Max Schmeling, Badly Outpointed, Wins On Foul

Low Clout In Fourth Round Ruins Sharkey

Boston Gob Hangs Up Lead On Points, Then Loses Battle To Invading German; Crowd Supports Late Decision

Referee in Doubt

Jimmy Crowley, Third Man, Is Slow In Making Up Mind In Judging Blow; Over 80,000 Pay \$740,000

By ALAN GOULD
Associated Press Sports Editor
YANKEE STADIUM, NEW YORK.
—In a sudden and bewildering finish, Max Schmeling was proclaimed the victor over Jack Sharkey tonight on a foul in the last few seconds of the fourth round of a 15-round match that failed dramatically in its object of crowning an undisputed heavyweight champion of the world.

The black-haired young German, after being on the verge of a knockout in the third round from as vicious a two-fisted attack as Sharkey ever let loose, crumpled up against the ropes in the fourth round and fell writhing in agony to the floor from a left hook that landed fully two inches below the belt and in the left groin.

Referee in Doubt
Amid scenes of the wildest confusion and uproar, as the managers, seconds and handlers clamored into the ring, Referee Jimmy Crowley dashed from one side of the ring to the other in quest of a decision on a blow he admitted he had not seen. The bell rang for the end of the fourth round, Schmeling was carried limp and groaning to his corner, and several minutes elapsed before Crowley finally reached his verdict in the German's favor.

The final blow, unquestionably a low one, was landed directly in front of one of the judges, Harold Barnes, and on his unhesitating testimony that Schmeling had been fouled, Crowley made his decision to the accompaniment of wild scenes within the ring as well as without. The other judge, Charles F. Matthi-

Lay Plan For Theater Here

Lindsey's New \$250,000 Show House Named "Matador"; Is To Be Begun By August 1 And Finished January 1

The new Matador Theater, to be erected by Lindsey Theaters, Inc., at an approximate cost of \$250,000, will be started on or about August 1 and in operation by January 1, 1931, according to an announcement last night by Cliff C. Lindsey, president of the company.

A definite location has not been selected for the new amusement house but Mr. Lindsey said that this detail would be cared for within the near future. Plans are practically completed for the structure which, when finished, is expected to be the finest of its kind west of Dallas.

Architecture throughout will be of Spanish style with the very latest in theater equipment to be installed. The building will be 15x125 feet, reaching 50 or more feet from the floor to the ceiling which will carry out a sky effect, used in a majority of the leading theaters of the state. Not less than 1500 seats will be installed, all of them luxuriously upholstered.

Stimson, Over Radio, Supports Naval Pact

Russians Seeking to Wreck Government, Green Testifies

(By Associated Press)
WASHINGTON, June 12.—Vigorously attacking "the narrowness of intolerance" of opponents of the London Naval Treaty, Secretary Stimson tonight publicly asked for prompt ratification by the senate of the naval limitation agreement.

SECRETARY STIMSON (Story To Right)

The appeal by the secretary, who was chief of the American delegation to the London conference, was voiced over a coast-to-coast hookup of the Columbia broadcasting system.

"Victory Of Peace."
This conference was one of the great victories of peace," Mr. Stimson said at the outset of his address after briefly reviewing the steps leading up to the summoning of the parley. "It is the culmination of a 10-year movement towards peace between the various naval powers of the world and also a step in the vitalization of the Kellogg-Briand pact. The nations of the world had been taking definite practical steps towards a new regime of peace by the partial naval disarmament of the Washington treaty. But the practical steps of disarmament were incomplete and new suspicion and irritations were growing up in consequence. And the peace pact was thus far a mere paper promise. Its fate was trembling in the balance."

"From this background the government of the United States under President Hoover, and that of Great Britain under Prime Minister MacDonald, started last year the movement to change the old dangerous conditions."

Organization of what is believed to be the first air transport company on the South Plains was announced last night by Charles R. Bacon, president of the new enterprise which has been chartered with a capital stock of \$10,000. Other officers are H. P. Bradley, vice-president; J. C. Orr, secretary-treasurer; J. A. McColvey, S. E. Come and O. V. Sims. To Have School
Mr. Bacon stated last night that a school of instruction in aviation will be opened within a brief period, an Alexander Eagle Rock open model plane is to be used as a training ship. The company has the agency for both the Alexander Eagle Rock and the Stinson-Detruttler planes. Other models possibly will be used later. Instructions and pilots have not as yet been named.

Should traffic justify an air line will be established between Lubbock and Hobbs, N. M. However, in the meantime, a 4-place cabin ship is now available for cross-country passenger flights. All operations will be made from the Lubbock municipal airport.

The luncheon was served in three courses from luncheon tables covered with yards of purple and white lace.

Following the first course, Miss Warner gave a general discussion of the camp, saying in part: "Delights appeared in all kinds of interesting ways. The group from Orange came in a Red Cross ambulance which they had bought and painted a brilliant orange color, with the name of their town printed on the side.

"In took three cars to bring the Port Arthur crowd, which traveled by train.

"Delights were divided into three classes, nature, handicraft, and general.

"One of the most interesting discussions of the entire camp was one in which the group selected the following subjects as making for good leadership: personality, health, tact, sympathy, friendliness, love of people, humor, courage, and loyalty.

Evening Speeches. "In the evenings we were usually entertained by some outstanding person from Oklahoma City, including the president of the Community Club and the president of the Camp Fire council.

"Camp life, however, was not one to be forgotten. We learned to tap dance, and play a number of informal games, as well as participated in the swimming and other sports.

"A 'night night' was especially interesting. Mrs. Bradshaw then told of the handcraft work of the camp. Miss Conner discussed the course she took in handicraft, and Miss Warner told of the nature activities.

All the time of the luncheon each delegate told of the work her group had done during the past two months.

City Is Sued On Underpass

Panhandle Lumber Company Is Damaged, Is Claim; \$11,000 Is Sum Sought For Closing Of Thoroughfares

A claim for \$11,000 was filed yesterday against the City of Lubbock by the Panhandle Lumber company and its secretary, F. H. Peity, based upon construction of the underpass on Avenue H.

The claim alleges that the company has been damaged to the above extent through the closing of 6th and 7th streets where those streets intersect Avenue H on the west side of the avenue and also by closing of Texas avenue, where the latter avenue crosses the Panhandle and Santa Fe tracks north of the intersection of 6th street.

Explain Position "Customers from the north who come through the underpass find it impossible to reach our business location, 518 Texas Avenue, without

going to 6th street," the company alleges. "We have been denied the free right of ingress and egress to our premises."

SERVING MANY BUSINESSES

Experience of large fleet owners reveals the unusual reliability and economy of the new Ford

A SIGNIFICANT TRIBUTE to the value of the new Ford is found in its increasing use by Federal, state and city governments and by large industrial companies which keep careful day-by-day cost records. In most instances, the Ford has been chosen only after exhaustive tests of every factor that contributes to good performance—speed, power, safety, comfort, low cost of operation and up-keep, reliability and long life.

