Ochiltrees Slow To Buy 1942 Car Tags

Ochiltree County motorists are slow to buy 1942 license plates and Sheriff Talley says that registrations are either going to fall behind this year or there is going to be a last minute rush that will result in some people not getting their new tags before the deadline.

Tags must be on all motor vehicles operated on the highways or any public road on or after April 1.

Shortly after noon Tuesday 261 passenger car, 36 farm truck, 18 commercial and two trailer licenses had been issued.

Local Boxers Meet Follett Team Tonight

Boxing fans of the Perryton area are due for a big show tonight, Thursday, at eight o'clock when the fast boxing team from Follett comes to Perryton. There will be 15 bouts of three minutes each in the school gymnasium.

Weights of the contestants range from 60 to 165 lbs. Admission will be 40 cents for adults and 15 cents for students.

Coaches George Philbrick and Tom Slack of the Perryton boxing team are well pleased with their rapid development.

The Canadian team met the Rangers in the Perryton gym last Friday night. Canadian obtained decisions in seven bouts while Perryton boys were victors in five.

Price Ceiling on Used Tires Set

During the week the OPA cracked down with a ceiling for used tires and tubes, effective March 16, according to the local rationing board.

Complaints had been pouring in so OPA that in many instances, tire sellers were asking more for used tires than had been charged originally for new tires. Used tires are divided into four classes, depending on the depth of tread design. Sellers must post the schedule of prices and give each buyer a statement showing the price of the tire, its classification, and the accurate measurement of its remaining tread depth. Since used tires offer the plain citizen his only remaining source of tires for the family car, OPA intends to make this ceiling regulation "stick" and is depending on patriotic citizens to report the "cheaters" who try to evade it.

Following is a list of tire certificates issued by the local board from March 9 to March 14, inclusive:

E. D. Clement, one 7.00x15 8-ply tire and tube; H. W. Ragan, one 12.5x25 tractor tube; Ben Crum, two 6.00x19 4-ply tires; J. H. Newfield, one 7.00x15 8-ply tire; E. D. Clement, two 6.00x16 (retread) plow tires and two 6.00x16 tubes; A. H. Williams, two 7.00x15 8-ply pickup tires.

Robert Barlow, one 7.00x16 tire and tube; Clem Flowers, one 7.50x17

Ochiltree Joins Food Stamp Mail Program

Eleven Additional Panhandle Counties Are Included

Ochiltree is included in the eleven additional Panhandle counties designated for participation in the Surplus Marketing Administration food stamp program. It was announced at the area office in Amarillo Monday.

Newly-designated counties: Carson, Sherman, Hartley, Ochiltree, Roberts, Moore, Castro, Randall, Swisher, Hemphill and Lipscomb.

Designation followed by about two weeks the preliminary conference held in Amarillo by SMA officials with officials from 14 counties to determine the possibility of their inclusion in the program.

The counties to be served by mail through the West Texas Stamp Issuing Office which has been established in Amarillo as the central issuing office. The addition of the counties brings to 19 the number that are being served thru the Amarillo office.

Present plans call for participation of the new counties in the SMA program by the first of April. Details now are being worked out for their participation.

The mailing program for the eight counties now included in the set up has been termed as "satisfactory." The Amarillo office was the first in Texas established to service participants in the SMA program through the mails.

Since its institution the first part of this month, approximately \$10,000 in blue and orange food stamps have been issued by mail through the Amarillo office, and several "second" orders have been received.

Officials said the peak business would not be reached for about three months.

Louis Bryan, chairman of the Ochiltree county committee, states that all food merchants and their employees will meet at the courthouse on the evening of March 26, to discuss the details of the program.

Legion Safety Theme Winners

J. C. Jones and Mary Lou Rupprecht were the winners of the "Safety" theme contest sponsored by the Perryton American Legion with the cooperation of the faculty of the Perryton Junior high school.

The contest was open to pupils of Junior High only. J. C. was awarded a \$2 cash prize as first place winner. Mary Lou placed second for a \$1 cash award.

The two winners read their themes at the Legion's meeting Monday evening.

W. B. Reid to Eastern Markets

W. B. Reid, manager of the W. W. Virtue Dry Goods Co. in Perryton, left Monday of this week for points in the east. Mr. Reid does buying for the Virtue store. He expects to be gone until April 1.

Billboard Used as Honor Roll at Plant

The Delta Electric Company at Marion, Ind., adopted a novel plan to let the community know how its employees are participating in the Defense Payroll Savings plan. A huge billboard erected outside the plant contains the name of all employees who are authorizing savings every pay day for the purchase of Defense Savings Bonds.

Name Local Heads for OCD Physical Fitness

Head Coach George Philbrick and Assistant Coach Tom Slack of the Perryton schools have been appointed as directors of the Office of Civilian Defense Physical Fitness program for Ochiltree county.

Detailed announcement as to participation in the program will be made just as soon as complete information is received. One of the phases of the physical fitness program will be the organization of classes for adults.

PTA to Have Men's Night On March 23

The regular meeting of the Perryton Parent Teacher Association will be held in the school auditorium Monday night, March 23, 7:30 o'clock.

The fathers will be in charge of the program under the direction of Mayor W. H. Lance. Several musical numbers will be given by a male quartet. A talk on "Safety" by C. L. Russell, state highway patrolman, will highlight the program.

Membership in the National Honor Society is available to Perryton school this year for the first time and the formal initiation of those eligible students will be held Monday night under the sponsorship of the PTA. Miss Mary Jane Hall is advisor.

Mrs. K. H. Crisp, president, is calling a meeting of the executive council for 7 o'clock, just preceding the regular program. She requests each member to be present as important business matters are to be discussed.

At a recent meeting of the organization it was decided to honor Mr. and Mrs. J. M. Bull, charter members, in connection with the observance of Founder's Day by the planting of a tree on the school campus. This ceremony will be held Tuesday afternoon, March 24, 4 o'clock, on the campus with Mrs. W. B. LaMaster, president of the eighth district, in charge. The public is invited.

Death Claims Popular High School Senior

It is said to give up one whose influence among men would doubtless have been for good; who by precept and example was so well calculated to spread abroad the blessed influence of Godly living. Yet he who doeth all things well, makes no mistakes. The human link snapped asunder on earth is forged anew in heaven.

As Rev. S. R. McClung said in his sermon at the last rites for Ray W. Veale, "It is hard to understand. It may be that we'll never understand why such a fine young man was called from this earth so early in life."

