By Louis C. Stas

The temperature at the bank showed to be 72° Monday afternoon. The only thing wrong with the day was a bit of wind later in the afternoon.

— cwe —

It does not look good for moisture nor temperature wise for the year. We went through the first 12 days with higher than normal temperatures and no sign of moisture.

— cwe —

Hopefully that old method of forecasting the weather for the year is wrong this year.

WORK ON MUSEUM: Work is ongoing at the Wheeler Historical Museum. The project to restore the American Legion Post and open the Wheeler Historical Museum got underway November of 2010. A new roof was put on the building, the wood trim was repaired and the exterior trim painted. Sewer and electricity have been connected and work is underway on the interior. In its life as a Legion Post, the building provided a location for many dances and the county fair. The Wheeler Historical Committee hopes to have an Open House in September to show progress that has been made on the building.

Agri Life Extension

Food Safety Tips for Hunters

With hunting season in full swing, the Wheeler County Extension Agent along with Texas AgriLife Extension want to share with you a few tips to keep your harvested food safe this season.

In the field:

First, never shoot, handle or consume any wild animal that appears sick. Contamination can occur at any point during the processing of wild game. Take extra time and handle carcasses with care when field dressing. Some things to consider: wear gloves when field dressing, remove all internal organs, discard any meat that is bruised, discolored, contaminated with feces or intestinal contents, contains hair, dirt or

bone fragments. Remove any bloodshot areas or meat that was in contact with the bullet. Also, avoid contact with intestines, spinal tissues, and lymph nodes of animals while you work. Do not use household knives or utensils, use knives designed for field dressing. Be sure to remove all foreign particles and loose hair.

When cleaning up in the field, be sure to properly dispose of the hide and remaining parts of the animal in an offal pit or in an approved area.

Processing and storing wild game:

Be aware of cross contamination and temperature abuse, both will cause the meat to go bad. Cool carcasses quickly, keep them cool during transport, and keep them out of direct sunlight.

Cool the carcass by propping the chest open with a clean stick and allowing air to circulate.

Thoroughly clean and sanitize all equipment used in the processing of the animal. Wash your hands, knife, cutting boards often with warm soapy water.

Packaging and storing meat is very important in the overall qual-

NICKNAMES

By now, it's evident that I like stories of nearly any kind, except "bragging stories." Over the years, I've heard a lot of nicknames. It's always seemed to me, like there were sure a lot of them around here, and also occurred to me, that there's some sort of story that goes with each of them. It'd be interesting to know just how each nickname came about, and why it stuck with that person. Personally, I've never had a nickname that stayed with me, just a few temporary ones that I was glad to get rid of. I decided to write down all of them that I could remember, of people here locally. Different Drug

(Editor note: The following letter has appeared on the internet and was viewed by many readers. It was brought to the attention of the Times by Roland Miles.)

The other day, someone at a store in our town react that Methamphetamine lab had been found in an old farmhouse in the adjoining county and he asked me a rhetorical question, "Why didn't we have a drug problem when you and I were growing up?"

I replied, I had a drug problem when I was young: I was drug to church on Sunday morning. I was drug to church for weddings and funerals. I was drug to family reunions and community socials no matter the weather.

I was drug by my errs when I was disrespectful to adults. I was drug to the woodshed when I disobeyed my parents, -told a lie, brought home a bad report card, did not speak with respect, spoke ill of the teacher or the preacher, or if I didn't put forth my best effort in everything that was asked of me.

I was drug to the kitchen sink to have my mouth washed out with soap if I uttered a profanity. I was drug out to pull weeds in mom's garden and flower beds and cockleburrs out of dad's fields. I was drug to the homes of family, friends and neighbors to help out some poor soul who had no one to now the yard, repair the clothesline, or chop some firewood, and, if my mother had ever known that I took a single dime as a tip for this kindness, she would have drug me back to the woodshed.

Those drugs are still in my veins and they affect my behavior in everything I do, say, or think. They are stronger than cocaine, crack, or heroin and, if today's children had this kind of drug problem, America would be a better place.

