that he has been transferred from an air station in Oklahoma to Goodfellow Field at San Angelo, where he will receive his basic training

QUALITY CLEANING

When you send your clothes to the cleaner, you want quality work at a reasonable price. Our aim—always—is to give our customers the best there is in cleaning service.

Measles Epidemic Is State-Wide

AUSTIN, Feb. 25 — Measles in Texas has reached a mild epidemic stage at present with outbreaks following closely the main lines of travel across the State, according to information made public today by Dr. Geo. W. Cox, State Health Officer.

"The peculiar pattern of this spread of measles re-emphasizes the fact that it is a contagious disease, passed on from one person to another," Dr. Cox said. "Guard against exposure by avoiding contact with measles patients."

Doctor Cox said that measles alone is not necessarily a dangerous disease, but dangerous complications, such as streptococcus, mastoiditis, and pneumonia which frequently follow, make it a disease to be carefully nursed, with close attention from a doctor.

"Unskilled treatment of a plain case of measles can result in, complications which often kill," Dr. Cox warned, "and it is not to be regarded lightly as simply another childhood disease."

Doctor Cox urged parents to carefully watch children exposed, and at the first sign of temperature, flushed face, sniffles, or watering eyes, advised that the child be put to bed immediately and placed under a doctor's care.

LEAVING FOR CALIFORNIA

Kenneth Couch and C. D. Sparks, both of the Three Lakes community, last week completed courses in a welding school in Amarillo and will leave the latter part of this week for California, where they expect to obtain employment as welders.

J. B. Nance was down town for the first time in several days Tuesday looking as if he might be nursing a case of the mumps. But not so; he had had some teeth extracted last week, just 29 of them, and he was complaining of a slightly sore jaw—was inclined to blame the dentist. He ought to be extremely thankful. That would have killed the toughest mule in Texas.

Mrs. A. L. Dunagan was called to Hillsboro Sunday by the serious condition of her mother, 81 years of age, who is suffering from heart trouble.

Corporal Joy Edwin Brown Weds

Corporal Joy Edwin Brown was married to Miss Dolly Clements in Big Spring at 12:30 noon, on Thursday, February 19, according to a message which he sent to his mother, Mrs. Pearl Brown, the next day.

A day or two following his marriage, Joy Edwin returned to Fort Bliss, while Mrs. Brown remained in Big Spring, where she is employed as a beautician in the Colonial Beauty Salon. She was reared in Snyder and is a graduate of the Snyder High School.

Joy Edwin was reared here and is well known to nearly everybody in and around Tahoka, and they wish him the best that life affords.

MASTERFUL ACHIEVEMENT

In less than seven weeks following the attack on Pearl Harbor, some 600,000 troops were moved within the boundaries of the United States. That feat is unparalleled in the history of the country—and, as David Lawrence writes, it "must be credited to the railroads of America, their executives and their workers. Nearly all of the railroads involving more than 200,000 miles of track, were used. Seventy-five per cent of the soldiers actually had sleeping accommodations, and the remainder traveled in day coaches, so not a single company had to be moved in freight cars, as was the case in the first World War. . . .

"The colossal job is difficult to describe. It was a mammoth task in planning and administration. The Association of American Railroads, acting for all the railroads, sent out orders and worked on a 24-hour basis. . . . The odd part of it was that the public hardly noticed the movement because delays to civilian traffic were the exception rather than the rule. . . . There was no confusion, no lost trains — every moment in the day the authorities could keep track of every contingent . . .

"The railroads get half fare for the troops and it probably cost them a great deal of passenger revenue, but when the government called every thought except the military purpose was subordinated. It was a masterful achievement."

Twenty years of planning since World War 1 went into that achievement—20 years of work and preparation. The railroads didn't wait for war to come before adapting themselves to war. They were ready long before the first enemy bomb fell in the Pacific.—Industrial News Review.

SNOWBIRDS OF CANADA

From the young men who used to spend their winter week ends skiing in the snow-covered hills of Canada, the Dominion has created a body of ski troops who are second to none. Long experience in this popular sport made it easy for these men to adapt themselves to the conversion of skiing from a pastime to the sterner purposes of war. Already they have proved their value in Iceland and many thousands of them are ready to demonstrate their merits in other theatres of war if necessary. The photographs show a platoon of ski troops on manoeuvres and a sniper who would be very difficult to spot.

H. A. Winkler of New Lynn reports that his son-in-law and daughter, Mr. and Mrs. W. T. Vail of Lubbock, have just moved to Washington, D. C., where Mr. Vail has a job in the Navy Yard.

