COMMUNITY PLANNED FOR CHICAGO UNIONS

(By Associated Press.)
CHICAGO, Nov. 14.—The "community of interest" plan is being taken up by the International Association of Machinists and the United Metal Workers, which come close together in the 500 machine shops in Chicago.
The "handy man," who is common in shops of the smaller size, formed a bone of contention between the organizations. He was able to work as a machinist or as a metal worker as the occasion demanded, and his dual capacity led to disputes over jurisdiction.
An agreement had been ratified in the Chicago district, which takes in all the territory within a radius of twenty-five miles from the city hall, whereby the two unions now plan to take in every man employed in a machine shop, no matter what his work.
The new plan will do away with friction which has seriously embarrassed contractors. On several occasions the differences between the two unions have resulted in costly delay to buildings, as well as strikes in machine shops.

A NEW METHOD OF SMUGGLING ALIENS

(By Associated Press.)
NEW YORK, Nov. 14.—Charged with smuggling aliens into the United States by a method unique and ingenious, Auguste Meier, chief baker on the steamship Roma, has been placed in jail here. Arnold Cappa, an Italian alien, is detained by the immigration authorities, and federal officers are searching for other immigrants who are alleged to have landed illegally. The Roma arrived from Naples and Genoa last Sunday.
According to Cappa, the baker offered for 25 lire to dress him in white cape and apron, the regulation baker's garb, so that he could land without having to undergo official inspection. Cappa says he and four other aliens took up the offer. The immigration officers passed them as members of the crew.
Reaching the Italian colony Cappa got lost and began to ask questions. Going back toward the ship he innocently told his tale to a customs inspector and was immediately detained. On his affidavit the French baker was arrested.

PENITENTIARY FOR ST. LOUIS
MILLIONAIRE BRIBER

THREE YEARS FOR BUTLER

Jury at Columbia, Mo., Arrives at a
Decision in Famous Boodling Case
After a Short Trial—Testimony In-
troduced in Butler's Behalf Avoided
Nothing

(By Associated Press.)
KANSAS CITY, Nov. 14.—A special from Columbia, Mo., says that the jury finds Butler, charged with attempted bribery, is guilty as charged. A penalty of three years in the penitentiary was fixed.

Col. Ed Butler, a millionaire politician and widely known. He was charged with attempting to bribe Dr. Chapman of the St. Louis Board of Health for influencing his vote on the endorsement of a garbage contract with the city.
T. H. Hickman, foreman of the jury, says that the verdict was reached on the first ballot.

FORMER PRESIDENT GETS A LOVING CUP

Surprise For L. M. Fouts Who Resigned
Office at Head of Mineral Wells
and Northwestern

(Special to The Telegram.)
WEATHERFORD, Texas, Nov. 14.—L. M. Fouts, who for the last twelve years has been president of the Weatherford, Mineral Wells and Northwestern railway company, was presented yesterday with a loving cup by his former employees.
Mr. Fouts was so surprised and over-come by emotion for a few moments that he could scarcely express his gratitude, and with tears in his eyes he said:
"I appreciate fully the sentiment expressed in a loving cup, and every time I see it, I will see the faces of the boys who have been with me so long, and I thank you all from the bottom of my heart."
The cup is of solid silver, lined with

pure gold. It is nine inches high, mounted on a four inch ebony pedestal. It has three handles and three panels. It is a gem of the silversmith's art, bearing the artist's proof signature of the designer.

On the first panel appears this inscription: "Presented to L. M. Fouts as a Token of the Affectionate regard and Appreciation of the Employees of the Weatherford, Mineral Wells and Northwestern railway Company."

The second panel contains a facsimile of the Weatherford, Mineral Wells and Northwestern Railway Company's hexagon trademark, wrought in solid gold.

The third panel bears the date of his resignation—"Weatherford, Texas, October 15, 1902."

Mr. Fouts is so proud of the cup that he would not allow it to be packed for shipment until his departure for New York, which will be several days hence.

VAST CAVERN IN MEXICO

Traces Found in Old Stone Tablets in
Museum at City of Mexico Leads a
Party to Search—Treasure and
Articles of Great Actual and His-
torical Value Found

(By Associated Press.)
HERMOSILLO, Mex., Nov. 14.—A remarkable story duly authenticated of the discovery of hidden Aztec treasure has just been reported to the government authorities at Tepic by Rev. Pablo Martino the parish priest of Yesca.

The priest makes a statement which is concurred in by several reliable witnesses that a party of Americans headed by an archaeological expert arrived at Yesca several weeks ago and went from that place to the mountains accompanied by three Mexican guides. The archaeologist found his way by means of a chart which he claimed to have copied from an Aztec stone tablet in the National Museum in the City of Mexico. He located a vast cavern in a mountain near Yesca. Immense stone images stood about this chamber. In one end was a handsome altar, above which burned a bright flame, supplied by natural gas from a crevice in the wall.
In a chamber adjoining the main temple was found a great store of ornaments and utensils belonging to the Aztecs or some other prehistoric race.

Twelve burros were required to transport the articles taken from the cave to San Blas where they were shipped to San Francisco accompanied by the Americans.
As such articles cannot be removed from Mexico without the consent of the government an investigation is in progress.

Failure Due, It Is Said, to Lack of
Quick Assets—Appeal Was Made to
the Boston Clearing House, but It
Wasn't Deemed Advisable to Inter-

(By Associated Press.)
BOSTON, Mass., Nov. 14.—The Central National bank of this city did not open for business today, the comptroller of currency having ordered the bank examiner to close its doors and take charge.

The closing of the bank is said to be due to an excess of loans and a lack of quick assets. An appeal was made to the Boston clearing house association, but the committee did not deem it advisable to assist the bank.
It was among the smaller institutions of the city. Organized in 1873, it had a capital of \$500,000. Its deposits aggregate \$1,500,000, and it is believed that amount can be paid in full without assessments on the stockholders.

WOMEN'S CLUB PLANS DINNERS

TO SERVE HOT LUNCH TO STUDENTS OF THE CITY SCHOOLS

TO BEGIN NEXT WEEK

Idea Suggested at Meeting of Domestic Science Branch of Women's Department Club Meets With Enthusiastic Approval and Steps to Its Accomplishment Will Be Taken.

"Corn bread and sausages must go."

While the above is not the exact wording of the motto adopted by the Domestic Science branch of the Women's Department club, which met yesterday in the rooms of the free kindergarten, it is the spirit of the meeting. A plan to serve hot lunches every noon to the children of the city schools who have only a half hour's recess at that time, is the direct outcome of the meeting. The ladies expect to put it into execution next week.

The nine ladies who were present at the meeting yesterday and who are at the head of the project are as follows: Mrs. S. M. Hudson, president of the Domestic Science branch; Miss Belden, who has charge of the free cooking school; Mrs. Emma Fakes, Mrs. Nat Grammer, Mrs. Goetz, Mrs. Armstrong, Mrs. Boaz, Mrs. Hammon and Mrs. Yeats.

To Serve Double Purpose
The difficulty which has been the subject of some complaint in the matter of having only a half-hour for luncheon at the city schools and thus virtually compelling the children to eat cold lunches, was largely responsible for the movement.

An opportunity to demonstrate that a nourishing and satisfactory hot lunch can be served cheaply was as much of a factor in deciding the ladies to adopt noon in the basement of the High school.

Briefly, the intentions of the ladies is to begin the work next Wednesday school building by assisting Miss Belden of the cooking school, serve hot soup and accessories to the pupils at five cents per bowl. After the first attempt the ladies will be better fitted to judge their future course.

They would like to introduce the plan into every school building of the city.

One of the ladies, in discussing the matter, said this morning that the cold and unwholesome lunches which children eat at the public schools of the city will soon give us a population of chronic dyspeptics.

The children cannot get home to warm dinners, so the only solution is to get the warm dinners to the children.

It means a good deal of work and some expense, but the ladies hope to raise enough from the low price charged to pay the expenses. Their trouble and time are donated for the good of the work.

Vote of Thanks
The ladies decided at their meeting yesterday to return a vote of thanks to the merchants who assisted in the equipment of the cooking school by donating the different parts of furniture, light, water, etc.

To Give Demonstration
Miss Belden has made arrangements to give a demonstration at the Sixth ward school building at 3 o'clock p. m. the last Tuesday of the month, on the proper kind of lunches for school children. A number of ladies are interested in the meeting and will endeavor to have a large audience present, as the talk will be practical and interesting.

The ladies of the Domestic Science branch are going after their fields for their work in earnest and expect to accomplish much definite good by the first of the new year.

ADDITIONAL CITY BRIEFS

Keystone Chapter No. 9 will install officers tonight at Masonic Temple. All visiting members of the order invited.
Emmons Rolfe, postoffice inspector, leaves tonight for Nebraska City, Neb., to attend the funeral and burial of an uncle, D. P. Rolfe, who died there this morning. The trip will be a peculiarly sad one for Mr. Rolfe, deceased being a favorite uncle.

Joe M. Collins, bookkeeper for John Homan, accompanied by his wife, has gone to Yellow Pine, Ala., in response to a telegram announcing the serious illness of his mother.

Deputy Sheriff Joe McDuff is "telling things" about the court-house and offers to make affidavit to any one or all of them. He has just returned from a trip to Canadian City, and while there he went hunting. He declares he made a record of 147 prairie chickens in five hours.

Marriage licenses have been issued to B. Gilbert and Miss Ida Hughes, J. H. Thomas and Miss Clara Hughes.

LANHAM PICKS THEM OUT
AUSTIN, Tex., Nov. 14.—Governor-elect Lanham announces his appointments tomorrow afternoon and will leave for home Sunday.

CORSICANA, Tex., Nov. 14.—Lightning struck the home of J. F. Craig in Rice yesterday and tore off the shingles and pierced the wall and floor. Nobody was hurt.

A Cotton Belt section hand took shelter from the rain in a box car late yesterday and as he jumped out a ring on his hand caught on a nail and jerked his little finger off at the second joint.

(By Associated Press.)

