Longhorn Team Hard At Work

Coaches Johnny Truelove, Elvin Lyon and Dempsey Alexander were hard at work this week trying to round out a Longhorn football team for the first game with Paducah at Paducah on Friday night, Sept. 11. Two scrimmages are scheduled with the Kress gridders this week, one on Friday night at Kress and the other Saturday night here.

Faced with only two starters and five lettermen in all, the coaches are working hard on inexperienced boys and making some changes in the line-up from last spring trying to find a better working combination. Wednesday morning the boys were reported to be "looking much better" and the coaches were encouraged by the results of their work.

Changes made this week sent Mickey Jones, who played in the backfield last spring, to end and Billy McCada, who played end last spring, to a halfback position. Cleon Wiley, another former backfield man, was sent to a guard position and Roy Johnson, formerly a guard given an end position. Denny Quisenberry and Jimmy Rankin were looking good at tackle positions, the coaches reported, and Lerel Foster was also making a good hand in the line at the guard position. Marion Cross, letterman from last year at center is expected to do a fine job at his position also.

"None of the boys have a position cinched yet," Truelove said Wednesday. "We've been switching around trying to find the best combination and we may do more switching. We want a boy to play where he can play best and there is plenty of competition for every position."

Thirty-six boys were out by Wednesday and more are expected. In fact, Truelove said that if more boys weren't out soon it may be that the B squad would have to be moved to the A squad and the B squad schedule cancelled. He was hopeful that enough additional boys would be out soon to make it possible to proceed with B squad plans.

The first string backfield just now has Allen Ray Pinner at fullback, Jimmy Williams at quarterback, Eddie Joe Foster and Billy McCada at halfback posts.

The boys are enjoying the nice new club house they have at the football field. The old field house at the high school was moved to the field, remodeled and a concrete floor poured. The new clothes bins, new showers, comedos and lavatories make the club house very convenient for the team. There are two sections with one being used by the B squad and the other the A squad.

Plans Organization Of Retail Merchants

J. H. Cooper, local real estate and insurance man, plans to organize a retail merchants association here within the near future, he said this week. Mr. Cooper has been visiting such associations in nearby towns gathering details concerning the operation of the organization. He will present the matter at various public meetings of local business men in the near future.

Lester Anderson of Lockney is in the Plainview Hospital very ill, friends here report. Exact cause of illness was not determined. He, with C. B. City To Erect 40 Stop Signs In West Lockney

The City will erect 40 stop signs at street intersections in West Lockney very soon, members of the City Council said this week. The signs have been ordered and are expected to arrive this week.

"Purpose of the signs is to reduce the chance for traffic accidents and cut down on speed on the city streets," members of the council said. "We are continually having complaints about fast driving on the city streets and we're going to do everything we can to stop it. We don't want to fine anyone but for safety's sake we're going to do it if they are caught speeding or disregarding the stop signs," the Council said.

Childhood Vow Kept By Couple

More than a half century ago a boy and girl were childhood sweethearts in Stephenville, Texas and vowed that when they grew up they would get married.

Kate Ross and Dan Thornton were members of ranch families living neighbors on the Bosque River which surrounds the town of Stephenville. They grew up and went to school together until Dan went away to college and Kate moved with her parents to West Texas in 1892. They lost track of each other with so many miles between them and only horse and buggy as a means of travel.

Miss Ross fell in love and married W. D. Long and the two moved to Lockney where they reared a family and became prosperous ranchers.

Thornton, meantime, was happily married and reared a family.

The years rolled on, each had lost his companion through death, and had spent several years alone. Then in 1948 a man pretending to be a salesman knocked on the door of Mrs. Long's home here but he was identified at once as the same little boy who used to carry her books more than half a century ago. He had come to say hello for the first time in all those years.

About a year ago the two began corresponding occasionally and had seen each other once since that brief meeting in 1948. Recently Mr. Thornton, now 78 visited here and persuaded his childhood sweetheart, now 76, to culminate their romance in a ceremony performed in Clovis, New Mexico Wednesday, August 12 at 11:00 o'clock a. m.

Mr. Thornton returned to Wharton to complete the new home he is building for his bride and plans to fly here next week end and the two will leave for a honeymoon in Old Mexico. When they return they will be honored at a reception at the home of his son, Bill Thornton in Houston with many of the childhood chums on hand with best wishes.

