

LAMESA WINS NEXT DISTRICT CHAMBER MEET

TWO ARE KILLED, MANY OTHERS HURT IN OKLAHOMA STORM

HUGE DAMAGE IS CAUSED BY WIND AND HAIL THERE

HOMES ARE DESTROYED AND FAMILIES ARE FLOODED OUT TRAINS ARE HALTED STREAMS OF STATE ARE OUT OF BANKS IN MANY PLACES

(By Associated Press) OKLAHOMA CITY, April 7.—Two persons were reported dead, several injured, railroads crippled and highways inundated as the result of wind, hail and rain which swept central and southern Oklahoma yesterday and today.

Herman Simonds, 34, who lived between Blanchard and Lindsay was drowned when he attempted to run from the home of his father, I. D. Simonds, in a storm cellar. He fell into a drainage ditch which was filled with water.

An unidentified negro woman was killed by a small tornado seven miles southwest of Mountain View. The wind demolished the house in which she lived, several farm buildings and the Harvey school were wrecked. Streams in that section were reported to be out of their banks, flooding low lands.

Four members of the J. P. Bonard family, living five miles north of Duncan were taken to a hospital at Duncan after their home was wrecked by high winds Wednesday night. Bernard was said to have been blown a quarter of a mile and injured. Lillian, a year-old child, was in a critical condition, severely fractured skull. Lillian, Anna, Leo and Olive, all little girls, were found injured under a pile in the wreckage and Mrs. Bernard was injured slightly.

Several hundred persons have left their homes at Duhon where waters flowed over lowlands. More than a field of the residents of Fort Cobb fled their homes tonight seeking high ground. Water was standing from one to two feet deep in business houses from Cobb creek. Five inches of rain were reported to have fallen at Fort Cobb, within three hours. Residents lined up apprehensively at the rising Washita nearby.

Streets in Carnegie were flooded, water standing several inches deep in some of the business houses. Rain was said to have been heaviest there since 1902, with a flood of the Washita river feared.

Reports that afternoon said that heavy rainfall had visited Kiefer. Water in the east side of the town was said to be from six inches to three feet deep in streets and homes.

Several houses were damaged at Lindsay by heavy hail. Farmers in the Payne and Custer communities reported that they had been torn away by wind. Several houses were blown from their foundations.

Caught by the rising water of the Little Washita, Sam Huxford young son spent last night in a tree near Ninnekah. He was rescued by a boat from Chickasha. Half a mile of railroad track and a steel bridge were swept away near Ninnekah.

Chickasha was almost isolated with the little Washita out of its banks there and the Washita at flood stage.

FOSTER COMMANDS VETS Confederates Pick Houston Man To Head Organization and Little Rock for Meet TAMPA, Fla., April 7 (AP)—General J. C. Foster of Houston, Texas, commander of the Trans-Mississippi department, was chosen commander in chief of the United States Confederate veterans at the closing business session this afternoon.

Little Rock, Arkansas, was chosen 1928 convention city.

ONE KILLED, FIVE HURT IN AUTOMOBILE COLLISION CHICAGO, April 7 (AP)—One man was killed, two others were injured and two men and a girl were hurt in a collision between two automobiles near Metcalf Grove, Ill., a suburb today. The dead man is Sister Mary Hyatt, mother superior of the convent of Holy Child, Chicago. The three sisters, with a man and his daughter, were returning from attending a wake, when their car collided with another machine. Both automobiles overturned.

FEDERAL OFFICERS ACCUSED IN CORONER'S JURY REPORT LOS ANGELES, April 7 (AP)—A jury verdict returned following the holding this afternoon of coroner's inquest into the death in an automobile accident of E. P. Ingalls, accused Frank H. Parry, and George Hadden, federal prohibition agents, of "criminal negligence" and with "being under the influence of intoxicating liquors while operating the car which collided with that of the victim."

DePinedo's Plane Which Was Burned At Roosevelt Dam

RANGERS FOR PAMPA AND STINNETT NEXT

BORGER TO BE GIVEN ANOTHER CHANCE TO CLEAN UP OR GET MARTIAL LAW

(By The Associated Press) AUSTIN, April 7.—Texas Rangers may move on Pampa and Stinnett when they complete a "clean-up" of Borger, Panhandle oil town it was learned here today.

Many of those ordered by the rangers to leave Borger today, authorities believe will stop over at Stinnett and Pampa, both in the oil field.

Gov. Dan Moody ordered rangers to Borger in response to a request for martial law which he believed unnecessary at the time. W. Boyd Gatewood, Moody's private secretary and R. L. Robertson, state adjutant general, now are in Borger making investigations believed to be for the purpose of determining if martial law is necessary at the time.

No official report of activities of rangers today in closing parties "jointly" at Borger and making numerous arrests had been received at the adjutant general's department.

One More Chance AMARILLO, April 7 (AP)—Civil authorities of Borger will be given one more opportunity to clean up the town and failing may face drastic action from Governor Dan Moody, the governor said in a long distance conversation late tonight with Boyd Gatewood, his private secretary.

Mr. Gatewood arrived in Amarillo shortly before midnight accompanied by Adjutant General Robertson following an inspection of conditions in the oil field town. The governor's stand will be explained to Borger civic authorities by the governor's representatives tomorrow.

Governor Moody also informed Gatewood that he would double the number of state rangers in Borger and had ordered him more to report there within the next 24 hours.

Adjutant General Robertson said martial law would be resorted to only in the event all other measures failed.

WASHINGTON, April 7 (AP)—Personal efforts by President Coolidge with a view to reducing peace in Nicaragua were foredoomed today with the announcement that Henry L. Stimson, former war secretary, would sail from New York Saturday for Nicaragua as special representative of the president.

The announcement followed a conference with the president attended by Secretary Kellogg, Assistant Secretary Ochs, in direct charge of Latin American affairs, and Mr. Stimson. A brief official announcement at the state department said the New Yorker was going at Secretary Kellogg's suggestion to take up with Minister Ehrhardt and Rear Admiral Julian Leizner, naval commander in Nicaragua, "certain views of the administration which cannot conveniently be taken up by correspondence."

YAQUI INDIANS EXECUTED NOGALLES, Ariz., April 7 (AP)—Thirty-six Yaqui Indian warriors captured by Mexican federal troops in recent battles in the Sierra de Beatenitas, Sonora, Mexico, were simultaneously executed last week at Orizaba, Sonora, according to a dispatch to the Herald.

FUNERAL SERVICES FOR COCKRELL SET FOR SATURDAY DALLAS, April 7 (AP)—Funeral services for Joseph Elmore Cockrell, 67, for many years a leading Texas jurist, who died at a hospital here at 11:30 a. m. Thursday, will be held Saturday, it was announced Thursday night.

The place and hour had not been set. Death followed an operation Monday from which he was thought to be recovering rapidly, until a short time before his death.

DR. WILLIAM STEPHEN ROBBIE BASEBALL ORGANIZER, DIES SAN ANTONIO, April 7 (AP)—Dr. William Stephen Robbie, 58, one of the organizers and first president of the present Texas League died tonight at his home here following an illness of seven months.

Dr. Robbie was born at Longwood, Ont., and received his elementary education there, later attending the Harvard school of medicine. He lived in Chicago at one time.

In 1898 he came to San Antonio and six years later assisted in the organization of the present Texas baseball league serving as its president for four years.

BOY ADMITS BLAME FOR PINEDO MISHAP

JOHN THOMASON ADMITS THAT HE DROPPED MATCH WHICH BURNED PINEDO PLANE

(By The Associated Press) PHOENIX, Ariz., April 7.—John Thomason, 17, of Phoenix, a boat tender at Canyon Lake, Ariz., late today in a signed statement said that he was the person who threw the lighted match on the oil covered waters of Lake Roosevelt yesterday noon, that resulted in the destruction of Commander Francisco De Pinedo's hydro-aeroplane, the Santa Maria.

Thomason in his statement said "I am sorry" and "It was an accident." "The statement was obtained after a reporter for the Arizona Republican who was at Roosevelt Dam, had questioned Thomason, and said that the youth was responsible, had him sign a written statement in the presence of Commander De Pinedo, Roland A. Still, manager of Apache Lodge and John W. Hughes.

The statement says: "We were all in the boat after it had been refueled when it was ready to leave. Colonel De Pinedo was shaking hands with Roland Still, saying goodbye, when I lit a cigarette and threw the match into the water near the boat. I knew there was gasoline on the water, but didn't think it would burn. I am certainly sorry that it happened."

Helped Fight Fire "We did all we could do to help save the ship."

The boy who threw the lighted match into the water, bringing to a tragic end Commander De Pinedo's air tour of four continents, had been sought since yesterday.

Commander De Pinedo said that he would forward the original signed statement to Premier Mussolini which See PINEDO ACCIDENT Page 6

ADMITS MURDER GUILT Luis Hidalgo Confesses to Slaughtering His Sweetheart and Mother of Girl

LAS CRUCES, N. M., April 7 (AP)—"Yes, I did it. I am guilty." This was the reply of Luis Hidalgo, 25 year old Indian, to a complaint of murder read to him by Justice of Peace Jose Sierra here this afternoon.

The complaint charged Hidalgo with slaying his 14 year old sweetheart, Anita Maynes, and her mother, Mrs. Monarca De Maynes, 48, with an axe late Tuesday at their home, four miles northwest of Anthony, New Mexico.

Hidalgo, who was arrested and signed a confession late Wednesday, was held without bond to await the session of the grand jury. The case cannot be brought to trial until the September term of court.

DR. WILLIAM STEPHEN ROBBIE BASEBALL ORGANIZER, DIES SAN ANTONIO, April 7 (AP)—Dr. William Stephen Robbie, 58, one of the organizers and first president of the present Texas League died tonight at his home here following an illness of seven months.

Dr. Robbie was born at Longwood, Ont., and received his elementary education there, later attending the Harvard school of medicine. He lived in Chicago at one time.

In 1898 he came to San Antonio and six years later assisted in the organization of the present Texas baseball league serving as its president for four years.

POTASH MONOPOLY ATTACKED BY U. S.

GOVERNMENT CLAIMS FOREIGN COMPANIES DIVIDING SALES HERE

(By Associated Press) NEW YORK, April 7.—The government launched an attack today on the alleged monopoly of the potash industry, which it claims is controlled by German and French firms, when a petition for a permanent injunction was filed in the United States district court, naming sixteen defendants charged with violating the anti-trust laws.

Through representatives in New York, arranging with American distributing agencies, the government, through Alexander B. Joyce attached to the attorney general's office, claims that the foreign company's price fixing and the sale of potash to be made in this country.

In addition, the complaint alleges price fixing and agreement to select a single exclusive selling agency in the United States by May 1.

The injunction was asked in relation to the German and French firms from carrying out the "combination, conspiracy, and contract."

SPUR BAND PLAYS HERE Group Are Given Fine Reception by Local Audience at the High School.

As their part in the exchange of concerts of the various bands of this section, the Spur municipal band appeared in concert before a highly appreciative audience at the high school auditorium last night.

DALLAS BOY FACING A CHARGE OF MURDER DALLAS, April 7 (AP)—Alvin Harbison, 17-year-old, charged in Justice court with the murder of Belmont Sanders, shot and killed Wednesday near Patrick school house, 15 miles south of here. He was placed in jail.

MAN KILLED IN FALL OFF BUILDING SCAFFOLD DALLAS, April 7 (AP)—L. Stein, 36, was fatally injured and Clarence Keyser, 34, of Irwindell, was injured when they fell about 15 feet as a scaffold at a new school building collapsed here Thursday.

Stein suffered a fractured skull and died within a few minutes. Keyser was severely bruised.

Miles Are Spanned By Television Invention

(By The Associated Press) WASHINGTON, April 7.—How that the electrical transmission of sight, publicly demonstrated today for the first time in history, might have an importance as vital as the beginning of the telephone, telegraph and radio was expressed today by Secretary Hoover.

This was a part of the message the commerce secretary sent over the telephone wires from Washington to New York while instruments operating at the two ends of the line enabled the audience at the American Telephone and Telegraph company study in the metropolis to see him as he spoke.

Secretary Hoover sat in the telephone company studio here before a large cabinet and spoke into an extension telephone. Rays of light played across his features constantly while he read slowly from his manuscript. Before and after he spoke he listened in on an extension telephone to conversation between guests here and in New York.

"It is a matter of very great importance to have a part in this historic occasion," the secretary said in his New York audience.

"We are all familiar, through the electrical transmission of sound, with the very startling sense of the transmission of sight for the first time in the world's history. It may be that after a while we can make little speeches like this and stay on the job here."

"I am impressed, with the exhibition of human genius which has not destroyed the impediment of distance in a new respect and, in a manner hitherto unknown. What its uses may finally be, no one can tell, any more than man could foresee in past years the modern development of the telegraph or the telephone."

BATTLESHIPS ARE MOBILIZING NEAR HANKOW WATERS

CHINESE SITUATION IS GRAVE WITH ALIENS EVACUATING

RUSSIA IS ANGERED SEARCHING OF SOVIET EMBASSY CAUSES BREACH

(By The Associated Press) WASHINGTON, April 7.—Official reports confirming the violation of Russian diplomatic immunity in Peking by police and soldier vied for attention with disclosure that a fleet of 21 foreign warships has mobilized at Hankow, nationalist political capital, at a time when demands for reparations for the Nanking outrages are being drafted for presentation at Hankow.

Minister Mac Murray cabled that the Russian embassy raid had followed permission granted the Chinese authorities by the senior diplomat of the latter protocol powers, the Dutch minister for a search of the privately-owned Dahl bank and the building of the Chinese eastern railway, adjacent to the embassy compound, for evidence of "subversive soviet agitation."

He added that the Chinese had evidently exceeded this authority to search private Russian owned and occupied property and invaded the barracks in the old Russian legation compound occupied by the Russian legion guard before the Moscow government waived its special rights under the boxer protocol.

Of far greater moment as it affects the whole Chinese situation, however, is the course the Moscow government may take as a result of the incident. Unquestionably it would afford ground for vigorous action which might lead to the already complicated problem of preparing Americans and other foreigners in China from violence or molestation.

Fleet Mobilized The fleet mobilization at Hankow was reported by Consul General Lockhart. His dispatch, as made public, did not indicate that the concentration of war vessels had any other significance than as reflecting tension over the status of foreigners still prevailing in Hankow.

Four Japanese destroyers reached the city within 48 hours after the rioting of April 3 in the Japanese concession in which Japanese and Chinese were killed. Lockhart said. In all there are eight Japanese naval craft, four American, six British, two French and one Italian now at Hankow.

The exodus of Japanese and foreigners generally is proceeding hasty. A half day strike in protest against firing on Chinese during the riot in the Japanese concessions added to foreign apprehension as did the congregating of large crowds in the former German concession adjoining that of the Japanese.

All precautions have been taken to insure evacuation of all remaining Americans should an acute emergency arise," Lockhart said.

May Remove Embassy SHANGHAI, April 7.—The possibility of the removal of the Soviet embassy at Peking to Hankow, the seat of the Cantones, or nationalist government, was suggested today by Wilhelm L. Linde, Soviet consul here, as a result of yesterday's raid by northern soldiers on buildings attached to the Russian embassy.

Mr. Linde said that such a removal was not impossible in discussing the incident with newspapermen after he See CHINESE SITUATION Page 6

Rebels Defeated In Fierce Battle

EL PASO, Tex., April 7 (AP)—Revolutionary rumblings in Chihuahua, were heard in Juarez again today when a battle of a clash between state militia and a band of rebels were reported, stating that 18 members of the insurrecto party were killed and 26 taken prisoners.

