Dawson County League Meet Set For March 19-20

The executive committee of the University Interscholastic League decided that the Dawson County League meet will be held in March. Plans are to hold the meet on the 19th and 20th unless the plans have to be changed because of the need for judges. Plans are underway to exchange judges with Lynn county and to help in the Lynn county meet, as they are to be held on the same dates. Dawson county judges will work in Tahoka and Lynn county judges will do the same for Dawson county at Lamesa.

The membership roll for this county has not been received to date but it is expected that each school in the county made the proper arrangements for its pupils to take part in the contests.

Inquiries reveal that most of the schools are working at both the literary and athletic events by having assigned faculty sponsors to the events and they have started practice. Further details of the county meet will be made public through this newspaper as they develop.

Forrest Opens Lumber Yard At Seagraves

Announcement was made this week by S. L. Forrest of the Forrest Lumber Company that they have opened a yard in Seagraves. This makes the fourth yard for this company, they operating yards in Andrews, Seminole, Seagraves, and the main yard and offices in Lamesa.

Fred Robertson, who has been connected with the Lamesa yard for several years, will be in charge of the new office. He will move his family to Seagraves in the near future.

School Melody Band Placed On Program

The Lamesa Elementary School Melody Band, directed by Mrs. Weldon Lindsey, has received the honor of being placed on the section program of the West Texas Teachers Association to be held on March fifth as a demonstration of what can be done in music. Mr. G. M. Roberts will give an account of this activity in the Lamesa Elementary school. Other Lamesa public school workers who are to have parts on the programs are Mr. F. T. McCollum who will serve as chairman of the Social Science section for high school teachers; Mrs. Matt McCall and Mrs. Tom Wood who are assigned parts on the Primary Section program.

Establishment of State Asylum in West Texas Is Proposed

Establishment of a State insane asylum in West Texas was proposed in the legislature this week by Senator G. H. Nelson of Lubbock. The bill provides for the creation of an asylum somewhere in West Texas west of the 100th meridian which includes that part of West Texas from the Panhandle on down south. It calls for the appropriation of \$817,000 to build one asylum which will house approximately 550 persons. The State Board of Control would select the place that it was to be built, but Senator Nelson believes that if the bill passes it would be established in his district.

"We have but five such asylums in the State today," said Senator Nelson, "and those places are all situated in central or East Texas. There is a great need to build such an asylum in West Texas because it would save the people in the Western half of the State a lot of trouble and inconvenience. Since there is need to build another asylum it ought to be placed where it will do the most good."

Construction of the hospital in West Texas is reported as being favored by the Board of Control and Governor Allred.

REMODELING SUBURBAN HOME OF J. T. ALLEN SR.

Work is progressing on the remodeling of the home of John T. Allen, sr., which is located on the Stanton road just south of Lamesa. A new roof has been placed on the house and the interior is undergoing a complete remodeling and modernization, including hardwood floors, built-in features and installation of modern conveniences. When finished, Mr. Allen will have one of the most attractive homes in Lamesa.

PREACHING NEXT SUNDAY AT FIRST CHRISTIAN CHURCH

Rev. Almon Martin of Lubbock will preach at the First Christian church here Sunday morning and evening, February 14. The church has been without regular preaching services for some time, but may probably engage Rev. Martin for regular services each month. An enlargement of the building to care for additional Sunday school classes will be begun in the near future. A cordial invitation is extended to all who can be in all services next Sunday.

Field Representative Compensation Com. To Be Here Feb. 12

Edward E. Marriman, field representative of Texas unemployment commission will be in Lamesa Friday afternoon, February 12.

Mr. Marriman will explain the Texas unemployment tax to all employers who desire such information. He will spend the entire afternoon here discussing matters relative to the unemployment compensation act but is asking that a meeting be held in the district court room at 5 o'clock where he will explain all features of the act and answer any questions that employers may desire to ask. This meeting is open to all who care to attend but he especially urges all business men and employers to be present.

Sen. Nelson Introduces Unicameral Bill

Austin, Feb. 3.—Again attempting to establish the unicameral legislature in Texas, Senator G. H. Nelson today introduced his bill in the Senate for the creation of a single chamber legislature. The bill is substantially the same as proposed last year by the Senator, and is similar in most respects to a bill introduced by Rep. Wilson Fox this session which proposed the one-house idea.

"Passage of the proposed amendment seems favorable at this session," Sen. Nelson declared. "I believe the bill will be reported out of the constitutional committee as favorable. If two-thirds of the members in each house uphold the bill it will then be submitted to the people at an election in 1938, and if passed then it would become effective in January 1941."

No bill has ever been introduced in the history of the State which provides such drastic changes in the fundamental structure of the government, but the talk of such a change has become more and more popular of late. Newspaper men over the state have repeatedly expressed favorable comment of the bill, and it is believed that the people are likewise in favor of it since it aims to cut the expense of operating the government almost in half.

