EX-CONFEDERATES MEET.

**Call of Sons and Daughters—Two
Veterans of Same Regiment
Have Glad Meeting.**

Bill Scurry Camp U. C. V. met in Snyder last Monday and transacted current business.

A committee was appointed to start a muster roll of all sons and daughters of the Confederacy who may be induced to go into organization of a chapter. It is desirable to keep fresh the history of that memorable struggle and posterity should be glad to perpetuate the memory of the heroism of the fathers.

Two recruits to the local camp were reported. G. W. Angell and A. M. Johnston.

An interesting incident of the last meeting is related.

When Comrade Angell gave his name for membership stated that he belonged to the Nineteenth Alabama regiment. Comrade Nation was present and there was a special reunion right there.

These two old Confeds served in the same regiment fought in the same battles, ate hard tack from the same canteen and this the same haversack, drank water was the first time they had met since the surrender.

Mr. L. L. Johnson of the Santa Fe farm demonstration department has been in the county for the past several days looking after the work of the 22 farm co-operators who are working with the Santa Fe. We learn that all farmers who are trying this special work are already fully convinced that the methods advocated by the railroads are superior to the "any old way" of farming and that next year he will have more applicants for this section than he will be able to take care of. The difference in the scientific methods and the old way can be seen right to the very row and it is to be hoped that our farmers will take careful notice of the work that is being done.

To the Snyder Merchants:

We are just in receipt of the information that the railroad commission has granted suspension of the proposed curtailment of the common point territory and that until further notice the old common point rates will apply into Snyder. However we are under the apprehension that at some later date there will again be an effort made by the lines interested to effect this change and it is up to our home people to see that we are not caught napping.

The present respite which we have gained is a big thing for Snyder and we are fortunate in the present turn of affairs.

Yours very truly,

E. J. ANDERSON, Sec.

W. F. Dalley was here Monday from Ira.

J. A. Scrivner was in Monday from Dermott.

South Side Square

Pythians Elect Officers

Scurry Lodge, No. 312 Knights of Pythias met in regular session Tuesday evening and the following officers were elected for the ensuing term:

F. V. Clark, C. C.,
J. O. Stinson, V. C.
W. W. Hamilton, Prelate
Sed A. Harris, K. or R. and S.
W. W. Davis, M. of A.
C. C. Cowling, M. of W.
A. N. Harkrider, I. G.,
C. L. Ezell, O. G.

Also a measure was put through changing the meeting night from Tuesday to Thursday of each week. Hereafter the Knight of Pythias will meet promptly at 8 o'clock on Thursday night of each week.

It is urged that all officers and members be on hand promptly.

Robert H. Curnutte has been appointed Deputy Grand Chancellor of Scurry Lodge No. 312 K. of P. by Grand Chancellor Chas. F. Welland of Dallas.

Mr. Garner who left here a month ago to attend the Confederate reunion at Macon, Ga., returned on Wednesday. He visited at Pulaski, Giles county, Tennessee while he was away.

Miss Lela Stagner left Sunday for Canyon City where she will attend the West Texas State Normal.

Miss Helen Kiser left Sunday for Canyon City to attend the State Normal.

R. H. Thompson of Columbia, Tennessee arrived here Wednesday to look after his property interests. He owns a large farm east of town and also the Maxwell hotel property.

Mrs. W. V. Roy of the Big Four Ranch is the guest of her sister Mrs. Mac Taylor.

Mr. D. F. Wilson has completed the scholastic census of Snyder Independent district and finds 287 boys and 263 girls within scholastic age. This shows a total of 550 which is a decrease of 81 from last year.

Mr. B. F. Wilks of Post City is here for a few days on business.

Stop, Look and Read This

WHAT IS A WATCH?

How few among the many who own and carry watches ever stop to ask themselves this question, or to think it is the smallest most delicate piece of machinery ever constructed, and yet it is expected to indicate the correct time at all times during the day or night for a period of at least one year without being cleaned or oiled.

Is depended on for every action of our lives, is expected to be perfectly regular in its habits, no matter how irregular we may be in ours, that it must indicate the very second, the time for all our most important engagements and must not vary a second a day without calling down upon its poor defenseless head our strongest disapprobation

A Watch is composed of some 175 different pieces, comprising upwards of 2,400 separate and distinct operations in its manufacture. The balance has 18,000 beats or vibrations per hour, 12,000,000 in thirty days; 153,680,000 in one year. It travels 1.43 inches with each vibration, which is equal to nine and three-fourths miles in 24 hours; 262 1-2 in thirty days, or 3,558 3-4 miles in one year. The amount of oil used in oiling the entire watch is about one-tenth of a drop, while the oil that can be used in the balance jewels with safety must not exceed one hundredth of a drop. On this minute quantity the balance must feed during its 3,558 3-4 miles of travel in the course of one year, after which the oil becomes dry, begins to wear out the pivots, and necessitates a cleaning and oiling of the watch to have it keep accurate time.

Did you ever stop to think how necessary, therefore it is to have your watch cleaned and oiled once a year. I make a specialty of it and guarantee perfect satisfaction.

H. G. TOWLE, Jeweler and Optician, Snyder, Texas

DYNAMITING FOR RAIN.

June 3rd, 1912.
Mr. J. S. Hardy, Editor,
Snyder, Texas.

Dear Sir—Here with I enclose to you correspondence from Mr. C. W. Post relative to the rainmaking process now being employed by him and which has met with unquestioned success so far. I trust you will give this matter space in your paper and further state that if the farmers and ranchmen in this section wish to try the rainmaking stunt it can be handled at small expense. I will explain to those interested how this will be handled provided our people are sufficiently willing to do their part in the matter.

Yours very truly,
E. J. ANDERSON,
Secretary.

May 31, 1912

Mr. E. J. Anderson, Sec.,
The Business League,
Snyder, Texas.

My Dear Sir:

Yours of the 28th received.
Enclosed directions for rain making will supply the information desired, I think.

I hope you will begin to work in your district.

We have had most excellent results.

I am unable to give you any intelligent opinion regarding the advantage to be obtained by several counties shooting a battle at the same time. Such a plan would be difficult to manage and in some of the counties probably the humidity would be so low that it would be difficult to obtain good results.

The hygrometer we have is made

by Schaeffer & Budenberg, Chicago Ill.

Yours very truly,
C. W. POST

Directions for a Rain Making Battle:

So many requests for information regarding our rain making experiments, have been received that a general statement has been prepared as follows:

I cannot lay claim to the discovery that heavy concussions produce rain, this discovery was made a great many years ago, and long before my birth. It is true that I have organized the experience of the past into a working plan that mankind may use, for his advantage and betterment and have secured favorable results.

Some facts which have led me into the work, may be recounted. It is said that Napoleon first, in arranging his campaigns planned to move his troops after a battle over a muddy highway. His concern evidently was for artillery. He thus planned as a result of experience and observation that rain always followed a battle.

Major Benham, a member of the Engineer Corps, during the Mexican War, reported that heavy rains followed the battles of Chapultepec, Buena Vista, Molina Del Rey and other battles with the Mexicans and he commented upon this as noticeable occurrence from the fact that these battles took place during the driest seasons of the year in that exceptionally dry country.

The records show that 196 battles of the Civil war were followed by rain. Other statistics show that in 22 years, the explosions on the 4th

of July in Chicago, were followed by 18 rains. Whereas in three years where the 4th of July has been observed in the "sane" manner, no rains have occurred.

In 1890 Congress appropriated \$9,000.00 for rain making experiments and placed Gen. Dyrenforth in charge. He proceeded to West Texas, about 125 miles Southwest of my ranch headquarters and there fired heavy charges of powder from the earth and also put up some balloons filled with gas which he exploded in the upper strata. His reports indicate that his battles were followed by heavy rains. No one seemed to take sufficient interest to obtain another appropriation from Congress, and no individual seemed willing to continue the experiments at his own expense until 21 years after, when necessity prompted me to organize the work on a practical basis and get at it.

I have been quite willing to keep banging away at a cost of from \$800 to \$1,000 a battle and fortunately have made money as a result. In looking backward I am led to wonder why some one did not do this work in a practical way many years ago, then I wonder why I did not get at it a good many years ago, the facts were there and only needed to be compiled and made use of, but the time did not seem right. Nevertheless I am very well pleased with even the late use that has been made of these facts.

