KILLED FOR DE- SATION IN CRAP GAME

ADIAN, Oct. 12.—Clyde C. Wil-
son, 34, night foreman on the con-
struction work of the Santa Fe bridge
over the Canadian River, was shot
and killed by Jake Harris, 30, negro,
last night. It is said that Williams
went to the negro camp to give
them some work, and while
two negroes were disputing over
a game, and asked Williams to
decide which of the negroes was right.
He gave his decision which was
in favor of Harris, the latter drew his
gun and shot him.
The shooting occurred about 2 o'clock
Sunday morning. Williams died at 5 o'clock Sunday
morning. The negro escaped and has
not been arrested. The negro's
hand is off below the elbow. The
negro is scouring the country and
not think he can get away.
Williams came here a few months
ago from Kansas City and was well
known in this community. He leaves
a wife and two small children. His
body will be shipped to Kansas
for burial Monday afternoon.
On Oct. 13.—Jake Harris, ne-
gro, charged with killing Clyde C. Wil-
son, construction engineer of the
Santa Fe and Santa Fe railroad at
Perryton Saturday night, was arrested
at Amarillo Sunday evening by
Sheriff Pollard, Democratic nominee
for sheriff.
Harris was recognized by a Santa Fe
conductor on Lincoln street. The con-
ductor called Pollard, who made the
arrest. Pollard started for Canadian
River Sunday night, but
feeling that feeling was high over the
arrest at Canadian, he took the negro
to jail at Panhandle, where he is
being held.

as a meeting place. It is estimated
it will take about \$6000.00 to

COUNTY AGENT NOTES

During the past week and through
the assistance of Mr. A. L. Bridenstine
of the U. S. Biological Survey Bur-
eau, 1000 pounds of prairie dog poison
was mixed and is now ready for dis-
tribution to all those who have dogs
to poison. It is desired to eradicate all
prairie dogs of this county during the
fall and winter and every assistance
will be given those who have any in-
festations to get rid of them. Mr. Bri-
denstine will be in this section for
several days and any one who can
get started on this work now will do
well to call this office and make ar-
rangements for him to assist with the
work.

The poison may be found at the of-
fice of the County Agent and a charge
of seven cents per pound is made
which represents the actual cost of
the material used in mixing the poison.

At the first opportunity give us the
approximate amount of poison you
will need and also about when you
will be ready to start to putting the
poison out. It is desired to start on
this work early in the fall so that the
clean up may be completed before
spring.

The following are some facts on the
hog situation in Texas today. There
is now an 8,000,000 shortage in the
pig crop; there are 200,000 farms in
Texas without a pig of any kind; and
it is costing Texas over \$70,000,000
annually to buy pork products from
other states.

With a shortage of feed in a good
many sections of the country this
situation will become much more se-
rious before the end of another year
and the price of pork will probably be
good for the next two years, and far-
mers should avail themselves of the
opportunity to purchase pure bred
stock at the prevailing low price of
today and restock their farms and be
ready to take advantage of the op-
portunity when it comes.

Indifference and the lack of infor-
mation on the value of hogs to gen-
eral farming has been the biggest lim-
iting factor the swine industry has had
in Texas, and not the price of regis-
tered animals.

Talk to the county farm demon-
stration agent about your farm pro-
blems he may be able to help you.

Fall plowing will conserve winter
rains.

C. J. HUTCHINSON, County Agent

PIE SUPPER AT NEW HOPE SCHOOL HOUSE

The New Hope people are planning
to have a big time at the pie supper
to be given at the school house Fri-
day night Oct. 24th. Everybody is in-
vited to come and enjoy the evening.
Don't forget the date.

A short time ago we had a sub-
scriber refuse his paper at the office
in this city. The other day we learned
the reason for said refusal. We had
published an article expressing sym-
pathy for an ex-service man who was
suffering from being gassed while over-
seas fighting during the world war.
In said article we also expressed our
opinion in plain words of the inhu-
man practise of gas warfare which
was inaugurated by the Germans.
Now comes the word to us that said
subscriber refused his paper on ac-
count of said article. Well all we
have to say is this, "If any more of
the Herald subscribers want to stop
their paper for like reason, they are
welcome to do so for we can sure get
along without their support and the
United States can well afford to get
along without citizens of their type."

