OFFICIAL COUNTY PAPER OF OCHILTREE COUNTY

VOLUME VI.

PERRYTON, OCHILTREE COUNTY, TEXAS, FRIDAY, JULY 13, 1923

NUMBER 23.

LARGEST WHEAT CROP HARVESTED IN YEARS

Ochiltree county farmers are harvesting and threshing this week one of the largest and best wheat crops that they have had in several years. The average yield to the acre has been about 25 bushels while some goes as high as 35 bushels per acre. Three miles west of town on A. C. Witt's farm the wheat is running a little better than 35 bushels per acre, while seven miles east of town on Herb Brillhart's farm it is running thirty bushels to the acre. Barley that has been threshed run all the way from 15 to 40 bushels to the acre and oats up as high as 50 bushels to the acre.

PERRYTON GUN CLUB

At the regular shoot on last Sunday afternoon the high five men broke a total of 114 birds out of 125 shot at. High men were Castleman, Brandt 23, Cofer 23, Gene Coffee, Nash 21. Standing of members to date as follows:

	S.A.	Bk.	P.C.
Edwards	375	345	920
Castleman	400	368	920
Nash	400	359	897
M. Coffee	375	259	877
Lane	400	350	875
Correll	300	260	866
Brandt	325	279	857
Cofer	375	317	845
Hobbs	350	296	845
Dunlavy	350	291	834
Lewellen	300	246	820
G. Coffee	400	327	817
Smith	200	160	800
Tepe	75	57	740
Thompson	250	171	684
Tenney	100	67	670
Reagan	100	62	620
Scott	225	126	560
Williams	75	40	535
Callaway	75	40	535
Meyers	100	52	520
Green	75	11	146

LAST SATURDAY WAS A BUSY DAY IN PERRYTON

Saturday, July 14th, was one of the busiest days the merchants of Perryton have enjoyed in several months. There were more people on the streets here that day than there has been since last August the 22nd. Cars were parked four deep on Main street for four blocks. The people of the adjoining counties are doing practically all of their trading here.

PROVIDE REAL FARMERS WITH GOOD LAUGH

The spectacle of the self-styled "farmer" delegates trying to get together with the "pinks"—those radicals who have not enough courage to be "red"—provides the real farmers of the country with some of the few laughs going the rounds.

The Chicago "conference" is one of the great contributions to the humor of current politics. The real farmers are too busy, working eighteen hours a day, to tie up with the agitators who are "oppressed" if they work eight hours when they work at all.

The real farmers have too much "gumption" to line up with the fellows who don't know what real work is, but when exorbitant wages for "accepting a position."

It takes a good deal to make a farmer smile these days. But he must laugh out loud when he sees "farmers" pretending to represent him in a "conference" with windy disturbers, too lazy to work, too greedy to accept fair wages and too dishonest to earn them.

Mr. and Mrs. Dayton Jones returned to Perryton Monday afternoon after a honeymoon trip through New Mexico, Colorado and Kansas.

The Modern Woodmen of America met last Tuesday night at the Court House. They had two men to take the work, H. C. Coffee and Harry Gribble. The members of the lodge were treated to a surprise by the ladies of the Royal Neighbors, they bringing down ice cream and cake for all members.

FOR SALE—An 8x10 box building, no floor, box car roof covered with three ply composition roofing, two windows and good door with lock. Will sell reasonable. Call at Herald office.

PERRYTON FAIR DATES SET FOR OCTOBER 2, 3, 4

At the meeting for the Fair officials the latter part of last week, it was decided to have their first annual fair on October 2nd, 3rd, and 4th. Now it is up to the people to get together and put this over in the regular Perryton style. The people of Perryton and Ochiltree County have never failed to make a success out of anything they have tackled yet and we know we won't on this.

There will be plenty for everybody to do and tell everybody you meet the dates and extend them an invitation to attend. And another good thing—it will be a free fair.

There will be premiums of all kinds for everything that is raised in Ochiltree and adjoining counties.

So make your plans now to attend the fair and bring all your relatives and friends.

THREE COUPLES CHARIVARIED

On Monday night of this week, about eleven o'clock the people of Perryton were suddenly awakened by what we thought was either "Cox's Army," or a "Charge of the Light Brigade," but which turned out to be a bunch of young people giving their last rites to three of our newly married couples. After considerable noise and persuasion at the homes of two of the newly married couples, they came down town and refreshed the crowd with what they wanted.

CHESTER SMITH GETS HUNTOON LUMBER YARD

Chester Smith of the White House Lumber Company here was promoted this week to manager of the White House yard at Huntoon, and L. E. Records, who was manager at Huntoon goes to Canadian as auditor.

Mr. and Mrs. Smith and family will move the latter part of the week to their new home.

GILTNER LaMASTER BREAKS HIS ARM

On last Friday morning Giltner LaMaster, the ten-year-old son of Mr. and Mrs. W. B. LaMaster, had the misfortune, while wrestling with his smaller brother, to fall and break his arm just below the elbow.

Dr. J. W. Brewer was called and set the arm and Saturday morning Mr. LaMaster, accompanied by Dr. Brewer, took Giltner to Shattuck to have an X-Ray picture of his arm. At last reports he was getting along fine.

THE "AD" KILLER

The man who stops his little "ad" is but a blooming fool, indeed! Because his advertisements tell the public what he has to sell, and if his "ad" is not one deck, the people pass him up, by heck! For none of them will hesitate to trade with people up to date. To stop your "ad," we would remark, is just like winking in the dark—you may know what you mean, but gee! nobody else can see! So do not for a moment think that when you cut out printers' ink you're saving money on the side; 'tis only business suicide.

—Seattle Post Intelligencer.

HAIL STORM DOES MUCH DAMAGE SUNDAY

Tyrone and vicinity suffered materially Sunday afternoon from a severe wind and hail storm. A dark, angry looking cloud appeared in the northeast a little while before sundown and within a half hour a terrific wind swept across the prairies. This was soon followed by a hard rain accompanied by hail. Small vegetation was cut off almost even with the ground, leaving barren wastes where fine gardens grew before the storm.

In some sections of the country the row crops were entirely destroyed, especially in the section of the country northeast of Tyrone, also certain territory southeast of Tyrone. Much of the fruit in these areas was beaten from the trees, and many melons were cut from the vines. It was reported that several houses in Liberal and surrounding country were blown down. No lives were reported lost.—Tyrone Observer.

Fred M. Smith of Wichita, Kansas, was a business visitor in Perryton the latter part of last week.

EMPIRE NO. 1—BEAVER—CREATING MUCH INTEREST

The Empire well drilling in Section 6-1-20, are drilling at 2935 and have gone through formations of gray and blue lime, shale and shells of 500 feet, and yesterday penetrated the first sand which at this time is getting darker, and from the log of other wells in the Panhandle field and the Martin well at Sayre, Oklahoma, leads everyone interested to believe that they can expect to encounter the cap rock at any time, as the Gulf Production and other people as far as Tulsa, are keeping posted every day as to the progress being made. The price of leases around the well are advancing every day, and the people of this country are glad that they have been fortunate enough to get a Company of the Empire standing to drill as they feel assured that they will get an honest test. Don't be surprised if you see an oil field stampede here like we read about at other places. The well is getting to be the most popular place in the country right now, as there is a crowd there all the time during the day and most of the night.

MY FAVORITE RECIPE

Following are three receipts from Miss Flora Cox, of Little Rock, Arkansas. Miss Cox was at one time a resident of Perryton and is well known to the people here.

Grandma's Brown Bread.