A careful reading of the bill as proposed shows that the bill intends for a simple procedure of government similar to the one now in operation in Nebraska. Instead of two chambers as exists today, there would be only one composed of 42 members elected popularly from the 21 Congressional Districts of Texas. Term of office would be for four years, with half the members being elected every two years, thus having a rotating personnel. No person could serve that was not 25 years of age, and each legislator would receive an annual salary of \$5,000 a year. This is a larger salary than received at the present time, yet it is interesting to note that even though this is a substantial increase in salary, still in comparing the amount paid now under the mileage per diem provisions, which includes the ten dollars per day salary and the travelling expenses to the legislature, with that amount under the new system that would be paid, the resulting figures show that under the one-house operation much money would be saved.

Explanation of this is that the membership of the legislature would be reduced by approximately 140 persons. The legislature would meet every two years but would serve for the continuous two year period unless they deemed it advisable for the best interests of the state to adjourn temporarily. The Governor could call a Special Session whenever he thinks it imperative, or when two-thirds of the legislature submitted sworn requests for such a session. No legislator under the new system could perform other services, or practice any other profession, or have a retainer while a member of the body, but is supposed to give his whole and exclusive time toward handling the State's business.

COLLINS BUYERS VISIT MARKET

Mrs. Howard Lee and Miss Thelma Biddle have just returned from a visit to the spring market showing in Dallas, where they selected their new spring merchandise for the Collins Dry Goods Store in both the ready-to-wear and piece goods departments. The merchandise is on display now, as advertised in the Courier this week.

A second story is being added to the home of Gus White, at the corner of Katherine and North Fourth streets. Work is nearing completion on this addition which will give Mr. White one of the most beautiful and substantial homes in that section of the city.

Boy Scout Week Is Being Observed Here

History of Scouting Told Luncheon Club

Guest speaker of the Luncheon Club Tuesday was Leslie Pratt, local Scoutmaster, who gave a brief history of Scouting and its purpose and program. Members were entertained during the luncheon with violin selections by Miss Gladys Alsbrook, accompanied at the piano by Mrs. Carl Rountree.

Three vocal numbers were given by a sextette from the elementary school under the direction of Mrs. Weldon Lindsey. The club expressed appreciation to this group for the splendid entertainment. The club heard the report of a committee which had been appointed to confer with a similar committee from the Lions Club with reference to a program of tree planting on the highways and the park at the highway junction south of town. It was agreed to follow the recommendation of this committee to sponsor the buying of 850 trees to be planted and cared for by the landscaping department of the state highway organization. Work is to begin immediately on the work of planting 500 of the trees in the park south of town. This is a project which every public spirited citizen will rejoice to see begun.

Sand Storm Causes Postponement of Kite Tournament

The Boy Scout annual kite tournament which was scheduled to open National Boy Scout Week here last Sunday was postponed on account of the severe sandstorm which visited Lamesa on that day. Barring a recurrence of inclement weather the tournament will be held next Sunday at the announced place, the old Lamesa airport on the Stanton road.

Boy Scouts have been busy for several weeks preparing for this event which has become one of the feature Scout projects of the year. Many unique kites have been built by the boys, on pretty days for the past two weeks as the air has been dotted with kites as the entire boy population of Lamesa has become kite minded, due to preparation for the tournament.

Seven events are scheduled for the tournament and ribbons are to be awarded to first, second and third place in each event. Conway King will be chief judge of the different events.

Don't forget the date, Sunday, February 14 at 2:30 p. m. The tournament will be worth your time to drive out and see.

Recruiting Station At Big Spring Closed

Word has been received from Army officials that the recruiting station of the army which has been operated in Big Spring has been closed indefinitely and the nearest station to Big Spring is now located at Sweetwater.

The communication also requested the Courier to give publicity to the fact that qualified men are wanted to fill existing vacancies in the Cavalry, Field Artillery, and other branches of the Army stationed at Fort Bliss, Texas. Applicants must be American citizens, 18 to 35 years of age. If under 21, the consent of the parents or guardian must be obtained. Applicants must be unmarried and have no dependents, must be of good character, must be able to speak, read and write the English language, and pass intelligence tests equal to the eighth grade school. They must be in sound health, at least 5 feet four inches high and weigh in proportion. Applicants are given their choice of the branch of service they want to enter, if vacancies exist in them.

Men accepted at the Sweetwater station will be transferred to the Fort Bliss camp at government expense.

Cope Oil Company Moves To New Home

Situated in their new building at South Fourth and Dallas streets, the Cope Oil Company is now operating one of the most attractive and modern service stations in the city; in addition to their wholesale oil business, the warehouse of which is situated in the rear of this new building. Coincidental with the opening of their new home, Mr. Cope announced that he has taken the franchise for the Barnsdall Refining Company products in this territory. Barnsdall is the oldest refiner of petroleum products in the United States, and though they have not been operating in Texas very long, they are rated among the foremost in the industry.

Scout Banquet Opens Local Observance of National Scout Week

Formally opening the celebration of National Boy Scout week, mothers of Lamesa Boy Scouts and Cubs prepared and served a banquet to members of these organizations and leaders and parents, Tuesday evening in the basement of the First Methodist Church. A group which taxed the capacity of the church basement enjoyed an evening of social good fellowship and a sumptuous meal, prepared by the mothers of the boys under the leadership of Mrs. C. E. Cameron and Mrs. J. D. Dyer. Mrs. Henry McQueen was in charge of the table decorations and serving.