We are still a long ways from a complete knowledge of the laws governing rain production. For instance, we don't know why the instruments show a decrease of humidity shortly after a battle begins; we used to think there should be an increase. We don't know how high the vibrations carry and how much they disturb the upper strata, but we do know that the molecular vibration of the atmosphere carries the sound of shots from 40 to 50 miles. We get reports from towns surrounding Post City, telling us when they began to hear the firing and how conditions of wind and atmosphere changed gradually in their own particular localities and when rain began. It will be remembered that the rains which we produce are local and we have no definite knowledge of why they should come from one point at one time, and other points at other times.

It can be readily seen that we are still in the primary school, so far as a complete education in this rainmaking art is concerned. We keep accurate records of conditions and results and at the end of two years of rain making, these records will be turned over to the Agricultural department to solve the problems. In the mean time we go on in a practical way and get the rains which make our crops and grow our grass in the pastures.

Locate fifteen firing stations about 250 yards apart and as far as possible in a straight line, this will make a battle line about two miles long. No station shall be nearer than three or four hundred yards to a house in order to be quite sure that no windows will be broken by the pressure of the air. At each one of these stations build a shield by placing two pieces of 4 x 4 timber in the ground at a slight angle, these pieces should be three feet apart and then build a facing of boards 1 x 4 or 1 x 6 tongued and grooved. These should be nailed on to the 4x4's so as to make a shield five feet wide and four or five feet high, leaning like an exceedingly steep roof. This shield is to protect the small store of dynamite from being struck with flying pebbles which may be driven through the air if shots should be fired in a rocky spot. If men who do the firing get careless and fire their shots from the side of the shields some wings should be built on each side so as to further enclose the small store of dynamite.

Last year we used two pounds at a shot but now believe that we get better results with 3 pounds at a shot. Therefore 4500 pounds of dynamite are used at each battle, there being 15 stations and each station fires one hundred shots, a total of 1500 shots, each shot weighing three pounds. We use what is known as 60 per cent dynamite and has far secured our best results with that which is known as Aetna; use No. 6 caps and about a three minute fuse.

At each station is placed 300 lbs. of dynamite in boxes; it comes in sticks about 1 1/4 inches in diameter and about eight inches in length. There are directions for firing accompanying the boxes, the plan is very simple. We have thus far preferred firing with fuse rather than battery.

Our men are cow-boys, farmhands and general rustlers. We deliver the dynamite at the different stations before noon, then the men assemble immediately after the noonday meal

and either walk or ride to their respective stations, two men going to each station. After opening one box, one man begins by tying into a bundle, six of the sticks which weigh one half pound each, he then slips the fuse under the string and into the hole in the side of one of the sticks, this hole he makes with an ordinary piece of pine wood, which has been whittled round.

Of course the cap must be first crimped on the end of the piece of fuse and the cap end of the fuse is inserted into the stick of dynamite. It may be explained that dynamite has about the consistency of cheese, being rather safe and easily handled. It is now manufactured so that it will not readily explode until it has been struck a heavy blow; it is the fulminating cap, which the burning fuse sets off that in turn explodes the dynamite.

The two men at each station alternate in preparing the bundles and one at a time carries them away from the firing station from 75 to 100 yards, just as they prefer. The bundles of dynamite are then laid on the ground and the fuse lighted on its extreme end. The men then retire to firing station having time to reach it before the explosion occurs. Some times our men carry out two bundles at each trip from the firing station. He sets the first bundle off to the right of what would be straight ahead of the shield, and after lighting it goes to the left of what would be straight ahead of the shield and lights the other bundle and then retires to the shield. This saves a little time and travel.

The men soon learn to do their work promptly and accurately; the whole proceeding is so simple that after a few shots have been fired the proceeding is easily understood by everyone. Some men experience a headache if they handle much uncovered dynamite with an uncovered hand. This can be prevented by rubbing vasoline on the hands or wearing fresh cotton gloves, the gloves should not be worn after they become saturated to any great degree with what might rub off the stick for if the gloves are saturated they would be more likely to cause headache than if the hands were bare.

It is important that each man put a little piece of cotton in each ear. They are first inclined to sneer at this precaution, but the heavy pressure of air at each explosion produces headache with some men, not all; and where they take headaches they are disinclined to help in another battle.

Whoever has charge of the battle should allay the nervous apprehension of the men for it is useless to get nervous, nevertheless a certain amount of nervousness is shown by a proportion of the men. They quickly get over it however.

There is no regularity about the firing. Let the men begin banging away just as soon as they get ready and fire their shot right along until their ammunition is exhausted. It takes from three to four hours to fire a battle.

We have fired on a perfectly clear day with a trifle over fifty percent of humidity in the atmosphere, but we much prefer to select a day when there are at least thin feather clouds showing and the hygrometer shows from 70 to 90 per cent humidity, for under these conditions we expect a rain to come quicker and last longer. On one occasion we fired a battle in clear sky with the hygrometer reading 57 per cent of humidity. It was 9 1/2 hours before the first rain came which arrived from the south and another came thirty hours after the firing, the last one arriving from the north, evidently coming towards a general center of disturbance which we had created. Both of these rains were what might be called local but they came over a distance of thirty or forty miles and taking in a width of 8 or ten miles.

At each battle thus far we have had a different combination of conditions that is to say, at one battle, the hygrometer might be from 70 to 80 degrees of humidity, the wind from the southeast and a comfortable number of clouds showing; another time the humidity might be the same but the wind in another direction and even heavier clouds, and still at another time the wind might be in the same direction the sky clear and the humidity less or greater. There is such a variety of combinations of the different conditions that every battle is an experience.

We have been firing through the season of 1911 and at this writing, the last of May 1912 we have only required two battles, both of which have been successful and we had no failures last year except the first battle at which only 175 shots were fired, not enough to produce results of any value.

West Texas has an abundance of moisture passing over in shape of clouds. Frequently the sky will be

Don't Suffer!

"I had been troubled, a little, for nearly 7 years," writes Mrs. L. Fincher, in a letter from Peavy, Ala., "but I was not taken down, until March, when I went to bed and had to have a doctor. He did all he could for me, but I got no better. I hurt all over, and I could not rest. At last, I tried Cardui, and soon I began to improve. Now I am in very good health, and able to do all my housework."

TAKE CARDUI The Woman's Tonic

You may wonder why Cardui is so successful, after other remedies have failed. The answer is that Cardui is successful, because it is composed of scientific ingredients that act curatively on the womanly system. It is a for women, and for women only. It builds, strengthens weak and ailing women, to health and!

If you suffer like Mrs. Fincher did, take Cardui surely do for you, what it did for her. At a

Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., for Special Instructions, and 64-page book, "Home Treatment for Women."

GISTS.

Tenn. re. 100

cloudy for two or three days, but for some reason the moisture refuses to precipitate and all too frequently the clouds gradually fade away and leave the ground parched and dry.

We have in this section an average natural rainfall of about twenty to twenty two inches per annum, but if left to nature the rain is distributed at unfavorable times. It might deposit a good proportion of its quota of rain during the winter, then in early spring the rains come along and flatter the early growing crops until they get up to good size when the rain quits and holds off until the crops suffer and in some years absolutely die. It is at such times that we fire a battle and precipitate the moisture which refuses to come down without these concussions. By thus producing rain at times of need, we have been enabled to secure crops that otherwise we would not have raised.

This record of my observation and experience is willingly given to the world in the hope that others will make use of the methods which, thus far have been of great assistance to this community.

Respectfully,
C. W. POST.

Miss Era Bynum left for Canyon to attend the State Normal.

Senate Polled on Lorimer

The United States Senate will vote on a resolution offered by a majority of a special investigation to white wash Senator Lorimer of Illinois whose election to the senate is a stretch to the nostrils of the American people. The committee recommends that he be permitted to retain his seat.

