First Youth Rodeo Is Slated for July 10-11

The first VFW Youth Rodeo will be held Friday and Saturday nights, July 10 and 11, with an estimated 200 young cowboys and cowgirls from the entire southeastern Panhandle and southwestern Oklahoma participating.

Announcement of the event was made this week by Herbert Bearden and Jake Leach. The rodeo will be held at the recently rebuilt arena in northeast Wellington.

Any boy or girl still in school and under 18 years of age may enter, and there will be different age groups in the contests.

"We are publicizing the rodeo through this entire area," Bearden and Leach pointed out, "as we plan for this to be one of the truly big youth events of the summer."

Eliminations will be Friday night, beginning at 7 p.m. Saturday night contests will start at 8.

Here are the events and the age groupings of each:

Barrel racing, 9 to 11 years, 12 to 14, and 15 to 17 years; pole bending, same as for barrel racing.

Steer riding, 13 years and under, and 14 to 18 years; break-away calf roping and tie down calf roping, 13 years and under, and 14 to 18 years.

The VFW members working with the rodeo estimate that as many as 200 boys and girls may be entered, since efforts are being made to draw interest from a wide area.

Added attractions will be a calf scramble and a boot race for children under 10 years of age.

Every entrant will receive a ribbon, and plaques and rosettes will go to winners of the first six places. There will be plaques for the all-around boy and girl, chosen at the end of the show.

Anyone wishing to enter should contact Bearden by calling 447-5663 or 447-2547; Leach at 447-2413; or Sheriff John Rainey at 447-2303 or 447-2235.

Funeral Here Wednesday for Wallace O'Rear

Wallace O'Rear, 71, a Collingsworth county farm leader for nearly half a century, died in Shamrock General Hospital Monday, June 29 at 10:05 p.m. after an illness of about 20 hours. His death came as a shock at Shamrock, where he had lived the last four and a half years, as well as here, for he had attended church services three times Sunday.

He came to Collingsworth county and the Rolla community 62 years ago, as a boy of 8, and that community was his home most of the time since.

His public service to this area covered almost every phase of farming. For many years, he was active in the Farm Bureau and while he was president in 1956 he helped bring President Lyndon Johnson, then a senator, to Collingsworth county.

He was one of the small group that worked to organize Greenbelt Electric Cooperative, Inc., and he served on its board of directors. Only recently he recalled that "pople thought we were out of our minds" to try

Irritation and Damage

Warning Given on Fireworks, Air Guns

Police Chief Donald Nunnelley has requested that parents not allow their children to shoot fireworks or air rifles inside the city limits, as there is a city ordinance prohibiting both.

There has been quite a bit of firecracker shooting and quite a few complaints about it, the police chief said.

Shooting firecrackers has been especially distressing to older persons and to the sick, and in addition to complaints made directly to law enforcement officers, there have been reports of other instances in which no action was taken.

"Some I have talked to didn't know there was an ordinance against it and everyone has cooperated nicely when reminded or asked not to permit it," he continued.

"There is also an ordinance against discharging air rifles inside the city. Several persons have been shot at lately and one lady was shot in the neck by some kids with air rifles. Sometime Monday somebody shot a hole through a sliding glass door in Hubert Mauldin's new home," Chief Nunnelley said.

The danger of this practice cannot be stressed too strongly, since there have been cases here in past years in which persons hit in one eye with an air gun pellet have lost the sight of that eye.

Woman Faces Assault Charge

Charges of assault with a deadly weapon were filed Monday, June 29, against Mrs. Autheria Pennon, Wellington Negro, following the Sunday shooting of her husband, Leo Pennon, Sheriff John Rainey reported.

The sheriff said the incident occurred about 5:15 a.m. Sunday in the Housing Project in the northeast part of town. The shooting was attributed to family trouble.

Pennon, about 30, was shot in the left thigh with a 20-gauge shot gun, Rainey said. His wife then went to Pete Scott's at the corner of Highways 83 and 203 and Scott called the sheriff.

Pennon, who was employed by Woody Wood, was treated at St. Joseph's Hospital and later was taken to Oklahoma City, Sheriff Rainey said. The woman was held in jail overnight and released on $1000 bond Monday, as she has a young baby.

At Farm Bureau Building

4-H Girls to Model in Dress Revue Mon.

The annual Collingsworth County 4-H Club girls dress revue will be held Monday, July 6 at 2:30 p.m. in the Farm Bureau building at the corner of 9th Street and Highway 83, Mrs. Kathryn Barjenbruch, home demonstration agent, has announced.