Prominent among the companies using the Ford are the Associated Companies of the Bell System, Armour and Company, The Borden Company, Continental Baking Corporation, Firestone Tire and Rubber Company, General Electric Company, Goodyear Tire and Rubber Company, Kellogg Company, Knickerbocker Ice Company, Morton Salt Company, Pillsbury Flour Mills Company, The Procter & Gamble Company, and Swift & Company.

Each of these companies uses a large number of Ford cars and trucks.

The Associated Companies of the Bell System use more than eight thousand.

Modern business moves at a fast pace and it needs the Ford. Daily, in countless ways and places, it helps to speed the production and delivery of the world's goods and extend the useful service of men and companies.

Constant, steady operation over many thousands of miles emphasizes the advantages of the sound design of the Ford car, its high quality of materials, and accuracy in manufacturing. Beneath its graceful lines and beautiful colors there is a high degree of mechanical excellence.

An example of the value built into the Ford is the use of more than twenty ball and roller bearings. They are hidden within the car and you may

never see them. Yet they play an important part in satisfactory, economical performance. Their function is similar to the jewels of a fine watch.

Throughout the Ford chassis, a ball or roller bearing is used at every place where it is needed to reduce friction and wear and give smooth, reliable mechanical operation.

At many points, as on the transmission counter-shaft, clutch release, fan and pump shaft, and front drive shaft, these ball and roller bearings are used where less costly types of bearings might be considered adequate.

Additional instances of the high quality built into the Ford are the extensive use of steel forgings, fully enclosed four-wheel brakes, Rustless Steel, four Houdaille double-acting hydraulic shock absorbers, aluminum pistons, carburetor silicon alloy valves, torque-tube drive, three-quarter floating rear axle, and the Triplex shatter-proof glass windshield.

