Building Of Homes Seems Assured, Says Finance Man

Construction of four new homes for Eastland veterans in Hillcrest Addition should start in two or three weeks, Glen L. Winn of Fort Worth said Thursday.

Winn said late Thursday afternoon that he was signing up the fourth applicant for purchase of one of the homes, and expected to sign up two or three more during the evening before he went back to Fort Worth.

Winn is the representative of the M. R. Carb Company, Fort Worth mortgage financing firm. The homes will be built by W. O. Pendery, Fort Worth contractor. Pendery has 26 home sites in Hillcrest, and plans to build homes on all of them if the demand is great enough.

Winn said that about 20 prospective home buyers had been in to see him Thursday, and the home building prospects in Eastland "look good."

"I had been skeptical about the situation here, wondering whether there were really many people wanting to own homes, but I have found there definitely is a demand for houses here," he said.

He said Pendery likely will begin work on four houses and complete them before he starts any more.

All of the first homes will be for sale under GI 100 per cent loans, but Winn said that later homes are planned under FHA loans for sale to the general public.

How the program will go depends partly on the report of a Veterans Administration appraiser who is expected here next week to value the lots, Winn said.

The home building project, if it does go as expected, will be the first for Eastland in many years.

Final Rules Drawn For Stock Show

Final plans for the annual Eastland County Livestock Show, to be held in Cisco, March 25-26, will be made at a meeting of the directors here Monday at 7:30 p.m., according to A. V. Clark of Cisco, association president.

There will be competition in cattle, sheep, swine, and horses. All animals entered, except horses, must be in their places not later than 10:00 a.m. Saturday morning. Registration certificates or breeder's certificates will be required to enter colts in the show. Entry fees are $2.00 and stall fees the same as long as stalls are available.

In addition to competition in the men's divisions, there are to be a number of FFA and 4-H entries. Any boy or girl, under 21 years of age who owned the animal he or she is exibiting prior to December 1, 1948, and who personally fed and conditioned the animal under the direction of a vocational agriculture teacher or county agent, is eligible to compete. Entries in this division are open only to boys and girls in Eastland and adjoining counties. Applications for entries in this division must be in the hands of the Vocational Agriculture teacher, Cisco, Texas, not later than March 15.

An auction sale, limited to FFA and 4-H Club boys, will be held for fat steers, lambs, and barrows from Eastland county only.

Dairy Group Members Urged To Pay Dues

A notice being mailed to members of the Eastland County Dairy Association by officers of the association reads as follows:

"Are you penny wise and pound foolish?- Your county dairy association returns your money a hundred fold- Can you afford to not support your dairy association? We need your backing today. Please keep this card until you mail your dollar dues. Attend our meetings, we need you; you need us."

Ben Hamner, Eastland funeral home owner and appliance dealer who suffered a heart attack Monday night, was reported doing well Thursday evening by Mrs. Hamner. However, he will have to remain at home for several days yet, she said.

Two-Piano Team To Appear Tuesday As Concert Attraction

THE TELTSCHIKS

Alfred and Herbert Teltschik, Texas duo-pianists, will be presented by the Eastland Community Concert Association in the Eastland High School auditorium at 8 p. m. Tuesday. Only those with memberships in the association may attend.

The brothers, who call Houston home now, were born in Floresville, Texas, of Austrian parents, and received early training from their father, a musician with European training. After study at the Juilliard School in New York, they married and settled in Houston to teach music in the public schools and in their own studio.

They began giving recitals on the side as a two-piano team, and from their difficulty in finding two evenly matched panos grew their special trailer, rigged for carrying two pianos. They have repair and tuning equipment for the pianos on the trailer.

During the war, they gave numerous two-piano concerts for the armed services, while in the service themselves.

Court Grants Child To Widow Of Man Killed In Cisco

Her child was restored in district court in Eastland Wednesday to Mrs. Erline Sublett, widow of the Cisco house painter, J. G. (Jiggs) Sublett, who was stabbed to death early Monday on a Cisco downtown street corner.

Mrs. Sublett testified in a habeas corpus hearing before Judge George Davenport in 91st District Court here that her son, four-months old Michael, had been taken from her by her late husband before his death and turned over to Sublett's parents, Mr. and Mrs. G. A. Sublett, for keeping

She sought custody of her child in the action, and the plea was granted by Judge Davenport.