Vice President Sherman however feeling doubtful about the body of the Senate agreeing to the white wash went to Illinois and urged Lorimer to resign and escape the disgrace of expulsion but he refused to resign. Since then a poll of the Senate has been taken and it is said that 54 senators favor ousting Lorimer and 37 will vote in his favor.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

Will trade a new \$65 White or a Will C. Fell Sewing Machine and a good work horse for a small young horse.

STILL ANOTHER RAILROAD FOR SNYDER

Estacado and Gulf Now Building Into Roby and Steel Purchased For Extension Westward.

Snyder will get another railroad within the next twelve months and it will be no snide road either, but a trunk line from Ft. Worth to New Mexico.

The building is already in process and it only remains for the people of Snyder to get busy on the proposition and get in touch with the promoters of the Estacado & Gulf.

The Roby Banner puts the case up to Snyder in the following Statement of Facts.

"Mr. M. J. Healey of Texico, N. M. arrived in town Thursday as was expected and began getting things in readiness to begin the work on the completion of the Estacado and Gulf Railroad into Roby.

Mr. Moore, a civil engineer is with Mr. Healey to make an examination and inspection of the property. This will be done at once when Mr. Moore will go to Austin to confer with parties there.

Mr. Healey has bond drawn and prepared and will send it to Dallas to the general office of the bonding Company as soon as it is approved by Mr. Encke the receiver. Then it will be signed and returned to the proper authorities in Roby.

F. C. Eastland of Austin, Texas, representing St. Louis and Chicago interests will be here on Mr. Moore's return from Austin and at that time real work will begin. Until that time various preliminaries will occupy the attention of the promoters as it is necessary to organize forces for the various lines of work. Laborers will be secured and a construction camp will be established preparatory to making the dirt fly.

In the interview with Mr. Healey he stated that it was the intention of the company to complete the Roby part of the work in sixty days or thereabouts, barring unavoidable delays.

The work is advanced to the point that Mr. Healey has arranged to have shipped sufficient steel to lay this track and put the present road in first class shape. The extra steel is for the extension toward the west. It is the intention of the Company to extend the road as rapidly as possible toward the west, perhaps to Snyder and on to Gail. Gail is likely to be the terminus for awhile after having reached this latter point, the company has some other plans that will make it necessary to do work in other directions.

This matter of extension is in line with our statement relative to this road. This road will be something more than a tap line running from McCauley. It will be extended west as we have outlined above and then on the east it will make a valuable eastern connection and that will put all this section on a direct line with the larger eastern centers of Texas.

We especially hope to see this line extended through to Snyder as that is a good town and will also give us a connection with the Santa Fe.

We would like to see our western neighbors get busy and take up this proposition as we have information that this road will be completed on time and be a real road in the sense that it will be one of the larger lines when the truth is known. These Western neighbors need us and we need them. Let us make mutual effort.

MEDICAL SOCIETY MEETING

Professional Subjects Discussed in Public Meeting at Night.

It was the pleasure of Snyder on Tuesday of this week to entertain the Scurry-Kent-Dickens tri-county Medical society.

The society met in regular session at the Court House in the afternoon and discussed a number of subjects.

The following program was before the society.

Paper—Dr. A. R. Ponton. He was not present.

Paper—Dr. L. O. Dodgeon of Sweetwater. Inginal Hernia with special reference to Strangulation.

Paper—Dr. W. R. Smith of Colorado, Texas "Bacteria Therapeutics"

Voluntary papers.

Talk—Dr. N. J. Phenix of Colorado City, Counselor No. 2 Big Springs district.

Report of Clinical cases. Besides the doctors on the program there were present—Dr. Howell, president of the Society, and Dr. Kirkpatrick, Secretary of the Society.

Other local physicians of the city were in attendance.

Out of town visitors were:

Dr. Fuller of Colorado,

Dr. Yeary of Ira,

Dr. Brock and Dr. Drury of Hermleigh,

Dr. Trigg of Dunn,

It is always interesting to hear the doctors discuss medical subjects.

One can always learn something new at such meetings.

On Tuesday night there was an open meeting and a nice program was rendered.

The guests were welcomed by M. E. Rosser and the welcome was accepted by H. M. Boyd.

Miss Faught rendered a vocal and a violin solo with Mrs. Weaver as accompanist.

Miss Zada Monroe entertained the audience with a humorous reading.

The main feature of the evening was an address by Dr. Phenix of Colorado on the abuses of the medical science.

His speech was entertaining and his audience was often moved to laughter.

He criticized Christian Science, faith healing and osteopathy and went after patent nostrums, pink pills, peruna and the patent medicine family in general and put a stamp of disapproval on newspaper advertising by doctors.

R. E. King of Midlothian arrived here Monday to visit his father Dr. E. J. King. He says that crop conditions are very fine in Ellis county this year.

J. E. Eubank for Re-election

Mr. J. E. Eubank authorizes the Signal to announce him as a candidate for reelection to the office of County Surveyor of Scurry Co. subject to the democratic primaries.

Mr. Eubank thoroughly understands the surveying business. He has spent many years in the work and is familiar with land conditions in West Texas. He is now serving his first term as surveyor for Scurry County, and he has made a good officer. He is familiar with land lines and field notes of Scurry county lands and it is a pleasure to him to give information to enquirers about land matters in his territory.

He has proven his ability as a surveyor. He is honest and capable and is asking for a second term strictly on his merits. Consider his claims.

Choice B. Randell Coming.

Congressman C. B. Randell will speak at the Court house in Snyder on Friday night, June 14 and the people of Scurry county are cordially invited to hear him. He is a candidate for the United States Senate and he knows what a Senator ought to stand for.

He has been in Congress for ten years and has never gone back on democratic policies nor betrayed the people whom he was elected to serve.

He wants to meet and speak to every voter in Scurry county.

Services at Grace Church

There will be services at Grace Episcopal church by the Rev. E. Cecil Seamon on Sunday the 9th inst. Holy communion will be celebrated at 10 o'clock a. m. and morning prayer with sermon at 11 o'clock a. m.; every one is cordially invited to attend.

Dr. Scarborough Buys Home

Dr. A. O. Scarborough has recently purchased from Mr. B. F. Pryor that good residence corner south of the square recently occupied by W. A. McCullough and family. The doctor says he will move to the place in a short time and will improve the property.

Last Sunday preaching at the second Christian church was well attended. Bro. A. J. Bradberry delivered a splendid sermon on Faith.

Mrs. Jim Dawson and daughter Dura have returned from visiting at Clairmont.

Mrs. P. Petit of Merkel is the guest this week of Mrs. W. C. Fullilove.

Emmett Tracy of Ira was a pleasant caller at the Signal sanctum.

W. I. Scrivner who left the Dermott country last year to establish himself in Glasscock county has been here for some days looking after business affairs and called on the Signal Monday and deposited the coin for another year for the Signal and the Dallas News.

A number one six year old milk cow for sale, good condition. The Blackard-Johnson Hardware Co.

N. A. Brown and G. E. Bradford representatives of the Great Western Loan and Trust Company, capitalized at \$500,000 and to be located at Sweetwater are here in the interest of their company.

Their purpose is to loan money on West Texas land securities and will be as great benefit to the west as to its organizers.

THE LODGES

SCURRY LODGE 706 A. F. & A. M. Meets on Saturday night on or before the full moon. Visiting brothers invited.

T. J. FAUGHT, W. M. C. L. EZELL, Secretary.

SNYDER CHAPTER No. 236 R. A. M. Meets on Saturday night on or before the new moon. Visiting companions invited.

J. W. WARREN, H. P. G. W. BROWN, Secy.

A new shipment of cedar charcoal at Blackard-Johnson Hardware Company.

The Snyder Ice, Light and Power Co.

Equalizers Adjourn.

The county commissioners court were engaged for three days this week in equalizing tax renditions. It is understood that very few changes were made from the Assessor's estimates and the people interested were satisfied. It will be footed up and the tax rate fixed.

J. S. Golden of Canyon has had his residence remodeled and enlarged. He now has a good comfortable farm home of six rooms with all kinds of conveniences. Sam Hull did the carpenter work.

A. E. Reed, candidate for tax assessor and Guy Scott candidate for representative were here Monday from Hermleigh. G. W. Mayo also of Hermleigh was here. He says he runs the best hotel in the town.

