COLLECTORS—Sheriff Ray Phagan Wednesday noon swore in five members of the Junior Chamber of Commerce to help the poll tax drive. From left they are G. K. Rupprecht, Jim Wright, Phelps, Vernie Farrington and Bob W. Barnett.

Rangerettes Capture Trophy Perryton Cage Tournament

Perryton Rangerettes captured the championship of the Invitational Basketball Tournament Saturday night, defeating the favored Spearman team 54-50.

The Rangerettes were out front at the end of the first quarter, 14-10; at the half, 30-26; the third quarter, 47-40; and held on to win, 54-50.

In reaching the finals, the Perryton girls defeated Booker, 61-26, and Gruver, 51-35.

The Perryton B girls team surprised the spectators, getting into the consolation finals, where they were narrowly edged by Gruver, 42-41, for the trophy. The Perryton B girls lost to Spearman in the opener, then beat Booker to reach the consolation finals.

Weather Dreary With Sun, Snow

The weather this week had all the elements of a winter storm. A cold front moved in from the north, bringing with it a steady rain, which turned to sleet and then to snow. The temperature dropped to a low of 15 degrees, and the wind was gusty. The snow was light but persistent, covering the ground in a thin layer. The rain was steady and lasted for several hours. The sleet was heavy and lasted for several hours. The snow was light but persistent, covering the ground in a thin layer.

Records New 1956 Continues Dry

All records for 1956, as in the official report of the Oklahoma State Department of Agriculture, shows a total of 11.11 inches of rain, one of the driest years on record and far below the normal of 20 inches.

This 11.11 inches may be the lowest since 1900, and it includes 3 inches of rain which fell with gusts of 18 mph, and was confirmed principally by the Perryton station.

Many parts of Ochiltree county received 9 inches or less during 1956.

The annual rainfall in Perryton was 11.11 inches in 1956, the lowest since 1900. The annual rainfall in Perryton was 11.11 inches in 1956, the lowest since 1900.

Two Wells Completed; Two Staked

Two completions and two locations were announced in Ochiltree county oil activity this week.

The Amarillo Oil Company's No. 1 Buzzard, two and a half miles southeast of Waka, was brought in for 720 barrels of oil and no water in the Upper Morrow.

Parker Petroleum company also brought in a good well, the No. 1 Boese in section 11, block JT, T&N, for a potential of 300 barrels, no water. The gas-oil ratio was 735, gravity 40 and top of pay 6,810. Total depth is 6,900.

The Buzzard well, situated in section 24, block 4-T, T&N survey, potential 720 barrels, no water, with perforations at 7727-39. Gravity was 38.

The Amarillo Oil company staked the D. W. Dunnahoo No. 1, 1,980 feet from the west line and 660 feet from the north line of section 13, block 4-T, T&N survey, two miles SE of Waka, PD is 8,000.

The J. M. Huber corporation staked the Conley "A" No. 2, 1,960 feet from the North and west lines of section 23, block JT, T&N survey, three miles south of Farnsworth, PD is 8,000.

Scouts Will Collect Paper Early Saturday

Scouts of Explorer Troop 55 Saturday will scour the city for waste paper in an effort to get enough to take a truck load to Amarillo for sale.

Senior Advisor Troy Sullivan asked housewives to bundle up their old newspapers, cardboard boxes and magazines and put them near the curb in front of their homes early Saturday morning.

The scouts will make the rounds and pick it up between 10 a. m. and noon. The paper will be added to what they have collected in previous drives and taken to Amarillo and sold.

Money collected for the paper will be used to finance scout activities.

Buried Treasure Found By Perryton Jaycees

Perryton Jaycees were in the black again Wednesday with the discovery of a "buried treasure." John Mayfield, digging around in musty records, discovered \$500 in an old Jaycee account. The money was used to pay off a \$475 note incurred in connection with the sponsorship of the Perryton Pioneers baseball team. To celebrate getting out of the red, the Jaycees plan a mortgage-burning party—which, some of them fear, may put them back in.

Famed Violinist Appears Friday At High School

Perryton residents are assured of a musical highlight Friday when violinist Dave Rubinoff, internationally famed popular concert artist, appears at the school auditorium. Harold Hudson, chairman of the Lions Club entertainment committee, said Wednesday.

Here under the sponsorship of the Lions club, Rubinoff will deliver two performances, one for the students at 2 p. m. and one for the public at 8:15 p. m.

"We feel indeed fortunate in being able to bring such a great artist to Perryton," Hudson said. "And we are all aggressively determined to make this one of the outstanding events of the season."

Rubinoff and his violin, long a favorite American combination, is well-known to millions both from his current concert appearances, nationwide radio broadcasts with Eddie Cantor, television guestings, and his motion picture engagements. This tour is heralded as a concert "in tune with the times."

"The famed musician will bring here for his concert the fabulous Stradivarius violin which, insured for \$100,000, is reputed to possess the most beautiful tonal qualities in the entire world; and a brand new program of famous favorites loved by people everywhere, such as Warsaw Concerto, Chopin's Polonaise, Debussy's Clair de Lune, and Gershwin's Rhapsody in Blue.

These compositions will have

Baked Food Sale For Hungarians

The local Red Cross chapter is sponsoring a baked food sale at Bryan Food Store Saturday, January 12, with all proceeds going to the Red Cross drive for funds for Hungarian aid. Ochiltree county lacks \$36 meeting the quota set for the special fund drive for Hungarian relief. Any baked food will be welcome and may be brought to the store Saturday morning, according to Mrs. J. F. Cox, home service secretary. The sale begins at 9:30 a. m.

Motorists Asked To Heed Markings

Motorists were warned Wednesday about parking on the sidewalk at the site of three former service stations where there is no curb, but only painted markings.

Day Sergeant Bob Doffer said motorists could park in the old driveways, but asked they observe the markings indicating the edge of the sidewalks.

"As long as no part of the automobile overhangs the markings," Doffer said "it is all right to park there; but if the car is over the sidewalk, we'll have to put a ticket on it."

The stations are situated on Main street at First, Second and Third.

Kile Services Held Wednesday

Funeral services for Joe Riley Kile, 74-year-old retired cafe operator who died Sunday at his home, 402 S. Baylor, were held at 2 p. m. Wednesday in the First Methodist church here.

The Rev. A. B. Cockrell, pastor, officiated at the services. Burial was in Ochiltree cemetery under the direction of Boxwell Bros. Funeral home.

Kile was born March 1, 1882 in Loudon, Tenn. He was never married. He came to Perryton in 1942.

Survivors include three sisters, Mrs. John Kiltrell, Loudon; Mrs. Etta Gailher, and Mrs. Ida Roberts, both of Concord, Tenn.

Palbearers were Paul Fletcher, Brent Gould, Herman Wagner, Jona Janzen, Bob Kile and Marvin Kile.

Reserve Unit For Perryton Becomes Fact

After months of effort spearheaded by Sgt. Harry Stumpf, Perryton had an Army Reserve unit this week—the 358th Engineer Detachment Utility company.

Sgt. Stumpf said the unit would lease a permanent headquarters in the next few weeks. Until it is obtained, meetings will be held each Tuesday night in the American Legion room of the Veterans Memorial building.

Stumpf said the company has an authorized strength of 42 men and two officers. At present it has 19 men and one officer.

Lt. Roy L. Stine, Berger, is commander. Authorization of the unit here will save Perryton reservists from making trips to Pampa for their regular meetings, and if enough men can be recruited, a federally-financed armory will be built here. Fifty-one reservists are needed for the armory.

TAGGED—Charlie Hains, a drifter from Hugoton, Kans., was one of the few motorists who were prepared with a good answer when Highway Patrolman Bob Loving stopped him for having out-of-state tags. Hains had just bought his Texas tags and when stopped, he pulled to the curb and attached them.

Perryton Water Requirements Are Outlined by City Officials

Election Will Be Called In Near Future

Perryton city officials next week will go directly to the people with their plans for a water-sewer bond election to be called sometime in the near future.

City Manager J. B. Whigham said he and the councilmen would welcome invitations from service clubs to explain the city's water problems and the proposed solutions to those problems.

The bond issue, when the election is called, will be for about \$350,000, which includes tapping of 300 acres of water sands recently acquired by the city.

Whigham said "we will use every means and take every opportunity to show the public the facts in regard to their water needs." He asked only that he be given about a week's notice so he can properly make arrangements for the engagement.

He and several councilmen were to explain the project to the Lions Club Tuesday. However, their appearance was cancelled when Rubinoff appeared and took up the program time. Whigham will address the Lions meeting next Tuesday.

Present plans call for the beginning of construction on the new lines sometime this summer. Whigham said the election was not called earlier because of delivery schedules on essential equipment, which would have thrown the work out of schedule.

If the election is held in the spring or early summer, work can begin after the peak consumption periods this summer, thus causing as little inconvenience to consumers as possible.

Whigham said such a project would necessarily cause some interruption of water service to various areas at various times, hence his desire to have that part of the work done at a time when water consumption is low.

Tentative plans call for the election to coincide with the city elections in April. However, it is possible it will be delayed until early summer.

While the need is so great that

YOU PRESS HERE—It was a big moment for these four students when famed violinist Dave Rubinoff showed them his two-century old violin when he appeared at an assembly; program Tuesday afternoon. Rubinoff will return here for two performances Friday. Shown above are students Mike Moore, Roy Saulsbury, Sally Sanford and Joy Collins.

City Banks' Deposits Up, Loans Down

Residents of Ochiltree county had more money in the bank, more invested in government bonds, and, judging from retail sales, more jingling in their pockets at the beginning of 1957 than a year ago.

Bank deposits at Perryton's two banks were up \$306,341.34 over 1956, also a record year, and at the same time loans at the two banks were down \$245,014.23.

Meantime the county led the whole Panhandle-South Plains area in the per capita purchase of United States savings bonds, investing \$519,318 in the government securities during the first 11 months of November.

Total deposits in the two banks here amounted to \$9,124,456.37 on December 31, as compared to \$8,817,615.03 a year ago.

Loans and discounts were down; at the close of 1956 they amounted to \$3,620,480.77 as compared to \$3,865,495 a year ago.

The combined assets of the two banks on December 31, 1956 was \$9,904,124.42.

The Perryton National bank listed assets of \$3,080,330.74; deposits of \$2,862,830.74; and outstanding loans and discounts of \$973,450.32.

The First National bank listed assets of \$6,823,793.68; deposits of \$6,261,626.63; and outstanding loans and discounts of \$2,647,030.45.

Three Brothers To Enter Stock In Denver Show

Three members of the Ochiltree county 4-H club will leave today for Denver, Colo., where they will enter six head of cattle in the National Western Livestock Show and Exhibition.

They are Raymond, Eddie and Douglas McGarraugh, all sons of Mr. and Mrs. Earl McGarraugh, who farm about four miles north of Perryton.

The trip to Denver will be the beginning of a hectic three weeks for the youths; they will enter the same animals in shows at Amarillo and Fort Worth.

