## Shows Fall As Texas Warms Up After Cold Wave

By The Associated Press  
Widely scattered showers fell over Texas Thursday.  
During the morning rain fell at El Paso, Guadalupe Pass, Abilene, Big Spring, Fort Worth, Dallas, Tyler, Wichita Falls, Plainview and Sweetwater. The fall was very light.

### Father Of Tennis Star Faces Three Charges Of Incest

LOS ANGELES.—(AP)—Laura Lou Jahn, 16, who accuses her father of forcing her into incestuous relations with him, has asked court permission to continue playing in the Pacific Southwest Tennis Tournament here.

Laura Lou and her 10-year-old brother are in custody of juvenile authorities while their father, Tennis Coach Leslie E. Jahn, 41, awaits a preliminary hearing on three counts of incest.

A two-time winner of the national girls indoor singles title, the girl has matches scheduled for Friday and Saturday. She is the nation's second ranking junior girl player.

Jahn, an instructor at exclusive tennis clubs, was arrested last Saturday after his daughter told officers her father had forced her to submit to him since she was 10 years old.

He denies the charges, saying his daughter was angry with him because he refused to let her have dates during tennis trips. Specifically, Jahn is charged with having sexual relationships with Laura Lou on the nights of September 6, 7 and 8.

Jahn appeared for arraignment Wednesday on a complaint issued by the district attorney's office. He was ordered to appear for hearing September 26.

### New-Type Fox Reported At Fox Studios—Named By Hope

By ERSKINE JOHNSON  
N4 Staff Correspondent

HOLLYWOOD.—This is Hollywood, Mrs. Jones—

They were shooting a fox-hunting scene for "Fancy Pants" at Paramount. The fox was a dog made up to look like a fox.

"WHAT kind of a fox is that?" said a visitor.

"That," said Bob Hope, "is a 20th Century-Fox."

Fashion designer Yvonne Wood sewed in a lining of soft foam rubber into a pair of riding breeches for Yvonne de Carlo in "Buccaneer's Girl."

Friends calling Dorothy Lamour were told she "wasn't available" and worried rumors started that the star, who expects a baby October 15, was ill. Finally a friend broke through the iron curtain and learned, from a breathless Dottie, that she had been "tied up" canning peaches.

No truth to the rumor that June Havoc and Bill Stryker are expecting a baby. M-G-M is talking to Rita Hayworth about playing Nero's wife in "Quo Vadis" next year. There's a deal pending for Bob Hope and Doris Day to make records together at Capitol of the duets they sing on their airshow.

Roberto Rossellini is still insisting he'll marry Ingrid Bergman. Ingrid isn't saying anything. I'm still insisting they'll never wed.

Mickey Rooney has taken an option on a story with a tunnel drilling background. Cecil B. DeMille is thinking of doing the Lewis and Clark expedition as a forthcoming big epic.

Jack Wheeler is talking to Donald Crisp about the role of Cardinal Mindszenty in Italy for "September" scenes, writes that a sidewalk merchant in Rome tried to sell him a plaster arm, claiming it was from the Venus statue. "No one," added Joe, "has showed up yet with the Brooklyn bridge."

When Bob Hope's oil well came in, Fred Astaire admitted he was a big oil plunger, too. "They just sunk my sixth well with my usual good luck—nothing."

John Brown, the veteran radio actor, predicts that television will employ at least 10,000 more actors than radio. No longer will radio actors be able to play three or four roles on the same TV show, as they now do on radio. On one recent radio program, Brown

### IN HOLLYWOOD

played a murderer, the murdered man, the arresting cop and the sentencing judge. He'll never get away with it on video.

Vincent Price will play the role of a miserly radio sponsor who dies whenever a contestant gets past the \$1 question in "Champagne for Caesar." Reginald Colman plays the man who runs the quiz program up to \$23,000,000.

Noro Morales, the band leader, and his vocalist wife, Nita del Campo, were finding it difficult to rent a home in Hollywood through real estate agent Max Reibelsen. Finally Noro asked the agent: "When do you think the housing shortage in Hollywood will end?"

Reibelsen replied: "When all the married couples in Hollywood start living together."

Collaboration Paying Off

Louise Randall Pierson, who wrote "Roughly Speaking" as a first book and James Schermerhorn, Jr., Detroit and Los Angeles newspaperman, has collaborated on a police-bookie Greenwich Village story with the intriguing title of "God doesn't Pay Saturdays." There's plenty of studio interest.

### Midland Baptists Attend Annual Meet

Representatives from the First Baptist and Calvary Baptist Churches of Midland attended the annual Baptist Association meeting which was held this week in two areas of the boys and girls sessions Tuesday were in the Baptist Church at Stanton, and the meeting closed in the Terminal Baptist Church Wednesday.

The Rev. A. L. Tarr, pastor of the Calvary Church, delivered the annual associational sermon Tuesday morning and the woman's quarter of the First Baptist Church sang on the Tuesday night program.

Dr. J. W. Marshall, president of the Baptist Association, was the speaker Tuesday night; Andrew Q. Allen of Dallas, secretary of Sunday School work for Texas Baptists, spoke Wednesday afternoon, and the Rev. J. W. Tarr, district missionary, presented the closing message, "Let Us Go Forward in 1950."

Reports on various church organizations and departments of work filled the two days.

Dr. R. V. Vernon, Yearly pastor, of the First Baptist Church, presided over the closing message.

Supervisor of the closing message, Mrs. J. E. Hall, associate pastor; Mrs. J. E. Hall, associate pastor; Mrs. J. E. Hall, associate pastor; Mrs. J. E. Hall, associate pastor.

### Meetings Of Junior High 4-H Clubs Set

Organizational meetings for boys and girls 4-H Clubs in the Midland Junior High School will be held at 10:30 a.m. Friday.

Charles Green, county agent, will be in charge of the boys and Mrs. Nettie Messick, home demonstration agent, will preside over the girls' session.

Officers are to be elected and other organizational business conducted if there is a sufficient turnout.

Meetings were held last Friday for the groups and the number attending indicated the successful formation of clubs.

The first meeting of another county 4-H Club was held this week at Greenwood School, with 15 boys attending. Plans are to hold meetings twice monthly at Greenwood, the county agent said.

### Pioneer Air Lines Requests Flight Schedule Survey

Interested in providing schedules for the convenience of patrons in the Midland area, Pioneer Air Lines has asked Manager Delbert Downing of the Midland Chamber of Commerce to conduct a survey to determine what services the Chamber membership would have the airline furnish here.

The recommendations will be incorporated into Pioneer's Winter schedule to be effective about November 1.

A supply of the airline's schedules has been sent to Downing with the suggestion that he distribute them among Chamber members, requesting them to complete and return a short questionnaire concerning scheduling. Pioneer asks the recommendations and questionnaires be returned by October 1.

Marvin L. Davis, chairman of Pioneer's Scheduling Committee, said it always has been the airline's policy to provide each city it serves with frequent daily flights during the normal waking hours of the day, but to assure schedules best adapted to local needs it has decided to determine what the patrons want by asking them. He stated it perhaps is the first time that users of air services have been given the opportunity to play a vital role in the planning of an airline's schedule.

### New Type Cliff Dwellers Solve Shale Oil Secrets

RIFLE, COLO.—(AP)—New cliff dwellers have returned to the Rocky Mountains—the U. S. Bureau of Mines men who have solved how to get oil cheaply out of shale.

The bureau has discovered how to assure the United States of enough gasoline for centuries by making shale oil at a cost no more than petroleum.

The main secret is new mining methods developed for the shale. Instead of using loaders, these modern cliff men go up in bulldozers, 30-ton trucks, electric shovels, compressors that have 12 wheels side by side and tower trucks resembling fire apparatus.

These huge machines climb a five-and-a-half mile, hairpin-turn road up the side of a mountain to sheer cliffs of colored marlstone shale at 4,200 feet altitude. They drill a corridor big as a church straight into the solid rock, and spend their careers quarrying vast rooms deep back in the rock.

Demolition is required to clear the shale oil mine and extraction and oil refining plants down the mountain side at 6,000 feet on a four-week run to show that shale oil is ready to supplement petroleum. Next week more than 100 industrial key men will come here for a two-day demonstration.

The shale will be shown how industrial shale oil will have a crushing and extraction plant right up at the cliff faces to save money by using gravity in handling the rock. After the oil is extracted it will travel in pipe lines to refineries, either lower down or at distances, just as petroleum is handled.

This shale alone contains seven times more shale oil than all the petroleum the United States ever has produced.

The great Colorado deposit is thousands of feet thick Utah and Wyoming have similar rich deposits. Other oil shales are scattered all over the United States and Alaska. A century ago Ohio had shale oil companies. Then discovery of petroleum put them all out of business. Now the oil men are coming here to learn how to renew this lost industry.

### Father Of Tennis Star Faces Three Charges Of Incest

LOS ANGELES.—(AP)—Laura Lou Jahn, 16, who accuses her father of forcing her into incestuous relations with him, has asked court permission to continue playing in the Pacific Southwest Tennis Tournament here.

Laura Lou and her 10-year-old brother are in custody of juvenile authorities while their father, Tennis Coach Leslie E. Jahn, 41, awaits a preliminary hearing on three counts of incest.

A two-time winner of the national girls indoor singles title, the girl has matches scheduled for Friday and Saturday. She is the nation's second ranking junior girl player.

Jahn, an instructor at exclusive tennis clubs, was arrested last Saturday after his daughter told officers her father had forced her to submit to him since she was 10 years old.

He denies the charges, saying his daughter was angry with him because he refused to let her have dates during tennis trips. Specifically, Jahn is charged with having sexual relationships with Laura Lou on the nights of September 6, 7 and 8.

Jahn appeared for arraignment Wednesday on a complaint issued by the district attorney's office. He was ordered to appear for hearing September 26.

### Midlanders Attend Farm Bureau Meet

A district meeting of the Farm Bureau at Big Spring Thursday was attended by several persons from Midland, including directors of the county Farm Bureau, Charles Green, county agent, and Mrs. Nettie Messick, home demonstration agent.

Also accompanying the group was Betty O'Neal, Midland County Farm Bureau queen. She was to compete in the district queen contest during the afternoon session.

### At Home After Trip

Mr. and Mrs. Clarence Schaubauer Jr. are residing in their new home at 1611 West Tennessee Street after returning from a trip to New York and Bermuda that followed their marriage here on August 27. Mrs. Schaubauer is the former Dorothy Turner.

### Invited to Tea

An invitation to Midland Women to attend a silver tea and book review in the Ester County Library at Odessa Friday has been received from the Twentieth Century Study Club of Odessa, hostess Gladys Senter will review Taylor Caldwell's novel, "Let Love Come Last."

