Next Monday Brings Dollar Day

Chamber Commerce Drive For Members Opens Tues.

Thirty Men Will Stage "Blitz" In Rapid Drive

With a committee of some thirty workers, the Membership Drive of the Lamesa Chamber of Commerce, will likely see a "blitzkrieg" of action Tuesday of next week, when the drive gets under way.

The committee will be divided into fifteen teams, according to Bill Boyd, chairman of the campaign, all of whom will meet at a breakfast the morning of the drive. Each team of two men will be given a prospective list, and the drive will be pushed forward as rapidly as possible.

"By asking thirty men to join in the drive, it shouldn't take a great deal of anyone's time," Mr. Boyd stated. "We realize that the men who have consented to work, are all busy men, and that the time they give is purely donation, and for that reason, we feel that there will not be a necessity for any man to lose much time from his regular business occupation."

It is hoped through this drive, to greatly increase the membership in the local organization, and at the same time increase the revenue, so that a wider scope of activity may be enjoyed, a spokesman for the Chamber of Commerce stated Wednesday.

Wilkes Grocery Opens New Store This Week End

Your attention is called to the opening of Wilkes Store in this issue of the Courier.

Their building, while not complete outside, has been completed within, and the new fixtures have been built this week, with a large crew of workmen busy putting in the stock today.

This building has been completely rebuilt. The ceiling is of the new celotex. Hardwood floors were used. The walls are painted with a special washable paint, which makes for a clean, light interior. New, streamlined fixtures, make this new store outstanding in appearance and construction.

Finds Lost Hog With Courier Classified

The Courier Classified Ads have scored again. This time they have found a hog.

Hazel Hancock lost a Red Jersey hog. He looked for the hog, but he failed to find him.

Then he ran an ad in the Courier Classified column, and he found his hog.

County Commissioner J. F. O'Brien notified Hancock that his hog was at his place and that he could get him there.

Thus for only a few cents Mr. Hancock found a hog worth several dollars. He saved a great deal of time and worry, and the big thing is that he got the hog back.

The Little Classified Ads cost so little that it seems almost impossible for them to get the results they do, but the facts speak for themselves.

You may have something around your home that is surplus to you, but if people know about it, you might have a neighbor who would buy it. The best way to let them know of these things is through the Courier's Classified Columns. Use and read the Classifieds for profit.

Another Thrilling Contest Is Announced In This Issue With \$6.00 As First Prize

Merchandise Prizes, As Well As The Cash Prize, Will Also Be Offered To Writers Of Best Sentence

Your attention is called to the large ad in this issue of the Courier, wherein the Merchants of the town are offering a cash prize of \$6.00, as well as merchandise prizes, to the writers of the best sentence on "I buy Groceries in Lamesa because," and "I buy Bakery Products in Lamesa because," in 25 words or less.

You will note this week that there are two sentences to be written on. You can enter one or both. If you enter a sentence on both, you have a double chance to win.

The merchants of Lamesa would like to know the reasons why you like to buy merchandise in Lamesa, so that they can tell others who might be trading elsewhere.

Look up the ad elsewhere in this paper, and sit down right now and get your entry in. Two weeks from now, you may be declared the winner of the cash or some of the merchandise prizes.

Either mail or bring your entry to the Courier Office, before Wednesday afternoon, April 16. Write your entry on the blank, or on a clean sheet of paper or a post card. That's all that's necessary. Winners will be announced two weeks from today.

Dawson County Students Go To District Meet

Dawson County pupils will appear for the literary events of the District Meet at Lubbock this week end as follows:

Boys Debate: Clinton McBroom, Tom Wade, Lamesa.

Girls Debate: Katy Lee Randle, Mary Lu Murray, Lamesa.

Latin Pupils with their teacher, Miss Bess Shanks will go to San Angelo Saturday to take part in the (Continued on Back Page)

History Contest Will Come To Climax With Entries Being Shown In Lamesa

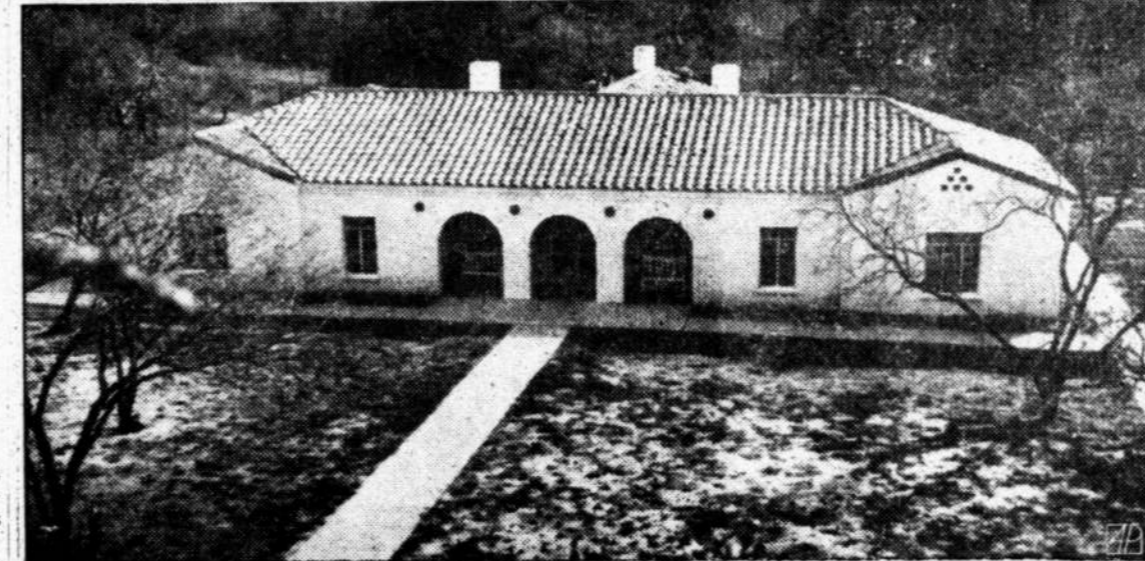

Entries Will Be Shown In Lamesa Show Windows Throughout The Week Of April 14th To 19th

The Dawson County History contest, under the sponsorship of the Lamesa Chamber of Commerce, will come to a close during Dawson County History Week, April 14 to 19, with the showing of the exhibits from the various schools who are participating in the contest. These exhibits have been gathered and prepared throughout the past school term.

Show window space for the displaying of the exhibits has been promised by various business firms of Lamesa.

Schools who have definitely entered the contest are Sparenberg High, McCarty, Union High, Mun-

First Unit Of Texas' Warm Springs

The first building (above) of a series of 15 in the master plan of the Gonzales Warm Springs Foundation to provide Texas with a warm springs center for little cripples has been completed. The non-profit charitable foundation has under development 40 acres surrounding an artisan spring. The tract adjoins Palmetto State park, 10 miles north of Gonzales.

Lamesa CC Camp To Hold Open House Here Friday

City Lets Contract Monday For Water Extension Voted Recently By Lamesans

Contracts aggregating \$49,258 for improvements to Lamesa water-works system were awarded by the city commission Monday afternoon according to Mayor W. L. Marr.

Construction of the new addition to the present system will get under way in about 10 days. Harry N. Roberts of Lubbock, consulting engineer for the city, said.

Improvements, the commission pointed out, are necessary in the face of rapid population growth of Lamesa since installation of present equipment, which was made to meet the demands of only 3,500 persons. Population now is over 6,000.

Contract for a 200,000-gallon steel elevated tank was let to Pittsburgh-Des Moines Steel Co. of Dallas, on a bid of \$16,100.

Track And Field Event Winners For County Given

The track and field events of the Dawson County Interscholastic League were held last Saturday. Athletic Director R. H. Huddleston reports the following schools as winners in the classification indicated.

Rural Junior Division: Liberty and Woody, tied for first place, with 13 points each; Key, second, 12 points.

Ward Junior Division: Sparenberg first 24 points; Dawson and Lamesa tied for second, with 12 points each.

High School Junior Division: Dawson, first, 13 points; Union and Lamesa, tied for second with 10 points each.

High School Senior Division: Lamesa first, 88 points; Klondike, second, 17 points; Union and Dawson, tied for third with 5 points each.

Work Continues To Secure That Recreation Lake

The Chamber of Commerce is asking for views from interested citizens on the advisability of securing a recreation project for Lamesa.

A group of interested citizens have been making surveys, asking questions, visiting neighboring cities with the view to finding out all they could in regard to securing a lake in the vicinity of Lamesa which could be used for recreational purposes.

They have made several trips into the brakes country east of Lamesa, where sites have been suggested, that could be dammed and made into a lake.

A visit by this group was made to Big Spring, where that city recently has completed two lakes, at a cost of \$475,000. These lakes will serve the dual purpose of an adequate water supply for that city, and at the same time serve as a recreation project. WPA aid was secured for a large amount of the money necessary in that city.

It has been suggested that Lamesa could have such a project, possibly smaller in its scope, but large enough to provide fishing, boating and swimming, and get WPA aid, so that the local cost would be small.

This project has had considerable study on the part of several Lamesa business men, throughout the past several years.

Merchants Of Lamesa Join To Make This The Biggest Value Day In City's History

Practically Every Line Of Business In The Town Will Have Most Attractive Prices For This Day

Next Monday is First Monday and therefore is Dollar Day in Lamesa.

Many stores of the town are offering special inducements to the shoppers of the territory in various lines, for this one day only.

