# DRAFT PLAN URGED

## Machinery To Mobilize Big Army Sought

### Speedy Action In An Emergency Is Planned In U. S.

(By The Associated Press)

WASHINGTON, June 14.—A proposal that Congress set up machinery immediately for drafting in a national emergency, but that it retain the right to say when this machinery should be placed in operation, is being advanced in various military and congressional circles.

**Advocates said that the plan would cut a month from the time required to mobilize large numbers of men in any situation which Congress deemed to warrant such action.**

If a selective service law were enacted now, the proponents contended, approximately 6,500 local boards necessary to help administer it could be appointed at once. Regulations and registration forms could be printed and issued to them.

The system then would be ready to swing into action at any time, on orders from Capitol Hill, and experts believe it would have the first men reaching army camps within 30 days thereafter.

There has been no indication that the army wants to institute selective service in the near future.

**Most Now Opposed**

Most members of the House military committee are opposed to enactment now of such a selective service bill as a joint army and navy committee long has had ready for passage in an emergency.

This measure would closely follow the final form of the World war statutes. It authorizes the president to register, select and induct into the land and naval forces men from such age groups between 18 and 45 as he may prescribe.

A draft would be conducted along these general lines:

On a day set by the president, all men between the prescribed ages (probably 21 to 31) would register in their voting precincts.

Each local board would then

(Turn to Page 8, Column 4, Please)

## Rains Are Reported In Scattered Areas

**The weather man promised scattered showers for tonight in both East and West Texas—his forecast following a day and night of similar weather over most of the state.**

In the far southwest, Kerrville reported a rainfall of 1.86 inches and at San Marcos, 1.20 inches fell.

A wind and electrical storm did light damage at San Antonio where there was .41 inches of rain. Light showers fell throughout Bexar county.

Various other points reporting rainfall included: Lampasas 1.06, Fort Worth .90, Dilley .80, Brownwood .78, Dublin .52, Del Rio .45, Uvalde .44, Greenville .42, Port Arthur .25, and Vernon .16.

## Bandit Suspect Dies Of His Wounds Today

DUNCAN, Okla., June 14 (AP)—Oscar Brown, 38-year-old suspected highway robber, died in a hospital today of gunshot wounds inflicted by a posse that trapped him and two companions 15 miles southwest of here.

The posse wounded and captured the three yesterday.

Under arrest were two men booked as Claude "Bud" Chambers, 34, Chickasha, and Haskell Loudermilk, 32, Chickasha.

**CRUISER IS SUNK**

LONDON, June 14 (U.P.) — The admiralty announced today the sinking of the armed merchant cruiser Scotstoun by a U-boat yesterday.

**GERMAN INFANTRY ADVANCES—Under cover of a smoke screen and with a mobile anti-aircraft gun ready to protect from air attacks, these German infantrymen roll ahead into France in history's greatest offensive. This picture was flown to the United States after passing German censorship.**

# National Defense Group For Lubbock Will Be Appointed

Appointment of a local national defense committee of nine members was authorized by directors of the chamber of commerce in a special meeting this morning, according to Mark Halsey, chamber president.

Membership of the national defense committee will be selected by a small group named by directors. Names of members of the selections committee were not revealed.

**Purposes Are Described**

Purposes of the defense committee were described as being to "coordinate industrial and business expansion which will come as result of the national defense program and to serve as a liaison agency between our community and the constituted authorities of our state and federal government, both as to business and subversive activities."

The action was taken by the local board after report had been received that chambers of commerce throughout the nation, and particularly in larger cities, are forming strong local committees for national defense.

The purpose of those committees, it was explained, is to provide an established agency which will enable the individual communities to cooperate fully and immediately in any national emergency and to provide a means of safeguarding against "fifth column" dangers.

**Emergency Discussed**

Appointment of the committee was authorized, it was revealed, after directors had entered into a frank discussion of the present emergency as it appears to them. The discussions also took into consideration that huge sums appropriated by

## Hitler's Press Chief Rejects All Talk Of Peace; Declares Nazis Are Simply Unbeatable

BY LOUIS P. LOCHNER
Associated Press Staff Writer

WITH THE GERMAN ARMY, En Route To Paris, June 13 (Delayed)—Countless thousands of fresh German troops were being speeded into the zone of operations today as Dr. Otto Dietrich, personal press chief of Adolf Hitler, rejected all talk of peace and said Germany's only aim now is to win the war.

Addressing foreign journalists, Dietrich said:

"Germany is simply unbeatable no matter what may yet come. The fuehrer towers high above all our enemies. Nothing can avert their defeat and disaster."

**Complete Victory Is Goal**

Ridiculing earlier assertions by leaders of Great Britain and France that Germany would be forced to her knees, Dietrich pointed to Germany's present military position and said that complete victory was the goal.

He said peace might have been had before the war started at the price of the Polish corridor and of a plebiscite in the regions of Poland which the Nazi government claimed as German.

Dietrich had just come from Hitler's general headquarters, at a secret place on the front.

**England Not Forgotten**

While questions concerning where the fresh troops were going were met with a shrug of the shoulder, meaning it was a military secret, I have the definite impression that Hitler, while at present concentrating on Paris, is also not leaving England out of his watchful eye.

Dietrich said German arms were unbeatable not only because of their "superiority" but also because Hitler had first "welded together" the people who bear these arms.

Describing Hitler's life at general headquarters, Dietrich said that he lives very simply.

He said the fuehrer is a voracious reader of the foreign press. Hitler personally directs his press matters.

Dietrich said Hitler's health is excellent and that much of his time was occupied with conferences with military leaders.

"Naturally," said Dietrich, "he doesn't venture into the frontmost line where the battle rages. No chief of state does that and it would be folly to do so.

"But he's often in conquered places very shortly after their capture."

**ITALY FILES PROTEST**

WASHINGTON, June 14 (U.P.)—The Italian ambassador, Prince Colonna formally protested to Secretary of State Cordell Hull today against what he termed a campaign in this country to incite feeling against the Italian people.

## The War In Brief

(By The Associated Press)

**BERLIN — German armies march into Paris, high command says; other Nazi legions capture Le Havre, Montmedy; begin frontal assault on France's Maginot line; report "complete collapse" of French along 200-mile Western front; Hitler orders 3-day celebration.**

**TOURS, France—French high command admits fall of Paris "to save it from devastation," but says "our fighting continues in the greatest order;" government reported fleeing Tours; Premier Reynaud begs U. S. help.**

**LONDON — British rush more troops to support French in fight south of Paris; R. A. F. bombs objectives in France, Norway and Africa.**

**MADRID — Spanish troops occupy international zone of Tangier, across from Gibraltar fortress, "to safeguard neutrality" of city; say other nations notified beforehand.**

**WITH GERMAN ARMIES — Germany rejects talk of peace, Dr. Otto Dietrich, fuehrer's press chief, declares.**

**ROME — Italians report French attack on Alpine frontier repelled; planes bomb French bases; nation intensifies air raid precautions.**

## Most Texas Co-Eds Not After Husbands

AUSTIN, June 14. (U.P.)—College isn't husband-hunting grounds for most University of Texas co-eds, they tell their dean of women. Eighty-five per cent of June graduates planned to go to work, 10 per cent to marry, 5 per cent will go home.

(Turn to Page 8, Column 7, Please)

## Did You Know All These Facts About The Stars And Stripes?

(By The Associated Press)

WASHINGTON, June 14. — The flag of the United States is 163 years old today, and patriotic societies say there are thousands of Americans who know no more about it than the fact that it is red, white and blue.

For instance:

Every star in the flag represents a state. Can you pick out yours? (The order in which the states entered the union is the controlling factor.)

Stephen Driver, an old sailor in Nashville was the first to call the flag "Old Glory." He did it during the Civil war.

Betsy Ross was a demon seamstress, but she probably did not design or make the first flag.

Benjamin Franklin probably designed more flags than any person in American history—and received less credit.

The stars and stripes in George Washington's coat of arms was not the pattern for the first flag design.

How many horizontal rows of stars are there? Most people will answer eight. The answer is six.

The continental Congress introduced the flag resolution in 1777, but the nation didn't have an all-American flag over the capitol until 1866. English-made cloth was used before that.

## Total Collapse Of France In Week Looms

### Direct Attack On Great Britain Is Now Being Hinted

### As The Germans Tell It

(By The United Press)

BERLIN, June 14—Germany, her troops clattering down the Champs Elysee in Paris and smashing ahead on all French fronts, predicted tonight that the total military collapse of France is imminent and that the direct attack on Great Britain will be launched shortly.

The German radio started in with broadcasts designed to convince the French that it was not worthwhile to carry on the fight longer. Exports were broadcast that a separate peace for France might be expected by the end of next week.

**Collapse Imminent**

Military quarters insisted that the total collapse of French military power was imminent, that the defeated French army could not take another stand with Paris gone, the Seine and the Marne crossed, the Maginot line attacked from the front and already half-flanked from the rear.

And, said the military spokesman, Germany has not yet thrown its full strength into the campaign. There are, he insisted, "further surprises which must be reckoned with."

## Weygand Line Today Is Said Shattered

(By The Associated Press)

BERLIN, June 14—"Pursuit of the enemy until final destruction has now begun," the German high command declared triumphantly today, announcing conquest of Paris, Le Havre, Montmedy and collapse of France's northern line.

Nazi troops have launched a frontal attack on the Maginot line from the Saar region, the high

(Turn to Page 8, Column 8, Please)

## U. S. Envoy Is Held By Nazis

(By The Associated Press)

BERLIN, June 14 — Trustworthy sources reported today that United States Ambassador William C. Bullitt had been placed in protective custody in Paris by German military authorities.

Bullitt had remained in Paris during the German occupation with the approval of Washington, it was understood.

It was he who, yesterday, informed the German government of France's decision to make no defense in Paris itself.

**Made Fiery Speech**

Last Sunday, Ambassador Bullitt in a speech at Domremy, France, the birthplace of Joan of Arc,, declared that "from one end of this earth to the other every civilized man is praying, after his fashion, for the victory of France."

"Americans know on which side stand right, justice and Christian decency and on which side are wrong, cruelty and bestiality," Bullitt added. "They believe in France."

Ambassador Bullitt had a close call in Paris on June 3 when a dud dropped near him during the German air raid, which resulted in nearly 1,000

(Turn to Page 8, Column 7, Please)

## Scattered Showers, Some Hail, Fall

Scattered showers over the South Plains were reported Thursday and this morning—but damaging hail in the Grassland community near Tahoka was listed.

Stones the size of a robin egg fell several minutes in a four-mile strip, and crops touched were denuded of leaves.

Showers at Tahoka, 12 miles from the damaged spot, and Ralls were reported.

A brief rattle of hail was heard in Lubbock, but there was no damage.

## Morton Woman Dies Here Early Today

Death from a maglignant ailment from which she had suffered two years claimed Mrs. F. Gordon Abbott, 45, of Morton at 3 o'clock this morning in St. Mary's hospital.

The body was taken to Morton.

No funeral announcements had been made in Lubbock this afternoon.

## French Chief Said Seeking Peace Treaty

ROME, June 14. (UP)—The newspaper Lavoro Fascista in a dispatch from Geneva reported today grave dissension between President Albert LeBrun and Premier Paul Reynaud of France. The Geneva dispatch said LeBrun wishes to conclude a separate peace with Germany and Italy to save France from destruction.

The newspaper said that LeBrun had been conferring with former Premier Pierre Laval and that Reynaud's position as premier fast was becoming untenable as several members of the cabinet agreed with LeBrun's stand.

## Nazi Advance Unchecked By Fall Of Paris

### As The Allies Tell It

(By The Associated Press)

TOURS, France, June 14—Beating a retreat from Paris, the tired French army withdrew southward tonight, assailed by the mightiest forces of the German reich and awaiting word as to how or even whether the battle of France is to go on.

The latest word here was that German divisions, preceded by slashing columns of tanks and armored cars, had closed around the French capital. (The Germans announced Paris had been occupied.)

**On Road To Dijon**

Some rumors put the German advance guard on the west (five words censored). It was officially confirmed that to the east and slightly south of Paris they had reached Romilly, 65 miles southeast of Paris, well down the road to Dijon.

Whether the war is to go on or end for the French seemed to hinge on President Roosevelt's answer to Premier Reynaud's "last appeal" for aid from the United States. The appeal was mentioned in a Reynaud broadcast last night.

(In Washington, it was said that the "last appeal" had not yet been received.)

**No Definite Word**

Up to nightfall no definite word had been made public. Both optimistic and pessimistic opinions could be heard.

The advance to Romilly placed the Germans 30 miles south of the Marne, and about 100 miles northwest of Dijon.

With the German sweep in mind,

(Turn to Page 8, Column 6, Please)

## Congratulations To:

Mr. and Mrs. T. R. Dillard of Monroe on birth at 2:30 o'clock this morning in Lubbock sanitarium of a son weighing 6 pounds 5 ounces. The father is a farmer. He is a son of County Judge J. J. Dillard of Lubbock.

## U. S. Spending Will Reach Record Level

WASHINGTON, June 14 (AP)—Last-minute, emergency defense spending will push congressional appropriations for the fiscal year beginning July 1 to a record peacetime level of nearly $14,000,000,000.

About $5,000,000,000 of that total will go for preparedness. More than $3,627,000,000 will go for so-called permanent appropriations—interest on the national debt, a debt sinking fund, and various trust funds. The remainder will pay regular government expenses.

Except for President Roosevelt's request May 31 for a supplemental defense fund of $1,062,185,249 plus $324,136,761 in contract authorizations, the aggregate for all purposes would have dropped nearly $429,000,000 below the current year's total.

## Big Fund For Arms Buying Is Released

### Mightiest Army In England's History Will Take Field

### As The Allies Tell It

(By The Associated Press)

LONDON, June 14.—The plight of France has caused Great Britain to drop her plans for a long war and go "all out" with her resources, sources close to the government said today.

This released a fund of money and credit for purchase in America of anything which will convey or fire explosives. The fund originally was allocated for future years.

**Gives U. S. Blank Check**

As a result of the change in policy, these sources said, Britain is giving the United States a blank check, in effect, for any kind of usable war material she can provide.

Everything already found purchasable in America in arsenals, national guard units and elsewhere is being sent.

This speed-up was indicated following disclosure in British military circles that Britain had sent reinforcements to France to join the Allied forces fighting behind Paris.

**Cruiser Is Sunk**

At the same time, the admiralty announced that the 17,046-ton liner Caledonia, fitted as an auxiliary armed cruiser and renamed the Scotstoun, had been sunk yesterday by a submarine. On the credit side, the admiralty reported at least one heavy bomb hit, perhaps two, on the 26,000-ton German battleship Scharnhorst in Trondheim fjord yesterday.

No program aimed at later production will be permitted to stand in the way of the fullest possible effort now, these British sources declared.

This is partly the result of the loss of Allied resources because of the widening Nazi hold on France. From 75 to 80 per cent of France's steel producing plants now are in

(Turn to Page 8, Column 4, Please)

## U. S. Promised Nazi Revenge

(By The Associated Press)

NEW ORLEANS, June 14.—Baron Edgar Von Spiegel, German consul general for the southern states, today said in an interview that "Germany will not forget that when she was fighting bitterly for her very life, the United States gave every material aid to her enemies."

The German official, a widely known U-boat commander in the first World war, said that Spain shortly would join the war against France, predicted an early German victory, and said that with that victory the United States may beg for trade and commerce "with the new empire and get none."

**Ambitions Are Limited**

Von Spiegel, granting an interview for the first time since Germany went to war against Poland, added that German territorial ambitions outside Europe were limited to "regaining her possessions in Africa, and possibly a little more."

"Germany does not want Florida, Georgia or Louisiana, nor does it want any portion of the western hemisphere," he said. "Nevertheless my country will not forget that when she was waging a struggle for her very life that the United States did everything in its power to aid her enemies."

## Beauty Operator Is Slashed And Beaten

NEW CASTLE, Pa., June 14 (AP)—An attractive beauty operator was horribly slashed and beaten to death early today just outside the city.

A few hours after the body of the brunette victim, Helen Nasal, 27, was found in a field by three boys who heard her screams, District Attorney John G. Lamoree announced her brother-in-law, Arthur F. Dean, 36, had been taken into custody and had given police "a full statement" admitting the slaying.

Lamoree said Dean, a WPA worker, "claimed he didn't know why he did it."

# Spanish Troops Occupy International Zone Of Tang

## Neutrality To Be Respected

MADRID, June 14 (AP) — Spanish troops have occupied the international zone of Tangier in the name of the sultan of Morocco to safeguard the independence and neutrality of the city, a foreign ministry spokesman announced today.

Two divisions of land troops and a destroyer effected the occupation, it was reported officially.

**Official Note Quoted**

An official note on occupation of the zone opposite from the British stronghold at Gibraltar said:

"With the object of guaranteeing the neutrality of the zone and city of Tangier, the Spanish government has decided provisionally to take over the services of vigilance, police and security and forces have entered this morning with that object. All existing services are guaranteed and will continue functioning normally."

Tangier was internationalized under a treaty signed before the World war and later made permanently neutral by the convention of 1823 but Spain never was satisfied with the arrangement.

**Given Police Powers**

Spain reopened the question and in an accord signed in 1928 received police powers in the 225-square mile zone.

It was explained semi-officially that today's action was taken under those police powers after consultation with the interested nations.

The troops met no resistance.

The occupation had been approved by the international commission governing the zone.

Italy's entry into the war left Spain the only neutral represented on the commission and the commissioners who represented the belligerents found the proper transaction of business difficult.

## Town In Backyard Going On A Boom

CANTON, Ohio, June 14 (UP)—Arthur A. Honabarger has a village in his backyard. Honabarger, a punch press operator, and his wife decided five years ago they would like to have a small model or two in the backyard. So they built a miniature grist mill in the basement workshop.

When it was finished the Honabargers put it in the backyard. Later, a fish and lily pond were added and a Lilliputian city had begun.

The scores of visitors at the Honabarger home are surprised to hear organ music coming from a tiny church which is the latest addition to the town. It is complete with stained glass windows, pews, and organ. The church is two feet wide, four feet long and has a steeple five feet high.

Also in the yard is a tiny red schoolhouse, waterfall, dwelling house, canal and a well with an "old oaken bucket."

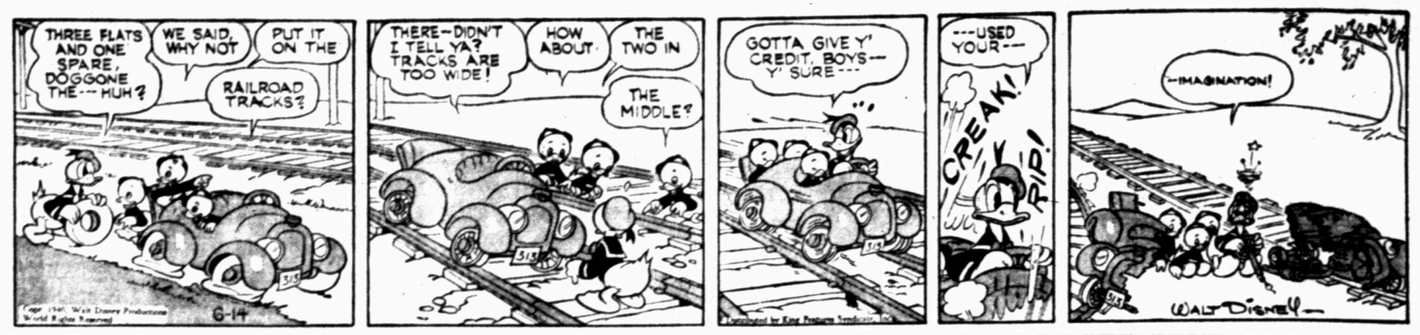

The yard and the buildings are lighted at night with small electric bulbs.

