VOLUMN 38 JUNCTION, KIMBLE COUNTY, TEXAS, FRIDAY, FEBRUARY 17, 1922. No. 43

WOLF CLUB TO BE ORGANIZED IN KIMBLE

C. G. Montgomery and several other representative citizens of the east end of the county were here last week talking with local stockmen relative to organizing a wolf club, such as is in operation in McCulloch, Mason and other counties around us.

It has been organized and operated in the counties named with marked success, and we believe that it would work the same advantages here.

Assessments are made, for maintaining the club, based on the number of acres of land owned by each member. We understand that if most of the ranchmen will join, as they have in the other counties, sufficient funds can be raised from an assessment of 1c per acre, to pay all expenses incurred.

Those proposing the organization think that $25 for wolves and $5 for cats would be the proper amount of bounty. There will be a secretary of the Club residing in the County, who will have charge of paying these bounties, and collecting the assessments. Thus there will be no trouble for the trappers in receiving their money, and all members will pay a just amount according to the number of acres they have charge of, and on which the trappers will look after.

We will have more definite information on the plan within a few days, and we hope that this organization will be completed a tan early date. A date for a meeting of interested stockmen will be announced soon.

JUNCTION HIGH SCHOOL NOTES

Lela Huffman quit school last week. All her friends, and especially the eleventh grade, greatly miss her.

The Biology Literary Society held a very interesting meeting last Friday. The debate between Willie Bissett, Robert Mayfield, as affirmative speakers, and Bernice Knox, Mary Frances Hodges, as negative speakers, on whether basketball and football were harmful or beneficial to high schools, was a hot one; but after forty minutes of discussion the affirmative won. Due to shortage of time, the rest of the program was not given.

Velma Rape has been absent from school for more than a week on account of the sickness of her sister. We are glad to report that her sister is better and hope Velma will soon be back in school.

DEPUTY COLLECTOR COMING TO JUNCTION

TREASURY DEPARTMENT
Internal Revenue Service
Office of the Collector.
First District of Texas.

Austin, Tex., Feb. 4, 1922.
Junction Eagle,
Junction, Texas.

On the dates given below there will be a Deputy Collector in your city to assist taxpayers in preparing their income tax returns for the year 1921:

Feb. 23rd., 1922, office at Court House.

It will be greatly appreciated by the Department if you will give this as much publicity as possible, and advise that this service will be gratis.

Respectfully,
James W. Bass,
Internal Revenue Collector.

TRAPPERS AND FUR DEALERS BUSY HERE

From a rather careful check of the sales of furs and skins in the Junction territory, we estimate that something like $12,000 worth have been handled through local buyers, or shipped direct by local trappers.

Two local business houses have done a considerable business in this line, as well as a number of individual buyers, who have bought in considerable quantities. By estimating the amounts handled through the local banks, we get our figures for adding to the amounts known to have been shipped by the buyers. Several buyers have come here from other places, and, of course, we have no way of estimating how much their purchases amount to. $12,000 is quite a bit of money to come into the community from the sale of a product that requires no outlay for expense in bringing it to a salable condition, and by the time the trapping season closes these figures will be greatly increased.

FOR THE SAKE OF VOTES

The Lower House of Congress after solemn deliberation recently passed an "anti-lynching" bill. The vote coincided roughly with the partisan division of northern Republicans and southern Democrats.

Theoretically, the object of the bill was to reduce lynchings, which have had for their most numerous victims the Negroes living in the South. Actually, the object of the bill was to cater favor with Negro voters, who are numerous in some of the northern voting centers.

Theoretically, the opposition to the bill was inspired by the altruistic belief that Federal interference with state officials for shortcomings in punishing lynchers, is an unwarranted and dangerous extension of Federal paternalistic rule. Actually, the opposition felt that the southern voters would resent any vote which might be construed as catering to Negroes.

Negro voters may look forward with confidence to the appearance shortly of some franked copies of the Congressional Record in which the sufferings of their race are eloquently denounced. So, too, ardent upholders of the Old South may enhearten themselves with the thought that printed patriotism, of their own particular brand, will soon be delivered free.

As for the bill, if it becomes a law, there are few southerners who fear that it will have any more effect than did the constitutional amendment giving the Negro the vote. Neither do the northerners.

But viewed simply as an arrangement of words, the measure is entirely commendable. So, too, would be a constitution amendment prohibiting murder. --Dearborn Independent.

WELDON-STEVENSON.

Mr. Forest J. Weldon and Miss Ida Stevenson were quietly married at the home of the bride's parents, Mr. and Mrs. R. M. Stevenson, on South Llano, Saturday evening, February 15th. Rev. S. L. Batchlor, former pastor of the Methodist church here, but now pastor of the First Methodist Church at Kingsville, performed the ceremony uniting these popular young people. Only near relatives and a few very close friends were present. Mr. and Mrs. Weldon left shortly after the ceremony for Rock Springs to spend a few days with Mrs. Weldon's sister, Mrs. C. Gardner Franks. They returned Wednesday, and are now at home at the Weldon ranch near Segovia.

Mrs. Weldon is one of Kimble County's most attractive and accomplished young women.

Mr. Weldon is a son of Mr. and Mrs. I. O. Weldon, and is a prominent young ranchman.

Both these young people were reared in the county, and the Eagle joins their host of friends who wish them a long, happy and prosperous married life.