Jimmie and J. C. Gaither are here from Bakersfield, Calif., visiting in the home of their brother, E. B. Gaither, and family.

Lonnie Davis is home from California for a few days to visit his mother, Mrs. Ella Davis.

Our Boys Want Books.

PUBLIC SCHOOL LANDS OFFERED FOR SALE

H. Lee Richey of the State Land Office was a business visitor in Tahoka last Friday and called at the News office. Mr. Richey was distributing notices of the sale of public school lands situated in many counties in Texas. Nine of these tracts lie in Lynn County.

Applications must be made to Bascom Giles, commissioner of the general land office, Austin, Texas, and must be in his office by April 8.

Explosives Licensing Agents Appointed

Judge Chester Connolly and County Clerk Walter Mathis each received notice Monday from the Department of the Interior, Bureau of Mines, Washington, D. C., of their appointment as licensing agents for the sale and purchase of explosives.

Under the law and regulations now existing, no person can sell nor purchase explosives of any kind except ordinary gun shells, without having first obtained a license to sell or purchase the same.

Any person desiring a license to sell or to buy any explosive must first make application to Judge Connolly or Mr. Mathis, who will issue the license upon being satisfied that such explosive is to be used for legitimate purposes and upon the payment by the applicant of the nominal fee provided by the law.

The County Judge and the County Clerk are the only two men in Lynn County who have been authorized to issue such licenses.

Dr. K. R. Durham has been confined to his bed for several days with pleurisy.

Cotton Report

A few bales of cotton are still being ginned here each week, and while we were unable this week to get the exact number of bales that have been ginned here the past season from the crop of 1941, the total is approximately 14,400 bales.

TRUETT GILES GETS PROMOTION AT SHEPPARD FIELD

The News early this week received the following communication from Sheppard Field, Wichita Falls.

"Truett A. Giles of Rural Route 2, Tahoka, was promoted on February 14 to the rank and grade of sergeant. He is assigned to duty with the 312th School Squadron at Sheppard Field, the world's newest and largest Air Corps Technical Training School.

"Sergeant Giles is the son of Mr. and Mrs. J. A. Giles of Tahoka and attended Draw-Redwine high school. His duties now are: Instructor in A. C. T. S. engine repair branch."

J. L. Reese, caretaker of the Baptist Church building, is confined to his room with sinus trouble.

Billy Hill Writes About Naval Training Station

The News publishers on Tuesday received a communication from Billy Hill, former Linotype operator in the News office, who is now in the Naval Training Station at Norfolk, Virginia. It was written Sunday.

We take the liberty of publishing a few paragraphs from his letter, which doubtless are of more interest to the publishers than to the public generally, though they may contain some information of general interest.

'By what the papers say," Billy writes, "the U. S. Navy is now really going to town sinking those Jap ships. Paper this morning says 19.

"I imagine that you could hardly believe it, but I am writing this letter before sunrise this morning. I have already eaten breakfast, as we get up at 4:00 o'clock or 4:30, according to the time we eat 'chow.' (At home, Billy had the habit of staying up late at night, either working or playing, and always got up late in the morning.)

"Our training is over with the exception of a few more lectures, and learning how to read flag signals, and a few other little things. We will break from Boot Camp next Thursday (February 26). However, we don't have any idea of what will happen or where we will go or when we go after we break. We were supposed to get leave or liberty yesterday, but we are quarantined for the measles.

"Now about our quarantine: We eat, sleep, stand guard and associate with other platoons nearly all the time as usual, but we can't go to the show, or canteen, or post office, or basketball, or have liberty. (And the rest of the paragraph indicates that all this is getting under Billy's skin a bit.)

"Boy, it is quiet here since about 40 of the men in our Platoon have left. They are to be shipped to several different points over the country. There are only about 40 of us left now (in his platoon) and the ship looks and seems deserted with so many bunks empty. 'Ship' means dormitory or barracks. Buildings are referred to as 'ships', floors are called 'decks', and chicken is 'sea gull'. Everything has a name of some kind other than what the people on the outside would call it.

"There is one thing I like about being in quarantine, and that is: we don't have to do K. P. duty.

"Our barracks are only a few blocks from the air station, and when the planes take off over us, they nearly deafen us, and they keep us awake nearly every night, but we don't mind that.

"I haven't seen any of the Tahoka boys txcept James Lamb and Holloway of course. (Holloway and Bill have bunks near each other). However, I saw James only long enough to say 'Hello'.