WELLINGTON, New Zealand, Nov. 14.—The British survey steamer Denguin has picked up a raft belonging to the British steamer Elingamite which was wrecked on one of the Three Kings Islands off the north coast of New Zealand, Nov. 9. On the raft were eight survivors and the bodies of eight others of the company of the wrecked vessel. The survivors are doing well.

BURGLARS WORSTED IN BATTLE AT NIGHT

MEET WARM RECEPTION IN OPERATIONS IN OHIO TOWN

Make an Attack on the City Marshal. Later Enter a Private House and When Owner Gets Through One of Them Has No Head and the Others Are in Full Flight

(By Associated Press.)

ELYRIA, O., Nov. 14.—Four burglars held up and shot the city marshal here at an early hour today. Subsequently the burglars, attempted to rob the house of W. J. Miller. The latter awakened and opened fire on the quartet. One of the robbers was killed and the remaining three escaped. The dead robber's head was blown completely off. The marshal was wounded in the hip.

SAYS SENATOR WILSON WILL REFUSE OFFER

Judge H. G. Lary of Texarkana Gives Predictions on Appointments of Governor-elect Lanham.

Senator Wilson of Texarkana, who is prominently discussed as the man whom Governor Lanham will appoint to the office of Secretary of State, was in the city yesterday. He had a long conference with Judge H. G. Lary, also of Texarkana, who is here for a few days, and as a result of this meeting it can be stated he will not accept the offer of the secretaryship, even if it be made to him. Judge Lary said today that Wilson does not want the office, but desires something better.

Judge Lary further said that, while nobody but Governor-elect Lanham can say just what will be done with the many applicants, Judge Stevens of Hillsboro will assuredly get the position of superintendent of the Confederate Home. Jeff McLean of this city will get some good position as a reward for his campaign work. Justice Mullins of this city will be sergeant-at-arms in the Senate chamber. Wadleigh will undoubtedly be appointed superintendent of the penitentiary. Discussing appointments generally, Judge Lary said that he favors the appointment of the younger men to positions which require active service and that the older men who have had more or less political experience should be willing to accept this order of things.

It is said on good authority that Senator Wilson will run for the office of railroad commissioner, this being the "good thing" he prefers to a secretaryship.

TRADES ASSEMBLY IN SESSION LAST NIGHT

A meeting of the Fort Worth Trades Assembly held last evening was well attended and the usual amount of regular business was disposed of. Delegates Dan Zook of the barbers, W. A. Meyer and J. C. Patterson of the tailors, and J. W. Stine, Sam Anderson and S. J. Thompson of the team drivers unions were seated, their credentials having been read.

It was decided to invite International President Innis, of the team drivers' union, to come to this city.

The matter of the Fort Worth Labor Temple was presented and discussed and Delegate F. C. Southern to the meeting of the State Federation of Labor, which meets in Houston next month, received instructions regarding the matter.

BOARD OF TRADE GROWING FAST

SIXTY NAMES ADDED TO ROLL BY YESTERDAY'S CANVASS

NO WORK WAS DONE TODAY

Half a Dozen New Members Volunteer, However, and the Membership List is Growing Rapidly—Members are Jubilant Over the Results of the First Days Work

A. J. Long, John B. Lanier, The Columbia, S. M. Furman & Co., William G. Newby, J. K. Winston, George Q. McGowan, Norman E. Nelson, Dr. W. E. Duncan, Tillman Smith, H. M. Chapman, The National Lumber Co., H. Tanner, Orrick & Terrell, Childress & Coulson, E. H. Keller, the Buggy Man, John W. Wray, R. H. Standley, M. G. Ellis, D. T. Bomar, Wadsworth-Cameron Co., M. R. Sanguiet, Paul Waples, C. T. McIntosh, Winters-Daniels & Co., Fosdick & Mitchell, Carlock & Gillespie, Lee Fleming, A. J. Anderson, Martin Casey, J. A. T. Evans, R. W. Flournoy, Neil P. Anderson & Co., Thomas D. Ross, C. W. Childress & Co., W. H. Ward, Roy & Leffler, Jewelers, W. J. Fisher, James Harrison, F. H. Collins, Ben J. Tillar, John D. Kane, H. C. Pettigrew & Co., W. C. Stripling, Texas Improvement and Transfer Co., A. E. Newell, T. R. James & Sons, W. A. Darter, N. A. Cunningham, Stanley, Spoonst & Thompson, Brown & Vera, Sam Davidson, H. T. Huey, W. B. Harrison, W. F. Sterley, D. Boaz, K. M. Van Zandt, S. R. Bains, George Mulkey, Gernsbacher Bros.

The above 60 names have been added to the membership roll of the Fort Worth Board of Trade as a result of the first day's canvass of the committee of five. The committee started at 10 o'clock yesterday morning and worked until 6 o'clock last evening. They went over only part of the territory assigned to them.

When Capt. B. B. Paddock got back this morning from a short business trip to Waco, he hardly recognized the membership roll, it had grown so large.

"I knew they'd do it," was his comment and the first day, at least, is more than abundant justification of the plan advocated by J. W. Spencer and Secretary Paddock at the meeting Tuesday evening.

Of the 60 names, 50 are brand new members, business men who have never been associated with the Board of Trade before. That is getting in new blood with a vengeance. It means an assured income of at least \$125 per month more than last year. Of the 42 names on the roll before the canvass began, about six were new members, leaving but about 36 old members who had signed their names for another year's membership. Since yesterday's canvass was completed, at least six volunteers have called at the office of the Board of Trade and signed membership blanks, making the total membership of the Board up to this afternoon 108. Of these 108 men who have pledged themselves to work for the city's interests, 72 are new members. The campaign so far is a success.

No committee went out today as Captain Paddock was not in the city early enough this morning to call one together.

This afternoon at 3 o'clock Captain Paddock had secured the committee of five who will go to work tomorrow morning at 10 o'clock soliciting more members. It is composed of the following: Paul Waples, W. T. Maddox, Jacob Washer, J. Z. Wheat, B. B. Paddock.

It will be fashionable these days to join the Board of Trade.

COULDN'T GO AGAINST THE BIG AIR BLANKET

TRADES ASSEMBLY IN SESSION LAST NIGHT

A big area of high barometer, lingering over the east coast of Florida, checked the cold wave head southeastward last night and deflected its course to the northeast instead.

This "high" acted as a blanket, as it has more than once. Observer Reeder of the local station, by the way, was the first man in the weather bureau service to call the attention of the weather bureau to the peculiar effect of this blanket and he felt quite safe yesterday when freezing temperature threatened, because he knew it wouldn't come.

Today couldn't have been better. Mr. Reeder looks for warmer weather tomorrow. Tonight he looks for shooting stars.

WERE CUSTOMERS YESTERDAY AT OUR GREAT FACTORY SALE OF HIGH GRADE

Pianos

FORT WORTH ALSO FURNISHED BUYERS.

AND IT LOOKS AS THOUGH ALL THE INSTRUMENTS WILL BE SOLD BEFORE NOV. 22.

IT IS QUALITY, PRICES AND TERMS THAT CUSTOMERS APPRECIATE, EASY PAYMENTS EXTENDED TO THOSE WANTING TIME.

The large number of pianos that we have sold in the last few days has been no surprise to us, for we knew when the people found out that they were actually saving from one to two hundred dollars in the purchase of a high grade piano by buying of us during this factory sale, they would avail themselves of the opportunity.

It seems unnecessary to quote prices here, but as an example to show how every piano is marked in plain figures (from which there is no deviation) we offer the following:

New and full scale pianos in beautiful cases, three pedals, and modern in every respect, regular price \$350, our factory price \$197.
Regular \$440 uprights, in double veneer cases, ivory keys and strictly high grade, our factory price, \$247.
We give you a factory guarantee good as a government bond, with each instrument. Your credit will buy as low as cash—one price to all—and that price actual factory cost, with freight added.

Sale now going on at 300 Main street, corner Second. Concerts on our electric player every day and night. Store open until 9 p. m.

(By Associated Press.)
SCRANTON, Nov. 14.—President Mitchell, of the Mine Workers' Union, sent another statement to the strike commission today. It is a strong defense of the miners' position.

"CANNON BALL" IN WRECK AT ABILENE

(Special to The Telegram.)

ABILENE, Tex., Nov. 14.—The west-bound cannon ball on the Texas and Pacific was wrecked a mile and a half west of Abilene at 5 o'clock this morning. The engine stayed on the rails, while the tender of the train was smashed to pieces. The baggage and express cars were smashed and thrown across the track. The smoker was thrown off to the right of way. The day and chair cars did not turn over

and the two sleepers were not derailed. Fireman Weeldon of Big Springs, was dangerously bruised. Baggage-man Nash of Fort Worth had his left wrist and right hand cut by flying glass. His right leg was hurt, but not thought seriously. T. G. Moore, of Bonham, had his back hurt, but it is not known how seriously. No other serious hurts. The track will be ready for traffic at 5 p. m. today. The wreck was caused by spreading rails.

GIRL IN DYING CONDITION; SWALLOWS ACID

Laura Blum, an inmate of Madam Clifton's house, last night about 7 o'clock swallowed a quantity of carbolic acid. She was given immediate attention, medically and otherwise, but within a very few minutes from the time she swallowed the poison she was unconscious. Every effort was made to bring her around, but she remained unconscious until about 2 a. m. She rallied only for a short time, vomiting severely in the meantime, then collapsed again.

Early this morning Madam Clifton had her taken to St. Joseph's infirmary. At 2 p. m. today it was announced that she could not recover.

Nothing of her family history is known by the inmates of the house.

A Secret Disease

Of all human diseases, that known as contagious blood poison, or the Bad Disease, has caused more misery and suffering and ruined more lives than all others combined. It not only wrecks the hopes and aspirations of the one who contracts it, but often the innocent are made to share the humiliation and disgrace of this most loathsome and hateful form of blood poison. Children inherit it from parents, and thousands of the purest men and women have been contaminated and ruined simply through handling the clothing of one infected with this awful malady, or drinking from the same vessel and using the same toilet articles. And when the real nature of the trouble is known, many prefer to suffer in silence or leave the disease to do its worst rather than make known their condition.