Only last Friday Ray attended his classes in Perryton high school where he was a Senior. On Friday night he attended the boxing contests in the school gym. Then in the dark hours of early Saturday morning, he was stricken with double pneumonia. He was rushed to the hospital, where loving hands and medical specialists labored in vain. In about 48 hours, he was called home, passing into that eternal home on high early Monday morning.

Ray W. Veale would have been 17

Teachers to District Meet

Perryton and Ochiltree county teachers will be in Amarillo, Friday and Saturday, March 20-21, for the annual meeting of Northwest Conference for Education. Nearly 3,000 teachers, administrators, trustees and P. T. A. workers are expected at this two day meeting.

Convention committee chairman, including Perryton superintendent C. Wedgeworth, on constitution. The Parent-Teacher group will have a noon luncheon Friday at the Amarillo hotel, with Mrs. W. B. LaMaster, district president, in charge. Registration for the convention will begin at 8:30 Friday morning, with the first general session at 9:30. Sectional gatherings will start at 2:30 p. m.

This conference includes district 9 of the Texas State Teachers' association, an area which covers the 26 Panhandle counties. Schools throughout this region will close for the two days of the teacher convention.

Otis Burk Leaves Today To Enter Navy

Otis E. Burk, principal of the Perryton Junior High School, has been commissioned as an Ensign in the United States Navy.

He leaves Thursday to report to the Naval recruiting office at Dallas. From that place he goes to the United States Naval Academy, Annapolis, on March 23. He will take six weeks intensive training before being assigned to regular duty.

Mr. Burk is entering the physical education division of the Bureau of Aeronautics.

Otis Burk is a graduate of West Texas State and holds a Master's degree from Michigan. He majored in physical education and school administration.

For many years, he was head coach in the Perryton school, resigning after piloting the Ranger football team to a regional championship.

No announcement has been made as to who will succeed Mr. Burk on the school faculty.

JUST HERE and THERE

Private employment and the army have been responsible for the closing of CCC camp after camp until the state now has only four remaining camps.

Relatively speaking, retail prices are still a "bargain" even though they are up. Buyers can expect in the future, greater advances in retail prices than in wholesale prices.

Statistics show that advance in retail prices are lagging behind the advance in wholesale prices. As merchandise purchased at old wholesale prices is replaced with higher priced goods, retail prices will have to take a sharp raise.

Do not hoard! This is not "scare buying" talk but if you are going to need merchandise in the near future, take a tip from us and buy it now. It makes no difference what it is, it is going to cost more later.

Why do local organizations sell greeting card business in Perryton with local business firms? For a number of years, the greeting card soliciting by local organizations was confined principally to Christmas cards, now they're in the every-day card business.

These same organizations would not think of going out and selling from door to door, groceries, dry goods, drugs, hardware or furniture. Yet they sell greeting cards. What's the difference?

This newspaper pioneered the greeting card business in Perryton. Now greeting cards can be purchased in many Perryton business houses. We do not think that local organizations, be they fraternal, church, school, or what-have-you are being fair when they go into direct competition with Perryton business houses by selling any item regularly stocked and offered for sale.

War gardens, both in town and country, are an essential contribution to the war effort. Dogs and chickens running at large in Perryton do nothing but damage to gardens.

Perryton city officials are giving notice that owners of dogs and chickens running at large will be arrested and fined. They anticipate no trouble as it is the duty of every patriotic citizen to put no obstruction in the way of raising more and more garden stuff this year.

Owners of 120 Ochiltree county trucks have registered their trucks for emergency defense under orders of the war department. Mayor Lance states that he has transmitted to Washington, descriptions of all trucks registered, but that trucks can be registered.

Car Stolen Monday Night

A 1935 Plymouth sedan was stolen in Perryton Monday night about eight o'clock. The car, owned by Bill Laubhan, was parked in the middle of Main Street in the four hundred block.

Officers were notified of the theft over the country and the car was located in Elk City, Oklahoma, Tuesday. Deputy Sheriff, Del Taylor and Highway Patrolman Sam Port left Tuesday to return the car to Perryton. Officers were holding a man at Elk City suspected of having stolen the car.

Waka Starts Red Cross First Aid Course; Standard Class to Open, Advanced Closes

Carl Freeman is Seriously Injured In Car-Van Crash

Carl C. Freeman, Canadian, former resident of Ochiltree county, sustained serious injuries when his car collided with a truck five miles east of Pampa, Sunday evening at 9 o'clock. The Freeman car was smashed. The motor van, loaded with 600 new tires estimated value of \$10,000, was destroyed by fire as a result of the collision.

Mr. Freeman, who for many years lived on Gibson creek in the southeast part of the county, is in a serious condition at a Pampa hospital.

He suffered a broken hip, broken pelvis, fractured ribs, and burns on hands and face.

The burned truck and tires were still smoldering on the highway Monday afternoon. Movement of the tires was in connection with a disposal of surplus stock, which had been "frozen" under the tire rationing setup. The tires were consigned to the government warehouse in Oklahoma.

"Highway patrolmen investigating the crash said the machines apparently hit head-on in a rain storm," stated the Amarillo News-Globe on Monday.

A Standard First Aid class was organized in the Waka community Tuesday evening, March 17. Miss Elizabeth Huffines and Miss Alta Fay Lawson are instructors of the class. The second meeting will be held Monday night, March 23, 8:30 o'clock and thereafter on each Thursday and Monday night, two-hour classes, until the completion of the 20-hour period.

Because of muddy roads, some could not attend this meeting. They may enroll at the Monday night meeting so please be present. This class will give special stress to farm accident prevention and will be limited to 25 persons.

Leroy Hartman, Red Cross first aid chairman, and Mrs. Hartman, were present to assist with the organization.

Others Organize

A woman's class, primarily for working girls, will meet Monday night, March 23, 8 o'clock, in the Red Cross room. Miss Eugenia Mitchell will instruct this standard class. Textbooks can be secured from Myrtle Mae Conley, secretary.

The hours and nights for classes will be arranged at this first meeting. The class will be limited to 30 persons. If you wish to enroll be present for the first lesson.

Complete Advanced Course

The advanced class in First Aid taught by Albert Frazier, completed their 10-hour course Thursday night and took the examination work.