Roy Bradshaw and Terry Cowsert surprised their relatives and friends last Monday night when they made a trip to Kerrville for the purpose of making two young lady nurses of the Secor Hospital their wives. We have not been able to learn the names of the young ladies. Both these young men are well and favorably known in this county, and have the best wishes of their many friends.

SHERIFF BRINGS FIRST STILL INTO JUNCTION

Sheriff Taylor, with another party accompanying him, located a still in the blue mountain country about fifteen or twenty miles from Junction Monday night, and brought it into town. The still is about a twenty-gallon size, and was complete for operation. A half-gallon fruit jar filled with "moonshine" was found covered up near the still. No one was found at the place, and Mr. Taylor says it appears that there had been no one around for several days. A quantity of mash was found there also.

GRAND JURY ADJOURNS SATURDAY

The Kimble County Grand Jury that has been very busily engaged since Monday, the 6th, adjourned Saturday afternoon after finding eleven bills, four of which were misdemeanors and seven felonies.

The report as carried this week deserves the careful consideration of every good citizen of this county.

The Grand Jury worked long and faithfully in an effort to investigate all character of law violations, and only by the earnest co-operation of the citizens of the county can the things undertaken and recommended by them be carried out.

District Judge J. H. McLean and District Attorney Geo. E. Christian left for their respective homes at Llano and Burnett Saturday.

Lon Smith, Comptroller, To Run For Same Office

Austin, Tex.—Former State Senator Lon A. Smith has entered upon the second year of his administration as state comptroller of public accounts, and, from present indications, contemplates standing for election at the July primaries for a second term. When he took charge of the department in January, 1921, the legislature had appropriated for the fiscal year ending August 31, 1921, the sum of $136,350, and by reducing the force of the department and other economies he managed to save $8,581 to the state during the seven and one-half months he controlled the appropriation.

When he took charge there was a force of 61 in the department, while now there are but 50, and against an appropriation of $136,350 heretofore made, Senator Smith asked for only $107,950 from the legislature, thus effecting a reduction of 11 employes and a reduction of $28,400 in money expended for the year, or a net saving of $2,333 per month during his administration.

The force of auditors, now reduced from 11 to 7, have collected in cash, during the 12 months of the present administration, $209,193, almost enough to pay the entire running expenses of the departments for two years. This money was collected in cash and paid into the state treasury from the following sources: Gross receipts, $109,474; occupation taxes, $79,336; general audits, $20,382.

PHILLIP LAWRENCE IS ACQUITTED

In the District Court of Kimble County, Phillip Lawrence, accused of burglarizing the Junction Grocery Co. store, some three weeks ago, was acquitted last Wednesday, after a short trial. A confession of the crime was presented, which was held by the Court to be illegally procured.

The boy is staying at the jail with Deputy Monroe Smith awaiting the arrival of some of his relatives, who are coming here to take him back to his home in Portland, Me.

Mrs. Holekamp Entertains Merry Wives Club

Mrs. Conrad T. Holekamp very beautifully entertained the Merry Wives Club on Thursday, with a Valentine Card Party at her home. The living room was very artistically decorated with Cupid's hearts and arrows. Red mints, heart shaped, were served during the games. For each game won a tiny red heart was pasted on the score card. Mrs. C. R. Stevenson had the most hearts and was awarded first prize, a luncheon set with patch work of hearts. Dorris Wright received the guest prize, a box of talcum. Then each one cut for high heart; Mrs. U. D. Kendrick cut high and received a bottle of perfume.

A short business meeting was held. Mrs. H. O. Patterson was elected president and Mrs. J. C. Beddingfield secretary and treasurer for the ensuing term. Little Susan Grace Boyle was presented with a sterling silver spoon, a gift of the club, by the retiring president, Mrs. Carl Wolf.

The hostess, assisted by Miss Cecil Martin, served very delicious refreshments consisting of chicken salad in valentine cups, sandwiches, heart shaped olives, decorated cake, salted nuts and hot chocolate, to the following: Mesdames L. L. Skaggs, U. D. Kendrick, J. D. Motley, L. F. Boyle, C. M. Wolf, J. C. Beddingfield, H. O. Patterson, P. Joseph, H. O. Denman, J. W. McMahan, Daniels and Franks, of Rock Springs Mrs. Coke R. Stevenson, and Misses Stella Martin, Dorris Wright and Gladys Van Clief.

Plate favors were unique little valentines.

The next meeting will be with Mrs. P. Joseph on Feb. 23, 1922.

DIVIDE NEWS.

Feeding is the order of the day, although stock are not doing well. However, the people are not caring so much, from reports of the supper at Walter Whitworth's, which was enjoyed by a large crowd.

Miss Mary Anderson returned to her school Monday. She was accompanied by her father, mother and sister.

Work on the Junction-Harper road is steadily progressing.

Mrs. Frank Leifeste, who has been seriously ill, was moved to Junction last week, to be near the doctor. She was no better at the last report.

The tax assessor was in our community this week.

J. T. Hull visited at the home of his son, Jim, Saturday.

RED CREEK THRILLS

The Red Creek boys met the Katemcy boys at Mason Saturday and defeated them in a game of basket-ball, the score being 21 and 7. On their way home they were intercepted at Long Mountain by the Long Mountain boys, who invited them to a party and candy-breaking. The boys accepted the invitation, and all had an enjoyable time, and say the Long Mountaineers are a very hospitable bunch.

