Voters Ballot In Second Primary June 3

Voters of Collingsworth County will go to the polls Saturday, June 3 to cast their ballots in two local races and four state races.

The four local candidates, have covered again all territory they made before the first primary, with perhaps greater intensity shown in the campaigning. Seeking the office of County tax assessor-collector are Frances Williams and Rita Owens, their names appearing in that order on the ballot. Mrs. Owens is the incumbent.

Deskins Wells, left, Interstate Compact Commissioner for the Red River, was sworn in Friday, May 26. Judge Zook Thomas, a former em-

ployee of The Wellington Leader, is shown administering the Constitutional Oath of Office.

1972 Fair Committees Begin Planning Activity

Committee chairmen of the Collingsworth County Fair were announced this week by Dwane Scott, general chairman, the earliest they have been secured in several years. The date is Friday and Saturday, September 8 and 9.

Each chairman will select as many others to work on the committee as are needed.

This clears the way for organization within the various departments and ample time to make plans. Overall plans and the assignment of booth space were taken up in the first planning meeting held recently, according to Mrs. Margaret Vines, Chamber of Commerce secretary.

This is Mr. Scott's first year

to head the fair, after a successful tenure in the agricultural division. His assistants are Don Welch, Dan Hiett and Billy Mosley.

Jack Neeley is the new parade chairman.

Mrs. Haskell Manuel is the overall women's chairmen, and working with her in the various divisions will be: baked goods: Mrs. Joe Terry and Mrs. R.T. Savage; clothing: Mrs. Malcolm Horton and Mrs. Henry Langford; canned foods: Mrs. Harold Caldwell and Mrs. Jack Colson; textile: Mrs. Lowell Wells and Mrs. Ozro Bartlett.

Mrs. Billy Colson is chairman of the girls open division, and her assistants are Mrs. Sue Shields, Mrs. P.M. Scott and Miss Judy Barber, the homemaking teachers from Quail, Wellington and Samnorwood respectively.

Senior Citizens chairman is Mrs. David Peters.

Mrs. B.K. Hall heads the junior hobby divisions with plans for enlargement at this year's fair.

Center to Benefit From Flea Market

A flea market, offering both old items and new crafts, will be held at the Satellite Training and Work Center Friday afternoon and all day Saturday, June 2 and 3.

The Friday hours are 1:00 to 5:00 p.m.; those on Saturday are 9:00 a.m. to 5:00 p.m.

This is the first major fund raising event to benefit the center.

Anyone who has anything which they want to donate can bring it to the center, located at the corner of Dallas and 15th

streets, said Mrs. Jimmy Langford, a member of the center's executive committee.

Items which students have made, such as hot pot holders and many other types of hand-crafts, will also be on sale.

The wider variety of articles donated, the more interesting will be the flea market, Mrs. Langford reminded.

This will be an open-air sale, on the south side of the building, if weather permits. If it rains, the flea market will be moved inside.

Members of the Adult Satellite class will be present to assist with the flea market Friday afternoon, and those visiting the sale area also invited to see the training and work center, Mrs. Langford said.

All proceeds go to the center. Mrs. Langford explained that funds for the salaries of the teacher and teachers aide are paid by

Mrs. Reynolds, Long-time Area Resident, Dies

Mrs. John E. Reynolds, who came with her family to the Dodson area a number of years before the town was founded, died at 4:30 a.m. Thursday, May 25, after an extended period of ill health.

In recent years, she had lived in Wellington.

The former Lessie B. Hamman, she was born at Oscar, Oklahoma, April 1, 1886, the daughter of the late P.W. and Edith Wyrick Hamman.

She grew up in Oklahoma, then in 1905 Mr. Hamman, like others who saw opportunity in the lower Panhandle, brought his family to Collingsworth County. She was the last surviving member.

She was married to Mr. Reynolds on September 24, 1908, and from that time on, their home was in the Dodson area. He died June 5, 1966.

Wheat Harvest Opens with Yields Better Than Expected

Collingsworth's wheat harvest opened Tuesday and Wednesday, May 23 and 24, one to two weeks earlier than in most years, but with better yields than growers had thought possible.

Jim Wood delivered the first load in Wellington Tuesday, May 23, from his farm at Fresno, according to Jones Singley of Singley Mill and Elevator.

Dodson received its first load Wednesday, May 24, from the Thuman Crownover farm, said Herb Redeker of Dodson Farmers Co-op.

Bob Copeland, who farms at Loco, had wheat harvested Wednesday and it was brought to Warrick Feed Store Thursday, May 25. This was delivered by Herman Belew.

All wheat delivered so far has been of excellent quality, grading from 60 to 62 pounds. Moisture content has been a little high since showers during the week end, but the early loads delivered had only 11.5 to 12 per cent moisture.

Mr. Woods wheat yielded around 25 bushels per acre.

"I thought the wheat would

be shriveled, out to dry weather, but it's not. It's well filled grain," as the Adkins place at Loco.

Mr. Warrick estimated that at least 75 to 80 per cent of the wheat is in either Early Triumph or Improved Early Triumph Variety.