Raymond McGarraugh will show a hereford and an Angus. Eddie will show two Angus and one hereford and Douglas will show one Angus.

Earl McGarraugh and County Agent Delbert Timmons will accompany the youths on the trip.

Police Activity Doubles in Last Four Months of 1956

All phases of police work in Perryton showed a steady and rapid increase during the year with the last four months of 1956 accounting for as many cases as the previous eight months.

Criminal arrests, most of which were for public drunkenness, totaled 129 for the year; 25 were made in the first four months, 28 in the second four months and 76 in the last four months.

Traffic charges showed an even sharper increase in the latter part of the year; a total of 425 tickets were issued with 288 of them written in the last four months of 1956. Only 54 were written in the first four months and 82 in the second four months.

Automobile accidents were more than double the number reported in either the first or second four months period with 33 reported in the last four months while only 16 and 10 were reported for the first and second four month periods respectively.

The increased activity was, of course, reflected in radio traffic, with a total of 2,047 incoming and out-going messages handled by the Perryton police department. In the first four months of the year 408 messages were carried; 634 were carried in the second four-month period and 1,005 in the last four months of the year.

Traffic accidents within the city limits during the year resulted in \$17,958 property damage, according to police estimates, and six personal injuries.

A break-down of criminal arrests by the police department shows the following:

Public drunkenness, 93; driving while intoxicated, 7; burglary, 3; theft by bailee, 4; mental cases, 2; carrying firearms, 1; worthless checks, 1; leaving the scene of an accident, 1; indecent exposure, 2; held for investigation, 2; gambling, 3; minors held for parents, 1; fighting, 2; petty theft, 1; held for U. S. authorities, 1.

School Census For 1957-58 Being Taken

Parents of children who will be six years old by September 1, 1957, are asked to register their child for the school census during the next few weeks, Superintendent Gilbert Mize announced Wednesday.

The annual school census is used as a basis for the allocation of state funds to the school, and also to help plan classes for the next school year.

Although the amount varies, Perryton schools received \$76 this year for each pre-school age child registered in last year's census.

Forms for the census will be given older children who have brothers or sisters who will enter school for the first time next September.

Parents who have no children in school this year, but will have a child who will be of school age by next September 1, are asked to stop by the superintendent's office in the elementary school and fill out the census forms.

Edward Black Killed Tuesday In Mississippi

A Perryton airman was killed Tuesday night in an automobile accident in Greenville, Miss., his wife, who arrived here only Monday from Greenville was notified Wednesday.

Greenville Air Force Base officials notified Mrs. Edward T. Black that her husband died at 8 p. m. Tuesday shortly after the accident. Details of the accident were not available here late Wednesday.

Tech. Sgt. Black, 36, a career airman, was born in Old Ochiltree and reared in Perryton. He served in the Army air corps during World War II, and except for a short time after the war, has been in the service since.

Survivors include his wife, Marie; a step-son, William E. Marshall; his mother, Mrs. Tyson Black, Perryton; a brother, Albert Lee Black, Perryton; four sisters, Mrs. Russell Powell, both of Perryton; Mrs. J. C. Hyatt, Dallas; and Mrs. Kenneth Collings.

City Annexes New Addition

The City of Perryton was bigger by two square blocks Wednesday morning as a result of the annexation of Stark Park No. 2 addition.

A petition for annexation of another 1.86 acres — the Stark Park addition — was delayed because of a technical error in the petition. It will be corrected and taken up at the next session of the council.

The annexed addition lies on either side of Fordham south of Sixteenth street.

JAYCEE OF MONTH—President Jim Wright, left, presents Chris Vines, Jaycee secretary-treasurer, with a certificate naming him Jaycee of the Month at the Wednesday noon luncheon of Perryton Jaycees.

Waka 4-H Club Elects Officers

Officers elected recently for the Waka boys 4-H club were Johnny

Dunithon, president; Harvey Dean Leighnor, vice president; Phillip Turner, secretary and treasurer; Boyd Scroggs, council delegate; Richard Burger, reporter; and David Burger, adult

advisor. The first meeting of the new year was held January 3 at the Waka school house. Gary Scroggs became a new member. Judging hogs was discussed by Delbert Timmons, county agent.

Those present were Gary Wilford and Boyd Scroggs, Phillip Turner, Byron Groves, Harley Rogers, Harvey Dean Leighnor, Johnny Dunithon, Richard Burger and Timmons.

Donna Reitz to Get Degree at North Texas

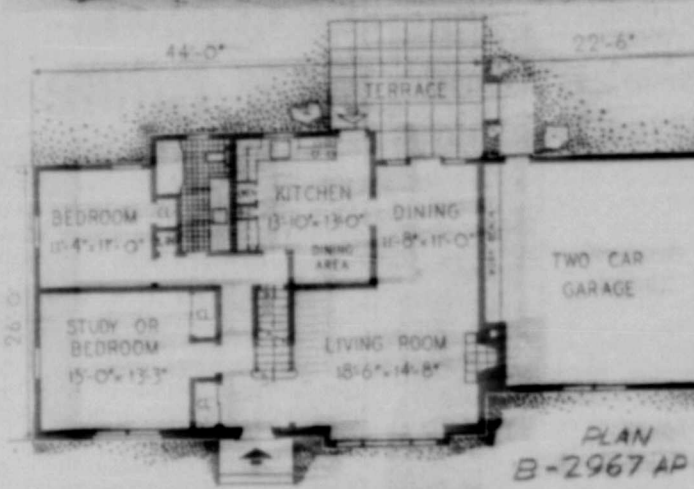

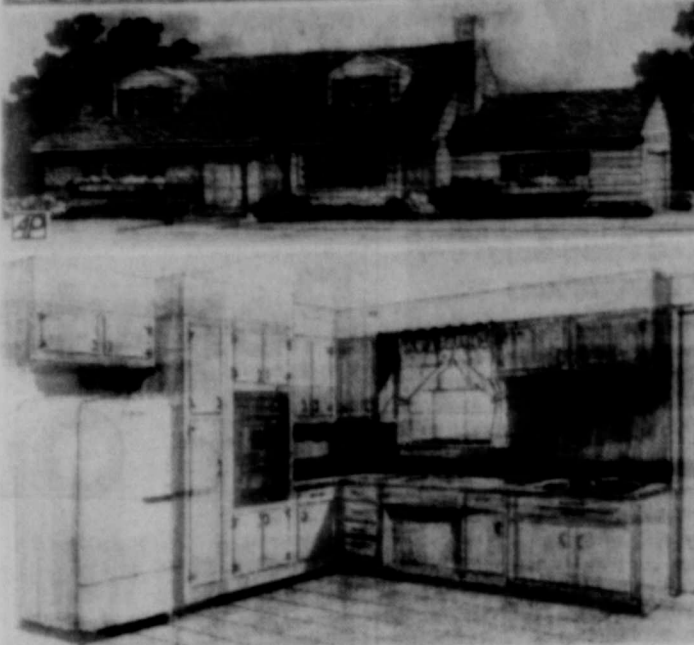

DENTON—Donna Reitz of Perryton is one of 255 seniors who have applied for the bachelor's degree at North Texas State College this semester. Vice President A. M. Sampley reported.

Winter commencement exercises will be held at 3 p. m. Jan. 30.

Miss Reitz, daughter of Mr. and Mrs. W. A. Reitz, 1314 Amherst, is a journalism major. She is a member of the Press Club, associate editor of the Campus Chat, student newspaper, Delta Gamma, national social society, and Theta Sigma Phi, national fraternity for women journalism majors.

More than a million copies of the 772-page novel, "Forever Amber," have been published. Author Kathleen Winsor also got \$200,000 for the movie rights.

HOMES FOR AMERICANS

AN EXPANSION ATTIC offers the most economical way to enlarge a house. Mere finishing of extra rooms usually does the job. This house, covering only 1,200 square feet without garage, has space for three additional bedrooms and an extra bathroom upstairs, adding 835 square feet of floor space. This is plan B-2967AP by Alvin Cassens Jr., architect, 145 So. Franklin Ave., Valley Stream, N. Y.

Ochiltree Soil Conservation District News

By Bob Kerr, Soil Scientist

Remember the song that was popular a year or so ago—"It's Later Than You Think"? Well in many ways it is later than you think, and for sure it's time for us to stop and take inventory of our resources in the way of our soils and water.

Any successful businessman will tell you an inventory every so often is necessary for him to stay in business. As farming is one of the biggest businesses in the world it follows that we as farmers should be the first to complete that inventory.

In the past 15 too few farmers stopped to do this. That is one reason we have the great amount of erosion we have today. Did you know that every year over five billion tons of topsoil is washed and blown from our farms? Did you know that every year over one billion tons of topsoil washed down the Mississippi River alone? If this soil that washes down this one river were put into 10-ton trucks and they were parked bumper to bumper they would stretch from the northern most tip of Alaska to the southern most tip of South America.

Now let us stop to realize that it takes nature from 300 to 1,000 years to build one inch of topsoil, depending upon the parent material. We all know that the topsoil is where our dollars come from. When we think about this erosion it no longer puzzles us why some of our yields have been decreasing.

At present we have about 160 million persons in the United States. In 1975—not even 20 short years away—it is estimated our population will have increased to 221 million. Right now there are about 3 acres to produce food for each person. In 1975 this will have decreased to about 2 acres per person. Now with our population ever increasing and our fertile farms ever decreasing when will our abundant America cease to be a land of plenty?

This is not a problem that will be in the future. It is with us now. Our sons and daughters are the ones who will have to live with our mistakes of today—our mistakes of soil erosion.

Some of you have heard the story of the small community in which lived an old gentleman whom some people regarded to be the smartest person in the world. One day a couple of small boys who doubted this claim decided to see for themselves if this were true.

One of them said "I know where there is a nest that has a small bird in it. Let's get the bird and cup it in our hands where the old man can't tell what it is. Then we will ask the old man what it is we have in our hands. I know he can't tell us but if he does we will ask him if the bird is alive or dead. If he says he is alive, we can just squeeze it and if he says the bird is dead we will show him it is alive. That way we know he won't be the smartest person in the world."

This plan was carried out and as the boys approached the old man one of them asked "Old man, what is this we have in our

hand?" The old man saw a tiny blue feather sticking out and said "Well son, that's a bird you have in your hand." The boys were very surprised and then asked "Well, is that bird alive or dead?" The old gentleman immediately saw through their plan and answered, "Sonny, in your hand you hold a way of life. With that life you can either make it useful and productive or crush it and make it forever worthless."

This is our position today. In our hands as farmers we hold the very future of the world. Are we going to make this way of life useful and productive or forever worthless. There are many people available today to help work out the problems of soil erosion. Among these persons and agencies are the Soil Conservation Service technicians assisting the Ochiltree Soil Conservation district. You are urged to take advantage of this technical ser-

For Next Week Final Exams Set

Final examinations for high school students will be given in the latter part of next week, principal Troy Sullivan announced Wednesday.

