Mayor's Proclamation

WHEREAS it is a knows fact that no section of the United States and its insular possessions is free from threat of natural catastrophe in one form or another: famine, fire, flood, hurricane, explosion, epidemic, blizzard, drought, tornado, earthquake or other calamities of nature; and

WHEREAS conditions in the world today necessitate an unprecedented peace time expansion of our Army, Navy, Marine Corps, Coast Guard; and

WHEREAS the current European war continues to cause intense distress among innocent victims, making essential the extension of American aid to suffering humanity abroad; and

WHEREAS the American Red Cross is the only organization in our land equipped and ready, first, to protect us against the aforementioned disasters and render relief when they occur; second, to assist, comfort, advise and otherwise serve the men of our armed forces and to act as liaison between them and their loved ones at home; third, to undertake the administration of American mercy to striken non-combatants and refugees in Europe when assurance is had that such activity will not be interfered with by belligerent powers; fourth, to continue at the same time in our own community such indispensable welfare programs as Red Cross Public Health Nursing, First Aid and Life Saving, Accident Prevention in the Home and on the Farm, Home Hygiene, and the Junior Red Cross in the schools.

THEREFORE I, Mayor of Baird, PROCLAIM the period of the 1940 Annual American Red Cross Roll Call, November 11-30, a period during which public spirited men and women of this city should bend every effort to support the Red Cross through their local Red Cross chapter, by becoming members of the Red Cross through their chapter or by renewing memberships therein; and I further PROCLAIM that it is the sense of all of us, residents of Baird, that our response to Red Cross Roll Call this year, in view of world events, must be stronger numerically than it has ever been before.

Signed, H. SCHWARTZ, Mayor of Baird

Four Callahan Co. Girls T. S. C. W. Students

Four Callahan County girls are enrolled at Texas State College for Women. With an approximate enrolled of 2,500 TSCW retains its position as the largest residential woman's college in the United States having students from 215 Texas counties, 30 states, and 7 foreign countries.

Callahan county students include Miss Julian Elizabeth Ballard of Baird. Other students in the county are Miss Wyvonne Loven of Clyde,and Miss Mildred Imogene Browning and Ida Nell Williams ofs Cross Plains.

The growth of TSCW in the short span of thirty-seven years to a place of prominence among the nations' colleges is attributed by authorities to the ability of the college to anticipate the needs of wamen in the world of today and to prepare them to best meet these needs Unusual in its effective combination of practical and liberal arts courses, TSCW has during the past five years sent an average of 507 young women graduates each year into important positions throughout the nation and to many foreign countries

Because of the extremely acute condition of international affairs, President L. H Hubbard has announced that special emphasis is being placed this year on courses that will prepare young women to assume positions of responsibility in the event of a national emergency

"The greatest gift of God to man is will-power." This was a favorite saying with Dr. A. C. Scoot, Sr. founder of the internationally famous Scott, and White Hospital and Clinic in Temple. And friends of the celebrated surgeon, whose death occured a few days ago at the age of 75, say that his own chief characteristic was, having once made up his mind, he stuck to his purpose.

He graduated in medicine before he was 21, returned to his native town of Gainesville to enter the practice and one of his first patients was a young lawyer, whose throat needed treatment every week-end after strenuous campaigning. The lawyer was run ning for Congress and his name was Joe Bailey.

Dr. Scott was pleced in charge of the Santa Fe Railroad hospital then newly-established in Temple: built it up steadily afterward, founded the King's Daughters Hospital, which has grown into one of the largesst in the State: and then he and the late Dr. R. R. White started the hospital which bears their names, paying $1,00 down on a former convent building, which left them with ust $100 in cash.

His studies in cancer and his philanthropies made Dr. Scott a great man. The hospital which he headed at the time of his death has 17 buildings of varying sizes. a staff of 54 physicians and to it annually come thousands from all parts of the South and Southwest and from Mexico, Central and South America. Back of it all was a quite, modest, kindly man (this writer met him just a few weeks ago and will always treasure the experience) who never tired of workink and studing.

Had a most interesting incident recently, for the first time I heard my own voice. Of course that's no novelty to my long-suffering friends. Beeman Fisher, assistant to the president of Texas Electric Service, and Paul Harmon company publicist, invited me to be intervieved on a radio program by genial Gene Arnold, singer, pianist, poet, lecturer, actor, (thats all one man)

A recording was made of the program and I heard what sounded to me like a complete stranger saying the things I'd said. Its an odd sensation' you'd never re conize your own voice.

