The Rebelettes also took first places in the 440-yard relay, in the 220-yard dash, in the 880-yard relay, in the triple jump, the long jump, and mile relay.

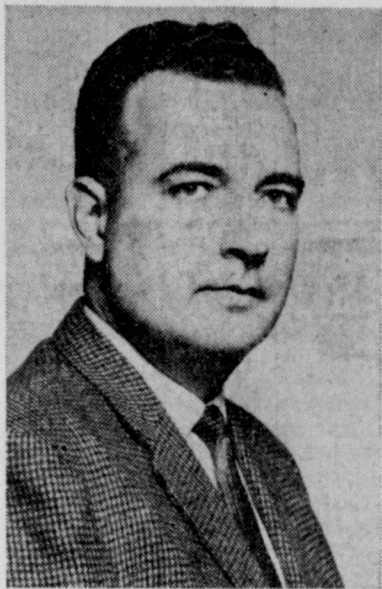

Linda Powers, R. Brown, J. Brown, and Gandy were clocked in 52.2 for first place in the 440 relay. Joan Walesiak replaced Powers on the 880 relay team for a first place with a 1:54.0 clocking, and Walesiak, R. Brown, Curtis, and Jean Cook teamed for first place in the mile relay with a time of 4:20.7.

Powers took first in the 220 dash with a 28 flat. R. Brown was first in the triple jump with an effort of 31 feet, 3 1/2 inches, and J. Brown was first in the long jump with a distance of 15 feet, 8 1/2 inches.

Other Rebelette points came by a second place in the 440-dash by Curtis and a third place in the 440 dash by Cook.

All Rebelettes who placed first or second in the regional meet will now be eligible for the State meet which is on tap for May 9-10 at Abilene.

Austin. — After a slow Monday - Wednesday, legislators wound up last week in a blaze of speed, turning out more than 100 bills on climactic Thursday.

Senate passage of a much-amended \$1.25 an hour minimum wage bill, with a push from Lt. Gov. Ben Barnes, highlighted the action. Bill survived Senate filibusters. Now it goes to the House where Speaker Gus Mutscher reports its fate will be decided in a floor battle.

Also triumphant over filibusters was the bill to set up Texas State Technical Institute under a separate governing board with authority to operate facilities in Waco, Harlingen and Amarillo areas. It now is known as James Connally Technical Institute and is under the Texas A&M University System. Only those courses which area junior colleges can't or won't offer could be taught in this job preparation field. Bill goes to Gov. Preston Smith for signature.

House earlier voted to split the Parks and Wildlife Department into separate agencies regulating parks and game and fish. Senate apparently is cool to the "divorce" plan.

House also voted to create University of Texas of Permian Basin near the present Odessa College campus and agreed the name of the Liquor Control Board should be changed to Texas Alcoholic Beverage Commission.

Both houses agreed on bills to provide for misdemeanor action against corporations charged with air and water pollution.

A Senate-passed bill would permit admission of oral confessions as evidence in criminal trials.

WATER PLAN ADOPTED — Nine billion dollar Texas Water

Plan has been formally adopted by Texas Water Development Board, and implementing legislation is moving fast.

Water Development Board accepted the plan, which includes a proposal to import some 12 to 13 million acre feet of surplus water annually from the lower Mississippi River to meet state requirements to the year 2020.

Water Rights Commission set the stage by entering an official finding that the plan "gives adequate consideration to protection of existing water rights and takes into account modes and procedures for equitable adjustment of water rights to be affected."

BOTTLE CLUB RULES — Texas Liquor Control Board has set May 9 for a public hearing on a new proposal for private-club rules and regulations, drawn up after a previous hearing.

New draft includes major changes to allow the use of computers in record-keeping; more detailed regulations on record-keeping for tax collection purposes; definitions of "guest," "member" and "member's family"; a definition of food service required at clubs and more detailed rules on the locker system.

LCB also agreed to ask the Legislature for an addition \$834,423 in appropriations — over what the Senate-passed money bill would give the LCB.

That extra money is needed, Board says, because of passage of a bill revising the Liquor Control Act, recent increases in licenses and permits and "the further fact that there are now three ports of entry on the Mexican border which are presently not manned with ... tax collectors."

COURTS SPEAK — State Su-

preme Court has held that Orange - Bridge City retired machinists cannot collect unemployment compensation unless they actively seek work.