Mr. Thornton is associated with his son in the Houston Power and Light Company and is also connected with the Sheriff's department in near-by Wharton.

DWI Charge Brings Fine And Jail Term

Robert Jackson pleaded guilty to a charge of driving while intoxicated in County Court at Floydada Monday and County Judge Ralph Johnson set his punishment at \$100 fine and 3 days in jail. The jail sentence is now mandatory on first offense convictions of driving while intoxicated but the judge may grant 6 months probation.

Deputy Sheriff Ray Harden of Lockney arrested the man between Muncy and Lockney about midnight Saturday.

Mr. and Mrs. M. D. Lyn, Sammy and Bruce, returned Sunday night from a 16 day trip to Hot Springs, N. M., where Mr. and Mrs. Lyn took treatments. They fished at Elephant Butte Lake where Bruce caught the largest fish, an 18 1/2 inch bass.

C-C Election Of Officers Set For Tuesday Night

The election of officers for the Lockney Chamber of Commerce and Board of Development will be held next Tuesday night, Sept. 8 along with a watermelon feast at the City Park, according to plans formulated by a nominations committee this week.

The affair is scheduled to get underway at 7:30 and plenty of watermelons for everyone will be ready. All members of the organization — that is those who paid money into it at its inception in 1950 — as well as all other people who are interested in the development of the area — are invited to attend and participate in the election and other business matters.

The nominations committee has named one man each for the office of president, vice-president and secretary-treasurer and named 14 men on the directors list with a recommendation that seven be elected. Opportunity will be given for nominations of others to any of the offices.

A printed ballot is planned and the list of nominations will be as follows:

For President: Albert Willis.
For Vice-President: Bob Miller.
For Secretary-Treasurer: Bill McClaskey.

For Directors: (The committee recommends that seven be elected) R. E. Patterson, M. W. Wiley, Dwight Jackson, Fay Pinner, T. B. Mitchell, Forrest Mickey, J. E. Cox, R. L. Knox Jr., John Bilbrey, Horton Howell, W. O. Stuart, J. B. Seale, Joe Foster, F. L. Montandon.

If the weather is bad the meeting will be held in the City Auditorium.

Officers Looking For Hit-And-Run Driver

Floyd County officers are on the look-out for a hit-and-run driver whose 1948 model Ford was involved in a collision with a Buick convertible driven by Paul King Tuesday night at the intersection of the Lone Star farm highway running east to the Silverton road.

According to reports to the sheriff's department, King was driving east when the Ford came down the East Lockney cut-off from the south at a high rate of speed, probably around 70 miles per hour, ignored the stop sign, running through the intersection, hitting the left front fender of the Buick and knocking it almost off the car. The Ford failed to slow up and continued on its way without stopping.

Officers have the license number of the car and expect to locate the driver soon.

Farmers Are Still Battling Worms, Bugs

An army of planes have been swarming in Floyd County the past week spraying crops in an attempt to stop the flocks of bollworms and lygus bugs that seem intent on destroying the county's crops.

Farmers appeared to be slowly winning their battle this week but the worms were not giving up without a fight. Some farmers sprayed twice and others as many as three times, it was reported here.

The worms are in the feed in many places and travel from there into nearby cotton patches. Some have sprayed feed but have not found this to be very effective in many cases because the worm is inside the head next to the stalk and is very hard to reach.

Sinclair's Test Going Down Fast

Sinclair's J. M. Massie No. 1 test for oil, four miles north of Floydada, is making hole fast with a depth of around 3400 feet reached Tuesday afternoon. The test will go at least 9,000 feet and more at the option of the oil company.

The crew was scheduled to set pipe at around 3800 feet, it was reported, and then proceed with the drilling operations.

Coats Drilling Company is contractor on the job and Frank Rylant is tool pusher. He has no instructions at this time to restrict information on the progress of the job.

Surface pipe was set at 556 feet and plug drilled out Monday of last week.

Located on the map as 660 feet from the west line and 1980 feet from the north line of Section 7, Block T, BS & F survey, the "block" has five oil companies at interest with Sinclair the holder of more than 50 per cent of the land under the well. It is Sinclair's first venture with the drill in Floyd county, although the company long has been the largest holder of oil and gas leases in the county.