Those completing the class and eligible for Red Cross certificates are: Clifford Beck, Miss Opal Fogle, Sam Port, Mrs. Emma Grebe, Mrs. Adah Green, Arvie Hale, Leroy Hartman, Alzo Hibbs, Shirley Horan, H. L. Kilbourne, Gus H. Koehn, Rev. S. R. McClung, Earl L. Miller, Mitchell Modrick, Miss Edith Newman, Wm. E. Penland, E. G. Rupprecht, Hugh Shotwell, J. H. Spethenson Jr., Arch Talley, E. W. Thomas, O. C. Watson, J. D. Williams, W. J. Cessna Jr., Forrest H. Davidson, Gus H. Koehn, Darrouzett, Silva Davis and N. A. Hightower, Spearman.

Mr. Frazier will go to Darrouzett Thursday night and begin a Standard class. Leroy Hartman, first aid chairman for the Ochiltree County Red Cross Chapter, will accompany him.

Clubs Plan Program for Defense Work

The county-wide Education and Expansion Committee of Home Demonstration Clubs met Saturday, March 14, at the courthouse to arrange an education program for the county group of clubs.

Mrs. Dolph Daniel, chairman of the Council Committee is also Chairman of the county group. The Committee planned a county-wide education program to include those things pertinent to the defense program.

Some of the more important activities set up for educational work within the club group and also within the communities effected by the club group were: 1. Cooperation with the American Red Cross in sewing and knitting. First Aid classes and Home Nursing Classes. 2. More food production especially gardens and poultry flocks. 3. Preservation of home produced foods by canning, storing, drying, and freezing. 4. Sugar and fat conservation. Special work to be done on sugarcane recipes. 5. Care and repair of clothing.

Weeks Moisture Totals .25 Inch

Farmers over this area are jubilant over the continued snows and rains that have been received in the past week. According to the government rain gauge kept by Judge Jack Allen, 25 of an inch of moisture was received Monday night. The southwest part of the county received a much heavier fall.

Barley and wheat are greatly benefited as well as filling the ground with moisture to aid in row crop farming that will start in the next few weeks.

Registrants To Receive Numbers Soon

It is impossible for any Ochiltree County registrant to obtain his order number in the third draft or learn a great deal about it for a few days. The local board must first adjust their list to fit a master list which will come from Washington.

The local board soon after the registration on Feb. 16, shuffled the registration cards giving each a serial number, starting with number 1, etc. The lowest number that was given out at the drawing in Washington March 17, was not as low as Ochiltree County's highest serial number 298. Consequently it is impossible for anyone in this county to obtain their order number, as the order number is derived at by the serial numbers corresponding.

It will possibly be a week or ten days before the master list is received from Washington so that the local board can work out the order numbers.

No School Friday; Teachers to Meet

School children in Perryton and Ochiltree County will have a holiday Friday, March 20. All teachers will be in Amarillo Friday and Saturday for the annual Northwest Conference for Education, according to announcements made by C. Wedgeworth, superintendent of the Perryton school, and Dave Shanks, county superintendent.

Wheat Loans Extended to April 30, 1943

All 1941 Farm-Stored Wheat and Barley Loans to be Extended

COLLEGE STATION, March 17.—All 1941 farm-stored wheat, rye and barley loans may be extended to April 30, 1943, according to P. C. Colgin, state AAA commodity loan specialist.

Only grains in good, sound condition on which required inspection fees have been paid are included in the new regulations which will apply in certain eastern and southern areas to be announced later, he said. Present maturity date for all these loans is April 30, 1942.

Loans on excess wheat stored on farms or in approved warehouses may also be extended to 1943, Colgin explained.

The Commodity Credit Corporation will advance 7 cents per bushel storage on farm-stored wheat

District Meet Of Future Home Makers March 28

The district meeting of the Future Home Makers of Texas will be held in the school building March 28 with the Perryton club as hostess. Miss Gladys Armstrong, Canyon, area director, and Miss Juanita Hughes, Home Making instructor of Spearman and district chairman will be present to help Miss Myrtle Lois Pearson, Perryton instructor, with the general arrangement.

The theme of the program is "Women's Hands in Defense." Registration will begin at 9 a. m. with Sue Yacon, chairman. After a general assembly, a Pan-American luncheon will be held in the school cafeteria. Chairmen for the luncheon are Gladys Schwab, food; Muriel Rabenkamp, serving; Pauline Cotner, program; Lena Mae Wilson, decorations; Mary Kathryn Allen, toast-mistress and Opal Murray, hostess.

With the afternoon's program will be a style show with Angie Nell Tevis as chairman; a quiz hour, directed by Arline Truax, chairman; and a tea with Elaine McCarty as hostess and Elaine Hardy in charge of the food arrangements.

Future Home Makers from Borger, Stinnett, Phillips, Plemmons, Spearman, Gruver and Booker are expected to be present. Naomi Cagle is chairman in charge of the invitations. Darlene Teaster is general program chairman.

The State Rally for Future Home Makers will be held in Dallas April 17 and 18. Mary Kathryn Allen will represent the Perryton clubs.

Perryton Boys Attend Hi-Y Conference

Three Perryton boys, Bill Herndon, Jack Parker and Joe Cox attended the three day conference of the Young Men's Christian Association Older Boys Conference. The Conference was held in Pampa for three days, March 13-15.

Opening session of the conference was held at 5 o'clock Friday afternoon.

"Present Youth Problems" was the subject of a round-table discussion attended by the following: Bruce Beene, Hereford; Dudley Nix, Canyon; Ormie Brown, Tucumcari, N. M.; Bill Goodson, Amarillo; R. L. Rainey, Dalhart; John Tom McCoy and Jimmie Terrell, both of Pampa; Jack Parker, Perryton; Alvin Thomas, Plainview; Bill Herndon, Perryton, vice-president in charge of the discussion.

Highlighting the remaining two days of the conference were banquets, addresses and election of officers. Jack Parker of Perryton was elected secretary for the coming year.

On the Home Front of World War II

(A weekly summary of developments in the Victory Program, prepared by the Regional Information Office, OEM)

Courthouses and school storerooms throughout the Southwest began filling up with packages of forms and War Ration Books during the last week as concrete evidence that the War has arrived in the Consumer's household—if that evidence wasn't felt previously.

Ration boards and school teachers studied plans for registration so they would be ready when "R-Day" for the start of rationing comes within the next few weeks.