### Service School For Ford Dealers Held

Murray-Young Motors of Midland was host Wednesday night to a service school held by the Ford Motor Company. Twenty-five men from eight cities were represented at the meeting held in the Murray-Young school.

H. E. Paulus of the service department at the Ford plant in Detroit was in charge of the meeting. Principal subject for study was front end service for automobiles and trucks. Paulus is an expert in this line and gave demonstrations.

After the formal discussions were completed, a question and answer session was held. Dealers related special problems they face in their districts which were discussed by those present.

Dealers from Odessa, Big Spring, Stanton, Andrews, Crane, McCamey, Lamasa and Midland were present for the school.

A school is held every two or three months in the West Texas area and an effort is being made to bring it back to Midland often, according to Harry S. Murray, host dealer for the school here.

### Smithwick Trial Set For October 24

BELTON.—(AP)—Sam Smithwick will be tried October 24 for the murder of a crusading Aliso, Texas, radio commentator.

The date of the trial for the 60-year-old former Jim Wells County deputy sheriff was set late Wednesday by District Judge Wesley Dice.

District Judge Paul A. Martineau transferred the case here from Aliso on his own initiative.

Smithwick is charged with shooting fatally W. H. (Bill) Mason as he sat in his automobile in an industrial section of Aliso last July 29.

### Colorado City Rea Cooperative Gets Loan

WASHINGTON.—(AP)—The Rural Electrification Administration Wednesday granted the Lone Wolf Electric Cooperative, Inc., of Colorado City, Texas, a loan of \$60,000. The loan will be used for extension of electrical service to farming areas.

The seven wonders of the modern world are the airplane, radio, antibiotics, penicillin, X-ray, radio and the telephone.

### Total Property Loss In August Hurricane Set At \$53,350,000

MIAMI, Fla.—(AP)—The hurricane which swept through Florida and into Georgia and the Carolinas August 26-27 caused crop and property damage estimated at \$53,350,000, a report showed Thursday.

Grady Norton, chief storm forecaster at Miami, said in his report to the U. S. Weather Bureau at Washington that the hurricane killed two men, injured 133 persons and caused \$45,000,000 damage in Florida alone.

He said the hurricane also killed 300 hogs, 112 head of cattle and 2,000 chickens. It destroyed 265 dwellings, 524 other buildings and damaged 30,762 buildings, including 27,886 homes.

Both deaths "were the result of failure to heed warnings," Norton reported. One man drowned while trying to save a sailboat and another was injured fatally while trying to operate a pump in high winds.

Florida property damage amounted to \$18,000,000 and crop loss totaled \$20,000,000, including 14,000,000 boxes of fruit. Power and communications suffered \$4,000,000 damage while loss to highways, bridges and streets amounted to \$500,000, the report showed.

The report showed Georgia suffered damage of \$4,000,000, South Carolina \$2,100,000 and North Carolina \$1,250,000.

### Negligent Homicide Charges Are Filed In Stanton Wreck

STANTON.—Deputy Sheriff Jim McCoy Thursday said charges of negligent homicide have been filed against Sam Maderis, Midland negro, in connection with the death of another negro in a wreck here Saturday night.

Maderis, according to McCoy, was driver of the car in which Sonny Boy Seelisan was killed when it collided with a truck.

Maderis is scheduled to be released from Midland County Memorial Hospital Thursday or Friday. He was injured in the accident.

### Squally Labor News Lowers Stock Prices

NEW YORK.—(AP)—Disturbing labor news hit the stock market Thursday.

Steel issues were among those under greatest pressure but a liberal supply of minus signs also appeared in other major groups. Declines ranged to around a point.

Price weakness followed disclosure late Wednesday that most of the major steel producers had refused to accept a peace-formula without bargaining.

### Army Develops Bullet-Proof Fabric

SAN PEDRO, CALIF.—(AP)—The Army may be returning to suits of armor.

Maj. Gen. W. H. Middlestear of the quartermaster general's office disclosed Wednesday the development of bullet-resistant body armor for soldiers—made of plastic and nylon.

The general said the cloth-like substance will resist a caliber bullet fired from only 15 feet away. The material is nearly a quarter-inch thick.

### Police Guard Jurist

NEW YORK.—(AP)—Two police patrolmen have been assigned to guard the home of Federal Judge Harold R. Medina, who is presiding at the Communist conspiracy trial, it was disclosed Thursday.

### News For Camera Fans

Impressively designed—brilliantly engineered, the new Revere "16" Movie Camera, featured at CAMERON'S, gives you the advantages of magazine loading, plus many unique Revere features. In Revere "16" you'll find: an ingenious built in, micromatic, telescopic view-finder adjustable for 1" and 3" lenses. Revere Cameras are available in any price from \$62.50 up. With these cameras a wider field is opened to the amateur enthusiast. They are available from "16" to "99" which gives you "theatre quality" home movies.

### From Finest Mills

Beautifully textured with silk-like finish, the fine new fabrics at CARL'S are so wonderfully soft to the touch and most fashion-right to wear. There are gorgeous new flannels that are a designer's dream and lustrous gabardines with the look of quality woven right into them. All the fabrics featured at Carl's are from finest mills, both domestic and imported. There are also sharkskins, doekskins and tweeds that are the highest expression of the fabric maker's art. Why not have a custom made suit from this wide assortment of materials at Carl's, Midland's only exclusive tailor.

### Home Laundry Is Old Fashioned

Beginning October 1st, the LAUNDETTE, 413 West Texas, will open at 7:45 a.m. Starching and drying facilities are available. When you do your laundry this modern way, you have time to do your shopping while your clothes are in the machine. In 40 minutes they are ready to take home. All you do is place your clothes in the machine. Wash day will hold no dread for you and you'll not be all tired out from scrubbing clothes. The automatic washer leaves your clothes hospital clean and damp dry.

### Kitchen Jewels

To be sure of getting genuine Revere Ware look for the trade mark in the thick copper bottom. You'll find it at MIDLAND HARDWARE GIFT DEPARTMENT. They are of stainless steel with genuine copper bottoms. There are many items including the Dutch oven, double boiler, percolator, covered sauce pan, covered skillet and many others. Revere Ware is a very appropriate suggestion for a bridal gift. Any bride would treasure these beautiful utensils. Give her a start or a whole set.

### Motor Problems Are In Season

Heavy summer travel is hard on motors. If your car is slow on pick-up or if it sounds like a "old buggy," perhaps new parts are needed. FUBANKS AUTO PARTS, 114 East Wall, has everything in automobile parts and accessories. New parts can eliminate those "rattling" disturbances. They also carry a fine line of ready-to-go sets for your car, and protect the upholstery. Orders are filled promptly; there's no waiting.

### Crisp And Clean

Comparison proves good dry cleaning is a science that can not be duplicated with inferior methods. Compare your clothes after HART CLEANERS has done an expert job of cleaning and pressing. Notice the texture of the material—crisp and fresh like new. Their solvents leave colors bright, and the process leaves "body" in fabrics which makes a suit or dress look new longer and retain its shape.

### Sharp Buys For Sharper Appetites

Every good housewife searches for menus to provide her growing youngsters with wholesome, energy giving food. When you shop at KENNETH HINES GROCERY, located at Ohio and Fort Worth, you can select from garden fresh produce, quality meats and popular brands of groceries. If you're budget minded, also, you'll appreciate the convenience all items are priced marked on the shelves, so you know just what you are paying for each purchase.

### Hunting Arms For Sale

CURTIS C. ROGERS GUN SHOP, 110 East Wall, has a tremendous assortment of used guns for sale. There is practically any type hunting arm you prefer, including rifles, shot guns and Winchester deer guns. These are all in fine condition with mounts and scopes and Power-Pac new recoil. They are reasonably priced, so here's your chance to own that hunting arm you've been wanting. Orders are now being taken at the gun shop for high powered hunting rifles and there are still plenty of big game hunting licenses.

Architect's Revenge

Gilmore D. Clarke, chairman of the Fine Arts Commission in Washington, is paying the penalty for speaking out last year against a project dear to President Truman's heart: construction of a balcony outside the second floor of the White House.

Clarke is reportedly being dropped from the commission after 18 years' continuous service. Truman's friends say what angered him was the fact that Clarke made an open fight against the balcony plan without giving him advance notice.

Clarke and other members of the commission said the balcony would spoil the basic design of the White House. The President replied that original plans for the building included a balcony. It was constructed last year despite the protests.

Dropping Clarke appears to be Truman's revenge. But Fate has intervened to give Clarke a sort of revenge, too. The major White House repairs now in progress will keep the President off that balcony for perhaps the next two years.

Let's Irritate 'Em

When Marshal Tito of Yugoslavia split with Russia last year, we were warned by our foreign affairs experts not to expect much benefit from the event. But it is clear we are reaping some advantage from it.

Russia's anger over Tito led to her withdrawal of support for his territorial claims in Austria. Thus one of the main roadblocks to an Austrian peace treaty was removed.

On the other hand, Yugoslavia's wrath over the Soviet-inspired Cominform campaign against the Tito regime has induced the marshal to stop helping the Greek Communist rebels.

By closing the Greek-Yugoslav frontier and halting aid to the rebel cause, Tito has given the Greek government a big lift in its hitherto largely fruitless efforts to stamp out the rebellion.

If Stalin and Tito can just stay mad, the Western Powers ought to rack up a pretty good score from this situation after all.

California Not So Strange

While Southern California continues to attract new people by the thousands, many a visitor professes not to like what he sees there.

To some, the informal mode of dress is shocking. To others, the free-ranging architecture, usually translated into dazzling white stucco, is the chief offender. These and other elements make a pattern of restlessness that seems strange.

Actually it isn't strange at all. Californians more often than not are people from other states who are just doing out there what they are afraid to do at home in Iowa or Georgia or New York.

Cowardly Animal crossword puzzle with clues and a picture of a dog.

"Hey, I've Got Votes, Too!"

LABOR FARMER TRUMAN

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

MEXICO CITY.—(AP)—Texas Governor Allan Shivers will run for a full term next year. Shivers disclosed this Wednesday after arriving for a friendship visit to Mexico.

He told a news conference he would run, "God willing and the people favorable."

Shivers, elected to a second term as lieutenant governor in 1948, became governor when Gov. Beauford Jester died this summer.

WASHINGTON.—For the first time since Franklin Roosevelt appointed the majority on the Supreme Court, you can write it down that the "nine old men" now will rule against Felix Frankfurter's philosophy.

This turn of the right will be apparent soon after the court convenes in October, and would have taken place even had not Justice Wiley Rutledge pass away last week. It will be emphasized all the more, however, with his death.

There will now be three different and distinct groups on the Supreme Court, with generally divergent points of view on most subjects.

