

Man-In-Spacer Chosen

Tuesday Shot
Is Planned

CAPE CANAVERAL, Fla. (AP) — Air Force Capt. Virgil I. Grissom, slender, terse-talking veteran of Korea, was picked today as the astronaut for the United States' second man-in-space effort Tuesday.

If all goes as planned, the \$820-a-month test pilot known as "Gus" will be shot like a bullet 300 miles southeast over the Atlantic Ocean around 7 a.m.

On the projected flight the 35-year-old native of Mitchell, Ind., will reach a maximum altitude of 116 miles.

For all practical purposes, Grissom's suborbital flight will be identical to the rocket ride taken by Navy Cmdr. Alan B. Shepard Jr. on May 5.

If, for any reason, the 155-pound Grissom is unable to make the flight, his place in the space capsule called "Liberty Bell 7" will be taken by Marine Lt. Col. John H. Glenn Jr., 36, of New Concord, Ohio.

The selection of the 5-foot-7-inch Grissom to become the third human to cross the threshold of space was announced at a news conference by Air Force Lt. Col. John A. Powers, spokesman for the National Aeronautics and Space Administration.

Even as the selection of the tanned, fit-looking father of two sons was being announced, the long and tedious countdown pre-

liminary to launch was under way in the air conditioned blockhouse about 150 feet from the missile launching pad.

There was no immediate word from Grissom, who is not noted for his volubility anyhow, as to how he felt on learning of his selection.

In his most recent published interview, however, Grissom, a 1950 graduate of Purdue University, was asked why he had volunteered to become an astronaut.

He replied: "My career has been in service to my country. And here is another opportunity to serve."

Grissom, who flew 106 combat missions as a fighter pilot in Korea and holds the Distinguished Flying Cross, is married to the former Betty Moore of Mitchell. They have two children, Scott, 11, and Mark 7.

The announcement of Grissom's selection was made before an audience of more than 200 newspaper, radio and television reporters of the non-Communist world.

In the course of the news conference, Powers said the weather and all elements of the countdown "now look A-O-K."

Both Grissom and Glenn received their preflight physical examinations Sunday afternoon after spending most of the day just doing nothing, save for a little surf casting on the beach of this missile center.

Powers also announced these assignments for the astronauts other than Grissom.

Shepard will be at the vital capsule communicator post in the control center and will keep in constant radio voice contact with Grissom during the flight. Scott Carpenter will back him up.

Glenn will be backup pilot for Grissom, as he was for Shepard. Donald Slayton will be at the communicator post in the blockhouse and will maintain voice contact with Grissom when he is in the capsule before the launch. Backing up Slayton will be Walter Schirra.

Gordon Cooper will observe the launching while flying high over the Cape in an F106 jet.

SPACE PILOTS—One of these two astronauts, Virgil I. Grissom, right, or John H. Glenn, Jr., will make next week's suborbital space flight from Cape Canaveral, Fla. They are posing with a boiler plate replica of the Mercury spacecraft. The National Aeronautics and Space Administration released the photograph of Cape Canaveral but did not say when or where it was made. (AP Wirephoto)

Pessimism
Shrouds
Arms Talks

By STANLEY JOHNSON

MOSCOW (AP) — The United States and the Soviet Union opened the second round of their disarmament talks today. An uncompromising editorial in Pravda made chances of success doubtful by insisting on talks on major questions without participation by America's allies.

U.S. Delegate John J. McCloy and Soviet representative Valerin Zorin met in the elaborate Spiridonovka Palace.

They maintained the policy initiated at the first round of talks in Washington earlier this month on making no public statements.

But Pravda has already spoken and it is doubtful if Zorin will tell McCloy anything he could not have read in the organ of the Soviet Communist party this morning.

A U.N. resolution called on the two powers to decide who would take part in general disarmament talks, where and when they would take place and what specific subjects are to be taken up.

The United States does not want to discuss the "substance" of disarmament behind the back of Britain and France. Washington regards these talks in Moscow as primarily procedural. But the Soviet Union has been trying to turn them into a formal two-nation disarmament conference, Pravda reiterated today.

K Besieged
With Notes

MOSCOW (AP) — The United States today handed to the Russians President Kennedy's reply to Premier Khrushchev's memorandum on the German problem and Berlin.

Immediately afterward, the French delivered a note on the same question, and the British did likewise.

None of the Western Big Three embassies would disclose contents of the communications.

The U.S. embassy declined even to say communications had been delivered but the French and British confirmed they had been.

The notes are not identical. The American one is a straight reply to the memorandum which Khrushchev gave the President in Vienna early in June.

The French and British notes set forth their own views on Germany.

It is understood all three remain firm on maintenance of their war-won rights in West Berlin.

The Khrushchev memorandum, handed to President Kennedy at Vienna June 4, declared the Soviet Union would sign a separate peace treaty with Communist East Germany before the end of the year if there was no agreement on signing up with both Germans.

A Soviet-East German treaty would jeopardize rights of the United States, Britain and France in West Berlin and access to that city via land and air corridors across 110 miles of East German territory.

Western statesmen have made clear they intend to maintain their positions in Berlin, where the Big Three Western powers have taken garrisons totaling 11,000 men.

Program To
Be Outlined

WASHINGTON (AP) — The United States is to unfold at an inter-American conference next month the details of President Kennedy's Alliance for Progress program to aid Latin America. But the delegates will not be told how much money this country is prepared to spend.

U.S. officials made this clear Saturday, saying the magnitude of Washington's aid would depend almost wholly on the amount of self-help put into the program by the Latin-American countries themselves.

They said the program will make forthright pledges to do everything possible to aid the hemisphere nations, both in immediate and in long-range social and economic projects.

But even countries with extremely limited resources, they said, can help themselves in such areas as land reform, improved methods of taxation, sound fiscal policies, and clearing away political obstacles to investment by their own citizens and by foreigners.

Ambitious
Willy Asks
For Talks

By CARL HARTMAN

BERLIN (AP) — Mayor Willy Brandt of West Berlin called on Chancellor Konrad Adenauer today for bipartisan talks on safeguarding Berlin against Communist action.

Brandt, a Socialist, is seeking to replace Adenauer, a Christian Democrat, in the West German election Sept. 17.

In an interview with Bildzeitung, Germany's widest circulated daily, Brandt said the Christian Democratic administration should call together all parties represented in parliament. He suggested the parties work together on three problems:

1. How to safeguard Berlin;
2. How to "make a reality of our right to self-determination" — in other words, how to get free elections in Red-ruled East Germany.

3. How Germany can take part in the debate on disarmament.

Brandt said "The West must not always just react to Soviet advance. What I mean is a political offensive, a counter-campaign of the West."

A record flow of refugees from Communist East Germany brought some 4,000 into West Berlin over the weekend.

With tension building up, the refugees apparently feared that it might soon be too late to leave.

Hands Off, France!

TUNIS (AP) — President Habib Bourguiba of Tunisia today staked a claim to a sector of the oil-rich Sahara and said he will send troops there to enforce it.

Speaking at a special session of the Tunisian National Assembly, Bourguiba demanded that France evacuate Tunisian "southern regions" as well as the big Bizerte Naval Base on Tunisia's north coast.

Bourguiba claimed that a frontier convention signed by France when Tunisia became independent from France in 1956 put the area inside Tunisia.

CORPORAL PUNISHMENT—This reeks of the army, son. That might be the correct expression as applied here as Lt. Col. William J. Schiebel and Corporal Keith Pinner—loaded down with both his and the good colonel's gear—departed here early yesterday for Fort Hood and a two-weeks annual training tussle. (Photo by Jackson)

BOUND FOR FORT HOOD

Snyderites Leaving
For Summer Camp

Lt. Col. William J. Schiebel, of Snyder, Commanding Officer of the 1st Reconnaissance Squadron, 124th Armor, 36th Infantry Division, departed Sunday for Annual Active Duty for Training at North Fort Hood, Texas.