Prisoners captured by the state militia are now in the Chihuahua city penitentiary, according to the report. The battle took place at Nonoava, Chihuahua. Nonoava is several hundred miles southwest of Chihuahua city, and about 300 miles northwest of Parral.

Col. M. Gutierrez, of Nonoava, was in charge of the state militia which practically ended the entire revolutionary band composed mostly of Indians, it was reported.

From the report of the battle as received by officials in Juarez, indications were that it lasted for several hours, the militia finally putting the rebel band to flight only after a desperate hand-to-hand encounter.

KIMES REPORTED IN LUBBOCK VICINITY

LOCAL OFFICERS SEARCH FOR TRIO SAID TO BE COMING IN THIS DIRECTION

Patrol of all roads leading into Lubbock was being maintained by local officers Thursday night as a result of messages here that Ray Terrill, Mathew Kimes, and a woman companion, much wanted Oklahoma outlaws, were enroute to this city.

Sheriff J. A. Martin of Farmer county stated over long distance that the men had been reported coming out of Amarillo towards Farwell yesterday afternoon, and that they turned out on the Lubbock highway near Ft. Oona, about 25 miles from Farwell. Amarillo officers were said to have been in pursuit of the trio, who were riding in a Cadillac coupe, while roads all along the line were being blocked.

Terrill and Kimes were identified as men who participated in the robbery of the Pampa bank last week, while the Walker brothers, former residents of Lubbock and alleged to have also assisted in the robbery, are known to have friends in this county, and it was thought possible that Kimes and Terrill planned to find refuge in this city.

Kimes formerly of Muskogee, Oklahoma, and wanted in connection with numerous robberies in that state, was the principal figure in a sensational jail break when he was removed from an Oklahoma jail by his pals after the jailer had been knocked in the head. A police dog on duty there was shot in a terrific fight between the intruders and the dog, in which two of the intruders were injured.

Ray Terrill, arrested after he had been wounded during an attempted holdup of a Missouri bank, made good his escape from three escort officers while enroute to the penitentiary at McAlester, Okla. Just as the car reached the outskirts of that city.

POWER GIVEN COMMITTEE Groups Have Authority at all Times in Opinion of Vice President

CHICAGO, April 7 (AP)—Vice President Dawes guided by a supreme court decision today held that the senate campaign funds investigating committee retains its powers although Congress has adjourned, and appointed Senator Simeon D. Fess, republican, Ohio, to succeed Senator Guy D. Golf, republican, West Virginia, resigned.

The Vice President followed the opinion of the high court in the recent case against Mal Daugherty, whose testimony was wanted by a senate committee.

The filibuster in the expiring hours of the senate of the sixty-ninth congress and the failure of the resolution of Senator James A. Reed, chairman, Missouri, decision on the question to the vice president.

DENVER CITY TO RECEIVE AMARILLO FIELD GAS DENVER, Colo., April 7 (AP)—A contract between the Public Service Company of Colorado and the Standard Oil company of New Jersey and the Prairie Oil and Gas company to bring gas from Amarillo, Texas, 400 miles away, was signed today. As a result, Denver expects to have natural gas selling for between thirty and forty cents a thousand cubic feet less than the present rate in its mains by July, 1928.

LAKE VIEW PHYSICIAN DEAD FORT WORTH, April 7 (AP)—Dr. W. S. Gostin, 54, for 18 years a physician at Lake View, dropped dead at a hospital here today, says a dispatch to the Fort Worth Star Telegram.

He is survived by his widow, four daughters and one son.

Burial will be in Lake View cemetery.

ATTENDANCE FOR CROSBYTON MEET MORE THAN 1,000

LUBBOCK BOY TIES FOR THIRD PLACE IN SPEAKING

LUBBOCKITES THERE LOCAL MEN PLAY LARGE PART DURING THE CONVENTION

Lubbock contributed over 100 of the 1,000 or more South Plains boosters who gathered at Crosbyton yesterday for the district West Texas Chamber of Commerce convention when Lamesa topped the 1928 gathering and many talks of interest to the South Plains section were heard.

Old Walter of Lockney took the "My Town" contest, winning a gold watch while James Kennedy of Lubbock tied with E. S. Rowe, Jr., of Littlefield for third place. D. G. Pierce of Plainview came a close second in the contest and Miss Ollie Bell Collins, formerly of Lubbock and daughter of Rev. and Mrs. A. A. Collins, won first for the girls taking fourth in the contest and winning a gold wrist watch. The prizes were offered jointly by the West Texas and the Crosbyton chambers of commerce.

South Plains chamber of commerce executives met late in the afternoon and formed an association which will include secretaries and directors of this section and will meet semi-annually to work out problems of this section and to better coordinate the work of South Plains chambers of commerce. Wm. A. Wilson, Lamesa, was elected president; Ed Bishop, Florida, vice-president; and S. W. Cooper, Crosbyton, secretary-treasurer; directors elected as: J. E. Shelton, Brownfield, Maury Hopkins, Pecos; W. E. Smith, Tuhoka; A. O. Cline, Lubbock; and J. W. Richards, Oton. The association voted to hold their initial meeting in Lubbock during August.

Convention Success The convention was a big success. Old man Sol came out and offered delegates to the convention one of the prettiest meals enjoyed on the South Plains in some time while the beauty of Silver Lake Falls and the hospitality of the citizens of Crosbyton added to the enjoyment of the visitors. The Lubbock high school band, the Lockney ukulele club, the Tuhoka coral club and glass club, the Crosbyton quartet, the Silverton symphony orchestra, the Oton overall brigade and the Crosbyton pageant put on by school children helped to entertain the people in attendance at the convention.

Gaza county, southeast of Lubbock county, was added to this district by Manager Homer D. Wade at the request of the citizens of Post.

Rain Heavy A light rain which fell in Lubbock Wednesday night was heavier to the west totaling about two inches at Idaho and caused delegates to arrive late and the convention to get a late start. The rain is believed to have cut the attendance considerably. Clifford B. Jones, Spur, member of the board of directors of the Texas Technological college served as chairman of the morning and afternoon sessions.

Rev. C. E. Dick made the welcome address and Maury Hopkins of Plainview, made the response. B. M. Whitaker told of the objects of the district conventions and Dr. Paul W. Horn spoke on the subject of Embassy citizens. The Silverton symphony orchestra, the Lubbock high school band, the Crosbyton pep quartet and the Tuhoka coral club and glass club, and See CROSBYTON MEET Page 6

### Today in Society

The 1916 Needle club is to meet at 2 o'clock with Mrs. Claude Burrus, 1619 15th street, with Mrs. Joe Burdette as joint hostess.

The J. A. White club is to meet at 3:30 o'clock Friday with Mrs. Edna Shelton, 2329 15th street.

Mrs. and Mrs. W. O. Stevens are entertaining the Auction Forty-Two club in the evening at their home, 1404 Avenue O.

The Fellowship club meets at 2 p. m. at the home of Mrs. Fred Snyder with Mrs. Sam T. Davis as joint hostess.

The Merry Mix-Up club meets in the evening with Mr. and Mrs. E. M. Smith.

Mrs. A. L. Hawkins will be hostess to the L. T. D. club in the afternoon at her home, 1919 15th street.

The Pre-School Age study group of A. A. W. meets at 4 o'clock with Mrs. Clyde F. Elding, 1210 Avenue O.

Mrs. R. B. Hutchinson will entertain the Friday night bridge club in the evening.

The Friday Needle club will meet with Mrs. R. W. Helm, 1917 15th street at 3 o'clock in the afternoon.

A party will be given in the evening at the First Presbyterian church in the evening by the young women's auxiliary of the institution. Members of the congregation and their friends are invited to attend.

### Bluebonnet Club Is Entertained By Mrs. Arnett

Mrs. S. C. Arnett was hostess to the Bluebonnet club, Wednesday afternoon at her home, 1214 Avenue L. Games of bridge were played with Mrs. W. S. Poney receiving high score among club members and Mrs. F. M. Bailey scoring high among the guests. A two course plate luncheon was served. Mrs. Arnett used apple blossom bouquets. Those who were in attendance were Mesdames A. B. Conley, J. S. Johnson, W. H. Meador, W. S. Poney, Roy N. Haverly of Minneapolis, Minn. R. A. Mills, A. V. Weaver, F. M. Bailey, J. H. Hankins, W. J. Miller, Mary M. Donk and Earl Strobel.

Dr. and Mrs. J. H. McCoy and Miss Frances McCoy, of Tahoka, were in Lubbock yesterday.

### Elaborate Tea At Home Of Mrs. Paul W. Horn Is Honor To Members Of Two Clubs Fostered By Pioneer Society

Members of the Twentieth Century club, pioneer study society of the city, were yesterday afternoon hostesses at a program tea in the beautiful furnished home of Mrs. Paul W. Horn, 2329 15th street. The Junior Twentieth Century club members were guests. Mrs. Horn and Mrs. H. A. Davidson, president of the hostess club, met the guests at the door and Mrs. A. W. McKee served punch. About 75 were present. All members of the Twentieth Century club were in the house party.

Baskets of apple and cherry blossoms were used in profusion in the home and the refreshments were in the form of a mousse molded into baskets filled with crushed violets. Individual white cakes were served. A program was given consisting of a piano solo, "March Honored," by Mrs. R. A. Trussell; a duet, "Venetian Boat Song," Mr. and Mrs. Harry Blacker; a solo, "Ho, Mr. Piper," Mrs. L. A. Williams; solo, "When Your Dear Heart and I," Mrs. A. W. McKee; heart of mine, Mrs. Carl Scoggin; "The Hells of Saint Mary," Mr. and Mrs. W. B. Clement.

### Miss Magee Is Hostess To Live Wire Needle Club Wednesday

Miss Ruth Magee was hostess yesterday afternoon to the Live Wire Needle club at her home, 1411 Avenue M. After an hour spent in amiable conversation, sandwiches and punch were served and then games were played.

### Local Women Assist In Club Organization At Crosbyton

Four women from the local First Presbyterian auxiliary went to Crosbyton Wednesday afternoon and assisted in the organization of a church society there, the fourth such club to be fostered by the local organization this year. Those who attended the meeting were Mesdames J. A. Presley, A. W. McKee, R. D. Moxley and Walter Gillon.

### Mrs. Jott Smyth And Mrs. J. L. Ratliff Club Hostesses

The Wednesday Needle club met this week with Mrs. Jott Smyth, 1402 Avenue T, with Mrs. J. L. Ratliff as joint hostess. A pleasant afternoon was spent after which an ice cream supper was served to Mesdames F. M. Madrox, C. M. Ballenger, Rosewood Wilson, W. A. Bacon, C. J. Wagner, L. C. Ellis, H. A. Davidson, J. H. Goodman and D. B. Calmes.

### The Morning Avalanche Menu for the Day

Breakfast: Steamed flax, cereal, cream, creamed dried beef, crisp whole wheat toast, milk, coffee.  
Luncheon: Baked spaghetti with eggs and cheese, jellyed orange salad, eye bread, nut and date cookies, milk, tea.  
Dinner: Casserole of chicken, rice, croquettes, dandelion greens, raisins and chutney pie, cranium bread, milk, coffee.  
Onions, carrots and celery are cooked with the chicken in casserole, so an extra vegetable is not planned.  
Baked spaghetti with eggs and cheese is an excellent luncheon dish during the winter season.  
Baked Spaghetti, Eggs and Cheese  
Four hard cooked eggs, one cup broken spaghetti, 4 tablespoons grated cheese, 2 tablespoons butter, 1 tablespoon flour, 2-4 cup milk, 1-2 teaspoon salt, 1-2 teaspoon each paprika and mustard, parsley.  
To hard cook the eggs put them into about 1 quart cold water. Bring to the boiling point, simmer and simmer without bubbling for fifteen minutes. Plunge at once into cold water and let stand five minutes. Remove and cut in thin slices crosswise. Cook spaghetti in rapidly boiling salted water for fifteen minutes. Drain and dip in cold water.  
Melt butter, stir in flour and slowly add milk, stirring constantly. Mix salt, pepper and mustard and stir into sauce. Bring sauce to the boiling point. Put a layer of spaghetti into a well buttered baking dish, add a layer of sauce and cover with a layer of eggs. Continue layer for layer of spaghetti, sauce and eggs until all are used, making the last layer of spaghetti. Cover with grated cheese and bake twenty-five minutes in a moderately hot oven. Garnish with sprigs of parsley and serve from baking dish.

### Polka Dot Bag

One of the new French bags is of black patent leather, polka dotted in white and trimmed with dull calf. It has a convenient side pocket.

### The Woman's Day

By Allene Sumner

Deafness in every home is dreaded for the future. Doctors say that with the advance of medical knowledge all human beings are getting so physically perfect and even beautiful that parents some day will treasure the homely girl more than a beautiful one. The old sage of supply and demand, with the touch of anything of value on the market, will judge by the specimen I saw this noon when out for lunch we don't need to begin to advertise for the homely ones yet to advertise for the beautiful ones.

MAYBE 'T WAS I  
Some little 12-year-old kid out in Minnesota killed her brother. He was teasing her. She threw the butcher knife at him. I don't know what they'll do with the little pig-tailed kid. But I do know that she is no more criminal than any of us who were kept from murder in our infancy only by good luck, and not through any virtue of our own. Kids are little savages. They get mad and throw or slap or hit to kill. I knew very well a certain little girl who slugged her teasing brother with the eggbeater when they were left to keep house alone. She cut his mouth open and he lay unconscious for a few minutes and the little girl nearly died of terror and remorse. It was just plain luck that kept her from being in the 15-year-old Alvera's shoes.

A WORD TO WIVES  
Here's a new one! Another divine tip-up a "looking for wives" and he sticks in this "you shall first of all." "Thou shalt not hate and stew all thy wedded life, but direct upon occasion. Good enough! I can count on my right fingers and two thumbs more more unhappy homes because of too hard working, too economical, too vigilant wives than because of extravagant, lazy, slack wives.

GEORGE SAYS  
Marriage is like a beautiful old homestead built 60 years ago. To make it livable in this age, it must have new and up-to-date plumbing, heating and lighting equipment. It must be adjusted to the changes that modern civilization has brought about.

So writes and says George J. Nathan who proudly calls himself "bachelor." He believes with Mussolini that the bachelor should be taxed—but for other reasons, perhaps.

H. S. Spencer, of Amarillo, a representative of the North Texas Claim association, is transferring business here.

### Soups? Out! NCW IS THE TIME FOR FRUIT

Just at this time of year, when appetites are a bit fickle and need tempting, a fruit or vegetable combination should often be served at dinner to precede or wholly replace the soup course.

These so-called "cocktails" serve a two-fold purpose in that they act as appetizers as well as adding color and elaboration to a diet-wise simple menu.

There is one precaution to keep in mind—do not repeat the flavor of the vegetable in any other course. The general rule for serving cold foods thoroughly chilled holds for the cocktail as for the salad. Do not let a fruit cocktail be too sweet, but let it retain its own vim and vigor rather than select the opposite.

Use Left-Overs  
Four tablespoons of the combined cocktail is usually enough to serve to each person, so very often left-overs can be used most satisfactorily and attractively. It is well to include one bland fruit in combination with two or more tart ones. Canned fruits are often improved by a dash of lemon juice and most fruit cocktails gain much if mixed and placed on ice in a covered glass jar for at least six hours before serving. The flavors blend them into a delightful mellow whole.