Miss Virgie Richardson and her
friend, Miss Lucille Hill, who are both
teaching in the Spearman High School
were week end guests in the home of
Miss Virgie's parents, Mr. and Mrs.
J. W. Richardson.

ONCE THERE WERE TWO BOYS.

tober 13th with Miss Simmons

MARKET REPORT

Perryton, Thursday, October 16.

Wheat	\$1.27
Barley	65c
Broomcorn, top	\$50.00
Eggs	25c
Cream	27c
Hens	17c
Springers	17c
Hides	7c

Broom corn is coming in to Perryton
from every direction this year. The
market is not very good and the buy-
ers are taking only the best of the
brush. They claim that the market is
over stocked and that there is no de-
mand except for the best brush.
Whether this is a fact or not we do
not know, but we do know one thing
and that is that broom corn buyers
without exception buy at the very
lowest price possible. About twelve
cars have been shipped from Perryton
to date.

The wheat market continues good
and several cars are shipped out ev-
ery day. Cattle shipments are light
while hogs are going out about as
usual. A temporary car shortage is
holding back the broomcorn and grain
shipments to some extent.

We wish to call the attention of our
readers to the ad of the Service Store
at Farnsworth which will be found
in this issue of the Herald. B. L. Ro-
gers, the enterprising manager of
the Service Store, is crowding six big
sale days into one week with special
bargains and inducements to trade at
Farnsworth on each and every day of
next week. Saturday, October 25th
will be the gala day of all with a big
free lunch and public auction sale of
community property.

Mr. Williams, of the Intermediate
Credit Bank of Wichita, Kansas, was
looking after interests of that bank
in this county the first part of the
week.

Mr. and Mrs. B. A. Johnson are the
parents of a baby boy born Monday
October 13th. Dr. W. J. Brewer was
the attending physician.

FAREWELL SOCIAL

On Tuesday evening of this week
about seventy members of the Chris-
tian Sunday School gathered at the
church for a farewell social for the
W. H. Pittman family, who are leaving
soon for a new home in Oregon. As
Mr. Pittman has been the Superin-
tendent of the Sunday School for
some time and the family have been
very faithful members of the school,
it was thought fit and proper to show
appreciation in some way. As this
was a surprise to the Pittman family,
they had to be sent for after the crowd
had assembled.

The younger members of the crowd
played games on the outside while
the older ones had a social and also
a business period inside; after which
refreshments were served and some
remembrances and words of apprecia-
tion tendered to Mr. Pittman and
family.

LUTHERAN CHURCH SERVICE

On Sunday, the 19th of Oct. in the
afternoon at 3 o'clock, there will again
be Lutheran preaching in the Plain-
view School house, four miles north
of Perryton. The subject of the ser-
mon will be, "The Prodigal Son," based
on Luke 15. Points which will be
stressed in the consideration of this
parable are: (1) the Prodigal's sin; (2)
the Prodigal's return; (3) the
Prodigal's reception at home.

Like the sermon in last month's
Lutheran service, so this one, too,
will be strictly Scriptural simple in
language, and direct in applying the
lesson of the text to the individual. The
attendance at our last service was
good, but we are looking forward to
a still larger attendance on the com-
ing Sunday afternoon. Come! You will
be benefited by hearing the good old
Gospel truths and will go home re-
freshed in body and soul. Everybody

IT'S UP TO YOU

You may be a big man in the business world. Your properties may represent many good round, hard dollars. You may take an interest in politics to the extent of complaining about taxation, too much legislation, useless regulation of industry, etc. etc. You may send your boy to college and your daughter to a finishing school. You may be a "successful" American business man.

But do you take an interest in the government which protects your property? Or are you merely one of the kickers who complain about the "radicals"? Do you go to the polls and vote for men and measures you believe sound or do you instead, go out and play golf on election day and let the fellow about whom you complain do all the voting.

Don't kick unless you are willing to do your duty as a citizen at the polls.

No matter how "big" you are your vote is worth no more than the poorest bum in town.

The "bigger" you are, the more necessary it is for you to vote, teach your children to vote and your wife to vote.