"I had a letter from E. I. the other day and he was leaving for Chicago, Indianapolis, Detroit, Grand Rapids, and several other cities, to OK some printing that is being done for the Government. (E. I. has long been employed in the Government Printing Office in Washington).

"I don't know whether I will get any leave or not. 'Liberty' is less than 24 hours; 'leave is over 24 hours. I hope that I can get a few days leave after we break so I can go up and see E. I. However, I know that I can't get over a 72-hour leave.

"We have been shown how our ships are built so that they are very hard to sink — they say, and it is easy to see why—that it takes a lot more than a few torpedoes and bombs to sink a U. S. ship. Of course this is the larger ships, but the small ones are just as hard according to their sizes. It is almost impossible to destroy one, unless the crew fails to do their job, and then of course in that case she would go down . . .

"The main things to keep a ship afloat is to keep the GUNS and the ENGINES going. If either stops the men just might as well jump overboard, we are told. Of course that will not happen very many times . . . Any way I am convinced that a ship is not as likely to be sunk as I thought it would. In fact, I am still amazed to find out how hard it is to sink one of them. We are told that even the old destroyers we sent to England were just as seaworthy as anything anyone else had except our newest types."

In some of the deletions he expresses the opinion that not as much damage was done to our Navy at Pearl Harbor as the public generally thinks. It is evident that he has formed a healthy and even robust opinion as to the efficiency of the Navy, which is as it should be.

He asks that we tell everybody here "Hello!"

REVIVAL IS ANNOUNCED FOR GRASSLAND CHURCH OF THE NAZARENE

A revival meeting will begin at the Church of the Nazarene in Grassland next Wednesday night, March 4, according to announcement made by the pastor, Rev. Arch Gibson.

Rev. C. C. Knippers of Lawrenceburg, Tennessee, the evangelist, is a widely known and very successful preacher.

"Good singing is always a special feature at the Nazarene Church," the pastor stated, and good singing may be expected throughout the revival.

Services are to begin each evening at 8:30 o'clock Central War Time, and each morning, beginning Thursday, at 11:30 Central War Time.

Pastor Gibson has been with the Grassland Church about three months.

CARD OF THANKS

We want to express our sincere thanks and appreciation to our many friends and neighbors for the kindnesses shown us in the sickness and death of our precious mother, Mrs. Pete Wetsel. Especially do we want to thank Dr. Prohl, Mrs. Jim Dye, and Bro. and Mrs. Atkisson for their loving kindness. — Jim Wetsel and family, Mrs. Lee Faye Gray and family.

Mrs. George Knignt left Wednesday morning for the bedside of her mother, Mrs. A. A. Gray, at Rotan, who had suffered a stroke of paralysis on Tuesday afternoon. Another daughter at Evansville, Indiana, had been called also. Mrs. Gray is 85 years of age and was not expected to survive the attack.

BLACKBURNS MOVE TO LUBBOCK

Horace Blackburn and family removed from Tahoka to Lubbock Monday, where Mr. Blackburn has accepted a position with the Furr Food Stores, work to begin on March 1. In the meantime, he and family are visiting relatives at their former home, Madill, Oklahoma.

Mr. Blackburn has been employed the past eight or ten months with the A. L. Smith Food Store here. He and family came from Madill to this place last spring or summer, and they have been valuable citizens of our town. Many friends here regret their removal from our little city.

Federal "All-Risk" Cotton Crop Insurance Now Offered Farmers

Boll weevils and insects will be out of luck this year as far as insured cotton farmers are concerned, Derrell C. Henry, County Administative Officer, Lynn County A. C. A., said this week.

Last year boll weevils and insects picked a lot of cotton in Lynn County, but this year it'll be different if the cotton crop is insured, Henry said.

The Federal Crop Insurance Corporation has been writing wheat insurance since 1938, but cotton insurance is being offered for the first time this year, Henry said. Under the program, either 50 or 75 per cent of the normal yield as established by the insurance corporation for a farm may be covered by insurance.

Federal "All-Risk" Insurance protects farmers from all unavoidable hazards such as frost, drought, insects, plant diseases, storm, wind and hail. It does not, however, protect farmers from losses due to poor farming practices or use of inferior seed.

With nearly one out of every two dollars being spent in our war program, farmers can't afford a crop failure this year, Henry remarked. Individual yields and pemium rates have been established for every cotton farm in the county, Henry said in pointing out that through this method each farm would carry it's own risk cost.

Farmers in Lynn County desiring Federal "All-Risk" Insurance may secure this insurance at the County A. C. A. office. The closing date for taking out cotton crop insurance in Lynn County is March 31, 1942, and will not be changed, Henry said.

