CHAMBER OF COMMERCE ANNUAL MEETING AND BANQUET NOVEMBER 13

J. B. Stevenson, secretary of the Kimble County Chamber of Commerce, states that the annual banquet of the organization will be held at the Fritz Hotel on Tuesday evening, November 13, at which time plans for the future activities of the organization will be discussed.

Every member of the chamber of commerce is invited and urged to attend this meeting in order to have a voice in the plans for the coming year. During the past year there has been considerable activity, as will be shown by the secretary's report at the banquet on the evening of November 13.

One important phase that should not be overlooked is to notify the secretary at an early date how many plates you will want reserved for you at the banquet. This should not be neglected, for plans for the banquet cannot be completed until this is known. The members can make it much easier for the officers to plan for this annual meeting by making your reservations at once. It is hoped that this will be the largest and most enthusiastic meeting the local chamber of commerce has ever held.

The rapid growth of the town and the development of Kimble County calls for an expansion in the work that is being done. Junction is no longer a small village, but with the improvements made the past few months is assuming the proportions of a small city. The favorable comments made by visitors on entering our fair little city are encouraging, and serve as an incentive for those interested in the continued progress and development of Kimble County to press on.

You will materially assist the officers by notifying the secretary to reserve a place for you at the Fritz Hotel on the evening of November 13.

New Electric Clock In Bank Building

Citizens and visitors alike appreciate the beautiful new electric clock installed this week at the new building soon to be occupied by the Junction State Bank. Many things of more value have been brought here, but nothing that will be used more or appreciated as much as this beautiful clock that will chime the time for us day and night.

The progressive officials of the Junction State Bank have installed this electric clock at an expenditure of \$1,000 for the convenience and pleasure of the citizens of Junction. It is more than an electric sign for the bank; it is a time piece for the entire community and thousands of visitors who visit here annually. It is the latest in clock machinery.

ENTERTAINS CLASS

A jolly affair was given Thursday afternoon when Mesdames E. O. Lowgren and Hayden Lawler complimented the Efficiency Class of the Methodist Sunday School with a party.

Mrs. Lowgren's pretty home was made further attractive with profusion of cosmos placed in wall vases and bowls. Pumpkins and witches hung from window shades and draperies.

An apple contest and a candle contest provided hilarious entertainment for the ladies.

Pimiento sandwiches, pineapple salad, potato chips, pumpkin pie with whipped cream with witch plate favors were served to Mesdames E. R. Borden, Jas. A. Miller, Jack Dalton, Otis Wright, Barney Ragland, Howard Ragdale, Roy Blackburn, Joe Ramsey, Lilly Nichols, Alex Wahl, R. H. Loeffler and the hostesses.

Mr. Carl Tippet and family of Brady visited the N. H. Skaggs family Sunday.

Post Office Shows Gain In Receipts

A good thermometer of the business progress and development of a town is the postal receipts. We learn from Mr. Tracy that the receipts of the Junction postoffice for the quarter ending September 30, 1928, show a healthy increase over the same quarter for 1927.

The receipts for the quarter, ending September 30, 1927, were \$1,775.50, while the receipts for the quarter just ended were \$2,047.39. This is a gain of \$271.89 over the same quarter a year ago, or a little more than 15%. September 30, 1927, there were 266 boxes used by patrons of the office, while September 30, 1928, shows 314 in use, an increase of about 18%.

The best feature of the local postoffice is the courteous and willing service given by Mr. Tracy and his efficient office force.

POTENTATE LOMAX OF ALZAFAR TEMPLE WILL BE HERE OCTOBER 27

Potentate John T. Lomax of Alzafar Temple, San Antonio, accompanied by Mrs. Lomax and several other Nobles and their wives of San Antonio will be here Saturday for a luncheon at the Fritz Hotel, according to Deputy Potentate John M. Hankins. Every Noble and his wife or sweetheart is invited and urged to be present at the Fritz Hotel at 12 o'clock, Saturday, October 27. A good program will be rendered and an enjoyable time is assured all Shriners and their wives or sweethearts who attend.

The Eagle understands that the potentate is making an official and informal visit to the territory represented by Alzafar Temple. The party is scheduled to leave San Antonio Saturday morning and with the exception of a short stay in Kerrville, Junction will be the first stop. A luncheon will be served here and in the afternoon the party will leave for Ozona, where a program will be given and dinner served to the Nobles of that section. From Ozona the party will go to Del Rio and other points before returning to San Antonio.

Deputy Potentate John M. Hankins says that there are more than thirty Nobles in Junction and Kimble County, and everyone of them is invited and urged to be present at the luncheon Saturday, October 27. If he has no wife he is expected to bring a lady friend with him. This is to be a great occasion for Shriners, and anyone missing this program will miss a great treat. Noble Hankins asked the Eagle to urge upon every Noble the importance of attending this luncheon. Potentate John A. Lomax is also desirous of meeting a full representation of the Nobles of Kimble County.

Kimble Court New Name For Grande

Kimble Court, "Next To Home," is now the name of what has been called Grande Court, according to Mr. A. S. Rieck, who says that he is making the change in name in appreciation of the interest, encouragement and co-operation shown by the people of Junction and Kimble County. The change in name is effective at once, and it is now Kimble Court.

Mr. Rieck further states that he is installing steam heat throughout all the apartments and that he will put forth every effort to really make it "Next To Home."

Mr. and Mrs. Orville Keese had as their guests last week Mr. and Mrs. Clarence Love of Sonora.

Mayor Thomas Motley of Miles spent the week-end here visiting the family of his daughter, Mrs. McCarroll.

Election Officers For November 6th

The following judges and presiding officers with such other help as they need will hold the general election in this county, Tuesday, November 6:

Precinct No. 1—A. O. Lawler, presiding officer. C. W. Atchison, Chris Schraub, Wilson Buster, judges.

Precinct No. 2—Guy E. Wynne, presiding officer. Roscoe Stevenson, judge.

Precinct No. 3—Oscar Weaver, presiding officer. Ed Bode, judge.

Precinct No. 4—Ben Joiner, presiding officer. Hugh Spiller, judge.

Precinct No. 5—Edgar Ivy, presiding officer. M. C. Reese, Claud Weaver, Ernest Amaon, judges.

Precinct No. 7—Lon Parker, presiding officer. Hubert Gamel, judge.