In this issue of the Courier will be found several ads in which are listed some of the outstanding values which will be offered for this one day. You will find listed in these ads, various and sundry articles which you will need every day, all offered at substantial savings over the regular selling price.

Ackerly Teacher Called For Army Duty Last Week

Reserve Officer Reports To Fort Knox, Kentucky For Military Duty

Lieut. Kenneth Baggett, for the past several years principal of the Ackerly school, last week was called to active service in the United States Army.

He reported to Fort Knox, Kentucky. He has been a reserve officer for the past several years and will go in the service as a Lieutenant.

Paul Williams, of Arkansas, was named his successor by the Ackerly School Board, it was announced.

Mrs. Baggett, who is also a teacher in the Ackerly school, will finish out the term, and it is understood that she will then join her husband in Kentucky, at least for the summer.

Farmer-Merchant Picnic To Be Held At City Park On Thursday Evening, April 17

Dates and site for the April Farmer-Merchant gathering, were announced this week by the Lamesa Chamber of Commerce.

The site will be at the new City Park, and will be in the form of a picnic, with the meal being served by the ladies of the Central Home Demonstration Club. Ladies living in the Liberty, Ballard and McCarty communities and the edge of Lamesa, compose the club's membership. Farmers of the above communities will be guests of Lamesa merchants for the occasion.

The time has been set for Thursday evening, April 17th.

This will be the seventh monthly affair of this kind held in various communities of the county, since last October, when the movement was started.

The total attendance at the six previous gatherings approaches one thousand people, with the ladies of the various communities receiving in the neighborhood of \$500 worth which they have been enabled to enlarge their activities.

It is planned to continue these gatherings throughout the year, with every community in the county ultimately being visited.

Former Brown Co. Citizens Called To Meeting Here

In checking up, we find that there are a few of the old Brown County people living in driving distance of Lamesa. So we have decided to call them together on Easter Sunday, April 13th, for a basket lunch and a general visit together at the Lamesa City Park. This will be one week ahead of the regular reunion to be held in Brownwood this year. So you Brown County people come and bring lunch, as no provisions are made otherwise.

W. D. Thord, C. D. Applegate and others.

Ground Is Broken For New Church Building

The ground-breaking ceremony, starting the actual construction of the new \$65,000 First Baptist Church Building, was held Wednesday afternoon, shortly after 4 o'clock.

Quite a large crowd gathered for the program, which was opened with group singing, followed by a prayer from Elder Russell.

O. B. Norman, chairman of the Building Committee, gave a short talk, telling of plans and accomplishments of his committee.

M. C. Lindsey, lead the opening prayer, and was introduced as a charter member of the Lamesa organization.

Rev. E. F. Cole turned the first shovel of dirt, commemorating the starting of the magnificent structure. He gave a short talk, outlining the history of the local church. He told of its organization in Chicago, before Lamesa existed, and of its moving to this city after the county was organized and Lamesa was chosen as the county seat of the newly organized county.

Thus the program is launched which will see the First Baptist Church housed in a beautiful and spacious new home when the building is completed. It is understood that the construction will be pushed along as rapidly as possible toward an early completion.

Program Given For A Capella Choir Concert

The concert by the A Capella Choir of Texas Lutheran College of Seguin, Texas, is sponsored by St. Paul's Lutheran Church, Lamesa. It will be given at the Lamesa High School Auditorium on Saturday, April 5th, at 10:30 a. m.

The program to be rendered by the Choir will be selected from the following numbers:

Oh Be Joyful — Gretchaninoff.
Praise the Lord All Ye Nations — Jommelli.
Low How A Rose — Praetorius.
From Heaven Above — Corale arr. by Christiansen.
O Sacred Head — H. L. Hassler.
The Sabbath Call — Kreuzer.
Ye Shepherds Rise — French Carol arr. by Nagle.

ORDINANCE

An Ordinance to amend Ordinance passed by the City of Lamesa, Texas, on the 3rd day of August, A. D. 1927, granting to West Texas Gas Company, a corporation, its successors and assigns, a gas franchise for the purpose of conducting in said city a business of furnishing natural gas to the city and the inhabitants thereof; Said Ordinance being amended by extending Section 1 thereof so as to extend the term of said Franchise for a period of five years from and after the 3rd day of August, 1941, to the 3rd day of August, 1946; and further amending said Ordinance by adding thereto Section 7-A providing for a franchise and occupation tax and rental charge of two per cent of certain of the gross receipts of the West Texas Gas Company for the occupation and use of the streets, alleys, highways and other public ways and places of the City of Lamesa and providing the date and times of payment and the method of determining the gross receipts which constitute the basis of a computation of said tax or charge, all as herein provided:

WHEREAS the West Texas Gas Company, a Corporation, hereinafter referred to as the "Grantee" is now and has been engaged in the transportation, distribution and sale of natural gas in the State of Texas and in the City of Lamesa, Texas, and in furtherance thereof has erected, constructed and maintained a gas distribution system in the City of Lamesa, Texas, hereinafter referred to as "the City", for many years pursuant to such rights as have been granted to the Grantee by and under the laws of the State of Texas and the terms of a certain franchise granted to it by the City of Lamesa, Texas, on the 3rd day of August, A. D. 1927, by its Ordinance, which franchise was for a term and period of twenty years from and after the 3rd day of August, A. D. 1927, and

WHEREAS by reason of the growth and development of the said City of Lamesa, Texas, since the passage of said Ordinance, the Grantee has expended large sums in the extension of its distribution system and lines and facilities so as to adequately serve the needs of said City and its inhabitants, and it is contemplated and anticipated by both the City and Grantee that the further growth and development of said City will necessitate and require the expenditure by the Grantee of large sums of money in the further extension of its existing lines and facilities to serve the needs of said City and its inhabitants, and

WHEREAS the Grantee, in order to protect its investments heretofore made in said City and the further investments that will be required of it in order to meet the demand occasioned by the further

growth of said City, desires an extension of the term of said franchise for a period of five years from and after the date of the termination of said franchise under said Ordinance so as that the said franchise will terminate on the 3rd day of August, A. D. 1946, instead of on the 3rd day of August, A. D. 1947, under said Ordinance, and as a part of the consideration for said extension is willing to pay to the City certain compensation as hereinafter provided for the use by the Grantee of the streets, alleys, highways and other public ways and places within the City of Lamesa which compensation the City Council of the City of Lamesa finds and agrees is fair and reasonable;

Now, therefore, be it ordained by the City of Lamesa, Texas, that:

SECTION 1: That Ordinance passed by the City of Lamesa, Texas, on the 3rd day of August, A. D. 1927, and Section 1 thereof be amended so as that the same shall hereafter read as follows, to-wit:

"That from and after the passage and approval of this Ordinance the right to furnish, distribute and sell natural gas for light, heat and power and for all such other purposes for which gas may be used within the City of Lamesa, Texas, for a period and term ending on the 3rd day of August, A. D. 1952, is hereby granted to the West Texas Gas Company, a corporation and its successors and assigns, hereinafter called Grantee, subject however to the provisions herein after incorporated in this Ordinance, and for such additional period or extensions of time as may at the expiration of the said term of years ending the 3rd day of August, A. D. 1952, be granted, and upon conditions then found to be satisfactory to the officials of the City of Lamesa, Texas, and to the Grantee and provided that this amendment to said Ordinance and this Franchise is to be in effect and run from and after the day and date of its passage and approval."

SECTION 2: That Ordinance passed on the 3rd day of August, A. D. 1927, by the City of Lamesa, Texas, be amended by adding thereto and incorporating therein a new section herein and hereby designated as Section 7-A, which is as follows, to-wit:

"SECTION 7-A: As a part of the consideration for the granting of the extension of the franchise as hereinabove set forth and as compensation to the City for the granting of said franchise and for the use of the City's streets, alleys, highways and other public ways and places, the Grantee agrees to pay to the City quarterly each year during the remaining term of this franchise as extended hereby a sum of money equal to two (2%) per cent of the gross receipts (as said term 'gross receipts' is hereinafter defined) of the Grantee from the sale of natural gas within the corporate limits of the City of Lamesa, Texas.

"The gross receipts upon which such tax or charge is to be computed shall be determined as follows: From the total receipts from the sale of natural gas within the corporate limits of the City of Lamesa, Texas, for the particular quarter involved, there shall be deducted the receipts from the sale by the Grantee of natural gas to Public Authorities, to-wit: Federal Government and/or Federal Government Departments, the State of Texas, the County of Dawson, the City of Lamesa and the Lamesa Independent School District, and the balance remaining after such deduction shall constitute the gross receipts upon which such tax or charge is to be computed.

"The quarterly payments provided for herein to be paid by Grantee to the City shall be paid as follows: The payment for the first quarter shall be made on or before May 1st of each year; for the second quarter on or before August 1st of each year; for the third quarter on or before November 1st of each year; and for the fourth quarter on or before February 1st of each year. The first payment hereunder shall be made on or before the 1st day of May, A. D. 1941, and shall equal two (2%) per cent of the gross receipts as hereinbefore defined for the first quarter of the year 1941.

"The Grantee shall at the time of making any quarterly payment furnish to the City a statement certified by a duly authorized officer of said Grantee showing the quarterly gross receipts as heretofore defined and the amount of deductions as hereinbefore provided for.

"The City agrees that the consideration set forth in the preceding paragraphs shall be paid and received in lieu of any tax, license, charge, fee, street or alley rental, or other character of charge for use and occupancy of the streets, alleys and public places of the City."