Meanwhile, H. O. Green, charged with murder following the stabbing of Sublett, remained in the Eastland County Jail Thursday. Sheriff J. B. Williams said that Green had refused to make bond, set at $2,500.

Green is a Cisco oil field worker.

The Eastland County Grand Jury, which was in recess but reconvened Thursday, reportedly had intended to investigate the charges against Green Thursday afternoon. However, late Thursday the grand jury had not released any information on its findings in the case, if any.

Sublett, according to Sheriff J. B. Williams and District Attorney Everett Grisham who investigated the matter, was stabbed in the left shoulder, left arm, and in the heart. He died soon after the stabbing.

Several witnesses told officers that Sublett had started the fray.

Sublett, born in Putnam May 7, 1923, is survived by his wife, one daughter, Victor Gale, and a four-months old son, Michael John His parents, Mr. and Mrs. G. A. Sublett, also survive.

Sublett served in the Army in World War II. His funeral services were held Tuesday in Cisco.

Scout Camporal Plans Made Here

Plans for the North District Camporal for Boy Scouts of the Comanche Trail Council, to be held May 6-7 at Ringling Lake just north of Eastland, were discussed at the monthly district Scouters' Pow Wow held Tuesday evening in the basement of the First Methodist Church.

The matter of a district wide Court of Honor to be held in the near future also was among the matters discussed at the meeting.

Arthur Murrell, local training chairman, presided. About 35 district Scout officials were present, including from Eastland, Murrell, Steve Potts, Buck Pickens, Bill Brown, Bill Jessop, Johnny Collins, and James Reid.

A skit presented by five members of Cobra Patrol of Troop 106, directed by Thomas Dabney, Scoutmaster of Fort Worth Troop 106, featured the program. In the skit were Scouts Ronnie White, Pete Canizaro, Randie Wilbank, Pat Anderson and Edmond Armstrong.

Reports on recent Scout Week activities were given by Scout officials from Cisco, Ranger, Eastland, Breckenridge and Woodson. A two-year Scouting program, "Strengthening the Arm of Liberty," a national program, was prepared, and reports drawn up.

Eastland-East Texas Highway Proposed

Junior Class Play To Be Given Tonight

"A Little Honey," annual Eastland High School Junior Class play, will be presented in the high school auditorium at 7:45 p. m. Friday.

South Ward students will be presented in skits and acts between acts.

Members of the play cast are Jeanie Howard, Gary Wingate, Jane Hart, Nancy Freyschlag, Cuva Williams, Stanley Stephen, Lenard Quarles, Betty Bennett, Janelle Patterson, Virginia Wright, Jessie Whaley and Bill Sikes.

The cast has been working on the play for three weeks under the direction of Mrs. H. H. Durham.

Admission prices are 50 cents for adults, 40 cents for high school and junior high students, and 25 cents for younger students.

Profits from the play are used each year to finance the junior-senior banquet.

Judges Are Named For Dairy Day Show

A. M. Meekma, dairy specialist from Texas A. & M. College, and Paul Creech, agricultural instructor in the Eastland County Vocational School, will judge the entries in the Eastland County Dairy Day program in Eastland April 15, County Agent J. M. Cooper announced this week.

The contest will be open to all dairy animal owners in the county. Sponsor is the Eastland County Dairy Association, which will publish a catalogue to defray expenses of the show.

Meekma will handle the classification judging of the animals, while Creech will be in charge of the junior and adult judging contests.

Entries in the show will be divided into six classes, and all the judging will be against an ideal standard, instead of the animals competing against each other.

All Jersies, Holsteins, and Guernseys will be classified into the following sections: 1. Heifer calves under six months of age. 2. Heifer calves over six months and under one year. 3. Heifers one year old and under two, none in milk. 4. Heifers one year old and under two, in milk. 5. Cows two years of age and under three. 6. Cows three years and over.

Awards of purple, blue, red, white and yellow ribbons will be given, based on the judging. Cash prizes totaling $200 will be given to those owning the cows earning ribbons.

The junior contest will begin at 10 a. m., with 4-H and FFA members competing. They will be required to place their cattle in the correct classifications. In this event, the ability to classify the animals, rather than their actual quality, will be judged. Ten merchandise prizes will be awarded the winning contestants. Similar plans will be followed in the adult contest.

The event was held in Eastland for the first time a year ago, and was a marked success for a first show of this nature. Since then, organization of the Eastland County Dairy Association and the general increased interest in dairying has heightened the show's chances for success greatly, Cooper believes.

