

Night-Long Texas Senate Filibuster On Basic Science Bill Interrupted

Taylor Bill In Senate on Amendments

AUSTIN — (AP) — The second of the bitterly fought Gilmer-Aikin school bills faced new assaults by amendment — delay weapons today in the House.

Topping the calendar was Senator Ottis Lock's minimum foundation education bill (S.B. 116). It moved up as the No. 1 target of Gilmer-Aikin foes after the House finally passed the first measure yesterday.

The first real House showdown on the controversial series of school bills planned to give Texas a brand-new system of public education — came yesterday on a walkout by opponents of Taylor's reorganization measure by an 85 to 30 vote.

The Taylor bill went back to Senate for adoption or rejection of House amendments. The House got busy on the measure.

Lock bill's purpose is to take a full nine months of time to each child in Texas as a teacher drawing a minimum salary of \$2,400 a year, as the number of pupils per teacher.

It proposes a revolutionary plan of financing under a formula called the economic index would determine how (See TAYLOR, Page 7)

British Known Dead From Attacks Reaches 42

SHANGHAI — (AP) — The known dead from Chinese Communist attacks on four British warships reached 42 tonight.

British naval authorities said the cruiser London had 15 dead and 20 wounded and the sloop Black Swan had five wounded.

These two latest vessels to be hit by Communist artillery on the Yangtze River near Nanking arrived back in Shanghai late tonight.

Behind them they left the crippled sloop Amethyst which they had sought to aid. The Amethyst had some 20 dead and 30 to 40 wounded aboard, survivors who reached here said late today. Among the Amethyst wounded was her captain.

In port here undergoing repairs from yesterday's battle is the destroyer Consort, which discharged 16 wounded and 10 dead. The London's captain ordered withdrawal of the cruiser and the Black Swan from the vicinity of the damaged Amethyst. He said "all signs of peaceful intent have been disregarded and heavy fire opened from batteries near Bates Point and on the southern end of Beaver Island (both in the vicinity of the Amethyst). This fire was effectively replied to but under such conditions (it is) clearly impossible to bring the Amethyst downriver."

Early in the morning 69 survivors of the Amethyst arrived here by train from the north. Among them were five wounded. Survivors said 89 officers and crewmen were still aboard the sloop.

More British ships, the Belfast and Constantine, are en route to the Yangtze. A London admiral's statement said.

In London the Admiralty issued a statement saying: "The H. M. S. Amethyst reports she is anchored in a satisfactory position and believes herself capable of 17 knots. It clearly would be undesirable for her to attempt to run the gauntlet of concentrated fire at the present moment."

An American hospital ship at Tientsin was ordered here yesterday. Vice Adm. Oscar C. Badger, commander of U. S. Western Pacific forces, to treat British wounded.

The Consort is undergoing minor repairs here and will proceed to Hong Kong for more complete repairs.

The British destroyer Constantine has been ordered into the Yangtze from Hong Kong to aid her sister ships.

John Michel, manager of Station KPND since September, 1945, has accepted a job as general manager of a station at Bastrop, La., and will be succeeded here by Ken Palmer.

Palmer, who joined the staff of KPND in June, 1947, as program director, will assume his new duties on May 1, it was announced.

Michel's family—wife and three children—will remain here until June in order that the children may complete a full term of school.

Communists Consolidate New Positions

NANKING — (AP) — Communist forces attempted today to consolidate newly won positions south of the Yangtze as the river battle drew four British warships into the fight.

Chinese government spokesmen said successful Communist crossings of the Yangtze, which separated Nationalist territory from Red, had been made at Tientsin, 80 miles west of the capital and at Wuhu, 60 miles inland from here.

Government troops were counter-attacking. A few planes and gun boats were pressed into the battle by the tottering government.

One foreign military source said 30,000 Red troops were over the river. This had not been confirmed officially.

Red leader Mao Tse-tung and his army chief of staff exhorted their troops to "liberate all China" in a special communique broadcast by the Communist radio.

The Red order of the day told the Communists to sweep forward in an offensive that will protect China's "sovereignty and territorial integrity." It instructed Red troops to seize all "war criminals," particularly retired President Chiang Kai-shek.

The announcement by the Communist chiefs left some room for negotiations on the basis of Red surrender terms rejected yesterday by the government.

It stipulated that if any local region is willing to make peace (See BRITISH, Page 7)

Eight Adobe Walls Area Council Scouts returned from Waco late yesterday after attending a three-day Region Nine Scouts convention.

Arthur A. Schuck, chief Scout executive, highlighted the meeting by addressing more than 600 people Tuesday night at the annual banquet.

Speaking on the 40th annual crusade he said: "We need to throw all resources of the Boy Scouts of America, including the more than two million boy members, behind the great spiritual crusade which will work toward a world which recognizes brotherhood of God and brotherhood of man."

More than 400 leading Scouts from Region Nine attended the three-day session. Adobe Walls Area Scouts present at the meeting were: Paul Beisenherz, executive; Carl Fisher, Bruce Baird, E. A. Glasgow, Bill Chapman, Dick Rust, Phillips, Tom Cochran and Paul Kemp, Borger.

Uncontested Bills Given Attention

AUSTIN — (AP) — A night-long Senate filibuster was temporarily interrupted at 9 a.m. today while the Senate turned attention to uncontested bills.

The interruption came automatically on a technicality. A special calendar of uncontested bills was set for consideration at that time took precedence over both the filibuster and the battle over basic science bill it involved.

The break provided a welcome breather for a tight block of the basic science bill foes which had held the Senate in continuous tug-of-war since 2:30 p. m. yesterday. There were 92 local bills to be considered.

But at the end of the local calendar, the basic science issue would be up again.

Senator Walter Tamm of San Antonio, Senate leader of the bill's proponents, said his forces—which had held closely together during the entire night—said they would press for passage.

By clear margins they had kept the Senate from adjourning on repeated calls for quitting throughout the night and morning.

Senator Fred Harris of Dallas, opposition leader, told the Associated Press that the "extended debate" would resume whenever the bill came back up.

Harris had left the floor at 3:30 a. m. after 11 hours 3 (See UNCONTESTED, Page 7)

Canadian River Dam Site Chosen

The Sanford Ranch, near Sanford in Hutchinson County, was reported as the site chosen for the long-planned Canadian River dam.

However, Howard E. Robbins, district director for the Bureau of Reclamation in Amarillo, declined knowledge of the choice. "I don't know where the dam will be located," he said. Official announcement of the site is expected to be made sometime between May 15 and June 1. Robbins said a statement at the present time would be unwarranted.

Announcement of the Sanford Ranch site came from a source outside the reclamation bureau office, but who was reported as usually reliable.

Mrs. Garland S. Sanford of Amarillo, owner of the ranch, was reluctant to discuss the location of the dam, but was against it being constructed on her land. "If it is located there," she said, "it will ruin a good cattle ranch."

The ranch has been in her family for more than a half century.

When completed, the dam will form a lake of about 1,300,000 acre feet of water, about twice as large as the Conchas Dam at Tucuman, N.M.

Two sites had long been under consideration. One is the Tascosa site, about 40 miles northwest of Amarillo, the other is the Sanford site, about the same distance to the northeast.

After Allen McClellan of Denver, chief engineer for the reclamation bureau, has completed studies of field data, he will report to the Amarillo office, but official announcement of the dam site must come from the bureau head in Washington, D.C.

The next day the members of the family were in the business district, begging money from merchants, whom they told the Salvation Army would not help them.

Maj. Lyons said the "incident" cost the Army and the people of Pampa through the Army \$25. The major said merchants are urged not to make contributions to such transients, and that they are to be referred to the Salvation Army. "We are here to help them, if they need help," she said.

ON WAY TO PRISON—Mrs. Inez Brennan, questioned in connection with the twin deaths of two men whose bodies were found buried in a piggery on her farm near Dover, Del., sits in a Delaware State Police automobile after she was taken into custody. Her hands are manacled. (AP Wirephoto)

ANOTHER SON PICKED UP IN 'LONELY HEARTS' SLAYINGS

DOVER, Del. — (AP) — State Police today made plans to bring a third son of Mrs. Inez Brennan back from his Texas Air Force Base for arraignment in Delaware's "lonely hearts" slaying.

State Police Col. Herbert E. Barnes said George Brennan, 19, arrested yesterday at the Lackland Air Force Base near San Antonio, would be charged with being an accessory after the fact in the slaying of one of two elderly men.

Mrs. Brennan, 44-year-old twice-married housewife, and another son, Robert, 15, have been charged with murder in the slaying of Wade N. Woodruff, 70, Bedford, Va. Another son, Raymond, 23, has been charged with being an accessory.

Barnes said New Hampshire police will file charges in the slaying of the second victim, Hugo Schultz, 66, Epsom, N. H. The State Police official previously announced Mrs. Brennan, Robert and Raymond signed statements telling how Robert shot Woodruff at his mother's order and Mrs. Brennan shot Schultz.

She had met both men, Barnes said, through "lonely hearts correspondence" and plotted their deaths with robbery as the motive. At San Antonio, Assistant District Attorney C. M. Biery said George Brennan told him in an oral statement that he joined the Air Force "to get away from all the tension around the house."

Biery quoted young Brennan as saying he was away from the family farm until 9 p. m. the day Woodruff was shot and that when he returned home his mother told him he would have to get up early the next morning to help bury Woodruff's body.

In connection with Schultz's death, George said his mother wrote him to come to New Hampshire and "take the body back to Dover with us and buried it in the yard near the other one," Biery said.

Texas Ranger Zeno Smith said last night he was awaiting the arrival of a warrant for George (See SON, Page 7)

Czechs Reply To U.S. Note On Soldiers

PRAGUE — (AP) — The Czechoslovak government delivered to the United States Embassy today a lengthy note on the case of two American soldiers whom the Czech government sentenced to long prison terms on charges they were spies.

U. S. Ambassador J. E. Jacobs said that the note was so long it would require a great deal of study. He said he could not comment on it.

It was understood that photocopied copies of long statements which the Czechs said were written by the two soldiers before their secret trial March 26 were included, and that a complete report is being sent to Washington.

The two men are George Jones of Owensboro, Ky., sentenced to 10 years in prison, and Clarence Hill, of Pampa, Texas, sentenced to 10 years. They were arrested on the Czechoslovak side of the border after they left the consular unit they were attached to in Germany.

The United States protested the sentences under which they were held, the secret trial, and the fact they were unable to interview the men until after they were tried and sentenced. All authoritative American sources stated that the charges the men were spies was "preposterous."

Clayton's Wife To Get Divorce

HOUSTON — (AP) — Mrs. Susan Vaughan Clayton has sued her husband of 46 years, former Undersecretary of State William L. Clayton, for divorce.

The petition was filed yesterday. It charged Clayton with "neglect, unkind and cruel treatment" over a period of the past two years.

The Claytons were married in Clinton, Ky. He is a member of one of the world's largest cotton firms, Anderson, Clayton and Company.

The Claytons have four grown children. One child died in infancy. Since the separation on April 4, the petition recited, they have reached an amicable agreement on the partition of their community property.

A preview this morning of one of the most powerful and realistic safety films ever produced by motion pictures. The pictures were made here some time ago with local people taking all the parts. Included in the cast are: Sheriff G. H. "Skinner" Kyle, Mr. and Mrs. Charles Duemel, Jr., who "die" in an auto crash; Owen Johnson, proprietor of Johnson's Cafe, and others. Both safety films will be shown in the LaNora and Rex Theaters starting Sunday along with the theaters' regular programs.

WELL RESCUE HEROINE—Mrs. B. C. Jamison talks on the telephone in her home in Des Moines, Iowa, after she had rescued Betty Johnson, 4, from a water-filled well 40 feet deep. Mrs. Jamison was lowered into the well on a rope. When the rope broke she kept the lot and herself afloat until help arrived. Scar on her knee was suffered during the rescue. Listening is her daughter, Carol, 6. (AP Wirephoto)

Champion Boy Baker Plans Career as Hotel Chef

CHAMPION—Dale Combs gets an audience for his date bread at Phoenix, Ariz. His prize-winning secret: follow the recipe.

By MARGARET SAVOY

Phoenix, Ariz. (AP)—Dale Combs, a 14-year-old boy, is planning to become a hotel chef. He won a prize for his "date bread" at a contest in Phoenix, Ariz., last week. The bread was made from a recipe he found in a book. He said he was inspired by the recipe because it was simple and easy to make. He said he was proud to win the prize and that he was going to use the money to buy a new chef's hat.

Pastor to Be Guest Speaker At Sayre

WHEELER (Special)—B. M. Litton, minister of the Wheeler Church of Christ, will be guest speaker on the lectureship program of the Church of Christ in Sayre, Okla., at 8 p.m. tomorrow. Tuesday night he will speak at the Church of Christ in Sentinel, Okla.

At the Wheeler Methodist Church the Men's Club met Friday for its regular bi-monthly meeting.

Members of the Junior Sunday School Class met Friday afternoon for a picnic at the church, sponsored by their teacher, Mrs. A. Y. Allgood. The children's division—30 to 35 strong—met Sunday at 2:30 p.m. for an Easter egg hunt on the church grounds. The party was directed by Mrs. Albert Thomas, Mrs. Clarence Crowder and Mrs. L. Sims.

B. M. Litton, pastor of the Church of Christ, closed an eight-day meeting Sunday and took as his final subject, "Establishment of God's House."

He reported a record attendance of nearly 200.

The Rev. A. Y. Allgood, pastor of the Methodist Episcopal Church, reported five new members at the Easter morning service.

Four were baptized at a special

dedication service.

The Rev. Vernon E. Willard, pastor of the Mobeetie Methodist Church, will be guest speaker on the devotional period on Station KEVA between 8:20 and 8:30 a.m. Friday.

Other pastors of the Wheeler area who conducted the program this week were: Rev. Allgood, who spoke Monday on the "Transfiguration of the Commonplace"; Mr. Litton of the Church of Christ spoke Tuesday; The Rev. James E. Willard, pastor of the Baptist Church of Briscoe and Allison, spoke Wednesday; and the Thursday devotional was given by the Rev. M. B. Smith, pastor of the Wheeler Baptist Church.

M. and Mrs. Albert Thomas accompanied several members of the young people's division of the Methodist Church to Lawton, Okla., over the weekend to attend the annual Wichita Mountains Easter pageant.

