Legislature May Adjourn In Few Days

AUSTIN (AP)—Speaker Waggoner Carr said today final adjournment of the Legislature "should be within a few days."

He said that so far as the House is concerned, its calendar is in good shape and only two major chores remain: Adoption of the general spending bill and providing a pay raise for teachers.

Indirectly he placed responsibility for winding up the session—now in its 120th day—on the Senate.

Still dangling in the Senate are House approved measures which would finance teachers pay, and the water-saving flood-controlling program long earmarked as one of the session's major tasks.

Carr praised House members for meeting the bribery charge crisis "without flinching, without hesitating" and with courage.

"The House has pointed the way toward meeting our most pressing obligations without imposing any new taxes," Carr said.

Today marked the end of the period suggested by the Constitution as the duration of a general session. Legislators' pay drops to zero tomorrow.

Carr said that floor debate is scheduled to start soon on the two billion dollar spending bill.

"It's final figures will determine how much money will remain for the teachers," he said. "Affecting this balance will be Senate action on two revenue-raising measures, the school tuition bill and the one per cent diversion from the permanent school fund to the available school fund, totalling about 21 million dollars, already passed by the House."

The House gave the conference committee working on final rewrite of the spending bill two more possible headaches, which could bring a delay in its report.

This came in the midst of increasing demands for quick adjournment.

GIVING THE PEDESTRIAN A LIFT—An attraction in West Berlin is a chair lift which covers about a mile allowing sight-seers to view reconstruction work in the World War II-destroyed northeast section of the city. This is the site of an international building exposition scheduled to be opened in July. At the left is the victory statue erected after the Franco-Prussian war in 1870.

Damage From Storms Rises To 85 Million

AUSTIN (AP)—Maj. Gen. Holmes Dager of the Federal Civil Defense Office said today preliminary estimates of damage in Texas' combined tornado and flood disasters now total 85 million dollars.

Reports and estimates of what the unusual series of storms cost the 54 counties involved are still piling up. Dager emphasized that the 85 million figure was subject to revision—probably upward.

Dager said Texas communities should understand that the federal government cannot pay for the full final amount of damage.

"Our job is to get Texas communities back on their feet and we will expedite it as much as possible," said Dager, who is surveying disaster areas.

The Federal Civil Defense Administration has set up an office here to coordinate all types of surveys of damage and to process applications for aid. It is working closely with the state Office of Civil Defense and Disaster Relief headed by William McGill.

The combined federal-state disaster teams are checking on damage to all types of public works, possible health threats, agricultural damage, damage done to businesses. The Red Cross, Dager emphasized, is handling such matters as family needs.

Dager said the 85 million dollar preliminary damage figure includes a flood estimate by Army Engineers, another from the governor's office and an estimate of 30 million dollars damage to agriculture.

The combined state-federal office here will ultimately funnel the results of its studies to the Federal Civil Defense Administration regional office at Denton.

"Our work is to indicate what repair work needs to be done and to prevent overlapping and injudicious spending of tax money," Dager said.

"Communities applying for help on such facilities as roads and bridges and public works must remember that under the law all we can do is allocate funds to get such facilities back into operation—not pay for permanent installations."

The Small Business Administration will continue helping on damage to property in its category, the Red Cross will furnish personal relief, the Agriculture Department will work on farm damage, and the FCDA on damage to public works.

On damage to federal aid highways, Dager said, the work would be done by the federal government and the state on a 50-50 basis.

The tremendous job of coordinating all these types of relief will take a long time, he said. It will be at least two weeks before the current survey is finished and evaluated.

Dager said that the initial allotment of 5 million dollars by President Eisenhower was subject to revision upward if necessary.

Oilwell Control Ordinance Passed

A strict control of oilwells inside the city of Snyder was provided in emergency reading of an oilwell ordinance passed unanimously by the city council last night.

A fee of $250 for permit to drill wells in the city, slush pit control, fencing of the premises, use of low-type storage tanks, and building of levees around the storage tanks are all provisions of the ordinance.

An ordinance closing an alley east of block 33, Scarbrough addition, was passed on final reading, and an ordinance closing an alley in block 25, Chambers addition, was also passed on second reading.

Two city annexations were made by the council.

One was annexation on second reading of the ordinance on the property owned by Bum Gibbons Well Service Co. on Twenty-fifth Street in west Snyder. The firm has requested annexation so it could receive city utilities.

The other annexation ordinance was passed on first reading. It provides for annexation of blocks 24, 25, 26, 27, and 28 of Colonial Hill addition in southwest Snyder. The annexation was requested by Winston Brothers. The land is along Thirty-fourth Street extending from Austin Place to El Paso Avenue.

145 Cadets Are Selected For Exchange

WASHINGTON (AP)—The Civil Air Patrol selected today 145 of its teenage cadets who will take part in this year's international cadet exchange.

The youths, cream of the crop among more than 36,000 teenagers who are members of the patrol, will trade places, temporarily, with their counterparts in 21 other countries.

They will come to Washington July 11 for a four-day briefing and orientation period. Then they will be flown in Air Force transports to their foreign destinations, where they will spend three weeks touring the country, visiting airports, flying foreign aircraft and in many instances live in private homes.

The young Texans named by Maj. Gen. Walter Agee, national commander of the patrol and the countries to which they are going include:

Lenneth Crowder, 532 Angelo Blvd., San Angelo, to Spain.

Gerald Sherrill, 1214 Beal St., Sweetwater, to Denmark.

Alton Moore Jr., 902 Marion St., Pharr, to The Netherlands.

Plan To Share Baseball Field Submitted By Delegation

A delegation of eight persons met with the commissioners court this morning to discuss the possibility of working out a plan for the sharing of a ball diamond in Towle Memorial Park between the Little Leagues here and a grils softball organization.

The field in question is one which is being improved at the south of the park and west of the exhibit barn.

Prior to this year, the Little Leagues have been playing on the high school baseball field, but they are moving to the park this year.

The girls softball organization, which has been small previously and had been using that field one and sometimes two nights a week, is now growing and has five teams organized and a sixth being organized.

The Little Leagues need the field four nights a week, and the softball teams need it two nights. Wednesdays and Sundays are not used because they would conflict with church activities, so that leaves the field available only five nights a week. Neither league wants to use it on Saturday nights. So Monday, Tuesday, Thursday, and Friday nights are in question.

Representatives of the girls softball organization said it was their understanding until recently that their schedules and those of the Little Leagues would not conflict, but they said they had been told recently by Little League officials that the Little Leagues had scheduled their games Monday, Tuesday, Thursday, and Friday nights. The Little Leagues here are bound by national rules to play a designated time, necessitating their scheduling games four nights weekly.

The softball organization said that it, too, is attempting to become affiliated with a national organization but that a district must be organized in West Texas first. They are hindered now because of scheduling problems caused by the field use mixup, they said.

Commissioners late this morning were discussing the possibility of having the two leagues each play one night weekly on the high school field and the remainder of the nights on the park field.

Rebels Strike

ALGIERS (AP)—Nationalist rebels struck in five areas across Algeria in the past 24 hours, shooting civilians; attacking farms and burning property. At least nine persons were killed.

Case Ends In Mistrial

A mistrial was declared yesterday in civil district court here by Judge Sterling Williams when a jury could not be chosen for the case of Etta Carrol vs. E. C. Carrol and others, a suit to declare heirship of the estate of R. T. Carrol, who died last year.

That was the second attempt at trial of that case. It was tried last November and resulted in a hung jury. Eleven extras were called in for the panel yesterday, but a large number were disqualified, and after disqualifications and attorney's strikes, only 10 were remaining.

Judge Williams reset the case for June 17.

Another case started in court this morning, an insurance claim dispute styled James S. Provins vs. American Investors Life Insurance Co.

Chosen to the jury were Mrs. O. N. Lassiter, W. D. Casebolt, Howard Crenshaw, Kenneth Wilson, Marshall Boyd, Collie Fish, Howard Gray, Oran Sturdivant, John D. Curtis, Garth Austin, and Jake Green.

Gas Bill Favored

WASHINGTON (AP)—The Eisenhower administration today came out in favor of the new Harris-O'Hara natural gas bill—provided a couple of changes are made allowing tighter federal supervision over prices.

Charles H. Kendall, Office of Defense Mobilization general counsel, gave the administration view as the first witness in House Commerce Committee hearings on the controversial legislation. Chairman Harris (D-Ark) said Kendall spoke for both the ODM and the Budget Bureau, legislative voice of the White House.

A bill to free gas producers from direct federal price control got through Congress last year but ran into a veto from President Eisenhower. Eisenhower said he approved the general aims of the measure but criticized what he called "arrogant" lobbying tactics in connection with it.

The new measure takes a different tack, providing for control by the Federal Power Commission but making "market value" the standard for prices and barring utility-type price formulas. The legislation was introduced jointly by Harris and Rep. O'Hara (R-Minn).

Kendall backed the Harris-O'Hara measure generally and said it has provided for "additional consumer protection."

However, he said two changes should be made to bring the bill in line with the Eisenhower program.

Kendall recommended:

1. That the FPC be given more authority to "review price increases resulting from definite pricing clauses in existing contracts when such increases do more than reflect additional or increased taxes."

2. That the provision in the O'Hara - Harris bill barring the FPC from considering producer costs in determining reasonable market price be stricken from the bill.

Jerome K. Kuykendall, FPC chairman, told the committee that FPC "favors the basic principles and objectives of this bill and believes that such legislation is necessary for practicable, workable and efficient regulation of gas producers in the national interest."

City Council Takes Action On Bids, Long List Of Proposals

The low bid of $1,900 for 20,000 pounds of activated carbon for use in treatment of city water was accepted last night by the city council.

The bid was submitted by T & T Welding Supply of Big Spring.

The quantity is approximately one-year's supply of activated carbon.

The council authorized the Junior Chamber of Commerce to sponsor the appearance on the west side of the square here of the "Atoms for Peace" truck. The exhibit is to be here May 17 and 18.

A loading zone was designated by the council in the 2300 block of Avenue R at the request of the owner of White's Used Furniture and Loan Shop. No loading zone existed in the block previously.

The council authorized the city manager to secure bids and accept the lowest bid on curtains for the fire department sub station now under construction at El Paso and Thirty-fourth Street in southwest Snyder.

Roy Dunlap, city manager, was authorized to attend at city expense the annual Texas City Managers Association meeting in Orange, Texas, May 19, 20, and 21.

No action was taken on the request of Carter Johnston, representative of Rauscher, Pierce & Co. investment firm, for the city to recall $87,000 in city bonds held by the firm, and to replace them with shorter term bonds. Jonhston stated that a reduction in the interest rate would be made by the firm, reducing the interest rate from three and one-eighth per cent annum to three per cent. That reduction, coupled with reducing the term of the bonds from maturity in 1985 to maturity in 1972, would save the city $47,129.88 in interest.

The council authorized spending of $1,107 for uniforms for city employes who work in the street, water, sewer and sanitation departments.

The city has previously paid for uniforms of the fire department and police department.

The new service department uniforms are to be gray in color, made of cotton twill work cloth.

Names of the individual employe and insignia of the department he works in will be on the uniforms.

An ordinance was passed on a single emergency reading last night to eliminate from the city's street paving program three sections of paving which had previously been included. Recommendation that the blocks be removed from the program was made at the public hearing held recently on the paving, and was made by the paving board appointed by the council.

The request of the Avenue D Baptist Church that it had a parade of cars with banners on them through residential sections of town was granted by the council, but with the provision that the parade is to be accompanied and supervised by police patrol cars, and that no horns be blown during the parade. The parade is to publicize a vacation Bible school of the church.

The state highway department was requested to make two traffic studies here, one a study of the number of vehicles passing the intersection of Avenue E and the East Highway to determine whether the intersection needs a traffic control light, and the other is a study of recently annexed areas along the Big Spring highway to determine the state highway department's recommendation for speed limits on the highway.

City fire zones were extended and established by emergency passage of a city ordinance last night at the request of the State Fire Insurance Commission. The ordinance established an extension of the primary fire zone around the downtown business district, and provides for a secondary fire zone along highway streets.

Postal Hike Is Favored

WASHINGTON (AP) — The House Post Office and Civil Service Committee today voted in favor of raising the postal rate on first-class, or letter mail, to four cents from three an ounce.

The action approved a section of a bill calling for general increases in postal rates. There was no final action on the bill.

The committee will meet again tomorrow to consider proposed increases on second class mail which includes magazines and newspapers.

Rep. Muray (D-Tenn) said today's vote in a closed session was by about 2-1.

In addition to hiking letter mail to 4 cents, the section approved by the committee would boost the mailing charge a cent each for post cards to 3 cents, of air mail letters to 7 cents an ounce and of air mail cards to 5 cents.

Dallas Lawn Sinks After Heavy Rains

DALLAS (AP)—After the rains, the E. W. Norvell family discovered yesterday that an 18-foot section of their lawn had sunk in some places as much as 5 feet.

An underground stream, fed by the heavy rains, had weakened a section of their yard.

Late Forest Sears Paid Tribute Here

Snyder Chamber of Commerce directors paid tribute last night to the late Forrest G. Sears, who instituted the current industrial foundation campaign, and then turned to a detailed discussion of progress in the drive.

The board passed a resoultion in memory of Mr. Sears, particularly recognizing his role in community affairs.

The resolution follows:

"Recognizing the great personal loss and the loss to our community of an outstanding leader who devoted his life to community affairs, and most recently to the organization of an industrial foundation, be it therefore resolved that this final tribute be paid Mr. Forest G. Sears by the Board of Directors of the Snyder Chamber of Commerce this Monday, May 6, 1957."