Incidentally, it was only an hour and a half after we went off the air that the recording was ready, which calls to mind the story of the negro soldier in World War No. 1. He had just reached the front-line trenches and, standing with head shoulders exposed, he yelled, " Bring on dem Boches! bring on dat war! I craves action!" Just then a bullet hit his steel helmet a glancing lick and knocked it into the trench He jumped down, picked it up and said "Brother dat's what I calls service".

Joke of the month is about the young father who named his child Weather strip- because it keeps his out of the draft.

Here's what former Governer Francis of Missouri once said, The editor, in proportion to his means does more for his home town than any other 10 men, and all fairness he ought to be supported, not because you like him or admire his writings but because the local paper is the best investment a community can make. The editor of the local paper do the most for the least of any people on earth".

"Ain't never been a hoss that ain't been rode:

Ain't never been a rider that ain't been throwed."

Here and there, Bill Quinn, for a good while the editor of the Van Banner, is now the editor also of the Grand Saline Sun. It his spare time, he probably will take up the study of Esperanto, The election of Dorman Nickles as Wharton County prosecuting attorney attracted interest as far away as Austin where Nichels earned money as a soda fountain attendant and in similar work to ocmplete his education. He campaigned hard, made a speech at 10 o'clock the night before the election, O. O. McIntyre once wrot that the place to enjoy a cup of coffee was in the coffee shop of Hotel Texas inFortWorth where a colored boy by the name of Abner has brewed the coffee since the hotel opened in 1922. They change the brand sometimes but keep Abnr.

KNEW LONG AGO WHICH BEER TASTES BEST

Electrician Proves It's Always

SOUTHERN SELECT

A conscientious electrician knows that the way to be sure about anything is to test it. So although Southern Select was already his favorite beer, Alton Fisk triple-tested it just the same. He says:

"When I wind up a job I step away knowing for sure it will pass every fire and safety inspection or test that can be given. I never thought much about testing a beer except for taste until I read about the 3-way test experts make with beer. I'd long ago picked Southern Select for taste but sure enough I found when I made the experts' test, Southern Select measured up on delicate aroma and absence of "after-taste", too. It's my idea of highest quality beer."

All we ask is that you test Southern Select side-by-side with any other beer! Do this and we are confident you'll join the thousands who are switching to Southern Select! Try it and see!

Eula School Presents Play

Those people who are prone to belittle the younger generation might acquaint themslves with the numerous cases in which youngesters of today are proving to be the salvation of their families. Of such is the premise of the "Bright Penny", a play to be presented by the Home Economics girls and the boys in the Woodwork class at the Eula High School Auditorium on Friday, night, November 8th. This play deals chiefly with the adolecent age when life is a strange mixture of poetic dreams and self-inflicted persecution fraught with a new responsibility. Older people are apt to forget that phase of their own lives, or pass over the memory of it lightly. Albeit, the struggle of adolescence with adult problems, a penny is a preachment. Nor is it heavy laden drama It is comedy, hilarious comedy with serrious moments. Mother Stanton's brood are sprightly youngsters; the sort of children that every one knows and loves. In fact, this very attitude of merriment Penny Station's chief worry. So pack up your own troubles and laugh at Penny's. Her struggle with the trials and tribulations of the Stanton family will afford an evening of sheer enjoyment

Increased Need Of Red Cross Work

The American Red Cross, confronted with increased demands of the current national defense program and growing needs for widening its regular domestic operations, on November 11 will embark on its greatest membership Roll Call since the days of the first World War, C. V. Jones, chairman of the Callahan Red Cross chapter, declared today.

Red Cross officials here have set a goal of 500 memberships as their share in strengthening the services of the organization locally and nationally.

Appealing for greater membership, Mr. Jones declared the success of the national enrollment of members will hinge upon the individual success of chapters in attaining their membership goals. He urged every person who can to become a Red Cross member to insure the Callahan chapter meeting its share.

"Following the outset of 'total war' last May" Mr. Jones said" "the American Red Cross asked the public for fund of $20,000,000 to widen its war relief operation in Europe. This amount has been raised and eversubscribed, enabling the Red Cross to ship thousands of tons of food, clothing and medical supplies to the war zone areas where it has been most needed."

Differentiating from the needs of European war relief, Mrs. Jones stated that the Red Cross Roll Call is held each year to support the national and local Red Cross organizations in their domestic operations. Funds realized at Roll Call time, he explained, will not be used for war relief, but to enable the Red Cross to continue its day-to-day operations in disaster relief, first aid, life saving, nursing and its assistance to the United States Military and other programs.