Reported contract for the sale of a lease on the half section of land three miles northwest of Minnie Adams discovery well of Standard of Texas at Lakeview, gives the bonus consideration at \$60 per acre in cash and \$100 an acre in oil.

The report, which has some foundation in fact, is that the lease is for five years with a dollar an acre a year rental clause. The deal is said to be pending title examination.

Along with this report from Lakeview comes a story that Standard contemplates drilling an offset to the Minnie Adams. This discovery well, operating 12 hours a day, is pumping 25 to 30 barrels of oil a day. The report has it that the offset will be started sometime this fall and will be on the W. H. Bunch survey, lying immediately east of the Adams tract.

Stolen Alfalfa Seed Recovered Here

Sheriff Earl Cooper and Deputy Ray Hardin Wednesday afternoon recovered 18 sacks of alfalfa seed totaling 1080 pounds on a farm north of Lockney. The men were arrested Wednesday morning and placed in the Floyd County jail to await officers from Guymon.

The officers said that one of the men had been working on the Hatch Ranch but that he quit his job recently and soon afterward the seed disappeared. Monday of this week Sheriff Ed Smith of Guymon was in Lockney seeking the men and the seed, and he spent Monday night here.

When arrested Wednesday morning the men admitted taking the seed and told officers where to find it. Sheriff Cooper said, Sheriff Smith is expected to arrive in Floydada Thursday to take the men back to Guymon.

SIMPLICITY

II Cor. 11:3 "But I fear, lest by any means, as the serpent beguiled Eve through his subtlety, so your minds should be corrupted from the simplicity that is in Christ." We read in the prophecies of Isaiah, "And an highway shall be there, and a way, and it shall be called The way of holiness: the unclean shall not pass over it: but it shall be for those: the wayfaring man, though fools, shall not err therein." Isaiah 35:8.

I think that we can see a great likeness in many ways between the law of nature and the Law of Christ. We know that nature, as far as the fundamentals of life are concerned, is simple. It is possible for the most unlearned of men to know and understand enough about nature that they can appropriate to themselves enough of nature to sustain life. It is simple enough for the simple. Yet, on the other hand, there are things about nature which the most learned do not understand and comprehend. Men have devoted lifetimes to a study of the more deep things of nature. So with the Law of Christ. The fundamentals of the law of Christ, those things that pertain to the salvation of our souls and things that are necessary for continued spiritual life are simple. Yet, we know that no man has ever completely mastered the word of God. (This in itself is testimony of the fact that the Book is not of man but is of God.) As was Paul's fear for the Corinthians, many today have been "corrupted from the simplicity that is in Christ."

The way of salvation is made so clear and simple. Read the Acts of Apostles. Could not any person with the proper exercise of his mind, read or hear read this book and understand the things that were required for the remission of sins? Note Acts 2: we have recorded here the first time the Gospel in its completeness and in fact preached. At the close of the sermon preached by Peter they were pricked in their hearts and cried out "men and brethren, what shall we do? Then Peter said unto them, Repent, and be baptized every one of you in the name of Jesus Christ for the remission of sins, and ye shall receive the gift of the Holy Ghost." Acts 2:37-38. Now this is given in clear and simple language. Repentance and baptism for the remission of sins. How can men fail to understand what God requires for the remission of sins? The reason that many fail to understand is because some one has "Corrupted them from the SIMPLICITY THAT IS IN CHRIST."

Read again. (in the simplicity of the gospel) Acts 22:16 "And now why tarriest thou? Arise, and be baptized, and wash away this sins, calling on the name of the Lord." Simple language isn't it? There could hardly be any misunderstanding it unless someone comes along and places some mysterious meaning, some false interpretation on it.

Friends, why not accept the gospel in its own simplicity rather than trying to place upon it mysterious meanings: meanings which have to be read "INTO" the scriptures by men and not put there by the Spirit?

Mahon Has No Criticism For Administration

Congressman George Mahon opened his Lubbock office on Monday of this week and plans to be in the District for the next several months. The next session of Congress is scheduled to convene on January 6, 1954. Mahon expressed the hope that he could spend most of his time out among the people of the twenty-five-county district, explaining, however, that both his Lubbock and Washington offices would remain open.