In the discussion which followed board members were informed that considerable educational work was underway in connection with the industrial foundation campaign. Jaycees and members of the industrial committee of the Chamber of Commerce are continuing contact work, and this will be speeded within the next few days as the educational work progresses.

"We want all citizens to know what the industrial foundation is, how it will operate and what its objectives are when workers make contacts for memberships," Dr. Wilton N. Jones, chamber president, explained.

Considerable material has been published and broadcast by newspaper and radio during the past few days explaining the foundation program, and special letters are going out to all members of the Chamber of Commerce.

Several chamber board members themselves plan to take part in the contact work as the campaign continues. The campaign has been planned to have the foundation ready to begin operation by June 1.

In other business, board members approved membership of the local chamber in a business research bureau, which is being established for West Texas counties at Texas Tech. Membership will entitle the Snyder Chamber to receive business and research reports regularly after the bureau is established.

Youth Is Killed

VICTORIA (AP)—George Blaylock III, aged 3, was killed last night in a Highway 35 accident near Point Comfort about 40 miles east of here. Officers said a car driven by his father, George P. Blaylock Jr., of Pasadena, Tex., struck the rear of a pickup truck. The father and the other driver both were unhurt.

WEATHER

SNYDER TEMPERATURES: High Monday, 72 degrees; low 47 degrees; reading at 7:30 a.m. today, 53 degrees.

West Texas—Partly cloudy and mild with widely scattered showers through Wednesday.

Bell Files Rate Increase Request

A formal request for a rate increase was filed with the city secretary yesterday afternoon by Southwestern Bell Telephone Co., but company officials did not meet with the council last night to discuss it.

Truman Black, business manager for the company's Snyder office, said that an otherwise long agenda of council matters which would have caused the telephone rate discussion to go far into the night was the reason why the company officials did not appear before the council.

Councilmen took no action on the requested rate increase, but did authorize R. S. Yorgesen, of the accounting firm of Deffebach-Yorgesen, and W. W. Park, city attorney, to make a study of the rate increase request.

The requested rates would be: one-party business $12.50 per month, business extension, $1.50, one-party residence $5.50, two-party residence $4.50, four-party residence $3.75, residence extension $1.00, and pay telephones 10 cents.

Present rates are: one-party business $10, business extension $1.50, one-party residence $4.57, two-party residence $4.00, four-party residence $3.25, and pay telephone five cents.

A similar rate increase was requested by the telehpone company last year, but was turned down by the city council after several months of deliberation.

Phillips Resigns City Post

J. W. (Jake) Phillips, hardware store owner, resigned from the city council last night after having served more than five years on the council.

Phillips said that business, personal, and family reasons were why he resigned. His resignation letter stated that he wished the resignation to become effective today.

"The purpose for which I ran for the city council and was elected has been served, and I have served long enough on the body," he said.

"We now have a smoothly running council and a smoothly running and efficient city government and a new man can take over without difficulty," Phillips added.

He was one of the first councilmen elected to the city council when the city adopted the city manager form of government in 1952 and has served continuously since. He was mayor pro-tem prior to the city election this year in which three other councilmen were re-elected. The election, however, terminated the term of the mayor pro-tem and a new mayor pro-tem has to be elected after each election.

Dr. Robert H. Hargrove, dentist, was elected mayor pro-tem last night after Phillips resigned.

In voting to accept his resignation each councilman expressed regret that Phillips was resigning.

"We all have enjoyed working with you and having had the value of your longer experience on the council to help make the learning of our jobs on the council easier and better," Mayor Harold Bennett said.

Phillips has never been opposed in an election to the council post.

No action was taken last night by the council in filling the vacancy. The city charter specifically stipulates that one vacancy on the council will be filled by appointment of an individual by the city council, but does not require that the appointment be made within any specified length of time.

However, the charter also stipulates that a special election be called if two or more vacancies occur at one time, and that the election be called within 45 days of the date the vacancies occur.

"In filling this vacancy we (the council) want to be sure that the man we choose is a straight thinker and a progressive citizen who has the best interests of Snyder at heart, a person who will do his own thinking and will speak his own mind at council meetings on matters of city business," Bennett said.

NEW PRESIDENT — Socialist Adolf Schaerf, above, has been elected to a six-year term as president of Austria. He succeeds Theodor Koerner who died in office in January.

IN OIL FIELD

Workers Continue Picketing

GAIL (Spl.) — Things had quietened down here but picketing continued today in the strike of oil field drilling workers in south Borden County.

The picketing covered entrances to roads of four wells being drilled in the area of the Good Ranch, near Vealmoor.

Some union members claimed three rigs had been shut down, while a representative of a drilling firm said none had shut down.

O. W. Clark of Odessa, organizer for Local 672, International Union of Operating Engineers, which is staging the strike, said three rigs had been closed down. Frank Garrett of Midland, vice-president and drilling superintendent for Cactus Drilling Co., which has two of the four rigs involved, said all were still in operation.

"None of the rigs shut down and all of my men stayed hitched but five," Garrett said, adding that union members Sunday night "drove in bumper-to-bumper, circled the rigs, crowded onto the rig floors, and mouthed curses and threats."

Clark claimed no threats had been made. "We didn't go to those wells just for fun. We went there mainly in protest of unsafe working conditions. We've got enough people signed up to do anything we want to. If we decide to stop the whole Permian Basin we could."

Here's what the union is demanding:

1. A five-man crew for each rig instead of four.

2. Six days of work and two days off.

3. Transporation to and from work at the rigs.

4. More safety measures.

5. Annual paid vacations.

A total of 16 pickets were posted at entrances to leases in a two-mile radius where wells being drilled by Cactus, Denver Drilling Co. of Odessa, and Henry Black Drilling Co. of Midland were involved.

"It is possible this strike will spread to every corner of the Permain Basin and develop into a 100 per cent successful effort," E. V. Swygart of Lamesa, one of the union leaders, said.

Borden County Sheriff Sid Reeder, aided by three Texas Rangers and other officers of the area, was keeping close watch on the area being struck to make sure no other rows like that of Sunday night occur.

Contractors said yesterday they have never been approached by union representatives concerning their demands.

Toastmasters Club Meets Last Night

The Snyder Toastmaster's Club met last night at the Hilander drive-in for its regular meeting The program was under the direction of Frank LeFeuvre, education vice-president, in the absence of President Jack Cross.

Table Topic Master for the evening was S. P. Hulen, who led a topic session on current world affairs. All members present participated in the one munute table topics.

The toastmaster for the evening was Roy Harrison who introduced the speakers for the evening and their topics. W. D. McCorkle gave his ice breaker, or first speech, dealing with information concerning himself. W. J. Schiebel gave his fourth speech on the subject of "Signs of the Time." Jim Tatum gave a talk on "The Power of Suggestion" as his third speech.

The master evaluator was W. D. Durfey, and his critics for the three speeches were Ralph Howser, Farnk LeFeuver and De Le Marquand. Grammarian Bill Bunch reported on grammatical mistakes and John Black gave a report on the operation of the "Ah Suppressor".

For the meeting on Monday night May 13, the following program has been assigned by the Program committee:

Topic Master, W. D. Durfey; Toastmaster, Jim Tatum; Master Evaluator, Carl Jones; Grammarian, Ralph Howser; Ah Suppressor Operator, W. J. Sshiebel; Speakers, Roy McCloskey Speech No. 4, New White, Speech No 3, J. G. Glenney, Speech No 2.

All persons interested in this club are invited to the meetings at 6:15 p.m. Monday nights.

Deer Will Be Rescued

NEW ORLEANS (AP) — Coast Guard, National Guard and private helicopters joined forces today for an attempt to rescue 500 starving deer driven from feeding areas by high water.

Officials of the Fish and Wildlife Service said the deer were trapped in marshes near the mouth of the Mississippi River. Some already have died of starvation, a spokesman said.

Officials planned to run the deer until they tired, then catch them and hoist them into boats for removal to other sections of the state where they can feed.

The idea of throwing hay to them was rejected. Officials said the deer will refuse to eat anything else if given hay.

Business Executives Crack Up Too Easily

LOS ANGELES (AP)—Young business executives with private planes have entirely too many crackups, says an aerial traffic cop who adds: "They're fat, dumb and happy."

Charles Walker of the Civil Aeronautics Administration said young businessmen buy expensive planes with fine instrumentation, then never learn how to use the instruments properly.

"They made a success in business and they think flying is easy—so they stick their necks out," said Walker, who believes that 90 per cent of aircraft accidents are due to "stupidity."

Plane Lands Safely After Trouble Report

DES MOINES (AP)—A Braniff Airlines plane landed safely with its 21 passengers last night while spectators waited expectantly for possible trouble that didn't develop.

The crowd gathered when reports circulated that a plane was approaching Des Moines "on fire" and was going to land.

Capt. J. W. Neuman, 43, the pilot, had radioed that he had passed up a scheduled stop at Waterloo, Iowa, because he suspected possible trouble with the landing gear.

The Republic of Panama is 33,667 square miles — about the size of Indiana or South Carolina.

HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals.

COGDELL MEMORIAL

ADMISSIONS — Nelda Reneau, 3709 Sunset; Jolene Roberson, route 2; Tom C. Black, 1401½ Twenty-third Street; Johnny Gilmore, Roscoe; A. T. Nicholas, 3102 Forty-first Street; Cerena Henderson, Lubbock Highway; Linda Horn, Box 1168; Jeff Burleson, 811 Twenty-ninth Street; Rhodalee Hatten, 507 Thirty-fourth Street; Gene Griffin, 3606 Avenue U.

DISMISSALS — Catheryn Mapes, 4102 Avenue U; Charles H. Clem, 3009 Avenue W; Maxine Painter and baby, Box 709; Mildred Tadlock, 1603 Twenty-seventh Street; Troy Little, route 1; Emma Cates, 3213 Forty-ninth Street; Carol Gregg, 2409 Fortieth Street.

BATTENFIELD-JONES

ADMISSIONS — Mrs. I. O. Beasley, 2404 Avenue L; Mrs. Oma Dell Warner, Gen. Del.; Mrs. Allen Owens, 317 Thirty-sixth Street; Mrs. Wayland Mathis, Fluvanna; Mrs. O. E. Patterson, Arah Route.

DISMISSALS — J. W. Greene, route 3; Marcia McCraw, Box 744; Walter J. Howard, 2306, Fortieth Street; E. G. Garrett, 201 Thirty-third Street; Mrs. L. Z. Ashley, route 3; Lula Delacruz, Box 95; Joe Vincent, Gen. Del.

Compromise Is Talked

TYLER (AP)—Testimony continued today in the state's attempt to permanently ban the NAACP from Texas, but reports of a compromise settlement were kept alive by out-of-court conferences.

The state seeks a permanent injunction barring the NAACP from Texas on charges ranging from soliciting integration lawsuits to making a profit while chartered as a non-profit organization.

The NAACP is under a temporary injunction restraining it from operating in Texas.

Murphy Wilson of Tyler, who managed Atty. Gen. Will Wilson's campaign last year, said he had discussed the case with several lawyers. He said they expressed concern that it may go to a federal court and were anxious for a settlement.

Joe McMin of Lubbock, a former assistant attorney general, testified that he visited six NAACP offices in the Wharton area last September.

Objection Is Costly For Man In Pittsburg

PITTSBURGH (AP)—C. T. Marshall wanted to make a left turn at a downtown intersection. A traffic officer waved him on.

Marshall objected, violently, said the traffic officer.

The officer took Marshall before a police magistrate and he paid a $10 fine for abusive language toward a policeman.

Marshall then went back to pick up his car. It wasn't there. It had been hauled to the city pound by a two truck to avert a traffic tie-up.

Marshall paid another $8.50 for the tow truck fee.

Students Dressed As Pirates Board Ship

SYDNEY, Australia (AP) — Ten Sydney University students in pirate dress boarded the U. S. aircraft carrier Bennington before reveille today.

They climbed unchallenged to the bridge and sent 2,500 American officers and sailors to battle stations by sounding the general alarm.

It was more than five minutes before the ship's company realized they were victims of a Commemoration Day prank.

Trial Postponed

ATLANTA (AP) — The general court-martial of Col. John Nickerson Jr. has been postponed from May 15 to June 25. He is charged with making available to unauthorized persons secret information on the army's rocket program at Redstone Arsenal at Huntsville, Ala.

Beavers To Stay Awhile

ROCHESTER, N. Y. (AP)—Mama, papa and baby beaver moved into the heart of downtown Rochester and are having trouble getting adjusted.

Working nights, they gnawed away at a 40-foot poplar tree on a Genesee River bank along a street lined with buildings. Evidently, they expected the tree to fall so that it would create a high water level over the entrance to their drain-pipe home.

Yesterday, its 18 - inch trunk gnawed through, the poplar fell. But only the topmost branches went over the water.

Despite this blow, the beavers remained. One office onlooker thinks they'll stay awhile. Mrs. Beaver, he maintains, is expecting.

Judge Stone Is Studying Student Case

GALVESTON (AP)—Dist. Judge W. E. Stone took under advisement yesterday a case in which Bernard Rogers, 20, of Beaumont is seeking readmittance to the University of Texas Medical Branch.

Stone did not indicate when he would rule on the request. Rogers sued for a temporary injunction restraining the executive director of the Medical Branch, Dr. John Truslow, from ousting him.

The school said he cheated on examinations and dismissed him March 15. He is still attending classes under a temporary restraining order issued by Stone.

Rogers' attorney, Quentin Keith of Beaumont, contended the youth had been deprived of due process of law. He said the honor council which recommended the dismissal was not a legally constituted tribunal, that Rogers was not given any written charges of the accusations, that he was not confroted by accusers and that he was not given the opportunity of representation by counsel.