The winner of this event will represent the county at the district revue later in the month.

The public is invited, the agent said.

She asked that the girls be at the building by 2 p.m. and that their garments and record books or stories be in her office by 5 p.m. Thursday, July 2.

'The dress revue is to help a girl improve her knowledge of grooming, poise and charm, as well as helping her be a better informed consumer of the clothing and fabric field, to help her know how to better use and spend her clothing dollar for both ready-made garments and fabrics by the yard, and how to select a becoming style and pattern," Mrs. Barjenbruch explained.

The contestants are judged on their posture, poise, grooming and attitude; the outfit on the girl, its construction and the girl's record.

Humidity Hurts Animals, Too

As temperatures start hitting the 80-90 degree range and higher, livestock men are urged to consider the relative humidity as a factor in minimizing shrink and heat-induced deaths.

For example, transit hog deaths can be expected to more than double when the temperature is at 85 degrees and the relative humidity is at 35% as compared with 75 degrees and relative humidity 50% or below reports Livestock Conservation, Inc.

Wedding at Cotton Center Unites Rebecca Harkleroad, Bill McAlister

Miss Rebecca Ann Harkleroad and Bill McAlister were married Saturday evening, June 20 in the Cotton Center Methodist Church, with the Reverend D. D. Greecy of Miami performing the double ring ceremony.

The bride is the daughter of Mr. and Mrs. O. W. Harkleroad of Cotton Center and the granddaughter of Mrs. W. S. White and the late Mr. White of the Kelly community. She has been a frequent visitor here. Parents of the bridegroom are Mr. and Mrs. R. B. McAlister of Lubbock.

The altar setting was formed of candelabras holding lighted tapers, and arrangements of white stock and chrysanthemums. At either side were votive candelabras and baskets of white chrysanthemums.

Wedding music and readings to musical setting were presented by Miss Nellene Oliver of Lubbock and Dr. J. Ivan Gaynor of Hale Center. Mrs. G. L. Byers of Little Rock, Ark., aunt of the bride, was soloist.

Mr. Harkelroad gave his daughter in marriage. She wore a gown of silk peau de soie, with a bodice enhanced by re-embroidered Chantilly lace. Lace motifs accented the sides of the full-paneled controlled skirt that flowed into a full bouffant chapel train. Her headpiece of illusion, flecked with orange blossoms, held her tiered elbow-length veil of silk illusion, and she carried a bouquet of stephanotis and feathered chrysanthemums surrounding a white orchid.

Mrs. E. W. Harkleroad of Sweetwater, sister-in-law of the bride, was matron of honor, and bridesmaids were Miss Carol Sue Ebeling, Miss Sherry Ann Lindsey, Miss Joannie Hammonds of Cotton Center, Miss Kathy White of Plainview and Miss Cyressa Jo Harkleroad of Sweetwater. They wore cherry pink organza formal length dresses. Their matching picture hats were of braid and peach blossoms and their stylized bouquets were of feathered chrysanthemums.

Cindy Tunnel of Lubbock and Linda O'Neil of Cotton Center were flower girls and candles were lighted by Martha Ann Robertson and Thomas Lowry of Cotton Center.

Best man was Robert Lemon of Lubbock, while groomsmen were Gary Tunnell of Lubbock, E. W. Harkleroad of Sweetwater, brother of the bride, Lewis D'Elia, Larry Gilmore, Don Garth and Gene Price of Lubbock. Ushers were Alan Key, Gerald Coleman, Dee Wooten, Doug Davis and George Entz of Lubbock.

Following the ceremony, Mr. and Mrs. Harkleroad were hosts at the reception in the church fellowship hall. The bride's table was covered with a white satin cloth overlaid with white net and appliqued with a white organdy floral design, made by Mrs. F. L. White of Wellington, great-aunt of the bride. A tall silver candelabra was garlanded with stock and smilax. The groom's table was laid with yellow Margarite daisies.

The bride was graduated this year from Cotten Center high school. The bridegroom is a graduate of Monterrey high school in Lubbock and attended Hardin-Simmons University and Texas Tech. He is manager of Radio Station KSEL in Lubbock.

On July Fourth We Can Begin to Refurbish Our Patriotism

Saturday we observe the Fourth of July, a holiday for the United States alone. There is talk in many places, some of it on the coffee breaks in Wellington, that perhaps our patriotism has become a little tarnished, perhaps we are indifferent to the significance of this birthday of our independence, that as we think more about peoples all over the world, we think less of our own birthright.