In commenting on the general situation Mahon made the following statement:

"The present picture is dark in some respects. For this I do not blame the Democrats or the Republicans. We are thankful that an agreement has been reached to stop the shooting in Korea, but there is every indication that there is no good way to deal with the Russian Communist and that the Korean truce will prove to be as frustrating as the Korean War.

"Except for the undiminished threat to our security posed by the Communist, now apparently in possession of both the A-bomb and the H-bomb, Congress could have worked wonders in dealing with taxes and the budget."

Mahon pointed out that the fiscal picture was not altogether dark. He said that a downward trend in spending could definitely be expected unless there should be a worsening of the international situation. He said that there was no reason for a spirit of defeatism, that in his opinion we should keep up our guard on the domestic and foreign fronts. He feels that we can successfully work our way through this difficult period. Mahon emphasized the fact that our country is essentially sound to the core and tremendously powerful and that we should not lose faith in each other or faith in our Commander-in-Chief, the President.

As to the new Republican Administration he had the following to say:

"The first session of the 83rd Congress was notable for the fine spirit of cooperation which existed between the President and Congress. I am not critical of the President. I think he is doing the best he can under the difficult domestic and international situation, and I have given him my best cooperation. I have voted with him on all issues except in rare instances where I have had very deep convictions to the contrary. Likewise, I am not

critical of the first session of the 83rd Congress. I think it did about all that could have been expected of it under the circumstances. Of course, no miracles have been performed and a very big job yet remains to be done. The second session of the 83rd Congress will have to deal with a wide variety of difficult and controversial subjects involving such matters as the extension of the farm program and many other important issues."

Jury Acquittal For Dossey On Murder Charge

Floydada. — J. C. Dossey, former Floydada resident, now of Ranger, Texas, gained a verdict of acquittal of a charge of murder last Thursday night in 110th district court for Floyd county, and in so doing broke a 10-year record of District Attorney John B. Stapleton.

It was the first verdict of acquittal in Floyd Co. in the 10 years that Stapleton has been prosecutor — three years and four months as county attorney before the war, and six years and eight months after his return from army service and election to the district attorney's office.

The case was tried in a day and night session Wednesday. The jury was chosen by noon, the evidence presented in the afternoon and the arguments completed in the evening. The jury got the case and returned their verdict at 8:45 Wednesday night.

A hung jury resulted in a mistrial of the case in April. The charge by indictment was for murder without malice by accident and mistake while driving a car while intoxicated. Penalty on conviction of such a charge is not less than two years nor more than five years penal servitude.

The indictment was returned in December. The accident out of which the charges grew occurred on Thanksgiving day, 1952. Mrs. T. V. McClure was fatally injured in a crash that occurred near the Seale Drive-In theatre west of Lockney. Mrs. McClure with three others was enroute from Lone Star to a kinsman's home at Irick for Thanksgiving dinner. Five others including J. C. Dossey were injured. Dossey had a broken lower jaw and a broken arm. A three-year-old niece riding with him was cut about the face but not seriously injured.

Garland McClure, 15-year-old son of Mrs. T. V. McClure had a

being treated. Viola McClure, 16, a daughter, had a broken arm and numerous lacerations. Terrell McClure, 10, a son, was injured but not gravely.

Mr. and Mrs. B. A. Pope and Dennis of Abilene spent Sunday afternoon with Mr. Pope's sister, Mrs. Catlin and family.

Old Inspection Law Replaced By New

Austin. — The old Texas Motor Vehicle Inspection Law died Wednesday at midnight after a somewhat turbulent existence.

The measure, which saw heated debate in the last session of the Legislature, has been replaced by a modified version which calls only for the inspection of auto brakes, lighting equipment, horns, rear view mirrors and windshield wipers. It becomes effective today, but Homer Garrison, Jr., Director of the Texas Department of Public Safety, has announced that the State Public Safety Commission has officially set the new inspection period for September 15, 1953, through April 15, 1954.

George Busby, Chief of the Motor Vehicle Inspection Division of the Department of Public Safety, has said that there will be about 3,000 inspection stations ready to operate on the opening date.