Mr. Redeker said early wheat was also delivered from the Joe Wilson and M.L. Johnson farms.

He estimated that wheat in the Dodson area would harvest about twice as much as was expected earlier. There has not been enough grain harvested to determine

yields per acre.

The wheat crop north of Salt Fork will be light. Dry weather caused many to graze out their acreage and severe hail the last day of April cut drastically the acreage that remained.

None of the buyers will estimate how much wheat Collingsworth is likely to harvest, or how many acres will be cut.

Mrs. Nita White of ASCS office said 9,200 acres is drawing payment under the wheat program.

Four-H Horse Club Begins Weekly Rides

The Collingsworth 4-H Horse Club, will be in operation again this summer, meeting each Monday night at 7:30 p.m.

Later in the summer, the boys and girls will compete in District 1 4-H Horse Show and winners of that will compete with other winners from throughout Texas at the State 4-H Horse Show.

Any boy or girl in the county is eligible to join the 4-H organization and become a member of the horse club. Members must, however, have a horse to ride.

SCS LEADERSHIP CHANGES

Gary Reed, left, completed his work with Salt Fork Soil Conservation Service in Wellington Friday, May 26, before moving to Keytsville, Mo.

His successor, Tommy Powell, right, succeeded him as head of the unit Monday, May 29.

Youth Baseball Program Begins for Two Groups

Youth baseball literally swings into action this week with play on two age levels to continue through the summer.

Plans were announced by Charles Darter, who heads the program.

The Peewees, boys 6 through 9 years, will play each Tuesday and Thursday at 5:00 p.m. at the Peewee diamond in Ellison park.

Older boys or Little Leaguers, those 10 to 12 years, held their first practice Monday, May 29, and will play each Monday and Wednesday afternoons at Marian Airpark Baseball diamond.

The number of boys who come out will determine the number of teams to play, Mr. Darter explained.

So far, approximately 27 Peewees are ready to go. Between 32 and 35 are expected for Little League.

Four coaches are working with Mr. Darter, Tommy Thomas, who was in the program last year, Huston Anderson, Mickey Breedlove, and Billy Wilkerson.

Any boy who has not signed up and who does not have a uni-

form should contact Mr. Darter or one of the coaches at once.

Public support of the program is urged. Not only does the presence of an audience encourage

the boys, but it provides a good evening of fun for the spectators and gives them a preview of the town's athletes a few years hence, it was pointed out.

Coffee Saturday to Honor New Nurses

Four young registered nurses who came from the Philippine Islands to join the staff of Collingsworth General Hospital will be introduced to the community at a coffee Saturday, June 3, from 9:30 to 11:00 a.m., in the Heritage Room.

The guests of honor are Miss Myrna De Venecia, Miss Rebecca Reyes, Miss Lillian Quiambao, and Miss Louella Cabal.

The coffee to welcome them is given by five women's organizations representing all communities of the county, and include the Business and Professional Women's Club, Wellington Young Homemakers, Quail Homemakers, Samnorwood Young

Matrons, and Dodson American Legion Auxiliary.

Mrs. Dan Langford of the Hospital staff is acting as coordinator.

"Everyone is invited to come. We at the hospital want you to meet these four young nurses, and they, in turn, are eager to know the people of our area," Mrs. Langford said.

Three of the group, Miss De Venecia, Miss Quiambao and Miss Reyes, arrived Sunday and are already at work at the hospital. The fourth, Miss Cabal is due to arrive later this week.

All are graduate, registered nurses.

Quail Honors Mrs. Jim Lowe on Sunday

Public recognition will be accorded Mrs. Jim Lowe by her home community Sunday, June 4, when a tea is held at the home economics cottage.

This will be from 3:00 to 4:30 p.m., and everyone in both Quail and the surrounding communities are invited.

The event is being given by

a group of young women who were her students in the Quail first grade, with Mrs. Van Schooler co-ordinating the plans.

Mrs. Lowe retired this spring after 41 years in the teaching profession, all of it at Quail or two communities which were consolidated into it, Lillie and Salt Fork.

He also was the winner of the Oklahoma State FFA Cooperative Speech contest at the state convention and received a trip to the American Institute of Cooperatives Council at Ames, Iowa.

To the People of Collingsworth County

I would appreciate your vote in the June 3rd. primary. I have enjoyed serving you as your County Tax Assessor-Collector and if I have missed seeing any of you, I would like to take this time to solicit your vote and to have you place your confidence in me.

I would like to take just a few minutes of your time to tell you the functions and duties of your County Tax Office.

1. Assess and collect state ad valorem taxes.
2. Assess and collect county ad valorem taxes.
3. Assess and collect road district taxes.
4. Assess and collect road and bridge taxes.
5. Collect the Dodson City taxes. (Separate roll)
6. Collect the Quail School taxes. (Separate roll)
7. Collect the Samnorwood School taxes. (Separate roll)
8. Issue motor vehicle title applications and collect sales tax.
9. Register all of the motor vehicles in the county, the total number being, 4516 for 1971.
10. Issue and do tax search on all property in the county.
11. Prepare delinquent tax statements each month.
12. Register all eligible residents of the county for all elections.
13. Make annual reports to all taxing bodies.
14. Mail current tax statements and voter registration applications.
15. Post every parcel or real property to our abstract books.
16. A NEW DUTY WILL BE TO ASSESS AND COLLECT HOSPITAL DISTRICT TAXES FOR THE UPCOMING YEARS'

At the end of each week and month we make separate reports on all of the above taxing jurisdictions and turn the money in to the proper authorities. This is a very important part of the job, as this is a major part of the County's financing and operating budget.