Students in the uneven numbered periods will take their finals Thursday and the even periods will take theirs Friday.

Sullivan said straight "A" stu-

dents with not more than three absences and students with grade lower than "B" will not more than two absences. He added, however, that students will be made at the school year.

Sixty per cent of U. S. students to 60 years old are still labor force.

Six Presidents of the States were National Guard

Should a Retarded Child Be Sent Away to School?

By Dorothy V. Whipple, M. D.

Newsfeatures

Once a family has accepted the fact that they have a retarded child and have begun to make serious and long-time plans for the child's life, the problem comes up as to whether to keep the child at home or send him away to a residential school.

Conditions are different with every child and with every family—what is best in one situation is not necessarily right in another.

There are, however, certain factors that must be considered in all cases.

First is the amount of retardation. The more severely a child is handicapped, the more likely it is that the family will find his care an almost insurmountable burden. During infancy parents expect to take care of all the physical needs of a child. They expect to feed, dress and wash a baby, but the prospect of giving this much care for years on end is another story. It means in general that mother has a full-time job ahead of her for the rest of her life. She must make the decision as to whether or not she wishes to undertake such a life job.

It is not, however, always possible to determine in early infancy just how severely retarded a child may be. It is often necessary to wait a few years before you know whether your child is so retarded that he will never be able to care for his own physical needs.

Next is the behavior of the child. Some retarded children are sweet-tempered and docile, and

even though unable to attend school, are pleasant members of a household. Others, however, who may even be brighter, are aggressive, destructive and really quite difficult to live with. Such children are sometimes happier themselves in the restricted environment of a school especially adapted to their needs. At home this type of child keeps the family in turmoil and may even interfere with the best development of the normal children.

Mrs. Masters had to cope with Bob all day long. She was exhausted and at her wits' end and came to the conclusion everyone would be better off if Bob were sent to the state school. Mr. Masters, on the other hand, who seldom saw Bob except for half an hour in the evening, was very reluctant to "put his boy away." Eventually he acceded to his wife's pressures and now five years later admits that both Bob and the rest of the family are much happier.

The facilities in your community may be very good for the training of children with the milder degrees of retardation or they may be non-existent. A good residential school may be able to give your child education and training that will make him a self-sufficient adult.

If the facilities in your community are not adequate you may be able, through the combined efforts of other parents, to improve them to the point where there is no need to send your child away.

Long-range plans for a retarded child must include provision for him after you are no longer able to give it. Sometimes state schools will accept children and care for them for life, but will not accept adults.

You can obtain information to help you make the decision about a residential school, and also information about specific schools, from Kirk, Karnes and Kirk's new book "You and Your Retarded Child."

Tax Assessor—Collector Ochiltree County

Patrolman Plays Tag; Motorists And Deputy Tax Collectors 'It'

Highway Patrolman Bob Loving Thursday started a little tag game and by Wednesday noon some 40 motorists and two deputy clerks were "it".

The motorists were "it" because they were given only a few days to get Texas license plates; the deputy clerks were "it" because the motorists, eager to please Loving, swamped the tax office.

Loving launched his belated campaign only after repeated public warnings to new-comers to the state that they must buy Texas licenses.

In a 45-minute tour of the city Friday afternoon, he stopped over a dozen motorists who were living and working in the county but still driving cars with out-of-state tags.

As many more were seen, but not stopped; several times, while talking to one motorist, a half-dozen more would pass.

"We haven't handed out any tickets yet," Loving said. "But we will in a few days. Although we have given them all ample time, we'll give them until Saturday; after that we start writing."

Loving pointed out that tags in most states expired December 31—the "grave period" doesn't count here since Texas has no such grace period.

In Texas tags are issued from April to March 31 the following year, and they must be bought by April 1.

Persons moving to Texas from Mississippi, Montana, Ohio, Tennessee, West Virginia and Wisconsin have 30 days to change their registration.

Those moving from Oklahoma, Virginia and Wyoming have 60 days; Connecticut and Minnesota have six months; California and Kansas motorists may use tags from their native states until they expire.

"However," Loving pointed out, "if the license expired on December 31—as most of them do—they must buy Texas tags immediately—the extensions granted by their native states does not apply here."

Loving said persons who must buy Texas tags are those who have taken jobs here and live here—even if they only rent sleeping rooms and maintain homes in their native state.

"Of course, someone living in Oklahoma, Kansas or other neighboring state and commuting to work here may keep their registration where their home is," he continued.

On the surface it might appear

new-comers were getting a bad break. But when relative prices and expiration dates are considered, most of them will get off cheaper by registering here, Loving continued.

For instance, a worker moving here from Oklahoma this week would be required to buy a Texas tag immediately and a 1957 tag April 1.

However, he would pay only for three months when he buys his first tag here—his second tag is good for a year from April 1, so he's getting just what he pays for.

Texas tags are usually cheaper than neighboring states; price of the tags in Texas is based on weight of the vehicle, while Oklahoma, for instance, bases the price on the value of the car.

There is one hitch—but not a big one. There's a \$15 fee for changing the registration to Texas; it's a tax collected on all automobiles the first time registered in Texas. Practically all states have a similar tax.

Loving advised motorists newly arrived here to contact their finance companies and get the original title, or to inquire at the tax office in the south end of the main floor of the court house.

Patrolman in an Airplane Nabs Speedsters on Ground

OKLAHOMA CITY (AP)—An out-of-state motorist stopped for speeding shook his head and told the Oklahoma Highway Patrol trooper:

"You don't give us a chance. If you're not watching on the ground, you're on us from the air."

The trooper smiled, continued to write out a traffic citation and an airplane dived overhead.

The patrol has found drivers, conscious that an airplane might be checking their speed, are slowing down.

Oklahoma is one of the first to use a plane for checking traffic and Lt. Art Hamilton of the patrol has pioneered in the art of traffic control from the air.

During a normal year he averages about 1,000 hours flying over busy Oklahoma highways to help troopers in patrol cars.

It might seem like a difficult task trying to measure a car's speed from the air but Hamilton has developed a fool-proof method.

The day before he goes up Hamilton arranges with a trooper to be ready on a stretch of highway.

"You get so you can pretty well tell if they are going too fast," he explained. "If I feel they are, I time them three times to give them the benefit of the doubt."

His stop watch, clocks the cars between section lines and a chart on the plane instrument panel shows the car's speed.

Hamilton then radios to the unit on the ground and the car is stopped.

"They seldom contest the fact that they were speeding when they are told they were checked from an airplane," the trooper said.

Hamilton also has participated in hundreds of manhunt. He has been responsible for the capture of three bank robbers, three rapists, 10 kidnapers, more than 100 escaped prisoners and hundreds of car thieves.

One time, a murderer was lo-

Hot Rod

NORMAN, Okla. (AP)—Bert Calvin Weaver, 31, decided to try out a police motorcycle parked in the city garage.

When he started the motorcycle, the throttle suddenly stuck wide open and the machine shot through the closed door and across the street.

Policeman Gordon Collett, who normally rides the motorcycle, commented: "He's a better rider than I am. I could never get it through the door."

cated in a wheat field. Hamilton flew back and forth across the field just above the grain heads. Finally, the shaken fugitive ran out of the field and yelled at troopers on the ground:

"Hey you guys, come and get me before that crazy pilot kills me."

LaMaster Named USO Drive Head

Walter LaMaster has been named chairman of the Ochiltree county United Defense fund, it was announced Wednesday by state headquarters.

The United Defense fund is a state-wide group which will sponsor the USO's campaign to raise \$702,396 in Texas this year.

Ochiltree county's quota is \$1,035. At present there are 115 servicemen from Ochiltree county serving in the armed forces.

LaMaster was appointed by D. W. Murray, district chairman of the fourth-coming fund appeal to carry on the familiar services of the USO to the young men and women of the nation's armed forces.

In accepting the appointment, LaMaster said "these 115 boys and girls from Ochiltree county, though many of them are thousands of miles away, are still ours. Through volunteer support of the USO we can show them we understand their sacrifices and that we appreciate them."

D. O. Murray, Follett, is chairman for District 2. The district includes Ochiltree, Hansford, Hemphill, Hutchinson, Lipscomb and Roberts counties.

Financial Understanding

SEATTLE (AP)—Franklin High School students are selling shares in international understanding at 25 cents apiece. The bargain rate is five shares for \$1.

The money will help pay the fare of a foreign student to come to Franklin to attend school next year.

In 1955, \$250 was raised toward the fare of Kurt Ahrens, a 17-year-old German boy who is now a Franklin senior. The American Field Service paid the remainder of this travel costs.

Button, Button

FARMINGTON, Ill. (AP)—Mrs. William H. Brown knows who has the buttons because she has a collection of some 6,000 of them.

Conscientious Parker

LITTLE ROCK, Ark. (AP)—Patrolman L. R. Haynes answered a call reporting an automobile had knocked down a parking meter. He found another motorist trying to put a coin in the horizontal meter.

"I didn't want to take any chances," the parker explained. Haynes was so pleased at the man's conscientiousness that he let him park free.

TRIMMED—The courthouse grounds had a freshly-barbered look Wednesday after workmen took them for a trimming. The trees were cut back and dead limbs removed to stimulate new growth and cause them to form a better shade cover.

Japan Finds Few Want to Act in Films

By GENE KRAMER

TOKYO (AP)—Japan's foremost movie studio is beating the bushes for talent, but the response so far is more like a trickle than a stampede.

Even newspaper ads are used in a quest for new faces by Daiei Studios, which produced the internationally famous films "Rashomon" and "Gate of Hell." Company employees are under orders to watch for prospects on the street.

"Japanese youngsters must be different from Americans. They're too modest and bashful to say they want to get into the movies," shrugged a Daiei executive. Other reasons are long hours of drama study, family pressure and low pay except for top stars.

A nationally circulated newspaper advertisement for talent could easily draw half a million answers in the United States. Fewer than 7,000 answered one Daiei ad.

Interviews were granted to 250 who impressed the studio. Of

those who answered the ad and those spotted on the street, only about 25 were considered talented enough for admission to Daiei's six-month "school for new faces." At most, five who complete the course will be signed to a contract.

When a prospect is spotted, the studio approaches her parents first. "A Japanese girl would think I was crazy if I walked up and asked her if she wants to go into the movies," said a Daiei man. Movies may be a modern industry, but in Japan marriage and occupations still are frequently arranged through families.

Most male stars are discovered through the "new faces" program but Daiei still falls back on theater revues for most actresses.

However, the one top actress who reached stardom from a newspaper ad is now billed as Japan's No. 1 pinup girl. She is Ayako Wakao, 22, a demure beauty whether she's in sweater or traditional kimono.

"The rise to stardom takes so much work, you must be strong

to stand the pressure," Miss Wakao says.

For six months in the "new faces" school the candidates, about one third males, get paid only carfare and meals while they learn movie acting.