The Parent-Teachers' Club bought the Red Creek basket-ball boys a pair of nice tennis shoes each, and the boys are very thankful for them, and never fail on an opportunity to boost the Club and their school and the efficiency of their teachers.

Jewel Stewart returned Sunday from Fort Worth for a visit to her people. She has been employed by the South-western Telephone Company for several months.

Mr and Mrs. Dan Gephart started Sunday to Pasche for a few days' visit with their daughter, Mrs. A. L. Stewart.

The Red Creek girls defeated the Saline girls in a basket-ball game Friday evening, and we are sorry to report that some of our girls had the misfortune of getting their finger-nails broken off.

GENTRY VS. TOAD LEVEL

Last Friday afternoon, Gentry's school baseball team entered a desperate combat with Toad Level's school team. With the aid of a few boosters the game was lively conducted.

After the fifth inning, Toad Level decided she had enough. This brought the game to a close with the score of twenty to nothing in favor of Gentry.

CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three Years, Suffering Pain, Nervous and Depressed—Read Her Own Story of Recovery.

Paint Rock, Ala.—Mrs. C. M. Stegall, of near here, recently related the following interesting account of her recovery: "I was in a weakened condition. I was sick three years in bed, suffering a great deal of pain, weak, nervous, depressed. I was so weak I couldn't walk across the floor; just had to lay and my little ones do the work. I was almost dead. I tried every thing I heard of, and a number of doctors. Still I didn't get any relief. I couldn't eat, and slept poorly. I believe if I hadn't heard of and taken Cardui I would have died. I bought six bottles, after a neighbor told me what it did for her.

"I began to eat and sleep, began to gain my strength and am now well and strong. I haven't had any trouble since . . . I sure can testify to the good that Cardui did me. I don't think there is a better tonic made and I believe it saved my life."

For over 40 years, thousands of women have used Cardui successfully, in the treatment of many womanly ailments.

If you suffer as these women did, take Cardui. It may help you, too.

LONDON NEWS.

The candidates have not been very numerous on our streets the past several days. We miss the glad handshake.

Quite a large number of our respected citizens have been visiting at Junction during all this week. The present reporter evidently didn't write up quite all the happenings and the Grand Jury was anxious to get a full report.

"The evil men do live after them; the good is often buried with their bones." We should think often on the poet's quoted words and try to live so that our lives will not reflect illy upon the community in which we have made our home.

Mrs. Russell Hamilton is reported improving. This report is good news to her host of relatives and friends.

School work is progressing as usual, and some of the students have been working over-time getting ready for the Feb. 22nd debate at Junction.

The London boys, not satisfied with their basket-ball victories, have organized a baseball club and have begun to practice. Leonard Gibbs was elected captain, Howard Kothmann treasurer, and J. W. Deering manager.

The London girls paid the Red Creek girls a visit Friday evening after recess, and a good game of basket-ball was witnessed by quite a large number of basket-ball fans from this vicinity. The Little Saline, Menard County girls, were also scheduled for a game against Red Creek, and they arrived during the Red Creek–London game. The official score showed 22 goals for London and 5 for Red Creek. Referee, Gibbs; Umpire, Kendrick. In the Red Creek-Saline game the score stood, Red Creek, 25; Saline, 4. Referee, Stewart, Saline; Umpire, Deering, London.

It should be interesting to Kimble County people to get the report of the double-header game of basket-ball played at Mason Saturday, Feb. 11. The results of the games may be explained by saying that "whatever Kimble County boys attempt to do, they put their best into it."

The London boys met the Mason boys on the Mason basketball court and won a decided victory. Score: London, 19; Mason, 7. Referee, Dumas; Umpire, Kendrick.

The Red Creek boys met Katewey's (undefeatable) boys on Mason's court and gained a notable victory. Red Creek made 18 field goals and 3 free goals. Katewey only got 2 field goals and 5 free free goals, making a total of 21 goals for Red Creek and 7 for Katewey. Referee, Deckert; Umpire, Deering. The London and Red Creek ball teams were accompanied by the following citizens of this vicinity: Messrs. Dee Gibbs, Everett Stewart, Bud Weaver, Bob Ivy, James Furr, Chas. Barrett, and some younger ball fans, together with the principals of the London and Red Creek schools. All report a pleasant trip.

Methodist Church Weekly Notes

The Sunday school is steadily increasing in interest and attendance.

Rev. S. L. Batchlor, of Kingsville, preached for us Sunday morning. He was pastor some years ago, and did good work for the Church, and for the community in general.

The pastor preached at Gentry Sunday afternoon to a splendid congregation. We hope some good was done. They have Sunday school every Sunday afternoon, and they have a splendid attendance.

The Woman's Missionary Society has received the book for their study course, and will begin the study at their next meeting. I am sure they will find it very profitable to them.

There were two additions to our Church by certificate Sunday morning.

Sunday morning, we discussed, for a while, the effects of non-enforcement of law, which we hope will arouse every one of our citizens to see the need of the hour. The bootlegger is hand in glove with the robber and the assassin. The greatest enemy to society is the bootlegger, and the next is the man who patronizes him. Every good citizen must do his part to uphold the law, and protect the young people, both boys and girls. The forces of evil are lined up as never before to defeat the law, and every red-blooded American citizen must stand and defy such organization until law and order shall reign throughout the entire land.