Fresh Pineapple Cocktail  
One cup diced fresh pineapple, 4 tablespoons sugar, 2 tablespoons blanched and shredded almonds.  
The fruit should be cut in small neat dice, soaked with sugar and let stand over night. One hour before serving add almonds. Serve in chilled glass.

Mint and Orange Cocktail  
Two oranges, 1 large banana or 2 small ones, 1-2 cups crushed ice, 1/2 cup mint, 1/2 cup orange juice.  
Cut oranges in halves and with a string spoon scoop out each section, keeping it as whole as possible. Remove skin from banana and scrape off fuzzy surface with the dull edge of a silver knife. In each cocktail glass put a layer of banana cut in slices and cover with a layer of orange. Pour 2 tablespoons of grape juice over each and sprinkle with minced mint. Each ingredient and the glasses must be well chilled before combining, since this cocktail does not stand after mixing.

LOCAL BRIEFS

Mrs. Jack Goughly, of Childress, has been visiting her sisters, Mrs. S. E. Melton and the two have now gone on to Amarillo to visit another sister, Mrs. George Palmer.

Coleman Wells, of Tahoka, is in a local hospital following an operation for appendicitis.

J. H. Edwards and George Small, of Tahoka, were here on business yesterday.

Mrs. George England, of Abernathy, was a Lubbock visitor yesterday.

M. T. Danell, of Wolfarth, was here yesterday on business.

Mrs. J. H. Lowrie, of Slaton, was in Lubbock yesterday to see a physician.

L. C. Miller, an adjuster for the Santa Fe railroad, is transacting business in Lubbock.

F. S. Dillman, of Eastland, was here yesterday to see local physicians.

Dick Willets, of Amarillo, branch manager of the Southwestern Paper company, is transacting business here.

L. C. Wilson, representative of a chemical manufacturing company, of Lynchburg, Va., is here for a few days.

W. C. Wells, of Tahoka, underwent an operation of a local hospital yesterday and was resting well last evening. Mrs. Wells is here with him.

Mrs. G. P. King, of Shallowater, is in a local hospital for several days receiving treatment. She was accompanied to Lubbock yesterday by Mr. King and her sister, Mrs. G. H. King, also of Shallowater.

Dr. G. H. Aker received here yesterday from Taylor and will be associated with the Lubbock clinic. He and his family are to live at 1414 Avenue N.

C. C. Slaughter, of Dallas, large land owner in this section of the state is transacting business here.

Among those who were here yesterday to see local physicians were William E. Slaton, Mr. and Mrs. R. C. Patterson, Hale Center, J. M. Slaton, Mr. and Mrs. W. England, Abernathy, Mr. and Mrs. A. S. Slaton, Brownfield, A. G. Moore, Meador, Mrs. J. H. Phillips, Slaton, Mrs. I. H. Griffin, Amber, J. P. Schiefer, Leyland, S. J. Thomas, Shallowater, R. A. Young, Southland.

R. C. Darwin, of Slaton, was a visitor in Lubbock yesterday.

J. R. Ervin, of Halls, transacted business with local merchants yesterday.

J. R. Forrest and D. A. Anderson, of Portales, New Mexico, were in Lubbock yesterday on business.

A. D. Dehler, of Taylor, is the guest of his brother, F. I. Dahlberg, superintendent of the Tech farm, for a few days.

E. L. Taylor and A. Murphy, of the Southwestern Insurance company, were callers at the Tech yesterday in the interest of the college annual for next year.

Mrs. C. A. Rice, of Abernathy, was a visitor in Lubbock yesterday.

A. M. Jackson, of Post, was in Lubbock yesterday and left his daughter, Miss Fannie Lou Jackson, for an operation in a local sanitarium.

B. H. Smith, of Hopewell, was a visitor in Lubbock yesterday.

C. B. Martin, county agent of Dawson county, passed through Lubbock last night on his way back from Cross.

Skyscrapers and Hats

With furniture, draperies, pillows, even frocks and capes, Missy's home has succumbed to the stepped influence of the modern skyscraper. Zoning laws require tall structures to recede from the building line as they ascend, and now chapeaux respond to the same compulsion. An interesting model—with its motif for a background.

To Dedicate Bralley Library Saturday

Special to The Avalanche. DENVER, April 7.—The spirit of Frank M. Bralley, the man who for ten years guided the destinies of the College of Industrial Arts, will hover close about the campus again next Saturday morning when state officials, educators and men and women of various walks in life come here to attend the dedication of the new library named in his honor.

It was under the leadership of Bralley that the college metamorphosed from the seminary custom to the status of a full-fledged college. During the decade of his administration a new library was the most conspicuous object of his dreams for the campus where, each year, nearly two thousand Texas young women pursued their higher education. The building was awarded to the college by the state legislature.

Mr. M. Bralley of Austin and his four sons, Ernest, Marlow, Marion and Joe Bill, will attend the dedication. President Edgar Odell Lovett, distinguished educator and head of Rice Institute, Houston, will deliver one of the main addresses of the occasion which begins at 10 o'clock in the morning in the C. I. A. auditorium. The Hon. Jane Y. McCallum, secretary of state and representing Governor Dan Moody, is also scheduled for an address.

James H. Lowry, Hasty Grove news paper editor, for twenty years a member of the C. I. A. board for fifteen years president of it and a lifelong friend of the late C. I. A. president, will tell of the virtues and character that made Frank Bralley great in state educational circles.

Miss Ruth Phillips, of Matador, was a visitor in Lubbock yesterday and received treatment from a local physician.

H. Y. Hollman, of Post, was a visitor here yesterday.

J. H. Germany, of Petersburg, was a business visitor in Lubbock yesterday.

D. H. Stokings, of Littlefield, was brought to a local sanitarium yesterday.

H. W. Muff, of Slaton, was a visitor here yesterday.

Mrs. Clint Vinson, of Plainview, was a shopper in Lubbock yesterday.

Thank Jazz For Our Old Little Boys and Girls

George Ann Lillard

SOPHISTICATED STEALS FOUR YEARS OF EVERY YOUNGSTER'S CHILDHOOD, SAYS ADVOCATE OF THE LIFE SIMPLE. The girl who could not learn to read and write until she was 12, and who had to learn to do so in 15 years, says she is now 25 years old and has been a mother for 10 years. She says she is now a mother of four children and is now a mother of four children and is now a mother of four children.

Lowering the Race. The shortening of childhood's span makes this sad assertion. Miss Lillard says she has studied the way Miss Lillard shows up the tenacity of the job. Biologically it lowers the race.

above her statement. The length of time from birth to maturity is one sign of a higher form of life. Reptiles and fish take a short time to mature. Kittens are full grown in a few months but their lives end in nine years or so. Horses take longer to reach maturity and live often to 20 years. Man, the highest form of life, enjoys a greater span and needs more childhood to prepare him for it.

"This sophisticated age has made little men and women of its children," she asserts. "The clothes of boys and girls are an indication of their thoughts and actions. Long pants like girls for the boys. French frocks, hats, even purses, just like mamma's for the girls. Children are carried with life and bliss before they are old enough to start to live."

Artificial Lives. "At their parties and entertainments," she says, "their whole lives are artificial. Formerly little girls who wanted to act 'grown-up' would borrow their mamma's and put on their hair. Now they have their own make-up."

Miss Lillard described some of the innovations in the new habits of little girls. She found one child who was making a collection of face cream. A lot of little girls are carrying at least a dozen bottles of long-lasting lotions. A new corner of this remarked about a little girl who had on her last day at home, she had had a facial, a shampoo, water, and a manicure.

You Must Shed Sophistication. "Get back to the simple life if you want to get through the artificiality of the age," is Miss Lillard's advice.

"Camp life is natural, simple—the kind of life one cannot lead until he has shed sophistication and artificiality. Therefore camp life promises a remedy for the blasé lives of today."

"Not camp life just for children. Adults need it just as much. For their own sakes and also for the sake of their children. Enjoyment of out-doors and appreciation of sunrises, moonrises, the ocean give balance to life, as well as food to the soul. The very best way to combat the evils of this age is to become as little children and enter the kingdom of camping. It will put health into bodies and give a sense of proportion to life."

DENTAL SOCIETY HOLDS ITS REGULAR MEETING IN LUBBOCK

The regular monthly meeting of the Lubbock county dental society was held at a dinner at the Tech cafe last night. Dr. J. W. Howard was in charge of the meeting in which Dr. W. M. Lemon gave a lecture on the methods of practicing medicine and dentistry in Japan, China and the Philippines from twenty years ago up until the present day. He related a number of many interesting events which happened while he was a missionary in these countries.

The society has as its guest, Dr. G. A. Aker, who is moving to Lubbock from Taylor and is to become a member of the society. He gave a short talk paying tribute to Lubbock and the South Plains.

Slaton Names The Right-of-Way Men

A right-of-way committee consisting of P. H. Summons and Roger Q. Pierce were named Thursday by O. L. Slaton to act for Lubbock and the chamber of commerce in securing necessary trackage grounds for the new line of the Fort Worth and Denver South Plains railroad here.

The committee will be in charge of the work in the city including signing up of all property from block 222 of the old townsite to the point where the Denver crosses the Santa Fe south-east of the city, and all interested property owners are asked to confer with one of these men by Mr. Slaton. The committee to handle rural property beyond the intersection of the two roads has not yet been announced.

In the meantime collection committees from the chamber of commerce are seeking to collect delinquent notes on the fund to secure right-of-way in the city and county, and although they are meeting with fair success, they report collections are not coming in as they should. Collection of the outstanding amount of approximately \$25,000 is necessary. Mr. Slaton says in order that the right-of-way may be delivered the Denver railroad as soon as possible.

We have put Pharis Tires over the rough roads, and loaded heavily. Our test cars have run them unmercifully. We have had them tested in every known way, by an unbiased and well qualified Consulting Engineer, and have compared them with the highly advertised tires on the market today. In these severe tests on the road, covering a period of many months, and in the Laboratory tests, Pharis Tires have demonstrated that they are the EQUAL of any of the Highly Advertised First Line Tires. We are Satisfied. They have delivered in the pinches. Their performance and wear are entirely satisfactory. Then when you buy Pharis Tires from us, you pay LESS than you pay for tires elsewhere. You can not judge Pharis QUALIFY by the PRICE, for we have eliminated much overhead expense in handling and selling, and for these reasons you will pay less for tires at our stores and dealers and get MORE in Weight, in Wearing Qualities, in Mileage. Drop in and look at a Pharis.

FREQUENT INSPECTION DAY

The rolling round of the annual fire prevention time, and clean up week, there comes to light more good suggestions regarding the prevention of fires in the city.

The same is true with crime in the community it would pay the state and the county and save the tax payers much money to educate and train the young people that it does to prosecute them and punish them for crime.

Up in Wisconsin the state has a law to have the local firemen inspect periodically all buildings except the inside of private residences within their respective cities.

As to flies and mosquitoes, and the diseases they are continuously spreading up and down the country, the first step in the problem they present is likewise protection.

We think that most women who want to be of real worth to the country and the community in which they live could best serve that purpose by looking more closely after the affairs of the home.

We think the interstate commerce commission will have to get busy again, another line of railroad is wanted and we presume heading for Texas. It's about ninety miles long, but it may take the L. C. C. longer than that to build.

We think America is so anxious to break records that we even break the records for time, work and happiness on account of sickness.

We think that Norwegian woman's boss here to feed and cloth a family of four on \$25 per month will probably not prove very interesting to many of the housewives of this country.

We think the trouble with most people in the United States is greed. They want too much. They bite off more than they can chew, and the result is as disastrous in a financial way as too fast eating is in a physical way.

We think that a gasoline tax is possibly a good thing for the highways, but we cannot see the wisdom of Lubbock county paying three cents per gallon to help build roads in some South Texas county and get none.

We think Children in at last coming into an afternoon daily newspaper. The Index. The publication of the Index as a weekly newspaper was discontinued in 1888. If the people of that city want a daily paper they should support it. It takes barrels of money to run newspapers and dailies especially cut it like a hot cat's tail.

We think some wives take wonderful chances. We heard of one that threatened to quit her husband if he did not buy her an automobile. My, what a chance she took. What if he had refused to buy the car?

We think some women are not satisfied with their life unless they are spending more than their husbands make. And the women are not always alone in this. Some husbands are not satisfied until they spend all both of them make.

to be dreaded to a degree but after all considered of little consequence. This same authority going into details about two babies who lived next door to each other states that one had whooping cough and all sorts of ailments while the other at the end of its second year had all its life been free not only of colds but all infections. The healthy baby is kept in the open air and out of crowds. The other baby was raised under hot house conditions, and as stated already, suffered all sorts of consequences because of its mother's "extra" care.

It was pointed out in connection with these findings that colds are the forerunners of infected nasal passages, bad tonsils, enlarged adenoids, bronchial troubles, infected ears and pneumonia. If you have suffered with acute carache yourself you now know the reason why. All of these infections have their influence on the entire life of the individual, in many cases resulting in permanent and severe handicaps. Of course, bad feeding, irregular methods of feeding, exposure to mosquitoes and flies, each invites its particular trouble, and all told helps swell the total death rate among babies and little children.

In case of all of these troubles, prevention is the answer. Whether we shall have prevention and save the babies depends upon whether or not we ourselves are willing to take the necessary steps, which may we say here are all simple enough. If the baby is properly hardened in a draft or out in the open he is less likely to catch cold than if raised hot-house fashion. If he is kept away from adults he is of course kept away from the disease they may have or carry. Kissing should be kindly but positively prohibitive. Other children are the greatest offenders in this respect. They being little and ever so innocent, however, does not bring back the baby from the grave and restore it to its mother! Another favorite pastime of some well meaning individual is to carry the baby "home with us" for a little visit. Don't ever let such a thing as that happen to your baby, even if it is necessary to make an enemy of what up to that time had been a perfectly good neighbor. No other mother is going to watch your baby and protect it as you would. And then there are those who look upon what we have said as new fangled stuff and of little consequence, even though they themselves have not been altogether successful in bringing to manhood and womanhood the babies that came into their homes.

As to flies and mosquitoes, and the diseases they are continuously spreading up and down the country, the first step in the problem they present is likewise protection. The first step to that end is absolute cleanliness. If the premises are kept clean and free of stagnant water, both flies and mosquitoes will be reduced to the minimum. When our streets here in Lubbock are kept clean and when the storm sewers are kept washed out we have neither flies nor mosquitoes, unless we have been careless about our place, letting filth and stagnant water accumulate. That, because of very stringent health regulations, rarely happens, hence, because of protective measures we are not bothered much by either of these pests. Beyond cleanliness, screening with fine mesh gauze, not less than fourteen meshes to the inch, will help and help a lot if the screens are tightly fitted into the window frames. It is better to buy gauze wide enough and long enough to cover the entire window than to put up with loose fitting screens built to fit inside the frames. Then still another remedy for the prevention of all sorts of baby ills and one that is coming rapidly into wide popularity is an abundance of clean wholesome milk. A well fed baby with a strong body that is growing normally will throw off any a disease that otherwise might prove fatal.

The point in connection with all of the statements and what statistics has pointed out, is that we have it within our own power to almost if not completely reverse the present appalling situation. As a duty, this, of course, comes first.

"The greatest industrial accomplishment since the war has been the reorganization of American railroads," says Herbert Hoover, Secretary of Commerce.