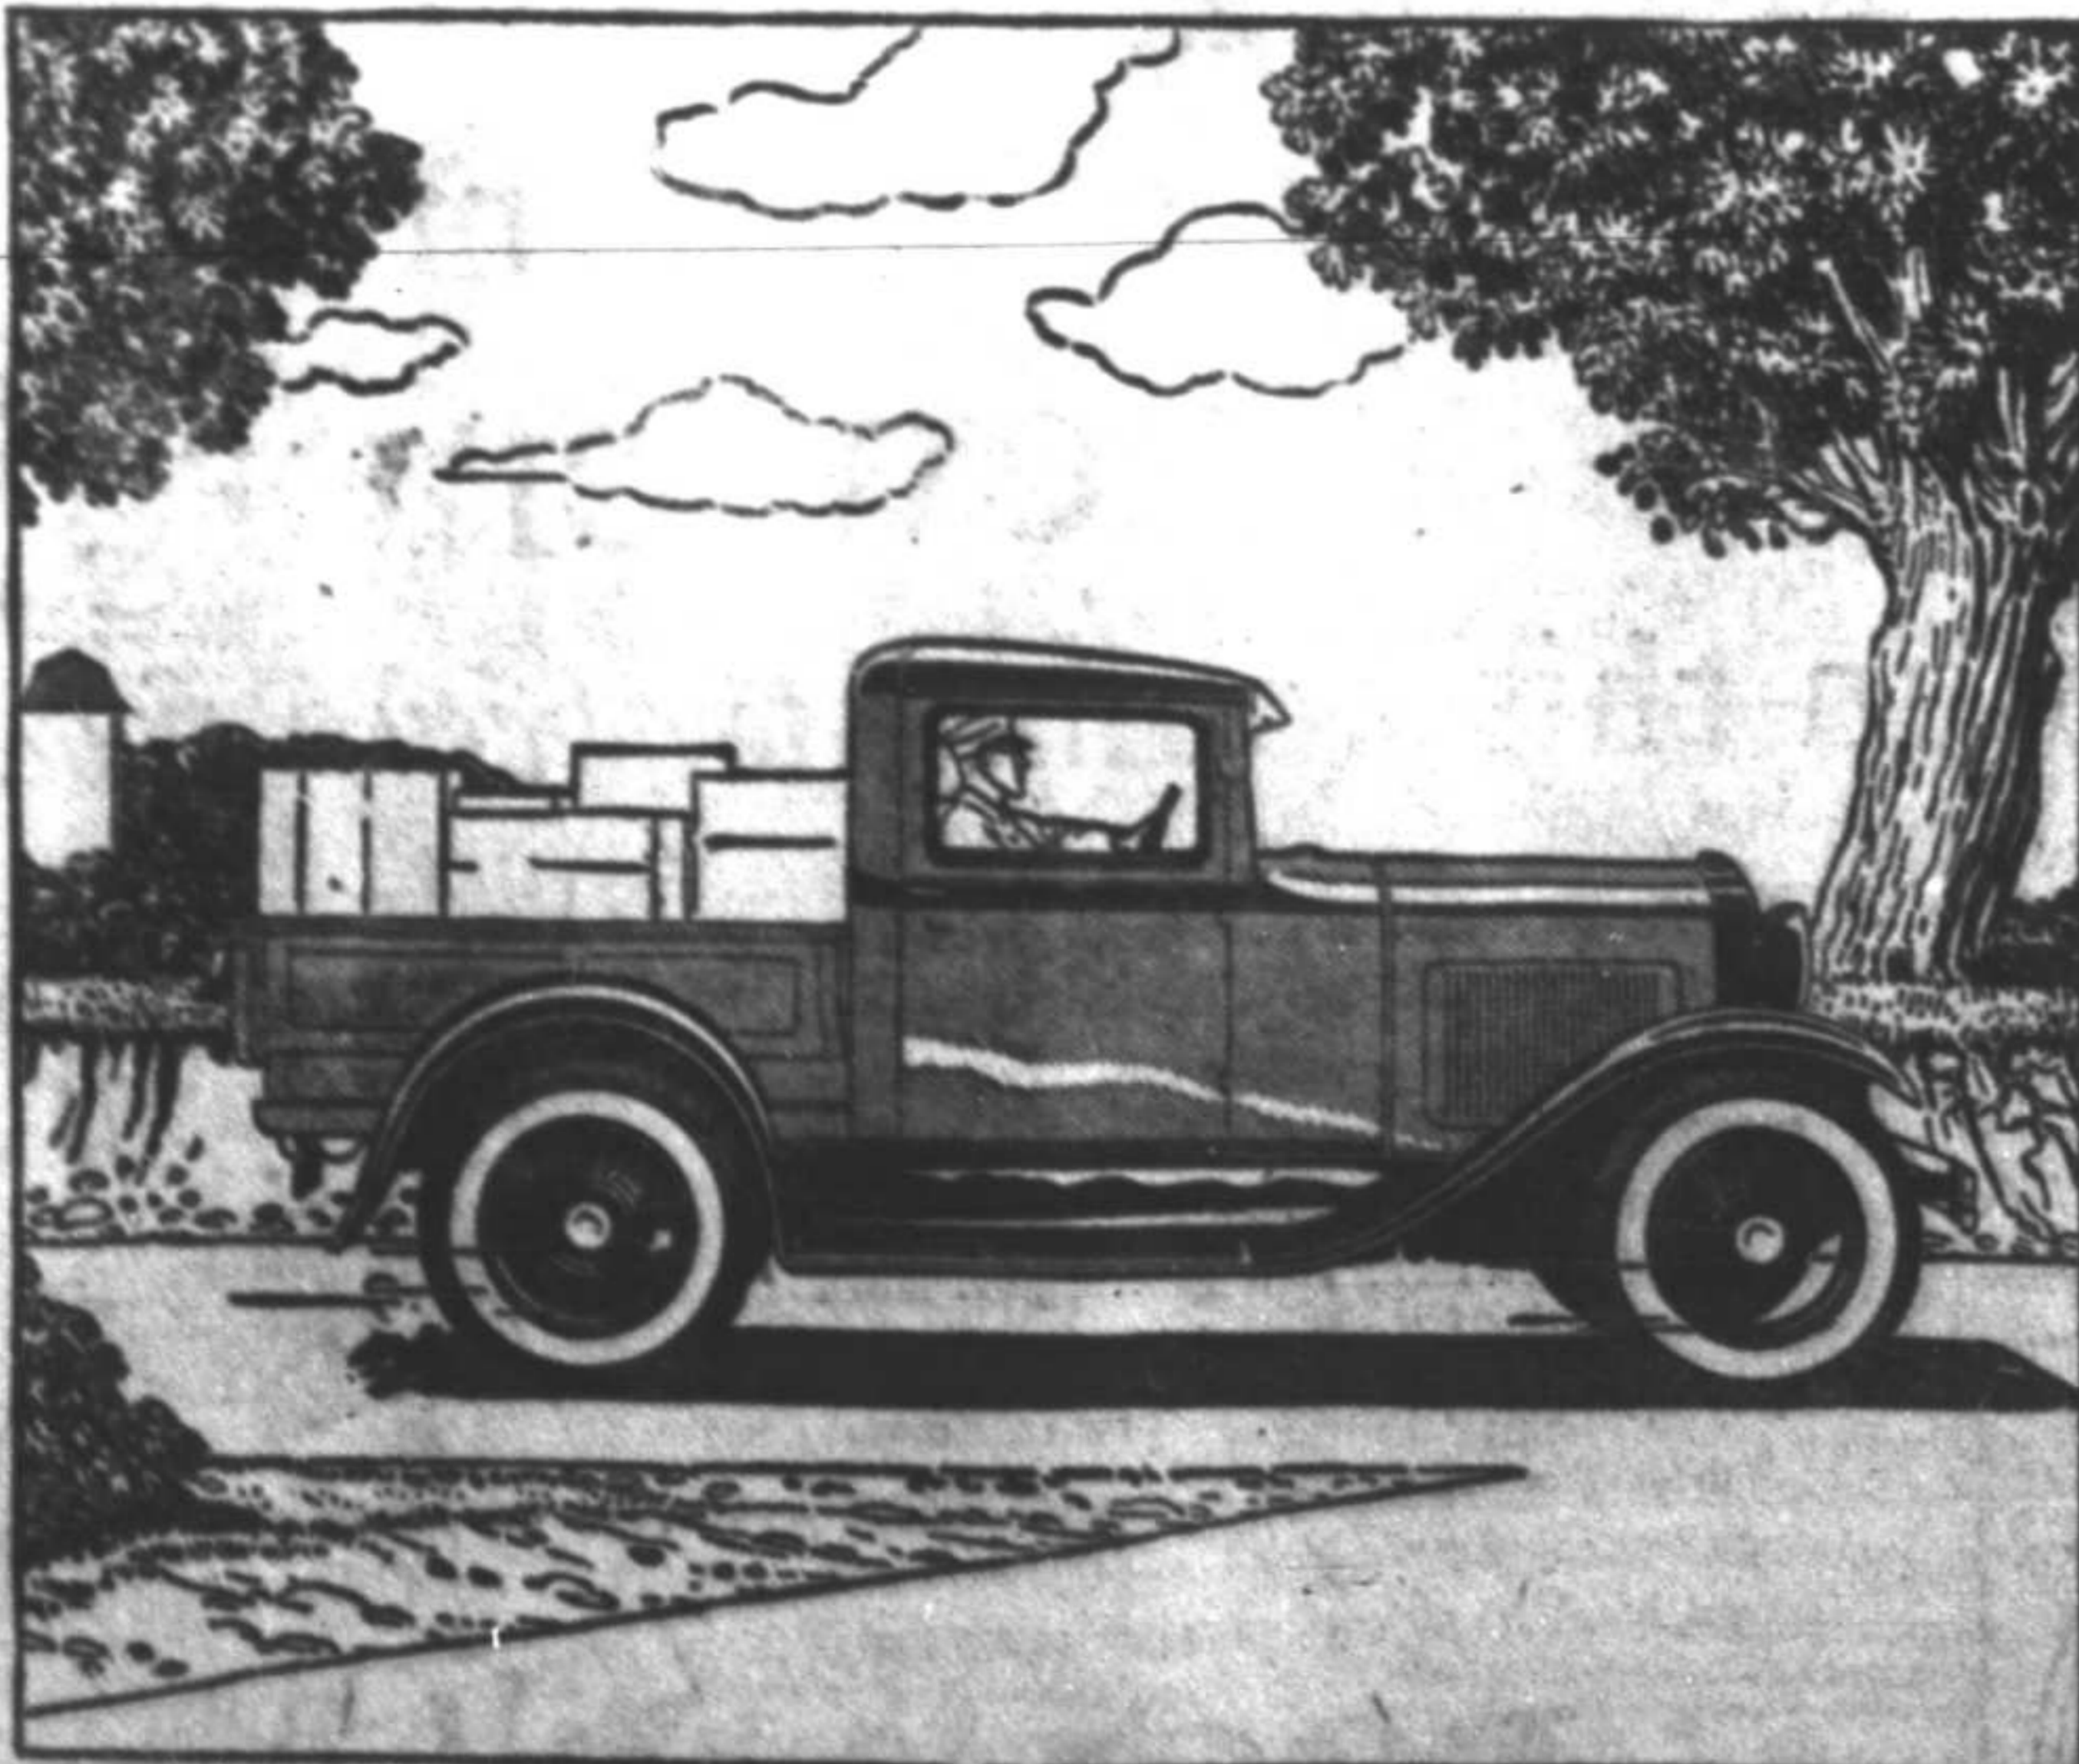

The Ford policy has always been to use the best possible material for each part and then, through large production, give it to the public at low cost.

Bout Fails To Produce Champ Tunney Avers

Title Fight Again Results In Disappointment As German Wins By Accident In Fourth Stanza

(Continued from Page One)

son, concurred in the verdict although he also was deprived of a full view of the abrupt finish.

A Stunning Disappointment
It was a stunning disappointment to the big crowd, estimated at 80,000, that had come to see a new heavyweight king crowned as successor to the retired Gene Tunney. It had cheered Sharkey as he battered his youthful foe and he looked on with interest in the third round and appeared satisfied the American would go on to demonstrate his mastery.