Precinct No. 8—Walter Blackburn, presiding officer. Crate Phillips, judge.

Precinct No. 9—H. F. Holland, presiding officer. Ollie Mue, judge.

Precinct No. 10—Joe Gardner, presiding officer. Will Allison, judge.

MRS. MAGGIE NETHERY

Mrs. Maggie Nethery, who was held in the Kimble County jail several days after her arrest on November 14 in connection with the death of W. H. Nethery on November 7, was taken to San Antonio last Thursday afternoon where, according to Sheriff Dee Gibbs, she will be kept under observation for a definite period. The state of her mind was such that officers decided that she should be placed under the observation of experts. Mrs. Gibbs gave her all the care and attention possible while here, but at San Antonio she will have the constant attention of physicians, and it is believed the environments at San Antonio will be more satisfactory.

P. T. A. MEETING

An interesting meeting of the Parent-Teachers' Association was held in the Schreiner High School Monday afternoon. Mrs. Kendrick gave a demonstration lesson in sixth grade arithmetic for the benefit of the members of the association present. This was given from 3:30 to 4:00 o'clock, and immediately after school the regular program was rendered. The grade girls extend thanks to the association for the volley balls purchased for them.

BASKET-BALL GAME SATURDAY, 2:30 P. M.

Sonora High School basketball team is coming Saturday afternoon at 2:30 o'clock to play the Junction High School team. The local girls won a game two weeks ago and are thinking of nothing less than to defeat the Sonora girls. Basketball fans are urged to pass the word along so that there will be a good crowd out to see the game.

Anti-Smith Rally Saturday, 7:30 p. m.

A Democratic rally of Anti-Smith Democrats will be held in the Kimble County court house at 7:30 o'clock Saturday evening, October 27. Dr. Edgar Godbold, president of Howard Payne College, Brownwood, Texas, will be the principal speaker. In a letter to a member of the committee he says: "I do not expect to sling any mud, and I intend to say plainly, as I tell the folks wherever I discuss this subject, we cannot afford to lose our temper in this campaign because we must live together here in this nation after Mr. Hoover is elected President."

Dr. Godbold has made several addresses during the campaign and the local committee believes that he will bring a message that will be worthwhile. He is a fluent speaker and believes in the subject he is discussing.

FUTURE FARMERS WILL EXHIBIT KIMBLE CO. PECANS IN BROWNWOOD

At a recent meeting of the F. F. T's it was decided that the vocational agriculture class would get up an exhibit of Kimble County pecans to take over to the West Texas Pecan Growers Annual Institute, to be held at Brownwood November 15 and 16, 1928. This exhibit will be made under the name of "Kimble County Vocational Agriculture Class Exhibit," but we will appreciate any assistance given us by any pecan grower in the county, by his saving a quart of his best pecans for us to put in the exhibit. This will also be advertising each man's pecans as we will put the name of the man growing the pecans on each quart jar.

There will be pecan growers and pecan buyers there from all over the United States, so if you want to advertise your pecans and at the same time help the vocational agriculture class to have a good exhibit, please notify Mr. Bierschwald or some member of his class, Judge J. B. Randolph, Dr. J. F. Burt and Mr. O. J. Camp are the only men who have been approached on the subject so far, and they have each agreed to furnish some pecans.

Kimble County ranks about first among the counties in the United States in the number of native pecan trees and for this reason our growers should realize the value of these trees and should learn how to care for them in a way to make them most profitable. The boys in the V. A. class are learning some of these things.

Rocksprings Coming For Game Saturday

Sonora is coming Saturday afternoon at 3 o'clock to meet the Schreiner High School team on the local grounds. The good showing made last Saturday by the Junction boys against the heavy team from Fredericksburg leads football fans to believe that Junction will carry away the big end of the score this time.

The boys would be glad to see a larger crowd out this week. There is considerable expense attached to these games and there is no source of income except from gate receipts and such donations as are made by those interested in the team. Encourage the team Saturday by your presence.

REXALL ELECTRIC SIGN

The Awbrey-Bell Drug Company installed a new Rexall Electric sign in front of their store last Friday. There is nothing that adds to the beauty of a town more than these attractive electric signs. They are beautiful in daytime and more beautiful during the night. This with the other electric signs previously installed gives our main street a city appearance.

FREDERICKSBURG WINS FROM JUNCTION HIGH WITH SCORE 6 TO 0

Early in the fourth quarter, Fredericksburg made one touchdown following a series of short passes at the close of the third quarter, thereby winning the football game here last Friday between the Junction Eagles and the Fredericksburg High School. The Junction Eagles were in easy scoring distance when the whistle blew ending the first half. The teams were evenly matched and after the Eagles failed to score at the end of the first half, it looked as if it would be a scoreless game, but the visitors spoiled the hope and put over the one lone touchdown.

Both teams made many attempted passes, but few were completed. Junction completed two forward passes and intercepted two, while Fredericksburg completed three. Fredericksburg made six first downs and Junction three. Only two offside penalties were called during the entire game. It was a good game, well played and a fine spirit shown by both teams. Very few substitutions were made.

The lineup at the beginning of the game follows:

Junction	Position	Fred'burg
Hubbell	LE	Henke
Duderstadt	LT	Schluter
Braley	LG	Kneese
Ragland	C	Bailey
Alsop	RG	Moellering
Beasley	RT	Kneese
Dunbar	RE	Evers
Richardson	Q	Schweining
Blackburn	LT	Schuer
LaValle	RH	Schmidt
King	FB	Kruse

Officials:
Referee: Ben Dechert, Menard.
Umpire: Pat Beasley, Junction.
Head Lineman: Clark, Mason.
Score: Fredericksburg, 6; Junction, 0.

New Auto License Numbers Received

Automobile licenses will be offered for sale at an early date. Tax Collector Dee Gibbs announced this week. He says that he has the numbers in his office and that he has been assured the receipts will be here soon, probably by November 1.

The general tax rolls have been open since October 1, and anyone who wants to pay their poll tax and other taxes will be waited on whenever they present themselves at the window. All automobile licenses must be paid by January first, but other taxes have a final limit of January 31, 1929, but on account of the rush the last few days many prefer to pay before the last day.