"Trained mechanics who are well versed in the new law and its requirements will be set to go, and they will have an adequate supply of stickers and other materials on hand," Busby stated.

Garrison added that he could see no possibility of a "log jam" of motorists at the official inspection stations at any time unless too many people put off getting their autos checked until the last few days of the seven-month period.

"Lack of sufficient inspection stations plus last-minute waiting contributed to the long lines and lengthy delays under the old law in the Spring of 1952," Garrison said.

Mr. and Mrs. Lee R. Viall and son, Kenney, Mr. and Mrs. Fred Beall of Amarillo spent the week end with their parents, Mr. and Mrs. Walter Beall of Lockney.

Summer Good Time To Shed Pounds

Summer with its abundance of low-calorie fruits and vegetables is a good time to shed those few extra pounds put on during the winter months, Dr. Geo. W. Cox, State Health Officer, states.

People do not need as many starchy foods which produce energy in warm weather as they do in the winter, he said, because in the summer the warmth which starchy foods give to the body is not needed.

"Green, leafy and yellow vegetables and all types of fruit which are plentiful during the summer months provide an excellent low cost diet for the person who is overweight," Dr. Cox said. "Many of these foods can be eaten raw and are very nutritious this way provided the food is carefully washed to remove all dirt and insecticides which may be present."

Dr. Cox stressed the importance of properly storing food during the summer. He explained that certain foods such as cold cuts, cream desserts, potato salad, and sandwich spreads have a tendency to spoil quickly during hot weather. Foods of this type should be kept in the refrigerator until just before they are served.

"By using good common sense in choosing and serving the proper kinds of food, you'll feel better and have a much more enjoyable summer," Dr. Cox concluded.

Rev. R. E. Wiley, pastor of the First Baptist Church, read the service beneath an arch of roses and greenery. A pond lighted by hurricane lamps tied with white satin bows completed the decorative setting.

As guests assembled Mrs. Horton Howell, pianist, played wedding selections and accompanied Gerald Johnson as he sang, "Because" and "The Lord's Prayer."

Escorted to the altar, and given in marriage by her father, the bride was attired in a strapless waltz length gown of white net over taffeta. The fitted jacket was of white chantilly lace, featuring a high neckline with a peter pan collar, and long fitted sleeves which terminated in points over her hands. Her finger-tip length veil of illusion scattered with tiny orange blossoms, fell from a tiera of orange blossoms. She carried a white Bible topped with a spray of gardenias with streamers of lace and satin ribbon. Her only jewelry was a single strand of pearls, a gift from the bridegroom.

Carrying out the traditional wedding sentiment, for something old, a ring belonging to her grandmother, Mrs. J. H. Weathers, was tied among the streamers of her bridal bouquet. Something new was her wedding gown, something borrowed was the veil belonging to the groom's sister, Mrs. John Leah, and for something blue she wore a blue garter. In her shoe she wore the traditional penny.

Mrs. Mac Howard served the bride as matron of honor while Miss Mona Williams of Floydada attended as maid of honor. They wore identical strapless gowns of blue net and carried parasols of yellow net with yellow satin streamers.

John Wood of Amarillo served his nephew as best man, and Ted Samples, brother of the bride was groomsmen.

Flower girls were Linda Weathers, cousin of the bride, and Oressa Wise, sister of the groom. They wore waltz length dresses of pastel yellow and lavender organdy, and carried white satin baskets.

Mrs. Samples chose to wear at her daughter's wedding, a dress of navy crepe with navy accessories. Her corsage was of pink carnations. Mrs. Wise, mother of the bridegroom, was attired in a beige lace dress with beige accessories and wore a corsage of pink carnations.

Let no man deceive you with vain words, for because of these things cometh the wrath of God upon the children of disobedience. — Ephesians 5:6.

The estimate of 110,000 bales of cotton for Floyd County as quoted in the Lubbock Avalanche-Sunday is causing some discussion among local farmers. Some farmers question whether this county will gin that much cotton, considering the early summer Big Blow and the boll worm and lygus bug attack of the past week. Of course the estimate was made before the worm and bug attack came and this probably wasn't considered in the estimate. The general opinion is that where the cotton is good it is better than it was last year but where it isn't good it's pretty bad.