Elements of the 36th Infantry

Division going to camp include the 1st Recon Sq, 124th Armor, and the 2nd Armored Battalion (Patton), 124th Armor. The Recon Platoons of the five Battle Groups in the Division will be attached to the 1st Recon Sq for training.

The balance of the division will come to camp 23 July for their two weeks training. By the armored elements (under command of the Assistant Division Commander, Brigadier General Simpson of Amarillo) being at camp one week earlier than the balance of the division, the heavy artillery of the tank guns can be fired without closing down all the ranges to the infantry units.

Lt. Col. Schiebel is in command of the following units: Hq and Hq Troop, Odessa, with 17 officers and 108 enlisted men and three warrant officers; Troop A, Pecos and Monahans, with five officers and 135 enlisted men; Troop B, Midland with five officers and 108 enlisted men; and Troop C, Lamesa, with five officers and 102 enlisted men.

The unit will take with them 47

quarter ton trucks (jeeps), 13 two and a half ton trucks, and seven three-quarter ton trucks to camp, and will draw 35 M41A2 tanks armed with the 76mm cannon; six M44 mortar carriers; 18 M59 armored personnel carriers; 11½ five-ton trucks; one refrigerated van; one 1200-gallon gasoline transport; and several utility vehicles such as wreckers and tank retrievers.

The training mission for the year is to accomplish the Army Training Test for Section Level. This will include tank crews, rifle and scout sections, and support sections.

The units will return home 29 July.

Firemen Summoned
To Ape Blaze

The Snyder Fire Department was summoned Sunday at 8:25 p.m. to a car fire at Sweet's Shop on the East Highway. The car belonged to Sherman Cross.

AT LAKE THOMAS

Ponds Used To
Increase Fish

The Colorado River Municipal Water District starts this week in an effort to give nature—and sportsmen—a boost.

Four earthen ponds have been completed and will be filled this week in an effort to step up the propagation of game fish in Lake J. B. Thomas, the district's big reservoir.

There are four tanks, three of them 50x100 feet, and the other approximately 60 x 80 feet. They are 6 feet deep at one end and one foot at the other. Each contains approximately 150,000 gallons of water.

The ponds may be filled—or drained—through a pipe at the base of the structures, which are located on the northeast side of the district's boat basin.

Plans are to take the fry (small fish) from the Texas Game and Fish hatchery and to keep them under control conditions in the ponds until they are large enough

to fend for themselves and thus have a good chance of propagating.

Later, the district hopes to experiment with some hatching, thus stepping up the volume of new fish which can be added to the big lake.

One of the ponds may be given over exclusively to crappie in an effort to improve the quality of crappie fishing in the lake. At the outset Lake Thomas produced some fabulous catches of king-size crappie, but in the last year or so the number and size have both declined. R. A. Schelling, lake superintendent, is hopeful that by getting them off to a better start in the district's ponds will help step up the general run of crappie fishing.

There also may be some experimentation with a new type of perch which is said to compete successfully with crappie and which frequently reaches 4 pounds.

RIDE 'EM COWBOY—These men took ahead to the Scurry County Rodeo parade at 4 p.m. Wednesday and the four nights of performances, Wednesday through Saturday. Each performance begins at 8 p.m. with Hoyle Nix and His West Texas Cowboys playing for dances afterwards. Prizes for the 25th Annual Rodeo will amount to \$3600.

Resident's
Father Dies

Funeral rites will be at 10 a.m. Tuesday for Harold D. Cannon, 65, father of Mrs. T. F. Hartley of Snyder, in the family home of Augusta, Ark.

Mr. Cannon died Sunday morning at his home.

Officiating for the service will be Rev. Leonard Byers, pastor of the Augusta First Methodist Church. Burial will be in the Augusta Memorial Park.

Mr. Cannon was a pharmacist and owned a drug store in Augusta. He was a member of the First Methodist Church, Arkansas Pharmacy Association, American Legion Post 106 of Augusta and was a Veteran of World War I.

His home was formerly in Huntington, Mo.

Survivors include his wife, Mrs. Forrest Brewer Cannon, and one daughter, Mrs. Hartley.

WEATHER

SNYDER TEMPERATURES — High reading Sunday, 88 degrees; low reading 68 degrees; reading at 7 a.m. Sunday, 73 degrees. High reading Sunday, 92 degrees; low reading Sunday, 68 degrees; reading at 7 a.m. Monday, 72 degrees. North Central Texas: Clear to partly cloudy with little temperature change through Tuesday. Low tonight 68 to 72. High Tuesday 88 to 92. Northeast Texas: Clear to partly cloudy through Tuesday. A few late scattered showers, mostly in south. Little temperature change. Low tonight 68 to 72. High Tuesday 88 to 92. Northwest Texas: Generally fair with little temperature change through Tuesday. Low tonight 68 to 69. High Tuesday 88 to 92. South Central Texas: Partly to mostly cloudy with scattered showers and showers, locally heavy in north. Low tonight 67 to 71. High Tuesday 88 to 92. Southeast Texas: Partly cloudy to mostly cloudy with scattered showers and showers, locally heavy through Tuesday. Low tonight 68 to 72. High Tuesday 88 to 92.

Eichmann Admits Role In Extermination Plot

By THOMAS A. REEDY
JERUSALEM, AP—Adolf Eichmann was forced to admit on the witness stand today he took part with five of the highest-ranking Nazis in the planning of the Nazi Reich in a meeting that organized the uprooting of half a million Poles, Jews, Slovaks and Gypsies.

Israeli Atty. Gen. Gideon Hausner, leading the case against the accused, said Eichmann was a "central figure" in the planning of the Holocaust.

Eichmann, 46, was charged with the task of organizing the Polish and German rail transport for the deportees, who were divided into groups that would survive to work and those to be exterminated.

Rattling off the names, Haus-

ner barked: "Good company." Eichmann said "I was ordered by SS Chief Heinrich Himmler, IV-R, my office was ordered to handle the timetable, the rolling stock."

The defendant, charged with major responsibility in the mass slaughter of the Jews, resisted every effort by Hausner to extract an admission that he acted in concert with other high-ranking Nazis.

As he has for more than three months, Eichmann clung to his stand that he was a transport officer's job and he never made a decision without obtaining instructions from above.

The attorney general reminded Eichmann that his superior, Gen. Heinrich Mueller, once said, "If we had fifty Eichmanns we would have won the war."

"This was when Mueller exalted me because we could work despite the fact many of our records were burned in incendiary raids," Eichmann responded. "This was said in a popular vein."

'A BEAUTIFUL DRESS'—Actresses Gina Lollobrigida, left, and Elizabeth Taylor, wearing identical dresses made by the house of Dior, chat at the Kremlin in Moscow during party honoring the Moscow film festival. Liz wore flowers in her hair and had a pale blue sash on the dress. Gina wore flowers on the dress and had a red sash. Elizabeth had nothing to say about the incident but Gina said "it is a beautiful dress." (AP Wirephoto via radio from Moscow)

Things Happen In Movie World

By BOB THOMAS
AP Movie TV Writer

PARIS (AP)—Notes of an unseasoned traveler: Clifton Webb shaved his famed mustache to play a priest in "Satan Never Sleeps." He made his third transatlantic ship voyage for the film, he'll fly over land, not water.

Jackie Gleason will fly over nothing. "We set down hard in Phoenix once; that was the end of my air travel," says he. Whether or not "Gigo" is finished, he sails Aug. 23 on the last boat that will get him to the church on time for his daughter's New York wedding.

"Gone With the Wind" is its fourth year in London. "Magnificent Seven," only seen in the U.S.

Also showing in London: "Birth of a Nation."

The Germans have a name for travelers in tiny, plexiglass autos: People in apic. The touring "West Side Story" was a hit in Munich, even at \$9 top price. The Germans were especially amazed at the American kids who could sing, dance and act with equal skill. Such versatility is unknown here.

Can America top that? Sign out side a drive in London's Soho district.

Friends wonder if Lucille Ball will ever return to "Wildcat" on the New York stage. They also doubt if her best friend, Gary Martin, will make her forget. Desi Arnaz, Lucille was recuperating from her Broadway collapse at Capri.

