Mrs. Calcote Dies Suddenly Monday Night

Mrs. John Calcote, who had lived in this area since childhood, died unexpectedly in an Amarillo hospital Monday, Dec. 2, shortly after 8 p.m.

Her death was attributed to a heart attack. Her children had visited her about 6 p.m. and she appeared to be doing well. Mrs. Calcote entered the hospital three weeks ago for tests and was preparing to return home within a few days, members of her family said.

Mrs. Calcote was the former Nora Jewell Young, the daughter of the late Mr. and Mrs. Jim Young, and was born Feb. 7, 1899 at Bowie. She came with her family to the Arlie community when she was 7 years of age.

She and Mr. Calcote were married Nov. 26, 1917 at Arlie. They later lived at Twitty, then for many years in the Quail and Aberdeen communities before moving to Wellington.

Mrs. Calcote was a member of the Full Gospel Church.

Funeral services were conducted at 2 p.m. Wednesday at Faith Baptist Church, with the

The American Legion, headed by Robert Gosnell, will supply the posters of the American flag for the children to use, and the Club will furnish the prizes, which will be American flags, both individual and grade winners. Judging will be on neatness, correctness and coloring.

Write Yours Early

Wellington Leader to Print Santa's Letters

Word has come down from the North Pole that Santa Claus is eagerly awaiting letters from the boys and girls from Collingsworth County and whose parents formerly lived here.

Santa Claus also sent word that these are to be sent to him at The Wellington Leader, and the newspaper will speed them on to Santa's toy factory by special North Pole Air Mail facilities that have been arranged to get them there quickest.

He also notified the boys and girls that all letters will be printed in the Christmas issue of The Wellington Leader.

All children are urged to write their letters to Santa Claus as early as possible and mail them or bring them to the newspaper. Several have been received already.

The date of the Christmas issue of The Wellington Leader will be announced later, but the important thing is that a letter from every child is received.

25 Years a County Agent

Lefty Thomas Honored at Extension Banquet

J. W. (Lefty) Thomas was one of 11 Texas Agricultural Extension Service retirees given recognition recently at the annual Honor Banquet sponsored by the Extension Service and Alpha Zeta Chapter, Epsilon Sigma Phi, honorary Extension organization.

Mr. Thomas, who spent more than half of his 25 years with the Extension Service as Collingsworth County agricultural agent, returned here when he retired nearly a year ago. He and Mrs. Thomas, with their son, Jack, live on a farm south of Samnorwood, where he puts into practice the things he told farmers would work to their profit.

A highlight of the banquet, which was held Nov. 21, was the presentation of service plaques to the honorees by the County Judges and Commissioners Association of Texas.

Lefty Thomas came here from Waxahachie but that was not his first introduction to the Panhandle. He had played pro baseball about 12 summers in the Pampa-Borger-Amarillo area. Teams in those years were generally sponsored by oil companies, and some of those for which he played were the Dansinger Road Runners, the Magnolia, Col Tex and Amarillo Gas companies.

He had only one year's experience as a county agent behind him when he brought his family to Wellington, and for the next 14 years, Lefty Thomas worked with the farmers and ranchers and 4-H Club boys here. Then came 7 years as county agent of Deaf Smith County and three and a half in the same position in Carson County.

Some of his most important work here was with the development of this county as a certified alfalfa seed producing area, and people here have not forgotten that Collingsworth County once produced more certified alfalfa seed than any other county in Texas.

He ranks his work in insect control another important part of his work here. Much of this was done prior to the development of the powerful chemicals now taken for granted.

Some of those associated with him, however, believe that his work with 4-H boys, especially those in livestock projects, as his most lasting accomplishment.

At Hereford, his primary work was again with insects, this time in vegetables, along with vegetable demonstrations and lots of 4-H Club work.

Now, Lefty Thomas is growing alfalfa again, this time varieties that are more insect

Turkey Shoot Set Sunday

The Wellington Gun Club will sponsor another Turkey Shoot Sunday, Dec. 8, according to Mickey Breedlove, president.

It will be held one and three-fourths mile north of Wellington on Highway 83. Breedlove said it will start at 1 p.m. and continue until dark, or as long as anyone wants to shoot. It will be conducted along the same lines as the recent successful shoot when 35 turkeys were given away.

In addition to turkeys, the club plans to give away a few hams Sunday, according to the president.

Anyone wanting to shoot is invited, he added.

Four Injured as Car Is Struck From Rear

Three women and a baby were injured about 3:50 p.m. Monday, Dec. 2 when the car in which they were riding was struck from behind by another car traveling at a high rate of speed, according to Patrolman Doug Wright. The accident occurred a short distance south of Elm Creek Hill.

The injured, who were taken to a Shamrock hospital, were identified as:

Mrs. Clara M. Sexton, 51, of Liberal, Kan., driver of the car that was hit.

Mrs. Ruth Braswell, 49, of Sherman.

Mrs. Barbara Drake, 25, of Broomfield, Colo., and her 11-months-old son, David.

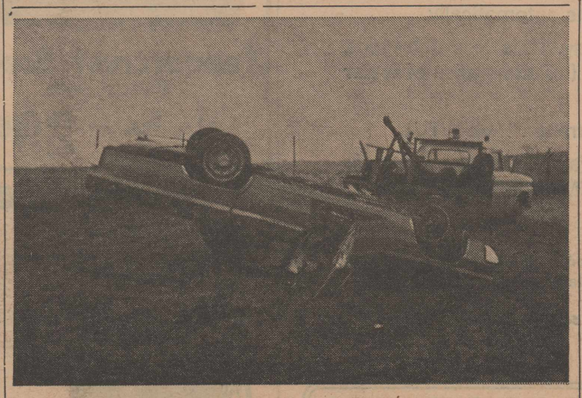

The driver of the other car who was not injured, was listed as Sgt. John A. Meade, Jr., of Lawton, Okla.

Both cars were traveling north, Patrolman Wright said, when the 1968 Cadillac driven by Sgt. Meade ran into the back of the 1969 Plymouth in which the women were riding, knocking it 322 feet. It left the road on the west side, rolled over twice and came to rest on its top. The Cadillac traveled north 538 feet before stopping, the investigation showed.