Of all we possess, our patriotism is one thing we can least afford to lose. It is that deep devotion, not defined in words, that has grown out of our freedom and our way of life.

Flag waving is not as popular as it used to be. But there is nothing wrong with flag-waving unless it comes from the tongue only, not the heart. It should be the outward symbol of our inward beliefs regarding our nation.

Patriotism is not uncritical. At no time has this nation been beyond criticism, and some of the giants of its history have been its greatest critics of what they considered wrong. And they worked to back up that criticism.

Patriotism is not static. The colonists expressed their patriotism one way: 75 years later it was said in another as men put one foot in front of the other until they settled the plains and mined the mountains. Now we know the landmarks of space better than our grandfathers knew the landmarks of the next county, and our patriotism will be spoken with different words, but it must not lose its fundamental meaning.

This is not to say we should give this July Fourth over to thinking about patriotism, but it is to say that we should think more about it on the Fourth and all other days. We should keep it vital with our work and thought and speech. If there is tarnish on our patriotism, this will polish it.

Still With Us

CROSSROADS REPORT

Dear Editor:

Supreme Court has more or less outlawed the loyalty oath, seemingly on the grounds that oaths of this nature somehow interfere with a citizen's right to be a rat.

Which shows the honorable justices don't understand human nature. In fact, the loyalty oath is a great help to the double-cross type people, because you quit watching a man so close after he swears he is on your side.

Sample of how oaths don't much hamper individual freedom is the marriage rite oath of obedience, which has fooled some men but is not known to have restrained any wife from practicing her convictions.

I see where an elderly shopkeeper in New York City shot and killed a holdup man, and may get seven years in prison because this incident revealed to Authority that he owned a gun.

Which could lead folks to think the anti-gun crusade is mostly aimed at making life easier for deprived citizens engaged in private enterprise efforts to un-deprive themselves by robbing the less deprived.

But this old-style and slightly dangerous do-it-yourself method of equalizing the wealth is becoming obsolete, anyway, as government steps up the official drive to take it away from the haves and give it to the have-nots.

Supreme Court's latest move to reform states' habits means that henceforth all state lawmakers have got to be elected by the big cities.

Which will leave us rural minority without anybody on our side in the state capitols, and may make us have to start using the progressive street-mob tactic to get our rights.

But my comfort-prone neighbor says he hopes somebody will invent a better way to coerce for rural rights, because street rumbling is summertime work and too many backward places don't have air-conditioned jails.

I see where there is still a lot of pro and con talk about the Supreme Court deciding that public officials can't write out prayers for kids to offer up in school.

My muddle-watcher neighbor says this could lead to considerable loose praying by people who don't get any official training in what to pray for.

He says it could bring on massive unemployment in the politics industry if folks without any pre-written prayers to go by had to think up their own and started asking the Lord for better bureaucrats.

FORT OUTLASTS INDIANS

Fort Bliss was established in February, 1848 near El Paso, as a defense against Indian raids.

During the famine of 1315 one-tenth of the inhabitants of Ypres in Belgium died of starvation.

Drive Carefully Over the Fourth, DPS Urges

While the drivers of Texas are making plans for 4th of July trips, the Texas Department of Public Safety is getting ready for "Operation Motorcide", a three day vigil of tabulating all traffic deaths in the state.

Major Harry Hutchison, regional commander of this area for the DPS reported the state is approaching the mid-point in the year amid definite indications that traffic deaths will hit an all time high again in 1964.

"If we continue to take lives at the present rate, 1964 will become the most deadly year in Texas history for traffic fatalities," he said. "Motorcides" at this time are over 150 more than at the same time last year and considering the trend of increased accidents and casualties, we have every reason to expect that traffic deaths will exceed the previous all-time high in Texas of 2,729 in 1963.

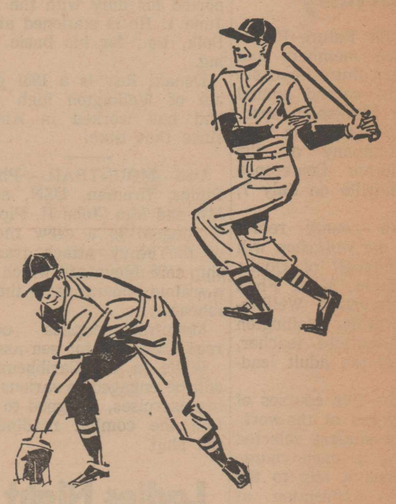

"Only 271 more deaths in 1964 than in 1963 will make a total of 3,000 lives lost on our streets and highways in one year, an increase for the year of 10% over 1963." Deaths in traffic this year have consistently been in excess of 15% over 1963, an indication that the 3,000 mark will be surpassed.