During the week, the Consumer Ration Book No. One may be for other things than sugar, for which the Ration books were originally planned. After conferences with officials in the Dallas Region Office of Price Administration, State ration administrators held conferences of their own, to explain how the ration books might be used for rationing any commodity or material where rationing is ordered.

The State administrators also spent much time in trying to persuade sugar hoarders to re-sell their excess supplies back to their retail grocer at the daily shelf price. Reason: Anyone holding more than a "normal supply"—perhaps two pounds per person—will have stamps torn from the ration book; and if the hoard is so large that it requires tearing out eight or more stamps, then no ration book will

be issued at all to such hoarder. That, of course, would work an inconvenience on the sugar hoarder, because if other commodities are rationed later, he would have no ration book and would be unable to obtain them.

Through their trade associations, grocers throughout Oklahoma, Louisiana and Texas have pledged their cooperation in the "buy-sugar-back" campaign between now and "R-Day."

Typewriter Freeze: An important war action of the week came when the sale and rental of new and used typewriters were restricted. In its typewriter aspect, this "freeze" was explained by the War Production Board as necessary because typewriter factories are being converted as rapidly as possible to making ordnance parts and other war equipment.

Following the original freeze order, a program of severely limited rationing of used typewriters was announced, but the rental of these machines was not restricted. This matter of rental dealers and distributors of local dealers and distributors, but they were cautioned to inventory for non-defense use to limit rentals for non-defense use to one-month periods, and make certain that defense users are supplied.

Purchasers of used typewriters

must first obtain certificates from local ration boards, and sales are limited to prime contractors constructing military or naval cantonments; shipyards or air bases; and operators of plants, factories or shipyards holding the highest priority ratings. Supplies of new typewriters were brought under WPB control by the freeze order pending announcement of rationing plans.

Tire-less Tractors: The demand of tank assembly lines for rubber tires is causing corresponding effects on the farm. There will be no more rubber-tired farm tractors produced after May 1, and the number already has been reduced sharply. Tractors will go back to steel wheels, while farmers get out the crops and factories get out the tanks.

Nylons to Disappear: After April 1 the women folk will just have to content themselves with cotton and rayon stockings. Virtually all women's hosiery will be made of those materials, for nylon and its companion products are needed in making parachute cloth and for other military purposes.

Radio and radio-phonographs won't be produced either, after April 22.

Reclaimed rubber is still available

Immunization May Save Child's Life

AUSTIN, Texas.—In his recent May Day—Child Health Day proclamation, President Roosevelt stressed the vital importance of the health of children to the strength of our nation. He urged that all Americans exert every effort at this time to conserve child health, not only through the application of positive health measures, but also by reducing the incidence of the more devastating childhood diseases.

Doctor Geo. W. Cox, State Health Officer, today issued an urgent appeal to all Texans to cooperate wholeheartedly in this health conservation program.

"While it is true that science has had at hand for years the means to reduce almost to the vanishing point the incidence of diphtheria and smallpox," Doctor Cox stated, "nevertheless the actual control of these two diseases is largely in the hands of parents."

Children should receive toxoid treatment between the ages of six and nine, he declared, and pointed out that the necessity for immunization at this early age is based upon the fact that nearly two-thirds of all diphtheria deaths occur in children under six years of age.

"I can not emphasize too strongly to that to deprive your children of the protection that science has made available amounts almost, if not altogether, to criminal negligence," Doctor Cox warned. "The family physician and the public health workers can only point the way and urge action, but the essential factor still lacking in most diphtheria illnesses and deaths is parental cooperation."

"Matter" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 22, 1942.

The Golden Text is: "The fashion of this world passeth away" (1 Corinthians 7:31).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "My days are like a shadow that declineth; and I am withered like grass. But thou, O Lord, shalt endure for ever; and thy remembrance unto all generations" (Psalms 102: 11, 12).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "As God Himself is good and is Spirit, goodness and spirituality must be immortal. Their opposites, evil and matter, are mortal error, and error has no creator. If goodness and spirituality are real, evil and materiality are unreal and cannot be the outcome of an infinite God, good" (page 277).

We were happy to notice the increase in our Sunday School and all services on last Sunday. The Lord blessed us with another opportunity to prove our love for him and many responded. There are some who seemingly are ungrateful for this freedom of worship we enjoy. Just how long we will continue to enjoy it is no one knows. If the churches are not worthy of being attended by its members then we are not worthy of having them. "Oh that men would praise Jehovah for his loving kindness, and for his wonderful works to the children of men! For he satisfieth the longing soul, and the hungry soul he filleth with good." (Psalms 107:8-9).

We welcome all to all our services.

LIFE SAVER FOR Cold Weather Starting

Are you all at sea about what to do when your motor suddenly refuses to start because the temperature is low?

Here's the answer: Just fill the tank with Phillips 66 Poly Gas. That's the quick, easy way to find out what a difference high test makes.

A touch of the starter, and your engine rolls into action with split-second speed. It's got to, because any engine in good mechanical condition will start provided the gasoline in the tank is "hot" enough.

And Phillips 66 Poly Gas is extra hot... without a penny of extra cost!

Try a tankful. Compare. See if Phillips 66 Poly Gas doesn't give you just about the fastest cold-weather starting, and the finest cold-weather performance, you have ever enjoyed.

Remember, the Orange and Black 66 Shield is High Test Headquarters for car owners... because Phillips is the WORLD'S LARGEST PRODUCER of natural High Test Gasoline.

SCHOOLBOY KILLED WHEN KITE STRIKES HIGH VOLTAGE LINE

Jerry, 10-year-old grade student, met instant death by electrocution late yesterday afternoon, when the wire string of a kite he was flying came in contact with a high voltage power line at the rear of a vacant lot near the 2nd and 4th streets. A power company employee, called to the scene immediately after the accident, found the boy lying on the ground. He applied artificial respiration for three hours but was unable to revive the victim, who apparently received the force of 6,000 volts.

Jerry and several companions had been flying the kite for about 45 minutes when it dived suddenly and allowed the wire string to fall across the 4,000-volt line that passes up the alley between Third and Fourth Streets. There was a flash at the moment of contact and death.