J. W. Wemken was here Monday from Hermleigh to size up the First Monday crowd.

JOHN BROWNING

Editors Offend Court.

Austin, May 31—Another interesting chapter has been added to the five year fight over the proposition to remove the headquarters of the Kansas City, Mexico and Orient railway from Sweetwater to San Angelo when the Supreme Court cited R. H. Richardson and L. F. Wade proprietors of the Sweetwater Reporter to appear and show cause why they should not be adjudged in contempt of court and punished by a fine not exceeding \$1000 and by confinement in the county jail, not exceeding twenty days. The hearing is set for 10 a. m., June 3rd.

The article back of the Court's order appeared in the Sweetwater paper May 24 while the case of Hovey, et al against James L. Shepherd the district judge, the same being the famous writ of prohibition was pending before the court. It read as follows:

"While the decision of the Supreme Court was made formally public only last Wednesday the Reporter has it on the testimony of several reputable citizens of this city that it was definitely known here a week ago what the action would be. In fact one gentleman tells us that on Wednesday May 15, an employee of the Orient asked him if he hadn't yet had a tip as to what the decision would be and when told that he had not, the Orient man said that the tip had been given the Orient people here and that they were ready to move. We do not think the tip given of the Supreme Court's decision in advance treated us fairly in not giving us the tip like it did the Orient people. However we got it a week in advance of the rendition of the opinion through the Orient people."

Wade is the editor of the paper. Precepts were mailed out to the sheriff of Nolan county in the proceedings today.

Simple Mixture Used in Snyder

Many in Snyder are now using the simple buckthorn bark and glycerine mixture known as Adler-ika the new German Appendicitis remedy. A SINGLE DOSE relieves constipation, sour stomach or gas on the stomach almost instantly. This simple mixture antisepticizes the digestive organs and draws off the impurities and people are surprised how QUICKLY it helps. For sale by the Snyder Drug Co.

FLUVANNA FACTS

From our Regular Correspondent:
Good rains fell in and around this neighborhood Friday evening

Dr. J. O. Lane visited Snyder on Medical convention day.

The Odd Fellows and their families and a few visiting members enjoyed an ice cream supper last Saturday night. They intended to have some speaking on the fraternity subject, but somehow the speaker did not show up. Music was furnished by the Fluvanna string band and all report an enjoyable time.

Mr. and Mrs. J. S. Weatherford, Mr. and Mrs. B. N. Green and Mr. and Mrs. B. F. Chancellor all of Gail attended the Odd Fellow's supper here Saturday night.

Mr. Ed. Lane's mother of Gorman Texas is visiting with her this week.

Dowdy and Belew received a car of binders this week and several are getting ready to cut their oat and wheat crops.

Fred Morris left on Tuesday's train for Fort Worth to visit with the home folks for a few days.

The crew that has been putting the houses back on their blocks report that they expect to finish the work this week.

W. P. Copeland and family and Mr. Bryant and family, all of Roscoe visited our town Sunday.

The work of rebuilding the Methodist church is progressing nicely. About twelve men are working on it and they think it will be ready for services by the last of the month.

Mrs. Sam Beavers of Oklahoma City is visiting her mother Mrs. D. C. McGregor this week.

Mr. James Cowan of Sweetwater is visiting his brother Edgar of our town this week.

Mrs. E. Moon of Roscoe bought out the Isley Brothers restaurant and has taken charge. We are glad to have her with us and wish her success in the business.

Mr. J. F. Dowdy and family moved to San Bonito last week. We regret to lose these good people.

At this writing Mrs. F. E. Pyeatt is reported very sick with appendicitis. Dr. Howell of Snyder was called to assist our local physicians in preparing for an operation if such is necessary. It is the wish of their many friends that she will soon recover.

Mr. and Mrs. J. M. Hunter visited Snyder Friday.

Mr. J. W. Knight moved his family back from Justiceburg last week.

Mr. A. B. Waldron, Travelling Freight Agent for the Texas and P. Pacific visited our town last week looking after business.

Mr. A. W. Boucher came in on Wednesday to meet his two sons, Vanille and A. W. who have been attending school at Fort Worth for the past year.

Mrs. W. L. Bedwell of the Bethel community was a visitor at the Signal office Wednesday and had the paper sent to her address. She was accompanied by her two pretty little daughters, Edna Drucilla and Maulee.

A little bird from Brownwood recently told State Press that the only man in Central West Texas who is opposed to Will H. Mayes for Lieutenant Governor is an eccentric old gentleman who got mad at Mayes because the latter wouldn't accept a gallon of muscadines in exchange for a year's subscription to the Brownwood Bulletin.—State Press in Dallas News.

The Signal believes it true that if that one west Texan opposes Mayes he is the only one, but who can blame him. A man who can't appreciate the exhilarating juiciness of a muscadine betrays a lack of acquaintance with the grape family and that old nestor is justified in discounting the range of wisdom of any man who doesn't know the delicious Arkansas product.

Remember the farmers mass meeting at the Court House Saturday afternoon to elect delegates to the Farmer's Congress to be held at College Station.

THROW OUT THE LINE

Give the Kidneys Help and Many People Will Be Happier

Throw out the Life Line—The Kidneys need help. They are overworked—can't get the poison filtered out of the blood. They're getting worse every minute.

Will you help them? Doan's Kidney Pills have brought thousands of kidney sufferers back from the verge of despair.

Read this case: J. H. Chapman, Sweetwater, Texas says: "Doan's Kidney Pills have done me a world of good and I believe they are the best remedy to be for kidney trouble. Some years ago I had severe pains across the small of my back and in my sides. I was growing worse all the time and fortunately I saw Doan's Kidney Pills advertised. I got a box and in a short time after I used them I was cured. I heartily recommend this excellent remedy."

For sale by all dealers. Price 50c Foster-Milburn Company, Buffalo, N. Y. sole agents for the United States.

Remember the name—Doan's—and take no other.

NEW PICTURE SHOWN HERE

Opera House Leased and Pictures Shown Every Night.

Messrs Simmons and Cordell have leased the Snyder Opera House for this season and have opened up a moving picture show.

They have been running all week and expect to build up a good business and furnish a place of amusement that will be a credit to the town. They intend to show nothing but pictures of the highest class and cater especially to the ladies and children.

Their pictures this week have been very good and instructive and the Signal predicts for them a good little business.

Mr. W. S. Gussalus, a farmer living near Fleming, Pa., says he has used Chamberlain's Colic, Cholera and Diarrhoea Remedy in his family for fourteen years, and that he has found it to be an excellent remedy, and takes pleasure in recommending it. For sale by all dealers.

Dress Making Announcement

We have secured the services of Miss Jackson of Brownwood in our Dress Making Department and are prepared to handle the higher class of this work.

Miss Jackson is a Modiste of reputation having had charge of similar departments of the larger city stores. She has taken special courses in this work under the best New York Dress Makers and is now under their supervision.

We invite the public to come and make Miss Jackson's acquaintance.

Ends Hunt for Rich Girl

Often the hunt for a rich wife ends when the man meets the woman that uses Electric Bitters. Her strong nerves tell in a bright brain and even temper. Her peach bloom complexion and ruby lips result from her pure blood; her bright eyes from the restful sleep; her elastic step from firm free muscles all telling of the health and strength Electric Bitters gives a woman and the freedom from indigestion, backache and headache, fainting and dizzy spells they promote. Everywhere they are woman's favorite remedy. If weak or ailing try them. 50 cents at all druggists.

Mrs. Roland Wood has returned from a visit of a month in Georgia.

Move on Now.

says a policeman to a street crowd and whacks heads if it don't. "Move on now" says the big, harsh mineral pill to bowel congestion New Life Pills don't bulldoze the bowels. They gently persuade them to right action and health follows. 25 cents at all druggists.

Mrs. M. A. McLaughlin, 512 Jay street La Crosse, Wis., writes that she suffered all kinds of pains in her back and hips on account of Kidney trouble and rheumatism. "I got some of Foley's Kidney Pills and after taking them for a few days there was a wonderful change in my case for the pain entirely left my back and hips and I am thankful there is such a medicine as Foley's Kidney Pills. For sale by Snyder Drug Company.