Group No. 1.—The militant liberals have now been reduced to only two men—Justices Hugo Black and William O. Douglas. Up until Frank Murphy's death, they usually could persuade Stanley Reed or one other justice to go along with them. Now a definite minority, Black and Douglas, still will have a powerful impact on the nation, probably will become like Holmes and Brandies in their ringing, historic dissents. But their influence over the court majority will be no more.

Group No. 2.—The Conservatives are represented by Felix Frankfurter and Bob Jackson. Jackson, more astute than Frankfurter and a more skilled politician, is the dominant of the two. Both men were appointed by Roosevelt as liberals; both have drifted well over to the right, and both are in opposition to most of FDR's social and economic views.

Middle-Of-The-Roaders Group No. 3.—Middle-of-the-roads are led by Chief Justice Vinson, who for the first time, since the death of Murphy and Rutledge, will now control the majority of the court.

With the chief justice will line up Stanley Reed, also from Kentucky. A trifle lazy, easy to sway, and worried about increased government controls and so-called "statism," Reed gradually has been veering away from the liberals.

Also voting with the chief justice most of the time will be hard-working ex-Attorney General Tom Clark, who partly owes his Supreme Court appointment to his old friend Vinson. For it was Vinson who tipped the balance in favor of Clark when the President's mind was undecided. Clark will be more liberal than Vinson in many cases, but most of the time he will stay with his old friend.

Although a Republican, Justice Harold Burton also lines up rather consistently with the chief justice. Burton feels a great loyalty to President Truman, who appointed him, and with whom he once served in the Senate. Furthermore, Burton, a plodding lawyer who has to struggle to turn out even three or four opinions a year, is forced by necessity to hang on somebody's coat-tails. And the chief justice's tails are both the most respectable and the most convenient.

Douglas Vs. Frankfurter There was a time when Bill Douglas seriously considered resigning from the Supreme Court. Still a young man, the confining drudgery of the court bored him.

With the death of Rutledge and Murphy, however, he probably will not resign—first because he will not desert his old friend Hugo Black, and second because he will not desert the liberal cause.

Also Douglas gets a kick out of baiting his opposite number, Felix Frankfurter. The only member of the Supreme Court who successfully and consistently gets under Frankfurter's skin, Douglas almost makes him frantic.

A Scotsman of few words, Douglas will sit listening attentively to a long and involved legal exposition by the ex-Harvard professor. Then suddenly, just as Frankfurter reaches

McKenney on Bridge

BY WILLIAM E. MCKENNEY America's Card Authority

When War Orphans Scholarships, Inc. was started, my thought was to provide a 5000 scholarship to children of deceased veterans to help them get started in college. Today, however, trade school education is playing a very important part in this educational program.

With trade schools coming to the front and offering scholarships for war orphans, we can give the boys and girls who are unable to attend college, a concentrated trade school course that will make business men and business women of them.

My work with these youngsters is very reassuring. They realize the importance of getting the most they can out of school.

Bridge players who aim to get all they can out of every hand will find a good lesson in today's hand. The lesson is, pay close attention to everything that happens.

When the hand was played in the masters' individual tournament, declarer trumped the opening lead of the three hearts, then took five rounds of trumps. His next play was the deuce of diamonds. West played the ten, dummy played low and East won with the king, which showed that it was a singleton.

When East returned a club, declarer won it with the ace. Then he could safely finesse the nine of hearts in dummy, and thus make six-out-of-the-hand.

Note: War orphans desiring information on college or trade school scholarships may write to Mr. McKenney in care of this paper.

THE DOCTOR SAYS

PHYSICAL EXAM NEEDED TO STOP DISEASE AT START

THE DOCTOR ANSWERS BY EDWIN P. JORDAN, M. D. QUESTION: What is "dropped stomach" and what can be done for it?

ANSWER: There are probably several conditions which go under this name. Strictly speaking, it would consist of the stomach lying low in the abdomen instead of high up. It perhaps could be helped by wearing an abdominal support.

Some of the reasonable methods of physical examination and such tests as seem to be indicated reveals many disease conditions in their early stages. This, of course, is of enormous help in treatment, as almost anything is easier to cure at the "beginning" than it is when far advanced.

Can't Use All Tests So far the routine physical examination is fairly simple. However, there are so many special tests possible that it would not be practical to apply them to every person once or twice a year. However, for example, should it be necessary to take a basal metabolic test, an X-ray of the stomach, an electro-cardiogram, or examination of the chemistry of the blood? Such tests as these cannot be included in routine examinations unless there is some particular reason to do so. They would cost too much and take too much time to repeat often.

The use of reasonable methods of physical examination and such tests as seem to be indicated reveals many disease conditions in their early stages. This, of course, is of enormous help in treatment, as almost anything is easier to cure at the "beginning" than it is when far advanced.

Questions and Answers

Q.—What important post is held by Adm. Alan G. Kirk? A.—He is U. S. ambassador to the U. S. S. R.

Q.—How old is the independent state of India? A.—It is in its third year, having celebrated its second Independence Day on August 15.

Q.—Who is the national tennis singles champion? A.—Richard (Panzo) Gonzales.

Q.—What is ACTH? A.—A new "wonder drug," made from the front half of a hog's pituitary gland. It holds great promise for sufferers from arthritis, gout, rheumatic fever and similar ailments.

Q.—What is the most powerful kind of microscope? A.—The electron microscope. With the most powerful conventional microscope, you can see a particle measuring about 1/25,000th of an inch. The electron microscope, using a cathode ray for "light," can make particles visible down to 1/4,000,000th of an inch.

NAVY'S BIRTHPLACE Marblehead, Mass., claims to be the birthplace of the American Navy since the schooner Hannah, manned and fitted there, was the first American warship regularly commissioned, Sept. 2, 1775, by Gen. George Washington.

WASHINGTON COLUMN

Doctors Would Do Better To Publish Own Health Plan

WASHINGTON — American Medical Association's new "educational campaign" against compulsory national health insurance has some queer angles. What they seem to point up is that the AMA has no real health plan of its own to offer as a substitute.

Dr. L. E. Henderson, AMA president-elect, says that within the next year the association will put out a series of reports on American health problems. They will cover the costs and quality of present U. S. medical, clinical and hospital services. Present voluntary health insurance plans will be analyzed. The need for more medical education and better distribution of doctors will be considered.

This AMA health plan, when it finally evolves, apparently will be an answer or a companion piece to Federal Security Administrator Oscar Ewing's national health conference and his last year's report on "The Nation's Health—a Ten-Year Plan." The Ewing report recommended more medical research and education, more hospitals and more doctors, insurance against medical care costs.

AMA goes along with the first two parts of this. But the doctors believe voluntary health insurance should be given a complete tryout before there is any experimenting with compulsory national health insurance such as President Truman proposes and the British government already has.

Statistics Are Available There is of course no danger that the patient will die en masse while the doctors are arguing about what should be done. But it is to wonder why the docs haven't grabbed their satchels and climbed into their buggies a little faster in order to visit the national bedside and make their diagnosis. It is no great self-compliment for the U. S. medical profession to argue this late in the case that the facts about U. S. health needs are unknown or grossly exaggerated. There are health statistics by the mile. During the war, every doctor was indexed.

AMA says 61,000,000 Americans now have voluntary health insurance coverage of some kind, out of a total population of 150,000,000. This represents a jump of 8,000,000 insured since January 1. There seems to be a hope that this rate of coverage will increase, eventually making national health insurance unnecessary.

About half of those covered have insurance against surgical and hospital bills only. The other half have insurance against non-hospitalizing sickness and general doctors' bills. There are more than 100 insurance policies offered—all of them different. Few of the insured have complete health insurance protection.

There seem to be no statistics on what income groups are covered by voluntary insurance policies. There is one estimate that 60 per cent of those covered may be in middle and lower income groups. This estimate is based on California experience, where there is better health insurance data than in any other state.

Action In California This seems to be due not to California's sunshine and healthy climate, but to the fact that in 1945 and 1949 Gov. Earl Warren—a Republican, you'll remember—introduced legislation for statewide compulsory health insurance. This so alarmed the California Medical Association that it spent \$600,000 promoting voluntary health insurance policy sales. They got 6,000,000 people insured out of a total population of 10,000,000.

Taking California statistics at face value, what about the 40 per cent who cannot afford to pay doctor bills can of course afford to pay insurance premiums. But what about the people who can't afford either? Clem Whitaker, director of the AMA educational campaign, says medical care of the indigent isn't the doctor's problem. That is said to be the problem of the local community. The man may be sick only because he also needs food, clothing or housing.

None of the AMA spokesmen will take a position on whether there should be federal aid for housing or feeding the undernourished. They do believe that there should be federal aid for hospital construction, federal aid for medical education, federal aid for research.

But they are against bills providing medical care for all school children. That would be socialized medicine. They are against laws for national health insurance. That would be socialized medicine. In summary, federal subsidies for the doctors seem to be all right, but federal aid for their patients is all wrong.

World government is remote and ideal—it captivates the imagination and removes the threat of the atom bomb. It captivates the imagination by its simplicity—one law to be enforced all over the one world. But it is not rational or possible at this time.

Edward J. Meeman, editor of the Memphis Press-Scimitar. The owner of these plants would get 30 years in a federal prison in the United States.

Supreme Court Justice William O. Douglas, in Iran, where tiny children labor for 15 cents a day. It is a most extraordinary thing that lawyers for defendants in a criminal case and their witnesses shall persistently and deliberately decide what questions they will answer and what questions they won't, and then further have the effrontery—at least one of them did—to say that was the traditional policy of workers and labor. I am pretty sure that statement is resented by a good many working people in the United States.

Federal Judge Harold R. Medina, in the trial of Communist leaders. I don't know which way to turn. Every couple of minutes I am invited to a cocktail party. I'm not used to that sort of thing. In Kansas, we mostly are Saturday night folks. Save up for a little fun on the weekend. Here, everybody goes all the time.

Mrs. Georgia Neese Clark, first woman ever to be appointed secretary of the treasury. I haven't said anything wrong, and I haven't been in any wine-shops. I have never touched a drop of liquor and I have acted exactly as I would in the States when I was with my own mother.

Miss Babe Shopp, 18-year-old Miss America of 1948, tingling from the verbal trans-Atlantic spanking administered by her father. A day at sea is divided into six periods of four hours each.

course of true love," you know, darling. You must remember that, why, the night before your poor dear father and I were to be married, poor dear Wilbert and I had a terrible quarrel. He said something rude that I thought I'd never be able to forgive him for, though of course I did if I had it all to go through, again. I'd marry him again tomorrow."