At about 8 p. m. the guests took their places around the banquet tables as Richard Crawley blew the assembly bugle call. Before being seated the first stanza of "America" was sung by the assembly and the invocation was given by Rev. Murray.

With Harold Williams serving as toastmaster, the following program was given:

An inspiring address on Scouting was given by Rev. Sewell of Slaton, who is Scoutmaster of one of the best Scout troops in the South Plains area.

A free-for-all period of 15 minutes was called during which time spontaneous outbursts by Scouts and parents were enjoyed by the guests.

Louis B. Reed then paid tribute to the work of the local Scoutmasters and presented Scoutmasters Joe Spikes and Leslie Pratt with certificates of registration for the trip to the Scout Jamboree which will be held in Washington, D. C. this summer. The business men of Lamesa have arranged for these gentlemen to take this trip with all expenses paid, in appreciation of their valued service to the boys of Lamesa during the past several years in which they have served as Scoutmasters.

Earl McClure, Scout Executive of the South Plains Council, added words of praise for the splendid work these gentlemen have performed. He then introduced members of the local executive organization of Scouting, including W. K. Crawley, J. D. Dyer, Dr. J. C. Lovless, Rev. Murray, C. E. Cameron and A. G. Barnard. He then made mention of the Cubbing or pre-Scout program, introducing members of Cub Pack No. 17 with their Den Mothers and Cubmaster.

W. K. Crawley led a series of short talks by parents of Scouts.

At the sounding of Taps by Richard Crawley, the group was dismissed, closing one of the most enthusiastic evenings in the history of Scout work in Lamesa.

Cox Implement Co. Sponsoring Free Show

Kenneth Cox, local M-M tractor dealer, announces this week that he had completed arrangements for the showing in Lamesa of "Aces of Action", a moving picture depicting life on the model modern farm. The show will be given at the Majestic theatre on next Thursday afternoon, February 18. There will be only one show, beginning promptly at 1:30.

Anyone interested in seeing this show which is both instructive and entertaining, may get free tickets by calling at the Kenneth Cox Implement Co. at 519 North First Street.

"Take out that ad! I rented the house an hour after the paper got in the mail, and I don't want to be bothered with any more applicants," said the owner of a house advertised in the Courier last week. This was about 11 a. m. and the paper was put in the post office at 8 a. m. the same day. That is characteristic of the results which are being obtained by advertisers who are using the columns of the Courier Classified Page. If you have some item to sell, rent, trade, buy, and have not used the Want Ad section of the Courier, you are overlooking the most direct method to get in touch with someone with whom you could close a deal. Try it out next week and see the results obtained.

THE OLIVER ROW-CROP '70'

Just a light touch on the steering wheel turns the new Row Crop '70' completely around. It's the easiest tractor to operate you ever saw. Every control's right at your finger tips—and you have steering and gear shifting like an automobile.

This is Oliver's new 6-cylinder Tractor that has caused so much talk. There are two '70's'—one designed solely for regular gasoline—and the other to get the utmost fuel economy out of kerosene or distillate.

With either one you'll get unusually great power with light weight—and great speed. Under ordinary soil conditions, you can plow with two 14-inch bases at over 4 miles an hour! That gets the work done quicker and gives more spare time for other things.

The Row Crop '70' comes from the tractor factory of the founders of the tractor industry. You'll want to see this latest, modern tractor at once—with its complete line of mounted listing, busting, planting and cultivating equipment.

THE 25-MILLIONTH

F O R D

HAS JUST BEEN BUILT

IT HAS never occurred before in automobile history that 25 million cars of one make, bearing one name, have been manufactured under one management. The 25,000,000th Ford car rolled off the Ford Rouge Plant production line on January 18, 1937.

25 million cars since 1903... more than one-third of all the cars ever built... enough cars to transport the entire population of the United States.

The figures represent a remarkable contribution to the social welfare, the industrial stability and the general progress of our country.

People respect Ford efficiency. They know Ford uses fine materials, the best workmanship at good wages, the most exact precision measurements. They know these things are passed along to purchasers in the form of extra value. Naturally, they like to do business with such a company. That is the only reason it has been required to produce 25 million cars.

Naturally, too, they expect more of a Ford car, more this year than last year—more

each year than the year before. They have every right to. The experience gained in building 25,000,000 cars enables Ford to produce today a really superb motor car at a really low price—with the Beauty, Comfort, Safety and Performance of much more expensive cars.

The 1937 Ford V-8 combines advanced design, all-steel construction, extra body room, and brilliant brakes with a choice of two V-type 8-cylinder engines—the most modern type of power-plant on land, sea, or in the air.

The 85-horsepower engine provides top performance with unusually good economy for its high power.

The 60-horsepower engine gives good performance with the greatest gasoline mileage ever built into a Ford car—and wears the lowest Ford price tag in years.

People expect more of a Ford car because it's a Ford—and they get more, for the same reason. It is undeniably the quality car in the low-price field.

MCCARTY HOME DEMONSTRATION CLUB

The McCarty home demonstration club met at the school house in its regular meeting February 9 at 2:30.

A demonstration on cutting collars and sleeves from foundation patterns was given by Miss Phenix.

