Commercial Fishermen Vote For Regulatory Power In Aransas County

Members of the recently-organized Aransas County Commercial Fishermen's Organization voted last night (Wednesday) to ask legislative representatives for this area to ask for passage of a local bill placing water of Aransas County under regulatory power by the Texas Game and Fish Commission, except for the taking of shrimp.

County Judge John D. Wendell said that he had contacted both Representative Leroy Wieting and Senator W. N. Patman by phone yesterday, and had found out that there was still time to introduce such a bill.

C of C Banquet Draws Big Crowd

The annual Chamber of Commerce banquet drew a crowd of between 150 and 160 last Saturday night, despite the fact that the Seventh Annual Toast of the Coast Relays were going on at the same time.

Retiring President Robert Fleming was not able to be present, but Miss Lola Bonner, acting as master of ceremonies, reviewed the Chamber's accomplishments for the past year, along with the progress that Rockport had made in 1962.

She also pointed to the expanded advertising program of Commerce that has been able to get underway during the year, and mentioned the fact that Rockport signs now greeted visitors to South Texas on the main highways in the area. For this she complimented the advertising committee of the Chamber of Commerce, composed of Jack Sanders, Homer Faber, Arlo Hansen and Dick Picton for their work in making this possible.

Miss Bonner also complimented the tourist promotion committee for the long hours of productive work they had devoted to Chamber business and reviewed briefly the projects they had seen to a successful conclusion, including (continued on page 8)

Water Bill Sent To House Sub-Committee

A House committee was told last Wednesday night that Aransas County faces "economic disaster in the foreseeable future" unless it is able to develop a dependable water supply.

The testimony came before the House State Affairs Committee at a hearing on a bill by Rep. Leroy Wieting of Portland to create the Aransas County Conservation and Reclamation District to make surveys for development of a water supply for the coastal county.

J. L. Baughman, a member of the Aransas County Water Committee, said the county is faced with a shortage of water. "We don't know where to go or what to do to get it," he said.

Other witnesses for the proposal were Mayor Herman Johnson and County Judge John D. Wendell.

The only witness testifying against the bill was Carlisle Cravens, a Fort Worth attorney. He said he represented a group of heirs of the late Port Worth oil millionaire Sid Richardson. He said the heirs own St. Joseph's Island, offshore from Rockport but in Aransas County.

Cravens said the owners of the island now pay \$10,000 to the county in taxes and would pay an additional \$1,300 a year if the water district is created, based on its proposed tax limit of 50 cents a \$100 property valuation.

Cravens suggested the bill exclude St. Joseph's Island from the water district. Otherwise, he said, the island's owners would want a water line which he estimated would cost the county \$258,000, plus the cost of the easements, a compressor station and distribution system. He said this was too much for Aransas County to pay.

A three-man subcommittee was named to study the bill. Members are Reps. James Klagen of Corpus Christi, John A. Traeger of Seguin and David Crews of Conroe.

Rep. John Allen of Longview, chairman of the House State Affairs Committee, called the subcommittee a friendly one and said it would work for an equitable solution to the problem.

Charlie Garrett Files For Council

With both city and school deadlines for filing past, the city political situation has narrowed down to Charlie Garrett and Hollis Cullum, both seeking the city councilman's post from Precinct One, and Norvell Jackson, who is unopposed for the council place in Precinct 2.

Garrett is a former councilman; Cullum is the incumbent and has been mayor in the past.

In the school board election, to be held April 6, J. B. Jackson and Shelley Roatan are unopposed in their bids for re-election. Three men are running for the place in Fulton which will be left vacant when the term of Harry Wilson expires. Wilson is not seeking re-election, but Otis Mundine, Robert Landrum and J. R. DeForest are all candidates. DeForest is a former member of the school board.

James F. (Speck) Howerly, golf professional at Live Oak Country Club, was one of 75 students who attended the Texas PGA business school held last week at the Statler-Hilton Hotel in Dallas.

Mrs. Elbert Mundine returned home last Thursday from Norfolk, Va., after seeing her daughter, Mrs. Ramon Torres, and her children off to Guantanamo Bay, Cuba. She has received word that the flight was wonderful as the plane flew low over the Bahamas.

The two groups waged a contest recently in support of the Heart Fund, with the Junior High School coming out winner. Junior High collections were \$295.65; the Senior High students collected \$147.20. Pictured here are the nine junior high chairmen and five from senior high. In the Junior group they are, reading from left to right in the back row, Darlene Rouquette, Leo Huerta, Jack Russell, James Russell, and Kay Sparks. Kneeling are, in the same order, Lynn Dimmick, Sallie Griffith, Charles Grant and Denise Picton. The three seniors in the back row are Raymond Ingersoll, Azalea Shivers and N. F. Jackson. In front are Nan Jackson and Ann Cassel.