ABSENTEE VOTING

L. R. Hodges, County Clerk of Kimble County, has the ballot for the General Election and those who will not be here on election day will have the opportunity of voting at the clerk's office, provided they present themselves not sooner than ten days, and not later than three days before the election. A sample of the ballot appears in this issue of the Eagle and will be easy to vote. Those who think that they do not know just how to vote should turn to the ballot and study a brief explanation accompanying the ticket.

There are also provisions whereby those living here but out of the county may vote. As the time is practically past for that class of absentee voting the provisions are not given, but anyone interested should consult the county clerk for instructions.

CITY COUNCIL MEETS

The City Council met in regular session Tuesday night, and attended to the regular business. A franchise was granted to the West Texas Utilities Company.

GRAND JURY PAYS TRIBUTE TO FATHER OF SAM P. WOODWARD

In last week's issue of the Coleman Democrat-Voice, the grand jury in making its final report to Judge J. O. Woodward, father of our fellow townsman, Sam P. Woodward, paid the judge a worthy tribute as he is retiring from public life at the close of this year after having served in public office nearly thirty years, the last twenty as district judge of the Coleman district. The entire report of the grand jury would read good reading, but we only reproduce the tribute to Judge Woodward.

We give this excerpt because it is unusual for a man to serve with the distinction that Judge Woodward has. The excerpt follows:

"For 50 years you have been a citizen of Coleman county during which the people have honored you by electing you county attorney two terms, and district attorney two terms and district judge five terms, or a total of 20 years, as district judge. During the time you have lived in this county you have raised your family, your children being among the best citizens of our county, and none of whom have brought shame or dishonor to themselves, to you or to the community.

Many of us have known you since we were very young men and some of us have known you practically all of our lives. Some of the fathers of the members of this grand jury likewise have known you since you first moved to Coleman county. It is our pleasure in making this report to say that you have at all times during your life in Coleman county, stood out openly and above-board for the enforcement of the laws; for the betterment of moral conditions; and for the betterment of humanity. You have been a friend to the good men and you have exercised your influence toward the enforcement of the law. You have conducted your court in an open and honest manner, striving at all times to honestly and fearlessly dispatch and dispose of the business coming before you as district judge. You have the confidence and the respect of the law-abiding people of your county.

Some of us have served on other grand juries besides this grand jury, some of us have served as petit jurors in the district court. We have at all times found you courteous and willing to help, aid and assist the grand jurors in the enforcement of the law.

We, therefore, in submitting to you this our final report, express to you our thanks and our appreciation for the services you have rendered, not only to this grand jury, but to the citizenship of your county both as citizen and as a public officer.

Respectfully submitted,
T. L. STEVENS,
Foreman.

GOOD ROAD BOND ISSUE IS INDORSED

A state wide bond issue of \$300,000,000 was indorsed by the County Judge and Commissioners Association in a recent meeting held in Dallas.

The judges and county commissioners recommended that the present license fee for vehicles be retained and the same proportion be assigned to state and county of the fees. It was also recommended that a tax be placed on gasoline of not less than four cents per gallon and not more than five cents. The \$300,000,000 for good roads would be taken from this gasoline tax, it is said.

Out of the three hundred million dollars enough would be taken to pay bonds now outstanding in counties where such road bonds have been voted, it is explained. This amounts to about \$50,000,000 for the entire state.

Should the recommendations be passed into laws by the legislature it would mean a saving of more than half of any road bonds voted and would materially reduce the tax.

The remainder of the \$250,000,000 would be used to complete the present designated highways over the state, according to the recommendation of the judges and commissioners.

A resolution asking the state to teach the adult blind during the summer months was also passed by the association. One asking that the asylums of the state be enlarged and another asking for the sterilization of

the hopelessly insane and feeble minded about completed the business, it was stated.

Out of a possible membership of 1,230 judges and commissioners there were 735 present a record breaking attendance, something like 235 more present at this meeting than ever at any other meeting of this organization.

George S. Matthews, Austin, was made president of the association to succeed E. M. Davis of Brownwood; A. C. Scott, commissioner from Robertson county was elected vice-president; and F. H. Alexander of Dallas was elected treasurer and secretary.

TEXAS COTTON PALACE

Waco citizens will entertain visitors to the Texas Cotton Palace Exposition for the nineteenth year, beginning November 9 and lasting until the night of November 19. During these years the Texas Cotton Palace Association has earned a place in the top ranks of big shows in the Southwest. The management has always had the happy faculty of knowing what exposition visitors want and have had the means of providing it. This year this institution will furnish the thousands who will attend with some high-class entertainment. There will also be exhibits of all kinds of farm products and livestock of royal breeding. Art will not be in the background. Indeed, there will be something of everything to meet the needs and desires of an exposition crowd. The Texas Cotton Palace Exposition bids fair to excel in every department any previous attempt—Farm and Ranch.

USE OF TRACTORS

It is not the opinion of the A. & M. College that every farm should use a tractor. But it is our opinion that tractors can be used to advantage and economically by many Texas farmers who are now using mules. On the other hand, doubtless there are farmers using tractors who ought to be using horses and mules. One important consideration is this: If you love and respect horse flesh and are not mechanically inclined, stay away from the tractor. However, if you are mechanically inclined and respect a piece of machinery, you will undoubtedly derive profit from its use, provided other conditions are suitable. The success of a tractor depends largely upon its care. The machines now being built are in a majority of cases, well constructed of good materials. They are well enclosed and protected against dust and dirt and rapid wear. Most of the moving parts, such as engine parts, gears and shafts and bearings run in oil. Other parts are easily greased by means of a grease gun.—Progressive Farmer.

With the football season in full swing there is little interest in any other sport.

Good roads and good streets are worth all they cost if those concerned get their money's worth in the construction.

ANOTHER SKIN GAME

A travelling man out of San Antonio relates the following: A woman goes into a furniture store and makes a purchase totalling about \$250. She offers to pay cash with a \$1000 bill. She is detained while a man is sent with the bill to a bank to determine if it is good. While the messenger is gone the woman gets irate. She cancels the order for the goods. The messenger returns with the bill and states that the banker says it is o. k. The woman goes home and a few hours later phones that she has reconsidered and the merchandise is sent to the address with change for the bill. The transaction takes place and the driver returns with a counterfeit bill, unknowingly. Of course when the discovery is made the offending party has gone.—Carrizo Springs Javelin.