The defense, represented by asst. Atty. Gen. Leonard Passmore, contended the suit was against the state, which can not be sued without consent of the Legislature. Passmore said the outcome of the case will have an impact on all colleges in Texas.

Girls Fall From Home

BOSTON (AP)— Two 15-year-old girls fell to their deaths today from the fourth story of a detention home, the House of the Good Shepherd, a Roman Catholic institution.

Police said the girls may have been trying to flee and may have fallen from a ledge outside the window.

The victims were Pauline Eller and Marie Nicholson, both of Boston.

Their bodies were found on a pavement in a courtyard of the institution which is operated both as an institution for delinquent girls and a center for underprivileged.

The institution, operated by the Sisters Our Lady of Charity of the Good Shepherd, is in a densely built area on the border of suburban Brookline.

Widow Of Oklahoma Gunman Is Arrested

HOUSTON (AP)—Mrs. Rita Norris, 23, widow of slain Oklahoma gunman Gene Paul Norris, was arrested yesterday for questioning in the slaying of gambler Johnnie Breannan and his wife.

Norris was shot to death recently near Fort Worth by officers tipped off to an alleged plot by Norris to rob the Carswell Air Force Base bank. Police said later Norris was a suspect in the bludgeon slaying of the Brannans here April 16.

Mrs. Norris was jailed on a fugitive from justice charge. Police said their records show she is wanted in Oroville, Calif., for a 1954 burglary.

Killed Yesterday

HOUSTON (AP) — Ralph Bouldin Jr., 27, was killed yesterday when his car overturned on a curve.

HUSBAND HUNTED

Mother, Son Killed In Blast

PARAGOULD, Ark. (AP)—A woman and her 5-year-old son died in their bed in a dynamite blast which shattered an apartment house here early this morning.

Police are seeking her estranged husband for questioning.

Police Sgt. W. L. Brothers said Mrs. Edna Sexton, about 36, and Charles Bittinger, a son by a former marriage, were killed in the explosion which tore out a corner of the two-story house and blasted a hole two feet deep.

Brothers said Charles Sexton, 59, is being sought in connection with the incident. The Sextons were separated about six weeks ago and a divorce suit has been scheduled for hearing in July.

Nancy Bittinger, 13, who was sleeping in another bed was slightly injured in the explosion. Five other persons living in other apartments in the building escaped injury. Police said the blast was triggered beneath the house directly under the bed occupied by Mrs. Sexton and her son.

Norma Jean Sexton, 3, the object of a custody suit between the Sextons, was being held by the State Child Welfare Department and was not in the house.

Marcus Fietz of Jonesboro, attorney for Mrs. Sexton, said the couple had been in Paragould about six months. Fietz said Mrs. Sexton had been frightened for her safety and that she was escorted home by police from her night job in a drive-in restaurant. Police confirmed this.

Transfer Of School Fund Is Opposed

AUSTIN (AP)—A pending bill that would transfer one per cent of permanent school fund income to the available fund was objected to by individual members of the State Board of Education yesterday.

The House already has approved the bill (HB 103) as a means of furnishing 11 million dollars for proposed teachers' pay raises.

A special resolution by Jack Hawkins of Gresboeck, which opposed the transfer, was offered at yesterday's board meeting. It was not acted upon on grounds that it might be encroaching on legislative prerogative. The board administers the permanent fund.

The Legislature could use the increase in the available fund to help finance the proposed $399 minimum base pay hike for teachers.

At yesterday's session, members Penrose Metcalfe of San Angelo, Neal Marriott of Corpus Christi, and A. D. Moore of Beaumont spoke against the bill. In essence, they said they felt that if the one per cent were transferred this year that it might be the first step toward depleting the permanent fund.

A 15-member 1957 textbook committee was appointed by the board and this year's teacher-education programs were approved.

TODAY'S MARKETS

FORT WORTH (AP) — Sheep 11,000; steady; good and choice spring lambs 22.00-23.50; shorn 18.00-21.00; ewes 5.00-7.00.

BIRTHS

Mr. and Mrs. Allen Owens, 317 Thirty-sixth Street, are parents of a daughter born at 6:22 a.m. yesterday in Battenfield-Jones Hospital. The child weighed six pounds, seven ounces.

A daughter, born to Mr. and Mrs. Kenneth Gibson, at Root Memorial hospital, Colorado City, at 1:25 a.m. Monday, weighing 6½ pounds. Gibson is the son of Mr. and Mrs. Dan Gibson, Clairemont Route.

Party Ends With Death

ENCAMPMENT, Wyo. (AP) — A Girl's fourth birthday party ended in death for her and two sisters when flames swept through their three-room tarpaper home late yesterday.

The mother, another sister and a playmate all were critically burned.

The flash fire took the lives of Barbara Alice Smith, whose birthday it was; her 2-year-old sister, Gale; and Berry Jean, 10 months. Mrs. James Smith, 34, the mother; her daughter Jo Linda, 8; and the playmate, Gloria Rybin, 7, are in critical condition at Memorial Hospital at Rawlins, Wyo.

Smith, a timber worker, arrived 45 minutes after the fire.

Oayor Dwain Cruse, who also is fire and police chief in this southern Wyoming community of 350, said Mrs. Smith apparently poured gasoline on the fire in her wood stove. An explosion sent flames through the house in seconds.

Stokely Is Sworn In As Brownsville Mayor

BROWNSVILLE (AP) — Former Mayor H. L. Stokely, who contested the election of M. M. Vicars in the 1955 mayoralty race because of unsigned ballot stubs, yesterday was sworn in as mayor of Brownsville.

The courts ruled that the unsigned ballots should be thrown out, tipping the results in Stokely's favor. Appeals by Vicars were denied.

The City Commission at a special meeting also passed resolutions placing the court decision into the minutes and amending the official vote canvass to agree with the decision.

Disbarment Suit

BEAUMONT (AP)—The State Bar filed suit yesterday to disbar two Beaumont lawyers, Carl Waldman and Alvin E. Wiggins, for what it said were 10 counts of professional misconduct.

Grand Jury To Continue Smith Quiz

AUSTIN (AP)—The Travis County grand jury today was to get further information from Garland A. (Chink) Smith, former chairman of the Insurance Commission.

Also scheduled to appear here were Max Waype Rychlik of Austin and Al Brown, Austin political figure, as the grand jury continued its investigation into legislative bribery charges.

Brown was executive secretary of the Texs Naturopathic Physician's Assn. during the last session of the Legislature.

Rychlik, Smith's son-in-law, has testified he was paid $700 a month by an affiliate of the ICT Insurance Co. for a no-work job. He was a witness before the House ICT Investigation Committee whose findings are being studied by the grand jury.

The bribery investigation was touched off after former Rep. James E. Cox of Conroe was charged with agreeing to accept a $5,000 bribe from Dr. Howard Harmon, president of the naturopaths. Cox then filed a charge of offering a bribe against Harmon. This charge is also under study by the grand jury.

Gambling Tax Fine

DALLAS (AP)—Frank Roach, 48, of Pampa, was fined $500 yesterday for failure to pay gambling taxes. Asst. U.S. Atty. Minor Morgan said Roach also would have to pay $2,800 which Internal Revenue agents figured he owed on his operations.

Humphrey To Give Views On Program

WASHINGTON (AP)—Secretary of the Treasury Humphrey gives his views today on a bill to curtail the present broad program of fast tax writeoffs for defense-connected industries.

Humphrey was called before the Senate Finance Committee as the initial witness on the bill. Humphrey has indicated previously his sympathy with the general purposes of the proposal, sponsored by Sen. Byrd (D-Va).

Byrd does not seek to cut off the program entirely, but to limit its benefits to companies making military items used directly by the Defense Department or Atomic Energy Commission.

The fast writeoff privilege permits a company to deduct from its income for tax purposes part or all of the cost of a new plant in five years. Normally this would be written off in much smaller amounts over a 20-year period or longer.

In theory, the company pays the full tax eventually, unless the corporation rates are cut in the meantime, but some congressional experts contend that actually some companies never would catch up.

Girl Starts On 18th Day Of 21-Day Fast

CHATTANOOGA, Tenn. (AP)—Sixteen-year-old Evelyn Jenkins began today the 18th day of what she plans to be at least a 21-day religious fast.

The pretty brunette, who says she had never been a member of a church until she joined the Voice of Faith Temple last fall, began the fast for the "glory of God."

Her minister, the Rev. R. C. Cook, described the girl's appearance as "a little delicate."

Evelyn says at the end of three weeks "it will then be God's will whether I continue or not."

MARRIED LAST NIGHT—The double ring ceremony which united Miss Mary Nell Strickland and Roy Lee Beaver in marriage at 8 o'clock in the First Baptist Church last night is pictured above. The bride is the daughter of Mr. and Mrs. P. M. Ussery, 321 Thirty-fifth Street and he is the son of Mr. and Mrs. N. L. Beaver, Fluvanna. (Lee Watson photograph)

Martha Ann Membership Meeting Set

Annual membership meeting of the Martha Ann Woman's Club will be held Friday at 7 p.m. at the club.

All individual members of the Martha Ann Woman's Club and all members of participating clubs are being urged to attend by Mrs. C. V. Thompson Jr., retiring chairman of the board.

Members were reminded that important policies of the Martha Ann Woman's Club will be voted on by the membership, and the annual meeting is the time for any suggestions or changes in operation, or policies of the club.

A report on the operation of the Martha Ann Woman's Club for its first year of operation will be presented, along with plans for the coming year. New officers and new board members will be introduced.

Meeting Attended By Teachers Here

Two Snyder High School Spanish teachers, Mrs. H. G. Burchett and Mrs. Wendell Shiflett, attended a meeting of the Lanlo Estacado chapter of Spanish and Portuguese teachers Saturday.

The chapter has teachers from West Texas and New Mexico. They met to discuss plans for the 1958 Spanish Fiesta, which will be held in Midland.

Mrs. Shiflett was elected president of the group, succeeding Dr. John C. Dowling, head of the foreign language department at Texas Tech. Other officers are Mrs. Donn Russell of Clovis, N. M., vice-president, and Mrs. Minnie R. Swafford of Lubbock, secretary-treasurer.

Modern Grandma Is Chic, Glamorous, Hard-Working

By VIVIAN BROWN
AP Newsfeatures Writer

WHATEVER HAPPENED to the artist's conception of grandma, the plump face, white haired, genial, smiling old lady who when not depicted in a rocking chair knitting was pictured pulling a steaming apple pie out of the oven?

Grandmas have changed and though they are still pulling pies out of the oven, the silhouette is different. The modern grandma is a chic, if not glamorous, determined, hard-working type, a pillar of strength to the rest of the family.

She is looked upon these days not merely for sage advice, the pearls of wisdom handed down from grandma to ma since time began. She keeps up with the times and may discuss Dr. Spock or architect Frank Lloyd Wright with enthusiasm. She definitely doesn't have time to brood over why son Jim hasn't written this week or why her daughter-in-law wears low-cut dresses. She has her own life to live.

One of the greatest services that the modern grandma performs is the example she sets for daughter in femininity. She is figure and health conscious, watches her diet and knows the value of the daily use of the scale—one reason for her amazing vitality and longevity.

She is fashion conscious, dresses conservatively, but reserves her right to gay accessories for the right occasions. She wears glasses if she needs them, visits doctor and dentist regularly, takes good care of her feet, having learned respect for comfort. She budgets to keep up her morale for beauty salon, theater, eentertaining in the home.

Today's grandma doesn't keep to the house after the middle years, she travels short and long distances and loves it.

What has brought about the revolution in family life so that grandma has become the mature, glamorous individual she is? For one thing, four million women between the ages of 45 and 64 are growingyounger but wiser every day. Older women who have not yet found the prescription for this happy life should start striving for it now. The important thing seems to be to keep aware, alert and busy.

GLAMOROUS GRANDMA—Indestructible Marlene Dietrich proves modern grandmas need no rocking chairs.

Civic Music Association Program Set

"The directors and officers of Civic Music Association believe they have something to be proud of in next year's concert series," was the way Art Nicholas, president of Civic Music Association, put it when describing the 1957-58 series.

The members of the Association will hear, Bruce MacKay, bass-baritone "with a gloriously beautiful voice" and a versatile repertoire which runs the gamut from operatic to semi-classical selections; Nelson and Neal, a husband and wife piano team with "an almost unbelievable combination of rare musical genius, youth and charm;" Rosina Da Rimini, a "whistle-bait" coloratura from Bracil and more recently from Arthur Godfrey's TV shows; and the Houston Symphony orchestra condidered one of the finest in the country.

The dates for these concerts, as well as those CMA concerts in near by towns will be announced in the fall.

Ira HD Club Has Meeting Friday

The Ira Home Demonstration club met Friday in the home of Mrs. L. A. Vaughn.

Mrs. Billy Calley was in charge of the program, which was on social duty. Ten members attended the meeting.

Program for the next meeting will be in charge of the Eome Demonstration agent, and it will be on "Organizing The Sewing Job." The meeting will be held in the home of Mrs. Jimmy Minor on May 17, and everyone interested is invited to attend.

A five-pound corned beef brisket will serve a family of 4 generously for two meals.

FALSE TEETH
With More Comfort

FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gummy, gooey, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

Asthma Formula Prescribed Most By Doctors—Available Now Without Prescription

Stops Attacks in Minutes... Relief Lasts for Hours!

New York, N. Y. (Special)—The asthma formula prescribed more than any other by doctors for their private patients is now available to asthma sufferers without prescription.