Through our Medical Department we offer advice and help. Write us freely about your case, as nothing you say will ever go beyond our office. Let us help you to get rid of this fearful disease, for which some one else no doubt is to blame. It matters not how long the poison has been lurking in your system, S. S. S. will purify and build up your blood, and eliminate every atom of the deadly virus from the system and make a complete and permanent cure.

S. S. S. is the only antidote for Contagious Blood Poison and has been curing it for fifty years. It contains no mercury, potash or other harmful mineral ingredients, but is a purely vegetable remedy that cures without leaving any bad after effects.

Our special Home Treatment book, gives all the symptoms of this disease. We will mail you a copy free.

ALL IS READY FOR THE HUNT

PRESIDENT AND PARTY ARRIVES IN MISSISSIPPI

HAVE GONE INTO CAMP

The Arrival of the Distinguished Party Is the Sensation of the Century For the Inhabitants of That Part of the State and Both Whites and Blacks Gather to See

(By Associated Press.)

Smodes, Miss., Nov. 14.—President Roosevelt and his party arrived here shortly before 4 o'clock Thursday afternoon and in their hunting togs started for the camp on the Little Snowflow river. As the distance is about fifteen miles, and the trail is rough and bad, the chances are that it was after dark before they reached the camp.

Smodes is simply a siding on the Yazoo and Mississippi Valley railway, where cotton is loaded from the big Smodes plantations. A plantation store and the residence of one of the managers are the only structures except negro cabins within sight. Work on the neighboring plantations was suspended and several hundred negroes were at the siding when the train stopped. Most of the men sat on the cotton bales, but the black mamies and the pickinnees stood along the track. They showed their white teeth in hard grins, but made no other demonstrations as the president stepped from the train. He was clad in a hunting costume, kahaki riding trousers, heavy leather leggings, blue flannel shirt, corduroy coat and wore on his head a brown slouch hat; around his waist he buckled his cartridge belt and at his side hung his ivory handled hunting knife. Other members of the party also wore hunting suits. While the guns, blankets and other small baggage were being loaded into a four-mule wagon, the president chatted with the manager of the Smodes estate and, two ladies, who were great admirers of him, and who had come especially to greet him.

When all was in readiness the members of the party, except Mr. Fish and Mr. Dickinson, mounted small wiry tough looking horses, and dashed away for the woods at a breakneck canter. The president's mount was a black horse. He did not look spirited, but it was explained that he was just the sort of animal needed to force a way through the dense undergrowth. Mr. Fish and Mr. Dickinson were too heavy to ride horseback and followed the others in a buckboard drawn by two mules.

Two disappointments met the president here, the first one was that Mr. Mungin, who had had much to do with arranging the hunt, was too ill to proceed to camp, and the other was the story which came back from camp that in trying the pack of hounds half the dogs had gone off after a deer, which was jumped while Hoke Collier was on the trail of a bear. As there are only twenty-two dogs in the pack the split is very disquieting. Mr. Mungin, as soon as he heard of this accident put himself in communication with Boho, a famous bear hunter, who has a fine pack of forty-five dogs on his place about 100 miles north of here, at Bono Station.

CLEBURNE CELEBRATES ARRIVAL OF TRAIN

(Special to The Telegram.)

Cleburne, Tex., Nov. 14.—Engineer John George, on the construction train of the Dallas, Cleburne and Southwestern railroad, arrived at the depot of this road at 11 o'clock Thursday morning. The whistle on the engine blew continuous blasts. The flouring mill took up the blowing, and then an alarm of fire was turned in. For a time pandemonium reigned. The "golden" spike was driven by President Myers and the arrival of the first train over the new road into the city resolved itself into a first-class celebration.

Buildings Burn.

Pottsboro, Tex., Nov. 14.—Thursday morning at 1:30 o'clock fire broke out in the kitchen of Mr. Walker's restaurant. The following are the losses: W. C. Mr. Walker's loss on restaurant, on goods and fixtures, is \$400; partially insured.

Stopped the Machinery.

Paris, Tex., Nov. 14.—While Forest Hinton, a young man employed at a gin three miles west of Enloe, Delta county, was attending the gin, Tuesday one of his arms was drawn into the saws and was cut to pieces up to the elbow. The machinery was stopped by the mangled arm choking the saws.

GETTING DOWN TO BUSINESS

DAUGHTERS OF CONFEDERACY AT NEW ORLEANS

SEVERAL REPORTS MADE

Mrs. Worcester of Ohio Said That Through Her Efforts Southern Histories Were Introduced in the Schools of That State — Rising Vote of Thanks Tendered Her

(By Associated Press.)

New Orleans, Nov. 14.—On Wednesday the Daughters of the Confederacy met in annual session.

At 10 o'clock yesterday the convention settled down to work in earnest.

There was a brief meeting of the directors of the Jefferson Davis Monument association.

Reports from the various divisions were received and their reading consumed much time.

At Thursday's session several of the ladies spoke. The second day's session of the ninth annual convention of the United Daughters of the Confederacy was opened this morning shortly after 10 o'clock. Before calling the meeting to order Mrs. Rounsaville introduced the Rev. Father Lawton, S. J., who delivered a prayer.

The regular business of the session was then opened and Mrs. Thomas read greetings from junior organizations of Tennessee, Virginia and Kentucky. A number of interesting reports were read showing the progress made by the society in the different states having delegates present at the convention.

Mrs. Thos. W. Worcester of Ohio said through her efforts southern histories were introduced in the schools in order that Ohio children might learn both sides of the story of a war. A rising vote of thanks was tendered to Mrs. Worcester for her splendid work.

Mrs. H. A. Winder, of Columbus, O., told of the work at Camp Chase cemetery, to which flowers from all over the south are sent on Memorial day. Owing to the length of some reports and the failure to enforce the rule limiting them to ten minutes many were left over to be read at the afternoon session. Those remaining consumed the time until adjournment. The announcement from Georgia that \$6000 for the Winnie Davis memorial had been raised through the Daughters was greeted with applause. Mrs. Robert T. Meade reported for the grand division of Virginia, Mrs. M. Sherry for West Virginia, Mrs. W. C. H. Merchant of Virginia, Mrs. Connor for South Carolina and Mrs. Hubber in the absence of Mrs. Adelia A. Duncan for Florida. The annual greeting was given Mrs. Laura Dugan who bore greetings from the chapter of Los Angeles, Cal.

There was an impromptu reception to Gen. W. L. Dabell of Texas, and his daughter, Mrs. Kate Cabell Currie.

A NEW TOWN FOR NEGROES EXCLUSIVELY

Ozark Is Its Name and It Is Situated in the Creek Nation in Indian Territory West of Okmulgee

(Special to The Telegram.)

Denison, Tex., Nov. 14.—Lincoln is the name of a new town on the Ozark and Cherokee Central railroad, twenty-five miles west of Okmulgee, Creek nation. It is designed exclusively for negroes. THROWN FROM FIRE TRUCK

Ladderman Frank Smith Meets with a Serious Accident While Answering an Alarm—His Story of the Events that Followed.

While on its way to a fire the sudden jolting of the hook-and-ladder truck threw Fireman Frank Smith from his position on the running board. He struck the pavement head-first and was still unconscious when brought to the hospital. It was feared by the house physician that he had received internal injuries which might prove fatal.

Smith is stationed at the Central Fire Station, corner Fifth and Valley streets, Burlington, Ia., and in referring to the accident, he said to a reporter: "My whole system had received a violent shock which affected my nerves fearfully. The doctor said I had nervous prostration. I would often start trembling out of a troubled sleep, covered with a cold perspiration, and imagining something horrible was about to happen. There would be terrible cramps in my limbs. For a long time after leaving the hospital I was so weak that I could not walk across the room and my strength steadily refused to return. I could not eat and the tonics and appetizers they gave me did me no good. I was too sick to go on duty and the doctor said it would take a long time to recuperate. I was discouraged and disheartened."

"Then a friend persuaded me to 'take Dr. Williams' Pink Pills for Pale People.' They gave me strength, quieted my nerves so that I could get a refreshing night's sleep, my appetite came back and I soon began to feel better. In a short time I was cured and now I feel perfectly well and strong."

Dr. Williams' Pink Pills for Pale People have a double action—on the blood and on the nerves. It is not claimed that these pills are a cure-all, but the very nature of the remedy makes it efficacious in a wider range of diseases than any other. It is a scientific preparation designed to cure disease through a direct action on the blood and nerves.

At druggists or direct from the Dr. Williams Medicine Company, Schenectady, N. Y., on receipt of price, fifty cents per box; six boxes for two dollars and a half.

ANNUAL SESSION OF BANKERS ADJOURNED

The Indications Are That San Francisco Will Secure the Convention To Be Held Next Year

(By Associated Press.)

New Orleans, Nov. 14.—The third day's session of the American Bankers' association resumed matters pending previous day.

California invited the convention to meet next year at San Francisco, and Washington state invited them to meet at Seattle.

The American Bankers' association Thursday concluded its three days' session and indications point to San Francisco as the next place of meeting. The selection will be made at the meeting of the executive council next April in New York. The new officers were elected and installed. In addition to those presented in the convention the executive council at a meeting that was held elected E. F. Swinney of Kansas City chairman of the executive council; Geo. F. Orde of Chicago, treasurer and Jos. G. Brown of Raleigh, N. C. to membership on the executive council in place of Mr. Bigelow.

The formal invitation of San Francisco was engraved on a solid gold plate five by four inches.

The only address on the program Thursday was that of Congressman Theodore E. Burton of Ohio who discussed "Financial Crisis."

Under the resolution of Mr. Sullivan, which was adopted, the president will appoint seven men to investigate the currency question and submit a solution at the next session. The committee will be announced by President Hardy at a later date.

Thursday night all the special trains left, though many of the bankers and their wives stayed over for a few days. Some are going to Texas.