1 pt. white sponge; 1/2 teacup brown sugar; 1/2 teaspoon salt; 1/2 cup sorghum molasses; 3/4 cup warm water; graham flour g. s. Take a good, generous pint from your white sponge. Put the brown sugar in a bowl and pour over it the warm water; stirring all lumps will be dissolved. Add the molasses, then salt. Now add the white sponge; lastly the graham flour until the batter is as thick as can be stirred with a spoon. Place in warm greased pan and set away in a warm place to rise till light.

Bake about one hour in moderate oven.

Combined receipt contains 2,000 calories.

Carrot and Peanut Salad.

(450 calories, plus mayonaisse used.) 8 tablespoons grated raw carrots; 4 tablespoons ground salted peanuts; Lettuce and mayonaisse. After the carrots are grated and the peanuts ground, mix them well; add mayonaisse enough to make the mixture so it can be moulded; form into four or six moulds on lettuce leaves. This is my favorite recipe for salad.

Tea a la Tulip.

Make tea as you usually do (to serve ice cold), and pour piping hot over a few sprays of well washed fresh mint.

Now, let it stand until cold, and serve with slices of lemon floating in it and sprays of fresh mint sticking out of top of pitcher. You should regulate the quantity of mint used while the tea is hot, by the strength of the flavor you like and that you'll have to discover by trying.

PREACHING CONTENTMENT TO DISCONTENTED FARMERS

In the account which was given in the Philadelphia Public Ledger (a Republican newspaper) of President Harding's visit to Hutchinson, Kansas, appear these paragraphs: "No one can come out here and night," wrote Correspondent Robert Barry, "such reactions were obtainable to his (President Harding's) Hutchinson speech were best expressed by a prominent State official—a Republican—who said:

"No one can come out here and preach contentment to these farmers. They are discontented and they don't care who knows it. They are not to be placated by statements of now much things might be. They want to hear that freight rates are to be lowered and they don't care how Government stabilization of prices is contemplated."

Mr. and Mrs. Homer Tepe and children of Dodge City, Kansas, were in town a few hours the 4th. They were on their way to take in the celebration at Canadian and also visit relatives there.

BEAVER SCHOOL BUILDING DESTROYED BY FIRE

The Beaver high school building was completely destroyed by fire Wednesday night, July Fourth, following the display of fire works at the fair ground. The fire originated on the roof of the building when a firey parachute landed there from one of the skyrockets. The \$10,000 building carried \$4,500 insurance and the \$2,000 worth of contents was insured for \$750.00.

The fire was seen to light on the roof by several but apparently went out as the part of the roof that caught was obscured from vision, and when it was discovered the roof was on fire, the fire department was summoned and the hose cart was soon there.

A defective nozzle caused delay in getting the water to the roof. The north half of the building was burned to the ground and the south half still remains standing a black charred mass. The library of 950 volumes of highly prized books was located in the southeast room up stairs and was burned and water soaked, causing a complete loss. The fire department fought the flames strenuously from both inside and out.

The two big chimneys stood until Thursday morning when they were pushed over for safety.

The school board has already taken steps to erect another building just as soon as possible.—Beaver Democrat.

BOY DROWNS

The tragic death of the little son of Mr. and Mrs. J. O. Cates, of near Booker, Texas, who was drowned here Tuesday while bathing in a pool east of town, cast a shadow of gloom over our little city. The lad with his mother was visiting here with Mrs. Cates' sister, Mrs. J. F. Dillow, when the sad accident occurred. In company with a number of other children the child was bathing and got beyond his depth.

He could not swim. His companions tried to save him and worked heroically but the children were too small and at last the lad went down for the last time. Help was summoned quickly and scores of men hurried to the scene but did not arrive in time to save the little fellows life. H. D. Peckham located the body and brought it to the surface but life must have been extinct for some time. All efforts to restore were futile.

The little body was taken to the family home Wednesday and funeral services will be conducted today.

All Beaver sympathizes with the stricken parents and other members of the family.—Beaver Herald.

SOLDIERS CAN GET A MONUMENT FREE

The United States Government will furnish to the relatives a monument, free of charge, to any soldier or sailor or to serve under our flag in any war or who died in any of the camps.

So if you have a relative who is buried and has no monument at his grave see G. R. Wilson at Perryton, and he will help you get a monument from the government.

Geo. Rupprech is taking S. W. Castleberry's place as City Marshall in his absence.

M. R. Coffee and Walter and Rupert Allen were business visitors at Canadian Tuesday.

R. A. Fuller of the Black neighborhood was a shopper in Perryton Tuesday.

The Royal Arch held their regular meeting last night (Thursday) at the Masonic Hall.

C. E. Cooper and family of Lyeon, Colorado, are here this week visiting with Mr. and Mrs. C. W. Callaway.

A full line of Men's, Women's and Children's Bathing Suits; also ladies Bathing Caps at Rifenberg's Store. 2c

Mrs. W. C. Barber of the Peoples Supply Company is in Kansas City Missouri, this week.

Miss Eugenie Shindler came in Monday from Dalhart for a visit with her father, R. T. Shindler.

MEMPHIS BOY IS FATALY INJURED

J. W. January, 15-year-old son of Mr. and Mrs. Ned January, of Memphis, was fatally injured Monday morning when run over by a loaded dump wagon on the diversion dam of the Wichita irrigation project at Dundee, near Wichita Falls. He died some three or four hours after the accident occurred.

The exact cause of the accident could not be ascertained, but it is reported that the lad jumped down from the moving wagon to get a drink of water and became entangled in his whip, causing him to fall under the wagon. One of the wheels passed over his chest and another over the lower part of his body. His chest was badly crushed. Medical aid was secured within a short time, and the injuries were found to be serious. The lad remained conscious until the last few minutes of his life.

J. W. January was a splendid teamster. He worked with his father in hauling the material for the street paving here last fall, and was afterwards employed by Bob Blair in the work at Dundee.

Mr. and Mrs. Ned January, parents of the boy, reside on North 10th street. The father was working near Pampa when word was received of the accident but he arrived here Monday night.

The body was shipped here Tuesday morning, but was re-shipped Wednesday morning to Perryton, where burial was made.—Memphis Democrat.

J. W. January was raised in Ochiltree county, and with his parents moved to Memphis about a year ago. The body was laid to rest in the Ochiltree cemetery on Thursday, July 5th.

The Herald joins the many friends of the bereaved parents in their sad hour.

UNIVERSITY OF TEXAS NEWS

Approximately four hundred students out of the 3093 who were enrolled in the University of Texas during the spring term have their names on the honor list given out by Dr. H. Y. Benedict, dean of the College of Arts and Sciences. This number includes only about ten per cent of the student body, and the official honor roll as given out by the dean each term is intended to commend those students who have attained high scholastic records.

In making up the list, account is taken of grades and the number of courses passed by each student so that both quality and quantity of work are given due consideration in constructing the honor roll.

The following student from Perryton had the distinction of having her name on the spring term honor roll: Laura V. Raymond.

INSTALLATION OF OFFICERS

On last Monday night the Pythian Sisters installed the following officers:

M. E. C. of Temple, Inez Cutter. E. S. of Temple, Gusta McLain. E. J. of Temple, Nona Barbour. Manager of Temple, Vica Coffee. M. of R. and C., Myrtle Dodson. M. of F., Lucy Nelson. Protection of Temple, Lou Rhodes. Guard of Outer Temple, Imogene May. Past Chief of Temple, Ethel Donley. Degree Captain, Edith Manwarren.

Ben F. Tepe of Canadian was here the latter part of last week.