The five who are signed to act work for three years at standard factory pay of \$27.75 a month plus cutrate company housing, with a 10 per cent raise each year. They get about \$150 extra for each of four or five bit parts the first year and more when and if the parts get fatter.

The third year, a "new face" is treated as a full-fledged actor and from then on it's up to his or her talent, Daiei says. There are almost no agents. After the first contract ends, the player may freelance or sign on with the company, as in Hollywood.

A phonograph needle travels half a mile in playing one side of a 12-inch phonograph record.

Americans paid about 90 billion dollars in taxes in 1955.

The Lone Tree Home Demonstration club will meet with Mrs. Robert Barlow on Wednesday, January 9, at 2:30 p. m.

Mrs. James Slough of Dimmitt and Mrs. John Huston visited Mrs. Fred Huston in the Enid hospital on Saturday and Sunday.

Mrs. Earl Schwaik is in the Perryton Hospital, we wish her a speedy recovery.

J. T. Wright, son of Mr. and Mrs. Ray Wright, returned to Goodwell, Oklahoma on Sunday to attend PAMC, after spending the holidays at home.

Miss Sarah Riggs and her nephew, Byrl Bates visited her parents, Mr. and Mrs. R. L. Riggs of Forgan, Oklahoma over the week end. On New Year's day they visited her brother and family, Mr. and Mrs. Everett Riggs of Stratford.

Mr. and Mrs. W. W. Blackburn and Mr. and Mrs. Ed Blackburn returned home Sunday after spending three weeks in Hot Springs, Arkansas.

Mr. and Mrs. Donald Sell, Garland and Glynn, Mr. and Mrs. G. Cagle and Mary Katherine were Sunday dinner guests with Mr. and Mrs. Arthur Morgan.

NAMED HIGH SCHOOL COACH OF YEAR—Charles "Chuck" Moser, Abilene High School football coach, has been named Texas High School Coach of the Year. (D. Wirephoto)

Frank Fieck, 21, and Mrs. Mildred Fannie Hill, 18.

Likes Ducks on a Pond

MILWAUKEE (AP)—Kenneth Rothenberg has learned that his planned duck dinners cost him \$3.50 a pound—and he won't get to eat them.

Rothenberg, 19, was arrested when suburban Watwatosa police saw him carrying three mallards and four steel-jawed traps. He explained that he caught the birds on the edge of a lagoon at the county hospital.

In District Court Judge Robert Hansen fined him \$50 for unlawful killing of waterfowl on county property. The ducks weighed about three pounds each. The Conservation Department confiscated the birds.

Striped Bass Bugs

PROVIDENCE, R. I. (AP)—Dr. Oscar H. Ryer and his wife, Emma, take their striped bass fishing seriously. They've bolted a specially-built insulated aluminum body on a light truck in which there are: A folding double bed, breakfast nook, gas stove, cabinets and wardrobes, chemical toilet, special racks and cabinets for fishing equipment. The vehicle has special wheels and wide tires to cope with beach sand.

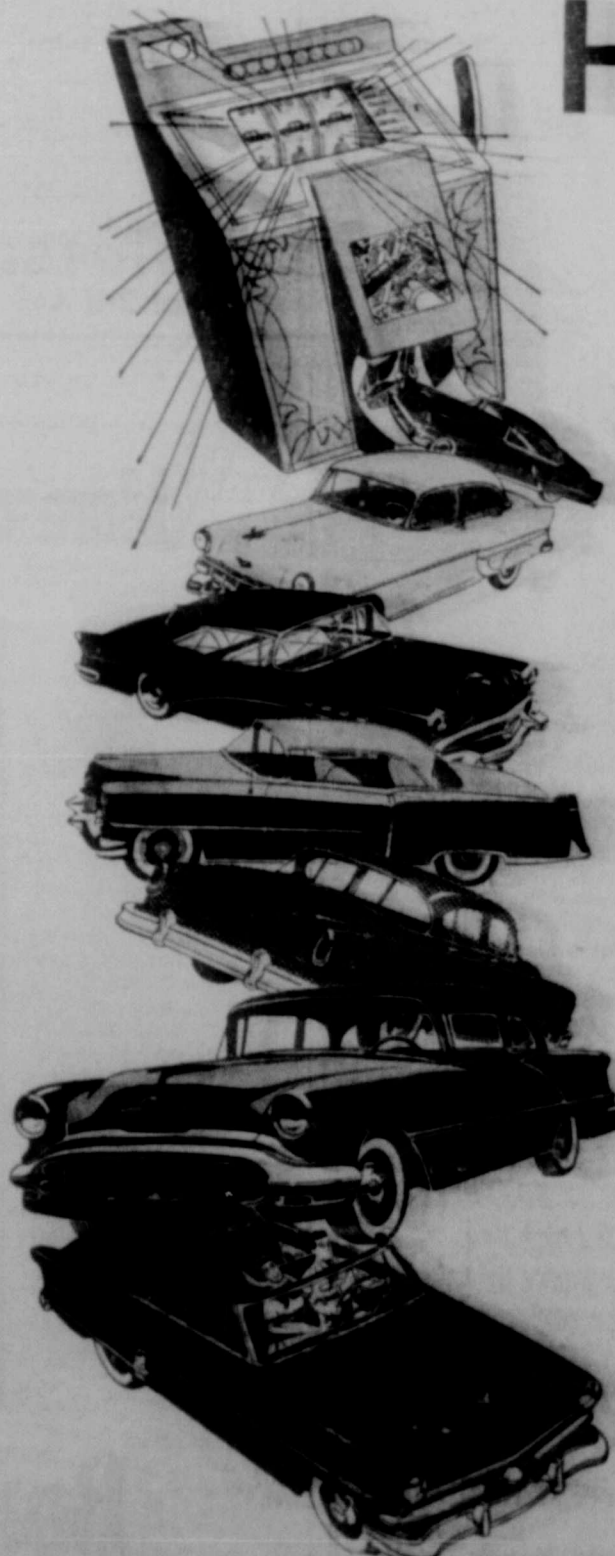

Beat That Bell

SPARTANBURG, S. C. (AP)—Walter Ford College has a 102-year-old bell which plays an unusual role.

The bell not only tolls the beginning and end of classes, but is the instrument of a scholarship for a student each school year.

The student bell-ringer earns his scholarship by making 13 trips to the bell each day. On each trip he tugs the big rope 10 times for a daily total of 130 tugs.

During each 102-day semester, the student bell-ringer pulls the rope more than 13,000 times.

HIT THE JACKPOT!

WITH THESE LUCKY BUYS

This jackpot game is legal... but it sure looks unreasonable when every buyer is the winner! But that's how it is, and we have a Tip. Tip's word for this. Tip is determined to make 1957 the tradingest year yet... which is saying something! You be the judge.

NEW CAR GUARANTEES

These three late model cars are so clean that we are giving New Guarantees on them.

HOMES FOR AMERICANS

Keller Services Held Saturday

Mrs. Anna Eliza Keller, 86, a long-time resident of Perryton, died at 11 a. m. Friday at the home of a daughter, Mrs. Clara Allen, 602 S. Drake.

Funeral services were held Saturday in the Church of Christ, with Arthur Golden, minister, officiating. Burial was in Greensburg, Kansas cemetery under the direction of Boxwell Bros. Funeral home.

She was born in Polk county, Missouri, April 18, 1870. At the age of 19 she married Dorsey F. Woods and in 1903 they moved to Ochiltree county.

In 1913 they moved to Liberal, Kans., and five years later to Greensburg, Kan. Woods died in 1922.

She married Jacob Keller in 1923 and they lived in Greensburg until his death in 1934. Mrs. Keller is survived by a brother, Forest Mitchell, Willard, Mo.; a half-sister, Mrs. Sallie Baker, Bartlesville, Okla.; two daughters, Mrs. Allen, Perryton; and Mrs. Glen Terhune, Abilene; a son, B. Z. Woods, Denver; five step-children; five grand-children and seven great-grandchildren.

She was a member of the Church of Christ here, and had been active in churches at Liberal and Greensburg.

Church Youth Organize And Name Officers

The youth group of the Trinity Presbyterian church met at the home of Mr. and Mrs. William Butefish Sunday for an organizational meeting.

A paper was served to those attending and the business of organizing followed. The group was organized under the "Westminster Fellowship" plan.

Miss Carol Thomas was elected moderator and Miss Ardith Wilson was elected state secretary-treasurer. Program area chairmen were selected. They are:

Citizenship, Steve Thomas; faith, Dale Wilson; fellowship, Sharon Wilson; outreach, Ardith Wilson; witness, Carol Thomas.

Programs for the next six Sunday evenings were planned. Beginning with January 13, study topics will be "What is a National Mission Church?", "Youth and Their Money," and a series of four lecture-discussion studies on "The Christian Approach to Love, Courtship and Marriage," led by a doctor, minister and lawyer.

The meetings will be held in the pastor's study, 215 1/2 S. Main at 6:30 p. m.

Charges Filed

Mrs. Bill Solitare was charged in county court this week with passing a worthless check to Malone for \$7.61 on May 10, 1956.

Stage Coach In Limelight Again

OKLAHOMA CITY, UP—The old stage coach in the basement of the Historical building will be refurbished and placed on display many times during 1957 when Oklahoma celebrates its 50th anniversary of statehood. It was in use long before the run of 1889 and during the run as Oklahoma Territory was opened.

OFF TO DENVER—Sons of Earl McGarraugh will embark on a busy show season today. They are scheduled to go to Denver for the National Western Livestock Show and Exhibition, then return for the Amarillo and Fort Worth shows later this month. From left with their animals are Douglas, Eddie and Raymond.

Elzey Among Finalists For Scholarship

Lawrence Elzey, Jr., Perryton high school senior, was among the highest scorers in a nationwide college aptitude examination given to 162,000 seniors in 12,500 high schools October 24.

Elzey is among 7,500 finalists who will take a stiff three-hour college board examination Saturday. The contestants will be carefully screened and their leadership and extra-curricular records examined.

At stake are more than 700 four-year college scholarships, many of them sponsored by business and industrial corporations.

In the final phase of the competition the other accomplishments and the character of the competitors will be evaluated. About April 25, a fortunate 700 will become Merit Scholars of 1957.

The runners-up will each receive a certificate of merit, attesting to their high ability; and all colleges and universities will be notified, enabling the students

to be considered for thousands of other awards and prizes. The 700 Merit scholars choose the colleges they wish to attend. The value of each scholarship varies with financial need of the student, ranging upward from \$100 a year to \$2,200 a year.

Study Course Will Begin at Trinity Church

A series of educational studies sponsored by the Trinity Presbyterian church will be started Sunday, it was announced Wednesday by the Rev. Tommy Brower, pastor.

The classes will be held from 4 to 5 p. m. and will have basic Christian beliefs as the topic. The informal course will be taught by the Rev. Brower for six successive Sundays.

Members of the church as well as all other interested persons are invited to attend, the Rev. Brower said.