Music which comes from the organ originates on records played on a radio-phonograph in the Honabarger house, and the sound is reproduced through a loudspeaker in the church steeple.

Next on the building program is a model of the President McKinley monument. This will be followed by a miniature business block.

---

The first submarine is said to have been built in England and to have been operated by 12 rowers at a depth of 12 to 15 feet for several hours.

## All Ages Join Swim School

Don't be bashful if you want to enroll in learn-to-swim classes starting in City swimming pool Monday.

Regardless of your age or shape, you will have company.

The coupons turned in yesterday included water fledglings ranging in ages from 7 to 55 years of age. Among them were individuals who listed their ages as 42, 45 and 49 years. Confidentially, some of them have quite a lot of figure.

**Children Urged To Join**

Especially urged to join are the children of school age who can't swim. Dr. W. B. Irvin, city school superintendent, expresses the hope that every such child in Lubbock will enroll.

"Swimming is the finest kind of exercise," Dr. Irvin commented. "Knowing how to swim not only opens the opportunity for much beneficial pleasure, but it may prove at any time the means of averting tragedy. Opportunity to learn-to-swim is one which should not be lost."

**Mast In Charge**

The classes will be sponsored, as last year, by Avalanche-Journal newspapers and Lubbock chapter of the American Red Cross. Clarence Mast, manager of the pool, will be in charge.

The course will consist of 10 lessons, on June 17-21 and June 24-28, each inclusive. Classes will be at recess over the June 22-23 week-end. Anyone 7 years of age or older is invited. The only charge is 5 cents for each class attended, the money to go to the swimming pool. Mast and his helpers receive nothing. Those enrolled must supply their own towels and suits.

Mast urged that those planning to enroll fill out the accompanying coupon without delay and turn it in as directed.

The schedule or classes follows:

6:30-7 a. m., business men.

7-7:30 a. m., business women.

7:30-8 a. m., no class.

8-8:30 a. m., and 8:30-9 a. m., housewives.

9-9:30 a. m., boys, ages 7 to 10 inclusive.

9:30-10 a. m., girls, 7 to 10, inclusive.

10-10:30 a. m., boys, ages 11 to 14, inclusive.

10:30-11 a. m., girls, ages 11 to 14, inclusive.

11-11:30 a. m., boys, ages 15 to 20, inclusive.

11:30-noon, girls, ages 15 to 20, inclusive.

1-1:30 p. m., young men, aged 21 and over.

1:3-2 p. m., young women, aged 21 and over.

---

There are six international money order post offices in the U. S., located at El Paso and Laredo, Tex., New York, San Francisco, New Orleans and Seattle.

**LEARN-TO-SWIM ENROLLMENT BLANK**

**This coupon is provided with the request that it be filled out by those desiring to enroll so that an advance idea may be obtained of the number for whom provision must be made in learn-to-swim classes. It should be brought or mailed to The Avalanche-Journal 1211-13 Texas avenue, or be left at the city swimming pool in Mackenzie State park.**

## Native Drama To Be Given

MANTEO, N. C., June 14 (UP)—The story of Sir Walter Raleigh's famed "Lost Colony" will be retold again this summer on the boards of the Waterside theater here.

D. Bradford Fearing, president of the Roanoke Island Historical association, announced that the historical drama, written by Paul Green, would open its fourth consecutive summer season June 29 and run through Sept. 2.

At a conference between Fearing, Green and Samuel Selden, director of the pageant, it was decided that henceforth the native drama will be produced every summer in connection with local anniversary celebrations.

**Seen By Quarter Million**

More than 250,000 people have come to this isolated fishing village on North Carolina's outer banks during the past three summers to see the pageant, which orginally was presented in connection with the 350th anniversary of the founding of the first English colonies in the New World and the birth of Virginia Dare, first English child born on American soil.

The decision to make the drama a permanent summer attraction attests to the rising popularity and nationwide interest in the pageant dramatizing one of the most intriguing mysteries in early American history. Presented on the site of the first colony, the outdoor historical spectacle has been acclaimed by critics, educators, civic leaders, and President and Mrs. Roosevelt.

**Mrs. Roosevelt's Praise**

Writing in her column "My Day," the First Lady said of it:

"It made the greatest impression on all of us. . . . I was interested to find cars from almost every state in the union, showing that people are beginning to know that it is worth seeing, not only because of its historical interest but because of its intrinsic beauty. Paul Green has achieved a remarkable artistic success. . . ."

Theme of the "Lost Colony" is the epic struggle of 121 men, women and children who were sent over by Sir Walter Raleigh to settle the American wilderness. Shortly after the birth of Virginia Dare, the colony disappeared, leaving only a single trace of its existence—the word "Croatoan" carved on a tree. The mystery of what happened to them has haunted historians for many years.

**Natives Form Cast**

The cast of 150 actors and dancers again will be composed mostly of native islanders and fisherfolk. A chorus of 30 from the Westminster Choir of Princeton, N. J., under the direction of Theos Cronk, will supply the musical background, the score for which is based on 16th century English ballads, hymns and carols collected by Green and arranged by Lamar Stringfield.

The "Lost Colony," Green's biggest dramatic success, is a non-profit venture sponsored by the Roanoke Island Historical association. Green wrote the drama gratis solely for presentation by the natives of Roanoke Island on the historical site.

## Banks Are Upheld By Loan Administrator

WASHINGTON, June 14 (AP) — Jesse H. Jones, federal loan administrator said today he thought the nation's banks were "disposed to do everything they can and everything they ought to do" to provide capital for industries participating in the national defense program.

Asked at a press conference whether he had made any request to banks to cooperate, Jones said he had not because he thought the banks were "just as alive to the situation as we are."

"I see no reason why most of the capital should not come from the banks," he added. "The banks are all full of money and are looking for loans."

## Crack Pistol Shots Chosen

AUSTIN, June 14 (UP) — Texas, noted for its "gun men," will pick its crack pistol shots and those of the southwest in two tournaments first of which opened here today.

The southwestern regional pistol shoot opened today and will continue through Saturday and Sunday. Tournament matches of the city marshals and chiefs of police union of Texas will open Monday and continue through Wednesday.

Winners in this week's regional matches become eligible for the national matches to be held at Camp Perry, O., Aug. 18 to Sept. 7.

**Kansas City Sends Team**

Among entrants will be a team from the Kansas City police department. A 5-man team will be entered also by the Texas department of safety. This team with a spare "No. 6" man, will be made up of crack shots on the state patrol.

Among them is L. P. McCasland, Big Spring, holder of the 22 caliber national record set at Tampa, Fla., and Don Lawrence of Austin who holds three records set on the Houston indoor range. Harold Cline of San Antonio, member of the American pistol team that competed in Mexico, is also to take part in the matches here. Regional matches include marksmen from Oklahoma, New Mexico, Arkansas, Louisiana, Kansas and Texas.

**NATURAL ASSUMPTION**

AKRON, O. (AP) — Joe Owens heard the judge impose a 30-day sentence for non-support but missed hearing the word "suspended." So—Jailer Fred Mayer had a hard time convincing Owens that there wasn't a cell awaiting him.

DISTINCTIVE DOUBLES...

POINTERS TO REFRESHMENT

YES, two good points to remember on these warm summer days are . . . ICED ADMIRATION COFFEE or TEA. If your family is suffering from listless appetites, and none of your meals seem just right . . . add either ICED ADMIRATION COFFEE or TEA to your menu . . . then, watch those lazy appetites perk up.

*Drink a glass between meals . . . for the pick-up that lasts!*

ADMIRATION COFFEE is quality-proved . . . selected by experts, skillfully blended and roasted, and then triple-tested! Available in three distinct grinds to accommodate every type coffee-maker.

FOR BEST RESULTS in making either iced coffee or iced tea, be sure that you . . . (1) Make brew double-strength. (2) Pour beverage over ice . . . do not add ice to beverage.

ICED Admiration COFFEE AND TEA

GOV. JONES OFFERS LOUISIANA'S HELP—Gov. Sam Jones (white hat and suit) of Louisiana, told reporters who surrounded him as he emerged from the White House he had offered President Roosevelt his services and the "wholehearted cooperation of the people of the state of Louisiana on the national defense program." It was the new governor's first official call on the president.

## Sentiment For Appeasement Of Naziism Is Angrily Attacked In Senate By Pepper

WASHINGTON, June 14. (AP)—Senator Pepper (D-Fla), angrily attacking what he called sentiment for appeasement of Naziism, predicted today that "when Paris falls" some legislators will say "maybe we ought to play up to Hitler a little."

Renewing his demand that the United States give the Allies every aid possible, Pepper said:

"When France is destroyed, how long will Congress stand up when Hitler says, I want your wheat, your corn and your cotton, and I will give you goods in exchange."

**Seems To Be Conspiracy**

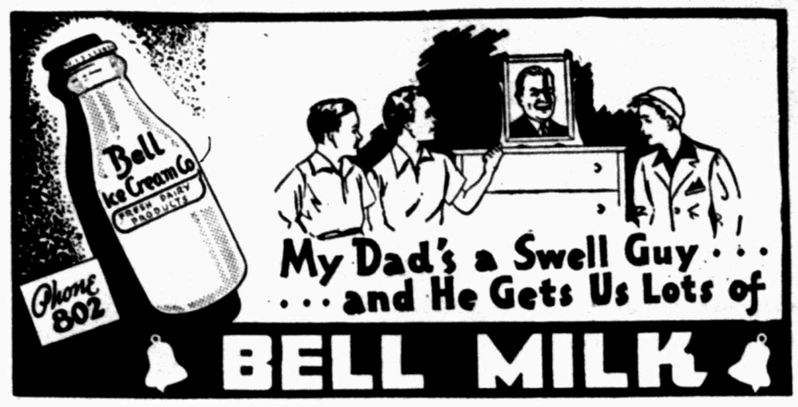

Pepper said there "seems to be a conspiracy among some people to represent some of us and the president and the Democratic party as a war party."

Senator Wheeler (D-Mont) told the Senate yesterday that he did not want to break with the Democratic party but that he would if it "becomes a war party."

Pepper's statements brought a sharp rejoinder from Senator Adams (D-Colo), who said he feared that the things the Florida senator had said "are nothing less than a command that America go into the war."

---

Most data on the aboriginal population of South America indicates it drifted from North America by way of the Isthmus of Panama and, somewhat, by way of the Antillean chain from Florida.

## Congress Urged To Stay In Session

Telegrams urging that Congress remain in session during the present emergency were sent to Senators Morris Sheppard and Tom Connally and to Rep. George Mahon today after having been approved at a special meeting of the executive committee of Allen Bros. post of the American Legion Thursday night.

They read:

**Committees Named**

"The Allen Brothers post of the American Legion urges that the Congress remain in session throughout the emergency." It was signed by A. I. Glassman, commander, and Grady West, adjutant.

Two nominating committees were named by the executive officers. They will submit their selections at the regular June 24 meeting. Glen Hess is chairman of one group, with Harlie D. Woods, A. B. Allen, Fred Childress, W. B. Sides, and F. R. Land. The other is composed of Paul Hardwick, chairman, W. E. Lavender, Tom Baber, Sam Newman, Elmer Rush and C. A. Hubbard.

Only the post commander and three vice commanders will be nominated, other officers to be selected by those officials. The amendment to the post constitution was adopted by the executive committee Thursday night.

## Madeleine Carroll Is Somewhere In Europe

HOLLYWOOD, June 14. (AP)—Studio officials said today they had not heard from Madeleine Carroll, blonde actress who left for Portugal on the Atlantic clipper last Sunday.

She announced she intended to help evacuate the orphans living in the home she maintains in Chateau-De-Saudreville, 25 miles northwest of Paris and bring some of the children to America if transportation could be arranged.

# Awkward Age Clothes For 1940 Young Miss May Be Flattering And Practi

## Let Girls Buy Own Clothes

By AMY PORTER
Associated Press Fashion Writer

Maybe you think your seven-year-old daughter is too young to have an ankle-length formal party dress. Maybe you think you'd like to buy her a nice little short white frock—plain, simple, in good taste.

Maybe you'd better think again before you go spending good money. If you are as well trained as most mamas, you won't try to dictate. You'll take the child to the store, name the price she can pay, and let her choose her own party dress—well, you wouldn't want her to look different from her crowd would you? It's what they're all wearing.

**Have Definite Taste**

From age seven on, girls have just as definite taste in clothes as you have. Mostly, it's pretty good taste, too. It's their ambition to look like older high-school or even college girls, and with college-girl fashions as sane as they are, you have little to worry about.

This summer little girls love pinafores—not because they are quaint and childish but because they are just what grown-ups are wearing. They love gabardine shorts and slacks, with beanies to match—not because they're practical costumes for rough play, but because older girls wear them.

**Most Difficult Age**

Most difficult to please are girls in the "awkward age"—12, 13 and 14 years old. They hate to buy their clothes in the children's department, yet they can't be fitted anywhere else. Smart stores save face for this age group by putting up a partition, or at least a screen, between teen-age clothes and real little-girl fashions.

For "best dressed" inspiration, manufacturers and children themselves look to the screen, where such starlets as Gloria Jean and Virginia Weidler set styles. Teen-agers have outgrown the sweet and simple fashions inspired by Shirley Temple—for that matter Shirley herself has outgrown them. And for some reason the two little English princesses, Margaret Rose and Elizabeth, no longer have the fashion influence they had a year ago.

Mothers won't fuss because their daughters want to look like the little girl in the movies, when it means buying such a sweet and proper little dress as the one shown here. It's of white shantung, with red white and blue touches at neckline and sleeve, and in the shirred waistband. Modeled by Virginia Weidler, child starlet.

## Paul Farris Is Honored On His Tenth Birthday

Paul Farris, 10, was honored when his mother, Mrs. E. D. Farris, 1312 Eighth street, entertained Thursday.

Jean Gray assisted in serving birthday cake and punch to the guests. Games were played.

Those attending were D. L. Nicholson, Sammie Self, Allen McLaurin, Tommy Hancock, Robert Carr, Louise Perking of Globe, Ariz., Maxine Woulard and Dewey Farris.

## Students Plan Radio Series

Summer students of Texas Technological college Saturday will present one of a series of 10 radio broadcasts each slated for 30 minutes beginning at 5:15 o'clock on Monday and Saturday afternoons for six weeks.

J. N. Watson, instructor in speech department of the college, especially in the radio phase, said the students were teachers studying a general course based on radio in education.

Saturday afternoon's broadcast will deal with Pan-American relations and will be called "Pan-America Calling." A figurative visit will be made to Mexico, and the Rancho Grande orchestra, composed of Lubbock Mexicans, will play.

**Those Taking Part**

Mrs. J. A. Gowdy of Archer City and Miss Florence Stark of the Roosevelt school in Lubbock county will be student directors. Having speaking roles are Miss Claudine Cook of Lubbock, Miss Margaret Cooper of Raymondville, John Slater of Clovis, Mrs. Donley Stephenson of Sweetwater, Mrs. Mary Morris of Lamesa, J. B. Millsap superintendent of the Fair Oaks (Houston) school, Mrs. Walta Thomas of Hale Center, Mrs. Alda Wynn of Olton, Miss Claudine Holderness of Iraan, Miss Mildred Leon of Fort Stockton, and Miss Noma Gray of Washington, D. C.

Other students will handle technical details, said Watson.

Beginning June 22, plays recently staged by Columbia Workshop will be presented, five of them. Monday's program will visit Cuba, under direction of Miss Willie Pearl Dockray of Lubbock.

A summer workshop in radio speech sums up the class' work, said the instructor.

## Mobile Dental Unit Will Visit College

Texas Technological college will be visited Wednesday by a mobile dental unit of the state health department, according to announcement Thursday.

The unit will be located between the chemistry and library building and it was urged that all students and faculty members plan to attend.

Local dentists are cooperating and Miss Mayme Alexander, visiting teacher of Lubbock public schools, will cooperate in obtaining children to take part in demonstrations.

**TO WORK IN HARVEST**

MORTON—John and Dan Holloman and J. D. Tipton have gone to Wichita Falls with a truck, tractor and combine to work in wheat harvests there. They expect to be gone about six weeks.

The gemsbok, a large South African antelope, never drinks water. The moisture it requires is obtained from the succulent bulbous plants on which it feeds.

## Brief Bits Of News . . . .

**Funeral Conducted**—Last rites of the church were read at 3 o'clock this afternoon in the Menard First Baptist church for J. Sam Slover, 68, former Lubbock county commissioner and treasurer. He died Thursday in a San Angelo hospital after a long illness.

**Hamilton Rites Planned**—Relatives said Werner Lee Neese, 34, Odessa merchant who was killed when struck by an automobile early Thursday near Brownfield, would be buried in Aleman cemetery after 10 o'clock rites Saturday morning at the Lutheran church there. The body is at Rix Funeral home in Lubbock and will be sent to Aleman at 10 o'clock tonight. Neese was walking to get gasoline for his car when a machine driven by O. C. Speed of Brownfield struck him. It was dark and Speed did not see the Odessa man until after the impact.

**Son Is Born**—Mr. and Mrs. J. K. Applewhite, jr., of O'Donnell are parents of a son, weighing 7 pounds 5 ounces born at West Texas hospital Thursday. The father is an implement company employe.

**Daughter Born**—A 10-pound daughter was born Thursday in the residence of Mr. and Mrs. C. D. Hightower of route 4.

**CAA Expands**—Robert P. Vail, director, said the Civil Aeronautic authority flight program for students, alumni and former students of Texas Technological college, which begins Saturday at Municipal airport, was being furthered "by the hour." He said 37 students had passed physical and other requirements and that others of a class of 45 expected to be ready in time for the program's beginning. Complete list will be published Saturday or Sunday morning, he said.

**Dogies To Parade**—A "pet" parade for Dogies, negro boys' club sponsored by Emmett Galloway, boys' counsellor, will be held Wednesday in connection with the Juneteenth celebration here, Galloway said this morning. He expects between 400 and 500 boys and girls, each with a pet, to be in line.

**Bar Meeting Saturday**—Regular meeting of Lubbock Bar association will be held Saturday noon in Lubbock hotel said Vaughn Wilson, president. Discussion will be on sending a delegation to the annual meeting of the state group in Fort Worth July 3-5.

## Bicycle Parade Will Be Conducted Today

Preparations are complete for the annual Montgomery Ward-Avalanche-Journal bike parade scheduled for 3 o'clock this afternoon, according to announcement this morning.