The nominating committee, composed of the delegates from the different states, submitted for president Mr. Caldwell Hardy, president of the Norfolk National bank of Norfolk, Va. For first vice president, Mr. Frank G. Bigelow, president of the First National bank, Milwaukee, Wis.

For the executive council, John Skelton Williams, president Richmond Trust and Safe Deposit company, Richmond, Va.; W. T. Fenton, cashier First National Bank of the Republic, Chicago; D. Sloan, president of the Lonaconing Savings bank, Lonaconing, Md.; Arthur Reynolds, president Des Moines National bank, Des Moines, Ia.; and James T. Hayden, president of the Whitney National bank of New Orleans.

The nominating committee, composed of the delegates representing the state associations, presented the following names as members of the executive council:

A. H. Wiggins, vice president National Park bank, New York city; Chas. L. Farrell, assistant cashier of the Capitol National bank, Indianapolis; A. V. Lane, cashier National Exchange bank, Dallas, Tex.; Luther Drake, cashier Merchants National bank, Omaha; Neb.; A. A. Crane, cashier National Bank of Commerce, Minneapolis, Minn.

The new officers were installed and Geo. H. Russell of Detroit on behalf of the association presented retiring President Herick with a beautiful silver punch bowl.

SENSATION IN A COURT ROOM

REMARKABLE EVIDENCE INTRODUCED IN CASE

LIVE FROG ON THE STAND

They Give Him Strychnine Taken From the Liver of a Boy Whose Alleged Poisoner Is Now on Trial for His Life—The Frog Died in Convulsions

(By Associated Press.)

Camden, N. J., Nov. 14.—A frog was poisoned in court Thursday to show a jury the agonies of a human being dying as a result of being poisoned with strychnine. Paul Woodward, who is alleged to have lured two boys, Brice Jennings and Paul Coffin, from this city into the woods, and having caused their deaths with strychnine, was on trial, and Prof. Marshall of the University of Pennsylvania was testifying. He took some of the poison extracted from the liver of Paul Coffin and forced it into a live frog. The jury and the court became intensely interested and in a few minutes the frog went into convulsions. The professor explained the action of the drug as the frog writhing exhibited all the agonies the boys had suffered as they had expired. The experiment caused a sensation in the court room.

CARACAS IS AGAIN MADE THE CAPITOL

President Castro Issues a Decree Making It the Seat of Government for Venezuela

(By Associated Press.)

Caracas, Nov. 14.—The official Gazette published a presidential decree re-establishing Caracas as the capital of the republic and as the seat of executive power. The disbanding of the revolutionary forces continues. It has just become known that during the night of November 2 the government guns having discovered that the rebels were short of ammunition attacked them at midnight in their last stronghold near San Mateo precipitating the retreat which the revolutionary leaders had planned for the same morning.

The latest news regarding the whereabouts of General Matos, revolutionary leader, is that he was near Niquitao, two days' march from Barquisimeto, or three days from Tucacat on the Atlantic, the only two places from which it is possible for him to flee from Venezuela. Matos was accompanied by Generals Mendoza, Riera, Solagnie, Crespo, Torres and others. In all they had sixty horses. The government forces have captured Matos' hammock, cap and slippers, which gave a clue to the connection of Matos with the Mochist party.

HABITUAL MISCARRIAGE

(The Bane of Weakly Wives)

Is often the result of some uterine disease, but may be due to other causes, and is a source of much trouble and suffering. It deprives the woman of her health as well as of her right to a home and a family. This serious condition can be overcome and prevented by the judicious use of G. F. P. which will build and tone the parts concerned in maternity so that they will properly perform their intended functions.

"I was subject to habitual miscarriages and attended flooding and danger to life and health. I took two bottles of G. F. P. and now have a fine, healthy baby boy."—Mrs. Emma Shorter, Prospect, Iowa.

"Four bottles of G. F. P. cured my wife and now we have a fine baby boy."—Orville Rice, Gardfield, Mo.

"I recommend G. F. P. in the highest terms, for I am now the mother of a fine, healthy baby boy, my health is improved and I am much stronger."—Mrs. Annie Hill, Prairie Point, Miss.

G. F. P.—Gerrard's Female Purifier, cures irregular, scanty, too profuse and painful monthly periods, uterine and ovarian irritations, displacements and falling of the womb; white and all unnatural discharges, freckles, barrenness and all impediments to maternity; also all associated ailments of the female organs of women. At all stages of menstrual life, from budding womanhood until after the changes that attend womanly functions, it is the best friend of and remedy for womanhood. It is sold at drug stores, and by mail, for \$1.00 a bottle. Buy it, try it, and you will find these statements are true, for it is reliable and will not disappoint.

All ladies who are not perfectly right and well in a womanly way should write to the Ladies' Health Club, 1004 E. 10th St., Chicago, Ill., for free medical advice and instruction.

TEMPORARY CHECK ON HIS CHECK FORGERIES

The man who claims C. H. Davis as his name, and who passed one forged check and attempted to get two others cashed at banks here, has come to grief at Shreveport, La., information to that effect having been sent here yesterday afternoon.

It was last week that this man succeeded in cashing a check at one of the local banks for a small amount, the check bearing the forged signatures of W. E. Huffman. Later he tried to repeat the dose, but the effort was turned down. He then tried to cash a check at the First National bank, but the cashier, after examining the check, turned it back to him, saying: "You think it is all right?"

"Oh, just a little technicality, that's all," replied Mr. Andrews. Davis then said: "All right, look it up, and I'll be back in a few minutes." He then turned and walked away.

All three checks are here as evidence against him. He, however, succeeded in cashing only one of them.

The officers were notified, a descrip-

tion given, and Chief Rea, Sheriff Clark and private officers sent out descriptions of the man.

His baggage was yet at the Metropolitan hotel. The officers requested that no publicity be made of the matter, as such would apprise Davis of their efforts to land him. Search for him was commenced one week ago today.

During the early part of this week a telegram came to the manager of the Metropolitan to send Davis' baggage to New Orleans. Chief Rea was notified of this telegram, the baggage was sent via the Wells-Fargo, and New Orleans officers notified by Chief Rea.

In the meantime, however, Davis attempted a little piece of check work over at Shreveport and was "run in." It was discovered that he fitted the Fort Worth description admirably, except that (if he proves to be the man) he had shaved off his moustache.

Sheriff Clark has taken the matter up and will probably send for him as soon as the Shreveport officers are ready to give him up.

Ex-Detective Al Ray was also working on the case, and had sent out

MOVED BECAUSE OF FOOLISH PREJUDICE

CARLSBAD, N. M., Nov. 14.—At a recent trial for cattle stealing some interesting evidence was elicited, and the character of the evidence was altogether new and unique. Judge Burney of Fort Worth was assisting the prosecuting attorney on the side of the state, Judge Burney acting for the Cattle Raisers' association of Texas, an organization pledged to protect the interests of its members. The cross-questioning by Burney ran something like this:

"Mr. J. where were you first arrested for stealing cattle?"

"Well, judge, I believe it was down the Lampasas way, but I can't recall it right now."

"Mr. J. about how many head did they accuse you of stealing at that time?"

"They said 3 head, but when they came to a showdown they could only prove that 2 were missing, and then, of course, the indictment was declared void."

"Where did you move to from the Lampasas district?"

"Down to the Uvalde country, judge."

"Were you arrested there for the same offense?"

"Yassir, a lot of low-down skunks accused me of stealing a calf jest be-

cause they found the hide in my yard."

"Where did you remove to from Uvalde, Mr. J?"

"Why, I got discontented there on account of the durned foolish animosity that there was agin me and I jest naturally went over into the territory, and I made a fool move when I did that, too."

"Why so, Mr. J?"

"Why, because over there they was so almighty particular that when a feller come into the United States district court and accused me of getting away with 6 head of cows, they jest cinched me for a good 2 years at Leavenworth, when every man in the country knew that the feller never had over 4 head in his life. It was jest a matter of prejudice pure and simple. They said my record was agin me."

Mr. J. was acquitted.

WONDERFUL GROWTH OF STEEL HIGHWAYS IN THE STATE

MANY ARE BEING BUILT

Review of the Situation Shows That Nearly Four Thousand Miles Have Been Planned Since the First of the Year

Following is a review of railroad building in Texas, published in the St. Louis Republic. It will be noted by those familiar with railroad situations in Texas that some of the roads mentioned have merely been rumored while others are merely in the project stage. The review is the most comprehensive that has yet been published.

A review of railroad construction in Texas discloses the fact that since the beginning of the year there have been planned new lines and extensions amounting to a total of 8,797 miles, of which 2,423 miles represent the plans of existing companies and 1,374 are entirely new projects, nineteen in number. In addition to this mileage, it is reported that other plans are in contemplation at various points to build amounting to a total of about 1,000 miles.

One of the most important enterprises is that of the Trinity and Brazos Valley railway, recently incorporated to build about 300 miles of line, part of which will be northwest from Hillsboro to Cleburne and Fort Worth, and part southeast from Hillsboro to Mexia, and doubtless thence to Beaumont and the Gulf. E. M. House of Austin, Texas, is chairman of the board.

The International and Great Northern railroad incorporated the Houston, Beaumont and New Orleans railway to build 335 miles from Houston via Beaumont to the Crescent City. Construction on seventy miles from Houston to Beaumont is about to begin. The International also has amended its charter to build about 300 miles of extensions as follows: Navasota to Oakwoods, 80 miles; Oakwoods to Waxahachie, 80 miles; Italy to Dallas, 25 miles; Neches to Coltharp, 45 miles; Palestine to Rusk, 30 miles; East Columbia to Bay City, 31 miles. The line from Waco to Fort Worth, 96 miles, is being completed. Another report is that the International may build southwest from Fort Worth to San Angelo, 350 miles.

The Chicago, Rock Island and Pacific railway has surveyed an extension from Fort Worth to the Gulf of Mexico, 295 miles, and the work is in progress on the first section, from Fort Worth to Dallas, 34 miles. The company has also built an extension from Jackboro to Graham, 30 miles.