Don't leave somebody else to do your voting for you and then kick at the results.

"Your" government will be just as good as you help make it, and no better.

Isn't it about time for Clarence Darrow to begin to frame an insanity defence for the preacher who poisoned his wife and the hubby of the woman he was infatuated with?

Tom is a busy bee. Ever there was one—whose soul-devourin' aim in life is, gettin' somethin' done. He sez he craves the quiet hour to sorta rest his mind—but he's afraid to slacken power and, mebbe lag behind! We never see him loiter none, nor loafin' any place,—too doggone constant on the run, to stop an' wash his face! Of course, such unremitting toil augments a feller's pile, but, what's the good of riches when ye ain't got time to smile? I envy not my neighbor who succeeds as he deserves—but the keenest sort of misery comes along with hustled nerves! The way I figger Tom's case, he'll never shift his gear, until he's part-way up the stairs to—where he goes from here,—an' when he grabs his harp of gold an' tries to strike the tune, he'll realize the handicap of gettin' there too soon!

YOU NEED NOT FAIL

On State Street, in Chicago, is a large sign bearing the one word "Radio." The owner, Tom Anderson, is a man to be envied. He overcame obstacles that were well nigh insurmountable. Thirty-seven years ago when Tom was three months old he lay paralyzed from head to foot, in a squalid soap box bed. His home was in the cellar of a ramshackle house in Lansing, Michigan. His father had died of diptheria and his mother, a consumptive, was barely able to make ends meet by taking in odd jobs at scrubbing.

A doctor said that the paralysis might pass but that the boy would be a cripple and feeble minded if he lived. Three months later a

bill of boiling water was accidentally spilled on him. That year his mother died. Tom was sent to an orphan asylum, then transferred to a City Hospital to die.

Six years later a visiting specialist saw him and took an interest in him. When Tom was ten years old he took his first step.

A year later and, able to hobble about on crutches, he was returned to the orphanage. During the eleven years that followed and principally by his own efforts he learned to read and write. All of his spare time during those years he spent in studying electricity and on the day he left the home to make his own way in the world he was thoroughly familiar with his subject.

Five years later he had saved enough money to open a small electrical shop on Dearborne street. When Tom was thirty his attention was directed to radio. During the next three years he perfected a new type of transformer and coil and began to manufacture radio sets of peculiar and delicate design. His business flourished and today he employs seven clerks and does an annual net business of nearly \$40,000. He owns an apartment house, a home in the country and two expensive automobiles.

FALL POULTRY WORK

Regardless of how highly a flock
of standard bred birds has been bred
for egg production, there will be at
least a few culls that should be eli-
minated each year. In the flocks
where little or no culling has been
done about a third of the flock can usu-
ally be culled with out decrease in egg
production.

However the general care and feed
of the flock should be taken into con-
sideration. A hen is simply a factory
that manufactures raw material into
eggs. We would not expect to send
corn to a cotton gin and expect to have
it made into bales and eventually in-
to cotton cloth. Yet, occasionally we
hear the remark, "I feed my hens all
the corn they will eat. I do not under-
stand why they do not lay." A hen
must have material to make these
parts of an egg, shell, yoke, and white.
She may have the material to make
two parts but if she does not have the
material to make the third part of the
egg, she still cannot produce the egg.
There fore it is necessary that a hen
have a balanced ration, that is, a ra-
tion that will manufacture an equal
number of yolks, whites and shells
above body maintenance. The follow-
ing is a suggested formula for both
scratch feed and mash:

1. 100lb wheat. 100lb Milo.
2. Dry Mash. 20lb ground oats. 20
lb wheat bran. 20lb shorts or mid-
dlings. 20lb corn meal. 20 lb dried
beef scraps. 1lb salt.

Keep dry mash before the flock in
a self feeder hopper all the time. Al-
so furnish an abundant supply of oys-
ter shell, charcoal, grit, fresh green
feed and water all the time.