PERRYTON CHAUTAUQUA JULY 27, 28, 29, 30, 31, 1923.

The Perryton Chautauqua will open here on Friday, July 27, and continue to Tuesday, July 31. The White and Meyers Chautauqua will be here again this year.

This company was here last year, and gave the people of Perryton and vicinity some of the best entertainments that they had ever seen. Everybody should give this chautauqua their moral and financial support. It is one of the very few opportunities that a town the size of Perryton has to obtain clean, high class, educational entertainment. A good chautauqua is a necessity, and it is cheap entertainment. Buy a season ticket for yourself and family and attend nine high class performances.

Below you will find the names of the men who made it possible, by guaranteeing the amount, for this chautauqua to be here this year:

W. B. LaMaster, E. C. Lee, W. S. Courtney, Sam Hergert, G. R. Wilson, J. B. Cartwright, Clyde Cofer, Allen M. Wilbanks, Jr., J. M. North, Chas. Garrett, R. A. Purscell, Fred W. Hood, B. B. Kent, R. B. Wakefield, C. R. Nelson, Mrs. F. A. Edwards, H. C. Coffee, Geo. M. Perry, H. I. Hudson, L. S. Hobbs, W. M. Hastie, E. H. Williams, Oren Ollen, Ed. Littleton, E. C. Carver, Jas. W. Wilson, L. L. Price, Nellie M. Perry, Jack Allen, John H. Lovett, K. T. Correll, J. M. Bales, Fred Houston, W. C. Barber, H. J. Wilson, W. W. McLarty, O. C. Shearer, T. J. Morgan, I. H. Sharp, Leon Roemback, W. H. Dunlavy, R. T. Shindler, Abe Green, A. L. Carter, C. B. Rogers, Guy E. Holt, J. C. Wyatt, J. M. Grigsby, A. B. Holt, Geo. R. Ragsdale, J. L. North, M. O. Willis, R. O. James, Van W. Stewart.

G. W. ARRINGTON MONUMENT FUND WILL BE RAISED

The formation of a memorial association in memory of Captain G. W. Arrington has been launched in the home town of the deceased by his friends, the purpose being to erect a monument that will in some degree show the respect which is retained in the mind of Panhandle people for its distinguished and lamented pioneer.

In this association T. D. Hobart of Pampa was named president, and D. J. Young, president of the First National Bank of Canadian, was named secretary and treasurer. It is the intention of the association to raise \$3,000 by October of the current year, all of which will be used for the purchase and erection of this monument.

Active in the constructive affairs, specifically of the State of Texas, and intimately associated with its traditions and affairs for many years, Captain Arrington lived to a ripe age and passed from the affairs of this existence enjoying the faculties of mind and the functions of body until a few hours before his dissolution.

The life thus sought to be revered through voluntary acts of his friends is regarded as a splendid privilege and will mark the sacred couch of one who carved upon the Indian infested region of Texas a habitude where today culture and refinement delights multiplied thousands.

The body of Captain Arrington was laid to rest in the cemetery of old historic Mobetie. This was the old Fort Elliott government station and where for many years after resigning from the ranger force the deceased was sheiff when all this Panhandle country was attached to Wheeler County for judicial purposes.

Committees have been appointed in all the Panhandle towns who will have local matters in charge and any one desiring to have a part in this laudable undertaking are requested to communicate with D. J. Young at Canadian, Texas.

All persons contributing to this cause are requested to send names as well as contributions to the association's headquarters.

F. R. JAMISON.

Guy Speakman, J. J. Bollinger, and G. S. Mann made a trip to Perryton, Texas Thursday. While on the trip they stopped at the test well of the Empire Oil and Gas Co., 35 miles southeast of here. They report very flattering prospects at this well. This company has one of the best drilling outfits in the southwest, and from all indications they mean business.—Tyrone Observer.

We will have some buyers for plains land in soon. Send us lists of your land if you want to sell it. H. C. COFFEE LAND & LOAN CO. 16-1f-c

SUCCESS IS ALWAYS ON THE TOP OF THE HILL

—AND CLIMBING IS
NEVER EASY

Here, Mr. and Mrs. Public, is the unsweetened reason why some of your families succeed, while others of them fail. Any person any old bus, can travel down hill. It's when they hit the upgrade that the real ones stand out conspicuously.

It is utter folly, Mr. Public, to permit yourself or any member of your family to spend all that is earned. You and they can either earn more or spend less, and the probabilities are you will do both when you determine to get away from the multitude and join the chosen few.

And don't be afraid of a small beginning. That fear has defeated many a good intention. Your account, no matter how small, is welcome and you will receive the same careful and courteous attention that is accorded every patron of this bank.

WE ALWAYS FIND THE BETTER AIR AND THE BETTER VIEW FROM THE HILL-TOP TO HAVE BEEN WORTH THE CLIMB.

NOTICE OF JOINT RECEIVERS SALE

The State of Texas, County of Ochiltree.

Whereas by virtue of an order of sale issued by the District Court of the Thirty-first Judicial District of Texas, Hon. W. R. Ewing, Judge thereof, on the 10th day of July, A. D. 1923, in the matter of International Shoe Co., vs. Farmers Mercantile Company, et al., R. C. Allen and M. R. Coffee, Receivers, same pending in the District Court of Hemphill County, in said District, in Cause No. 1721 on the docket of said Court in said County, we, the said R. C. Allen and M. R. Coffee, Receivers of said Farmers Mercantile Company, a Corporation, of Perryton, in Ochiltree County, Texas, will, on the 7th day of August, A. D. 1923, the same being the first Tuesday in said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M., offer for sale and sell for cash at public auction all the right title and interest of the said Farmers Mercantile Company, in and to all of the assets and property of the said Farmers Mercantile Company situated within the State of Texas, at the door of said Farmers Mercantile Company's mercantile establishment at Perryton, in Ochiltree County, Texas, except the real estate assets which we will then sell in the same manner at the door of the court house of Ochiltree County, Texas, at Perryton, in said county, subject however to outstanding liens and encumbrances against same, said assets and property situated within the State of Texas, including the following:

1. Lots 13, 14, and 15 in Block 15, in the original town of Perryton, in Ochiltree County, Texas, (being adjoining and constituting one parcel of land, except a space out of the North East Corner thereof 28 feet in width North and South, and 70 feet in length East and West, occupied by the Farmers and Stockmen's State Bank Building), together with the improvements thereon and appurtenances thereto, same being the mercantile building of said Farmers Mercantile Company. Said property is encumbered with a Deed of Trust lien to secure the payment of an indebtedness in the principal sum of \$8,500.00 owing by Farmers Mercantile Company to Mary L. Perry, bearing interest at the rate of 10 per cent per annum, due the 24th day of January, A. D. 1924. Said property is also encumbered with Deed of Trust lien to secure the payment of following indebtedness owing by Farmers Mercantile Company to the Farmers & Stockmen's State Bank: (a) \$2,472.55, bearing ten per cent interest per annum, due June 1, 1923; (b) \$2,472.55, bearing 10 per cent interest per annum, due June 15, 1923; (c) \$2,472.55, bearing 10 per cent interest per annum, due July 1, 1923; (d) \$1,750.00, bearing 10 per cent interest per annum, due July 25, 1923; all as shown by the deed records of Ochiltree County, Texas, to which reference is here made for more particular description. Receivers' estimated value, \$23,000.00.