Probably no more than a few hundred spectators actually saw the low blow struck and so close together were the fighters that spectators of the ring up against the ropes at the time, that barely a quarter of the assembled 80,000 experts had anything approaching an unobstructed view of the deciding punch.

Crowd Boos Decision
Under the circumstances, there was a spectacular outburst of disapproval on the part of the crowd, which booed the principals, the referee and everything connected with the proceedings as Schmelzing, still in apparent agony, was carried bodily from the ring and to his dressing room.

Sharkey, again in the midst of a chaotic scene reminiscent down to details of his unsatisfactory bout with Phil Scott at Miami, found himself this time the victim, rather than the beneficiary, of his own wildness. Although he manifested no display of tears, he leaped up and down in his excitement as the referee was seeking a verdict. As it was given he closed his eyes and slumped in his corner, but refused to say a word as he was led in dejection from the ring.

The upshot of this crowning fiasco to a long-drawn heavyweight elimination process, spread over two years since Tunney's retirement, was an apparently majority opinion among experts as well as fans that no heavyweight championship could be awarded upon the outcome.

New Champ Beaten
Schmelzing, though the winner and in no way to blame for the ending, nevertheless was not likely to be awarded a title, or anyone else for some time to come, if the opinion of one of its donors, Tunney himself, is influential. While declining to commit himself or to speak for the committee in charge of the trophy, Tunney made it clear he considered no champion emerged from tonight's main event.

Once, again, therefore, it seems that the heavyweight ship has gone on the rocks of disappointment and ineffectiveness on the part of its crew. The Boston sailor, picked to carry it safely into port for Uncle Sam, and draped symbolically with the American flag as he entered the ring, fought at the outset with a suddenness and almost cut his opponent's head off, but he was wounded up discredited once more.

Sharkey, it seems, has not yet shaken the jinx that pursued him when he fought Dempsey in 1927, failed again in 1928 to establish himself as a contender and almost cut his 1930 campaign short in Miami, only to lay him low tonight—on a wild throw in the vicinity of second base, over which the ring was pitched in the big ball park.

An Accident Victory
Schmelzing has whatever laurels belong to the winner. The German youngster, bidding for world honors in only his sixth fight in America, fought gamely against a more experienced rival, but his victory was an accident, on the basis of what happened in the ring.