Producers will be notified this week of the yield and premium rate established for their farm.

JIMMIE SHOOK IN MEDICAL CORPS AT CAMP BARKELEY

Jimmie Shook, formerly of the Deen Nowlin office here, who recently volunteered for service in the Army, has written friends from Camp Barkeley, Abilene, that he is in the clerical department of the Medical Corps there.

A friend is sending him the Lynn County News, and after receiving the first issue he wrote back to the general tenor and effect that he had devoured it avidly from kivver to kivver. Many friends here are wishing Jimmie the best what is.

NEW HOME 4-H CLUB

"Foundation plantings are the plantingr around the basis of a building," stated Miss Maurine McNatt, Home Demonstration Agent, at the New Home 4-H Club Tuesday, February 17, at the school. Foundation plantings break harsh angles and corners and make the house blend into the surroundings. They serve in effect to tie the house to the ground.

Shrubs should be selected for hardiness, suitability to locality, for height, flowers, fruit and foliage characteristics.

Twelve members were present. Those present were Betty Jeanne Mitchell, Eudania McCormick, Dorothy Helen Holcomb, Betty Mary Fillingham, Peggy Ruth Willis, Fernova Balch, Norma Sue Burkhalder, Lorreta Woodson, Ruth Parham, Lois June McClellan, Marjorie Busby and sponscr, Miss Rosa Renfrow.

—Reporter.

Mr. and Mrs. Kenneth Crouch, who have been living in Amarillo, and Mr. and Mrs. Kingston Crouch and baby of Tulia, visited Mr. and Mrs. E. D. Couch of Three Lakes Sunday. The men are their sons.

STOP TEASPOON WASTES

Homemakers in this country are challenged to refute the old saying: "A woman can throw out more with a teaspoon than a man can bring in with a shovel." Miss Maurine McNatt, County Home Demonstration Agent, says it's largely up to the woman to avoid teaspoon wastes. Small losses multiplied in 34 million homes can amount to wastes which stagger the imagination.

Here are some suggestions she offers to the homemaker:

Long time planning of production of food on the farm, planning for storage arrangements in the home, careful planning of meals for a week or several days rather than for one day at a time, and planning for food buying. Plan shopping lists in advance and don't order by telephone or you likely won't get the best selections. Don't do all your shopping at one store.

Read all labels carefully, and as often as possible buy by official government grades fixed by the Agricultural Marketing Service. Notice cost per ounce as well as cost per can.

Buy fruits and vegetables in season, for out of season they are likely to be, expensive and poor in flavor and quality. Instead of by the bunch or piece, try buying by the pound.

Investigate the possibility of saving by buying in quantity provided you have available cash and ample storage room. Learn about the uses, food values, and limitations of food substitutes such as oleomargarine for butter, and cheaper cuts of meat for the more expensive.

When food has been purchased there is still plenty of opportunity to prevent waste. Perishables should be put into the refrigerator immediately. Outer leaves of cabbage and lettuce should be saved and used. Potatoes and apples should be peeled thin or not at all. There is waste in lemons and oranges from which the juice is only partially squeezed and the pulp not removed. Mixing bowls should be scraped carefully. Homemakers should save fats, bread crumbs, pan drippings, and the liquid in which vegetables have been cooked.

Directly or indirectly poor cooking is responsible for lots of food waste. For example, when meat is improperly cooked at too high temperatures, it shrinks more than is necessary, which means fewer servings per pound.

Cook Meat The Modern Way

Tender cuts of meat such as rib, loin, tender loin, rump and inside round should be prepared in dry heat—roasting, pan broiling or oven broiling. Less tender cuts of flank, neck plate, brisket, short ribs, shank and outside round are best in moist heat—stewing or braising.

The secret in successful meat broiling lies in moderate temperature. however, the meat itself has a lot to do with that tender juicy perfection in meat. Tender steaks and chops, one to two inches thick should have plenty of fat which is well distributed. If less tender cuts are broiled, they should be ground with suet. These are the methods Miss McNatt recommends: Preheat the oven, setting the control at 500 degrees F. and allow 10 minutes for heating. Cut down temperature to 300 or 350 degrees F. Prepare the steak, cutting through the fat and connective tissue on the outside edges about every inch. Oil the broiler rack and place the meat on it. Adjust the height of the broiler so that the upper surafce of the meat is three inches from the source of heat.

Keep the oven door closed when broiling at this low contact heat. Cook the meat without turning for slightly more than half the time. Then turn and broil the other.