2. Mercantile and office fixtures and equipment in the business establishment of said Farmers Mercantile Company, consisting of sales counters, show cases, tables, stoves, chairs, scales, adding machine, cash register, measuregraph, cabinet clothing rack, coffee mill and roaster, McCasky accounting system and case, mirrors, paper racks and various and sundry other items such as are commonly used as incident to operating dry goods and grocery mercantile establishments, each item being set out and described in "Exhibit B" of joint receivers report on file in said court in said cause, to which reference is here made for more particular description, the total estimated value thereof being the sum of \$4,800.00.

3. Promissory notes owing to Farmers Mercantile Company by various people and in various amounts, most of same being owing by people residing in the locality of the trade territory in and around Perryton, Texas, the face value of said notes, including interest accumulated to July 3, 1923, amounting to the total sum of \$26,730.29, description of each of said notes being given in "Exhibit C" of receivers' report on file in said court in said cause, to which reference is here made for more complete description.

4. Open accounts owing to Farmers Mercantile Company by various persons and in various amounts, most of same being owing by people residing in the vicinity of the trade territory in and around Perryton, Texas, the face value of said accounts amounting to the total sum of \$7,628.26, each account being described in "Exhibit D" of receivers' report on file in said court in said cause, to which reference is here made for more particular description.

5. Checks returned unpaid, same owing to Farmers Mercantile Company by various persons now or heretofore residing in the vicinity of Perryton trade territory, the face value of said checks evidencing indebtedness in the total sum of \$858.22, each being described in "Exhibit E" of receivers report on file in said court in said cause, to which reference is here made for more particular description.

6. Dry Goods in stock, consisting of shoes, overshoes, suits, shirts, collars, ties, underwear, gloves, caps, hats, bolt goods, blankets, quilts, hose, combs, brushes, dresses, linens, handkerchiefs, lace, pencils, buttons and various other items such as are generally carried in stock in dry goods mercantile establishments, of the total receivers invoice prices of \$9,477.85, as more fully appears from "Exhibit G" of receivers report on file in said court in said cause, reference to which is here made for more complete description.

7. Staple and fancy groceries, including canned goods, cured meats, sugar, salt, evaporated fruits, and various other items, such as are generally carried in stock by retail grocery mercantile establishments, of the total receivers invoice value of \$2,141.55, items of which are set out in "Exhibit H" of receivers report on file in said court in said cause, reference to which is here made for more particular description.

8. One frame house, one room about 16 feet by 16 feet, personal property, (severed from realty by intention of parties), now located on Lot No. 5 in Block No. 34, in the town of Perryton, Ochiltree County, Texas.

Dated at Perryton, Texas, this 11th day of July, A. D. 1923.

SWIMMING DONTS

The warm weather is driving persons to refuge in swimming and desire to get into the water lead to accidents. If a few rules are observed however, chance of accident in the water be reduced.

Jack McDonald, manager of Washington Park swimming pool, gives some suggestions for avoiding accidents when swimming. Don't enter the water immediately after eating; wait about two hours. Dangerous cramps may result if rule is violated.

Don't dive off high places without first learning to dive off from lower places as you can plunge correctly. Become accustomed to diving from lower places as you can plunge correctly.

Don't make foolish boasts boys who do so are helping playful companions push the deep water to "call" the boat. Don't attempt to swim under too long. This taxes the lungs much.

Don't get excited if a cramp you. Unless it is in the abdomen not dangerous in a small pool. Cramp in the feet, limbs or arms be massaged away.

Don't call for help for Paso Herald.

We have yellow second 8 1/2 x 11 for \$1.25 per thousand, make fine scratch paper for children to do their figures. Stewart Printing Company.

Van W. Stewart, of Enid, Okla. was here last Saturday attending some legal business with Allen.

Cut Prices On Tires

Below you will find a list of tires at greatly reduced prices:

30x3 Michelin Fabric Casings	\$10
30x3 1/2 Michelin Cord Casings	\$12
30x3 Iowa Fabric Casings	\$7
30x3 1/2 Iowa Fabric Casings	\$10

tion.

Ford is running well for President,
but he may strike loose gravel.

A man down east values his wife's
affections at \$500,000. But not until
after she had bestowed them upon
another man.

There will be universal peace when
everyone gets as much in earnest
about it as they are about the price
of sugar.

If air flivvers ever become as plen-
tiful as automobiles it may be nec-
essary to build concrete caves as
ducking places for pedestrians.

The honeymoon is over when he
begins to borrow from her household
money to complete the payments on
the engagement ring.

Somebody should teach those for-
eign ship crews that famous old bal-
lad, "Drink to me only with thine
eyes; and I'll not ask for wine."

It is naturally a Detroit paper that
has come out with the demand for
an ordinance requiring pedestrians to
have bumpers.

The German school of diplomacy is
becoming familiar with the three R's
in its note writing; Referred, reviewed
and rejected.

The first thing that baby learns is
to detect even the faintest smile on
mother's face, and then he goes on
about his meanness.

The most unhappy period in
daughter's life is when she is about
15 years old and her parents don't
realize that she is grown.

There is now legal authority for
calling a man who went through a
195-hour marathon a dancing fool. He
has been adjudged insane.

Instead of sharks or sea serpents,
the enterprising coast resort will now
advertise barrels and demijohns wash-
ed ashore.

John D. Rockefeller and his son
deny they have sold their homes. It
is understood friends have paid the
mortgage.

President Harding has been initiated
as a "Tall Cedar." Yes; and certain
folk have indicated Al Smith as a low
seeder.

When a man finally goes back to
his boyhood home for a visit he dis-
covers that it wasn't the old home he
was looking for so much as it was
boyhood.

High tempered men make the best
husbands. A man is likely to be
domineering if he doesn't occasion-
ally feel the humiliation that comes
from making a dunce of himself.

Aunt Sister does lots of work that
she wouldn't do if she always had
time to wait until her five boys
could decide which one of them ought
to do it.

There is something to be said in
favor of Mr. Debs' comparison of
George Washington and himself. They
certainly do suggest each other—so dif-
ferent.

JUNIOR RED CROSS MAKES GOOD CITIZENS

Through It Children Learn Patriotism,
Altruism and Generosity.

The Junior Red Cross exists for the
purpose of making good American citi-
zens. This statement was made by an
eminent authority in a recent answer
to the question, "What is the Junior
Red Cross?" In the United States
there are 5,000,000 members of Junior
Red Crossers and in the Southwestern
Division the membership of children
in this organization numbers 434,576
and here is some of the work these
children do.

They support work in Europe to
children who are in need. They send
Christmas boxes of goodies to children
who do not have them. They make
shipments of garments abroad to the
destitute children of war-crippled
Europe. But this is not as interesting
to Americans, perhaps, as the work
which the Juniors do at home. One of
the biggest problems in America today,
according to experts, is the tremen-
dous amount of malnutrition found
among the children of this country.
One-third of the children of America
are malnourished, according to actual
counts. The Junior Red Cross, through
its school auxiliaries and growth
classes, is seeking to eliminate
a large part of this malnutrition and
has succeeded to a very gratifying ex-
tent.

The Junior Red Cross also is answer-
ing the question of how to eliminate
individual, group, racial and interna-
tional hatreds which exist among peo-
ple today. The polyglot character of
the personnel of the average Ameri-
can school gives an excellent field for
work of this kind and foreign children,
as well as native-born Americans, learn
what good citizenship is in their
Junior Red Cross activities even more
than they do in the patriotic exercises
of their school room work. Loyal and
serviceable citizenship, that absolute
essential to a great democracy, is be-
ing created in the breasts of these lit-
tle foreign-born Americans through the
Junior Red Cross activities as it never
could be otherwise.