"I am sure you would," Gaynel said. "You know, darling," her mother said, "you told me you did not love Barry enough to marry him. You told me you loved this odd young man, though I'm sure as he said, he'd not seem so odd as one got to know him, and in spite of the way he talked to me that dreadful night, I was quite taken with him, really. And your mother would never want you, her own little girl, to marry anyone—no matter how fond of him, or how much he could give her—unless she was sure he was the man she always would love. Marriage is much too serious, and sacred for that."

"I had forgotten this breakfast nook was so cheerful," Emily was saying now. "I do enjoy it. It's only a beginning of my plans for the Simple Life."

"The Simple Life?" Was the next interim sprouting its first tiny leaves? "Yes, dear," Emily helped herself to more scrambled eggs. "You should know. It was your young man—Frederick, isn't it clever of me to remember his name? He told us about it and I've been thinking ever since how terribly interesting it could be."

"But Mother," Gaynel interrupted, "you forget that Fritz—how odd she felt just at the mention of his name—is no longer my young man. I just told you I am going to marry Barry. The first of May, I supposed that was what you wanted, too?" She could not help a tinge of bitterness in this last.

"I supposed you and your young man—Fritz—had had a lovers' quarrel," Emily said. She threw her daughter an arch glance, shook a painful finger. "The

## Introduction To Study Given At Progressive Club Coffee

An introduction to the year's study course was given by Mrs. J. Wilmont Hunt, member of the program committee, at the coffee which began a new season for the Progressive Study Club Wednesday morning. Mrs. J. W. Thomas, Jr., president, gave her opening message to members also.

She and Mrs. J. C. Clary were hostesses for the coffee in the Thomas home. Mrs. W. C. Kimball, immediate past president, poured coffee from a table brightened with autumn flowers.

The club voted to contribute \$5 to the Emergency Polo Drive as its first gift to charitable and welfare causes.

The study course will begin at the next meeting, on September 28. The subject is "Pursuit of Happiness," one of the inalienable rights with which the Declaration of Independence says man is endowed.

In her introduction, Mrs. Hunt said, "What did the writer of the document mean by the pursuit of happiness? Can it be applied in our time? Do we know how to use

it? Are we exercising our right in such a way as to build a better society? Our course of study is an attempt to answer these questions."

Guests of members for the coffee were Mrs. George Helias, Mrs. John Z. Kimberlin, Mrs. V. T. Hanes, Mrs. R. D. Madland, Mrs. R. A. Estes, Mrs. Gerald Smith and Mrs. Paul Ricker.

Members present included Mrs. L. Otis Baggett, Mrs. Sol Bunnell, Mrs. W. E. Cox, Mrs. John L. Hart, Mrs. A. A. Jones, Mrs. Lindley Latham, Mrs. Burns McKinney, Mrs. Kenneth Newton, Mrs. John V. Norman, Jr., Mrs. W. H. Pomeroy, Jr., Mrs. Buri H. Sell, Mrs. Frank L. True, Jr., Mrs. Frie Tyler, Mrs. Haden Upchurch, Mrs. Thomas M. West and Mrs. W. B. Yarborough.

**ENROLLS IN COLLEGE**  
Maurice Tindle, son of Mr. and Mrs. Homer Tindle of Andrews, formerly of Midland, has enrolled in the freshman class of John Tarleton College at Stephenville. Maurice attended Midland schools when the family lived here.

## Sponsors Meet Cast Members

Mrs. B. R. Mathews and Mrs. F. E. Sadler of the Yucca Garden Club study stage plans for "My Sister Ellen" and get acquainted with a 4th Shaw and Virginia Bedeaux of the cast of that Community Theater play which the garden club will sponsor in its presentation next week. The club is in charge of the advance ticket sale and will share in the proceeds to benefit the Woman's Club Building fund. The comedy will begin a five-day run next Wednesday. Left to right in the picture are Mrs. Shaw, Mrs. Mathews, Miss Bedeaux and, seated, Mrs. Sadler.

Youth Conservation was announced as the project for the year at a luncheon Wednesday in the Private Dining Room of Hotel Scharbauer, which was the opening Fall meeting of the Fine Arts Club.

## Fiction, Biography And Juvenile Books Added To Library

Adult fiction with the emphasis on "Whodunits," adult non-fiction including several biographies, and a collection of juvenile books have been added to the shelves of the Midland County Library.

Fiction books are Best Science Fiction Stories, 1949 (Bellier), The D. A. Breaks An Egg (Gardner), The Egyptian (Walters), Death on the Last Train (Bellairs), Case of the Housekeepers' Hair (Bush), Live With Lightning (Wilson), West of the Hill (Carroll), Accident, Manslaughter or Murder? (Thayer). Call it Treason (Howe), The Saracen's Head (Lancaster), Smoky Joe (Bragg), Bar-D Buckaroos (Bragg), Pretty Penny (Bonney), Four in Love (Dean), Sweet Alice (Marsh), Plunder of the Sun (Dodge), St. Elmo (Evans), Uncle Dynamite (Wodehouse), The Cannibal Heart (Miller) and The Great Gatsby (Fitzgerald).

Non-fiction books are The Story of Maps (Brown), How to Sell What You Write (Stearns), Why Not Paint a Water Color? (Stearn), White Collar Zoo (Barnes), Memories of Childhood and Youth (Schweitzer), Automatic Weapons of the World (Johnson), More Power to Your Words! (Wood).

Spent Wisely and Grow Rich (Jordan), Methods and Techniques for Gouache Painting (Blanch), U. S. A. Measure of a Nation (Carkson), Too Small a World: The Life of Mother Cabrini (Maynard), Saint Therese of Lisieux (Taylor), and The Law of Notaries Public (Greene).

Juvenile books are Cowboys and Indians (Jackson), The Golden Egg Book (Brown), Young Nathan (Brown), Backboard Magic (Brier), Spring is Here (Lanski), Painted Calf (Gates), Little White Rabbit (Oswald) and How Man Discovered His Body (Riedman).

**ENTERING DENTON COLLEGE**  
Lynna Dell Moore, Melba Jean Clarke and Ronnie McFadden will leave this weekend to enter North Texas State College at Denton for the Fall semester. Emid Little has already gone to Denton, where she also will be a student in the college.

**LEAVES FOR TSCW**  
Betty Lou Harper is leaving Thursday for Denton, where she will be a senior student this year in Texas State College for Women.

## Contributions Voted By Auxiliary Of VFW

MCCAMEY — Contributions to several funds were made by the Veterans of Foreign Wars Auxiliary here at a meeting Tuesday. A gift will be made to the Christmas Fund of the Veterans Hospital at Waco, another to the milk fund of the McCamey school cafeteria, and a contribution has been sent to the Joan Edwards recovery fund.

Each member also will send a package to the Veterans Hospital. Jessie Newman was installed by the past president, Louise Gibson, as treasurer-elect. The resignation of Mae Williams as junior vice president was accepted; she has moved to San Angelo. The next meeting, on September 27, will be a social occasion.

**HOME BUILDING UP**  
WASHINGTON — (AP) — The Labor Department said Thursday construction began in August on about 98,000 houses or apartments, 2,000 more than in July and 11,400 over August last year.

### LITTLE KNOWN FACTS ABOUT DIAMONDS

In the sixth century there was a very good reason behind a man giving his betrothed "a ring, a kiss, and a pair of shoes." The ring was to keep her hands out of mischief, the shoes to prevent her from being footloose and the kiss, to cure her of talking too much. Today, of course, the ring and the kiss suffice.

## Girl Scout Organizations Offer Help To Troop Leaders In Personnel, Training

Volunteers who begin Girl Scout work during the current campaign to recruit adult leaders and assistants have the assurance they will be backed by a well-organized group which can give them needed help and information, a survey made by Ann Arick of Senior Girl Scout Troop 1 reveals.

The Midland Girl Scout Association has developed for several years its own program to assist leaders, to supplement the aid given by the national and area organizations. One of the most important steps taken last year was the formation of a Leaders Club in each school.

Mrs. Vernon Bottoms, organization chairman for the association, has been the leader in forming these clubs. The club for leaders of Senior Scouts, girls of high school age, has Mrs. Don Johnson as its chairman and Mrs. M. B. Arick as organization chairman.

**Junior High Officers**

For the junior high club, Mrs. Clyde Davidson is president, Mrs. W. H. Carter, secretary, and Mrs. J. Black, organization chairman. Mrs. Fred Speers is president, Mrs. Charles Horton, secretary, and Mrs. Jack Moore, organization chairman of the West Elementary leaders.

Mrs. R. R. O'Neal is president of the North Elementary club; Mrs. Sherwood O'Neal, secretary, and Mrs. H. L. Huffman, organization chairman. For South Elementary leaders, Mrs. Fred Burleson is president and Mrs. Bill Roush organization chairman.

Each Leaders Club elects a representative to the association, to take questions and requests for help from the leaders to the association, and bring assistance and information back.

**Mothers Form Committee**

Another group which functions to help the leader is the troop committee, composed of three or five mothers who agree to assist with the leadership of the troop. From them the leader receives help in planning the yearly program, personal assistance when it is needed and a display of special interest in that particular troop.

To start new leaders in their jobs

## Coming Events

### FRIDAY

Minnet Club will have a formal dance in the American Legion Hall from 9 p. m. to 1 a. m. with Jack Free and his orchestra playing.

Ladies Golf Association will have a luncheon at 1 p. m. in the Midland Country Club. Hostesses will be Mrs. Wright Cowden and Mrs. Bobb White, and the French Heels Club will present a style show. Members are asked to make reservations.

### Executive Board of Midland Service League will meet at 9:30 a. m. with Mrs. Thornton Hardie, 804 West Kansas Street.

### SATURDAY

West Texas Sooner Club will meet at 6 p. m. in Cloverdale Park for a barbecue supper.

American Association of University Women will have a Coke party in the yard of the home of Mrs. H. S. Forgeron, 901 Cuthbert Street, from 9:30 to 11:30 a. m.

Confirmation classes for children, ages 11, 12 and 13, will be at 10 a. m. in the Trinity Episcopal Church.

Story Hour will begin at 10:30 a. m. in the Children's Room of the Midland County Library.

### SCHEDULE ANNOUNCED FOR DUNBAR LIBRARY

The Dunbar Branch of the Midland County Library has resumed its Fall schedule of hours and will be open from 2:30 to 6:30 p. m. on Tuesdays and Thursdays and from 9:30 a. m. to 12:30 p. m. on Saturdays.

Children's Story Hour will be held at the same time as through the Summer months, 10:30 a. m. Saturdays.

## Tickets For Fall Book Review Go On Sale Through Club

Tickets for the book review which Evelyn Oppenheimer of Dallas will present here on the morning of September 22 are being distributed to members of the Midland Woman's Club, who have them on sale now. The review will benefit the Woman's Club general fund, and is an annual event.