Hutchison said that "Operation Motorcide" will be placed in effect from 12:01 a.m. Friday, July 3 and continue thru 11:59 p.m. Sunday, July 5. In order to focus attention upon the added dangers of holiday travel when traffic is at a peak and as an integral part of the operation, which calls for maximum enforcement, additional personnel from the uniformed services of the DPS will augment the regular Highway Patrol force. These patrolmen have been instructed to be extra alert for and direct their enforcement efforts toward the violations that are most often caused factors in traffic accidents. In addition every effort will be made to remove drinking drivers from the highway.

"Since police traffic supervision cannot cover the entire street and highway system of the state every minute of the day, the big hope for safe driving and accident prevention rests with the individual motorist," Hutchison concluded.

"Lights, Flowers" at State Fair

Theme of the Women's Division of the State Fair of Texas Oct. 10-25 in Dallas will be "Exposition of Lights and Flowers." Mrs. Leah Jarrett, director of the women's department and Mrs. LaVere Tremblay, assistant, will be in charge of entries. An attractive show catalog, listing exhibit classes, departments and premium lists, is just off the press. Copies may be obtained by writing Mrs. Jarrett or Mrs. Tremblay.

Highway Commission Approves Donley Roads

The Texas Highway Commission on June 22 authorized three ranch to market roads in eastern Donley county that are of interest to residents in the western part of Collingsworth, especially those around Quail.

Ranch to Market Road 2695 will be extended from the southern end of the previously constructed section southerly and westerly to an intersection with State Highway 203 at a point 1.5 miles east of Hedley, which is about 5 miles west of the county line.

Another ranch to market road, however, was authorized to begin at State Highway 203 at or near the county line and extend north 3.3 miles.

Cost of the extension of RM Road 2695 and the new RM road is estimated by the Texas Highway Department at $550,000, according to information out of Austin.

Another RM road designated for construction will begin at the end of the 3.3-mile road and go westerly approximately 2 miles to intersect with RM 2695, a distance of approximately two miles. Cost of this project was estimated at $610,000.

Action by the Highway Commission was taken subject to acceptance by Donley county of customary right of way responsibilities required of local governments by the Texas Highway Department.

El Paso Gas Ties in 23 New Wells

El Paso Natural Gas Company is tying 23 new wells into their local system, Tom White, field foreman, has announced.

These are located in north Collingsworth and wheeler counties, with one in Greer county, Okla.

Most of the wells were drilled by E. C. and R. C. Sidwell of Pampa. Others were drilled by El Paso. Some of the wells were drilled as long ago as four years.

The project has been under way for the past five weeks and should be completed by the end of this week.

Doing the work is Vickers Pipeline Construction Company of Robstown, which has opened a temporary office in Shamrock, with Ray Jones as spread boss.

49th Seen in Division Review on Saturday

NORTH FT. HOOD. — Steel-helmeted National Guard troops of Texas' 49th Armored Division turned eyes right and saluted smartly Saturday as the proud "Lone Star Division" passed in review here.

Lt. Gen. Carl H. Jark, U.S. 4th Army commander, returned the salute as 1,500 armored vehicles carrying some 7,000 crisp clean Guardsmen rolled by the reviewing stand.

The division review marked the end of the first of two weeks tactical and combat training for the 49th Division.

Dressed in their battle dress, the men of the 49th made a fast change in appearance for the polished parade. Only hours before, they had roared in from the hills decked in dust, their ears ringing from the thunder of tank firing.

The division's outstanding units were also cited prior to the troops and tanks passing in review. The awards were a closely guarded secret until presented Saturday by Maj. Gen. Harley B. West, division commander.

Winners were:

Governor's Trophy, for the outstanding unit in the division, went to Company D, 949th Maintenance Battalion of Gatesville, commanded by Capt. Don W. Thompson.

Armor Leadership Award, for the top tank unit, went to Company A, 1st Battalion, 112th Armor of Kaufman, commanded by Capt. James E. Riggs. This unit won the 1963 Governor's Trophy.