Paddle Pliers

CONWAY, S. C. (AP)—It has been many years since paddle wheelers have piled South Carolina rivers, but the old form of transportation is being revived here by W. H. Reed and Roscoe Gore. The men are building a 26-foot boat that will draw only 12 inches of water for ready navigation of shallow rivers. An unusual feature is two stern paddle wheels, which can be operated independently for steering.

The United States imported 17,700,000 tons of iron ore in 1954.

The tail of a comet often is 150 million miles long.

No. 5 Continued from Front Page

It will not bear much additional delay, another point to be considered is the bond market. Current municipal bonds are selling for a whopping four percent interest. There is always a possibility, Whigham said, that the money market may loosen up in the next few months giving the city a lower interest rate.

But in any event, Whigham said, the project should be completed by the summer of 1958. Perryton's rapid growth has already put a strain on her water facilities; next summer may see mains strained to the utmost; and certainly by the summer of 1958 present facilities will be inadequate.

No. 4 Continued from Front Page

His body will be shipped to Boxwell Bros. Funeral home here; funeral arrangements will be announced.

No. 3 Continued from Front Page

their premier performances as violin solos arranged and played by the maestro. Rubinfest knew George Gershwin and heard him play the Rhapsody in Blue for the first time in 1925. Gershwin wrote the great jazz classic in a few weeks, but in transcribing it for violin, Rubinfest spent months in perfecting the arrangement to his satisfaction.

No. 1 Continued from Front Page

er the first rounds had been played, the games were marked by extremely close scores.

The all-tournament team included two Perryton Rangers and five Rangerettes.

The following players were selected on the all-star team:

Boys: Burrell, Kelton (66); Green, Spearman (8); Lowe, Gruver (77); Barkely, Gruver (74); Woodburn, Pampa (30); Minor, Pampa (22); Lamb, Burger (51); Ogie, Burger (13); Mounts, Perryton (11); Hargrove, Perryton (15).

Girls: Hunt, Kelton (44); Lane, Gruver (25); Cator, Gruver (24); Martin, Spearman (60); Holt, Spearman (30); Pool, Spearman (20); Pearson, Spearman (19); Goodwin, Perryton (6); C. C. Pyles, Perryton (35); S. Wilson, Perryton (19); M. Pyles, Perryton (23); Thomas, Perryton (24).

Tournament Results

Girls Games: Spearman 70; Perryton B 40; Perryton 61; Book-er 26; Perryton B 50; Booker 35; Spearman 74; Kelton 44; Perryton 51; Gruver 35; Gruver 62; Kelton 49; Gruver 42; Perryton B 41; Perryton 54; Spearman 50.

Boys Games: Pampa B 70; Kelton 37; Gruver 49; Booker 34; Burger 79; Dahlart 41; Perryton 49; Spearman 24; Kelton 43; Book-er 42; Spearman 56; Dahlart 45; Gruver 54; Pampa B 48; Burger 63; Perryton 60; Kelton 51; Spearman 45; Burger B 59; Gruver 50.

School Recess

GREENWOOD, Ark. (AP)—Justice of the Peace Lon Dunn recessed a trial in his court recently at 2:50 p. m. Reason: Dunn and two jurors were school bus drivers and had to go to work.

The Turks call corn "Egyptian corn" and the Egyptians call it "Syrian corn."

Scouts Plan Trip To Air Force Base

Explorer scouts of post 55 will spend three days at Amarillo Air Force base in the latter part of January, according to Troy Sullivan, senior advisor.

Sullivan said the boys would arrive there January 25 and leave January 27, spending the nights in base barracks.

While there they will be taken on guided tours of the base and

be shown the flight line, shops, administrative offices and other points of interest.

In addition to Sullivan they will be accompanied by Bruce Baumann and Bill Butefish, assistant advisors.

Lt. Ed Melvin, stationed at the Pensacola, Florida Naval base, visited friends here during the Christmas holidays. Lt. Melvin formerly lived in Perryton.

This sweet, smooth and sassy new Chevy has its own built-in "dollar-saver"—America's favorite six!

Hard to believe it, but this big beauty is a bottom-priced Chevrolet "One-Fifty." It's got a Body by Fisher quality written all over it. And it has a peppery, sweet-running "Blue-Flame" six under the hood to

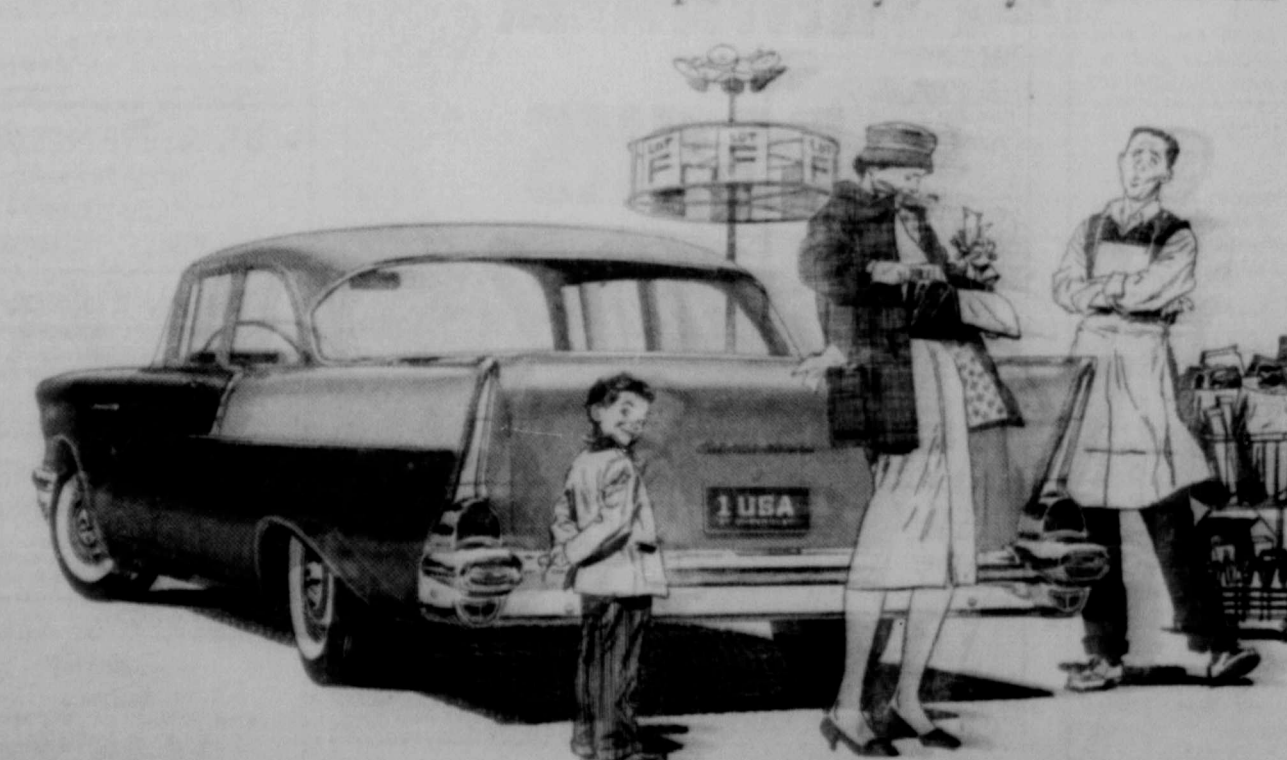

make your gas stops few and far between.

Like all new Chevies, it brings you a very special sureness of control. This is a quality that just can't be measured in dollars and cents. Lots of cars that cost lots more just don't have it. Come in and see how much pleasure we're passing out these days at Chevrolet prices!

Big beauty with small-budget ways!

It's powered by Chevy's famous six

The "One-Fifty" 2-Door Sedan with Body by Fisher—one of 20 beautiful new Chevrolets for '57! AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST. LET US DEMONSTRATE!

Newcomers Club Entertained In Harvester Room

Mrs. Don Seago and Mrs. Pack Gwaltney were co-hostesses to the Newcomers Club Tuesday afternoon, January 4, in the Harvester Room, Hotel Coffee Shop.

A short business meeting was held.

A dessert course was served preceding bridge and canasta play. Those present were Mrs. W. E. Baiding, Mrs. C. P. Pierce, Mrs. Bob Larabee, Mrs. Sam Fain, Mrs. Barry Pounds, Mrs. Gus Shanks, Mrs. E. L. Rylee, Mrs. Chris Vines, Mrs. Jewell McDowell, Mrs. Wendell Gee, Mrs. Louis Belanger, Mrs. Fred Adcock, Mrs. Jack Pitzer, Mrs. J. E. Standifer and the hostesses.

Mrs. Vines held high score in bridge play and Mrs. Rylee held high score in canasta play.

The hostesses for the next meeting, January 18, will be Mrs. C. R. Pierce and Mrs. E. L. Rylee.

Group Entertained In Harvester Room

Epsilon Sigma Alpha sorority entertained with a dance recently in the Harvester Room of Hotel Perryton.

Decorations were in keeping with the holiday season. Guests present were Mr. and Mrs. Sonny Wendon, Mr. and Mrs. Melvin McGarrugh, Mr. and Mrs. Carl Day, Mr. and Mrs. James Mosier, Mr. and Mrs. Don Eudy, Mr. and Mrs. G. K. Rupperecht, Mr. and Mrs. Clyde Ragsdale, Mr. and Mrs. Kenneth Martin, Mr. and Mrs. Jerry Heing, Mr. and Mrs. Duane Malone, Mr. and Mrs. Jimmy Smith, Mr. and Mrs. Louis Blau, Mr. and Mrs. Hank Libbs, Mr. and Mrs. Troy Jones, Mr. and Mrs. Bill Maguire, Mr. and Mrs. Jimmy Sheahan, Mr. and Mrs. Jack Howell and Mr. and Mrs. Don Paddy.

Others present were Mr. and Mrs. Ray Heing, Mr. and Mrs. Kenneth Fuller, Mr. and Mrs. Emory Slaton, Mr. and Mrs. Robert Mitchell, Mr. and Mrs. Sammy Phelps, Mr. and Mrs. Edward Dear, Mr. and Mrs. Joe Cox, Mr. and Mrs. Bob Barnett, Mr. and Mrs. Gene Brothers, Mr. and Mrs. Don Sartin, Mr. and Mrs. Robert Lemon, Mr. and Mrs. Jewel McDowell, Mr. and Mrs. Jerry Ferguson, Mr. and Mrs. Jim Henry, Mr. and Mrs. Woodrow Brillhart and Mr. and Mrs. Charles Price.

Groff-Clement Wedding Vows Are Read In December 16 Ceremony In Wichita

Miss Vaneta Eileen Groff, Wichita, Kansas, daughter of Mr. and Mrs. E. L. Groff, Wilmington, Illinois, became the bride of James G. Clement, Wichita, Kansas, formerly of Perryton, on December 16, in the North Heights Baptist Church, Rev. George B. Snyder, minister of the Baptist church officiated at the double ring ceremony.