Man Coughs and Breaks Ribs

After a frightful coughing spell, a man in Neenah, Wisconsin felt terrible pains in his side and his doctor found two ribs had been broken. What agony Dr. King's New Discovery would have saved him. A few teaspoonfuls ends a late cough while persistent use routs obstinate cases and promptly and surely heals weak, sore lungs. "I feel sure that it is a Godsend to humanity" writes Mrs. Effie Morton, Columbia Mo., "for I believe I would have consumption today if I had not used this great remedy." It is guaranteed to satisfy and you can get a free trial bottle or 50c or \$1.00 sizes. All druggists.

Miss Lenora Bibbee is attending the Normal school at Pecos City.

RANDOM SHOTS

We had a shower Friday but the weather has been so hot since then that it seems of little benefit.

There was a good rain at Crowder and heavier south of the school house. Some wind. Will Thomas' barn was blown to pieces.

Grandpa and Grandma Meador have moved back home.

Joe Cadell has had a good cow and calf and several head of hogs to die since our last report.

Mrs. Wilson also has lost several hogs.

We think the Scurry county farmers ought to learn a lesson from so much feed buying.

There is no use to pay \$1.10 a bushel for corn and other stuff in proportion—to the amount of thousands of dollars when we ought to be selling feed. It is poor policy to send several thousand dollars out of the country for stuff that we can raise at home. If we would plant feed from March till July we wouldn't be buying feed to make a crop on.

Some one may say that with such a surplus it would be so cheap we couldn't sell it for anything. So much to the good. We could have fat horses and cattle and hogs and not have to pay out our cotton money for feed.

Lots of feed insures fat stock—plenty of meat and lard, poultry and eggs, milk and butter and general independence.

With these and a garden and an orchard we could live well and keep out of debt. Even if feed should be high, it should pay better to feed it and sell the stock.

Live stock will nearly always bring good prices.

SPECTATOR

Presbyterian Services.

Rev. U. C. Howard, the pastor of the church has returned and thinks he will preach on the following subjects Sunday.

11 a. m.—The Parable of the Sower or Seed and Soil.

8:20 p. m.—Concord of Conduct and Conviction.

The evening service especially will be short.

Presbyterian ladies, urge men to come without their coats.

Plenty of fans. The public invited.

Stiff neck is not only painful, but annoying. To get rid of it quickly rub the affected parts with Ballard's Snow Liniment. It penetrates the flesh and relaxes the muscles so that the pain ceases immediately. Price 25c, 50c and \$1 per bottle. Sold by all druggists.

At the Baptist Church

The regular services at the Baptist church Sunday.

Sunday School at 9:45 a. m.

Preaching 11 o'clock by the pastor. Subject: "Standing for God."

Night Subject: "Doing Good for God's Sake."

The public cordially invited to each of these services.

M. C. BISHOP, Pastor.

Resolution of Appreciation

At the regular meeting of the Mission Society Monday afternoon, the following resolutions were unanimously adopted, ordered spread up on the minutes and a copy sent to Mrs. McCullough:

Whereas, our dear sister, Mrs. W. A. McCullough has been such a faithful friend and worker in our Society and having removed to Paris, Texas, will be sadly missed,

Therefore be it resolved, that we individually, and as a Society, deplore her loss and shall miss her more than she can ever know and that we extend to her, our love and prayers in her new home, and trust that she may find there an opportunity for her kindly heart and willing hands to continue their usefulness in the Master's vineyard.

Signed:

MRS. H. G. TOWLE, Pres.

MRS. J. W. HUNT, Sec.

On behalf of the Society.

A Card

This is to certify that Foley's Honey and Tar Compound does not contain any opiates, any habit forming drugs or any ingredients that could possibly harm its users. On the contrary, its great healing and soothing qualities make it a real remedy for coughs, colds and irritations of the throat, chest and lungs. The genuine is in a yellow package Ask for Foley's Honey and Tar Compound and accept no substitute. Snyder Drug Co.

Gabe Lucas of McKinney spent Monday night in Snyder but he was kinder sick and kept close in.

Helped to Keep Down Expenses

Mrs. J. E. Henry, Akron, Michigan tells how she did so. "I was bothered with my kidneys and had to go nearly double. I tried a sample of Foley's Kidney Pills and they did me so much good that I bought a bottle and feel that they saved me a big doctor's bill." The Snyder Drug Company.

Quite a good deal of interest centered here Thursday in a lot of young coyotes being shown by some small boys. Two of the varmints were boxed and shipped to D. H. McMahan at Bremond and a traveling man paid the boys fifty cents for another.

Prohibition Election Called in this County

In accordance with the election laws a prohibition election cannot be held sooner than two years after the last election was called. This time restriction is not recognized, however, by the people in recommending Hunt's Lightning Oil for Neuralgia, Rheumatism, Headaches etc. For thirty odd years it has been acknowledged to be the best. Sold everywhere in 50c and 25c bottles.

Mr. and Mrs. Walter Adamson have moved to the L. S. Knight home to reside.

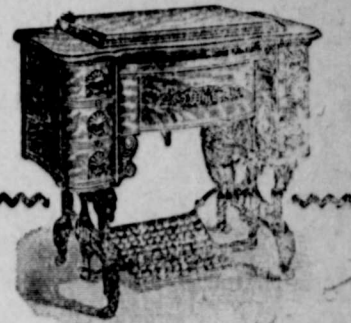

A citizen from Knapp was in town Thursday looking for his 16 year old daughter and her lover, who it was said slipped away Wednesday night to get married. He had not learned where they went.

J. D. BOYD,

South-west Corner Sqr. Snyder, Texas.

They Put an End to It

Chas. Sable, 30 Cook St., Rochester N. Y., says he recommends Foley's Kidney Pills every opportunity because they gave him prompt relief from a bad case of kidney trouble that had long bothered him. Such a recommendation coming from Mr. Sable is direct and convincing evidence of the great curative qualities of Foley's Kidney Pills. For sale by Snyder Drug Company.

Senator Bailey says a man, even though dead should be permitted to be heard and then he gave expression to his contempt for that part of the Houston platform which would bar a Senator from taking employment to work for firms, corporations and such concerns as may be interested in legislation.

This is So.

We wish to state in as plain and vigorous way as words can express it that Hunt's cure will positively, quickly and permanently cure any form of itching, skin disease known. One box is guaranteed to cure. One application affords relief. All dealers.

Electric Bitters

Made a New Man of Him.
"I was suffering from pain in my stomach, head and back," writes H. T. Alston, Raleigh, N. C., "and my liver and kidneys did not work right, but four bottles of Electric Bitters made me feel like a new man."
PRICE 50 CTS. AT ALL DRUG STORES.

Alderman Wilson Resigns

At a regular meeting of the City Council last Monday night, Mr. D. F. Wilson resigned the position of alderman for Ward No. 1.

His business affairs made this step necessary.

Mr. Wilson has been a member of the City Council for something more than four years and has made the city an honest, careful councilman.

He has assisted in putting through a number of measures for the good of the city and has seen the city take rapid and decided forward strides in civic advancement.

ICE.

We have started wagons in the residence part of town. Have your refrigerators ready early. Get your coupon books while they last. Ice strictly cash.

10tf

Darby & Son.

The Eighteenth annual convention of the City Marshals will be held at San Angelo on June 11, 12, 13.

The chamber of commerce in sending out invitations to the Marshals to be on hand says: "We have the only town for refreshments between Fort Worth and El Paso" That may catch some of the boys but such an appeal as that falls flat when it comes to the marshals of Snyder.

Congressman Randall Coming

It is announced that Hon. Choice B. Randall candidate for United States Senator will address the people of Scurry county at the District Court room in Snyder on June 14.

Congressman Randall is an old line Democrat. He believes in honest government and insists that when a man is elected to Congress he should give his time and energy to the promotion of the interests of the country whose servant he is. We should give him a good hearing.

R. C. Herm, an orthodox philosopher of Hernleigh was in town this week and heard the people discussing the matter of rainmaking. He said: "If men can take explosives and make rain it looks good, but when men go to taking the Lord's business into their own hands, they are liable to be cut off."