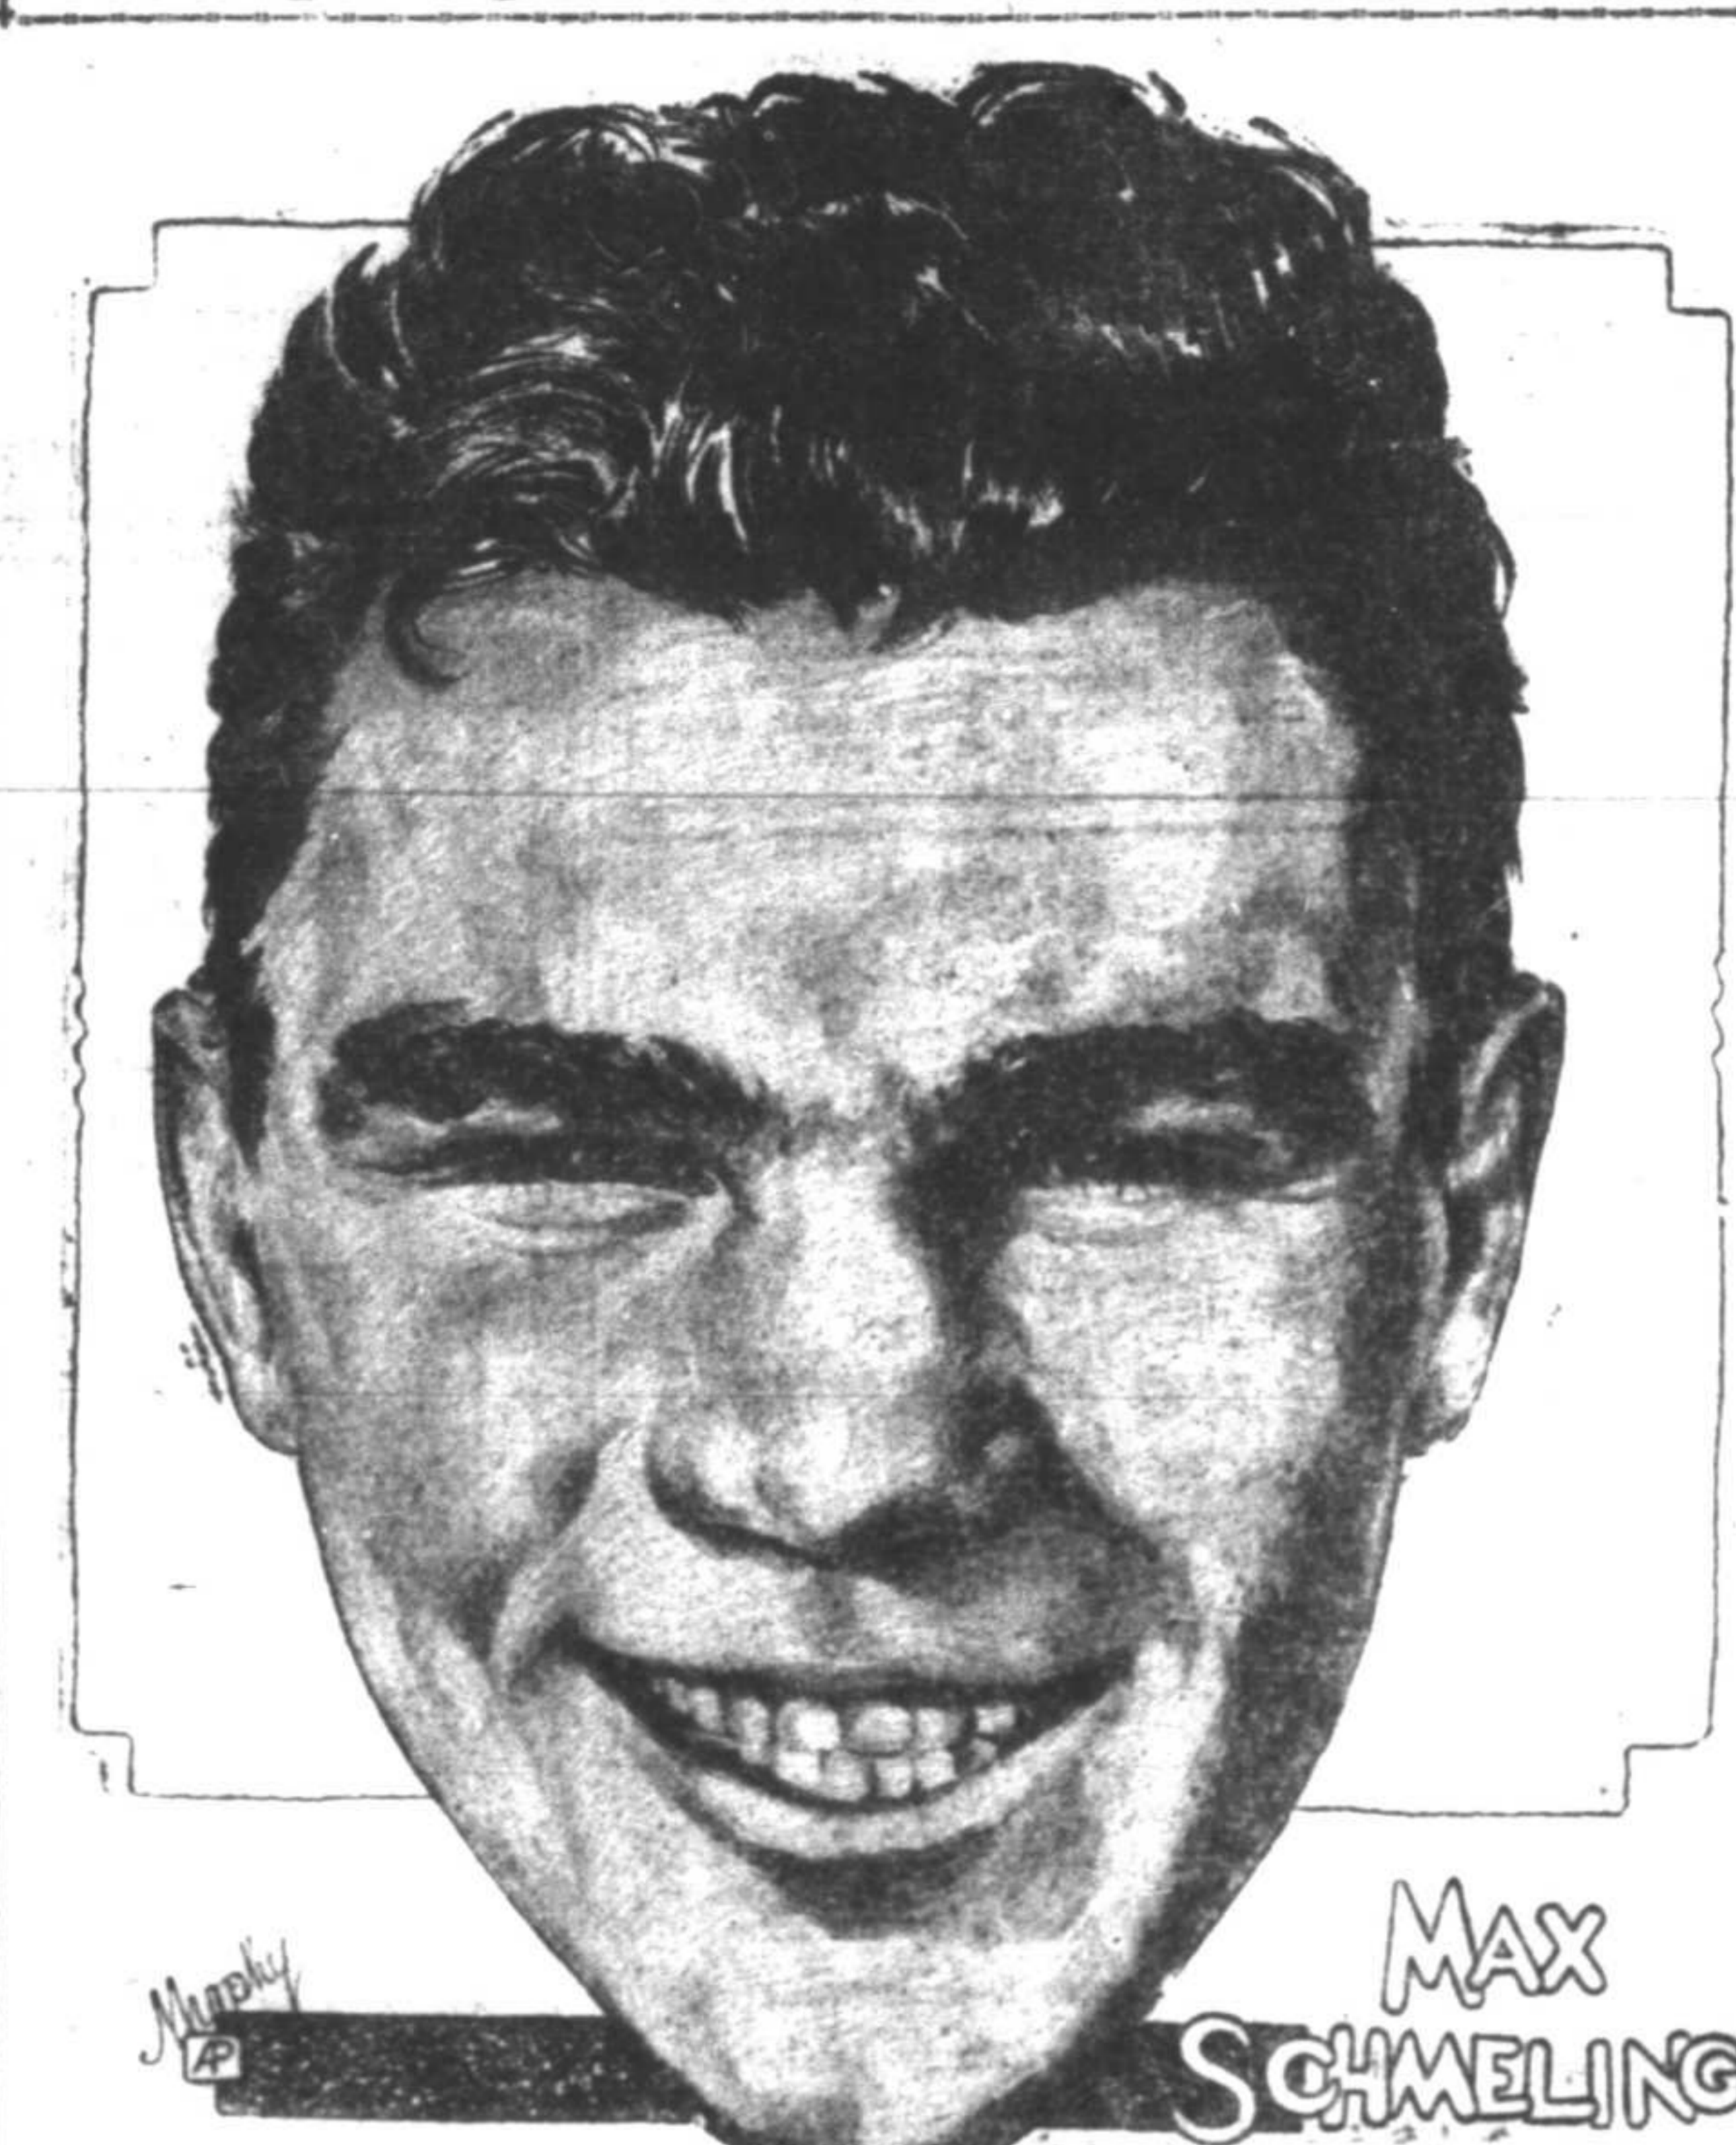

There was no doubt about Schmelzing being badly hurt. He was still in bad shape in his dressing room a half hour after the bout and the examination of the official boxing commission physician, Dr. William Walker, disclosed a "definite spasm in the left scrotum." This, the doctor said, indicated Max had been hit a powerful blow, in that region.