Besides Mr. and Mrs. Thomas and their three small sons, those who attended were: Jamie Clark, Richard Brown, Bobby Johnson, Pat Noah, Billie V. Brown, Frances Porter, Peggy Jo Rogers, Leona Skidmore, Bettie Jo Traylor, Patricia Hubbard, Marie Edwards, and Ruth Murrill.

FOR POOR ONLY

The old doctor had never refused a call, from rich or poor—but now he was tired. "Have you any money?" he asked a midnight caller. Certainly he had money. "Then go to the new doctor. I'm too old a man to get out of bed for anybody who can pay for it." — Reader's Digest.

Machine Puts New Twist in Art of Pretzel Bending

NEW YORK — (NEA)—There's a new twist in pretzels these days. The curvaceous biscuit, historically bent into its famous shape by a few flips of a talented worker's wrists, is now being shaped by a machine.

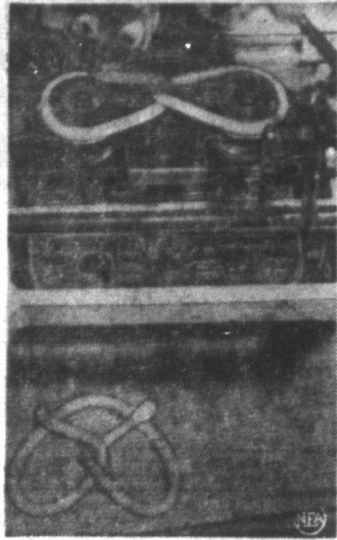

Both the human method and its mechanical counterpart perform the same operation. They pick up a "stick" of dough, previously rolled into the correct length, and deftly knot it into its pretzelish form.

But, where a human can twist only about 20 a minute the winner of a recent pretzel-twisting championship did 41 the machine can turn out 55 twisted pretzels a minute without batting a cpg-wheel.

The automatic pretzel machine has two steel arms with clamp "fingers" at the ends. These fingers grip the dough stick and, with one quick motion, a neatly-tied pretzel is born.

After that, the pretzel goes through the normal childhood and adolescence of any pretzel. It is carried through a saline solution, which seals the dough and enables it to have its familiar nut-brown color. Then it's salted and baked.

The mechanical bender was invented 20 years ago by Earl Curtis of Cleveland, but it took a long time to get it perfected. "Like its human counterpart, it leaves its mark on the pretzel, but you can tell the difference. Human pretzels benders leave the dent of their thumbs on the pretzel 'knot,' the machine, having no thumbs, leaves the imprint of mechanical fingers.

MECHANIZED pretzel bender does everything but put the thumbprint on the finished pretzel.

Forty percent of people never have any wisdom teeth at all.

England May Get Accustomed To Corn and Like It—in Time

By DEWITT MACKENZIE

AP Foreign Analyst

England is up in arms again over the prospect of having to eat American corn meal or hominy grits—and there's the deuce to pay.

The upheaval started when amazed Britons read in their newspapers that these two products would be going to Europe in great quantities soon as part of the European Recovery Plan shipments. The reaction was general and explosive. An AP dispatch summed it up in this blunt British comment:

"Now the Yanks expect us to eat the suddy stuff!"

This current outburst really is a revival of an old grievance against which our British cousins revolted successfully (and they thought conclusively) back in 1917 during World War I. I was in England at the time

and so was a close observer of that amazing development.

The British Isles at that time were hungry—mightily hungry. A large quantity of corn meal was available in Britain. So Herbert Hoover, chairman of the American Relief Commission, inaugurated a campaign to get the public to eat dishes made from the corn products.

Not a hope! With one accord the people turned up their noses and refused to eat corn. They said it wasn't fit for human consumption but was only good for pigs and chickens.

Now the issue has to be fought out again. I suspect that if John Bull would give corn products a good trial we should find him liking them. Some of the best corn bread and muffins I ever have eaten are made by an English girl. That's my wife.

Given time, England may get accustomed to corn and like it.

tastes best—takes less!

Feeding Cuts Garden Cost and Better Crop Quality

Chemical Plant Food Is Quickly Available to Plants When Applied in Trench on Each Side of Row.

Next to improved plants, such as hybrid corn, credit for the huge increase in food production during the war, and since, is given by agricultural scientists to the increased use of plant food.

By feeding their flowers and vegetables adequately, home gardeners can not only enjoy increased yields, and higher quality, but can reduce substantially the work involved in gardening. Expense of feeding plants remains practically at its prewar figure.

To get the most out of plant food, the following methods of application are recommended by V. A. Tiedens, director of the Virginia Truck experiment station, Norfolk, Va.

1. On soils which are acid, testing below pH6, plant food should be concentrated in bands or pockets, not touching plant roots but within easy reach.

2. On sweet soils, testing above pH6, spread plant food thoroughly into the soil, evenly and deeply.

If you are in doubt about the acidity of your garden soil, use the first method, especially if the soil contains considerable clay. To apply, stretch the line to mark the row in which seeds are to be planted. Then not less than two inches away on either side, make a furrow four inches deep. Four plant food into each furrow at the rate

of one pound (or pint) for 50 feet, and cover it with earth. Then make the drill in which seed are to be sown and proceed with planting as usual.

The standard application of a balanced plant food is 4 pounds per 100 square feet (a space 10x10 feet square). You may figure one pound per pint, so an area 10 by 10 ft. requires two quarts. One quart will feed 50 square feet and one pint 25 square feet.

Where smaller quantities are required, use a rounded tablespoon per square foot. For convenience, here is a table showing some common areas and the standard balanced plant food application for each:

5' x 5' equals 25 sq. ft.—requires 1 lb. (or 1 pint).
5' x 10' equals 50 sq. ft.—requires 2 lbs. (or 1 quart).
10' x 10' equals 100 sq. ft.—requires 4 lbs. (or 2 quarts).
20' x 30' equals 600 sq. ft.—requires 24 lbs.

25' x 100' equals 2,500 sq. ft.—requires 100 lbs.

For plants which are not grown in rows, spread the correct amount of plant food evenly over the area and spade it under; or in cases where spading is not advisable, lest neighboring roots be disturbed, rake the plant food into the top soil.

It's Not Fiddle-Fiddle

John Alpin Graydon, 72-year-old Ridgefield, N. J., inventor, scientist and philosopher, has developed this unique violin bow. It's actually four bows together, and can play all four strings at once. A noted violinist will soon use the bow on a radio broadcast.

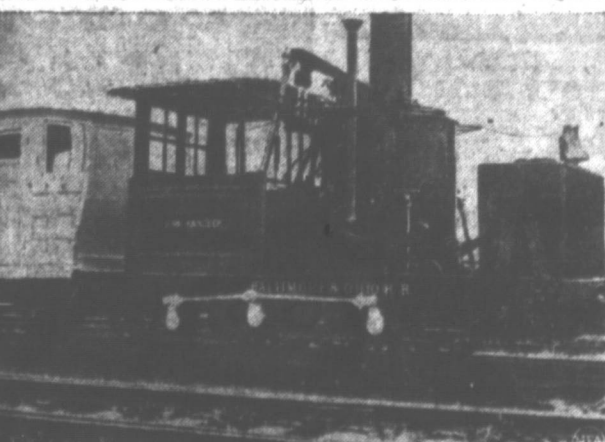

Satisfying Flavor

Facets brighten at the first sip! Here's richer, more delicious coffee, uniformly good because it's Thermo-Regulated roasted.

Schilling Coffee *has it!*

The oldest railway passenger car in North America, the "Bridal Coach," is still moving right along—at Chicago's Railroad Fair. Here the white car, given its name when a Canadian governor-general used it to convey his bride to their new home in Nova Scotia in 1856, is drawn by the "John Hancock" engine at the fair's parent.

First Methodist WSCS Holds Meeting

SHAMROCK — (Special) — The WSCS of the First Methodist Church met in the parlor of the church Monday afternoon.

Mrs. J. E. Christner presided, and the opening prayer was given by Mrs. L. S. Griffin. The devotion-al was given by Mrs. C. L. Reavis.

Mrs. Hubert Tindall gave the lesson from the book, "Mrs. Yu." The meeting was dismissed with the Lord's Prayer repeated in unison.

Mrs. J. E. Butler of Locksburg, Ark., was a guest. Members present were: Mmes. Ed R. Wallace, Margie Fleener, Edna Newman, H. T. Fields, John B. Harvey, D. F. Spruill, J. B. Christner, M. E. Risk, O. F. Glasscock, Hal Yacchian, Keith Misenner, H. S. Hill, T. C. Milam, P. E. Stevens, Hubert Tindall, L. S. Griffin, J. R. Benson, S. M. Dunham, C. L. Reavis, Cliff Hoffmann, Bob Douglas, Rufus Dodgen, J. H. Caperton, S. L. Draper and Winfred Lewis.

The Palo Verde tree of the Southwest desert has more blossoms than leaves.

Slot machines paid the federal government of the United States \$8,000,000 in taxes in a single year.

EAT PLENTY AND TAKE OFF UGLY FAT

When you buy Barcinate, you buy a preparation for taking off weight. You do not pay for any printed diet or for vitamins to fortify you against weakness while on a starvation diet. You need never know a hungry moment while taking this preparation. Barcinate is the original grapefruit juice recipe for weight reduction.

Just go to your drugist and ask for four ounces of liquid Barcinate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two table-spoonsful twice a day. That's all there is to it. If the very first bottle doesn't show you the simple, easy way to take off ugly fat, return the empty bottle for your money back.

Lost 56 pounds! Here is what Mrs. L. J. Bryant, P. O. Box 28, Whitewright, Texas, wrote me: "I want to tell you what Barcinate has done for me. I weighed 250 pounds when I started taking it. I now weigh 194."

"I have taken my dress size down from size 50 to 44 and never felt better in my life and everybody tells me how much nicer I look than I did."

"I am still taking Barcinate as I want to get my weight down to 165 or 170 pounds."

Socialism, Private Capital Share Amiably in Funds

By DANIEL de LUCE

PARIS —(AP)— Socialism and private enterprise appear to be shaking shoulders amiably in the share-the-dollars phase of the European Recovery Program.

A survey of the distribution of ERP's first five billion dollars reveals no cat-and-dog fight over their division of American aid.

Both types have been greatly helped by ERP.

Even in countries with strong socialist governments, private interests have not been excluded from vital assistance. Since it is the government which administers ERP on a national scale, the rebuilding of some private industries is a testimonial to Socialist discretion.

Some Europeans, in fact, are inclined to say: "Look who's talking!" when they read of fears expressed in Congress that ERP may be endangering private initiative in the Old World.

They ask, mildly, whether Americans realize how deeply the United States has already ventured into socialization, spurred by the depression in the 1930's and then by the emergency of war.

The No. 1 Socialist government in Western Europe now controls Britain, but Britain is an example of ERP aid being split two ways: public and private.

On the Continent, the war did more than avert socialism to increase public industrial holdings. Many plants that had belonged to enemy or collaborationist interests were taken over by the respective governments in France, Italy and Norway, to name important cases.

In ERP Continental planning, two private industries — textiles and oil refineries — are close to

the top of the aid list for expansion. This is the rule, regardless of whether the government of a country is socialist or not.

But it is a fact that ERP-guaranteed private loans in Western Europe are not increasing as much as ERP officials would like.

One reason is that national governments claim to be unable to issue iron-clad assurances that specific private industries will not be socialized in a few years.

They say they are ready to promise for themselves, but they cannot promise what might be done by a new government after an election.

Insofar as this uncertainty discourages private capital investment, it threatens the long-range recovery goals of ERP.

Cole Chairman of Equalization Board

Irvin Cole was elected chairman and John O. Pitts was named secretary in yesterday's organizational meeting of the 1949 Equalization Board, Aubrey Q. Jones, city tax collector, said today.

The board, appointed jointly by the city and the Pampa Independent School District, met briefly yesterday to organize. No dates for public hearings have been set.

Besides Cole and Pitts, the board consists of R. F. McCallip, R. M. Samples, DeLea Vickers, Bill Taylor, and J. Wade Duncan. Cole and the last three men were appointed by the school board; the other three were appointed by the city.

'Miss Airways'

Vivian Kennedy, 21, has been chosen "Miss Airways of April" by the KLM Royal Dutch Airlines. Vivian loves to dance and ice skate, but most of all wants to marry and have a large family—at least four or five youngsters. Her intended is a six-foot New York state trooper, enough to scare off potential wolves.

Pilot Falls 4,000 Feet Over Alaska

SEATTLE —(AP)— A pilot plummeted 4,000 feet from a passenger plane to his death early today in Alaska, the Seattle office of the Sourdough Air Transport Company said.

Dave Huyoke of Los Angeles, third pilot aboard a C-47 carrying 10 passengers, was "sucked out" when he tried to check a draft around a door, the firm announced.

Jack Graham, St. Louis Brown rookie first baseman, holds a private pilot's license.

Weather Predictions for a Year In Advance Said Possible Now

By FRANK CAREY
AP Science Reporter

WASHINGTON —(AP)— Weather predictions for 12 months in advance are possible for any city, Dr. Charles G. Abbot, famed sun expert of the Smithsonian Institution, reported. He bases the system on periodic fluctuations in the heat radiation of the sun.

Abbot disclosed a near-perfect record for predicting cool and warm days — by actual dates — in the nation's capital during 1948, and said the method could be applied to any other local area in the world.

He also has worked out a similar solar method of forecasting the likelihood of rain or fair weather on specific dates a year

ahead of time.

(Asked months in advance by the Associated Press to give a forecast on the Roosevelt and Truman inaugural days in 1944 and 1948 respectively, Abbot predicted fair weather — and scored perfectly in both cases.)

Here's his method: For years, he has studied weather records of the Capital. And he says he has found that drops and increases in temperature—which, looked at superficially, seem to follow no predictable pattern — actually are coincident with periodic fluctuations in the radiation given off by the sun.

He says there is a "uniform periodicity" of a little over six days in the sun's heat radiation

Wholesale Food Price Index Down

NEW YORK —(AP)— The Dun and Bradstreet wholesale food price index this week declined to \$5.68 from \$5.71 a week ago.