Blevins To Display '49 Chrysler Saturday

The "Silver Jubilee" Chrysler, 25th year model of the popular make of car, will be on display for the first time Saturday in the showroom of the Blevins Motor Cmpany in Eastland.

The 1949 Chrysler has incorporated new styling with more headroom and leg room, and has a longer wheelbase, its designers say, yet its overall length and width, as well as height, are less than in the older models.

The new line will feature automobiles of great beauty and ultra-modern performance, said A. J. Blevins, Jr., operator of the automotive concern.

Feaured also will be the softest ride in the 25-year history of Chrysler cars, Blevins said.

He invited everyone to come to see the new car Saturday.

New Majority Sure As 6 Ask Places On City Commission

Eastland was assured of a "new deal' on its City Commission for the next year when none of the three commissioners whose terms will expire in April filed for re-election.

The six men who did file for the three places on the commission barely made the grade. The deadline for filing had been set for 12 noon Saturday, and a 11 a. m. City Secretary Harl O'Brien had drawn a blank.

But then in rapid order he received the filings of these candidates:

Jack Muirhead, Eastland automobile dealer and at present a member of the Eastland Independent School Board.

Pearson Grimes, farm implement dealer.

Dave Fiensy, retired oil field operator and former commission member who was defeated for re-elction two years ago.

Clyde McBee, carpenter-contractor.

Jimmy Johnson, used car dealer.

Bruce Lasater, laundry operator.

Those who will retire, all of whom were elected for their first terms two years ago, are Dan Childress, who has been serving as chairman of the commission, or mayor; A. J. Blevins, Jr., and C. G. Uffelman.

Holdover members of the commission whose terms have another year to run are Herman Rushing and W. W. Linkenhoger.

The election will be held on Tuesday, April 5 in the City Hall.

The new commissioners will face some trying problems, including the financial puzzle that has lived with every city commission in the recent history of Eastland; the matter of whether there is enough water for the city's needs, and if not, what to do about it; the question of expanding the city limits, a matter that the present commission has wrestled with to no avail; the problem of what to do with the municipal airport, where Pioneer Airlines has said it will make regular stops if certain improvements are made; the enlargement of the city's sewage disposal plant, which apparently will be necessary if the city continues to grow, and a host of others.

Carbon Has Meeting To Organize Club

A meeting of Eastland county farmers and business men was to have been held Thursday night at the Carbon High School cafeteria when a banquet was served. Bob Stone of Fort Worth, field man for the Texas Electric Service Company, was the principal speaker.

Plans for the organization of a Community Club for Carbon, which would serve the same pudpose there that the chambers of commerce serve in larger towns, were discussed.

Robert D. Vaughan, Eastland merchant, was under treatment at his home this week for a serious neck condition resulting from a vertebral misplacement.

Better Fix Lights, Warns Police Chief

If you aare going to be driving your car in Eastland, especially at night, you had better see that all lights are properly displayed and burning or you may get a ticket to appear at the City Hall for an explanation and possibly have to pay a fine.

Police Chief, Ray Laney, said this week that far too many cars are being operated within the City without tail lights burning and with only one front light burning, and that begining soon, drivers of cars without all lights properly displayed on them, will be given tickets.

"Cars operated in this manner are too much of a menace to the public and cannot be tolerated," Chief Laney said.

School Officials Are Re-appointed

W. G. Womack was re-appointed as superintendant of the Eastland Independant School system at a meeting of the Board of Trustees held Tuesday. Curtis Hertig was re-apointed to serve as secretary tax Assessor-Collector for another term, which will end June 30, 1950.

The board also ordered the annual trustee election held Saturday, April 2, when two trustees are to be chosen to take the places of Frank Sparks, chairman of the board, and Earnest Halkias, whose terms expire at that time.

Mrs. S. H. Brock was appointed as census enumerator for the school district, and fees to be paid were raised from ten cents to thirteen cents per scolastic.

Curtis, as Tax Assessor-Collector, was instructed by the board to push the collection of delinquent school taxes, filing suit where necessary to make collections.

Persons desiring to file for places on the school trustee election ticket, should file their applications with the school board secretary not later than noon, March 28.

Present at Tuesday's meeting of the board of trustees were Frank Sparks, chairman; Mrs. James Horton, I. C. Inzer, Earnest Halkias, and Jack Muirhead.