SECTION 3: Except as to the amendment of Section 1 of Ordinance and the addition of Section 7-A to said Ordinance, the said Ordinance shall in all other respects remain in full force and effect and shall not be in any other respects modified or changed hereby.

SECTION 4: This Ordinance shall take effect and be in force from and after its passage and approval and publication as provided by law.

INTRODUCED ON THE 26th day of March, A. D. 1941, and passed by the City Council of the City of Lamesa, Texas, this 28th day of March, A. D. 1941.

W. L. Marr,
Mayor, City of Lamesa, Texas.

ATTEST:
B. D. Wiggins,
City Secretary.

The population density of Maine is less than 27 to the square mile. Texas has more farm woodland area than any other state.

"HIS WIFE TOLD HIM HE LOOKED LIKE A LIFEGUARD"

She said that HANES Crotch-Guard Sports took ten years off his figure. Perhaps she exaggerated. But it's a fact, gentlemen, that HANES Crotch-Guard Sports are as trim as they are comfortable. The gentle, athletic support of the HANESKINT Crotch-Guard helps you keep spruce and alert at work... gives you protection when you exercise. All-round Latex waistband. Easy to put on and take off. No buttons to bother you. You're really unaware of underwear.

Team them up with a HANES Undershirt... worn outside for extra comfort. Crotch-Guard Sports are 35¢ 50¢ priced at

HANES SHIRTS AND BROADCLOTH SHORTS
The Undershirts are made of fine, combed HANESFIN cotton—knit for comfort and long wear. HANES broadcloth shorts are always accurate sizes. Smart new patterns (figure A).

35¢ 3 for \$1
Extra quality, 50¢ each. HANES Blue Label Shirts and Broadcloth Shorts as low as 27¢. 4 for \$1.

SAMSONBAK UNION-SUITS
These popular suits won't cut or bind you. Patented Tug-O-War belt in the back—can't slip or pull out! (Figure B). A great value at... \$1

OTHERS 75¢ AND UP

Look for the HANES Label when you buy underwear. It ensures you quality garments at moderate prices.

HERE'S THE FIRST Refrigerator EVER TO OFFER ALL THESE ADVANTAGES FOR FARM Homes!

NEW! YOUR OWN Separate Freezing Locker

Now you can freeze fresh foods at home or keep ready-frozen foods for MONTHS! Dual-Temp's huge Freezing Locker make meat tenderer... keeps vegetables without toughening... holds 50 pounds of foods or ice cubes at 22 degrees below freezing! LOCKER PLANT PATRONS: Save trips! Bring home a week's food at one time... use it as needed without fear of waste!

New! Moist-Cold Stops Waste!

No need to cover food to prevent wilting and drying! Sliced meat stays juicy—vegetables stay crisp without covers in Dual-Temp's huge Moist-Cold compartments. No space-wasting, frost-collecting coils. NO DEFROSTING! ALL SPACE is usable space right to the top—and shelves adjust instantly to make room for large containers.

New! Health-Guarding Ray!

Dual-Temp's amazing Sterilamp PURIFIES the air—reduces spoilage due to bacteria—retards mold—combats "ice box odor"!

56 Different Canned Items

Rural families in 17 West Texas counties of Extension Service district 6 canned 325,020 quarts of fruits, vegetables, meats, and jellies and dried 20,802 pounds of vegetables and fruits, during 1940, according to compiled reports of county home demonstration agents serving in those counties. Typical of these co-operating homemakers in Mrs. W. E. Bruton of the Reynolds Home Demonstration Club in Schleicher County, shown above, who had 56 different items in her pantry. Families also use freezer lockers as a means of storing food for home consumption.

KEY HOME DEMONSTRATION CLUB REPORT
 A very interesting and instructive demonstration on dry cleaning and stain removal was given by Mrs. J. A. Lynch at the Key Home Demonstration Club meeting held in her home, Friday afternoon, March 26. The spots in the soiled garment used in the demonstration, were first covered with lard, as the solvent, then washed in naphtha. The garment came out spotless.

Another very useful suggestion was the removal of letters, designs and coloring on flour, feed and other sacks. Wet the print and coloring thoroughly with kerosene, roll tightly and let stand 24 hours. Soak in cold water, and rub until the design is removed. After this treatment wash in a strong solution or boil in a lye solution using one-half teaspoon of lye to a gallon of water. The five members present were Mrs. Lynch, the hostess, Mrs. Roy Weeks, Mrs. Elmer Miller, Mrs. J. M. Riley and Mrs. Sam Allen.

German Finance And How It Compares To U.S.

By Morgan M. Beatty
 AP Feature Service Writer

WASHINGTON — German government financial operations since 1933 go a long way to explain why the Nazis have the most efficient military machine in the world.

Between the time Hitler came to power in 1933 and the end of the fiscal year on March 30, 1941, the German government admits it will have spent almost \$78,000,000,000.

This does not include the much discussed secret expenditures for armaments and the secret national debt incurred for those armaments.

Officially, however, of the 78 billions spent, about \$62,000,000,000, or nearly 80 per cent of the total, has gone to rearm the nation in nine years.

These estimates are based on official German financial figures gathered by the United States Department of Commerce. The mark is valued at 40 cents.

In contrast, the United States government during the same period has spent about \$72,000,000,000. Of this, some 14 billions, or less than 18 per cent, went for national defense.

In nine years, the German government, has devoted at least four-fifths of all the money put out by its treasury to rearmament, while we have been devoting less than one-fifth of our money to the same purpose.

Interesting, too, is the fact that Uncle Sam has a hard time fight-

ing off people who want to buy government securities, while the Germans have already abandoned two "plans" to finance the huge war expenditures.

Financial experts close to the United States government who have studied the German plans suggest there are two reasons why the Germans have abandoned special plans to finance the war spending:

1. The present generation of Germans experienced the terrible inflation of post-war years and like a burnt child, they dread the fire.

2. Both financial plans offered by the Nazis had all the earmarks of inflationary systems in the disguise of tax anticipation warrants, etc.

The last of these plans was dropped in November, 1939, and the usual bank borrowings presumably have been used to finance heavy war expenditures since.

Most financial experts here estimate that financial operations similar to the German, if carried on here or in Great Britain, would have produced utter economic collapse. They say the Germans avoided collapse because of exercising control over their economic system.

Dr. H. Arnold Quirion of the Bureau of Foreign and Domestic Commerce says:

"The extraordinary... raising of combined annual borrowings and tax revenues from about seven billion reichsmarks, or 15 per cent of the national income in 1933, to 72 billion reichsmarks, or 72 per cent of the national income at present, was accomplished by the imposition of rigid controls on every branch of the national economy... production, wages, labor, prices, consumption, foreign exchange, all international payments... interest rates, savings, withdrawals, capital issues, dividends, and (most important of all, perhaps), control of publication

of economic and financial data." Just for contrast, American national income for 1941 will range around \$80,000,000,000. If we were spending 72 per cent of our income for armaments, we would put out about \$57,000,000,000 for national defense this year. As matters stand, we'll hardly be able to spend 13 billions. We aren't producing arma-

ments fast enough to put out anywhere near the amount the German government is spending for them.

Pennsylvania has one highway patrolman for every 17 miles of highways, while Texas has only one patrolman for every 120 miles of highways.

Original Manuscript Of Constitution Of Texas Republic

A portion of the first page of an original manuscript of the Constitution of the Republic of Texas, the most complete draft known to exist, is shown above. The manuscript was recently found in the Spanish Archives of the General Land Office and is being exhibited by Land Commissioner Bascom Giles on the 105th anniversary, March 16, of the signing of the instrument. Miss Harriett Smither, archivist of the State Library, pronounced it to be written in the hand of H. S. Kimble, secretary to the convention which met at Washington-on-the-Brazos in March, 1836.

COURAGE IS AS COURAGE DOES
 HELENA, Mont. (AP) — Four youngsters, two of them much the smaller, pulled up at the county nurse's office.
 "This feller's mama wants him to get a tick shot," the elders said, pushing the youngest one forward. A "tick shot" is an immunization against Rocky Mountain spotted fever.

After the nurse gave the injection, the four went outside for a conference. Obvious subject: "Did it hurt much?"
 Soon they reappeared. The second youngster was pushed forward for a shot. Another outside conference followed, the two oldest boys feeling the arm punctures, and de-liberating. Back they came again. "We'll take ours now," the two oldest boys said.

Baseball Training Camp Is Scene Of Much Activity

With additional ball players arriving almost daily, Spring training at Lobo Field is creating more interest all the time.
 Skipper Scaling is working his charges each day, and states that he has some good material which he believes will come through when they get the kinks out of their bones and muscles.
 With slightly less than three weeks until the opening game, stiff workouts will be coming along soon, he stated.