Up to the foul blow adding a fresh chapter to controversial ring literature, the only exciting moments of the fight were crowded into the third round as Sharkey, with cool mastery and vicious thrusts, punched Schmelzing all over the ring. The young German kept his feet under a heavy volley of rights to the head, lefts to the jaw, and ribs, but was badly hurt, groggy and on the verge of a knockout.

The fight, biggest boxing extravaganza New York has had in two years, drew a dazzling gathering of notables to the ringside, while via the National Broadcasting company's elaborate international hookup, the ringside disorder was broadcast to millions.

On the basis of a paid attendance in excess of 70,000 the promoters of the bout, held for the benefit of the children's milk fund drew a gate estimated at \$740,000 making it the sixth largest in fight history and the third largest in New York City.

Heavyweight Crown Goes To German

MAX SCHMELING

Although badly outclassed by Jack Sharkey, Max Schmeling was awarded the world's heavyweight title last night in the fourth round of the scheduled 15-round battle at the Yankee Stadium in New York City when he was felled by the Boston Sailor. The German was knocked staggering in the previous round but Sharkey's low left hook sent the crown discarded by Gene Tunney to the land of the Rhine.

Robins Grab Second Straight From Reds

BROOKLYN, June 12. (P)—A double with the bases loaded by Pinch Hitter Jake Flowers gave the Brooklyn Robins their second straight over the Cincinnati Reds today. The score was 3 to 2.

Ray Moss and Bennie Frey started on the mound but although both were effective, neither was able to go the route. Frey was removed for a pinch hitter in the eighth after holding the Robins to five hits while Moss was replaced by Clark, when a base on balls and an error set the stage for a rally in the same frame.

The Robins traded one run going into the seventh but Flowers came through a two-base hit that scored what proved to be the tying and winning runs.

Sidelights on Max-Jack Tiff

By BRIAN BELL
(Associated Press Sports Writer)

RINGSIDE, YANKEE STADIUM, NEW YORK, June 12. (P)—The customers were the first to get a "long count" at the Jack Sharkey-Max Schmeling bout. The first of the so-called "ringside seats" were exactly 14 rows from the ring.

Four rows were devoted to the "working press" and ten rows were given over to "patrons," including some of the best minds in attendance.

The "ringside seats" extended far into the outfield. Indeed there was a suspicion that fast running would give a home run inside the park on a ball hit to the spot occupied by the ringside seat farthest removed from the ring.

David Belasco, in his well-known sombre clothing suggesting the clergy rather than the stage, was the first patron to take a seat in the select circle.

The ring was near second base between the pivot station and the pitchers' mound.

Most of the customers came in with coats on their arms. They were not needed and did double duty, serving as cushions.

Four referees came to the stadium, but none knew which would be called upon to act as the third man in the ring in the titular bout. The four were Jim Crowley, Patey Haley, Jack Denning and Arthur Donovan. Six judges also appeared with the choice for the main bout to fall on two, James A. Farley, chairman of the New York state athletic commission, addressed the officials in a body before the preliminaries started, stressing the importance of the championship battle and urging the unidentified man to be fully aware of his responsibilities.

Frederich Von Prittwitz and Graf von, German ambassador to the United States and Charles Francis Adams, secretary of the navy, were present as guests of James J. Walker, mayor of New York.

James J. Corbett was the first former heavyweight champion to appear in an appearance at the ringside.

The Phillies won an abbreviated game with the Chicago Cubs by 5 to 3, the Phils thus taking the lead in the sixth because of rain.

Americans Are Favorites In Wightman Tilt

Queen Helen And Mates Are Likely Winners In Annual Battle For Net Trophy; British Detested

WIMBLEDON, England, June 12. (P)—The British world of tennis is hoping that fortune will run with Britannia's daughter during the eighth annual battle for the Wightman trophy, symbolic of the Anglo-American supremacy in women's team matches which will be played here tomorrow and Saturday.

The teams led by Helen Wills Moody and Phoebe Watson today went through their final practice on the velvety green turf of the Wimbledon courts and are ready for seven matches—five singles and two doubles—between two nationally selected teams.

Britain, having won the trophy three times America's four, again is out to level the score.

The odds ought to be against a British victory for with Mrs. Moody in action, American seems assured of two certain points of the four necessary to retain the cup. But while the British team lacks such stars as Mrs. Moody and Helen Jacobs it is a stubborn if not brilliant group of players and there is every likelihood of a closely fought series.

Youngsters In Net Triumphs Over Veterans

Four Young Stars Fight Way To Semi-Finals In Dallas District Tournament; Barnes Meets Taylor

DALLAS, June 12. (P)—The last vestige of a 1920s tennis list today and left youth to scrap it out for the championship in the Dallas District tennis tournament. Bruce Barnes and Earl Taylor, No. 1 and No. 2 ranking players on the Texas University net team, Jake Hess of Ponce de Leon, and Jimmy Quick, young Dallas star, were the four who fought their way to the semi-final.

J. B. Adoue and John Barr, of Dallas, fell before the youngsters' onslaught today. Barr succumbing to the brilliant Barnes, 6-2, 6-2, and Adoue bowing to Taylor, 6-4, 6-1.

Hess had a real time in disposing of Karl Kamratz, Texas university freshman, 6-4 8-01, 6-3. Quick removed Lucien Lacoste of San Antonio, another member of the Texas university team, when Lacoste sprained an ankle in the second set and was unable to continue. Quick had won the first set, 6-2, and was leading 1-0 when his opponent fell.

An X-ray of Lacoste's ankle revealed no break and it was thought he would be ready to accompany the Ponce de Leon squad on its eastern invasion next week.

Barnes to Meet Taylor
In the semi-finals tomorrow, Barnes will clash with his teammate, Taylor, and Quick will meet Hess.

Ruth Bailey Texas university entry, reached the finals in defense of her women's singles title by defeating Eunice Dean, San Antonio, 6-0, 6-0. The defending champion was to have met Margaret Fitch from Baylor College, Belton, but the match called off after Miss Fitch had been accused of professionalism. She has for two weeks, she said, been a teacher of physical education at Baylor, but had not taught tennis. Her home is at Berkeley, Calif.

Miss Bailey's opponent in the finals will be Mary Zita McHale of Dallas, who triumphed over Anna Mae Reschert, San Antonio, in a hard fought three-setter, 8-7, 6-3 6-0.

Bill Landreth, Fort Worth, won the boys' singles title by defeating George Duling, San Antonio, 6-2, 10-12, 6-2.

Sharkey tried to get his hand on the trophy but was thrown out by the umpire. He was then hit by the ball and fell. The crowd roared and another hit was made. The crowd was so excited that they were almost out of their seats.