Billy Wilder is a stickler for naturalism. So in "One, Two, Three," James Cagney will be salesman for a real estate company, not a make-believe one.

Evangelist Attracts 75,000 People

ST. PAUL, Minn. (AP)—About 75,000 persons jammed into the state fairgrounds Sunday to hear evangelist Billy Graham wind up a week's crusade, which he termed a record turnout in this country.

Dr. Graham said the 300,000 who attended the outdoor services during eight days were exceeded only by crowds in Australia and England.

The throng sat in 80-degree weather, many shielding themselves from the sun with umbrellas. Others lined the railing of the race track for the concluding service. Among the listeners was Navy Secretary John B. Connally.

Speaking on the second coming of Christ, Graham said that events have forced theologians back to the Bible to reflect on the end of the world.

"The Bible tells us that Christ will come again when emphasis is being placed on money and material things. Is that true today?" he asked.

He exhorted people to "make decisions for Christ," 1,616 came forward, for a total of 6,652 during the crusade.

HOSPITAL NOTES

COGDELL MEMORIAL
ADMISSIONS: James Patterson, 321 Twenty-ninth Street, Catherine Williams, Route 3, Lori Perry Henderson, Jr., Sweetwater; Willis Colchese, 3401 Avenue G; Keith Collier, 2800 Avenue J; Socora Chaudier, Lubbock Highway and Avenue T; David Treat, Dermott; Martha Lee Milligan, 3128 Avenue T; Jack M. Bowden, 2312 Thirty-first Street; Glenda Barkley, Colorado City; Thelma Jean Williams, General Delivery; Virginia Martinez, 2601 Avenue O; James Haynes, 611 Twenty-fifth Street; John Mengwasser, Route 1; Cherokee Clark, 809 Twenty-sixth Street; Jimmie Guy, 1600 Twenty-seventh Street.

DISMISSALS: Bobby Davidson and baby, Norman Ray, Lorene Kaye, Joe Broeden, Razel Grounds, Martha Moore, Lori Henderson, David Treat, Bismarck baby girl, Thelma Wilson, Anna Mae Moore, Joel Griffin, Virgil Jones, Eugenia Johnson and baby, Socora Chaudier and baby, James Haynes, Jones baby girl.

BIRTHS
Mr. and Mrs. Emiliano Chaudier, Lubbock Highway and Avenue T, are parents of a 7 lb. 9 oz. son, born at 9:37 p. m. Friday at Cogdell Hospital.

Mr. and Mrs. Ronald McHenry, 3120 Avenue T, are parents of a 7 lb. 7 oz. son born at 4:30 p. m. Saturday at Cogdell Memorial Hospital.

WANTED! MEN - WOMEN

from ages 18 to 35. Prepare now for U. S. Civil Service job openings in this area during the next 18 months. This is a Government position pay as high as \$14,000 a month to start. They provide most greater security than private employment and excellent opportunities for advancement. Many positions require little or no specialized education or experience. But to get one of these jobs, you must pass a test. The competition is huge and in some cases only one out of five pass.

LINCOLN SERVICE, Dept. 51
Pekin, Illinois

I am very much interested. Please send me absolutely FREE (1) A list of U. S. Government positions and salaries; (2) Information on how to qualify for a U. S. Government Job.

NASA identifies the irregular white area at center as a heavy line of thunderstorms extending East-to-West over the Gulf of Mexico west of St. Petersburg. (NASA Photo via AP Wirephoto)

Too Wide? Try To Get Around It

By JOHN BECKLER
WASHINGTON, AP—House sponsors of President Kennedy's school aid bill have given up trying to crack a Rules Committee blockade and are now seeking some way to get around it.

But even if an alternate route is found—and the hope is slim—it appears certain much of the administration's multibillion aid-to-education package will have to be abandoned for this session.

The tough fight to put through Kennedy's foreign aid bill is now occupying the attention of the Democratic leadership and school bill adherents have been advised to stay low in the interest of party harmony.

The decision of the school bill backers to try to bypass the Rules Committee, deadlock over the issue of aiding parochial and private schools. They are convinced there is no chance now of the deadlock being broken.

The leadership's normal one-man majority on the committee, which clears bills for House action, collapsed when one of its

Seven Perish In Ferris Wheel Fall

MONTERREY, Mexico (AP)—A ferris wheel at an amusement park collapsed Sunday night and authorities reported six children and one adult died and 27 were injured.

Officials said a strong wind caused metal braces of the wheel to bend and the structure toppled over on hundreds of people standing nearby.

Panic prevailed as rescue operations started and maimed bodies were extracted from the twisted wreckage.

Hospital sources reported 17 of the injured in critical condition.

LBJ Lauds Pakistanian

AUSTIN (AP)—Vice President Lyndon B. Johnson told the legislature today that Pakistan President Ayub Khan will "stand with us in the search for peace and still be on our side in time of peril."

Johnson introduced the visiting president to a joint session of the Senate and House as Ayub made his last formal public appearance before returning home. He is scheduled for a casual conference in Washington later today.

Johnson referred to Ayub as "a strong voice in the chorus of human freedom."

Ayub was the weekend guest of Johnson at his Pedernales River ranch 40 miles west of here. He spent most of the time relaxing and touring the hill country ranchlands under Johnson's guidance.

"Ayub came to the United States for high police conferences with President John Kennedy and Secretary of State Dean Rusk."

"He is the sort of ally we greatly need and profoundly value in these years of strain and upheaval," Johnson said of Ayub.

"Texans," he added, "have a special reason for appreciating the philosophy of our guest and the aspirations of his people."

"We, too, live amid vast spaces and broad horizons. We cherish our own traditions, even while we have merged our loyalty in the great national causes."

"We can recognize a leader who has room in his heart for great grief, but no room for small grievances."

"He comes before us not as a narrow nationalist but as a creative statesman."

Khan told a gathering of Texans at Johnson's ranch Sunday that Pakistan wants the backing of the United States in spiritual and moral courage plus the practical aid of dollars invested.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain... without surgery.

In one after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H®. At all drug counters.

We're headquarters for the SCOUT

America's new WORK or PLAY WONDER!

It's a hardtop pickup... an open air runabout... an off-road workhorse... a whole new idea in low-cost transportation!

costs little to buy, less to run!

The Scout offers full-width seating for three. Its steel top comes off in minutes. Its all-steel body hauls man-size loads of cargo, has extra seating on full-length wheel housings. An INTERNATIONAL 4-cylinder Comanche engine provides husky power, saves on gas and oil. Optional all-wheel drive provides extra traction for work off-road, optional steel Travel-Top converts it into a town delivery. There's never been anything like the Scout before.

This is the Scout, a neat and simple pickup. Small in size. Light in weight. Fun to drive for business or pleasure.

Same Scout with the roof off. Top is removed in minutes to give you a vehicle for any kind of activity any kind of weather.

Same Scout stripped for action. For special duty, doors, windows lift off, windshield folds down or detaches.

Same Scout converted to town delivery by an optional steel Travel-Top complete with windows and lift gate.

The Scout is INTERNATIONAL-built, backed by INTERNATIONAL service everywhere on every part! See us today and hit the trail to low-cost transportation!

YOUNG WOMAN AT WORK: To make her redecorating chore easier, this young woman has chosen a new thick point (left) that does not drip or spatter. To avoid climbing a ladder, she applies it to ceiling (right) with a point roller equipped with an extension arm.

Girls Can Do Their Own Decorating If They Use The Proper Equipment

By VIVIAN BROWN
AP Newsfeatures Writer

IS BIG BROTHER going off to college? If so, it's a perfect opportunity for Sis to corral her own bedroom or a new bigger room.

A feminine frill and a new paint or wallpaper job and one would never suspect the room had been occupied by a male member of the family.

Vacation time is the ideal time to redecorate the room, and a considerate brother may co-operate by moving his belongings so the job can be completed before school resumes.

One teen-ager, 15-year-old Denise Jones of Wilmington, Del., did just that when big brother "Woody" took off for Polytechnic Institute. The family agreed Dee could have the room, but her father begged off on the redecorating bit, explaining he was too busy to lend a hand.