This was 17.1 percent below the year-ago figure of \$6.85, and only one cent above the 28-month low reached last Feb. 8.

The index represents the total cost at wholesale of a pound each of 31 foods in general use.

One of the oldest rings known was a gold Egyptian ring found at Ghiseh, bearing the name of Cheops, the Pharaoh for whose tomb one of the pyramids was built.

Farm Land Price Boom Hits Peak

WASHINGTON —(AP)— The government reported that the war-inspired boom in farm land prices apparently has passed its peak.

For the first time in 19 years, the general level of farm real estate values has declined. A 15 percent drop in farm product prices from the post-war record was said to be a major cause of the decline in land prices.

The Bureau of Agriculture Economics said the index of land values on March 1 this year was one percent below that of last Nov. 1. This is the first time since 1939 that the index has shown a decrease.

The level of land values still was 3 percent above March 1, 1948.

GARLAND SUCCEDES

ELIZABETHTOWN, Pa. —(AP)— Robert Garland, 88, who gained widespread recognition as the "Father of Daylight Saving Time," died at the Masonic Home here yesterday.

FUNNY

6-4

One of Texas' Two Most Consistent Newspapers
Published daily, except Saturdays, by The Pampa News, 228 W. Foster Ave., Pampa, Texas, Phone 666, all departments. MEMBER: Associated Press, United Press, International News Service, American News Company, McClure Syndicate, Hearst Syndicate, Scripps Syndicate, Curtis Syndicate, Kring Syndicate, Gandy Press (Full Leased Wire). The Associated Press is entitled exclusively to the use of reproduction of all the local news printed in this newspaper, as well as all news distributed by the Associated Press. Entered as second class matter, under the Act of March 3, 1879.

SUBSCRIPTION RATES
By CARRIER in Pampa, 25c per week. Paid in advance (at office) \$5.00 per 3 months, \$12.00 per six months, \$22.00 per year. Price per single copy, 5 cents. No money back in localities served by carrier delivery.

"I speak the password primeval... I give the sign of democracy... I answer the question which cannot have their counterparts, of the same terms." — Walt Whitman.

These Gadgets Are Taking Over

Every now and then we get an uncomfortable feeling that the robots are after us. That is old-fashioned, and silly to boot. People have probably been complaining about over-mechanization since the day when some speed-mad genius invented the wheel and started the whole thing rolling.

But we still get that feeling. The latest twinge came after reading about a new device that answers the question of when you are out. A wire recorder permits the callers to leave a message, and also informs them of the obvious fact that you aren't at home. We never did figure what lifts the phone off the cradle and puts it back.

Speaking of telephones, there is now an electric brain that figures out phone bills. The folks who use it say it never overcharges. Occasionally charges you too little, though.

There is also an electric brain that plays chess. If that is too deep for the merely human opponent, it will condescend to play gin rummy.

Chicagoans with television sets can choose from a selection of movies, call the phone company and announce their choice of program. It is, right in the living room.

They're now boiling water, washing clothes and lighting pipes by sound waves. Highway cops are pinching speeders with the help of radar. More and more everyday activities are graduating every day into the "look-no-hands" category where things work in a way that is beyond the average comprehension.

No doubt this is all for the best. At least the people who have invented all these things must have been trying to make life easier for their fellow man as well as make money for themselves. But we wonder what is going to happen to the subconscious lives of a lot of people who are being ruled more and more by electronic and atomic.

There are a lot of normal, intelligent human beings who are baffled by any mechanism much more complicated than a screwdriver. They say mystifying emotion by things as they are today. We worry sometimes at what will happen to their egos in a future where invisible, incomprehensible forces wait on them hand and foot.

The adjustment isn't going to be quick or easy. First the human race must get human before having to keep pace with scientific achievement if it is to survive. Then will come the problem of reconciling average human ingenuity with specialized human genius.

Until the adjustment is made we foresee a rough time for many horse-and-buggy or at least "Model-T" mind while they are learning to live surrounded by mysterious, wonderful, working gadgets. Inferiority complexes, we fear, will be thicker than television antennae.

That man with the "Model-T" mind won't be able to discuss the phone bill with the electrical accountant that tumbled over the figures. He'll shy away from a friendly game of gin with a box of tubes and wires that can

beat him any time he wants to pick up the cards. Affluent breadwinners who can afford servants today are cowed enough to have a cook as it is. Think of their frustrated future when they start complaining about the way the sound waves brewed the coffee or try to bawl out the radar for burning the roast!

Washington...by Peter Edson

WASHINGTON (NEA) — An Franco Spain prepares to push its case for removal of the United Nations diplomatic isolation, a good chance is afforded to examine the Franco regime.

Only a public utility lawyer could understand all the international high finance shenanigans that are being played. But even a public utility lawyer would understand the Franco action with regard to these properties.

On the one hand the Franco government is trying to interest the American capital to come over and invest. On the other hand Franco's Juan March is trying to get control of foreign investments for his own profit.

European financial papers have been outspoken in their condemnation of this action. One Swiss newspaper says, "The Spanish government... has... tolerated one of the greatest robberies in history." This paper adds that Mr. March has publicly declared he hopes to make \$100,000,000 from this transaction.

All the foregoing may have to be discounted somewhat as looking after the interests of high financiers out to make a few millions. Something that does not have to be discounted is the recent dealings of Juan March, who is Franco's financial genius. By a bogus bankruptcy proceeding in a rural Spanish court, March has moved to seize control of Barcelona's Traction, Light and Power Co. (T.L.E.), and its affiliated companies. Hispano-Americana de Electricidad (CHADEM).

Both companies were organized by American financier D. N. Heinemann of Charlotte, N. C. T.L.E. is a Canadian corporation but has been controlled by capital. CHADEM is a Spanish holding company which operates utilities in the Argentine. The

Larynx Cancer Leaves Victim Speechless, But Not Forever

By HAL BOYLE
NEW YORK (AP) — In a new hospital lecture room a dozen adults were earnestly trying to buzz together.

"Come on, out with it now!" urged their teacher, a big, genial, florid-faced man with a scar on his throat.

"Buh-buh-buh-uhrrrrp!" said the class.

Each of the ten men and two women in the class had a scar on the throat. Each had survived an operation for cancer of the larynx, the late Damon Runyon's ailment. Each had lost his voice box.

One night a week they came to this class and struggled to learn to talk again. And they did it by first learning to buzz.

"A burp is different from a belch," explained their teacher, Dan Meenan, a former Wall Street broker who also used to coach basketball at Columbia University.

"A belch is involuntary. It comes from the stomach. The burp is voluntary. It comes from the esophagus. You just have to make your gullet take the place of your voice box."

"Swallow some air. Then force it from your stomach up through your esophagus. Once you learn to make this burp sound, your tongue, teeth and lips can take it over. They can shape this one sound into any word you ever knew."

Most of the class were middle-aged or elderly. Cancer of the larynx rarely strikes young people. In the class were a truck driver, a factory worker, a white-haired Irish factory supervisor, a Tennessee housewife, a 64-year-old textile manufacturer.

One by one they got up and made progress reports.

The class ended by singing "East Side, West Side," together. They were led by the textile manufacturer, who only a few weeks before had been so depressed he refused to go to his business.

Afterward Meenan explained how he himself, after surviving a series of five throat operations, had become interested in teaching victims of cancer of the larynx to talk again.

"But there are only four to five of these kind in the country. There should be many more. Cancer of the larynx used to be almost 100 percent fatal. Now, if they detect it early, they cure 85 percent of the cases."

"If you have to get cancer, pray you get it in your throat," Meenan said.

Berlin Blockad Getting Tighter

BERLIN (AP) — Amid all the rumors that the Russians may be planning to lift the Berlin blockade, they tightened it today. Communist police in the Soviet sector closed off more streets on the borders of the Western allied sectors to make their square even a little more effective.

Ceiling Collapses Injuring 39 Persons

HOUMA, La. (AP) — Thirty-nine persons were hurt when a movie theater plaster ceiling fell last night.

Manager Everett Talbot of the Park Theater in this little French Cajun town said the acoustic ceiling collapsed in one great sheet.

beat him any time he wants to pick up the cards. Affluent breadwinners who can afford servants today are cowed enough to have a cook as it is. Think of their frustrated future when they start complaining about the way the sound waves brewed the coffee or try to bawl out the radar for burning the roast!

Washington...by Peter Edson

WASHINGTON (NEA) — The whole business is a complex corporate setup no doubt designed to take advantage of the several nations' tax loopholes.

Only a public utility lawyer could understand all the international high finance shenanigans that are being played. But even a public utility lawyer would understand the Franco action with regard to these properties.

On the one hand the Franco government is trying to interest the American capital to come over and invest. On the other hand Franco's Juan March is trying to get control of foreign investments for his own profit.

European financial papers have been outspoken in their condemnation of this action. One Swiss newspaper says, "The Spanish government... has... tolerated one of the greatest robberies in history." This paper adds that Mr. March has publicly declared he hopes to make \$100,000,000 from this transaction.

All the foregoing may have to be discounted somewhat as looking after the interests of high financiers out to make a few millions. Something that does not have to be discounted is the recent dealings of Juan March, who is Franco's financial genius. "Politics and Poverty" (Continued)

In the last issue we were quoting from Lewis C. Ord's new book "Politics and Poverty." The last quotations were describing the wonderful growth of England between 1814 and 1880. They had adopted the famous policy of laissez-faire, of hands off industry. I want to quote further from this book:

"Britain was leading in the industrial race in 1880. She was the favorite. The United States, close upon her in second place. Each country had trebled the reward of its industrial workers and ordinary folk in the space of some 65 years. Neither country held positions of industrial advantage over the other. If on balance, the British masses did more favored in this respect than the other, then undoubtedly Britain was that one."

Very few people would think that. Then he goes on by saying: "No race ever fizzled out in stranger fashion. The reward of the ordinary folk in the United States rose in the same way each year right up to 1914. The British yearly increases, on the other hand, became steadily smaller and more feeble. They ceased all together in 1913. From that time in a hundred years the real wages of the British masses did not improve. The British horse, efficiency, had ceased to run."

Very few people would think that. Then he goes on by saying: "No race ever fizzled out in stranger fashion. The reward of the ordinary folk in the United States rose in the same way each year right up to 1914. The British yearly increases, on the other hand, became steadily smaller and more feeble. They ceased all together in 1913. From that time in a hundred years the real wages of the British masses did not improve. The British horse, efficiency, had ceased to run."

...the suit and that he and Stiefel would produce two more films, "Ricochet," a Western which Mickey will direct, and "Buckaroo," a road story which he'll star in.

"Sam and I are old friends," Mickey told me. "That should explain everything. It didn't explain whether Mickey's lawyer told him he didn't have a chance to break his contract with Sam or whether Mickey had cooled down and changed his mind."

All he'd say was: "We're old friends."

But the Mick was willing to talk about his romance with Sam Stiefel, who was making a home in the Valley. "We'll get married," he said, "as soon as our divorce is final."

Mickey's divorce is final. In May, Martha's in September.

"The Cleveland Story," based on the pennant-winning Cleveland baseball club, will be filmed at Republic. The entire team will be seen along with owner Bill Veck. Only actor cast as yet is George Brent.

MISREPRESENTATION — In "Mr. Belvedere Goes to College," Clifton Webb gives a sweeter girl, obviously padded, a long, lingering look and says: "Young lady, I suggest you don't make any claims you may not be able to live up to."

It's all set for Vaughn Monro to make his debut as a Western star in "Singing Guns" in September. Yip, who's making a star while warbling, Marie Windsor is getting a big buildup at Republic. John Wayne picked her for "Strange Caravan" after seeing her work in "Hellfire."

Now, Rod Cameron has picked her as his steady girl friend.

Latest Gossip: — Someone asked Sam where his kid, Gigi, per se, went to school. "Oh, Gigi Sam, I think she went to a colloquial school."

The Fighting Firmes — 12 chapters serial filmed 13 years ago, just completed a run on a local television station. Grant Withers and Ann Rutherford costarred. I talked to Grant about it and he's still chuckling.

"Friends called me up every night and demanded to know what happened in the next chapter so their kids would go to school. 'What happens next?' It was so long ago I don't even remember making the picture."

It looks like Joan Caulfield for "Blood Tide," the story of a PERMANENT ROLE.

Since Bill Boyd's Hopalong Cassidy pictures have been clicking on television, every studio in town is paging him to sign on the dotted line. But Bill says he'll do it only if he can't stick out of character in any other kind of film. One of Hollywood's biggest studios asked him if he'd like to star in a big picture.

"Yes," said Bill, "a BIG Hopalong Cassidy picture."

Success note: The new congressional directory lists two ex-congressional models as congressional wives.

New story: Behind Hollywood's new Blue Danube Restaurant, Mrs. Joe May, wife of the film director, was such a good cook at home that two dozen film-town friends decided she should

or pensions from the government: Answer: Since there are so many different classifications for veterans of this and other wars, it is impossible for me to answer each communication individually, or to check up on so many cases. Best advice for an ex-soldier is to tell his story to the regional Veterans Administration office, if there is one handy. He may discover that he is not drawing.

Next best is to consult an adviser at the headquarters of any of the recognized veterans' organizations — the American Legion, Disabled Veterans, Veterans of Foreign Wars, the American Veterans' Committee.

SPAIN — "What would happen in Europe today, if Spain fell under the domination of Russian Communists? Our country seems to be pursuing the Russian path by treating that nation as an outpost. Why can't we choose between the lesser of two evils?"

Answer: To this question by M.A.L. of Ebersburg, Pa., there is only one answer: A Spain dominated by Moscow would be a peril all of Western Europe, and probably down effective operation of the Marshall Plan and the North Atlantic Pact. Under such circumstances, France, Portugal and Italy might easily become satellite countries. The Mediterranean might become a Red lake.

Domestic political considerations have blocked recognition of Spain so far. Foreign Minister Bevin fears adverse reaction among labor groups. President Truman dithers concerning Americans for Democratic Action. It would also give the Molotov-Vishinsky chorus a chance to yap-yap again about our "imperialistic" policies. Nevertheless, eventual reestablishment of relations with Madrid seems assured.

Don't discount granddaddy. Francis X. Bushman's granddaughter, Barbara, is making her acting debut on television. She is the daughter of Director Lew Landers. The New York Roxy is waving a \$10,000-a-week offer in front of Diana Lynn, who will accept if film schedules don't conflict.

