The Gorman Progress

"SERVING GORMAN FOR OVER 85 YEARS"

NUMBER THIRTY-TWO Gorman, Eastland County, Texas 76454 SEPTEMBER 12, 1985

Press Points Joe Bennett, Publisher

We were teased by a few drops of rain on Tuesday afternoon, but nothing materialized and again we missed the opportunity to get rain. The peanuts continue to suffer, some even though they are irrigated, as a portion of the crop continues to die out. Some of the farmers are beginning to dig some now, especially the early peanuts that are hurting and the decision made to just go ahead and dig them instead of waiting for rain that might not come for awhile.

Noticed that Dr. L. and N. are remodeling and expanding their home. Clark Construction is the contractor on the project.

Some progress can now be seen on the school building project as the walls were hauled in and are in the process of being installed. We have a picture elsewhere in the paper.

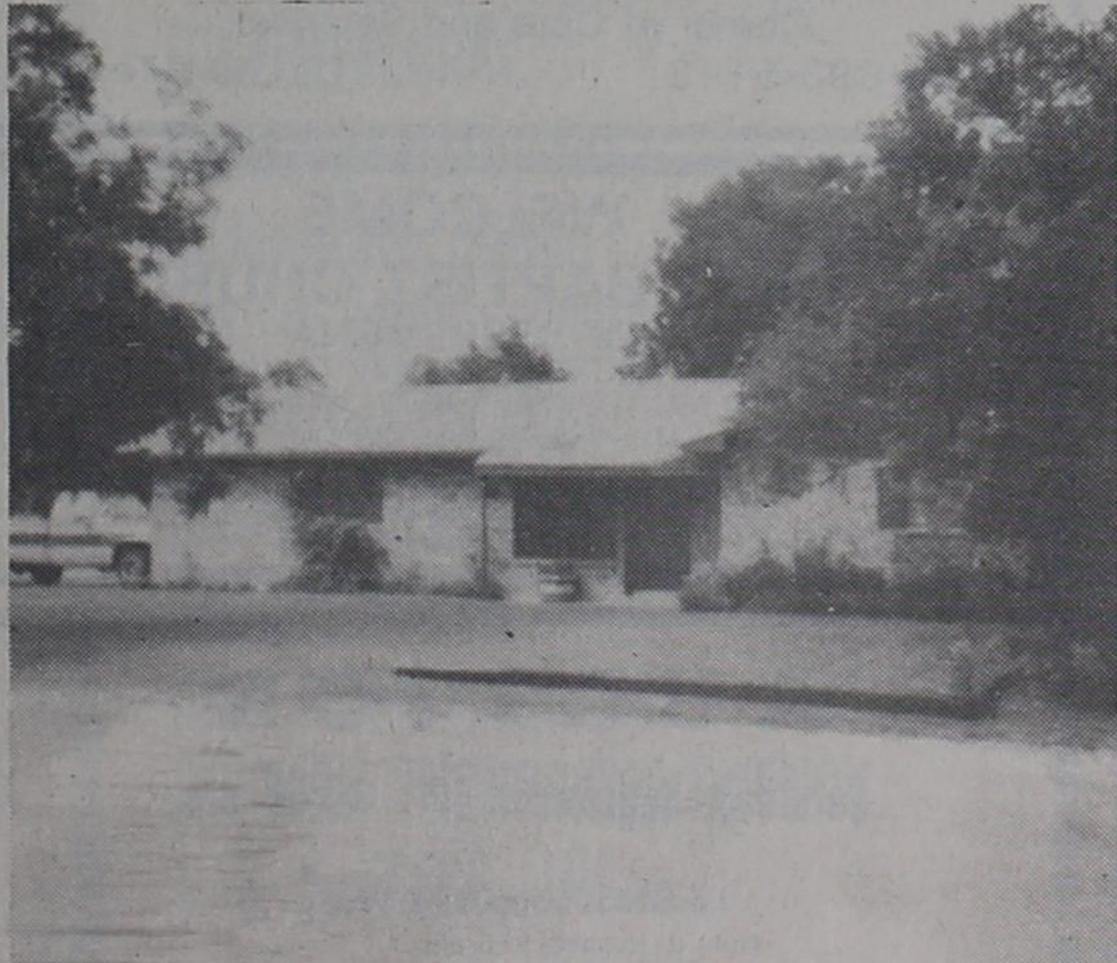

The highway department is doing some resurfacing on the Desdemona highway. It sure will help as the road was getting pretty bad in spots.