Little Charles had been ordered to collect the eggs each day, and to be sure that none was left beneath the old clucking hen. His desire for some fluffy chicks, however, proved too great for him, and several weeks later his mother was greeted by a proud old hen and her six children.

"Who did this," she demanded sternly.

Charles hung his head.

"I cannot tell a lie, mother," he said. "The old hen did it with her little hatch it."

Two Amendments Approved by Texas State Teachers Ass'n

R. T. Ellis, secretary of the Texas State Teachers Association, and a schoolmate and friend of the editor of the Junction Eagle, has sent a communication to the Eagle asking that the attention of the voters of Kimble County be called to two of the constitutional amendments to be voted on in the November election.

Mr. Ellis writes: "No doubt you desire the most economical administration of the public schools of Texas that is possible. The machinery devised more than fifty years ago is now inadequate and obsolete in some respects. Two of the amendments to be voted on at the general election, November 6th, are designed to make it possible for the Legislature to give us a more economical and satisfactory organization for the administration of our public schools.

"These amendments do not call for the appropriation of any money whatsoever. In the one case the amendment will make it possible for the Legislature by law to establish a state board of education to take the place of the ex-officio board now functioning. It should be so constituted that there will be experienced, capable members on this board at all times, serving without pay and functioning in behalf of the public schools in much the same way as does the Board of Regents for the University of Texas or your local school board for your local schools.

"In the other case, the amendment gives the Legislature power to designate by law just how long members of the several different classes of school trustees and other officers shall serve, not to exceed six years. It may be that it is best for trustees of common school districts to serve for only two or three-year terms, but many of our educational institutions represent investments entirely too large to be controlled by school boards that may change completely every two years.

"The two amendments to which we refer, read as follows: "The Legislature shall fix by law the terms of all officers of the public school system and of the State institutions of higher education, inclusive, and the terms of members of the respective boards, not to exceed six years."

"The Legislature shall provide by law for a State Board of Education, whose members shall be appointed or elected in such manner and by such authority and shall serve for such terms as the Legislature shall prescribe not to exceed six years. The said board shall perform such duties as may be prescribed by law."

HIGHLAND STUDY CLUB

The first meeting of the Highland Study Club, composed of members from the borderlands of Kimble, Edwards and Sonora counties met with Mrs. E. G. Hill in the Watson Divide community in Kimble County, October 6th. On account of illness several members were absent but those present enjoyed both the study program and the social hour. Mrs. Hill served delicious refreshments after the business session.

The organization has as its objective a three-fold purpose. First, it cultivates a community spirit that makes its influence felt in all phases of community interest. Second, it meets a need for social activity in a sparsely settled territory where neighbors cannot often visit. A stated date for a definite purpose induces each member to make an effort to share a pleasant afternoon with her friends. This feature is worked out by providing a period for needlecraft and home-making topics. Last, but not least, is the hour of educational recreation. The outline for the present year is

based on American Literature and offers a comprehensive study of types, locations and authors.

We feel our efforts to preserve the organization is justified since last year's work was appreciated to the extent that all members were eager to continue the work.

The club is served by the following officers:

Mrs. S. O. Ridenhower, president; Mrs. S. S. Bundy, vice president; Mrs. Gordon Stewart, secretary-treasurer; Mrs. H. H. Tobin, parliamentarian.

SEGOVIA SIFTINGS

Through the courtesy of the
editor of the Eagle we have been
invited to contribute news from
this part of the world and we
are glad to accept the invitation.
This section is in fine condition
and everything is moving along
nicely. Most everyone has fin-
ished shearing or will in the
course of a few weeks. At
present those who have pecans
are busy gathering in the crop
before bad weather begins.

Our school has been in ses-
sion six weeks and all the pupils
are progressing nicely with their
work. Miss Lucile Cartwright
of Junction has organized an
expression class among the stu-
dents and we're expecting some
good work from them.

Those from Segovia who wit-
nessed the football game, Sat-
urday night at Junction, were:
Mr. and Mrs. Bill Bishop and son, Philip, Mr.
and Mrs. R. R. King and sons,
Max and Gordon, and Mr. and
Mrs. W. D. Dixon.

Junction visitors Saturday
were Misses Louise and Teeney
King, Messrs. Justus Rouse, Ed-
ward Keithley, Gordon and Max
King.

Mr. John Keithley made an
extended week-end visit, spend-
ing Friday night at Harner and
Saturday and Sunday at Com-
fort. So far we have been un-
able to learn what called him
away.

Mr. and Mrs. W. N. Hatch
and son, Alton, attended Sunday
school at Junction.

Miss Naomi Knowles spent
the week-end in Ballinger with
her parents.

Mr. and Mrs. Luther Jones
spent Saturday night and Sun-
day at Telegraph visiting Mr.
Jones' parents.

Mrs. T. D. Ricks, Mrs. L. H.
McDonald and I. L. Wyckoff
were Sunday guest in the home
of J. M. Keithley.

Mr. and Mrs. E. A. McCoy of
Junction spent Sunday with Mr.
and Mrs. W. N. Hatch.

Miss Louise King was on the
sick list Sunday but was able to
be at school Monday.

We regret to report that Rob-
ert and Ruby Neal were unable
to be at school Monday on ac-
count of illness.

Mrs. T. D. Ricks and children
left early Monday morning for
Stanton. We regret to lose them
from our neighborhood but wish
them good luck in their new
home.

Mr. Doug. Jones returned
Monday from Menard where he
went to deliver a herd of cattle.

Mr. and Mrs. I. L. Wyckoff,
who have been visiting in Se-
govia for some time, left Mon-
day at noon for Hunt, Texas,
where they will make their
home. They were accompanied
by Mrs. Luther Jones and chil-
dren and Edward Keithley who
will help them get settled in
their new home.

Mr. W. N. Hatch was a busi-
ness visitor to Junction Mon-
day.

JUNCTION SCHOOL NOTES

Again we met defeat in foot-
ball Saturday at the hands of
Fredericksburg. One very im-
portant reason that we might
mention for our defeat was that
the boys on the Fredericksburg
team are much heavier than the
boys on our team. Nevertheless,
our boys did very good playing
and it had begun to look as if
neither side was going to score
until the latter part of the
third quarter when Fredericks-
burg carried the ball to their
goal. They failed to kick the
goal making the score 6-0. The
large crowd of "rooters" with
the Fredericksburg boys showed
lots of pep and spirit by ringing
bells and yelling. This was one
of the championship games and
we regret the loss of it.