Scotty Beckett, Jane Powell's teen-age friend in "A Date With Judy," gets his first grown-up role in MGM's "Battle Royal," in which he'll play a GI. It's a twist because he was considered "too old" for a role with Clark Gable in "Any Number Can Play."

ERKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD — (NEA) — Two weeks ago Mickey Rooney said he would sue his manager, Sam Stiefel, and demand an accounting of the profits in their partnership.

Today Mickey and Sam are patting each other on the back as co-producers of Mickey's new movie, "Quicksand."

The Mick says he's forgotten the suit and that he and Stiefel will produce two more films, "Ricochet," a Western which Mickey will direct, and "Buckaroo," a road story which he'll star in.

"Sam and I are old friends," Mickey told me. "That should explain everything. It didn't explain whether Mickey's lawyer told him he didn't have a chance to break his contract with Sam or whether Mickey had cooled down and changed his mind."

All he'd say was: "We're old friends."

Girls to Aid Cancer Drive

Fifty-seven girls of the Kit Kat Club and the Sub Deb Club have offered their services in the current American Cancer Society drive in Gray County. J. Ray Martin, chairman, said this morning.

The girls will work under the chairmanship of Mrs. W. R. Campbell and will solicit funds in the residential area.

"We appreciate their willingness," Martin said, "and we hope the public will support the girls by contributing to the drive."

The drive needs the monetary support of Pampans, he added. "Each receipt the girls give contributes to the cancer fund. Signs are written on the back and we hope Pampans will read them as a part of the educational phase of the drive," Martin said.

Girls lending their support to the drive include: June A. Fable, Ottilene Patton, Barbara Conrad, Lela Ward, Betty Joyce Scott, Sammie Frierson, Jo Ann Bennett, Ann Berry, Zula Brown, Donna Conley, Dorothy Dixon, Sue Hart, Mary Ellen Hawkins, Jean Hendricks, Betty Howard, Peggy Hukill, Virginia Jones.

Gertie Lake, Delores McAdams, Jean Patton, Merdella Roberts, Phyllis Scheig, Barbara Scruggs, Ann Sidwell, Carol Sloan, Gloria Stallcup, Joan Strong, Pam Thornton, Arvilla Patterson, Martha Parks, Donna Nestiel, Laura Nell Berry, Phoebe Osborne, Virginia McLaughlin, Gloria Ward, Jan Sanders, Vivian Brake, Beverly Brandt, Nansen Campbell, Jill Chapman, Diane Crawford, Euanella Johnson, Berdene Laycock, Norma Manatt, Cheri McDaniel, Delores Miller, Jewell Mowley, Jan Newcome, Tike Noss, Clarice Parks, Nancy Peterson, Ann Perkins, Thea Reim, Dora Rowe, Harriet Schwartz, Betty Wilson and Jane Wilson.

UNCONTESTED

(Continued from Page 1)
minutes of argument through the night and early morning. It was one of the longest one-man stands in recent legislative history. It was 2 hours 22 minutes short of the record set in 1945 by then-Senator Jesse Martin of Fort Worth.

Senator Bill Hudson of Pecos took up the filibuster where Harris left off. Others were set to follow.

Through most of the night Harris had paced the floor, hammered hard at medical profession, and the night, quieted down and joked through the entire proceeding. Senators snored, visited, and wandered about, listened occasionally.

Bloodshot eyes were about Harris' only visible sign of fatigue when he closed.

His voice still rang loudly and clearly in his closing remarks. "Fine, I feel fine," said the Navy-veteran hero of the ill-fated carrier Franklin when he left the floor.

Proponents of the House-passed measure fought back stubbornly throughout the night. They repeatedly refused to adjourn.

They served a barbeque supper, kept refilling a jug of hot coffee as it rapidly emptied, brought on a hot breakfast at 5 a. m. — all in adjoining committee room to which senators filtered back and forth.

The bill by Rep. Edward P. Hughes of Newton and others would require all who would practice any phase of the healing arts first to take state-supervised examinations in the six basic sciences: public health and hygiene, chemistry, physiology, anatomy, pathology and bacteriology. Chiropractors have bitterly fought the measure through several legislatures.

Harris said there isn't a school in Texas that offers all of the sciences.

"It's a vicious piece of legislation," he repeated time and again. He said the American Medical Association had "highly pressured" it through the Legislature.

"It was designed, created and directed at three classes of people — chiropractors, naturopaths and osteopaths," he said, heating his voice as he heatedly attacked.

"My days of getting medical attention have just ended," he joked.

At 4:30 a. m. he was back on the floor briefly helping Hudson. Hudson said he knew the bill would pass.

"The best we can do is stall off the evil hour as long as we can," he said.

He challenged the right of the Legislature "to vote anybody out of business."

PLAN TO CONGRESS
WASHINGTON (AP).— President Truman will send to Congress tomorrow his plan for a national health program, including compulsory government health insurance.

Dirtiest Ship I Ever Saw

Two seamen examine the battered furniture in a wardroom of the Milwaukee, lend-lease cruiser recently returned to Philadelphia by the Russians. A naval doctor reported that the 7050-ton vessel, which served five years in the Russian navy, was the "dirtiest ship I ever saw." Inspectors found filthy crew quarters infested with rats and vermin and the galley coated with a greasy film.

Members of Allston Family Take Stand at McGee Trial

LUBBOCK (Special) — Testimony in the murder trial of Richard W. McGee, on trial here for the killing of R. L. Allston on July 7, 1948, went into its second day today with the state calling eight additional witnesses to the stand.

First to take the witness stand was Mrs. R. L. (Ethel) Allston, widow of the slain man who reiterated substantially most of Betty Jane Allston's testimony yesterday.

Mrs. Allston under questioning added the description of the apartment with reference to the kitchen and dining room where the family was seated at the time of the shooting.

She named the members of the family seated at the table when the shooting occurred as Mrs. W. M. Allston of Amarillo, mother of the slain man, Sue Allston, 14, her younger daughter, and herself.

Mrs. Ethel Allston told the court and jury that they heard the conversation between Betty Jane and McGee in the kitchen. She quoted McGee as asking her husband to see Betty Jane and was refused.

McGee asked, she said: "Does this mean I am through?" "Yes, Richard, it does," Allston was quoted as replying.

Then she said she heard the shot fired. Mrs. W. M. Allston on the stand gave virtually the same testimony as the remainder of the family. The elderly woman showed signs of extreme nervousness and broke down several times on the stand.

Defense attorneys refused to cross-examine her.

The state then called two Lubbock pawn shop salesmen who identified McGee as the man who purchased a .38 calibre nickel plated Iver-Johnson revolver which was introduced by the state as Exhibit 1.

Two Texas Tech students also identified McGee as the man who asked them to drive him to Leveland sometime after 1 p. m. on the day of the shooting. They both testified they refused to drive him because they had to attend classes that day.

Bill Garrett, 24-year-old bell hop, took the stand to tell the court of his experience with McGee after the shooting. He testified that McGee forced him to drive him to Brownfield at pistol point. McGee, he said, kept the gun pointed at him all the way. During the trip, he added that McGee told him the whole story of his romance naming names and giving his own name. McGee he said told him: "I shot the son of a bitch (Allston) and I'd do it again."

During the trip, Garrett said, McGee told him to keep driving straight and he wouldn't hurt him and warned him not to try and notify police.

He quoted McGee as saying, when they stopped for gas: "Don't try to be a hero or I'll plug you. Stay in the car." Garrett testified that he was scared and tried to do everything McGee told him.

The last witness this morning was Policeman Roy Cates. Austin, who arrested McGee on an Austin bus from a description sent out across the state on him. His testimony was short and limited only to identifying McGee as the man he arrested on July 8 in Austin.

During the trial this morning McGee apparently lost interest in the proceeding and fell asleep at the counsel table with his head on his chest, where it has been most of the time since testimony began. The young defendant drooled over his suit while sleeping this morning. Prior to reopening of court this morning McGee was examined by a doc-

tor and pronounced in good physical shape.

Another sister of the defendant, Mrs. A. C. Holcomb, Dallas, was sworn in as a witness during the morning session of court today.

Yesterday Betty Jane Allston, daughter of the slain man, testified that McGee had struck her, cursed her and her family and threatened their lives two days before the shooting when her father refused to give permission for their marriage. She related McGee became "very angry" with her father when Allston inferred that McGee's income of \$100 was not enough for the two to live on. The income, she added, was his total disability from the government.

She also testified that her father refused permission for their marriage because of McGee's mental background and due to the fact he had been previously married and divorced.

Fire Damages Warehouse

Firemen spent two and one-half hours last night and early this morning battling a warehouse fire at the Skelly-Kingmill Camp, five miles west and one mile north of the Berger Highway.

When the firemen arrived at the warehouse about 11:40 p. m., the fire was spreading rapidly. By arriving when they did, they saved a garage and 12 cars, which was adjoining the warehouse, from catching fire.

Heavy damage was done, however, in the warehouse. Much of the equipment in the warehouse was destroyed, including paint, oil and hose.

"A short in the wiring probably started the fire," Fire Chief Ernest Winborne said. "We had to use the Skelly-Kingmill booster truck in addition to laying some of our hose."

TAYLOR

(Continued from Page 1)
much local districts would pay in relation to all other districts, and how much the state would pay.

The House batted down two amendments to Lock's bill yesterday.

One would have taken out a provision for school supervisors. It was defeated 81 to 42.

The other would have extended state aid to hiring of band directors and coaches. It lost 77 to 45.

Rep. George Nokes of Corsicana told the House the finance plan would provide a "fair and square" allotment from each county. He admitted it would raise the cost of some districts and counties.

"The bill is not intended to help any one county," Nokes said. "It would equalize the cost of the public schools among all counties and guarantee the minimum program of education to all counties."

Rep. Douglas Bergman of Dallas asked Nokes if passage of the Glimmer-Aikin bill would not create necessity for new taxes. Nokes replied, "We won't know whether new taxes will be needed until those bills are worked out."

He said he hoped the state would be able to operate with funds now available. Bergman rapped back he thought that passage of the school bills would "bankrupt the state and impose an additional tax burden."

"I'm against that," the Dallas lawmaker said.

The House voted to consider the bill section-by-section. That meant when it had disposed of one provision finally, no new amendments could be adopted to that section. Backers of the bill wanted to work it that way.

Jim Leonard, Villanova's new head football coach, also is an asparagus farmer. Leonard has a large farm in New Jersey.

Calves Donated As Club Prizes

Three calves have been donated as prizes for the Calf-Scramble to be sponsored June 10-12 by the Pampa Roping Club.

The prizes were given by Frank Carter (of Combs-Worley Ranch), Emmett LeFors, and Bob McCoy.

Boys from 8 through 16 are eligible for the contest, with an age group (yet to be designated) vying for a calf each of the three nights. Buck Hines is in charge of the calves, and is setting up rules for the contest.

Joe Loper, president of the club, announced.

Club officials are seeking to make arrangements for the winning boys to feed their calves and sell them in the Junior Livestock Show here next February.

State police found "a bushel basket of lonely hearts letters" on the Brennan farm and have been attempting to trace the men who wrote these to Mrs. Brennan.

Ugly Burglar's New Face May Bring Him New Life

BEFORE John Glaefke agreed to a plastic surgery job he appeared in police court as the "ugly burglar," (left) whose ugliness made him shunned. Now, after eight months of treatment, he appears as in the photo at right.

CLEVELAND — (NEA) — Police arrested a man caught red-handed in a petty robbery last April 11. He was carrying a gun dispensing machine away from a small confectionery store.

In court, the man told a strange story. He said he'd been driven to crime because people shunned him. They shunned him, he said, because he was so ugly.

Judge Frank Merrick and the court psychiatrist, Dr. Wilfred Gill and Royal Grossman, looked at the man with curiosity. What they saw convinced them he was telling the truth.

John Glaefke was not a handsome man.

So began the story of his transformation from the "Ugly Burglar" to a normal-looking man with a steady job and a chance for a normal future.

In the past eight months, Glaefke has had \$3,000 worth of plastic and oral surgery performed on his face. The cost to him was \$35. The work was done free by plastic surgeon Dr. Frank L. Meany and oral surgeon Dr. A. C. McGannon. St. John's Hospital took care of the hospital bills. All Glaefke had to pay was \$35 for material for dentures.

Since he was a child, John Glaefke had known he was ugly. Children in his school and neighborhood never played with him. Even in high school he was avoided. Since he was 17, he'd dreamed of a plastic surgery job, hoping that way he'd have friends.

"I thought I could get a better job and meet some nice girls," he explained.

In 1940, when he was 23, he broke into a school, stole a typewriter, and was promptly caught. He was sent to Ohio Reformatory.

But, even there, the prisoners would have nothing to do with him. So he walked away from the Honor Farm and headed for a different part of the country. He went to Missouri, but it didn't help.

In another of his petty thefts, he broke into a peanut machine

in Greene County, Mo., and again he was caught immediately. He served more time.

In 1945, Glaefke, now 28, was drafted. But it was the same story. His flat nose, wide nostrils, thick lips and protruding ears combined to make him so ugly that GI's wouldn't associate with him.

He tried to drown himself. The Army discharged him.

Back in Cleveland, it was the same monotonous tale. He ended with the gun machine theft and his trip to court, where he finally got the whole story of his lonely life off his chest.

Glaefke entered St. John's Hospital last August. Since then he has been hospitalized two other times, and has made many other trips to the doctors' offices. It will be a year before all work is finished.

Dr. Meany built a bridge for his nose and is now working to narrow his flaring nostrils. His lips were thinned by a third operation. All his teeth were removed and dentures made.

He is now working as a laborer, at \$38 a week. He is going to night school, hoping for a better job in time to come.

"His attitude is about the best of all my probationers," says the probation officer he reports to every Friday. "He is a changed man. It is almost unbelievable."

And, at 32, John Glaefke finds life is no longer unbearably lonely. People, who once shunned him because of his ugliness, are helping him now.

PASSENGERS DETAINED
BERLIN — Three lake passenger steamers from the Soviet sector of Berlin were detained by West German police when they crossed Lake Havel into the British Zone yesterday.