American Liberty Oil Company Plans Huge New Marina at Lamar

The American Liberty Oil Company of Dallas has requested permission from the U. S. Engineers for a new marina, the fourth big waterfront development for this area to get underway within the last 45 days, besides those planned by the Navigation District.

The marina will be built approximately where the old Mills' Wharf basin was situated, and is part of the Sea Gun Motel development, on which the Wynn interests of Dallas said recently they intend to spend in the neighborhood of \$3,000,000.

In the application filed with the Galveston office of the U. S. Engineers, the location is given as approximately 1,400 feet northeast of the northern bridgehead of Copano Causeway.

The proposed marina is to cover an extensive area and the work for which permission is asked includes dredging of a 1,600-foot long access channel, 40 feet wide and with a ruling depth of 15 feet leading to a horseshoe-shaped basin, the right channel of which would be 50 feet wide by 400 feet long, with a depth of 15 feet below mean low tide, and a left channel which would be 80 feet wide by 500 feet long, with a depth of eleven feet below mean low tide.

Concrete sheet piling bulkheads along the low water line on the north, west and a portion of the south side of the marina are to be constructed.

A central pier is to extend from the proposed north line of the northern bulkhead, between the 50 and 80 foot channels, and this central pier is to have a top elevation of five feet above mean low tide, and a width of eight feet.

A series of piers for boat stalls will be constructed adjoining the central pier and a portion of the northern bulkhead, and covered boat stalls are planned for the western portion of the marina, along the bulkhead on that side.

A borrow area of 600 x 600 feet, with a completed depth of 11 feet below mean low tide will be dredged adjacent to and east of the proposed 11x60x500 foot channel, and spoil from this and the various channels is to be used as a protective levee on the east side of the marina, and as backfill for the bulkheading. Top elevation of this fill will be six feet above mean low tide.

SENIOR STUDENT GOVERNMENT DAY SET MARCH 27

Senior students of Aransas County High School will be selected by the school to spend one day observing and, in some cases, actually working with city and county officials for the day.

This senior student government day is sponsored jointly by the VFW and the Rockport Rotary Club.

Students chosen will be assigned to the county judge, county attorney, county auditor, county treasurer, county and district clerk, sheriff's office, county tax assessor, county surveyor, mayor's office, city secretary's office, chief of police, and the city water and utilities office.

VFW TO SPONSOR "LITE A BIKE"

At the regular meeting of Stewart-Wendell Post 3904, VFW, plans were formulated to sponsor the "Lite A Bike" program, to be held at a future date.

VFW members will have stations set up at three different locations throughout the community. Each boy or girl who owns a bicycle will be urged to bring the vehicle to one of these stations, where it will be marked with reflective tape that will glow brightly after dark.

This program will be in cooperation with the National Safety Council and is being sponsored by VFW posts throughout the U. S. to promote safety for bike riders.

Next meeting night for the veterans will be Tuesday, March 26, at which time nominations of officers for the coming year will be held. All members are urged to attend this important meeting.

VFW'S NEWEST MEMBER OLDEST

The newest member of Stewart-Wendell Post, VFW, is the oldest. Edgar T. Owens, who recently became a member, is 81 years old, far outstripping any of the others in the post.

He served as first sergeant of the 18th Field Artillery, Third Division, U. S. Army, during World War I, spending the entire war in Germany. In all, he spent 15 years in the army.

Members who signed him up were Vernon Kleypas, post adjutant, and Charles Runnels.

Bond Election Called April 13

School Board Hears Reports, Re-Elects Teachers

The Aransas County Independent School Board, at its regular meeting, heard presentation of a group hospitalization insurance plan presented by R. C. Heimbuch, ratified textbook selections and re-elected all but eight teachers, who either want to retire or to accept positions elsewhere.

In other business the board cancelled delinquent taxes on a number of parcels of waterfront property acquired from time to time by the Aransas Navigation District, and those for 1962 on the Bliss estate properly recently acquired by the school through condemnation as a site for the new junior high school.

The Board considered a request from the Aransas County Youth Sponsors for renewal of that organization's lease on the Youth Building, but decided that a new lease would have to be drawn after negotiations. Supt. J. D. Gray was requested to have a rough draft of such a lease available at the next regular meeting of the Board.