A practice game has been scheduled Sunday with the Clovis Pioneers at Artesia, New Mexico, where they are in training. The Pioneers will return the game to Lamesa at an early date, which will be announced later.
 The only 1940 Lobo who is here at the camp is Eddie Guynes, who played shortstop last year and the year before for the Lobos. Marshall Brown, who played center field last year, is expected to join the local club a little later in the season, as soon as his school is out. Other faces in the Lobo lineup will be brand new.
 Rookies have arrived in Lamesa from as far away as St. Louis, and Scaling has the promise of some other players who have tried out for the Texas League.
 He stated Tuesday that he felt sure there would be plenty of material from which he could build

his outfit, and stated that when the opening game with the Lubbock Hubbers got under way on April 22, he and his team would be ready.
 The army draft has been heavily felt by the Lobos, as well as several other members of the West Texas-New Mexico League, but indications are that no club stands to suffer any more than the others, and so the law of averages should about equal the teams up in that respect.
KEY H. D. CLUB NOTICE
 The next meeting of the Key Home Demonstration Club will be in the home of Mrs. J. M. Riley, Friday afternoon, April 11th, at 2:30 Miss Mattie Phenix, County Home Demonstration Agent, will be present to give a demonstration on butter cakes and icings. All members are urged to be present.
REVIVAL MEETING
 The Fairview Baptist Church will begin a series of evangelistic services Sunday, April 6th, and continuing through the following Sunday, according to Rev. W. C. Wright the pastor.
 Services will be twice daily at 10:30 a. m. and 8 p. m., with Rev. Eugene Stone, of Portales, New Mexico as the visiting minister. The public is cordially invited to attend, Rev. Wright said.

CLARK-McDONALD DRUG

Mysterious Powder Foundation Beautifully Brightens and Softens Dull, Rough Complexions

Miracream, a new facial preparation, beautifies your complexion in three amazing ways while innocently serving as a flattering base for your face powder. First it softens and smooths the skin; second, it lightens and brightens complexions darkened and dulled by age and weather; third, it helps remove superficially caused blemishes of the outer skin. These marvelous results are obtained because Miracream, blending beautifully into a flattering facial film, contains two ingredients hitherto combined only in rich night creams. Many who use Miracream have said goodbye to messy night creams that are so... shall we say... UNROMANTIC. Miracream comes in three lovely tints. Won't you select (with expert assistance) the proper one for your complexion, and start this daytime beauty treatment today?

A PENNY for a CHICK'S LIFE!

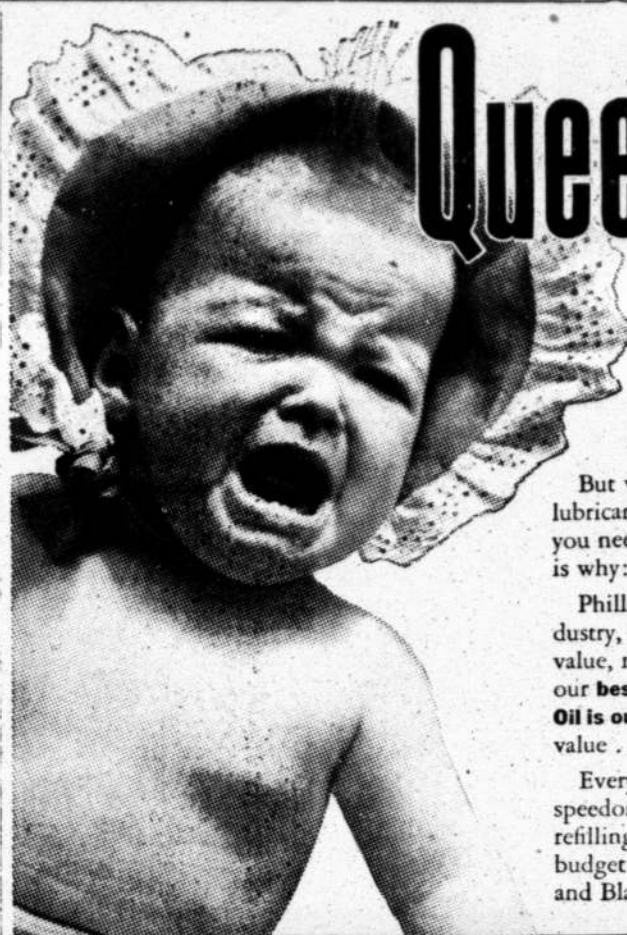

Many thousands of chicks die every year because they do not get a properly balanced starting feed. If a chick's life is worth one extra penny to you—you can afford to feed the best. For one penny per chick above the cost of an inadequate feed is all it costs to feed Purina Startena. And that extra penny may mean the difference between life and death to your chicks.

We sell Purina Chick Startena and can also fill your other chick-raising needs.

Queen OF THE Silver Screen?

It's HARD to tell... but EASY to pick a winning oil

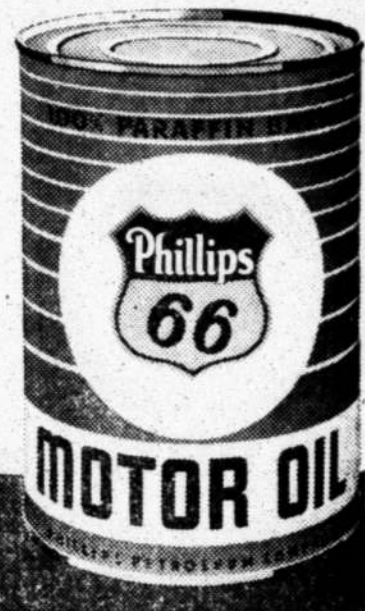

HOLLYWOOD KNOWS there is no royal road to finding future movie stars, no sure-fire plan for picking tomorrow's box office favorites.

But when you want a top-ranking performer among lubricants, you don't have to make expensive "tests"... you need not depend on mere surface appearance. This is why:

Phillips, the great independent of the petroleum industry, with a well-earned reputation for giving greater value, makes this straightforward statement: If you want our best oil, remember we specify that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer.

Every time a new 1,000-mile mark clicks up on your speedometer, play safe with your motor by draining and refilling with fresh lubricant. And play fair with your budget by asking for Phillips 66 Motor Oil at the Orange and Black 66 Shield.

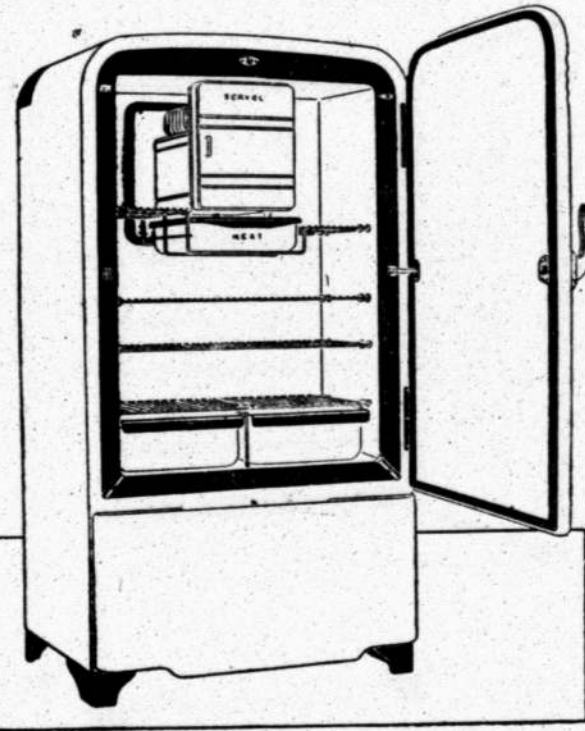

Phillips Finest Quality

No Payments To Sod Cotton Allotments In 1941 Under New Cotton Program

All 1941 farm operators that are receiving new grower cotton allotments or permitted acreages should clearly understand the regulations which are very strict especially when other farms or other tracts of land are involved.

Compared to 1940 this year new grower requests for permitted acreage on sod farms are few in Dawson County. The probable reason is due to the change in the 1941 regulations. No payment will be made to sod cotton allotments in 1941.

Very often application for new grower allotments are intentionally made in other operator's names or under the disguise of a short one-year cash lease. All operators as well as landlords should be very careful in entering agreements that may be interpreted as a device to increase the cotton allotment to a regular cotton farm. It is not legal for anyone to request a new grower cotton allotment for himself or any other person who has at the same time a regular cotton allotment on another farm.

It is very important that all new grower cotton allotments or permitted acreage cover a single farm unit. The following is an extract from a recent memorandum under date of March 28, 1941, sent to the Dawson County Office from the State AAA office: "It is important that every precaution be taken in the county office by the secretary and community and county com-

mittees to prevent new grower allotments or permitted acreage from being issued to tracts of land that do not constitute a farm.

"Special representatives of the State Office are visiting all counties in which an appreciable number of new grower allotments or permitted acreages have been issued for the purpose of spot-checking this work. In several counties visited to date, cases similar to the following have been found which are not eligible for C-2 permitted acreages: Producer A operates a farm consisting of 50 acres which has a cotton allotment of 15 acres. This land is owned by B. Landowner C owns a tract of land adjacent to, or nearby, the land owned by B, which is not covered by a work sheet, has no headquarters, and consists solely of sod land. Producer A rents (either on a share basis or for cash) all or a portion of the land owned by C and requests a C-2 permitted acreage be granted for such a tract. The tract is rented by A to be farmed from the headquarters on A's farm; no headquarters are to be established on the farm owned by C.

"This tract of land is not eligible for a C-2 permitted acreage, because it does not constitute a separate farming unit and should be combined with the work sheet covering the land operated by A."

There are 8 distinct languages, 87 dialects spoken in the Philippines

Retail School Is Seeing Goodly Number Each Day

Reports from the Retail Sales School, being conducted in Lamesa, by Miss Laura J. Wilson, under the sponsorship of the Lamesa Chamber of Commerce and the Lamesa Public Schools, state that between fifty and sixty people are taking advantage of the courses.

Classes are being held daily, with different lines of business being covered at different intervals.

Miss Wilson is appearing in Lamesa through the State Board of Education, and there is no charges to those who are attending the classes.