Do not fly Kites near Electric Lines

BOYS AND GIRLS—PLAY SAFE

Follow These Safety Suggestions

Kite flying is a healthful sport and lots of fun, but danger lurks when kites are flown near electric lines. Don't run the risk of death or serious injury. Follow these precautions and be safe:

1. Fly your kite in open fields as far away as possible from electric power lines.
2. Do not use wire or metallic kite strings.
3. Do not climb poles to retrieve tangled kites.
4. Do not use metal kite sticks or wooden sticks bound with wire.
5. Do not fly kites with wet string or in wet weather.
6. Do not poke sticks at kites caught in wires or try to pull them down by their tails.

If you see a kite caught in an electric line, call our office at once. Our employees know how to remove kites without endangering anyone or causing an interruption to electric service.

NORTH-EAST TEXAS PANHANDLE AND WESTERN OKLAHOMA FARM AND RANCH NEWS

No WPA Help for Persons Physically Fit to Make Living as Farm Workers

No man or woman who can earn a living as a farm laborer will remain employed on a WPA project in Texas, H. P. Drought, state administrator, San Antonio, declared last week.

"This year, with the inroads which have been made in the farm labor supply by the draft and defense industry employment, farmers are already anticipating shortages in the labor force more than ever to make every man and woman on our rolls instantly available for farm work."

WPA's Texas employment quota has been reduced this month to 33,000 workers in Texas and another 28,000 persons are destitute, unable to find jobs, and awaiting assignment to WPA projects, he reported.

"Every man and woman among these 61,000 persons who is physically able to make a living on a farm is available right now and will continue to be available as long as he or she is registered with WPA."

"All that a farmer has to do to get as many of these workers as he can use is to apply to any WPA administrative or supervisory official in his vicinity or the United States Employment Service representative in his county."

Declaring that it has been the well-known policy of the Work Projects Administration since its inception that no person can be given employment by WPA if he refuses a reasonable offer of employment from any other source, Drought pointed out that entire projects have been shut down when necessary to furnish farm workers in the past and that this will be done at any time the need for such action is demonstrated.

Panhandle Farm Methods Better

COLLEGE STATION.—Although 1941 was the wettest year in the annals of weather data of the Panhandle, moisture conservation was carried out by contouring on 938,015 acres of cropland and 104,647 acres of pasture land in Extension District one. In addition, according to Parker D. Hanna, district agent, 103,059 acres on 8,694 farms were terraced, or more than twice as much terracing than was done under the supervision of county agricultural agents in any preceding year.

While soil erosion by water ordinarily is a minor problem in the high plains area, the spectacular effects of wind erosion in the middle thirties makes this one of prime importance. As cover crops and maintenance of other vegetative matter in the soil constitute one of the principal controls of wind erosion, the effectiveness of these practices ties in closely with the moisture conservation program. Accordingly, 352,719 acres of cropland were strip cropped, cover crops were planted on 686,729 acres, and approved summer fallow practices were carried out on 507,900 acres in 1941.

"From this it can be seen," the district agent says, "that Panhandle farmers have learned the lesson that the most effective control of soil blowing is keeping a cover on the land and incorporating vegetative matter into the soil."

Referring to the immediate and future effect of the abnormal rainfall, which began before the middle of the year, upon agriculture in the district, Hanna says that "wheat, barley and oats yields were almost unbelievable. In many areas, however, it was almost impossible to harvest the crops on account of continuing rain and swampy fields. But in spite of difficulties and production of small grains was the highest in many years. Pasture and feed crops were abundant. Supplies of both are abundant. Moisture prospects for the next crops are almost perfect and farmers as a whole, both financially and in regard to feed, are in excellent position to do an outstanding job in the war effort."

Improved grain sorghum demonstrations were carried out on 19,724 acres in 1941, which showed the value of blight-resistant strains. Demonstrations on wheat improvements were carried out on 113,547 acres.

In livestock, 489 demonstrations were carried out under the supervision of county agricultural agents, with the feeding of more than 25,000 head of beef cattle. There were 4-H livestock shows in 20 counties with 19 of them having entries. At these shows, 315 beef calves, 96 dairy animals, 281 hogs and 33 sheep were entered. At 4-H Club sales, 347,000 pounds of beef cattle brought \$40,000; 84,000 pounds of pork \$8,800 and 2,400 head of poultry \$1,295.

In controlling a serious infestation of grasshoppers in several counties, 3,398,000 pounds of poison bait was mixed and distributed under the supervision of county agricultural agents, with an estimated saving in crop value of more than \$1,578,000.

HOME DEMONSTRATION CLUB NEWS

Plan Gardens Now

Quite a few farmers have already planted onions, Bermuda plants and sets of other varieties are now available at the seed stores. The Bermuda is generally preferred for eating during the garden season because of its mild sweet flavor, while other varieties as the Sweet Spanish, Prietaker, and Australian Brown are desired because of their keeping qualities. These may be cured and stored in the cellar for use during the winter. All of these sets should be planted every five inches in rows 20 inches apart.

A row of shallots or multiplying onions should be in every garden. Planting may be made from seeds or from plants. Seeds are sown, as soon as the danger of hard frosts are past, in rows far enough apart to allow for cultivation, and with plants four inches apart in the rows.

In all a garden should contain three varieties of onions. The shallot for fresh green onions, the Bermuda for early eating and one of the red or yellow varieties for drying and winter eating.

"Food for Freedom" garden packages are now available at bulk seed dealers. These packages were discussed at "Food for Freedom" meetings throughout the county last month. These packages contain seeds for thirteen different kinds of vegetables in the varieties that are recommended for this county.

To buy one of these seed packages is a very convenient way to secure seeds for home garden planting. This package affords a good assortment of vegetable seeds in amounts needed for the average family garden. If more seeds of any vegetables are desired they can be bought separately but a number of different kinds of vegetables should be planted to avoid variety.

McMillen Club

"The outdoor fireplace is a place for the whole family to enjoy themselves in peace and privacy," stated Miss Elizabeth Huffines, Home Demonstration agent, at the meeting of the McMillen Home Demonstration club, Thursday, Mar. 12, in the home of Mrs. B. E. Plummer.

Many interesting suggestions were made on outdoor fireplaces as the members answered roll call with ways their family would enjoy the fireplace. With people being compelled to find more recreation at home, what could be more family-wide entertainment than a good meal cooked outside that the whole family has a chance to participate in?

Miss Huffines showed many economical and easy ways to build a fireplace. Any home can afford to have one of some kind.

The club has chosen "add a can of milk for victory" for the title of their educational exhibit to be displayed in one of the business house show windows the last of April.