Patrolman Wright said Mrs. Sexton reported she was driving between 65 and 70 miles per hour at the time.

Charges of driving while intoxicated were filed against Meade Tuesday morning, after he was held in Collingsworth County jail overnight.

Assisting Patrolman Wright in the investigation were Sheriff John Rainey and Patrolmen John Thompson and Ted Poling of Shamrock.

FHA Emergency Loans for 1969 Are Available

Collingsworth County has been designated by the Farmers Home Administration as eligible for emergency operating loans for the 1969 crop year, according to Raymond Hodges, county supervisor.

The designation is effective immediately, he added.

Mr. Hodges explained that farmers eligible for these loans are usually referred to FHA by banks, and the agency is not in competition with local lending institutions.

The emergency loans are to help farmers with current operating expenses, it was pointed out, and they are not to be used for capital improvements or for purchases other than those incurred in making the crop.

Texas Indian Reservation Has 12 State Champion Trees

The Alabama-Coushatta Indian Reservation has been awarded certificates for 12 State Champion Trees in the Texas Big Thicket Tree contest sponsored by the Texas Forestry Service.

Texas' only Indian Reservation, located on US Highway 190 between Livingston and Woodville, has the distinction of having more State and National champion trees than any other owner. Consideration is continuing for additional trees submitted.

Two of the State Champion trees have won as National Champions. They are a Texas Honey Locust and a Water Tupelo. The Water Tupelo is in a setting that can be viewed by tour visitors along the Big Thicket Tour Trail. It grows like cypress in swamps in up to six feet of water.

The Alabama-Coushatta Indian Reservation went on winter schedules Dec. 1. With full programs only on the week ends until March 1 when the spring season opens.

Guests to the Indian Village on week ends can enjoy the masterful array of Indian Autumn colors and see all the hues of yellows and reds due to fall weather.

The Alabama - Coushatta Tribes start their program schedules Saturdays at 10 a.m. and Sundays at 12:30 p.m. A new addition in the forest are the buffalo and the Longhorn cattle. They are seen from the Indian Chief railroad line.

Highway SAFETY Guidelines

Patrolman James Haley

Patrolman Doug Wright

Q. When is a vehicle required to be equipped with mechanical turn signals?

A. When the body of a vehicle projects 24 inches or more to the left of the center of the steering wheel, or under any condition when a hand and arm signal would not be visible both to the front and rear of such vehicle or vehicles.

Q. How far in advance of a turn must you give a turn signal?

A. A turn signal when required shall be given at least 100 feet before making such turn. Safe driving procedure requires longer distances on highways where traffic travels at high speeds.

Q. When does the law require headlights to be turned on?

A. Headlights shall be turned on from a half hour after sunset until a half hour before sunrise and at any other time where there is not sufficient light to clearly see vehicles or persons for a distance of 500 feet ahead.

Q. Can a spot light be legally used in Texas?

A. It can be legally used except when another vehicle approaching from the front is in sight and it can be legally used in case of headlight failure providing it does not strike the roadway more than 50 feet in front of the vehicle upon which it is being used.

Q. What is the law in regard to mufflers?

A. Every motor vehicle shall at all times be equipped with a muffler in good working order and in constant operation to prevent excessive or unusual noise and annoying smoke and no person shall use a muffler cut-out, by-pass or similar device upon a motor vehicle on a highway.

Cotton Harvest Halted Third Straight Week

Cotton harvest in the Greenbelt area was halted by rain for the third time in as many weeks, according to Wiley Cain, officer-in-charge of the Memphis Cotton Classing office, of Consumer & Marketing Service. The central and eastern counties served by the office got most of the moisture. These counties, Eastern Hall, Childress, and Cottle, received up to 1.5 inches of rain mixed with snow last Wednesday.

Last week the Memphis classing office classed 13,939 samples to bring the season total to 33,796. "On the same date last year, this office had classed 66,000 samples," said Cain.

Quality of the crop shows 28% classed in the White grades this past week and 70% Light Spot and Spotted. Staples dropped slightly as the percentage of shorter staples, 15/16 to 1 inch increased to 85%, up from 73% last week. More long staple cotton has been harvested and that percentage, 1-1/32 and longer, dropped to 14% of the total classed.

Micronaire readings, or fineness and maturity, show 78% miked in the desirable range of 3.5 to 4.9. Pressley, or strength readings, as released by the Consumer & Marketing Service report that Greenbelt area cotton averaged 80,000 p.s.i. last week. The season average is 83,000 pounds per square inch.

Market prices remained steady and more active this week. Most active qualities are White and Light Spot grades, 15/16 to 1 inch staple lengths. These average 175 to 250 points over CCC loan rates.

Average price paid to farmers for cottonseed this week was $49 per ton.

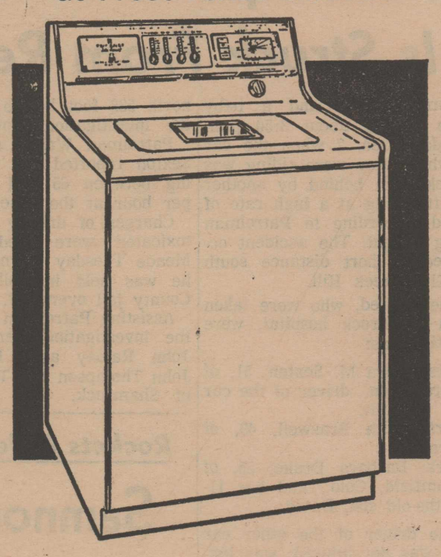

Finishing Touch Due on Interstate

The Texas Highway Department has made ample provisions for rest areas along the Interstate highway system in the state.

When the system is complete there will be a safety rest area on each side of the divided routes on an average of every 37 miles, and rest room facilities will be included wherever water is available.

Wellington Takes Double Header from Paducah

A double header between the evenly matched Wellington and Paducah boys and girls A teams saw the Rockets and the Rockettes take both games on Tuesday night, Nov. 26.

Wellington girls won 51 to 41 while the boys, who lagged until the fourth period, squeaked by 62 to 59.

The girls game was hard played on the part of both teams. Both are fairly quick and not too big.