The club nominated Mrs. J. L. Morris for state president of home demonstration work.

Refreshments of cake and coffee were served to eleven members and the home demonstration agent, Miss Mattie Phenix. The club will hold its next meeting at the school house, February 23 at 2:30. Everyone is invited to attend.—Reporter.

MCCARTY 4-H CLUB

The McCarty 4-H club girls met Tuesday, February 9. Miss Phenix, our home demonstration agent met with us. Our sponsor, Mrs. Echols, was unable to be with us, but Miss Phenix made an interesting talk on foods. She also gave us our year books and told us how to fix our gardens and what to plant in them.—Reporter.

WELCH HOME DEMONSTRATION CLUB

The Welch home demonstration club met in regular session Wednesday, February 3rd in the home of Mrs. Edd Tinsley. Miss Phenix gave a demonstration the cutting of collars and sleeves from foundation patterns.

"I hope to see some becoming and individual sleeves at the encampment this summer," said Miss Phenix as she closed her demonstration.

The club voted to send \$5 to the flood relief fund. We are also going to shower a neighbor who is ill. The club agreed to start promptly at two o'clock to enable us to dismiss earlier.

Refreshments were served to ten members and one visitor and our home demonstration agent, Miss Mattie Phenix.

The club adjourned to meet February 17 in the home of Mrs. Edd Tinsley with Mrs. Griffin as hostess.—Reporter.

KLONDIKE HOME DEMONSTRATION CLUB

"In planning your kitchen think of it in relation to the rest of your house," said Miss Mattie Phenix to the Klondike home demonstration club members when they met January 26 at the home of Mrs. G. F. Thorp.

Miss Phenix went on to plan position of kitchen furniture in relation to work, also color schemes. A kitchen should be light and airy since the home maker spends most of her time in the kitchen.

Mrs. G. F. Thorp resigned as secretary-treasurer, and Mrs. L. A. Duff was elected to that position by accla-

mation. Mrs. Wayne Webb was elected reporter.

Quite a few visitors were present due to the shower given honoring Mrs. Gevaise Medford. Our next meeting will be with Mrs. G. W. Thorp on February 9. Don't forget that we will have our first recreation meeting at the American Legion Hall on February 9 at 7:15 p. m. All members are urged to be present.—Reporter.

SPARENBERG HOME DEMONSTRATION CLUB

"The Eyes of Texas," was the opening song for the club meeting February 2 in the home of Mrs. S. E. Fisher.

In answer to roll call a variations of collars and sleeves was given.

Our council delegate, Mrs. Bernice Stuart gave a very interesting report on the last council meeting.

A very profitable demonstration was given on cutting collars and sleeves by Miss Phenix, county home demonstration agent.

There were 15 members and 2 visitors and our home demonstration agent present. At the close of the afternoon the hostess served a delicious refreshment plate. The next meeting will be at the home of Mrs. Roy Davis on February 16.—Reporter.

TIME OF YEAR FOR INCREASE IN CEREBRO-SPINAL MENINGITIS

Austin, February 9.—It is at this time of the year that cerebro-spinal meningitis usually shows a marked increase in Texas, according to Dr. Geo. W. Cox, State Health Officer. While the number of these cases is not alarming as yet, preventive measures should be followed.

The best method of escaping this disease is the prevention of overcrowding either at home or in public. Overcrowded conditions in camps, barracks, jails, or other institutions where men are brought in close contact are most favorable for outbreaks. Children and old people are more susceptible than those of middle age, and Negroes contract meningitis more frequently than whites.

People with colds and coughs should stay indoors if possible, should practice personal hygiene and cough into their handkerchiefs.

The early symptoms of meningitis are those of cold or influenza. If one has headache, backache, fever and chilly sensations, he should consult his family physician at once. Healthy carriers spread the disease from their nose and throat to those who are susceptible. Most adults are not susceptible to the disease. The earlier the diagnosis is made, the better are the chances of recovery. All suspicious cases must be isolated.

PLENTY NEW FORDS now available at Lamesa Auto Company. A demonstration will convince you of their superior performance, comfort, safety, and appearance. Call 81.

Miss Thelma Riddle, saleslady at Collins store is able to be back at work after a weeks absence due to illness.

Mr. and Mrs. L. W. West and their guests, Mr. and Mrs. Paul Gooch of O'Donnell, and Miss Pauline Bulsterbani, spent Sunday in Big Spring.

Judge C. E. Story of Stanton was a

business visitor here Tuesday.

It's the tops in motor fuels! GULF'S NEW KNOCKPROOF GAS

HIGHEST ANTI-KNOCK RATING in motoring history—that's the secret of Gulf's new No-Nox Ethyl!

Your motor won't, can't knock with this fuel. For it is literally knockproof... even in the high-compression 1937 cars.

It steps up any car's power, smoothness,

and economy, too. And gives split-second starts... cuts down battery drain, crankcase dilution, wasteful choking.

Get Gulf's new No-Nox Ethyl at the Sign of the Orange Disc. Costs no more than other premium fuels. And we recommend—as a worthy running mate—the world's finest motor oil, Gulfpride.

FREE AT ALL GULF DEALERS — New Funny Weekly with full page of puzzles, games, and other features. FUN FOR ALL THE FAMILY!