Medical tests proved this formula stops asthma attacks in minutes and gives hours of freedom from recurrence of painful asthma spasms.

This formula is so effective that it is the physicians' leading asthma prescription—so safe that now it can be sold—*without prescription*—in tiny tablets called *Primatene*®.

Primatene opens bronchial tubes, loosens mucous congestion, relieves taut nervous tension. All this without taking painful injections.

The secret is—Primatene combines 3 medicines (in full prescription strength) found most effective in combination for asthma distress. Each performs a special purpose.

So look forward to sleep at night and freedom from asthma spasms ... get Primatene, at any drugstore. Only 98¢—money-back guarantee.

Duplicate Bridge at Country Club, 9:30 a.m.

Annual membership meeting of Martha Ann Woman's Club, 7 p.m.

Mrs. J. O. Huff Honored At Party

Mrs. J. O. Huff was honored Sunday afternoon in a farewell party given by the Rebecca Sunday school class of the First Baptist Church.

The party was held at the home of Mrs. Bob Parks. Fifteen members attended. Coffee and cake were served. Mrs. Huff has been president of the class.

Mr. and Mrs. Huff are moving from here to Quitman.

Save Baby

It's a good idea to remove drawstrings from baby's sleeping garments, particularly any that are around the neckline of sleepers, sweaters, etc.

President George Washington received an honorary degree in 1790 from Brown University in Rhode Island.

Housewives' Utopia Falling

LISBON (AP)—Union wages and rules for maidservants. This is the latest plan of Corporations Minister Dr. Viega de Madceo. It is a revolution which is likely to spell the end of Portugal's old patriarchal system of service, and has already caused alarm and despair in the hearts of housewives.

For, apart from low wages, Portugal has been for years and still remains the paradise for servants (and for housewives).

For ths sum of 25 to 30 escudos a day (between 75 cents and a dollar) you can get a daily scrubwoman who will do all your cleaning, and often your marketing and laundry in the bargain.

For 300 to 400 escudos a month (9 to 12 dollars) you can get a living-in maid and for very little more an expert cook. And there is at the moment no lack of applicants when anyone puts an advertisement into the papers.

Relationship between mistress and maid hitherto has remained on a rather feudal footing. The maid has no government scheme at the moment to protect er against illness, unemployment and old age; but it is taken for granted that the family she works with will look after that. The old Portugese families nearly all support one or more "old pensioners" on their monthly budget.

Progress, however, is nibbling at the system. Under the new implementation of the Corporative System here, a Housemaids' Syndicate is planned. This will mean minimum wages, proper contracts and other advantages.

At the same time there is a "gold rush" of Portugese girls for service in houses abroad—particularly England, where they must be paid a weekly minimum wage of two pounds—about 7 dollors.

Since supply is short of demand, they may get four or five pounds a week.

Even at home the increasing influx of resident Americans has begun to push wage prices up for domestic service. A "special race" of servants already is growing up who wish to work only in wealthy foreign households, where lack of the old paternal attitude to staff is to them more than compensated by extra-high wages and complete liberty.

Easy Does Is

A handy plastic item for removing olives or pickles from tightly packed jars has two prongs one on either side of a solid piece of plastic.

Serve cooked breakfast cereal piping hot! It tastes best this way.

Know how to prepare kidneys before cooking? Split through the center lengthwise after removing outer membrane. Cut away white membrane and tubes with kitchen scissors and wash in cold water.

Small budgets love big Fords

You don't have to be rich to enjoy fine-car luxury. The new kind of Ford is America's lowest-priced* big car ... yet it offers the beauty, V-8 GO and luxury ride of cars costing far more!

If you love *big-car* performance you'll love our '57 Ford.

If you love *thrift* you'll love our '57 Ford.

No car ever before has offered such perfect blending of big-car luxury and small-car price.

Once you take the wheel, you'll discover how the Inner Ford" gives you the kind of ride you have experienced before only in cars costing far more.

You'll find its advanced-design chassis and lower center of gravity let it corner as if it were on rails ... that its engine is as responsive and nimble as a polo pony. Six or V-8 the going is great!

But even though this Ford *handles* like an expensive car, it's still priced Ford-low. In fact, model for model right across the board, Ford is the *lowest* priced of the low-price three!

Ford is worth more at trade-in time

And when you go to trade your Ford for a new car, you'll find that Ford's traditionally high resale value makes it worth more at that time, too.

Why not come in and Action Test this fun-lovin', budget-lovin' Ford? Why not come in today?

The new kind of
FORD
Lowest priced of the low-price three!

55 Measures Are Passed In Long Session In House

AUSTIN (AP)— Working through their longest session, the House passed 55 local and uncontested bills in 12 hours from yesterday until 12:30 a.m. today.

Tempers grew hot in the late hours as some members of the segregation bloc—led by Rep. Jerry Sadler of Percilla—voted against local measures by senators who opposed the segregation bills.

A bill by Sen. Abraham Kazen of Laredo, who filibustered 15 hours against one of the segregation bills last week, got at least eight objections. Five objections on a local calendar automatically knocks it off until a later date.

Kazen's bill was a typical local measure to allow the County Commissioners Courts in counties from 7,500 to 15,000 population to increase the county judge stenographer's salary to $400 a month, if they desired.

Other bills by Sens. Preston Smith of Lubbock and Charles Herring of Austin also were knocked off temporarily, but were passed in a second-go-around.

Rep. Bob Sutton of Dallas made a personal privilege speech when Rep. Thomas Joseph of Waco stopped consideration of Sutton's bill because it was an appropriations measure. The bill would have allowed the use of state funds to furnish transportation for school children in cities.

Passed 109-25 was a bill allowing the issuance of an occupation drivers license to a person who had been convicted of drunk driving and had his license taken away.

Bills passed included those which would:

Allow counties to use jury panels in the order named and not by number. By Rep. Ben Ferrell of Tyler.

Allow the naming of new jury panels, if the previous named were not enough. By Ferrell.

Increase the compensation of district supervisors of levee improvement districts. By Rep. Louis Dugas of Orange.

By Rep. Truett Latimer of Abilene, authorize the annexation of certain rural high school districts by other districts, provided an election to the effect is held and approved in both districts.

Allow insurance companies to invest in blue chip stocks and securities.

Allow insurance companies to pat their officers up to $10,000 annually without consent of the stockholders.

Allow cities to collect taxes on personal property of life insurance companies.

Enlarge the purposes for which school bonds may be issued.

By Rep. Wade Spilman of McAllen, authorize counties between 70,000 and 220,000 population to purchase cars for use by special investigators in the district attorney's office.

Provide medical and burial expenses for members of the Texas National Guard who may be injured or killed while in performance of duty.

By Rep. Bob Mullen of Alice, set the deer hunting season in Duval County.

By Rep. Hal Coley of Conroe, set the squirrel hunting season on Montgomery County.

By Rep. B. H. Dewey of Bryan, allow the Texas A&M System to lease lands belonging to its extension services for mineral development. Dewey said riders on the past major appropriations bill had taken care of the matter, but a bill was necessary since the attorney general had ruled the riders were of no effect.

By Rep. A. R. Schwartz of Galveston, authorize the City of Galveston to dissolve or keep water control districts obtained during land annexation.

Regulate the taking of shrimp from Mosquito Bay and certain parts of the Gulf of Mexico.

By Sen. William Moore of Bryan, clarying the workmen's compensation program at Texas A&M.

By Sen. Crawford Martin of Hillsboro, allow school districts to annex military reservation school districts.

By Sen. Preston Smith of Lubbock, authorize cities of 70,000 to 250,000 population to issue revenue bonds for the construction and maintenance of airports.

Authorize cities to issue revenue bonds covering one or more sources of revenue.

Clarify the lien law on oil land mineral property, making equalizations.

By Sen. Smith of Lubbock, create a workmen's compensation program for Texas Tech and setting regulations.

Authorize fresh water supply districts to set up sewage systems if approved by the local area in an election.

ABOUT 30 studios of West Texas were represented Sunday in a meeting of the Lubbock Professional Photographers Association, held at Wolfe Studio here. A group of the photographers here have been looking over pictures taken by various members. Left to right are W. D. Everett, Jr., Snyder; Garnet Ledford, San Angelo; Tessie Dickeson, Lubbock, secretary of the association; Chuck Wolfe, Snyder; John Miller, Lubbock, president; and George Etz, Sweetwater. The group held a business meeting and sessions on latest methods of photography before having a dinner. (Wolfe Studio photograph)

POOCH INHERITS FORTUNE

Dog's Life Is Not So Bad

READING, Pa. (AP)—Bobby, a 4-year-old mutt who has no conception of the meaning of pedigree and doesn't care, today is the richest dog in Reading, Pa., and possibly one of the richest in the world.

Bobby yesterday was named principal, and practically sole, beneficiary of the estate of his late mistress, Mrs. Ruth A. Maurer. The estate, filed for probate in the Berks County Court House, was estimated at $50,800.

All the money was left to care for the mongrel dog Mrs. Maurer picked up as a pup from the Humane Society.

Under terms of the will, Bobby will (1) have a practical nurse to look after him, (2) sleep in his own bed in the air-conditioned bedroom once occupied by his mistress, (3) have full run of Mrs. Maurer's three-room apartment and (4) be taken for a walk every morning and evening.

The will calls for Bobby's chair to be kept in the same place in the living room for his use. He won't do badly at chow time either. The equest specifies Bobby is to receive "the best food a dog can have."

The practical nurse is Mrs. Freda Kerby, an old friend of Mrs. Maurer. She is to receive $125 a month for her own expenses and live rent free in Mrs. Maurer's apartment until one year after Bobby's death. Then the remainder of the estate is to be divided among Mrs. Maurer's niece, two brothers and a sister.

Mrs. Maurer died April 29. She was a widow. She lived quietly and nothing was available on her personal background.

Langley Will Be Sentenced Today

PORTLAND, Ore. (AP)—Dist. Atty. William Langley, convicted last month of deliberate failure to prosecute gambling, is to be sentenced today.

Langley's case is the first important one to reach trial in the yearlong investigation of vice and corruption here.

Meanwhile, the trial of Portland gambler Big Jim Elkins and his employe Raymond Clark, accused of illegal wiretapping, resumes in U. S. District Court.

Yesterday five reels of tape recordings were admitted as evidence.

After 44 Years, He Finally Marries Girl

BUENA PARK, Calif. (AP)—Ben McAllister, a man who "never did approve of long engagements," has married Nina Duden — 44 years after first proposing to her.

Nina, now 68, accepted Ben's first proposal back in 19?? at Downs, Kan. But they both had invalid relatives to support and kept postponing the date.

Nina worked as a schoolteacher during the long wait and Ben, now 72, came west and went into business. He now operates a lumber business at Woodland Hills.

The 44-year engagement ring didn't fare so well. She had to have the diamond reset three times because of worn-out bands.

U.S. Marine Creates Ruckus

JAKARTA, Indonesia (AP)—A U.S. Marine created a ruckus yesterday by going around tearing down flags the Indonesians had put up in honor of the state visit of Soviet President Klementi Voroshilov.

The U. S. Embassy announced today it had apologized to the Foreign Ministry and had ordered the Marine, whose name is being withheld by officials of all sides, to leave the country. The Marine was a member of the embassy's armed guard.

Western diplomatic sources said they feared the Communist press would blow the incident into a major insult against Voroshilov.

They said the Marine actually was guilty only of a "drunken prank" which had no political implications.

Five local Communist papers printed stories about it today. They said the Marine gave his name as "Weise, age 30."

Voroshilov was given a mixed reception among Indonesians themselves at the start of his 12-day visit here.

There was a 21-gun salute, a crowd of 100,000 and a correct official welcome at the airport. But later a near riot developed outside the presidential palace where demonstrators threatened to mob the Russian leader.

Deserter From Marine Corps Admits Story Of Amnesia Is Hoax

SEATTLE (AP)—A railroad timekeeper who told Seattle police May 3 he could remember nothing about himself prior to September 1955 and asked help in finding out who he was, was arrested yesterday by the FBI as a deserter from the Marine Corps.

Richard D. Auerbach, special agent in charge of the FBI office here, said a fingerprint check showed the man who called himself James John Kelly is really Joseph James Krankotz Jr., Butler, Pa.

Auerbach said Krankotz walked away from a Marine Corps training camp at Twentynine Palms, Calif., Sept. 20, 1955.

Krankotz admitted to the FBI his story of an amnesia attack was a hoax.

SPARROWS ON OIL RIG GET NEUROTIC

OKLAHOMA CITY (AP) — More than a dozen sparrows marooned on an oil drilling rig off the Louisiana shore for seven months are showing signs of turning neurotic.

"The sparrows can't see land and they're afraid to fly," reported Ross Cummings, public relations director for Kerr-McGee Oil Industries, Inc. "In fact they hardly ever fly."

The birds built nests on the rig when it was under construction at Pascagoula, Mex. They stayed when it was floated into the Gulf of Mexico in the east Cameron area last November. They live on scraps tossed to them by workmen.

Ku Klux Klan Leader Needs Grand Dragon

NEW YORK (AP)—The leader of the Ku Klux Klan says the hooded group has a chapter in New York City and needs a grand dragon to head it.

Eldon Lee Edwards, Atlanta, Ga., imperial wizard of the KKK, said last night the organization is operating in Northern States.

Edwards appeared on The Mike Wallace Interview over the ABC-TV network. He wore traditional KKK regalia except for the mask.

Man Electrocuted

KILLEEN (AP) — Sgt. 1.C. Bert Nichols, 29, of Randolph Ridge, Utah, was electrocuted yesterday when he came in contact with a high power line while putting up a television antenna. He was stationed at nearby Ft. Hood.