One of the helps to this is the work
the children are doing for the disabled
ex-service men in hospitals, for the
sick and crippled children who need
help and cheer, in equipping play-
grounds so that sad-eyed little chil-
dren of the congested districts are
taught the joy of a normal childhood.
By learning to serve others in these
and many other ways, lessons of com-
munity spirit and co-operation are
taught the growing boys and girls of
this country.

Another thing the Juniors are doing
is assisting in the promotion of health
in their communities by clean-up cam-
paigns and other civil undertakings.
On the whole, one of the most con-
structive pieces of work done in the
Southwestern Division, American Red
Cross, during the year, in the opinion
of those who have studied the situa-
tion, is that among the children, which
has been carried on through the Jun-
ior divisions of Red Cross chapters
and the school auxiliaries of Junior
members.

CLARENDON MONUMENT WORKS
Clarendon, Texas

Modern science can magnify one
voice to sound like a million. And
when the roar of a million is reduced
to the sound of one, we'll be getting
somewhere.

The office boy who used to bury his
grandmother from time to time, now
comes right out and says he wants
to take his grandmother to the ball
game.

The day Cousin Minnie arrives for
a visit she begins talking about tak-
ing her whole family down town for
a meal and a picture show, but she
allows the two weeks to slip by with-
out doing it.

It's difficult to restrain one's tears
when listening to Clara Phillips, the
gentle little lady with a hammer, tell
how a bold, bad man with a pistol
forced her to leave a comfortable
jail.

With some interest but not much
anticipation of gratification, we are
waiting to hear of the man who, when
asked what ten books he has enjoyed
most, will tell the truth and say he
doesn't know.

As a general thing, the ten books
a man enjoys most are the first ten.

Chicago motorman stops to watch
ball game. Not the first time street
cars were held up by strikes.

There are places in Mexico where
it never rains, which should be im-
ported for picnic grounds.

A "labor shortage," as a rule, is a
shortage of labor willing to work for
that kind of pay.

"How will you enjoy your vaca-
tion?" asks the railroad advertise-
ment. That's what's worrying us.

Well, a prima donna wants a seat
in the house of commons, and we are
for it. Anything that will give one of
them a voice.

America's appreciation of art isn't
waning. It's just that moderns have
so little time to make that kind of
sofa pillows.

It seems that no one has had time
to figure how many pedestrians can
be run over per gallon.

No nation can pay the fiddler's bill
by doing the fiddling itself.

Success is part luck. If you keep
hitting the ball hard enough some of
them will fall where they ain't.

St. Louis plasterers now get \$14 a
day. Wouldn't it be cheaper for the
builders to send the work out of town?

Berlin shoplifters are now grabbing
things off the counters with their toes
—some feat!

Another problem is whether an el-
ephant takes the peanut on his own
account or just to please the child.

That horesman who says "a car
doesn't quiver with affection under the
touch of your hand" knows little about
jitneys.

Now they are going to pour knowl-
edge into the ears of sleeping peo-
ple. It might work, if one of the
ears was plugged up so the knowledge
wouldn't go on through.

Sun Yat Sen, it is predicted, will
"come back" in China. Maybe he has
taken the treatment which will make
him the "gland old man" of the Ce-
lestial empire.

Scientists declare that intense light
will put blue eyes out of business in
a few generations. But the White
Ways are proverbial for the number
of blue eyes they create—that is, with
a dash of black.

Henry Ford continues to be the big
unknown quantity in the political cam-
paign next year. Nobody knows
whether he wants to run on the Re-
publican or Democratic ticket. We
do know that he is ahead in the straw
votes taken in the cities and rural
communities, whatever that may
mean.

Something is forever
that increases the difficulty of
winning your best friends
wife likes his.

WOMEN AS DRIVERS

Many motorists are firmly convinced that women are particularly "dangerous" as drivers of automobiles. They have had perhaps a few personal experiences of "erratic" driving on the part of members of the fair sex.

But no less an authority than Magistrate House presiding over the traffic court of New York, declares, after trying thousands of cases, that women are equal to men in the technique of driving; that they are more law-abiding and seldom commit really serious violations of the law and that, when they do get into trouble, they are "better sports."

This is convincing testimony and fair-minded people will give it due

weight. Both personal experience and observation will undoubtedly corroborate it. Those who are loudest in their criticism of women drivers will, on second thought, admit that it is in trivial details of driving and not in headlong disregard of the rights and safety of others, that women drivers most often offend.

Few collisions occur, according to the daily reports of motor car accidents, from the reckless speeding of women drivers. Few pedestrians are heedlessly run down by hurtling cars dashing along with women at the wheel. There are individual exceptions, in the nature of things, but they prove the rule rather than refute it.

Certain it is that women do not fill up on contraband liquor and hurl their cars through the streets. Rock-lessness is not a feminine trait, when all is said; and recklessness and the criminal disregard for others, rather than lack of technical skill, are at the bottom of most of the casualties and fatalities which clog the accident records throughout the country.

RED CROSS JOINS IN MOSQUITO CAMPAIGN

Two Texas Communities Are Rid of Malaria After Year's Work.

Two communities in the Southwest Division infected with malaria have been rid of this pest in the last two years by the work of the American Red Cross, according to statements made by citizens of these communities. One of these sections is around Calvert and Hearne, Tex., where the Robertson County Chapter of the American Red Cross and the local health authorities worked hand-in-hand to rid the district of the malaria-spreading mosquito.

According to the official report of the work done in this district, the initial step in the campaign was the draining of all pools, ponds and depressions retaining stagnant water. This was done the first year. It required the opening of original ditches and other semi-engineering feats. Water impossible to drain was treated with crude oil at intervals during the summer of 1921 and bodies of water so located as to be too expensive for draining or oiling were stocked with Gambusia Minnows, a local product found in prolific quantities in that section, which is a deadly enemy of the mosquito larvae.

Inspectors were employed and periodically visits were made in a house-to-house inspection. These inspectors looked particularly to rain water, accumulations in open cans and other vessels, gutters, etc., and an offer accompanied the inspectors, oiling all these waters. Particular attention was paid to old wells, cisterns and vats of various kinds. The results have been most gratifying. It is reported, and the mosquitos are almost completely eradicated from the locality.

A similar campaign in Cherokee County, Tex., had a similar result. During the early fall of 1921 a malaria survey of the county was made by the American Red Cross Chapter. A report was compiled and charts made showing the exact percentage of malarial infection in each school district. These findings were taken as a basis for the work, which has been extensive since its beginning. Two sanitary engineers, a physician and two public health nurses are in charge of the work of malaria control, under the general direction of J. A. LePrince of the U. S. Public Health Service and Bureau of Child Hygiene of the Texas State Board of Health and the Cherokee Chapter of the American Red Cross.

The campaign is too new as yet to report complete success, but gratifying results have been obtained and the malarial infection in that district is very much decreased over the conditions of the year previous.

APPRECIATION BY GOVERNMENT OFFICIALS

Probate Attorney Commends Red Cross For Work Among the Indians.

William Simms, U. S. Probate Attorney, in charge of the Indian District of Oklahoma, has sent the following letter to the Southwestern Division, American Red Cross:

"The activities of the Craig County Chapter, extending into Delaware County, Okla., have been of great value. Mrs. Myra T. Earhart, executive secretary of the Craig County Chapter, accomplished more good for the Indian soldiers in the one day when she extended her work into the adjoining county than has probably been done since the war.

"Mrs. Earhart and Mrs. Myrtle Griesham, the public health nurse of the Craig County Chapter, spent an entire day in Delaware County at my request and, believe me, those ladies had no time for recreation.