Shippers!

**NEW SHORTER ROUTE
MOUNTAIN STATES
and the GULF COAST**

The Santa Fe is happy to announce the completion and opening to service, on February 1st, 1937, of the longest piece of new railroad undertaken in the United States in the past year—the 112 miles of new line linking Las Animas, Colorado, with Boise City, Oklahoma

The new line carries rail facilities to and through a considerable area of potentially rich country, but it has an even broader purpose—to provide finer Santa Fe service for the shippers and consumers of a tremendous and already developed territory.

In a word, the new road, linking together existing Santa Fe lines, provides to the shippers and consumers of a vast and productive area of Texas, New Mexico, Oklahoma, Colorado, and of the northern mountain states clear to the Pacific Northwest, through facilities and shorter routings for the rapid interchange of their shipments. It reduces the previous shortest rail distance between Amarillo, Texas, and Denver, Colorado, by over 25 miles. It saves from 142 to 226 miles in the movement of freight over the Santa Fe to and from Colorado, from and to points in Texas, and on portions of the Santa Fe in Oklahoma and New Mexico. Today, Amarillo is placed but 435 miles from Denver, via the Santa Fe. Products of the Pacific Northwest, connecting with the Santa Fe at

Colorado points, can now have direct routing to the markets of Texas and the Gulf ports, while producers in the Lone Star State will benefit from similar service in reaching Colorado and the great Northwest.

The new line has been carefully sited and solidly constructed, with every facility for the handling of business offered at new stations located in a territory that had been making progress even in advance of the advent of the rails. Here is good wheat country, and corn, grain sorghums, broom corn and other crops have done well with natural rainfall. In the Las Animas area, where irrigation farming is done with water from the Arkansas River, there is promise of greatly increased production of sugar beets, melons, vegetables, onions, and alfalfa. West of Springfield, Colorado, and Boise City, Oklahoma, and north of Amarillo, general farming and livestock raising are important activities. Among the towns on the new line north of Amarillo, in Texas, are Dumas and Stratford.

In the construction of the new Boise City-Las Animas line, the Santa Fe reaffirms its abiding faith in the future of that vast Southwest in which it pioneered and with which it has grown. Your local Santa Fe representative will be glad to point out how the new line can best be of service to you

QUALITY CHICKS With High Livability

We are entering our 10th year in the hatchery industry and in the past nine years we have learned many things in regards to the breeding and production of strong healthy chicks.

And you who buy chicks from us, are getting the advantage of this knowledge in the form of strong peppy chicks that are easy to raise and quickly mature in to high egg producing pullets.

Below are a few livability reports from our customers last season:

- Harvey Burkett, 500 chicks, lost only 10 (8 weeks old)
- Lloyd Elliott, 500 chicks, lost only 1 (4 weeks old)
- Bill Norris, 350 chicks, lost only 2, (2 weeks old)
- Lee Pittman, 600 chicks, lost none (4 weeks old)
- Ben Dopson, 600 chicks, lost only 11 (3 weeks old)
- Mrs. Sam Dalmont, 500 chicks, lost only 13 (4 weeks old)
- O. D. Hall, 300 chicks, lost only 3 (3 weeks old)
- W. A. Cook, 500 chicks, lost only 5 (3 weeks old)

These livability reports are not selected but are the average report from our customers last season. These chicks were all fed on Barron's Eureka Brand Chick Starter, built in our own plant and always fresh.

If you did not get the livability you expected from your chicks last season, try our chicks this season. We stand back of the livability.

It will be necessary to book your order two to four weeks in advance, that you may get your chicks on the date you want them. We have more chicks booked than ever before at this early date.

FORD SAYS 1937 MODEL BEST HE HAS BUILT

Henry Ford, in discussing the current model of his motor cars said: "In this world no one gets something for nothing, although there are many ways of making people think that they do. The sure way to get value for value is, first, by being yourself willing to deal on that basis, and second, by dealing with a concern that has no other policy."

There are some things we refuse to do to sell a car. We like sales, but fair dealing and the confidence of our customers are desirable too.

For one thing, we refuse to poison anyone's mind against another make of car. We know what our car is and what it will do, and we are ready to tell you about that. But to imply defects in another car is not our business.

We refuse also to adopt the role of wicky trader—that is, pretending to offer you a larger trade-in allowance.

and taking it away from you in some other way.

"We refuse to keep dinning in your ears that the Ford V8 is the best, most economical, lowest priced car. That is claimed for several cars. Obviously it cannot be true of all. There comes a point where claims and adjectives and all advertising hysteria disappear in their own fog. Personally, I prefer facts."

"We say the new Ford V-8 is the best car we have made."

"We say that our 8 cylinder car is as economical to operate as any lower number of cylinders."

"We say that we have always been known as the makers of good cars and that the many good, well-balanced qualities of our present car place it at the head of our line to date."

Over 450 Deaths by Fire in Texas in 1936

Fire has taken a staggering death toll in Texas for the past fifteen years. Fire is a dreadful menace to both our lives and property. Approximately 52 per cent of the fire losses paid by insurance companies doing business in Texas for the years 1930 to 1935, inclusive, were losses that occurred in the home, which means that a large proportion of all fires and most of the deaths occur in homes.