The truth of this is illustrated in "A Review of Railway Operations in 1926," issued by Julius H. Parmelee, director of the Bureau of Railway Economics, the organization established by the railroads for the scientific study of transportation problems. In it, of course, the carriers are telling their own story, but it is a record to which millions can testify.

The freight traffic of American railways in 1925 was the greatest ever recorded, but passenger traffic, largely due to the increasing use of motor transportation, fell 1.5 per cent below 1925 and was less than in any year since 1916. While total operating expenses outstripped any previous year, except 1920 and 1923, operating revenues were of record proportions and the net operating income greater by 8.2 per cent than in 1925 and greater than the previous peak year of 1916. Mr. Parmelee gives as the railway's rate of return on property investment a percentage of 5.13. Samuel O. Dunn, editor of the Railway Age, however, estimates it at "about 5.25 per cent," probably using the Government's valuation as a basis, rather than the railroad's own figures. One achievement is outstanding—that the railroads during the year were able to furnish 99.7 per cent of all freight cars requisitioned. Shippers everywhere are able to corroborate this claim of maximum efficiency.

The railroad's hardest task, plainly is before them. Any relaxation of their previous efforts, any failure to continue the performance of the past year, will be immediately noted and complained of. Shippers and the public now are accustomed to a maximum of service. "The railroads have raised their operations to a high level and must live up to the expectations which their recent efficiency has inspired," says Mr. Parmelee.

The railroads now must "consolidate their positions," to borrow military term, and place their present efficiency on a permanent basis. The question arises, "Can this be done under all conditions?"

It is reported that a very fine rain covered the east part of Lubbock county, which means good planting season, and fine wheat season.

It is reported that most of the Lubbock county roads are very rough, because of the blowout places all over the surface.

It is reported that Creighton celebrated the District convention of the West Texas Chamber of Commerce in grand style, and it was said to be one of the very best ever held.

It is reported that a new song has been composed and set to music which reads: "Keep the Torch Lights Burning in the Girls' Home." The only trouble with that is that we can see in the high cost of the juice bill.

It is reported that within the next few days the dog ordinance will go into effect. It will be unlawful for you to bring your dog to town without you have a chain or rope attached to the dog and to yourself, and if you do you will likely go back home without your dog. For some of those who are elected to enforce the law will likely take him in charge and march him to the bonyard, where he

OUT OUR WAY

SO THINK WE

We think that most women who want to be of real worth to the country and the community in which they live could best serve that purpose by looking more closely after the affairs of the home.

We think the interstate commerce commission will have to get busy again, another line of railroad is wanted and we presume heading for Texas. It's about ninety miles long, but it may take the L. C. C. longer than that to build.

We think America is so anxious to break records that we even break the records for time, work and happiness on account of sickness.

We think that Norwegian woman's boss here to feed and cloth a family of four on \$25 per month will probably not prove very interesting to many of the housewives of this country.

We think the trouble with most people in the United States is greed. They want too much. They bite off more than they can chew, and the result is as disastrous in a financial way as too fast eating is in a physical way.

We think that a gasoline tax is possibly a good thing for the highways, but we cannot see the wisdom of Lubbock county paying three cents per gallon to help build roads in some South Texas county and get none.

We think Children in at last coming into an afternoon daily newspaper. The Index. The publication of the Index as a weekly newspaper was discontinued in 1888. If the people of that city want a daily paper they should support it. It takes barrels of money to run newspapers and dailies especially cut it like a hot cat's tail.

We think some wives take wonderful chances. We heard of one that threatened to quit her husband if he did not buy her an automobile. My, what a chance she took. What if he had refused to buy the car?

We think some women are not satisfied with their life unless they are spending more than their husbands make. And the women are not always alone in this. Some husbands are not satisfied until they spend all both of them make.

IT IS REPORTED

It is reported that a very fine rain covered the east part of Lubbock county, which means good planting season, and fine wheat season.

It is reported that most of the Lubbock county roads are very rough, because of the blowout places all over the surface.

It is reported that Creighton celebrated the District convention of the West Texas Chamber of Commerce in grand style, and it was said to be one of the very best ever held.

It is reported that a new song has been composed and set to music which reads: "Keep the Torch Lights Burning in the Girls' Home." The only trouble with that is that we can see in the high cost of the juice bill.

ONE YEAR AGO TODAY

Attorney Franklin D. Dumas, who acted as business here yesterday. His home is at Tahoka.

T. J. Dungan, Littlefield business man, was here yesterday and will go to Amarillo today to look after business.

Editor R. H. Collier, publisher of the Slaton Stateside, was among the business visitors to Lubbock yesterday.

Bob Fletcher was here yesterday on business from his home at Littlefield, where he is engaged in the jewelry business.

Editor S. J. Rodman, of the Wilson Point, was here yesterday on business.

MISSIONARIES LARGEST CLASS AMERICANS IN CHINA

Editor's Note: Here is another note by Rodney Dutcher explaining the understood phases of the troubled situation in China.

BY DODNEY BUTCHER NEA Service Writer WASHINGTON, April 7.—The 17,000 or more American citizens resident in China are divided about as follows in respect to sex and interests, according to consular registration figures.

Table with 3 columns: Occupation, Men, Women. Rows include Missionaries, Business, Professional, U. S. government service, Chinese government service, American born Chinese, Unregistered at consulates.

The large American population of course, is at Shanghai, with 4,000. More than half the American engaged in mercantile pursuits in China are located there and the next largest group of them is found in the Peking-Tientsin district, with 400. Hankow is third in this respect and Hongkong fourth. The greatest number of American professional men is found in Peking, where are the Rockefeller Foundation's medical school and hospital.

Many Women There The American population of the country has quadrupled during the last 20 years and it is interesting to note that there are 4,000 women, some 1,500 of whom are unmarried.

There are 417 American firms in China, according to Julian Arnold, Department of Commerce attaché at Shanghai. He has compiled the figures, and 207 are in Shanghai.

All these Americans and their firms are under the jurisdiction of courts created by extrajurisdiction, of which much has already been heard, and much more is likely to be heard before the Chinese get through. Chinese law is applied in cases of Chinese defendants and generally for defendants of nationalities not enjoying extrajurisdiction.

Defendants enjoying extrajurisdiction come under laws of their own countries. The plaintiff's nationality is always immaterial in determining the law. Trials are held in the consular district jurisdiction, being jurisdiction over the defendant.

In some parts where there are numerous foreign claims against Chinese, special courts have been created, the best known of which is the International Mixed Court at Shanghai, which hears the claims of American citizens against Chinese in that district.

There is no trial by jury in any Chinese judicial system. There is a consular court for each of the eighteen American consular districts in China, with a consular officer as judge. Their jurisdiction is limited in criminal cases in which the penalty does not exceed 10 days in prison.

By Williams

FIRE PREVENTION

As society developed, houses, buildings, etc., followed. It was found that some of the things men built caught on fire and burned. It was felt that this must be and it came to be regarded as a mere act of God. Though an act of God it was found that the destruction of property by fire in many instances left the owners in destitute circumstances. Private subscriptions and charity came to the aid of such cases. Something else was felt to be needed and after the great London fire in 1666 Nicholas Bacon conceived the idea of selling protection against such loss. From his conception has come our great business of insurance.

Along with insurance business has developed the idea of putting out the fires before they have destroyed the property. The equipment and organization for fighting fire has been developed into our modern scientific fire protection.

The business of insurance, with its highly developed rates, policies, department and fire protection of modern scientific plans and methods have come to be recognized as essential to the modern developed community. Without them business would be handicapped in its development.

Its study of the causes of fires it has been found that fire is not always an act of God, but the larger part of our fires are found to be preventable. By being careful and taking proper precautions it is estimated that 50 per cent of our fires could be prevented. This knowledge has been gained in acquiring the general public. It has yet fully realized it. Insurance and fire protection are accepted but fire prevention is yet struggling to get recognition. When society comes to fully realize the economy of fire prevention, the latter will be practiced more in fire prevention than in insurance and fire protection.

JUST FOLKS

By EDGAR A. GUEST

I like a house that shows me those: A cat, a dog, or slanging bird. In such a place I'm at my ease. And certain of a cheery word. A bowl of gold fish on a stand betrays a gentle, friendly hand.

I'm always glad when'er I come Where there is love for living things. A potted red geranium Which mocks the winter's blusterings.

In proof of spite of every care They still have time for beauty there.

Some houses are never old. The lives within are all old gray. And though it may be just a while, A bird house where the warblers stay. Tell me at once the singer I feel. That earth birds are dwelling there.

For I have found that those who love A dog, a cat, a bird and flowers Are usually thoughtful of The larger world which may be theirs. Who for God's creature shall not care.

Will seldom wrong his fellow man.

# MATADORS AND N. M. CADETS BATTLE TO A TIE

## DARKNESS HALTS CONTEST IN WHICH SLUGGING OF BOTH SIDES RUNS COUNT UP TO TEN TALLIES IN ELEVEN TIMES

The Texas Tech Matadors and the Roswell Military Institute bled for eleven long innings to decide the victory of the second and last of a two game series here yesterday afternoon at the Tech. The contest could not come to its decision point and umpire Judge Riley called the game at the end of the eleventh inning on account of darkness with the first score standing 10-10. It was a gruelling, long and uninteresting affair and yet it had its interesting features. From beginning to ending it looked like anyone's game—and was. Both clubs won and lost the game three or four times. Probably it was the chance given by Coach Fritchard that was a non-decisive game and when he met McDonald in and he failed to deliver—but who knows.

Marshall was in exact hitting condition yesterday afternoon and turned in 3 for 4 with a triple and a couple of home runs. Marshall himself won the game on one occasion but it was again lost with the Matadors scoring in their due inning. A total of seventeen bingles were counted out by the Institute bats while the Matadors fell short of that three hits. Errors were plentiful by both clubs. Tech, making 4 and the Cadets, 4.

Edleman, Plunview product, held the Cadets in check and was taken out for a pinch hitter, Blackman, who delivered for victory in the seventh inning. While Edleman was in charge of mound duty he struck 12 Cadets out and allowed 12 hits which included several for the six inning scorers. He had five singles in this frame to score four runs. All of the scoring and hitting took place after Edleman had sent a couple of the bats to the bench.

Neither club presented the snap and fire they had in the previous game and more so in the three of the Matadors. They appeared to be uninterested until they realized that the military ranks were wrapping a victory from under them. The infield of the Texas Tech crew went into several brainstorms and it was not until they had done a light and fast conference on several occasions the Cadets should have been retired but for some small headwork they got on base and consequently turned in runs.

Manning seemed to work easy and the inning he stayed with the Matadors the better he pitched. In the last three innings the Matadors went helpless to handle the offerings of the Cadet hurler.

**First Inning**  
N. M. M. I.—Rowland flew out to Peterson. Cottrell singled down third base and afterwards took third base on a wild pitch. Trujillo singled through second base, but Cottrell was retained at third. Kirkpatrick was called out on strikes. Cottrell popped out to home. No runs, two hits, no errors.

**Second Inning**  
N. M. M. I.—Marshall was safe when Peterson made a wild throw in first. Willis flew out by Marshall. Bell struck out. Manning singled past second base and Marshall advanced to second. Rowland flew out to Kaufman. No runs, one hit, one error.

**Third Inning**  
N. M. M. I.—Cottrell flew out to Marshall. Trujillo singled down second base. Kirkpatrick flew out to Marshall. Coates drew a walk and Trujillo took second. Marshall was called out on strikes. No runs, one hit, no errors.

**Fourth Inning**  
N. M. M. I.—Willis struck out. Bell flew out to Rigney. Manning singled down the third base line. Rowland struck out. No runs, one hit, no errors.

**Fifth Inning**  
N. M. M. I.—Cottrell doubled to left field. Trujillo struck out. Kirkpatrick hit into first allowing Cottrell to score. Coates grounded out to Edleman. Sams, Marshall flew out to Cottrell by Kirkpatrick. No runs, one hit, one error.

**Sixth Inning**  
N. M. M. I.—Willis struck out. Bell struck out. Manning singled down third base line. Rowland singled to left field and Marshall let it get away from him and Rowland took third base. Cottrell singled to right field scoring Rigney. Trujillo tripled to left field scoring Cottrell. Trujillo Coates was called out on strikes. Two runs, five hits, two errors.

**Seventh Inning**  
N. M. M. I.—Marshall tried to right field. Willis grounded to Nicklaus who fumbled scoring Marshall. Bell popped out to Hamilton. Manning struck out. Rowland struck out. One run, one hit, one error.

**Eighth Inning**  
N. M. M. I.—Cottrell singled to left field and took second on a wild pitch. Trujillo flew out to Nicklaus. Kirkpatrick singled, scoring Cottrell. Coates grounded to Peterson who threw wild for him at first scoring Kirkpatrick. Marshall struck out. Willis grounded out to Sams. Two runs, two hits, one error.

**Ninth Inning**  
N. M. M. I.—McDonald was sent in to pitch for Edleman. Bell singled to left field. Manning was hit by pitched ball. Bell advanced to third. Rowland singled to centerfield scoring both Bell and Manning. Trujillo drew a base on balls. Kirkpatrick fanned Rowland out at third base. Trujillo to Peterson. Two runs, two hits, no errors.

**Tenth Inning**  
N. M. M. I.—DeWitt popped out to Coates. Marshall got a home run to left field. Peterson smacked a single over third base. Sams struck out. Hamilton singled to centerfield. Walker grounded out Manning to Kirkpatrick. One run, three hits, no errors.

**Eleventh Inning**  
N. M. M. I.—Rowland flew out to Marshall. Cottrell flew out to Kaufman who made a wonderful rousing stop string catch. Trujillo was safe at first when Nicklaus threw wild to first. Kirkpatrick grounded out Peterson to Sams.

**Twelfth Inning**  
N. M. M. I.—Marshall struck out. Peterson popped out to Willis. No runs, no hits, no errors.

**Summary of the game—**  
Runs on balls off of Edleman 1; McDonald 1; Manning 2. Two-base hits, Sams, Cottrell and Bell. Three-base hits—Edleman, Trujillo, Kirkpatrick and Marshall. Home runs—Marshall (3). Double plays—Rowland to Cottrell by Kirkpatrick; hit by pitched ball, Manning by McDonald; passed balls, Hamilton 2, Willis 1. Strike outs, Edleman 15, Walker 1, Manning 2. Umpires—Harris, Fritchard. Time of game two hours and 45 minutes.

## Sox Twenty Games Better Than Last Year THAT'S MANAGER BILL CARRIGAN'S OPINION OF BOSTON TAILENDERS

**BY BILLY EVANS**  
NEW ORLEANS, April 7.—Boston first in baseball means and last in the American League, but it is not so for some years that famous New England city has been noted for those two things.

Once upon a time, many, many years ago, Bill Carrigan was two successive pennants and world championships for Boston. While he is looking forward to no such a happening, still he believes he will show the Boston public a much improved ball club when the season opens.

The personnel of the Boston club this year will be much the same that finished in last place in 1926. It may finish this season.

However, Carrigan is of the opinion that it is at least 25, possibly 20, games better than it proved last season. Then it won only 46 ball games and finished but one point better than 200 in the standing.

As I watched the Boston club in action for a couple of days I noted perhaps a half dozen reasons why it should be a considerably improved club. No Sox fan of fans who saw Boston perform last year will say "that doesn't mean a thing."

I am sure that Bill Carrigan, always a master handler of pitchers, a great catcher in his day, will be a few ways and means improve that feature of play.

"After closely observing their staff actually catching them, I am sure that Harris, Ruffing and Flagstead, who have more than 25 games between them," says Bill.