Highest skyscraper outside New York City is the Cleveland Terminal Tower, which has 52 stories and is 708 feet high.

Pro-Russian Speeches on Parley Slate

PARIS — (AP) — Konni Zilliacus, leftwing British legislator, told the Communist-sponsored "world peace congress" today the "workers of Britain will not fight or be dragged into fighting against the Soviet Union."

Paul Robeson, American Negro singer, told the delegates yesterday that Negroes in the United States would never fight the Soviet Union and his statement brought a quick retort from a Negro leader in New York.

Zilliacus, a member of the British Labor Party, called upon the delegates to produce a reasonably detailed set of proposals "for settling issues between the East and West."

The audience followed the speaker only listlessly during his attack on the North Atlantic Defense Alliance and American foreign policy, attacks which echoed yesterday's opening barages.

Robeson's statement brought a quick retort from the head of the National Association for the Advancement of Colored People in New York City.

"In the event of any conflict that our nation has with any other nation, we will regard ourselves as Americans and meet the responsibilities imposed on Americans," said Walter White, secretary and leader of the NAACP.

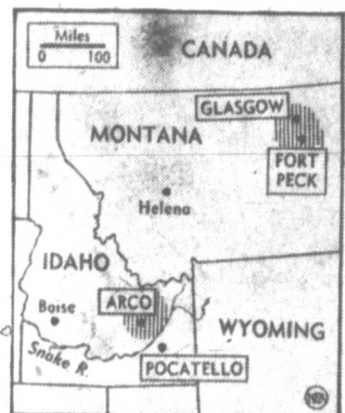

"We do not feel that Mr. Robeson voiced the opinion of the 14,000,000 Negro Americans," White added.

Robeson had said "it is unthinkable" that American Negroes would go to war on behalf of those who have oppressed us for generations' to fight the Russians.

Approximately 2,000 delegates from many nations are attending the congress.

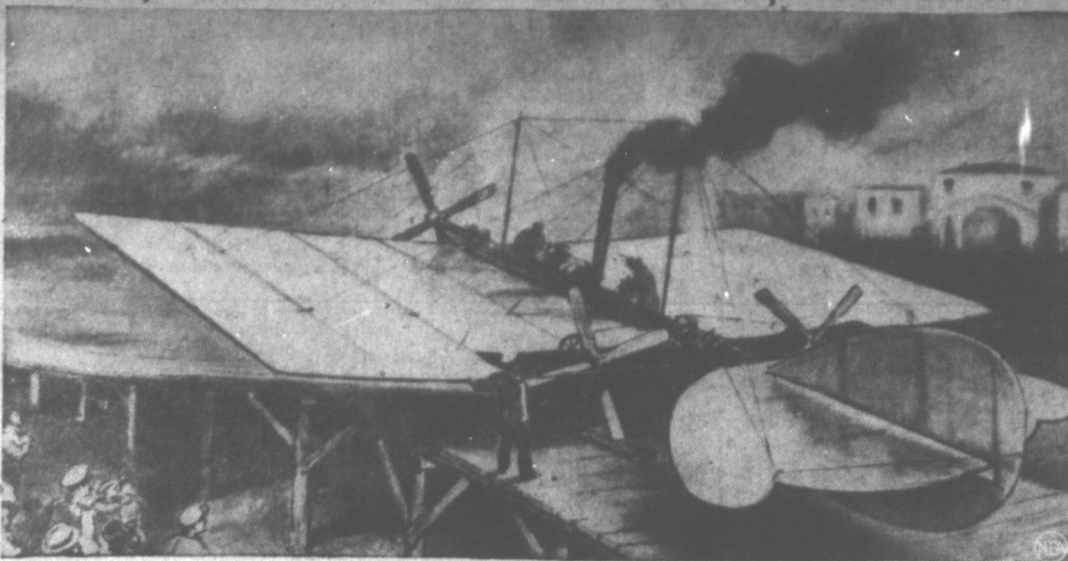

Trees breathe through tiny openings on the under side of their leaves. A single apple leaf has more than 1400 of these pores.

New Atomic Site

The Atomic Energy Commission announced it has chosen 400,000 acres near Pocatello, Ida., as the best site for its mammoth new atomic power reactor plant. The area includes the Navy proving ground at Arco. Second choice for a site was the Fort Peck-Glasgow area in northeastern Montana.

Maybe Orville and Wilbur Just Improved on It

This, according to the official Soviet picture agency, is "Moshinsky's plane, on the runway made of boards, before the takeoff for the world's first flight in a steerable-than-air machine." Unable to furnish actual photographs, the Russians supplied this painting of their claim that Russian inventor Alexander Moshinsky produced this steam-powered flying machine, with three four-bladed propellers, and successfully flew it July 20, 1922.

San Jacinto Day Observed By Texans

By The Associated Press

Texas remembers Sam Houston and his band of ragged volunteers today and marks the 131st anniversary of the battle at San Jacinto which gave it independence from Mexico.

The impressive monument to those warriors is the center around which the biggest ceremony takes place. The day-long program at the tall spire on the San Jacinto Battleground near Houston starts at 10:30 a. m.

At San Antonio, where the state's merriest tribute to the handful of men who caught Santa Anna asleep in full swing, Fiesta San Jacinto reaches a climax.

At the monument Hugh R. Culen, Houston oilman and philanthropist, is to be the principal speaker.

The state organization of the Sons of the Republic of Texas will meet earlier and elect new officers.

Members of the Sons and Daughters of the Republic of Texas will eat lunch on the deck of the Battleship Texas, dedicated as a state shrine last San Jacinto Day. The battleship is retired.

Military planes will fly over the battlefield from Eighth Air Force planes from Fort Worth. John J. Herrera, Texas regional governor of the League of United Latin-American Citizens, will place a wreath on the monument.

You remember what happened at San Jacinto:

It was 1836 and a handful of Texans were trying to break away from a Mexican government they considered tyrannical. The Mexican General Santa Anna had won several big victories, including the slaughter at the Alamo in San Antonio, and, assuming the war was over, swept eastward.

He camped at the junction of the San Jacinto River and Buffalo Bayou.

General Houston and his Texans were in the rear. On April 20 Houston's forces took up a position opposite the Mexicans.

The arrival of another 400 troops brought Santa Anna's force to approximately 1600 men. Houston had between 700 and 800. Santa Anna felt secure, and was taking a siesta when the Texans charged with the battle cry of "Remember the Alamo."

Houston reported 630 Mexicans killed, 280 wounded and 730, including Santa Anna, captured.

Two Texans were killed and 23 wounded.

There were 19 commercial aviation operators in the U. S. in 1926, and nearly all were small private enterprises.

Estimates place the Indian population of America, at the time of Columbus' voyage, at approximately 850,000.

Explorers in the Yukon territory, Canada, during 1935, discovered 19 new mountain peaks more than 10,000 feet high.

Mrs. J. L. Blair Buck, president of the General Federation of Women's Clubs, checks pre-convention reports from member clubs.

If You'll Notice, House Debate And Congressional Record Differ

By JAMES MARLOW

WASHINGTON — (AP) — This story has a moral: You have to keep your eyes and ears open or you'll miss something. The House was debating — it later approved — a defense program of about \$16,000,000,000.

Up stood Rep. Clarence Cannon, Missouri Democrat, to tell the House he thought a big wad of the dough ought to be spent on long-range planes — this is where ears and eyes became important.

For the next day the New York Times reported Cannon as saying, among other things, that if war started—

"Moscow and every other center in Russia, we must hit within one week after the war starts, and it can be done only by land-based planes such as we now have."

"We will not necessarily have

to send our land Army over there. In the next war, as in the last war, let us equip soldiers from other nations and let them send their boys into the holocausts instead of sending our own boys. That is what long-range planes mean."

Our future allies, reading that in The Times, might get the impression that we were thinking of doing the blasting while our allies did the dying on the battlefield.

But when the Congressional record of Cannon's speech came out the next day, this particular part didn't read the same way. It sounded milder in the record. It said:

"Of course, a war could not be won by air power alone. There must be troops for occupation and Navy ships for transportation."

But under the Marshall Plan and the Atlantic Pact we will have allies with troops and ships who should also be given an opportunity to discharge their obligations as contracting powers.

"Why not let them contribute some of the boys needed to occupy enemy territory after we have demoralized and annihilated the enemy territory from the air?"

Which version is correct? The one in the New York Times, noted for its accuracy, which is the same version our own Associated Press reporters had? Or the version which appeared in the Congressional Record?

I called Cannon and asked him. He said he hadn't read the published account quoted above. But he also said he did not know whether that's what he said on the floor.

Why?

He said he was excited at the time. He said he had gone on the floor with a prepared text. And it's his prepared text which appears in the Congressional Record.

Then I asked him if he—as many congressmen do—altered what the stenographer had taken down on the floor of the House before it could be printed in the Congressional Record.

No, he hadn't touched the Congressional record after his speech, he said.

A half million full moons would be required to equal the light of the sun.

Bowling was introduced in the United States during Colonial times by Dutch settlers, according to the Encyclopedia Britannica.

No point in Franklin County, Ida., is lower than 4,600 feet and no part of Dear Lake County is below 5,500 feet.

Carson City, Nev., with a population of about 2,500, is the smallest capital city in the United States.

How to make the STRAWBERRY JELLY that won a State Fair Prize

Wash and stem strawberries, crush and place in boiler. Bring to boil very slowly. Boil 15 minutes, strain and measure. To each cup of juice stir in 1/2 cup of Imperial Pure Cane Sugar. Boil again until bubbly. When it makes a good test (slide of the side of a spoon or bottle from the rim of the spoon in one place), pour in glass jars and cover with paraffin.

The above recipe won a blue ribbon at the Texas State Fair, 1948 out of 105 prize winners in 1948 State Fair Culinary Contests used Imperial Pure Cane Sugar. Imperial Sugar is 100% pure cane of finest quality. It dissolves quickly, eliminating graininess and assuring smooth texture.

Forty-Six Boys Registered So Far in Soap Box Derby

This illustration is a key to the 1949 rule book, showing which section of the book applies to the parts of the car.

Forty-six boys have been officially signed for the Soap Box Derby races which will be run on the old Miami Highway here July 24.

Of that number, 20 are from Pampa, one is from McLean, and 25 are from Borger. This is the first time that a neighboring city has had more entries than Pampa. Registration is still continuing at Culberson Chevrolet for those who are in the age limit — 11 through 15, with boys who are 10 and become 11 before Aug. 14 being eligible. (Boys who become 16 on or before that date are not eligible.)

Sponsors of the local race are Chevrolet Division of General Motors (and Culberson Chevrolet), the Pampa Daily News, and the Pampa Lions Club.

Local officials have announced

PILES Hurt Like Sin! But Now I Grin

Thousands change groans to grins. Use *Enders' Formula* to relieve discomfort of piles. Best druggists by noted Thorndon & Minor Clinic. Surprising QUICK salve relief of pain, itch, irritation. Tends to soften, shrink swelling. Use *Enders' way*. Get tube Thorndon & Minor's Rectal Ointment or Rectal Suppositories today. Follow label directions. For sale at all drug stores everywhere.

Greatest Show on Earth Takes Place in Senate

By JAMES MARLOW

WASHINGTON—(AP)—“This is the greatest show on earth,” the man said. He was sitting in the Senate gallery, watching for the first time the Senate at work.

After looking at it for years, I agree with him. Nothing in Washington compares with those 96 men shaping our age as they talk and act their way through the days, weeks and years.

No matter what they argue about, the stake is always human lives. For whatever they talk about it, it's going to affect people somewhere in some way, here or abroad, and maybe the future of the world.

It's the way it's done that holds the eye: dramatics, calm reasoning, shouting that blurs the ear, sarcasm, fast-thinking, courtesy, old-fashioned oratory, stuffy oratory.

Senator Kem, for instance, the Missouri Republican, sits up ramrod straight, conspicuous by his snow-white hair, his eyes following everything, his head almost not moving. He talks without flourishes.

It's different with Senator Tom Connally, the Texas Democrat who has an actor's hair curling over his collar. He gets enthusiastic when he talks, parades up and down the aisles, wags his fingers, and prances around in mimicry of what someone has just said on the floor. He's the Senate's mimic. His oratory: sometimes straightaway, sometimes old-fashioned.

One of the best and sharpest talkers of them all is Senator Pepper, Florida Democrat.

Recently an Indiana Republican, Senator Jenner, tried to needle Pepper by pointing out that Pepper has changed some of his thinking in the last decade. “O, consistency, thou art a jewel,” Jenner said, reproachfully.

Pepper shot back: “The consistency, thou art a jewel” quotation must be put alongside the question of, I believe, Emerson, who said:

“A foolish consistency is the hobgoblin of little minds, adored by little statesmen and philosophers, and divines.”

Jenner retired to the sidelines for a while.

COMPARED
Saturn's volume is about 700 times that of the earth. It exceeds the earth in mass only about 95 times, however, since its density is much less than that of our planet.

Alexandrite, a gem, is green by daylight and cherry-red by artificial light, according to the Encyclopedia Britannica.

Jester to Speak At Dedication

LUFKIN—(AP)—Governor Beauford Jester will be principal speaker May 7 when a new million dollar memorial hospital is dedicated here.

The hospital was built and will be operated by a non-profit corporation set up by local industries. It is a memorial to the late industrial leaders of Angelina County. It has 102 beds.

Ernest L. Kurth, president of Southland Paper Mills, Inc., is president of the Board of Directors. Col. Cal C. Chambers, president of Texas Foundries, heads the Board of Trustees.

Bears List Schedule

WACO—(AP)—Ralph R. Wolf, athletic director at Baylor University, has announced the Bears' 1949, ten-game football schedule.

Baylor's 1949 grid slate includes four home games, five contests away from home in Texas and one out-of-state date. The Baylor-TCU game in Waco, on Oct. 29, will be homecoming.

The complete schedule announced by Wolf is:

Sept. 24, University of South Carolina at Waco; Oct. 1, Mississippi State College at Starkville, Miss.; Oct. 8, University of Arkansas at Waco; Oct. 15, Texas Tech at Lubbock; Oct. 22, Texas A&M at College Station; Oct. 29, Texas Christian at Waco; Nov. 5, Texas University at Austin; Nov. 12, University of Wyoming at

Current Business Slump May Be A Leveling Off From Inflation

AUSTIN—(AP)—Texas business sailed in calmer waters last week. There were increasing signs that the current business slump may be only a possible leveling off from the inflation — but short of recession.