Several times it looked as if the Rockettes would put the game out of reach of the Dragonettes, then Wellington sagged to a slow third quarter, scoring only 6 points. After that the girls had to battle all the way during the last stages of the game.

Mary Lou Holton was high pointer both for the game and for Wellington with 19. Betsy Trapp was next with 15. High for Paducah was June Harrison with 17, and Shirley Matney had 16.

The score by quarters:

Wellington	17	33	39	51
Paducah	7	19	31	41

Rockets-Dragons

The boys game developed into a situation just opposite to that in the girls contest. Paducah built up a commanding lead in the early part of the game, but Wellington boys refused to give up and fought back to a 62 to 59 win.

"Two things helped us win, the condition of the team was a little better than Paducah's, and they got some boys in foul trouble. Both teams played well for no more practice than they have had," said Coach James Stavenhagen.

Joe Colbert and Lonnie Hurd of Paducah scored 23 points each. Wellington's Glen Barber had 17 and Lester Robinson 16.

The score by quarters:

Wellington	8	28	43	62
Paducah	13	31	44	59

Miss Hickman Weds Donald Sanders in Tulia Ceremony Wed. Evening

In a double-ring ceremony, Miss Marsha Dawn Hickman became the bride of Donald James Sanders in the First United Presbyterian Church of Tulia on Wednesday, November 27 at 6:30 p.m. The Rev. Murray Travis, pastor, officiated.

The bride is the daughter of Mr. and Mrs. Eugene T. Hickman of Tulia, and the bridegroom is the son of Mr. and Mrs. W. C. Sanders of Route 2, Tulia, who are former residents of Wellington.

Four-branch candelabra trimmed with emerald greenery and white satin bows and holding white lighted tapers formed a background for the ceremony. Two brass urns held arrangements of white mums.

Mrs. W. C. Teel, organist, provided hymns and nuptial selections, and accompanied Mrs. Murray Travis, who sang.

Given in marriage by her father, the bride wore a formal wedding gown of ivory crepe and Venice lace, designed with empire styling.

Her chapel length veil of imported silk illusion was ivory completely encircled with wide Venice lace and secured by a Venice lace coif. She carried a cascade of white carnations centered by a Cattaleya orchid.

Miss Jo Hickman attended her sister as maid of honor. Bridesmaids were Miss Linda Fisher, and Misses Mary Lee Sanders and Judy Sanders, sisters of the bridegroom.

Best man was Kenneth Patterson of Wellington, cousin of the bridegroom. Groomsmen were Larry Milner, Frank Venhaus of Happy, and Lee Roy Oliver. Seating guests were Tommy Hickman, cousin of the bride, Jimmy Don Lavender, Parker Doan, all of Tulia, and Richard Patzig of Dimmitt.

Lighting the tapers were Miss Brenda Sanders, sister of the bridegroom, and Miss Paulette Northcutt.

Presiding at the guest register was Miss Sandra Elkins.

A reception was held in the Fellowship Hall of the church immediately following the ceremony. Pink carnations and red roses in a silver epergne btaring three white lighted tapers centered the table, which was laid with a white net cloth edged with lace over white satin. Wedding cake was served by Mrs. Jerry Crowley. Miss Barbara Hood poured.

The bride is a 1968 graduate of Tulia High School and the groom a 1966 graduate of Tulia High School. Both are students at West Texas State University at Canyon. Mr. Sanders is engaged in farming with his father northeast of Tulia.

After a brief wedding trip to points of interest in south Texas, the couple will make their home at 1804 Second Avenue in Canyon.

Double Wedding Unites Ann Orr and Lynn McLain; Jane Orr, Glenn Thomas

The twin daughters of Dr. and Mrs. James Milton Orr were married in a double ceremony in their home, 1700 Dalhart Street, at three o'clock Friday afternoon, November 29.

Miss Margaret Ann Orr became the bride of Lynn Ross McLain, the son of Mr. and Mrs. Glenn W. McLain, 1404 Childress Street.

Miss Marjorie Jane Orr was married to Tommy Glenn Thomas, whose parents are Mr. and Mrs. Bob Thomas of 1400 Dallas Street.

The Rev. Raymond Dyess, pastor of First United Methodist Church, officiated at the double ring ceremonies, which were attended by members of the families and a few close friends.

The vows were exchanged before an arch of candles, with arrangements of white gladioli and chrysanthemums in front. A trio of candles in holders of varied heights were at each side.

Wedding music was presented by Mrs. J. C. Saunders of Lakeview, pianist.

Dr. Orr gave his daughters in marriage.

They wore identical formal length gowns of white imported Venice lace and bridal satin. The lace bodices featured jewel necklines and long fitted sleeves, while miniature satin bows marked the center of the empire waistlines.

Their controlled A-line skirts were designed along skimmer lines. The detachable trains, edged in Venice lace, fell to chapel length from the back yokes, and each was adorned with two satin bows.

Each bride wore a satin coif, appliqued with Venice lace and crystal beads that held her tiered veil of imported silk illusion. Matching bouquets were of white roses, centered with white orchids.

Mrs. Joe Davis of College Station was the matron of honor for her sisters. She wore an A-line dress of gold silk shantung. Gold jeweled braid trimmed the boat neck and bell sleeves, and her headpiece was a matching gold silk Dior bow and bouffant veil. She carried a cascade of yellow roses.

Mr. McLain had as his best man his brother, Ted McLain, while Bryan Hatch of Lubbock was Mr. Thomas' best man. Guests were seated by Joe Davis of College Station, brother-in-law of the brides.

Ricky Thomas of Lubbock, nephew of Mr. Thomas, lighted the candles.

After the ceremony, Dr. and Mrs. Orr honored the couples with a reception.

A white cutwork linen cloth covered the table, and the brides' bouquets formed the centerpiece, and triple silver candlesticks were at the sides. Silver and crystal appointments were used.

Members of the house party were Miss Frances Hill of Houston, Mrs. Leo Russell of Canyon, Miss Linda Haning of Lubbock, Mrs. Linda Lacy of Arlington, and Miss Anna Rainey of San Antonio.

Both couples were graduated from Wellington High School. The brides attended Stephens College at Columbia, Missouri, and are presently seniors at Texas Technological College.

Mr. McLain is an architectural student at Texas Tech and is also a draftsman for Engineering Associates.