Dr. Sam Frazier Buys Loveless Hospital Here

Announcement is made this week that Dr. Sam Z. Frazier has purchased the Loveless-Bennett Hospital in this city.

It was further announced that Dr. Loveless will remain on the staff, and will occupy the clinic building now occupied by Dr. Frazier. The moving will take place within the next few weeks.

SHUMAKE

Survey Is Made Of Manufacturers In Lamesa Area

The Lamesa Chamber of Commerce has been asked to make a survey of Manufacturing industries in Lamesa.

The request comes from the Texas State Manufacturers Association and is aimed toward aiding the National Defense Program, in case of more rapid and widespread action on short notice.

Reports from the organization in Lamesa state that this survey has been made and the necessary forms filled out. They request any who might have been overlooked, to please report the matter to the Chamber of Commerce offices, so that they might be included in the survey.

Puppet Rodeo Show Held In Lamesa Tuesday

The Levi Strauss Mechanical Puppet Show, visited Lamesa Tuesday afternoon, and put on exhibitions in front of Bryant-Link Company and Baldwin's Store, local dealers for Levi Garments.

The show was mounted in a large especially constructed truck, and the twenty-six cowboy characters out on a complete rodeo exhibition. The sound effects and the motion of the puppets was operated entirely mechanically. The show has been on exhibition at the Fort Worth Pat Stock Show, as well as exhibiting at the New York World's Fair and the San Francisco Exposition.

They also put on a show for the children of the Lamesa schools.

District Meet-

(Continued from Page One)

Former Lamesan Dies In Oklahoma

Mrs. W. A. Jones, former resident of Lamesa, passed away Sunday morning of a heart attack at her home in Okene, Oklahoma. Her husband was engaged in the grocery business in Lamesa several years ago, and she is well known here.

Besides her husband, she is survived by one son and one daughter. Those attending the funeral from Lamesa were the following sisters and brother of Mr. Jones: Mrs. Ray Foreman, Mr. and Mrs. Bert Stevens and Hershall Jones. Funeral services were held Monday afternoon at 2:30 in the First Christian Church at Okene, with interment following in the cemetery at that place.

Mr. and Mrs. Dave Ford are the parents of a baby girl born April 1.

Mr. and Mrs. Travis Dean are the parents of a baby boy born April 1.

Mr. and Mrs. Spencer Barron are the parents of a baby girl born April 2.

Here's Contest Winners!

With the largest number of entries yet to be received in the Merchant's Sentence Writing Contest, the judges found it hard to decide upon the winners for this week.

After much head-scratching, the entry of Mrs. Elmer Boyd, 308 North Houston Street, Lamesa, was selected as the winner of the first prize of \$6.00 in cash.

Other winners named by the judges were Mrs. J. W. Henderson Route C, Lamesa, who will be awarded a lovely pair of Kayser Hose, given by Bryant-Link Company, Third place went to Mrs. Leonard Lamirand, Route C, Lamesa, who will receive as her award a beautiful Artemis Gown, given by Hurt's. Fourth place goes to Mrs. W. O. Schneider, Star Route 4, Lamesa, who will receive two quarts of Espuela Ice Cream, given by the Lamesa Creamery.

A check for \$6.00 has been mailed to Mrs. Boyd, and letters containing orders for the merchandise won, has also been mailed to the other winners.

The winning letters follow:

"I buy Dry Goods in Lamesa because of best quality, latest styles, lowest prices, most courteous service, and I am a Lamesan." — Mrs. Elmer Boyd, 308 North Houston, Lamesa.

"I buy Dry Goods in Lamesa because am 100% hometown supporter, and get such courteous treatment and dependable merchandise." — Mrs. J. W. Henderson, Route C, Lamesa.

"I buy Dry Goods in Lamesa because merchandise is the best in quality, style and selectivity. Prices are right and salespeople courteous." — Mrs. Leonard Lamirand, Route C, Lamesa.

"I buy Dry Goods in Lamesa because I think it is mine and everyone else's duty to trade at home and not buy from some far away mail order house." — Mrs. W. O. Schneider, Route 4, Lamesa.

The Courier would like to thank all those who entered, and is sorry that everyone could not win a prize. There is another contest announced in this issue, and you are urged to enter it. Two weeks from now, you may be reading your own entry in this space as one of the prize winners.

Attention is also called to the fact that several good entries had to be eliminated because of the fact that they used too many words. You must not use more than 25 words in the total sentence, including that part of the sentence which is printed in the entry blank.

Home-Made Fun For 38,851 Texas Club Girls

Food in tons and millions, beauty and comfort, and fun home-made—that's the story of 38,851 girls enrolled in Texas 4-H Clubs in 1940. This work, explains Onah Jacks, state girls' club agent, is carried on with rural girls by the A. and M. College of Texas and the U. S. Department of Agriculture cooperating.

The average age of these girls is 12, but despite their youth Miss Jack says, "they are certainly busy

at the job of improving the health of themselves and the folks about them." For example, last year they canned over 2,400 tons of food. And that does not include the vegetables used fresh out of 18,520,530 row feet of gardens they grew. In addition, they're preparing to make "a dent in the country-side" with 111,167 fruit trees and vines and 12,443 ornamental plants they have rooted from seeds and cuttings.

A great many 4-H Club girls in Texas reported clothing themselves for the year on about \$17. They kept their own records to find out about this. The fact that they made 86,791 garments themselves, and improved their methods of selecting and caring for clothes made that \$17 expenditure possible, Miss Jack says.

While their 4-H records don't show great money profits, the girls spent \$68,620 on home improvements to bring "comfort, convenience and beauty to more people even than their own families." The girls worked in 2,076 clubs in 191 counties. While they did most of their own planning and carried out their plans, each club had an adult sponsor who is a volunteer local leader.

Miss Vada Norris and Mrs. Vera Lewis spent Sunday in Lubbock visiting with friends.

Food For Thought

(AN EDITORIAL)
Membership-Finance Committee of Lamesa Chamber of Commerce

"The test of a man's worth to his community is the service he renders to it," one of our great past-presidents has said, and another has said, "I believe that a man should be proud of the city in which he lives, and that he should so live that his city will be proud that he lives in it."

Are you proud enough of your city to support your Chamber of Commerce? We believe that you are and that the reason you are not already a member, if this be so, is that you may never have been approached and asked to join, so we are making an effort to give you that opportunity, Tuesday, April 8.

Have you ever thought of the Chamber of Commerce as an organization that: Enlists most of the ablest men of the city in service for the community? Unifies the public spirit of the city and strives to break down sectional selfishness? Helps create and express sound opinions on questions affecting the welfare of the city? Links the city with others in great business and patriotic movements? Holds up an ideal of civic development that tends to the encouragement of what is helpful and the elimination

of what is harmful? Makes its members better business men and better citizens because of its activities and social life? Gauges the city's enterprise, prosperity and ambitions, and reflects accordingly upon every citizen?

We have heard the expression: "I don't like the way they are running things." If you feel this way, then get in and help change them. If you are right you will doubtless find many others who agree with you. If you haven't time to attend the meetings, this shouldn't prevent your giving your support financially. Some say an organization like the Chamber of Commerce holds too many breakfast meetings, but these bring men together and create acquaintance and friendship without which men cannot work together effectively. Some say, "There is nothing in it for me," but the Chamber of Commerce is not a selfish proposition and won't appeal to the man who wants to use every thing for his own selfish ends.

What we are trying to do is to secure cooperation, to secure community effectiveness, to secure the adoption of sane industrial and commercial plans, to secure adherence to such plans with the avoidance of unnecessary agitation, and with the minimum of envy and discord. Won't you join with us and aid in the work of the organization?

Miss Maynette Moore, of Midland spent the week end here visiting with her parents, Mr. and Mrs. Ben Moore.

Bill Boyd was a business visitor to Dallas this week.

Mrs. Myrtle Pewe, of Dallas, is visiting in the home of Mr. and Mrs. A. M. Bennett this week.

Mr. and Mrs. Dolvin McCown, of Odessa, spent Sunday with Mrs. and Mrs. L. O. McCown.

"Cuba" Topic For Delphians At Meeting Tuesday Night Woman's Study Club Ends

The Woman's Study Club finished its course on South America at its meeting March 28.

Peru and Argentina were the topics for discussion with Mrs. H. D. Hilliard as leader. In her presentation of these two countries, Mrs. Henry McQueen spoke of their geography, climate, history, products government and religion.

Mrs. V. O. Key gave a most interesting description of Buenos Aires, queen of the river silver. A real metropolis, this city has many unique features. It has a sky line very much like our Chicago and its modernistic buildings resemble dressers with the drawers pulled out parking space in the down town section of Buenos Aires is under-

ground with a huge swimming pool above.

Startling facts about Hitler's plan for South America were revealed by Mrs. J. H. Andrews in her talk. Thousands of Nazi agents are at work in this continent using every opportunity in business, school, press and over radio to spread propaganda and to trench themselves in the favor of these Latin Americans.

Mrs. Cecil Bryant told the legend of "The Three Mountains", an interesting superstition of the three majestic peaks, Maramba, Rondos, and Paucarbamba.

A short resume of the book "Fire on the Andes" was given by Mrs. Lex Brock. This book is a history of the early Incas civilization of Peru.

Friday April 11, the Woman's Study Club is sponsoring a review of "The White Cliffs". This is a best seller now and is a story of a woman's devotion and courage. Mrs. James Little, a talented reader of our town, will be the reviewer.