Dee insisted she could do the job herself, and she did.

She had wanted the room papered, but she settled for paint. She assembled her equipment—point brush for wall trim, paint roller for walls and an extension arm for ceiling.

She chose a new paint, thick as a cornmeal dip, but touted to go on smooth, and not drip or splatter. It worked without thinning of stirring, and "missed" spots were

patched up easily, bleeding into the surrounding paint. The luscious colors, pink and green, were chosen to blend in with Colonial furnishings.

After the wallpaper was removed, Dee began painting, using the lid of the paint can as a palette. At one point she dropped a loaded paint roller, mopping it up at once with a damp sponge. The long-handled roller made painting the ceiling a breeze.

Her room furnishings include a needlepoint area rug, and child seat, a Colonial four-poster bed and a beruffled organly bedspread, a white organly valance over a window shutter arrangement, and a Boston rocker. A horse painting hangs over her bed.

Although Colonial furniture is

popular with teen-agers who have a choice, handsome room effects may be achieved by painting cast-iron furniture from other rooms around the house. Unpainted furniture is not as expensive as the finished variety, and many young people paint it the same color as the room to give a built-in effect, antiquing the furniture to give it a distinctive fillip. White painted furniture that has been antiqued or burnished with gold is impressive against off-white walls.

Bamboo pool furniture is very popular with the younger set for its decidedly feminine motif. The white bamboo pool that is available in heart-shaped headboards, decorative screens, chairs and occasional pieces is lovely combined with pastel walls.

In washing hand-mirrors, take care that no water seeps in under the glass. Just rub over the mirror with a sandy cloth, wipe with a clean, wet cloth, and polish dry.

AN IMPORTANT MESSAGE TO YOUNG MEN AND PARENTS OF TEEN-AGE SONS

from:
COL. A. S. HASCALL
U.S.A.F. Ret.

Now young men can be covered by \$5,000 of permanent life insurance while serving in the armed forces, whether stationed in this country, overseas, or even at war, National Educators Life Insurance Company of Ft. Worth, Texas, has a new policy that has no war clause. This new policy will be issued to qualified persons between the ages of 15 and 25 who are in good health.

National Educators "Career Plan" offers \$5,000 at a cost never before possible. For example, at age 18, \$5,000 worth of insurance would cost only \$3.11 per month. So, parents, to be sure that your son will be covered by \$5,000 of permanent life insurance at all times, whether in the military service, overseas or even during war, send the convenient coupon below today!

By MRS. J. R. JONES
Mr. and Mrs. Leonard Paden, Brenda, Regina and Janet of Dallas are visiting with their parents, Mr. and Mrs. R. G. Ball and her sister, Mr. and Mrs. Dee Pylant and Rex.

Guests in the home of Mr. and Mrs. Ray Fulford recently were Mr. and Mrs. E. S. Lucky of Edna, Mrs. T. H. Kiker of Dallas and Mr. A. J. McClure of Temple.

Recent visitors in the home of Mr. and Mrs. Dean Ball and children were Mrs. Ball's sister, Mr. and Mrs. Delbert Blakely, Wanda, Ronny and Terry of Delano, Calif. Bill Stansell and Wayland Mathis of Snyder made a trip to Canyon last Saturday.

Mrs. Wallace Jones and Mrs. Ala Stavelly visited Mrs. J. L. Dutz in the hospital at Seminole recently.

Those visiting in the J. R. Jones home Sunday were Mrs. Lora Lady, Loralee and Anita and Mrs. Josephine Waller of Colorado City, and Mrs. Dewey Farley and Darwin, Mr. and Mrs. James Henesly and Mr. Ethridge Slickland, all of Odessa.

Mr. and Mrs. E. C. Wedgworth and daughter of Pampa were weekend visitors in the home of Mrs. Ola Stavelly.

Mr. and Mrs. Harris Griffith and Mrs. Norman Austy were Friday night guests of Mr. and Mrs. Barney Stansell.

Mr. Carl McDaniell of Midland visited his parents, Mr. and Mrs. J. W. McDaniell and family last weekend.

Mr. and Mrs. Dean Ball, Dennis and Zenda attended a family gathering at the Sweetwater lake for Mrs. Ball's parents; Mr. and Mrs. George Morton of Snyder and their children from different sections of the country recently.

Mrs. O. D. Jackson and children visited her parents Mr. and Mrs. A. L. Odum last Sunday.

Mr. and Mrs. Wallace Jones Jr. and boys of Snyder spent Sunday with their parents, Mr. and Mrs. Wallace Jones.

Mr. and Mrs. Dean Ball and children visited Mr. and Mrs. John Minnick of Big Spring Sunday.

Mr. and Mrs. Robert Jones attended the funeral of Mr. John Taggart Wednesday.

Miss Carolyn Nelson of Winters

has accepted a job at Gail and is staying with Miss Dorlene Lemmon. Mr. and Mrs. Jimmy Bowen and daughter of Livingston, N. M. were visiting his parents, Mr. and Mrs. Jack Bowen the first of last week.

Several out of town friends attended the birthday party recently honoring Mrs. J. F. Dewey.

Mr. and Mrs. Carlie Hannicutt visited Mr. and Mrs. Shorty Cooper and family in Eagle Pass several days last week.

Mrs. Don Farmer and boys and her aunt of Corsicana are visiting this week with Mrs. Beelen Owen.

The also visited Mr. Owen who is in the Veterans Hospital, Big Spring.

Mr. and Mrs. Boss Stavelly of Colorado are visiting relatives and old friends in our community this week.

Mr. and Mrs. Bogue Forehand visited several days last week in Abilene with their daughter, Mr. and Mrs. Blackie McIntyre and Don.

Mrs. Jessie Sims spent last weekend with her brother, Mr. and Mrs. Nathan Letcher of Midland.

Miss Wilson Named To Staff Of Camp Paper

Mary Wilson, daughter of Mr. and Mrs. William H. Wilson, Jr., 2707 Thirty-third Street has been elected editorial editor on the staff of the Weekly Smoke Signals, at Heart O' The Hills Camp.

The paper is published every Sunday by the campers enrolled in the journalism class under the direction of Charlene Melden, counselor from Edinburg.

"Comes Clean"

A county sheriff in West Virginia was puzzled by recent complaints about his extravagance in buying new cars for his deputies—since all staff cars were more than a year old.

An investigation—in the best police tradition—turned up the cause of the complaints. His new policy of having county personnel wash the cars daily, and wax them once a month, made the old cars shine—like new, he explained.

THE NEW PRESIDENT BANGS FOR ORDER

More Than Money Needed In Latin America Situation

By INEZ ROBB

SAN JUAN, Puerto Rico —What will it take to keep Latin America, still struggling to free itself from the grip of the American empire and in the democratic camp? It will take more than money and fasting. And more than the \$600,000,000 already allotted to the task, based on President Kennedy's Alliance for Progress plan of aid for the hemisphere by Uncle Sam.

"I hope the sum will be increased," says Puerto Rico's brilliant governor, Luis Munoz Marin. "The task before us is tremendous." No other American knows better than Munoz just how tremendous is the job of raising the economic, educational and health standards of Latin America. In 1940 he was one of the young men who had the wisdom and foresight to devise "Operation Bootstrap" that has transformed this island from a poorhouse into a decent, livable home, if not yet a palace.

Governor Munoz is one of the most engaging and intelligent public figures I have met in many years. All about him is substantial evidence that a people can, in less than a generation, substantially change their way of life for the better. His own island is a happy sign of what can be done to help Latin America help—save—themselves.

Reassured with frankness, the governor pinpointed one of South America's most needed reforms when he said: "I feel the great contribution of Latin American countries to the Alliance for Progress is a tax system that would really tax the rich more heavily. There must be just taxation to bring about a great social revolution in the framework of democracy."

"The Alliance for Progress is in no way totalitarian. America may be the richest country in the hemisphere but all nations will have to contribute their effort to insure success. Munoz added, echoing the statements of President Kennedy, Adlai Stevenson and other experts.