Attempt To Purchase Bus Permit Told

HARLINGEN (AP)—E. F. Freeman, president of Southwestern Greyhound Lines, yesterday testified before an Interstate Commerce Commission hearing that Greyhound several times tried to buy operation certificates from a Dallas bus line operator after the latter went out of business.

Freeman said he tried to negotiate with Trammal Crow of Dallas, who headed a group which bought out Missouri Pacific Bus Lines and operated for about 20 days early this year. Freeman said he did not receive an answer.

The Greyhound official was to continue testifying at a later date.

Continental-Union Trailways currently operates the only bus service connecting the Lower Rio Grande Valley with other parts of the state. Continental is contesting an application by Greyhound to offer additional service.

State Railroad Commission examiner Horace Soule is conducting the hearing in the presence of ICC representative William R. Tyers of Washington.

Application has been made by Greyhound to operate service similar to that formerly operated by Missouri Pacific Bus Lines and later by Midwest Bus Lines, the firm headed by Crow.

Last Friday Soule recessed a state hearing on the application for the duration of the ICC hearing.

Greyhound attorneys entered into evidence petitions supporting Greyhound from 21 cities. The examiners ruled that the petitions would be held in abeyance until the attorneys filed petitions to the effect that they were representing the towns.

Fourteen of the petitions came from the Valley and the other seven from the Corpus Christi area.

Easy Carpet Cleaning Discovery Hailed

What is said to be the easiest and "cleaningest" home rug cleaner, known as Blue Lustre, is now available after years of research.

Blue Lustre leaves no foreign residue to cause rapid resoiling. The pile is left open and fluffy as the colors spring out like magic. So easy to apply with a long handle brush (like playing shuffleboard) and is safe for all types of carpets.

Use Blue Lustre to clean the entire carpet or remove spots and traffic lanes. It's economical to use as ½ gallon of consentrate cleans three 9 x 12 rugs.

SPORTS

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

WHILE THE TIGER baseballers are taking on the Abilene Eagles today, coach Speedy Moffett and his charges will be focusing some of their attention on another game some 200 or so miles away.

That would be the Vernon-Mineral Wells game today at Mineral Wells. Today's game at MW opens a best two-out-of three game series for the District 4-AAA title.

Where the Tiger interest comes in, on this series, of course, is that they'll meet the winner of the series in bi-district play.

Second game of the series will be played in Vernon Friday. Just when the third game of the series, if it is necessary, will be played we do not know.

Since the Tigers will not be playing Friday, coach Moffett and his assistant, Horrace Bostick, plan to go to Vernon that day to scout the two teams.

Perhaps if the series is determined by Friday arrangements for the bi-district series may be set up at that time.

Vernon and Mineral Wells are the only two 4-AAA teams fielding baseball teams.

Vernon Has 6-3 Record

We have been unable to obtain any information on the Mineral Wells teams but Vernon currently is sporting a 6-3 record.

Vernon has beaten Northside and Quanah twice each and Childress and Archer City once each. Vernon's three losses have been at the hands of Childress, Archer City and Electra once each.

Vernon has scored 53 runs to 25 for their opponents. In other words, the Lions have held their opponents to less than a three-run average per game, a pretty good record.

The Lions have two undefeated pitchers, James Bolton with a 3-0 record and Ronnie Rodgers with 2-0.

Vernon has three regulars hitting above .300, the same number the Tigers have. Jackie Phillips is the leading Vernon batsman with a .400 mark, coming on 10 hits in 25 trips.

The other two .300 plus hitters in the Lion den are Ray Smith with .385 and S. Graham with .320.

Two Undefeated Hurlers

The Vernon team, as a whole, sports only a .221 batting mark. This is compared to the .257 mark of the Tigers going into today's Abilene game.

So, it looks like the pitchers will sorta dominate things if Vernon turns out to be the Tiger bi-district foe.

Winner of the District 3-AAA and 4-AAA bi-district series will meet the winner of Districts 1 and 2-AAA for the regional championship. The region champ will gain a berth in the state tournament to be held in Austin, June 6-7.

Two teams are playing in 1-AAA while four are competing in 4-AAA. Hereford and Levelland are the two teams in 1-AAA.

In 2-AAA, Andrews, Kermit, Monahans and Pecos make up the field.

A best two-out-of-three series will be played both in the bi-district and regional playoffs.

Fluke Hit Beats Braves For Bums

By JOE REICHLER
The Associated Press

Lew Burdette was mad enough today to spit. And so were the rest of the Milwaukee Braves.

The ball took a crzy bounce yesterday at the most inopportune moment, depriving Burdette of his fourth victory and the Braves of a 4-3 triumph over Brooklyn.

Instead, the Dodgers went on to win 5-4 in 14 innings to gain a split in their two-game series at Ebbets Field.

Here's what happened. The Dodgers were at bat in the 12th, trailing 4-3, two out, runners on first and second and Carl Furillo the batter.

Burdette, who had overcome a 3-0 deficit and a warning from plate umpire Lee Ballanfant after nearly decapitating Roy Campanella with a pitch, was getting along swimmingly. Since the first inning, when Carl Furillo smashed a three-run homer, the Dodgers hadn't come within spittin' distance of a run. Burdette disposed of the first two batters easily but Gino Cimoli clubbed a double for his fourth hit.

Sandy Amoros walked on a 3-2 pitch but the game apparently was over when Furillo sent a bouncer to shortstop. Just as Johnny Logan got set to field the ball, it took a bad hop over his head and Cimoli raced home with the tying run.

In the 14th, Cimoli crashed a pitch by reliefer Red Murff into the left field stands for a home run to break up the overtime tussle.

The Dodger victory went to Sandy Koufax.

In the only other game in the National League, the Chicago Cubs whipped the New York Giants 6-2 to move into a seventh place tie with Pittsburgh. Young Don Kaiser hurled a six-hitter for his first victory of the year.

Kansas City, the early season surprise of the American League, broke a three-way tie for fourth place with an 8-2 victory over Washington. Baltimore dropped Detroit into sixth place, defeating the Tigers 8-6 in 13 innings.

Pee Wee Reese saw action for the first time this season. The Dodger captain, who had been sidelined since opening day with a sprained back, took over at shortstop in the 10th inning but went hitless.

A six-run first inning, highlighted by rookie outfielder Jim Pisoni's grand slam homer, made it easy for Ned Garver to register his second victory with a six-hitter. Chuck Stobbs, who has yet to win, lasted just one inning and was charged with his fifth setback.

Jim Brideweser, sold last season by Detroit to Baltimore, gained revenge with a 13th-inning double that drove in Gus Triandos and Dick Williams with the tie-breaking runs. Williams had driven two runs with a bases-loaded single in the eighth to tie the score 6-6.

The victory went to Geroge Zuverink. Jack Crimian, fifth Tiger hurler, was the loser.

A four-run explosion by Chicago in the sixth chased Giant starter Ruben Gomez. Ed Winceniak, rookie infielder, and Lee Walls, drove in two runs each for the Cubs.

SMU Cancels Two Grid Scholarships

DALLAS (AP)—Southern Methodist University has cancelled the scholarships of two athletes because of a recent dormitory disturbance, Athletic Director Matty Bell disclosed yesterday.

Bell said the athletes, football end Willard Dewveall of Weatherford, Tex., and high jumper Clarence Miller of Crane, Tex., both were suspended from their teams. They were asked to move out of the athletic dormitory, Bell said.

He said they came into the dormitory early last Wednesday, yelling and kicking on doors. Bell said the question of their being restored to good standing next year depends on their coach's recommendations.

Frisco Eyes Majors

SAN FRANCISCO (AP)—San Francisco will make another bid for major league baseball Thursday when Mayor George Christopher flies to New York to meet Walter O'Malley, Brooklyn Dodger president.

POWELL BERRY
. . .to Aggieland

Berry Signs To Attend Texas A&M

Powell Berry, All-District 3-AAA quarterback for the Tigers last fall, has signed a "Letter of Intent" to attend Texas A&M.

Berry becomes the second Tiger off the 1956 team to sign a SWC letter. Previously tackle Wiley Denson had signed to attend Rice.

Berry, an all-around athlete at Snyder High School, earning letters in three sports, will probably devote his full time to football at A&M. Berry lettered in basketball and track in addition to football at SHS.

Berry was the total offense leader for the Tigers last fall, gaining 501 net yards on the ground and 668 yards passing for a grand total of 1,169 yards.

The Tiger quarterback completed 33 of 72 passes with 10 of his completions going for touchdowns.

Berry also led the Tiger punting brigade and was second in scoring. Berry averaged 39.2 yards on 28 punting attempts and scored 42 points, second only to all-state end Milton Ham who had 63.

Berry was a two-year regular for the Tiger basketeers at a guard position. The 6-1 Berry tossed in 156 points in 22 games for a 7.1 average for the 3-AAA champion Tigers last season.

In track, Berry starred in the hurdle ranks. He holds the Canyon Reef high hurdle mark at 14.9 set this spring. A mid season injury slowed Berry down in the cinder sport in the season just completed.

Texas, TCU In Showdown

By The Associated Press

The Texas Longhorns, their sights set on the Southwest Conference baseball title, clashed Tuesday in a crucial game with defending champion Texas Christian.

The Steers steadied their hold on the league lead Monday by whipping Rice 9-8 in a makeup game at Houston. The tilt had been postponed three times by rain.

In other conference games Tuesday, Southern Methodist tangles with Rice at Houston and Baylor and Texas A&M meet at College Station.

Centerfielder Roy Menge cut off Rice's Bill Perdue at home plate to keep Rice from tying the score Monday, ending the game with a double play.

The victory gave Texas an 8-1 record. By beating TCU Tuesday, and whipping Southern Methodist Friday at Dallas, the Steers could virtually sew up the title. TCU has a 7-2 mark.

Both Texas and Rice had a spotty day on the mound.

Rice loaded the bases on walks with none out in the ninth and then Bod Sudderth struck out Billy Arhos, setting the stage for the game-winning double play.

Jerry Sims hit a low liner to centerfield. Menge charged in, caught the ball around his knees and rifled it to home plate. The ball never touched ground and Perdue was out by 10 feet.

Hart Offers Fat Guarantees For Fights

NEW YORK (AP)—Garnet "Sugar" Hart, 21, Philadelphia's classy welterweight prospect, today offered substantial guarantees to the three leading contenders and Boston's Walt Byars for a June or July fight in Camden, N. J.

Boston's Tony De Marco and Byars can get at least $10,000 each and Mexico's Gaspar Ortega and Cuba's Ike Logart $7,500 each for a scrap with Hart, said Manager Marty Stein.

Stein, a Philadelphian, issued the challenge after Hart handed Al "Sugar" Wilson, a terrific pasting in a telecast 10-rounder at St. Nicholas Arena last night.

City League Opens Tonight

Hermleigh, Sun Pitted In Opener

Defending champion Hermleigh and Sun Oil will clash tonight in the opening game of the 1957 City League baseball season.

Game time will be 7:30 p.m.

Two other teams are in the City League field, Snyder Furniture and the Blue Sox. These two teams will clash Saturday night in their season debut.

City League games will by played on Tuesday and Saturday nights throughout the season at Towle Memorial Park.

In tonight's season opener, Don Ballard is expected to draw the starting mound assignment for Sun while Ted Masters is the probable mound choice for Hermleigh.

Standing by in case these two encounter trouble will be Wayne Whiteside of Sun and Grady Gafford of Hermleigh.

Hermleigh won both halves in last year's race in nailing down the pennant.

The first half this season will end July 13 with the second half to end Aug. 27. Winners of each half will meet in a post-season playoff series to determine the league champion.

This year's all-star game will be played July 16. The first half winner will meet the all-stars of the other three teams in the mid-season classic.

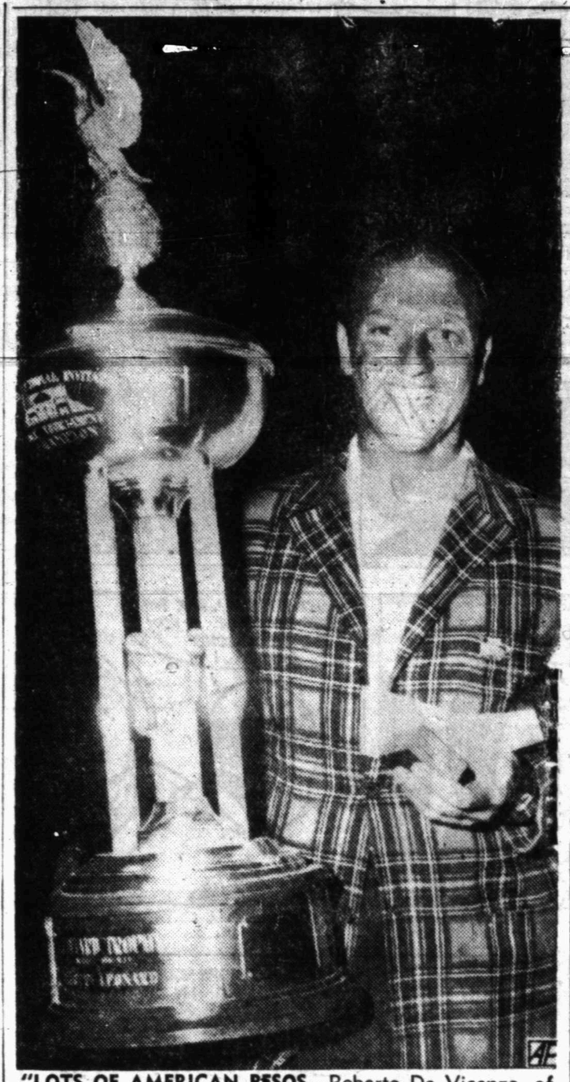
Managers of the four City League teams are;

Hermleigh — Justin Corbell.
Sun Oil — Bob Parker.
Snyder Furniture — Winston Gregg.
Blue Sox — Red Jackson.