The following mentioned are the
main factors to be considered in cul-
ling; Birds selected should have me-
dium length backs that are not only
broad through the shoulders, but broad
to the end; full breasts; full body and
fluff; legs set well apart; clear,
bright, prominent eyes; broad with
medium length neck and short stubby
beak. The above are general charac-
teristics. The following characteris-
tics indicate good production and
should be observed in culling this sea-
son of the year (September and Oc-
tober.) They are named in the order
of their importance, the shanks and
beak should be pale in color; moult
late; the pelvic or lay bones, thin and
pliable; skin over the abdomen thin
soft and pliable; comb large, warm,
moist, and waxy. Broad width of pel-
vic arch will indicate how heavily the
foul is laying at present. The above
applies to hens and not pullets.

September and October is a good
time to weed out the loafer that does
not produce enough to pay for the
pound of salt that seasons the 100lb
of dry mash that the entire flock is
eating. Not only will be reducing the
feed bill (and not reducing the number
of eggs) but we shall be saving our
best for next year's breeding pens.
Giving these birds the best care and
attention, means money from high
priced eggs at Thanksgiving and
Christmas.

See the County Agent and arrange
for a culling demonstration.

County Agent

Watch Repairing - Cleaning

Ask an engineer how often he has to clean and oil his engine. He will tell you "every day and oftener." Your watch makes as many revolutions per year as most engines and should therefore be thoroughly cleaned and oiled AT LEAST once a year. The dirt and dust of your pockets forms a grime that acts like emery and soon loosens all wearing parts.

DANGEROUS DECISION. THIS THIRTY COUNTRY. WATCHING TEDDY. NEW OCEAN TO RULE.

Laymen, out of respect for the courts, assume that the Supreme Court judges of California interpreted the law accurately when, by a majority of only one, they decided that La Follette's electors, although duly named by petition, should not go on the ballot.

The people do not like to be ruled by a judge, or anybody, but they may not vote for their own choice. For a court by a majority of one, in disregard of established custom, to say that State electors are the servants and agents of political conventions, and therefore the people have no right to name their own electors by petition, is DANGEROUS.

This California decision will be worth a great deal to those who believe that the public, having power to put judges on the bench, should also have the power to take them off.

Louisiana follows California by refusing La Follette electors a place on the ballot. President Coolidge, much to his credit, expresses regret that any American should be forbidden to vote for the man of his choice. The President's statement will be a plaqued by ninety-nine per cent of American voters.

Somebody is saving money in this country, because of higher wages or prohibition, or whatever you choose. Savings deposited in 1923, as revealed at the bankers' convention in Chicago, amounted to more than EIGHTEEN THOUSAND MILLION DOLLARS.

While the population of the country increased fourteen per cent, savings bank deposits increased 108 per cent.

The law of worthy life is fundamentally the law of strife. It is only through labor and painful effort, by grim energy and resolute courage that we move on to better things.—Theodore Roosevelt

all over the world, propose to take control of the flying machine industry. Edsel Ford supplies money for airplane research, and puts a flying field near his Dearborn plant at the service of all working on metal airplanes. The Hudson and Packard motor companies are spending money generously in the same direction.

All that is good news for those interested in this country's independence of foreign domination.

Two thousand years ago the land in Palestine was marvellously fertile, a real earthly paradise. Money would restore that fertility, and strangely enough the money, more than Palestine ever dreamed of in all its glory, may be taken out of the Dead Sea.

Americans will watch with interest young Theodore the Second, following in his father's footsteps. The original T. R. went to the New York Legislature, so did his son. The original T. R. ran for Governor and was elected. His son is now running for Governor. Whether he will be elected or not remains to be seen.

Georges Clemenceau celebrates his eighty-third birthday in his little house on the French coast, looking out on the wild waters where ancient Basques used to catch whales.

Clemenceau's health is good, because he is wise. A fighter all his life, he avoids all controversy now. Anger poisons men always, and in old age it kills them.

Picking a rose in his garden he says, "I like flowers; they have an advantage over men, they are silent."

The average citizen in this country pays less attention to news of the war in China than he would to news about someone falling off a horse.

Yet there are 500,000 men lined up for the decisive Chinese battle that is expected. And that is no child's play. The Chinese like the Japanese are building fighting flying machines. Let that be remembered by elderly naval gentlemen doing sweetly, unconscious of the fact that the battleship is obsolete, out of date, a joke in war. The flying machine is the new weapon, the ONLY one that counts.