The Alliance for Progress has dynamic prospects but everything depends upon the response of the governments and the peoples of the hemisphere, and it is upon the response of the United States Congress, I hope the sum allotted annually by Congress will be increased. Munoz continued as he re-emphasized "the work ahead of us is vast."

With sharply rumpled gray hair, gray moustache and gray suit at the end of a long business day, the governor, now beginning his fourth term, in that office, emphatically answered in one word, "No," the question whether economic help should be given. Latin-American dictators.

Relaxed over a cold drink, Munoz had an equally emphatic negative when asked if he would travel throughout Latin America as appointed President Kennedy's advisor on the Alliance for Progress program.

"I have not been appointed to any such post and I shall not be appointed to anything," he declared with good humor. "I was elected last November to another four-year term as Governor of Puerto Rico and I shall serve it."

The declaration had the ring of truth. Yet there are many persons in and out of government who believe that Munoz would be the most eloquent spokesman for democracy that Uncle Sam could send to Latin America, and an invaluable advisor in that realm. I am one of those who think it would be a ten-strike for our side if Munoz could be persuaded to accept.

Democracy in this hemisphere could profit by his skills. It could also profit by those of San Juan's dynamic mayor, the electric Senator Felix Rios Montt de Gaudier. A handsome woman of dramatic appearance and presence, Senora Felix could, I have a hunch, learn both Sarah Bernhardt and Betty Grable, at least in the administration of public money.

As I look around beautiful, clean San Juan I would love to roll all the caterwauling New York majority candidates into one and trade them for Senora Felix to straighten out Our Town. I would even include the Yankees Maria and Mervyn in the trade.

Columnists Only Know Some Things

By HAL BOYLE

NEW YORK (AP)—Things a columnist might not know unless he opened his mail.

The people who make candy say that in spite of our country's coming the sale of candy has risen from 7 pounds a year per person in the last century to 17 pounds now.

Oh, yes. All put together it amounts to all sweets, except dark chocolate, to 1.1 billion pounds of candy sold last year for about \$1.2 billion.

Small as a mouse is, it is exciting. Its heart beat can be twice as fast as that of a small whale. The heart beat of a large excited mouse can reach three times the heart beat of a small whale enjoying a large meal in quiet.

Women have more doctors than men. That is a reason there are more women than men.

Isn't the world odd? Joe Martino, Hotel Edison doorman over 20 years has sung with some of the greatest opera singers. But he has made more money opening doors than singing his vocal cords.

How long has it been since you moved from where you lived? I have an item that says the average tenant moves every four years. And the year before I had an item that said I had moved every five years. I must be dull. I have lived in the same place for 14 years and would remain. But, looking back from the age of 50, I can count at least 15 places I lived in. The last one has air-conditioning.

Our quotable notables: "It takes a lot of things to prove you are smart," said Don Herold, "but only one thing to prove you are ignorant."

As a husband, do you sometimes feel a bit hard of hearing? Well, you have some company. The husband, the starfish and the snail are all deaf.

The next time you buy yourself a suit and your wife complains, tell her this: Singer Johnny Mathis spends \$30,000 a year on his wardrobe. Then sing her a song.

Which brings up the wickerack of the week: "An embrace," coyly murmured Jeannie Thomas, "is a kind-about way of expressing affection."

The search for the White House. The fellow who tried hardest to live there and never made it was Socialist Norman Thomas, an able speaker whose nation never elected him to his purpose. His party six times nominated him for president.

There is a saying that most of the gunmen of the Wild West—the celebrated killers—were cold blue-eyed. Can you name a famous U.S. president who was either blue-eyed Washington or Jackson or gray-eyed Lincoln?

Don't you feel well? What is the real reason? A medical survey concluded one of the most important factors in premature aging today is lack of exercise.

As an office worker, I have found the most fit of those of my fellow employees who conscientiously made the most round trips to the water cooler from their desks in company time.

Well, I guess this is as good a time as any to point out that porcupines have as many as 36 teeth and yet swallow their food whole. And a happy corn-on-the-cob season to you, too!

It was Calvin Coolidge who memorably remarked: "Patriotism is easy to understand in America; it means looking out for yourself by looking out for your country."

SPEED-ENDOWED SIXSOME—The above girls played a big part in helping Snyder to a sixth-place finish Saturday in Lubbock's Junior Olympics. From left are Shiela Duke, Susan Boren, Gracie Hill, Karen Lee, Jeannie Minton, and Barbara Schiebel. (Photo by Jackson)

THREE-TIME WINNER, HIGH POINT GIRL

Janice Rinehart Stars In Lubbock Olympics

LUBBOCK — Gifted Janice Rinehart of Snyder, a triple winner capped high point honors in the third Annual Junior Olympics as held here Saturday with her 30 points topping the field and aiding the defending champion Snyder team to a sixth place finish with 119 total points.

The Snyder girls are coached by Guy Sullivan and sponsored and boosted by the Snyder Jaycees, who are continually giving of their time and finances in the furtherment of the team.

Lubbock steamrolled to the title

with a monstrous 608 points. Snyder's sixth-place showing was due largely to the fielding of a skeleton crew of girls—nine in all—whereas last year saw the team sporting 25 individuals, including both boys and girls.

Snyder placings include the following:

SENIOR GIRLS
100-yard dash—Rinehart first, 11.6 seconds.
Standing broad jump—Rinehart first, 7'4".
High jump—Rinehart first, 4'0".

INTERMEDIATE GIRLS
220-yard relay—Snyder first, 2:22

seconds. Jeannie Minton, Earline Rhodes, Barbara Schiebel, Jane Boren.

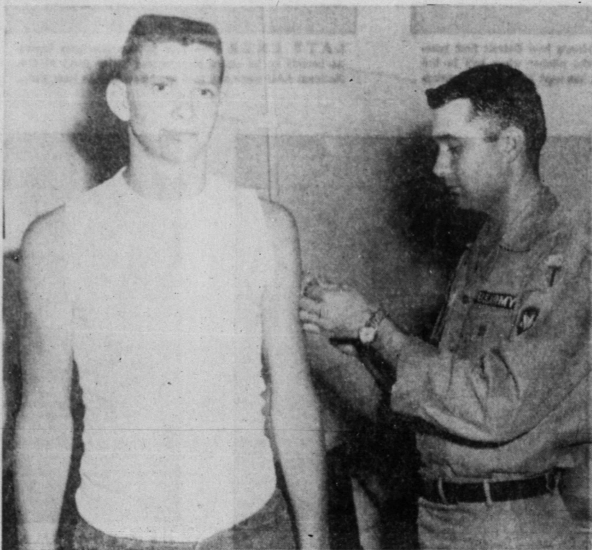

75-yard dash—Minton first in 2:7. Schiebel and Rhodes tied for fourth.

JUNIOR GIRLS
75-yard dash—Susan Boren first in 10.3; Karen Lee, Snyder, and Barbara Carey, Lubbock, tied for second.

92-yard dash—Susan Boren second, Lee third.

220-yard relay—Snyder third (Boren, Lee, Sadler, Duke).

Running broad jump—Shiela Duke third.

IT DOESN'T HURT—MUCH—New National Guard recruit Travis Hatter, Snyder High School basketball star, finds getting an immunization strictly of routine nature as he prepares for summer camp at North Fort Hood. Giving him the injection is SP-4 Gene Regan of Brownwood.

Brenham In Playoffs

BRENNHAM, Tex. (AP)—Brenham's Colts will play in the southern regional semi-pro baseball tournament at Alice July 28-29.

The Colts beat the Brownwood Colts 4-0 Sunday to sweep the series and qualify for the regional tournament. They defeated Brownwood 14-4 in the first game.

David Nunnenkamp of the University of Texas pitched for Brenham Sunday. He gave up only four hits and fanned 17 batters.

Walt Bellamy, Indiana center, led the Big Ten in basketball rebounds last season with 247 in 14 games.

Canadian Open Won By Cupit

WINNIPEG (AP) — Jacky Cupit, a determined young golfer who wants to become the world's best, is the 1961 Canadian Open champion.