God bless the parents who drugged us.

Winter Driving Tips

- Avoid driving while you're fatigued. Getting the proper amount of rest before taking on winter weather tasks reduces driving risks.
- Never warm up a vehicle in an enclosed area, such as a garage.

- Make certain your tires are properly inflated.
- Never mix radial tires with other tire types.
- Keep your gas tank at least half full to avoid gas line freeze-up.
- If possible, avoid using your parking brake in cold, rainy and snowy weather.

- Do not use cruise control when driving on any slippery surface (wet, ice, sand).
- Always look and steer where you want to go.
- Use your seat belt every time you get into your vehicle.

Tips for long-distance winter trips:

- Watch weather reports prior to a long-distance drive or before driving in isolated areas. Delay trips when especially bad weather is expected. If you must leave, let others know your route, destination and estimated time of arrival.

- Always make sure your vehicle is in peak operating condition by having it inspected by a AAA Approved Auto Repair facility.
- Keep at least half a tank of gasoline in your vehicle at all times.
- Pack a cellular telephone with your local AAA's telephone number, plus blankets, gloves, hats, food, water and any needed medication in your vehicle.

- If you become snow-bound, stay with your vehicle. It provides temporary shelter and makes it easier for rescuers to locate you. Don't try to walk in a severe storm. It's easy to lose sight of your vehicle in blowing snow and become lost.

- Don't over exert yourself if you try to push or dig your vehicle out of the snow.

- Tie a brightly colored cloth to the antenna or place a cloth at the top of a rolled up window to signal distress. At night, keep the dome light on if possible. It only uses a small amount of electricity and will make it easier for rescuers to find you.

- Make sure the exhaust pipe isn't clogged with snow, ice or mud. A blocked exhaust could cause deadly carbon monoxide gas to leak into the passenger compartment with the engine running.
- Use whatever is available to insulate your body from the cold. This could include floor mats, newspapers or paper maps.

- If possible run the engine and heater just long enough to remove the chill and to conserve gasoline.

Tips for driving in the snow:

- Accelerate and decelerate slowly. Applying the gas slowly to accelerate is the best method for regaining traction and avoiding skids. Don't try to get moving in a hurry. And take time to slow down for a stoplight. Remember: It takes longer to slow down on icy roads.

- Drive slowly. Everything takes longer on snow-covered roads. Accelerating, stopping, turning - nothing happens as quickly as on dry pavement. Give yourself time to maneuver by driving slowly.

- The normal dry pavement following distance of three to four seconds should be increased to eight to ten seconds. This increased margin of safety will provide the longer distance needed if you have to stop.

- Know your brakes. Whether you have antilock brakes or not, the best way to stop is threshold breaking. Keep the heel of your foot on the floor and use the ball of your foot to apply firm, steady pressure on the brake pedal.

- Don't stop if you can avoid it. There's a big difference in the amount of inertia it takes to start moving from a full stop versus how much it takes to get moving while still rolling. If you can slow down enough to keep rolling until a traffic light changes, do it.

- Don't power up hills. Applying extra gas on snow-covered roads just starts your wheels spinning. Try to get a little inertia going before you reach the hill and let that inertia carry you to the top. As you reach the crest of the hill, reduce your speed and proceed down hill as slowly as possible.

- Don't stop going up a hill. There's nothing worse than trying to get moving up a hill on an icy road. Get some inertia going on a flat roadway before you take on the hill.

- Stay home. If you really don't have to go out, don't. Even if you can drive well in the snow, not everyone else can. Don't tempt fate: If you don't have somewhere you have to be, watch the snow from indoors.