Mr. Thomas attended Oklahoma State University and Texas Technological College and is now employed by Ralston Purina in Lubbock.

Coincidence Plays Part in Folklore

COLLEG ESTATION.—Coincidence often affects the reputed results of traditional remedies in medical folklore, according to Minnie Bell, family life specialist with the Texas Agricultural Extension Service.

Many simple home remedies came into being by coincidence, she says.

Miss Bell, specialist for aging, reports these facts about some of the most common misconceptions:

—No medicine exists that can be taken by mouth to dissolve gallstones.

—Insulin does not cure diabetes. It substitutes insulin which the body is unable to produce.

—Heart disease is not necessarily a valid reason for a denial of an operation or taking an anesthetic.

—Flowers may use a little oxygen in a sick room, but the chief reason for removal is to benefit the flowers. They keep better in an open, more airy place.

—Baldness is not caused by wearing hats. No one really knows the cause.

—It has not been shown that cancer is contagious.

—Lying on the right side to protect the heart has no basis whatsoever. The heart is practically in the center of the chest and not on the left side.

—Removing a mole will not cause cancer. It might be the other way around. Do what your doctor thinks best.

—Strenuous exercise for those 40 years and older CAN be taken if they are accustomed to it and the body is in good condition.

Miss Mitzie Hartman, student at T.W.U. spent the holidays with her parents, Mr. and Mrs. J. C. Hartman, Jr.

Miss Rhonda Kersten, student at T.W.U. spent Thanksgiving with her parents, Mr. and Mrs. Ronald Kersten.

Miss Jan Bowen, N.T.S.U. student, was home for Thanksgiving with her parents, Mr. and Mrs. J. R. Bowen, Jr.

Visiting with Mr. and Mrs. Jones Singley for the holidays were their daughters, Mr. and Mrs. John Burdette and Miss Beverly Singley, and the latter's fiance, Robert Junell, also of Lubbock.

Guests of Mr. and Mrs. Alvin Horton over Thanksgiving were their son, John Alvin Horton, and Miss Roxie Beth Hughes of Arlington.

Defending Champions Meet

Basketball Schedule Filled by All Schools

Basketball returned to full schedules for the coming week after all teams were idle through the Thanksgiving holidays. This will continue until Dec. 12, when three of the four county schools will begin competition in the annual Samnorwood tournament.

Quail

Two defending Class B champions in boys play will meet when Quail travels to Allison Friday night, Dec. 6, for a return game. Quail holds the title in District 4-B and Allison in 3-B.

Quail won the first encounter three weeks ago by only 3 points. This was played at Quail and Allison is always stronger on its home court. Allison boys average an inch to an inch and a half taller than the Quails, but the two are about equal in speed. This will be a double header, and although Quail Bobwhites won the earlier game by a large margin, the Allison girls also are stronger at home.

Quail will play at Arnett on Tuesday night, Dec. 10. Coach Billy Wilson considers the Arnett Indians one of the stronger teams. A week ago, Quail won on their home court, but again by only 3 points. Wilson considers them a team that is a little taller than Allison, but otherwise about like the Quails themselves.

Arnett Superintendent Bob Copeland is the Indian coach.

Arnett girls are inexperienced and young, and lost to the Quail Bobwhites in the earlier meeting.

Wellington

The Wellington Skyrockets and Rockettes will play in the Shamrock tournament this week end.

The Wellington and Samnorwood girls will meet in the tournament opener at 8:30 a.m. Thursday, Dec. 5, while Wellington boys play Canadian at 5:30 p.m. Thursday.

"Both games should be good," said Coach James Stavenhagen. "We know the Samnorwood girls are strong and they have always played real good ball. We don't know about Canadian, though, for we don't know anybody who has played them this season."

The Wellington varsity teams will go to Paducah Tuesday, Dec. 10, for a rematch.

Dodson

Dodson Mustangs, both boys and girls, are moving up under Asa Atchley, who took over as their coach recently.

Both teams will rest the remainder of this week, then host the Paducah B teams Monday, Dec. 9. This game is due to start at 6:30 p.m., Coach Atchley said.

Junior Varsity

The Wellington junior varsity boys and girls will meet Memphis B teams there Thursday, Dec. 5. Judging from the material on the football B team, Coach Tank Forrester believes Memphis will have a big team with considerable height.

Tallest men on the Rocket junior varsity are Sam Dyess, about 6'1" or 2", and John Scott, also more than 6'. Both transferred to Wellington at the beginning of the school year and are not eligible to play on the varsity this year. Both are juniors.

Forrester lost his top scorers when Larry and Lester, the Robinson twins, moved up to the varsity. He has picked up Don Martin and Ricky Nall, however. These two are juniors and it is believed they will get much more experience on the junior varsity team, and will therefore be of more value to the A team next year.

"It is game experience that we are looking for from them," Forrester said.

The junior varsity's next game after Memphis will be with Shamrock in the Rocket gymnasium Thursday, Dec. 12. All this team's games begin at 6:30 p.m.

Wellington 8th Grade

The Wellington 8th grade boys and girls will meet Memphis 8th grade as their next opponent. The game will be played here beginning at 5:30 p.m. Thursday, Dec. 12, according to Coach Carroll Nunnelley.

Quail Junior High

Quail junior high boys and girls teams have no games scheduled through the remainder of this week or next week, Coach Billy Wilson reported.

Farmers Meet Challenge in '67

COLLEGE STATION. — The total volume of farm output in the United States in 1967 was a record 4% above 1966 and 18% above the 1957-59 average. Production increased for cattle, calves and hogs but was lower for sheep and lambs, reports C. A. Parker, Texas A&M University Extension economist.

Poultry and egg production, he adds, was at a new high with record output of eggs, broilers and turkeys. Dairy products remained at about the same level as in 1966.

Cotton production was the smallest since 1895 and only half of the 1961-65 average. Record corn and sorghum grain output pushed the feed grain total to a new high. Food grain production increased 14% over 1966. Oil crops continued to increase, primarily because of the rise in soybean harvest.