The 22-year-old blond from Longview, Tex., who joined the professional golf circuit less than a year ago, played cautiously over the par 36-34-70 Niakwa Country Club course Saturday to take a 71 and finish the 72-hole open with a total score of 270, or 10 under par.

Three players — Jacky's brother, Buster Cupit, Dow Finsterwald of Tequesta, Fla., and Bob Nichols of Midland, Tex., tied for second.

Although it was Jacky's first major tournament victory, he has been in the money in all but three of his first 16 events. His winnings now total more than \$17,400, after the \$4,300 he won here.

"It's a wonderful feeling winning the first big one," said the polite, young Texan. "My ambition is to become the best golfer in the whole world."

Palmer Eyes PGA Title

NEW YORK (AP) — Arnold Palmer, back home again after fighting off rain, wind and a cantankerous course to capture the British Open golf championship, says he's determined to win the National PGA title in Chicago later this month.

"I want to win it more than ever now," Palmer said during a brief stopover Sunday en route to his home in Latrobe, Pa. "It's the only major one I haven't won, you know."

The 31-year-old ace of American golfers won his first British Open in his second try during rounds of 80 and 72 on the 36-hole wind-up at Birkdale, England, Saturday for a winning 72-hole total of 284. He won by a stroke from Dai Rees of Wales after having trailed Australia's Kel Nagle by a stroke in the 1960 championship his first attempt.

Since Palmer already has won the U. S. Open in 1960 and the PGA championship in 1958 and 1960, the PGA championship is the one major title he needs to complete the cycle.

The PGA is the next tournament for Arnie and he said he'll spend a full week getting ready for its start, July 27, at Chicago's Olympia Fields Country Club.

Arriving at Idlewild Airport, Palmer said the British Open title "was one of the hardest championships I ever won-boy, it was rough."

He said of the Birkdale course: "talk about narrow fairways and scrub-you just hit and hope."

And as for the weather, which for a time threatened to cancel the tournament, "It was continually the roughest I have ever seen."

Khan Believes China Has Place In UN

WASHINGTON (AP)—President Ayub Khan of Pakistan says "looking at it purely rationally," Communist China should be admitted to the United Nations.

The Pakistani president, appearing Sunday on an NBC TV radio program, "Meet the Press," added that his nation would vote for admission if the question comes up in the General Assembly.

Taking note of American opposition to this question, Ayub said his own position "doesn't entirely satisfy people who look at it from a purely emotional angle."

A total of 341 favorites won during the split harness race meeting at Yonkers, N. Y., Raceway in 1960. The percentage was 33.2.

HE WHO LAUGHS LAST...

Russians Cook Own Goose

By ED CORRIGAN

Associated Press Sports Writer
MOSCOW (AP) — The Russians outsmarted themselves when they agreed to keep separate men's and women's scores in the weekend track meet against the United States. Today they were trying to explain that, after all, it's the grand total of victories that count.

The American men whipped the Soviet athletes, 13-9 in events and 124-111 in score based on a 5-3-2-1 scale in the third of their series of clashes that ended Sunday in a miserable rain. The Soviet women won 68-30.

Now the Americans head for

Stuttgart and a meet with East Germany Tuesday and Wednesday. Valery Brunel, the wonderful Soviet iron-lifter, smashed the world high jump record by clearing 7 feet, 4 inches under wretched conditions and Ralph Boston of Tennessee State topped his own

pending world broad jump record of 27 feet, 4 inches by roaring 27 feet, 1 1/2 inches. America's John Thomas cleared 7 feet, 2 inches in the high jump but missed three times at 7 feet, 4 inches although he was almost over on his last shot.

The Soviet women completely dominated their meet, winning eight of 10 events.

"We only made them separate meets because of our American friends," complained Leonid Khomenkov, chief of the Soviet version of the A-A-U, dropping a few sour grapes on the way. "Don't they total up all the gold medals in the Olympics for both men and women?"

"The United States is the only nation in the world that separates its men's and its women's teams. We will never discriminate against our women in the Soviet Union. As far as we are concerned we won 17 events to America's 15."

"When the Russians agreed to run it as two separate meets, they quietly laughed up their sleeve figuring that they could win the men's meet and then could crow that they even beat the United States at its own game."

"They really thought they'd win," said Pinky Sober, chief of the U. S. National A-A-U Track and Field Committee.

Their coach, Gabriel Korotkov, told me so before the meet."

American coach, Jumbo Jim Elliott said he could put his finger on some of the events the Soviet Union expected to win.

"I know they thought they would win the 800," he said, "because Jim Dupree hadn't looked good in a couple of races here. Then they were sure they had a sprinter, Edwin Orelin — who could beat Frank Build in the 200."

"They figured they'd surely win the 400-meter relay and they did have a fine team and it took a world record by our boys to beat them. But that's how it goes."

A crowd of about 35,000 showed up at Lenin Stadium. The sun shone at the start, but later rain started to fall.

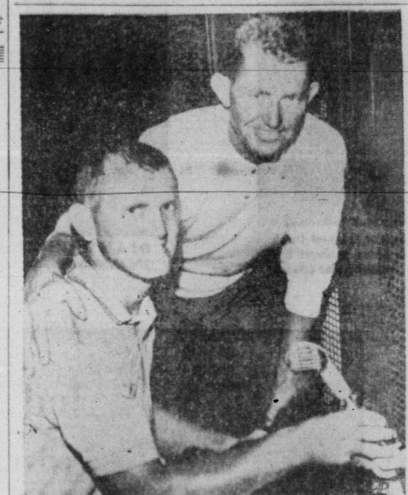

The United States victories Sunday were by Jay Silvester of the U. S. Army in the discus - 191-9, Cliff Cushman of Grand Forks, N. D. in the 400-meter hurdles - 30.5, Jim Beatty in the 1,300 meters - 3:43.8, which equals a 4:00.8 mile, and the 1,600-meter relay, with Adolph Plummer, Chuck Brazier, Earl Young, and Ula Williams, 3:08.8.

The Soviet Union won five events: the javelin with Viktor Tsybulenko - 272-9 1/2, 3,000 meter steeplechase with Nikolai Sokolov - 8:35-4, the 5,000 meters with Pyotr Bolotin - 13:30-4, and the decathlon with Yuri Kutenko - 7,615 points, besides the high jump.

Tatyana Scheikanova set a women's world broad jump record of 21-3. Willie White of Chicago tied the listed record of 20-11 1/2.

SPORTS

The Snyder (Texas) Daily News, Mon., July 17, 1961 5

OH, BROTHER!—An unusual brother combination showed up in the scoring in the Canadian Open Golf Championship in Winnipeg. After the third round Jacky Cupit of Longview, Tex., left, had a 10-under-par 199 for 54 holes. His brother Buster, from Fort Smith, Ark., was one behind him with a 63 that gave him a 200 for the same number of holes. (AP Wirephoto)

AND THEY'RE COMING TO MIDLAND

'Home Grown' Gridders Sprinkle Pro Rosters

An impressive line-up of former college stars from the Southwest are going to provide most of the action when professional football comes to West Texas next month.

The Dallas Texans and the Denver Broncos of the National Football League are scheduled to play an exhibition game in Midland Saturday, August 12, and both teams have several grid greats from Texas on their rosters.

Abner Haynes, a North Texas State product, is near the top of the list with the Texans as a high-stepping halfback. He was voted the League's Most Valuable Player of the Year last season. Other Dallas players will include Fullback Jack Spikes from TCU and Snyder, Texas, and Quarterback Cotton Davidson from Baylor. And, of course, E. J. Holub, who was twice All-American line backer for the Texas Tech Red Raiders.

The Denver Broncos, expected to feature an air show starring Frank Tripucka, quarterback, and End Leonard Taylor, recently signed Wahoo McDaniel. He is a former Midland High School grid star and recent performer with the Sooners of Oklahoma. McDaniel was with Dallas and Houston teams in the

American Football League last season. He may make his first professional appearance as a National League performer in his home town August 12.