The parade will start from Central Ward school after a talk by Capt. W. W. Legge of the state highway patrol on safety. The boys and girls will go from the school to Broadway, and then east to the Montgomery Ward store at Broadway and Texas. Safety escorts will accompany them.

Ten prizes are to be awarded, including an 18-inch trophy as first award.

## Two-Day Celebration Opens At Seminole

SEMINOLE, June 14 (Special)—A barbecue for which 15 calves have been butchered will be the big event on today's opening program of the two-day celebration of the third-of-a-century of Seminole's founding.

Two rodeo performances each day are planned, 2:30 and 8:30 o'clock. A parade today will precede the program.

Ten thousand persons are expected for the affair.

## Flag Ceremony To Be Held At Littlefield

Chas. Whitacre, district commander of the American Legion, and George S. Berry, chairman of the Legion's state rehabilitation committee, plan to attend a flag ceremony at Littlefield Civilian Conservation corps camp this afternoon at 6:30 o'clock.

The ceremony will be sponsored by the Littlefield Legion post of which Otto Jones is commander. Whitacre was advised. Berry will be principal speaker of the occasion. The Littlefield High school band will play.

**LEFTOVER CAKE IDEA**

Here is a new pudding idea: Toast leftover cake (plain or frosted) on both sides and serve warm, covered with your favorite fruit sauce. Grapejuice and pineapple go well together for a sauce mixture.

How to make fruited chops: brown veal or pork chops, place in a shallow roaster and top with sliced oranges, sprinkle with just a little lemon juice and bake until the chops are very tender, about 40 minutes. The orange flavor blends deliciously with the meat.

## Variety Marks Socials Here

Lubbock women have attended meetings of clubs and church classes, picnics and parties this week.

Mrs. Hugh Dunlap entertained with an informal tea to honor her mother, Mrs. Joseph Brown of Dallas, Thursday afternoon from 4 to 6 o'clock at her home, 2712 Twentieth street.

The table was decorated with larkspur, snapdragon and white candles. Mesdames Frank A. Pettit, George Pierce, Ralph Trolinger and J. H. Stiles presided at the silver coffee and tea services.

Approximately 30 guests called.

The Euzelian class of the First Baptist church met for a business session at the home of Mrs. C. Fred Litton, 2512 Twentieth street, Thursday afternoon. Mrs. Litton led a prayer, Mrs. L. R. Johnson gave the devotional and Mrs. E. M. Barnett gave the closing prayer.

Members attending were Mesdames Johnson, Joe S. McIlhaney, Voris Myatt, Carl Francis, Homer Harrison, Barnett, R. H. Fulton.

The next meeting will be June 20 at the home of Mrs. Fulton, 1920 Twenty-second street, at 3 o'clock.

**Business Conducted**

Mrs. O. D. Hargis, 1804 Avenue X, entertained the members of the 1911 Needle club Thursday afternoon. Refreshments were served and a business session conducted.

Those present were Mesdames A. B. Conley, T. W. Stoneroad, R. T. Bucy, W. H. Bledsoe, Robert Allen, T. R. Prideaux, W. T. Gaston, F. R. Friend, Alan L. Carter, Floyd Beall, Fred Snyder, C. E. Maedgen, W. O. Stevens, H. D. Woods, W. B. Irvin and Miss Della Wilkinson.

The Carlisle Needle club met with Mrs. J. E. Hinson to plan for the next meeting which is to be June 27 at the home of Mrs. Floyd Housted. Those attending were Mesdames Ed McCrummen, W. G. Lofland, R. L. Adamson, Housted and J. W. Bush.

**Forty-Two Played**

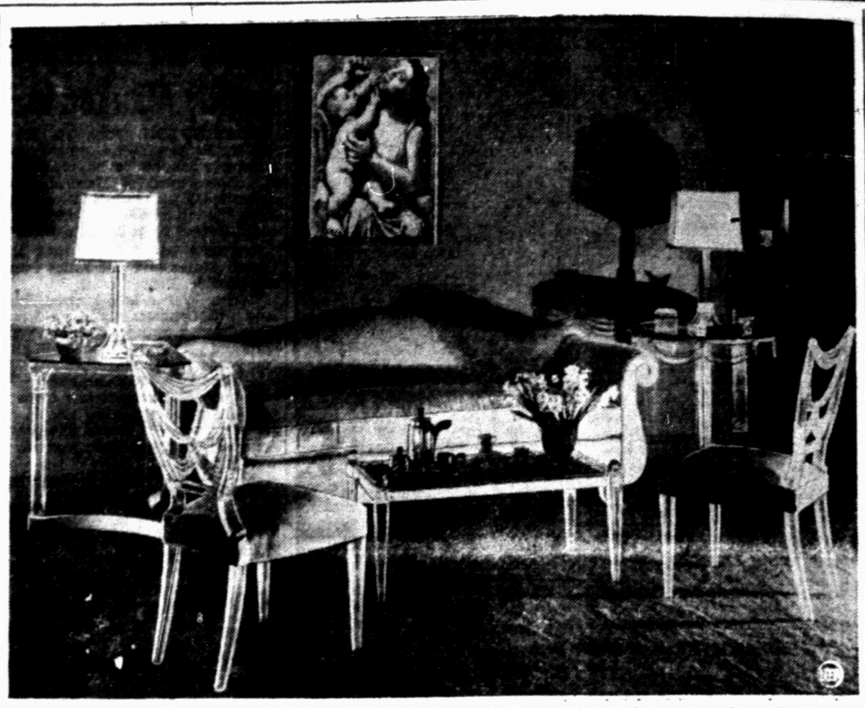

Forty-two games were enjoyed by members and guests of the Six and Six club at the home of Mrs. W. L. Baugh, 1811 Thirteenth street, Thursday afternoon.

Guests were Mesdames S. A. Henry, John Dalrymple, D. N. Leaverton and J. E. Garrison. Members attending were Mesdames W. R. Spencer, E. C. Allison, J. O. Jones, K. Carter, J. A. Wilson, G. W. McCleary, W. C. Rylander and J. F. Gregory.

The Needle club Bee met with Mrs. R. H. Edler, 1909 Seventeenth street, Wednesday afternoon. Those present were Mesdames Bob Bowron, C. O. Chambers, Odell Hughett, W. D. Massey, M. M. Page, J. L. Pate and C. H. Tisdel.

The next meeting is to be with Mrs. Ted Zachary in Big Spring June 26.

Value of metals produced in Utah in the last 75 years exceeds $2,050,000,000.

THERE'S "GLASS" TO THIS FURNITURE—This is one of the most interesting groups of furniture in a series of "glassic" rooms, shown at New York's Grosfeld House. Back and legs of the charming side chairs, all of the coffee table, except the leather top, end tables, lamps, legs of the sofa and part of the picture frame are of a brand new plastic which looks exactly like clear glass. Unlike glass, however, it doesn't chip, break or split. Furthermore, this latest brain child of the chemists is impervious to stains and won't blister or warp. A piece or two gives any room a light, fresh, modern, but not modernistic, look.

## Typographical Auxiliary Has Installation Here

Typographical auxiliary met with Mrs. Edith Cameron, 1510 Avenue J, recently for an installation of officers. Mrs. Wesley Smith presided.

Mrs. Reese Donald and Mrs. H. R. Miller were elected delegate and alternate to the national convention to be held in New Orleans, La., in the near future.

The following officers were installed: president, Mrs. Miller; first vice-president, Mrs. George Box; second vice-president, Mrs. R. E. Gunn; secretary-treasurer, Mrs. W. C. Edwards; chaplain guide, Mrs. W. R. Steckman.

Others present were Mesdames A. L. Borbo, R. P. Raney and Henry Perry.

## Hallback-Cook Marriage s Read Here Thursday

The wedding of Miss Lois Cook, daughter of Mr. and Mrs. J. Tom Cook of 2714 Perry street, Dallas, and Morgan Hallback of Lubbock, took place Thursday at the home of Rev. J. T. Clinton, 1916 Avenue O, with Rev. Clinton officiating.

The couple will be at home here. He is associated with a tire company. Mr. and Mrs. Tate Sanders were the only attendants.

Mrs. Gene Greer and small daughter of 1903 Twenty-sixth street have returned from a vacation spent in Chicago. They returned by Topeka, Kas., where they visited Mrs. Greer's sister, Mrs. J. B. Strawn, a former Lubbock resident.

## Minotaur Club Gives Party

Minotaur club entertained with a rush party Thursday night at 7 o'clock at the home of Joe Jackson, 2811 Twenty-first street. A barbecue supper was served.

## O'Donnell Service Read This Morning

O'DONNELL, June 14, (Special)—Funeral rites were read at 10 o'clock this morning in O'Donnell Church of Christ for Mrs. M. T. Casey, 60, who died unexpectedly Thursday at her O'Donnell residence.

R. P. Drennon, minister, officiated, and burial was in O'Donnell cemetery.

Mrs. Casey, who had lived here 17 years, had been ill only a brief time.

Survivors include seven daughters, Mrs. O. K. Pounds, Mountainair, N. M.; Mrs. Van McKee, Lamesa; Mrs. George Brownfield, Phoenix, Ariz.; Mrs. Lewis Trousedale, Penwell, Tex.; Mrs. E. Wables, Lubbock; Mrs. Steve E. Conner, San Pedro, Calif.; and Miss Drucilla Casey, O'Donnell, and three sons, J. T. of Weatherford, Elray of Big Spring and Elmer of Corpus Christi. Mr. Casey died about a year ago.

The Swiss confederation is based on 3,000 communes (counties) and 27 cantons (states).

## News Briefs

**Goes to Dallas**—Learning of the illness of her mother, Mrs. G. E. Holmes of 2016 Avenue M left Thursday for Dallas.

**Gets Degree**—J. H. Murdough, department head, said Fenton Harding of the civil engineering faculty of Texas Technological college received his master's degree recently at Armour institute in Chicago. Harding is working this summer for the state highway department in Houston.

**Slight Fire Damage** — Firemen early this morning extinguished a car fire on South Avenue H. The alarm was turned in a few minutes after midnight. Damage was slight.

On a clear day, an aviator two miles up can see objects 150 miles away.

## Troop Ships Being Loaded

BY FRANK H. FISHER
United Press Staff Correspondent

A SOUTHEAST COAST PORT, IN ENGLAND, June 14 — New contingents of the second British expeditionary force crossed the channel to France in large numbers today to join the battle against Adolf Hitler's armies.

War material also was moving through this port toward France and British officers said that both men nad weapons were moving in "enormous" numbers.

**Troops Pour Out**

I saw one transport ship draw up along the dock just as a train came alongside. From the train poured steel-helmeted and fully-equipped British troops.

Within a few minutes they were marching up the gangway of the ship.

Ten minutes later another train was alongside and in another brief period still more troops were aboard.

This was but one of many ships in the harbor. All were loading rapidly.

British officials said that similar ships in other harbors all along the coast were loading just as rapidly to carry out Prime Minister Winston Churchill's promise of "immediate and massive" aid to France's weary armies.

"We got everything we asked for and got it quickly," one unit commander told me when I asked him about equipment.

"All our guns are the newest and the best you can get," he continued. "Even the extra stuff which our experiences at Dunkirk led us to believe we would need in another expedition were provided as soon as requested."

**Back For Another Shot**

Men who had escaped from the "hell of Flanders" were among those going back for "another shot" at the enemy in France.

A huge motor transport, guns and other materials were loaded from a nearby jetty while the soldiers scrambled aboard their transports.

En route here, I saw big convoys pouring through the British country lanes on the way to this port for embarkation. There were guns, lorries, bren gun carriers and many other types of equipment, which were quickly loaded here.

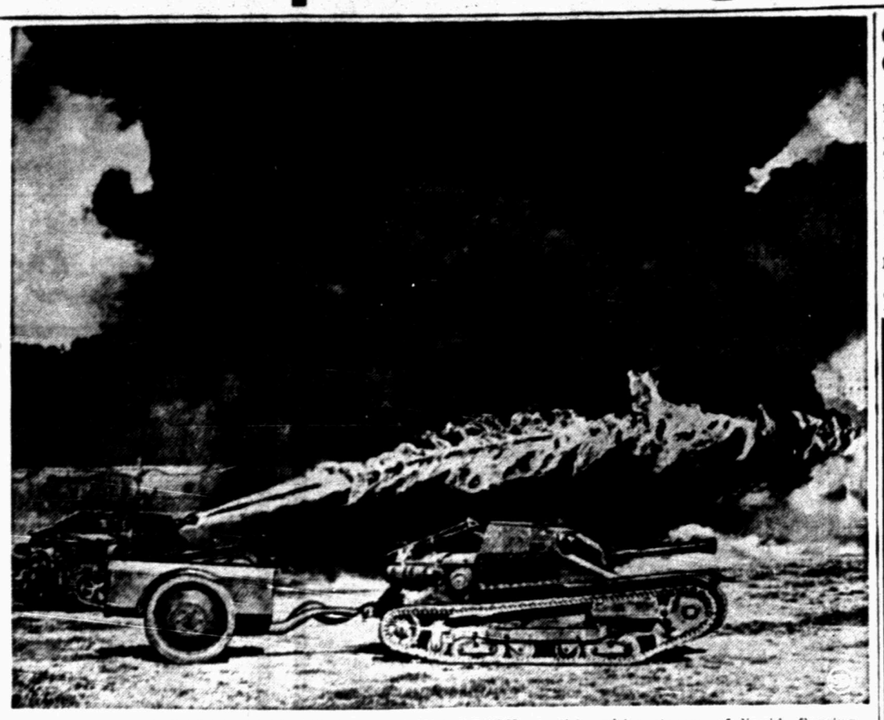

There were ships from half the ports of Britain in this area today, all of them loading men and materials.

The men were eager to get to France and the material appeared good.

One commander told me that it was better material than that of the original B. E. F. which lost its guns in Flanders.

**AGED SMITHY TO HUNT.**

MARION, O. (U.P.)—Nathan Spratt, 89, believed to be the oldest active blacksmith in the country, has announced that his shop will be closed every forenoon and Wednesday afternoon during the hunting season "while I go out and bag a few rabbits and pheasants."

HOW TANKS DISGORGE STREAMS OF FLAMING DEATH—A thin white stream of liquid, flaming death, throwing up a dense pall of black smoke, pours from an Italian tank flamethrower on recent maneuvers. French say Nazis have rushed hundreds of similar flame-throwing tanks, their drivers swathed in asbestos, into Flanders, firing every thind building. Recently Nazi officer hinted that flame-thrower with 2000 deg. C. heat was Hitler's "secret weapon," capable of melting Maginot.

## Uncle Bill Traylor Proving To Be Enigma To Art World

By WALTER DUSTMANN
United Press Staff Correspondent

MONTGOMERY, Ala., June 14 — Uncle Bill Traylor is proving himself an enigma to the art world.

The 86-year-old ebony negro, a former slave who now lives in a nook of a Montgomery undertaking establishment, began painting with crayons on the back of wooden boxes about six months ago—to keep from "sitting around a poolroom all day.

Today his odd, often grotesque pictures have been recognized by art critics as containing an element of genius, something between the cave pictures of prehistoric times and the modernist work of Picasso.

The enigma of the bearded, illiterate old negro is that spontaneously he has acquired a technique that most artists spend years of study to cultivate.

**All Due to Boredom**

His numerous drawings exhibit composition and technique, the arts of perspective and shading—all of which Traylor has never even heard. He just started drawing one day on the back of a box to keep from being bored. He has never even studied other pictures.

Some critics assert that his sprawling flat pictures of chickens and cows and cats and men bear a remarkable resemblance to cave drawings found in South Africa.

Others declare the negro's work resembles that of Pablo Picasso, Spanish modernist and cubist, in that his figures appear carefully planned and arranged with artistic economy in the allotted space.

But Uncle Bill solemnly shakes his head as he pulls on a much-patched corncob pipe. He has never heard of any of this. He just scribbles with his crayons when he feels like it and stops when he doesn't.

**He Observes Closely**

This much he says he does know about art, that one should observe carefully regardless of what one sees.

"I jes' sit on de street an' don' do nuttin'," he explains in his mumbling manner. "I jes' keep on lookin' at things and thinkin', 'Let's see if'n I can make dat look like dat'."

He says he knows something else, too. He says he is "woobly-kneed" and his head is "a-swimming." He says he doesn't know "if'n there's a hebben," but he knows everybody leaves here "quick."

"Here," to Uncle Bill, is mainly the floor space at the mortuary where he spreads his thin pallet among the empty coffins.

But that doesn't feaze him.

"The spirits neber tell ole Bill goodnight . . . or good morning, neither," he explains.

And yet, from the looks of some of his pictures, he must move about in a strange world.

**Proportion Gone Wild**

Some of his pigeons look like nightmares from another world. A bird that looks like a flaming yellow flamingo turns out to be just a common rooster. His men have giant heads and pin-like bodies, or sometimes great bodies and pinheads.

"I paints what I sees," he says, "and that's all there is to it."

Despite the fact his drawings at first glance appear like the scribblings of a 3-year-old child, critics and art students point out that they have marked composition and grace, a grotesqueness which holds the eye, a sense of harmony in motion and a plan of design almost Oriental in its confusing grace.

But Uncle Bill can't be bothered with all these meaningless words and the silly questions "de white folks" ask him. He just goes on serenely painting and smoking and looking and wondering.

## Contract For Base At Corpus Christi Let

WASHINGTON, June 14. (AP)—The navy awarded a $23,381,000 contract today for construction of a new naval air station at Corpus Christi, Texas, to be used to speed the training of air pilots.

The new base will be similar to the existing Pensacola, Fla., base and was undertaken as a part of preparations to more than triple the present rate of training airmen.

The contract was awarded on a cost plus fixed fee basis to three firms as a joint venture [illegible] Brown and Root, Inc., [illegible] as; W. S. Bellows, Hou[illegible] Columbia Inspection co[illegible] land, Calif.

**IT'S THE PRI[illegible]**

SHARPSBURG, N. C[illegible] lection by the court [illegible] cost four times the a[illegible] taxes, but this town is [illegible] to get $8.65, for se[illegible] unpaid taxes on three [illegible] has been entered in [illegible] against the 39 defend[illegible]

## Lucky Lubbock Man On Job Today With Prize Of $1,000

J. T. Fountain was on the job as usual as clerk in Lubbock National bank this morning, but with a telegraphed voucher for $1,000 in his pocket.

It represented an award in a radio program of which he and Mrs. Fountain received notification by long distance telephone at their home, 2812 Twenty-fourth street, Thursday night.

They weren't listening to the particular program at the time their names were announced, and they did not learn of their good fortune until the telephone call came.

Thirty-two out of every 100 Swiss live in cities and towns. In 1850 only six in 100 lived in urban places.

"BEST"
"The motion picture at its best," says Mark Hellinger.
"GREAT"
"A prize-winning play because a great film," says Life Magazine.
"DISTINGUISHED"
"A distinguished version of a brilliant and moving play," says Newsweek Magazine.
"SIGNIFICANT"
"One of the truly significant pictures of our time," says Red Book Magazine.
"IMPERISHABLE"
"It is imperishable as the Stars and Stripes," says the Washington Post.