Labor used on farms in the United States totaled 7.4 billion man-hours in 1967. This, explains the economist, was lower than any previous year and 1.4% less than in 1966. Farm output per man-hour in 1967 rose more than 6% from a year earlier. The increase in livestock production per man-hour was greater than for crops. Fewer farm workers in 1967 supplied food and other farm products to an increased domestic population. Each farm worker in 1967 supplied 42 domestic and foreign consumers with their needed agricultural products.

Financial Facts

By Jeff Wilson

MONEY CURIOS

On January 1st, 1780, the state of Massachusetts issued paper currency in which both the amount and the name of the payee were written in ink in spaces so allotted.

These notes measured 9" x 4½", with eight square inches of type matter but no illustrations.

One of the finest examples of the coiners' are is the decadrachma from ancient Syracuse. These were struck off during 405 to 335 B.C. and reveal art work of exceptional beauty. One side shows a profile while the reverse side depicts a chariot race.

A triangular segment from a Spanish dollar was used as a coin. Called "one bit" it had a value of 12½ cents. Two of them equalled 25 cents in our money, hence the term "two bits".

Study Centers Need Light

COLLEGE STATION.— With school season comes study time. Bonnie Lay, Extension housing and home furnishings specialist, stresses the importance of good lighting in study centers. A well-lighted desk makes it easier to concentrate and avoid eye-strain and physical tension.

To study, use a lamp correctly placed and fitted with a 200-watt bulb. If you do not have a diffuser on the lamp, use a white bulb to reduce the glare, suggests the Texas A&M University specialist.

Place the lamp so the center of the lampshade is about 15 inches to the left of the work center and the lamp about 12 inches back of the front edge of the table for a right-handed person.

Several lamp manufacturers now are making specially designer higher-wattage study lamps which produce nearly twice as much light as other lamps and spread light over a wider area. They also reduce glare, says Miss Lay.

Tags attached to these lamps say "This Is a Better Light Better Sight Bureau Study Lamp."

Miss Lay gives some other suggestions to improve light in a study center:

—Choose a desk with a light-colored, non-glossy finish.

—Use a light colored blotter or desk pad.

—Paint walls in neutral or light colors or select a plain wallpaper or one with a small, quiet design.

—Make sure the desk does not face a window.

Fishing Device Snares Burglars

Nashville, Tenn., police have used fishing equipment to break up a burglar ring. An electronic fish locating device, using sonar principles, helped locate two safes and a panel truck in the deep, muddy Cumberland River. With the evidence, officers wrapped up the case. Officers said they didn't know whether the device would work on fish but it surely would find cars.

All We Need for Christmas Is Right Here in Wellington

Why should we do our Christmas shopping the hard way?

Commercialism is part of Christmas and it is going to remain part of it. Most of us would not like a Christmas without gifts, anyway.

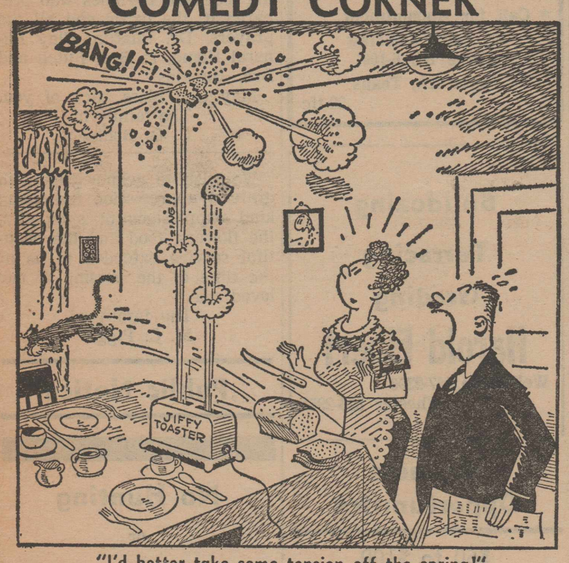

We complain of the chore of holiday buying, yet it can be eliminated without ever leaving town. Wellington stores have big stocks of merchandise that is identical to that in city stores. In most instances, the variety is wide. Certainly there is enough to delight anyone who gets a package from under a Collingsworth Christmas tree.

You will find Christmas trinkets for fun gifts; you will find quality items that will last a lifetime. Prices are competitive and so about the same as anywhere else.

All this you will find in Wellington. Why travel from a big city's downtown area to shopping center to still other shopping centers . . . hunting . . . hunting . . . for what is at home? Why add to the cost of your gifts the cost of gasoline, of wear and tear on your car and on your own energy and disposition?