Among the signs: Report of a 20.6 percent increase in March retail sales over February.

Snaps back in construction from the year's lowest week to one of the year's highest.

Stable banking conditions. Increasing employment and declining unemployment.

This is the way Dr. A. H. Chute, retailing authority at the University of Texas, saw it:

“There may be good reason to believe, although it is certainly too easily to conclude, that the threatened postwar recession has again been postponed for some months, in its more threatening phases.”

“Two added shafts of sunshine through the clouds are in the facts that (1) price and inventory adjustments in various lines of merchandising have been pro-

ceeding with so little disturbance to the whole economic system, and (2) that so many business men have sensed the need for alertness and caution and have tried to avoid ‘rocking the boat.’”

The university's Bureau of Business Research said 1,380 Texas retail stores, almost without exception, reported considerably improved March sales over February. The average was 20.6 percent better. The sales weren't as good as a year ago, but on the average they weren't too much lower — 2.3 percent.

New construction totaling \$25,-

109,518 went under contract during the week, The Texas Contractor, trade publication reported. It was the fourth highest week this year. It followed the year's lowest — \$9,501,999 last week. Texas banks reported deposits down since Dec. 31 but generally ahead of year-ago levels. The drops, bank officials said, were seasonal.

Both High and Low Blood Pressure

Successfully treated by taking BOAZ TABLETS three times a day. No dieting or restrictions of any kind. Symptoms: headache, dizziness, pain in back of head and neck, irregular heart action and cramping in legs... and many others.

WHITE SUPER DELUXE
WITH Cold Rubber
is the very
ultimate in TIRE
MILEAGE...

SCIENTIFIC SUPERIORITY. Cold Rubber chosen by Science Service as one of the 10 Leading Scientific Achievements of 1948, placing this discovery in a class with atomic developments, attainment of supersonic speeds, discovery of new miracle drugs, etc.

ENGINEERING SUPERIORITY. Designed by leading tire engineers to incorporate the ultimate attainments of the past 75 years in tread design, new rayon cord body, extra sidewall strength and flexibility, greater heat resistance, superior construction.

MILEAGE SUPERIORITY. Predictions by researchers that these tires would be "the finest the world has ever known" have been proven true by millions and millions of test-foot miles, giving overwhelming evidence, in sustained, around-the-clock, high speed runs in every kind of weather, that Cold Rubber tread outwears the finest natural rubber... give 30% more mileage!

Only ONE Tire...
The WHITE Super Deluxe
...Can Give You BOTH!

Here, then, in one great tire, are all the qualities you've always wanted...absolute assurance of longer mileage...freedom from tire-trouble worries...maximum of safety...driving ease and riding comfort...all the premium quality features at a price lower than most mere first-line tires! Why take less? "The World's Best Tires Are Here"...NOW...at your White's Auto Stores!

NOTICE TO BIDDERS

Sealed proposals addressed to the Mayor and City Commission of the City of Pampa, Texas, will be received at the office of the City Secretary, City Hall, Pampa, Texas, until 1:30 P. M., May 10, 1949, for furnishing all necessary machinery, equipment, superintendence and labor for installing cast-iron, concrete and cement-slab water lines.

Bidders must submit Cashier's or Certified Check issued by a bank satisfactory to the Owner, or a Bidder's Bond from a reliable Surety Company, payable without recourse to the order of C. A. Huff, Mayor, in an amount not less than five (5.00) percent of the largest possible bid submitted as a guarantee that Bidder will enter into a contract and execute bond and guaranty in the forms provided within ten (10) days after notice of award of contract to him. Bids without required check or Proposal Bond will not be considered.

The successful Bidder must furnish performance bond in the amount of 100 percent of the total contract price from a Surety Company holding a permit from the State of Texas to act as Surety, or other Surety or Sureties acceptable to the OWNER.

All line and unit prices must be stated in both script and figures. The Owner reserves the right to reject any or all bids and to waive formalities in case of ambiguity or lack of clearness in stating prices in the bids. The Owner reserves the right to consider the most advantageous construction thereof, or to reject the bid. Unreasonable (or "Unbalanced") unit prices will authorize the OWNER to reject any bid.

Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions. Attention is called to the fact that there must be paid on this project not less than the general prevailing rates of wages which have been established by the OWNER as the following:

1. Mechanic, Workman or Type of Labor:
2. General Prevailing per diem wage based on 8 hour working day.
3. General Prevailing Hourly wage:
Skilled, 2.12.00 to 22.00, 2.11.50 to 21.75.
Semi-Skilled, 2.08.00 to 12.00, 2.10.00 to 11.50.
Unskilled, 2.08.00, 2.11.00.

(Detailed Labor Classifications and Corresponding Wage Rates are set out in the Specifications.)
The Bidder's attention is also called to the special provisions concerning minimum wage rates and hours of employment included in the specifications and that compliance must be insured with House Bill No. 54 of the 42nd Legislature and House Bill No. 115 of the 44th Legislature of the State of Texas, and also all Federal Wages and Hours Legislation applicable.

Instructions to bidders, proposal forms, specifications, and plans are on file at the office of the City Secretary at Pampa, Texas.
Copies may be secured from Roberts & Merriman, Consulting Engineers, 218 N. Russell, Pampa, Texas, or 1310 Avenue Q, Lubbock, Texas, upon deposit of \$25.00 each, which deposit will be returned to the Bidders on submission of a bona fide bid on the work, with such plans and specifications, or upon returning the Plans and Specifications immediately after examination of same, and advising the ENGINEER that bid will not be submitted; otherwise, the deposit shall be forfeited. No obligation is assumed to return deposits under other conditions.

No Ape Will Make Monkey of Her

LOS ANGELES — (AP)—No circus ape is going to make a monkey out of Mrs. Mayme G. Rosa.

That was the essence of a \$10,000 damage suit she filed against the Clyde Beatty Circus. Mrs. Rosa said in her complaint she was visiting the circus when an announcer told the audience an ape had escaped from its cage.

Shortly thereafter, Mrs. Rosa said, she found herself in the arms of a man dressed as a gorilla. She fainted in terror, she said.

She thought it was the genuine article.

FISH MEALS SAVE CASH

RECIPE
BOILED FISH AND EGG SAUCE
—NEW ENGLAND STYLE
Cut fish into serving portions. Place in cheese cloth bag place bag in 2 quarts boiling water. Add 2 tablespoons salt, and a clove. Cook 15 minutes. Remove, serve on hot platter and pour egg sauce over fish.
EGG SAUCE—Beat 2 eggs, butter in saucepan, add 2 tbsp. seasoned flour, stir until thick. Add hot milk, stirring constantly, add finely chopped yolks 2 hard-boiled eggs. Bring to boil, and let boil two minutes.

McLean's Oldest Resident To Celebrate 93rd Birthday

FIVE GENERATIONS of one family are shown in the above picture. Seated at the right is Mrs. Hannah Crawford, McLean's oldest resident; behind her is her son, George Hunt of Skellytown; next to him is his daughter, Mrs. Wayland Ayers of McLean; her daughter, Mrs. Ervin Savage of Amarillo is seated on the left next to Mrs. Crawford; and the fifth generation is represented by Peggy Joyce Savage, sitting on her mother's lap.

By MRS. LUTHER PETTY
Pampa News Correspondent

McLEAN (Special) — Mrs. Hannah Crawford, McLean's oldest citizen, is soon to celebrate her 93rd birthday.

A pioneer herself, she was born May 28, 1856, in Raleigh, Ill., to Mr. and Mrs. Charley Sloan, pioneer farmers in the region.

Hannah Sloan became the bride of Perry Hunt shortly before she was 16. After the birth of their son, Abe, they moved from Raleigh to McPherson County, Kans.

The young couple encountered many hardships during the two years they spent in Kansas, where their second son, Charles, was born. They had to go 10 miles to obtain food for fuel and one year the grasshoppers swarmed in like clouds, Mrs. Crawford said, and ate not only all the crops, but all the grass as well.

They moved back to Raleigh where four other sons were born and where Mr. Hunt died in 1886.

About five years after Hunt's death, Mrs. Hunt married Braxton P. Crawford. After a year at Raleigh, the Crawfords came West and spent the next several years in Texas and Oklahoma before settling near McLean.

They spent about three years near Seymour, Tex., and then moved to Washita County, near Cordell, Okla., for a few more years. Then they moved to Donley County, in the Skillet community, about eight miles south of McLean.

There they filed on one and a half sections of land. The Crawfords lived in a one- or two-room sod house at first, but later replaced it with a two-room frame house. A son, Herman, still lives on a portion of the original homestead.

Prairie fires endangered this pioneer family many times, and Mrs. Crawford says that herds of wild antelope were a common sight.

In 1902 the family moved to Gray County, the year the Rock Island Railroad was built. They first settled in the McLaughlin Addition, now the southeast part of town, where they had the misfortune to lose their house by fire. Later they moved to the southwest part of town and about 25 years ago Mrs. Crawford moved to a new six-room house in the northwest part of McLean, where she still lives.

Mrs. Crawford has had only one serious illness in her nearly 93 years. In recent years she has been injured several times by falls, but is still able to look after her household duties, assisted by her son, Arthur, who lives with her.

When the Crawfords first moved to Donley County their nearest neighbor was the W. W. White family that lived about a

mile away. Mr. and Mrs. Pierce Reeves were the only ones living near the present site of McLean.

This place is now occupied by a son, Boyd Reeves, and family, about two miles south of McLean.

W. E. McLaughlin operated the first store, and sold it later to G. C. Cook. Some other old timers Mrs. Crawford remembers are Lusse Oliver, A. B. Gardener, Alfred Rowe and a Mr. McCracken.

"Abe Hunt, Mrs. Crawford's first child, died about four years ago in Amarillo. Her other children, still living, are: Charley Hunt of Skellytown, Herman and Arthur Hunt of McLean, Luther Hunt of Winslow, Ark., Mrs. Cleveland Johnson of Briscoe, Tex., and Mrs. Robert L. Jones and Mrs. Jim L. Cook of Amarillo. Bernice and Henry Crawford died in infancy at Farmersville, and their father died at McLean in 1905.

Mrs. Crawford was one of eight children, and she has four sisters, three brothers, and a half-sister still living.

In later years, Mrs. Sloan, Mrs. Crawford's mother, married Perry Hunt's father and thus became her own daughter's mother-in-law. Perry Hunt was Mrs. Crawford's first husband.

Besides her eight living children, Mrs. Crawford has 14 grandchildren, 17 great-grandchildren, and three great-great-grandchildren. The three representatives of the last generation are Peggy Joyce Savage and Junior N. Savage, children of Mr. and Mrs. Ervin Savage, and Sandra Kay Ayers, daughter of Mr. and Mrs. J. D. Ayers, all of Amarillo. Sandra Kay, who was born Feb. 3, has 13 living grandparents.

Civil Service Positions Open

Applications for the U. S. Civil Service Commission's examinations for custodial laborer, janitor, charman and charwoman may be obtained at the Postoffice for another week, W. B. Weathered, postmaster, said this morning.

The examinations will be given at the Texas postoffices. Two permanent custodial labor positions are now open at the local Postoffice, Weathered continued.

Competition in these examinations are restricted by law to applicants entitled to veterans preference and applications from non-preference applicants will not be considered.

Further information concerning the examinations may be secured from the commission's local secretary, C. W. Stowell, at the Postoffice.

Half Diabetics In U.S. Do Not Know Condition

Of two million sufferers from diabetes in the United States today, one million don't know they have the disease, declares C. Lester Walker in The Reader's Digest. Some doctors believe that, if all the figures were in, diabetes would rank seventh on the "killer list."

Walker's article, condensed from Harper's Magazine, says the American Diabetes Association hopes to find the unknown cases, through publicity and with the aid of physicians in every community. A blood-sugar and urine-sugar test will be offered free to anyone who has a diabetic heredity. In cooperation with the U. S. Public Health Service, diabetes surveys of individual towns are being made, following a procedure successfully used in Oxford, Mass. Tests given 70 percent of Oxford's citizens disclosed three unknown diabetics for every four known.

Insulin, plus diet, is still the only remedy, Walker states, and the American Diabetes Association "is forcefully warning that claims for any other medicine are sheer quackery." But two new forms of insulin "have so far advanced the treatment that diabetics may now lead practically normal lives." The new forms, combining insulin with protein, are called Protamine Zinc Insulin and Globin Insulin. Pure insulin acts immediately upon injection to lower the diabetic's blood sugar, but its effects last for only five to six hours. The new Protamine and Globin act more slowly, but are effective over periods ranging from 18 to 72 hours. By mixing the two the patient can "tailor" the dose to his individual blood-sugar content. Most diabetics need now take insulin but once a day.

Under proper treatment the diabetic has an excellent chance to live a long and vigorous life, Walker says. Prominent diabetics who had active careers were H. G. Wells and Florentino LaGuardia. The "most amazing current example" is tennis star William F. Tabbutt, who, despite severe diabetes for 20 years, has played in 500 tournament matches.

New knowledge of diet has enabled the diabetic to eat "satisfying amounts of carbohydrates, fats and even sugars if he keeps his weight down. Diabetes prevents fat people, the author states, and is definitely inheritable. Pregnancy, however, need no longer be feared by diabetics. A pre-natal treatment with hormones is credited with giving diabetic women a 25-to-1 chance to bear a healthy child.

Elizabeth is 23

LONDON (AP) — Princess Elizabeth, heiress presumptive to Britain's throne, will be 23 years old tomorrow.

Needy Italians See Little of E. R. P.

Despite the huge sums the European Recovery Program has poured into Italy, scenes like this are still common in Rome. Here the children of a jobless Italian share the family's only bed with flies and vermin. Most of the E. R. P. money goes to increase Italian industrial production. (Photo by NEA-Acme staff correspondent Massimo Ascari.)

New Progress Made In Cancer Research

By AETON L. BLAKESLEE
AP Science Reporter

DETROIT (AP) — New steps toward forging chemical bullets to kill cancer were reported to the American Association for Cancer Research.

