

On The BEAM

By J. W. King, Sr.

It is time to plant. We have heard it said ever since we came to West Texas that the time to plant crops is "when there is moisture to bring them up and when the ground is warm enough to germinate the seed."

That time is here now for most farmers in this area. There may be a few spots where there is not enough moisture but not many. Even though there is not as much moisture as farmers would like to have to get crops off to a good start—it may be all we will get for a while—it has happened. Those who wait for additional rains to plant could be caught with no moisture until too late.

Not being a farmer myself I would hesitate to suggest to any farmer that he ought to plant now. (Before this appears in print we may have received big rains.) During the more than 40 years I have been in West Texas I have observed that some years we get little rain and others we get an ample supply but I believe the years of little rain will outnumber the big rain years a long way.

We've got to be ready for any emergency in this country and take every advantage the Good Lord gives us if we continue to live in this semi-arid country. Those who have irrigation can regulate their moisture supply but all do not have irrigation.

Good Rains Leave Planting Moisture

Rain amounting to 1.45 inches here in town Friday through Monday night gave most farms in this territory planting moisture.

The first shower late Friday amounted to .85 of an inch and fell in ten or 15 minutes and was accompanied by a strong wind. The wind, however, did no damage so far as we have been able to learn.

The heavy shower was followed later in the night by a slow soaking rain of .50 inch. The other .10 was received Tuesday morning between one and three o'clock.

As is usually the case the rain measurements varied from place to place. Some part of the territory got more rain than was recorded in town.

A lot of the farmers we have talked to report enough moisture for planting. Planting of all crops will be under way in a few days.

The mayor and newly elected members of the Loraine City Council were sworn in and held their first meeting Monday night.

Dr. Bruce Johnson, the new mayor, and Wilmon Tarrt and Virgil Walker, councilmen were sworn in by the city secretary, Homer Hart. Clifton Henderson, another new member of the council, was unable to be present.

Mayor Johnson opened the meeting with prayer and conducted the routine business of the city.

One of Mayor Johnson's first acts was to appoint councilmen to various positions. J. W. King was appointed water commissioner; Hubert Thomas, police; Virgil Walker, street; B. W. Tarrt, fire; and Clifton Henderson, finance.

Other than routine business the council discussed the delinquent tax problem with County Attorney Frank Ginzler. The city secretary is preparing a list of delinquent taxes and when it is completed the council will again take up the matter and probably will turn the list over to an attorney for collection.

It was revealed that the city has about \$10,000 in uncollected taxes. The County Attorney advised the council that any property, even a homestead, may be sold for taxes.

The council has previously voted to make an effort to collect the delinquent taxes and in all probability will turn the matter over to an attorney in the near future.

The city recently contracted for a new fire truck which will cost approximately \$10,000 and it needs to collect the delinquent taxes to pay for it.

"How can I save on my '59 income tax?"

One obvious way: Take all allowable deductions.
But were you able to recall all your deductible ex-
penses at tax time this year? Would you be able to
prove all your claims? The best way we know to
have complete records and receipts is to deposit all
earnings and income in a checking account; pay all
bills by check. What neater, simpler records than
checkbook stubs? And cancelled checks are auto-
matically returned receipts. Be in a position to really
save money at tax time next year: Open a checking
account with us now—and make fullest use of it.

Everyone found himself under western skies of crepe paper streamers and colorful balloons. All cowhands gathered around an imaginary campfire and the book "Cowboy Small" was read.

Miniature stick horses were given to each cowhand to ride. The cowhands gathered around the chuck table which held the favors of cartoon cowboys with cowboy hats and red bandanas. After the singing of the birthday song Nubbin cut his cake.

CHEVY GIVES YOU 7 BIG BESTS!

Take it, not from us, but from the published opinions of outside, independent experts and from on-the-record facts and figures: Chevrolet gives you these 7 big bests over any other car in its field!

BEST BRAKES

In direct competitive tests of repeated stops from highway speeds, conducted by NASCAR*, Chevy out-stopped both the other leading low-priced cars—and why not? Chevy brakes are far larger, built with bonded linings for up to 66% longer life.

*National Association for Stock Car Advancement and Research

BEST STYLE

POPULAR SCIENCE magazine sums it up: "The fact is, in its price class the Chevy establishes a new high in styling..." It's the only car of the leading low-priced three that's unmistakably '59 in every modern line.

BEST TRADE-IN Check the figures in any official N.A.D.A.* Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

*National Automobile Dealers Association

BEST ENGINE

Every motor magazine has given Chevy's standard and Corvette V-8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "Indeed, this device is surely the most wonderfully responsive engine available today at any price."

BEST ECONOMY

No doubt about this: two Chevrolet Sixes won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car.

BEST RIDE

You'll be able to tell this yourself, instantly. But MOTOR TRENDS magazine expresses it this way: "...the smoothest, most quiet, softest riding car in its price class."

Official dimensions reported to A.M.A.† make this clear. For example, Chevy front seat hip room is up to 5.7 inches wider than competitive cars.

†Automobile Manufacturers Association

BEST ROOM

Who'd want to do without Chevrolet's extra luxuries? Like Safety Plate Glass in every window, the protection of full wraparound bumpers, crank-operated ventilators, the convenience of single-key locking, a real overhead curved windshield, oil-hushed hydraulic valve lifters in every standard engine for quieter running, a bigger luggage compartment with side wall lining... and the convenience of automatic choke in every model!

PLUS THESE TREMENDOUS TRIFLES