"Indian children were brought in to be inspected, weighed and measured and preparing the claims of disabled Indian soldiers was accomplished. These two women rendered such good service in this work that I am hoping that some day they will be able to get back to that county and furnish further help.

EX-SOLDIER GETS PENSION AND INSURANCE

Through more than two years of unwinding of official red tape and other efforts the Red Cross of Waco, Tex., has obtained compensation for permanent total disability and government insurance for a veteran of the World War. This soldier was wounded in a peculiar way. A piece of shrapnel which tore away the muscles of his back and injured his vertebrae also exploded his cartridge belt, thus inflicting an additional injury which required many operations and more than a year in the hospital, most of the time lying on his face.

The operations were not successful, the shock and other contributing causes caused heart trouble, all of which have made him a permanent invalid.

Through an error in his record, this soldier has been allotted only \$27 a month to correct the error and obtain for the man the compensation which was his due, as well as to obtain for him and his aged mother the insurance which also was coming to him.

HARVEST SPECIALS

"THE STORE OF BETTER CLOTHES"

EARLY PREPARATION OF SOIL FOR WHEAT

Aggressive farmers, those planning for a maximum wheat crop next year, are now turning their attention to the all important question of early preparation of their fields. Officials of the Southwestern Wheat Improvement Association, which organization gives its entire efforts to aid in producing a better quality of wheat, have declared that early and proper preparation for the next crop is the greatest single factor contributing to a successful and profitable yield. Experiment stations and actual practice have clearly proven that land prepared in July for wheat will produce from two to seven bushels more per acre than that on which the work is delayed until September.

This is due largely to the fact that early plowing destroys weeds which if allowed to propagate consume the available plant food and moisture. In addition such plowing affords time for the land to settle. It is pointed out that wheat demands a firm seedbed and for that reason it is always wise and profitable to use some sort of a packer immediately after the plow. A disk harrow, with the blades set straight, has proven effective in lieu of the regular packer. Loose soil, especially that which is the result of late preparation, can be depended on invariably to produce a poor wheat crop.

Successful wheat growers find that if time does not permit of early plowing or listing that disking immediately after the binder or header destroys the weeds, saves moisture and

renders the soil easy to plow at a convenient time later. July disking, followed by late August or early September plowing or listing, can be followed out with successful results.

Early listing for wheat is especially desirable in sections where the rainfall is limited, and frequently produces better yields than other methods. With listing, a substantial amount of moisture is saved because the ground can be covered rapidly. Experience has shown that best results are obtained by relisting and leveling early so sufficient time will be allowed for the soil to settle before sowing.

In the final analysis, the statement is emphasized that if the ground has been well prepared for the preceding crop, as by early plowing or fallowing, the soil should be in sufficiently good condition to "stubble-in" wheat with no additional work.

It's Canning Time

And unless you come here and order the many things you need, you will be almost certain to find your **FRUIT** and **VEGETABLES** all ready to can and discover that you are short some needed article. We have anticipated your wants this year, and have purchased accordingly and consequently will be able to make extremely attractive prices on all canning accessories.

We have a big supply of **FRUIT JARS**, both the E-Z seal and the zinc top. See us for new **LIDS** and **RUBBERS**.

Take a big part of the drudgery over the hot stove out of your canning this year. Buy a **PRESSURE COOKER**. You can do your canning and cooking better, quicker and much cheaper. Let us tell you how.

PERRYTON

TEXAS

Perryton Chautauqua, July 27-28-29-30-31

SCENE—AFTER THE FOREST FIRE IN "THE STORM"

"The Storm," Langdon McCormick's great drama of the Northwest woods, will be presented at our Chautauqua on the closing night with its wonderful forest fire scene. When it first showed in New York, the New York Times said: "The climax is a forest fire which sweeps right up to the footlights. It is extraordinary." The Evening Mail said: "Held the audience spellbound with breathless attention."

A DRAMATIC SCENE IN "THE THREE WISE FOOLS"

"Three Wise Fools," one of the greatest of the late outstanding theatre successes, will be presented on the opening night of our Chautauqua by a New York Company of nine players. It concerns three life-long pals, the daughter of a former sweetheart of all three, a nephew, the father of the girl, a crook, a detective and the housekeeper. It is a wholesome, thoroughly enjoyable comedy, combining heart interest, splendid characterization, pathos, mystery, an attractive love interest, and a fine moral lesson. It is a perfect play, which the whole family will enjoy hugely.

WHEAT DECLINES 50 CENTS IN 2 YEARS OF HARDING

Bernard M. Baruch's suggestion for a co-operative organization to market American wheat to the advantage of the grower and the country as a whole has served to call attention to the seriousness of the condition of the farmers of the United States after two years of operation under Republican tariffs.

Just at the moment, when No. 2 hard winter wheat is selling in Chicago for an average of \$1.10 a bushel and on the farm for considerably less than a dollar, the contrast with the situation in the last year of the second Wilson administration is illuminating as well as interesting. This variety of wheat brought an average price of \$1.85 a bushel in Chicago during February, 1921, the last full month of the Wilson administration. In February, 1922, as the first year of the Harding administration was drawing to a close, No. 2 hard winter wheat sold for an average of \$1.30 a bushel in this same market. In February, 1923, the price was \$1.20 a bushel.

There was a good foreign demand for American wheat in 1920-21, and the price was remunerative to the grower. In the year ended June 30, 1921, (nine months of which was under the Wilson administration) this country exported about 293,000,000 bushels of wheat and received for it somewhat less than \$690,000,000. This was an average of \$2.35 a bushel. In the fiscal year 1921-22—all of which was under the Harding administration—American exports of wheat were about 208,000,000 bushels and the price paid for it was \$280,000,000, or an average of \$1.35 a bushel.

There was no tariff on wheat during the two Wilson administrations; that is, from 1913, until 1921. The "special agricultural tariff" approved by president Harding on May 27, 1923, imposed a duty of 35 cents a bushel on wheat. This tariff, it was announced, was framed and enacted particularly for the farmer. Wheat was selling in Chicago at an average of \$1.68 a bushel the day president Harding signed this tariff. Just a year later the price in Chicago was \$1.33 a bushel.

A trial of twelve months showed that this "special tariff" was utterly futile as a stimulant to agricultural products. The farmers were in worse predicament than they were before. Then the "permanent" tariff was devised. This is the notorious Fordney-McCumber profiteer's tariff, which the Farm Bureau Federation declares has cost the farmers of the country \$300,000,000 a year more for what they buy than it has given them in better prices for what they have to sell.

The Fordney-McCumber law reduced the tariff on wheat from the emergency rate of 35 to 30 cents a bushel. If the tariff is a good thing for the manufacturing interests and trusts—whose products were "protected" by duties of from 10 to 300 per cent—it is difficult to understand why the rate on wheat—an agricultural product—was reduced by 16 2-3 per cent. But the lower duty on wheat was no more and no less effectual in preventing a decline in the price of this product than the higher tariff of 1921 had been. Two years after the passage of the "special" tariff and eight months and five days after the approval of the Fordney-McCumber profiteers' law, that is, on May 27, 1923, wheat sold in Chicago for \$1.17 a bushel. In the twenty-six and a half months of Republican rule wheat had declined an average of 50 cents a bushel.

13,000,000 FARM WORKERS LABOR WITHOUT PROFIT

There are 13,000,000 agricultural workers in the United States it is pointed out in a bulletin issued by the Department of Agriculture a few days ago. Of this number 2,000,000 are women. All together, these workers represent 29 per cent of all the persons gainfully employed in this country.