Rud McFadin, who started his career in football at Iran, Texas, will be a defensive tackle and Team Captain for the Broncos. This 280 pounder is listed as one of the all-time grid greats at the University of Texas. He played with the Los Angeles Rams until his career was interrupted by an injury received in a hunting accident. He re-entered the professional ranks last season with the Broncos, and proved a valuable

asset to the ball club. Tickets to the game are now on sale by the Midland Jaycees, with seats between the 20-yard lines going for \$4.40. Seats from the goal line to the 25-yard line are selling for \$5.20, and end-zone tickets are \$2.20. Over 2,000 choice tickets have now been sold through the mail order campaign underway for the past week. Midland Memorial Stadium will seat approximately 15,000 spectators.

Ducks can be ordered from the Midland Jaycees, Box 1736, Midland, Texas. Proceeds from the game go to the Midland Red Cross Building Fund.

Junior Editors Quiz on SPORTS

QUESTION: When did bowling originate?

ANSWER: Bowling has become one of the most important sports in our country, perhaps because just about everyone in the family can get in on it, except the baby—and now he's being taken care of, too, for many of the bowling "lanes," as bowling places are called, provide free baby sitting. It is said that there are 134,000 lanes in operation in America. How did this happen? When the Dutch settled in New York in 1624 they brought old world customs with them, and one of these was bowling. A strip of grass near the foot of Manhattan Island was reserved as a bowling green, and it is still called "Bowling Green" today. But neither the Dutch nor the Germans invented bowling, or we find a game like this was being played in England in the year 1100. Did the English originate it, then? Wrong again. To find the first record of a game like this, we must go back to the ancient days of Egypt, about 5000 years before the birth of Christ. So, you see, bowling has passed its 7000th birthday!

FOR YOU TO DO: Bowling must be a great deal of fun, or it wouldn't be 7000 years old. Try it yourself and you'll find out where the thrill is.

(Terry Varner of Lock Haven, Pa., wins \$10 for this question. Mail your question on a postcard to Junior Editors in care of this newspaper.) 7-17

Miss Universe Winner Makes Plans For Reign

By JACK SIMMS
MIAMI BEACH, Fla. (AP)—Willow Marie Schmidt, a green-eyed beauty with a big, disarming smile, bade farewell to Sunday night's coronation ball. It was the final official event of the 16th annual beauty contest.

The 24-year-old German, selected by a panel of international experts as "the most beautiful girl in the world," reigned supreme at Sunday night's coronation ball. It was the final official event of the 16th annual beauty contest.

The tall, silver-blonde from Stuttgart met today with officials of the four-day contest to complete plans for personal appearances and promotion during the coming 12 months.

"I'm very happy it's over," Marlene said in reference to the Saturday night judging. "but I still can't believe it. It seems like everything happened so quickly." Less than one month ago, she took leave from a \$54-a-week job as a research engineer for an electronics and radio firm in Stuttgart. She plans to return to that job when her reign ends.

"This is like fairyland to me," the 5-foot-8 Marlene said in reference to her three-room executive suite in Miami Beach hotel. She will remain here two to three weeks, return to Germany to visit relatives, then come back to the United States to fulfill commitments of the pageant winner.

Less than a year ago, Marlene boarded a train in Breslau and crossed the Iron Curtain into West Germany. Her mother and a 15-year-old sister made a similar trip the previous day. Her father died as a German soldier on the Russian front during World War II.

Selection of the German entry was a popular one with the other girls. Marlene, endowed with a 36½-23½ figure, was mentioned more often than any other delegate in an informal poll of contestants.

Could I Borrow Your Hammer Please? CHRISTCHURCH, England (AP)—Gerardine Standerwick limped into a police station after a crash on her motorcycle Sunday and asked the desk sergeant: "Can you lend me a hammer, please?" I want to pound my leg straight!

The 23-year-old girl explained to the startled policeman that she had lost a leg in a childhood accident and it had been replaced by an artificial limb.

The policeman produced a hammer. Miss Standerwick straightened up her leg and walked jauntily out.

A Star's A Star, Let's Face It MOSCOW (AP)—Gina Lollobrigida and spaceman Yuri Gagarin met today in the office of Culture Minister Ekaterina Furtsova as part of the Moscow Film Festival. Said Gagarin: "My associates are jealous of me being in the presence of a real star today. I have been among the stars in the sky, but they were unobtainable."

To which Gina replied with a grin: "Well, I'm attainable."

Ho Hum... Niagara's Integrated

NIAGARA FALLS, Ont. (AP)—A Negro, strapping fellow in eight-inch, rubber-coated steel ball, successfully rode over the 161-foot Horseshoe Falls Saturday and said he did it "for love" and to "integrate" the giant cataract.

Nathan Rova, 36, of New York, became the fifth person in history to jump the falls. He was taken into custody by park police and was held on a charge of illegal entry.

"I'm happy I did it. It's something I've always wanted to do," Rova told investigators, when he was taken to a hospital for a physical check-up. He was reported in good condition, having suffered only a few scratches on his arms.

The ball, dented into pear-shape and equipped with a snorkeled breathing device, Rova had steeled himself with a safety belt for the ride.

Boya told police the ride had been planned several months ago with Jean Lussier, the only other living survivor of a stunt ride over the Horseshoe. He said Lussier, who went over the falls 32 years ago in a rubber barrel, aided in the design of the sphere.

Boya said the idea stemmed from a now-faded romance with a French girl while he was stationed with the Army in France, in 1947.

He said they had talked of marriage and a honeymoon at the famous tourist center.

"During our talks, the subject of daredevils had come up. I told her that men in this country do such things to prove their love—like the knights of old," he said. They had agreed that he would thus prove his love.

LEGAL NOTICE NOTICE OF BOARD OF EQUALIZATION MEETING In obedience to an order of the Board of Equalization, regularly convened and sitting, notice is hereby given that said Board of Equalization will be in session at its regular meeting place at the School House in the Town of Snyder, County of Snyder, Texas, at 9:00 a. m., on Tuesday, the 25th day of July, 1961, for the purpose of determining, fixing and equalizing the value of any and all taxable property situated in Snyder Consolidated Independent School District, Snyder County, Texas, for taxable purposes for the year 1961, and any and all persons interested or having business with said Board are hereby notified to be present.

BY ORDER OF THE BOARD OF EQUALIZATION

Snyder Consolidated Independent School District, Snyder County, Texas, 1961 day of July A. J. 1961.

BUG-FREE SUMMER — Summertime should be fun time — for housewives, too! And it can be, with the help of Johnston's No-Roach, the sensational liquid that kills roaches so effectively. Just point it on surfaces where you're likely to see a roach around — sinks, garbage pails, cabinet, and near the refrigerator. You will be amazed how effective it is.

Protection Insured Against Roaches And Other Bugs

Every home, whether rich or poor, is a target for attack by roaches, ants, weevils, and other bugs. Don't wait until you see them. Prevent them from invading your home. Your insurance is Johnston's No-Roach, the modern

way to control cockroaches and ants. This brush-on product is by far the best, because:

- One application lasts for months.
- The coating is colorless, odorless, and stainless.
- It's safe to use around children and pets.
- It's safe to use around dishes and food, or breathe harmful sprays.
- It's safe to use around children and pets.

Plainview Patrolman Murdered

PLAINVIEW, Tex. (AP)—A city patrolman was shot to death in this West Texas city early today as he apparently was making a routine check.

He was Virgil Thompson, about 32.

The police dispatcher said Thompson radioed that he was checking on a Latin American on foot about 4:30 a.m. when other officers arrived on the scene they found the young patrolman shot to death.

Police believed the slayer fled on foot.

State and local officers immediately joined in a widespread manhunt for Thompson's slayer. Peace officers at Lubbock, 44 miles south of here, quickly joined the manhunt.

Texas Ranger Buzz Renfro went to the scene as quickly as he was notified.

Four Lubbock policemen with four police dogs went to Plainview in a plane, sent here to pick them up.

Lubbock Police Chief J. T. Alvey Jr. and Lubbock Detective Capt. L. W. Forrester went to Plainview by car.