During the year 1936 more than 450 men, women and children lost their lives from fire (exact number of deaths in 1936 not yet available), and since 1922 to 1936, inclusive, more than 4,990 men, women, and children have lost their lives from fire. The contributing causes of deaths from fire during 1936 were as follows:

- KEROSENE, starting or quick-ening fire with 40
 - KEROSENE, explosion of lamps, lanterns and stoves 10
 - GASOLINE, starting or quick-ening fire with 15
 - GASOLINE, cleaning clothes, floors, etc., with 20
 - GASOLINE, explosion of barrels, bottles, etc 10
 - CLOTHING, ignited standing too close to stove or open fire 50
 - GAS, explosion of 15
 - AUTOMOBILES, burned in wrecks and collisions 15
 - EXPLOSIONS, crude oil, boilers, etc. 12
 - TRAPPED in buildings 45
 - SCALDS, children falling into boiling water 10
 - MATCHES, children playing with 5
 - SMOKING in bed 3
- Most of the first that occur in the home are from simple and easily preventable causes. Likewise, most of the deaths that occur from fires are from simple and easily preventable causes.

ELEMENTARY SCHOOL NEWS

Edited by pupils of the Seventh Grade

Monday, February 8, was the 27th anniversary of the Boy Scout organization in America. Since this is National Scout Week, most of the Scouts in our school are wearing uniforms. It is a fact that the largest single group in the world who wear uniforms, excluding soldiers and sailors, are the Boy Scouts of America.

The pupils of Mrs. Hardesty's violin class gave a chapel program Tuesday morning.

The seventh grade girls' sextette, under the direction of Mrs. Lindsey, gave three numbers at the Luncheon Club Tuesday.

METHODIST NOTES

WELCH CHARGE

The pastor was at Bartlett at eleven o'clock Sunday. Though the sandstorm raged we had a fairly good attendance. It was an enjoyable day for us and all who were present were anxious for a regular service.

We are to be there again the Third Sunday, then permanent arrangements will be made. The Sunday school is to meet next Sunday for reorganization. If help is needed we will be there to do what we can on the third Sunday. Everything looks good to start us off there.

Report was a fine Sunday school at Welch Sunday. We were back at Welch in time for the Epworth League services Sunday night. We had feared the sandstorm would keep many away but to our surprise between thirty and forty young people were present and a fine program was rendered.

The young folks seem very enthusiastic over their work, and we are elated over the prospects. We have worked and prayed for it for twelve months, and we are happy to begin reaping.

If the enemy does not sneak up and do some dirty work much good will be accomplished. Come and help us enjoy it.

Next Sunday is our regular day at Welch, subject for the morning hour to be "Turning the World Upside Down." For the evening hour the subject will be "The Prodigal Son." We go to Grandview in the afternoon. We need your presence and help there.

We can do all things through Christ strengthening us.

J. G. Walker.

Mr. and Mrs. Jack Moreland and son and Mrs. G. F. Moreland spent Sunday in Lubbock with their sister and Daughter, Mr. and Mrs. Cuba Womack.

Car Owners Are Asked To Assist In State Road Survey

A state highway planning survey is now being conducted by the Texas Highway Department and the U. S. Bureau of Public Roads, with the purpose of working out a logical plan for state roads. Car owners are asked to cooperate in this survey.

It is to the advantage of every county in the state to participate in this survey to the greatest possible extent, according to Mr. Ward Robertson of Austin, a member of the planning commission.

Car owners can furnish considerable necessary information, to be used in working out some logical plan for the highways, streets and roads. In fact, they are being given an opportunity of helping plan their own road systems. Tax assessors and collectors have been furnished with cards on which appear questions concerning fundamental information needed for road planning, and these cards are given to car owners when they pay their registration fees for 1937. They are asked to fill out the answers and mail the cards, which require no postage. Every newspaper has been asked by the planning board to explain the purpose of these cards, and to ask that motorists cooperate in the effort to secure information from those most interested by roads and highways.

So when you register your car for 1937, please take the card and fill it out; don't throw it in the first waste basket. Your assistance in this may mean additional hard surfaced roads and improved lateral roads for our county.

"The business of constructing and maintaining highways, streets and roads has become a tremendous task within recent years and it now affects the well being of every citizen," said Mr. Robertson. "Obviously, every effort should be made to plan our public road system so that it will serve all car owners in an equitable manner and so that the tax burden for roads will be distributed justly."

Farm Real Estate Taxes Show Rise

A small rise in farm real estate taxes in 1936 was reported today by the Bureau of Agricultural Economics, on the basis of a preliminary survey by state tax officials and tax students in 38 states. The Bureau pointed out that replies to a similar inquiry in 1935 agreed very closely with the final returns for the year.

A rise of one point in the index for 1935 marked the end of the decline in the trend in farm taxes which had continued since 1929. Real estate taxes in 1935, reported by the Bureau at 37 cents per acre as an average for the country, averaged the same as in 1934, the lowest level since 1918. The highest figure on record was 52 cents an acre in 1929. The Bureau points out that taxes per acre vary widely among the different parts of the country and among individual farms.