Miss Oppenheimer probably is the best-known book review artist in the Southwest and has been presenting programs throughout Texas and adjoining states for more than a decade. At present she is appearing in a series of reviews at the Sanger Brothers store in Dallas, in addition to her tour schedule. She will come here through courtesy of the Dallas firm.

She has her own radio show and writes for magazines. She served as literary critic and feature writer on Chicago newspapers after graduation from the University of Chicago, before she returned to her native Texas for a career on the lecture platform.

She has been called "the Cornelia Otis Skinner of the book review," as well as "dean of book reviewers of the Southwest" and "one of Texas' most distinguished women." Popularly most of her reviews in Dallas, where they are heard regularly, and over the state indicate her ability to interest an audience.

For the review here, she will present "Twilight on the Floods," new novel by Marjorie Steen. Its story is the dramatic type which most of her hearers agree that Miss Oppenheimer does best.

## P-TA Activities Of Year Started With Meeting At Stanton

STANTON—Purchase of a record player for the grade school was ordered and plans were started for presenting a benefit play in the business session which opened the term for the Stanton Parent-Teacher Association recently. The meeting was in the Grammar School music room.

Mrs. Ray Russell, president, was in charge. Mrs. Bob Whitaker, program chairman, announced that the study theme for this year will be "Teamwork," and that yearbooks will be completed soon. Mrs. Floyd Smith, membership chairman, reported 188 memberships listed by her committee, which includes three mothers from each room.

Mrs. Guy Eiland, goals chairman, reported that the association had received a goals certificate of Grade A.

Jo Jan Hall and Mary Lynn Hamilton presented a skit concerning the Parent-Teacher Magazine. The Rev. Elmore Johnson read a section of the P-TA constitution. The fourth grade won the award for representation by the most parents among the 81 persons present.

## Three Are Initiated In McCamey OES

MCCAMEY—Mr. and Mrs. William Wolf and Mrs. Babe George were initiated into the McCamey Chapter, Order of Eastern Stars, at a recent regular meeting. After the initiation, Mrs. Irene Nettleship sang a solo.

Charles F. Hemphill, chairman of the resolution committee of the Grand Chapter of Texas, and Mrs. Hemphill, grand representative of Rhode Island, were guests. They are former residents of Rankin, now living in Albany.

Ruby Holt and Modene Joyce served refreshments to 26 members and the guests, who included Mr. and Mrs. W. A. Hudson of Rankin, Ida Lee of Iraan and Anna McCollum of Comanche.

East is west and west is east on the 180th meridian.

## Will Model Fall Fashions

Mrs. Jack Staakpole is one of the Beta Sigma Phi members here who will serve as models in the annual Fall Style Show which the three Midland chapters will present September 24. Mrs. Staakpole is a member of Beta Delta Chapter. Staged with the theme, "Models for 1950," the show will be presented in the Crystal Ballroom and mezzanine of Hotel Scharbauer, and will be followed by bridge games and tea. It will raise funds for charity and welfare contributions of the sorority.

## Mrs. Hawkins Given Shower On Birthday

STANTON—Mrs. T. R. Hawkins was honored with a surprise birthday party Tuesday night in the home of Mrs. L. O. Free. The Friendship Class of the First Baptist Church was hostess for a kitchen shower. After games, refreshments were served.

Guests were Mrs. Elva Sprawls, Mrs. C. A. Gray, Mrs. Alma Thornton, Mrs. J. W. Anderson, Mrs. J. T. Davis, Mrs. G. A. Bridges, Mrs. H. A. Edwards, Mrs. Marion Gibson, Mrs. W. E. Towery, Mrs. Eula Bubanks, Mrs. Pearl Orty, Mrs. D. O. Lawson, Evelyn Haynes, Mrs. Erma Hardy, Mrs. T. W. Hayney, Mrs. O. Sanders, Mrs. S. E. Supulver, Mrs. Earl Freeman.

Mrs. George Cornelius, Mrs. Arvil Keele, Mrs. Alton Free, Mrs. Pearl Laird, Mrs. Lewis Carlile, Mrs. R. B. Cosby, Mrs. R. B. Whitaker, Mrs. Thes Adams, Mrs. D. E. Orty, Mrs. Ivan White, Mrs. W. E. Puquay, Mrs. John Pinkston, Mrs. L. C. Stovall, Mrs. Olan Kinsey, Mrs. Guy Eiland, Mrs. S. Davis, Mrs. B. F. White, Mrs. L. E. Turner, Mrs. Virgil Brothers, Mrs. L. O. Jusus, Mrs. L. O. Free and Mrs. Walter Graves.

John Paul Jones was the first great U. S. naval hero.

## WE, THE WOMEN

## Teen-Ager Should Be Part Of Family — Not Star Boarder

By EUTE MILLETT  
NEA Staff Writer

Most penetrating observation in this week's mail from my readers:

"I think there is much too much advice to teen-agers on how to handle their parents and not enough to parents on how to stand up to their children and not just let themselves become standbys, footing the bills, keeping them fed and clothed, etc."

Sure, there is. In just the last few years the teen-ager has been made to think the world revolves around him.

Teen-age columns and teen-age forums and teen-age magazines are forever telling the teen-ager how to "handle his parents."

What was once the "awkward age" has become the age America bows down to.

We play up the teen-ager's slang and the more idiotic it is the more publicity it gets.

We have magazines exclusively devoted to teen-age fashions.

We get groups of teen-agers together to tell us what is wrong with parents.

Getting Away With Murder

We let teen-agers monopolize our telephones and our automobiles.

We've built them canteens where they can get completely away from us, dull, stupid adults.

We treat them like special persons with special rights—and don't demand anything of them around the house, not even respect.

And we've made them think all this is very cute, indeed.

How all this came about in such a short time, I'm not certain. But it's a cinch it hasn't made life with

a teen-ager any easier for his parents.

Nobody wants to go back to the time when we regarded teen-agers as being at the "awkward age."

But haven't we carried this campaign to glorimize the teen-ager just a trifle too far?

After all, their parents have to live with them. They have to foot the bills and take the blame when the teen-agers handle their parents so well they get completely out of hand.

So maybe it's time we started treating teen-agers just like any other member of the family—rather than the star boarder.

(All rights reserved, NEA Service, Inc.)

## What's phosphorus to a pig?

Just a half a pound of your 250-lb. pig is phosphorus. This seems a small amount. But without it, your pig would die. And there are other minerals just as vital to livestock. Some they need in quite large amounts... calcium and sodium as well as phosphorus. Others we call trace elements. These they need in very small amounts... such as cobalt, iron, copper and manganese.

But your animals do need these trace elements. The people at the agricultural colleges have proved that past all doubt. Some minerals are a "must" if you want to raise healthy, fast-gaining cattle. That goes for lambs and hogs, too. For example, these men find that grass and grains in Dade County, Florida, are short of copper and iron. Clallam County, Washington, needs iodine to check goiter. They know that San Diego County, California, hasn't enough phosphorus. In Aroostook County, Maine, the scarce mineral is cobalt. Ranchers and farmers in these four corners of the country have this problem. Their feeds and forages are short of one or more vital minerals. Many other areas share the problem, including parts of the great Corn Belt.

But you ask, "How can I spot animals which suffer from mineral shortage?" It's not too easy. If the lack is serious, your stock may have rickets, "big neck," anemia or other ailments. But there are some early symptoms you can spot. These are bone churning, loss of appetite, slow gains, rough and scrubby coats. Or just a general unthriftiness condition gives you the clue. If you start feeding a mineral which contains the essential trace elements, you may bring them around fast. But if this doesn't work, then you should consult your veterinarian, county agent or agricultural college.

The common mineral deficiencies in your area are known. By feeding mineral-balanced rations, you can correct these lacks. Or you can build up the mineral content of the soil. Either, or both, of these will help you grow healthier livestock, at a lower cost.

Hello Again!

We are glad to be back with the Swift page of information and ideas. What did we do all summer? Well, among other things, we visited with farmers, ranchers, agricultural editors and educators. And we rounded up the facts we need to make these messages interesting and useful to you producers. As we said away back in 1944—"This is your page, and we welcome suggestions from our readers." We still do. Just write to me at Swift & Company, Chicago 9, Illinois... And when you're in Chicago, drop in and see us.

LET'S SUPPORT OUR "MEAT TEAM"—You know, times change—but some folks don't change with the times. I'm thinking of the type of man who always thinks that someone is getting the best of him in business. He sells a load of steers. No matter what his return, he's not satisfied—the packer, the commission man, the retailer—somebody else always gets a "bigger slice." But, during this past summer, I talked to a lot of people about the livestock-meat industry and our mutual problems. And I found a refreshing, encouraging attitude—"Sure, we got problems. Who hasn't these days? But if producer, packer and retailer work together as the 'meat team,' we'll work things out..." It's just good business to have a decent regard for the contributions made by other members of your team. I hope you have followed the "Meat Team" advertisements of the American Meat Institute and will talk to your neighbors about them.

FACT CONFIRMED—Out in the West, whenever I passed a town with a local meat-packing plant, I thought, "This town, out here where there is lots of livestock, is well served by that local plant. But what about the distant cities filled with meat eaters and no nearby livestock production to speak of?" I know for a fact that meat has to travel an average of more than 1,000 miles to reach those consumers. The only way they can get meat is through the low-cost processing and marketing services provided by nationwide meat packers, like Swift & Company.

F.M. Simpson, Agricultural Research Dept.

MONEY and MEAT—In the fall months we run into an unusual situation in the livestock-meat packing industry. At that time we often see the year's high market for top finished beef cattle. And this top price usually is being paid when the average price for all cattle is moving in the opposite direction.

The high price is explained by the fact that during the fall we usually have the shortest supply of the year of well finished, long fed cattle. Brisk demand for this short supply naturally will force the price up.

The lower average price results from the annual move to market of huge numbers of grass-fed cattle.

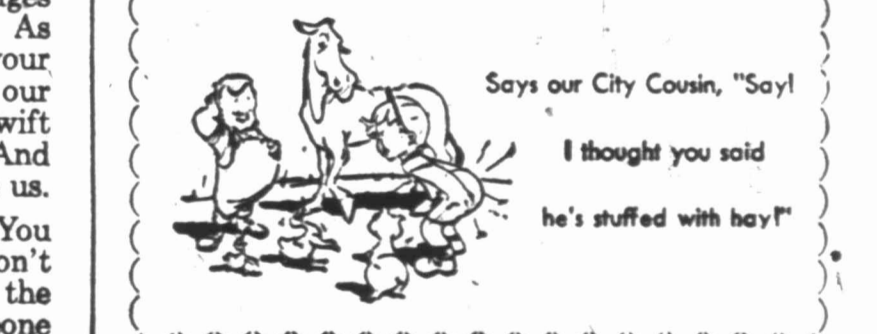

About 20 per cent of all the cattle and lambs slaughtered during a whole year must be handled in September and October. Meat from these animals being slaughtered any given day generally is on the dinner table in less than 14 days.