Vic Baize is the City League president and W. T. (Moon) Mullins is the secretary-treasurer.

New Grid Coach

KILLEEN (AP)—T. T. Taliga has been named head football coach at Killeen High School, succeeding Don Stephens who resigned to accept a similar post at Mexia.



"LOTS OF AMERICAN PESOS"—Roberto De Vicenzo, of Mexico City, holds the Leonard trophy and a check for $5,000 after he won the Colonial Country Club National Invitation Golf Tournament at Fort Worth, Texas. When presented with the winner's check De Vicenzo said "it's lots of American pesos." (AP Wirephoto)

Tigers-Eagles Vie

Snyder's Tigers and Abilene's Eagles clash at Towle Memorial Park here today in the fourth and final game of the season series between the two clubs.

Abilene carried a 2-1 series edge into today's game with the Tigers bent heavily on squaring up the series.

Game time has been set for 4:15.

Ronnie Baker, 3-3, will hurl for the Tigers today. Baker stands 1-1 with the Eagles. The crafty lefthander defeated the Warbirds, 2-1, with a neat two-hitter in the season opener for the Bengals.

Baker will be opposed by Gaylord Armstrong who is undefeated. Armstrong is sporting a 3-0 record. One of Armstrong's wins came at the expense of the Tigers.

Armstrong, however, was driven from the box in his lone start against the Tigers. Armstrong left in the midst of a wild seventh inning rally by the Tigers that produced six runs in his start against the Tigers, April 18, at Abilene.

Today's game will mark the return of Jimmy Allen to the Tiger lineup. Allen, who just completed spring football duties, will start in right field. Allen owns the top Tiger batting mark of .360.

The other Tiger starters will remain the same. Coleman John will start at catcher; Milton Ham, 1b; Joe Reaves, 2b; Tom Falls, 3b; Tommy Prichard, ss; Neil Boyd, lf; Gary Vice, cf; and Baker, pitcher.

The Tigers will meet Midland here tomorrow afternoon in a make up game, starting at 3:30 at Towle Memorial Park.

Sens Fire Charlie Dressen

DETROIT (AP)—Surprised almost to the point of disbelief at a published report that he is about to be fired as manager of the last-place Washington Senators, Chuck Dressen awaited the arrival today of the club's president for a showdown meeting.

Calvin Griffith was due in Detroit today. A story out of Washington last night quoted Griffith as saying "something drastic" would have to be done about the Senators' situation. They have lost eight games in a row and have only four victories in the first 20 games.

"I'd have thought Calvin would have notified me if he planned to discuss something like that," said Dressen, 58, who piloted the Brooklyn Dodgers to a pair of National League pennants.

"The whole thing comes as a shock to me," he said after hearing that the Washington Post and Times Herald said it has "learned that Griffith's plan for drastic action includes the dismissal of Dressen and the promotion of one of the team's coaches, Billy Jurges or Cookie Lavagetto, as manager with temporary status."

Dressen said he hasn't talked with the club's president since last Saturday.

"We were pretty close to swinging a couple of player deals then," Dressen explained, "but they fell through. These other clubs won't give us anything—but they'll take the four or five real solid players on our club. Hell, the rest of these guys are trying to get us to finish 10th in an eight-team league."

The report from Washington said Griffith was prepared to offer Dressen a post as assistant to the president.

The Washington Post and Times-Herald said last night it had learned that Griffith would put one of the club's coaches, either Billy Jurges or Cookie Lavagetto, in charge as Dressen's temporary replacement.

Griffith was asked if the club had anyone in mind for the job of managing the Senators — who haven't finished in the first division since 1946.

"You always have someone specifically in mind when you make a move like this. We'll call a press conference when we're ready to make the move," he replied.

Dressen's first Washington club finished last in the 1955 American League race. The Senators climbed a notch to seventh last year.

The report caught Dressen completely by surprise as he alighted from a flight early today from Kansas City, where his club dropped its eighth straight game yesterday 8-2. He said he had heard no grumblings and felt "Calvin would have notified me if he planned to discuss something like that."

ECONOMY WHEN YOU WANT IT!
Here's the secret of its greater gas mileage. In the J-2 Rocket a single two-barrel carburetor serves the engine, at peak efficiency, for all your ordinary power needs.
You choose your own kind of performance—you're in economy range up to ¾ throttle. Yet you enjoy famous Rocket action all the way.
POWER WHEN YOU NEED IT!
All three carburetors (six barrels) go into action, automatically, whenever the occasion demands. Push your foot to the floor, and you have extra safety power on tap to whisk you up the steepest grade, or out of the path of danger. Here's alert action for added safety in any driving situation!
OLDSMOBILE NOW OFFERS YOU THE MOST EXCITING NEW ENGINE DEVELOPMENT SINCE THE FIRST HIGH-COMPRESSION POWER PLANT!
Greater economy for all normal driving! A greater reserve of extra safety power for the exceptional situation! That's why Oldsmobile's new J-2 Rocket Engine* is like two engines in one. And you, the driver, are in complete control of how you want to travel. For practically all driving needs you enjoy the fuel-saving economy of a single carburetor. Or, a touch of the accelerator past the three-quarters mark will bring two additional carburetors into use. This gives you gas-saving performance over a 50 percent broader operating range *plus* a reassuring reserve of power that means added safety. If you have not already tried the J-2 Rocket, your nearby Oldsmobile Dealer invites you to come in for a drive soon. Be his guest for a J-2 test. You'll find it is a totally new and wonderful driving experience.
*Optional at extra cost on all Oldsmobile models.

"Oh, I can't complain!"

Hiss Gives Views On Trial In Book

NEW YORK (AP)—Alger Hiss in a book out today says that political pressure, public hysteria, faked evidence and false testimony sent him to prison for 3½ years.

The former State Department official, convicted of perjury in denying he gave confidential documents to ex-spy courier Whittaker Chambers, insists in the book that he was innocent, as he did throughout his two trials.

The 419-page book, "In the Court of Public Opinion," was published by Alfred A. Knopf, Inc. Hiss was released from prison in 1954. He, his wife and son have since lived quietly in New York.

"The ordeal of fighting false charges has disrupted my life and has brought pain to me and to my family," Hiss writes.

"But nothing can take away the satisfaction of having had a part in government programs in which I strongly believed . . . the creative efforts of the New Deal and in the formation of the United Nations."

Hiss, disbarred in New York and Massachusetts after his conviction maintains in the book that testimony of ex-Communist Chambers, Chamber's wife and other government witnesses was at variance with documentary evidence.

His book includes numerous reproductions of such evidence introduced at his trials, the first of which ended in a hung jury.

Hiss, in giving his account of the affair, maintains that the typewriter on which copies of State Department documents were alleged to have been written was a planted fake.

He charges that Chambers' accusations of espionage against him were the result of pressure by the 1948 House Committee on Un-American Activities.

Hiss pictures then-Congressman Richard Nixon, now vice president, as the prime mover on the committee, an adviser to Chambers, and as the man who kept after the Justice Department to prosecute.

Hiss says he realizes now that his libel suit against Chambers "added heavily to the pressures on Chambers to pile charge upon charge by accusing me of espionage."

Chambers "must have received papers from persons whose identity he has never made public," Hiss said. "The documents he had received from others were used by him as the basis of his charges against me. In the committee he had a powerful ally in his venture."

Chambers told his side of the story in "Witness," published in 1952.

Mayor Says Public Is Lousing Up Zoo

PHILADELPHIA (AP) — Mayor Richardson Dilworth is dismayed about the way the public "louses up" the city zoo with trash, and he says, "I don't know any other way to express it."

The mayor, his wife and a grandchild toured the zoo grounds recently. He cut loose with a blast against the trash-throwing public in a by-lined Page 1 article in today's Philadelphia Inquirer.

The mayor said the city spends more than a million dollars a year to keep its streets clean. Despite this, he said, "we have not succeeded in making anything like the progress we should. This is in large measure due to the fact that the average American seems to take some kind of peculiar pleasure in fouling his own nest."

Cited For Service

AUSTIN (AP)—The Texas Law Enforcement Foundation has cited for outstanding service Sheriff Grady Harrist of Lubbock.

GOING OVER points made in a district plowing contest here yesterday for Future Farmers of America is Floyd Boston, right, local sponsor of the contest, with Mike Stipe of Snyder, winner, and Kenneth Goforth, left, agriculture instructor at Snyder High School. Stipe won in a field of four contestants and will represent a 25-county area in the state FFA plowing contest in July. (Lee Watson photograph)

Contest Winner Is Named

Mike Stipe, Snyder High School student, yesterday was named district winner in the 1957 Future Farmers of America tractor operators contest.

The contest was held near Snyder on th. Ramsey farm yesterday. Supervising the contest was Floyd Boston of Scurry County Tractor Co. That firm and other Ford implement dealers several weeks ago had sponsored county contest, and winners of those competed here yesterday.

Stipe will go to Fort Worth July 16 to compete in the state FFA plowing contest, which will be sponsored by the Stewart Co., Texas distributor for the tractor and implement division of Ford Motor Co.

The contest will be the day prior to the opening of the state FFA convention in Fort Worth.

A new Ford tricycle tractor will be awarded the state winner by Texas Ford implement dealers. The second place winner will receive a diamond set wrist watch, and third place award will be a 17-jewel wrist watch.

Others competing with Stipe here yesterday were Lonnie Bennett of Anson, Phil Wallace of Ackerly, and Delroy Buchanan of Coahoma.

Judges were Theo Brewer of the Texas Livestock Sanitary Committee; Cone Merritt, farmer; Jack Ramsey, farmer; Ray Lunsford, rancher; Milton House, farmer; and Frank Patterson, farmer.

Gayle Ingram of Dallas, representing the Stewart Co., took an active part in conducting the contest. Also attending the contest was Clemon Montgomery, area FFA supervisor.

Peace Team Holds Talks On Honduras

TEGUCIGALPA, Honduras (AP) — A Latin-American peace team talked until early today with Honduras' ruling military junta about troop withdrawals from the disputed Honduran-Nicaraguan border area.

The meeting with the committee from the Organization of American States was held behind closed doors, but official sources said Honduras was insisting that Nicaragua pull its troops from the area of the Segovia or Coco River.

Honduras claims the river forms the boundary between the two countries, but Nicaragua claims both sides of the stream. The area northwest of the river forms the Mosquito Coast region, a jungle region both countries have claimed since the 19th century.

Sporadic clashes broke out in the region last week with both sides charging bombing and strafing of villages. A cease-fire has brought a halt to the fighting.

A three-man U. S. military mission arrived in Tegucigalpa yesterday from Panama to help the OAS set up air patrols to maintain peace along the border.

Elected President

WACO (AP)—A Corsicana student at Baylor, Scott Middleton, was named president of the State Organization of Baptist College Students last weekend at a convention at Latham Springs near Waco.

Police Break Up Colombia Rioting

BOGOTA, Colombia (AP)—Many students were reported under arrest today after a fresh outbreak of antigovernment demonstrations in Bogota, a general business slowdown and continuing student strikes.

Police again moved in with tear gas and streams of dyed water to break up the rioting late yesterday. They were said to have seized and jailed "many" students from among the crowds.

In a radio-television address last night, President Gustavo Rojas Pinilla said three persons had been killed in Cali and two in Bogota.

The President described the situation in Colombia as a conflict between vested employer interests and the workers. He pledged the army would stand with the workers, "united unto death" if necessary.

There was no general strike call, but private banks, stores and most offices closed early yesterday. A curfew was nominally ended but only persons with permits were allowed on the streets.

The spreading student strikes were met by government orders to close all schools and universities. Ten newspapers across the country suspended publication, apparently in sympathy with the students.

The demonstrations began in protest against Rojas' plans to have himself re-elected by a Constituent Assembly that he named to rewrite Colombia's constitution. The President took power in a military coup in 1953 but is barred from succeeding himself under the present constitution.

Altar And Flag Described As Epitome Of McCarthy's Life

APPLETON, Wis. (AP)—The altar and the flag were described today as the "epitome of the life" of the late Sen. Joseph R. McCarthy.

The Rev. Adam Grill, pastor of St. Mary's Roman Catholic church, made the statement in a sermon prepared for delivery at the third and final funeral service for the Wisconsin Republican who died last Thursday of a liver ailment.

McCarthy's body was flown to Wisconsin yesterday after church services in Washington and a funeral service in the United States Senate.

"Before us we see the flag-draped casket of the senator May Almighty God be good to him," Father Grill said. "If our God would allow him to use his lifeless arms, Sen. McCarthy would point out to all of us two objects in this church as an expression of his whole life. He would first point to the altar and secondly to the flag which drapes his casket.

"Why would he do this? Because they contain the epitome of his life. Sen. McCarthy was a dedicated man. When he took upon himself a task, he gave his whole heart and soul to a successful completion of this work. He loved his God, and his country."

The funeral was held after thousands of McCarthy's friends who knew him not only as a turbulent senator, but as a friendly neighbor, had filed past his casket to pay their final respects.

Late yesterday his neighbors gave a solemn final homecoming to McCarthy. His body was flown to Wisconsin after funeral services in Washington.

Final services were scheduled here today in the church that McCarthy attended as a boy, with the Rev. Adam Grill officiating.