When the prices the farmer receives for his products drops and at the same time the cost of the finished product rises, somebody along the way is making an excessive profit and trouble is in the offing. Such has been the case on some items. The profiteer, whether in war or peace, will always be with us and will always need control of some kind.

VATICAN CONFIRMS AMERICAN FEARS . . .
THE VATICAN'S recent approval of Catholic discrimination against Protestant churches in Spain, France and Italy should bring an end to any controversy regarding the ultimate aim of the Roman Catholic church.
Several months ago the Archbishop of Seville, Cardinal Segura, warned the Spanish government against showing any "benevolence" toward Protestantism — he described Protestantism as heresy and a threat to the Roman Catholic faith. Afterward, Catholic bishops of Spain declared that on the basis of papal texts, Spain was a Catholic country and must not grant freedom of propaganda to Protestant sects.
The New York Times asked the Vatican for clarification. The Vatican replied that the action of the bishops in Spain and France was in line with Vatican doctrine, and this admission was published in L'Osservatore Romano, the official Vatican newspaper.
This blunt Vatican explanation explains the continued discriminations of Catholics in America. It explains the censorship, boycott and other pressure applied to all persons and ideas deemed unacceptable to the doctrine that the Catholic religion is the only religious group and that Protestants, as heretics, must be brought to heel.
L'Osservatore Romano also declared that Protestants are making their converts among Communists, a case not borne out by facts. In the case of Italy, 95% Catholic, Premier de Gasperi is still working with the problem of Communism in that country, where only last month 35% of all Italian voters cast pro-Communist ballots.
This pulling the official veil from Catholic policy should strengthen every American in his intent to military support the principle of separation of church and state. No American should give any passive aid to any group which would compromise the principle of equal treatment to all religions — and no favor to any of them. — Ralls Banner.

WHO'S LOSING WHAT?
Mrs. Eleanor Roosevelt came back from another junket abroad the other day and immediately gave out an interview. In it, she professed great confidence over what she calls "the loss of confidence" in the U. S. by "our friends."
Mrs. Roosevelt wasn't specific in her comment. She didn't mention which "friends" are losing what "confidence." We wish she had; we'd like to know.
If the "friends" are those who sent only token forces—or none at all — to fight beside Americans in Korea, while continuing trade with the Reds, we say "hooray!" If the "confidence" they are losing is their confidence in their ability to continue to make a sucker out of Uncle Sam, we say "hip-hip-hooray!"
These are the "friends", and this is the sort of "confidence," we can best do without.—Lubbock Avalanche.

Withrow-Wesley Vows Said In Church

Bobbie Sue Withrow, daughter of Mr. and Mrs. J. L. Withrow, became the bride of Robert Lee Wesley, son of Mr. and Mrs. Lee Wesley, in impressive church rites held Saturday night, August 29 at 8 o'clock at the Assembly of God Church. Rev. Virgil C. Sparks, pastor, read the vows for the double ring ceremony.

Pink roses and fern in tall baskets tied with huge white satin bows flanked the altar. Other arrangements of roses completed the floral setting.

Eldora Boone played a prelude of nuptial music and the traditional wedding marches. She accompanied Mrs. Durrell Fortenberry who sang "I Love You Truly," and "Because."

The bride was attractive in a street-length dress of white nylon over taffeta fashioned with a fitted bodice and full skirt. The high neckline was accented with a small stand-up collar trimmed with lace and rhinestones. The skirt had lace pockets flecked with rhinestones, which featured a small veil. Her slippers were brocade satin. In her hand she carried a white Bible topped with a bouquet of white carnations surrounded with pink sweetheart roses and white clematis interspersed with illusion and satin ribbon extending into streamers knotted with sweetheart rose buds.

For something old the bride carried a handkerchief belonging to her grandmother, Mrs. Susie Battles; new was her wedding attire, borrowed was a white Bible belonging to Sharinne Strickland, and blue was a garter. She wore a penny in her shoe for luck.

Attending as maid of honor was Miss Sharinne Strickland who wore a blue street-length dress trimmed in lace and rhinestones. She wore white accessories and a corsage of white carnations.