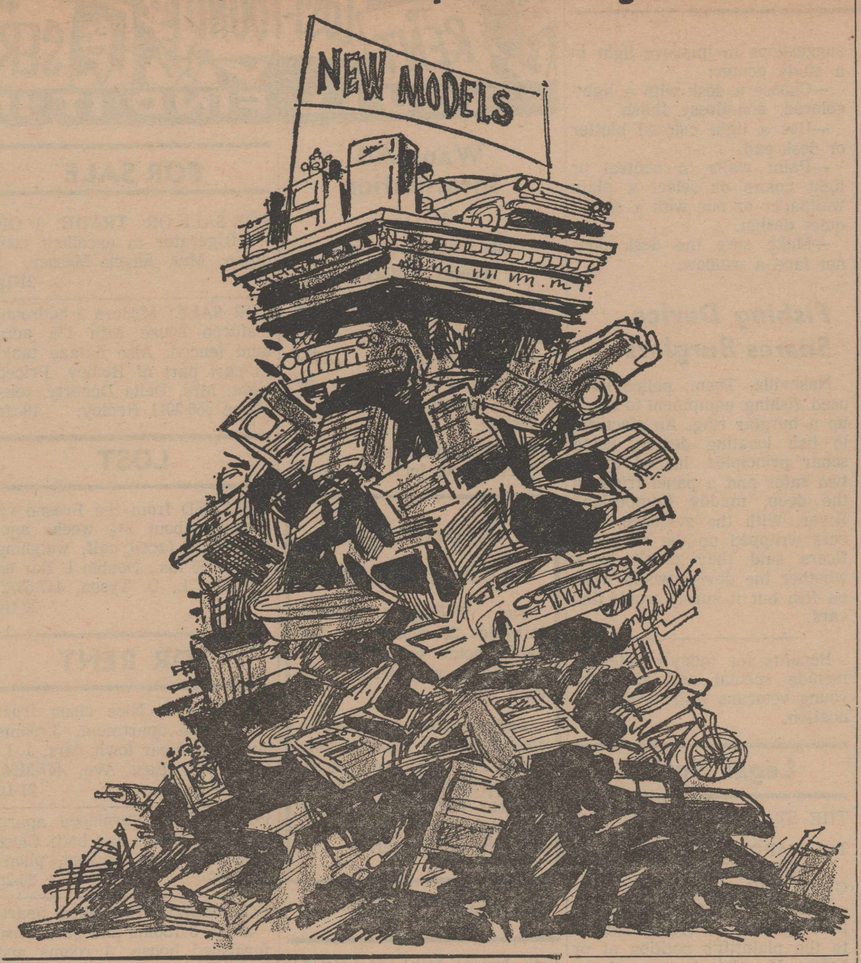

There is an easy way to do your Christmas shopping and it is here in Wellington.

STATE Capital NEWS

By VERN SANFORD

AUSTIN—When Preston Smith becames governor on Jan. 21, it will be to the tune of marching bands and at least five dance orchestras. Smith has revealed plans for a gala inauguration reminiscent of the 1950's.

A big Congress Avenue parade will follow his swearing-in at noon that day, and after a brief rest Governor and Mrs. Smith will lead off the dancing at a grand ball. They'll be honored with at least four other balls during the evening.

Last time the capital witnessed such a celebration was when Price Daniel took office in 1957. Then more than 20,000 well-wishers danced 'til dawn. But inaugurations have been rather sedate since then. Governor Smith said he'd reveal more details of his inauguration in a couple of weeks.

Cocktail Clubs

Proposed new rules for drinking clubs were shelled in public hearing by 11 bistro operators who urged different categories of regulations for a wide variety of establishments catering to the cocktail trade.

Texas Liquor Control Board took the issue under advisement and will hand down its ruling at an early date. Meanwhile, its proposed requirement that payment for mixed drinks be made in cash and strict definition of club "guests" remains under court attack.

Witnesses at hearing in the state capitol made these principal suggestions:

—That rules be geared to types of operations in 1,335 clubs over the state (344 of which are in dry areas).

—That record-keeping requirements be kept as simple as possible.

—That they be punished only for "knowing" violations.

"There are obviously several kinds of private clubs, all trying to operate under one broad definition. Comprehensive regulations might include clear-cut definitions of the various kinds or classes of clubs. This would, of course, involve a classification system," testified Royce Chaney of Dallas, representing the Texas Lone Star Chapter Club Managers Association of America.

Other club operators suggested separation on lines of non-profit and strictly-business clubs—or those which have relatively static membership and the rapid turnover clubs such as those in motels and hotels.

"No matter what regulations are adopted," maintained the president of a large San Antonio club, "there will be confusion under present laws." He suggested liquor-by-the-drink legalization is the only answer. A new push for that (probably via constitutional amendment) is expected to be made in the next legislative session which starts next month.

Courts Speak

Federal judge here dismissed the suit by a Fort Hood nuclear weapon repairman to keep his commanding officer from transferring him to Fort Sill, Okla. Employee claimed his security clearance was being taken away without due process of law.

Court of Criminal Appeals applied retroactively a U.S. Supreme Court decision that indigents must have legal counsel in all stages of criminal proceedings, and granted a new trial to a San Antonio man sentenced 13 years ago to life imprisonment for robbery by assault.

State Supreme Court upheld an injunction against a Lubbock man for engaging in the unauthorized practice of law.

Court of Civil Appeals here declined to enjoin Tarry House, Inc., from operating as a private club in a Lake Austin residential area.

Canal System Proposal

Texans and their Legislature will be asked to give approval and support to the huge $10 billion Texas Water Plan thru legislation and a vote in November of 1970.

Texas Water Development Board plans to reveal details of the plan this month. It is known that it will propose two huge canal systems to carry surplus water across North Texas to the Plains, and down the Gulf Coast to the Lower Rio Grande Valley.

Both canals will be federally financed, if they prove feasible. But state money will be needed to help finance them and companion reservoirs that will be needed to meet the water needs of a Texas with 30,000,000 people in the year 2020.

Board asked a legislative study committee to endorse a proposal to increase the present $400 million water development fund bond program to a figure in the range of $2 to $3.5 billion. It is said it wanted advice from legislators on how much state financing, through loans, should be put into the program, before setting a precise figure. But it did suggest that the matter be submitted to the voters for approval or disapproval at the election in November 1970.

It also asked that the Legislature make a number of policy decisions giving the board and other state agencies the authority, and the direction, to carry out jobs of pollution control, recreation and park development, water rights control, planning and contracting for the massive job which lies ahead.

If the water is to be where it is needed in the years ahead, to allow all part of Texas to grow and prosper, detailed planning work must be begun in 1969, the board said. The Texas Water Plan will be the biggest public works job ever undertaken, nearly four times as large as the $2.5 billion California water project now under construction.

A legislative committee headed by Rep. Bill Clayton of Springlake took the request under study. It will make its recommendation to the Legislature in January.

Attorney General Rules

Atty. Gen. Crawford C. Martin held House committee probing amusement vending machine operators' connections with taverns is legally constituted and can issue subpoenas for witnesses.

In other recent opinions, Martin concluded that:

—Roman Catholic diocese property used for bishop's residence and containing a chapel may be exempt from property taxes.

—There are no statutory requirements for deputy constables or other deputies under the election code.

Constitutional Rewrite

Constitutional Revision Committee completed work and will report to Governor Connally on Dec. 12.

Under recent changes in the proposals, homestead exemption would be limited to $25,000 for those homes acquired after the new constitution is adopted.

Commission wants to allow use of general revenue funds for construction of college buildings.

It also came out for protection of personal property of heads of households and unmarried adults from forced sales.

Drug Use Causes Concern

House Committee on Juvenile Crime and Delinquency spent two of its recent public hearings listening to testimony about teenagers' use of drugs and marijuana. While the committee has been advised that this is not the main juvenile problem, you can bet it will make recommendations to the Legislature on the subject.