The basket ball girls have
been on the job at all recesses
and after school, practicing for
the next game, which will be
played here Saturday at 2:30
with Sonora.

Gay Muna and Bill Foley vis-
ited high school Friday after-
noon.

Monday afternoon at recess
Mr. Powers made a talk to the
high school students about their
lack of spirit and pep at the
football games. The talk was
very interesting.

Elsie Davis, who is a student
of the Second Grade, has been
missing school lately on account
of an attack of typhoid fever.
She is improving and her class-
mates hope to see her back
among her number soon.

Elenore Conner was enrolled
in the Third Grade this week
and Celeste Conner was enrolled
in the Fifth. These two pupils
were formerly attending school
at Copperas.

The Sixth Grade has an enroll-
ment of 42 pupils and is still
growing.

Beatrice Smith has been ab-
sent from school for several
days on account of the illness
of her mother.

Mildred Hodges went home
from school Tuesday morning on
account of illness.

Very interesting and well re-
ceived. After his talk the Pep-
Squad was reorganized. Ruby
Johnson, the former Pep-Squad
leader, resigned because she
didn't feel she had the co-opera-
tion of the student body. Two

new Pep-Squad leaders were
elected, Virginia Strong and
Raymond James. We are be-
hind you, boys, and if you'll let
us we will push you through.
There will be a Pep-Squad meet-
ing at 7:30 Friday evening.
Everyone is urged to attend
this meeting.

Big dance Friday night, De-
cember 2. Music by Mickey
Rathbone and his hot bunch.
Come and enjoy yourself. Dis-
muke Hall, Rockspurs, Texas.

Look, Before You Buy!

From childhood days, you have been told to "Look
before you leap!" That's a mighty good maxim. We
all think it unquestionably good advice.

Not so long ago, it was a more or less accepted
custom of business, to "highpower a person"—to "sell
them while the selling was good."

But nowadays, the ethics of good business does not
approve of such methods. A good business house frankly
enjoys fair competition. No business man wants to sell
a customer something that the customer later on finds
he didn't want.

IT HAS ALWAYS BEEN THE POLICY OF LEE
MASON & SON to urge their customers to "Look before
you buy"—and to "Shop before you buy."

Of course we believe that our merchandise is the
very best. We wouldn't sell it, any of it, if we didn't
believe in it. But how are you going to know this unless
you get comparisons?

FOR INSTANCE, WHEN IT COMES TO BUYING
AN AUTOMOBILE—it does not hurt our feelings like
everything if some of our old friends—and it isn't our
fault if everyone in the Hill Country isn't our friend—
buys an Automobile without giving us a chance to show
them our Chryslers.

We urge you to "LOOK BEFORE YOU BUY"—and
while you are looking, be sure and see us! Now, as
somebody once said, "There's our cards on the table."
Please resolve right now, to let no influence persuade
you to buy any other car, regardless of price or previous
consideration, until you have first seen the new Chryslers
and obtained the new low prices.

Our Mr. C. W. Arnot, our Salesman for Junction
and vicinity, has been seriously ill with pneumonia
the past several weeks.

We are glad to advise his friends that he is
now on the road to recovery, and you will soon see
him driving his beautiful Plymouth Sedan in and
around Junction within a few more days.

If you want to "talk car" before Mr. Arnot
sees you, please drop us a line or send us word, and
it will be a pleasure to give you all information you
desire.

CURRENT NEWS

Governor Dan Moody has announced that he will appoint an advisory committee of thirty-one to work out and present to the next legislature a suitable highway program. The committee will frame all highway legislation, and will have, no doubt, the administration's support. The governor has written to each member of the House and Senate in each of the thirty-one senatorial districts to suggest a name from each district for membership on the committee.

Cone Beckham, a member of the Smith County Boys' Corn Club has grown 111 bushels of corn on one acre this year. This shows what can be done with the proper care and cultivation of corn or any other crop. The average yield in that county this year is only about one-fourth the number of bushels Cone Beckham grew.

Gov. Alfred E. Smith will abolish the mysterious anonymity of the "White House spokesman" and will talk directly to the people every day if he is elected President, he announced Sunday as his eleven-car special train brought him back to Albany from his second and last political invasion of the West.

camp 14 miles northeast of Boerne, and Grover Rhorer of San Antonio, was being held in the Kendall County jail Sunday on a charge of murder.

Thomas Francis Davis, 17, was convicted by a jury in the Eighty-eighth District Court at Eastland Sunday afternoon and given the death penalty for the murder of Lucian Shook. It was the second death penalty meted out by Eastland County juries in a week, growing out of the murder, September 7 near the deserted oil boom town of Leeroy of Lucian and Leon Shook, brothers. Clyde Thompson, 18, was given the supreme penalty several days ago.

HOW TO MARK BALLOT IN GENERAL ELECTION TUESDAY, NOVEMBER 6

Accompanying herewith is a sample of the ballot that the voters of Kimble County will have handed to them on Tuesday, November 6. There is always a mystery to many about voting, but a little study of the ballot will make voting easy when you go to the polls. If a voter desires to vote the Democratic ticket he will draw a line through all the parties as designated at the top of the ticket except the first, which is the Democratic ticket. If the voter desires to vote the Republican ticket, he will mark out the first and last three columns, being careful not to let his pencil run into the amendments at the bottom of the ticket. Likewise throughout the five tickets as designated at the top of the ballot.

Some, however, have expressed a desire to vote the Democratic ticket with the exception of the presidential electors. Those desiring to vote for the Republican electors and the rest of the Democratic ticket will mark their ballot as follows: Mark out the Electors in the Democratic column, and then beginning at the close of the electors in the Republican ticket, mark out all the officers in the remainder of the Republican column. Those voting this way must not forget to mark out the last three columns.