Holdover members of the school board at the coming April 2 election are R. N. Wilson, I. C. Inzer, Mrs. James Horton, Robert Vaughan, and Jack Muirhead.

The cast will include Patsy Young, J. C. Burke, Colonel Don Brashier, Johnny Collins, Veda Merle Sneed, Patsy Rushing, Jimmie Black, Prudie Hardeman, Betty Gay Allen, Barbara Shero, Dan Amis, Joyce Tucker, Margil Wadley and Betty Bumpass.

Direct Connection With Athens Seen As Greatly Needed

An Eastland-Athens direct highway connection to make a far more direct connection between East Texas and West Texas was proposed in Athens this week.

The highway would connect the oil fields of East and West Texas without the necessity of the hard and slow drive through Dallas and Fort Worth, and in addition would put the growing areas of East Texas in closer contact with the area to the west.

A look at any good road map will show the advantages of the route, as Eastland Chamber of Commerce Manager H. J. Tanner found out this week when the plan was broached.

The highway also would give Eastland direct highway connections with Cleburne, Waxahachie, and Ennis, a long felt need.

The proposal, which has taken some root, apparently grew at least partly out of the perennial Fort Worth-Dallas feud.

A group of Fort Worth Kiwanis Club members went to Athens to visit Kiwanians there this week to boost a proposed direct Athens-Fort Worth highway.

Commenting on adverse publicity in a Dallas newspaper about the Athens-Fort Worth road, Charles G. Cotton of the Fort Worth Chamber of Commerce said that his organization was for all needed roads everywhere, and would not oppose an Athens-Eastland road that by-passed Fort Worth.

This magnanimous gesture was hopped on at the luncheon in Athens, and Athens speakers said such a road was just what Athens needed.

In an editorial Thursday the Dallas News disclaimed any criticism of any road from Athens to Fort Worth.

And a Fort Worth Star-Telegram editorial Thursday plugged both the Athens-Fort Worth and the Athens-Eastland highways.

So there may be something to be made of the idea. At any rate, Tanner Thursday said he would write Cotten, and also to the Athens Chamber of Commerce, and envisioned a possible road association of towns along the proposed route, to promote it until East and West Texas really are joined by a direct highway.

The Rising Star Chamber of Commerce will serve luncheon at 12:30 p.m. for the members of the boards of directors and other invited guests.

The open house will be at 2 p. m.

Dr. U. C. Boon of Chickasha, Okla., who practiced medicine in Eastland in 1905-06, will visit in the homes of his brother, W. H. Boon, 1301 South Bassett Street, and his niece, Mrs. Artie Liles, 1303 South Bassett Street, this week end. Friends of Dr. Boon were invited to call on him Sunday afternoon in the home of Mr. and Mrs. Boon.

Dr. Boon will arrive in Eastland Saturday night and will leave Monday to attend a medical convention in Dallas.

His sisters, Mrs. Mark Stovall of DeLeon and Mrs. Guilama Hatten of Cisco, and a number of other relatives will be in Eastland for a dinner with him Sunday at noon.

Idea And Job Application Combine To Create New Industry For Eastland

Dan Kralis, Eastland independent geologist who is brim-full of ideas, has come up with a new one that has resulted in a new industry for Eastland.

The new business is the Suni-Land Leather Company, designers and manufacturers of beautifully finished handbags and billfolds for women.

Kralis said he had been toying with the idea for some while, and it jelled when a skilled leather worker, James DeVoglaer, applied to him for work as a draftsman. Instead, Kralis formed the leather working company and installed DeVoglaer in charge of production.

Mrs. Marene Johnson of Eastland is Texas sales represtative for the company.

All purses made by the firm are genuine alligator finished leather, bound with leather cord. All are finished inside in leather, an unusual touch.

The products are priced high, because of the cost of manufacture, and are designed strictly for the luxury trade, Kralis said.

They will be sold in exclusive shops over the country.

A showing of the company's products will be held in an Eastland shop some time in May, Kralis said.

Dairy Association Meeting Success In Effort To Improve County's Herds

The Eastland County Dairy Association is meeting with much success in its artificial breedng program, which was begun last Feb. 8, officials said this week.

L. R. Higginbottom of Carbon, secretary of the association, said that 85 cows had been bred in the program up to Thursday morning. Seventy-five per cent of them had been previously signed up for the program, he said.