Every American League player I have talked with says, "I don't hate to have called Slim Harris; I am sure that he will be a big factor in the Sox's success this season."

"Ruffing has as good a fast ball as I ever caught and a pretty fair curve. He ought to win 15 ball games with most any kind of a club. Last season he turned in but six victories."

"Willie is a southpaw, pitching his first year in the league, come through with eight wins, which isn't bad. However, Willie has more stuff than several southpaws who won twice that many games."

"I regard Harris, Ruffing and Willie for better pitchers than the won and lost column shows. I am

helpful they will justify my opinion of them." That ended the interview. Better pitching is one reason why I look for the Red Sox to be a more interesting ball club.

A much improved second line of defense is another potent factor. The Sox have capable substitutes for every position. The catching is sure to be decidedly better. One who knows the value of catchers greatly appreciate this.

To briefly show what I mean by better—every strength should be doing so wrong with Phil Voss at first, Jack Rottrock can fill in most easily. Wanninger is a capable understudy for Rigney at short, while Hoggel can step in at second and take Rigney's place in a pinch. Hoggel, a really likely looking chap from Mobile, is battling with Fred Haney for third.

With two ball hawks like Jacobson and Flagstead in the outfield, there need be no worry on that score.

Boston isn't going to win any pennants nor trouble the first division. It may even finish last again, but like Carrigan, I think it will win 20 more ball games than last year.

## OLYMPIC TEAM CHARTERS VESSEL FOR HOUSING ATHLETES DURING THE GAMES TO BE HELD AT AMSTERDAM THIS YEAR

### BASEBALL RESULTS

**PACIFIC COAST LEAGUE RESULTS**  
Seattle 2, Sacramento 10  
Portland 2, Oakland 5  
Los Angeles 2, Hollywood 9  
San Francisco 1, Missions

**BEAUMONT WINS**  
At Beaumont (C) 15-16-9. Lincoln (W) 5-11-3. Lynch, Long and Hruska; Ross, Hoyak and Wally.

**TEXAS VALLEY LEAGUE**  
Edinburg 2; at Corpus Christi 1.

**GIANTS WIN**  
At Washington (A) 9-15-2. New York (N) 19-24-1. McQuillen, Fitzsimmons and Hamby; Ligenberry, Murray, Jones, Carroll and O'Neill.

**TIGERS WIN**  
Detroit 7-11-1; at Wichita Falls 2-6-2. Doyle, Holloway, Collins and Husher; Shea, Estell, Cobb and Zoltn.

**NEW ORLEANS WINS**  
At New Orleans (S) 4-10-3. Shreveport (L) 2-5-1. Osborne and Lingle; Thompson and Ritchie.

**SOX WIN**  
Chicago (A) 8-12-1; at Memphis (S) 1-9-2. No batteries.

**ARMY WINS**  
Ninth Infantry 4-5-2; at San Antonio 5-3-0. Newman and Tankersley; Waltman and Wirtz, Long.

**ATHLETICS LOSE**  
Philadelphia (A, second team) 4-5-2; at Winston-Salem (Westmont) 5-12-2. May and Perkins; Brown, Taylor, Guber and Chisholm, Johnson.

**STEERS WIN**  
Pittsburgh (N) 1-11-1; at Dallas (Tex) 2-5-0. Hill and Smith; Perry, McCall and Heery.

**CARDS WIN**  
At Nashville (S) 10-19-4. New York (A) 5-11-2. Big, Reinhart and Abbott; Shawkey, Thomas and Collins.

**ROBINS WIN**  
Brooklyn (N) 11-18-4; at Atlanta (S) 10-10-2. Vance, Hazzard, Griffin, Clark and Hargrave; Iversen, Claver and Brock.

**MITCHELL REMAINS IN ENGLAND GOLF TOURNAMENT**  
ROEHAMPTON, Eng., April 7.—Abe Mitchell, captain of the team of professional golfers which will go to the United States next month to defend the Ryder cup, was the only member of that team left in the Roehampton cup tournament tonight after matches play had narrowed the field to four players.

G. W. Turney, of Jamaica, was a visitor in the city yesterday.

Wm. Penn.—5 cents—A Good Cigar

(By the Associated Press)  
NEW YORK, April 7.—With an ocean liner at their home while the international competition is on a team of 30 to 35 athletes will represent the United States in the 1928 Olympic games at Amsterdam, Holland, at a cost of about \$1,000 an athlete.

Charting of a boat to take care of housing as well as transportation problems was decided on today by the executive committee of the American Olympic committee, which met here to launch formally the program of preparation for the nation's next big athletic campaign abroad.

This was done on the recommendation of Murray Hulbert, president of the Amateur Athletic Union, and Lawson Robertson, coach of the 1924 Olympic team, both of whom advised the committee they were convinced from a personal survey that Amsterdam offered no adequate facilities for housing the athletes and official party ashore. The plan of using a ship for the entire trip was adopted in 1917, Robertson pointed out, and resulted in the "most satisfactory" Olympic voyage ever undertaken.

It will cost between \$300,000 and \$500,000 to defray the expenses of the team, officials estimate.

## Football Huskies In Spring Training Now

Both the high school and Texas Tech football aspirants are working hard in their spring training which will be in full swing within the next few days. Coach Henry Frka has charge of the local high school crew and Captain Rhoades Ingerston is in charge of the Tech aggregation. Specially fundamentals will be given the recruits during the spring workouts since the training is being conducted for inexperienced materials.

Coach Frka is well pleased with the turned out shown by the local high school and is of the opinion that with a few weeks of training like the past few days his work will greatly aid in the regular training session of next fall. Some forty high school graders are working daily at the training grounds on the Texas Tech campus. Although Frka handles only the lineups of the Westerner club, he is giving both the line and back field the "big treatment" in running them through the strenuous workouts. Several practice games are being planned for the high school late later on in the training period.

With the football ranks of the physical training department Captain Rhoades is meeting with some fifty Texas Tech men. The Tech graders are taking about the same sort of high school. Captain Ingerston stated that later on he plans to send in a Tech eleven to clash with the high school crew for practice games.

G. W. Turney, of Jamaica, was a visitor in the city yesterday.

Wm. Penn.—5 cents—A Good Cigar

## Wales Is Winner Of Steeplechase Event

OXFORD, Nottinghamshire, England, April 7.—For the second time, with a 2-0 margin, the Prince of Wales today won a point to point steeplechase, when he rode his mare Lady Dawn to a convincing victory in the South Norths race here over a three and a half mile heavy course.

The Prince's last victory was at Bischoff on March 16 when he rode one of his own horses to capture the Lord Mansour cup in the Greenfield Quire steeplechase, chased against 14 other entries.

When the Prince swept across the line after a desperate fight for the lead which was marked by great jolting judgments, the crew, breathless with excitement, greeted him with a cheer of delight. Some very merry banquets had been a party of women betters who had looked Lady Dawn.

Wm. Penn.—5 cents—A Good Cigar

## Lowery's Trackmen Leave For Norman Officials Preparing For Track Contest

Captain E. J. (Pinky) Lowery and eight other men of the Westerner track crew left yesterday morning in cars for Norman, Oklahoma, where they will take part in the annual Oklahoma university relay, being held there on Friday and Saturday of this week. Arrangements were made through local alumni of the university for housing the club in the 370,000 Phi Gamma Delta fraternity house there it was announced yesterday.

Several relay races have been entered by the Lubbock club and Coach Lowery stated that he was confident that the crew would likely take one event in which he has entered. The Westerner mentor stated that he had an excellent chance to sweep a victory in the 440 yard relay. He based his belief in that he is carrying two runners that are about an equal in the 100 yard dash and two others that trail his best a few feet. Cyrus Leland, Snythe Reynolds, Merton J. Smith, and John Gaillard will take part in the 440 yard relay. In the 880 yard relay the same four men will run. In the medley race, Reynolds, Leland, Smith and Freeland will run. Reynolds takes the 440, Leland the 220, Smith the 880, and Freeland the mile.

This is the first time the Westerners have ever entered the Oklahoma university relays and it is thought that the bats will make a good representation for Lubbock and the South Plains. The club expects to return by Sunday.

Thirty-nine high school teams are entered in the meet including many Texas high school clubs. Texas high school entrants include Amarillo, Burkhardt, Cleburne, Greenville, Lubbock, Mansfield, Home at Fort Worth, Oak Cliff and Wichita Falls.

Volz, continuing his remarkable playing today, reached the turn in 32 with a four hole margin over Consh. The match ended on the sixteenth green, 4 and 2.

Cottrell, after being five down at the turn to the nineteenth in win over Ryerson, who had come to the turn in 32 strokes, four under par.

**LOUISVILLE WINS**  
Cincinnati (N) 1-3-2; at Louisville (AA) 2-4-1. Lagan and Reisch; Deberry and McCall.

Wm. Penn.—5 cents—A Good Cigar

## Brilliant Pinehurst Golfing Continues

PINEHURST, N. C., April 7.—Tournament winning golf today featured four matches in the second round of the United North and South amateur golf tournament. Ira Couch of Chicago fell before brilliant play of George Volz of Washington, John D.

You'll Like These New Suits

There're interesting from the point of style, fabric and workmanship.

We believe that this spring, we are offering you more in style, wear, and quality, than ever before, and there's a suit for you in this assortment that will give you more clothes satisfaction, than you've had in many a day.

\$30 and up

McWhorter-Roberds

MAIN AT TEXAS AVE

From a Sporting Viewpoint

Runs Around Field As Aid To Appetite

PHILADELPHIA—A story from the Fort Myers, Fla., camp of the Philadelphia Athletics is that Ty Cobb's advice resulted in a player running around the field many, many times a day.

This player, the story says, is fond of eating. "You like the food down here, don't you?" Cobb is said to have asked. "I sure do, it's fine," was the reply.

"If you run around the park five or six times you would have a better appetite and could eat more," Cobb suggested. So the player ran hard every day.

Derham To Attempt Channel Again

DOVER, Eng.—The English Channel, usually lashed and churned all summer by distance swimmers, promises to be calm as the old millpond in September. The proposed \$50,000 swim from Youngstown, N. Y., to Toronto on Labor Day has attracted many Channel aspirants.

Norman Derham the Englishman who beat Gertrude Ederle's time across the Channel has been training since early in February for the Youngstown-Toronto event. Derham won Lord Riddell's "Swims of the World" prize of 1,000 pounds in lowering Ederle's time.

Derham plans to swim from England to France before going to America, thus conquering the English Channel in both directions.

Hillean To Attend School for Coaches

ANN ARBOR, Mich.—The Association of Deportivo Atleticos de Chile is to benefit by the wisdom of Steve Farrell, veteran track coach of the University of Michigan.

The athletic association of the South American nation has notified Fielding H. Yde, Wolgast athletic director, that it will send one of its members, yet to be selected, to the coaching school which Farrell will conduct this summer at Ann Arbor for tutors of running and hurdling.

Wally Christensen Umpire in Winter

CINCINNATI—Wally Christensen, center fielder of the Cincinnati Reds, has reversed the usual process of baseball players who become umpires after they have outworn their usefulness.

nose in the major leagues. He is unspiring while he is in his prime as a player. The two do not conflict, however, as he does his unspiring in a winter league in California. Christensen is also a comedian and acrobat of parts. He can turn flippers and cartwheels that would make Nick Altrock and Al Schacht, Washington's comedy pair, envious.

NEW YORK, April 7.—Mike McGuire is still involved in the heavy-weight elimination tournament—a journalist.

The veteran Irishman's defeat by Jack Sharkey put him out of the running as a contender for Gene Tunney's title at Amsterdam next month. He served to inspire Mike to flights of newspaper rhetoric. His decision of the round by round story of defeat at the hands of Sharkey was so successful that he has been engaged by a metropolitan evening newspaper to act as an expert inside observer in the remaining acts of the heavyweight drama.

New Games Proposed Finland, it now appears, is tossed between a choice of seeking its international athletic conquests in the Olympic games at Amsterdam next year or of forsaking the present group to join Russia in organizing a rival set of games.

A brief cable dispatch tells simply of a controversy now going on over the question of sending a team to the Olympic games, but between the lines athletic observers here, Finnish and Americans alike, see dramatic decision confronting the little nation that thrill of the athletic world in 1924 at Paris with the triumphs of Nurmi, Ritola and others.

The present situation, observers say, is due to the ascendancy to power in Finland of a socialist ministry which has developed its own athletic organization and opposed the Finnish Olympic body. The party in political control apparently desires to break away from present international ties, but the Olympic advocates, nevertheless, are going ahead with plans to form another strong team for 1928.

Second base will be the keystone in fact as well as name for quite a few of this year's budding pennant hopes and aspirations.

The Giants, for instance, won't be so optimistic if they fail to get the celebrated guardian of their middle bag, Rogers Hornsby, out of the legal woods and stock entanglements before the opening gun boom next Tuesday. It also happens to be a vital issue for the Cincinnati Reds, another formidable national league contender, to have the recalcitrant Hughie Crtz in line.

McCoy already has gone about eighty percent of the way to meet his employers by scaling his demands from \$20,000 down to around \$12,000 as against the club's offer of a \$10,000 contract. Narrowed down far, the gap probably will be closed and the Reds benefited by the return of the league's second most valuable player, Steve McKeusic, acquired from the Browns and stationed at the middle bag, has made the Tigers, in the opinion of Manager George Moriarty, Connie Mack's Athletics are well fortified with the capable Max Bishop ready to step into the vital infield post if Eddie Collins' legs fall him.

Paulino Needs Workouts It may be just as well for Paulino to get in a few more light workouts with his ax if the basque woodchopper is to make an end of the Irish hook or the Spanish swing, at least, may be determined.

This may be a season for "boy wonders" in swimming: George Young, 17 year old Canadian, outswam long distance veterans to win the Catalina channel derby, and new George Kolias, 17 year old New York school boy, has conquered the famous sprint king, Johnny Westmuller.

TELEVISION

(Continued from Page 1)

er spoke over the telephone in Washington and was seen as well as heard in the Bell Telephone laboratories here.

Not only were Secretary Hoover and a score of others in Washington seen in New York by telephone wire, but a radio program was broadcast over the laboratories' experimental station 3-XN at Whippany, N. J., and an exact likeness of the performers as well as the sound of their voices were put on the air and transferred to a screen in this city.

Officials of the American Telephone and Telegraph company, announced that today's demonstration marked the results of years of research and experimentation and that study would be continued with the purpose of improving television to a higher state of efficiency.

To Be Improved

They acknowledged that at present the seeming miracle of seeing by wire and wave length was not at a stage where it could be put to such general use as the telephone. The necessary equipment precludes that possibility for some time to come, they said, but the feat of television itself has been accomplished and indications are that it is likely to have a real place in the world's work of distant communication.

The image of today's speakers in Washington and Whippany were thrown onto both small and large screens. On the screen designed for the telephone's use solely the pictures were exceedingly clear, easily recognizable as likenesses of the person at the other end of communication.

On the large screen about one and one half by three feet, the results were not so clear. Especially was this noticeable when Secretary Hoover's image was transferred from the small screen on which it showed clearly while he talked with President Walker S. Gifford of the telephone company to the large screen for the benefit of the half a hundred newspapermen and scientists present at the demonstration.

PINEDO ACCIDENT

(Continued from Page 1)

he hopes will allay the fears of his countrymen that the Santa Maria was destroyed as the result of an anti-Fascist plot. DePinedo said I am sure that it was an accident, a result of the boy's carelessness.