Gray called the Board's attention to the annual school board workshops to be held at Texas A&I College in Kingsville on March 20, at 2 p.m. Dr. H. F. Elliot, president of the local board, is scheduled to take part in a panel discussion that day. J. B. Jackson and Shelley Roatan said it might be possible for them to accompany Elliot and Gray.

The school calendar for the 1963-64 season was approved, and teachers at the four schools, Rockport, Fulton and Junior and Senior High Schools were re-elected.

Three of the present teachers at Rockport Elementary do not expect to return next year. Two (continued on page 8)

Copano Bay Causeway Near OK as Fishing Pier

A proposal to convert the old causeway across Copano Bay in Aransas County into a fishing pier was amended Wednesday by the House to provide that all revenue from the pier shall go directly to the State Parks Board.

The House gave preliminary approval to the measure by Sen. William Patman of Ganado, setting the stage for final action. An amendment put on the bill by Rep. Jack Crain of Nocona, and agreed to by the House sponsor, Rep. Leroy Wieting of Portland, will require Senate concurrence.

Crain's amendment provides that revenue from the fishing pier—which Wieting said would be one of the longest in the world—would go directly to the State Parks Board rather than to a special fund in the state treasury as originally set out in the bill.

Wieting said the causeway stretches 9,191 feet. The Highway Department is building a new causeway on state Highway 35. When it is completed, the portion of the old causeway not needed for the new one will be transferred to the parks board for construction of a public fishing pier.

The Game and Fish Commission would make improvements on the causeway for the fishing pier, spending not more than \$10,000.

Wieting said plans called for a 25 cent admission fee to the pier, contributing toward its maintenance.

The Senate Monday concurred in a House amendment to the bill by Sen. William N. Patman of Ganado.

The change will be effected when the new Copano Bay Causeway is completed next year. The plan suggested now, would provide for two spans divided by 300 feet in the middle to permit navigation.

Harry Carter, lay minister, will read the prayers.

Visitors will be welcome.

Navigation District Asking \$400,000 In Bonds For Funds To Improve Fulton and Rockport Harbors And To Provide Better Recreational Facilities

The Commissioners Court, acting upon a petition from Aransas County Navigation District, has called an election for April 13, to decide whether \$400,000 in bonds shall be issued for improvement of Fulton and Rockport Harbors.

Ted Little, chairman of the Navigation Board, in discussing the matter, said that this amount of bonds can be issued and amortized without an increase in either

Former Rockport Highway Patrolman Dies In Crash

State Highway Patrolman Dick Berens, formerly stationed in Rockport, was killed instantly at 8:15 a.m. Friday when a highway patrol car skidded 500 feet and overturned three times while chasing a speeder.

The fatal crash happened on Highway 44 midway between Violet and Clarkwood.

Highway Patrolmen at the scene said Berens and Smith were chasing a speeding car when a woman in another car attempted to pass another vehicle.

In an attempt to avoid the collision, Smith took to the left shoulder of the highway.

The driver of the pursued auto was picked up at a grocery chain warehouse on Highway 44, and was taken to the Department of Public Safety headquarters in Corpus Christi for questioning.

Investigating patrolman R. H. Cheshire said skid marks began 500 feet west of the spot where the car came to rest. He said the patrol car left the pavement and skidded 100 feet broadside before it struck an embankment and started to roll.

Berens is survived by his wife, Patricia Anne; two daughters, Loreha Eihleen and Dolores Denise, all of Corpus Christi.

The first of the four-race series was held February 17, with the wind-up in Corpus Christi, with drivers competing for points on the overall trophies to be given after the last race on May 12.

COUNTY SCHOOL BOARD ELECTION TO BE HELD ON APRIL SIXTH

Elections for places on the county school board are to be held in connection with the regular school elections on April 6.

Dick Fox is running for re-election in Precinct Two; Arthur Bracht seeks re-election in Precinct 3; and Roscoe Johnson is asking to be re-elected to the place of Trustee-at-large.

tax rate or assessment.

The money would be spent under two basic classifications: (1) certain emergency improvements are considered necessary to maintain and preserve existing work including beach facilities, and (2) other improvements are proposed to provide additional service to the public in accordance with the District's general development plan.

Emergency improvements include reshaping of existing embankments at Little Bay, to repair damage caused by Hurricane Carla and provision of stabilized shoulders and protective vegetation treatment along both sides of the present paved road.

Other improvements in this area include extending and enlarging the Little Bay fill with spoil from new dredging in Little Bay; extending the existing road; provision of water service and rest-room facilities along the beach for public health and convenience purposes; the construction of more picnic shelters for public use; and miscellaneous minor improvements of a general nature.