R. L. McIntyre.

THE BONDING MANIA

One of the worst curses to the taxpayer is the mania for bonding for public improvements, whether needed or not.

Newspapers in reporting the bids received for municipal bonds boast of the good credit of the place issuing them, pointing to the premium paid by the syndicate awarded the issue. Such a premium is proof that the bonds bear too high a rate of interest. When put on the market by the broker he quotes them at a higher premium and exacts the accrued interest. That is, a bond bearing six per cent will cosst the real investor from four to six per cent premium. Thus the municipality pays a rate one per cent hightr than the real investor realizes as interest. The broker pockets a profit of one per cent less the insignificant premium the papers boast of as showing the high standing of the city.

To The Voters of the 86th Representative District

In announcing my candidacy to the people of this district, and soliciting your support, I submit to you my past record as a private citizen and as a former member of the House of Representatives, for your consideration and judgment as to whether I am qualified to fulfill the duties of the office in a manner that would merit your approval.

I respectfully refer the voters of this district to any of my former constituents in Erath County, or to any member of the 37th Legislature, with whom I served. My votes on all public matters that arose in that Legislature are open for inspection, and I am still for the same things for which I stood at those times. The record of my votes will bear out the statement that I am for fewer and better laws, and a strict enforcement of the laws we have in any manner that will insure justice to all, and for more efficiency and economy and less politics in the administration of the state's affairs. I believe we have too many bureaus and departments, and commissions. I believe that much duplication of work, and much useless work is done in many departments, and consequently much of the Taxpayers' money is absolutely wasted. Many of them should either be combined or eliminated, in the interest of the people who support them.

Can any sane person deny that we have too many laws already? Law-making bodies have passed law after law until the statute books are so crowded and so contradictory that those who devote their entire time to a study of them cannot understand them. How, then, can the average citizen, engaged in making a living, know what the laws are, and when he may be violating? State and National law-making bodies have become so affected with the mania for passing laws during the past few years, in the hopes that voluminous statute books would prove a panacea for all the ills of the times, that the citizenship of the country has become dazed at the multitude of laws they are expected to obey, and the effect has been the creating within the people a state of mind that borders on absolute disrespect for every law. The effect of this deluge of laws cannot be disregarded, or thought of as an acute condition.

I believe in the old democratic principles of local self government, in its application from the home up. I don't believe that a school district can be better handled in Austin than it can by the patrons of that school, and I don't believe that we should have to go to Washington and wait months and months in order to get permission from some high-sounding commission, before we know whether we have to pay three cents or five cents a mile for railway passage. The constant tendency during the past few years has been towards centralized power, and the placing authority in the hands of departments controlled by some one having appointive power. This tendency has had its effects in the reaction against the authority of these centralized bureaus and commissions, and furnishes another loop hole for open disrespect for this assumed authority, and augments the ever increasing disregard for law and order. When you take the right to assist in the management of affairs away from the rank and file of the people, you take their interest in these matters with it. If the people are to have no voice in the operation of branches of government that effect them, they have little inerest in the administration of justice and the enforcement of laws. It does not take a learned statesman to see the ultimate result of the centralizing process.

I believe in a reverence for and a strict enforcement of all laws, by justly constituted authority, and that every citizen should lend every assistance to those chosen to enforce the laws, that justice may be had, and the necessity never arise for bands of people to take the law into their own hands to meet out justice. If laws are enforced, bad ones will become distasteful and will be repealed. If they are only partially enforced, enough interest cannot be aroused to secure the repeal of even the most undesirable ones.

This district is a very large one, and I wish that I might meet every voter in these ten counties, personally, but this is an impossibility. I shall canvass the district as thoroughly as my time and the expenses prescribed by law will allow. I shall appreciate a close investigation of my qualifications, and if in your judgment I am the man for the office, I promise to render to this district every service within my power.

I could not close this statement without a word of appreciation to those many friends over the district that were so kind as to solicit me to make the race, and for the expressions of support that I have received from them and others since my announcement. I trust that I may have your continued good will and support in the coming primaries.

Very sincerely,
H. G. PERRY.

WE ANNOUNCE=

The Most Beautiful and Complete Line of

Spring Goods

Ever shown in Junction. The most noticeable are the imported Dotted Swisses, Organdies, Tissues, Ginghams, and Lace Trimmings for Silks and other materials.

We also have a new line of Silks, Canton Crepes, Pongees and Georgettes in the new Spring shades. Among the new things we have received are the new metal and kid Belts. Also a complete line of Phoenix Hosiery in the new colors.

Come in and look over our wonderful Spring things and you will be convinced that they are the prettiest ever shown here at pre-war or lower prices.

INCOME TAX FACTS.
No. 3.

The new requirement of the income tax law that returns shall be made of gross income of $5,000 or more regardless of the amount of net income upon which the tax is assessed, necessitates careful computation on the part of the taxpayer. "Gross income" includes practically every dollar received by the taxpayer during the year 1921 in salaries, wages, commissions, rents, royalties, interest on bank deposits, cash dividends on stock, "or income from any source whatsoever." "Net income" is gross income less certain deductions provided for by the act, including all business expenses incurred in the conduct of a business, trade, profession, or vocation.