Folks aren't likely to have any more money to spend on food during the fall months than in February, when fewer meat animals are being marketed.

Since beef and lamb is largely a fresh meat business, there's a lot of meat to eat during the fall months. Consequently, since consumers have no more money to spend, meat prices have to be lowered. And that's just what happens, as it usually does with an increased amount of meat to be sold and no increase in the amount of money with which to buy it. These lower meat prices are most noticeable, of course, in the large consuming centers where surplus supplies always can be moved at a price.

Naturally, then, livestock prices follow meat prices. Producers should keep in mind that the prices they receive for their livestock are governed by what the packer can get for the meat and the by-products. This is perfectly demonstrated, as we have pointed out above, when the price for one kind of cattle, in short supply, is moving up at the same time that prices of other cattle, in heavy supply, are moving down.

Soda Bill Sez...  
If your grass is receding, it's time to re-seed. Don't "itch" for what you want—scratch for it.

## Martha Logan Recipe for FRENCH MEATWICH

Make sandwich of 2 slices of bread, using 1 slice of cold meat and 1 slice of cheese as the filling. Dip each sandwich into a mixture made of 1 lightly beaten egg and 1/4 cup milk. Pan fry in a small amount of butter, margarine or clear drippings over low heat. Turn to brown. Serve at once with cold slaw or fruit salad.

## FREE! The Story of Poultry

Children and grownups, too—here's another booklet in Swift's popular Elementary Science Series. Like the others in the series (on Soils, Plants, Meat Animals and Grasses) "The Story of Poultry" (Booklet E) gives the answers to many interesting questions. Do you know—

Where the first chickens came from?

Which breed of poultry is native to America?

How the shell gets around an egg?

You'll find the answers to these and dozens of other questions in "The Story of Poultry." Lots of pictures—easy-to-read words. Write for your copy today and show this notice to your school teacher. Yes, there are free copies for every kid in your class, if requested by your teacher. If you'd like the other booklets in the series mentioned above, ask for them, too. They are all FREE! **Supplemental Mineral for Wintering Range Ewes**  
by William H. Burkitt  
Montana State College

Thirteen mineral elements are known to be necessary for normal functioning of an animal body. However, this does not mean that all 13 must be supplied in a mineral mixture. Many of them are present, under usual feeding conditions, in sufficient amounts for breeding ewes. Those lacking in Montana include sodium and chlorine (salt), iodine, phosphorus, and possibly cobalt.

Lack of sufficient iodine in the ration of pregnant ewes results in lambs being born with "big neck" (goiter). Thin wool in lambs may also result. If dead or weak lambs have shown "big neck" or thin wool at birth in past years, stabilized iodized salt should definitely be fed the ewes this winter.

Phosphorus deficiency may exist in wintering range ewes, particularly if there is little or no supplemental feeding. Abortions and weak lambs may result from deficient phosphorus. Pregnant ewes should have from 0.16% to 0.18% phosphorus in their feed. Many grass hays and mature range grasses contain less than 0.15% phosphorus and some contain as low as 0.04% phosphorus. Bone meal, defluorinated rock phosphates, and monosodium phosphate are satisfactory sources of phosphorus. Palatability and consumption may be improved by mixing with salt.

Cobalt is believed to be needed by microorganisms in the paunch. A lack results in loss of appetite, less feed consumption, and eventually starvation. A possible cobalt deficiency may be guarded against by mixing 1 ounce of cobalt salt with each 100 pounds of stock salt. Cobalt carbonate, chloride, or sulfate are all satisfactory. (Editor's note: The principles of nutrition discussed above apply to most kinds of livestock and in all parts of the country.)

## Youth Center Chatter

By JUNE HAZLIP and JOYCE HOWELL

Having lived the first week of school, and surviving, were here again to give you the low-down on who's who and what's what with the Midland "Teeners".

We'll sure be glad when school is out, only eight months and 24 days to go! This was heard several times around the Youth Center Tuesday—the first day of school.

The halls of Midland High have been adorned with "Eyes" the last week; however, they are practically all gone now. Yes, the last of the college students leave this weekend, and we'll really miss them! But, here is something different! While most students are going off, a few are coming back. Jimmy Deavenport and Bill Little have decided to change schools and the boys are home for awhile "between schools".

Leon Cline is learning to play the piano! And, he has plenty of help! Gatha Tabor, Peggy Carter, Arnold Drake, Dan Dickinson, Jacky Statton, Peggy Charleston and Jeannine Liddel are a few of the "teachers" who spend "hours" each afternoon after school helping Leon learn the difficult feat of playing Chopsticks! We hear that Leon has graduated to "Moron's Concerto" now!

Surprise!! Here's the scoop of the week, folks! Remember last week when we told you about Moe's new Boe Constrictor? Well, it turns out that Conrad is not a Conrad . . . but a Connie! And she presented Moe with 11 little Boe Constrictors. Moe's comments? "Now I know why Bob Short left town in such a rush. He said it was a hell!" Moe left this weekend for Texas University, where he will room with Doyle Roberts and Conrad. We were curious as to what Doyle would have to say about rooming with a Boe Constrictor for the next nine months, sooooooo . . . we asked Doyle about it! Quote: "The only thing I'm afraid of is that I'll get them mixed! One of them has got to go!"

**Musical Talent**

There were several exhibitions of musical talent around the Center this week! We noticed Larry Bedford, Jimmy Coker, Charles Ruckman, Doyle Roberts, Oscar Cooper, Corky Moss, Moe Price, Erpy Wallace, "Hink" Sims, Richard Patton, Richard Van Landingham and John Ed Greene in a huddle on the west side of the Center. Trooping over, we found that the center of attention was Clifford Wilcox, who was serenading the boys on his accordion! Very well done, Clifford! Bring your accordion around again sometime! Also attracting a lot of attention, were Jimmy Chauncy, Z. O. Tabor and Gene and Max Schaeffer. These boys dropped in, sprawled out (on the floor!) and proceeded to serenade the large "after-school crowd" with their rendition(?) of "Lazy Day!" They even looked the part!

There's always a lot of "conspicuous" in the Youth Center, but we have found out by now that it is all in fun with the juke box going full blast, somebody "murdering" Moron's Concerto on the piano, the clanging of the goalee machine, the phone ringing, the boots from the ping-pong spectators, shrieks from some unfortunate girl who has been "relieved" of her shoes, comb, or some such article, and the inevitable singing from some corner, by a group of boys, things manage to get very, very lively around the Youth Center! But as we have said time and again, "Anything can happen in the Youth Center, and usually does!"

**"Murder, Murder"**

Although we couldn't exactly figure out what was going on, Dale Stice, Alex Oates, Jim Deavenport, Goss Yeager and "Hink" Simms were putting on quite a show the other day. It seems the boys had turned "Hink" over, chair and all, and were dousing him with punch! All in all it looked like a major murder, with the red soda pop appearing as blood!

**Danger!** Be on the look out for Preston Connors! Height: six feet, eleven inches (he says), weight 170, hair brown (at last report!), eyes green. He has been stepping on girls' toes!

My, Betty Wilson looked cute in her blue spotted dress. Betty carried a bottle of blue ink to several classes successfully—then it happened! Yes, she dropped the bottle and her white dress and shoes became blue spotted!

Now that the High School is across the street from the Youth Center, we see loads more "Teeners" there after school!

One of the happiest members we saw this week was "Fryor". "Fryor" at long last, got the braces off her teeth. She was bestowing grins right and left!

Everyone wants to get into the act! John Zant and Louis Griffin have peroxidized their hair, too! Bill Little and David Laverty also had their hair "fixed". They are

sporting "burr haircuts" that are really burrs!

Mr. Richard Slight, a new Midland High teacher, was in for a visit as Maggie Murphy's guest! It seems that Maggie was using the Youth Center as a convenient place to get her journalism assignment, an interview with Mr. Slight!

**Back In Center**

Fred Dunn was back in the Youth Center this week! We hadn't seen Freddy in quite a while. It seems he has been working out of town this summer! LeRoy (Woody) Underwood, an old TCU buddy of Fred's, came along as his visitor. Woody is working for the Atlantic Refining Company here in Midland and we hope he'll be in more often.

A very exciting game of catch was going on the other night! At least, the boys thought so! David Weaver and Harold Drew were getting in practice for basketball by trying to make Shirley Harrison's moccasin stay on the light! Several girls were seen running about trying to fish shoes down off lights, loudspeakers and almost everything which was out of reach! Dwayne Hanway and Jimmy Greene managed to get in on the act, by confiscating several shoes later on in the evening!

Christmas Barber looked mighty "pretty" the other evening. Even his hair was new! Christmas left Saturday for TCU.

We are very proud of Alex Oates. Alex is one of the several boys who plan to be doctors. Ben Grey left for McMurtry Lynn Griffith "doesn't think she's gonna like it!"

Wandering Thoughts:

We noticed that Moe Price and Doyle Roberts seemed to be in a huddle every time we turned around! What goes, boys?

Texas Tech, Texas A & M, Texas University and TCU sweat shirts were really in style this week!

Carol Gihnn really was taking it easy the other day after school! She was sitting on the couch with Coke and candy bar, "taking it all in."

There certainly are lots of boys with their names on their belts! We had several visitors from Port Arthur this week! Bill Whaley and Frank Edson were in town with the football team which played Odessa Saturday night!

Well, that's about all for this week, so until we wander around about this time next week, goodbye!

### McCamey News

McCAMEY—Mr. and Mrs. Curtis Thomas returned recently from Galveston.

Mrs. A. D. Duncan returned Saturday from Dallas where she took her daughter, Wendy, to enroll in Southern Methodist University for the Fall semester.

Miss Elizabeth Cope left recently for Plainview to begin her duties as a teacher in the public schools. She is teaching in the music department and sponsoring a girls and boys choir. Miss Cope is a graduate of North Texas State Teachers College and goes to Plainview from Midland where she taught last year.

Mrs. J. S. Davis returned Sunday from Cleburne where she attended the wedding of her niece, the former Miss Mary Nell Hardin. Her sister, Mrs. C. L. Sparks, and daughter, Patricia, accompanied her.

Freddie Davis spent last weekend in Fort Stockton visiting friends.

Mr. and Mrs. H. C. Brazzell had as their guests last week Brazzell's sister, Mrs. Paul Parker, and husband. They were enroute to Liberty after spending the last three years in Arabia. They will vacation in this country two months before returning to Arabia.

Miss Shirley Kleinman was to leave Thursday for Houston. She has been employed as secretary in the University of Texas.

Mr. and Mrs. W. A. Hampton left this week for a vacation trip to Arizona and other points of interest.