There has been some question in the minds of some as to whether a mixed ticket could be voted. To the writer's knowledge they have been voted every two years for the past six years, and those in position to know say that it is legal. This ruling is based on the Revised Statutes of 1925:

"Art. 2981. How to Mark Ballot.—When a voter desires to vote a ticket straight, he shall run a pencil or pen through all other tickets on the official ballot, making a distinct marked line through such ticket not intended to be voted; and when he shall desire to vote a mixed ticket he shall do so by running a line through the names of such candidates as he shall desire to vote against in the ticket he is voting, and by writing the name of the candidate for whom he desires to vote in the blank column and in the space provided for such office; same to be written with black ink or pencil, unless the names of candidates for which he desires to vote appear on the ballot, in which event he shall leave the same not scratched. (Id. Sec. 43)—Revised Civil Statutes of Texas, 1925, Page 1071."

The marking on the ballots must be done with a black pencil or black ink. If the ballot is marked with any color other than black it will not be counted.

MISTAKES POISON FOR MEDICINE; TWO DIE

Brownfield, Oct. 22.—Given an insecticide by their father, Bill Dorman, who thought the poison was salts, two children died on a farm a few miles from Brownfield Sunday night despite the efforts of three physicians to save them.

One of the children was not feeling well Sunday and the father gave the elder what he thought was salts. The younger then asked for some medicine and a dose of the same poison was given to him. Both became violently ill and died a few hours later.

The insecticide, it was said, was given to Mrs. Dorman by a neighbor. Mrs. Dorman put it into a box which had contained salts, and it was from this box that the father took the preparation.

If a speculation shows a profit it is known as an investment.

KNOW TEXAS

The Southwestern Bell Telephone Company predicts that by 1950 Texas will have a population of 7,015,000, a gain of 1,488,000 or 28.7%.

The only paper mill in Texas is at Orange on the Sabine River.

Texas is drained by 11 principal river systems, only three of which, the Canadian, Pecos and Rio Grande, originate outside of the state.

The Pashandle High Plains region covers almost 18,000 square miles and the number of farms in the region has increased more than five-fold since 1900.

In the South High Plains region of Texas cotton growing has expanded from 74,195 bales in 1919 to 322,062 bales in 1926.

Texas imports \$25,500,000 worth of pork and pork products annually.

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS.
To the Sheriff or any Constable of Kimble County—Greeting:
You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Kimble, State of Texas, and you shall cause said notice to be printed at least once each week for four consecutive weeks exclusive of the first day of publication before the return day hereof.

NOTICE OF APPLICATION FOR PROBATE OF WILL.
To all persons interested in the Estate of S. B. McKee, Deceased, W. E. McKee has filed in the County Court of Kimble County on the 11th day of October, A. D. 1928, an application for the probate of the last Will and Testament of said S. B. McKee, Deceased, and for letters testamentary (the said Will accompanying said application), which will be heard and acted on at the next Term of said Court, commencing the first Monday in November, A. D. 1928, same being the 5th day of November, A. D. 1928, at the Court House thereof, in the City of Junction, Texas, at which time all persons interested in said Estate may appear and contest said application should they desire to do so. Herein fail not, but have you then and there before said Court this Will, with your return thereon endorsed, showing how you have executed the same.
Given under my hand and seal of said Court, at Junction, Kimble County, Texas, this 11th day of October, A. D. 1928.
(SEAL) L. E. HODGES,
Clerk County Court, Kimble County, Texas.

The pardon was issued before Dr. Shumaker had reached the State farm at Putnamville. It was given, according to the secretary to the Governor, because the Governor believed the penalty "excessive." Dr. Shumaker, however, will have to pay the \$250 fine assessed by the Supreme Court in addition to the sixty-day sentence.

PROTECTION ONE DOG FROM ANOTHER IS UP TO CITY AUTHORITIES

Detroit, Mich., Oct. 17.—A dog's master assumed the role of faithful friend Wednesday and appeared before the City Council of Wyandotte, a suburb, with a plea that his dog be protected from "lickings" administered by a neighbor's dog. The plea was made by John Campbell, who explained that his dog is 10 years old and no match for his neighbor's younger canine. The latter, he said, has been trouncing his veteran pet regularly of late.

In the ensuing debate on the subject, a legal question as to how far the council could go in protecting one dog from another was raised and finally was referred to the City Attorney for an opinion.

A HEINOUS CRIME

Arson is the most heinous crime, the most despicable act conceivable.

When someone decides to "sell out to the insurance company" by setting fire to his property, it is with the deliberate intent of defrauding the underwriters. As a matter of fact, the public is robbed as well as the insurance company, for when arson is committed, the expense of the fire must be spread over the entire community, in the cost of fire insurance. In this way, the innocent pay for the misdeeds of the guilty. Thus it is evident that, financially, the repression of arson is a vital matter to everybody, and that as a matter of public safety the fire fiend should be combated at every turn.

There is a still more important reason why the public should be intensely interested in curbing this vicious crime—the loss of life from fire is appalling, thousands being killed every year, particularly in arson fires. The fire-crime is generally does a thorough job, often working in the dead of the night. As a result, the fire spreads with terrible rapidity, and his victims awaken, horror-stricken, to find themselves surrounded by flames and escape impossible. Then, too, this type of blaze has generally gained such headway before the firemen arrive, that a larger percentage of property is destroyed than in other fires.

The arsonist is a very dangerous factor in the fire situation and every citizen should bear down on him and all of his kind.

BUILD BRIDGE ACROSS RIO GRANDE AT DEL RIO

Del Rio, Oct. 17.—Approval was given recently by the War Department in Washington, D. C., for the construction of a steel bridge across the Rio Grande at this point. The bridge is to contain four fixed steel spans with a vertical clearance of thirty-eight feet at low and six feet at high water.

Work was started on the structure some weeks ago, but was delayed until the Governments of both the United States and Mexico had granted permission for the construction. Mexico has already favorably acted on the proposition, so it is likely that the bridge will be completed some time early next year.

Cost of the new structure will be approximately \$150,000.

RULE TRICKY

"Grammar is the most confusing thing," remarked Cassidy to his friends. "I can never remember whether to say 'It is I' or 'It is me.'"

"I can give you a good rule on that," said his friend. Just "say over to yourself this rhyme: 'It is I said the spider to the fly,' and there you are."

A few days later the friend met Mike and inquired if the rule had been of any help.

"It would have been but for wan thing," replied Cassidy. "I couldn't for the love of me remember whether your rhyme was 'It is I said the spider to the fly,' or 'It is I said the spider to the flea.'"