Certain expenditures, however, are not deductible as a business expense when made for the purchase of articles more or less permanent in character, or for permanent improvement of property. For example, a merchant would no tbe allowed to deduct the amount expended in the erection of a new store, or a farmer the cost of a new thrashing machine, since such investments are held to be capital investments. The law expressly prohibits the deduction of family or living expenses, such as rent for a dwelling, repairs to a dwelling, cost of food and clothing for the family, education of children, servants' wages, and similar items. Amounts spent during the year 1921 for any of these items are not deductible.

Just received—A car of Galvanized Corrugated Roofing, 6 to 12-foot lengths, which we are selling very close. Chas. Schreiner Co., Kerrville, Texas.

REPORT OF GRAND JURY

THE STATE OF TEXAS.
County of Kimble.
In the District Court of Kimble County, Texas.

TO HON. J. H. McLEAN. JUDGE OF SAID COURT:

We, the Grand Jury, impanelled at the February Term of the District Court of said County, submit this, our report:

It is our desire to thank the Court for the instructive charge delivered to us in which the Court did wisely dwell at some length upon the manner in which a Grand Jury might well spend its time in order to get results and to discharge our duty as was intended that the duty of a Grand Juror should be performed, and we wish to say to the Court that we have labored earnestly in the discharge of what we conceived to be our duty and for what we believe to be to the interest of the citizenship of our county.

We thank the District Attorney, Mr. G. E. Christian, for the very earnest efforts he has put forth in the Grand Jury room. He has been with us almost constantly during the time, and it has been very largely through his efforts that the work was expedited and enabled us to properly investigate a very large number of complaints that were presented to us, and he has the sincere thanks of the Grand Jury fo rthese untiring efforts and for suggestions made that have enabled us to get facts desired by the Grand Jury, and we wish to advise the Court that the District Attorney is for strict law enforcement, regardless of who the violators are or who is concerned.

The Quarterly Report of the Justice of the Peace, Precinct No. 1, E. Holekamp, shows nineteen fines to have been imposed for the quarter ending prior to the impaneling of this Grand Jury, which report was approved by us. This showing is made possible by the efforts put forth by the County Attorney. Not only were these minor cases taken up and disposed of by the County Attorney, thereby taking care of smaller matters that ordinarily require a lot of the time of the Grand Jury, but other matters were by him investigated that would have been brought to the attention of the Grand Jury and were by him found to not require investigation by us and, in this way, the County Attorney has been exceedingly helpful to the Grand Jury. In addition to this service rendered by him, he had had some examining trials and had all matters that had been brought to his attention by the officers and citizenship of the County well in hand so that the Grand Jury could and did begin its work immediately upon retiring from the presence of the Court. We do not hesitate to say that it is very largely through his efforts, both now and prior to the convening of this Court, that matters brought to our attention have been investigated, with the results already known to this Court.

We wish to also commend the Sheriff's department for the co-operation given the Grand Jury in obtaining witnesses from other Counties, which has enabled us to expedite matters that have been brought to our attention.

Matters have been brought to the attention of the Grand Jury that are deplorable, some of which we were unable to connect with the perpetrator of the offense, and the Grand Juries will always be at a disadvantage in many of the crimes committed, especially that of boot-legging, until the citizenship of the country unites in an effort to co-operate with the officers to the extent of giving them the benefit of information that will lead to the arrest and subsequent conviction of those who go about over the country selling so-called whiskey to young men and boys. We are frank to admit to Your Honor that it has been much less difficult for us to obtain information in regard to any other violation of the law that we have investigated than that of boot-legging or any other violation of the prohibition laws. It seems to this Grand Jury that there must be an ironclad agreement between buyer and seller on all occasions, to lay the crime of violation of the prohibition laws at the feet of some dusky subject of our neighbor Republic to the West of the Rio Grande, and it is also the opinion of this Grand Jury that all violators of this law do not use Chili-pe-tene for coloring and Cactus for the kick. This law is being openly violated in this County and will continue to be until the citizenship shall decide to put a stop to it.

It has been brought to the attention of the Grand Jury that there is a vast difference in the number of cattle rendered for taxes to the County Assessor and the number shown by the dipping reports of the County Inspector. In some instances the difference is slight and in other instances there is quite a difference. This has been passed by this Grand Jury for the reason that it is our opinion that in many instances the discrepancy is unknown to the owner, but, after this report has been published, as we presume it will be, owners of livestock should correct their renditions in the future to make them correspond with the records of the inspector. It is rather difficult to tell just the number of cattle owned in the County as the three records of these are all different. That of the Tax Assessor giving a much less number than the report of the County Inspector, while the Chattel Mortgage record shows a decided increase over that of the inspector.

We believe it to be our duty to investigate all violations of the law that have been brought to our attention, and we have done this without fear or favor. The general condition of our County with reference to crime has been found to be good, and we believe that, with few exceptions, our people are law-abiding, and that the citizenship of Kimble County is made up of men and women who desire to see the laws of the country strictly enforced and we commend the people of the County who have assisted this Grand Jury in doing its sworn duty.