Report Says Bases Being Built On Cuba

CHATTANOOGA, Tenn. (AP)—The national head of the Veterans of Foreign War said he has been informed by reliable sources in Washington that U2 flights have been made over Cuba and they show missile bases are being built on the island.

The VFW commander-in-chief, Ted Connell of Killen, Tex., made the statement in a speech Saturday night to the southern conference of the VFW group.

"Only a few hours before I left Texas," Connell said, "I was told that U2 flights have been made over Cuba, only 90 miles from Florida. On the last flight, films were taken."

"I was told these films show definitely that there are three missile bases being constructed," Cooper T. Holt of Chattanooga, a former national commander of the VFW, said Connell was not at liberty to name his Washington sources. However, Connell said he considered the source as "being unimpeachable."

US Cruiser Mishap Kills One, Injures One

HONG KONG (AP)—One man was killed and another injured today on board the missile-equipped U.S. cruiser Topeka.

American authorities here refused to disclose the men's names or the cause of the mishap. But a local press report said an anchor chain had snapped while the Topeka was seven miles out from this British colony.

England Train Wreck Stops Holiday Tour

BLACKPOOL, England (AP)—Six persons were killed and 125 injured Sunday when a train carrying holidaymakers to the seashore struck a freight standing outside Blackpool.

The crash crumpled the cab of the train's diesel engine, killing the motorman, and hurled two of the forward coaches into an adjoining field.

CHEER GAGARIAN IN LONDON—Maj. Yuri Gagarin, Russia's 27 year old astronaut, stands in open car outside the Russian embassy in London and responds to cheers as he departed for airport and subsequent flight home. He had been visiting in England on a trip sponsored by a British trade fair organization. Visit, coincided with a Soviet industrial and scientific exposition in London. Soviet Ambassador Alexander A. Soldatov is at lower right. (AP Wirephoto via radio from London)

Iron Production Increase Expected In Foreign Fields

By SAM DAWSON
AP Business News Analyst
NEW YORK (AP)—American steel companies continue to open up new sources of foreign iron ore, even as they wait in the slow days of July for the expected pickup in production in August or September.

At the same time, ore production dwindles in the once dominant American iron mines.

U.S. Steel has just shipped its first trial cargo of Quebec ore for the Fairless Works near Philadelphia. It is testing out its harbor loading machinery at Port Carter, Quebec, designed to handle 5,000 tons an hour. The ore comes 300 miles from the north by a train on a specially built line.

If the tests prove out, the harbor on the St. Lawrence will be completed to handle the largest ore carriers now afloat. It will be 30 feet deep, 2,500 feet long and 450 feet wide. Ore will be stock piled there in the summer for loading when the rail line may be snowbound.

One also is coming in from Labrador mines developed in recent years as the rich ores of the Lake Superior district began to run out. The Canadian ore helps feed the hungry steel mills of the Midwest as well as those along the West Coast.

In the last three years the greatest volume of foreign ore has come from Venezuela where a mountain of almost solid iron ore is being mined. Much of this ore goes to East Coast steel mills, but some is sent to the mills around Birmingham, Ala.

The American Iron & Steel Institute reports the United States imported 38,774,625 net tons in 1960. This compared with 1.3 million tons in 1945.

In 1960 Venezuela sent 16.3 million tons here, Canada 11.3 million tons, Chile 4.4 million, Peru 3 million, Brazil 1.6 million, Liberia 1 million, along with smaller amounts from Mexico, British West Africa and Sweden.

Liberia is stepping up iron ore production fast, with an eye on the growing Western European market as well as the U.S. one.

In the fabled American iron country at the head of the Great Lakes, the story is different. High grade ores there are petering out. In 1948 shipments from the Mesabi Iron Range were 69 million tons. In 1959 shipments were cut to 36 million tons, partly because of a strike. In 1960 the figure rose to 48 million tons, largely because the steel mills were working at capacity the first part of the year in anticipation of a strike.

Shipments now include 11 million tons or more of taconite, processed at considerable cost from low grade ore.

Ray Nolan, state lands and minerals director for Minnesota, explains that "because the blast furnace operators are demanding a much higher grade of iron ore,

it is necessary now for us to concentrate iron ore which we used to ship as mined."

Among other American steel companies investing in and developing iron ore sources in Canada are Bethlehem, Republic, Youngstown Sheet & Tube, National, Armco, Wheeling, Inland Steel and Hanna Ore Mining Co.

The St. Lawrence Seaway has made Midwest American markets more accessible to Canadian ore. But while imports have been on the rise, American iron companies haven't been idle. Upgrading their ores by processes called Beneficiation, present day concentrates are higher in iron content than the regular ore shipped for years from the rich Mesabi range.

Steelmen say these blue ribbon concentrates allow five blast furnaces to produce now as much as six and a half used to turn out. Thus, even if they hadn't built a single new blast furnace, steelmakers could have increased their annual capacity by more than 25 million tons a year through Beneficiation.

And, taking the risks of foreign turmoil into account, the Lake Superior district doubtless will remain the most important single source of iron ore for the American steel industry.

Rocky's OK; For Somebody Else, Though

By D. HAROLD OLIVER
WASHINGTON (AP)—Sen. Barry Goldwater Saturday described New York Gov. Nelson A. Rockefeller as "a darn nice fellow" but said he wouldn't want to team up with him on a GOP national ticket in 1964.

Goldwater, of Arizona, is a leading Republican conservative while Rockefeller is in the party's liberal wing.

Goldwater told a questioner after a luncheon speech attacking what he called strong socialist trends in this country, that he hasn't anything personal against Rockefeller.

"But," he continued, "what would a party be doing with Rockefeller in Chicago advocating federal aid to education and me in Los Angeles talking against it?"

Goldwater addressed a human events political action conference sponsored by "Human Events," a weekly Washington newsletter which its authors say takes a conservative but non-partisan line.

A total of 470 delegates from 43 states, Canada and Haiti were reported in attendance. One of Goldwater's followers tacked a "Goldwater-1964" sticker on the lectern. The audience gave him a standing ovation.

Cautioning against what he called the welfare state and "phony liberalism," Goldwater said socialism in Russia and a welfare state in the United States have the same aim—to "control our lives and our economy."

Mail Speedup Is Planned

By JACK ADAMS
WASHINGTON (AP)—The Post Office Department said Saturday a plan to speed deliveries of urgent mail by attacking the chronic late-day logjam in most post offices will get into high gear next Wednesday.

On that day, breakfast and luncheon sessions sponsored by business organizations will be held in several score cities to enlist large-scale support for the program, described as a new approach to the old "after 5 p.m." congestion problem.

The problem, post office officials contend, stems from a long-standing custom of business concerns of dumping all of the day's outgoing mail into mail boxes on post office platforms at the close of the business day.

The solution, which Postmaster General J. Edward Day is now seeking to effect would involve mailings of nonurgent matter such as monthly bank statements, department store billings and, insurance company premium notices during the morning or early afternoon hours.

Under this system, Day said, this type of mail could be cleared out of the way before 5 p.m., so that the fastest handling could be given to the important letter which is signed and mailed at the end of the day.

The post office calls the new plan NIMS — the initials standing for Nationwide Improved Mail Service. The plan was first announced in Chicago early last month by Asst. Postmaster General Frederick C. Belen who had a big hand in working it out.

Since then, on a test basis, scores of large businesses have pledged cooperation. The idea now is to obtain general participation by firms which mail anywhere from several hundred to several thousand pieces of mail a day.

Dallas Shooting Ends In Death

DALLAS (AP)—Augustine Mayorga, 23, died early today three hours after a shooting.

Officers said the shooting followed an argument with a woman, 36. The woman was taken to a hospital badly beaten.

Mayorga was wounded in the neck and stomach. His brother, Joseph, 21, also was wounded in the leg.

Mexico President Flies In Initial Plane

MEXICO CITY (AP)—President Adolfo Lopez Mateos has accepted an invitation to fly in a L-1049, the first plane manufactured in Mexico. The president is to be taken for a flight over the Valley of Mexico.