The new findings are half a dozen chemicals M. destry parts of tumors and slow down cancer growths in mice and other animals. But they are also poisonous and dangerous. It is not yet known whether they will be of value for human use.

The fact that they work a little bit against cancer is hopeful. Starting with them, man-made bullets may be fashioned which can be injected to seek out and kill cancers without seriously harming the human host.

The new chemicals were developed in a series of reports by scientific teams at the National Cancer Institute, Bethesda, Md. The reports were made by Drs. Jonathan L. Hartwell, Wendell E. Dettly, Joseph Leiter, M. J. Shear, Virginia Downing, Ezra Downing, Ezra M. Greenspan, Ross C. MacCardle, Adrian Perault, V. Waravdekar, and Donald L. Vivan, all of the chemotherapeutic section.

Three of the newer chemicals come from a plant, the May apple or mandrake root. A crude extract, podophyllin, from this plant has affected several kinds of cancer transplanted into mice. The new trio are purified chemicals isolated from this crude stuff.

They are at least as effective against the mouse cancers, but are less toxic. Each shows slight differences.

Two curious things turned up in these tests. One is that it makes a difference how the atoms are arranged in the chemicals. They are made of exactly the same things. If the atoms are arranged in a certain way, the chemical works against the cancer, although only partially and temporarily. But if the atoms are spaced slightly differently, it doesn't work.

The other finding is that the atomic arrangement that works seems to do it by interfering in some unknown way with other chemicals, the enzyme systems, inside the cancer cells.

GOVERNOR RENAMED
NEWARK, N. J. (AP) — Gov. Albert E. Driscoll scored a better than two-to-one primary election victory yesterday in his campaign for renomination by the Republican Party.

The influence of the Gulf Stream can be felt as far north as Cape Cod, Mass.

Mother Love Has No Bounds

LOS ANGELES (AP) — Mother love, it seems, has no bounds. Stinky, a familiar figure along the Los Angeles Harbor waterfront, went foraging for food for her four kittens.

The cat got aboard the Kenyon Victory and wasn't discovered until after the freighter had shoved off for San Francisco. And there were the 12-day old kittens back on the dock, without mama.

The Ishman Steamship Co., which let Stinky and her brood have a pier shed for a home, put in a hurryup call to its San Francisco office. The order: put Stinky on the first boat back to Los Angeles.

In the meanwhile, Walter Dialorke, waterfront detective, located Brownie, a dog of uncertain parentage, but a recent mother herself. So Stinky's kittens are taking

pot luck with Brownie's two pups. The traffic is heavy at mealtime, but so far no cat and dog fights.

Parties, Dance Highlight ESA Rushing Season

Mrs. Jean Haw and Mrs. Guy LeMond were in charge of the program at the Epiphany Sigma Alpha regular meeting in the City Club Rooms Thursday, April 14. Mrs. Haw presented a condensation of Dale Carnegie's "You Are Better Than You Know."

After the program members were served an ice cream roll, and a tiny colored chicken, in keeping with the Easter season. Rush parties were discussed, and for those who could not attend, a resume was given of the breakfast held at the home of Mrs. Ed Givens, April 10.

Mrs. Givens' "Come As You Are" buffet breakfast was the first of a series of parties to be given honoring the rushers of the sorority. Hostesses for the occasion, besides Mrs. Givens, were Mrs. Guy LeMond and Mrs. Burton Doucette. Miss VaRue Dyson called for members and rushers at 7 a.m., rousing them from their Sunday morning sleep, to take them to the breakfast. Upon their arrival, in their robes and sleeping tugs, the rushers were presented with a jonquil, the sorority flower.

The serving rooms were decorated with spring flowers arranged by John Phelps. Besides the floral arrangements, each table was set with wagon wheel pottery. Rushes present were: Mrs. Florence Duke, Charles Robinson, Joe A. Mitchell, and Harvey Longren.

Members present, in addition to the hostesses named, were: Mrs. Bert Arney, Oran J. Payne, Irving Akst, Robert Burks, Albert Doucette, John Nutting, Bill Ragdale, H. D. Foster, Parks Brumley, Lillian Kelley, Jean Haw, and Margaret Dial.

Other parties planned for the rush season include a tea and a formal dance. The dance, climaxing the season, will be the occasion for introducing new pledges, and will be held at the Country Club.

Girl Scout Troop 28 Visits Floral Shop

Girl Scout Troop 28 visited the Blossom Shop recently to see the Easter flowers. C. L. Parker gave each girl a novelty candle, and the troop leaders a rose.

The group then went to the City Park where a surprise Easter egg hunt took place. The eggs were hid by Mrs. J. C. Steward and Mrs. E. O. Wedgeworth.

Girls participating were: Ruth Helen Steward, Myrna Matlock, Carol Carnes, Jennie Hally, June Smith, Dorothea Allen, Carol Ren Miller, Nancy Coley, Betty Hinton, Jerry Shelton, Mary E. Young, Martha Skelly, Charlotte Leder, Anita Wedgeworth, Sheila Chisholm. Troop leaders are: Mrs. Mmes.

25th Wedding Anniversary Honored By Mr. and Mrs. F. M. Culberson With Reception at Country Club

Approximately 600 guests attended the reception given by Mr. and Mrs. F. M. Culberson in honor of their 25th wedding anniversary Monday night at the Country Club.

Mr. and Mrs. Culberson's daughter, Dorothy, and niece, Betty Jo Nichols, of Centralia, Ill., Mr. and Mrs. Ross Bair, of Minneapolis, Kans., and Mr. and Mrs. Ralph Dunbar were present. Mrs. Bair is a sister of Mrs. Culberson.

Assisting Mr. and Mrs. Culberson with the reception were: Mr. and Mrs. Roy Bourland, Mr. and Mrs. George Scott, Mr. and Mrs. Farris Oden, Mr. and Mrs. Paul Brown, Mr. and Mrs. Ivy Duncan, Mr. and Mrs. Charlie Thut, Mrs. T. F. Smalling, Mrs. C. S. Boston, Mr. and Mrs. Roger McConnell, Mr. and Mrs. Alex McLennan, Mr. and Mrs. J. E. Massa, and Mr. and Mrs. Hudson Davis of Borger.

Out-of-town guests included: Mr. and Mrs. Sherman Harriman and Mr. and Mrs. Lehmur Dunn, of Amarillo; Mr. and Mrs. Frank Jennings, Mr. and Mrs. Ed Turner, and Mr. and Mrs. Johnny Maar, all of Borger.

Bernie Howell, of Amarillo, provided music for dancing. Punch and cake were served. The table was decorated with an arrangement of white gladioli and stock, around a silver wedding ring, flanked by silver candelabra. On the wall behind the serving table were the figures "25" carved in ice, decorated with fern and gladioli, and lighted from the back.

The lounge, foyer, and ballroom were decorated with white calla lilies, white stock, and other flowers sent by friends.

Shamrock Forum Club Studies Economics

SHAMROCK — (Special) — Mrs. Gaston Harbour was hostess to members of the Forum Club at her home on North Wall Thursday afternoon.

The program subject was "Economics." Roll call responses were "Facts and Figures."

Mrs. Jack Stroup discussed "Andrew Carnegie." Mrs. W. R. Wooten's subject was "Rockefeller Institute," and Mrs. S. Q. Scott gave "Men of Achievement: Fowler McCormick, K. T. Keller."

Present were Mrs. B. F. Kersh and Marshall Adams, Mrs. Perry Bear, E. K. Bechtel, Sol Blonstein, Rufus Dodgen, Shirley Draper, Louis Hill, Lyle Holmes, William F. Holmes, Jack Stroup, Winfred Lewis, Albert Ryan, S. Q. Scott, M. A. Whitehurst, W. R. Wooten and Seibert Worley.

BELLS SCARED SPIRITS
Bells formerly were rung at funerals in order to frighten evil spirits away from the soul of the deceased, according to the Encyclopedia Britannica.

W. E. Hinton, Robert Coley, G. A. Dunn.

Joan Stroup Is Sub Deb Club New President

Miss Joan Stroup, a Junior at Pampa High School, was elected president of the Sub Deb Club at its meeting, April 19, at the home of Miss Donna Conley, 1032 Christine.

The newly elected officers include: Peggy Rukill, vice president; Dorothy Dixon, secretary; Ann Sidwell, treasurer; Sammie Frierson, historian; reporter; Barbara Scruggs, parliamentarian.

Miss Phyllis Scheig was named chairman of the planning committee for the Mother's Day Tea to be held at the City Club Rooms, May 8. Chairman of the planning committee for the Senior Tea is Miss Peggy Rukill.

Club members will solicit funds for the Cancer Drive, as a community service.

A food sale at the Piggly Wiggly Grocery Saturday, April 23, will be sponsored by the club.

Club pictures will be taken at the next meeting which is to be held at the home of Ann Sidwell, 915 N. Gray, at 4 p. m. Tuesday, April 26.

Members present in addition to those mentioned above were: Betty Joyce Scott, Jimmie Ann Fahle, Barbara Coonrod, Ann Berry Virginia Jones, Ottolene Patton, Mary Jean Patton, Joan Bennett, Zula Brown, Betty Howard, Mary Ellen Hawkins, Delores McAdams, Merdella Roberts, Gerlie Lake.

The Indians and early settlers believed that no poisonous serpents would be found in the same area with the Oregon ash tree.

Shamrock First Baptist WMS Circle Meets

SHAMROCK — (Special) — The Business Women's Circle of the First Baptist WMS met at the home of Miss Re Lummus Monday evening.

Panicles, tulips, and peach blossoms decorated the rooms.

Mrs. O. C. Goff presided at the business session, and Mrs. George Stanley was in charge of the program. Mrs. J. J. Baird played for group singing.

Miss Nell Adams led the prayer. The devotional, "Why Do You Worry?" was given by Miss Irene Bryan.

Mrs. Stanley outlined the program on "Christ, The Answer In the Rural Community," and discussed by Mrs. Edw. C. Derr. The "Challenge of the Rural Church," was Mrs. O. C. Goff's topic.

Present were: Mrs. Edw. C. Derr, Myrtle Marchbanks, D. W. Hawthorne, J. F. Shortt, A. E. Connell, Joe Tate, J. J. Baird, O. C. Goff, Austin Byrd and George Stanley, and Misses Nell Adams, Irene Bryan, Edna Puett and Monnie Gill.

For a first course, tomato juice and stuffed celery sticks are usually very welcome. Season the tomato juice with salt, freshly ground pepper, and a little celery salt. Use cream cheese to fill the celery and flavor it various ways: mix it with anchovy paste, or with minced canned pimiento, or with chopped chives, or with finely chopped salted peanuts. Be sure to dry the celery stalks thoroughly before adding the filling; then cut each stalk in one- or two-inch sticks.

Financial Secretary Of FTA Elected

SHAMROCK — (Special) — Miss Joy Williams, daughter of Mr. and Mrs. Milt Williams, was elected state financial secretary of the Future Teachers of America at a recent state convention in Abilene, where she represented Texas Tech.

She is also vice president of the Home Economics Club at her college.

Altar Society Meets

SHAMROCK — (Special) — The Saint Patrick's Altar Society met in the home of Mrs. Ella Hoshier for the regular business meeting Tuesday. Mrs. W. L. Walker presided at the session.

Refreshments were served to: Mrs. Gerald O'Gorman, W. A. Allen, J. L. McCormick, J. Byron Brown, Agnes Nunnally, H. L. McLaughlin, J. E. Shewmaker, Sr., and W. L. Walker.

The United States has 47,600 post-offices.

Golf Winners

Eleven members of the Ladies Golf Association were present at the Wednesday meeting. Because of the weather, a putting contest was held indoors.

Mrs. Charles Duenkel won the first flight and the prize of golf balls. Mrs. Jack Sullivan won the second flight. Winners are allowed to wear the golf bracelet until winners of a new contest are declared next week.

Honored at Party

LEFORS — (Special) — Mrs. Claud Lamb of the Colfax Carbon plant of Lefors, honored her daughter, Peggy LaVerne, with a party on her 10th birthday, April 7, in the Community Hall.

Forty-five guests were present.

PROOF IS TRUTH
PERK with Armocel® CUTS WASH TIME 1/2

...WASHES CLOTHES REALLY CLEAN!
Here's proof beyond question from 1,218 washing tests

PROOF
PERK SAVES WEAR ON CLOTHES, TOO
Scientific tests proved it. A 10-minute or even a 5-minute washer run with new Perk gets clothes really clean—cleaner than a 20-minute run with other types of soap. Saves wear and tear on clothes, too.
Put Perk to work on your family wash.

***ARMOCEL — the Double-Action Wash Perfector**
Only Perk contains Armocel, Armour's exclusive new ingredient that gives you: 1. **Magnet Action:** Perk with Armocel draws dirt out of clothes like a magnet, seals it in the water so dirt cannot settle back. Removes accumulated graysness, prevents future graysness. 2. **Sunshine Action:** Perk with Armocel gives clothes a new sunshine brilliance that reflects the radiant, sunny new whiteness and brightness in all of your wash.

PROOF TELLS YOU WHY
PERK IS YOUR BEST BUY — for clothes — for dishes

McLean Baseball Team Organizes

McLEAN — (Special) — Officers have been named in the McLean Baseball Club as follows: manager, Douglas Groves; assistant manager, R. C. Shirley; business manager, Floyd Guthrie; secretary, Alfred Duncan; field captain, J. C. Claborn; water boy, Willie Tindall. They will play in the Caprock League.

Those signing up to play this season are: Rex Sheddick, Clyde Andrews, Everett Dorsey, Felton Webb, Red Jones, Boyd Smith, Bill Bailey, Finis Ratliff, Roy Corbin, A. D. Shaver, Jim Coyne, Bub Smith, Sammy and Johnny Haynes and officers named. Others who desire may yet sign up.

Practice sessions will be held each Wednesday afternoon on the diamond south of the railroad tracks at 5 o'clock. Those missing practice will be fined, says Manager Groves.

Dee Fondy Sent To Montreal

FORT WORTH — (P) — Dee Fondy, first baseman who batted .328 for the Cats last year, has been transferred to the Montreal club of the International League. Fort Worth Baseball Club President John Reeves has announced.