"The figures were compiled to show that problems concerning agricultural workers effect a larger number than is engaged in manufacturing, mining, lumbering, or commerce," the Department explains. For the last two years there 13,000,000 men and women have worked almost without return for their labor, and they are again facing another period of practically resultless effort, due to the low prices of agricultural products.

Everywhere—Royal Cords United States Tires are Good Tires

THE growing number of Royal Cord Clinchers you see on the roads gives an idea of how many car owners there are who want the best tire money can buy.

There weren't near enough Clincher Royals to go around last year.

This year—even with the production more than doubled—you can best be sure of them by taking them at the moment.

"Economy and every thing that matters to humanity requires the frugality of national life."

EXTRAVAGANCE

BINDER 40 YEARS OLD READY FOR 1923 HARVEST

A splendid example of how care will lengthen the time of service of machinery can be seen on the farm of E. B. Davis, near Columbus, Kas. A binder purchased in 1882 stands sheltered in a good tight shed already to go into the field and cut grain. The canvasses have never been off and with the exception of two mouse holes are in perfect shape.

Mr. Davis has used this machine for more than forty years with a total repair bill of ninety cents. It has been wet only one time. This same farmer has a mowing machine which he has used every season since 1881 and has not yet considered the purchase of a new one.—From Wichita Beacon.

THRIFT

Andrew Jackson
"Save your money and throw away the price in poverty and despair."

DeKalb
"People are extravagant and wasteful. We are not saving up for time of need."

RETAIL LUMBERMAN '23

If you leave your machinery and implements out in the weather, they will last about five years. If given the proper care and put away in an implement shed, they should be of service to you for twenty years. If you have \$5,000 invested in machinery and will keep it in a good shed, you should save \$62.50 per month—\$750 per year—\$15,000 in twenty years. Let us help you save this difference. Don't delay—it's costing you too much. **SAVE AND HAVE!** Call on us. We can help you.

WHITE HOUSE LUMBER CO.

We Can Fix It

No matter what trouble you are having with your Car, we know we can fix it. So if your engine does not run as smoothly as it should, or if you seem to lack power to make hills on high as you should, drive in and let us look "her" over.

Some slight adjustment may be all that is necessary—but whatever the trouble, we will tell you what it is.

We will make a special discount of ten percent on all Tires and Tubes.

WRIGLEYS

A good thing to remember

Sealed in its Purity Package

THE FLAVOR LASTS

FOR SALE or TRADE—Header and plow, tractor and plows. G. S. Nor-

June marked the coming of summer and hot weather along with fruits and vegetables and flies and mosquitoes; the season is one in which more than usual care must be observed to provide and maintain home sanitation. The food must be selected and prepared with care and kept away from flies if the family, and especially the children, are to be protected against digestive upsets. The fruits and vegetables of early summer must be used only when they are fresh, for partly decomposed food, underripe fruit, and raw or only partly cooked vegetables often irritate the stomach and bowels and cause trouble. And, if flies are allowed in the kitchen and dining room, they may bring the germs of typhoid fever and infectious dysentery (summer bowel complaint) to the food from a neighboring open privy, if such exists at the home or in the community.

In addition to screening the house (or at least the dining room and the kitchen) and the maintenance of a sanitary privy, a safe water supply is essential for protection against the illness of summer.

CITATION BY PUBLICATION

The State of Texas,

To the Sheriff or any Constable of Ochiltree County, Greeting:

You are hereby Commanded to summon the First National Bank of Tulsa, Oklahoma, a corporation; the unknown officers, directors and stockholders of the First National Bank of Tulsa, Oklahoma; The Union National Bank of Tulsa, Oklahoma, a corporation, and the unknown officers, directors and stockholders of the Union National Bank of Tulsa, Oklahoma, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 31st Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 31st Judicial District, to appear at the next regular term of the District Court of Hemphill County, to be held at the Court House thereof in Canadian, Texas, on the second Monday in August, A. D. 1923, the same being the 13th day of August A. D. 1923, then and there to answer an amended petition filed in said Court on the 19th day of April, A. D. 1923, original petition filed Dec. 23, 1922, in a suit numbered on the docket of said Court No. 1699, wherein Eli P. Clark is Plaintiff, and The First National Bank of Tulsa, Oklahoma, a corporation; the unknown officers, directors and stockholders of the First National Bank of Tulsa, Oklahoma; The Union National Bank of Tulsa, Oklahoma, a corporation; the unknown officers, directors and stockholders of the Union National Bank of Tulsa, Oklahoma; T. V. Ellzey; Callie Ellzey, a widow, individually and as community administratrix of the estate of Frank T. Ellzey, deceased; W. A. Johnson and A. V. McQuiddy are Defendants, and being a suit to foreclose a deed of trust lien on Sections Numbers 536, 581, 582, 583, 650, 651, 670, 671, and the West 1/2 and the Southeast 1/4 of Section number 561, all in Block 43, H. & T. C. Ry. Co., Ochiltree County, Texas, given by T. V. Ellzey and Callie Ellzey, individually and as community administratrix of the estate of Frank T. Ellzey, deceased, to secure the payment of a promissory note for the sum of \$5,369.32, dated September 1, 1922, due November 1, 1922, bearing interest at ten per cent per annum, and providing for ten per cent attorney fees, payable to Eli P. Clark or order at Canadian, Texas, said Deed of Trust made to Hugh Mackie, Trustee for Eli P. Clark; alleging that said note evidences an indebtedness for a loan made by Eli P. Clark, plaintiff, to said Ellzeys with which to pay the annual interest and appurtenant charges for two years on a loan of \$32,000.00, made by the Southwestern Life Insurance Company, and alleging the transfer and assignment by said Southwestern Life Insurance Company to Plaintiff of the interest coupons attached to said \$32,000.00 note and an assignment of the lien securing same subject to the first lien in favor of Southwestern Life Insurance Company; alleging that plaintiff paid said interest to said Southwestern Life Insurance Company, also court costs and attorneys fees accrued by reason of suit on same, took an assignment of same, and renewed and extended the same by the note sued upon in this suit; alleging that all other defendants named are claiming some sort of lien or interest in or to said real estate, the exact nature of which is to him unknown, but that said lien or interest is subordinate to plaintiff's lien and inferior to it, and he joins them to bar their interest or equity of redemption.

Plaintiff prays for citation, for judgment for his debt, for foreclosure of Deed of Trust Lien against said real estate, and for decree establishing his lien as superior to the liens or interest of all other defendants for general relief.

Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at Office in Canadian, Texas, this the 19th day of April, 1923.

(L. S.) R. C. JACKSON,
Clerk, District Court, Hemphill County.

DR. FRANK CHURCH

When you hear him speak, you feel that here is a man with a real message, full of profound convictions, very patriotism and lofty idealism for which he would give his life. "Fighting Red Church" was the title given him affectionately by his "doughboy" friends overseas. He has the rapidity of a machine gun in action and he puns and pep of "Billy Sunday," with whom in style and appearance he has often been compared. Dr. Church is a great favorite with boys and girls as well as fathers and mothers. Nothing gives him quite as much joy as persuading boys and girls to commence to think seriously of making something really big out of their lives.

FARMERS' COST OF LIVING SHOWS BIG ADVANCE IN YEAR

Reports to the Bureau of Labor Statistics of the Department of Labor show that the prices of agricultural products averaged 1 1/2 per cent less in May than in April, 1923. There were declines also in other commodities but their rate of depreciation was much less than that agricultural products.