Rev. J. A. Howard of Dallas editor of the Baptist Standard spent last Tuesday in Snyder the guest of Pastor Bishop of the Baptist church. Dr. Howard was telling about an instrument invented by a friend with which he can detect and locate oil deposits. If the thing will work with any degree of reliability that fellow has a fortune.

A TEXAS WONDER.

The Texas Wonder cures kidney and bladder troubles, removing gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder trouble in children. If not sold by your druggist will be sent by mail on receipt of \$1.00. One small bottle is two month's treatment and seldom fails to perfect a cure. Dr. E. W. Hall, 2926 Olive street, St. Louis, Mo. Send for Texas testimonial

We have a man right here in Snyder making good brooms and a number of Scurry county farmers are growing broom corn. Let us hope that every woman in Scurry county will use nothing but Snyder made brooms.

For soreness of the muscles, whether induced by violent exercise or injury, there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by all dealers.

The Graham Leader says that Colquitt had been governor more than a year but had never thought of abolishing the bullwhip till Judge Ramsey told what he would do—then it was done in a few hours.

Madame Cleo has been here this week giving palm readings and clairvoyance and she states that her patrons are well pleased. She expects to be back in Snyder in a few weeks.

Mrs. Dr. Morrow and daughter gave a pleasant party Saturday afternoon in honor of Thelma McCullough who was to move away this week.

Buy it now. Chamberlain's Colic, Cholera and Diarrhoea Remedy is almost certain to be needed before the summer is over. Buy it now and be prepared for such an emergency. For sale by all dealers.

If we can get rain by shooting for it then why not shoot? Too many wonderful things have already been done by science for us to under take to say that it cannot be done.

The New Eight Hour Law

The United States Senate has passed the eight hour law. This measure comes in response to a demand of organized labor and therefore a majority in the Senate, in order to placate that very large element of voters have put upon the country a law that is of uncertain validity.

As argued by Senator Bailey who opposed the passage of the bill it is apt to increase the cost of production and the people will have to pay the difference. The law will have no effect, probably on farm labor because a farmer cannot make a crop with 8 hour labor, but he would have to pay the higher prices for everything he buys.

The bill provides that the government shall purchase no supplies of any manufacturer, firm or company where the hands are worked more than eight hours a day. That stipulation gives the bill the color of a boycott which is an un-American proposition and the Supreme court is apt to hold that it is unreasonable and unconstitutional and therefore void.

Call for Democratic Executive Committee.

Scurry County Democratic Executive Committee is hereby called to meet in Snyder on June 17, 1912 at 2 o'clock p. m.

Very important business will come before the committee at this meeting and every member is earnestly requested to be present.

E. B. BARNES, Chairman Scurry County Democratic Executive Committee.

Moving to Paris.

Mr. W. A. McCullough and family left Tuesday evening for their new home in Paris, Texas where W. A. is at the head of a big hardware concern. They have been in Snyder for several years and have hosts of friends here who regret to see them go away.

They will be greatly missed in Society and church circles.

The Signal feels that it can confidently commend them to the better elements of the people of Paris with the assurance that they will make good in every part of the game of life.

Notice to Candidates

Any person desiring his name to appear on the official ballot for the nomination for any office to be filled by the voters of Scurry county, shall file a written request for his name to be printed on such ballot, with the county chairman, not later than June 15th. See Terrell Election Law. This also applies to candidates for precinct offices.

E. B. BARNES
Committee of Scurry County, Texas.

An old school reader tells about a man who found a boy with some wild birds in a cage. The stranger bought all the birds and then opened the cage and let the birds fly away. He said that he had spent several years in prison and had made up his mind to give liberty to living creatures when ever he could.

Probably Senator Bailey is familiar with that story and upon that sentiment will vote to exonerate Senator Lorimer.

Don't forget that Congressman Randall will speak in Snyder June 14th in the interest of his candidacy for the United States Senate.

A gentleman who lives at Dunn told the Signal that when Gov. Colquitt visited that town he was busy talking to a leading prohibitionist and showing how he had been careful to restrict the liquor traffic when a farmer came up and gave the Governor a vigorous handshake and at the same time saying: "I want to shake hands with the first human Governor, Texas ever had. I am a Socialist, but I was with Colquitt before on the liquor question and I am with him yet."

Two more trunk lines of railroad now promising to come to Snyder, a big financial concern at Sweetwater proposing to loan vast sums of money to farmers, an oil well in course of development at Snyder and fair crop prospects all over Scurry county—these are some of the reasons for our faith in the future of Snyder and Scurry county.

In Memory of Bro. Kellum

Brother T. R. Kellum was born in Giles county Tennessee Nov. 5th, 1865. Professed faith in Christ in 1908, united with the Baptist church of Ira, Texas where he remained a member until his death, Oct. 16th, 1912.

Mary Kellum, the daughter of Bro Kellum was born in Hunt county, Texas, October 11, 1895, professed faith in Christ in 1908, united with the Ira Baptist church where she remained a member until her death April 17, 1912. Mary had a cheerful and happy disposition and was the sunshine of her home. Her father was waiting for her on the other shore having preceded her six months and one day before.

The remains of both father and daughter were laid to rest in the Ira cemetery Brother T. R. with the honors of the W. O. W. and Mary's funeral service was conducted by her pastor Bro. J. W. McGaha.

God in his wisdom has seen fit to call these two from the trials of this life to the home prepared for the redeemed.

That we bow in humble submission to His holy will and mourn not as those who have no hope but remember the scriptures say: "Blessed

are the dead that die in the Lord from henceforth ye saith the Lord that they may rest from their labors." Weep not, wife, mother, brothers and sister for "they have finished their course, they have kept the faith and there is therefore laid up for them, a crown of righteousness."

Resolved that the sudden removal of such lives from our midst leaves vacancies and shadows that will be deeply realized by the members of their church and will prove a serious loss to the community in which they lived a faithful and consistent life.

Resolved that a copy of these resolutions be recorded on the church record a copy be sent to the Western Evangel, the Snyder Signal and also a copy be sent to the family of the deceased.

FOR HUMAN OR ANIMAL FLESH

A remedy that is equally efficacious in healing the wounds, sores, sprains or other ailments of the flesh of man or beast.

BALLARD'S SNOW LINIMENT

A healing remedy to effectively meet the needs of animal flesh need not be a harsh, strong mixture, too drastic for the human body. Ballard's Snow Liniment is proof of this. It ranks with the best of the flesh healing remedies designed for man; and it is equally as prompt in curing the wounds and flesh diseases common among animals. Owners of blooded horses prefer it to any other liniment because it leaves no disfiguring scars in any of the minor accidents or ailments. It heals by a mild power to which the flesh of horses responds readily.

It is of great value in healing harness galls, barbed wire cuts, wounds, festering sores and many other ailments to which horses are subject. In the relief of human suffering, it has done a world of good, particularly in easing the pains of rheumatism, neuralgia, sciatica and lumbago. When gently rubbed in where the pain exists, it gives a most gratifying relief to the afflicted. As a household remedy for cuts, burns, bruises, sprains, contracted muscles, stiff neck, frost bites, swellings, chilblains, ivy poisoning, there is nothing better on earth.

Put Up in Three Sizes, 25c, 50c and \$1.00 per Bottle.

For Diseases or Ailments of the Eyes, Stephens Eye Salve is an Effective Remedy. It Eases Pain and Cures Permanently.

SOLD AND RECOMMENDED BY

Mrs. Curtis Comes to Snyder

Mrs. Nannie Curtis one of the ablest temperance platform speakers in this country will visit Snyder on June 11 and 12 in the interest of the W. C. T. U. in particular and of the temperance movement in general.

She will speak on the great issues now confronting the people of Texas.

Mrs. Curtis has spoken for Temperance and prohibition in most sections of Texas but this will be her first visit to Snyder and she will have a good hearing.

It is announced that she will address a general mass meeting at the Court house on Tuesday and Wednesday nights and will be the guest of the local W. C. T. U. during the day Wednesday.

Here are a few press clippings showing what the people who have heard Mrs. Curtis think of her as a speaker.