The Missouri, Kansas and Texas will build from Granger via Georgetown to Austin, 40 miles, and from there probably to Lockhart, 25 miles. This system contemplates other extensions.

Orange and Northwestern

The Orange and Northwestern railway amended its charter to make extensions 150 miles from Buna to Marshall, and also 195 miles from Buna to Corsicana, besides a short extension of five miles from West Orange to South Orange. It is reported that the Orange and Northwestern and the Texas Southern will be merged with the Missouri, Kansas and Texas.

C. C. Waller, president of the Velasco, Brazos and Northern railway, of which he and associates recently obtained control, says the Manufacturers' Record, is quoted as saying that the company will build to Dallas, that a line from Haskell, fifty-two miles long will be constructed, and, if possible, the line will enter Houston. The road will run from Velasco to Dallas and thence to Haskell. Grading has been completed for sixty-three miles on the Dallas and New Mexico road.

Among the Southern Pacific projects are closing the gap in the Texas and New Orleans road from Mahli to Jacksonville, forty miles; an extension from Van Vleet through Bay City and across the Colorado river, thirty-five miles; also the Wharton branch, eighteen miles.

Among the St. Louis and San Francisco projects is the extension from Brownwood to Brady and thence to San Antonio, but it is also reported that the Blackwell, Enid and Southwestern will be extended from Vernon to El Paso; also that a line will be run from Paris to Galveston.

The Kansas City, Mexico and Orient railway, building in Texas under the name of the Panhandle and Gulf railroad, has completed 120 miles of grading in the state.

The Cane Belt railroad may build a sixty-three-mile extension to Houston, but is now building from Bay City to Matagorda and from Dunovant's spur to Garwood.

The Texas and Pacific railway reports an extension of the Natchitoches and Red river line into Shreveport, and the Weatherford, Mineral Wells and Northwestern road, control of which has been secured, may be extended to Graham and beyond, forty-five miles.

The Oklahoma and Texas Southern, to enter Texas at Spanish Fort, will, it is reported, connect with the Frisco and also extend to Houston. Work has begun between Nocona and Montague. W. A. Squires, of Henrietta, Texas, is president.

Houston and Texas Central
The Houston and Texas Central has an extension from Burnet to Lampasas, twenty-three miles, and is also reported to plan other construction.
The Choctaw, Oklahoma and Gulf

completed its line into Amarillo.
The Texas Central built an eleven-mile extension from Ross to Waco.
The Atchison, Topeka and Santa Fe railway is extending the Gulf, Beaumont and Kansas City railway northward from San Augustine to Center, about twenty miles, and will, it is reported, build to Shreveport. It is further reported that the Gulf, Colorado and Santa Fe will build south from San Angelo.

The St. Louis Southwestern railway has an extension between Carrollton and Dallas, twelve miles, and it is also reported that the company will build from Lufkin to Beaumont.

The Northern Texas Traction Co. built from Fort Worth to Dallas, about thirty-two miles, and will, it is reported, build ninety-three miles additional from Fort Worth to Cleburne, to Waxahachie, to Dallas. Another electric line from Cleburne to Fort Worth is that in which W. D. Meyers, W. A. McDonald, Paul Nelson and others are interested, to build fifty miles.

P. N. Moran of Detroit, Mich., and S. White of Windsor, Ontario, are reported as proposing a line from Corpus Christi to Brownsville, 165 miles.

Other incorporations are the Seguin and Northwestern railroad, from Seguin to New Braunfels and San Marcos, forty miles, by C. E. Tipton and T. H. Baker; the Central Texas Traction company, by A. T. Byers of Fort Worth and others, to build fifteen miles of an electric line from Waxahachie to Ennis; the Belton and Temple; the Beaumont, Port Neches and Port Arthur Electric railway, by C. E. Baker, general manager, to build twenty-five miles; the Trinity, Corian and Northwestern railroad, to build from Trinity to Corrigan, thirty-nine miles; the San Antonio and Crowther, by C. F. King and others; the Norisat Texas railway, by G. Munz of Texarkana and others; to build forty-five miles of line from the Red river through Cass and Bowie counties.

TO HAVE CHARGE OF FREIGHT
Territory Under Jurisdiction of F. E. Holden Is Outlined

The Rock Island has issued an official circular announcing the appointment of J. F. Holden as assistant freight traffic manager of the system with office in Chicago. Mr. Holden, now freight manager of the Chicago and North Western, will have special jurisdiction over freight traffic to and from Texas, New Mexico, Arizona and the Pacific coast, and the Republic of Mexico. J. N. Johnson, third vice-president and freight traffic manager, who made the appointment, was at the St. Louis headquarters yesterday.

STILLWELL GETS ANOTHER MAN

Former Assistant General Manager of Northern Pacific Joins Him

J. T. Odell, formerly assistant general manager of the Northern Pacific railroad, has been elected a member of the board of directors of the Kansas City, Mexico and Orient railroad. It is said that Mr. Odell will go to the Orient road later in an executive capacity.

YIELD TO THE SWITCHMEN

Railroads Give In to Avoid a Threatened Strike in Chicago

(Special to The Telegram.)
CHICAGO, Nov. 14.—In order to save themselves from the effects of the Brotherhood of Railway Trainmen, four of the eighteen Chicago railroads have entered into agreements with the Switchmen's union of North America, a recently organized rival of the brotherhood.

C. L. Egell, an official of the switchmen's organization, says he has secured agreements with the Chicago Great Western, the Terminal Transfer company, the Illinois Central and the Rock Island on a basis of 22½ cents an hour for switchmen and 23½ cents for foremen. These increases were inserted in the proposition originally made by the companies to the men, and are less than the straight five-cent raise demanded by the brotherhood.

ARE USING ZINC SCREENINGS

Frisco Is Making Many Improvements On Its Right of Way

(Special to The Telegram.)
DENISON, Tex., Nov. 14.—A gang of 125 men is at work at Wutunka, ballasting the Frisco track between Wutunka and Henrietta. Screenings from the zinc and lead mines at Joplin, Mo., are being used for ballasting. Another gang of eighty men is employed in ballasting the track at Woodville, I. T., working toward Denison. Coarse rock is first being used at the point to make a more solid foundation. The screenings will be used to fill in.

The work at Woodville is being pushed rapidly, and it is expected that the ballasting will be completed to Denison in about six weeks.

WILL BUILD INTO THIS STATE

(Special to The Telegram.)
TOPEKA, Kas., Nov. 14.—General Manager H. U. Mudge of the Santa Fe has returned from the west, where he has been inspecting the route for the proposed New Mexico cutoff. Mr. Mudge, in discussing the proposition tonight, said: "Work on the cutoff will be commenced as soon as the right-of-way can be secured. The road will not be ready for use for two years. It is intended primarily for a freight road, and the maximum west-bound grade will be about thirty feet to the mile. Eastbound there will be one pusher hill of sixty feet to the mile. The cut will be from Brazil Springs to some point in Texas to form a short line to Galveston."

AMUSEMENTS

"The Strollers" caught the crowd at Greenwall's last night and entertained a packed house for two and a half hours. Miss Marguerita Sylva, the prima donna, has a style particularly suited to characters of the part she assays. George C. Boniface lends to the part of August Lump an amusing side. John D. Gilbert is a comedian of original methods, he playing the part of jailor. With D. L. Don, Gilbert joins in chorus drooleries, which in music and business entertains. As Mimi, the ballet dancer, Lou Middleton was great and her presence on the stage at various times was the signal for outbursts of applause and she was often recalled. A pretty song, in which Miss Dorothy Hunting scored quite a decided hit, was "Could You Be True to Eyes of Blue if You Looked Into Eyes of Brown?"

There were a number of pretty choruses but unquestionably the prettiest were the "Flirtation Song" and "Look It Up In The Dream Book," given by the star, Miss Sylva, and a male chorus. In the second act, the scene being laid at a mountain hotel, followed by the "Kaiser's Bold Hussars" and "Automobile Chorus," with the opening chorus of the final act, "The Fete of the Fans."

It is seldom that so excellent a company is gathered for this circuit, but the evidences of appreciation shown last night for the play by the audience, and by the players of the audiences' demonstration was marked. Encores were numerous and responses cheerfully given.

A brief story of the plot and "plots" will be found interesting.

"The Princess Chic"
There has been a great deal of curiosity among the musical critics where-
over "The Princess Chic" opera com-
pany, which comes to Greenwall's
opera house tonight only, has appear-
ed as to the identity of Adele Stone-
man, the handsome girl with the rich
contralto voice whose magnificent ren-
dering of the ballad "The Love Light
In Your Eyes" has become such a
feature of the performance.

The secret, if such it was, came out the other day, when it was learned that Miss Stoneman's father is none other than General Stoneman, ex-governor of California, and that Miss Stoneman, besides having an enviable social position, was considerable of an heiress.

Among Miss Stoneman's possessions can be counted a fine ranch of 600 acres near Pasadena, Cal.

EDNA LOYD,
With "The Princess Chick."

It seems that when Miss Stoneman started her stage career it was with no little trepidation as to the future and for that reason she says she assumed a stage name. Her friends, however, give her credit for a good deal of modesty by saying that the real reason for her assumption of a stage name came from her unwillingness to use that of her family to gain advertising and recognition until she had proven her artistic worth.

The Black Vipers
Miss Nettie Mann, who takes the part of Jennie, the heroine of the play, is an extremely handsome young lady who made her first distinct hit in the musical comedy, "The Telephone Girl." Her clever acting, attractive dancing and general vim and go, won for her a prominent place in the affections of the public, and made such

Scene from "The Black Vipers"

a distinct impression that she at once sprang into general popularity. "The Black Vipers" will be the attraction at Greenwall's opera house Saturday matinee and night, November 15.

Hoyt's Comedies Coming
The attraction at Greenwall's opera house Tuesday and Wednesday night, matinees each day, November 18-19, will be Hoyt's successful comedies "A Stranger in New York" and "A Trip to Chinatown."
A complete production of each play, with an entire change of music, and songs which are said to represent the

One Per Cent of Quarterly Earnings of Five Texas Lines
(Special to The Telegram.)
AUSTIN, Tex., Nov. 14.—The Texas and Pacific Railroad company paid to the comptroller \$2,971.91 today, which is 1 per cent on the gross passenger earnings of the road for the quarter ending September, 1902.