Pan Broiling

Heat heavy frying pan sizzling hot. Grease pan lightly with fat meat. Place meat in hot pan. Do not add water or cover pan. Brown nicely on both sides. Reduce temperature and cook slowly, turning from time to time. (Do not stick fork in meat in turning). Sprinkle with salt and pepper. Serve on hot platter with cooked whole vegetables and fruits or garnish with parsley.

The time required to broil steaks depends on the thickness of the cut, the temperature used in broiling and the degree of doneness desired. A one inch beef steak should require about 30 or 40 minutes to broil at 300 to 350 degrees F. to the medium stage.

Winning Essays In School Contest

The winning essays in the recent contests conducted in the fifth, sixth and seventh grades and in the four grades respectively of the Tahoka high school have been furnished the News, and some of them at least will be published.

More than 300 pupils participated in these contests, and their productions are the work of their own research and study. Those furnished the News show much merit, and they show that the pupils of our school are thoroughly imbued with the spirit of Americanism.

The essay which we publish this week is that of James Wells, which won first place in the Senior Class division. The subject of all high school essays was:

What Democracy Means To Me

According to the dictionary, democracy is government by the people; also, practical or social equality as opposed to aristocracy; as, the United States is a democracy.

Although the people of the United States have known this all their lives, they have taken it for granted until recently. We looked on our democracy as we did the sun, the moon, and the stars. We had had it all our lives. It was part of our very existence. Now that it is threatened, we realize what it means to us.

Democracy is freedom, and freedom is liberty and independence, two of the most vital factors in the development of the human race. It gives us the right to put forth our best, to develop our talents, and to give our good to the world. If we did not have liberty and independence, we would never leave the circumstances surrounding our birth. And many of our greatest people were born in ignorance and poverty only to overcome them.

Democracy is the right to worship as we want to, just another form of liberty and independence. Any system of faith and worship can be ours in this democracy.

Democracy allows free speech and freedom of the press. Under our democracy we have the right to express ourselves both in voice and in print. It is not necessary that our ideas be the same as those of the one in power. We have tre right to express ourselves regardless of who might or might not agree with us.

The foregoing statements are some of the major factors that make up a democracy. There are millions of minor factors that can be put together to make a democracy. One of these is our home. Every man is master of his own home in this democracy. He may be a small man working for some big corporation. In this business he is just a small cog in big machinery, but at home he is "the man." This state of being preserves his freedom and independence.

We have our free education, which enables the poor as well as the rich to develop their abilities and keep their ambition. It lets us do for ourselves. Education is something that once you get it no man can take it away from you.

Is there any reason that we, the people of the United States, would not love and cherish this democracy? The awful act committed by Japan on the United States on December 7, 1941, was enough to prove what we think of our democracy. We have been divided among ourselves and expressed ourselves accordingly, but once threatened, unite as one behind our beloved President. There is not an American citizen who would not lay down his life to preserve the democracy of ours. We are now a united people and must give our all until our democracy is again free of all danger from a war-mad world of power-crazed dictators.

Total University of Texas enrollment for the current long session is 10,042 individuals, only 104 fewer than for last year.

Navy Is Offering Boys Opportunity

Retirement at age of 37 with pay of $63.00 per month, increased to $110.25 at age 47, is now open to 17 year old youths who choose the Regular Navy for enlistment and make a career of the service. Older men may plan on retirement at corresponding older ages, the recruiting officer in charge of the U. S. Navy Recruiting Station at Lubbock announced.

Enlistments in the Regular Navy are for service until 21st birthdate of those between 17 and 18 years of age. Those who have passed their 18th birthdate are enlisted to serve for a period of six years. Age limits for first enlistments in the Regular Navy are from 17 to 31 years. Parents' consent is required for those under 21 years of age.

Men who desire to serve in the naval service only during the period of war may still enlist in the Naval Reserve and will be released to inactive duty and returned to their homes as soon as their services can be spared. Age limits for enlistment in the Naval Reserve are from 17 to 50 years.

The average tractive power of locomotives has increased almost forty per cent in the past twenty years, according to the Association of American Railroads.

Dedicated to Service for VICTORY!

Santa Fe

From the farms . . . the ranches . . . small communities . . . large cities and industrial centers America is answering the call to victory.

The things you grow, the work you do is daily becoming more important to the aid of our nation. This community, whatever its service may be to our nation, will find Santa Fe ready and able to perform the transportation services needed.

For the transportation tasks at hand and for those ahead, Santa Fe has dedicated its services to victory!