ALLISON NEWS

By Juanita Boydston

NOW faith is the substance of things hoped for, the evidence of things not seen. For by it the elders obtained a good report. Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear. By faith Abel offered unto God a more excel-

lent sacrifice than Cain, by which he obtained witness that he was righteous, God testifying of his gifts; and by it he being dead yet speaketh. By faith Enoch was translated that he should not see death; and was not found, because God had translated him: for before his translation he had this testimony, that he pleased God. But without faith it is impossible to please him; for he that cometh to God must believe that he is, and that he is a rewarder of them that diligently seek him. By faith Noah, being warned of God of things not seen as yet, moved with fear, pre-

pared an ark to the saving of his house; by the which he condemned the world, and became heir of the righteousness which is by faith. By faith Abraham, when he was called to go out into a place which he should after receive for an inheritance, obeyed; and he went out, not knowing whither he went. Hebrews 11:1-8

HE that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty. I will say of the Lord, He is my refuge and my fortress: my God; in him will I trust. Surely he shall deliver thee from the snare of the fowler, and from the noisome pestilence. He shall cover thee with his feathers, and under his wings shalt thou trust: his truth shall be thy shield and buckler. Thou shalt not be afraid for the terror by night; nor for the arrow that flieth by day; Nor for the pestilence that walketh in darkness; nor the destruction that wasteth at noonday. A thousand shall fall at thy side, and ten thousand at thy right hand; but it shall not come nigh thee. Only with thine eyes shalt thou behold and see the reward of the wicked. Because thou has made the Lord, which is my refuge, even the most High, thy habitation; There shall no evil befall thee, neither shall any plague come nigh thy dwelling. For he shall give his angels charge over thee, to keep thee in all thy ways. They shall bear thee up in their hands, lest thou dash thy foot against a stone. Psalms 91:1-12

The weather in Allison, Texas on this Tuesday morning is just beautiful. Its colder than has been the last few days and of course the wind is blowing in this being the Texas Panhandle. But the sun is shining and suppose to be a good day. The Lord has been good to us and blessed us with beautiful warm and sunny weather the last few days. We are hearing tho that winter will return next week. So we knew that winter couldn't possibly be over yet, but did enjoy the nice and beautiful days for sure. Praise be to Jesus!! We are truly blessed.

Friday afternoon, Opal and Juanita Boydston traveled to Reydon, Oklahoma where they enjoyed a delicious meal at the Reydon Senior Citizen's Building of Brisket, Potato Salad, Toast, Corn on Cob, Pinto Beans and chocolate sheet cake for dessert. unless you were diabetic; then you enjoyed a piece of angel food cake. Really good food and fellowship. Others from Allison were Lester and Clydene Hall and the Dickeys, Pete Gilmer, Bob and Mary Cornell, Eddy and Sheila Walker. If Virginia Puryear and

One day last week, Opal and Juanita Boydston visited Roma and Billy June Brown in the Wheeler Care Center and Rehab. They were eating, but enjoyed visiting.

Please remember Vance Boydston in your prayers as he is having surgery on his kidney cancer on the 24th of this month. May God be with him and heal his body and help him to have a successful surgery and to get well soon. To God be the Glory. We serve a prayer answering God, who by his stripes we are healed. Praise be to Jesus!!

Wednesday, Opal and Juanita Boydston enjoyed a meal with Louise Boydston and Shirley Chadwick. Juanita took meat loaf and green beans and creamed potatoes and a pineapple cream pie for them to enjoy.

Lousie Boydston and Shirley Chadwick traveled to Elk City, Oklahoma Friday and attended to business and enjoyed a meal and visited with mother and grandmother, Pearl Harrison in the Elk City Nursing Home.

Wednesday afternoon, Opal and Juanita Boydston, Bennie and Debra Boydston and grandchildren, Paisley and Eastern Archer enjoyed a delicious meal with Louise Boydston and Shirley Chadwick.

A NEW LANDFILL HAS BEEN APPROVED OR HADN'T YOU HEARD?

KEEP THE LIGHT ON PUBLIC NOTICES

Currently your government officials publish their plans and decisions in the newspaper — including where they intend to build facilities you might not want down the street.

That could change in the future because they want to bury their public notices somewhere online, on a little seen, rarely visited government website — out of sight, out of mind.

Don't let government keep you in the dark.

If it is not in the newspaper, you won't know about it.