The Panthers did a great job on Friday night holding the Tigers scoreless while the Big Red offense scored 36 points. The defense scored two of the Panther touchdowns on interceptions to help the Gorman cause. Lucio Pacheco got one and Jamie Espinoza got the other. Sam Brinegar gave a great spark to the Panther team catching five passes for a total of 105 yards and one touchdown. All in all, the entire team did yeoman service in the game. If the Panthers continue to show the outstanding effort that they put forth last Friday night, then they will have a great season. Lets all follow them to Glen Rose this Friday night to take on a real good AA ball team that is experienced and well coached. Go Get 'Em Panthers!

From the looks of all the news media reports Gov. White will have a great deal of competition for the office of Governor this time around. Both from the Republican side as well as the Democrats. That is IF he really does go for it again. It should be an interesting year in the next gubernatorial race.

HELPIII

The First United Methodist Church of Gorman is in need of a picture of the first wooden structure of the church. This structure served the congregation prior to the building of a brick structure in 1908.

Anyone owning a picture is urged to contact the pastor at 734-2546. The picture will be returned as soon as a copy can be made for the history of the church.

features some pretty flowers, plants and use of railroad ties. Poor ole Don must have to spend many tiring hours toiling out there in the yard. He told me he did all the hard labor on the job. Of course I didn't talk with Wendy, so that may not be exactly correct. Anyway, the Porters have a beautiful place and are justly proud of it. If you are heading out on the Kokomo road take a look. It just a few houses up from Thompson's store.

And remember to smile - - because God Loves You!

The Gorman Panthers of 1985 opened their season on Friday night when they hosted the Hico Tigers in the season opener for both teams by the score of 36 to 0. The Big Red had little trouble with the Tigers as they took the opening kickoff and moved 87 yards to open the scoring and were never really tested by the Tigers the rest of the way.

On the opening drive the Panthers moved the ball via the passing route most of the way. The drive featured two passes to Sam Brinegar for 13 and 34 yards a pass to David Gibbs and then the pass to Jamie Espinoza for the touchdown with 4:20 left in the first period. The drive also featured a beautiful 11 yard run for a first down by Glen Burgess. Burgess ran for the two pointer and Gorman was out in front to stay 8 to 0.

The teams exchanged possessions a couple of times before the Panthers started another drive after taking over the ball at the Tiger 33. Rhett Harrison ripped off a quick 11 yards for a first. Rhett added another 8 yard run two plays later for a first down at the Tiger 11. The Panthers were hit with a 10 yard penalty that put them back to the Tiger 21. From there Burgess ramblled for 9, Lucio pacheco added another 5 on a run, then Scott Gressett, who did a great job of taking over for Don Rodgers after he received a hand injury, passed to Sam Brinegar for the final 7 yards for the score with 7:23 left in the first half. A pass to Burgess added the two pointer and the Panthers led 16 to 0.

Then with 3:29 left in the first half, Lucio Pacheco ran in front of a Tiger receiver, intercepted the ball and raced 80 yards for another score. The run for points failed and the Panthers were out front 22 to 0. The first half ended with the score at 22-0.

The teams played on fairly even terms during the third period with the Tigers getting to the Panther 23 on one occasion before losing the ball on a fumble.

With about 6 or 7 minutes left in the third the Panthers took the ball on their own 30 and moved the distance in 8 plays with Lucio Pacheco getting the score on a 3 yard run with 3 minutes left in the period. The drive featured a 31 yard pass to Sam Brinegar, a 19 yard pass to Burgess and a 9 yard run by Gibbs to set the Panthers up with first and goal on the Tiger 8. Then Pacheco went in from the 3. A pass try for two points failed and the score rose to 28 to 0.

The Panther defense added an-

other score for the Big Red with 37 seconds left in the game when Jamie Espinoza intercepted a Tiger pass on the Hico 47 and raced into the end zone for the score. A pass to Lucio added the two pointer and the Panthers led 36-0.

The game ended with Espinoza intercepting another Tiger pass.