Parents of the bridegroom are Mr. and Mrs. Cary Clement, 821 South Ash, Perryton.

Mrs. Cook organist, provided nuptial music and accompanied Herbert Meier, vocalist. Vows were solemnized before a background of poinsettia and greenery flanked with candelabras.

The bride wore a navy blue embroidered taffeta dress, white veiled hat, white gloves, with navy blue accessories. Her bouquet was fashioned of red roses.

Mrs. James G. Savage, Wichita, matron of honor, wore a gray brocade faille dress with black

accessories. Her corsage was of pink roses.

James G. Savage, Wichita served as best man.

Mrs. Cary Clement, mother of the bridegroom chose a navy blue dress and wore a white carnation corsage.

Immediately following the ceremony, a reception was held in the church. The serving table was laid with a white cloth, centered with a tiered wedding cake.

For a wedding trip to Kansas City, the bride wore a gray wool sheath dress. The bride is a graduate of the Alexander Park high school in Wilmington, Illinois.

The bridegroom is a graduate of Perryton High school and attended the North Texas State College at Denton, and Wichita University, Wichita, Kan.

Ruth Circle Holds Meeting

Mrs. Otha Castle, 714 South Grinnell, was hostess to the Ruth Circle of the Baptist WMU December 27.

-SOCIETY-

(Continued from Page 1)

Great Books Group To Be Organized Here Thursday

The first meeting of the Great Books discussion group, sponsored by the Perryton Branch, American Association of University Women, will be held on Thursday, Friday and Saturday, January 10-11-12, at 7:30 p. m. in Fellowship Hall of the First Methodist church.

Raymond Johnson of the Great Books Foundation will be present to assist in organizing the local group. On Thursday evening he will discuss "The Declaration of Independence"; on Friday, Mortimer Adler's "Adult Education"; and on Saturday, Plato's "Apology and Crito."

The Great Books discussion program is America's largest program of adult, liberal education.

Although the program is being sponsored by the local branch of A.A.U.W., it is open to anyone who is interested in the program. The discussions will begin with the ancient writers and come down to the relatively modern writers.

There are no educational requirements and there is no charge for the course, and everyone is invited to attend. The course gives a person the opportunity to read books he always intended to read; plus the opportunity to discuss them with a congenial group of friends and neighbors.

Mr. and Mrs. Arthur Daniel spent the holidays visiting in the home of their son and family, Mr. and Mrs. Orrel Daniel, Brighton, Colorado. Other guests in the Daniel home was his sister, Miss Annabelle Daniel of Denver.

ask of getting game birds to feed at a feed-dome overnight, one reason that the birds have to feed in the first place is that wild birds are to any strange objects as feeders. Not many years ago King Ranch had a cy-cy constructed along the border of the Lourelles District a few miles south of which is south of Christ. One of the guards state that the turkeys the ranch wouldn't get four hundred yards of the fence for weeks.

management practices nature will pay off greatly part of the State. as Spice Pecos Shoot. Black Gap game manager was credited with the successful of the three pub-game hunts this fall and produced the most exciting when a south Texas hunt-er mounted two mountain consecutive days. Director of Wildlife Re-h for the Game Commis-sio helped supervise the at Texas harvest of sur- and javelina, said the "really set the hair" rank and file of amateurs pros participating in the ap shoot. One-hundred and fifty one who were allotted hunt-er's at a public drawing sixty-two buck mule deer javelinas. Each par- was entitled to one buck javelina. director said "the inevit- happened" when a Beeville first reported the lion the big cats inhabit the ment area in sufficient to justify almost con-

stant trapping operations. He said the hunter was perched on a ledge on Horse Canyon when the lion ran out from a crevice about two hundred yards below him, but quickly retrack- ed its steps before the hunter could get a shot.

That nite in camp, the stirring tale "set the nimrods buzzing," according to the director and ev- erybody was a "potential big cat hunter from then on in."

Next day the same man ran back with another mountain lion report. A smaller cat also ap- peared in the horse canyon area but again lingered too briefly to per- mit a shot.

Mean while deep south Texas, which also knows about big cats, set up a trophy shot for a Corpus Christi deer hunter. He bagged a young mountain lion in La Salle county while trying to rattle up a buck from a tree blind.

Since the goose season is over there have been several reports of geese in this area. I noticed about twenty geese on a small pond north on the river in Hutch- erson county the other day. "Pud" Odie, cowboy on the Sneed ranch reported seeing two different flocks with each containing about twenty geese on the Sneed ranch.

If the Canadian river is ever dammed this area could become one of the best in the state for migratory game bird shooting. With the north plains fast becom- ing an irrigated area the birds would have feed to keep them in the Panhandle and plenty of wa- ter for protection and refuge.

NOTICE BY PUBLICATION

Notice is hereby given that Letters of Administration upon the estate of S. R. George, de- ceased, were granted to us, the undersigned, on the 3rd day of De- cember, 1956, by the County Court of Ochiltree County. All persons having claims against said estate are hereby required to present the same within the time prescribed by law. Our resi- dences, and postoffice addresses are Perryton, Ochiltree County, Texas.

B&PW Discusses Banquet Plans

Plans for the annual spring banquet of the Business and Pro- fessional Women's club were dis- cussed at the regular meeting in the Harvester Room Thursday, according to Mrs. Howard Holt, public relations chairman of the Perryton club.

Fifteen members were present. Those attending were:

Mesdames Mae Bell Lawrence, R. H. Daley, Nora Tallafiero, Wes- ley Bryan, D. C. Wilson, Jimmy Lee, J. M. Anderson, Marie Wade, George Ciennan, Billy Hargues, Lonnie Sultor, Howard Holt, Lea- la Jennrich, Hulda Schmidt, and Miss Molina Caldwell.

Nancy Jo Hargues was a spe- cial guest.

Love Me Tender

CARBONDALE, Ill. (AP)—A sev- en-foot cutout of rock 'n' roll singer Elvis Presley, snatched from a Carbondale theater lobby, turned up hanged in effigy from a flagpole on the Southern Illi- nois University campus.

The word "maknet" derives from Megnesium, ancient Turk- ish city where the magnetism of a lodestone was observed.

Botkin Completes Teletype School

FORT GORDON, Ga. — PFC Jackie Botkin, 23, son of Mr. and Mrs. Muri C. Botkin, 602 S. Col- gate, Perryton, recently complet- ed the radio teletype operation course at the Army's South east- ern Signal school, Fort Gordon, Ga.

He entered the Army last June and completed basic training at Fort Bliss, Texas.

A 1955 graduate of Oklahoma A&M college, Botkin was em- ployed by Halliburton Oil Well Cementing Co.

U. S. farms had less than 1,000 motor trucks in 1910; 2½ million in 1953.

One whale weighing a ton had a heart beating 12 to 20 times a minute.

Perfume For Jail?

FLEMINGSBURG, Ky. (AP)— After the Fleming County grand jury inspected the jail, it made one recommendation:

Use a milder deodorant that "won't be so obnoxious to pris- oner and visitor alike."

Russia, with 50 million bushels annually is the world's leading producer of buckwheat, says the National Geographic Society.

HOW TO BE A BETTER COOK
and save money too!
by Mary Blake
Home Service Director - Carnation Company

Cheeseburger Loaf

(Makes 6 to 8 servings)
1 cup undrained
Carnation Evap-
orated Milk
1 egg
1 cup cracker crumbs
1 1/2 pounds ground
beef
1/2 teaspoon salt
2 tablespoons
chopped onion
1 teaspoon dry
mustard
1 tablespoon catsup
1 cup grated cheese

Blend all ingredients except cheese and thoroughly mixed. Line loaf pan with heavy waxed paper. Place 1/2 cup cheese in bottom of pan. Cover with half of meat mixture. Repeat with remaining cheese and meat layers. Bake in moderate oven (350° F.) about 1 hour. Let stand about 10 min- utes before turning out on platter. Remove paper. Slice and serve.

Chain Reaction

The Southwest, and Texas in particular, has labored under a delusion of oil surplus for the past year or so, even to the extent that the final months of 1956 saw the Federal Commission slash the allowable to a point where exploration was discouraged.

This was before the Middle East crisis became really serious, and long charged after the Suez Canal was blockaded. Oil imports, planned for the U. S. oil surplus, were reduced. The domestic fields were "powered up" to encourage more production and more exploration.

Here in Ochiltree county, we learned that 1957 drilling in this area would be stepped up, and just last week all of the major companies got together on a 25 cent per barrel increase on crude in view of the changed situation.

So what happened? Immediately all of the companies got together for a boost in retail price of gasoline.

Both price raises affect us here in Ochiltree county. The crude boost may pay off in the long run, but it's the gasoline boost that we feel now.

Which points up an old adage—you don't get something for nothing, bud!

Should Income Tax Go?

It is rapidly approaching that time of year when Americans become most acutely aware of an annual pain—the income tax.

Let's get rid of the income tax! That has been said by many heated citizens after wading through the Form 1040 and dragging deep to find the money to pay the bill.

Some people began to think seriously about this several years ago—this problem of doing away with the income tax, and the fire was fanned last year by T. Coleman Andrews, the former Commissioner of Internal Revenue.

Andrews pointed out what most of us know: That the income tax amounts to legalized confiscation; it is too complicated; it costs the government too much to collect.

The trouble is that the government finds this the most practical way to raise the enormous billion dollar budgets required by a "giveaway" nation, and we are no chance at all to get rid of the income tax.

After all, it is hard to beat a system where most of the taxpayer pays Uncle Sam his taxes before they ever see the money, and where there are hundreds of thousands of employers who are pressed into service as unpaid bookkeepers and tax collectors for the government.

Things are liable to get worse instead of better, regardless of the political party in power.

From the SIDELINE

with HAROLD RUPPON

The Perryton Lions Club received an unexpected treat at their Tuesday noon luncheon when Rubenoff and his violin, accompanied by manager Ralph Pason and accompanist Homer Phillips, arrived in time to present the program. They had called from Garden City, Kansas at 10:30 a. m. and thought they could negotiate the 100 miles in an hour, but it took longer.

Rubenoff wants to dispell the notion that he is a "long haired concert." It has some classical music in it, but also other types, including a Davy Crockett ballad and some square dance "Tidbits." Acknowledged to be one of the world's finest violinists, Rubenoff has been a familiar figure in the American entertainment world for the past three generations.

When accompanist Phillips struck the first note on the somewhat ancient and out-of-tune piano in the Harvesters Room, Rubenoff turned to owner Jimmy Lee and asked, "Is this your piano?" Upon receiving an affirmative reply, Rubenoff said, "My violin was made in 1731. From the sound of that piano, I would judge it to have been made in approximately the same year."