WOMAN'S SOCIETY MET IN INTERESTING SESSION MONDAY

The Woman's Society of Christian Service met Monday, March 31 with Mrs. Whitehead. Women from the churches of Sparenberg, Mt. Olive and McCarty enjoyed the following program:

Song, "Will Jesus Find Us Watching."
Prayer, Mrs. J. J. Flache.
The Church, the Bearer of the Purpose of God, Mrs. Whitehead.
The Church and the Gospel of Social Redemption, Mrs. Pruitt.
The Retreat of the Church, Mrs. H. L. Slover.

"Some Conclusions, Summarized" Mrs. Otis Green.
Prayer, Mrs. B. B. Bullard.
The next meeting on Monday, Bible Study. It is hoped all the women will be present at that time, and that more visitors will come.

PRIMARY P-T. A. TO MEET ON APRIL 10TH

The Primary P-T. A. will hold its regular monthly meeting Thursday afternoon, April 10, at three o'clock in the Primary Auditorium. "Contentment and Security at Home" will be the subject of the discussion, which will be led by Mrs. Huddleston. The musical program will consist of songs by the Mother Singers, and a song by Mrs. E. T. Abernathy.

Delegates to the conference at Brownfield will be selected at this meeting.

All parents of primary children are cordially invited to attend the meeting. Parents may leave their small children with the Girl Scouts in Room 10 during the meeting.

B. M. A. BAPTIST CHURCH TO BEGIN REVIVAL SUNDAY

The East Side B. M. A. Baptist Church will begin a revival the 1st Sunday in April. Rev. Willie Lee will be the preaching. Everyone is invited to attend.

Veteran Border Writer

James W. (Jim) Falvella has covered scores of thrilling battles and Rio Grande incidents during his long service as a border correspondent. Recently he celebrated his 50th anniversary as a newspaperman. He is shown here at his desk in Laredo.

Course On South America At Meeting Friday Evening

The Delphian Club left Miami, Florida, Tuesday evening, April 1, for an imaginary visit to Cuba. Mrs. M. C. Lindsey was leader and Mrs. A. H. Smith hostess for the occasion. Mrs. Lindsey touched on Cuba in a general way in her discussion. She spoke of the beauty of the water as they crossed over. Mrs. A. G. Bearden followed Mrs. Lindsey with a most interesting discussion of Cuba. She was charmed by the beauty of the island and the courtesy of the Cuban people.

Mr. Connally Baldwin discussed different personalities he met while in Cuba. "The people of Cuba are very polite," he said.

BETTY LOU AND MARGIE MARIE DALMONT HONORED ON BIRTHDAY

Mrs. Shelby Dalmont entertained with a party at her home Monday afternoon honoring her two daughters, Betty Lou on her fifth birthday and Margie Marie on her second birthday anniversary.

MRS. ROSCOE HOLTON HOSTESS TO TUESDAY BRIDGE CLUB

Mrs. Jack Phinizy made high score in the bridge games at the Tuesday Bridge Club Meeting Tuesday afternoon when Mrs. Roscoe Holtan was hostess to the members at her home. Others scoring were Mrs. N. H. Price and Mrs. Elzie Burleson who won the slam prizes.

At the conclusion of the games, Pumpkin Pie and Coffee was served to Mesdames Elzie Burleson, Tom Burnside, J. L. Spert, J. E. Garland, N. H. Price, Gordon B. McGuire Jr., Jack Phinizy and B. J. Baskin.

They seem to covet an opportunity to come to America and like the Americans. Mr. Baldwin said it made him wonder if we should close our borders to these people of foreign birth who are so eager for a new chance in our Democratic country.

Mr. G. M. Roberts told of his visit to Cuba. He seemed to have made a study of the entire island. He visited the Cuban schools, the slum district, China town, in fact every phase of Cuban life. The rich class are the best educated and control the affairs of Cuba, while the poor class seem to be in the majority. Mr. Roberts enjoyed all of Cuba except their music. "It was too much the same," he said.

MRS. A. M. BENNETT ENTERTAINS CLUB TUESDAY AFTERNOON

Mrs. A. M. Bennett entertained with a party at her home Tuesday afternoon for members and guests of the Pioneer Club.

MRS. JAP BALDWIN HOSTESS TO CLUB WEDNESDAY

Mrs. Jap Baldwin was hostess Wednesday afternoon at the Lamesa Country Club to members and guests of the Wednesday 42 Club. The Easter theme was carried out in the game appointments and refreshments.

Guests attending were Dorothy Jean Brown, Bobbie Jo Burns, Donnie Louise Richardson Shirley Lynn Reed, Benita Trice, Nancy Flo Collins, Judy Allen, Sidney Reynolds, Jo Ann Clifton, Martha Orr, Jo Ann Osborne, Ronnie Clifton, Betty Trice, Donna Jo Alexander, Jane Houston, Susie Ann Houston, Sue Ann Stanley, Lynelle Dahne and the hostess.

EDNA FAYE DAVIS IS HONORED ON 16TH BIRTHDAY

Miss Edna Faye Davis was honored with a surprise party on her sixteenth birthday at the Country Club Friday night. Hostesses were the honoree's mother, Mrs. Dewey Davis and her aunts Mrs. D. H. Davis and Mrs. Elmo Smith.

During the evening various games were enjoyed after which the honoree was presented with many lovely gifts.

Refreshments of Angle Food Cake and Punch was served from a beautifully appointed table. The table was laid with a Lace Cloth and centered with a two tiered cake, topped with sixteen pink candles.

Corsage of Candy Tuft decorated the table. Miss Helen Pope presided at the table during the afternoon. She was assisted by Mrs. Elmo Smith.

Guests attending were Misses Helen Pope, Mary Horton, Doris Richardson, Earline Davis, Regina Terrell, Peggy Sue Sumpter, Bobbie Reynolds, Betty Renner, Betty Jo Sumpter, Frances McCollum, Betty June Houston, La Vrae Esmond, Lay Dunn, Annie Belle Sellers, Velda Childers and Jimmie Jean Baldwin.

Course On South America At Meeting Friday Evening

METHODIST REVIVAL WILL CONTINUE THROUGH SUNDAY

Splendid crowds are attending the Revival Services at the First Methodist Church this week and much interest is being manifested. The preaching of Rev. Marvin Boyd has been the topic of much comment. His messages have been scriptural, pointed, practical and often spiced with his wit and homely philosophy. He will continue through Saturday night, and the closing services Sunday will be directed by the pastor.

Those who for any reason have missed the services are urged not to miss these last messages brought by this brilliant young minister.

O. K. HOME DEMONSTRATION CLUB REPORT

The Home Demonstration Club of the O. K. Community met on March 20 at the home of Mrs. Preston Stokes.

Those present were Miss Adkins and Mesdames V. B. Hohn, H. L. Hohn, P. Reavis, Walls, C. Wright, J. Snellgrove, A. Vandiver, M. Norris, and the hostess. The next meeting will be April 10 at the home of Mrs. Allen Vandiver.

WOODY

Aladine Drennan

Doris and Lou Gage McCown entertained the young crowd Friday evening with a party.

In honor of Mr. W. L. Womack's birthday, Mrs. Womack gave a birthday supper for him. Those attending were: Bill Thomas, of Dallas, Mr. and Mrs. L. C. Ranson and son Hilroy Leon, of Coleman, Mr. and Mrs. Bill Banta of San Angelo, Mr. and Mrs. John Banta, Maurine Womack, of Big Spring, Mrs. Alice Banta and W. W. Womack.

Freda Beth Womack spent Sunday afternoon with Bubbles Lou of Grandview.

C. A. Meyers Jr spent Sunday with Terry Faulkenberry.

G. C. Cliff Jr., of Brownwood, visited his parents, Mr. and Mrs. G. C. Cliff over the week end.

Betty Martin spent the week end with Doris Nell Hall.

Mrs. Weldon Stewart and daughter, Joan, visited Mr. and Mrs. A. M. Bartlett of New Mexico last week.

Mr. and Mrs. G. J. Martin spent Sunday with Mr. and Mrs. W. H. Hall.

PIERCE'S REMODEL

Pierce's Variety have completed their remodeling program, started last week. The partition has been moved back, and an additional row of tables installed. A new office has been built, and a waiting room for customers of the store provided. New window backgrounds have been installed, which add greatly to the appearance of the store.

WOODY H. D. CLUB REPORT

The Club met on March 26 in the home of Mrs. R. W. Mitchell.

Mrs. West, who had attended the Council Meet at Big Spring brought back a very interesting report to the club.

A motion was carried that each member pay seventy-five cents to forward the work of the council.

A very interesting discussion was given on the kinds of fabrics and their care. Interesting points of the discussion was given in the explanation and removing of stains.

Cookies and coffee were enjoyed by the Club members. The club will meet April 9, with Mrs. R. W. Mitchell. All unlisted women are urged to attend this next meeting. — Reporter.

Luther League meets at Church Saturday April 12, 7:45.

The Easter Day services with Holy Communion April 13 in the morning.

Come and worship the suffering, dying and Risen Christ with us.

MAHOMET WAITS IN A BIG RED TRUCK

WINTER HAVEN, Fla. (AP) — "Hurry, there's going to be a fire at the Seaboard Station in about 10 minutes," came the excited summons over the fire station telephone.

The fire, on the baggage car of a southbound passenger train, arrived on schedule and the firemen went to work. The blaze was discovered some miles back and trainmen called ahead to announce the emergency. More than an hour was required to extinguish it.