The following is a breakdown of how much money was collected in one year's time:

State, County, Road District and Road & Bridge taxes	\$183,674.04
Dodson City	1,385.78
Dodson School (thru 8-71)	3,331.45
Quail School	30,281.61
Samnorwood School	84,376.48
Tax Certificates	236.00
Motor Vehicle Title Applications (1079 issued)	809.25
Motor Vehicle Sales Tax	38,990.73
Motor Vehicle Registration	91,990.13
GRAND TOTAL:	\$435,075.47

I would like to invite all of you to come into my office and discuss this with me. I would like to have the opportunity to show my records to you.

The following is an excerpt from the County audit in 1969 made by the firm of Cornell & Company, in Amarillo, Texas:

"The records as maintained by the County Tax Assessor-Collector were found to be in good condition. Receipts are written for all monies received, and the amounts collected are deposited intact to the Tax Collector's bank account."

The following is an excerpt from the County audit in 1970, made by F.E. Coan, Amarillo, Texas:

"The records of the Tax Collector were found in very good condition."

The following is an excerpt from the Comptroller of Public Accounts, of Austin, Texas for the year 1971.

"You are advised that the State's copy of the 1971 Collingsworth County Tax Roll has been received by this Department and that it has been thoroughly checked by our office auditors and no errors were found. Therefore, we accept and approve the tax roll, as submitted by you, listing a State Tax total of \$29,750.72. It is always a pleasure to receive a tax roll as well prepared and as accurate as yours. This statement is also true of all reports you prepare for this Department and you are commended for your over-all excellence. Completion of your tax roll at this early date allows the tax payers of your county to take advantage of the 3% discount allowed for early payment of taxes in October."

In 1967, the Commissioner's Court contracted with a firm to have our State and County tax roll run on the computer. This was done as an economical move. It is much more economical to have this done by this service than to prepare the roll in my office on a typewriter, as I have only one deputy. Our tax roll has grown tremendously in the last few years. Before the tax roll is sent to the computer we have to prepare separate all of the rendition sheets and place the value of the real and personal property on each item, correctly. We then proof read this roll and mail it to the firm to have it run. When it is returned to us we then complete and recheck the rolls and file a copy with the Commissioner's Court and State of Texas, subject to the approval of the Commissioner's Court and the State Comptroller Department.

I feel that having this service done has given us more time to devote to the other numerous duties, but especially to the collection of taxes. We have collected from 95 to 98 per cent of our taxes each year.

I feel the people of Collingsworth County have made all of this possible by the influence and confidence you have placed in me during the time I have served as your County Tax Assessor-Collector. All of this could not have come about had it not have been for the 6 1/2 years of experience I had in the county tax office prior to my first term of office.

This office is a very important office in the functioning of our county government and the work load has grown tremendously the last few years.

As you read this letter please stop and think, "Would you as a taxpayer trust your business that grossed around one half million dollars to inexperienced personnel?"

Would you as a businessman or woman, rancher, farmer, or housewife put your prosperous business in the hands of inexperience?

Thank you so much for your time.

Sincerely,

Mrs. Rita Owens

Cross Over Vote Illegal in Second Primary

AUSTIN - Voters in the June 3 runoff elections were warned Tuesday by Secretary of State Bob Bullock to "stay in the party primary where they voted on May 6."

"Judging from reports several county clerks are receiving, it looks like many Republicans are being tempted to switch over and vote in the Democratic runoff on June 3," Bullock said. "Every voter needs to know that if they voted in the Republican primary on May 6, they cannot vote in the Democratic runoff. And if they voted in the Democratic the first time, they cannot switch and vote Republican on June 3."

"We want the public to know that this action violates Article 240 of the Texas Election Code and is punishable by a fine of from \$100 to \$500."

"We know that this type of voting has taken place in the past. A survey by Senator Oscar Mauzy in 1968 showed that there were some 1,300 crossover voters in his district alone."

"Certainly, any crossover voting would distort the true strength of a candidate in the other party. I think the low-key campaign by the Republicans lends itself to making a Republican want to switch over, if only for excitement's sake."

"We hope that public awareness will discourage this type of voting. If we find that it still takes place, we will have no alternative but to pass this information along to the proper prosecuting authorities," Bullock said.

"We want election officials to know that there is a law behind them and they should not permit this practice. This will be the only way we can preserve the integrity of the Texas election process."

Bullock said he wanted the voter to know that it is also against the law for a voter to cast a ballot in two different precincts, even within the same party.