E. R. Burleson, extension dairyman for the Texas A. & M. College, spent Tuesday in Eastland County with Harry Crow and Bernard Campbell of Carbon, technicians for the association, and complimented them highly on the service they are rendering dairy animal owners.

Under the breeding program, the cows are bred artificially to some of the finest bulls in the nation, at the North Texas Breeding Farm near Dallas.

An average of three cows per day has been bred artificially in the county since the program was begun in February. Non-association members may have their cows bred by the association technicians, on the payment of the $6 breeding fee, Higginbottom pointed out.

Crow and Campbell may be reached at Phone 133-M, Carbon, and will answer a call for breeding the same day, if the call is made before noon.

A cow does not have to be registered to be eligible for service through the association, Higginbottom said.

SOME PERTINENT FACTS FOR YOU TO CONSIDER

DUE TO the quota system your alloted acreage on certain crops has been cut—

BUT YOU can by proper fertilizing assure even higher production than you have realized in the past by making each acre yield more.

DUE TO extreme cold weather small grains are seriously damaged—

BUT YOU can by proper fertilizing supply the plant with minerals which are salty and lowers the plants freezing point several degrees, thereby assisting the plant to survive cold weather as well as to supply the plant with sufficient nourishment to keep it alive and growing in the event it is damaged by extreme weather.

DUE TO the extreme early hot winds we often fail to make a good corn crop by about ten to fifteen days—

BUT YOU can by proper fertilizing plant earlier with less danger of cold weather, also making possible more rapid growth thereby assuring some fifteen or twenty days earlier maturity and greater yield thereby beating the hot winds and dry weather to the draw.

DUE TO the scarcity and price of feed, as well as the fact that it has proven otherwise successful winter grazing has proved to be one of the most important factors to the livestock industry—

BUT YOU can by proper fertilizing more than double your grazing as well as furnish the animals with essential minerals necessary for maximum development.

DUE TO the fact that your number of cuttings of alfalfa, etc., depends upon how fast the plant grows, the cuttings often range from two to seven per season—

BUT YOU can by proper fertilizing put sufficient growth on your hay crop to insure maximum, yield at the same overhead.

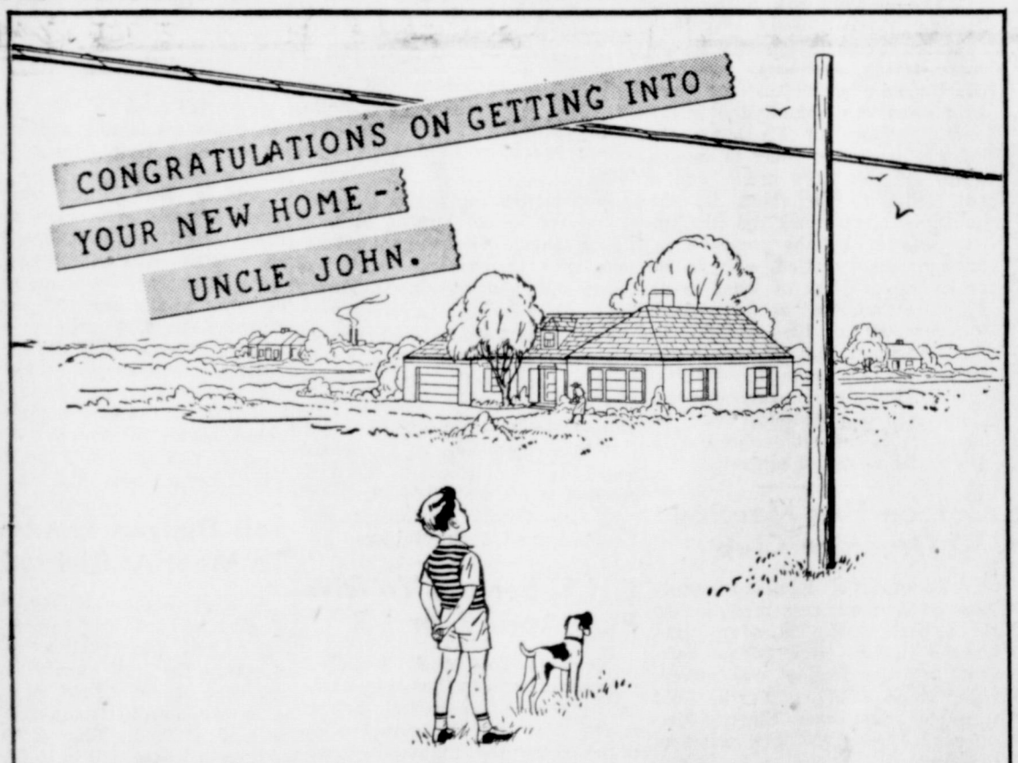

DUE TO the fact that fertilizer was first used in sandy loam areas forty years ago in such states as Alabama, Mississippi, Georgia, etc., many people believe that the black lands do not respond to fertilizer—