Mr. and Mrs. Putnam accompanied their daughter, Pat, to Lubbock Monday. She will enroll as a first year student in Texas Technological College. The Putnams returned Monday night.

Mr. and Mrs. Terry Roach are spending their week at their cabin near Fountain Inn. They will return Saturday.

Mr. and Mrs. Charles Sanders of Houston were guests in the H. H. Qualls home Sunday. Mrs. Sanders is the former Jackie Craft of McCamey.

### Sgt. Lloyd P. Whitmire Reports To Camp Hood

CAMP HOOD, TEXAS—Sgt. Lloyd P. Whitmire, son of Mrs. J. Whitmire, Midland, recently reported to Camp Hood and has been assigned to the 82nd Reconnaissance Battalion, 2nd Armored Division, better known as the "Hell on Wheels" division.

Sergeant Whitmire is a veteran of eight and a half years service in the Army. He has served 80 months of this time overseas in the Aleutian Islands and Alaska and the European Theater of Operations. He is the holder of the Pre-Pearl Harbor ribbon, Asiatic-Pacific ribbon, Good Conduct medal, the ETO ribbon and the American Defense medal. He holds a battle star for Southern France and one star for Kiska Island in the Aleutians.

### All-Texas Air Tour Fliers Land Here

Twenty-two airplanes participating in the All-Texas Air Tour sponsored by the Texas State Aviation Association landed at Midland Airport Wednesday afternoon for a brief stop. The flight was led by H. W. Bahman of Commerce, association president.

The group was met at the airport by Stanley M. Erskine, chairman of the Aeronautics Committee of the Midland Chamber of Commerce; Delbert Downing and DeWayne Davis, manager and assistant manager, respectively, of the Chamber of Commerce, and Norman Hoffman, manager of the West Texas Flying Service.

Bahman said the bad weather prevented many planes from joining the flight.

The fliers departed for Big Spring after a 10-minute stop here.

They were to spend the night in Kerrville. Lunch Wednesday noon was had at Odessa.

Included in the group of fliers were E. M. Anderson, Medina, president of the Texas Flying Farmers; G. P. Pearson, state representative from Navasota, and A. A. Burroughs of Austin, a representative of the Texas Aeronautics Commission.

**TEXAS ANTIMONY SMELTER MAY HAVE TO SHUT DOWN**

LAREDO—(AP)—Texas' only antimony smelter—and one of the few in the United States—may have to shut down.

General Manager O. D. Niedermeyer said the plant now is processing its stockpile of ore and no new shipments are being received from Mexico.

### CIO Telephoners To Seek Wage Hikes

DALLAS—(AP)—State officials of the CIO Communications Workers of America said higher wages and better working conditions would be sought for Southwestern Bell Telephone Company employes in Texas when new contract talks begin in December.

The present contract, covering about 23,000 workers in Texas, expires December 1.

### SENTENCED TO LIFE FOR SLAYING OFFICER

BRECKENRIDGE—(AP)—Louis (Step) Andrews Wednesday night was sentenced to life imprisonment in the slaying of Police Officer J. L. Shaw.

A 90th District Court jury returned a verdict of guilty with malice aforethought at 7:50 p.m. after 45 minutes deliberation.

### BIRD STOPPED TRAIN

A six-pound pheasant stopped an 853-ton train in 1928, when it flew through the window of the locomotive cab and knocked down the engineer. Automatic brakes stopped the train when the engine released his hold on the throttle.

From where I sit... by Joe Marsh

**Sure You Haven't A "Blind Spot"?**

As I was driving down Main Street last Saturday, another car swung out right in front of me. It turned out to be Buck Blake. He wasn't going fast. It was just that he had something else on his mind at that particular moment.

Buck's really one of the nicest fellows I've ever known. But, sometimes he gets to day-dreaming on the road. He sort of gets a "blind spot" to what's going on about him!

Now, lots of normally considerate folks have their "blind spots."

Joe Marsh

## Texas League— Cats, Indians Hold One-Game Margins

By The Associated Press  
Fort Worth and Oklahoma City held the edge in the Texas League's Shagnessy playoff Thursday.  
Oklahoma City's second tilt with Tulsa was rained out Wednesday night, but Fort Worth managed to open in threatening weather and promptly took an 8-1 victory from Shreveport.  
The teams meet again Thursday night at the same sites for the second games in the best four-out-of-seven series—Fort Worth and Tulsa. Robert Milliken set Shreveport down with three hits and when the Sports lifted Andy Bush for a pinchhitter in the eighth, his mates raked Tom Pullig and Dee Sanders for six runs.  
Bush had yielded only two runs and four hits in the seven innings he worked.

## Three-Day Racing Meet At McCamey

McCAMEY—The Upton County Fair Association has announced the scheduling of three days of horse racing here October 7, 8 and 9. The races will be held at the Upton County Fair Grounds.  
Horse owners throughout Texas and New Mexico have been notified of the meet and are expected to make it one of the top attractions in this area.  
Plans call for seven races daily.

8—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, SEPT. 15, 1949

## NO WAILS OF WOE— Southwest Coaches Grin In Spite Of Ailing Lists

By WILBUR MARTIN  
Associated Press Staff  
Southwest Conference football starts in just two days and there's something missing—the moaning coach.  
A flock of minor and major injuries were reported Wednesday from the seven member schools. But not a single wail of woe from any coach.  
Texas' bruising fullback, Ray Borneaman, is too bruised to start against Texas Tech Saturday. Is Coach Blair Cherry chewing his fingernails?  
"Don't want to take a chance on his knee being re-injured," said the T master at Texas. He'll let the big Houston boy rest and use Lewis Levine, 195-pound junior, in the starting lineup.  
Think that's unusual?  
All-America Doak Walker, Fullback Dick McKissack, Tackles Paul Turk and Jack Atkinson, and Backs Bobby Vann and Bobby Collier were nursing hurts at Southern Methodist University Wednesday.  
"They'll be all right," said Coach Matty Bell.  
Bell, who's nickname is Moaning May, half-way lived up to it when he added, "But it's a good thing we don't have a game this week."  
L. R. (Dutch) Meyer, head man at Texas Christian, announced one of his starting ends, Billy Moorman, will miss Saturday's game with Kansas. Also not expected to play are Guards Dick Lowe and Alton Taylor and Back Charley Jackson.  
Tears of sorrow from Meyer?  
"Well, we finally showed some improvement," he said after a stiff s'immage Wednesday. The Frogs looked plenty sharp in the last contact drill of the week.  
Texas A&M is almost gleeful as it narrows Saturday's game with Villanova. The team is expected to be in near peak physical condition, with just one player on the doubtful list. This is Letterman Fullback Jim Voss, who has a head injury.

## MAJOR LEAGUES— Bums Still Chase High-Flying Cards

By JOE REICHLER  
Associated Press Sports Writer  
The Brooklyn Dodgers must be wondering Thursday just what must they do to catch the high flying St. Louis Cardinals.  
Since the first of the month, the Brooks have piled up 11 victories in 13 tries, a true championship gait.  
And just how much yardage did they pick up on the Redbirds during that torrid stretch drive? Not a foot. While the Dodgers were polishing off Boston, New York and Cincinnati, the Cards duplicated the Dodgers' feat by winning 11 of their last 13 skirmishes.  
So as the two perennial rivals swing into the final two weeks of the blistering National League campaign, the Cards still cling to the game and a half edge they held last September 1.

The Dodgers drew first blood Wednesday, knocking off their favorite playmates, the Cincinnati Reds, 4-2 in an afternoon tussle. That narrowed the Cards' edge to one game. A Redbird defeat meant the slimmest of margins between the two clubs—a half-length.  
But it was not to be. The Giants proved easy prey for the Redbirds, bowing under a 9-3 lacing as Harry (The Cat) Brecheen continued his nightly prowl with a 10-hit effort. Brecheen, a very effective arduous hurler, notched his seventh triumph in 10 lamplight decisions.  
Yankees Move Ahead  
In the American League, the Yankees advanced a couple of more strides toward their sixteenth championship by sweeping both ends of a double bill from the hapless St. Louis Browns 3-0 and 13-7. The sweep enabled the Bronx Bombers to increase their first-place lead over Boston to three full games, despite the Red Sox, 1-0 victory over Detroit.  
Cleveland virtually eliminated itself by dropping a 2-1 decision to the Philadelphia Athletics as Rookie Bobby Shantz beat Bobby Feller. The Indians now are seven and a half games off the pace, three percentage points ahead of the fourth-place Tigers.  
In other games, the Chicago White Sox dumped the Washington Senators 8-1, Philadelphia's Phillies whipped the Pittsburgh Pirates 12-4 and the Chicago Cubs outslugged the Boston Braves 8-7.  
Rain Delays Contest  
A crowd of 10,712 damp fans sat through a steady rain which held up the Card-Giant game one hour and 45 minutes. But they were rewarded at the end. The Redbirds collected a dozen hits off three Giant hurlers with Stan Musial once again taking the most active role.  
The Cardinal slugger slammed a bases-loaded triple, and added a couple of singles to account for six runs. He drove in four and scored two. Monte Kennedy absorbed the brunt of the attack to be charged with his thirteenth setback. It was the thirteenth win for Brecheen.  
Fee Wee Reese, Brooklyn captain and shortstop, was the big gun in the Dodgers' victory. Back in the lineup after missing one game because of a bruised elbow, Reese led the attack against Howie Fox of the Red Sox with a double and single. Each blow began a scoring spree.

KING-SIZE HAILSTONES  
ROME—(P)—A brief but violent shower of hailstones, some as big as grapefruit, sent a half-dozen Romans to hospitals and clinics for treatment and frightened thousands of others Wednesday night.

## Second Game Here Thursday; Hayes Gets Nod To Hurl

The second game of the four-out-of-seven first round in the Longhorn League playoff will be played at Indian Park here at 8:15 p.m. Thursday.  
Lefty Leon Hayes will start for Midland. Carter is the probable starter for Vernon.  
The teams will move to Vernon Friday night.  
By SHORTY SHELburne  
The veteran Ernie Nelson scattered eight hits mighty thin in Indian Park Wednesday night as he pitched the Midland Indians to an 8-1 victory over the Vernon Dusters in the first game of the 1949 playoffs. Amazing support from Scooter Hughes and Kenny Peacock in the field and some great glove work by Warren Sliter at first base kept Nelson out of the hole all the way.  
Nelson made only one mistake. He threw a home run ball to Cotton McCaskey in the eighth. Big Cotton drove it well over the barrier in deep right-centerfield. Gus Pena charged the fence hard trying to make the catch but didn't have room.  
Trip Skilled  
The Indians jumped on starter Lloyd Trip for six runs in a wild second inning and coasted in.  
Julian Pressley sparked the rally with a home run blast to open the inning.  
Kenny Jones followed with a single and Lou Dawson walked. Kenny Peacock errored on to lead the bags.  
Gus Pena drove a sizzler through shortstop to score Jones and Dawson.  
Nelson sacrificed the runners down and Hughes singled to score them.  
Bob Rose tapped a slow roller to the shortstop. The play at second failed to get Hughes and Rose was safe. Julian Pressley, up for his second time in the inning, cracked a single to left to score Hughes.  
Add Two More  
Midland picked up a single run in the sixth. Hughes was hit by a pitched ball, stole second and scored on a single by Rose.  
The final tally came in the seventh. Peacock got on by an error, went to second on a passed ball and scored easily on a double by Gus Pena.  
Nelson pitched so well he never was in a bad situation during the game. Except for McCaskey's homer, not a Vernon runner reached third.