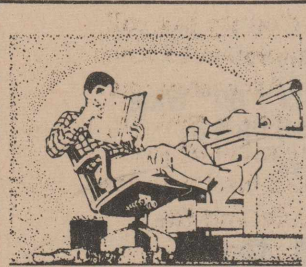

"We know that there were instances of this reported during the May 6 primary. Like crossover voting, this dual voting practice is against the law and simply cannot be tolerated."

"I want the local election officials to bear down and make sure this doesn't happen in the runoff," Bullock said.

Salt Fork Soil Conservation District News

Why not double-crop your rangeland? Wildlife is usually present on lands primarily for livestock. Habitat for deer, quail and other wildlife has deteriorated on most of our grazing lands due to invasion of brush and overgrazing.

The wildlife crop can usually be increased at no extra expense if proper consideration is given during the planning of brush control and grassland management. This second crop is often worth a considerable amount of money. It is always valuable even when no direct income is realized.

Controlling brush can be beneficial or harmful to wildlife, depending on how it is done. Brush control has a tremendous effect on the ecology of the controlled area. It should be carefully planned to minimize damage to wildlife habitat and the total environment.

Mechanical means of brush control offer the greatest flexibility. Treedozing allows selectively in individual plants while creating ground disturbance. This

soil disturbance often encourages the growth of annual forbs which provide some of the best food for quail and other wildlife.

Leaving desirable kinds of woody plants will help wildlife, provide shade and shelter for livestock, improve natural beauty and increase the value of the land. Some good species to leave are hackberry, wild plum, elm, skunkbush, lotebush, cottonwood and others that provide shade or food and cover.

Controlling brush in patterns is a good practice. Leaving all brush on steeper land, along draws and creeks and otherwise tailoring to fit the land is most desirable. Controlling undesirable species in strips or blocks, and leaving controlled brush in piles for wildlife cover are also good techniques. Leaving motts of scattered woody plants over the pasture is also good.

There are many other practices that effect wildlife, but brush control is one of the most important. The landuser that desires brush control that desires to keep or increase

Collingsworth County FARM NEWS

By Don Reeves
County Agricultural Agent

Consumers concerned about pesticide levels in food products can be assured that major food items are checked regularly for chemical residues. That's one of the jobs of the Food and Drug Administration.

The surveillance is a continuing effort to provide consumers with the most wholesome food products available anywhere in the world.

To date, pesticide residues continue at a level below the legal tolerances established for food. During the period, 1964-70, residues of most pesticides present in food samples studied by the FDA were substantially below limits established by committees of the World Health Organization and the United Nations.

Most recent findings reported by the FDA cover the period, June, 1968 to April, 1970. The kinds and frequencies of chlorinated organic pesticides did not differ much from values obtained during the preceding two-year period. Levels of DDT-type materials have declined; however, organic phosphate pesticide residues have occurred more frequently in recent years.

Regarding the surveillance

technique used by the FDA, a market basket of 117 food items is obtained from a random selection of retail food stores. Each basket represents a two-week diet for the 16- to 19-year-old male who makes up the age group reportedly consuming the greatest quantities and kinds of foods. Food baskets are purchased bi-monthly in different cities within five geographic regions of the United States. Thus a total of 30 baskets are checked annually.

After the purchase, foods are prepared for consumption and divided into 12 classes of similar foods, such as fruits, leafy vegetables, beverages and meats. They are then analyzed for pesticide residues.

Levels of residues on raw agricultural products are generally much lower than safe tolerances established under the Food, Drug and Cosmetic Act. Most residues that are detected are at very low levels and only about three percent exceed FDA tolerances.

The dietary intake of pesticides as measured by FDA investigations is a final check which shows that the tolerance and control system for pesticides in the U.S. is effective.

Social Security Uses Computers For Payments

The Social Security Administration has recently begun using computers to stop and start monthly social security payments. Computers are not new to social security, but this usage of them is new according to Travis C. Briggs, social security manager in Amarillo.

Before, if a person stopped working after establishing his entitlement to social security checks, it was necessary to send a written notice to the payment center where the records are kept. Now the local social security office can enter the information into the computer system. This process will get the checks out faster.

A written notice was also necessary if a person wanted to stop his checks. Now this information can be entered into the computer

LETTERS from the People

Dear Mr. Wells:

On Saturday afternoon, the twentieth of May, our family (Enroute to our eldest son Jim's graduation from McMurry college) had the misfortune to be involved in an accident, with Mrs. Dolie Mae Wilson. Fortunately no one was injured seriously.

Mrs. Wilson and her daughter-in-law, Mrs. Bill Wilson (In front of whose home, the accident occurred) were more than just considerate, in the time we spent together, before the arrival of the Highway Patrol.

Patrolman Jackie Gunnels and his partner, whose name we failed to get, were courteous, efficient, and helpful.

The Peters brothers, David and Marshall, were very friendly and helpful, taking us into the Marshall Peters home, to wait

for the arrival of son Jim, from Abilene.

Soon after our arrival, at the South Side Salvage, Mrs. Wilson's two sons, Bill and Gano, arrived with Genuine friendliness, insisted that we continue our trip, in one of the vehicles.