Gene Keller acted as best man. Ushers were Claude Gene Hammit and James McCormick.

Mrs. Withrow, mother of the bride, wore a slate blue dress, black accessories and a corsage of white carnations.

Mrs. Wesley, mother of the bridegroom, wore a two-piece grey dress with black accessories and a white carnation corsage.

Following the wedding a reception was held in the educational room of the church. The serving table was laid with white linen and centered with a three-tiered wedding cake topped with a miniature bride and groom. Mrs. Virgil Sparks served cake while Meses. Frank Roberson, Herman Taylor and Marvin Williams alternated at the punch service. Mrs. Wynona Battle registered approximately 120 guests.

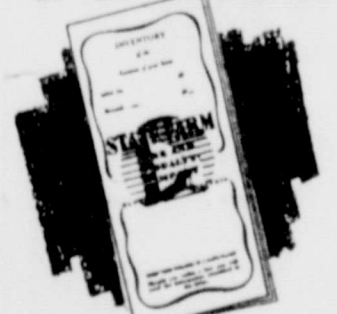

Out-of-town guests included Mr. and Mrs. Herman Taylor and Pauline of Happy; Mr. and Mrs. Bob Gunn, Mr. and Mrs. Hershel Gunn and Betty, Mr. and Mrs. Frank Roberson, all of Sudan, Texas; Mr. and Mrs. Marvin Williams, and children, Levelland; Mr. and Mrs. Howard Withrow, Lubbock; and Mrs. Wynona Branscum, Plainview.

For a short wedding trip the bride wore a red sport dress trimmed with velvet, red accessories and white carnation corsage.

The bride attended school in Lockney and the bridegroom attended school in Canyon. They are at home in Lockney where he is employed in farm work.

Mr. and Mrs. E. T. Wood of Fort Worth spent last week end here visiting their daughter, Mrs. O. E. Durham, Mr. Durham and children.

4-H Achievement Day Is Observed

The Annual county-wide 4-H club girls' achievement day was observed last Wednesday. The meeting was held in the V. F. W. Hall in Floydada with the day's activities beginning at 10 o'clock.

A program of games, crafts, and exhibits traditionally makes up the program. This year an added feature was a swim in the municipal pool from 11 to 12 which the girls enjoyed very much.

The girls brought sack lunches which were eaten together at the noon hour.

Craft work started immediately after lunch. Some of the Junior and Senior Leaders had been trained for this day before by Mrs. L. K. Sherman of Pleasant Valley and Mrs. Arlon Miller of Sand Hill. Those attending this meeting were Mona and Carolyn Williams, Margaret Lovell, Joellen Jackson, Donita Milton, June Marble, Freida Smith, Mrs. G. W. Smith and Mrs. Grigsby Milton. They, except the first ones named, helped with the craft work. All the girls made knotted belts and everyone went home with a finished belt but at times they didn't think they would make it.

Not as many exhibits were on display as were expected but those shown were of good quality. Ribbons were awarded as follows:

Cup Towels (sets) Raye Watson, blue; Joellen Jackson, red; Bonnie Allen, white.
Cup Towels (single) Mary Ann Adams, blue; Jane McClure, red; Thelma Ferguson, white; Raye Watson, red.

DAVID JACKSONS ENJOY VACATION

Mr. and Mrs. David Jackson and sons, David Ray and Donnie spent part of last week visiting David's parents, Mr. and Mrs. Joe Jackson of Wynwood, Okla. From Wynwood they were accompanied by Mr. and Mrs. Gilman Hines to Lake Texhoma on a fishing trip.

They also visited in Davis, Sulphur, Turner Falls and Walters, Oklahoma. They report a wonderful time, but no fish.

Mr. and Mrs. Johnny Taylor returned to their home in the Aiken community Saturday night after a week's vacation trip in the Northwest, including Canada, the Yellowstone National Park and other points in that section. Mrs. Taylor left Aiken Monday morning to go after her husband who had spent the previous three weeks in construction work in Wyoming. He was employed by Floyd London, a former teacher of the Aiken school.

Mr. and Mrs. Donald Erim and two children from Wichita Falls visited in the home of Mr. Erim's uncle, Hugh Carroll and Mrs. Carroll.

OUR AERIAL PHOTOGRAPH.