With swift logic, sweet flowers of appealing pathos and glitter of humor, Mrs. Nannie Curtis, the noted temperance orator from the Lone Star state spoke at the Ryman auditorium last night to an audience of at least 2500 people. Inspite of the intense heat scarcely a person left the auditorium and Mrs. Curtis was frequently interrupted with prolonged applause.—Nashville Banner.

She surpasses in eloquence, wit, pathos, logic and humor any speaker ever heard in our city.—Hempstead News.

The most unique feature of the recent hard fought battle in the local option campaign of Bristol, Va., was the presence and power of Mrs. Nannie Curtis of Sherman, Texas.

She is a refined Southern woman of extraordinary gifts. She captivates her audience with her irresistible logic, pathetic appeals and affability of manner. Wit and humor flash vividly thru her address. Her auditors, now laughing, now crying, are swept like leaves in a storm before the utterance of this wonderful woman. She is a terror to the saloon advocates as her converts multiply daily.

S. B. PRESTON,
Ex-President Chicora College (for women) Greenville, S. C.,

Mrs. Curtis the Henry Clay of her sex. She indulges in no bitter invectives but her logic and argument appeals and wins where others fail. Although it was Sunday night and in the cities largest down town churches her audience gave her a rousing ovation as she retired from the stand.—San Antonio Express. June 27, 1910.

Tom Watson Faces Charges

Macon, Ga., May 31—A warrant charging Thomas B. Watson, editor of the Jeffersonian and Watson's Magazine and delegate from the State at large to the Democratic National Convention with sending obscene matter through the U. S. mail is expected to be issued by U. S. District Attorney Akerman today or tonight.

Akerman declared this morning that he was only waiting the arrival of Post office inspector Sims from Sumpter, S. C. to make the necessary affidavits.

The article which the district Attorney declares is obscene is printed in Watson's magazine for May in the Latin language and is part of an attack on what Mr. Watson calls the Roman Catholic hierarchy.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.

THEY ARE MAD.

The Houston Post and the Fort Worth Record show malignant anger over the action of the Houston convention. They bore their defeat very nicely until the convention read into their platform an endorsement of the Randell doctrine that Congressmen should not accept fees, gifts and the like from business interests which are apt to be subjects of legislation.

As an abstract proposition those papers and probably nearly every honest man in Texas would agree to the proposition, but in this case they consider it a thrust at the official course of Senator Bailey and they resent it. With the Post and the Record, Joe Bailey is of more importance than any political or moral theory that can be advanced and they would readily go on record as opposing any sort of a doctrine which they might construe as a reflection on Bailey. Jonathan Lane is a close second to those two journals and following the Houston convention he unloaded his conflagrated feelings on that point. He and his associates have forgotten that four years ago they refused to let Charlie Mills go to the National Convention although his district had chosen him and they forgot also that Cone Johnson was not permitted to make a speech at the Galveston convention two years ago.

PLAINVIEW ITEMS

The rain which fell last Friday was needed very much and was appreciated by all.

Crops are growing fast and so are the weeds.

Mrs. E. S. Dorsett who has been sick is reported better.

If any one is in need of a can opener go to Mrs. A. M. Harless and Mrs. S. L. Johnson. They can supply you.

Mr. Ernest Dorsett had the misfortune to ride a go-devil plow the other day.

Rustler from Bookout you need not have changed your name to Simple Simon for we know you are any way.

Mr. Mose Newby happened to an accident the other day. He was going to Plainview and his horse ran away throwing him out of the buggy, but he was not hurt seriously.

Mrs. Lindley and Mrs. Dorsett of Fluvanna were visiting Mrs. E. S. Dorsett and family last week.

Good luck to the Signal and its many readers.

SHOO FLY

SPEAKING DATES OF COUNTY CANDIDATES

We your committee appointed to fix speaking dates for the County candidates beg leave to submit the following:

Camp Springs, Saturday June 8th at 2 p. m.
Crenshaw Saturday June 8th at 8:30 p. m.
Arah Saturday June 15th at 2 p. m.
Bethel, Saturday June 15, at 8:30 p. m.
Dunn Saturday June 22 at 2 p. m.
Crowder, Monday June 24 at 8:30 p. m.
Dermott Thursday, June 27 at 2 p. m.
Ira, Saturday, June 29 at 2 p. m.
Canyon, Saturday June 29 at 8:30 p. m.
Hermleigh, Thursday July 4th at 2 p. m.
Pyrone, Saturday, July 6th at 2 p. m.
China Grove, Saturday, July 6th, at 8:30 p. m.
Fluvanna, Saturday July 13 at 2 p. m.
Ennis, Monday, July 15 at 8:30 p. m.
Snyder, Friday, July 26 at 8:30 p. m.

All candidates except County Judges and Representatives limited to five minutes each. County Judges limited to 30 minutes each and representatives to 20 minutes each.

Respectfully submitted,
LEE BOREN,
J. O. JACKSON,
L. C. WASSON,
W. T. SKINNER,
Committee.

The foregoing dates prepared by the committee are satisfactory to me, and believing that one round of the candidates is enough to inflict upon the voters, I have cancelled the dates heretofore published by me and accept those above. Bison is omitted in the above list and Saturday July 20 at 2 p. m. is set for that place.

C. R. BUCHANAN.

Is it the Hair or the Face that makes the Woman?

If you think it is the face take another look at the two heads pictured here. One shows a girl which the most critical would pronounce beautiful. While her features are fairly perfect her greatest charms lie in a mass of fine lustrous hair. The opposite picture is identical as to features and other detail except that the wealth of hair is wanting. Both of these ladies would attract attention anywhere but each for a different reason, one on account of her superb beauty and the other on account of her comical appearance.

Newbro's Herpicide Saves the Hair

There is nothing which is so destructive to the hair as dandruff. This annoying trouble to which everyone is more or less exposed is due to the working of an invisible growth or microbe called the Dandruff Germ. It robs the hair of the sun and luster of health, burrows down into the follicle and eventually loosens the hair, allowing it to fall out. Newbro's Herpicide applied regularly and intelligently kills this germ, keeps the scalp clean and hair healthy.

Falling hair is thus prevented and, if the hair follicles have not become atrophied, a new growth of hair may be anticipated.

The life and luster of Herpicide hair is beautiful to see, is unmistakable.

An abundance of fluffy, glittering hair is woman's chief beauty and to permit its needless destruction is unpardonable.

Kills the Dandruff Germ

Stops Falling Hair

Wilson Home Burned.

The home of Mr. D. F. Wilson was destroyed by fire about two o'clock Saturday morning.

Mr. Wilson and his children were in the act of moving to the M. B. Stockton place north of town and had moved out some of the household goods but not all.

Mr. Wilson was in the house alone and upon waking found the fire in possession of the rear of the building and burning through the roof—too far gone to control.

A considerable lot of furniture, bedding etc and nearly all his clothing were burned. He had eight hundred dollars insurance on the house and two hundred on the furniture.

As surely as Snyder exists today the conditions here will be booming. In another twelve months the Texas Central railroad will be built with a shadow of a doubt and the taccado and Gulf is coming this way at a good rate. Already it is assured to Roby forty miles to the east of us with steel already purchased to build to the West. Our crop prospects are good and the energy now being put into the oil well enterprise bids fair to develop the greatest oil boom ever witnessed in West Texas.

For Sale Cheap.

J. W. TEMPLETON.

Mrs. Joe Garrard came in Tuesday from Hillsboro to visit her parents, Mr. and Mrs. Jno. Savage and other relatives.

Statement of City's Finances

City Secretary Cowling has given out the following statement of the City's finances.

The tax levy is about \$1,360,000 about \$140,000 less than last year, caused by a lessening of the values by the rendition by the city equalization board. The retiring council had left a deficit of little more than \$3000 for unpaid bills and this amount will have to be paid out of this year's taxes. After very careful figuring the council has placed the tax rate this year at 75 cents. It will take 80 cents to meet all the bills, but as there are some delinquent taxes yet to be collected, the council thought it safe to figure that this money would be collected, and put the rate just as low as they could and make it just as light on tax payers as possible. The Council believes that next year by carefully guarding expenses this year, the tax rate can be lowered to the old rate of sixty cents.