We can remember no acquaintances from Wellington, so our impression of your community is based upon the people with whom we became involved, because of the accident.

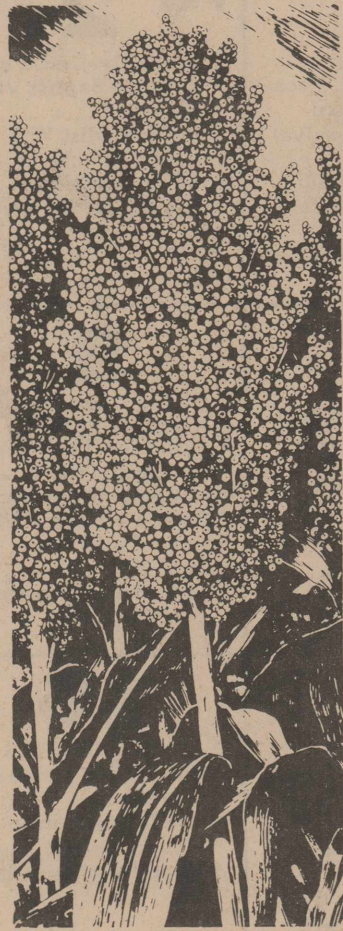

For us, Wellington is a community of very friendly and very fine people.

The Gobins,
James, Adeline,
Steve and Kathy Gobin.

THE WELLINGTON (TEXAS) LEADER
Thursday, June 1, 1972

By Bill Boykin

AUSTIN, Tex. -- The long-awaited special finance session of the Texas Legislature has been called for 10 a.m. June 14. Gov. Preston Smith issued the official proclamation last week, stating repeatedly he plans to present a 1973 budget which will require no new taxes.

The governor, who has implied he would veto a tax bill, said he does not think lawmakers can pass one without his placing the subject of revenue on the special agenda.

Under the proclamation, Smith will allow legislators to consider "such other subjects as the governor may submit from time to time."

However, he made clear he does not plan to open the call to any other business until the 1973 budget -- financing state operations from Sept. 1, 1972 - August 31, 1973 -- is finally passed.

Smith vetoed all 1973 fiscal year appropriations adopted by the legislature during the 1971 session. In anticipation of more federal aid (that never was received), the Legislature did not enact a 1973 welfare budget -- which made a special session inevitable even without the governor's veto.

PARTY SWITCHING ILLEGAL -- Secretary of State Bob Bullock issued a stern warning that June 3 runoff election voters must "stay in the party primary where they voted on May 6."

Bullock said Republicans who voted in the GOP first primary or Democrats who voted in their own May 6 primary cannot switch and participate in the other party's runoff primary.

If violations are discovered, said Bullock, they will be turned over to prosecuting authorities. It is also a violation, of course, for voters to cast ballots in two different precincts, within the same party, reminded the chief state election officer.

Meditations

As long as faith with Freedom reigns,

And gracious Charity remains,

For intellect or will,
And men are free to think and act,
Life is worth living still.

God give us men! A time like this demands
Strong minds, great hearts, true faith,
and ready hands;
Men whom the lust of office does not kill,
Men whom the spoils of office cannot buy;
Men who possess opinions and a will,
Men who have honor; men who will not lie;
Men who can stand before a demagogue
And dam his treacherous flatteries without winking;
Tall men, sun-crowned, who live above the fog
In public duty and in private thinking.

Inherent as the lift of the blowing grass,
Whatever your despair or your frustration
This, too, will pass.
— Grace Noll Crowell.

I know there is a supreme being who rules the affairs of men and whose goodness and mercy have always followed the American people, and I know He will not turn from us now if we humbly and reverently seek His powerful aid.
— Grover Cleveland.

Patience and fortitude conquer all things.
— Ralph Waldo Emerson.

If God be with us, who can be against us?
— Romans 8:31

So live, that when thy summons comes to join
The innumerable caravan, which moves
To that mysterious realm, where each shall take
His chamber in the silent halls of death,
Thou go not, like the quarry-slave at night,
Scourged to his dungeon, but, sustained,
and soothed
By an unfaltering trust, approach thy grave
Like one who wraps the drapery of his couch
About him, and lies down to pleasant dreams.
— William Cullen Bryant.

Quiet minds cannot be perplexed or frightened,
but go on in fortune or misfortune
at their own private pace, like a clock during a thunderstorm.

CROSSROADS REPORT

Dear Editor:

Report is that in some areas the taxpayer class is being phased out and some day may be as extinct as the dodo and the \$2 shirt.

Like New York City reportedly had 9.7 wage earner-taxpayers to 1 citizen on welfare in 1960 and in 1972 only 2.6 suckers per sponger.

But when the taxpayer species is vastly outnumbered by welfare-farers and bureaucrats and we are down to the last few specimens of him, maybe his survival will get as much public concern and attention as the whooping crane.

Men Who Serve Salt Fork SCD Step Into New Jobs

The work of Salt Fork Soil and Water Conservation District and the Soil Conservation Service continues to be one of the major assets of the agricultural economy of this county.