# Roosevelt Points To Hitler's Broken Pledges To Other Natio

## Says All Help Given Allies

(By The Associated Press)

WASHINGTON, June 14.—President Roosevelt repeated today that all possible help was being extended to the Allies and pointed to Hitler's record in response to a report that the German chancellor had said invasion of the western hemisphere was grotesque.

Mr. Roosevelt was told at a press conference that Hitler had called the possibility of German invasion of the Americas "grotesque" in an interview with a newspaperman.

**Brings Up Recollections**

Asked for comment, the chief executive said he could give none except to say "that it brings up recollections."

He authorized direct quotation.

He added that his remark could be enlarged on with dates and nations, going back over quite a period of years.

Mr. Roosevelt announced two additional steps to bolster the nation's defenses:

The signing of an army appropriation bill carrying about $1,498,000,000 for expansion of army personnel and fighting equipment.

**Committee Is Formed**

The formation of a national defense research committee headed by Dr. Vannevar Bush, head of the Carnegie institution, and of the national advisory committee for areonautics.

The board, the president said, will have seven additional members but their names are not yet ready for announcement.

Army and navy officers will be assigned to it and the organization will look into all research and experimentation which might be helpful in accelerating the huge defense program.

The chief executive was asked whether he believed the United States could "extend its material resources to the Allies in sufficient volume and sufficient speed to save them."

**Has Received No Appeal**

He did not reply directly, asserting it would take two hours to answer the inquiry.

He said, also, he had received no second direct appeal from Premier Paul Reynaud of France for "clouds" of airplanes and further assistance against the German foe.

(Reynaud said in a speech yesterday that he needed "clouds" of airplanes from across the Atlantic.)

If any such request has been forwarded, Mr. Roosevelt asserted, it has not been received.

**May Recast Program**

Authority for recasting the projected fleet expansion program may be sought from Congress, it was reported today, because of the object lessons which have marked the naval phases of Europe's war.

President Roosevelt, a usually well-informed source disclosed, is considering requesting permission to shift legally-fixed tonnage classifications so that a larger number of smaller and lighter warships could be built than was originally contemplated.

**Adjournment Opposed**

This hint of a reappraisal of navy plans gave an added fillip to steadily mounting congressional sentiment against adjournment on June 22.

Anti-adjournment forces used as another argument for staying here the "new and last appeal" which Premier Reynaud of France addressed to the United States last night for help and "clouds of warplanes from across the Atlantic." The White House promptly expressed assurance that "everything is being done that possibly can be done."

Some lawmakers were of the opinion the nation should go to greater lengths and offered new proposals for abandonment of the neutrality act.

On the other hand, a Senate bloc was forming to fight any attempts to supply direct governmental military aid to the Allies. Members of this group made clear they would not resist indirect aid along present lines.

The sinking of two British aircraft carriers with a heavy loss of planes and equipment, naval circles explained, made it probable that the size of future American carriers would figure importantly in any program change.

The navy evidenced anew yesterday its determination to pres sits building program. Contracts were awarded for $9,368,287 worth of machinery for nine submarines and three auxiliaries.

Other events yesterday related to defense included:

Joint Senate-House committee approval of legislation granting Mr. Roosevelt authority to trade in surplus army guns to manufacturers for resale to France or Britain.

The Senate's vote to include a $50,000,000 fund for Allied refugees in the pending relief bill.

## Federal Prisoners Are Lodged In Jail Here

Two federal fugitives, one sought by Oklahoma federal officials and the other by California, were lodged in Lubbock county jail this morning by federal officers, pending being returned. The pair were picked up at Seagraves, it was said.

James Smith Gardner was under $3,000 bond, returnable to Muskogee, Okla., on a charge of violation of the Mann act. Warrant was issued by the eastern district of Oklahoma.

James Oliver Skaggs, wanted in Los Angeles on a murder charge, was under $10,000 bond. It was said he was charged with the murder of Carl A. Johnson. Southern district of California federal authorities were notified and unless bond is made he will probably be sent to Los Angeles, it was said.

**There are more than 3,000,000 miles of roads and highways in the United States.**

**SIX ARMY FLIERS DIE IN CRASH**—This is an air view of the wreckage near Mojave, Calif., of an army bombing plane on Muroc Dry Lake, in which six air corps fliers were killed and a seventh was seriously injured. The plane was on a night bombing mission when it crashed on the Muroc dry lake bombing range. This picture was taken by the U. S. Army air corps.

## Spur Roundup

(Continued from Page One)

ting horses, advertising their annual Cowboy reunion in July. Numerous women were counted in the long line of riders.

**Many Contestants**

Rodeo contestants numbered 96, and the 80 pretty sponsors from various towns included 50 from Spur alone.

Fifteen-year-old Bobbie Lou Watters, named "Miss Spur," attracted all eyes when she marched with Miss Jean Golihar of Spur, hostess to out of town sponsors.

T. E. Milam, chairman, O. B. Ratliff, assistant chairman, L. T. Burton and Charley Fox, members of the committee in charge of the rodeo-roundup, expressed pleasure at the smoothness of the program and at the size of the crowd.

**Speaking On Program**

They said this afternoon would be highlighted by political speaking and band music.

The second rodeo performance will be at 8 o'clock tonight and two such programs are slated for Saturday, the first at 2 o'clock in the afternoon, the other at 8 o'clock at night.

Stock gathered for the rodeo was described as "the roughest, toughest bunch of hammerheads and the wildest animals in general that had been rounded up for any similar program here."

Highlighting Thursday's activity was a talk in the afternoon by Lieut. Gov. Coke Stevenson. He also spoke at the Rotary luncheon at noon, after his introduction by Dr. Clifford B. Jones, former Spur resident and now president of Texas Technological college in Lubbock.

Ross Hardin, candidate for the Texas Railroad commission, also spoke.

A feature of the entire celebration will be the sponsor's contest, won last year by Sydna Yokley of Canadian. Miss Yokley was winner last night of the girls calf roping contest.

A colorful grand entry, headed by Rudolph Swenson, manager of Pitchfork Land and Cattle company here and rodeo arena director, opened the rodeo Thursday. United States and Texas flags and a banner of the rodeo association were borne in the grand entry.

**Winners Are Named**

Winners were:

Wild mare riding—Jacko Hester of Brownwood, first; Odell Bitsell of Fort Worth, second; Joe Bloodworth of Sweetwater, third.

Calf roping—Bill Breen of Tucumcari, N. M., first; Lester Durham of Floydada, second; Herman Davis of Guthrie, third. Winning time, 23.2 seconds.

Wild cow milking—Nig Reid of Silverton, first; Zelma Herrington of Ranger, second; Plez Hart of Jayton, third. Winning time, 17 seconds.

Bulldogging—Eugene Cavender of San Angelo, first; Jonas DeArman of Decatur, second; Plez Hart, third. Winning time, 25 seconds.

Oldtimers roping, Simpson Johnson of Guin, only entry, had time of 47.8 seconds.

Girls calf roping—Miss Yokley, first; Miss Mary Ellen Barton of Matador, second. Winning time, 47.4 seconds.

Steer riding—Harry Weatherford of El Paso, first; Carrol Johnson of Albany, second.

## Lubbock Delegation Visits Spur Today

Twenty passengers were aboard the bus which transported Lubbock's good will delegation to the Spur rodeo and roundup celebration this morning, according to information given at the chamber of commerce.

Those aboard were Ray Farmer, chairman, and Charles Mosley, Russell Morrison, Billy Watson, Hugh Anderson, C. A. Gammill, Joe B. King, S. Sullivan, George Dale, L. E. Grimes, C. R. Keasey, Hugh Dunlap, Glenn McDonald, Billy Pitts, B. R. Powell, George Zarafonetis, Ralph Gossett, C. W. Tinney, Frank Fite and M. D. Fanning.

Announcement also was made at the chamber of commerce that a bus with Lubbock's delegation to the Seminole celebration Saturday will leave the city hall at 9:30 a. m. It will leave Seminole on the return at 6 p. m. Earl Collins will be chairman of the Seminole delegation.

**Western Texas once had a prairie dog town 100 miles wide and 250 miles long.**

## News Briefs

**Woman Treated**—Mrs. C. W. Harbert, about 25, of Dumas, en route with family members to Leuders, her old home, for a rest period, fainted at Camp Acuff, in Lubbock, this morning and was taken by Rix ambulance to Stewart & Benson clinic for treatment. After an hour she was able to continue her trip, said doctors. She had been in ill health and under treatment recently in Amarillo.

**Mrs. Leidigh Improving** — West Texas hospital reported this afternoon that Mrs. A. H. Leidigh, wife of the agricultural dean of Texas Technological college, continued to make satisfactory improvement today. She was in the hospital for treatment of a fractured hip. The hip was broken a third time when she fell in her garden several days ago.

**Rain At Acuff**—Acuff territory Thursday afternoon received a good rain said T. L. Holt of Idalou, county commissioner. Ben Mansker of Slaton, said the Southland territory also had a good rain, estimated at half an inch.

**Four At Board Meet**—Four nonresident property owners had appeared this morning before the county board of equalization to discuss tax valuations, board members said. Thursday approximately 40 residents appeared before the board. Today is the last day for hearing opposition to valuations.

**Case Going To Jury**—Jury that has been hearing testimony in the case of Ada Hood against Inez H. Hood and others in 72nd district court, was expected to receive the case for consideration late today. Testimony was to be finished by early afternoon and arguments of counsel were to be heard. Judge Daniel A. Blair is presiding.

**Burglary At Park**—A candy vending machine at a concession stand in Mackenzie state park, operated by Mrs. J. H. Weatherford, was taken, police were advised this morning. Aubrey Fawver investigated. Amount of money in the machine at the time it was taken was believed small.

**Pleads Guilty, Fined**—James R. Allison, charged in county court with liquor law violations, entered a plea of guilty before Judge J. J. Dillard this morning when arraigned and was fined costs and given a day in county jail.

**Club Talks Plans**—Plans for sending a delegation to Enid, Okla., Sunday to represent the Lubbock American Business club in supporting J. A. Fortenberry for president of the national group, were discussed today at a club luncheon in Hilton hotel. Bob Gee, president, was in charge.

**Girl Still Critical**—A telephone call early this afternoon from Dr. C. E. Hereford, pastor of the First Baptist church, from Seymour said Lottie Margaret Atkinson, 14, daughter of Mr. and Mrs. G. N. Atkinson of Lubbock, remained unconscious and in critical condition but that there were signs of her beginning to approach consciousness. The girl was injured near Seymour Monday when the automobile driven by Mrs. Hereford and in which the girl was an occupant was struck by a truck. The call was made to Miss Lois Henson, church secretary, in Lubbock. Miss Henson said Dr. Hereford would return to Lubbock Saturday.

**RAM To Elect** — Chapter 248, RAM, will conduct a stated meeting at 7:30 o'clock tonight, said Hugh J. McClellan, secretary. Officers will be elected for the succeeding year.

**FRENCH MIGHT ATTACK**

LONDON, June 14 (U.P.)—Paris will cease to become an open city "if the German pack it with troops," an authorized military source warned today, in implication that the French themselves might attack it if opporunity offered.

**MINIATURE CHOO-CHOO**

SAN FRANCISCO, (AP) — A miniature railroad, 1,500 feet long, was recently completed by the San Francisco Model Railroad club after two years' effort. The system is 1-48th standard railroad size, and required 30,000 miniature ties and 120,000 spikes.

## "Long War"

(Continued From Page One)

German hands, these sources said, and the same is true of many factories producing war material.

But, they added, fortunately for the Allies, most of the French factories producing ammunition are in the south.

The government is not so much concerned momentarily about the United States' production capacity as about the material there already manufactured, they said.

**Have Few Field Guns**

For instance, they explained, the British expeditionary force's loss of a thousand field guns in the withdrawal from the Flanders trap has left few in this country for the enormous army which must be put into the field.

The situation with regard to rifles is not so acute, they said, but they warned that the demands of the local defense volunteers—the home guard against possible German invasion—have taken a large part of the supply.

While she will take all that America can send, and urges the cutting of red tape, these sources said Britain's own stepped-up production has vastly expanded her purchase of machine tools from the United States and that she would continue to take such tools up to the United States' capacity to send them.

**To Put Army In Field**

The policy is to put into the field at once the biggest army possible—briefly: a maximum of soldiers in a minimum of time—they said, but the Allies must look across the Atlantic for a large part of the equipment.

They expressed belief that it was the United States' duty to herself to do the best she can in the hope her aid will turn the balance for democracy.

Primarily what Britain wants from the United States, these sources said, are the weapons that country manufactured at the close of the last war to replace those she obtained from the Allies.

Urgent need was mentioned also for certain explosives and parts for the manufacture of tanks, tractors, machines and shells.

## Draft Plan

(Continued From Page One)

shuffle the registration cards haphazard and give them serial numbers according to the accidental sequence resulting.

**Would Draw Numbers**

At national headquarters, as many numbers as there were persons registered in the largest precinct would be placed in a huge goldfish bowl—if the former method were followed exactly—and these would be drawn out blindly.

The order in which the numbers came out of the bowl would determine the order of the registrants' liability for selection.

Within a few days each registrant would receive a questionnaire, which would give the local board a basis for putting him in one of these classes:

1. Available for service immediately.

2. Deferred because of the importance to the nation of the services being performed in civilian life.

3. Deferred because of dependents.

4. Deferred by law or because of insanity, physical unfitness or alienage.

When required to draft a certain number of men, national headquarters would issue a "general call" on each state for a quota proportionate to its class 1 strength.

## Carter Will Attend State VFW Session

Tom Carter, state senior vice commander of Veterans of Foreign Wars, plans to leave Saturday for Galveston to attend the annual state encampment of the order which will start Sunday night and continue through Wednesday.

A boom in his behalf to elect him state commander of the organization is making much headway, according to word received by VFW members here.

Mrs. Carter and his brother, R. W. Carter, and little daughter, Patsy Ruth, of Brownfield, will accompany him. They will go to New Orleans and into the Carolinas on a vacation trip before their return.

## Daily Markets

### Lubbock Market

The prices are furnished by the following Lubbock firms: Poultry—Lubbock Poultry and Egg company, delivered Lubbock. Grain—S. E. Lone Grain and Seed company. Following prices being bid by Lubbock grain dealers. Cotton—Carloch and Carloch. All prices subject to change during day.

### Stock Market

BULLISH NEWS SEEN

NEW YORK, June 14 (AP) — The stock market turned on bullish heat today as an optimistic brand of home business prospects more than counteracted gloomier war news.

Steels led the rebound after a hesitant opening. Gains ran to 8 points or so for favorites. There were occasional letdowns on profit taking and top marks were shaded at the close in many cases.

Bidding was fast enough in the forenoon to put the ticker behind briefly. Transfers were around 1,000,000 shares.

The fall of Paris to the Nazis failed to shock Wall Street to any great extent.

The main sustaining factor still was the huge rearmament program and signs of heavier foreign buying in the United States.

Stimulating was word from London that, due to the plight of France, the British would go "all out" to push the offensive and would release funds allocated for future years for the immediate acquisition in America of anything that could convey or fire explosives.

Prominent stocks in the push included U. S. Steel, Bethlehem, Chrysler, General Motors, Westinghouse, Dupont, Allied Chemical, Loft, Great Northern, Pressed Steel Car, Douglas Aircraft, Montgomery Ward, Anaconda, Texas Corp. and J. C. Penney.

### Grain Market

CHICAGO REPORT

CHICAGO, June 14 (AP) — Wheat prices scored gains of as much as 2⅞ cents and corn rose 3⅝ cents today as brisk buying developed in the trading pits here.

Expanded market operations, resulting partly from removal of the minimum levels, were witnessed.

Wheat closed 1-1⅞ cents higher than yesterday, July 79½, September 80-80⅛; corn unchanged to 2⅜ higher, July 61¾, September 60⅞-¾; oats ⅜-1⅛ lower; soy beans 5-8 lower and rye ⅜-1⅛ lower.

FORT WORTH REPORT

FORT WORTH, June 14 (AP) — Wheat—No. 1 soft red winter nom 85½-86½; No. 1 hard according to protein and billing 84½-85½.

Barley—No. 2 nom 47-48.

Sorghums—No. 2 yellow milo per 100 lbs. nom 1.53-1.55.

Corn, shelled — No. 2 white nom 88¾-89¼.

Oats—No. 2 red 35-37.

### Livestock Market

FORT WORTH REPORT

FORT WORTH, June 14 (AP)—(USDA)—Cattle salable and total 1,100; calves salable 600; total 700; market early clearance of all classes at steady prices; practically no mature steers on offer; two loads choice steer yearlings 10.00 and 10.10; few other sales above 8.50; common and medium lots 5.00-8.25; cows 4.25-6.25; canners and cutters 2.75-4.00; odd head bulls 4.50-5.75; good and choice slaughter calves 8.00-9.25; common and medium 5.75-7.50; and bulls down to 4.50; few stock steer calves up to 11.00.

Hogs salable 600; total 900; fully 5c higher than Thursday's average; top 5.50 paid for most of the good and choice 175-225 lb weights; these making up the bulk of the run; heavier weights scarce; 150-170 lbs 5.00-5.40; most 120-140 lbs 4.00-4.75; light stocker pigs 3.50 down; packing sows 4.00-4.50.

Sheep salable 4,000; total 4,300; generally steady; spring lambs 8.00-9.00; few shorn yearlings 6.00-6.50; 2-year-old wethers 4.50 down; aged wethers 3.00-3.50; ewes 2.75 down; spring feeder lambs around 6.00, and older feeder lambs 5.00.

KANSAS CITY REPORT

KANSAS CITY, June 14 (AP) —(USDA)— Hogs salable 1,200; bulk good and choice 180-270 lbs. 4.90-5.10.

Cattle salable 200; calves 100; no beef steers, yearlings or heifers of consequence offered; odd beef cows up to 7.00; few choice vealers up to 10.00.

Sheep salable, 1,000; top native springers 10.75; other good to choice lots 10.00-50.

### Cotton Market

NEW YORK REPORT

NEW YORK, June 14 (AP) — Cotton futures rallied sharply today after a lower opening and futures closed 16-19 higher. Did contract:

| | Open | High | Low | Last | |
|---|---|---|---|---|---|
| July | 9.91 | 10.22 | 9.91 | 10.15 | up 17 |
| New contract: | | | | | |
| July | 10.20 | 10.45 | 10.20 | 10.40N | up 18 |
| Oct. | 9.02 | 9.35 | 9.02 | 9.20-30 | up 19 |
| Dec. | 8.90 | 9.24 | 8.90 | 9.16-17 | up 18 |
| Jan. | 9.10 | 9.10 | 9.10 | 9.06N | up 16 |
| March | 8.89 | 9.01 | 8.89 | 8.93N | up 16 |
| May | 8.53 | 8.87 | 8.53 | 8.78 | up 17 |

Middling spot (⅞-inch) 11.01N, up 15.
N—Nominal.