McCarthy, guarded by two members of the Marine Corps, reposed in St. Mary's Roman Catholic Church, and thousands strode past and signed four registers in the vestibule.

Police Chief Herbert Kapp estimated that 2,000 persons an hour walked past the casket in the first four hours. The line of those waiting was four abreast and at times was four blocks long. The body remained in the open church throughout the night.

McCarthy, 48, died Thursday at Bethesda, Md. Naval Hospital of a liver ailment.

The plane carrying his body from Washington landed at Green Bay, 35 miles north of here. A crowd of 2,500 stood silently as the casket was lifted down. Twenty-six Marines and 13 members of American Legion and Catholic War Veterans posts provided a military escort.

The funeral motorcade, under a police escort, made only one stop on the way to Appleton.

This was at the village of Little Chute, the major community in the town of Grand Chute, where McCarthy was reared on a farm.

During the stop, the Rev. Martin Vosbeek, pastor of St. John's Church at Little Chute, blessed the casket.

Upon reaching Appleton, the funeral party was met at St. Mary's Church by Father Grill, a long-time personal friend of McCarthy.

After a short service in which funeral prayers were recited, the body was taken into the flower-banked church.

Marines and members of the Knights of Columbus took up positions, maintained through the night, at the head and foot of the casket.

After the casket was opened, Mrs. McCarthy was the first to approach. She was followed by members of the family, and then the official congressional representatives and a delegation from the Wisconsin Legislature.

Two rosary services were conducted last night.

MCCARTHY BODY ARRIVES AT CHURCH—The flag-draped coffin of Sen. Joseph McCarthy (R-Wis.) is carried into St. Matthews Cathedral in Washington by Marine pall bearers as a Marine unit stands at present arms in the background. Part of crowd which overflowed church stands behind.

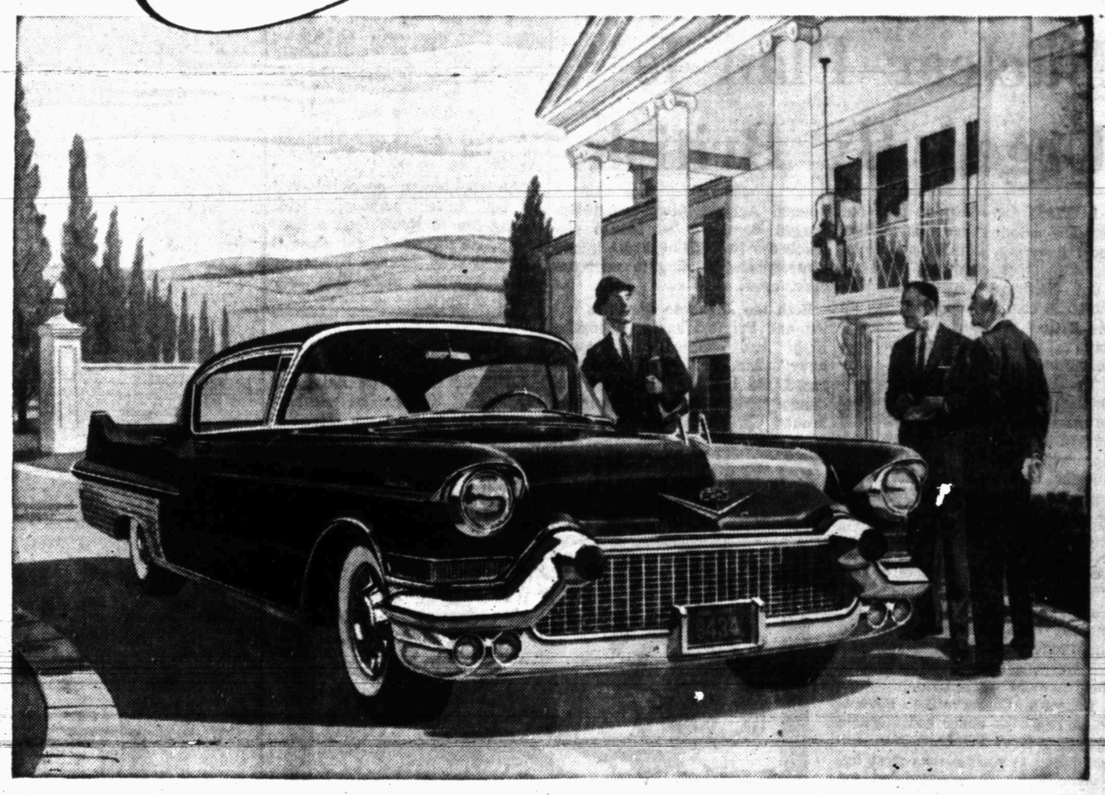
Cadillac



Third Generation at the Wheel!

"Like father, like son", the poets say.

And never was it truer than in the case of a great many fine Cadillac families.

For there are, in our land today, a number of families that currently boast as many as three generations at the wheel.

We mention this simply to underscore a great and dramatic truth about Cadillac—that, of course, is its *unchanging* goodness and quality.

For fifty-five years, the Cadillac name has signified one and the same thing to motorists everywhere—a motor car created at the highest level that automotive science would permit.

Over that time, Cadillac has attracted to the ranks of its owners the finest list of names to be found anywhere on the American motoring scene.

And, those who have followed the path to Cadillac in 1957 are enjoying the most abundant blessings of this ceaseless crusade for quality.

The new "car of cars", with coachcraft by Fleetwood, is beautiful and luxurious to an unprecedented degree. And its performance and handling ease are a revelation!

Certainly, the Cadillac car has now become an even wiser investment for an even wider circle of America's motorists.

If you have yet to acquaint yourself with these brilliant Cadillac virtues for 1957, your dealer will be delighted to tell you how easily you can make Cadillac a fine family custom of your own!

Pulitzer Prizes Are Awarded To O'Neill, Kennedy

NEW YORK (AP)—The late dramatist Eugene O'Neill has won his fourth Pulitzer Prize and Sen. John F. Kennedy (D-Mass) has won the first ever bestowed on a member of Congress.

The awards were among 14 Pulitzer Prizes in letters, journalism and music announced yesterday by the trustees of Columbia University.

O'Neill received the drama award posthumously for his autobiographical play "Long Day's Journey Into Night." It is a current Broadway hit.

The biography prize went to Kennedy, 39-year-old Massachusetts Democrat, for his "Profiles in Courage." The book is a study of political integrity as exemplified by selected U. S. politicians, some famed and some obscure.

"I'm delighted—more than delighted," said Kennedy when told of the award.

Mrs. Carlotta Monterey O'Neill, widow of the playwright, said she now knows she "did the right thing" in violating a 25-year embargo on "Journey." She authorized production of the drama here last year.

O'Neill wrote the play in 1941 but he said he did not want it staged in the United States until 25 years after his death. He died in 1953.

Only poet Robert Frost and the late playwright-biographer Robert Sherwood have also won four Pulitzer Prizes in the 40-year history of the awards.

O'Neill previously won Pulitzer Prizes for "Beyond the Horizon" (1920), "Anna Christie" (1922) and "Strange Interlude" (1928).

No fiction award was made this year. Kenneth Roberts received a special citation, however, for his novels on the nation's early history.

Eight prizes were granted in the field of journalism.

The Chicago Daily News took the meritorious public service award for exposing a 2½-million-dollar fraud in the office of the then state auditor of Illinois, Orville E. Hodge.

The work of 21 of the newspaper's staff members ultimately led to Hodge's imprisonment.

The Pulitzer Prizes were established in 1917 under the will of the late Joseph Pulitzer, publisher of the St. Louis Post-Dispatch and the old New York World.

The Columbia trustees grant the awards each year from recommendations made by an advisory board. Most of the advisers are newspaper executives.

The journalism awards are worth $1,000 each, except for the meritorious service prize. A gold medal is awarded for it.

The prizes for music and letters are worth $500 apiece.

The awards, except for those in drama and music, are for work completed or published in 1956.

Other winners announced yesterday:

History—George F. Kennan, former U. S. ambassador to Russia, for "Russia Leaves the War."

Poetry—Richard Wilbur for his "Things of this World."

Music—Norman Dello Joio for "Meditations on Ecclesiastes."

Local reporting under pressure of edition time—Salt Lake Tribune for "prompt and efficient coverage" of the crash of two airliners in the Grand Canyon last June 30.

Local reporting when there was no edition pressure—Wallace Turner and William Lambert of the Portland Oregonian for exposing "vice and corruption" in the Teamsters Union in Portland. The probe touched off others elsewhere and embroiled Teamsters President Dave Beck.

National reporting — James Reston of the New York Times for "distinguished national correspondence," particularly his five-part analysis of the effect of President Eisenhower's illness on the functioning of the executive branch of the government.

International reporting—Russell Jones of the United Press for "excellent and sustained coverage of the Hungarian revolt."

Editorial writing—Buford Boone president and publisher of the Tuscaloosa (Ala.) News, for his "fearless and reasoned editorials in a community inflamed by a segreation issue."

Cartoon — Tom Little of the Nashville Tennessean for his cartoon "Wonder Why My Parents Didn't Give Me Salk Shots." It depicts a small boy, on crutches and with his legs in braces, watching other youngsters his age playing football.

Photography—Harry A. Trask of the Boston (Mass.) Traveler for his aerial picture sequence of the sinking of the Italian liner Andrea Doria last July 26.

SAFETY AWARDS PRESENTED—Safety awards in recognition of the employes having worked 250,000 man hours without a disabling industrial injury were presented to two groups of Texaco personnel at a dinner meeting recently. R. G. Wilson, unit superintendent of the Cogdell Unit, presented appropriate safety flage to W. S. Groves, second from left, for the North Cogdell Area, and to P. A. Malone, second from right, for employes of the South Cogdell Area. At left is Z. Z. Bowen, local employes safety meeting chairman, and at right is D. E. Ogle, safety meeting secretary. R. L. Clifford and T. S. Thomas are first aid instructors. Out-of-town guests at the dinner included E. E. Callaway, division supervisor of industrial relations, R. C. Gray, zone safety engineer, and G. R. Brown, division petroleum engineer, all of Fort Worth. Callaway was emcee and Gray was principal speaker at the session. (Craft Studio Photograph)

Supreme Soviet Will Approve Decentralization Of Economy

MOSCOW (AP) — The Supreme Soviet convened today to approve a sweeping decentralization of Soviet economy involving everything from vast, industrial enterprises to corner groceries.

Russia's equivalent of Parliament opened its special session in the Kremlin's marble-pillared former throne room of the Czars. The Soviet put the economic plan at the top of its agenda.

During deliberations in the next few days the legislators will approve the administrative resolution drafted by Communist party boss Nikita Khrushchev. The plan completely revamps the monolithic economic structure the Kremlin built up over the last 40 years.

Until now, the Soviet economy has been directed by several dozen big ministeries in Moscow. The new plan calls for a territorial system of organization. The central government will still set the broad lines of policy and planning, control prices and wages, allocate scarce materials and check on production by each region.

But economic councils of the various administrative - economic regions of the Soviet Union will take over planning for local production and supervision of local performance, cutting many of the administrative strings that now lead back to Moscow.

The plan's approval by the more than 1,300 members of the Supreme Soviet is certain. But the plan itself will take months and possibly years to realize fully. When and if it is completely achieved, it will give a new face to communism in operation in the Soviet Union. Many government ministries ultimately will be abolished or have their functions trimmed.

Western Areas Get Showers

By The Associated Press

Dry and fairly mild weather prevailed in most of the eastern two thirds of the nation today as rain sprinkled some Western areas.

The precipitation was generally light and widely scattered in the Rocky Mountain region and from western North Dakota through Washington and Oregon.

Floods continued to threaten areas along the Red River in Louisiana. The most critical region appeared to be at Campti, north of Natchitoches. Thousands of acres of land were under water between Natchitoches and Shreveport, 60 miles northwest.

Warming was reported from the Great Lakes region to the Dakotas and southward through Texas.

Mark Twain Writings

BERKELEY, Calif. (AP)—Recently discovered writings by Mark Twain, including four new documents bearing on the humorist's abrupt and still mysterious departure from Virginia City, Nev., are contained in a new volume published by the University of California press. The book is "Mark Twain of the Enterprise."

Limeys Get $1 Per Day

LONDON (AP)—How far can a tar go on a dollar a day in Norfolk, Some 2,000 sailors on three British warships are worried, because a dollar a day is all they're getting when they attend the U. S. naval review at Norfolk June 8-17.

The ships are Britain's biggest aircraft carrier, the Ark Royal, and the destroyers Diamond and Duchess.

The daily spending money limit was fixed by the British treasury, which suffers a chronic shortage of U. S. currency.

British newspapers reported some of the sailors are grumbling that they will be known around Norfolk as "just another bunch of poor Limeys." An admiralty spokesman said he thought a dollar a day would be enough—"they will live on board, where all essentials are available."

The spokesman conceded that he had never personally tried having fun in Norfolk on a buck a day. He did not demur when it was suggested that the lads would want something more than shipboard essentials.

Arrive From Paris

LONDON (AP) — The Duke and Duchess of Windsor arrived here from Paris today for a three-day private visit.

Nuclear Plan Is Urged By British

LONDON (AP)—Britain has put forward a long-range plan calling for registering, limiting and finally stopping nuclear explosions.

An American spokesman declined to comment immediately on the British proposal made yesterday to the U. N. Disarmament subcommittee.

The British plan suggested that Britain, the United States and the Soviet Union immediately draft an agreement for "advance registration with the United Nations of nuclear test explosions." It also suggested "limited international observation" of all nuclear tests.