Fear Plot

ROME, April 7 (AP)—A new Santa Maria will be on its way to Arizona tomorrow to replace the burned plane of Commander Francesco De Pinedo. It will be sent from the airplane station at Santa Catalina on Lake Maggiore, and may be taken across the Atlantic aboard a destroyer.

The ministry of aeronautics informed The Associated Press this morning that the new plane would be shipped by special train to Genoa and embarked there for New York. It is of the same type as the one destroyed, except for a few special parts.

Premier Mussolini visited the royal palace today and discussed the aviation mishap with the king. Later the premier presided over a cabinet meeting, at which he gave the other members detailed reports received from Commander De Pinedo. It is reported here that this information tends to confirm the belief, widely expressed by press and public here, that the burning of the plane was the result of a deliberate anti-Fascist act.

CHINESE SITUATION

(Continued from Page 1)

had called on the Norwegian consul general, dean of the diplomatic corps, in Shanghai, to announce that he would hold the consular body responsible if the Soviet consulate here were raided also. Rumors have been in circulation that such a raid was contemplated.

The Soviet consul general also declared that if the Peking raid was carried out with the approval of the diplomatic corps, it would set a precedent that would endanger the foundation of diplomatic prerogatives. In this connection he said that he understood that permission for the entry of the Chinese troops and police into the legation grounds at Peking had been granted solely by the dean of the diplomatic corps and not from all the members.

Hankow Worse

Hankow, scene of a growing tension, was the center of riotous anti-foreign outbreaks over last week-end, resulting in further plans for a rapid departure of the comparatively few remaining foreigners. "Situation growing worse steadily," was a wireless message received from there today.

CROSBYTON MEET

(Continued from Page)

The Lockney tubular girls formation music during the morning session. Home Town Contest The meeting was then turned to E. H. Whitehead and the city primary contest which proved to be a spirited declaration of war with Littlefield, Lyndale, Fairview, Olin, Kalls, Lockney, Lamessa, Blaine, Tabaska and Lubbock being represented.

At the close of the morning session the students of the Crosbyton schools presented a program entitled "Which Way Shall We Go?" showing the worst condition of farmers looking solely to cotton for a livelihood, and the prosperity of a diversified farming section.

The delegates vacated the Crosbyton high school shortly after one o'clock and journeyed to the Silver Lake Falls where the remainder of the session was held.

Scheffelmayer Talks H. W. D. Wade toastmaster of the luncheon introduced Victor H. Scheffelmayer, farm editor of the Dallas

Beware of the "Just as good"

WHEN you want Conoco Motor Oil for motor lubrication be sure that you get it. Beware of the unnamed, unbranded "just-as-good" which is a good profit-maker for the seller but which is apt to prove most costly to the unsuspecting motorist who buys it. Let a reliable Conoco dealer or Conoco service station attendant drain your crankcase. Then you will be sure of getting genuine Conoco—the tested motor oil. Conoco protects every moving part with its fine lubricating film. It is clean—fully bodied—thoroughly tested. There's a grade for your type of motor. To cut down repair bills, ask for Conoco and get it.

CONTINENTAL OIL COMPANY Producers, Refiners and Marketers of high-grade petroleum products in Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming CONOCO Motor Oils Extra LIFE FOR YOUR CAR and be sure to use CONOCO GASOLINE packed with EXTRA miles

News and Semi-Weekly Farm News, who paid a tribute to the South Plains section as a natural cotton section which he pointed out will in the very near future attract farmers from the east to finish up the settlement program which has been in progress here for the past several years and will produce the bulk of Texas cotton. Scheffelmayer expressed his confidence in the perfection of the cotton seed as a mechanical cotton harvesting device which will revolutionize the cotton industry. He explained the Dallas News "More Cotton On Fewer Acres" and urged farmer to live at home, be efficient and independent. Arthur P. Duggan spoke briefly on diversification and crop rotation. Duggan urged West Texans to go to the polls in August to vote on an amendment to the Texas Constitution which will remove the legislature to set the old tax system aside and substitute a new system which will equalize the taxes. Duggan said that 13 Texans will start a survey soon which will gather data on the inequalities of the present tax system for the use of the legislature. This movement was favored and put over by the West Texas Chamber of Commerce. Other Speakers Col. R. P. Smythe, Plainview, member of the Texas legislature and pioneer of the Plains told of laying out the city of Crosbyton in three days when he was serving in the capacity of an engineer. Other speakers included Clifford B. Jones, Spur; J. D. Tinsley, Worth; C. C. Wiley, Amarillo; C. W.

Peene, Abertathy; Floyd Moore, Floydada; Eric Carr, Malow. J. Jay Guthrie, Lockney; W. W. Hix, Lubbock; W. A. Wilson, Lamessa; H. J. Adair, Wichita Falls; H. J. Nelson, Meadow; P. E. Yarborough, Olin; Mary Hopkins, Plainview; L. A. Wilson, Slaton; G. H. Nelson, Tabaska; J. B. Lee, Spur; T. Gibson, Pottsburg, and others. Taboka and Lamessa made a spirited fight for the 1928 convention with Lamessa being the successful town judge. Carl Roundtree, Lamessa, made the nomination address which was seconded by L. A. Wilson of Slaton. Resolutions The resolutions committee composed of W. W. Hix, Lubbock chairman, W. B. Lee, Spur; Col. R. P. Smythe, Plainview; H. B. Adams, Lockney; and J. J. Murphy, Crosbyton, submitted the following resolutions which were adopted by the convention: They commended the county agents and home demonstration agents for their work in promoting the diversified farming program. They urged cooperation and interest in the annual convention at Wichita Falls, May 16 and 17th. They commended executive officers of the organization for successful fight in opposition to the application of fire insurance companies in Texas for a rise in rates. The recommendation of the special session of the Fortieth legislature to amend a law providing for the replacement of property in case of total loss and providing for careful insurance adjust-

ments. They paid a tribute to the press as a potent factor in the upbuilding of West Texas. The resolutions pointed to the enrollment and work being done by the Texas Technological college. The resolutions asked the Texas legislature to provide for the needs of the Tech and of the West Texas State Teachers college at Canyon and suggested some other form of taxation be added other than an ad valorem tax to provide revenue for this expense. A resolution commended the work of those individuals and agencies per-

forming cotton sleds and ginning machinery to harvest South Plains cotton by mechanical devices and expressed confidence in the devices in use the next year. The final resolution paid a tribute to the courtesy and the hospitality of Crosbyton and the many little details which contributed to the success of the convention. About fifty or sixty Lubbock citizens attended the conventions in addition to the forty pieces Lubbock high school band. B. Sherrard, chairman of the attendance committee head the delegation from here.

WE URGE YOU TO SHOP EARLY MORNINGS SO THAT WE CAN BETTER SERVE YOU.

WE CANNOT FILL MAIL ORDERS DURING OUR DEMONSTRATION SALE.

# Grollman's Invites You!

*this Morning — and  
Announces*

*Readiness to Demonstrate  
New Merchandise and  
Grollman's Merchandising  
Ability*

*Rather than Talk of Big Values  
we prefer to Demonstrate*

There are, literally, scores of very good reasons why we are beginning this morning a Demonstration sale. With a keen knowledge of the merchandise-preference of South Plains people gained through years of serving them, and with an intense eagerness to deserve their patronage, Mr. Grollman combed the Eastern markets for weeks securing many thousands of dollars' worth of merchandise, deliberately buying to please every whim of Lubbock and South Plains people.

Mr. Grollman feels, therefore, that so successful was his buying that he can confidently announce the "unusual" in merchandise, style, quality and price and not be in the least afraid of your final judgment.

Every department of the store is now filled, or being filled quickly, with these new goods. New clerks have been secured adding to our sales force to make service better. Store fixtures have been added and rearranged.

So come! You will be delighted, we are sure, with this Sale. It is different a little unusual, and certainly an important money-saving event.

In every city, in every town, there is one store that undersells. In Lubbock it's Grollman's.

WHAT HAS GONE BEFORE GARRETT FOLSOM is stabbed to death while swimming at Ocean Town, N. J.

Folsom's swimming companions had been ROGER NEVILLE, a business partner; MRS. HELEN BARRABY and CAMELIA VALDON.

ANASTASIA FOLSOM, eccentric and masterful sister of the dead man, arrives and takes command; and it is established that one CROYDON SEARS is a fanatic of curious weapons. Sears admits buying two knives but not the fishes.

ANASTASIA engages TITUS RIGGS, an architect, to work on the case. DAN PELTON, Folsom's nephew, arrives and is puzzled by the curious French dolls in his uncle's rooms.

Croydon Sears sends for FLEMING STONE, famous detective. He tells him Folsom had been black-mailed and he had lied at the inquest but was innocent.

Stone meets others of the circle, including NED BARRON and his wife, MADELINE, who puzzles him.

ROBIN SEARS, son of Croydon is surprised when Stone mentions the dolls Folsom had owned, and Stone later discovers one doll in the image of Madeline Barron and learns that it was Folsom's favorite doll. He finds out that Folsom had returned to his hotel one certain night in a wheel chair and offers to pay money if the chair pusher is produced.

NOW GO ON WITH THE STORY CHAPTER XLVII

"I know him," the man told Stone. "It was Bill Rember."

"Can you take me to him—now?" "Guess so—if you'll fix it with the boss."

Stone fixed it and they went forth. His guide soon located Bill, who chanced to be idle, and was by no means averse to telling anything he knew—for a consideration.

And he knew a lot. "Yes, sir," he said, "I remember the matter well. You see, a lady was my passenger, a real swell one—"

"Alone?"

"Yes, sir, all alone. Said she just wanted a breath of air and a little rest from folks de sumpin' like that. They often do that. Well, I rolled her along, and the gentleman stopped me and he got in with the lady, and told me to roll on. As the lady made no objection, it was none of my business."

"I pushed 'em down to the end of the route, and then turned back again. Well, I nearly reached the Majusca, when the gentleman calls out for me to stop, and then the lady got out and got into another chair, and he stayed in and called him on the hotel, and he got out there at the Majusca."

"You know who he was?" "I didn't then, Mister, but next day, I found it was the very chap what was murdered in the year!"

"Why did you never tell this to anyone?" "Nobody asked me anything about it, and I'd no reason to say anything. I couldn't see as it had any bearing on the murder and I'd no wish to drag in the lady."

"Do you know who she was?" "I didn't that night, but I've found out since."

"Well, who was she?" "Her name is Mrs. Barron, sir."

"Barron," Stone said. "You and I ought to keep this matter quiet. Now continue to do so. I am authority, and you'll get in no trouble if you say nothing. But keep one word of it, and you'll be in such trouble as you've never dreamed of. Sears."

"Barron," Stone said, "you and I ought to keep this matter quiet. Now continue to do so. I am authority, and you'll get in no trouble if you say nothing. But keep one word of it, and you'll be in such trouble as you've never dreamed of. Sears."

"Barron," Stone said, "you and I ought to keep this matter quiet. Now continue to do so. I am authority, and you'll get in no trouble if you say nothing. But keep one word of it, and you'll be in such trouble as you've never dreamed of. Sears."

"Barron," Stone said, "you and I ought to keep this matter quiet. Now continue to do so. I am authority, and you'll get in no trouble if you say nothing. But keep one word of it, and you'll be in such trouble as you've never dreamed of. Sears."

"Barron," Stone said, "you and I ought to keep this matter quiet. Now continue to do so. I am authority, and you'll get in no trouble if you say nothing. But keep one word of it, and you'll be in such trouble as you've never dreamed of. Sears."

"Barron," Stone said, "you and I ought to keep this matter quiet. Now continue to do so. I am authority, and you'll get in no trouble if you say nothing. But keep one word of it, and you'll be in such trouble as you've never dreamed of. Sears."

"Barron," Stone said, "you and I ought to keep this matter quiet. Now continue to do so. I am authority, and you'll get in no trouble if you say nothing. But keep one word of it, and you'll be in such trouble as you've never dreamed of. Sears."

## MANY USES FOR OLD-TIME FOOD

No longer just boiled rice with cream or butter! But a cereal of three hundred uses.

Food experts have found that rice can be combined to advantage with everything from soups to sweets—that it absorbs the taste of any food it is cooked with, and improves the other food's flavor.

Food experts have also discovered the excellence of Conner Rice—the uniformity in its size, which insures the fullest fluffiness—its cleanliness, which does away with washing.

One cup of Conner Rice, cooked for twenty minutes in eight cups of furiously boiling water, produces a tempting mound of light, white, fluffy flakes.

A booklet, showing several ways of combining rice with other foods, has just been compiled. Send a two-cent stamp to Conner Rice, c/o The Rice Mill, 571 South Street, Mill Hill, N. Y., for new recipe booklet.

## Budweiser Real Hop Malt Syrup

Anheuser-Busch not only pays an extra price for the right to take first choice of the finest hops and barleys grown in America and abroad . . . .

But sorts, cleans and grades the barleys—malts them—blends them with the selected hops—even fills the cans and labels them—all in the Anheuser-Busch plants at St. Louis.

It is this constant, absolute control of quality from raw material to finished product that makes Budweiser Real Hop Malt Syrup worthy of the name you see on the label.

## Didn't Smoke, Didn't Chew or Swear, But Had Three Wives

SANRAN CITY, Mo., April 7.—(Hudolph C. Hubbard, Jr., was a model husband to ten too many wives.

Hubbard, who does not drink, chew, smoke or swear, has just gone to the state penitentiary to serve two years on a charge of having three wives.

One of the wives did not appear in court, but when Hubbard came before the judge and saw Mrs. Ruby Russell Hubbard, 48, and Mrs. Vernette Ethel Elmer Hubbard, also 48, sitting hand in hand, he pleaded guilty.

Hubbard's arrest came about when Wives Nos. 2 and 3 both called at his place of employment for his pay check. They were told a third woman had not there first. His first wife was Mrs. Cecil Anderson Thompson, whom he married seven years ago, according to testimony.

"He was such a nice man, too," said Wives Nos. 2 and 3 as they left the courtroom, arm in arm.

# An Important Pre-Easter Selling of Millinery and Spring Dresses

### McCamey Refinery Opened This Week

Special to The Avalanche.  
**MCCAMEY, April 7**—The Humble Oil and Refining company opened this week when steam was run into the boilers for the first time. The big plant has been under construction for several months and covers four acres of ground and has eleven tanks with a total storage capacity of 29,000 barrels. The boiler house has three boilers with 250 H.P. capacity each and the entire plant will require the services of 25 men.

Although the original design of the plant was not intended to run on gas, it will take off the lighter oils and fuel oil. The lighter oils will be shipped both in pipe lines and tank cars to the Humble's other refineries, and fuel oil will go to the Southern Pacific railroad, a contract for which was signed some time ago.

This is the first refinery to be completed and placed in operation in any of the West Texas oil fields and is considered the first of many which will later be built in other sections. Three casing head gasoline plants are already in operation in other districts, however, with the big Lake the company's big plant in its own field in Texas, the Signal Gasoline company's plant at the Texas oil and the Signal plant at Santa Rita and the Humble Petroleum company's plant in the Santa Rita fields in southeastern Howard county.

### More McCamey Track Lines Laid

Special to The Avalanche.  
**MCCAMEY, Texas, April 7**—Five more lines of track are being constructed a mile east of the city by the Humble Oil and Refining company. This addition to the existing tracks, which when completed will in itself provide for the storage of 100 cars, will make a total storage capacity of 200 cars.