Particular stress was laid on Red Cross operations for the U. S. Military and other programs fitting in to the national defense program Last year when the Army, Navy and Marine Corps, had skeletonized peacetime forces, the Red Cross aided more than 53,00 men in uniform with their social and economic problems. To day with an army of more than 1,000,000 men immenent, the Red Cross will need heavy increases in membership to meet proportionate arising in its field offices in militarl posts, camps and naval stations.

World conditions have prompted the Red Cross to set up two new programs since last Roll Call, Mr Jones said more than 50,000 medical technologists have been circularized for the formation of a reserve corps being organized at the request of the U. S. Army Medical Corps In addition, experimental studies are being made for a national "blood bank" which would furnish blood plasma to the U S. Military in time of emergency. The latter program was being being run as a parallel project to a program of furnishing blood plasma to the British Red Cross for war victims

Mr. Jones pointed out that last year more than 100,000 persons, victims of 106 disasters in the United States, recieved Red Cross relief in being rescued, clothed, housed, fed and aided in rehabilitationed.

"The American Red Cross nurs ing reserve, a corps pledged for service in time of national emergency, now comprises 42,000 registered nurses," he said: "In view of world conditions, plans for strengthing reserve during the coming year will be undertaken by Red Cross nursing committees throughout the country." he added

"More than 500,000 American Red Cross volunteer workers engaged in the program of war relef producton of clothng and surgical dressings" Mr. Jones declared,

"This program, while furnishing more than 1,200,000 articles of clothing and 10,000,000 surgical dressings for the victims of the European war, was described as valuable training which will be important in meeting the demands of the national defense program.

Tecumseh News

Hello folks! news is just a little scarce out our way. Crops were very good out here and with the thrashing of peanuts the past few days about winds up the 1940 crops.

Two of our most prosperious young farmers, Van Harris and Elbert Crawford, have bought new tractors,.

Mrs. R. E. Lewis who has been seriously ill for some time is much better and we all wish for her a speedy recovery.

Mr. Bodine fell from his wagon last Saturday while hauling peanuts and was painfully hurt.

Our mattress center will open Nov. 14. Everybody is anxious to get their new mattress as winter is just around the corner.

American Boy Is Companion To Thousands

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine every month and consider it more as a living companion than as a magazine.

It's as much a buddy to me as my neighborhood chum," writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basket ball team because of playing tips I read in THE AMERICAN BOY."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in The AMERICAN BOY Magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys' clubs also recommend THE AMERICAN BOY enthusiastically. They have found that as a general rule regular readers of THE AMERICAN BOY advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce in THE AMERICAN BOY, the sort of reading matter boys like best.

THE AMERICAN BOY sells on most newstands at 25c a copy Subscription prices are $2.00 for one year or $3.50 for three years. Foreign and Canadian rates 50c a year extra. To subscribe simply send your name, address and remittance direct to THE AMERICAN BOY, 7430, Second Blvd.,

FSA Again Ready To Help Worthy Small Farmers

James S. McKnight, Farm Security Administration supervisor, announced today that the FSA is once again ready to lend a helping hand to Callahan County farmers who are unable to get their coming year's crop financed

"Our loans are available," Mr McKnght said. "to worthy farmer for the purpose of helping them to make a better living for their families and to increase their security on the land FSA loans are made to both tenants and landowners if they cannot get financing from any other source.

He explained that the loans are not limited stricty to crop production purposes, but also to buy livestock and equipment that will enable them to do a better job of farming.

Loans are based on a farm and home management plan which the borrower and his wife work out with the help of the FSA farm supervisor and the home supervisor. The plan calls for the farm family to grow as much as possible of its food and feed and to diversify operations by having two, and preferably more, sources of cash income. FSA farm and home supervisors give the family adivce and assistance from time to time in order to safeguard the loan and also to enable the family to make the most of its chances.

The Callahan County FSA office, where farmers may apply for these rehabilitation loans, is located on the third floor, courthouse in Baird, Texas.

Dr. Cox Says—

To minimize the danger of carbon monoxide poisoning during winter weather, motorists are urged by Dr. Cox, State Health Officer, to check up now on the exhaust systems of their automobiles for defective connections and leak

"Colder weather will soon be here, and it will be necessary to drive in closed cars. Carbon Monoxide may seep inside from leaky connections and overwhelm occupants of the car", Dr. Cox warned

He said that "warming up" a car in a closed garage is the greaest cause of carbon monoxide deaths. Leaks from manifold connection, cracked manifolds, defective mufflers, leaks from loose muffler connections, and leaks form hot air heaters or connections are potential sources for release of corbon monoxide and shoud be checked, Dr. Cox pointed out.