Those present were Mrs. Earl

Missouri Ave. Club

Mrs. John Johnson entertained the Missouri Avenue Home Demonstration Club at her country home, Friday, March 13. Roll call was answered by, "Why my family would enjoy an outdoor fireplace."

The recreation period was spent singing club songs. The club voted to sponsor a get-together evening month for the club members, families and friends, using available meeting places.

Miss Huffines, agent, gave a demonstration on outdoor fireplaces, saying, "Outdoor fireplaces are an easy way to entertain. It takes less preparation. Everyone can help and a little ashes and smoke are enjoyed once in awhile. Outdoor fireplaces were started in Mexico. Next California took them up and now many states have them. It does not require a large yard or a large pocket book."

A refreshment plate was served to Mesdames W. R. Zenor, Fred Huston, H. W. Hawk, Albert Ackley, Curtis Roach, Harold Kershaw, W. L. Lovett, Bill McLanahan, E. W. Witt, Miss Huffines and the hostess. Mrs. McLanahan is a new member.—Mrs. E. W. Witt, reporter.

Merry Workers Club

The Merry Workers Home Demonstration club met on March 12 for an all day meeting and work day in the home of Mrs. Audrey Bohling at the Booster Station. Mildred Leatherman assisted her sister with the hostess duties.

Members present were: Mrs. F. L. Bell, Mrs. Chas. Stewart, Mrs. Alma Rorabaugh, Agnes Cassidy, Mildred Leatherman, Ethel Seago, Audrey Bohling, Luella Delano, Jeane Mounts, Ethel Pittman, Mrs. Jim Price, Clara Stubfield and Bertie Tregalis.

We were happy to have the following visitors: Mrs. Amelia Frass, Mrs. Edith Hendry, Mrs. Bert Leatherman, Elizabeth Fisher and Bess Miller.

The work part of the day was spent knitting and sewing on the hospital shirts sent out by the Red Cross. We have nearly completed the thirty-five shirts we have, to be turned in by the last of the month. The club enjoyed the use of five electric sewing machines during the day and wishes to express appreciation to Gertrude Lallement, Amelia Frass, Clara Stubfield, Bessie Miller and Mildred Leatherman for making this possible.

Bess Miller, who had charge of the lesson on First Aid, secured R. M. Hendry, the Station Superintendent and a qualified First Aid instructor to speak to the group on the subject of First Aid. Some of the things he brought out were: the need of a wider knowledge of first aid, especially with the possible shortage of available doctors; knowing what to do and what not to do in case of accident or serious injury; how to make use of materials at hand; and, how to send for a doctor, giving exact location of patient, apparent injuries and what first aid has been given. All of us enjoyed his discourse very much.

Miss Latt gave a demonstration on bandaging assisted by Mrs. Hendry. Bess Miller with the help of Mrs. Frass gave the demonstration on artificial respiration.

The next meeting will be with Moulton, a visitor; Mesdames Kenneth McLain, Willis Hardy, Ellis Matthews, H. B. Urban, J. L. Flowers, R. E. Matthews, B. L. Barnes, members, Miss Elizabeth Huffines, agent, and the hostess.—Mrs. R. E. Matthews, reporter.

Council Report

The County Council of Home Demonstration clubs met Saturday afternoon, March 14, two o'clock, in the courthouse with Mrs. Garland Redfern, vice president in charge. During the business session, the question of serving refreshments at club meetings was discussed. Waka delegates reported they had experimented with sugarless desserts and found them very appetizing. They may be served with salads and black coffee or tea. Each club voted to give a book or magazine to the public library.

Delegates selected to attend the district meeting which will be held in Amarillo in May were Mrs. Jim Davis, Waka, Mrs. J. S. Slaughter, Missouri Avenue, and Mrs. E. N. Plathers, Notia. Alternates are Mrs. A. L. Carter Jr., Ochiltree, Mrs. Hollis Gossett, McMillen, and Mrs. E. D. Clements, Black.

Present for this meeting were Mrs. E. W. LeMaster, Mrs. F. L. Waggoner, Mrs. Fred Moses, visitors Mrs. C. O. Roach, state treasurer; Miss Elizabeth Huffines, home agent; and the following delegates: Mrs. Dolph Daniels, Mrs. E. D. Clement, Black; Mrs. Hollis Gossett, McMillen; Mrs. Fred Huston, Mrs.

Victory to the Aggressor

The great lesson of World War II is this: victory belongs to the aggressor—to the nation which carries the battle to the enemy. Hitler and his Axis mates have consistently followed that principle. They have not hesitated to take the greatest risks if the possible gain was worth the gamble. Theirs is the most daring plan of warfare in the history of armed conflict.

The grave losses which the United Nations have taken may be laid, in part, to the once-commonly held belief that it would be possible to fight a defensive war and still win. France pinned her faith on the Maginot Line which her military leaders said was impregnable—and today she is a beaten, starving, slave nation. England at first thought she could bring Hitler to his knees through the use of that classic weapon, the blockade—and today Hitler is master of all Europe, and exploiter of all its resources. At the beginning, Russia too placed her hopes on defensive positions, such as the so-called "Stalin Line," and saw them destroyed by the invader, almost as if they were made of paper. Not until the fine Russian troops took the offensive was the legend of Nazi invincibility shattered. The last example—and one of the most tragic examples—of the fallacy of defensive warfare is the fall of Singapore, the greatest naval base ever built in the world. The English believed the Malay jungles would make land attack on this bastion impossible. The Japs proved otherwise.

Here in our own country, most of us have been "defense minded" instead of "war minded." The great natural barrier provided by our oceans has been our solace. We took pride in our latent power, and thought that no nation, least of all Japan would dare attack us. And so, at last, decades of defensive, wishful thinking—decades of inaction, decades of avoiding unpleasant truths—have resulted in the grim series of debacles to which we and our Allies have been subjected.

We are changing our views fast now. In military circles, and to a lesser extent in the public mind, the fact that defensive war is losing war is being fully accepted and realized. The blueprints are being made for taking the battle to the foe once our airplane-building program calls for a relatively small proportion of pursuit planes, which are primarily instruments of defense, and for a high proportion of long-range bombers and dive bombers, which are entirely instruments of offense.