Two more tank car loading racks are being built by the Humble Oil and Refining company east of the main line, one having a capacity of 20 cars while another will be capable of handling 100 cars. The Humble Oil and Refining company has also completed the construction of a new 100-car tank car siding and a new 100-car tank car siding.

### FLOUR DEMONSTRATION BEING GIVEN HERE BY EXPERT

A demonstration of White Chief flour is being conducted by the National Flour Millers' Association at the home of Mrs. J. W. Smith, 1212 E. 10th street, this afternoon. The demonstration will show the superiority of White Chief flour in baking bread, cakes and pastries. The demonstration will be held from 2 to 4 o'clock this afternoon.

### \$50,000,000 Nest Egg for Wilhelm

Here is a new addition to Mr. and Mrs. Wilhelm's family. The young daughter, Henriette, and the Wilhelm family. The father is now one of the richest men in Europe, through a settlement of a lawsuit, which granted Wilhelm the ownership of a real property worth several million marks.

### Priscilla Dean To Be Here At Palace

An automobile, crashing through a plate glass window is practically the final scene in Priscilla Dean's latest film of thrills and daring, "The Speeding Venus," a new Metropolitan picture which will be on view at the Palace Theatre on Friday and Saturday.

In the picture, Priscilla drives a new type of gearless automobile in a race against time from Detroit to Los Angeles where the car was to be exhibited against another motor of a similar type, shipped from Detroit by train.

All sorts of obstructions are encountered on the road from the Michigan city, including floods, deep sand and mud. In addition, the heroine has to beware of her rival who proves to be a greater menace to her than nature.

At last she reaches Los Angeles where the two cars run a breath-taking duel through street traffic. Through a clever trick, Priscilla gets in front of the other car and in order to beat it into the show she deliberately crashes through a heavy plate glass window.

The picture has many thrills that never were called for in script. On

one occasion, while the company was working on the highway between Los Angeles and San Francisco, Miss Dean's car made a complete circle on the wet road pavement over which she was traveling at break-neck speed and upset. When Priscilla emerged from the overturned car she was smiling but limping from a slight ankle sprain.

### NEW COMPRESS FOR LOCKNEY TO BE BUILT

Special to The Avalanche.  
**LOCKNEY, April 7**—The Texas Compress and Warehouse company, of Houston, will have a modern compress in operation in Lockney by fall according to Mr. H. F. Underwood and son, who were here yesterday to look after trackage property that they have bought at the intersection of the Denver and South Plains railroad and the Santa Fe. Mr. Underwood states that work in the way of the lighter buildings will start before the Denver track is laid but the larger and heavier buildings and machinery will not be installed until the railroad company has completed their line through Lockney.

Three sets of twins have been born to Mr. and Mrs. Paul J. Reynolds of Poughkeepsie, N. Y., in the past five years.

### A Benefactor

A physician who reaches out to benefit humanity leaves a record behind him that is worth while. Such a man was Dr. R. V. Pierce. His study along medical lines, and his knowledge of the remedial qualities of herbs and plants led to the discovery of his wonderful herbal remedy, Doctor Pierce's Favorite Prescription. It is just the tonic required if a woman is borne down by pain and sufferings at regular or irregular intervals, by nervousness or dizzy spells, headache or backache. Favorite Prescription can be had in tablet form as well as liquid at your neighborhood store.

#### TENNIS TOURNAMENT TO BE HELD SOON

Announcement was made Wednesday of the second annual all-college tennis tournament which will be held on the campus in the near future. The tournament will be conducted under the supervision of Prof. Kenneth L. Kinney. All students who wish to enter the tournament are asked to sign with the athletic office, April 8.

The winners will be played in the open court which will be under construction. Entries are that there are a number of good tennis players in the neighborhood and the tournament will likely see a number of fine matches. Most of the members of the varsity squad of last year will be out for the tournament. In their workouts for the team, Thompson, Ladd, Fox, Winston, Board and a number of others will be among the strongest competitors for the 1927 title. Single and double will be played in the tournament.

### FAILURES ARE LOWER THAN EVER

A check-up made by the various deans of the school during the past week revealed that the winter term of this year had the least number of failures than any term since the opening of the institution. Only five failures were reported in the schools of home economics and agriculture while the engineering and liberal arts schools were about the same in percentage.

Most of the failures dropped out of school but several were given a chance to prove good before being sent away. It is the purpose and policy of the school, officials say, to keep the number of failures as low as possible yet to give each student a chance to come out of his lag, scholastic standing.

### RAINS AID FARMERS HERE

Showers which will be much to them and grazing lands full in scattered portions over the Plains late Wednesday afternoon and night, varying from a trace in the city of Lubbock to a heavy downpour in the vicinity of Lubbock, according to reports here.

The heaviest fall reported was near Shiloh, but little fell out of this point. Other portions reported rainfall including Pecos, Stanton and cities to the south.

### PI GAMMA MU TO MEET WITH PROF. GUS L. FORD TONIGHT

The regular meeting of the Delta Chapter of Pi Gamma Mu will meet with Prof. and Mrs. Gus L. Ford at their home at 2111 10th street at 8 o'clock. The subject of the evening will be "The History of the South Plains" by Miss Leda E. Brown of the history department of Tech. Miss Brown has made a special study of the history of this section and a very profitable meeting is looked forward to by the society.

### R. T. CLASSES TAKE SPRING FOOTBALL

## The 'walk-around'

REMEMBER it? You perched on the hard, blue circus bleachers. The band struck up. And out poured the galaxy of tight-wire, acrobats, tumblers and the dusty, plodding elephants. All circling the main tent in the traditional "walk-around" that started the big show.

Advertising is the "walk-around" of the things life is made of. The things you eat, drink and wear—the luxuries and the necessities. And to watch is not merely to be entertained, but to learn how to make your dollars do their best.

You can study advertised products, compare them, weigh the advantages of one against the other. Unhurriedly you can select exactly what you want in the full knowledge that what you select will be good.

For no product that does not give value received can keep its place in the open comparison and competition of the advertising procession.

Advertising introduces you to the things that make life easier

**Salm, Incurable Beau**

This is not the only time that Count Ludwig Salm von Hoogstraten and Miss Elizabeth Lewis, sister of the Duchess of Crocy, have been seen together at Cannes. It was to the Riviera that Salm turned for diversion after "satisfactorily settling" for a reported \$25,000 his litigation with his wife and in-laws, the wealthy Rogers household of New York.

**Business Leaders Of Texas Are Called To Meet In Fort Worth And Discuss Plans For Making Texas Tour Of Eastern Big Cities**

Special to The Avalanche.—CORSICANA, April 7.—Looking forward to arrangement of definite plans on a scale in keeping with the scope and purpose of the proposed All-Texas Special tour of Northern and Eastern centers of industry, a conference of representative business leaders from all sections of Texas is called for Ft. Worth on April 11.

Since the initial invitation that citizens of the State consider such a tour, extended by the Texas Daily Press League, embodying some sixty-five Texas Daily newspapers, the proposed venture has received the hearty approval of leading citizens from every section and every principal town of the State.

As a guiding group of counselors, whose judgment would be counted upon to plan an educational tour of this magnitude, men of varied interests, attainments and home points have been named as a Board of Directors.

**First Details Planned**  
Preliminary details for the All-Texas Special advertising tour were made at an all-state conference held in Dallas on March 28th and was attended by Chamber of Commerce officials, newspaper publishers and other citizens representing numerous Texas points. Personal expressions and several hundred letters and telegrams submitted by S. W. Papert, president of the Texas Daily Press League, gave assurance of wide and enthusiastic approval of the project. Favorable expressions from numerous civic organizations added further impetus.

On the basis of this favorable reception of the idea, an All-Texas organization was perfected with Lowry Martin of Corsicana as chairman, and a large number of representative business leaders of the State recommended by the committee from the floor as the directorate.

**To Tour Big Cities**  
While specific plans will not be developed until the Fort Worth conference, it was tentatively agreed that the circle trip would include such important points as Kansas City, St. Louis, Chicago, Detroit, Cleveland, Toledo, Cincinnati, Philadelphia, Atlantic City, New York, Boston, Washington, Baltimore and Pittsburgh, mission of the trip will be spent in each of these important centers.

Texas has a peculiar opportunity at this time to submit its industrial and investment appeals to the North and East and a good will tour of outstanding Texans at this time can give

the true story of Texas to the industrial centers in a convincing and emphatic manner through the unusual opportunities which such a tour will assure, in the opinion of the business leaders who have expressed themselves.

**Board of Directors**

- Amount those named on the Board of Directors to perfect plans are: Governor Dan Moody, Austin; Roy Christian, Corsicana; J. H. Allison, White Falls; J. L. Greer, Denton; S. W. Papert, Dallas; W. V. Crawford, Waco; Cato Sells, Ft. Worth; Amos Carter, Ft. Worth; Tom H. Eber, San Antonio; Wilbur Hawk, Amarillo; Brewster Hinkle, Abilene; Tom Cook, Dallas; Porter Whaley, San Antonio; Homer Wade, Stamford; Houston Marie, San Angelo; Sam P. Horben, Richardson; John Spellman, Dallas; Louis Edwert, Galveston; Ray Leonard, San Antonio; E. W. McVicker, Texarkana; J. L. Martin, Brownsville; John W. Campbell, Dallas; Oscar Holcombe, Houston; J. E. Bell, San Antonio; J. A. Kemp, Wichita Falls; Ernest G. Thompson, Amarillo; John Hill, Amarillo; John H. Kirby, Houston; A. J. Jones, Slaton; Joe Heron, Marshall; E. H. Astin, Bryan; W. C. Edwards, Denton; C. C. Walsh, Dallas; Arthur P. Dugan, Littlefield; Ewing Thomas, El Paso; R. M. Kelly, Longview; W. A. Neat, Cleburne; Carl Paol, Sherman; R. S. Sterling, Houston; Earl Zeton, Tyler; Geo. Anderson, Mineral Wells; W. V. Hix, Lubbock; J. M. Penland, Waco; T. N. Carswell, Abilene; H. R. Struths, Corsicana; Jesse E. Jones, Houston; Clarence Gilmore, Austin; Lynch Davidson, Houston; A. L. Hyatt, Fort Arthur; Guy Caldwell, Paris; Frank Burdson, San Antonio; G. M. Knebel, San Antonio; R. W. Morrison, San Antonio; Luteher Stark, Orange; John D. Middleton, Greenville; Mex Bently, Abilene; L. H. McKee, Ft. Worth; W. C. Stripling, Ft. Worth; Wm. Monning Sr. Ft. Worth; W. N. Blanton, Longview.

Mrs. Eleanor Corral of Chicago testified that for 16 years her husband had done nothing but play cards, while she supported him.

In the next issue London directory appears the name of Mr. William No. 1 Harris.

**Pipeline Is Laid In McCamey Oil Fields**

Special to The Avalanche.—McCAMEY, April 7.—Eight miles of line have been completed and buried and fifteen miles more of pipe line has been strung for the Illinois Pipe Line company's 6 inch from McCamey to the Yates field in eastern Pecos county and will be 25 miles long when finally completed with in thirty days. Poles for the telephone line have been placed and the copper will be strung soon as it arrives.

West Texas headquarters of the Illinois Pipe Line company will be in San Angelo with the field offices in McCamey.

In the Yates field the No. 3 Yates has been completed with a total depth of 1202 feet and 24 hour output made 1089 barrels of oil. Initial production was a little better than 500 barrels daily and the well has been steadily increasing since then. This has been the case with other wells on the Yates lease with the exception of No. 2 formerly known as the No. 1 Account 2 which blew (two control heads off when it came in but which is now making 278 barrels daily running wide open. The lease containing the discovery well is now known as "A" lease and all other Mid-Kan wells have been changed to correspond to the different leases with each lease having been given a designating letter.

No. 4 A located 500 feet south of No. 1 B is ready to spud and the No. 1 C has its water tanks completed and is moving the tools for No. 3 A preparatory to fixing up and spudding. The latter well is located 785 feet from the west line and 250 feet from the south line of section 60 Blk 1 G. N. Ry. survey and is approximately a mile east and slightly north of the discovery well. The test will be watched with great interest because of its location in hitherto untapped territory. A National drilling machine is running up on No. 1 Smith-Taylor location in section 23 Block 194 H. G. N. Ry. survey. The corrected location is 122 feet north of the center log in the section line and 250 feet from the east line of the section.

Prince Wilhelm, son of the former German crown prince, has won five student duels with swords.

Extraction of an abscessed tooth restored the sight of Mrs. W. H. Dungan of Denver, who had been blind for ten years after an attack of scarlet fever.

**Lubbock Pioneer Dies**

J. H. Kemp of Hereford, formerly of this city is buried in the Local Cemetery. J. H. Kemp, of Hereford, but a pioneer of Lubbock county, died in Hereford Wednesday and was buried at Lubbock yesterday afternoon, following funeral services in Slaton, according to word reaching the Avalanche office Thursday. No particulars of his death could be learned. He is a brother of Mrs. A. J. Hicks, 1802 Avenue I. Mr. Kemp and his family lived for many years on a ranch near where the town of Idalou is now located.

**Abilene To Have A Fine New Theater**

Special to The Avalanche.—ABILENE, April 7.—The Mission theatre building in this city, erected several years ago, is being razed this week to make way for a new \$40,000 theatre building to be erected on that site by J. M. Wagstaff. The new theatre will be strictly modern and will be built on the Mission style of architecture, the owner announces.

Work is to be started as soon as the ground is cleared and it is planned to have the new structure, which will cover a space 50 by 110 feet, completed and ready for occupancy, within ninety days.

The new theatre building has been leased to the Dent Theaters, Inc., which concern now operates three street amusement houses in this city.

**Hotel Annex Is To Be Built In Abilene**

Special to The Avalanche.—ABILENE, April 7.—A two-story annex to the Mobley hotel in this city is to be erected by D. M. Oldham, Jr., one of the owners of the present hotel building. The annex will be built just north of the hotel and will be connected with it, although the two buildings will be separated by an alley way so that all rooms will have an outside exposure.

**Clean-up Campaign Aided By Negroes**

Special to The Avalanche.—Negroes of Lubbock will participate in the clean-up campaign that is to be staged by the city health department and the City Federation of Women's clubs, April 25 to 30. This was promised at a meeting in negro town Wednesday afternoon of several hundred colored citizens, a group from the City Federation and Dr. J. W. Rollé, city health official.

Negro town is to be divided into blocks with some one having supervision of the beautification activities on each.

An auxiliary to the City Federation was formed and a negro woman from this society is to be a delegate to the federation gatherings, Mrs. J. F. Hankins, president, said.

**Rub Rheumatism or Sore, Aching Joints**

Rub Pain right out with small trial bottle of old "St. Jacobs Oil."

Rheumatism is "pain" only, and one case in fifty requires internal treatment. Stop dragging. Rub soothing, penetrating "St. Jacobs Oil" right into your sore aching joints and muscles, and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism liniment which never disappoints and cannot burn the skin. Linger up! Quit complaining! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness, stiffness and swelling. Don't suffer! Relief awaits you. "St. Jacobs Oil" has relieved millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains.

**Some reception!**  
It's clear enough what smokers want—natural purity, natural sweetness; in short, NATURAL TOBACCO TASTE!

NATURAL TOBACCO TASTE means the pure taste of the tobaccos themselves... with all their own natural spiciness and mellowness brought to full natural perfection.

DAILY MARKET

COTTON SAYS

NEW ORLEANS, April 7. (AP)—After light gains at the opening, the cotton market sagged today on May liquidation and the belief that planting was making better progress. The close was at the lowest with net losses for the day of 7 to 8 points.