Gary Reed is to be congratulated on his job accomplishments here, as well as on his new job in an area which offers new opportunity.

His work here has been not only with the land, but in helping set up the North Rolling Plains RC&D, which stresses area rather than single-district co-operation, and whose work lies ahead. We welcome his successor, Tommy Powell, along with a new member of the SCS staff, James Herring. Both are men whose capabilities are proved.

Then there is the announcement this week that Ed Thomas is the new State Conservationist. Salt Fork SCD is proud of him, and may take credit, for some of his early training was in Salt Fork SCD. But it is Ed Thomas' outstanding ability, apparent then, and his dedication to the land that has carried him to this top Conservation post in Texas. He deserves our congratulations and well wishes.

A Tough Proposition

A lot of appliances, gadgets and automobiles appear to have less durability built into them than they did a few years ago. But appearances can be deceiving. If automobiles performed as they did 30 or 40 years ago, today's freeways would be a nightmare of clogged traffic. There was a time when every auto carried three or four spare tires. A blow out was a normal occurrence just as was mechanical failure. Millions of autos now travel the expressways during rush hours, and rarely is the traffic flow slowed by a breakdown.

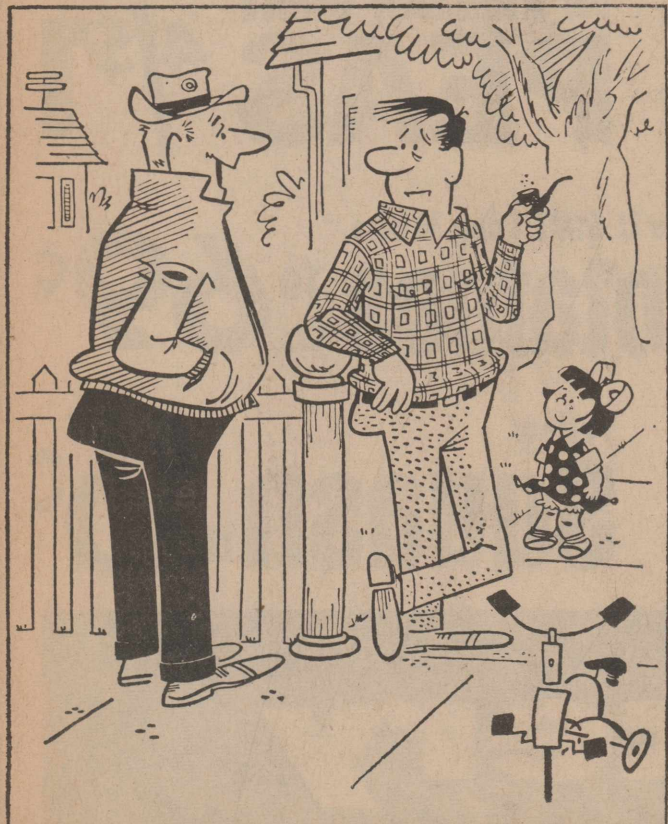

The chairman of the Council of Better Business Bureaus, Inc., Elisha Gray, offers one reason why U.S. consumers are dissatisfied with business. "Simply states," he says, "their expectations have been raised to unprecedented levels -- which business cannot often fulfill." Mass production of foolproof, trouble-free, highly-complicated machines and appliances for mass use -- at price people can pay -- is a mighty tough proposition. It is also one that U.S. enterprise has tackled with a remarkable degree of success.

Rev. O'Brien Preaches Sunday At First Baptist

A former pastor, the Rev. Chester O'Brien of Amarillo, was the guest preacher at First Baptist Church Sunday, May 28. He was accompanied by his younger son, John, 12.

Rev. O'Brien noted to the congregation that his daughter, Mary Ann, was born just a few weeks after he took the Wellington pastorate, and she observed her 20th birthday Saturday. She will be a senior in Baylor University next year. The older son, David, received his degree from Baylor this spring.

Immediately after the morning service, he and John left for Dill City, Oklahoma, where Rev. O'Brien took part in the ordination to the ministry of Mr. Whittenburg.

Mr. and Mrs. Whittenburg were married by Rev. O'Brien just three days after he and Mrs. O'Brien moved to Wellington.

C. E. Stone Dies in Dallas

A former Wellington merchant, C.E. Stone, who owned and operated the first chain of dry goods stores in the Southwest, died in Dallas recently.

He operated C.E. Stone Dry Goods here in the late 1920's and early 1930's. He owned the chain of 55 stores by the same name from 1911 to 1933, operating them throughout Texas, Oklahoma and New Mexico. He was headquartered in Dallas.

The 84-year-old business man, whose home was at 5623 Farquhar, Dallas, was the owner of C.E. Stone Children's Fashions. He was one of the first merchants to move into the Apparel Mart in 1965 where he sold children's clothes.

A native of Garden Valley, Smith County, he attended Tyler Business College. Dallas had been his home for 50 years. He was a member of Lakewood Country Club and a 32nd Degree Mason.

Funeral services were conducted at Sparkman-Hillcrest North-west Highway Chapel by the Rev. Melvin R. Carter and burial was in Grove Hill.