The Denison and Pacific Suburban Railroad company paid \$4.73, 1 per cent on the gross passenger earnings of the company for the same quarter. The Fort Worth and Denver City railway company paid \$1,411.13 tax on its passenger earnings for the quarter.

The Texas and Louisiana Railroad company paid \$13.63 tax on its passenger earnings for the same quarter. The San Antonio and Arkansas Pass Railway company paid \$1,411.79 tax on its passenger earnings for the same quarter.

MUST CARRY CERTIFICATES

Terminal Agents in Denver Pass Strict Ruling Regarding Them

DENVER, Col., Nov. 14.—The passenger agents of the Terminal Lines association voted unanimously at their meeting here for the adoption of a law requiring all invalid passengers to have certificates from physicians giving the kind of disease they have before boarding trains.

The secretary of the association was instructed to confer with the city, county and state health officials in regard to the form of certificate which is adapted for the purpose, and as soon as this is done plans will be laid for putting the new agreement into effect. The plan was proposed by T. E. Fisher, general passenger agent of the Colorado and Southern railway.

HE COULD HARDLY GET UP.

P. H. Duffy, of Ashley, Ill., writes, "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Sold by Reeves' Pharmacy, Ward Pharmacy and Arlington Drug Co.

Those fellows up in the Panhandle are hustlers. There is always something doing to help the newspapers out a little. The other day there was a lull in the cow business and J. B. Gray of the Moon ranch traded W. C. Richards of the 3D an outlaw horse for a pint of Budweiser beer.

The wise business man places his inducements to customers in the widely circulated newspaper, like The Telegram, because he knows it pays him to make public announcements rather than to waste his time in attempting to do business by the circulation of pamphlets, booklets and the like through the mail.

Joe Curry, a respectable farmer of middle age, committed suicide last week out in the Webb community ten miles south of Arlington, by shooting himself in the head with a shotgun. Inability to meet his debts is supposed to be the cause of his rash deed. The affair is much deplored in the community where he lived. — Arlington Journal.

It appears that the negro whose confidence game of borrowing money from lawyers on the strength of giving them cases, told in The Telegram last evening, is working other places than Fort Worth. A despatch from Galveston states that a negro has worked an identically similar game on lawyers in Galveston, "touching" one attorney for \$20. The police have been unable to find him.

Inability to meet his debts is supposed to be the cause of his rash deed. The affair is much deplored in the community where he lived. — Arlington Journal.

It appears that the negro whose confidence game of borrowing money from lawyers on the strength of giving them cases, told in The Telegram last evening, is working other places than Fort Worth. A despatch from Galveston states that a negro has worked an identically similar game on lawyers in Galveston, "touching" one attorney for \$20. The police have been unable to find him.

The International and Great Northern railroad company is trying to goldbrick the people. They are showing them a railroad spike that is reputed to be 14-carat gold, which is to be driven in the last tie at Fort Worth. The Palestine picnic ought to be educated better than to think a gold spike could be driven into a hard piece of wood. What a great town Palestine would be to pull off badger fights in—Denison Herald.

The football eleven and substitutes of the University of Texas have left the state on their southern tour and will be away nearly two weeks, returning in time for the annual Thanksgiving game at Austin. According to their schedule they will play the University of Tennessee at Nashville November 15; Tuscaloosa, Ala., November 19, and Tulane at New Orleans on November 22. There were eighteen men in the party.

J. W. Winstead received a telegram this morning from his sister, Mrs. Emma McKeever of El Paso, who was here this week on her way home from a visit in Mississippi, stating that owing to a wreck on the Texas and Pacific she would be delayed 12 hours. Mrs. McKeever left this city last night at 9:20 for El Paso, after a short visit at the Winstead home here. She stated in the telegram that she was uninjured, but gave no further particulars.

A Startling Surprise.
Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year."

They regulate the kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50 cents, at W. J. Fisher, 502 Main street, and 413 Houston street.

There is no couch medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure. Sold by Reeves' Pharmacy, Ward Pharmacy and Arlington Drug Co.

The contract for the construction of the Country club building was let to Moore & Ledford. This applies only to the carpenters' work and does not include painting, steam fitting, electrical fitting, etc. This one contract covers in the neighborhood of \$12,500.

Mrs. Willard Burton will give the second of the series of talks on Greek art on "Athena Giustiniana" (Minerva Medica) in the young people's room at the Carnegie Public Library Saturday morning, Nov. 15, at 10:30 o'clock. To this all young people are invited.

Those fellows up in the Panhandle are hustlers. There is always something doing to help the newspapers out a little. The other day there was a lull in the cow business and J. B. Gray of the Moon ranch traded W. C. Richards of the 3D an outlaw horse for a pint of Budweiser beer.

Oklahoma will be admitted to state-
hood. Oklahoma will not be admitted
to statehood. Take your choice.

Texas has just furnished Nevada
with a governor. As a matter of fact
she can furnish a good man for every
state in the Union.

When murder trials come at \$500,
000 each, one can't be blamed for
wondering if the Nacogdoches way
isn't sometimes the best.

A baseball umpire has been shot in
a saloon up in Missouri. To think of
braving the dangers of the diamond
for years, only to be killed while off
duty.

Missouri is the banner corn state
this year in the average yield per
acre. That Missouri is a good state.
In many ways it reminds one of
Texas.

New Orleans certainly is having its
hands full this week entertaining the
Daughters, the Chicago Business Men,
the Bankers and the Federation of
Labor.

The Board of Trade may not be
doing all it should, but there is no
doubt it is doing the best it knows
how. The way to improve it is to
join and give it the benefit of your
advice and assistance.

According to Colonel A. A. Pope the
late of the American Bicycle company,
which went into the hands of a receiver
some time ago, furnishes a striking
illustration of the result of non-adver-
tising methods. He is quoted by a Bos-
ton paper as saying: "The cessation
of advertising killed the bicycle busi-
ness, and the way to revive it is to re-
sume that same important matter. I
thoroughly believe in it. You can see
how I feel in the matter when I tell
you that I spent \$500,000 in one year
in that sort of publicity, and that it is
my idea for the future to advertise."

There is a future for the bicycle yet,
but it will take advertising to develop
it. That it takes advertising to de-
velop anything worth developing, is a
cardinal business truth that is com-
pelling closer attention every day.

In an eastern city a magistrate gave
the doger habit a heavy blow, last
week, when he fined forty-four men
and boys \$20 each and costs for cir-
culating dogers about the streets. A
city which has pride in its appear-
ance cannot afford to have its streets
littered up that way, and Fort Worth
should set other cities in Texas a
good example. Probably the judge
did not fine those who caused the
dogers to be circulated because he
realized that they had already suffer-
ed the loss of whatever money they
had thrown away in that form of ad-
vertising.

WHAT A CITY CAN DO
Without advocating that Fort Worth
attempt municipal ownership on a
broad scale, at least not for many
years to come, if ever, one cannot help
noting what the city of Glasgow, Scot-
land has done along this line. It
stands as an object lesson to Fort
Worth, at any rate for progress and
public spirit.

In thirty years the Scotch city has
swept away its slums, built model
lodging houses, acquired a magnificent
water supply, and installed an electric
tramway system second to none, which
makes a gross profit of over £100,000
yearly.

It has laid out parks, runs its own
gas and electric lighting undertakings
and was the first municipality to have
its own telephone system.

Glasgow corporation owns profitable
markets and slaughter houses, main-
tains baths and washhouses, employs
10,000 people and possesses more than
£12,000,000 worth of property.

At every turn the Glasgwans sees
evidence of the administration of his
municipality. The libraries, museums,
art galleries, public parks, winter gar-
dens, recreation grounds—all are the
work of, or have been acquired by, the
municipality.

Its activity is ceaseless. It is al-
ways either improving its sewerage
system, increasing its water supply,
extending tramways or building hospi-
tals.

It would be just in the usual order
of things for Glasgow to make a big
profit out of its huge scheme to build
houses for the poor.

Cheyenne, Wyo., is to have a new
packing house, that of the Hammond
company, which has large interests
near Chicago. This is only a further
indication of the present order of
things. The big packers have to get
nearer the source of their meat sup-
ply. There are too much shrinkage,
uncertainty and time lost in the long
haul. That fact is going to make
Fort Worth the greatest packing cen-
ter in the United States, except Chi-
cago and possibly Kansas City, be-
cause she has the greatest field to
draw from.

There is no time like the present.
There has never been a time in Fort
Worth like the present. It's the best
time in its history for every property
owner and business man to put his
shoulder to the wheel and press the
advantage which the city now has
over all rivals for commercial su-
premacy in Texas. Join the Board of
Trade and help make Fort Worth a
great city.

A race track, with a two weeks
meeting in the early spring, would ad-
vertise Fort Worth all over the United
States, and would be of material bene-
fit to the city. It would draw num-
erous owners here to winter their
horses, which would result in expendi-
ture of a good deal of money that
now goes to New Orleans, Little
Rock and places in Tennessee and
Kentucky.

At the census bureau they have fig-
ured up the aggregate amount of pow-
er employed in industrial enterprises
in the United States and the total is
reckoned as 11,300,081 horse power.
Of course this result may be a horse
or two out of the way, but one thing
is sure and that is that the total is
nearly four times that given in the
census of 1880—only twenty years
ago.

The new serial to be begun in The
Telegram soon is a southern story,
and the writer knows his field as few
writers do. If you never read novels—
turn over a new leaf right now and
read this one. There are good novels
and bad novels; this one is a good
one.

The person who has to cross the in-
tersection of Taylor street and Jen-
nings avenue these days is entitled to
some sympathy. There is no crossing
there and the streets are a sea of
mud. It costs one five cents every
time he navigates it.