UNLIKELY

The best story we've heard this month is the one about the man who was examined for life insurance and the doctor gave him a chart of the human body with holes punched in it at every place where the applicant was ailing and he took it home and his wife placed it in the player piano and it played, "Nearer My God To Thee." Every purchaser of a new Ford is entitled to Free Inspection Service for the first 1500 miles

THE modern automobile is a finely built piece of machinery and it will stand a lot of abuse. Considering the work it does, it gives surprisingly little trouble. But there isn't a car made that will not run better and longer if given proper care.

The first few hundred miles are especially important because that is when the mechanism of your car is being broken in.

Proper attention during this period will lengthen its life and prevent unnecessary trouble later on.

We are particularly interested in this matter because we believe it is our duty not only to make a good automobile, but to help the owner get the greatest possible use over the longest period of time at a minimum of trouble and expense.

With this in view, the entire Ford dealer organization has been specially trained and equipped to service the new Model A car.

Furthermore, we have instructed every Ford dealer to give the following Free

Inspection Service at 500, 1000 and 1500 miles:

- Check battery
- Check generator charging rate
- Check distributor adjustment
- Check carburetor adjustment
- Check lights
- Check brakes
- Check check absorber adjustment
- Check tire inflation
- Check steering gear
- Change engine oil
- Lubricate chassis

No charge is made for labor or materials incidental to this service, except, of course, where repairs are necessary through accident, misuse or neglect. The only charge is for new oil.

See your Ford dealer, therefore, and get this Free Inspection of your new car at 500, 1000 and 1500 miles. Find out, too, how little it will cost to have your car given a thorough going-over at regular periods thereafter.

A checking-up by experienced mechanics, together with oiling and greasing every 500 miles, will add months and years to the life of your car and mean more economical and pleasurable motoring every mile you drive.

ADDITION OF 3 TOWNS BRINGS NUMBER SERVED BY COMPANY TO 105

The addition of Dodsonville, Collingsworth county, Medicine Mound, Hardeman county, and Wingate, Runtels county, brings the total number of cities, towns and communities served by the West Texas Utilities Company to 105.

The number of customers served to date totals 53,430, making a gain of 1,036 customers in the past month. Seven years ago the West Texas Utilities Company was serving but seven of the larger cities of West Texas. Today the entire area covered by approximately 2,000 miles of transmission lines has a population of more than 100,000.

LIGHTNING EFFECTS ON MOUNTAIN IS STUDIED

In a battle to tame lightning, electrical engineers are "digging in" on top a lonely Tennessee mountain for a campaign that may last six months or six years.

Lightning to date, experts say, has remained an unknown quantity, and has hampered operation of long distance high power electrical lines.

The "battle of Chilwee Mountain," where an average of 20 thunderstorms occur each month, the engineers say will reveal characteristic lightning which scientists have sought for centuries. The camp will be located at Chota, Tenn. Westinghouse Electric and Manufacturing Company engineers will make up the army.

All devices to be used are automatic. Oncoming thunderstorms will give warning by ringing a bell, calling the engineers into action, and cameras will record any lightning within their range.

LIVE STOCK NEWS

Offers of \$6.50 for the medium grade of mixed lambs and \$7.50 for the lambs from the best flocks are being made now in Crockett county by local buyers, according to T. A. Kincaid, president of the Sheep and Goat Raisers' Association of Texas. These lambs would be delivered next September of October.

A profitable winter may be spent by West Texas farmers in converting their beef calves of the last crop into baby beefs to sell next spring, points out Dor W. Brown, county agent of San Angelo.

The United States has a shortage of 12,000,000 beef cattle, and we are slaughtering more beef animals than we are producing.

Texas ships 500,000 lambs annually to other States for feeding, receiving an average of about 11 cents per pound. These lambs average from 55 to 60 pounds each, which brings to the producer from \$3,025,000 to \$3,300,000, according to weight. Northern feeders take these lambs and finish them. When marketed they weigh from 80 to 90 pounds, and sell for around 14 cents per pound. Northern feeders receive approximately from \$5,600,000 to \$6,300,000 exclusive of the fertilizer which is worth in excess of \$1 per lamb during the ninety days of feeding. The Northern feeder makes a market for his feedstuffs, receiving from \$2,575,000 to \$3,000,000, labor of feeding not taken in account. The labor, however, is taken care of by the value of the fertilizer secured.

Texas, in ordinary years, ships 1,000,000 head of cattle to Northern feed lots, where they provide a market for Northern feedstuffs. There is no market for feedstuffs in Texas except through livestock.

Swift & Company and other meat packing companies are feeding hundreds of high-class baby beefs in Texas to supply the constant demand for quality meat. These companies have to purchase all the feeds consumed and hire men to do the feeding. They would much rather the farmers of Texas would produce and finish quality animals for this quality trade.

It is a real pleasure to the devotees of the sheep and goat industry to note not only the increase in numbers but also the top quality of the sheep and goats on exhibition at the Dallas Fair this year. It may be added, too, that there were more Southwestern flocks this year than for several years past.

MENARD CO. GRAND JURY RECOMMENDS ERECTION OF NEW COURT HOUSE

The Menard County grand jury in making its report to the Court last week recommended the erection of a new building to take care of the records of the county. The following recommendation was made:

"We desire to go on record in stating that our court house is in a very dilapidated condition. We find that the records affecting every acre of land in Menard County and many other records affecting property rights are daily exposed to fire on account of inadequate fire proof vaults in which to store these records. Millions of bats make our court house their home and millions upon millions of mites make it miserable for those whose duty it is to stay at the court house for the purpose of transacting business. When we have a high wind it is almost impossible to hear one talking on account of the rattling of the windows and the tin shutters fastened to the cupola of the court house and it is exceedingly dangerous to walk around in the district court room on account of the holes in the floor. We have a most beautiful park surrounding our court house and we recommend that steps be taken to erect a new court house roomy enough to accommodate the needs of the citizenship of our county."

HOW OLD ARE YOU?

"How old are you?" inquired the visitor of his host's little son.

"That is a difficult question," answered the young man, removing his spectacles and wiping them reflectively. "The latest personal survey available shows my psychological age to be 12, my moral age 4, my anatomical age 7, and my physiological age 6. I suppose, however, that you refer to my chronological age, which is 8. That is so old-fashioned that I seldom think of it any more." Exchange.

"One other thing," said the architect to his client, "is the drawing-room. Where would you have that?"