"Pay particuarlr attention to those items and remember that proper carburetor adjustment may cause minimum production of carbon monoxide and that the highest proportion of this gas is produced by an idling motor"

The State Health Officer said that headaches which occur during long drives may be indicated that carbon monoxide is leaking into the car. "Sleepiness, dizziness fatigue and in extreme cases, paralysis, are other symptoms of carbon monoxide poinoning. Truck drivers on long drives are particularly vulnerable," Dr. Cox says

Carbon monoxide is colorless, odorless, and tasteless. When it is in the air it gives no sign of its presence and is taken into the blood instead of oxygen. Suffering or collapse results from lack of exygen.

The same carbon monoxide produced from exhaust gas of cars may also be a by-product of the incomplete cumbustion of fuel in homes, whether the fuel be gasoline, wood, coal, gas, or oil. Such incomplete combustion is usually brought about by using heating apparatus improperly adjusted or constructed. Periodical check-ups of heating equipment and connections should be made to forestall an possibility of carbon monovide poisoning.

Old Books In Texas University

Still in its original binding of slabs and leather, a 400-year-old "omnibus" edition of Geoffrey Chaucer's works is currently being shown in the rare books room of the University of Tex-

Two large exhibition cases are as Library.

filled with Chaucer editions dating as far back as 14 years before Columbus discovered America, and may be seen at the Library Open House, Sunday afternoon,, November 10.

Oldest item in the Chaucer group is a leaf from the first edition ever printed of "The Canterbury Tales," dated 1478, Struck from the press of William Caxton England's first printer, it was the fifth book printed in Great Britian.

Other copies shown range from 1526 to 1602. The University's copy of the 1602 edition was at one time owned by the Duke of Northumberland, Earl of Warwick, and bears his autograph.

Librarians here consider their Chaucer collection, which has drawn scholars from throughout the world and even Great Britian one of the international known Rare Books Library's outstanding features.

Dads and Mothers Day At Texas University

Austin, Texas, Nov. 6 The latch string will be out here for some 20,000 parents of University of Texas students Saturday, November 9. Every county in the State is represented at the University, with Travis, Dallas, and Harris in the lead.

Southwest Chevrolet Dealers Met In Dallas

The largest Chevrolet dealer meeting in the history of the Southwest was held at the Baker Hotel, Dallas, Texas October 30. Over 550 dealers, from the staee of Texas, Oklahoma, New Mexico, Arizona,, Lousina and Mississippi, attended this meeting Mr. Raliegh Ray of the Ray Motor Co. of Baird attended this meeting.

This great Chevrolet meeting was in celebration of the seventh birthday of the present M. E. Coyle and W. E. Holler adminstration and was one of their scheduled nation-wide meetings to be held in all Regional headquarter cities throughout the country Seven years ago Mr. M. E. Coyle assumed control of the Chevrolet Motor Division, as President and General Manager, and Mr. Wm. E. Holler was appointed General Sales Manager at the same time.

Under the leadership of Mr. Coyle and Mr. Holler in these seven years Chevrolet dealers have sold retail over seven million new Chevrolet cars and Chevrolet trucks and more than 12 million used cars and trucks and maintained Chevrolet in first place in the entire automobile indutry and, during the last ten years, they have been in first position nine times. The annual dollar value of merchandise sold retail by the 8,600 Chevrolet dealers throughout the United States has averaged one bollion per year.

At this meeting Mr. Coyle outlined Chevrolet production plans for the new 1941 modles and advised the dealers the position that Chevrolet occupies in the automobile industry today and the viewpoine and plans of the officials of Chevrolet for months and years to come.

Mr. Holler outlined distribution plans and announced that the goal for 1941 of 1,100,000 new and 2,200,000 used cars and tr skucwas well within the reach of Chevrolet dealers nationally whom Mr. Holler called the greatest selling organization in the country. To back up this viewpoint he called attention to the Defense program spending; increased industrial activity; better prices for farm products and increased home and general structral building are some of the favorable factors which have and will continue to contribute to the unpredicted demand for the new modles and that notwithstanding the large number of new car sales the number of used cars in dealers, stocks have shown a large reduction in recent months and this is an indication most favorable for the successful merchandise of the 1941 modles.

Mr. Coyle and Mr. Holler expressed confidence for an increase in 1941 business of from 10 per cent to 15 per cent over 1940 total.

Mr. R. W. Hill, Manager of the Southwest Region, advised that the 1941 product has received the best reception by customers in the past five years and that Chevrolet production and distribution plans have been made to furnish sufficient quantities of the 1941 product to meet the great demand of the automobile buying public through out the Southwest.