Compared with May, 1922, there was a slight increase in the prices of the principal products of American farms, but the cost of living as a whole advanced much faster and farther than did the price of things the farmers had to sell. Some of the commodities which farmers have to buy made gains two and three times as great as those scored by agricultural products. Several articles which showed big increases in the year were: Metals and metal products (including hardware, wire, nails, etc.), 27 1/2 per cent; building materials (including fence posts, shingles, cement, drain tiles, etc.), 26 1/2 per cent; chemicals and drugs, (including paints, oils, varnishes, solutions for "dips", medicines, etc.) 9 1/2 per cent.

Clothing for the farmer and his family increased about 14 1/2 per cent during the year from May, 1922, to May, 1923. Furnishings for his home advanced 6 1/2 per cent, and miscellaneous commodities which he didn't produce and had to buy were 7 1/2 per cent dearer.

Khaki Cool Cloth Screened Front Hats at Rifenberg's Store. 23-2t-c

Mrs. J. H. Guthrie and children and Clarence Warrenburg of Texline, are here this week visiting at the homes of Mrs. Guthrie's sister, Mrs. J. T. Guthrie, and brother, Dr. W. J. Brewer.

LIFE-SAVING CAMPAIGN IN SOUTHWEST DIVISION

American Red Cross Organized and Trained Many Corps in This Section Last Summer.

More than 34 chapters have been visited during the months of May, June and July by Captain Norbert E. Raacke, first aid and life saving representative of the Southwestern Division. While visiting these various chapters, Capt. Raacke gave first aid demonstrations before Rotary, Lions and Kiwanis Clubs, as well as life saving demonstrations and instructions at Y. M. C. A., Y. W. C. A. and many outdoor pools and lakes. At the majority of the pools and lakes visited, the Captain has noted particularly that practically little or no life saving precautions are taken. A large lake at Nevada, Mo., is owned by an old Indian, who believes that if a person were drowning someone near at hand would come to the rescue.

Many letters of commendation have been received from chapters visited by Capt. Raacke. Salina, Kan., was particularly well pleased with his demonstrations at the Country Club outdoor pool. The following is an extract from a letter recently sent in by the life saving examiner of that town:

"Capt. Raacke's clever work at the large outdoor pool of the Country Club was watched in breathless silence, only to be broken by wild cheering at his many extraordinary feats of swimming and life saving. Capt. Raacke, to us, is a marvel of efficiency and his crawl stroke is still the talk of the town. He not only has been a great help in the Life Saving Department, but has given even greater interest to the Red Cross in its other lines of work."

There are several well organized life saving corps in the Southwestern Division. Kansas City, Mo., has an excellent women's corps. At the annual banquet, held in May, life saving badges were awarded to more than forty women, service medals to two and the life saving medal to one.

On July 30th the river patrol of the St. Louis Chapter gave an exhibition and races at Lincoln Beach, on the Meramec River. This exhibition was witnessed by probably the largest crowd ever gathered at Lincoln Beach. More than 500 canoes fringed the sand when the first event, the canoe singles race, was announced. Capt. Raacke had charge of the life saving demonstration, showing the various methods of breaking death holds encountered in rescuing a drowning person.

Eight life guards, after his demonstration on the barge, struggled viciously with each other in a practical illustration of life saving tactics.

The Galveston, (Texas) Life Saving Corps have frequently exhibited their skill in first aid and life saving. Owing to the prompt and efficient first aid administered by three members of the Galveston Life Saving Corps on June 4th, the life of John D. Wheeler, 20 years old, of Houston, Tex., was saved. Mr. Wheeler was overcome while bathing in shallow water and was found floating in an unconscious condition. The three members of the life saving corps succeeded in reviving Mr. Wheeler through the application of the Schaeffer method of resuscitation. He was taken to the hospital in a very weakened condition. As Mr. Wheeler was found in comparatively shallow water, it is believed his mishap was due to a fainting spell.

American minnows are being exported to Palestine to fight mosquitoes, Palestine not being well adapted to the maneuvering of the mosquito fleet.

RED CROSS ROLL CALL AND CHRISTMAS SEAL SALE ARE DISTINCT

At a joint meeting of the National Committee of the American Red Cross and the National Tuberculosis Association, held recently, an agreement with regard to the campaigns conducted annually by each organization, which follows each other only a day apart this year, was reached. The American Red Cross will conduct its Roll Call from November 11th to November 30th. The National Tuberculosis Association will conduct its nation-wide sale of Christmas Seals from December 1st to January 1st.

A statement issued jointly by the two organizations says that undoubtedly the effectiveness of the mutual understanding depends in large measure upon the extent to which the local workers of both organizations adhere to the agreement. Overlapping of effort will be injurious to both causes, the two national organizations believe, and it is of great importance that this idea be thoroughly understood by the local workers in both, according to John Barton Payne, chairman of the American Red Cross, and Dr. Alexander Miller, president of the National Tuberculosis Association.

The official statement of the two organizations follows:

1. There is no official connection between the campaign of the National Tuberculosis Association and that of the American Red Cross.
2. There is to be no use of the Red Cross emblem by the National Tuberculosis Association.
3. The title of the American Red Cross is not to be used in the sale of Tuberculosis Seals.
4. The dates of the American Red Cross Roll Call are to be November 11th to November 30th, inclusive; and the National Tuberculosis Association's sale of seals begins December 1st and continues until January 1st.

NURSE IN SOUTHWEST DIVISION COVERS BIG TERRITORY

Miss Mary Fitzsimon, Washington County (Arkansas) Red Cross nurse, is in charge of one of the largest territories covered by one individual in this capacity in the Southwestern Division. Ten towns are in her district and her work covers all kinds of ailments and illnesses, serious and simple, as well as general sanitation and health information.

The well people of one neighborhood in Washington County are particularly indebted to Miss Fitzsimon for having discovered a contaminated water supply which might have caused the illness of the entire community.

In cases where contaminated water supplies were not discovered in time, Miss Fitzsimon has been able to offer an anti-typhoid inoculation which has been so successful in the army as a means of stamping out this disease.

A group of trachoma cases discovered in July by accident is being successfully treated. The mother of this family already had lost her sight, but the other members probably will be not much the worse after the treatment is finished.

A number of ex-service men who have not received their compensation and other disabled soldiers who wanted assistance or vocational training also were cared for during the summer and spring.

PRODUCTION AND DISTRIBUTION

President Harding calls attention to the part played in the high cost of living by the expense of distribution. This is a feature of our modern merchandising to which the attention of the people has been called repeatedly. It is generally recognized that it costs too much to get what is produced into the hands of the consumer.

Just how to remedy this situation is the problem that today confronts the American people. The president does not think the difficulty insurmountable. He has an idea that something can be done for its solution by co-operative agencies through the assistance of the state and national governments. He tells us he has not a well worked out plan, but he has an idea that something on the basis of the savings banks and building and loan associations can be devised to give aid to co-operative efforts on the part of the people who produce and distribute the staple articles of trade.

Until the President more fully develops his plan, the people will be

able to form no judgment as to its feasibility. In his special message to congress, which meets in December, he will probably set forth the plan he will work out to facilitate and cheapen distribution. Doubtless, Secretary Hoover and the department of Commerce are giving special attention to this particular line of work. The president feels that, having extended very substantial aid to the agricultural interests, some similar aid can be extended to the consuming interests. If the present administration, even in some small measure, is able to solve the problem of distribution, it will place the American people increasingly in its debt.

If you want to borrow money on land. See McLain & Willis 48-tf-c

NOTICE—Swimming and fishing are fine at Jines Spring. Nice place for picnic. Gene Rothrock. 25-tf-c

Mr. and Mrs. Van W. Stewart left last Friday from a fishing trip out in New Mexico.