BUT YOU can by proper fertilizing realize as much increase in yield on black lands as has been realized on the loamy soils. Your County Agent, A.A.A. Administrative Officer or Soil Conservation Supervisor will tell you that more fertilizer is used in the Mississippi Delta—the richest soil in America— and rich Western grain belt than in any section of the United States. The farmers who do not fertilize black land should properly post themselves on the results realized by proper fertilizing in the Mississippi Delta, the Kansas grain area, the Nebraska and Iowa corn belt and the California and South Texas vegetable and fruit sections.

DUE TO the fact that some areas during the past several years have practically specialized in certain crops such as peanuts in Central Texas, maize and cotton in West Texas, flax, peanuts and maize in South Texas, etc. these good farmers are wondering what types they should use and how to properly apply their fertilizers on other crops as they find it necessary to plant their excess acreage during this period of acreage quotas and gear shifting, so to speak—

BUT YOU can by proper fertilizing realize just as much increase in yield on one crop as another, for after all, all crops are plants of some kind—their source of food (the soil) is the same. They ALL MUST have nitrogen, phosphate and potash— and these are the basic elements in fertilizer. To be sure all crops might not respond equally to the same analysis fertilizer but various services at your command can advise you which analysis are best adapted to any particular plant according to the deficiencies of your local soils.

Housing for your telephone voice is scarce, too

Like new houses, telephone cable is not yet plentiful. It takes telephone cable to "house" your telephone voice as it travels.

Perhaps telephone poles near your house carry a telephone cable (the thick, lead-covered carrier for a bundle of wires strung from pole to pole). Why can't we connect a telephone for you to this cable?

Ordinarily we could. But today most of these cables have no idle wires in them.

So new telephones take *new* cable.

That new cable is being made as you read these words. It is spinning out of telephone factories twice as fast as prewar. It is hurried to wherever we need it. There we hustle it into place—at the rate of a *million miles* of wire in cable this year alone.

Compared with normal production, telephone cable isn't scarce—it's abundant. But when 50,000 more people order telephones every month in the Southwest—as they do—even yesterday's abundance is today's shortage.

We're closing the gap, however, and we owe a lot to your patience and trust that we'll get the job done. For we're just as anxious to get you a telephone as you are to get one.

Eastland Mavericks Round-Up

PUBLISHED BY THE EASTLAND COUNTY RECORD ON BEHALF OF THE STUDENTS OF EASTLAND HIGH SCHOOL, WITH NEWS SUPPLIED BY A STUDENT STAFF.

...OR SPOTLIGHT

...s week our spotlight dis-...ed a new face in the halls of ...S. The face belongs to a new ... girl who hails from Gains-... Her name is Barbara Benn-...and she has beautiful red ...and green eyes. She is five ...seven and weighs one hun-...and sixteen pounds.

...begin with, we asked Barbara ...favorites in the movie world. ...had a hard time deciding but ...y picked Dane Clark and ... Grable. She has no favorite ...but she likes them very well.

Next we entered into the field of music and found that "Far A-way Places," that recent favorite played by Harry James orchestra, is all right by her. Barbara plays a clarinet in our Maverick Band and does it very well, too.

Although Barbara is new in Eastland and likes all her teach-ers, she did not hesitate to say "Teach Johnson" was a favorite and she likes English best of all her subjects.

To name some others of her favorites; the color is blue, the food is t-bone steak and french fries, the sport is skating, and the boy-type is; "just tall and good looking."

Here's wishing her luck and we welcome her to our school.

SOPHOMORE SPOTLIGHT

The gleam of our spotlight stopped quickly when it hit on a black headed, brown eyed boy named Jimmy Spaulding. Jimmy is five feet seven and a half and weighs one hundred and thrity six. We want to tell you some of the things this popular boy likes.

First we shall take school for a subject and say that Jimmy's favorite teacher is Mr. Alexander, and he would rather study World History. (if anything!) His pet peeve is biology.