NEW ORLEANS REPORT

NEW ORLEANS, June 14 (AP) — Cotton futures closed steady 14 to 23 points net higher.

| | Open | High | Low | Close | |
|---|---|---|---|---|---|
| July | 10.03 | 10.33 | 10.03 | 10.25-26 | up 14 |
| July (new) | 10.24B | | | 10.46B | |
| Oct. | 9.08 | 9.41 | 9.08 | 9.34 | up 23 |

## Germans Take Paris Today

(Continued From Page One)

the French worked at removal of officials and press services from Tours throughout the day. Tours, which has been one of the seats of government, is about 120 miles southeast of Paris.

By nightfall almost all persons connected with the government and the press had left. (Here one line was censored.)

**Line Is Threatened**

The German drive deep into France between Paris and the Maginot line threatened the fortified line from the rear. It was said that the great fortifications were fast being "turned" from Montmedy, their northern anchor.

(This would indicate a grave threat to the 1,000,000-odd French troops defending the line.)

If the fight goes on, the Loire river line running through Tours and Orleans would be the next really strong natural barrier behind which the French could defend themselves.

(EDITOR'S NOTE: This dispatch was heavily censored. The phrase "if the fight goes on" was considered extremely significant. There was the possibility the French armies were retreating even faster than their high command acknowledged).

(The Loire river is 65 miles south of Paris at its nearest point, Orleans).

**Tours Being Evacuated**

Tours, established only Monday as a temporary capital after the government left Paris, itself was being evacuated today.

Once in a while a French reconnaissance plane circled low over the city as though on guard.

By mid-morning the interminable string of refugee cars that for days had passed through Tours from the north had joined the growing caravan from Tours itself.

Where the French cabinet would meet again was not disclosed.

Any new emergency capital (here seven words censored).

The invaders' encircling ring around Paris was nearly two-thirds completed with new German thrusts southward on both sides of the city. (Here seven lines censored).

**Wedges Behind Line**

German armored units in the past 24 hours penetrated at least to Saint Dizier, on the Paris-Nancy road 125 miles east of the capital and slightly south, and to Romilly, on the Paris-Dijon road about 65 miles southeast of Paris.

(This would put two deep German wedges behind the Maginot line).

Although the high command acknowledged these sweeping German gains, it insisted that the French army retreat was continuing "in the greatest order."

It was a black hour for France. Premier Paul Reynaud in a radio address last night had said the French were "losing" the battle, and he turned frankly to the United States for help to rescue France from defeat.

**Clouds Of Warplanes**

In particular, he asked for "clouds of warplanes" from the United States now.

The Germans were reported (here six words censored) to have entered Paris by the Aubervilliers gate, at the northeastern border of the capital on the road from Le Bourget airfield and Senlis. The Germans, with huge forces massed, had been fighting hard at Senlis for several days.

The high command, in announcing withdrawal from Paris said "the French high command, in renouncing direct defense of the capital, which now is an open city, wishes to save it from the devastation that would result from such defense."

**Leaving For Bordeaux**

(Although there was no immediate announcement to what locality the government might be moved from Tours, the Associated Press staff prepared to leave Tours for Bordeaux today.)

The issue was put bluntly last night by Premier Paul Reynaud, who urged "the great American people" to "declare themselves against Nazi Germany."

It is time for all democracies to repay their "debt" to France, he said in a radio address to America and the world.

Assistance "permitted by American law," previously asked and previously given, is not now enough, Reynaud intimated.

"Today," he said, "we are at a more advanced point. Today the life of France is at stake — at least France's essence of life.

**Each Day More Painful**

"Our fight, each day more painful, has no further sense if in continuing we do not see even far way the hope of a common victory growing . . .

"It is necessary that clouds of warplanes from across the Atlantic come to crush the evil force which dominates Europe.

"Despite our reverses, the power of the democracies remains immense. We have the right to hope that the day is coming when all that power will be placed in force. That is why we maintain hope in our hearts."

The French army always has been "the vanguard of the army of the democracies," said Reynaud.

"The world," he said, "must know of the sufferings of France. The world must know what they owe her. The hour has come for them to pay their debt. . . .

**Right To Claim Help**

"France, wounded, has the right to turn to other democracies and to say: 'We have claims on you.'

"None of these with a sense of justice can deny this. But it is one thing to approve and another thing to act.

"We know what a high place ideals hold in the life of the great American people. Will they hesitate still to declare themselves against Nazi Germany?"

Reynaud disclosed that last night he had sent "a new and last appeal" to President Roosevelt along these lines.

## Defense Group

(Continued from Page One)

Congress for national defense are likely to mean tremendous business expansion, and perhaps a boom which will be at least temporary. They agreed that Lubbock should attempt to take fullest possible advantage of the opportunities which thus will be offered.

Indicative of the trend of the discussions was a paragraph from one report which read:

"Whether we like it or not, the United States is at war, lacking only two things—the formal declaration of war and the sending of soldiers to Europe. There are level-headed men just returned from Washington who believe war will be declared within 90 days. They report that Washington is in an utter state of chaos—that President Roosevelt is the only man with a definite program, and that his program is to get into war on the side of the Allies just as soon as public sentiment will allow."

**Billions To Be Required**

Another report read:

"Many well-informed Washington authorities believe 10 billions of dollars will be appropriated before the end of two years." (More than five billions already have been appropriated).

Another paragraph follows:

"Texas is going to see the greatest era of military training in the immediate future, at least for aviation, that the world ever has seen. Lots of money is going to be appropriated and spent for airports. Lubbock must improve her municipal airport if we are not to be left out of the picture forever—and now is the time to get federal aid for the airport."

**Surveys Are Started**

Officials of the chamber revealed that surveys already have been started here of wholesalers and manufacturers regarding their "capacity, what they sell and manufacture, what they have in the way of machinery and other pertinent information to be filed with the secretary of war."

A report to the directors continued:

"There is a bill now pending to appropriate 10 million dollars for the exploitation of the natural resources of this country and we (the chamber of commerce) have asked Texas Tech to advise us as to the natural resources of this section, particularly as to any that have heretofore been obtained from foreign countries.

"Another angle is that in many Texas communities during the past two or three weeks, mass meetings and other demonstrations of lack of coordinated sound thinking have been held. Without question, we do have a fifth column movement in this country—right here in Lubbock. While 'Witnesses of Jehovah,' as a rule, are well meaning people in our local communities, there is absolute proof that lots and lots of money is being spent to cause them to put on their demonstrations in an effort to disintegrate the nation."

## Youth Is Killed

(Continued from Page One)

a crash."

Young Renner echoed the words of his father. He said he, too, saw the entire happening.

A later hospital report said the force of the impact was evidenced by the fact that the brains were oozing out of the fissure in the skull.

"Young Hatcher did not breathe after he was admitted to the hospital," said one official.

Hatcher, whose father is an operator for Lindsey Theaters, Inc., was a student of Texas Technological college, where he was listed as a sophomore in the department of arts and sciences.

He was a helper this summer in the plant of Bell Ice Cream company.

Firemen of Nineteenth street station, just south and east of the mishap, rushed across the street to render what help they could.

Law enforcement officials, getting notice over radio, rushed to the scene and patrolled it to avoid further mishaps among the heavy stream of vehicles and numerous persons who gathered quickly and threatened to clog the street.

Mrs. Hatcher, prostrate with grief, was under care of a physician at 2 o'clock, doctors said.

## U. S. Envoy

(Continued from Page One)

**dead and wounded.**

On the following day, the newspaper Berliner Nachtausgabe said that he put himself close to a legitimate target when he had lunch with the French air minister on the balcony of a "very special military airfield."

The paper objected to what it said were stories circulated in New York and Washington that United States ambassadors are the main targets of German bombing raids.

## Plantation Singers Appear Last Night

The Deep River Plantation Singers entertained an audience of approximately 600 people Thursday night at the first of nine programs comprising the summer artist series at the college.

The negro quartet presented a versatile program of spirituals and modern numbers built around the plantation theme. Humor keynoted many of their selections.

Pleasing tonal effects of the singers was commended by the audience. The opening series of numbers was given in costumes.

The program was presented on the south lawn of the administration building. Next entertainment of the series will be given next Thursday night.

**MOVES TO LUBBOCK**

**HEMPHILL REELECTED**

LITTLEFIELD.—Floyd Hemphill, superintendent of schools for several years, was reelected for a two year term. The board also voted to have buildings repaired this summer.

Greek flyers use U. S. parachutes.

More than 1,225,000 federal duck stamps, which hunters must buy, were sold in 1939.

## Texans Roar Approval Of Aid To The Allies

DALLAS, June 14 (AP)—A crowd estimated at 15,000 roared its approval here last night of giving all aid possible to the Allies in their battle against the totalitarian nations.

It was stipulated that this be short of men but the throng also voiced its approval when Will R. Harris, in presenting the resolutions, declared:

"Give England and France planes, guns and all the supplies we can, and if that leads to war, we will meet that issue when it comes. I hope the heroic sons of England and France hear of these resolutions on the bloody fields of battle."

## O'Daniel Dodges Reply To Thompson Query

AUSTIN, June 14. (U.P.)—Gov. W. Lee O'Daniel today professed ignorance of Col. Ernest O. Thompson's query about what the governor was doing during the last World war.

"I haven't opened my morning mail."

When informed the query was made in Thompson's radio broadcasts, the governor said he had not heard them.

"I have work to do. I am too busy for politics now," Governor O'Daniel said.

Almost a third of the revenue of state governments comes from motorists as gasoline taxes and license fees.

# Market Values Reveal Slump

(By The Associated Press)

CHICAGO, June 14—Collapse of the war boom in farm commodities has thrown the American farmers' economic status back almost to the pre-war basis of last summer, analysis of market statistics showed today.

Prices of principal products the farmer has to sell average only slightly higher than they did a year ago, although they are somewhat higher in most cases than just prior to the start of Europe's hostilities nine and one-half months ago.

**Market Values Sink**

Calculations of some farmers based on the war boom level of prices have been upset. Market values of principal commodities have shrunk 15 to as much as 44 per cent from the peaks established since the conflict broke out and much of this loss, particularly in grains, has occurred in the past month since the German drive on western Europe began.

Compared with prices last August 31, the day before war started, wheat is about 15 per cent higher, corn 34 per cent up, oats 14 per cent up, rye 5 per cent up, butter 8 per cent up, cattle 16 per cent higher and cotton 20 per cent higher. Only hogs and eggs are lower. These calculations were based on closing prices in markets yesterday.

Compared with a year ago wheat is 7 per cent higher, corn 20 per cent up, oats 3 per cent lower, rye 12 per cent down, eggs unchanged, butter 8 per cent higher, cattle and cotton slightly higher and hogs 22 per cent lower.

Thus, market statisticians pointed out, farmers' prospects for material betterment of prices as a result of war have evaporated, at least for the time being, although producers' income may be expected to hold up fairly well compared with that of a year ago. Farm income, including government payments for the first four months of this year was 12 per cent greater than in the corresponding 1939 period but since then there has been a sharp decline in prices of some commodities.

**RELUCTANT REFUGEE**—Socialite Vincent Astor chats with his mother, Lady Ribblesdale, after her arrival in New York with over 700 other refugees aboard the rescue ship President Roosevelt. He declared he had to send her 10 cablegrams to persuade her to leave Europe. It was her first visit to her native land in many years.

## Delegation Plans To Attend Meet

Six Lubbock persons have indicated they would attend the annual Walther league convention of the Texas district of the Lutheran church, convening Sunday for two days in Austin.

Rev. W. G. Loesel, pastor of Redeemer Lutheran church in Lubbock, said Rev. O. P. Kretzmann of Chicago, president of the International Walther league, which has a membership of 75,000 Lutheran young people, wil be the featured speaker at the convention, which will be designed to formulate policies for the Lone Star district of the league. The annual talent quest, in which awards will be given for oratory, poetry, reading and athletic events, will be another highlight.

A general union at 8 o'clock Sunday night in Hogg Memorial auditorium on the university campus will attract more than 200 singers.

From Lubbock will go Mr. Loesel, Mr. and Mrs. Henry Stieben, Marvin Mickan, Anita Kunkel and Virginia Klein.

**FOOT IS CRUSHED**

MULESHOE—While working on a tractor on his place Robert Kelum received a crushed foot when it was caught in the power lift. He was given emergency treatment here and then sent to a Clovis, N. M., hospital.

# Pampa Oilers Jump Into League Lead; Hubbers Trounce Clovis Crew, 1

## Amarillo Gold Sox Tumbled Into Second

As though suddenly revived by a shot of adrenalin, the once lackadaisical West Texas-New Mexico loop apparently is tossing off any threats of a cut and dried campaign.

Reverberations emitting from explosions in the lower first and second divisions the past few days have brought and are bringing drastic changes into the picture.

**Hubbers Set Record**

Biggest, and for the rest of the circuit the brightest, change in the race was Amarillo's third straight setback Thursday night which sent the Gold Sox tumbling into second slot for the first time since the season really got under way. By virtue of a triumph in Big Spring, where rumblings of a swap in franchise sites for the Barons continue to be heard, Pampa's rollicking Oilers vaulted into the lead by a single game's margin.

Another shining example—especially for Lubbock enthusiasts—of the league "snapping out of its doldrums" has been the Hubbers' surprise showings of the past four nights. As a result, a new record of four straight has been hung up by the remarkably improved charges of Manager Charlie Engle.

**Seek Fifth-In-Row**

And tonight the White Sox farm hands go out to their home on College and Second to attempt to stretch their streak to five-in-a-row. The "three" jinx was snapped last night as the Hubs enjoyed a cross country road trip around the bases for a 16 to 0 shutout over the hapless Pioneers.

It will be big Pat Ralsh, the crafty righthander who inaugurated the current winning streak when he set the Barons down in Howard county on a brilliant five-hitter Monday night, who starts on the mound against Shirley. The first ball is scheduled to be tossed at 8:30 o'clock.

Over the rest of the circuit the schedule remains the same, second contests of the current three-game stands.

**Loboes Triumph Easily**

Other than Lubbock's easy triumph over the New Mexico nine was Lamesa's 17 to 7 shellacking over Manager Claud Jonnard's machine. Peavine Trantham was blasted from the hill in the initial stanza by a seven-run barrage, Edgar Lynn, who finished the fray, faring little better. Four home runs added materially to Loboes' cause, the extra base clouts being collected by Malcolm Stevens, Eddie Guynes, Beeler and Patterson. Stevens, who has been hitting everything in sight recently, led the hitters with three singles and his homer, accounting for eight Lobo tallies.

A feature attraction was reeled off at Midland, also, Borger shoving across four runs in the tenth to nudge the Waddies, 8 to 4. Ben Franklin hurled scattered seven-hit ball for the winners, Red Hay and Brown suffering a 12-hit bombardment from the Gassers.

**Mahan Is "Hot"**

At Big Spring, the Pampa club lost no chance of hopping into Amarillo's first place slot by taking the Barons for an 8 to 6 cleaning. Dutch Prather, Oiler first sacker, sending in two mates with an eighth inning homer that won the ball game.

To Elvin Mahan, the young shortstop sensation, who has been setting the park on fire the past few days with his spectacular hitting pace in direct contrast to early season nervousness, and to big Eugene Stack, who tossed himself a fine six-hitter, belong much of the credit for last night's parade of counters over the Pioneers.

**Stack Plenty Impressive**

The Hubbers batted around and once over in the first frame to gain a quick six-run advantage. Niedziela homered in the eighth to highlight his performance. Mahan connected for four of five trips to the place, a triple, double and two singles accounting for four runs batted in, his ninth in two nights.

Added to Stack's performance was that of striking out 11 men and never getting off stride throughout the game.

## Sports Roundup

By EDDIE BRIETZ
Associated Press Staff Writer

NEW YORK, June 14—Extra! Don't fall off your chair if Whizzer White, the football star, bobs up in a N. Y. Giant uniform next fall. "The Whiz" doesn't want to play in Pittsburgh and Owner Art Rooney has told the Giants to go ahead and try to sign him. . . . Billy Southworth sure got a cheerful welcome to St. Louis Day he was named manager. Pepper Martin wired him: "Morale of club at lowest ebb in history."

**When more and better runs are batted in leave it a chap named Sanders with Columbus Cats in the Sally league. So far he's knocked in 74 in 50 games . . . Here's another of the golfing Bergs heard from. Herman (Patty's kid brother) came up with the only double eagle ever scored by an amateur in the Minneapolis district.**

**Today's Guest Star**

Halsey Hall, Minneapolis Star-Journal: "Oscar Vitt has cut down hitting practice for the Indians from 40 to 30 minutes . . . When Mr. Feller pitches, the other teams cut it out altogether."

**Hype Igoe, celebrated fight critic of the N. Y. Journal-American, says Joe Louis is not within 30 per cent of the bomber who belted out Max Baer and sent Max Schmeling to the hospital.**

**Agony Column**

If the person who stole the golf clubs of Frankie Strafaci, ex-publinx champ, will only return the mashie niblick, he can keep the rest of the clubs and no questions asked.

**Memory Lane**

It was just two years ago this month that Johnny Vander Meer hung up a new baseball record by pitching two consecutive no-hit games.

## Texas League Proves Healing Fountain For Major Hurlers

By HAROLD V. RATLIFF
Associated Press Sports Writer

DALLAS, June 14—There's a healing fountain down here in the Texas league but it's only a trickle and it's man-made.

It's the perspiration that ball players shed when they pitch away sore arms received in the majors.

Two of the big league's greatest hurlers found new life and hope after a season and another is trying to regain the glory he once knew with work in the even Texas climate.

**Rowe Makes Comeback**

Schoolboy Rowe was sent to Beaumont two seasons ago in an effort to cure an ailing arm. Rowe is now helping pitch the Detroit Tigers into pennant consideration.

At the same time came Paul Dafve Dean, who had won everlasting glory as a member of the team of "me 'n Paul" in which Dizzy and Daffy Dean hurled the Cardinals to world series heights.

Daffy also had a sore arm and his effectiveness was nil when the Cardinals sent him to Houston of the Texas league. Houston gave up on him and let him go to Dallas where he started to click again. Then back to the Cardinals he went last season. However, he spent the last half with Columbus and the Giants drafted him.

He pitched a four-hitter the other day against Chicago.

**Now Dizzy Is Back**

Now Dizzy is trying to cure a sore arm while hurling for Tulsa.

But the Texas league hasn't just recently discovered this healing fountain says J. Alvin Gardner, loop president, who recalls many whose effectiveness returned through a sojourn in this section.

He cited Hal Carlson as an early example. Hal wasn't doing any good with Pittsburgh in 1923 and they sent him to Wichita Falls, owned by Gardner at the time. Carlson didn't get there until mid-season yet he won some 20 games before the race was over and went back to star in the majors.

"The climate here is one of the things that's good for what ails a man in the prime of baseball life and yet unable to win in the majors," Gardner commented. "It's warm and the temperature is even. The pitcher with a sore arm finds his muscles getting supple and that there is no strain. So he unlimbers that arm and cuts loose. He finds that he can eventuallly throw anything he likes as hard as he likes and there'll be no new kinks in his arm caused by atmospheric change.

"Almost as important is his mental attitude. The pitcher believes there's no danger of hurting himself by cutting loose so he lets go and works out his trouble. Often times he might have let go before but didn't have the confidence until he got into the Texas league where the climate is hailed as the leading tonic for sore arms."