A WEEK OF THE WAR

Secretary of War Stimson told his press conference this nation is confronted with a situation in which we cannot "buy our way out or produce our way out," and the only way left is to "fight our way out by intelligent offensive action." Every effort is being made to build powerful armed forces, he said, and when conditions warrant, they will 'seize every opportunity" to strike at the enemy. In the meantime, the U. S. must be prepared to take sporadic attacks along its coasts, Mr. Stimson said, because "if we scatter our forces for the defensive, it is the surest way to defeat."

President Roosevelt told his press conference that under certain conditions enemy planes could bomb cities as far inland as Detroit, or enemy ships could shell New York City. Congress completed action on the $100,000,000 appropriation for the Office of Civilian Defense, to provide fire-fighting equipment, gas masks, protective clothing and emergency medical supplies.

Assistant Secretary of State Berle, speaking in Des Moines, Iowa, said the U. S. is determined to fight an aggressive war, rather than a defensive one, and "the fruits of victory will be available to every free people throughout the world." Mr. Berle said, "We can no longer think of ourselves as a supply base . . . Our work is more than that of making guns and planes and tanks. Winning the war is now America's job." He said all signs point to big offensives this spring against the United States.

✣

Foreign Relations

President Roosevelt announced a new loan to Russia is planned because the original Lend-Lease authorization of a billion dollars has been obligated for future deliveries. Commitments for making American war materials available to Russia were maintained up to schedule until December 7. Delivery of supplies for the Soviet Union slowed down in December and January, he said, but will be brought back up to schedule by March 1. Under Secretary of State Welles said answers from the Vichy Government to this country in regard to French aid to Axis forces in North Africa were consideed unsatisfactory. Mr. Welles said the French Ambassador had reported, however, no commitments have been made by the French to Japan in regard to Madagascar.

✣

Production and Conversion

The War Production Board announced war production of the "big three" automobile companies—General Motors, Chrysler and Ford—will be running at a rate of almost $11 billion when they reach peak production on present orders. The companies will need 900,000 to 1,000,000 workers as compared with a peace-time peak of 550,000. The Board said war expenditures authorized by Congress, including pending bills and Lend-Lease, totaled $145 billion on February 15. Chairman Nelson issued a set of regulations regarding the employment of dollar-a-year men by the government. The Army Ordnance Department ordered ordnance chiefs to the 13 districts of the U. S. to provide engineering assistance to small manufacturers whose plants could be converted to arms production.

✣

Army

The House passed and sent to the Senate the new $32 billion War Appropriation Bill which provides $23 billion for the Army and more than $5 billion for Lend-Lease. The Senate passed a bill to authorize payment of allotments for one year to dependents of military personnel captured or listed as missing. Voluntary enlistments in January totaled 90,000—double the highest World War 1 figures. The Army announced formation of the 1st Filipino Infantry Batallion at Camp San Luis Obispo, Calif., to provide loyal Filipinos a means of serving in the U. S. armed forces and eventual opportunity of fighting in their homeland. The War Department reported American pilots in the Chinese Air Forces "are giving Japanese airmen their worst licking of the war . . . knocking down more than 10 Jap planes for every loss" of their own. The Army Signal Corps is seeking civilian engineers to fill radio and telephone positions in Civil Service jobs paying $2,600 to $3,900 annually.

Selective Service Headquarters announced new Army physical standards for inductees will permit reclassification as Class 1-A of thousands of men now deferred due to teeth and eye defects. SS Director Hershey instructed local draft boards to defer labor leaders and Government labor liason men to permit continuance of their work in aiding war production and to defer men engaged in maintenance of essential agricultural activities. Men registered February 16 will be called for induction only after local boards have exhausted their existing lists, he said. A lottery in March will determine the order of classification and induction. Questionnaires on vocational experience will be sent to every registrant who has not yet been called for service.

✣

The War Front

Gen. MacArthur reported continuous fighting on the Bataan Peninsula and battery attacks on the fortifications throughout the week. The Navy announced the destroyer Shaw, previously reported lost at Pearl Harbor December 7, arrived at a U. S. West Coast port, is being repaired and within a few weeks will be in service again on the high seas. A U. S. tanker was torpedoed in the Atlantic area, while U. S. forces inflicted enemy losses which included: 10 planes, one large and one small enemy transport and one 5,000 ton cargo ship sunk, and two enemy barges destroyed.