Next on his list of favorites has to do with movies and music. We find that not only do girls like Montgomery Cliff as an actor, but boys do too, and Jimmy is one of them. For an actress, he will take pretty Elizabeth Taylor, and for a show, "The Wake of the Red Witch." In music he likes "My Darling," by Buddy Clark.

Everyone knows two things about Jimmy, and those are that Gene Griffin is his favorite girl and football is his favorite sport. Other things we know are that blue is his color and his food is fried chicken. His favorite college is T. C. U. and, oh-boy! does he like cherry sodas.

Good luck Jimmy; you deserve it.

Civic League Hears Talk On Proper Diet

Although Americans pride themselves on eating better than any nation on earth, only about half of the families in the United States have a properly balanced diet, members of the Eastland Civic League and Garden Club were told Wednesday by Carl E. Palmen of Cleveland, O., president of Palmen and Associates, merchandising counsellors.

Palmen, an expert on diet and nutrition, said that few American women are aware of the values in foods needed to keep their families healthy.

To prove his point, he cited the fact that one out of three men called up for Army duty during the recent war was rejected for a physical deficiency, which in many cases could have been eliminated by proper home food.

Now the Army has a diet program, which Palmen helped draw up during the war, which insures a well-rounded diet for the men in service. They get more exercise, perhaps a little more sleep, but less food than at home, he said, but gain weight rapidly because the food is properly balanced.

Palmen showed a chart explaining the seven basic food needs, and showed how easy it is to plan family meals that supply all seven of the needs every day.

After the talk, which was heard by a comparatively small number of women because it had not been arranged until late. Palmen was invited to appear before a number of organizations in the county, but said Thursday that he would have to defer further talks until later, since he will leave Eastland Saturday.

Palmen is in Eastland under the sponsorship of Kilgore's Eastland Creamery, and has been meeting with food retailers this week on behalf of a merchandising program for Kilgore's.

Also on the Civic League program were two numbers by South Ward pupils, presented by Mrs. H. M. Hart.

During the business session, presided over by Mrs. James McClain in the absence of Mrs. Frank Hightower, president, a report of the clean-up committee was given by Mrs. H .L. King, chairman.

Mrs. Edna Cartwright has gone to Mobile, Ala., where she will spend two weeks or more visiting her sister, Mrs. Maude Hoden. It is Mrs. Cartwright's first visit to Mobile.

Civic League Hears Talk On Proper Diet

Although Americans pride themselves on eating better than any nation on earth, only about half of the families in the United States have a properly balanced diet, members of the Eastland Civic League and Garden Club were told Wednesday by Carl E. Palmen of Cleveland, O., president of Palmen and Associates, merchandising counsellors.

Palmen, an expert on diet and nutrition, said that few American women are aware of the values in foods needed to keep their families healthy.

To prove his point, he cited the fact that one out of three men called up for Army duty during the recent war was rejected for a physical deficiency, which in many cases could have been eliminated by proper home food.

Now the Army has a diet program, which Palmen helped draw up during the war, which insures a well-rounded diet for the men in service. They get more exercise, perhaps a little more sleep, but less food than at home, he said, but gain weight rapidly because the food is properly balanced.

Palmen showed a chart explaining the seven basic food needs, and showed how easy it is to plan family meals that supply all seven of the needs every day.

After the talk, which was heard by a comparatively small number of women because it had not been arranged until late, Palmen was invited to appear before a number of organizations in the county, but said Thursday that he would have to defer further talks until later, since he will leave Eastland Saturday.

Palmen is in Eastland under the sponsorship of Kilgore's Eastland Creamery, and has been meeting with food retailers this week on behalf of a merchandising program for Kilgore's.

Also on the Civic League program were two numbers by South Ward pupils, presented by Mrs. H. M. Hart.

During the business session, presided over by Mrs. James McClain in the absence of Mrs. Frank Hightower, president, a report of the clean-up committee was given by Mrs. H L. King, chairman.

Mrs. Edna Cartwright has gone to Mobile, Ala., where she will spend two weeks or more visiting her sister, Mrs. Maude Hoden. It is Mrs. Cartwright's first visit to Mobile.

Sailor Webb Rites Are Held Tuesday

Local business houses and the offices at the Eastland County courthouse closed for an hour-- 3:45 to 4:45-- Tuesday afternoon during the reburial services for G. G. (Sailor) Webb, whose remains arrived in Eastland Monday.