The suggestion aroused the client. "See here, my good man, you have come ahead with plans for a music room when I don't play even a harmonica; a nursery, when I don't have a nurse. But I don't think I'm going to let you add a drawing-room when I can't even draw a straight line."

COMING! SCHELL BROS. TRAINED ANIMAL SHOWS

Unlike any show ever presented is Schell Bros. Four Ring Trained Wild Animal Show. It will be an event long to be remembered when on October 30 the Schell Bros. Big Trained Wild Animal Shows arrive in Junction for two performances.

Schell Bros. present a real Wild and Domestic Trained Animal Show, educated horses, ponies, mules, zebras, lions, tigers, leopards, hyenas, seals and sea lions, elephants, dogs, pigs, in fact the animals of the earth. It is by constant study of the nature and habits, in the forest, jungles, and at a close range that the trainers of Schell Bros. Shows have evolved a system of education, and after many years of hard labor take pride in offering an exhibition of this nature to the public for their approval. That the public enjoys and approves the exhibition is evident by the hearty welcome accorded each performance, and recurring visits and the pleasing comments from our audiences.

"LAND OF FLEECY FLOCKS"

Some time ago the Lion's Club of Ozona staged a contest to select a slogan for the local club. The committee had a large number of slogans submitted, but after considering all of them awarded first prize to Mrs. J. H. Meredith, who submitted "Ozona, Land of Fleecy Flocks." Second prize went to Mrs. P. T. Robinson for the slogan, "Home of the Rambouillet Sheep." "A Good Place to Live," submitted by Florence Adams won third place.

ANOTHER HORNED FROG

E. G. Glasson, farmer living four miles east of Coleman, saw a horned frog placed in a cement block about three months ago by his son and a son of J. Parker. October 14 the block was opened and the animal was apparently dead and as flat as a pancake. Thirty minutes in the sun and he blinked his eyes, stretched his limbs and crawled away to the nearest ant bed.

Junction Trade Notes

A recent newspaper dispatch states the Shell Pipeline Company has started survey for a pipeline from McCamey to tide-water in the vicinity of Houston. The Atlantic interests, it is said, have surveyed a line and will also build to tide-water at Houston. The Texas Company's line is now under construction through Kimble County.

The State Highway department makes announcement that surveying crew will shortly be put in the field to locate the best route for the Old Spanish Trail north of Boerne. Re-location of the O. S. T. from Junction west along the North Llano may also be made at an early date.

New fall crop of honey, from Mason County apiaries of R. L. Becker, extracted and in the comb; Perry's pure country syrup, manufactured in Kimble County. Gann Grocery Company.

H. E. Bossman of the popular V-Bar-H tourist ranch is planting a considerable quantity of oats on his premises with a feeling of assurance that ample rains will fall and mature the crop. Mr. Bossman bases his rain forecasts on the theory that detonations from the discharge of dynamite to be used in excavations for the Texas pipeline, will bring the rains.

Approximately 200,000 pounds mohair, sold around 64c and 74c, was moved from Junction Wool Warehouse last week. The fall accumulation of wools is now taking sizable form, with approximately 100,000 pounds already received. Sale of wools will take place early in November.

New crop currants, in sanitary packages, received this week. Gann Grocery Company.

Jacob Fritz of London marketed pecans in Junction Monday.

Cotton was selling in Junction Wednesday around 18 and 18 1/4 cents. The pecan market is draggy, with only speculative local sales around 8c and 8 1/2c. Light frost was reported in the lowlands of Kimble County Tuesday morning (23rd).

Green tomatoes for chow-chow will be on sale at Gann Grocery Company Saturday.

Local Baptists have practically matured plans and specifications for the erection of a modern church building in Junction, to cost around \$15,000 to \$18,000. Construction contract may be let within the next few days.

An electric chime clock erected at front of the new Junction State Bank building adds to the dress-up appearance of Junction and is attracting considerable attention. It will be found useful to the public, as well as ornamental. The clock is supposed to chime when your note falls due.

We have 23 members now. Our membership campaign closes November 9.

MERRY WIVES CLUB

Mesdames Jas. A. Miller and Rowland Martin were joint hostesses Friday evening to the Merry Wives Club and a number of friends, at Mrs. Miller's residence.

Halloween shaded lights, black cat talties and witch decorations provided an eerie atmosphere. Mrs. U. D. Kendrick won the club prize, a framed picture. The guest prize, a serving tray, went to Mrs. Irvin Jarvis. Mrs. Watt Turner won the cut prize.

The consolation, a pretty salad set, went to Mrs. M. Awbrey. Among those who received table prizes, ivory lemon forks and paper knives, cunningly dressed as witches, were Mesdames Guy Wynne, Vann Martin, Joe Watson, Misses Clara Fritz and Lela Taylor.

Fruit salad in aspic, wafers, sandwiches, olives, iced tea and cake were served to about thirty-six guests.

CHURCH OF CHRIST

We are making a special request to all of the members to be present at both services Sunday morning and at night. Some important announcements of matters pertaining to the future of the church will be made, and we hope to have a full house.

Preaching at 11 a. m. and at 7 p. m. Bible classes will meet at 10 a. m. Lesson for the Bible class will be the 6th chapter of Romans. A cordial invitation is extended to all to attend these services.

J. S. Newman,
Minister.

MRS. DENMAN HOSTESS TO MERRY WIVES CLUB

The Merry Wives Club and a group of friends were complimented with a costume bridge party, given by Mrs. H. O. Denman Tuesday evening at her home. Mrs. Fred Knapp and Mrs. Fred Kountz of Phoenix, Arizona, were the guests of honor on this occasion.

The Halloween motif was carried out in the decorations and Halloween talties were also used. After a series of games the club prize, a black and orange cake plate, was awarded to Mrs.

Pierce Hoggett. Mrs. Dorothy Westmoreland received the cut prize, a pretty bonbon dish. The honorees were presented with dainty silk handkerchiefs. Mrs. H. E. Luehrs, who made low score, was awarded a chore ball.

Mesdames Ed Allen and Clay Secrest received candy sticks for having the most attractive costumes.

At the close of the games the guests were invited to the dining room where the table was spread with a Halloween table cloth, with a bowl of cosmos for a centerpiece. Fruit salad on lettuce leaf, sandwiches, wafers, tea and little cakes, were served from the table.