The plan would establish a committee of technical experts to "consider possible methods of limiting nuclear test explosions." This would lead to a cessation of nuclear tests after prohibition of the production of fissile material for weapons as part of a general disarmament agreement.

Britain's Conservative government has been under considerable pressure from the opposition Labor party to postpone its first hydrogen bomb test, scheduled for the Christmas Island area in the next few months.

Cmdr. Alan Noble, the British delegate to the subcommittee, told the five-nation group Britain is voluntarily undertaking to "conduct nuclear explosions in a way which would keep world radiation below the level where it would be hazardous."

Noble emphasized, however, that Britain "could not agree to the cessation of nuclear tests as an isolated step, but only as part of a general disarmament agreement."

TOKYO (AP)—A Japanese group today called off its widely publicized plans to send protest ships to the Christmas Island area during Britain's forthcoming hydrogen bomb tests.

A majority of the members of the executive group of the Japan Council Against Atomic and Hydrogen Bombs voted not to dispatch the two fishing boats it had contemplated sending to skirt the blast area.

Both the Japanese seamen's union and Prime Minister Nobusuke Kishi had opposed the "peace navy" plan. British officials indicated the boats would enter the danger area, nearly 1,000 miles around Christmas Island, at their own risk.

Shelter Program

CHICAGO (AP)—A Civil Defense official said today cities should plan better evacuation programs because an adequate program for shelter against nuclear attack is at best, years away. Paul Steinbicker, civil defense director of St. Louis, said a reasonable shelter program for the nation's metropolitan areas would cost an estimated 83 billion dollars and require 10 to 12 years to complete.

Inspection Flight Set

AUSTIN (AP)—Federal Civil Defense officials scheduled an inspection flight to the Waco area today for first hand information on flood damage.

Maj. Gen. Holmes E. Dagar, director of the Federal Civil Defense's natural disaster office, flew here yesterday after a tour of Fort Worth's flood-damaged section. He and his party went almost immediately into a briefing session with state civil defense and disaster office coordinator William McGill and other local officials.

Today's plans called for a flight to Waco in an Army plane from Fort Hood and another briefing by disaster relief officials there.

A total of 17 counties and 34 cities and towns made direct requests for federal disaster assistance. McGill's office said last night. In addition to these more than 30 other counties were known to have suffered some flood damage.

Farmhands 'Cheated' Because Of Showers

MEXICO CITY (AP)—Complaints that violent weather in Texas was "cheating" Mexican farmhands out of work were voiced yesterday by the National Alliance of Braceros.

The group said storms, floods and tornadoes had cut working time of braceros on U.S. farms to only 15 or 20 hours a week recently and said workers should be paid for 32 hours of work weekly regardless. It termed the situation a "new type of fraud."

BUCKLEY

SAYS INEZ

Let's Abolish Atomic Bombs

By INEZ ROBB

There is a big rumpus all around the globe today, involving some of the world's great and good people, concerning the effects on humanity of nuclear fallout from hydrogen-bomb tests.

This rumpus or debate has been going on for some time, but it was given added emphasis recently by the plea of that saintly character, Dr. Albert Schweitzer, to halt the testing of atomic weapons least such explosions do irreparable harm to man and his descendants.

A committee of the Atomic Scientists Association of Britain as well as Dr. Linus Pauling, Nobel Prize-winning chemist of the California Institute of Technology, (among others) support Dr. Schweitzer in his conclusions.

As usual, the U. S. Atomic Energy Commission had its authority on radioactive fallout, Dr. Willard F. Libby, waiting in the wings to insist that fallout from the new and improved U. S. hydrogen bomb wouldn't hurt a fly. We wrote Dr. Schweitzer in reply, or rather, rebuttal.

Ever since the world began to worry about the effects of hydrogen-bomb fallout, it has been the contention of Admiral Lewis L. Strauss, chairman of our Atomic Energy Commission, that the after-effects of the up-dated American hydrogren bomb are beneficent. Our hydrogen bomb doesn't give off that nasty, deadly strontium-90. Our bomb gives off soothing, health-giving Chanel No. 5!

However, it is one woman's opinion that all this argument as to whether radioactive fallout is the bane or the blessing of mankind is just so much eyewash. In either case, what the debaters are doing is no more than idly swatting at the fleas on a mad dog at large in the world.

Let us, for goodness sake, quit flicking at fleas and aim at the dog, or atomic weapons themselves. Let men of good will all over the world press for the abolition of atomic weapons. Certainly, it will only be a mite more difficult to get nations to agree to the abolition of nuclear bombs, rockets or ballistic missiles than to consent to the abolition of the testing of such weapons.

What does it matter wheather a few thousand of us—more or less—eventually die of atmospheris poisons from atomic-weapons testing before the hydrogen or, God forbid, the cobalt bomb leaves only a remnant of humanity to haunt this shattered globe?

It is the bomb, the stark substance, and not the fallout, the debatable by-product, from which mankind shrinks in terror. Whether 1,000 or 10,000 or 50,000 persons develop cancer from strontium spewed into the air by hydrogen-bomb test fallout is as nothing compared to the hard fact that only a fraction, maybe one-fifth, of the inhabitants of any great city would survive the bomb itself.

Only recently, Russia boasted of making an atomic "graveyard" of West Germany and extended those compliments to Norway, Denmark and England.

What man needs today is not abolition of atomic-weapons testing but of the weapons themselves. Men must outlaw them as they outlawed poison gas, and the sooner the atomic nations, the U. S. A., the U. S. S. R. and Britain, face up to that fact, the better for us all. The world cries for atomic disarmament.

Let us, for survival's sake, stop fighting the wart and attack the pickle.

(Copyright, 1957, by United Feature Syndicate, Inc.)

MANVILLE MIDST THE TEXANS—Tommy Manville, third from right, poses with his bride, Pat Gaston, third from left, and his newly-acquired in-laws from San Antonio, Tex., following the wedding at Hotel Pierre, New York. At left are Marian Overcash, lifelong friend of the bride and maid of honor and Jack Mitchell, stepfather of the bride. At right are Mrs. Jack Mitchell, mother of bride and Harry Gaston, the bride's brother.

MAJOR STEP TAKEN

Ceramic Fuel Test Is Held

DALLAS (AP)—The first successful operation of an atomic power reactor using only ceramic fuels was disclosed here today.

Four scientists and engineers from Argonne National Laboratory described the new type of fuel in a report to the national conference of the American Ceramic Society. The ceramic fuel is used in place of metal.

C. L. Hoenig, Western Springs, Ill.; R. J. Kittle, Naperville, Ill.; J. H. Handwerk, Joliet, Ill.; and C. R. Breden, LaGrange, Ill., said in a prepared report Argonne is using ceramic pellets of uranium oxide and thorium oxide to produce heat for electricity from a nuclear reactor.

They said tests indicated ceramic fuels appear to have several advantages and to be a major step forward in making atomic reactors of high efficiency.

Development work was done at the laboratory's main site at Lemont, Ill., and the pellets are now being used in an experimental reactor at Argonne's branch at the national reactor testing station near Idaho Falls, Idaho.

The research team said ceramic fuels will withstand high temperatures and are highly resistant to corrosion in water.

Argonne is operated by the University of Chicago for the Atomic Energy Commission.

The scientists said ceramics as fuel elements in a reactor do not, like metallic fuel elements, grow and become distorted under intense irradiation.

Under some conditions, they said, metallic fuel elements have been known to double in length. Such physical changes can be dangerous, they said.

Burglars Get Meal

PUEBLO, Colo. (AP) — Burglars who broke into the residence of Mrs. Jennie Darcekk cooked creamed corn and left the pans in the kitchen sink after ransacking the house.

Turbulent Marriage Of John Carradine And Actress To End

RENO, Nev. (AP)—The curtain has fallen on the turbulent marriage of actor John Carradine and his onetime leading lady Sonia Sorel.

The 35-year-old actress was granted an uncontested divorce in District Court yesterday on ground of extreme mental curelty.

Mrs. Carradine had filed a divorce complaint against the 50-year-old actor in Los Angeles last September. He countered with a cross complaint in December.

Mrs. Carradine's attorneys indicated in Los Angeles last night that both cases there eventually will die for lack of action.

The couple married in Las Vegas, Nev., in 1944 and rewed in Los Angeles the next year. They have three sons.

Husbands! Wives!
Get Pep, Vim; Feel Younger
Thousands of couples are weak, worn-out, exhausted because body lacks iron. For new younger feeling after 40, try Ostrex Tonic Tablets. Contain iron for new pep, vim; plus high-potency dose Vitamin B1. In a single day, Ostrex supplies as much iron as 16 doz. raw oysters, 4 lbs. of liver, 16 lbs. of beef. 3-day "get-acquainted" size only 69¢. Or get Economy size, save $1.67. All druggists.

Solons Facing More Problems

AUSTIN (AP)—Two more possible headaches were heaped on the weary Appropriations Conference Committee today, with another delay indicated for the two billion dollar plus spending bill.

And all of this came amid increasing demands for quick adjournment.

Rep. Harold Parish of Taft said he might introduce today a final adjournment—sine die—resolution which would call for the end of legislation either May 18 or 22.

After lunch yesterday with Speaker Waggoner Carr, Parish said the new dates "had been suggested." Earlier yesterday Parish displayed a resolution to end the session May 15.

The possible headaches to the Appropriations Committee came when the House disregarded the Texas Commission on Higher Education and passed two bills making Tarleton State College and Midwestern University state-supported senior institutions.

Either or both could call for additional appropriations. One bill (HB 24) would make Tarleton, now a 2-year college, a 4-year college. The other (HB 477) would allow the state to take over ownership and operation of Midwestern, now privately operated.

The Commission on Higher Education last month said it wanted more time to study the bills before it could make recommendations as provided by law. The House in effect said it was tired of waiting and sent the bills to the Senate.

Rep. Max Smith of San Marcos, No. 1 man for the House on the Joint Appropriations Committee, said it was expected that the big money conference report would be on the members desks "in a few more days." That was before the House approved the two college bills.

If both Houses adopt a sine die resolution, then all legislation must be enacted before that date. Homesick and restless legislators realized today was their last day for the $25 per diem.

Parish said Carr "also suggested to perhaps wait on the sine die resolution until Friday" at which time members expect to have the revised two billion dollar appropriations bill on their desks.

"That will give us a week to consider teachers' pay raises," Parish said.

The Senate State Affairs Committee yesterday dealt an apparent death blow to one segregation-bloc bill, but approved two others despite relentless opposition by filibustering Sen. Abraham Kazen Jr. of Laredo.

It was the first time for a bill sponsored by the powerful East Texas segregation bloc to be shoved aside. On Kazen's motion it sent to the attorney general the bill which would require registration of organizations engaged in advocating racial integration or segregation to register with the secretary of state. Kazen questioned the bill's constitutionality.

Segregation bloc bills reported favorably were:

HB 235 which would provide education grants to private nonsectarian schools for pupils not wanting to attend integrated public schools.

HB 236 which would require the attorney general to defend any litigation arising from the segregation measures.

Four other House-passed segregation bills are on the Senate's calendar.

The House concurred 73-36 with a Senate amendment to another bill (HB 231) which was the subject of the record-breaking 2-day filibuster in the Senate last week. The bill would allow assignment and transfer of students bases on some 17 factors at the discretion of the school board.

It now goes to Gov. Price Daniel for his action.

The House-approved lobby registration bill (HB 10) also was recommended for approval by the committee. It would require anyone who spends more than $25 in the interests of legislation to register with the state. It also would require persons or groups hiring lobbyists to register and report who they have hired.

In its longest day, almost 12 hours at work, the House worked on its local and uncontested calendar until 12:30 a.m. today before splitting hairs on some 14 motions to adjourn or recess. Many motions were to quit work until Thursday, because the Senate had not been passing more House bills. After passing 55 bills, 11 of which go to the governor for his action, the House quit until 1 p.m.

Cache Of Pure Heroin Is Seized By Raiders In Houston Last Night

HOUSTON (AP)—A cache of pure heroin which officers said they thought was imported from Communist China was seized here last night.

Walter Scotg Miller, 52, a Houston truck driver, was charged with possession of narcotics. Officers said the batch had a value of about $7,500 on the local market.

Police Capt. J. C. McMahon said Miller told him he bought the heroin in Reynosa, Mexico, last week for $200 and planned to use it himself. McMahon said, however, the heroin did not have the qualities of Mexican heroin. He said it was pure white and of a type known to come from China.

A man and woman arrested with Miller were being questioned, police said.

TOP TIRE SAFETY
at low, low price

NYLON tire

Gates Air-Float Deluxe
Regular list price $26.65
only $19.95
6.70-15 plus tax & recappable trade-in.
Other sizes and whitewalls similarly low.

Tough NYLON cord (2 miles of it) makes this tire amazingly resistant *to impacts* of all kinds.

In a deliberate attempt to damage this tire it was driven at highway speeds over rocks, chuck-holes, concrete blocks and angle irons. Ordinary tires would have been wrecked. This wonderfully safe tire wasn't hurt in any way.

In addition to this superb safety you get a tread of 100% cold rubber—the "miracle" rubber that far outwears natural rubber.

Gates NYLON *Guarantee* protects against blowouts, bruises, rim cuts—in fact, against any tire failure—for the entire life of the tread.

NO TIME OR MILEAGE LIMIT

New 1957 Air-Float at economy price

only $14.95
6.70-15 plus tax & recappable trade-in
Other sizes and whitewalls at similar low prices

★ 1st quality tread design
★ full tread width and depth
★ tread fortified with cold rubber
★ high strength rayon cord body
★ lifetime guarantee against any defect in workmanship or materials

GATES TIRES