Where will the United Nations strike? No man can answer that now. Much will depend on what further successes the Axis achieves. Now that Singapore is gone, tremendous numbers of Jap troops, fully equipped, can be used for the assault on the Dutch East Indies, India, and even Australia. Every position Japan has taken or will take must be won back. There must eventually be air attacks on Japanese industrial areas. Africa—where the German forces under Rommel have retaken much lost ground—must be placed firmly under Allied control. Finally, most military authorities are certain, distasteful as the thought is, that the war cannot be ended without an Allied invasion of Hitler's Europe. He must be beaten, in short, on his home grounds.

This is a project which staggers the imagination. By comparison with this war, World War I was only a skirmish. Its demands on our resources and our population are already infinitely greater—and will become greater still. It is not only possible but probable that it will last five years or more. To recapture lost positions, especially when over-water operations are involved, is almost invariably a slow, costly and tortuous job.

At this moment, the principal American-British task will be to muster sufficient naval strength to deal with the strong German surface fleet which took the incredible risk of attempting to escape from Brest virtually within sight of the Dover Coast—and succeeded. If that fleet is loosed in the Atlantic, as it no doubt will be after repairs are made at Helgoland base, it will be the worst threat which has yet appeared to Britain's long Atlantic lifeline. Its destruction or immobilization is vital.

LETTERS FROM OUR READERS

Private George Regier, who is stationed at Camp Blanding, Fla., writes his sister, Miss Juliana Regier of this city, about his training and the camp. Private Regier, who was discharged from the army last fall because of the 28-year old ruling, was recalled the first of this year. He served 9 months in his first enlistment. His letter, dated March 10, is as follows:

"I was glad to receive the Ochiltree Herald. We are having some hard training in Florida. We have two ten-mile hikes each week, with full pack and gas mask, and work every day except Sunday, from 7 a. m. to 5 p. m.

"Camp Blanding is a very sandy place. There is a big lake at the edge of the camp. We may go boating and swimming this summer. Camp Blanding is 40 miles west of St. Augustine, Fla. Some other boys and I went to St. Augustine a week ago Sunday. It is a very interesting town, with an old Spanish port. It is the oldest town in the United States and has the world's largest alligator farm. We also went to the water front to get a view of the Atlantic ocean—it does not look too good to me, as all you could see was water.

"There is some talk that they may allow some furloughs. I don't think I will get one. Well, we had a ten mile march today and I am very tired. Must close and go to bed. See you soon. Your Bud, Private George Regier, 111 Med. Bn., Co. A. A. P. O. No. 36, Camp Blanding, Fla."

CARD OF THANKS

There comes a time in every person's life when those friends that are "standing by" can be of such help and consolation. Just such friends did not fail us in our hour of sorrow in the loss of our only child and son and to them we want to express untold gratitude. To those who were so kind with flowers, services, sympathy, and food, we are ever grateful.

Advertising Helps First Cattle Sale in Harper County

Advertising carried in the Ochiltree County Herald helped make the first pure-bred cattle sale held at Buffalo, Okla., a success, according to a letter received by the Herald from W. E. Bland, county agent of Harper county, Okla. The display appeared in the Herald issue of February 26. The sale was on March 9.

Mr. Bland writes, "The two Angus bulls averaged \$172.50, and the three Angus cows averaged \$158.33. The 27 Hereford bulls averaged \$226.75 and the 20 Hereford cows averaged \$181.75. The total amount of the sale was \$10,575.00."

"We wish to take this opportunity to thank you for the advertising you carried in your newspaper. We appreciate your kind cooperation and help in making the first sale of this kind in Harper County a grand success," further stated Mr. Bland.

Hospital Notes

Resolutions

Whereas, The Great Father of Mankind, in his wise providence, having seen fit to remove the body of our Brother Ray W. Veale Jr. from the cares and troubles of a transitory existence to a state of eternal duration, and

Whereas, Ray W. Veale Jr. has been a true and faithful charter member of the Perryton Chapter of the Order of DeMolay, and

Whereas, Ray W. Veale has emulated the celebrated artist Jacques DeMolay in initiation and has been true to the trust imposed, therefore

Be it resolved that the Perryton Chapter of DeMolay extend its sincere and heartfelt sympathies to the bereaved parents and trust this resolution will help to lighten their heavy load in their hour of bereavement.

John Unruh Buried At Goltzy, Okla.

John Benjamin Unruh, son of Benjamin and Lena Unruh, was born March 17, 1882, near Halstead, Harvey County, Kansas. He passed away March 7, 1942, at 6:15 a. m., at his home in Balko, Okla., at the age of 59 years, 11 months and 20 days. Final rites were held at Goltzy, Okla., where the body was laid to rest by the side of his wife, who preceded him in death several years.

All his childhood was spent at and near his birth place. At the age of 21, he moved with his parents to Lahoma, Okla. He was baptized in 1913 and became a member of the Zoar Mennonite Church.

On December 19, 1904, he was united in marriage to Matilda Amanda Buller. To this union were born a son and three daughters. He moved to Taloga, Okla., in 1908, where he resided until 1909 when moved to Goltzy. In 1916, he moved to Beaver County, Okla., where he lived until his death.

He leaves to mourn his passing: his son, Elmer D. Unruh, Balko, Okla.; two daughters, Mrs. Edna Case, Balko, Okla., and Mrs. Lorene Neufeld, Larned, Kansas; five grandchildren, Larry, Gene and Tilly Roxene Unruh, Virgie and Lavada Case, and Norris Neufeld; one brother, Simon Unruh of Goltzy; five sisters, Mrs. Katie Schmidt, Mrs. Barney Becker, Mrs. Ben Smith, all of Goltzy; Mrs. Ester Koehn, Meno, Okla.; and Mrs. Carrie Nightengale, Halstead, Kansas, and a host of other relatives and friends.

Preceding him in death were his wife, an infant daughter, his parents and two brothers.

"We are grateful to heaven, for blessings sent. For peace and good friends, for success and content. We are grateful for health, and for skies bright and blue. But most grateful of all for a Father like you."

RESTORE NEW CAR PERFORMANCE

Bring your Ford "Back Home" for a complete motor tune-up for easy starting, better performance and top gasoline mileage. Our trained mechanics, using the Ford Laboratory Test Set will do the job right.

YOUR SAFETY DEPENDS ON YOUR BRAKES

It doesn't pay to risk driving with faulty brakes.

Have them checked today to assure quick, smooth stops to meet any emergency—and don't forget that improperly equalized brakes can rapidly wear precious rubber from your tires.