## Plenty Of Hot Excitement Is Said In Store

BY JUDSON BAILEY
Associated Press Sports Writer

The baseball spotlight will be focussed this weekend on the four-game collision of the Cincinnati Reds and Brooklyn Dodgers at Ebbetts field, Brooklyn in the hope the violent struggle will indicate the eventual National league champion.

The teams are virtually deadlocked for the lead.

The ball park seating approximately 35,000 persons has been sold out for today, tomorrow and Sunday.

**Flatbush Is Confident**

Ardent Flatbush fans believe that the reinforcement by outfielder Joe Medwick and pitcher Curt Davis will enable Brooklyn to crush all other contenders.

Medwick was to take his place in the Dodger lineup today at left field, batting cleanup. Manager Leo Durocher had Tex Carleton, the no-hit Nemesis of the Reds, groomed for the first pitching assignment against the champions. Bill McKechnie countered with Gene Thompson, the young righthander who has won eight games this spring.

The Cleveland Indians and Detroit Tigers staged a red-hot interlude yesterday while the other clubs were traveling and the Indians eventually triumphed 3-2 in ten innings.

The victory lifted the Tribe back into second place.

## Three Contests Are On Docket In City

Play in the Business-Professional twilight softball circuit for this week will be concluded this afternoon with a trio of contests on the docket.

With top division races tightening, interest in the loop is increasing daily and a runaway—thought to be a cinch for the Tech Faculty—doesn't seem so much of a possibility after all.

This afternoon's schedule follows: American division—Field No. 1, Federals vs. Doctors. Field No. 2, Courthouse vs. Christians; National division—Field No. 3, Union Carpenters vs. Public School Faculty.

**Baptists Stop Faculty**

Referring to the Tech Faculty dominance in the American division, the Baptists struck another blow at the collegians' hopes Thursday afternoon by taking a hotly contested 13 to 12 decision. L. H. Barley tossed for the winners, John Haygood catching. For the losers, Leach pitched, Hazelwood catching. No home runs marked the tilt.

In the other junior division tussle, Horn Bible class rolled over the Lawyers, 23 to 7. Bob Cooper pitching, W. Sasser and Watson Wilson catching for the winners; Bert Collard and Ralph Brock dividing duties on the mound and behind the plate for the losers. For Horn, Alex Hensley and Amerald Payne each homered with men aboard; for the Lawyers, Brock and Collard collected four baggers.

National division play also was marked by high scores, the Lions romping to a quick lead and 12 to 7 triumph over the Jaycees. Hop Toles and R. B. McAlister made up the winning battery, Tom Murphey and Arlie Crites working for the losers. Johnson collected a homer for the Jaycees, Toles and Clark Wood retaliating for the Lions.

The Asbury crew finished off A. B. C. on a high note, 20 to 10. Bill Martin, Ted Vernon and Frank French worked for the winners; Crawford hurling for the losers. The defensive play of Edleman, Foy and Singley for Asbury was a highlight.

**JOB FOR EVERY HOUR IN DAY**

SACRAMENTO, Calif. (U.P.)—Every day has 24 hours and 24 jobs in it for F. W. Mosher, jr., editor of the Corning Daily Observer. The surprising number of jobs held by Mosher developed when he accepted his 24th "job on the side" as deputy county coroner in Tehama county.

In the 38-years reign of Henry VIII of England, 72,000 criminals were executed.

## Twin Feature Is Scheduled For Tonight

Lubbock's fast moving and rapidly improving softball forces take over again at Fox Park tonight as the city campaign swings out with a twin feature to enliven the local sports program.

In what promises to be one of the top attractions of the week, Dalby and Robinson will tangle in the nightcap getting under way at 9 o'clock at the College avenue and Fourth street diamond. Both aggregations are considered strong contenders for the eventual playoff later in the year, each cavorting in the top division since organization of the 16-team setup here.

**Roosevelt Wins**

Opening the night's bill at 8 o'clock will be the contest pitting Hemphill-Wells against the McIlhaney crew.

Thursday night's activity at the park was limited to a single game in the amateur circuit, Roosevelt registering an easy 12 to 2 decision over the Lubbock Wholesalers. Whitharral forfeited to Pepsi-Cola in the other scheduled game.

Red Moore hurled for the visitors, limited the city nine to three hits and struck out nine men. The game was called at five innings because of Roosevelt's ten run lead.

**Tosses Five-Hitter**

L. D. Venable allowed only five hits but poor support cost him eight runs.

D. Weaver, clean-up hitter for the winners, collected a double and single in three trips to bat.

Whitlock hammered out a double, the only extra base blow for the groverymen.

## Betty Jameson Face Phyllis O

ST. LOUIS, June 14 (AP)—Phyllis Otto, the Atlantic, Ia., youngster whose mother wanted her to play golf for the experience, bobbed up in the spotlight today as she squared off against Betty Jameson, women's national champion, in the semifinals of the Trans-Mississippi tournament.

The hefty 15-year-old sensation turned her third advance into a 4 and 3 upset over Kay Pearson, high ranking Houston, Tex., star.

Three weeks ago Kay tumbled Miss Jameson out of the Southern Golf association tourney, which makes Phyllis' victory yesterday look even more impressive.

**Will Take Her Best**

The national champion had only praise for the newcomer before their match.

"It will take the best I have to win," Betty commented.

Miss Jameson came in yesterday with a 3 and 1 victory over Marion Miley of Lexington, Ky.

Sailing into the semifinals also was Patty Berg, the defending champion, ousting Mrs. David Sterrett of Hutchinson, Kas., 4 and 3.

Today Patty met Mrs. Russell Mann, Wisconsin state champion, who eliminated Shirley Ann Johnson, Chicago, 5 and 4.

## Race In Texas Loop Is Bunched Affair

By The Associated Press

In the Texas League the seventh place team is so close to the first division that one game can change the whole picture.

Dallas is but eleven percentage points from fourth place Beaumont. The cellar team, Fort Worth, is only four and one-half games out.

Myers 2 Runs batted in—R. Sherrod 3, R. Weaver, D. Weaver 2, McAlister 2. Two-base hits—Whitlock, D. Weaver. Left on bases—Lubbock 5, Roosevelt 2. Strikeouts—Moore 9, Venable 1. Umpires — Gunter and Norman.

trol of the seas.

But, the Agriculture Department warned, continuation of hostilities for that length of time would result in the near exhaustion of financial resources of both the victor and the vanquished. They would need American agricultural products, but the problem would be how to pay for them.

"It appears likely that both belligerents and neutrals will find it advisable or necessary to continue many of the economic controls established during the war," the department said. "Such controls are not likely to prove beneficial to American agriculture."

Reconstruction of American trade after the war will depend upon the finding of a way to finance the transactions. Those nations can buy only through the exchange of goods or the shipment of gold to this country.

The United States now has most of the world's gold. Therefore, the department said, this country will have to consider ways and means of accepting more European goods in payment for purchases here. The only goods which these countries have to offer are manufactured products.

South and Central America are in a much better position to accept manufactured goods in exchange for foods than the United States. This, the department said many result in a war-time expansion of their agriculture.

This expansion may not be needed after the war. In any event it is likely to offer low-cost competition to the North American farmer in his effort to regain lost world markets. Government controls and lack of demand are expected to prevent expansion of North American farm acreage.

"In other words," the department concluded, "except for the United States, the major agricultural exporting countries of the world may find themselves in roughly the same position after the war as the United States was after the World war—with a surplus of agricultural production for which adequate markets cannot be found."

## Bowling Tourney Is To Be Held Sunday

Announcement has been made that the annual Men's City Bowling tournament, scheduled to get under way Saturday and last two days, has been advanced to one day of competition Sunday.

Team play in the tournament will start at 2 o'clock that afternoon, doubles and singles competition to be reeled off at convenient times throughout the remainder of the day.

Cash prizes will be awarded top winners in three classes in team, doubles and singles kegling. Medals also are to be given singles champions.

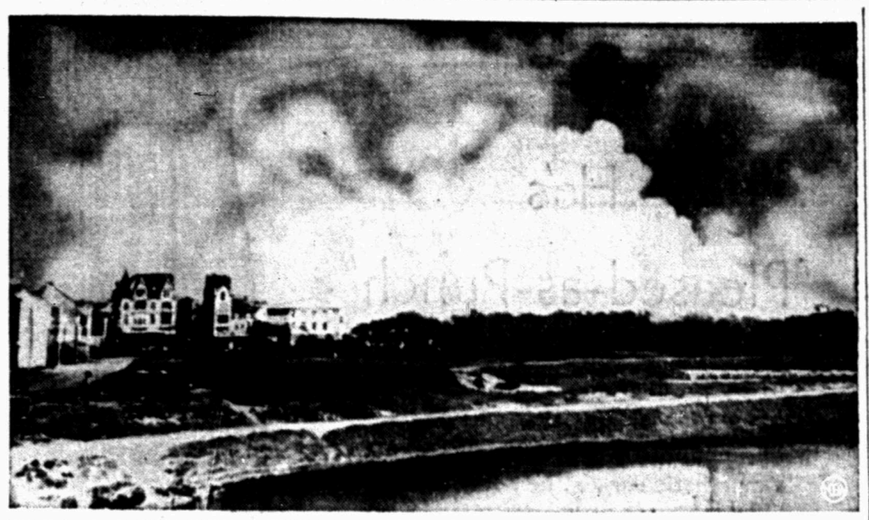

**Champions Visit City**

Scene of the tourney, which is expected to draw a commendable field of the city's ace pinsmashers, will be Lubbock Bowling club.

Thursday night, the club entertained for a few minutes a trio of the top keglers of the country, all title holders in the A. B. C. chase. On their way to Midland, where they have a match game scheduled today, and to Dallas for a similar engagement Sunday, the threesome stopped for a few practice lines.

They were Joseph Norris, captain of the Stroh Bohemian beer team and a member of the A. B. C. five man championship delegation; Herb Freithe, with the Pabst Blue Ribbon team, a present co-leader of the two-man division in the A. B. C.; and Paul Krunske, city match game champ of Chicago, and also a member of the A. B. C. titlists.

Panama has a coastline of 477 miles on the Atlantic and 767 on the Pacific.

SMOKE OF BATTLE CLOUDS SKIES OF FRANCE—Not fleecy clouds of spring over a peaceful seaside landscape, but billows of battle's smoke somewhere on the franco-German front. French censor's caption explains it simply—"La Guerre."

**LOCK ON DOG COSTLY**

PHILADELPHIA (U.P.) — Because their dog was locked in the kitchen Mr. and Mrs. James L. Dobson were robbed of jewelry valued at $1,000. The Dobsons said the dog was locked in the kitchen to prevent him from chewing things. He otherwise would have attacked the invaders.

Marco Polo wrote the account of his travels to Cathay while in prison at Genoa, Italy.

## Longview Keeps Lead In East Texas Loop

(By The United Press)

Pitcher Ado Severi might aptly be called a "hard luck guy" today.

He pitched a 14-inning baseball game last night and gave up but seven hits. Yet he lost.

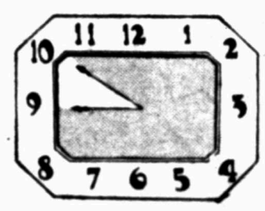

Tyler beat Kilgore 3 to 2 and the winning run came in the last of the 14th with the help of two Kilgore errors. Severi's teammates got 10 hits but could not do much with them.

The victory kept Tyler just a game behind the Longview Texans, who won their fifth straight game since reorganization of the East Texas league, beating Marshall 3 to 2. Gramly limited Marshall to six hits.

Texarkana opened a series at Henderson with an 8 to 4 victory.

**WISCONSIN, BLUE GRASS STATE**

WISCONSIN RAPIDS, Wis. (U.P.)—Residents here chuckle when visitors mention the Blue Grass regions of Kentucky. So much of the blue grass grows in certain regions of Wood county that Kentuckians have imported seed from there for planting in their state.

# Extension For City Studied

The city commission held under advisement today a request submitted to its semi-monthly session Thursday afternoon that city limits be extended two blocks westward from Tyler avenue bordering Nineteenth street.

Application for the extension was made by a committee for which R. A. and R. D. McKinney of the real estate firm, R. A. McKinney and son, were spokesmen.

They asked that the area bounded by Tyler and Taylor avenues and by Nineteenth and Twenty-first streets be brought inside the city without requiring that rights-of-way for alleys be provided in a portion of the section.

**Elections Advisable**

They were informed that the policy of the commission has been to require alley rights-of-way, but were invited to submit plots of the proposed development.

City Attorney Durwood H. Bradley told the commission that, in his opinion, an election would be advisable before the extension is authorized. In such an election, majority votes in favor of the proposition would be required both of residents of the area and of those inside the present city limits.

The commission adopted a resolution "deploring" the bombing of the home of District Judge E. L. Pitts early Wednesday morning and pledging the fullest cooperation of city authorities in attempting to apprehend those responsible.

O. R. Walker, architect, was instructed to prepare working plans for remodeling the city hall. He estimated the work would cost approximately $35,000. The improvement has been under consideration several months.

Application of Safeway Taxicab company for a franchise to operate in Lubbock was rejected by the commission with expression of the opinion that the city's cab needs are adequately served by the four companies established here. The application was submitted for the company by Mel Janes, attorney. The company may require a hearing on the application if desired, officials said.

City Engineer Martin R. Smith, jr., was directed by the commission to supervise construction of the storm sewer across the southern part of the city for which contract was let to Williams & Whittle, Inc., of Dallas on a bid of approximately $166,000 May 28. Harry N. Roberts, consulting engineer, proposed to supervise the work for 4 per cent of the contract price, which would amount to approximately $6,700. Members of the commission expressed the opinion that the engineering department can provide the supervision for approximately half that amount.

**Stop Sign Ordered**

City Manager W. H. Rodgers and City Auditor D. D. Martin were instructed to prepare specifications and to call for bids to be opened at the meeting of the commission June 27 on the annual audit of city financial records.

Stop signs were ordered installed on Avenue T at the Seventeenth street intersection.

An appropriation of $1,500 for the City-County Welfare association was approved.

Bonds approved were: General Building Co., Inc., and Guy H. Gilstrap, as general contractors; Bryant Taxicab company, insurance renewal; and West Texas Neon distributor, sign board contractor.

All members of the commission were present at the meeting, including Mayor Carl E. Slaton and Commissioners W. B. Price, W. G. McMillan, Hub Jones and Garland Newsom.

**LAW OFFICE REPRODUCED**

SAN FRANCISCO, (U.P.)—The California State Bar Journal reports that Edward J. Demson, Cleveland attorney, was so impressed in a London visit by the law office of the famous Sir William Blackstone that he obtained plans from a London architect and had his office modeled after that of the English jurist.

TAKES NO CHANCES—In top hat and morning coat, but prudently carrying his gas mask, British war lord Winston Churchill is pictured arriving at Westminster Abbey for recent National Prayer Day services.

# Education For "Cajun" Isle

HOUMA, La., June 14 (U.P.)—Uncle Victor Naquin, the 70-year-old patriarch of L'Isle de Jean Charles, welcomes the educational innovations finding their way to his semi-tropical island in Terrebone Bay.

The Work Projects Administration and Terrebone Parish officials are teaching English to the approximately 150 descendants of Jean LaFitte's pirates and native Choctaw Indian women, vaccinating them, teaching them sanitation and to boil drinking water, and otherwise waging an educational program on L'Isle de Jean Charles.

Uncle Victor, who says the island was named for his grandfather, Jean Charles Naquin, is enthusiastic about the program.

"It is magnifique," Uncle Victor says. "The little one will now be able to go to Le Nouvelle (New) Orleans, to Houma, and all over La Louisiana. They will be able to leave the island and perhaps make a fine living in the towns.

**Proud Of Two Sons**

"Yes, they may be able to do what only two other islanders have done before them—go to the outside world and become great cooks."

Those two "great cooks" are both sons of Uncle Victor who are chefs in hotels, one in the South, the other in the Middle West.

Uncle Victor's constituents are interesting people. Their faces show the influences of the Choctaws and Germans, with high cheekbones and blue eyes. They speak Cajun French, however.

L'Isle de Jean Charles is a little civilization separate from the rest of the world. It is famous for the native cooking. Oysters, shrimp and other seafood cooked in huge iron pots hanging in the open fireplaces of the homes on the island are the principal foods. Once each week, everyone attends an all night dance.

**Log Cabins Plentiful**

The inhabitants live in homes made of logs or salvaged lumber. Most of them are palmetto-thatched.

Uncle Victor likes to administer to his people when they are ill. He creates "brews" to reduce fevers and allay aches and pains—because it is not easy to call a doctor or a nurse to L'Isle de Jean Charles.

Uncle Victor says his grandfather Jean Charles was one of LaFitte's men. He says Jean Charles discovered the island, which was inhabited only by the Choctaws. After the exile of LaFitte from Louisiana, Uncle Victor says, Jean Charles brought a number of his friends there to colonize, and they and their descendants now have lived there for more than 100 years.

# U. S. Urged To Send Navy Into Europe

DES MOINES, Ia., June 14. (AP)—Six widely-known Iowans joined today in sending a telegram to President Roosevelt urging that the United States navy go to the aid of the Allies, even if that step means a "declaration of war" by this nation.

Those who signed the telegram were: Jay N. Darling of Des Moines, cartoonist; George Cosson of Des Moines, former Iowa attorney general; Guy E. Logan of Des Moines, Iowa adjutant general during the World war; T. Henry Foster of Ottumwa, president of a meat packing firm; B. F. Williams, president of a commercial college here, and Horace W. Foskett, officer of a Des Moines insurance firm and former president of the Des Moines Chamber of Commerce.

**HOSTELS BECKON TO YOUTH**

NORTHFIELD, Mass. (U.P.)—At a cost of $1 a day plus steamship, registration and railway fees, a group of young people will cross the Equator this summer for the first time. Sponsored by American Youth Hostels, they will spend several weeks bicycling skiing and hiking in Chile, Argentina, Bolivia and Peru.

# Nation's Largest Safe City Is Selling The Idea Of Life-Savi

## Story Of High Honor Gained By Cleveland Made Public

BY ROBERT I. FITZHENRY
United Press Staff Correspondent

CLEVELAND, O., June 14 — The nation's largest safe city is selling the idea of life-saving in an outstanding way.

In 1938 and 1939, Cleveland was designated as the "safest big city" by the National Safety Council. Here's the story of how this designation was won:

A few years ago when soaring traffic deaths were alarming Americans throughout the country, Cleveland officials watched their own toll mount and decided on sweeping action.

A "Committee of a Million" was appointed by Mayor Harold H. Burton and the city went to work en masse on the traffic death list.

The police department carried the brunt of the ballyhoo attack which attracted wide attention from safety and advertising experts alike.

Clevelanders woke up on hazy fall morning in 1937 to find the city plastered with narrow yellow streamers bearing the legend "One Hundred Are Condemned to Die!"

**Whole Town Talking**

As the days passed the number of streamers increased. They appeared on store windows, in trolley cars, in public buildings, on telegraph poles. Nobody could miss seeing them. And apparently nobody did. The whole town talked about them. Capt. John Weiss' idea for vivifying the number of persons who, statistics said, would die between the time the streamers were published and the end of the year, had been a master stroke.