One matter that has been brought before the Grand Jury that we wish to especially call to the attention of the Court and to the people of the County in general, is the tendency on the part of parents to permit young girls to keep the company of men. I thas been the intention of this Grand Jury to investigate all character of crime that has been brought to its attention and it is our opinion that some of the parents of the County do not control their children and permit them to go places they should not be permitted to go and are out late at night in company with men when they should be at home. Girls of tender age, in the opinion of this Grand Jury, should not be permitted to keep the company of men or boys, especially out car-riding at night or day at home or away from home and not under the watchfu leye of the parents. We believe that all byos and girls are pretty much alike, at least in many respects, and that lots of trouble could and would be prevented by a closer observation of the parents toward the acts of their own children. No Grand Jury can throw the proper protection around young girls without the co-operation of th ehome and its influences.

The Quarterly Reports of the following officers have been examined by us and approved: E. Holekamp, Justice of the Peace, Precinct No. 1; Robt. I. Wilson, County Attorney; N. R. Skaggs, District Clerk. We have found that certain forms usually carried in the County and District Clerk's office are no tkept there, and we suggest to the Court that the Clerk be given the authority to purchase these blanks so that they will be on hand when needed.

We respectfully ask the Commissioners' Court to make some arrangements for a room for future Grand Juries where their deliberations may be had in secret. The room now occupied by the Grand Jury being on the ground floor of the Court House, cannot be fitted so that the work of the Grand Jury can be kept secret as it must be in order to get any results. We understand the condition of the County with reference to building a jury room at this time, but we also realize and appreciate the necessity for achange to be made so that the Grand Juries may have a room where their deliberations can be had in strict secrecy.

The law against trespassing on property is being openly violated in almost every part of the County. It is our opinion that this is one law that there is no excuse for violating. The owner of any property has a perfect right to protect that property and to keep other parties from depredating thereon. It is a common occurance for tin cans and other rubbish to be dumped on the road side, and certain classes of people seem to have the idea that they are privileged characters, and, without consideration of property rights, go where they please, violating the trespass law by trapping, hunting, hauling wood and doing other things they have no right to do without the consent of the owner of the property. This Grand Jury believes in property rights, and that these rights should be protected and we wish to call attention of the citizenship to the open and continued violations of this law, all of which are inexcusable and uncalled for. The County has a dump ground that is a disgrace to the County, being situated as it is at one of the most beautiful spots on the Old Spanish Trail Highway, and we believe it should be moved, but in the event it cannot be done, all trash should be carried away from the public road and dumped on the spot of ground bought by the County for that purpose and not unloaded in the road or other people's property.

Respectfully submitted,
OREN C. REID,
Foreman of the Grand Jury

A Savings Account at the First National Bank

For several years we have constantly kept before our customers the importance of keeping a SAVINGS ACCOUNT.

A great many of them have followed our advice and are now on easy street. They don't have to borrow money. They haven't got loans out to their friends which they can't collect. All they have to do is come to the bank and draw on their savings account.

The past financial stringency has demonstrated the wisdom of keeping your money where you can use it when you need it. A bank account is your best friend. You don't have to press a friend or neighbor to pay you something. You only have to give your check for it.

Then your money earns something while it is waiting for you to use it.

We pay 5 per cent on savings and $1 will start an account. You can add to it every month, every week or every day as you like.

ANENT OIL POSSIBILITIES OF KIMBLE COUNTY

San Antonio, Texas, Jan. 9, 1922.

Mr. Arthur L. Mudge,
Red Hollow Ranch,
Junction, Texas.

My Dear Sir:—

Relative to the possibilities of oil in Kimble County, I will frankly say that I do not believe the conditions have been sufficiently investigated there to merit an opinion.

The topography there is evidently all Comanchean or otherwise known as Lower Cretaceous. Beneat hthis is presumed to be the Carboniferous series which is an oil originating element, however it is also evident that it would come to the surface between Junction and the Llano granite outcropping or uplift. It is not known to be along the line of outcrop where one would expect to find it and therefore might not be beneath Kimble County.

Even were it known to exist certain shapes of the fold sof the earth would be necessary to gather the oil-elements into commercial amount, otherwise water would fill the pores and the result would be obvious.

I hope I can be of some service to you some time, and regretting my inability to advise more fully now, I am,

Very sincerely,
F. M. VanKeuren,
Petroleum Geologist.

A Hurry-Up Call

A VERY IMPORTANT business problem came up in a large southern bank and it called for quick action. An officer of the bank must hurry to another city 100 miles away to attend to this business that very day.

But he missed his train.

It seemed that this important business must fail. But a flying machine was near by and that banker jumped into the machine and quickly arrived at the place where duty called him.

This is an unusual case, but it shows the determination of the banker to do all that can be done to handle every problem successfully.

You will always find this bank ready to do all that we can do to solve the problems that are presented to us.

Think it over.

Sheriff Slaughter, Attorney T. A. Scruggs, and Cecil McIntyre, of Menard, were in Junction for a few hours Friday. Mr. McIntyre is a son of the local Methodist pastor, Rev. R. L. McIntyre, and is now employed in the office of Scruggs and Scruggs, Menard attorneys.

Mrs. Geo. W. Cousins and children, George, Jr., and William, arrived in Junction last week. Mr. Cousins had rented the Woody Blaine residence, and had everything arranged for them. Mrs. Cousins has been visiting her parents at Houston during the time Mr. Cousins has been here getting his bakery business in successful operation. Miss Ada Beckwell is visiting Mrs. Cousins. This young lady had the sad misfortune of losing her eyesight when only five years old, and has been totally blind since then. It will be a source of much pleasure to her if people will remember to pay her a short visit occassionally.