The Great Southwest

Let the Truth Be Told

Galveston Tribune: Every once in
a while Texas is visited by some na-
tional celebrity who tours the vast
empire of the Lone Star and goes
home to sing the praises of the great
state of the union and express
admiration for the boundless oppor-
tunities to be found here. Admiral
Schley is the latest of these. Now
that he is at Washington he is telling
the people of the wonderful things he
saw in Texas just as if they were
something new and had not been here
all the time.

A great party of real estate agents
recently skimmed over the state and
they, too, have wonderful tales to tell
of the resources of the state. A party
of Chicago capitalists, bankers and
business men are now in the state,
and no doubt they are being similarly
surprised and impressed.

The fact that our neighbors, in
these days of railway and telegraph,
should find conditions in Texas a re-
velation and surprise indicates that
there is something radically wrong
here. It is proof positive that Texas
should take the bushel off her light
and let it shine with all the effulgence
possible. There is small excuse for
anyone not knowing the great possi-
bilities of this state, and unfamiliarity
with its matchless resources on the
part of its near neighbors can be ac-
counted for only on the hypothesis
that the state as a whole has failed to
let the truth be known.

Another Old Texan Dead
Austin Tribune: The funeral of the
late John B. Stone, who died yester-
day at the Confederate Home, took
place at 10 o'clock this morning, the
remains being interred in the state
cemetery.

The deceased was familiarly known
to the people of Austin and vicinity
as "Doc" and was one of those men
that makes the average man feel bet-
ter for having met. He was one of
the oldest residents of not only Travis
county, but of this part of the state.
During the early days of the frontier
his father operated the old Stone's
ferry a short distance below East ave-
nue, and the deceased helped ferry
across the Colorado river a large body
of United States troops, when they
took up their line of march from Aus-
tin to the Mexican frontier at the out-
break of the war with Mexico in 1846.
During the civil war the deceased
served with the Thirty-second Texas
Cavalry. He is survived by one brother
who resides in South Austin.

Sure Crop of Arid Lands

Winsboro Wide-Awaker: Hon. M. D.
Carlock, aside from taking extensive
stock in politics this year, has experi-
mented some along agricultural lines.
On July 3 he planted five acres in
kaffir corn on land that had previously
produced a good crop of oats this
year. The corn was worked only one
time and the yield will be at least
from thirty-five to forty-five bushels
per acre, besides a world of nice for-
age. Mr. Carlock will cut the corn
after frost and proposes to give every
farmer who will agree to plant them
a peck of seed absolutely free. He
desires the farmers to see this field
of kaffir corn and invites all to come
and learn just what our land will do
in the production of kaffir. It is cer-
tainly marvelous and solves the for-
age question if our farmers will take
hold of it.

It May Affect Jurors, Also

Corpus Christi Crony: To vote here-
after in Texas each voter must have
paid his poll tax on or before the 1st
day of February preceding the election
at which he offers to vote. This ad-
ditional qualification is expected to
limit the quantity and improve the quality
of votes cast in future elections. It
will do another thing. It will improve
the juries in Texas courts. To be a
qualified juror a man must be a qual-
ified voter under the constitution and
laws of Texas. A man delinquent on
the poll tax list will, therefore, not be
qualified to serve as a jurymen. And
it goes without saying that an other-
wise qualified juror, with disregard of
his duty and privilege of contributing
to the support of his government,
would be an inferior sort of a person
to assist in the ministration of his
government's laws. As Governor Lan-
ham told us, the adopted amendment
is a good thing.

Texas Will Dominate America

Denison Herald: William H. Bush,
of the firm of William H. Bush & Co.,
with the Chicago party ticket, yester-
day said: "I have some knowledge of
Texas, having invested here years ago
and still hold lands in this state. Tex-
as is now the greatest producing state
in the union, and not one-fiftieth of
her resources are developed. Every-
thing comes first out of the ground."

Says Government Must Modify Regu-
lations on American Meats

E. E. Matchette, the general man-
ager of the Kansas City plant of the
Schwarzschild & Suzberger Co., has
returned from an extended trip to
Europe. After looking over the meat
situation in Germany, it was his im-
pression that it is not a matter of a
short time until the German govern-
ment will modify its arbitrary meth-
ods of dealing with American meats
enough to enable the packers of this
country to enter the field there. For
years the German government, through
prohibitive tariffs and unfair
inspection, has made meat traffic with
Germany impossible. The emperor's
main reason for doing this, Mr.
Matchette says, was to play into the
hands of the Agrarian party, the mem-
bers of which are the rich farm own-
ers and cattle raisers of Germany, in
return for which he expected the
party to favor army and navy bills in
the Reichstag.

Mr. Matchette does not see how the
German people will long tolerate
present conditions, much less the
harder ones which the new meat law
will impose upon the great mass of the
people of the empire.—National Pro-
visioner.

and after it comes out of the ground
the manufacturer, the merchant, the
lawyer, the doctor, the newspaper
man, the mechanic, the artisan and
all the trades and professions get a
whack at it. The productions of the
soil constitute the basis of all wealth,
and Texas, being now the greatest
producing state in the union and com-
ing to the front rapidly, is showing us
more wonders of wealth and produc-
tion. I do not hesitate to say that
within ten to fifteen years Texas will
have more population than any state
in the union, and will absolutely domi-
nate America. Texas was made by
the creator, the empire domain of
North America, and her people will
make her the empire state of this
union."

Neglect of the Soldier Boys

Dallas Times-Herald: The officers
of the Texas volunteer guard are do-
ing much to advance the interest of
the service and to make the state mil-
itia what it should be, but the men
who are sent to the legislature do not
see things that way and the soldiers
will have to get along by paying their
own expenses or becoming mendicants
when camps of instruction are to be
provided.

Southwest Texas Cannot Be Rivalled

George Champion, world's fair
chairman for Cameron county, in a
recent letter to General Manager
Wortham, has this to say about the
development of a rich section of
Southwest Texas:
"Our country today is gaining a
great deal in demonstrating that we
are in one of the best rice belts in the
country. It is only a question of time
when Texas will carry the 'blue rib-
bon' as a rice and sugar producer.
We are going to show the world that
we can grow two crops of rice from
one planting superior in quality as
well as quantity per acre. We will
astonish Louisiana. We are in the
swim, and our state is making such
progress in agriculture and horticul-
ture that it will make California take
a back seat. Why, then, should we
not show the world that our state is
one of the richest in the union, by
giving a few dollars to the world's
fair? I am with you true and thick."

Baltimore After Texas Terrapin

Rockport Enterprise: Mr. L. Cob-
lini is in receipt of a letter from a
Baltimore firm in regard to Texas
terrapin. The writer states that there
is an unprecedented demand for these
toothsome creatures and the supply
slightly deficient. Prices are tempting,
and as the writer says, terrapin fish-
ing now is far better than the bank-
ing business from a money making
standpoint. Terrapin are plentiful in
these waters, and no doubt Rockport's
fame as a terrapin producer will soon
be world-wide. The raising of terrap-
in offers tempting inducements and
here is a good field for someone who
understands the business.

Oldest Voter in Texas

Austin Tribune: The oldest voter
in Texas, if not in the United States,
to cast his vote yesterday was Antonio
Lopez, who cast his ballot at Eane's
school house. He was born in Mexico
106 years ago, so he figures, and has
lived in Travis county since the old
capital was built. He came to Texas
after the Mexican war and has lived
continuously in the state since then.
For such an old man, he is well pre-
served and retains his memory well,
conversing with ease about events
long since passed into history, in
which he took an active part.

The Beeville Experimental Farm

Appropos of the proposition to aban-
don the State experimental farm at
Beeville, the following from a Galves-
ton News correspondent, who inspec-
ted the farm while in attendance at
the recent Truck Growers' convention
at Beeville is of interest. We found
good buildings and the improvements
as well kept as its excellent manager
could do with the penurious appro-
priation made by the legislature. This
institution could be made most valu-
able to this entire portion of the state
if it was properly equipped, but the
meager appropriations provided would
hardly have purchased a decent "in-
vestigation committee" incubator for
the last legislature. The farmers of
this section are deeply interested in
this experimental station, and beyond
the privilege of being allowed to sup-
port the party ticket, their demands
are few and if the next legislature
does not expend its ideas of liberality
and progress there is likely to be a
kick against the niggardly policy of
the seions who make laws, dish out
appropriations, pocket knives, Florida
water, etc., at Austin.

ASLEEP AMID FLAMES.

Breaking into a blazing home, some
firemen lately dragged the sleeping in-
mates from death. Fancied security,
and death near. It's that way when
you neglect coughs and colds. Don't
do it. Dr. King's New Discovery for
Consumption gives perfect protection
against all Throat, Chest and Lung
Troubles. Keep it near, and avoid suf-
fering, death and doctor's bills. A tea-
spoonful stops a late cough, persistent
use the most stubborn. Harmless and
nice tasting, it's guaranteed to satisfy

A FEW STORIES

King William IV. Queen Victoria's
predecessor on the throne of England,
did not object to being kissed by the
peers at the coronation ceremony, but
he protested that he would sooner not
be crowned than submit to being
kissed by the prelates, and he ordered
that part of the program to be cut out.
However, the archbishop of Canter-
bury remonstrated vigorously, and the
king knocked under, but with bad
grace. At the levee on the day before
the coronation his majesty's ill-
temper was the subject of general
remark. He caused a scene with the
officer of the guard, who was publicly
rebuked by the king for not having his
cap on. It was on this occasion that
somebody was presented as lord lieut-
enant of Clackmannanshire, a county
of which his majesty had apparently
never heard, for he exclaimed: "Clack,
Clack, Clack the devil! I will have no
—d joking here."

Chancellor von Bulow of Germany,
who is a great favorite with Emperor
William, expressed to the latter on
Bulow's appointment to office fears
as to his wife's objection to the time
it would take to clean the chancellor's
palace. William interrupted him with
the remark that he would contribute
his part to the cleaning. Count von
Bulow took this to mean that the em-
peror would have the palace cleaned
for him. However, William merely
saw an opportunity for a joke; and
so there arrived at the Bulow house-
hold a few days afterward a large par-
cel addressed to the countess and
containing 100 pounds of soap.