A new Navigation office building of approximately 1325 square feet, to be built if the bond issue passes. This will be located at the Rockport Harbor, to the south of the existing Navigation District office.

At Fulton, improvements include sheet piling breakwaters at the harbor entrance to protect the basin from rough water caused by winds, and deepening of the harbor entrance.

In addition, the beach will be re-shaped and stabilized with a retaining wall or bulkhead on the bay side, and the slopes protected. This beach area will also have a water supply piped in, and restroom facilities will be built.

At the Cove, improvements include grading of harbor slopes, badly eroded by Hurricane Carla's violence, and reshaping and vegetative stabilization of land areas and levees; riprapping drainage outlets, and reshaping and stabilization of drainage ditches.

Other proposed improvements here include concreting of the present small boat launching ramp and shelling a public parking area for the ramp.

New Records Set For Gas Consumption In Rockport Area

Rockport area residents are setting new records for gas consumption during this winter of frequent freezes, according to George K. Taggart, Jr., president of Aransas Natural Gas Company.

"We delivered over 23 million cubic feet of gas from Dec. 18 to Jan. 17," Taggart said. "This was a record for a single month, but it will probably be broken when the February figures are all in."

"That's more than twice the amount of gas our customers use in an average month. The total for last year was a little over 122 million cubic feet. We have been called on to deliver as much as 2 million cubic feet on a single extremely cold day."

During the past year Aransas Natural looped their main line with five miles of new 4-inch line at a cost of approximately \$35,000.00 in order that they might be able to provide a sufficient volume of gas for peak demand, resulting from abnormal low temperatures.

"The value of the new line was shown in recent weeks," Taggart pointed out. "Even during the coldest weather we received only three or four service calls, and those were due to mechanical troubles such as frozen regulators, and not to a lack of gas."

"We feel it is our first responsibility to have plenty of gas available to meet the demand and to have the facilities to deliver it when it is needed."

Gas consumption in the Rockport-Fulton area served by Aransas Natural Gas Company has doubled since 1957. The company had a total of 1,875 customers at the end of 1962, with 143 being added during the year.

Other officers are Mrs. James A. Jarboe, vice-president, and Clayton Caskey, secretary. W. G. Garrett is superintendent and Thomas Lee is foreman.

WE INVITE—

We invite Dick Fox and guest to see "Delicate Delinquent" and "Sad Sack" playing Sunday and Monday and Tuesday, at the Cove Drive In Theatre.

METHODIST RUTH
CIRCLE MEETS

Ruth Circle met Thursday morning, March 7th with Mrs. Merritt Hulet in Little Bay Shores. Mrs. H. A. Turlington assisted Mrs. Hulet in serving refreshments.

Mrs. Rae Smith opened the meeting with prayer. The Fellowship Dinner to be held on March 17, at the church, was discussed and several volunteered to serve.

Mrs. R. J. Leth took the program from the "Together" magazine, discussing the hunger of the world, more perilous than the H-bomb. Americans waste more food than would feed millions behind the Hunger Curtain. People cannot turn toward Christianity when they are starving, so the problem to day is food.

There were 12 members present and the love offering was \$2.95. Meeting closed with WSCS benediction.

Mr. and Mrs. Chas McGonye and son Dale, of Austin, spent the weekend with Mr. and Mrs. Sherman Mundine.

Associate Store****More Growth Power**

To Multiply the Benefits of Electrical Living

It was big in 1952. It grew much bigger
in 1955. And now, with the completion of
a new 175,000 kilowatt generating unit,
Victoria Power Station has more than
doubled in size again.

Victoria Power Station is one of 13 gen-
erating plants in the Central Power and
Light Company system. Others have also
expanded, so that CPL can now provide
South Texans with more than a million
kilowatts of dependable, low-priced elec-
tricity for industrial, commercial, agricul-
tural and household use.

It takes a lot of electric power to keep
South Texas growing. The average family
is using more than twice as much as it did
ten years ago, and other uses are keeping
pace.

Fortunately, today's needs were antici-
pated yesterday. There's plenty of elec-
tricity to help you live better — plenty to
power your community's progress. And as
electricity serves you in wonderful new
ways next year and the next, CPL is mak-
ing sure you will have all you want — and
at the lowest possible cost.

SCHOOL BOARD— (Continued from Page 1)

teachers will be lost at Fulton; one in Junior High School, and two at the high school.

The contracts of all principals, coaches and the school superintendent were also extended for one year, although their current contracts still had a year to run.

Norvell Jackson, city councilman, appeared before the board asking if the school system had any land in the immediate vicinity of the high school that it could make available to the city as a site for a new 500,000 gallon water tower to be erected this year. Trustees, after considering the matter, suggested several alternative sites which were on school property.