Outstanding Battalion Award went to the 949th Maintenance Battalion, commanded by Lt. Col. Louis E. Holder Jr., of Midland. Units are based in Fort Worth, Dallas, Houston, Austin and Gatesville.

Battalion Recruiting Award went to the 117th Medical Battalion, commanded by Col. Walter B. Mantooth of Lubbock. Units are located at New Boston, Honey Grove, Texarkana and Clarksville.

Company Recruiting Award went to Company A, 149th Aviation Battalion of Grand Prairie, commanded by Maj. Reagan Vestal Jr.

The 49th will finish up its tough training this next week before rolling its wheels back home July 5 to 79 Texas cities and towns.

I Saw . . .

by Virginia Robey

Helen White Foote and her two youngest, Ernest, 9, and Cindy, 8, recently left their home in Frisco, Colorado, high in the Rockies, in a snow-storm and with the car heater running. When they arrived in the Kelley community to visit her mother, Mrs. W. S. White, the temperature was 104.

A group was discussing with Zook Thomas how he and merchants on the west side of the square are using empty buildings for display space. "What did you do, motivate them with words?" Eddie Slay joked. "I just outtalked them," Zook replied.

Zook went back to the bank and Eddie said: "Do you know how long it took him to get that done? From the time he first suggested it, till he got permission to use the two buildings, and the merchants lined up to put in displays, it was just two and a half hours.!"

Bill Stafford, here from San Diego for the golden wedding of his parents, Mr. and Mrs. Leroy Stafford, was telling of Goldwater's strength around that Calfornia city.

At the recent Texas Press Association convention in Houston, Rufus Higgs, publisher of the Stephenville Empire Tribune, wanted to know how things were at Samnorwood. The name interests him and he reads about it in The Leader. Another who is interested in the community and especially its water development plans, is Porter Oaks, editor of the Haskell Free Press. Neither man has been to Samnorwood.

Dodson has a motion picture actor, however, at the age of 9 he has already announced his retirement.

When Barry Farris was at Bo Belcher's baseball camp at Chandler, Okla., a crew from Universal Pictures was there to film the boys training. The picture will be shown as a short in theatres all over the country for the next three years.

Barry was chosen to chase the ball.

"Maybe I'm going to have an actor for a son instead of a baseball player," Dot Farris told her boy.

"Oh, no, you won't," he assured her seriously.

Crop Residue Important for Conservation

Small grain harvest time is here. The light grain yield on dryland brought about by inadequate moisture will also result in low crop residue.

Yet, in the long run, the residues if properly managed, could mean more than the sale of the grain in this dry year. Each single straw that is left following harvest will do a job in soil and water conservation.

The most effective method of managing the residues for soil protection is to leave the stubble high on the surface of the soil.

Research and experience has shown that the expected percent of residue lost for each plowing operation for various types of equipment is as follows:

a. Large sweeps, rod weeder and blade type—10% loss with each plowing.

b. Cultivator and close-spaced sweeps—15% loss.

c. Tandem disk harrow—25%.

d. One-way disk plow—50%.

Several local clipping studies of dryland small grain residues (based on air-dry weight) by Soil Conservation Service technicians in the Salt Fork Soil Conservation District have shown an average production of 1770 pounds per acre.

Research and local experience have also shown that a minimum of 750 pounds of residue must be left for protection on the "heavier" soils, 1250 pounds for "medium" textured soils and 1750 pounds for "sandy" soils for drilled crops such as small grain.

The figures mentioned indicate that two operations with a tandem disk would leave only one-half the original amount of residue.

If there is only 1770 pounds to begin with, and your soil requires 1250 pounds of residue for protection, the answer is simple—your soil goes to the man who protects his land.

Camp Fire Girls Work, Play During Day Camp

By Mrs. J. B. King

Approximately 40 Camp Fire Girls, with their leaders and mothers have enjoyed the past week at their annual day camp at the Willie Smith farm on Buck Creek.

Although there was no water in which to wade again this year, the girls hiked every day; built fires over which to cook meals; collected wild flowers, fern and leaves; made crafts, some of which were from nature materials; sang and just played in the deep sand.

Each group of girls claimed a spot under the shade trees as their camp "home" which they marked off with limbs and divided into rooms with an entrance set off with their camp flag or banner which they made.