Round by Round

Round One

Sharkey fought carefully with his left but could not touch the German's head. He missed Max, who stepped in with a sharp left hook to the chin and nearly blocked the Boston Salinger's count. Max bobbed under Jack's left, hooked his left to chin and fell in close with a slug to the body.

Sharkey, a big man any way, looked a physical superior of Schmeling in every way. As Sharkey missed a left Max whipped over his first right, a short smash that thudded on Sharkey's head. Jack appeared shocked and stormed madly forward. He clinched, however, and they were sparring carefully at the bell.

Round Two

Sharkey seemed to argue with his seconds in the corner and came out on his toes boxing carefully. The black thudded Schmeling with a left and right to the body and Sharkey hammered both hands to the head. They clinched, wrestled and Sharkey pumped a left to the head.

Round Three

Sharkey tore after the Teuton and they swapped rights to the chin on the ropes. Both were clean jarring punches. Max sneaked over another right and banked on Sharkey's body in close, while the Sailor tried to tie him up. A short right full on the chin shook Schmeling. A barrage of rights sent him floundering. Another right sent him to the ropes and he came out badly hurt and holding for dear life.

Round Four

Sharkey, cool as falling snow, stepped into Schmeling with a left and another right. He was taking his time, cutting his man down. Max stumbled through the blows, arms wrapped around his head. As he slowly recovered the German shot a feeble left hook to the chin. Sharkey stepped in with two left hooks that doubled Max up and sent him back to his corner, a bit staggered at the bell.

Round Five

Schmeling's seconds rubbed his neck with ice and gave him deep draughts of smelling salts, while Sharkey sat across the ring complacently awaiting the kill. Sharkey stepped into Max with a left jab, a right punishing blow to the chin and disdainfully brushed aside Max's countering left. The dogged German rallied and fired a right-hand bolt into Sharkey's chin that shook the American. The crowd roared as it landed and Sharkey tossed caution aside for a second to fling both hands wildly at the crouching Schmeling's head. Sharkey settled down, smiled disdainfully, took another right and smashed both hands to Schmeling's body. He crossed a wicked right to the German's chin but Max stayed up. As they clinched Sharkey tried repeatedly to twist Schmeling. Max went down under a left to the body claiming a foul. He could not rise. There was another mad scene as the seconds stormed into the ring, yelling foul, while Referee Crowley could not seem to make a decision. It was a perfect repetition of the Miami fiasco as Schmeling in agony was carried to his corner and rolled to his feet. Still Crowley refused to make a decision and the ring now was full of second arguments.

Lawyers Back Judge Atwell

Dallas Bar Is Seeking Place For Veteran Jurist; Fifth Circuit, Being Planned, Is Post Urged For Judge

Members of the Dallas bar Wednesday telegraphed the attorney general of the United States urging that William H. Atwell of Dallas, be recommended to the president for appointment as additional judge for the Fifth Circuit, according to information received in this city yesterday. Sixty-five signed the telegram, all that could be reached before sending the wire.

Judge Atwell is well known in Lubbock having been on the Federal bench here on numerous occasions.

Wire Is Quoted

"We commend Judge Atwell as in every way eminently qualified to serve on this great court," the telegram of recommendation read, "and point to his splendid record as judge for the Northern District of Texas as sufficient endorsement to secure your recommendation to the president of Judge Atwell's appointment."

It is understood that the Fifth Circuit court is in the making through a bill now pending at the national capital and its definite boundaries have not been announced.

ESCAPE AIR DEATH Six Americans Nearly Killed In Plane At Athens

ATHENS, Greece, June 12. (AP)—Six Americans narrowly escaped death when the airplane in which they were passengers caught fire and sank in Mytilene Harbour Tuesday. Four of them were priests; the other two were Ernest Lindley, newspaperman, and his wife, Betty Lindley, a swimming champion.

When the flames were discovered Lindley and his wife dived from the plane, which was taking off, and swam ashore. The priests and others were disembarked and taken ashore in boats.

The machine was an Italian plane. It was leaving for the Pare Parasas when it took fire from a spark to the carburetor. It sank soon after the blaze broke out.

TERRORISTS JAILED One Korean Killed, Two Hurt In Fracas With Japanese

TOKYO, June 12. (AP)—Twenty-two alleged Korean terrorists were arrested today following a fierce engagement with the Japanese consular police near Lunghington, in the Chientao district of Kirin province of Manchuria, the Japanese consul for the district reported.

One of the Koreans was killed and two were wounded.

The Chientao district is just across the Tumen river from Korea. The present series of disturbances there began May 31 with an attack by Koreans on several Kirin towns in which Japanese have industrial and other interests.

Mr. James E. Riddle Avers Argotane Greatest Remedy In His Experience

"I am telling you the truth when I say that if I knew that Argotane was not going to be sold any more, I would buy every bottle on that counter over there," said Mr. James E. Riddle, in a conversation at Bowen's Drug Store, Lubbock, Texas, recently. Mr. Riddle is a well known brick mason and stone cutter, residing at 1620 Fifteenth Street, Lubbock, Texas.

"Before I began taking Argotane I felt that I was at my row's end, after suffering for about thirty-five years with as mean a case of indigestion as a man ever had. During all these years I have been bothered by a disordered stomach that grew steadily worse. Indigestion attacks caused me to swell up like a mule with colic, and I would become very weak and nervous. My breath was short and my pulse weak. I tell you, I was flirting with the grave, and I guess I would be in it by this time if it had not been for Argotane.

"But look at me now. I am as strong and as well as I have ever been in my life, and can do as big a day's work as any man. Argotane did this for me, and you can't tell me that it is not a wonderful medicine. I can recommend it unreservedly."

Genuine Argotane may be purchased in Lubbock at the Bowen's Drug Store. Adv.

National Home to Be Dedicated in Sherman, June 25

Here is shown an architect's drawing of the administration building of the Supreme Forest Woodmen Circle's home for orphans and aged at Sherman which will be formally dedicated June 25. This structure was completed last November and several children and old people have since been admitted as guests. The structure is located on one of the highest elevations in North Texas and the grounds of about 200 acres are being improved with an idea of making it one of the most beautiful spots in the state. A half million dollars investment on the home and grounds is planned. Two-story brick cottages will be erected as required, the first to be started in the next few months.

ROBINSON SPEAKS Shriners Hear Senator Talk At Memorial's Unveiling

TORONTO, June 12. (AP)—Senator Joseph T. Robinson of Arkansas declared at the unveiling of the Shriners Peace Memorial today that the London naval treaty was the "seal of friendship" between the United States, Great Britain and Japan.

"Never before," said the Senator "have citizens of these nations so well understood one another as now. Never before have they trusted one another more implicitly."

Leo Youngworth, retiring Imperial Potentate, called the memorial a reminder that the Shrine, with its 600,000 members representing 20,000,000 people of the North American continent, sought to stand in the forefront of the movement to make war impossible.

LOANS ANNOUNCED WASHINGTON, June 12. (AP)—Loans to brokers and dealers held by New York Federal Reserve member banks for the week ending June 11 were announced by the Federal Reserve Board today as \$3,998,000,000, representing a decrease of \$103,000,000 as compared to the preceding week.