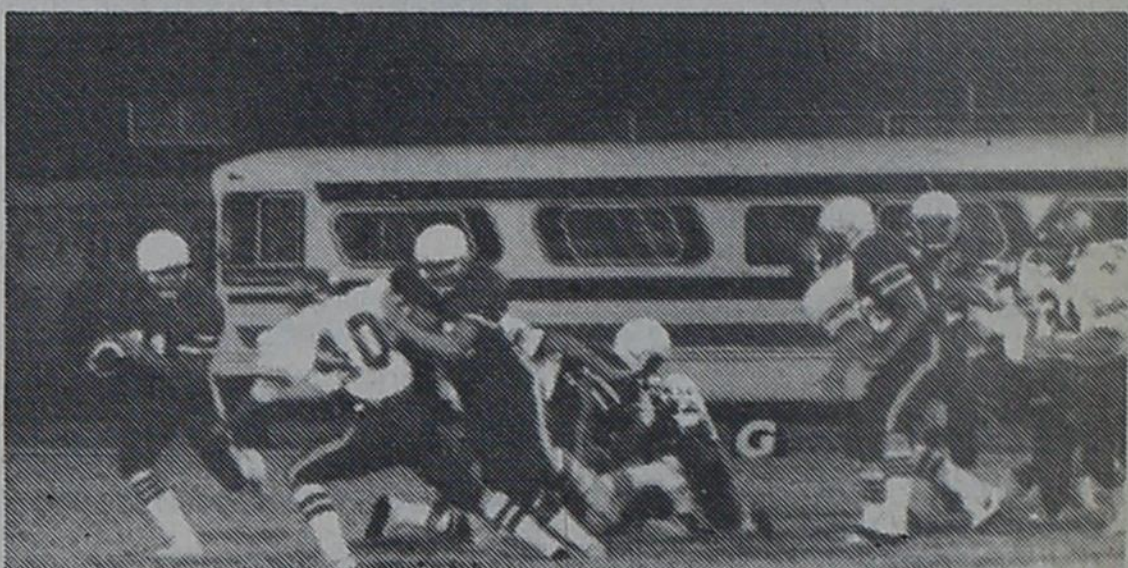

Sam Brinegar had a great night catching 5 passes for a total of 105 yards.

Enough cannot be said for the Big Red defense as they held the Tigers scoreless while getting 3 interceptions, two of which were for touchdowns. Espinoza and Pacheco did a very good job in the Panther defensive backfield and the defensive line and linebackers did a good job of stopping the Tiger backs and sacking the Tiger quarterback.