Fondy had a brief trial this spring with the parent Brooklyn Dodgers but when he returned to the Cats he found Preston Ward entrenched in his old position. Fondy was playing left field for the Cats when transferred. Ward last year appeared in 42 games for Brooklyn, batting .260 and 85 for Mobile of the Southern Association, batting .288 with 86 hits, 21 doubles, four triples and 11 home runs.

In exchange for Fondy, the Cats expect to get an outfielder from somewhere in the Brooklyn organization. Only two members of the Roster, Dick Williams and Walter Sessi, are journeyman outfielders. Sam Diehl, Walter Rogers and Fondy all were infielders last year.

Sports Round-Up

By HUGH FULLERTON, JR.
NEW YORK — (P) — You'd hardly recognize the Washington Senators these days except by the spot the experts are awarding them in the pre-season predictions. . . . And even that is okay with Manager Joe Kuhel, he says. . . . Joe professes to approve those seventh and eighth place forecasts because they'll make him look good if he can move the club up a couple of notches. . . . For anyone who has not seen the club for a couple of years, the old familiar faces are Al Evans, Eddie Yost, Buddy Lewis and, of course, a few pitchers. . . . Lewis, you remember, retired last year but Kuhel says Buddy isn't having trouble making a comeback because "he's a natural hitter." . . . As for the pitchers, the less said about them now the better, but they're recovering from various ailments. . . . Right now Joe is high on a lean, bespectacled flogger named Paul Calvert because he looked so good in the Cuban League last winter. . . . Maybe that explains those predictions.

SPORTS AFIELD

By TED KESTING

Spring is clean-up time for boats too. If your outboard is a fairly recent model, it probably won't require extensive repairs, writes boating authority Willard Crandall, but the appearance of the craft can be spruced up if scuffed and worn spots are fixed.

If no new coat of paint is needed, give it a good cleaning job. Be careful not to use too powerful a cleaning agent. Try plain water or soap and water first; scouring powders should be used with discretion.

A clean, solid, dry surface is the first essential to a good paint job. That means sanding and the more sanding between coats, the better the job. Paint while the air is dry. If you are outdoors, it's best to paint only in the middle of a dry day; if possible, one reasonably warm after several days of dry weather. Avoid painting in the direct sun, and in wind that can blow sand and dirt all over the job.

Use only marine paint with any wood hull and follow the paint manufacturer's directions. Small boats that are in salt water only during actual use need special bottom paint, but those left in water all winter must have an anti-fouling paint on the bottom. Launching the boat before copper-bottom paint is entirely dry makes it more effective.

Plywood boats should ordinarily have more paint, or varnish, than other types.

A final coat of marine enamel or spar varnish will give almost any boat an attractive glossy appearance. About the only reason for following enamel with varnish is to protect the enamel from scratches. A final coat of two of varnish is recommended for almost any boat in regular salt water use.

Varnish, and the last coat of enamel, will look better if "flowed" on, not vigorously brushed on. Don't varnish a surface too hot or too cold, and don't shake or stir the varnish, for that will only fill it with bubbles.

A natural-finish hull should be free from discoloration before more varnish is added. If sanding won't remove discolorations, use varnish remover. Some bad cases have to be scraped down to bare wood. Never use a blow torch on a natural-finish hull. That will only blacken everything. Any unpainted surface that is to receive varnish should be well washed, then completely dried and finely sanded.

McLean Boxer Wins Jacket at Tourney

McLEAN — (Special) — J. W. Simmons is the only member of the McLean High School boxing team to win a district boxing crown at the annual 2-A tournament recently held at Shamrock, winning the 118-pound title. He was awarded a jacket. He is a son of Mr. and Mrs. Walter Simmons, of the White Fish District.

Eddie Reeves, son of Mr. and Mrs. Boyd Reeves, was the other finalist, but was floored in the second round by Eugene Parks of Lefors, both of the 112-pound grade school class.

Others competing in the tournament were: Harold Huggs, Dale Johnston, Jackie Bentley, Alvin false tail made so she wouldn't fit up a nose false, the nag might be worth a two-buck bet.

WARREN'S WARMUP

By Warren Hassel—News Sports Editor

QUESTION: In what sport is a "pelota" used?

GOOD START: The Pampa Oilers got off to a furious start last night, unleashing that powerful batting attack that is to be expected of them all season. There are undoubtedly several loose boards in the outfield at Oiler Park today that will have to be re-nailed. There are also a couple of baseballs lying out alongside the railroad tracks that are there with the compliments of Mike Feduniak.

The power came from the expected sources, too. Mike Feduniak led the parade with three extra-base blows, two of them last night. But Virgil Richardson came through with a perfect night of three for three. Matney and Velasquez got three for five, while little Ken Peacock scored three times in six trips to the plate. The unexpected power was that which Velasquez showed, driving across four of the Oilers' runs.

Letty Roy Parker looked good in his first start for the Oilers. But then the effects of not having hurried over that length of time started to show as he tired and lost his control. The fact that he showed such fine form through the first part of the game leads this writer to believe that Roy can be counted upon for some of the much needed pitching this summer.

It was as we said in yesterday's column. With the hitting hot in the Oilers' possession this season, they don't have to be too stingy with the runs. They should be able to outscore most of their opponents. Last night's attack was at the expense of one of the fine hurlers in the league this season, Vallee Eaves, who has confidently predicted that he will win at least 20 games for the Oilers this season.

Despite the bad weather yesterday a good crowd was on hand for the opening game. The pre-game ceremonies went off in fine shape, with only the absence of Mayor Fred Herbst causing a change in plans. Mayor Huff, Pampa threw the first ball out to Roy Parker from the sidelines instead of throwing from the mound due to the mud on the field.

All of the players and both teams were introduced to the fans, all of the fans were welcomed to the game, and the Harvester Band was on hand for the ceremonies. The flag was raised in center-field by the Boy Scout Troop.

The members of both teams marched out to second base where they stood at attention while the flag was being raised.

All in all, it was a fine opening day for the Pampa baseball fans, despite the bad weather that hovered over the field and the city all day and night.

More of the same fast action can be expected from the game tonight, between the same two teams.

ANSWER: A pelota is a hard rubber ball, about the size of a baseball, used in the game of jai alai, called the world's fastest game.

DOTS AND DASHES: The crowd let out a roar when Grover Seitz took off his cap during the playing of the "Star Spangled Banner." . . . Seemed the glare of the lights off his head was blinding several of them. . . . Mike Feduniak had a busy night. . . . After jogging around the bases after his home runs he had to make a trip from one end of the screen to the other collecting the offerings of the fans. . . . Practically every player who started the game was the recipient of some gift donated by the local merchants. . . . Despite the slippery base paths, Charlie Ridgeway stole second to gain the prizes for the first stolen base. . . . Not all of the prizes were won last night, either. . . . Interference on the part of the shortstop from Borger helped the "big seven" run fourth inning that the Oilers staged. . . . Borger pulled off three snappy double plays despite the unsure footing. . . . Parker's sharp curve ball fooled many of the Borger batters badly. . . . Many of them attributed their strikeouts to the bad eyesight of umpire Casper Simon, who called the balls and strikes. . . . But their words of disagreement did not change the arbiter's mind, and they are still out. . . . This opening game was a long one, too. . . . Took nearly an even three hours to play.

Aggies Name Captain

COLLEGE STATION — (P) — Co-captains of the 1949 Texas A&M football team will be half-back Bobby Goff of Kenedy and end Wray Whittaker of Houston. Goff and Whittaker, elected by their teammates yesterday, will wind up their college grid careers next fall. Goff was eighth in the Southwest Conference last season in yards gained rushing.

Name All-Star Football Elevens

BEAUMONT — (P) — A dozen all-state players will be on the North squad in the annual all-star game at the Texas Coaching School here in August.

The 15th annual all-star tilt will be played Aug. 6. Carl Snively of North Carolina will coach the North squad, using a single wing offense.

The complete North roster as announced by Paul Snow of Fort Worth's North Side, who was chairman of the committee to select them, is as follows:

Ends: Bob Rooker, Lubbock; Jack Bell, Bowie; Wayne Martin, Shamrock; James Garner, Amarillo.

Tackles: Billy Jack Davis, Masonic Home, Wayne Ligon, Wichita Falls; Don Thompson, Odessa; Bill George, Arlington Heights.

Guards: Phillip Payne, Pampa; Louis Drozd, Crozier Tech; Bob Daniels, Denison; Joe Gray, Rising Star.

Centers: Bill O'Brien, Sherman; Jimmie Williams, Phillips; Charles Seiber, Amarillo.

Backs: Tom McMillan, Sweetwater; Bill Crisler, Highland Park; Darrow Hooper, North Side; Ray Graves, Stephenville; Malvin Fowler, Van; Ted Jones, Childress; Bill Forester, Woodrow Wilson; Harry Bean, Breckenridge; Waldo Young, Monahans.

Former Stars Relate Baseball's Many Axioms and Adages

By FRITZ HOWELL
AP News Features

COLUMBUS, O. — Did you know that baseball has its "ten commandments" and its "seven cardinal sins"?

Well it has—and it also has a host of axioms and adages, most of them based on good, common sense.

Bob Finch, golden-voiced orator and publicity director of the National Association of Professional Baseball Leagues (the minors), has unearthed a lot of stuff from the writings of some of baseball's greats.

Genial Bob, lining up the more than 100 clinics held for amateur coaches and managers in a dozen states this spring, asked some of the game's outstanding figures to submit a few words on how they played their position.

Some of the replies were startling, coming from men whose writing many believed was confined to signing expense accounts or autographs.

Bob gave us a quick look at what the boys had to say, and here are a few of the gleanings:

The seven cardinal sins of baseball, says Sid Matthews, are fear, lust, jealousy, hate, deceit, malice, revenge.

The ten commandments of baseball:

George Torporer:

1—Nobody ever became a ball player by walking after a ball.

2—You will never become a 300-hitter unless you take the bat off your shoulder.

3—Outfielders who throw the ball back of the runner look the barn after the horse is stolen.

4—Keep your head up and you may not have to hold it down.

5—When you start to slide—slide! He who changes his mind may change a good leg for a broken one.

6—Don't alibi on the bad hops. Anyone can field the good ones.

7—Always run them out. You never can tell.

8—Don't quit. The game is never over until the last man is out.

9—Don't find too many faults with the umpires. You can't expect them to be as perfect as you are.

10—A pitcher who hasn't control, hasn't anything.

Muddy Ruel: Pitchers are, most often, as good as they are caught, or handled.

Ted Lyons: The difference between an athlete who is good and one who is mediocre is in the one who quits first.

ANSWER: A pelota is a hard rubber ball, about the size of a baseball, used in the game of jai alai, called the world's fastest game.

DOTS AND DASHES: The crowd let out a roar when Grover Seitz took off his cap during the playing of the "Star Spangled Banner." . . . Dallas Eagles Continue to Win While OC Indians Keep Losing

By WILHELM MARTIN
Associated Press Staff

That old saying that "money talks" is being proved by the Dallas Eagles in the Texas League.

Dick Burnett's high-priced ball club won its seventh straight victory of the young season last night, blanking the Fort Worth Cats, 5-0.

While the Eagles retained a perfect record, San Antonio replaced the Cats in second place, dumping Shreveport, 5-3. And Oklahoma City lost its eighth straight game, to Tulsa, 1-5.

Houston and Beaumont were idle again, wet grounds the reason. The power Burnett's oil wealth paid to assemble paid off last night. Leo Wells' home run sparked a three-run rally in the third and Ralph Rhames hit one over the fence in the sixth inning.

Clarence Iott gave up nine hits to Fort Worth. His mates collected only five off four Cat pitchers.

San Antonio used six doubles and six singles to dump Shreveport. The Sports got back into the ball game with a three-run uprising in the seventh inning, on three hits and a walk.

Big Joe Vosmik, who used to bang fences for Cleveland in the American League, inserted himself in the Oklahoma City lineup and collected his club's only run. He did it with a home run in the fifth inning.

But his Indians couldn't break into the victory column and Dave Jolly chalked up his second pitching victory for Tulsa.

KILLED BY SOUND

Two scientists in Texas were successful in killing bacteria by producing sound waves of extremely high pitch with a nickel tube made to vibrate almost 800 times a second by electro-magnetic coils.

Disinfectant: If a player enjoys the game it is no effort for him to hustle.

Casey Stengel: The center fielder should be the outfield quarterback.

Earle Combs: Hitters are born not made. They can be helped some—not much.

Fred Clarke: Many players want to practice what they do best. I practiced what I did worst.

Twenty lettermen, including six pitchers, are available for duty on the North Carolina State baseball team this season.

That defendant having sold the plaintiff's said original oil and gas lease to said E. F. Freel was the cause of the discovery of oil and gas thereon, and upon discovery of oil and gas thereon it came to the end that plaintiffs might receive royalties from such production, and that defendant had conveyed the estate and title conveyed to said A. E. Freel, as such lease, and his assigns, only so long as said leased premises were used for the purpose of producing oil and gas; that upon the assignment of the 8 $\frac{1}{2}$ % of said SW $\frac{1}{4}$ to said R. A. Nipper, it did so divide said Nipper and his assigns between them, so that they could develop said segregated 80 acre tract for the discovery of oil and gas, or for other purposes, and that they could produce and save oil and gas, therefore, therefrom, to the end that

That said original oil and gas lease executed by Plaintiffs to said A. E. Freel has never been released as to said SW 1/4 of Section No. 1, Block No. 25, Gray County, Texas, and notwithstanding the fact that the estate and title conveyed by said oil and gas lease has long since terminated, as to said 80 acre tract, by reason of the facts hereinabove alleged, nevertheless, the record of said oil and gas lease is on file and on record in Gray County, Texas, and assigns thereof, constitutes and casts a cloud upon Plaintiffs' title to said 80 acre tract, which they are entitled to have removed by a judgment of this court.

Plaintiffs pray for judgment annulling said oil and gas lease, and adjudging the same to be terminated and void. The SW 1/4 of said Section No. 1, Block N-10, 26, H & GN Ry. Co. Sec. 36, T. 10N., R. 10E., S. 10E., and for such other relief as they may show themselves entitled to, whether general or special, legal or equitable.

IN WITNESS WHEREOF, I have hereunto set my hand and the seal of said court, this 5th day of April, A. D. 1949.

DEE PATTERSON
- Clerk of the District Court,
County of Tarrant, Texas.