High Court also found an Amarillo couple entitled to damages from Ford Motor Company as a result of an accident caused when a truck with faulty brakes hit their car.

Court of Criminal Appeals sustained a new law directing motorcycle riders and passengers to wear prescribed helmets.

Same Court upheld death sentence for a Houston man charged with beating a baby to death.

AG OPINIONS — Although the Legislature intended ballots may be prepared so as to be compatible for use in automatic tabulating equipment, those used with electronic devices must be similar to ordinary paper ballot, Atty. Gen. Crawford Martin has concluded.

Martin also held that: Baptist hospital parking lot can be exempt from taxes if local tax authorities find they are an essential part of the hospital operation.

There is no authority to use county funds for purchasing volumes of a county history.

TEACHER - SHORTAGE GRANTS — US Office of Education has awarded the Texas Education Agency six grants totaling more than \$600,000 to attract and qualify teachers to meet the critical teacher shortage.

A TEA spokesman said the projects represent a cooperative effort among six regional education service centers — at Amarillo, Austin, Corpus Christi, El Paso, Houston and Richardson — with local education agencies and colleges and universities.

Car Strikes Horse Killing One Man Three Injured

Opal Chennault of Blossom was killed Sunday night when a car in which he was riding struck a horse and overturned on U. S. 82 five miles east of Paris.

Admitted to the hospital with numerous injuries were the driver, Thomas Lee Chennault, Joe Chennault and Larry Neal Weddle. Joe Chennault and Weddle remained in the intensive care unit at the hospital while Tommy Chennault was reported in fair condition Monday.

Opal Ray Chennault was a lifelong resident of Blossom. Born there April 6, 1939, son of Erbie George Chennault and the former Anna Ferris. He was an employee of the Pine Mill Nursery.

Set Road Bond Election May 31

The Titus County Commissioners Court has called a \$950,000 road bond election for Saturday, May 31. Petitions from Titus County citizens had asked that the election be called.

The petitions asked that the money be used as follows:

1. \$301,000 be used on U. S. Hwy 271 and State Hwy 49.

2. \$569,000 be used on Farm to Market roads and an East Loop of Mt. Pleasant, Texas.

3. \$80,000 be used for the purchase of road oil for County Lateral Roads.

The bond money for US Hwy 271 is needed to permit the state to do the work necessary to bringing the Titus County section up to the standards for the proposed Gulf Highway from Paris to Houston - Beaumont area.

Straightening and widening of State Hwy 49 in Titus County is needed because of the traffic and many fatal accidents this road has seen.

Wind Damage In This Area Sunday

An early morning cloud Sunday was accompanied by tornado like wind and heavy rain, and countless numbers of trees were uprooted or tops twisted off in communities in the eastern part of Lamar and western Red River counties.

Trees were blown down in the northern part of Minter area, on the Mrs. Floyd Whitney, Floyd Whitney Jr. and J. D. Allen places, and some out buildings unroofed. Several television antennas were blown over.

In the Halesboro vicinity, a barn on the Larimore place, and farmed by Al Parks, was blown down and roof on a house damaged. Roofs of outbuildings at the Mrs. J. H. Hobbs home were partly blown off. A large oak tree on the Halesboro road was blown down, blocking traffic several hours. Damage was also reported to buildings at the Buck Slaton and the Trussell places in that section.

Growers To Vote Transfer Acreage

Growers in all upland cotton producing counties will vote during the period May 5 through May 9 on whether to permit the transfer of 1970 cotton acreage allotments to farms in other counties by sale or lease.

If in any county at least two-thirds of the growers voting favor the transfer, growers of that county will be permitted to transfer their allotments by sale or lease to farmers in other counties within the same State. Allotments may not be shifted to other States.

Where approved by a least two-thirds of the growers voting in the county, transfer of allotments to other counties will be permitted during 1970. The transfer of allotments is authorized in the Food and Agriculture Act of 1965. This Act, as amended, and the authority to transfer allotments expires at the end of 1970.

The May 5-9 referendum on this question will be the fourth to be conducted by mail. Ballots will be mailed May 2 to all cotton growers of record in counties holding a referendum next month. Officials said a mail vote has proved to be more convenient for growers, rather than having to appear in person at their polling place, particularly during a busy season. To be counted, all votes should be in the office of the county Agricultural Stabilization and Conservation Committee before the close of business on May 9 or be postmarked by midnight May 9.