Eighty years or so ago a distin-
guished Irish member of the British
parliament named Dogherty, who sub-
sequently became chief justice of Ire-
land, asked Canning what he thought
of his maiden speech. "The only fault
I can find with it," said Canning, "is
that you called the speaker 'sir' too
often." "My dear friend," said Dog-
herty, "if you knew the mental state
I was in while speaking you would not
wonder if I called him 'ma'am.'"
Whitbread, another member who also
became chief justice of Ireland, used
to relate that on seeing, during his
maiden speech, the speaker's wig sur-
rounded by blue flames, he knew it
was time to sit down.

Governor Hogg was recently asked
by a newspaper man if he ever "cuss-
ed." Here is his reply: "Not for many
years; I quit before the war. When
I was a small boy I thought it
was the right thing to do, and one day
I strung out in a scientific exhibition
of profanity, only to see my father
bending over me. I promised that if
he would not thrash me I would quit.
He took me at my word, and I have
kept my promise. In after years when
I was a printer and as editor and un-
dergoing all the mental torture that
afflicts the craft, I would remember
my promise just about the time my
temper was about to get the better of
me. By Gattins! I have enough to
content with to make a 'star cussor,'
but I don't go any further than 'dud
blame it.'"

Making All Safe

"Yes," said the Billville widow, "I

Best Liniment on Earth

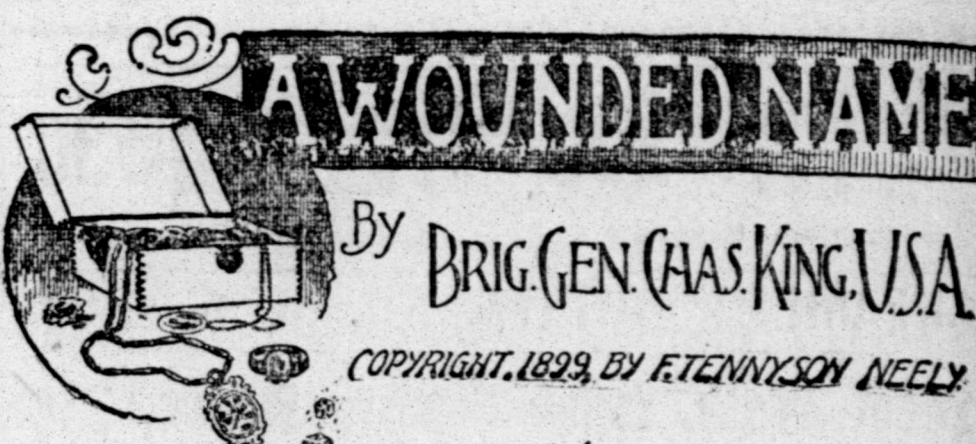

I. M. McHany, Greenville, Tex.,
writes, Nov. 2, 1900: "I had rheuma-
tism last winter, was down be-
hind six weeks; tried everything, but
got no relief, till a friend gave me a
part of a bottle of Ballard's Snow
Liniment. I used it, and got two more
bottles. It cured me and I haven't felt
any rheumatism since. I can recom-
mend Snow Liniment to be the best
liniment on earth for rheumatism."

For rheumatic, sciatic, or neuralgic
pains, rub in Ballard's Snow Liniment,
you will not suffer long, but will be
gratified with a speedy and effective
cure. 25c, 50c and \$1 at H. T. PANG-

Growing every day—Telegram
Classified Columns.

He was in hiding, declared the know-
ing ones, in some of the haunts of
Birdsall's fellows, east of Laramie City,
a growing town of whose prowess at
poker and keno Gate City was profes-
sionally aware and keenly jealous. He
might hide there a day or two and then
get out of the country by way of Sweet-
water along the old stage route to Salt
Lake, or skip southward and make for
Denver. Northward he dare not go.
There were the army posts along the
Platte, beyond them the armed hosts
of Indians, far more to be dreaded than
all the sheriffs' posess on the plains.

Ten-thirty came and still no Loring,
and the rounds of drinks were getting
monotonous. Judge Pardee, a bibulous
and oracular limb of the law, had been
chosen inquisitor general, with powers
to call for all the news that was stowed
away in that secretive "knowledge box"
on the shoulders of the engineer. Gate
City had resolved and "lowed" that a
man reputed to know so much should
be held up and compelled to part with
at least a little. Jimmy Peters, the
landlord's boy, scouting out to Folsom's
came back on the run, breathless from
three-quarters of a mile of panting
through that rare atmosphere, to say
that he had just seen a couple of officers
ride away to the fort, and old man Fol-
som, with "the engineer feller," was
coming out the front gate. They'd be
along in a few minutes.

So in their eagerness some of the
longhairs strolled out in front and gazed
westward up the long, broad, hard beat-
en street on which, in many a spot, the
bunch grass of the prairie still lingered.
It was a lovely summer night, warm,
starlit, but the moon had early sunk to
rest, and the darkness was intense, yet
the first men to come forth could have
sworn they saw two horsemen, dim and
shadowy, go loping across the broad
thoroughfare from north to south at the
first cross streets. There was nothing
remarkable in horsemen being abroad at
that hour. Horses were tethered now in
front of the hotel. What was strange
was that they passed within a mile of
Peter's bar and didn't stop for a drink.
Men who are capable of that neglect of
opportunity and the attendant privilege
of "setting 'em up" for all hands could
be nothing less than objects of suspicion.

Two minutes later and somebody said,
"Shut up!" a frontierism for "Hush!"
and all ears were turned expectant. No
there was no sound of brisk, spring
footsteps on the elastic wooden walk.
Already men had noted that quick,
alert, soldierly gait of the new officer.
But "Shut up!" was repeated when
audible murmurs were made.

"There's more fellers a-horseback up
yonder. Who if 'ell's out tonight?"
queried the citizen with the keenest
ears. "Jimmy, boy, run up there and
scout. I'll give you a dime."

CHAPTER XXIII

Gate City had found a hero and
wished to worship him, but its hero
proved as intractable as he was reticent.
For three days after the capture of Nev-
ins the community was agog with rum-
or and excitement. To begin with, the
captivity "had the cheek of a brass mon-
key," said the sheriff, and swore stout-
ly that he was a wronged and injured
man. So far from being a prisoner he
should be on a pinnacle, rewarded by a
generous and grateful government for
important services rendered. Who but
he had followed and found the renegade
major and wrested from him full con-
fession and the key of the safe? The lat-
ter in turn had been forcibly wrested
from him through the malevolent jeal-
ousy of that upstart engineer, but never,
said Nevins, would he now betray
Burleigh's hiding place or impart his
confession until full reparation was
made for the wrongs and indignities
heaped upon him. The sheriff was fair-
ly dazed.

"Who were all the fellows you had
with you," he demanded, "if they
weren't some of Hank Birdsall's crowd,
come

CARPENTERS

PHONE 727-2R for Carpenter and cabinet workman, Thomas Dillard, 1392 Jennings avenue.

NOTICE TO CONTRACTORS—Sealed proposals will be received by the mayor and street and alley committee of the city council of the city of Fort Worth, Texas, until 3 p. m. 21st day of November, 1902, as follows:

For furnishing all the materials and labor necessary for paving Houston street in said city, between the court house and Texas and Pacific railway reservation, with sheet asphalt, or brick, or some combination of said materials.

The work to be done will comprise approximately 25,000 square yards. Complete plans and specifications, with forms of proposal and contract, will be ready for the examination of bidders on or before the first day of November, 1902.

A certified check, on some Fort Worth bank, for \$2000, payable to Thomas J. Powell, mayor of the city of Fort Worth, Texas, must accompany each proposal.

In the letting of a contract for the contemplated work, the financial responsibility of the bidders, and their experience in this particular line of work, together with their equipments of implements and machinery will be considered by the committee.

Persons acting as agents, must file with the proposal, documents showing their authority to act for their principals.

The city reserves the right to waive informalities, and to reject any and all bids.

Dated, Fort Worth, Texas, Nov. 1, 1902. B. L. Wagonman, Q. T. Moreland, E. C. Orrick, committee; Thomas J. Powell, mayor; John B. Hawley, city engineer.

ELECTION FRAUDS ARE DIVULGED BY A RUSE

(By Associated Press.)

NEW YORK, Nov. 14.—Two district captains in the Ninth Assembly district have been held by Magistrate Barlow in bonds of \$4500, each to answer charges of violating the election law. The evidence in the case was procured by six young collegians who volunteered their services to Superintendent of Elections McCullagh. One of the young men is said to be a millionaire. Another is a young physician and the four remaining are medical students.

They claim to have made themselves noticeable around West Twentieth street just before election day. Disguised as tramps, they were accosted by workers who, after becoming acquainted, disposed of them in various rooms. On election day they

say they were provided with slips bearing the names of men who had registered in good faith, but who had been called away. In this manner they say they voted many times apiece and for each ballot allege they received \$3. Superintendent McCullagh's deputies at the polls were aware of the movements and the ballots are said to have been marked for identification.

The plan came nearly ensuing disastrously in one booth, where the alleged "repeater" had been provided by mistake with a slip bearing the name of a negro. The exposures have caused a sensation among the politicians of the district, as the officials claim their agents were admitted to the clubs and availed themselves of every opportunity for collecting information.

LIGHTNING BOLT IN THE FOOT

A Farmer Injured During a Storm in a Peculiar Manner

(Special to The Telegram).
TEMPLE, Tex., Nov. 13.—During the progress of a severe electrical storm today, John Gordon, a dairyman and farmer living two miles west of Temple, sought refuge with his two sons in his barn.

A bolt of lightning struck the barn, and passed through the elder Gordon's foot. All three were stunned and were unable to get out of the barn which had been set on fire by the same bolt, until they were badly burned.

The barn was entirely consumed. It was raining hard at the time and the nearest neighbor resides a mile distant hence the occurrence was not generally known until telephoned in from the neighbor's house. The elder Gordon was severely injured and the injuries may prove fatal.