Jack Reville, chief of the Criminal-Law Enforcement division of the Texas Department of Public Safety, said the major problem is that the state has only 25 narcotics agents. "Eight of them are in training," says Reville, "and we need to double that to make a dent."

Jury Snubs Charges

Travis County Grand Jury found no legal basis for action in Republican party charges that employees of the State Agriculture Department were pressured for campaign contributions.

GOP spokesmen agreed that action now would be "untimely and precipitous" but said it will continue to investigate reports.

Grand Jury called five witnesses, including a former state employee who gave the GOP a statement that he was squeezed for campaign contributions but got his money back through bogus expense accounts approved by his superiors.

Agriculture Commissioner John C. White said he was pleased that the jury had investigated the charges and "found them to be false."

World's Largtst

Both UT's scope and its telescope were increased with a formal dedication at the McDonald Observatory near Fort Davis.

Built for the University with support by the National Aeronautics and Space Administration and the National Science Foundation, the third and largest of the University's telescopes atop Mount Locke has now been dedicated. More than 200 scientists, University officials and their guests witnessed the ceremony.

According to Dr. Harry Ransom, UT System Chancellor, the new, 107-inch telescope is expected to play an important role in investigating the atmospheres of Mars and other planets for NASA. With a lens 100 times the size of the amateur cameraman's lens, the scope is housed in a 10-story, steel and concrete domed structure high atop the 6,791-foot mountain.

DRESSING GLUT

There are about 3,000 different salad dressings on the market, report Extension food specialists at Texas A&M. Vegetable oil is the major ingredient in all kinds.

CROSSROADS REPORT

Dear Editor:

Considerable controversy these days about hair. Even out here where being out of style can be endured by some, many Youths and some pretend-youths go around more hairy than formerly.

My topless (hirsutely speaking) neighbor says it's nobody else's business if a man or a semi-man wishes to look like he hadn't yet descended from the monkey, or if he feels that it is immodest to go around with a bare face hanging out.

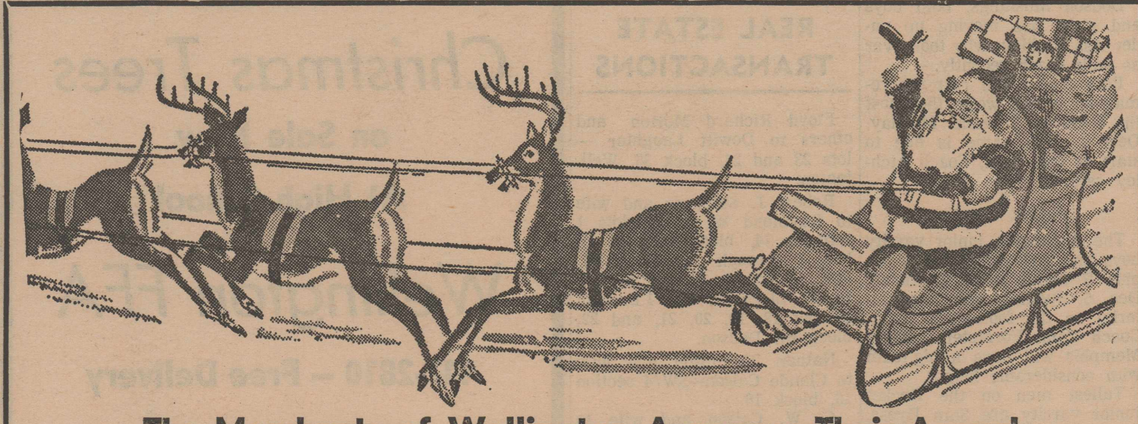

But the modern hair-prone male always reminds him of the old pioneer days, when barbers and money were scarce, and of the medium-old days when the badge of the village idiot was a mop-top.

Friday Deadline for Cotton Marketing Quotas

Collingsworth County farmers were reminded today to return their ballots on marketing quotas for the 1969 upland cotton crop — by mail or in person — to the County ASCS office. Tom Birchfield, chairman, Agricultural Stabilization and Conservation County Committee, emphasized that the referendum started on Dec. 2 will end on Friday, Dec. 6. Marked ballots are to be postmarked no later than the closing date. The ballots will be counted at 8 a.m. on Dec. 11 and the public is invited to witness the counting.

Mr. Birchfield explained that every effort has been made to inform farmers fully about the allotment-quota program, so that the outcome of the referendum may represent the considered opinion of the voters.

At issue is the availability of a price support payment of 14.73 cents a pound on the projected yield of a producer's domestic allotment (65 percent of the farm allotment) and the rate of price-support loan which will be available for the 1969 crop. Since acreage diversion and diversion payments are not a feature of the 1969 program, this is not an issue.

The lease or sale of cotton allotments is included in the 1969 cotton program, regardless of the outcome of the marketing quota vote.

Generally, those eligible to cast ballots in the marketing quota referendum are all producers who shared in the 1968 cotton crop or its proceeds. Approval by at least two-thirds of the voters is necessary if the quotas and the upland cotton program are to be effective for the 1969 crop.

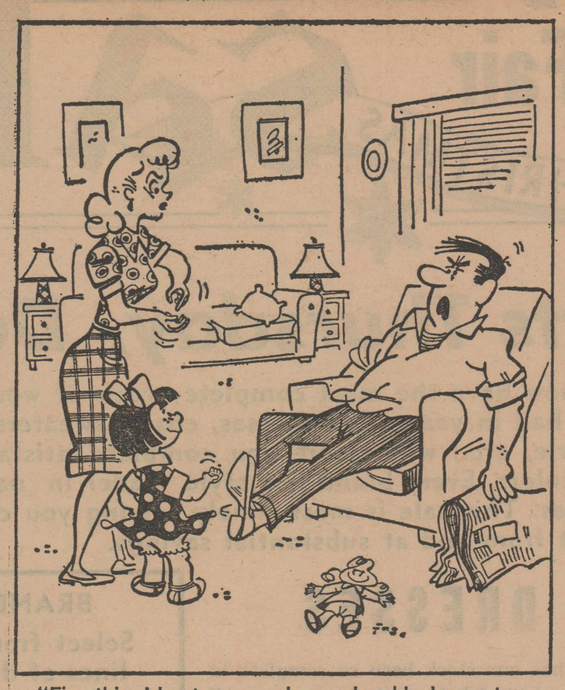

Growers who elect not to participate in the price support program may apply for a share of an export market acreage reserve and grow and export all their cotton without government assistance and without marketing quota penalties.