Supt. Gray told trustees that, even though the buildings were not finished, the district had recently made its first payment on the \$650,000 bond issue voted last year for the construction program. He exhibited the first bond—one for \$5,000, to be retired. Interested members of the board figured that there were only 129 similar bonds yet to go.

He also told the trustees that the remainder of the junior school site had been cleared through the courtesy of the contractors, O. J. Beck and Sons, who had contributed machinery and men for the job. Also Gray said, the county had contributed the use of one of its maintainers for a day.

Contracts have been awarded on the furniture for the various schools. Griggs Equipment Company was low bidder on one portion of the furniture needs with a bid of \$8,431.87; another contract in the amount of \$5,292.10, went to the American Desk Manufacturing Company; American Seating Company received one for \$1,338.31, and another was awarded Foremost Equipment Company for \$2,275.48.

The tax collector's report, from Mrs. Katherine McLester, showed collections of delinquent taxes and interest in January, totaling \$782.36. Collections of current 1962 taxes to date, the report showed, amounted to \$436,132.17, after discounts had been allowed for early payment. This left some \$25,284 in current taxes still outstanding.

Mrs. McLester's report showed remarkable little owing the district in back taxes. She listed the amounts as \$582.80 for 1950; \$808.77 for 1951; \$212.97 for 1952; \$1,082.12 for 1953; \$1,285 for 1954; \$1,409.69 for 1955; 707.18 for 1956; \$1,184.80 for 1957; \$1,612.57 for 1958; \$3,663.32 for 1959; \$12,083.53 for 1960; and \$13,159.66 for 1961.

Gray explained that the last two years included the amounts owed by the Bass interests on St. Joseph Island, on which the school had recently won a judgment.

The Gene Tunney-Jack Dempsey fight in 1927 holds the record of receipts, \$2,658,600.00. There were 104,943 fans present.

C OF C BANQUET— (Continued from Page 1)

formation of the Sea-o-Rama organization which staged a most successful fiesta last year, the first annual event of its kind in Rockport.

She then introduced incoming president, T. E. Griffith who, in turn, introduced other incoming officers. These include O. S. Brumley, first vice president; Jack Sanders, second vice president; Charles La Bonte, treasurer; Mrs. James A. Jarboe, Jack McDavid, James Kautz, William Sprigg, and Weldon Cabaniss, incoming directors.

Holdover directors that were at the dinner included Harry Mills, Miss Bonner, B. T. Hardeman, J. D. Gray, Dr. Leonard Goldman, Dick Picton and Mrs. Joe Johnson. J. D. Gray then introduced Jack Beard, vice president and promotional director for Star Engraving Company of Houston. Beard, who has made a name for himself as an entertainer, sang a number of popular songs, accompanied by Ronnee Schultz, and then gave way to the speaker of the evening, Dr. Dan Procter, who is president of the engraving company.

Procter gave a most interesting talk on "Holding Hands", emphasizing the fact that only through cooperation could things be accomplished.

His three main points were the importance of communications, education, and family closeness in which parents and children were aware of, and respected one another.

Communication between people is particularly important, he said, and it is necessary for the person who wishes to be understood by others to speak in a language they can understand. Many times, he said, people are against things that are good for a community, simply because they don't understand.

stand. The people that start these things are not able to communicate their vision and know how to others, he said, with the result that misunderstandings arise that can sabotage a very worthwhile program.

Procter said that the highest form of civilization is that where everyone in a community realizes his or her obligations and carries their part of the load in the common cause.

It is necessary, also, he said, to hold hands with the future through education. In colonial times, he pointed out, it took 85 farmers to raise enough food for themselves and 15 other people. Today 15 farmers can raise twice as much food as they and 85 other people can eat.

This has led to a more and more complex economy, Procter said, in which fewer and fewer laborers are needed, and more and more educated people. Last year for the first time, he continued, the number of white collar workers exceeded the number of laborers in the nation, simply because there were more white collar jobs than there were others. Strength in a man is becoming less and less important, and brains and know how were becoming paramount.

As our highly technological civilization continues to grow, he said, this set of conditions would become ever more apparent.

His last point was that it was necessary, under the conditions he had outlined, for families to become closer together, and for the parents to give more of themselves to their children because of the many stresses faced by the younger generation.

Mr. and Mrs. Wm. Johnson visited their daughter and son-in-law, Lt. and Mrs. David Eickbusch in Waco over the weekend. They also attended the boat show at Dallas, and visited at Lake Whitney.