By the way, the artist and his manager were appalled at the thought of playing in Perryton for only \$1 admission. This is the lowest admission price ever received by the artist, due to a mix-up with the Capitoline office, which approved the contract with the local Lions Club. The customary admission is \$2.50 per person, which gives you an idea of the bargain being offered in Perryton.

We like to watch football games on television, but we didn't go to the lengths employed by Poppy Powell, Herma Meadows and Gilbert Mize on New Year's Day. They watched the Orange Bowl game on Meadows TV set. Placed alongside was Poppy's set, on which they watched the Cotton Bowl game. At the same time they had on a radio tuned to the Sugar Bowl game. In a conversation with Mike the day after the games, we had the impression that he was a bit hazy as to the outstanding plays and in which contest they occurred.

The Minute Men of today are those who can make it to the refrigerator and back with a sandwich while the commercial is on.

When the Rongorettes triumphed over the Rangers in the 1956-57 season in District 3-A at Quannan Friday night, and due to the distance, few fans are expected to attend. Wonder what looks back in the East would think of two high school basketball teams, 175 miles apart, playing in the same district?

Perhaps the reason why teenagers know all the answers is that they haven't heard all the questions yet.

We have heard several times lately that school teachers don't make any more than garbage collectors. This must be wrong. Or is it? We will grant that it doesn't take much training to become a garbage collector, but it does take a strong back and a strong stomach. Two qualifications not found in everyone. But surely a teacher, with years of education and one of the most important jobs in the world, makes more money than a garbage collector. Does anyone know the respective salaries?

One of our young friends asked who Rubenoff was and we said he used to be on Eddie Cantor's radio program. The lad then asked who Eddie Cantor was. Such is fame. How fleeting.

Middle age is that period when a woman's life appears to be all bleaches and cream.

NOTICE TO BIDDERS

Sealed Proposals for furnishing the single stage, split case type centrifugal pump complete with electric horizontal motor, flexible coupling, steel or cast iron mounting base, and one pump panel will be received by the City of Perryton, Texas at the office of the City Manager until 8:00 p. m. Feb. 5, 1957, and then publicly opened and read.

Bidders must submit a bond of two percent (2%) of the total amount of the bid as a guarantee that the bidder will enter into the contract under the conditions set forth within ten (10) days after notice of award of contract. The City of Perryton reserves the right to reject any or all bids, to waive informalities and to accept the bid deemed to be the most advantageous to the City.

Specifications may be inspected or obtained upon request at the City Hall, Perryton, Texas, or from McMorris & Associates, Consulting Engineers, 327 Armadillo Building, Amarillo, Texas. City of Perryton, Texas. By Drew Ellis, Mayor.

Week end guests in the home of Mrs. May Pattison were her son Charles, and a friend, Kenneth Bright, Amarillo. They returned to Texas Tech Lubbock Monday afternoon.

Autos are used to go to work by 84 per cent of Americans who live more than 10 miles from their jobs.

STOP ROCKING THE BOAT!

med the Spearman girls for the championship in the Perryton Tournament, it was more of an event than most of us realized at the time. The Spearman girls were undefeated for the season and have been called "The greatest girls team in Spearman school history. The Perryton victory averaged an earlier defeat by Spearman in the Spearman tournament."

A country boy, about to attend his first formal dance, was accompanied by a friend. "Be sure and watch your manners—when you ask a girl to dance, say 'May I have this dance, and when the dance is finished, always remember to pay some sort of a little compliment to the girl as you return her to her chair or her escort."

With instructions firmly in mind, the country boy attended the dance, secured a partner, and after returning her to her chair, said, "I shore do thank you, ma'am. You sweat less than any fat girl I ever danced with."

The Rangers and Rongorettes open their basketball season in District 3-A at Quannan Friday night, and due to the distance, few fans are expected to attend. Wonder what looks back in the East would think of two high school basketball teams, 175 miles apart, playing in the same district?

Wolf Creek Philosopher

He Operates Like Treasury

(Ed. Note: The Wolf Creek Philosopher, a columnist, has found company in his financial problems. His letter this week reveals.)

Dear editor: With the Suez Canal jammed with ships and Washington jammed with Congressmen, the new season got underway. I was naturally interested in getting hold of a newspaper before 1957 news too old but I searched this place thoroughly, and couldn't find one yesterday, outside of one published two weeks ago, containing predictions on what Congress will do this year and anybody who relies on a newspaper columnist's predictions is pretty hard up and not very well equipped to face the future, so I went into town and hauled off and bought a copy and took it home. I was just getting into it when I read a statement by the Secretary of the Treasury saying that the national budget could be balanced this year if a little increase in income can be managed.

What this convinces me of is that the government operates like a business about like I operate mine. That is, I never have seen the time when I couldn't balance my budget, if I could manage to get a little more income.

People talk about tax relief about spending less, about economizing, but me and the United States government have found out long ago the only way to make ends meet is to get a little more money. I know I could spend a little less, could cut down here, do without there, the same as you, but you and me are raising with the same problem as Congress, the people won't let us do it. In Congress, the voters and the demands of families are the two things that are keeping a lot of noses in the grindstone. Moreover, while I don't know about you, I know me and don't

Top Click of the New Car Season

WANT TO GET your New Year off to a rollicking start?

Want to take the wheel of the car that's winning raves from Coast to Coast and back again?

Then take the wheel of a 1957 Buick and try the sparkling-new performance team in all autodomains.

We mean the team with the highest-powered V8 engine ever to ginger a Buick — and an advanced new Variable Pitch Dynaflow.

Here, with just a judicious touch of foot to treadle, you get response so obediently instant, so liquid smooth, and so full range in "Drive" — that you've never in your life felt anything like it.

It's sports-car going in a full-sized traveler that's sheer delight from start to finish. Know what else?

Folks like the way this new kind of performance comes dressed in sleek and glamorous styling that's fresher than tomorrow's news.

They like the new roominess inside these low-sweep Buicks and the new luxury of their "nested" ride.

They like the new ease of handling, the new steadiness of cornering, the way stops are always on the level no matter how quickly you use the brakes.

Fact is, folks like everything about the newest Buick yet — the car that's fast becoming the biggest hit of the new car year — and you will, too. Come on in and try it this week. We'll have the red carpet out for you.

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick built today. It is standard on Roadmaster, Super and Century — optional at modest extra cost on the Special.

News from BOYD, OKLA.

By Mrs. Aldeen Rodgers

Slow, soaking showers fell here early Friday. Amounts ranging up to one-half inch were reported.

At the installation service of the Turpin Order of Eastern Star Friday evening, Mrs. Lloyd Brown was installing officer, Mrs. H. Williams was installed as conductress and Mr. Williams as sentinel.

Mrs. Williams made the decorations for the installation and for the serving table, using as a centerpiece, evergreen sprayed with pink and silver and decorated with pink Christmas balls. Mrs. Glen Myers assisted in serving the refreshments.

Mr. and Mrs. W. H. Williams entertained a group of friends at a New Year's Watch Party.

Mr. and Mrs. John Winter and Mr. Winter's grandnephews, Gene, Glen, Donald and Rickie Scholtenberger of Beaver were calling in this neighborhood New Year's Day.

John A. Beck and Helen of Beaver were dinner guests of Mr. and Mrs. Aldeen Rodgers, James and Royce on New Year's.

The Turpin PTA met Tuesday night with the program consisting of a numbers by high school students and adults of the community.

Mr. and Mrs. Warren Swan of northeast of Turpin visited at the W. H. Williams home Sunday afternoon.

Royce Rodgers visited over the week end with Richard Buxton.

Lynn Bobbitt and Jerry Kirtin visited Ronnie and Jimmie Pierce Sunday afternoon.

Mr. and Mrs. Gene Akers and daughters of Perryton visited Sunday with the George W. Kirtin family.

James Rodgers visited Wednesday with Hugh B. Williams.

Mrs. Aldeen Rodgers and James were guests of John A. Beck and Helen in Beaver Thursday.

New Grain Sorghum Seed Is Available

COLLEGE STATION — Seven grain sorghum hybrids, developed cooperatively by the Texas Agricultural Experiment Station and the U. S. Department of Agriculture, will be available to farmers for planting in 1957. These hybrids are the result of research work which began in 1921 and are the first practical hybrids to be released from these studies.

The seven hybrids, RS 590, Texas 601, RS 610, Texas 611, Texas 620, RS 650 and Texas 660, are the best of several hundred produced and tested during the past 20 years at the Lubbock and Chillicothe stations. Tests were conducted last year throughout Texas and all have thus been grown under limited field demonstrations. The plant breeders for the Texas Station say still better hybrids with improved adaptation to various growing conditions can be expected in the near future.

Farmers are advised to plant one or more of the hybrids adapted to their areas and to make comparisons with standard varieties. Further, it is suggested, that only certified hybrid seed be planted as insurance that seed planted are correctly labeled. Planting seed of these seven hybrids are white, but the grain produced will be red. In general, the higher the hybrid number, the later is its maturity, but none is as late as Plainsman. Yields 20 to 40 percent greater than varieties of the same maturity under most conditions can be expected. The plants show superior seedling vigor, rapid growth and uniform height and maturity. Since the hybrids have larger

SNARES BALL—Martha Pyles outjumps team-mates and opponents for a high catch as the ball bounces off the backboard in the Perryton-Gruver girls' match Friday afternoon which ended in a 51-33 victory for the Perryton girls, and ultimately the tournament championship.

News from the County Agent

By Delbert Timmons

Beginning January 1, 1957, a new federal law aimed at eradicating brucellosis went into effect. The law concerns interstate shipment of livestock. It is not known exactly how or when it will be enforced but it has been published for two years and everyone is expected to know about it and you are considered notified.

In short, the law requires all breeding animals that move across a state line, to be tested

heads and are often slightly taller than the varieties, occasionally more lodging may occur in the hybrids. Cultural practices for the sorghum hybrids are the same as recommended for sorghum varieties.

Detailed information on each of the seven hybrids is given in L-310, Grain Sorghum Hybrids. It is available from the Agricultural Information Office, College Station, Texas.

flow. They calve only once on the average of 18 months. These losses apply to both beef and dairy.

Human cases of the disease are being diagnosed with increasing frequency among persons handling livestock or drinking unpasteurized milk. Loss of markets for Texas breeding and stocker cattle is becoming a problem.

During last year dairy herds were checked using the milk ring test. Out of 2561 herds checked 79.1 percent showed evidence of infected animals. Dairy herds in this part of the state are required to test but in most of the state they are not.

There are four plans approved to be used by the USDA:

Plan A: Use herd test and slaughter reactors—with or without calfhood vaccination.

Plan B: Test the herd, vaccinate the calves and retain the reactors until they can be sold for slaughter without heavy loss to the owner.

Plan C: Vaccinate calves without testing the herd. This plan is suited to range herds or those in which the movement of animals is governed by special permits issued by State livestock sanitary officials.

Plan D: Vaccinating adult cattle. To be used only upon the approval in writing by state-federal supervisors before vaccination begins.