The police had hit on something and they followed it up fast. Why not keep peppering away with hard-hitting safety slogans?

Happily the department turned out another bell-ringer: "I Wanna Live, So Help Me!" The slogan campaign swept the city.

But hundreds of slogans were needed, and the police department couldn't deliver a world-beater every day. So they sponsored a citywide competition. Twelve-thousand safety enthusiasts came through with a deluge of slogans that kept a special detail busy for one month reading and sorting.

**Big Billboards Used**

The city was plastered with new safety legends. Storekeepers contributed their window space, an outdoor advertising company donated full-sized billboards, beer companies urged temperance for drivers, the city put up 250 billboards of it's own, death speed-o-meters were erected in prominent places. Safety was the vogue. From every vacant spot screamed messages like these:

"Jeepers Creepers, Use Your Peepers!"

"Cleveland Values Your Life. Protect It!"

"Jaywalking is A Shortcut to Eternity!"

"They Called Him Speed for Short, But Not for Long."

"Save a Life for Christmas!"

"Let the Fools Take the Chances!"

"Let's Stop This Killing!"

"Cut Out Cut-in Driving!"

"Keep in Line, Stop in Time!"

"Death Treds Softly on Rubber Tires."

"When the Deep Purple Falls — Be Careful!"

Police changed the legends every week, freshening the billboards from their file of more than 3,000 original slogans.

**Result In First Year**

The soaring list of traffic deaths slowed, halted, began to descend. In one year fatalities were sliced from 248 to 130.

"Sensational" safety experts agreed. More steam on the ballyhoo, police decided. They turned to radio.

There was nothing in the police handbook about writing safety scripts for radio, but the law guardians were unruffled. After all they knew nothing about slogan writing either.

The policeman on the beat went home at night to pound out trial script.

Patrolman Chester Nelson started dramatizing actual accidents and radio stations were quick to seize upon their attention value.

Other schemes were quick to follow. Interviews were conducted with doctors and nurses who had treated mangled traffic victims. Victims were brought before microphones to picture the graphic moments before a collision.

**Portable Set Used**

A man-on-the-street program with police carrying a portable microphone to pedestrians and drivers in action commanded immediate attention. Questions on local traffic ordinances were asked with each correct answer earning a theater ticket and each wrong answer a condensed copy of the traffic regulations.

Five times a week police aired a traffic institute, giving the complete details of an actual accident and asking listeners to assign the guilt. The following day the solution was offered.

Over another station at 8 o'clock each morning five minute news bulletins were broadcast, listing the total number of fatal and non-fatal accidents during the preceding day.

When traffic fatalities began to soar, police took note of the fact with a mass memorial service in the public square. Representatives from the three religions spoke invocations for the 117 traffic dead. Mayor Harold H. Burton was called on for a eulogy and a huge monument especially built for the occasion was unveiled before the thousands in attendance.

Never is there a parade of any consequence in Cleveland without sizable safety float built and manned by the police department.

Never is there a convention in this city without an appropriate safety display. Persons attending a recent poultry congress for example learned from scores of attractively designed posters in Convention Hall that "Chickens in Traffic Accidents Don't Come Home to Roost."

Saturday nights the "Whoopee Squad" ranges the revelry spots, cautioning patrons that the traffic squad in the night club area is especially heavy and especially alert for intoxicated drivers. "Happy" revellers are advised to leave their car keys with the proprietors and take a cab home.

Traffic statistics indicated that an alarming majority of automobile fatalities occurred at night. Police promptly cruised through the city with a special medical device testing drivers for night blindness, "Vitamin A deficiency" and found to their amazement that 30 per cent of all drivers over 21 were afflicted with some form of the ailment.

## Hay Fever Sufferer Excused From Jury

LONGVIEW, June 14 (U.P.) — His nose knows. And because it knows, the hay fever sufferer who was called for the jury won't have to serve.

"I'll sneeze my head off," the hay fever sufferer, whose story of his dislike for the flowers of spring was attested by the nasal inhalator on his nose, told District Judge C. E. McCaw.

"I'm allergic to cedar pollen, and up there on the hill are cedar trees," he said. "The pollen comes into the courtroom. I'm warning you, I'll sneeze my head off if I serve on the jury."

"You're excused," the judge decided.

**RUSTY GUN TRUSTY**

SILVER CITY, N.M. (U.P.)—Though it had gathered rust for 13 years in the Black Range near here, the rifle of Sid Coker found while on a hunting trip brought down a seven-point buck. He bagged his deer with the gun after scraping off the rust, oiling the mechanism and removing four cartridges, two of which had been discharged.

Mrs. Clark (Standing) And Mrs. McMeekin

## Women Pen Novel Using Man's Name

BY KEN RUSH
Associated Press Feature Service

LOUISVILLE, Ky., June 14 — If you want to write to the author of "Show Me a Land," one of the nation's best selling novels, don't address the letter to "Mr. Clark McMeekin."

True, that's the name on the title page of every edition of the book, now in its fifth printing and soon to appear in war-shrouded England. But the creator of this story of the horse-loving states of Kentucky and Virginia through the middle years of the 1880's is Mrs. Dorothy Park Clark, 41-year-old wife of Edward R. Clark, a timber company executive, and Mrs. Isabel McLennan McMeekin, 44, wife of Louisville's safety director, Sam H. McMeekin.

Mrs. McMeekin has three children — Isabel, 17; Sandy, 16, and Rosalind, 15. Mrs. Clark has two, Christy, 13, and Martha, 10.

The authors told the census-taker they were housewives. Writers? "We're only amateurs," says Mrs. Clark.

However, in collaboration with another Louisville woman, Mrs. McMeekin once wrote a fairly successful cookbook, "Food for Children and How to Cook It." She also published a book on gardening and several volumes of poetry. Mrs. Clark, a talented pianist, has several short stories and two operettas to her credit.

Together, they laid out the plot, wrote the synopsis, divided the synopsis into outlined chapters and each chose the chapters she wanted to write.

They traced the genealogy of all actual horses mentioned in their book. They dug into histories of the War Between the States, studied women's styles of the period and the weather reports of nearly a century ago.

Of the reviews of "Show Me a Land," which is believed to be the first historical novel about the founding and development of the race horse breeding industry, only four were what Mrs. Clark called "sour."

The two authors said they had to disregard personal feelings while working on the book.

"Whatever attachment you may have had for your own copy, you soon lose," said Mrs. Crlak. "When one of us finished a chapter, she turned it over to the other for correcting and revising. And there isn't a chapter in 'Show Me a Land' that wasn't rewritten at least three times."

The title of the novel is from the book itself—"Show me a land where men wants none of horses and I'll show ye a land where they ain't no men."

**PIGS NEED VITAMINS A AND D**

DAVIS, Cal. (U.P.)—To Dr. E. H. Hughes of the University of California's Agricultural College, pigs are not the simple animal the author of "Pigs Is Pigs" seemed to think. He has discovered that even pigs need Vitamins A and D, thiamin, riboflavin of the so-called vitamin B complex, the filtrate factor of the vitamin B complex and vitamin B-6. Without them, he finds, pigs get impaired vision.

Peanuts are beans, not nuts.

WHAT! THEY'VE MADE MAXWELL HOUSE EVEN BETTER?

YES! IT'S BEEN IMPROVED LATELY IN TWO IMPORTANT WAYS!

2 DEFINITE REASONS
why Maxwell House is now even richer, more delicious!

1. *New Enriched Blend.* Yes! The famous Maxwell House blend has actually been improved . . . made richer, smoother, even more delicious and full-flavored than ever!

2. *Improved Roasting Method!* And this magnificent new blend is now roasted by a new method called Radiant Roast. A method that roasts each bean evenly . . . brings out more fully the *extra-rich* flavor of these choice coffees. No weak coffee from under-roasting. No bitter coffee from parching. Always full-flavored, always delicious!

FOR ADDED ECONOMY AND CONVENIENCE!

LOOKING TOWARD HIGH OFFICE?—Most doubts that President Roosevelt would seek a third term evaporated when he reportedly asked Senator James F. Byrnes of South Carolina, above, to be his running mate. They are said to have discussed Senator Byrnes' candidacy for the vice-presidential nomination during a recent cruise on the Potomac River.

would become part of the army," Sabiha said.

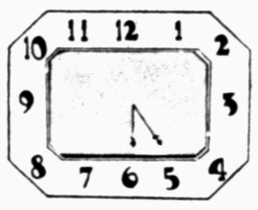

But for the moment her four women students plan to become teachers. However, they are free to enter any branch of civil aviation, even flying the mail.

When asked if her men students resented being told what to do by a woman, Sabiha laughed:

"Women in Turkey do so many things they never did before that men have ceased to find anything surprising."

Sabiha has no interests in setting world records or making round-the-world flights. Like her adopted father, she believes that patriotic duty comes first and that teaching is her patriotic duty.

She rises every morning at 5 a. m. to be at the air field at 5:30 and she doesn't get home until 5 p. m. Her bedtime is 7 p. m.

## The PLAINSMAN Says:

That Girl on Broadway says the most difficult thing for a dub to learn about golf is that he can't play the game.

★ ★ ★

"Man Dies and Leaves 17 Farms" says a headline in a neighboring paper.

Some of our farmer friends won't blame him!

★ ★ ★

OUR recent discourse regarding the geode brought over here by Leo Bell—(you remember the geode, it's a rock with another rock rattling around inside)—brought Tim Stovall in, almost on the run.

He has a peculiar rock, too—a crystal which he recently picked up at a mine in Arkansas.

While moseying around in the Hot Springs area Mr. Stovall drove up to a commercial crystal mine, 25 miles northwest of the health center, and there saw the mining of crystals. What he reports is most interesting.

According to Mr. Stovall, much of the crystal rock found in the crystal mountains of Arkansas is not commercially valuable. But much of it is. It is processed and sold to optical concerns which employ it in making camera lenses and for other similar uses.

The crystal rock comes out of clay and no matter how large or how small the rock may be, its face always is six-sided.

And each face on the crystal is absolutely flat as if Mother Nature, in the role of an exacting engineer, had painstakingly planed it down.

Crystal rock is really very fine quartz and if commercially valuable, is as clear as glass.

In fact part of the rock Mr. Stovall brought back looks like a section of the finest glass chandelier.

★ ★ ★

Ira Jenkins has figured out a way to keep from going nuts about the war and all the war conversation going the rounds.

He figures out four-word sentences, each word of one syllable and each grammatically incorrect.

For instance:

"Them sheeps ain't his'n."

If you can think up any such sentences—of four words each and all wrong—send 'em in to The Plainsman.

Maybe they'll help other keep from going crazy!

★ ★ ★

THE Fort Worth Press offers a quotable quote from the new book, "If You Don't Weaken," by Oscar Ameringer, Oklahoma City's famed labor liberal.

Here 'tis:

"Politics is the art by which politicians obtain campaign contributions from the rich and votes from the poor, on the pretext of protecting each from the other!"

★ ★ ★

According to the current issue of the Texas Observer, Austin weekly newspaper given over to discussion of politics and state affairs, Governor O'Daniel may soon come out from hiding behind his microphone and, on a few occasions, at least get out before the people.

"The possibility that the 1940 edition of W. Lee O'Daniel's campaign crew will be a fashion show," the Observer reported, "was raised last week by the disclosure that the governor had placed a rush order for 128 uniforms—made of Texas cotton—with a Fort Worth firm.

"The order includes 12 changes for seven band members, a radio technician, and two girls. The uniforms are all white and conspicuously lettered, 'Vote for W. Lee O'Daniel.'"

★ ★ ★

TO PUT it mildly, official Washington is both amazed and astounded over the altogether simple and direct methods of Top Kick William S. Knudsen, of President Roosevelt's War Resources board.

The politicos and their hangers-on can't understand how a real Big Shot, such as General Motors' Mr. Knudsen really is, can conduct himself in such a common-place manner.

Used to retinues of secretaries, flunkies, advisors and "yes men," Washington ran high blood pressure when the No. 1 defense man arrived without any such trappings.

But what really impressed the administration high-ups was the fact that Mr. Knudsen, from scratch, made himself accessible to everyone who had business with him—even to the extent of answering his own telephone!

One of the politicos called Mr. Knudsen at his hotel headquarters the other night and nearly fainted when the fellow answering on the other end said:

"This is Knudsen!"

It looks like Mr. Roosevelt picked the right man to run things on the War Resources board—and furthermore, the Knudsen example may be worth a lot to the stuffed shirts in Washington!

★ ★ ★

At times, when we finish reading the news of the day, our nerves feel as if they had been tuned in unison with a violin E string and scraped with a rusty butcher knife!

★ ★ ★

That Man on Avenue Q says just because a modern girl is wearing a "doll hat" is no reason to think she'll cry "Mama" when squeezed.

# High Tide

BY FRANCES HANNA
(Copyright For The Journal)

YESTERDAY: Jan enjoys her evening at the beach ballroom with Derek. That same evening Rose comes home intoxicated. Lance is furious but demands that Rose kiss him.

Chapter 17
'Swell Fight'

Hers was, Rose reflected, not an unusual story. A run-away marriage at seventeen to a boy of twenty. Too much love, too much quarreling and too little money. Disillusionment and divorce at nineteen. A determination to make all men pay for the hurt one man had caused her. Burning her fingers, learning, hardening. Working as model in wholesale houses, then shops, then salons. Learning clothes and how to wear them. The growing greed for possessions. Then Herman Cornwall.

Herman had been a sagging, paunchy fifty. He had fat hands and light, suspicious eyes. But he had enormous amounts of money and he wanted to marry her. Well she'd stuck it eight years. At first the clothes, the summer house, the winter house, the servants, the traveling, had made it worthwhile. Then they hadn't. There were men who attracted her, but her greed for possessions prevented her from attempting this sort of escape, for Herman was very watchful and Herman was exceedingly jealous.

If she hadn't mixed her drinks that night and told him she'd never consent to have a child, never under any circumstances. His scourging denunciation struck fire to the pitch-soaked kindling of repression in her and she had shrieked her hate at him.

He permitted her to divorce him at Reno after she'd signed a settlement. Such a little settlement considering Herman's vast wealth.

Rose belted the robe tighter about her lovely slim waist and sought the healing solace of a warm scented bath.

A little later, hearing her come down the stairway, Jan slipped into the kitchen and waited until the front door closed. Lance rang his buzzer and she trotted up to him dreading to face him.

"Did Rose just go out?" he demanded the moment she entered.

"Yes. To the Club, probably. It's a grand day for swimming and sunning."

Lance looked as if he hadn't slept at all. "She promised to take me for a drive," he muttered. "She must have forgotten or maybe she went to get the car."

"Lance—"

"Well, what is it?" he asked irritably.

"Nothing, I guess."

"Oh, I know what's eating you. You think I'm a fool. You and Norma. You don't know, either of you, what it is for a man to hunger for beauty . . . to ache to hold a woman like Rose in your arms. Sure, I'm a fool! I know it." He wheeled the chair around so his back was toward her. His face, so perfectly planed, thin and hollow now, yet still possessed of a pale, compelling beauty, twitched with feverish emotion.

"I wonder, Jan, if those doctors who patched me up knew everything. Surgery is advancing every day. There might be a man somewhere in this world who could do something with these knees of mine. Damn it, Jan, I want to live! Why do I have to be condemned to this chair for the rest of my life?"

**Compassion**

Tears pushed hot against her eyelids while compassion wrung her. There was nothing to answer. She wanted to go over to him and put her strong, young arms around him, but she sensed he wouldn't want this. It was not her arms he wanted. She went out quietly.

Johnny came out of his room, a sheepish look on his face. "Jan, forgive me for last night, will you? I'm sorry as the devil. You're just too good for a guy like me."

"I think so, too," she agreed with him serenely. "I accept your apology and I forgive you. Now run along and toot your horn. I'm busy."

He hesitated, opened his mouth, shut it. Her composed smile, her careless, indulgent one, dismissed him and his offense as completely unimportant. He desired, suddenly, to grab her and kiss her, disturb her. He was furious with her. He ran down the steps and slammed the front door.

Opening the linen closet at the end of the hallway, Jan took out clean sheets and a pillowcase and went up on the roof to change Derek's bed. She found Neptune, paws tucked under him, curled up on the blanket asleep. She hugged his limp, warm body, slid her fingers through his furry ruff, then set him down on the rag rug beside the cot. He yawned and stretched and blinked amber eyes before springing up to his favorite place on the parapet overlooking the beach front below. As Jan lifted the top blanket to shake it, she noted it was plentifully decorated with Neptunes silky hair.

"So this is where he spends his nights," she said, wondering if Derek petted him. She must ask sometime, for Neptune, outwardly true-blue, paying no heed to anyone when his mistress was about, might be secretly cheating. And if he were, she smiled, the person sharing his love must be the right sort.

The little tent smelled of cigarettes and soap and clean masculinity. Pausing when the bed-making was done, Jan suddenly dropped onto the rough army blanket and laid her cheek against Derek's pillow. As if this act accomplished a joining together of memory she closed her eyes and warmed herself by thinking of how Derek looked when she swung off to work this morning. Burned to the color of coffee, inured to beating sun, he now wore only a pair of blue jeans, sneakers, and a jaunty officer's cap. From his waist to his flaming hair he was as evenly brown as if he'd been painted by a spray gun. Also, he'd picked up an astounding vocabulary of fisherman's lingo and delighted in trying it out on her at breakfast when they had the kitchen to themselves.

A great deal of the bitterness had gone out of his talk and manner. A few days ago he'd asked her to play for him and he'd listened without growing dark and fierce and violent. Timidly she urged him to play. He refused, but his refusal was only a shrug, no outburst of words. Encouraged, she asked, "Just what do you harbor against Chopin? You said once you couldn't bear him."

"I cant. His music hurts me, haunts me. I lived a long time ago only to perfect myself in playing of his Polonaise in A Flat Major."

**"I'm a Misfit"**

Another time, setting his teeth into his favorite subject, the chaos and hopelessness of the world, the growing decadence of civilization, she had checked him with:

"Derek, it's the misfits who rant on soap boxes. Busy people, happy people, useful people, haven't the time nor the desire to tell the world how lousy it is!"

He'd thought a while. Then: "Maybe you've got something there, Jan. I'm a misfit if there ever was one! But it isn't my fault."

"Perhaps not, but if you keep on being a misfit it's certainly your fault."

"Is this fitting in then? This existing to eat and sleep and labor with my hands?"

"You can look out of your tent at night and see the stars," she said. "You can watch the sunrise and

(Continued on Comic Page)

Dr. Ales Hrdlicka, Smithsonian Institution's famed anthropologist, was surprised at the discovery of the skull of a Neanderthal man in Russia, as it had been thought that the range of the Neanderthal man was rather restricted.

We should have thought the range of the Neanderthal man rather extensive, what with dinosaurs and such things constantly chasing him!

★ ★ ★

THE young men of Lubbock's Junior Chamber of Commerce believe they have added another feather to their already well filled war-bonnet in bringing here next Monday Stanley Foran, a Dallas advertising man, who in recent months has come to be known as "the silver-tongued orator of Texas."