PARIS EATS TURNIPS AND SPARES THE ZOO

PARIS (AP) The day and night preoccupation with food—or rather the lack of it—in Paris has caused many a covetous glance toward the zoo.

There have been no casualties in that institution this time, although during the siege of 1870-71, it provided many a dish for Paris tables.

Statistics show that Geoffrey Saint-Hilaire, director of the zoo, did a very profitable business in 1870. Two Egyptian geese were sold for 155 francs; three antelopes brought 4,000 francs.

Two camels, one yak, two kangaroos, a pelican, a swan and a small deer went for 4,375 francs. The best sale was that of two elephants which a butcher snapped up for 27,000 francs.

One newspaper summed up the situation recently with the remark that "our forefathers would turn up noses at us here." A good many Parisians refer contemptuously to turnips as "cow fodder," but they are eating them now.

Surplus Food For March Same As For February

Surplus food designations for March, the same as for February, have been announced by the Department of Agriculture, and all foods on the list may be obtained in exchange for blue surplus food stamps in stamp plan areas.

The list includes fresh grapefruit, oranges, pears, apples, onions, (except green onions), Irish potatoes, butter, raisins, rice, pork lard, all pork (except that cooked and packed in metal or glass containers), corn meal, shell eggs, dried prunes, hominy (corn) grits, dry edible beans, wheat flour, and whole (graham) flour.

In Dallas and Dallas County and in Houston and Harris County vegetable shortening will continue available for the March period. However, it must be used for cooking, sold to consumers in bulk or in paper or cardboard containers, and labeled "Made entirely from domestic vegetable oils."

Farmers and truck growers benefited when surplus foods to the value of \$289,093 were moved by the food stamp program in Texas during January, according to figures compiled by the Surplus Marketing Administration. This represents the blue stamps issued in the state during the month. In addition, the 39,653 participants in the stamp program maintained their regular purchases of food by buying \$382,010 of orange stamps during January.

Mr. Joe English and Mrs. Blaine Wiggins spent Tuesday in Brownfield visiting with Mr. and Mrs. Doyle Shillingburg.

THOROUGHLY TESTED 10 YEARS RESEARCH—30 YEARS USAGE BY DOCTORS—6 YEARS TESTING AS A HOME TREATMENT.

Before Daviss Drops (contains Boglyform) were offered for sale in Drug Stores, every year it makes new thousands of fine friends—Establishes new sales records among ear, throat, sinus sufferers.

DEFICIENCY JUDGEMENTS IN DAWSON COUNTY FOR SALE

Acting under the instructions of Federal Court, I am offering for sale to the highest bidder for cash, efficiency judgments and judgment liens, as follows:

1—A list of the obligors and amounts of each will be furnished by me upon request.
2—All bids must be in writing and by financially responsible persons.

3—All bids must be in my hands by Tuesday, April 22nd, 1941.

Hoaxes That Made Headlines - And History

April Fool's Day is the traditional time for horseplay, but the joker is with us the year 'round. Here is a story about some of the greatest hoaxes of all time.

AP Feature Service
Astronomy was the rage in the 1830s. Everyone who could afford a telescope spent his evenings peering at the sky, astronomical societies and amateur publications were without number. And the situation was just right for one of the most celebrated hoaxes of history—the moon hoax.

In August of 1834, the old New York Sun began a series of staidly written but sensational articles about "new and remarkable observations of the moon by Sir John Herschel, a British astronomer of good reputation."

With a perfectly straight face, the Sun quoted what is said was a "Supplement to the Edinburgh Journal of Science." This remarkable document told how Sir John had been commissioned to go to the Cape of Good Hope to observe a transit of mercury and took the opportunity to test a 24-foot lens telescope he had built, with a microscope attached to the eye-piece.

The results were stupendous! Clear and sharp, the surface of the moon appeared as though it were only 18 feet away.

The story described mountains of huge solid crystals and amethysts, and a race of beings somewhat like humans.

On another continent the telescope found an improved race of near-humans which had built a huge tower, apparently a temple, of sapphires and a yellowish metal.

For further details, the Sun referred the reader to a full account by Sir John himself, leaving only a hint that some of the other amusements of the moon people were not "within the bounds of strict propriety."

The whole thing was a phony. It was written from start to finish by Richard Adams Locke, a reporter on the Sun, but phony or not, it boosted the Sun's circulation 50,000. The story was translated into almost every foreign language of the civilized world and created a sensation everywhere. Sir John issued a denial, but for years afterward people wrote to the Sun asking for copies.

Strictly speaking, a hoax is a joke for the joke's sake—not a swindle. Of the true practical jokes, probably the most famous is known as the Drendnought hoax.

This was staged by a group of Cambridge students who disguised themselves as "the Emperor of Abyssinia" and his entourage. They notified the commander of the British cruiser Drendnought that the emperor would inspect the ship. The commander, a cousin of one of the hoaxers, and the entire crew were taken in completely. The trick never would have been discovered if the costumer hadn't used the hoaxers' picture in an advertisement.

The Cambridge boys has historical example for their joke. In 1812 a glamorous lady calling herself the Princess Cariboo arrived at the port of Bristol, England, with a big crew of servants and a private cook who prepared all kinds of "Oriental dishes." She took a suite of rooms at the White Lion inn, dished out tips to all the employees in gold pieces and induced the proprietor to cash a 1,000 Pound order on a Calcutta bank.

She said she had come to establish relations with King George between England and her tiny but wealthy nation in the Far East. Courtiers flocked to win her favor, and she was the sensation of the country. The London Mirror had a special type cut which it said was in her language.

Bristol's small boys seem to have had better instincts. They tagged after her in the streets singing "boo! boo! boo! and who's the Princess Cariboo?" While geographers still were trying to figure out exactly where the princess' country was, she "left for London" with some \$50,000 in cash and presents and was never heard of again.

The princess, in her turn, may have operated from the example set by "Riza Bey, the Persian envoy," who swindled King Louis XV of France. Riza Bey, who died at Versailles in 1667, proceeded to the palace at Versailles in splendor and was entertained as befitted the man opening diplomatic relations between France and the magnificent land of the east.

He was showered with gifts, speaking grandly meanwhile of a shipload of presents on its way from the Shah. Every few days one of his servants was "sent away on a mission." Finally the ambassador slipped away too—with the last of Louis' gifts. The presents from the Shah never arrived, and nobody ever found out who the ambassador was.

CRIME NEVER PAYS
SPARTANBURG, S. C. (AP) — A bootlegger told a Federal officer here that he delivered a ten-gallon keg of moonshine whiskey on his back to a man whose office was on the fifth floor of a building and the man paid him with a check—that bounced.

INTERNATIONAL CAPITAL
LONDON (AP) — Britain now is a haven for five exiled governments—Poland, Norway, Belgium, Netherlands and the Czechs. Each has a provisional prime minister, foreign and finance ministers.

Soil Erosion Is Costing U. S. Billions Of Dollars

Soil erosion is costing the United States more than \$3,800,000,000 annually, and already has damaged half of the land of the country, according to the annual report of H. H. Bennett, Chief of the U. S. Soil Conservation Service.

The conservationist visualizes erosion as a definite threat to the Nation's long-time defense program and expresses the fear that it may become a major fifth column unless it is checked in the near future.

"Erosion is a threat to the productive capacity of the Nation; a drain on the country's agricultural resources; a cause of rural impoverishment; and a dangerous fissure in the preparedness dam we are building against unfriendly tides from other continents," Bennett stated in this report.

"On this continent we now have what a large part of the rest of the world is fighting for. We have land, liberty, a decent standard of living, and freedom to move, think, write, speak and worship without restraint. This country is ready to defend our institutions and our shores without reservation. But defense of our actual boundaries as a Nation is not enough," the soil conservation chief stated.

"The defense of our natural resources, and especially our soil and water resources, is as important to the American people and their future welfare as tanks and machine guns," he continued.

Three billion tons of soil are eroded from the farm and grazing lands of the nation each year. Valued at one dollar per ton, this means a loss of \$3,000,000,000. The damage to highways, railroads, reservoirs, streams, and other structures and the loss in crop yields accounts for an additional \$800,000,000, according to surveys of the Soil Conservation Service.

"We can conserve our soil. We know how to do it. We can, if we will, make it produce abundantly, and without waste, for any and every production need that may face us. Soil conservation does not mean land idleness, but the use of the land in the wisest possible way. It is up to the people of this great country to organize themselves in

Producers Of Livestock Help Save Wildlife

Livestock producers of the Southern Great Plains generally are conservers of wildlife, too, according to Philip F. Allan, regional biologist of the Soil Conservation Service.

Some of the most desirable species of wildlife probably owe their continued existence largely to the rancher, the biologist believes. The antelope, for one, would be extinct except in refuges and parks were it not for the protection given by ranchers. Herds of these have been maintained, sometimes at the expense of livestock, and since 1920 have increased considerably. A census of 1922-24 showed 2407 antelope in Texas, while they now number more than 7000.

Quail and other gamebirds find protection on the ranches of the Southern Plains, Allan reports. Feeding is done by many ranchers who enjoy having the birds on their land. A few ranches have truly spectacular populations of quail, for example, the ranch of Tom Belcher at Channing, Texas. Here quail have been protected and fed and some of the roughest parts of the ranch have been retired from grazing to provide sheltered areas. In the winter this ranch has from seven to eight hundred quail concentrated in two small box canyons.