Survivors include his wife, Mrs. Nell Stone; a son, Robert Jerry Stone of San Antonio; and step-daughters, Mrs. Pat Calogero of Austin and Mrs. Jean Travis of Dallas.

He will preach his first sermon at Rochester Sunday, June 4.

Rev. and Mrs. Pitts returned recently from an 8-day visit with their daughter, Mr. and Mrs. Gary Barton and Stacey at Fairbanks, Alaska. They made the trip by plane.

Public Hunt Age Dropped

AUSTIN -- The Texas Parks and Wildlife Commission has given Texas youth a vote of confidence by lowering the minimum age requirement for participation in public hunts on state game management areas.

The prospective hunter must be at least 12 years of age instead of 17 as previously required to participate. However, stringent rules govern the youngsters.

First, the "under-17" hunter must follow the usual application process for restricted hunts. Drawings are held to decide which applicants get to participate in these hunts.

The under-17 applicant must apply as a member of a party hunt, not as an individual. The maximum party size is four

hunters. In addition, the under-17 participant is responsible for the minor's conduct, and failure to supervise the minor will be cause for forfeiture of permits for both sponsor and minor.

Children's Reading Program Under Way

The children's reading program for youngsters throughout the county got under way with the close of school, Mrs. R.H. Isbell, county librarian, announced.

This is a co-operative program with the State Library at Austin, in which boys and girls who read 12 books on their reading level will receive certificates at the end of the summer.

Mrs. Isbell said that 80 additional children's books have been borrowed from Amarillo Library to supplement those available in the Collingsworth County Library.

Each year, just before school begins, children who have completed reading 12 books are honored at a party where they receive certificates given by the Texas State Library.

The program is open to all youngsters of the county, and Mrs. Isbell is urging that more take part to learn the pleasures of summer reading on their own.

Mail Record Of Attendance Veterans Told

"Mail in your certification of attendance card for your final month of training, or you can't be paid."

That is the reminder the Waco Veterans Administration Regional Office is sending to 44,306 Texas veterans attending colleges and universities under the GI Bill. It's a message VA mails to veterans each year with their next to final check for the enrollment period, according to Jack Coker, VA Regional Director.

The idea is to induce the veteran to fill out the "cert" card, sign it, and return it immediately to his VA Regional Office so he won't be wondering what happened to his education allowance for his final month of training. For most schools, this means the months of May or June.

Here, specifically, is why reminders are being sent to veterans attending college:

* VA cannot prepare the final check for the spring 1971-72 school year until it receives the "cert" card.

* If the card is not returned at the end of the current semester, the veteran cannot automatically be enrolled under the GI Bill for the upcoming summer or fall semesters.

It was also pointed out that veteran-students have the responsibility of keeping VA informed on changes in the number of dependents, or education programs.

College registrars also have a responsibility in insuring that veterans receive their allowance checks on time. Registrars should promptly return students' re-enrollment certification so payments will start automatically when study is resumed.

Details are available at the nearest VA office, veterans county service office, or from local veterans service organizations.

An important message from the wife of your District Attorney

May 1972

Dear Friends,

On June 3rd you'll choose who will represent and serve you as District Attorney for the next four years.

Both candidates are fine young men. Putting all else aside, consider the two candidates as to which man will do the best job in the capacity of District Attorney.

We know how Jack Boone has handled the job. It's only a guess how the other candidate might do. Being District Attorney is Jack's only and full time job. Because of Jack's depth in dealing with people and his belief in making the punishment fit the crime, he has set an outstanding record while holding the office of District Attorney. To this date he has received 180 successful convictions, as opposed to the other candidate who has never tried a felony jury case. When an appeal has taken a case to a higher court, Jack has NEVER had a reversal.

Through outstanding work on the district level, Jack has gained statewide recognition. He was appointed by the President of the Texas Bar Association to work with Supreme Court Judges to tighten the laws against the criminal. At the present, Jack is involved with helping revise the Penal Code for the State of Texas. Jack is the chairman of all rural prosecutors in the State of Texas. He has attended meetings and conferences speaking in behalf of our rural courts, fighting to preserve our rights in rural areas.

Jack has set the most outstanding record ever in this district. Jack is the only candidate with experience in prosecuting felony cases and crime won't wait on a new man to be trained. Considering Jack's outstanding record, his tremendous capability, the love for his job, and 5 years of experience, the choice is clear. As Jack's wife, I can tell you how dedicated Jack is to his job. When you have an honest, hard working, Christian man serving you in public office, you've got something of value which no amount of money can buy.

You'll never know how hard Jack has fought for you and your protection in each one of those court trials. He has easily earned a second term by a first one well done.

Sincerely,

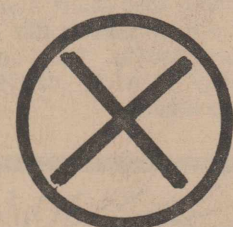

Bebe Boone

SATURDAY is the time we go to the polls to nominate a Governor, Lieutenant Governor, and other state and national officials. Voters will also fill two important local offices. There is intense interest in the state races and the local contests will increase the number that go to the polls.