The 75 cent rate does not allow anything for street work, only the general running expenses and for the indebtedness stated above.

Of the three thousand dollars indebtedness about two thousand dollars of the amount is for the fire apparatus, etc.

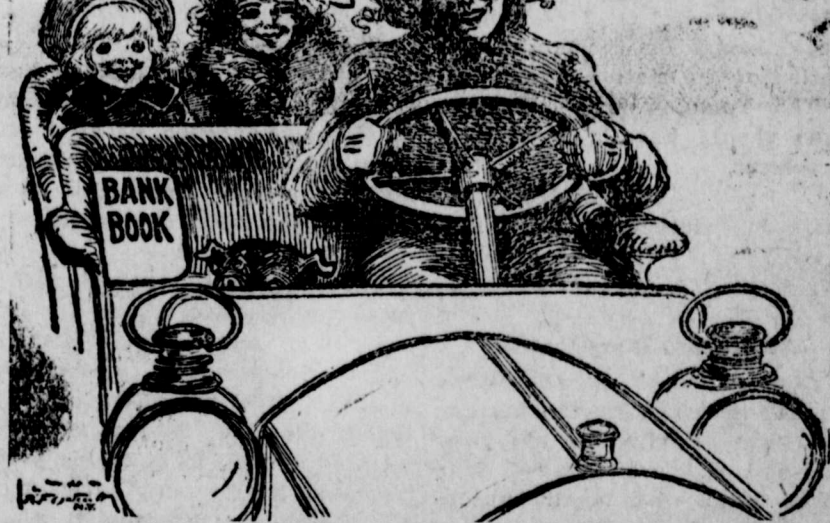

Stop That Itch!

We repeat: Our stock of Wall Paper is immense. We guarantee to please you. Prices right. WARREN BROS.

District Sunday School Meeting at Snyder.

A letter from State Sunday School Secretary Wiggins informs us that Snyder has been chosen as the place for holding one of the great District conventions this year. Brother Howard calls a meeting of the Sunday School workers of the town to meet at the Presbyterian church Sunday afternoon at 3 o'clock to at once arrange for the proper presentation of the matter to our people. The Young Men's Business League should have a representative present.

J. W. HUNT, District Superintendent, 68th District.

Authorities Investigate

Caldwell, June 6—Authorities are today investigating the burning of the home of John Levinsky, near Morie and the drowning of four children found with their unconscious mother in a well.

The husband was at Morie. He has been held pending an investigation but no charge has been preferred against him as yet.

The mother is still unconscious.

A full grown sand storm came whipping down on us from the east late Thursday afternoon and considerable wind followed. The wind got in the north and as a result this morning was cool and pleasant.

The candidates now have just a little over a month in which to present their cases.

Dr. Overton Endorsed

Whereas Dr. John W. Overton, yielding to the urgent solicitation of his friends and hundreds of the leading citizens and business men of West Texas has announced as a candidate for Senator from 28th Senatorial district;

Whereas Dr. Overton has the character and ability to represent well our district;

Whereas his professional knowledge will be valuable to the Senate in the consideration of all Health, pure food and Medical legislation; and his general knowledge of the needs of the district is surpassed by no man in it.

Therefore be it resolved, that we recognize Dr. Overton as a man in every way qualified to fill the office of Senator and commend him to the Medical profession as a high toned, educated, Ethical and brilliant Physician, loyal to his profession and honest with all mankind. His professional standing is witnessed by his election to the Vice Presidency of our State Association and to the Presidency of the El Paso, Big Springs District Medical Society.

Resolved that we unqualifiedly and unanimously endorse Dr. Overton's candidacy and pledge him our hearty and enthusiastic support.

Resolved that we earnestly request all of our fellow practitioners in the district to join with us in aiding Dr. Overton, by their support and influence, pledging them in advance that Dr. Overton will be faithful to the trust reposed in him and will reflect honor on our profession and be a power in advocating what

is best for our people in this section of the State.

Resolved that a copy of these resolutions be mailed to every doctor in the District a copy given to the Press and published in the State Medical Journal.

NEWT LONG,
W. W. SHIREY,
C. H. HAMBLEEN,
Committee.

IDIOT DRAW

We are still here but I think we would feel better if we had a little shower of rain for about three days followed by a wet spell as Joe Strayhorn says.

Our crops are needing rain very badly, but people are going after the weeds in fine shape. Plows and hoes are going in full drive in all directions and there are more little devils in the fields here than any place I ever saw and I believe that Brother Kelley is the cause of the people having so many.

He says the Go-Devil is the best plow he has ever seen used to plow little cotton with and I think he is correct.

I see in the papers that Windrow Wilson carried Texas in the primaries not withstanding the fact that Joe Bailey thought Harmon was the man the people needed.

Come to the new town of Dermott on the 27th and witness the exercises of our Sunday schools and you will see that we are not all idiots, but I am a

K. LAMITY.

H. G. Towle closed a deal yesterday, purchasing a brand new automobile, a "Flanders 20", five passenger car. It is finished in nickel and is a beauty. It will be remembered that Mr. Towle lost his car by fire several months ago.

Our court yard is beginning to be the talk of neighboring towns and out siders. We surely have a beauty and furthermore it will be prettier. In fact Snyder is noted all over West Texas for her natural cleanliness and pretty streets.

Rob Strayhorn came in Friday from Waxahachie where he has been attending Trinity University.

"My little son had a very severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished he was as well as ever," writes Mrs. H. Silks, 29 Dowling Street, Sydney, Australia. This remedy is sold by all dealers.

25 per cent reduction on Water Coolers. Blackard-Johnson Hardware Company.

The Signal is unavoidably a day late this week owing to a delay in shipment of print paper.

You will look a good while before you find a better medicine for coughs and colds than Chamberlain's Cough Remedy. It not only gives relief—it cures. Try it when you have a cough or cold, and you are certain to be pleased with the prompt cure which it will effect. For sale by all dealers.

The cool, cloudy weather this week is better for crops than would be a continuous burning sunshine.

Your Druggist Stops That Itch

If you are suffering from Eczema, Psoriasis or any other kind of skin trouble, drop into our store for instant relief. We will guarantee you to stop that itch in two seconds. We have sold other remedies for skin troubles, but none that we could recommend as highly as this, a mild wash of Oil of Wintergreen Thymol and a few other ingredients that have wrought such wonderful cures all over the country. This compound is known as D.D.D. Prescription for Eczema and it will cool and heal the itchy, burning skin as nothing else can. A 25c trial bottle will prove it. Of course all other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big-profit substitute. But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee—if you do not find that it takes away the itch AT ONCE it costs you not a cent.

OWL DRUG STORE.

It is reported here that a good rain fell Thursday night at Post City. It begins to look like there is something in the dynamite theory of producing rain.

Dr. PRICE'S CREAM BAKING POWDER

Breaking of Dead Capitalists Will It Sustained Will Cause Children to Share Equally.

Ft. Worth Telegram:

A motion for a new trial and for arrest of judgment, on the verdict of the jury, which found Wednesday afternoon for Mrs. Georgia Scott Townsend, plaintiff in the suit to break the will of her millionaire father the late Winfield Scott will be filed Friday at noon in the Forty-Eighth district court.

This was announced Thursday morning by Attorneys Stephens and Miller and Capps, Cante, Hanger and Short counsel for defendant, and Mrs. Winfield Scott and the guardians of Winfield Scott Jr.

The motion for the new trial will set out that the court erred in admitting much evidence that was in admissable to go to the jury, that the jury to decide the case upon the issues involved that instructions asked for by the defense should have been given and finally that the verdict is contrary to the preponderance of the evidence.

For cholera morbus, cholera infantum diarrhoea from colds and wind colic, McGEE'S BABY ELIXIR is a remedy of extraordinary power, it relieves colic pains instantly, checks diarrhoea and settles the disordered stomach. Price 25c and 50c per bottle. Sold by all druggists.

Prevent Distress After Eating

When your food does not digest well and you feel "blue" tired, discouraged, you should use a little HERRBINE at bed time. It opens the bowels and purifies the system and restores a fine feeling of health and energy. Price 50 cents at all dealers.