Allan cites several other instances where parts of ranches have been turned into small wildlife refuges. (1) A small pond on an eastern Colorado ranch is frequented by at least 23 species of birds, including nine species of ducks. This pond also is the haunt of muskrats and is well supplied with fish. (2) 27 small gullied areas in eastern New Mexico were fenced off and planted to shrubs and trees in 1937. They now have an average of thirty quails each, where formerly there were few or none. (3) A livestock shelter planting by a windmill in southeastern New Mexico has a breeding population of 18 pairs of birds.

Some forms of wildlife, such as the prairie chicken, have difficulty such a way that they can attack this problem before the other half of our land is impoverished and it is too late," he concluded.

REDS KEEP FRENCH POLICE WELL INFORMED

VICHY, France (AP) — Police in Grenoble didn't have to look far to find out what illegal Communist literature was reaching their town. Every day for some months they found a copy of the underground paper "L'Humanite" and the latest subversive leaflets in the police station mailbox.

CHICKENS' PLAINTS COME HOME TO ROOST

CHARLESTON, S. C. (AP) — A farmer whose squawking chickens woke him in the wee hours crept to the hen house, gun in hand.

The chickens had quieted, so the farmer squatted down in the shadow of a tree, aimed and cocked his gun.

Then a prowling dog decided to do some investigating, too. He crept up and thrust his cold nose against the farmer's exposed back.

Bang! The gun went off as the farmer leaped into the air. And when the air had cleared, 19 chickens were dead.

Poor Fido.

In surviving the competition of livestock, according to the biologists, with the tall grasses being grazed off, these birds have disappeared generally. Prairie chickens still remain in some parts of the Plains where suitable conditions occur and have increased on a few ranches where special efforts have been made to provide homes for them.

Practically every ranch offers possibilities for the preservation and increase of wildlife at little or no sacrifice of livestock, Allan says. Water developments, such as tanks, springs and wells, offer the greatest opportunities for wildlife development. A little fencing properly used allows grasses and shrubs to develop on such sites, thus providing homes for game. Idle or useless areas, if protected from livestock, quickly become wildlife havens. Box canyons, rough areas and other sites which provide little food for livestock, will if fenced, usually provide shelter for a covey of quail.

While wildlife itself seldom puts actual cash in the rancher's pocket, the practices of benefit to wildlife often are best fitted to good range management, soil and moisture conservation and wise use of the land, the biologist declares.

PERHAPS THE GROOM WAS A BIT NERVOUS

A Missouri Editor-printer got his type make-up mixed, a marriage and a livestock sale, which was published as follows:

"Miss Katie Jones and William Brown were disposed of at public auction at the Jones farm one mile south in the presence of 70 guests, including two mules, 12 head of cattle and 5 hogs. Rev. Jackson spoke the ceremony for the couple averaging 1,250 pounds on the hoof. The beautiful home of the bride was decorated with two sulky rakes, one feed grinder and 5 sets of harness, nearly new. Just before the ceremony the beautiful wedding march was rendered by two Jersey bulls and one sheep, who carried a bunch of the bride's roses. The bride wore lovely costume of 3 crates of apples, 6 bales of hay, one grindstone of muslin de soie and a sack of peanuts. The sale was a great success."

SWISS UNHAPPY — THEY STRUCK OIL

CHIASO, Switzerland (AP) — Oil recently discovered in Chiaso at a depth of 1,300 to 1,500 feet is by no means welcome to all the Swiss, surrounded by neighbors needing petroleum.

"Freedom is a rare and valuable enough raw material for a little people such as we to defend."

VOTERS 167: VOTES 6 SEATTLE (AP) — Although the new suburban area of Blue Ridge has 167 registered voters, including a county official and a number of persons prominent in civic affairs, not one vote was cast in the March municipal election. There were two contests, for school board and port commission, and it cost the county 40 to open the polls and pay three officials to sit around all day.

Mr. and Mrs. W. B. Collins were visitors in Brownfield Wednesday.

Mrs. J. H. Clark and Mrs. Hugh Lott spent Wednesday in Lubbock visiting friends and attending to business.

Miss Bertie Gordon visited friends in Lubbock Tuesday.

Mr. and Mrs. L. F. Kennedy and Jess McWhorter spent several days visiting in the home of Mr. and Mrs. C. O. Magee at San Angelo this week.

Can Hitler's Forces Invade British Isles?

By Morgan M. Beatty
AP Feature Service Writer

WASHINGTON — Canvass the best military, economic and diplomatic opinion on this side of the Atlantic and you get a picture of Germany attempting an all-out invasion of the British Isles along a fairly definite pattern. And you also find odds about 3 to 2 against an all-out attempt this year.

If the Germans should try it, however, the first week in September affords the most auspicious combination of advantages from their point of view.

The odds as reckoned here are a little higher than 2 to 1 that the invasion attempt would fail. Most experts accept the general thesis that the Germans will first lose their submarines and planes on the British. In fact the battle of the Atlantic has already started, and the stepped-up air Battle of Britain should begin about mid-April. Meanwhile the Nazis use axis diplomacy and force along the British lifelines to divert as much empire strength as possible to these danger points.

In the opinion of observers here— if the submarines and their helping plane eyes threaten the British Isles with strangulation, AND

If air attacks show signs of breaking British morale, AND if thrusts at empire lifelines succeed.

Then—and only then—should a prudent German high command consider all-out invasion.

But nevertheless, Hitler should be prepared for the odds, and have a huge army ready to spring from the invasion coast of France anytime between April 1 and September 30.

On the other hand there are three stark, compelling reasons why the Nazis might throw caution to the winds and attack this summer.

1. Germany must feed several hundred millions of people in conquered Europe. Diet deficiency among these people already ranges close to 50 per cent by official Nazi reports. The Germans must break the blockade soon.

2. American aid is mounting fast. 3. Except for war industry, economic stagnation is admittedly general over Europe. Peacetime work must be resumed before people can receive money for work and afford the necessities of life.

The weather should go a long way to dictate the timing of the German attack. It has always been a major factor with German military leaders.

The battle of the Atlantic, in line with this weather factor theory, was launched about March 1. Prevailing weather is clear, white caps hide periscopes, torpedoes wait. Spring air attacks should start in April as land storms subside and generally milder conditions prevail.

The ideal period for land invasion is the first week in September.

Payments For Trees Available To Farmers

Take it from a landscape specialist—every farmer in Texas should be familiar with the Triple-A's 1941 provisions for a payment of \$15 to each farm for the planting and maintaining of trees. This payment can be earned over and above the regular soil building allowances.

Sadie Hatfield, specialist in landscape gardening for the A. and M. College Extension Service, points out that in every section of Texas trees are needed for shade for the home, the livestock and poultry and for windbreaks. In some of the wooded sections of Texas this natural protection is used and appreciated, she says, but on the coastal plains and on the plains of West Texas the need is still strongly felt.

Along the coast and in warm sections of Texas it is easy to grow a windbreak of Tamarix, which is commonly called athol, athel, and ever-green salt cedar. Then, there are so many varieties of pine trees that there are some pines suited to all sections of Texas. The AAA will pay at the rate of \$4.50 per acre for the planting of pine trees.

On the western plains and in the Panhandle of Texas, hardwood deciduous trees are used in combination with pines and other evergreen trees. AAA payments for hardwood trees are made at the rate of \$6 per acre. Among the trees well adapted to the semi-arid portions of the state are desert willow, salt cedar, elms, ash, honey locust, Russian olive, jujubes, and red cedar, as well as western yellow pine and Austrian pine.

Thus under the AAA provisions, planting of 2 1/2 acres of hardwood trees or 3 1/3 acres of pine trees would earn the maximum of \$15 which is available in addition to the soil-building allowance for the farm. Additional tree planting could earn additional payments under the soil-building allowance. For the cultivation of forest trees planted between July 1, 1937 and January 1, 1941, the AAA will pay \$1.50 per acre as part of the soil-building allowance for the farm.

ODYSSEY OF A 1924 ROLLS ROYCE MINNEAPOLIS (AP) — Have you ever wondered what happened to old automobiles? Here's what happened to a famous one: Jack Dempsey paid \$21,000 for a Rolls Royce in 1924. Several years later he sold it for \$11,000 to a Minneapolis man, who in turn traded it to a junker for \$75.

There its 17-year career ended. Now it may find its way into a bathtub or gun.

The company sold it to a mechanic who got some of his money back charging spectators at county fairs a price to see Jack Dempsey's limousine. Then in 1938 it was sold to another motor company, which in turn traded it to another dealer, who sold it to a junker for \$75.

The Association's state convention, planned September 3 to 5, will be held in Beaumont. Mrs. Brown says. At that meeting, new officers will be elected to serve more than 40,000 home demonstration club women during two-year terms.

Gilliam Abbott and Jimmie McCarty visited friends in Lubbock Sunday.

Dates and meeting places have been arranged as follows: District 1, Pampa, April 21; District 2, Plainview, April 19; District 3, Vernon, April 17; District 4, Cleburne, April 22; District 5, Paris, April 23; District 6, Big Spring, April 16; District 7, Stephenville, April 19; District 8, Marlin, April 21 and 22; District 9, Lufkin, April 29; District 10, Seguin, April 19; District 11, La Grange, April 25; and District 12, Raymondville, April 17.

District Meetings Set For H. D. Association

A schedule of the twelve district meetings to be held this spring by the Texas Home Demonstration Association has been announced by the president, Mrs. A. J. Brown of Medford, Jefferson County.