Expressed as an index figure, the Bureau reported that the tax per acre in 1935 was 154, compared with 153 in 1934, 241 in 1929, and with 100 in 1913. The average of the 1935 levies, based on data received from 42 states, was about the same as that for 1934.

In a third table, the Bureau reported that taxes averaged \$1.14 per \$100 of farm real estate value in 1935, compared with \$1.50 (the peak) in 1932, and with \$1.19 in 1929. In 1913, taxes were 55 cents per \$100 of value.

The Bureau reported decreases in farm real estate taxes in all states during the period following 1929. The average for the country continued to decline through 1934 but in 1935 there were increases in 12 states. Figures now available for 42 states show that in 1935 taxes increased in 23 states, declined in 17.

P. T. A. Has Good Session

So that the fathers could attend at least one meeting, the Parent-Teacher's Association met last Thursday evening in the grammar school auditorium. In the absence of the president, Mrs. Guy Weekes, Mrs. Elmer Barron presided.

Miss Helen Massengale of Pampa Honored

Mrs. Dan Ogletree and Miss Eleanor Ragle entertained a group of friends with a lovely party last Saturday night at the beautiful home of Mr. and Mrs. E. R. Yates honoring Miss Helen Massengale of Pampa.

Nine tables of bridge and 42 were in session throughout the evening. Upon entering each guest was presented with buttonholes and nosegays. At the close of the games refreshments of ice cream and cake were served.

Mr. G. M. Roberts, the principal of the elementary school, discussed the new curriculum of the Texas schools. Musical numbers were rendered by the melody band composed of fourth and fifth graders, the Girls' Glee Club, and the seventh grade girls' sextette. Four members of Mrs. L. M. Pratt's speech class presented a short play.

Having the largest number of parents present Mrs. Barron's room of the intermediate department and Mrs. M. T. Garvin's of the primary department won the prizes. Each month the Association conducts an attendance contest. This month the father's counted two points and the mothers one.

Tuesday Club Meets With Mrs. J. L. Sybert

The members of the Tuesday bridge club met with Mrs. J. L. Sybert this week for their regular weekly meeting. The valentine motif was carried out in the decorations and appointments. In the games of contract Mrs. Wallace was awarded the prize for high score and Mrs. Guy Simpson and Mrs. Sam Singleton of O'Donnell won the little slam awards.

A lovely refreshment plate of potato salad, home baked ham and coffee was served to Mesdames Wallace, Simpson, McGuire, Burnside, Watson, Garland, Sam Singleton of O'Donnell.

Honors Son-in-law with Birthday Dinner

You Are Due Good Health, Success and Happiness

But you cannot enjoy these things if you have allowed your system to lag to such an extent that your bowels and liver do not function properly, causing you to suffer with headaches, loss of sleep, backache coated tongue, bad breath, rheumatic pains, biliousness and gas gain brought on by inactive clogged bowel organs. Lagatone is an efficient stimulant for increasing the flow of bile. Lagatone also stimulates liver action, relieving biliousness, worn out feeling and sick headache caused thereby. Lagatone acts on bowels as a laxative and helps clear out old decayed food waste. Lagatone is a compound of several ingredients. Thus Lagatone is like several medicines in the same compound. No wonder people begin to inform us of the good results they are receiving after using it a short time. If your system is lagging and run down, your food disagrees with you, if you are tired and sluggish and lacking energy, Lagatone will clean accumulated poisons out of your system and restore your vitality, your appetite and your good health. Go to your druggist today and buy a box of Lagatone and if you have followed directions, written on the box, for ten days, you are not pleased with the results and if you do not feel new pep and energy, go back for your money. Price, 1 box, 36 capsules \$1; 6 boxes \$5. Lagatone is on sale with the Morris-Cleveland Drug Store in Lamesa. Please do not accept a substitute for Lagatone, for your own good. "Never Let Your System Lag." 2 4t/c

CARD OF THANKS

We wish to express our thanks and appreciation for the many kind deeds and expressions of sympathy in the death of our father and grandfather, to those who brought the nice lunch and to Mr. Branon for his kindness and service and especially do we thank you all for your kindness to our family in our absence. Mr. and Mrs. Ben McCulloch and family.