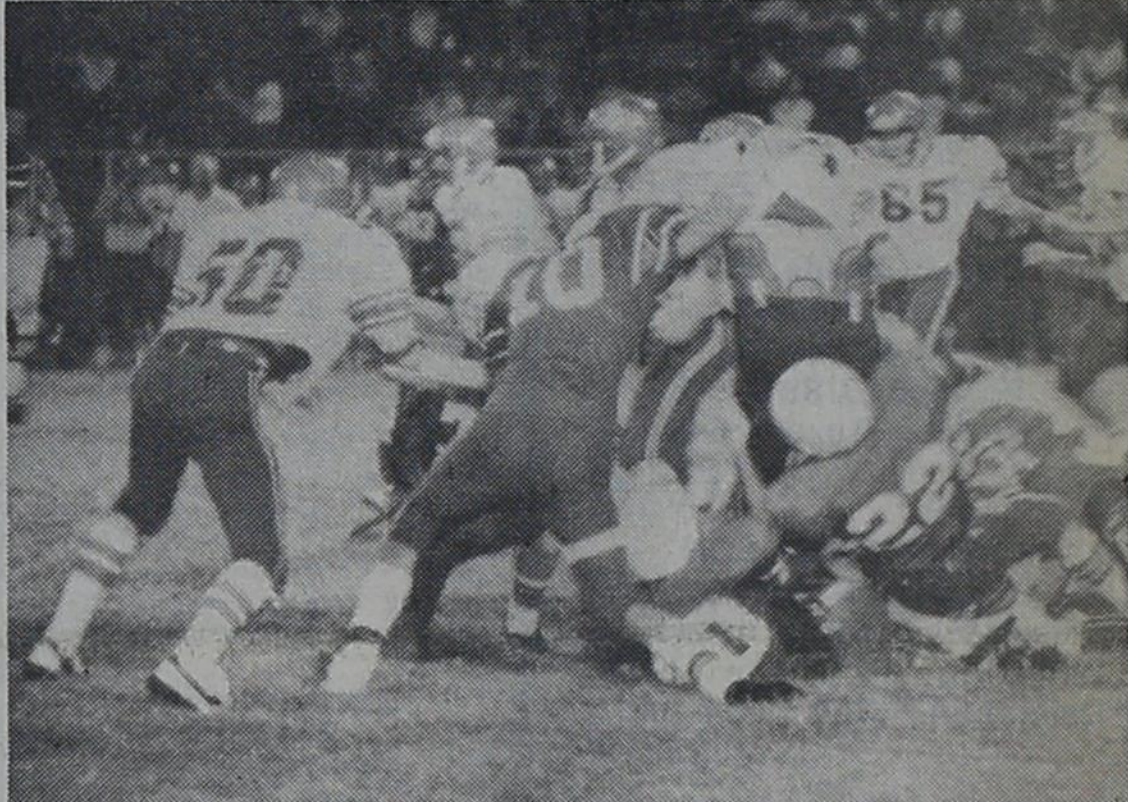

Lucio Pacheco led the Panthers on the ground with 52 yards on 10 carries. Rhett Harrison had 51 on 10 tries. Glen Burgess ran for 27 on 8 tries. David Gibbs had 13 on 3 carries and Randall Gibbs got 2 yards on one try. Scott Gressett did a super job taking over for quarterback Don Rodgers after he got a hand injury early in the game. Rodgers playing status as of Tuesday afternoon was unknown. He received an injury to his thumb on his right hand.

This Friday night the Panthers will travel to Glen Rose to take on another den of Tigers. Glen Rose has a very experienced and talent-laden team and should give the Panthers a tough game. The Big Red will need all the support we can give them, so be in Glen Rose on Friday and back the Panthers.

Get 'Em Big Red!

EXCELLENT GAINER — Rhett Harrison is shown scampering away from a Hico tiger in game action Friday night. Rhett had 51 yards total rushing in the game.

PANTHER DEFENSE ON TARGET — Sam Brinegar and Randall Gibbs and a host of other Panthers which helped hold the Tigers to no points in game action Friday. The defense looked tough against the 2A team.

Gorman Family Reports Burglary

A Gorman family returned home Tuesday night from a long Labor Day weekend to discover uninvited guests had visited the home while the family was away.

The Brad Whittier residence, located in the southeast part of Gorman, had a back door pried open, Gorman Police Chief Cecil Funderburgh said.

Items taken from the mobile home included a color television set, a microwave oven, a videocassette recorder, some silverware and hand tools.

Funderburgh said the burglars apparently cooked a meal and left a sink full of dirty dishes.

Ruby Wyche of Stephenville and I entertained Luke and Katie Musick while Jane and Tommy went to Ft. Worth last Thursday with Ricky and Selena Sparkman.

Loretta Stephens of Stephenville visited on Sunday with her mother Renia Hogg. Loretta took Renia to Eastland to visit sick relatives in the afternoon and shopping in Ft. Worth on Wednesday.

We had three dogs to get bit by a rattlesnake one night this week. We've been killing quite a few rattlers recently.

My uncle, Clayton Mayfield is still very sick in the De Leon hospital.

Mr. and Mrs. Harold Wylie of Huckabay visited last Sunday with William. Sorry that I missed them.

One day a neighbor found a mirror and looking into it said, "Well, I'll be jiggered. Here's a picture of my old man." He took it to the trunk, dug down and hid it there. His suspicious wife watched and found it then and said, "I know that old buzzard was running around on me, but I never thought about him taking up with an old hag like that."

Cody and Corey Johnson returned home last week after spending the summer in New Mexico. They said Giff and Linda would be home in a few days. Guess they're here now.

Jane, Luke, Katie and I were Ft. Worth on Tuesday for Luke to see the doctor. Everything went from gad to worse. Katie was cutting teeth and since she had gnawed all our fingers off at the first knuckle, we weren't anxious to let her near us again. She was fussy. All the kids were fussy while waiting for the doctor, all but one child and she didn't dare. Her mother looked down her nose at everyone. I really believe in immaculate conception after knowing that lady. There was nothing earthy about her. To top it all off, coming home, I yelled at Jane over the noise of the kids to stop, there was a funeral procession coming. I could see their lights-Jane wheeled over. I jumped out and paid respect to ninety black leather jackets on motorcycles. This is the first time I've ever heard Jane curse, I heard it very faintly cause she had her arms around her head and her face in her lap. Guess that'll be my last trip with them.

He was born in Luling, Texas, the son of Bessie Iley Askew of Elgin, Texas and the late John Wesley Askew. He was an associate professor at Central Virginia Community College. He was a member of Evington United Methodist church and a certified lay speaker for the

United Methodist Church. He was the founder, organizer and developer of Evington Volunteer Fire and Rescue Service, Inc. He received B.A. and M.A. degrees from North Texas State University and did postgraduate work at VPI.

Don't be fooled.

If you're thinking about buying a satellite receiving dish for your home, don't let someone convince you that you'll be able to receive all premium cable television services for free.

Some premium services, like the Pleasure Channel and ONTV are already electronically scrambled by the people who produce the program service. In the next few months, Home Box Office (HBO) and Cinemax will begin scrambling their signals with highly sophisticated electronic encryption devices. Later in 1985, the Movie Channel and Showtime will scramble their signals.