Wahl Bros. & Jordon have recently had the front of their iron garage building painted white, with their name in large, black lettering across the front. In spite of the hard times desirable improvements are continually being made in Junction. There is one other improvement that certainly should be made. The gap in the side-walk on the north side of the street, and in front of the Baker restaurant should be filled in. That little improvement would add much to the appearance of that whole block, and would pay for itself by the increased rent of the property.

The Eagle is in receipt of a number of requests for sample copies of the paper this week. One as far east as Alabama and one from as far west as California. We are always glad to comply with these requests. A newspaper is, in a sense, a public utility, supported by the community, and we are always glad of an opportunity to advertise Junction and Kimble County.

We are jus tin receipt of a letter from Ex-Senator Strickland asking us to change his paper to San Antonio, where he is now located.

McCALL PATTERN
"it's printed"

ANNOUNCING
A "COMPLETE" PATTERN SERVICE

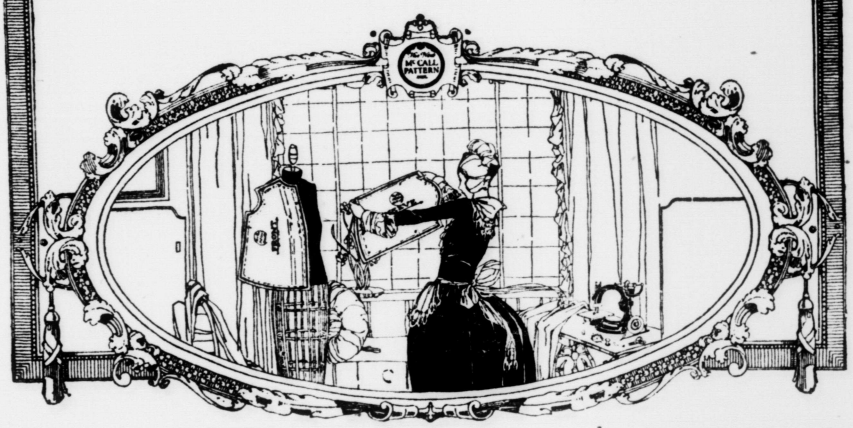

With the exception of the patrons of a few large Stores in metropolitan centers, women have been frequently inconvenienced in their Pattern selction by the failure of retail stocks to contain ALL the Patterns catalogued. So it is with special pride we announce a pattern service in which the cream of the wonderful new McCall "Prnted' Pattern is offered.

To be able to extend this comprehensive service is second only to the importance of our being able to serve you with a pattern which has revolutionized pattern production.

Where the old-style pattern had dots and dashes, you find "printed" instructions, so that you can read how to sew. Everything you need to know about the cutting and putting together of the garment is "printed" right on the pattern—an arrow for the straight of the goods, numbers to show the joining of parts, words always, instead of puzzling perforations.

A visit to our new McCall Pattern Department will be well worth while to every woman interested in home sewing.

CARD OF THANKS.

To those who performed the many deeds of kindness and spoke words of sympathy during the illness and at the death of our dear wife and mother, we want to say to you that we wish we could speak the words that could fully express our feeling of real gratitude to each of you individually. We especially want to express our appreciation of Dr. J. Fred Burt and Dr. Fisher, whom have our confidence as having rendered every medical aid that was possible, and to all who came to us during our dark hours of sorrow, we assure you that you will ever be remembered by our tender feeling of appreciation.

Gratefully,
J. F. Gardner and Children.

NOTICE.

TEXAS TELLS 'EM, NEW YORKER SAYS

Roy K. Moulton in the New York Mail.

Texas has prepared a brief which proves the state believes in advertising.

"Texas occupies all the continent of North America, except the small part set aside for the United States and Canada. Texas owns the north of the Rio Grande, the only dusty river in the world; also the only one, with the possible exception of the Trinity, which is navigable for mud cats and pedestrians.

"Texas is bounded on the north by twenty-five or thirty states, and on the east by all the oceans in the world except the Pacific, and on the South by the Gulf of Mexico and South America, and on the west by the Pacific Ocean, milky way and the real side of the universe.

"If Texas were chopped loose from the rest of the United States at the Panhandle it would float out into the ocean, as it rests upon a vast subterranean sea of fresh water.

"Texas is so big that the people in Brownsville call the Dallas people Yankees and citizens of El Paso sneer at the citizens of Texarkana as being big snobs from the effete East.

"It is 150 miles farther from El Paso, Texas, to Texarkana, Texas, than it is from Chicago to New York City; Fort Worth is nearer to St. Paul, Minn., than it is to Brownsville.

"The chief occupation of the people of Texas is trying to keep from making all the money in the world. The chief pursuit of the people of Texas was formerly Mexican bandits. But now it is land buyers, steers and Texas crop records.

"Unless your front gate is eighteen miles from your front door you do not belong to society as constituted in Texas. Mrs. King's gate is 150 miles from her front door and she is thinking of moving her house back farther so that she will not be annoyed by passing automobiles and peddlers.

"Other Texas landlords have whole mountain ranges and rivers on their ranches. One Texan has forty miles of navigable land on his farm. If the proportion of cultivated land in Texas were the same as Illinois, the value of Texas crops would equal that of forty-seven other states.

"Texas has enough land to supply every man, woman and child with a tract of 5 by 20 feet, and have enough left over for the armies of the world to march around the border five abreast.