Because it gets so hot by noon, the girls left the elementary school building at 7 a.m. and returned at 11 a.m. Each group of Blue Birds and Camp Fire Girls were led by at least two adults and high school girls. These included Mrs. Marshall Peters, Mrs. C. T. Shumate, Mrs. J. B. King, Mrs. Arlon Foster, Mrs. Cecil Masten, Mrs. James Sullivan, Vikki Saunders, Jacqueline King and Karen Jones.

Other mothers helping one day this year were Mrs. Jones Singley, Mrs. Henry Rogers, Mrs. Robert Lewis, Mrs. Pauline Branch, Mrs. Henry Sullivan, Mrs. Grover Graham, Mrs. Harold Watkins, Mrs. Sam McGill, Mrs. P. M. Bouchelle, Mrs. Bobo Castleberry, Mrs. Bob McAlister, Mrs. Ed White, and Mrs. Paul Spillman.

The last day of the camp the girls left town at 4 p.m. and cooked supper for their parents and friends that night. The group gathered around a huge council fire afterwards, where the Camp Fire Girls were presented honor beads earned during camp.

Add Three to State Highway Dept. Staff

Three additional men have been added to the staff of the State Highway Department here with the closing of the office in Briscoe county, Clyde Drake, resident engineer, announced this week. All are from Quitaque.

O. B. Johnson has been resident engineer for Briscoe county. He plans to move here within a short time.

Already living in Wellington are Hubert Gragson, engineering aide, who with his family lives at 1007 Dalhart Street, and Willie Gragson, draftsman, and his family, who live at the corner of 10th and Dalhart Streets.

All three will begin work on July 1.

Drake said the men probably will be assigned to work in connection with building Interstate 40 through Wheeler county.

Winton told The Wellington Leader he had just turned onto Highway 83 from the Dodson highway and did not have the speed to get out of the way when he saw the other vehicle enter his lane.

Both late-model pickups were total losses, Sheriff Rainey reported.

Investigating the accident were the sheriff and Deputy Kenneth Hodges, Sgt. Dan Dowdy and Don Collins of the Highway Patrol. A complaint charging aggravated assault with a motor vehicle, a misdemeanor, was filed against Kennedy by the Highway Patrol.

City Group Visits New York, Washington

A group of five returned Wednesday, June 24 from an 11-day tour of New York City, the World's Fair and Washington, D.C.

They included Mrs. Lowell Wells and her nieces, Nancy Holton and Joyce Holton of Wellington; her sister, Mrs. Mildred Starr, and a cousin, Mrs. Lorene Pollard, both of Amarillo.

On arriving at the Dallas Air Terminal, the group met Patricia Ann Starr, young Amarillo actress who has been in New York during the last year. They also exchanged greetings with Mr. and Mrs. Deskins Wells, Henry Wells and Mrs. Irvin West, who were en route to New York.

Since the women are interested in the theatre, a high point of the trip was their getting to see five Broadway hits, "Here's Love," "110 in the Shade," "High Spirits," "Follies Bergere," and "Oliver." The latter, a musical version of Oliver Twist was the favorite of the two girls.

They also visited the Latin Quarter, toured upper and lower New York, the Statue of Liberty and the Empire State building and United Nations.

One day they went up the Hudson River by steamer to West Point.

The World's Fair was a major event of their itinerary. There Joyce's favorite stop was at the IBM exhibit, "Glance into the Future." ("I don't think I can wait for the future," she told the group.) Nancy preferred Walt Disney's "It's a Small World."

During their stay in Washington, the four (Mrs. Pollard remained in New York to visit a son) toured public buildings, but most impressive to them was their visit to Arlington Cemetery and President Kennedy's grave. Mt. Vernon and Old Georgetown also were seen.

One Hepatitis Case Diagnosed

Only one case of hepatitis has been diagnosed out of the county, Dr. Carter Holcomb, county health officer, reported.

The young man who was admitted to the hospital Saturday, June 27, had been swimming in several nearby towns and lakes, the doctor explained. Those who were in contact with him after he became ill were notified so they could receive immunization if they wanted to.

Since water is the most common source of hepatitis, a constant check is kept on the Wellington water supply, Dr. Holcomb pointed out.

Where water is the source of hepatitis, the disease appears in epidemic form, with a number of persons becoming ill about the same time, he explained.

The disease can be passed from person to person, and these appear in isolated cases.

Eight cases of hepatitis were reported at Quanah recently, and other nearby towns have also had cases.

Dr. Holcomb said the disease is contagious about two weeks and patients usually recover with little or no damage. Rest is most important.

There have been about half a dozen cases in the county since the first of the year, he added.

Mrs. Copeland