In spite of unfavorable cables, first trades showed no change from yesterday's close and prices advanced after the call on rains in the belt and the prospects for further unsettled weather. Under the buying impulse, May traded up to 14.25, July 14.05, and October 14.55, 3 to 4 points above the previous close.

The reaction which set in later extended throughout the morning and into the early afternoon, swinging May to 14.15, July 14.25 and October 14.45, saving to ten points under early high. Call four to six points below the previous close.

Hedge selling based on recent liberal purchase of spots by exporters brought price levels down to new lows before the end with May at 14.11, July at 14.27 and October at 14.39, 11 to 12 points under the early high. The close was steady.

Exports were 10,957 bales.

COTTON OF LSTEADY

NEW YORK, April 7. (AP)—The cotton seed oil market was not very active today but prices were generally steady on covering and buying by refiners. The close was not unchanged to 3 points higher: Apr. approximate sales 7,200 barrels; Prime crude 7.50; prime summer yellow spot 5.00. May closed 7.15; July 9.43; September 9.54; October 9.42; November 9.25.

COTTON GOODS STEADY

NEW YORK, April 7. (AP)—Gray cotton goods held steady today with demand generally light. Finished goods were moving freely on past orders. Raw silk was somewhat unsettled, but consumption here is large, especially in hosiery mills. Printed silk fabrics sold more freely. Burials held steady in the local markets. Linens were firm.

COTTON SLUMPS

NEW YORK, April 7. (AP)—Early advances were followed by reactions in the cotton market today. July contracts selling off from 14.35 to 14.25 and closing at 14.27. The general market was steady at net declines of 1 to 3 points.

The market was moderately active and showed considerable firmness in early trading. Cables were disappointing, but the weather map showed further rains in the western belt, and there appeared to be considerable buying for local and Wall Street accounts by the continuing delays in new crop preparations. This demand was mostly for early new crop deliveries, while there was some price fixing in the old crop positions.

May sold up to 14.17 and October to 14.61, net advances of about 4 to 6 points before the buyers were supplied. Later the demand tapered off and the afternoon market was easier under realizing by recent buyers and selling which seemed to come partly from the south and commission houses. May declined to 14.05 and October to 14.50 in late trading, net declines of about 6 to 8 points. The close was within a point or two of the lowest. The detailed weather reports showed

### Entry Lists For Choral Contests At The Wichita Falls Chamber Meet Completed

Special to The Avalanche  
**WICHITA FALLS, April 7.**—The entry lists for choral organizations of West Texas to take part in the second contest, sponsored by the West Texas Chamber of Commerce in connection with their annual convention has been extended to include five classes of contestants: Choral Clubs, College Glee Clubs, High School Glee Clubs, and Church Choirs are all eligible to compete under the extended ruling of the contest. One hundred dollars first prize, and fifty dollars second prize are to be awarded to winning contestants in each class.

The first choral competition to be held was initiated at the eighth annual convention of the West Texas Chamber of Commerce at Amarillo, last year. The contest proved to be a nature attraction at the big meet, and its success more than surpassed expectations of regional officials inaugurating the contest. Already applications filed for the 1927 competition to be held at Wichita Falls, Sunday afternoon and Sunday evening, May 15, preceding the convention session here on May 16 and 17, include a large and spirited contest. Mayor R. E. Shepherd of Wichita Falls is acting as chairman of the choir and choral contest sponsored by the West Texas Chamber of Commerce.

The purpose of the second annual contest for college and high school glee clubs and choirs and to assist in making music an integral part of the civic, social life of West Texas, to encourage and advance American Music, and Creative Art, to promote American composers and artists, and to instill a love of art which tends to bring courage, lofty ideals and a cleaner, nobler way of living. Judges are to be selected by the committee in charge on the basis of general culture, musicianship, and ability to criticize.

The following general points: musicianship, including intonation, balance, diction and interpretation; appearance and selection of number or numbers. Musicianship with its constituent elements will make up 50 points, with appearance and selection of numbers counting 25 points each.

Contesting musical organizations are to be limited from 16 to 20 members. Every club is required to have at least sixteen members, not including the conductor and accompanist. Contestants in all classes must be from communities whose chamber of commerce is affiliated with the West Texas Chamber of Commerce and from the district, which is embodied in the territory known as West Texas.

### Senior Week Being Observed At C. I. A.

Special to The Avalanche  
**DIXTON, April 7.**—Senior Week, observed annually at the College of Industrial Arts by the fourth year students as a period during which they are relieved of many college restrictions, began last Saturday night with the "Big Sister-Little Sister" dance in the college gymnasium. The "little sisters" are members of the sophomore class.

The program of entertainment for the week includes picture show parties, a dance honoring the A. and M. Band, a picnic, a waffle breakfast, and a tea honoring the "little sisters."

Senior Week will close Saturday night when the fourth year class will attend the junior play in a body.

### CLANUP CAMPAIGN DATES TO BE SET AT MEETING

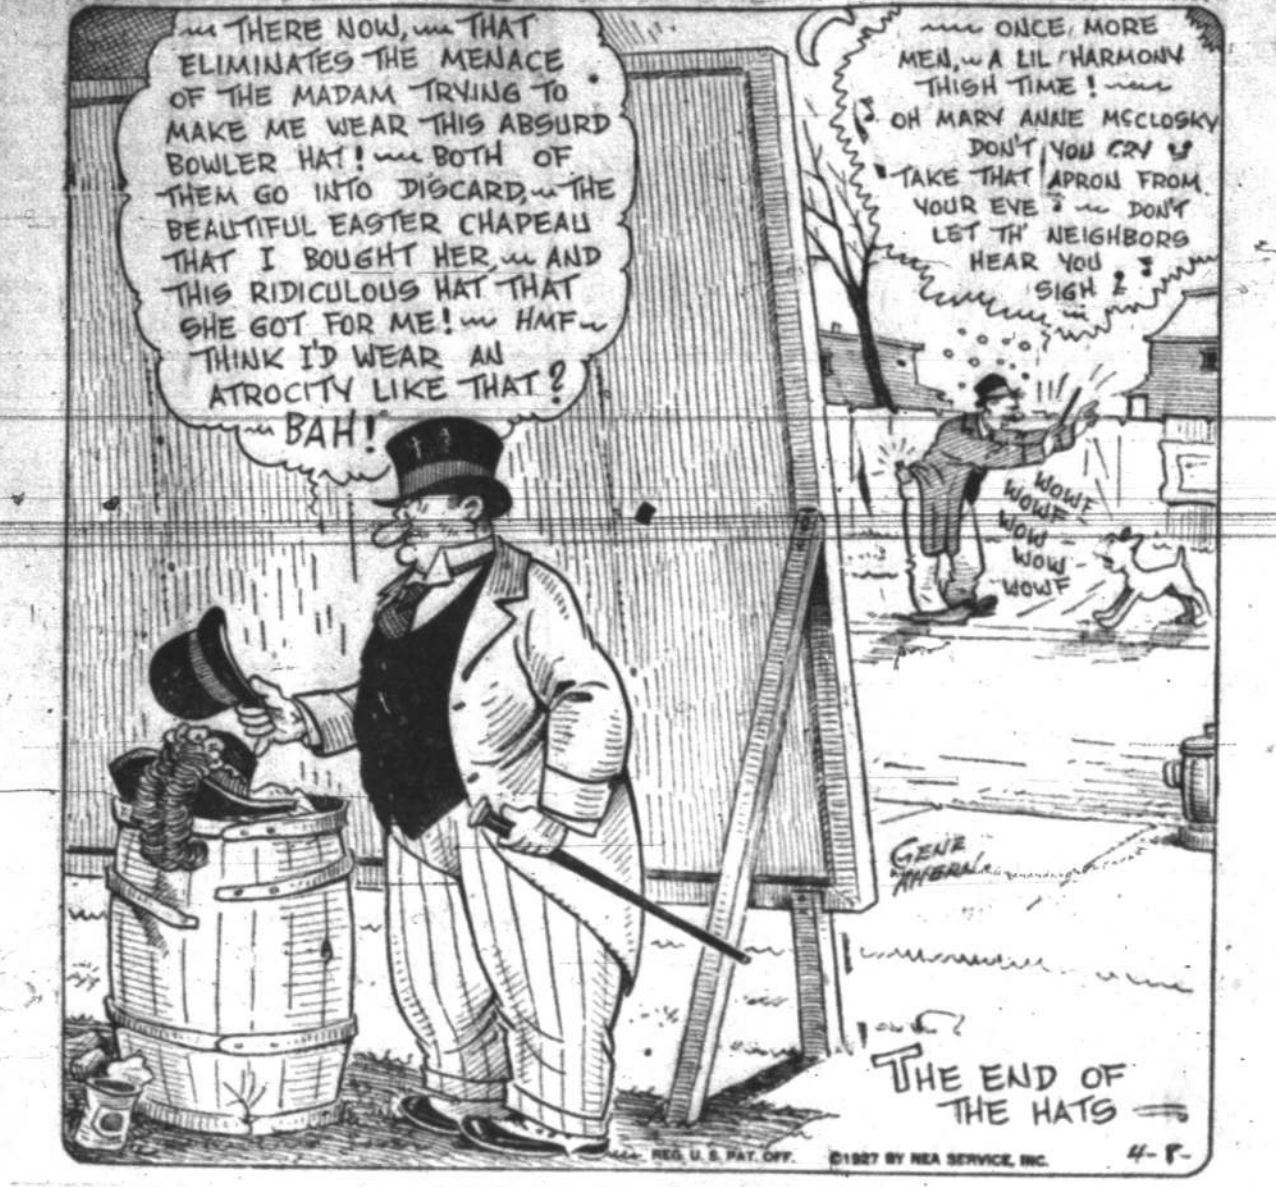

Special to The Avalanche  
**OLNEY, Tex., April 7.**—Dates for the annual clean up week will be set at a meeting of representatives from the various clubs of the city this afternoon. Plans are being made to put on an extensive campaign this year.

The meeting has been called by M. Oliver, secretary of the chamber of commerce at the request of Mrs. Ethel Anderson, general chairman of the arrangements committee for the convention. Representatives from each of the committees already appointed by Mrs. Anderson are to be present at the meeting and all details for the clean up will be outlined. The cooperation of the city sanitary officer, H. J. Groves, has been secured and his services will be used in connection with that of the committee.

**CHILDREN'S FATAL DISEASES**  
 Worms and parasites in the intestines of children undermine health and so weaken their vitality that they are unable to resist the diseases so fatal to child life. The safe course is to give a few doses of White's Cream Vermifuge. It destroys and expels the worms without the slightest injury to the health or activity of the child. Price 50c. Sold by  
 Hall-Benson Drug-Co.

**Stops Malaria, Restores Strength and Energy**  
**Grove's Tasteless Chill Tonic**  
 etc.

### OUR BOARDING HOUSE By Abern

### Littlefield Gin Is Destroyed By Fire

Special to The Avalanche  
**LITTLEFIELD, April 7.**—Fire entirely destroyed the Baker and Mason gin here at Littlefield Wednesday. The loss was something like \$25,000 partially covered by insurance. This was the oldest gin in Lamb county it having been in operation for about eight years. The gin had been closed for the season, and the origin of the fire is entirely unknown. It is the second gin fire in the county within a week. The Taylor gin at Yellow House, Smith having burned a week ago. It being the newest gin in the county.

A few days ago fire also destroyed the Kogan home in the town of Littlefield, burning up everything, without any insurance whatever.

### Grollman Enlarges His Shoe Department

Special to The Avalanche  
 Enlargements in the women's wear and shoe departments of the C. H. Grollman company store have been completed in the last few weeks, in order to give much better displays of merchandise and to admit the carrying of more goods.

Purchase of the Ross Edwards stock of goods several months ago was announced by Mr. Grollman and he has since then sold most of it out, buying another \$25,000 line. This coming some time ago, he reorganized the entire stock, moving the men's suits to the front of the building and changing the store in the meantime. The entire back of the building, the millinery and ready-to-wear departments were both enlarged and new display cases and tables were placed in these departments showing the stock to better advantage.

### Olney Chamber Will Restock Pigs There

Special to The Avalanche  
**OLNEY, April 7.**—Arrangements are now being made for the distribution of twenty pure bred Duroc Jersey gilts to the boys who are members of the recently organized boys clubs in this district. The board of directors of the chamber of commerce in a recent meeting unanimously approved of the plan to place a pure bred sow with each member of the club. Committees are now at work among the business men, and from the success attained during the first day, there seems to be no doubt but what the purchase price for these gilts will be secured within the next few days.

The boys to receive these gilts have already been organized and selected by representatives from the chamber and with the assistance of W. C. Hale, county agricultural agent. Each boy is to receive one good gilt, agreeing to return two new pigs at six months of age. These two pigs are in turn to be given to two other boys under the same agreement. After that, those pigs that are returned are to be sold, the money pooled and distributed back to the original purchasers.

The number of hogs in this district is comparatively small, and it is hoped that through this means a sufficient amount of interest will be aroused that will help materially to restock the district with pure stock. Every hog placed on a farm will have its effect toward inducing that farmer and those around to diversify. The distribution of these gilts is the second recent step to be taken by the chamber in its agricultural program this year. Two weeks ago 1,000 baby chicks were distributed to twenty boys and girls throughout the Olney farming territory.

### Methods Are Given For Preventing Fire

With statewide interest being centered on fire prevention and the present fire rate controversy by chambers of commerce and other organizations of Texas, considerable thought is being spent on methods of fire prevention and the necessity for more care in such matters.

Fire insurance companies who contend that losses in Texas are so great that they lose money by operations here, are asking for higher rates and also suggest that an educational campaign be launched to educate the public on using proper fire precautions. Rates will automatically take care of themselves when the losses are reduced, it is pointed out.

**"Don't Are Prepared"**  
 A list of don'ts has been prepared by one of these companies, and several of them apply not only to fires in Lubbock recently, but fit into plans for the annual clean-up campaign that is to be held simultaneously over the state the week of April 25 to 30. These are:

- I will not permit rubbish to accumulate in basements, workshops, or anywhere about the premises, remembering that clean property seldom burns.
- I will not burn trash brush, or rubbish near buildings, fences or other property.
- I will not keep ashes in wood containers or deposit them against wooden buildings or partitions, but will keep them in metal containers.
- I will not hang electric light cords on nails.
- I will take precautions with electric flatirons.
- I will have all flues cleaned, examined and repaired at least once a year.
- I will provide screens for open fireplaces.
- I will not connect gas stoves, heaters or hot plates with rubber hose.
- I will not use gasoline or benzine to clean clothing near an open flame, light or fire.
- I will not get into closets with lighted matches or candles.
- I will remember that there is always danger in the discarded cigar or cigarette stub.

### Thousands Suffer Needlessly From Stomach Trouble

**\$30,000 for His Discovery**

Indigestion, constipation and their attendant ills respond quickly to a prescription known as "Gordon's" the discovery of a well-known Dallas pharmacist.

"Gordon's" goes right to the seat of stomach and bowel troubles and relieves constipation, gas on the stomach, dyspepsia, heartburn, bloating after meals, excess acid, bad breath, sick headache, nervousness, tones up the digestive organs and stimulates the stomach and bowels to their normal functions.

"Gordon's" is sold by good druggists—\$1.25 for 44 doses—less than 2 cents a dose. Your druggist will refund your money, if one bottle fails to benefit. Ask for "Gordon's" (Adv.)