DOLPH BRISCOE will undoubtedly lead in this county in the race for governor. He is the logical choice for an agricultural town and territory such as ours. His workers are taking no chances on complacency and are working just as hard in the second primary as they did in the first.

WHILE PLOWING on his farm recently, Kenneth Hudson unearthed a spoon on which the words "Saddle Rock" were clearly engraved on the handle. Knowing she was a collector of old and odd spoons, he brought it to Dora Fern Warrick. Now she needs help. Has anyone ever heard of a place near here or far away named Saddle Rock? Perhaps it was a place, a hill, a hotel. Dora Fern would like to know.

LEON (Buck) Dial of Dinuba, California has sent me a set of cuff links and a tie clasp. The stones are genuine Nephrite Jade. He cut and polished the stones and mounted the stones. He made three sets for some of his former boy scouts in Wellington. Others who received a set were Bill Godfrey and Luther Sullivan.

OWNERS of Arabian horses seem to have settled the debate as to the breed that can travel a great distance the fastest. A purebred Arabian took first place in the endurance ride in Canadian last week. He covered the 45 miles course in 3 hours and 31 minutes. Second was a half Arabian and half Appaloosa horse. A Quarter Horse came in fourth. All of the first ten were either purebred Arabian or half Arabian.

OH WELL, the Quarter Horse is still the best cowhorse in the business. He has no equal as a cutting horse, roping horse or in a quarter mile race.

IT WAS 54 degrees in Wellington Wednesday morning. Can you imagine turning on the bathroom heater on May 31. We turned on the air conditioner in March.

Mr. and Mrs. Hurshel Tyler, now of Olney, made the building available, and several organizations did the work which converted it to this specialized use. Several women's clubs and organizations have made monthly donations through their club year.

The center must buy its own supplies with which the children, young men and women work, and there has never been a surplus of funds for this. The need for money is even greater now. Among those working on the Flea Market plans are Mrs. Langford, Mrs. Bill Hall, Mrs. Glen Warrick, Mrs. B.M. Sims, Mrs. Kenyard Poteet, Mrs. Bill Lindsey and Mrs. Dan Hiett.

Mrs. Reynolds had been a Methodist since early in life. Funeral services were conducted at First United Methodist Church Friday at 3:00 p.m. with the Rev. R.T. Dyess officiating. Burial was in Memorial Gardens under the direction of Kelso Funeral Home.

Pall bearers, the sons of long-time neighbors and friends, were Tommy Lewis, Carthel Lewis, Garland Hightower, Jimmy Reynolds, Bob Hightower and Bill Jones.

Surviving Mrs. Reynolds are a son, Wayne Reynolds of Wellington; a daughter, Mrs. Eula Berry of Skellytown; two grandchildren and three great-grandchildren.

ED THOMAS

Ed Thomas New SCS State Conservationist

Youth, dedication, experience, professionalism — these are some of the traits of Edward E. Thomas, newly appointed state conservationist for the U.S. Soil Conservation Service in Texas. Early in his career, Mr. Thomas was assigned to the Soil Conservation Service in Wellington.

Thomas returns to his native state from Nashville, Tennessee where he was deputy state conservationist for SCS. He succeeds Clyde W. Graham who has been named director of the South regional technical service center in Fort Worth.

A career conservationist since 1954, Thomas was an assistant to Graham at the Temple state office until he went to Nashville in January 1971.

"Having the chance to return to Texas as state conservationist exceeds my fondest dreams," Thomas admits matter-of-factly. "My family and I learned to love Tennessee, but it was always second to Texas."

After starting his conservation career at Lubbock in 1954, Thomas worked at Wellington, Wheeler, Jayton, and Morton. Then he became area conservationist at Pecos in 1963. After holding a similar position at Harlingen, he moved to Temple as assistant state conservationist in 1968.

Thomas is a 1954 graduate of Texas A&M University where he was a member of the track team. He is also a graduate of Vernon High School and served as an Army officer in Korea from 1954 to 1956. He is a member of the T Association of Texas.

gram, about 43 per cent of what was formerly considered the county's allotted acreage.

A considerable acreage of wheat was grazed out during the late winter and spring months but there is no way of determining how much.

The Rotary Club has indicated that it will again hold its barbecue.

Visiting with Mr. and Mrs. Woodrow Woods were Mr. and Mrs. John Duncan of Amarillo and Mr. and Mrs. Alan Fires of Bryan.

as A&M, the Soil Conservation Society of America, and the American Society of Range Management.

He and his wife Mary have three children: Eddie, 15; Bill, 13; and Susan, 11.

She was married to Fonzy Branch March 27, 1915, at Sulphur Springs. He preceded her in death October 17, 1952.

Mrs. Branch was a long-time member of the Church of Christ.

Funeral services were conducted at the Assembly of God at 4:00 p.m. Sunday, with the Rev. John E. Hutson, pastor, and Rev. James Jackson of Lubbock, officiating. Burial was in the family plot in Fairview Cemetery by Kelso Funeral Home.