If brake linings are worn, they should be replaced at once, before brake drums are damaged and require an expensive drum grinding job. Ford rebuilt brake shoes are available under the famous Ford Parts Exchange Plan.

SAVE THESE 3 WAYS

Bring your Ford "Back Home" to us for service to get:

1. Skilled mechanics, trained in factory methods.

2. Special shop equipment to do the job right.

3. Genuine Ford parts.

years of age on May 14. He was born at Breckenridge, Texas, and lived at White Deer, Texas, most of his life. He moved to Perryton with his parents about two years ago. His father, Ray Venable, is a pharmacist at the Shindler Drug. Mrs. Venable is a member of the Perryton school faculty, teaching piano and expression.

Ray W. was a brilliant student, an athlete, and above all a real citizen. Popular with his fellow students, his teachers and his many friends outside of school, his sudden going caused consternation and sorrow. The high regard in which he was held at his former home, White Deer, was shown by the scores of people, both young and old who journeyed from that city to pay their respects.

Ray W. was a member of the Presbyterian church. He was an enthusiastic Boy Scout and one of the few youths in the entire Panhandle to reach the highest obtainable rank of an Eagle Scout. He was made an Eagle Scout before he reached the age of 15, just 33 months after he first joined as a Tenderfoot Scout.

Funeral services were held at the First Baptist Church at 2:30 o'clock Tuesday afternoon with Rev. S. R. McClung officiating assisted by Rev. Garland S. Farmer.

Services were in charge of the Perryton Chapter of DeMolay, of which Ray W. was a charter member.

Palbearers were G. E. Rupprecht, Elton Symons, Joe McClung, Archie Correll, Jack Parker, Tom Calhoun and Emil Reimer. Officiating in the DeMolay service at the Ochiltree cemetery were the following chapter officers: Jack Allen, master counselor; Bill Herndon, senior counselor; Dick Thomas, marshal; Clair Brillhart, junior counselor; Donald Ellis, senior deacon; and Harold Gidley, chaplain. Assisting were the following members of DeMolay: Charles Patton, Dock Patton, Bob Zenor, Bill Zenor, Miles Sumpter, Finley Hamman, Joe Cox, John Daniel, Donald Schuster and Charles Linville.

Honorary palbearers were fellow members of Ranger athletic squads: Lindsay McWilliams, Jimmie Hall, A. J. Rudy, Thomas Carpenter, Wendell Buckhaults, Dale Parvin, Bobby Turner, Phillip LaMaster, Bill Allen, Darrell Seymour, and Coach George Philbrick and Tom Slack.

Flower girls were Twila Mae Manning, Nadine Entlerline, Winona Allen, Jane Rogers, Mary Kathryn Allen, Peggy Jane Thomas, Ruby Thrasher and Louise Flowers.

Vocal selections were rendered at the service by the high school girls trio, Misses Ruth Neufeld, Ruth Bohd and Marcela Pritta; and a male quartet consisting of M. W. Truax, O. R. Truax, Irvin R. Buchanan and Robt. Lawrence, with Mrs. A. K. Wilson at the piano.

Ray W. Venable is survived by his parents and a large number of relatives and many friends.

Death is a hard master. He would take from us one of our brightest and best but he cannot ever mar memory. It will serve as a balm to wounded hearts. Thus closed the early life of one who, being dead, yet speaketh.

for the manufacture of rubber heels, but at the same time, OPA has appealed to Americans holding worn-out tires to turn them in immediately to scrap dealers, thus helping relieve the rubber shortage situation.

Also affecting footwear, WPB has ordered that 90 per cent of top-grade leather soles be set aside for the manufacture and repair of military shoes, leaving 10 per cent of top-grade and the entire output of lower grades for civilian use.

Sheep Slaughter Plan Set: Texas and California sheep raisers may make possible the manufacture of two million additional warm flying suits for the men in the air force. The War Production Board in Washington has appealed to stockmen to plan now for shearing lambs and yearlings so that at slaughter the skins will bear from one-fourth of an inch to one inch of wool, thus meeting specifications for manufacture of the urgently needed flying suits.

istered at the city hall.

Did you notice that there was a black-out of many street lights in Perryton residential areas for several nights last week? Do you know the cause of these lights being out?

Twenty-seven street lights were out because smart aleck youths or adults deliberately broke the lamp bulbs with air guns or 22 cal. rifles. If you know the culprits responsible for this wanton and cowardly destruction of property, it is your duty to report the guilty to city officers. Vandalism such as this should not go unpunished.

resealed at time of extension, if the allowance has not been made previously, with an additional 5 cents per bushel allowance due at time of delivery, the AAA official said. Both storage allowances will be conditioned upon delivery of the wheat to the Corporation at maturity.

Farm stored wheat not of quality for resealing may be delivered prior to maturity, April 30, 1942, subject to approval of county AAA committees and provided CCC is in position to accept it. Full storage payment of 7 cents per bushel less deficiencies for grade or quantity are due producers who deliver this type wheat.

All wheat sales programs, except sales for feed, alcohol and exports, were discontinued temporarily Mar. 14 for the purpose of giving farmers opportunity to sell 1941 loan wheat before maturity dates. Grains on which loans are defaulted will either be sold in satisfaction of loans or title will be acquired by the CCC. Grains will not be continued in producers pool as formerly.

"Producers should be making definite plans for increasing storage on the farm for all new crops because present facilities are already crowded to capacity," Colgin said.

Robison Funeral Held in Garden

Funeral services were held at the Grandview Funeral Chapel, Garden City, Kansas, Wednesday afternoon, two o'clock, for Perry Wayne Robison who died Sunday, March 8. Interment was in the Garden City cemetery.

Perry Wayne, older son of Mr. and Mrs. Clarence Robison, was born in Healy, Kansas, July 15, 1927 and departed this life at the age of 14 years, 7 months and 21 days. When three months old, his parents moved to a farm near Mountain Grove, Mo. The past four years Perry has been with his mother in Hugoton, Kans., and in Perryton, attending school at both places. This winter, he stayed with an aunt at Garden City, Kansas to go to school there.

He was a member of Perryton Scout Troop 55 and of the Methodist Sunday School. He had a sunny disposition and made friends easily wherever he lived. His ambition was to be an aviator.

Survivors are the mother and step-father, Mr. and Mrs. Maurice Wagner of Perryton; brother, Doyle Robison; father and step-mother of Burley, Idaho; three grandparents; a number of aunts, uncles, other relatives and a host of friends.