FIREMEN CHOOSE BRYAN SAN ANGELO, June 12. (AP)—Bryan was selected by acclamation as the next convention city and C. L. Johnson of Bryan was installed as president at the closing business session of the State Firemen's and Fire Marshals' Association here today.

CHEMIST SUICIDES Donald Shields Andrews Dies By Own Hand From Poison

FAIR HAVEN, N. J., June 12. (AP)—Poison, apparently self-administered, today was declared to have caused the death of Donald Shields Andrews, wealthy chemical engineer who in 1915 when a student at Yale eloped with a princess.

His partner in the sensational elopement, Mrs. Alma V. Hayne, also known as the Princess Velsera of Austria, took her life by drinking poison at the second victory ball in London in 1919.

Andrews was found dead Thursday in the \$200,000 laboratory he built on the banks of the Shrewsbury river and in which he recently spent much time endeavoring to make precious stones synthetically.

WILMINGTON, Del. June 12. (AP)—The total population for the state of Delaware announced today is 238,858, compared with 223,003 in 1920. This is an increase of 13,855, or 6.21 per cent.

NAMING THE PARKS

LUBBOCK people have awakened slowly to the park naming contest and while more than a score have offered suggestions there is still time for others to follow suit.

We favor naming the parks for citizens who have accomplished good for the community and territory.

Many cities have won for to name their parks for national heroes and martyrs.

The Avalanche notes with pleasure the suggestion to honor Dr. M. C. Overton, the pioneer physician.

Will this mean an assured Republican victory? There are northern Democrats who do not think it necessarily will follow.

THE PROBLEM IS. Will as many a crowd as the Republican leaders permit their party to be a test case.

Of course it strains the imagination to conceive of so vibrant a trend of any sort as to keep Mr. Hoover out of a re-election.

It is difficult, at present, to conceive of a Republican split on the prohibition question.

RETRIBUTION BATTLE OVER PROHIBITION FORECAST FOR TWO YEARS HENCE

By CHARLES F. STEWART, Central Press Staff Writer

WASHINGTON, June 12.—U. S. supreme court decisions in liquor cases have lost all their kick recently.

Time was when wets and drys alike hung with bated breath on every syllable from the federal tribunal of last resort concerning questions of wet-and-dry interest.

Not long ago the supreme bench unanimously upheld the dry authorities' right to seize home brew paraphernalia, from bung holes to cocktail glasses, and not a soul batted an eyelid.

Obviously enough all hands' attention is too much concentrated on the big prohibition fight ahead to regard current developments of a judicial character as of much importance.

That such a fight is coming is by no means a purely wet prediction.

Dr. F. Scott McBride of the Anti-Saloon league freely recognized it before Senator Thaddeus H. Caraway's lobby investigating committee, when he expressed the opinion that perhaps it will be all he expects to have the opposing forces meet in mortal combat.

Something the doctor said a short time subsequently, in a speech at Milwaukee, was still more significant.

Dr. McBride is not blind to the fashion in which politics are shaping up.

His remarks at the Wisconsin metropolis plainly embodied his answer to a question which has been puzzling a great many folk of late.

There are northern Democrats who do not think it necessarily will follow.

THE PROBLEM IS. Will as many a crowd as the Republican leaders permit their party to be a test case.

Of course it strains the imagination to conceive of so vibrant a trend of any sort as to keep Mr. Hoover out of a re-election.

CHAPTER XLII

Alan got up and paced the length of Bernadine's somewhat sparsely furnished room, kicking aside a big fat cushion that got in his way.

"Bernadine relaxed. 'I was afraid,' she said, 'that you were going to Natalie, and you shouldn't do that until you're calmer.'"

"I've already seen her," Alan replied, his face darkening and his lips growing even harder than they had been before. Then he wheeled sharply and faced Bernadine.

"Well," she began, speaking unemotionally, "let us assume that Natalie did it, about you think we ought to cry and wail out if there was any excuse for it?"

"Don't you understand that I'll have lots of money just as soon as the editor accepts this story?"

wouldn't marry any woman who didn't love Bobby. And you know Natalie doesn't care for children.

"Bernadine sighed. 'I was afraid it was like that,' she said. 'Alan, tell me, did Bobby have anything to do with your quarrel with Natalie?'"

"Alan answered uncomfortably: 'She never knew why you sent for me that first night I went to your house.'"

"Then she was jealous of me?" "Yes," Alan admitted. "So I thought it best not to tell her about Bobby, unless... unless it became unavoidable."

"I'm sorry," Bernadine spoke with deep regret. "I'm afraid I didn't consider your wife that night, Alan; or you, either, perhaps. I was thinking only of Bobby."

"Alan, do you think it would be any good if I went to Natalie, and told her there's nothing between us for her to be jealous of?"

Alan saw that she was becoming hysterical. "I'm going to call Nellie," he said firmly, and did.

During the few moments he waited for the servant girl to come, he spoke sternly to Bernadine. "Natalie has put herself beyond forgiveness," he said. "Don't think of her, Bernadine. She's not worth it. Bobby is all that counts now with you or me."

He had forgotten Phillipa, who a moment before, had risen in his mind like a ghost. Bernadine's talk of a second marriage for him had turned his thoughts to Phillipa.

She was weeping now, the tears raining down her cheeks unchecked. "If I could just be sure that I hadn't done this to you, Alan, that I

Alan gently released her clinging hands, and turned her over to Nellie who had come as fast as she could from the nursery upstairs, without bringing Bobby with her.

The maid was frankly terrified. "Send for Dr. Wagnall, please, she begged of Alan.

Dr. Wagnall came as soon as could. And all he said was: "You will stay in bed, Mrs. Lamont until I tell you you may get up."

Bernadine closed her eyes and did not answer him, but an enigma came played around her lips. It had nothing to do with any intention disoey her physician.

She was more at peace now. Alan had sat with her, talking fit against her unbedding ears, the getting her attention by gradual degrees, until finally she was drifting in his words as one dying thirst consumes the last prey.

(By Staff Correspondent.)
ABERNATHY, June 12.—The 1930 wheat crop in Abernathy's territory is not expected to exceed an average of 10 bushels per acre. F. W. Struve, merchant of Abernathy, says farmers tell him they do not look for more than 6 or 7 bushels to the acre. "Our crop will be short this year," Mr. Struve said. "If we had had these rains sixty days or so ago, we would have had a very fair crop. I do not look for the average to go above eight bushels to the acre."

DODGE CITY, Kan., June 12. (P) Fifty-cent pieces, coined by the chamber of commerce, have pushed the enumerated population of Dodge City, outpost of the old frontier, past the 10,000 mark for the 1920 census. The chamber, faced May 24, with an announcement that only 9,636 citizens were accounted for, offered half a dollar to each person reporting himself or others to be counted. More than 400 persons answered the appeal, lifting the total to 10,080, an increase of 4,000 or 68.8 per cent over the 1920 figures. Two thirds of the area of the city and county of San Francisco is water.