✣

Navy

Navy Secretary Knox said the Navy operating over three-fourths of the globe under the heaviest burden in its history, must now protect U. S. shores and coastal commerce, strategic areas vital to our defense, the American Republics, and the flow of supplies to Great Britain. It must check Japanese aggression until "we can muster our forces and send it hurtling back whence it came." The Navy announced launching of a battleship, four destroyers and a submarine chaser. The Navy said 1,000 Naval and Marine Corps officers and enlisted men and 1,200 civilians in the Pacific war area presumably were taken prisoners of war by the Japanese after December 7. The Portland, Oreg., recruiting office topped all others in January with 114 enlistments for each 100,000 persons in its area. The nation's schools started work on a program to make 500,000 accurate scale models of United Nations' and enemy warplanes for U. S. naval, military and civilian defense forces.

The Chief of Naval Operations ordered representatives of local Naval District Commandants to arrange with ship owners to do preliminary work when ships are in port loading or unloading to speed arming of American merchant vessels. The House passed and sent to the Senate the War Appropriation Bill providing nearly $4 billion to expand the merchant fleet. The Senate passed a bill authorizing an additional $100,000,000 appropriation for erpanded Navy manufacturing and production facilities.

✣

Rationing

Price Administrator Henderson announced three consumer forms for sugar rationing are expected to be printed and distributed by March 7. He said there will be two registrations for rationing cards, one for housewives and another for small commercial users. Petroleum Coordinator Ickes said nation-wide rationing of petroleum products may be necessary if other methods fail to prevent shortages on both coasts. He announced regulations governing sales of fuel oil to all East Coast consumers to keep stocks at a reasonable minimum and to prevent hoarding. The Justice Department said it is prepared to prosecute all violators of wartime industrial regulations including priorities, allocations, rationing and price control.

Protection From Sabotage

President Roosevelt authorized the Secretary of War to move out of vital defense areas any persons believed inimical to the U. S. war effort — citizens and aliens alike. Attorney General Biddle said the FBI has apprehended almost 4,000 alien enemies since the outbreak of the war. Approximately one-third of these are Japanese from California, Oregon, and Washington.

✣

Priorities And Allocations

The WPB froze all stocks of new mechanical refrigerators except those in the hands of retailers, in preparation for conversion of this $280,000,000 industry and its 36,000 workers to war production. All refrigerator production will end April 30, the Board said. It also assumed full control of the entire 1942 raw cane sugar supply, curtailed use of critical materials in manufacture of all musical instruments, and restricted use of natural gas.

Because of proper diet and early dental care, the teeth of the Dionne quintuplets show no signs of decay.

T-BAR 4-H CLUB MEETS

The T-Bar 4 H Club met February 13, at the school house.

Miss Maurine McNatt gave us a demonstration on planting shrubs. Shrubs should not be set in straight rows but should be planted so that a pleasing irregular line can be kept around the shrub masses. All shrub beds should be from 4 to 6 feet wide.

All members were present.

Last Rites Held

(Continued from first page)

cemetery under the direction of W. O. Robertson of the Harris Funeral Home of Tahoka.

Survivors include eight daughters and four sons, the daughters being Mrs. G. W. Shahan of Tahoka, Mrs. Charles Steele of Bakersfield, Calif., Mrs. T. E. Dikes of Tahoka, Mrs. L. J. Baggett of Eastland, Mrs. M. L. Dulin of Phoenix, Arizona, Mrs. H. D. Hallman of Post, Miss Mattie Dabbs of Post, and Mrs. R. H. Richards of Lubbock. The sons are: Sam Dabbs of Las Cruces, New Mexico, Bill Dabbs of Hobbs, N. M. and Charlie Dabbs and Herman Dabbs, both of Post. One son born of her first marriage is dead.

Also surviving are two sisters, Mrs. H. P. Townsend of Arch, N. M., Mrs. Sim Dabbs of Eastland, and a sister-in-law, Mrs. L. V. Doyle of Cisco, a host of grandchildren and great-grandchildren, and a number of nieces and nephews .

Mrs. Dabbs was born in Denton County on November 20, 1870. She was married to Lewis Davenport in 1884. After being widowed, she was married to G. W. Dabbs in 1898, who also preceded her in death.

She and family removed from Eastland County to Garza County in October, 1919, and she had lived in the vicinity of Post and Southland ever since. She had quite a number of friends and acquaintances in and near Tahoka by reason of her visits with her daughters, Mrs. Shahan and Mrs. Dikes, near Tahoka.

For many years she had been a devoted member of the Church of Christ and was greatly loved for her fine Christian character and motherly devotion. The relatives have the sympathy of hosts of friends.