If the vote is not favorable, there will be no quotas or penalties applicable to the 1969 upland cotton crop, no price-support payments, no export market acreage reserve, and price-support loans to growers who do not exceed their acreage allotments will be at 50 percent of parity, as directed by law.

Growers who have questions about any particular part of the cotton program are urged to get in touch with the County ASCS Committee.

Collingsworth County received an allotment of 65,408 acres for distribution to growers in producing their 1969 upland cotton crop. This represented the county's share of the national allotment of 16.2 million acres, including a national reserve of 200,000 acres to take care of minimum farm allotments. Notices of individual farm acreage allotments and yields for the 1969 upland cotton crop were mailed to farmers in Collingsworth County on Nov. 27.

Fatal Highway Accidents Drop Over 30 Years

The fatal accident rate in Texas dropped from 16.6 per 100 million miles in 1935 to 5.8 in 1967.

Wider driving lanes, longer sight distances, and removal of roadside obstructions are just three of the highway engineering factors that have made highways safer.

The most important factor, however, has been the increased construction and use of multilane, controlled access highways, rated 2.5 times as safe as the highways they replace.

Deck's DIDACTICS

—By Deskins Wells

Clear dry weather is forecast for the rest of the week and there has seldom been a time when it was needed more urgently for at least 80% of the cotton is ready for harvest. The wind and the sun have bleached it out enough in the last day or so that it should sample a good grade. Most of it stayed in the field without defoliant and should make a good micronaire test.

★ ★ ★

When you get to thinking about making a choice in deciding how many acres to plant with the payment only 65%, you must realize that the Republicans had nothing to do with this. It was the entrenched bureaucracy of the Department of Agriculture in the main and the Democrats to some extent that brought this condition about. When you think of our loss of foreign markets on both cotton and wheat, it should be remembered that the much cussed Ezra Taft Benson, Eisenhower's secretary of agriculture, did more to restore our export markets for agricultural products than any recent secretary either before or after him.

★ ★ ★

Palo Duro State Park has received a Federal grant of $112,400 which will be matched by the state which will bring the total sum to $224,800 which will be used to provide outdoor recreation for the public by providing restrooms, campsites, trailer units with shade shelters and necessary roads and utilities. This State Park has never received the attention or care it deserves. It took a million years for wind and water, cold and heat to create this magnificent gorge in the level plains and it exposes geological formations that required 90 million years for their creation. The musical drama "Texas" has done much to attract visitors to Palo Duro Canyon; but most of them see little of the real wonders and beauties of the canyon.

★ ★ ★

Half a century ago I was listening to my uncle, John Thomas who lived near Goodnight, saying that the people of the Panhandle needed to be educated about the size, the beauty and the majesty of Palo Duro Canyon. They still do. On a percentage basis fewer people in the Panhandle know about the wonders of the Canyon than they did when a limited number of ranchers and cowboys explored its depths.

★ ★ ★

The move of the Commissioners' Court in establishing a county park on Salt Fork has met with almost universal commendation on the part of the people. About the only criticism I have heard was that they were not ambitious enough. Some people think a larger park should have been created while they were starting the business.

★ ★ ★

The United States has parks set aside in all parts of its vast area preserving something of the natural topography and wildlife of the region. There are parks in the mountains, the lakes, the forests, the caverns and along the shores of the oceans. But there is no national park set aside to preserve the land or the animal life in its natural state in all the Great Plains stretching from Canada to Texas.

★ ★ ★

Perhaps it will never be for the magnitude of the undertaking is formidable. This is the most productive region of the nation without irrigation and the cost of acquiring the land would be startling and it would be impractical to try to maintain herds of buffalo and antelope with the accompanying predators even in miniature numbers. But it would be something to see great seas of grass stretching over level or rolling land with buffalo and antelope grazing, prairie dogs and ground squirrels peering from their holes and native birds like eagles, buzzards and bullbats wheeling in the summer sky.

Quotes from Art Linkletter's "A Child's Garden of Misinformation" which do not seem so misinformed:

Q. How has man wasted the earth's natural resources?

A. By taking coal out of the ground and burning it.

"Fossils are dug up by Archeologists. If dogs dug them up we would call them bones."

Three successive Presidents occupied the White House within 30 days. They were Presidents Martin Van Buren, William Henry Harrison and John Tyler.

and disease resistant. And he believes more firmly than ever that here is a major money crop for Collingsworth.

"In here we are in a strip that runs from Western Kansas down through the Panhandle into the Pecos country that is good for alfalfa seed production. You need a good part of July open — no rain — complemented with good insect control and fertilization. We have the best country in the state, and I think you'll see a lot of alfalfa grown in this area in a few years."

Lefty Thomas is a native of Abilene and attended Tarleton State College two years, where he quarterbacked the football team in 1928. His roommate, also captain and center of the team, was Dr. Earl Rudder, now president of Texas A&M University.

He received his degree from A&M and taught vocational agriculture and coached in East Texas five years before joining the Extension Service.

There was much accomplishment in the Thomas family during their Wellington years.

Mrs. Thomas — Casey — was manager of the Chamber of Commerce for several years. They were selected by First Methodist Church as the Family of the Year; and Mr. Thomas in 1957 received the National Service Award for Extension Service personnel. The family went with him to Boston to receive this.

He also served as District 1 Director of the County Agents Association.

Now he is a member of the Samnorwood Lions Club, the family attends Glen Davis Methodist Church at Dozier, and he teaches a Sunday school class, and he is the Samnorwood representative on the Community Action Committee.

Perhaps most gratifying is the fact that their children have followed him in agricultural work.

Dr. John Gordon Thomas is State Extension Entomologist; their daughter, Ada Carole teaches in Bryan while her husband, Don Rummell takes his doctor's degree at A&M. He is a former area entomologist at Lubbock. Their younger son, Jack, is associated with his father in farming operations.

He continued to farm until only a few years ago.

Mr. Pigg was a member of the Baptist Church and a former member of the Odd Fellows.

His wife preceded him in death Nov. 9, 1957.