Mr. Foran will be presented, free of charge, in two addresses here next Monday under the sponsorship of the Junior chamber and with cooperation of Allen Brothers American Legion post. He speaks at noon at Hotel Hilton to a joint meeting of the Lions, Optimist and American Business clubs—at which attendants will be expected only to pay for their own luncheons; and again at 8 o'clock at First Baptist church.

The public is invited, in fact, is urged, to attend both meetings.

★ ★ ★

The local Junior chamber boys first got the idea of inviting Mr. Foran to Lubbock after their delegates to the state Junior chamber convention in Galveston came back singing his praises. Mr. Foran spoke before the state JC group and literally "stood 'em on their ears!"

Subjects chosen by Mr. Foran for his addresses here are patriotic in their base, practical in their make-up—fitting them for present consumption. In his talks, the Dallas advertising man urges the "re-selling of Americanism to the world," and insists that we Americans keep our United States the happiest, freest and most tolerant country on earth.

He speaks forthrightly against collectivism, totalitarianism and the other modern trends which would destroy personal liberty, equal rights and free speech. An active Legionnaire, Mr. Foran is chairman of the Texas Legion department's committee on Americanism, which also guards against subversive activities.

★ ★ ★

THE Junior chamber boys here claim there hasn't been a speaker like Mr. Foran since the days when William Jennings Bryan, as "The Boy Orator of the Platte," swept out of Lincoln like a Nebraska cyclone to amaze his countrymen with his speaking talents.

They are bringing Mr. Foran as a contribution to patriotism and in keeping with their program of community service.

They promise, say JC Leading Lights Hugh Dunlap, Jimmie Mytinger, Bruce Collier, et al, that no one who takes time to hear Mr. Foran will go away dissatisfied.

## Today's Thought

## IT MEANS SOMETHING THIS TIME

It is proper that the nation join in observance of June as "Dairy Month." It is appropriate that Texas participate. There is every reason why Lubbock and the South Plains should have a big hand in the observance because, by cooperating, we are helping to toot our own horn and pound our own drum.

Probably no one factor contributes more to the high standard of the health this nation enjoys than the quality of its milk products—properly called the most nearly perfect food.

The importance of the industry to the economic life to Texas is reflected in the fact that it produces more than $45,000,000 worth of milk each year—said to be the third largest single source of farm cash income. Only cotton and cattle produce more revenue.

Illustrative of the importance to Lubbock was the report the other day that this city turns out approximately 5,500,000 pounds of creamery butter per year—more than any other city in Texas. That is a most important industry—and is all the more important when considered that the dairy industry of the South Plains area, along with the farm industry with which it goes hand in hand, still is in its infancy.

Ordinarily, the observance of this or that month, or this or that week provokes no more than a yawn, for the simple reason there are too many of them. "Dairy Month" is properly an exception because it deals with a necessity which means so much to the nation, state and area in terms of good living, health and prosperity.

ON BROADWAY
(Copyright For The Journal)

THE Winchell Column vs The Fifth Column: New York: A German secret agent has just arrived in New York by way of San Francisco . . . What he is doing here is something government agents should find out quickly . . . His name is Captain Otto Stennes, who was Germany's chief agent in the Ruhr and Rhine regions, where there was heavy sabotage.

★ ★ ★

PASSAIC, N. J.: About two weeks ago a new Nazi Bund camp was opened near here for The Hitler Youth of America . . . It is Camp Bergwald . . . Its purpose: To train 1,000 American born children of German parentage to love Nazism . . . The 180 acres were purchased with Nazi coin, not American money . . . The Bund camp at New Foundland, N. J., has celebrated Hitler victories recently . . . This camp is a short distance from The Picatinny Arsenal—a naval base . . . Congressional committees know all about these Bund camps and their close locations to arsenals, munitions plants and military bases . . . But they never do anything to stop them! . . . Will you ask yours why?

WINCHELL

★ ★ ★

NEW YORK: Last week at Rex Hall, in the Bronx, a meeting of the Mario Sonzini Society was held . . . This is a group of Italian-Americans . . . They announced the meeting was to campaign against Fifth Columns in the U. S. . . . But the principal speaker was Italian Consul-General Vecchiotti, who praised the work of Fascism in Italy . . . Every listener greeted each mention of Mussolini with cheers and arms raised in the Axis salute . . . Last week the Italian Consul-General (G. Vecchiotti) told a group that Italians in this country must avoid all 5th Column activity—that Italians and 5th Columns do not mix . . . A few days later, Geoffredo Pantaleoni (for many years head of the Italian Tourist Information office at 626 Fifth Avenue) resigned that job in order to organize "right-thinking Italo-Americans to discourage Italy's entry into the war on the side of Hitler's mechanized forces of destruction" . . . He then made this statement which conflicts with the Italian Consul-General's remarks . . . Said Pantaleoni: "Italian publications here have been giving full encouragement to the spread of propaganda issued by Goebbels of Germany."

★ ★ ★

NEW YORK: The N. Y. Times on June 1 reported that in every South American country there are Nazi Sports clubs. These so-called sports clubs have motorcycle groups and glider groups . . . This reminds us to remind you that when Germany was restrained (by treaty) to a small air force, General Goering boasted that he built up his air force secretly—by sports clubs interested in so-called "gliding activities."

★ ★ ★

SAN FRANCISCO: A few weeks ago a man arrived from Germany very quietly . . . When reporters discovered him in New York—he said he was here only to buy material for Germany—strictly business . . . And that his visit did not concern propagandist activities . . . His name is Dr. Westrick. He is the law partner of Dr. Heinrich Albert, who was once chief German propagandist . . . Last week Dr. Westrick conferred with Fritz Wiedemann, German Consul-General of San Francisco, who gives orders to the German embassy at Washington.

★ ★ ★

**Where is William Dudley Pelley? . . . What's stalling his prison term or appeal? . . . And Earl Browder's? . . . Joe McWilliams, who boasts he is a Fifth Columnist, made a special trip recently to Washington . . . He got in to see a government biggie via an old friend of the executive, who didn't know the identity of Herr McWilliams . . . "I have come to demand protection," he said, and then went into a soap-box speech . . . He was given the chill . . . What's the matter, boy? Scared? . . . Up at Dannemora Prison Fritz Kuhn is the most despised man there. Nobody talks to him . . . His loyal comrades stopped sending Mrs. Kuhn the promised $25 weekly the second week . . . Ach, such pals! . . . That hair-dresser in a 59th Street Hotel thinks the FBI isn't hep to her activities . . . Her son's, also . . . Helps mail out Herr Curtiss' Weekly, no? Yah! . . . What this country needs most is Concentreason Camps!**

## United States Naval And Military Missions Are Contemp...

# Pro-Fascist Leanings Are Uncovered In Cu...

BY BRUCE CATTON
Journal Washington Correspondent

WASHINGTON, June 12—Unless the United States soon prepares and puts into operation a broad-gauge program for new world defense and economic co-operation, the republic of Cuba will presently be wholly dominated by Fascist-Nazi interests bitterly opposed to everything the United States stands for.

STUDEBAKER

This, at any rate, is the warning given by a distinguished Cuban scientist who is now visiting in Washington. Since he is about to return to Cuba, he asked that his name not be used. He is, however, a man of standing who is in an excellent position to know what he is talking about.

His size-up of the Cuban picture—which has been brought to the attention of government officials here—is of interest not only because of Cuba's nearness to the United States, but also because, to a certain extent, what is going on in Cuba is symptomatic of many other Latin-American nations.

• • •

**Pro-Fascist**

According to this source, then, here is the picture:

All of the old conservative, Spanish-descent families in Cuba are deeply Fascist and anti-American in spirit. Their link with the overseas dictatorships is principally through the Spanish Phalange and General Franco; the Phalange itself is very strong in Cuba.

General Batista, the boss-man in Cuba, wants to solidify his own personal power and does not bother much about any ideologies. A few years ago he was playing ball with the Fascist groups; when the U. S. State department frowned he swung more to the left, and today draws support both from liberals and conservatives. In the end, he is likely to string along with whatever side looks like the winner, be it American democracy or European totalitarianism.

But if there is a strong anti-democratic, pro-Fascist bias among the conservative and wealthy classes, among the masses there is a liberal tradition dating back to the long struggle for independence which is still a power. This tradition could be made dominant, and Cuba could be cemented solidly into the new world democratic bloc—if the right stimulus came from Washington.

• • •

**Military Mission First Step**

What should that stimulus be? According to this Cuban, it should begin with the dispatch of a high-power U. S. military and naval mission to Cuba to reorganize the Cuban defense system. Immediately following this there should be an economic mission to reorganize the country's economy. By tying both moves in together, he believes, overwhelming popular support could be gained—particularly at the same time Batista could be persuaded to clean house politically, throw a few grafters and extremists in jail, and demonstrate to all Cubans that politics were to be honest henceforth.

"This would be intervention, of course," says this Cuban scientist. "But it would be intervention in the interests of the people of Cuba, and they would recognize it as such. It would be an inter... ocratic diplomacy in... diplomacy.

"If something of t... done soon, Cuba will... Fascist camp."

## LEGAL NOTICES

### 39—Legal Notices

SHERIFF'S SALE
The State of Texas; County of Lubbock.
Notice is hereby given that by virtue of a certain order of sale issued out of the Honorable 72nd District Court of Crosby county, on the 28th day of May, 1940, by W. V. Hames, Clerk of said Court, for the sum of Nine Hundred Twenty and 97-100 ($920.97) Dollars, and costs of suit, under a judgment of foreclosure only, in favor of Security State Bank and Trust Co. in a certain cause in said Court, No. 1717 and styled Security State Bank and Trust Co. vs. John W. Davison et al, placed in my hands for service, I, Tom Abel as Sheriff of Lubbock county, Texas, did, on the 29th day of May, 1940, levy on certain Real Estate, situated in Lubbock county, Texas, described as follows, to-wit;
Lots 4 and 9 in Block No. 2 of Wheelock's Second Addition to the City of Lubbock, Lubbock county, Texas, and levies upon as the property of John W. Davison, Charlene Davison his wife, and Adelaide Robinson, a widow, and that on the first Tuesday in July, 1940, the same being the 2nd day of said month, at the Court House door of Lubbock county, in the city of Lubbock, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said order of sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said John W. Davison, Charlene Davison and Adelaide Robinson.
And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Avalanche-Journal, a newspaper published in Lubbock county.
Witness my hand, this 29th day of May, 1940.
TOM ABEL,
Sheriff Lubbock County, Texas.
By VERLIE SHEARER, Deputy.

## Here Are Four Recipes That Add Up To The Most Mouth-Watering Fish Story

BY MRS. ALEXANDER GEORGE
Associated Press Feature Writer

Fish — comparatively inexpensive, containing little waste and requiring a rather short cooking period — is a good friend of the budget. It is also one of our very best health-building foods. So it's a good idea for a homemaker to induce her family to become fish-minded.

Frozen, fresh or dried fish are available in most sections of the country so fish meals can be frequent. The flavor of frozen fish compares favorably with that of fish freshly caught.

Thaw out frozen fish in a room of moderate temperature—20 minutes is about enough. To hasten the thawing soak 5 minutes in cold water. Do not soak longer or much of the flavor will be lost.

When you buy fish steaks or fillets allow 1-3 pound per serving. A fillet is fish with all the skin and bones removed; it is a good buy. Allow 1-2 pound of whole or large-boned fish for each person.

A mild-flavored fat fish calls for a piquant sauce such as pickle, relish, tomato or olive. A lean fish with little fat needs extra fat supplied through a richer sauce — cheese, egg, hollandaise, mayonnaise. Lemon goes with all fish.

Fish has little connective tissue so it should be cooked just long enough to develop the flavor and make it tender enough to eat. Overcooking breaks apart and toughens it.

* * *

**Baked Fish**

Baked fish is quite a delicacy and is not hard to prepare. Select a fish of 4 pounds or so, and either split or fill with a savory stuffing. Arrange in a shallow baking pan and cook, uncovered, in a moderate oven. Allow 10 minutes per pound for fish weighing 4 pounds or less. Add 10 minutes extra for those over. Baste all fish with fat (butter or substitute) mixed with equal parts of boiling water or tomato juice. If a lean fish is chosen, additional fat is needed, so fasten thin strips of salt pork or bacon on top. As they cook their drippings season the fish.

**Cooked Fillets**

Cooked fillets or individual pieces of fish: Dip in rolled crumbs (or cornmeal), then quickly dip in egg yolk mixed with equal portion of milk. Dip again in the crumbs. Arrange in a shallow, well-greased pan. Spread with melted butter mixed with salt, paprika, celery seed and chopped parsley. Bake 5 minutes in a hot oven. Turn carefully, baste with the butter seasoning mixture, and cook about 8 minutes until the fish is crispy brown and tender.

**Stuffed Fish Steaks**

Select 2 steaks of medium size. Spread one steak with a highly seasoned rice or bread stuffing. Cover with the other, top with melted butter, seasonings and a little lemon juice. Serve hot with tomato sauce.

**Broiled Fish**

Split small fish, cut larger fish into serving pieces or use fillets. Arrange about 5 inches below a flame (after first brushing fish with melted butter). When brown, turn and cook the other side. Spread quickly with butter mixed with seasonings and parsley.

Californians paid an aggregate of $919,000,000 taxes in 1939.

Pan-fried butterfish topped with lemond slices—a dish as good as it looks.

Miss Marie Norwood, deputy clerk of Ballinger, visited friends in Lubbock this morning.

# New Industries For Australia

ADELAIDE, Australia, June 14 (U.P.)—Australia is rapidly developing new industries, being stimulated by the need for coping with restrictions on imports, owing to the war, increased freight charges and difficulties of exchange.

The state of South Australia has appointed a research officer, S. H. Richardson, a government auditor, to help promote new industries and develop the old ones.

Announcing this decision, Premier Thomas Playford declared that if South Australia were to take advantage of the opportunity for expansion provided by existing conditions, the appointment of such an officer was essential.

**Awaits British Machinery**

British machinery is being used to equip a big factory at Kilkenny, in South Australia, for producing textiles. If war conditions permit the arrival of the machinery, the factory will be in operation soon.

Demand for yarns in Australia is in excess of supply, and probably the capacity of these new works would have to be doubled in future, declared F. Coop, a director of the firm owning the plant. Owing to the war, cotton goods were difficult to obtain from Britain or the rest of Europe.

The plant would concentrate on making tenting and light duck. The need for Australia to encourage cotton and flax growing was emphasized by Coop. Australia needs about 14,000,000 square yards of canvas and duck annually. Supplies of flax from Russia might be cut off at any time.

**Textile Expansion Planned**

The commonwealth minister for customs, J. N. Lawson, also has announced extensive plans for extending the textile industry in Australia, involving a capital outlay of $6,000,000 and providing work for more than 2,000 men. This involved the formation of a company to produce tire and cord fabric for tires, and for making flax fabrics.

Progress made in the steel tube industry was emphasized by Playford, when he visited the mills of British Tube Mills, Ltd., at Kilburn South Australia.

The premier said that it was a tribute to South Australian workmen who, a year ago, hardly knew that a steel tube industry existed, that they should now be turning out goods equal to anything of their kind.

**OLD TIME SPELLERS HOLD OWN**

BISBEE, Ariz. (U.P.)—Proud Bisbee fathers went down to the high school to watch their sons and daughters in a spelling bee. The parents were challenged by the students to an unscheduled spelling match. When the contest ended, the dads found they were lucky to get a draw with the youngsters.

Belgium is the most densely populated country in Europe. There are about 710 persons to the square mile.

OLD GLORY IS 'ATTACKED'—A swarm of bees all but made away with an American flag outside the main entrance to the treasury department at Washington, as shown above. Flustered officials, unprepared with an adequate defense plan, kept their distance behind closed windows. A Red Cross flag next to Old Glory was left untouched.

# *Mighty Battleship Launched Thursday*

NEW YORK, June 14 (AP)—As sirens screamed and thousands cheered, a ship of war destined to be one of the mightiest units in this country's first line of defense skidded down the launching ways into the East river Thursday.

It was christened the U. S. S. North Carolina and was proclaimed by the governor of that state and the secretary of the navy as a symbol of the stepped-up defense program ordered by the United States since Europe was plunged into war.

**Speaks Firm Langauge**

"It speaks a language that even a dictator can understand," said Gov. Clyde R. Hoey shortly before his daughter, Isabel Young Hoey, smashed a bottle of French champagne across the ship's bow. "It represents another effort of our great nation to provide an adequate defense."

The North Carolina, 35,000-tons and 750 feet long, is a sister ship of the Washington, which was launched at Philadelphia on June 1, and of four others of the same class now under construction. The first battleships launched by this country since 1921, when the major naval powers limited the size and power of navies, they far surpass the United States dreadnaughts now in action and rank with the world's most powerful floating fortresses.

It will be another year before the Washington and North Carolina are completed, and in two or three years after that they themselves will be outclassed. Work already has been started or ordered on four 45,000-ton monsters.

Some 30,000 persons viewed the ceremonies but all were under wartime restrictions. To guard against sabotage and espionage, hundreds of police patrolled outside the navy yard walls, hundreds of marines and sailors were on duty inside, and federal agents and naval intelligence officers mingled with the crowd.

IMPORTANT NEWS FOR HOUSEWIVES!

NEW! Exclusive!

*Ultra-refined* CLOROX

FREE FROM CAUSTIC and other harsh substances! ULTRA-GENTLE! FASTER ACTING!

IN NEW SLENDERIZED BOTTLE WITH EASY-OFF CAP... easy to handle... easy to open!

FOR YEARS the unsurpassed qualities of Clorox have won and held the preference of millions of housewives. Today you have these same valuable qualities PLUS new super-qualities in Ultra-refined Clorox... a patented product developed through years of research by Clorox scientists. Ultra-refined Clorox is free from caustic ... even more trustworthy for white and color-fast cottons and linens... even more efficient in reducing household infection dangers... even gentler and more effective in personal use—it is pure, safe, dependable. It represents a positive advance in the science of housekeeping, giving you exclusive values obtainable in no other product.

**In Bleaching...** Ultra-refined Clorox has an added gentle efficiency in making white cottons and linens not just white but snowy-white (brightens fast colors)... it gives them fresh-smelling, hygienic cleanliness... and Clorox is kind to your most precious cottons and linens.

**In Removing Numerous Stains...** Ultra-refined Clorox removes such stubborn stains as fruit, berry, beverage, flower, grass, blood; many ink, dye, medicine and other stains—even scorch, mildew—from white and color-fast cottons and linens with added safety.

**Intensified Efficiency in Disinfecting and Deodorizing...** Ultra-refined Clorox has faster germicidal action. In routine cleansing it makes tile, enamel, porcelain, linoleum and wood surfaces hygienically clean... deodorizes as it disinfects... assures Greater Home Health Security.

**Ultra-refined Clorox** combines a greater safety factor with added efficiency for household and personal uses. The extra qualities of Ultra-refined Clorox cost you nothing extra. And Clorox is economical in use; a little goes a long way. Simply follow directions on label. Always order by name... be sure you get Clorox.

*Ultra refined* CLOROX... BLEACHES · DEODORIZES · DISINFECTS · REMOVES NUMEROUS STAINS... Even Scorch, Mildew