This theft-prevention measure is not limited to premium services either.

Some basic cable television services like ESPN, MTV, and Cable New Network have announced plans to scramble their signals.

Don't let someone convince you that decoding or descrambling these signals can be accomplished with the addition of a cheap black box. As legal receivers of these satellite signals, we have had to purchase a special decoder for each encrypted channel we provide, and they're not cheap. And unauthorized reception of some satellite programming may violate federal law.

Someday, legal decoders will be available for home use. But no one knows when, and no one knows how much they will cost. We do know that

those who get them will have to pay a fee just as we do now.

With Gorman Cable TV though, you can get most of the signals you and your family want without the expense and inconvenience of having your own satellite dish or descrambling equipment. And if your cable malfunctions, it's repaired free, and usually within a matter of hours after you report the problem.

If you're considering buying a satellite dish, we urge you to ask the dealer some questions first. Don't get stuck with thousands of dollars of useless equipment.

PUBLIC NOTICE
BRIEF EXPLANATORY STATEMENTS
OF PROPOSED
CONSTITUTIONAL AMENDMENTS
GENERAL ELECTION
NOVEMBER 5, 1985

PROPOSITION NO. 1
ON THE BALLOT

Sections 1 and 2 of House Joint Resolution 6 propose a constitutional amendment that would authorize the Texas Water Development Board to issue an additional \$980 million of Texas Water Development bonds.

The additional bonds to be issued will be dedicated for deposit in the Texas Water Development Fund, with \$190 million of those bond proceeds to be used for water supply loans and facilities acquisition and with \$400 million of those bond proceeds to be used for state participation in the acquisition and development of facilities for storage, transmission, transportation, and treatment of water and wastewater. Of the remaining bonds authorized, \$190 million will be dedicated for use in water quality enhancement projects, and \$200 million will be dedicated exclusively for flood control projects.

The amendment would also allow the legislature to provide for the creation, administration, and implementation of a bond insurance program to which the state pledges up to \$250 million of its general credit to insure payment of the principal of and interest on bonds or other obligations issued by political subdivisions of the state for water conservation, water development, water quality enhancement, flood control, drainage, recharge, chloride control or desalinization. Unless authorized to continue by a two-thirds vote of the members of each house of the Legislature, the bond insurance program will expire on the sixth anniversary of the date on which this section becomes a part of the constitution. Bond insurance issued before expiration of the program will not be affected by such expiration.

The amendment would authorize the legislature to create and appropriate money to special funds in the state treasury to make grants, loans, and other financial assistance available to governmental entities for certain enumerated water planning purposes. Also, the legislature would be permitted to extend the benefits of constitutionally approved water projects to nonprofit water supply corporations.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the issuance of an additional \$980 million of Texas Water Development Bonds, to create special water funds for water conservation, water development, water quality enhancement, flood control, drainage, subsidence control, recharge, chloride control, agricultural soil and water conservation, and desalinization, to authorize a bond insurance program, and to clarify the purposes for which Texas Water Development Bonds may be issued."

PROPOSITION NO. 2

Section 3 of House Joint Resolution 6 proposes a constitutional amendment that would allow the Texas Water Development Board to issue and sell Texas agricultural water conservation bonds in an

amount not to exceed \$200 million, if authorized to do so by a two-thirds vote of the members of each house of the legislature. The Texas agricultural water conservation bonds would be general obligations of the State of Texas, and would be paid from the first money coming into the state treasury in each fiscal year. The amendment would allow Texas agricultural water conservation bonds to be issued and sold only for four years after the date on which this Act becomes a part of the constitution.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance and sale of \$200 million of Texas agricultural water conservation bonds."

Any legislative enactment permitting the expenditure of funds for such purposes would authorize the city or town to fix a lien on the property, with the owners' consent, for the cost of relocating or replacing the water laterals, and would provide that such cost shall be assessed against the property, with repayment by the property owner to be amortized over a period not to exceed five years at the rate of interest set by law. Such liens could not be enforced until after five years from the date the liens were affixed.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the legislature to enact laws permitting a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property."

The amount of bonds outstanding at any one time would be limited to \$500 million. The principal and interest that becomes due on such bonds in each fiscal year would be paid from amounts remaining in the interest and sinking fund at the close of the prior fiscal year, with the balance due to be appropriated from treasury revenues in the fiscal year when such amounts become due.

The amendment would provide for the continued power of the legislature to provide for judicial reapportionment, and would provide that reapportionment