The Connollys Hear From Keith

Mr. and Mrs. James "Skinner" Connolly received a censored letter Thursday morning from their son, Keith, written just one month before that date from some point in the war zone in the Pacific. It had been sent first to Washington and thence to Tahoka. Everything that indicated the place or area from which it was written had been cut out by the censor. It was dated "Jan. 25, 1942." The letter follows.

"Dear Folks: I have a chance to write a few snappy words tonight and send it air mail.

"I am O.K. and enjoying my world cruise very much. There is nothing like the army for education.

"Tell Curley and the boys hello.

"Take it easy.

"James K. Connolly
20813591."

Keith had just gone out onto the Pacific a few days before the Pearl Harbor incident, and his whereabouts since that event have never been known. He was in Pearl Harbor a few days before the attack but evidently left there before Dec. 7.

On last Sunday his parents here received the briefest kind of note from him written on a post card on December 14 stating that he was well. Then on Thursday morning came the above letter.

Miss Nellie Richards, daughter of Mrs. S. A. Richards of Southeast Tahoka, is said to be doing as well as could be expected since undergoing appendectomy at a Slaton hospital on Tuesday of this week. Miss Richards had been ill for some time and was taken to Slaton in a Harris ambulance on Monday afternoon.

Rotary Speaker

(Continued from page one)

Watson gave showing the amount of work done by electricity in this country were nothing short of amazing. In fact, such words as "amazing" and "astounding" are inadequate to convey the idea.

These figures became all the more astounding when he translated them into man-power. And yet, he pointed out, we have hardly yet scratched the surface in discovering and utilizing electric power.

One of the lessons that Mr. Watson pounded home again and again during his discussion is that there can be no substitute for work, and that we can save this country and the world not by less work but by more work. The "40-hour week" got no sympathy from him.

"If any of you business men should undertake to run your business on a schedule of 40 hours per week, you know already what would soon become of your business," he stated.

Mr. Watson's speech was so full of startling information and amazing suggestions as to the future, that it would be impossible to give any adequate resume of it in a few short paragraphs. Suffice to say, it was greatly enjoyed and appreciated by his auditors.

Dr. Jim Sinclair of the program committee announced a new feature of the weekly program, to be a presentation each week of a beautiful Rotary pencil to those Rotarians having birthdays within the week. The gift this Thursday went to R. P. Weathers.

Deen Nowlin announced a plan sponsored by the American Legion to secure the pledge of every man possible in Tahoka of a certain amount weekly for Defense bonds and stamps.

Boyd Smith was introduced as a new member of the club.

The Rotary Club is now meeting at 12:05, War Time, each Thursday.

Guests were present from Post, Lubbock, Abilene, and Plainview.

Our Boys Want Books.

MILLIKENS HOLD REUNION

Mr. and Mrs. G. R. ("Bud") Milliken were hosts to almost three score of their relatives on Sunday when Mr. Milliken's brothers, sisters, and families and Mr. and Mrs. Milliken's children gathered in their home in honor of Raymond Milliken, U. S. Marine, who was stationed for some time in Iceland, but was en route to a point in California. On this trip Mr. Milliken enjoyed a three weeks furlough with his parents, Mr. and Mrs. Bonnie Milliken in Wilson, and with other relatives and friends in this section.

Those enjoying the reunion Sunday included Mr. and Mrs. E. N. Milliken of Morgan, Mr. and Mrs. Bonnie Milliken of Wilson, Mrs. Cleta Young of Slaton and Mrs. Charlie Logan of Brownfield, Mr. and Mrs. Callie Milliken and children of Wilson, Mr. and Mrs. Ralph Milliken of Wilson, Mr. and Mrs. Byron Milliken and children of New Home, Mr. and Mrs. Don P. Milliken of Morgan, Mr. and Mrs. G. R. Milliken, Mr. and Mrs. A. R. Milliken and daughter, Mr. and Mrs. W. C. Mathis and two sons of Levelland, Mr. and Mrs. Wilson Edwards of Three Lakes, Mr. and Mrs. Jack Alley Robinson of Tahoka, and Misses Echo, Robbie, Jerry and Dona Sue Milliken, all of Tahoka, and the guest of honor Raymond Milliken.

New Home Students Buy Savings Stamps

Sixty-seven students of the New Home schools have purchased savings stamps to the amount of $52.45 "since the last report," according to a statement furnished the News a week ago.

Leading the list was Floyd Harmonson, who had bought $18.75 worth. Other students had purchased stamps in varying sums running all the way from ten cents to $2.25. Twelve of the pupils had purchased as much as a dollar's worth each.

Doubtless millions of school children throughout the nation are investing in these defense stamps and bonds.