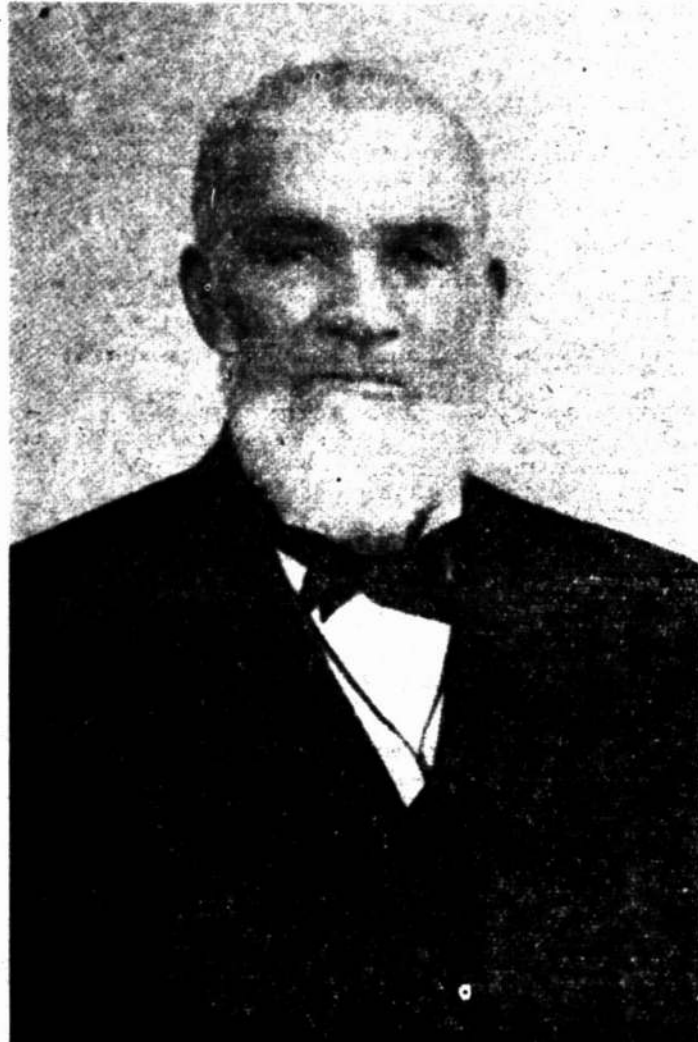

Read This Answer to WHAT'S BEST WAY TO LOSE FAT

It's the slender, vivacious woman—no matter her age—who gets the best things out of life—admiration, stylish clothes that'll fit—EVEN BETTER HEALTH. But modern women are fed up with freak diets, hopeless exercises and harmful drugs. They are at last very intelligently going in for gradual, safe, reduction—a method like the following that not only helps regain normal weight but improves health and physical attractiveness— Just take a half teaspoonful of Kruschen Salts in a glass of hot water first thing every morning. Cut down on fat meats, butter, cream and sugary sweets—wonderful to help kidneys, liver, bowels and gall bladder function properly. Just watch fat vanish! Jar lasts weeks and costs but few cents. Mrs. J. Millar of Portsmouth, N. H., writes: "I lost 11 1/2 lbs. in a month. Wore size 46 dress, now wear size 40."

DON'T SLEEP ON LEFT SIDE—AFFECTS HEART

If stomach gas prevents sleeping on right side try Adlerika. One dose brings out poisons and relieves gas pressing on heart so you sleep soundly all night. Bryant Pharmacy, Morris-Cleveland Drug Co., Taylor-McCall Drug Co.

BISHOP ISAAC LANE, D. D., L. L. D., RETIRED PASTOR OF COLORED M. E. CHURCH

Bishop Isaac Lane, retired Bishop of the Colored M. E. Church was born March 3, 1834, five miles north of his present home in Jackson, Tennessee. The colored Methodist Church is celebrating his 103rd birthday on March 3, 1937. He is still living in good health. He was licensed to preach in 1856, a service record of 81 years in the ministry being his. In the month of April, 1886, there were 270,000 members of the colored M. E. Church, South. He was chairman of the committee which asked for this membership to become a separate body, which request was denied by the General Conference in New Orleans, but the following session of the conference granted the request, effective Dec. 10, 1870. This was the beginning of colored Methodism. He was elected to the office of Bishop in 1873 and served in that capacity until he retired in 1914. He founded Lane College in Jackson, Tenn.; built the first publishing house of his church, was pastor of Mother Liberty church organizing it in 1857, the oldest church in the connection. During his ministry he has married 1621 couple and more than 81,000 have been converted under his ministry. He will preach next Sunday in the Scruggs Memorial colored Methodist church in S. Louis, Mo.—Christian Index.

Lets Talk about Clothes TEXAS STATE COLLEGE FOR WOMEN (CIA)

Denton, Feb. 9.—Beige has staged one of the most exciting and successful revivals of fashion. Beige clothes fill shop windows and cause more furor than a new hat. Beige suits, stunning two-piece wool outfits to wear under a black Persian lamb fur coat with telling distinction, slim dresses with demure high necklines, and swagger coats to wear over straight line black wool dresses are a few of the new beige numbers.

It's a warm, magically flattering tone of beige, honey beige, to be exact. The wools are soft, feminine and smooth, and the clothes are flawless. Dull black buttons fasten the prim front of a beige jacket blouse top to a skimpy straight skirt, and a dull black silk ascot muffles the throat.

Another beige wool one piece dress that is a favorite with girls at Texas State College for Women (CIA) has one of those tricky swathed necklines short sleeves, a pencil straight skirt, and not a sign of plait, tuck or trimming. This makes an ideal dress for daytime to wear with dark accessories for fur or wool coats.

Beige dramatized with black is a knockout! You can buy beige fitted jackets with black wool skirts, and you will find swagger coat of beige wool with chevron shaped pockets outlined with a black zipper, the zipper ending in coal black wool tassels.

You'll find beige topcoats that end at the knee-line, or short and smartly higher coats that end at the thigh made with braided edges or tuxedo collars, cuffs, and pockets. These are lined with black silk, and you can wear them with anything.