Brucellosis can be wiped out by working together with proved methods. Some small price hikes are expected in cattle prices in 1957. It

appears that prices to producers will average a bit higher in 1957. The consumer will be asked to pay a little more for his meat than he did in 1956—even though retail prices certainly will remain well below those of a few years ago. This information comes from the "Agricultural Situation" published by the Agricultural Marketing Service of USDA.

Lots of Tourists

SACRAMENTO, Calif. (AP)—An estimated 4½ million tourists visited Southern California during 1955-56. This was 288,000 more than 1954-55, said the California Recreation Commission.

Wired For Money

ALBUQUERQUE, N. M. (AP)—Ed Morrison, sales manager for a homebuilding firm, says he recently received an unsigned letter with a check for \$18 enclosed. Morrison says the writer told of taking some wire from the firm's storage lot and decided to pay for it. Morrison says the company did not notice the wire was missing.

George Wilson visited Saturday evening in the Leon Pribble home.

This community received an inch of rain Friday.

Christian Science
Services 11 a. m. each Sunday
Public cordially invited

The answer to mankind's great need of purity and regeneration will be emphasized at Christian Science services this Sunday.

Keynoting the Lesson Sermon on "Sacrament" is the Golden Text from Isaiah (64:6): "We are all as filthy rags." The lesson is the story of the Lord's Supper, which is the holy place. He that hath clean hands and a pure heart, who hath not lifted up his soul unto vanity, nor sworn deceitfully. Selections of the lesson from "Science and Health" by Mary Baker Eddy include the following (241:23-27): "One's aim, a point beyond which should be the way to the kingdom of God, the way to truth and success. We should strive to reach the highest point where God is revealed, and the nearer stone of all spiritual building is purity."

Chartered Mils License

DES MOINES (AP) — Police Lt. Arvold Nelson, on routine patrol duty, asked to see a man's driver's license.

The man produced a license for the year 1952-53 and when Nelson asked him about it he replied: "Oh, I'm not the same as you folks. When they give me something I don't lose it. I never lost my license so I never had to get another one."

In Iowa, drivers' licenses are supposed to be renewed every two years.

Dr. and Mrs. J. W. Chase will leave Wednesday to attend a Naturopathic Clinic convention in San Antonio.

REV. CALVIN COOK

Pastor, The People's Chapel

9th and Colgate

Perryton, Texas

Rev. Calvin Cook, pastor of The People's Chapel, Perryton, Tex., brings the message of the week in this latest of a series of written meditations prepared by ministers of the area. Rev. Cook's commentary follows:

Upon answering the telephone a few days ago, I heard a strange voice asking: "Is there?" "Do you think the Bible has the answer to the world's problems?"

Millions of people are asking that question today.

Of course the Bible has the answer. Of course God has the solution for every problem that confronts the human race.

It is true that the world is suffering from what some call "an overdose of science." It is also true that the world is undergoing rapid changes symbolized by everything from Russia to juvenile delinquency. It is only true that in this age of unrest, millions of people are jumping from the frying pan of imperialist aggression into the fire of Communism.

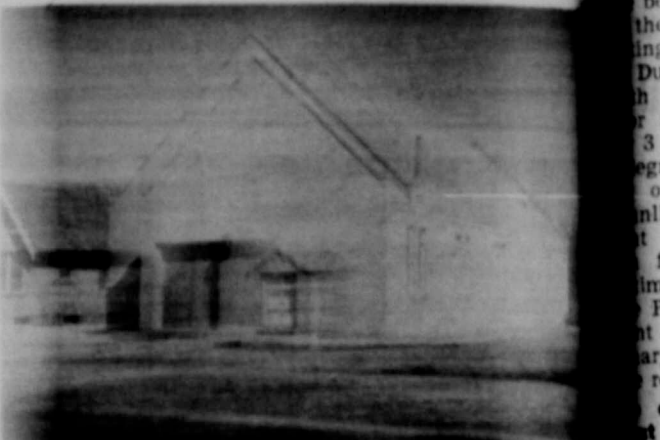

While we would be loath to declare a higher standard of living for the world, we would be loath to suppose material things could ever be made a substitute for the peace of the shed blood of Christ which alone for us, Christ is our answer, whether we live or die, whether the world lasts or ceases, whether it burns into atomic destruction or melts into the next five years.

will prove much more explosive than anticipated by many. People are beginning to ask numerous questions concerning this particular situation. For instance the Washington mail brings in such questions as these: What is the national extraction or the predominant blood line of the refugees? What is their average age? What kind of work can they do? What kind of work are they willing to do?

Why isn't Russia making more of an effort to keep them from escaping? Is it possible that some of them have been Moscow trained? Will the relaxing of our immigration laws, in order to take care of these refugees on a temporary basis, result in efforts to completely change our immigration laws? Are many of these people more interested in obtaining U. S. citizenship than in what happens to Hungary?

There is no reason why these questions—and many others—should not be answered fully and to the satisfaction of the people of this country. At the present time there are doubts in many minds. One woman called an agency which had been advertised as having something to do with this program. She explained to the agency that she could provide facilities and employment for one or two who would be interested in doing domestic work. She was advised by the agency that the refugees were not interested in doing domestic work—that most of them were skilled workers and professional people; that, in fact, a bulletin had just been issued by the main office of the agency to the effect that the refugees were definitely not interested in doing domestic work. This situation created two questions in my mind. In the first place, if they were interested in escaping, it would seem to me that they would not be so choosy about their employment. In the second place, it occurred to me that a troublesome situation could develop from the importation of skilled workers to replace our own citizens in many instances. There has been a growing fear on the part of many of our people who are getting up in years that their services are no longer needed or wanted in the skilled-worker field and in several of the commercial fields. Many of these people have written me concerning their dilemma. It would be tragic if people from foreign countries were imported into our country and placed into jobs that should be occupied by our own citizens regardless of the particular work to be done.

Many other incidents such as the above have given rise to the doubts and created the questions. Therefore, I think that an early answer to all of the questions would be in order.

U. S. Troops on Foreign Soil
Probably the most important issue that will face this Congress and this country for a long time to come is the request of President Eisenhower that he be granted unlimited powers to use American boys in foreign lands to help stem communism. Everyone would join in most any effort to help stem communism, but it must be remembered that the use of American boys in foreign fields, is a very, very serious matter. Under such powers the President could dispatch the troops to such places as he saw

TENSE MOMENT—Players on both teams watch tensely as a backboard shot by Kent Apple whisks through the netting in the final moments of the Perryton-Borger boys game. One of the most exciting games of the tournament, it ended with Borger leading 63-60.

fit and say that it was being done for the purpose of stemming communism.

No one would doubt his sincerity in his conclusion, but there are many, many people in this country who could very well conclude that the use of American troops in that particular area was not stemming communism. In other words, there is no need to beg the question. If it is the opinion and will of the American people that one man, to wit, the President of the United States, should have the authority to dispatch American boys in uniform to any part of the world, that power should be unlimited.

Communism knows no particular area. It can be employed in several widely separated places simultaneously or can be handled in such manner as Moscow might decide. The real question is whether or not one man should have such powers or whether the matter should be left to the elected representatives of the people to act at such time as need for action arises.

In my opinion, the elected representatives of the people of this country will act with all necessary dispatch when and if the time comes that the shedding of American blood on foreign soil is necessary for the preservation of our nation. God forbid that it ever does.

Not For Barbecue

LOYAL, Okla. (AP)—When the cold storage plant here caught fire, the entire community turned out. Townspeople were able to rescue \$20,000 of meat before it was barbecued.

Double Perfect

PORTSMOUTH, Va. (AP)—Making a perfect score in a Navy aptitude test is admittedly a difficult task, rarely accomplished. Classifiers in the Naval Reserve Training Center here were just about bowled over when Ralph L. Jackson did it twice on the same night—in both electrical and mechanical knowledge.

Old But Not Forgotten

MARSHFIELD, Wis. (AP)—The oldest farm in this area of central Wisconsin was settled in 1867 by Prosper Bouchain who lived to be 104 years old. His son, Valmo, born in 1876, still is living on the farm now operated by his son Norman.

The horns of the African Rhinoceros are not attached to its skull.

er, and L. E. Page of Carthage, former state commander of the American Legion.

A new constitutional amendment dropped the governor and attorney general as ex-officio board members. Instead, the governor is required to appoint two "citizens at large," one versed in finance, the other in veterans affairs.

Board members immediately went to work on the new \$100,000,000 bond issue for veterans land buying as authorized in the same amendment.

WILSON PROMISES STATE SUPPORT—New Attorney General Will Wilson promised to "consistently support state sovereignty" in cases where federal-state authority is at issue.

Wilson said his office would seek to protect school officials and students from violence and intimidation stemming from desegregation efforts.

He also promised to push completion of the Duval County and veterans land cases begun by his predecessor, John Ben Sheppard.

Sherry and Eddie Haar Canyon, visited in the home of their grandparents, Mr. and Mrs. E. N. Flathers, while their parents, Mr. and Mrs. Dick Haar attended the Cotton Bowl football game at Dallas.

PEOPLE OF THE 18TH

Congress Convenes
After high noon on the 4th of January the Honorable Speaker, rapped his gavel and called to order the session of the House of Representatives of the 85th Congress. The Capitol the same day the Vice President was sworn in. The oath of office was administered to all those present.

There was ample indication beginning that this session of the Congress would not be free from explosive issues. Dulles had been conferring with several members of the Congress in an effort to obtain a majority to pass the resolution to limit powers to the President for use of American troops in foreign areas. At the time it was announced, President would appear in session of the Congress on January 5 in an effort to push the resolution.

Activities clearly indicated most of the big issues from the international and our foreign policy, Hungarian refugee program

Mr. Farmer:
Here are two names to remember when you order gas pipe.

SOUTHWESTERN and "KRALASTIC"
PLASTIC GAS PIPE
IS QUALITY PIPE

Southwestern has made and sold more Kralastic plastic pipe than any other manufacturer supplying the irrigation area of West Texas, New Mexico and Oklahoma during the last three years. Southwestern Kralastic gas pipe is manufactured of virgin material purchased from Naugatuck Chemical Division of U. S. Rubber Company. Our record of successful installations is unsurpassed.

Over the years Southwestern served farmer groups and individuals by working directly with them and through qualified contractors. Southwestern field men are experienced in group organization and line layout. This type service plus trouble-free Kralastic pipe is the key to our growth in the area. Southwestern maintains sales offices in Lubbock, Muleshoe and Sunray to serve the area. If you need pipe, see your nearest Southwestern QUALIFIED contractor, or call us direct.

Cadillac

Finally Believed His Eyes and Ears

He has heard and read a great many wonderful things about this new 1967 Cadillac since it made its first appearance a few brief weeks ago...

And so, quite frankly, he began to wonder if it were so gently on the broad, banking road and over as effectively as it was supposed to be...

Well, he's decided to put his eyes and ears to the test today. And the verdict is unmistakable...