ER must have strayed out of the county when he made this picture since no one in this community seemed to recognize it. It's another double mystery. Two tickets to the Plains Theatre or Seale Drive-in still awaits any person who can identify the farm and the original picture will be given to the owner or occupant by Handley Shop & Pump Co. Can you help us? It's in this vicinity.

Horseshoe Tourney Now Going At Park

The Lockney softball park is the scene of a horseshoe tournament in progress this week and sponsored by the Lions Club. More than a dozen teams had entered by Tuesday night and the process of elimination was underway. When a team loses two games they are out of the tournament.

The tournament will continue through Friday night when winners will be announced and the prizes awarded.

It was expected that she would undergo an operation but word received by Mr. Richards this week said they expected to return home Saturday indicating that the operation would be postponed.

HAS SERIOUS OPERATION

Mrs. A. E. Frizzell of the Lone Star community underwent a serious operation at the Plainview Hospital Tuesday morning of this week. Members of the family said Wednesday that she was doing as well as could be expected but that she would be very ill for three or four days.

Easier To Get Mexican Labor

The crop-killing drought prevalent over a great portion of Texas has cut down the number of Mexican National workers needed to harvest crops, particularly cotton, but areas with good stands of cotton may require supplemental labor, the Texas Employment Commission announced today.

When local or U. S. citizen labor is not available, Mexican Nationals can now be contracted under a new procedure which became effective on July 1, by individual farmers as well as associations. The new procedure, the agency pointed out, will make it easier, faster, and less costly to the farmer.

The contracting procedure, which formerly took from five to six weeks, can now be completed in an average of from six to ten days. For the farmer needing only from five to 15 workers, the time may be even less because that many workers are usually on hand at the reception centers. Farmers needing several hundred workers may be delayed for as long as it takes to recruit them out of the interior of Mexico.

Farmers who contracted Mexican Nationals last year will also find that the rate per worker has been reduced from \$15 to \$11 on the original contract, and from \$7.50 to \$5.50 on a recontracting basis.

Three main requirements must be met before Mexican Nationals can be contracted by either an individual or an association. First, the Texas Employment Commission must certify that it cannot fill the farmer's order from domestic sources, at which time the local office of the Texas Employment Commission will issue to the farmer or the association an "Authorization to Contract Mexican National Agricultural Workers." Second, the TEC must mail the authorization to one of three reception centers located at El Paso, Eagle Pass, or Harlingen — whichever the farmer may choose. Third, the farmer must send his check (\$11 per worker) to the reception center.

When these three steps have been completed, the reception center will notify the farmer direct when he may come and pick up his workers. Farmers contracting small numbers of workers may, in some cases, be able to pick up their workers the day the check is received by the reception center, but in no case should he go to the reception center until he has been notified that the workers are available, TEC said.

Farmers previously contracting Mexican Nationals will not be required to furnish an approved "Statement of Housing and Facilities" if they do not contract in excess of the number previously contracted. Farmers contracting for the first time or contracting in excess of previous demands must furnish a new statement, the agency continued.

CARD OF THANKS

I wish to express my sincere thanks and appreciation for the many cards, flowers, visits and every expression of thoughtfulness extended me during my illness in the hospital and at home.

Texans Saved Over Half Million—WTCC

The West Texas Chamber of Commerce has estimated that Texas taxpayers will save \$538,020,000 in Federal taxes that they will not have to pay because of the \$12.6 billion in appropriations cut by the Administration and Congress from the Truman budget.

Calculating that Texas taxpayers bear 4.27 per cent of all Federal taxes, the Regional Chamber applied this percentage to the \$12.6 billion figure to derive its estimate.

The West Texas Chamber of Commerce said, "In cutting \$12.6 billion of appropriations from the Truman Budget for 1954, the Administration and the Congress paved the way to substantial tax savings in the next few years."

The Chamber added that the fact that a large percentage of the appropriations cut from the Truman Budget by the Administration and the Congress, such as for aircraft and hard goods, were scheduled for later rather than in 1954, consequently the savings cuts will not appear in the Federal spending in 1954.

The WTCC estimated that the total \$72 billion which would be spent in 1954 would be \$12.6 billion below the Truman estimate.