"Texas grows enough alfalfa, if baled and built into a stairway, to reach to the pearly gates.

"If all the hogs in Texas were one hog he would be able to dig the Panama Canal in three roots.

"If all the Texas steers were one steer he would stand with his feet in the Gulf of Mexico, one hind foot in the Hudson Bay, the other in the Arctic Ocean, and with his horns punch holes in the moon, and with his tail brush off the mist from the Aurora Borealis.

"If all the cotton raised in Texas annually were made into one mattress all the people in the world could take a nap at one time.

"Texas is rightly named the Garden of the Lord, and if all the Bermuda onions grown around Laredo were made into a necklace, it would encircle the globe."

RESOLUTIONS OF RESPECT

We, your committee appointed to draw resolutions on the death of Mr. J. E. Meggerther, and grandfather of our beloved Sons., E. Holekamp, wife and daughter, Dorris, we beg to submit the following:

1st. That we bow in humble submission to the decree of Him who doeth all things well.

2nd. That we cherish his memory and emulate his virtues.

RADIO MESSAGE FROM FORD TO DEALERS

"It is certainly wonderful to sit here in my office and say a few words of greeting to you Ford dealers of the Cleveland territory. The radio is an outstanding tribute to man's inventive genius. They say there is nothing new under the sun, but we are constantly inventing new things, every dal bringing some big improvement over the previous day's methods.

"Manufacturing operations have undergone some wonderful revolutionary changes during the past few years. We are all familiar with the big improvements in transportation methods, but the oldest industry has been the most backward in the acceptance or adoption of the new and up-to-date methods of doing things, and that is the farming industry. Being a farmer, I am vitally interested in all farm improvements, and with this in mind, I have spent years of time and millions in money in the development of the Fordson Tractor, which I really think is one of the biggest possible helps to profitable farming.

"As a general thing, the farmers have bettered their financial condition during the past eighteen months, but the production costs of farm products are still too close to selling prices to allow fair margins of profit. What the farmer must do to put his business on a paying basis is to lower the cost of planting, cultivating and harvesting of his crops. This alone will increase his profits, and with this thought in mind, it has been our constant aim to lower the price of the Fordson so that every farmer in the land could afford to own one. It is a pleasure, therefore, to announce through you Ford dealers that we have today decided that the Tractor price should again be reduced, and in considering a reduction, naturally my thoughts have been to make it possible for the largest number of farmers to share in the benefits to be derived through the use of our Tractor and, consequently, effective tomorraw, January 27, 1922, the new price of the Fordson Tractor will be $395.00 F. O. B. Detroit. This is a cut of $230.00 off the present price, and while in making this big reduction we have taken upon ourselves a gigantic task in the reduction of manufacturing costs, still that task, in my opinion, is not larger than the farmer's problem of today, and I am glad to do my part in bringing about a period of increased prosperity for the farmer. Your part is to carry this message to the farmer, thereby enabling him to produce more with less cost and shorter hours.

"I am glad to have had this opportunity of talking with you and you have my best wishes.

"Henry Ford."

McCulloch County Credit Board Asks "Prompt Pay"

Brady Standard:—Last Monday afternoon at 2:00 o'clock the credit managers of twenty-four leading firms assembled in the office of the Retail Merchants association to exchange ideas in regard to the financial and credit standing of people in Brady and McCulloch county. These meetings will be held twice a month during 1922, and no man in the entire county will have his rating overlooked. The merchants and professional men who are members of the association organized for the purpose o protecting themselves and their prompt paying customers against the abuse of credit privileges, and they have agreed to require the prompt payment of monthly accounts.

That is, in order to remain in the "Prompt Pay" class, your bills must be paid by the 10th of the month following date of purchase. This, of course, does not apply to written contracts, installment accounts, or any accounts for which special arrangements are made at time of purchase. Your credit standing will be based upon the promptness with which you pay—not upon your intention of paying or your ability to pay—but the way you DO pay. The people who take it for granted that they have the peculiar privilege of saying how and when they shall pay their bills will find themselves in the "Slow Pay" class with the fellow who is slow because he is out of a job.

Everyone in McCulloch county who owes past due accounts should make it his business to see the merchants at once and make definite arrangements for the payment of all bills at the earliest possible time. The merchants are entitled to that consideration.

Fordson Tractor

The new price of the FORDSON TRACTOR is $395.00 F. O. B. factory, or $462.00 delivered at our place of business in Junction. There is no question but what this is now the best power at the most reasonable price that any ranchman or farmer can buy. You can use it for most anything that you need power for around your place. Do your plowing, planting, mowing, harrowing, etc. With a pulley and governor attachment, you can use it for all kinds of belt work—pumping water for stock or for irrigation, sawing wood, grinding feed, run your shearing machinery, and dozens of other things. A Tractor with pulley costs $30.00 extra, and a governor costs $35.00. For stationary work, it will be better to use a governor, but it is not necessary, and can be used without a governor. Most every ranchman and farmer can use a FORDSON to good advantage. Think of the FORDSON not only as a Tractor, but think of it as a power plant, for that is what it is.

Come in and let us tell you more about it, and remember, we at YOUR SERVICE, and want to HELP you solve your power problems.

Make yourself at home at our store—YOU ARE ALWAYS WELCOME, whether you want to buy or not.