The box score:  
VERNON A B R H O A  
Souquet, 3b 5 0 1 1 3

Longhorn League—  
Tribe Goes One-Up  
As Rain Postpones  
Colt-Bronc Opener  
By The Associated Press  
Midland jumped to a one-game advantage over Vernon as one Longhorn League playoff series managed to get underway.  
The Indians exploded for six runs in the second inning Wednesday night and then went on to beat the Dusters 8-1.  
San Angelo and Big Spring were idle for the second straight day. This time it was wet grounds.  
Thursday night, Vernon and Midland play again at Midland and San Angelo is at Big Spring.

Drills On  
Offense  
Continue  
The Midland Bulldogs got the works in a hard, long workout in the mud at Memorial Stadium Wednesday afternoon. Coach Tugboat Jones broke out the book of offensive maneuvers and drilled the grid-ders on it page by page.  
Ralph Brooks moved up from the B squad to do some passing. He can throw like a bullet and should prove valuable with a little more experience.  
The Bulldogs looked extra tough in blocking and tackling sessions. Bob Evans, a coming star at end, made the leather pop louder than ever. He mixed it with big Al Baze on a punt return in Wednesday's workout and came out in fine shape.  
New Plays  
Coach Jones introduced a couple of new plays and spent a lot of time running them. He repeated and repeated in order to get his blockers in exactly the right places.  
Reed Gilmore's punting is improving every day. He was booting a wet, soggy ball for good distance Wednesday.  
Dalton Byerley continues to be a standout in the line. He is quick on the charge and hits with tremendous force. Bob Wood and Baze also are tackling harder.  
Harrie Smith and Duane Bush got in some good looks at pass receiving with Brooks doing the chunking.  
Coach Jones promised more of the same for Thursday with the accent to be on downfield blocking. He is working the boys hard trying to iron out some wrinkles in blocking the opposing linebackers and secondary men.  
Half of the A squad opposed the B Bulldogs in a rowdy scrimmage late in the workout.

WT-NM League—  
Dukes, Lobos Even  
Stephen AI 3-All  
By The Associated Press  
Albuquerque and Lamesa settle their semi-final West Texas-New Mexico League series Thursday night at Albuquerque.  
The Dukes Wednesday night whipped Lamesa 11-2 to square the series at three games each.  
The winner of the seventh and final game will play Amarillo in the championship series.

## S&Q FOOTBALL FORECASTS

Texas A & M Underdog  
In Tilt With Villanova  
By Pitts Smith  
King Football cakewalks down the middle of the sports picture this week-end with a parade of games, especially in the West, that should produce several surprising results to start the 1949 season off on the right foot.  
Top Games—  
ST. MARY'S vastly improved Gaels upsetting Oregon, UCLA over Oregon State and CALIFORNIA having migraine difficulties with Santa Clara... TCU repeating last year's opening game victory over Kansas, NEVADA over Cincinnati and ST. BONAVENTURE roughing-up Scranton a bit... VILLANOVA'S Wildcats playing out a close one over Texas A&M, TEXAS over Texas Tech and WILLIAM & MARY overcoming some surprisingly mean Cougars from Houston U.

Weekly Roundup—  
The majority of football teams will be faster, better coordinated and more interesting to watch this year than any since Hitler started his big grab. One of the chief contributing factors is the exit of most of the "Colonels" and "Commanders" who caused much trouble on many teams since V-J Day. Then, too, the general use of the two-planet system will help the cause a lot as most coaches will take full advantage of its unlimited possibilities.

Leading Teams

1. Michigan	4. Tulane	7. Cornell	10. Michigan State
2. Vanderbilt	5. Notre Dame	8. S.M.U.	11. California
3. Northwestern	6. Oklahoma	9. Army	12. Wake Forest

## Dopesters Pick Ponies To Repeat

FORT WORTH — (AP) — Southern Methodist University is the people's choice to—or rather the choice of the sports writers and radio sports commentators—to win a third Southwest Conference football championship.

One hundred five sports experts voted in the annual Texas Christian University News Service pre-season poll and 55 of them picked the Methodists to repeat with the title. Others getting first place votes were: Rice, 23; Texas, 12; TCU, 11 1/2; and Baylor, 3 1/2. And the poll also ranked the four teams in just that order behind SMU. Getting no first or second place votes, Texas A&M and Arkansas were slated by the survey to battle it out for the conference cellar.

That this will be the usual topsy-turvy Southwest race was indicated by the fact that four teams—Rice, Texas, TCU and Baylor—were picked to finish in every spot from first to last, and SMU was listed in every berth down to fifth.

**MEDICAL PATIENT**  
George Juannes was admitted to Western Clinic-Hospital Thursday for medical treatment.

## McCamey Juniors To Open With Monahans

MCCAMEY—Thirty-three youngsters are fighting it out for places on the McCamey Junior High School eleven this season. Coach Harold Dooley expects to field a hefty club from the candidates now in training.

The season will open here Saturday morning with the Monahans Juniors paying a visit to Badger Stadium.

The season schedule follows: Sept. 24—Pecos, there. Sept. 29—Fort Stockton, here. Oct. 1—Crane, here. Oct. 6—Iraan, there. Oct. 13—Fort Stockton, there. Oct. 20—Crane, there. Oct. 29—Monahans, here. Nov. 5—Monahans, here. Nov. 12—Pecos, here.

The present roster includes Jessie Acuff, Donnie Belcher, Jackie Belcher, Carroll Bolen, Lee Brown, Paul Brown, Franklin Bryant, Larry Burrus, Key Dillingham, Charles Dixon, Edward Hays, Eddie Hallamick, Billy Huffman, C. M. Hunt, Bobby Jones, Duane Kamstra, Bobby Joyce, Sandy Livesey, Bonifacia Martinez, Larry Poyner, Gene Scott, Hiram Sharpe, Billy Shepherd, Buddy Sifuentes, Randy Spicer, Tommy Suderth, Pete Tejerina, Lowell Wallace, Pete Wells, Howard Wolf, Mark Woodson and Clifton Body.

**SCHOOLBOY ELEVENS SWING INTO ACTION FOR BUSY WEEKEND**  
By The Associated Press  
Waco's Tigers, best in the business last year but a confusing quantity this season, play Austin's Maroons this week in the top game of Texas schoolboy football.

Coach Carl Price has intimated weepingly that the Tigers will do well to get to and from the park this season. But the critics are turning a deaf ear to the worried mentor's dire words.

Anyway, everybody will have a good idea about the defending state champions when they open the campaign against the powerful Maroons who last week clipped well-rated Thomas Jefferson of San Antonio 27-6.

There are 63 games on the schedule this weekend, the first big week of play in the City Conference and Class AA. Of the 110 teams in the two divisions, 104 will see action.

## Colts Scheduled In First Fiesta Game

The Latin American Midland Colts were scheduled to play the Carta Blanca baseball team from Chihuahua, Mexico, in the first of a two-game series at 3:30 p. m. Thursday in Indian Park.

The second game is slated at 3:30 p. m. Friday.

The baseball tilts are part of the annual September Fiesta staged each year by the Latin American population.

## Bob King, Trick Shot Golfer, To Perform Here Thursday, Saturday For Polio Fund

Bob King, declared by the flat Robert Ripley to be the only professional golfer in the world to play on crutches, was scheduled to give a lengthy exhibition of trick shots at Midland Country Club at 5 p. m. Thursday.

King will appear at Ranchland Hill Country Club at 3 p. m. Saturday. He will play nine holes of golf in an exhibition match before going through his trick shot performance.

The noted trick shot artist was a polio victim at the age of two.

He has played on crutches all his life.

Half of the proceeds from his exhibitions here will go to the Emergency Polio Fund Drive now underway.

Reg For Tee  
King's exhibition of tricks include some bordering on the impossible. He will use an egg for tee, drive balls off watches, through magazines and stack them three high and drive them off one at a time.

The public is invited and urged to attend the exhibitions to be given by King.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, SEPT. 15, 1949—9

## Bulldog 'B' Team Plays Brownfield 'B' Here Saturday

The football season will open sooner than was expected at Memorial Stadium this season. The Midland B Bulldogs will take on the Brownfield B team here at 8 p. m. Saturday in the initial home tilt.

The time for the tilt was decided in a long distance telephone conversation Wednesday afternoon.

Coach Red Rutledge has his B boys looking good for the game. He sent them against a team of A stringers in an hour-long scrimmage Wednesday.

Larry Lynn continues to look great in the B Bulldogs backfield. He runs well from the single wing and his punting is improving.

Harold Hensley is handling most of the passing.

James Weathered and W. H. Black look like the first line ends. Rutledge will send against Brownfield.

Jimmy Adams  
Little Jimmy Adams, a 118-pounder, is a great halfback. He is a potential threat all the time.

Dan Black, a 155-pound fullback, supplies most of the power for line smashes.

Guy Vanderpool and Bill Lavery, both hucklers, are hard to move when they dig in at their tackle spots.

Toughie Al Scoggins is a whiz at guard. His offensive blocking is improving. He has been a defensive power all season.

Glen Baker is seeing duty at the other guard slot.

Bill Gray works at center and linebacker for the B Bulldogs, being spelled by John Van Buskirk when the need arises.

The spirit of boys on the B team is fine. They'll be ready come Saturday night and the home opener.

**KIDNEYS MUST REMOVE EXCESS ACIDS**  
Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

## Minton—

(Continued From Page One) but President Roosevelt quickly called him back to Washington and named him as one of his administrative assistants. On May 7, 1941, President Roosevelt appointed him to the Circuit Court of Appeals.

**GOP Victory Discounted**  
The President touched briefly on other matters at his Thursday news conference.

Told that Senator McCarran (D-Nev) on a visit to Europe will discuss the question of this country "recognizing" Franco Spain, Truman said emphatically that McCarran is on his own and can make no commitments for the U. S. government.

The President brushed off Republican John P. Saylor's capture of the Democratic House seat in Pennsylvania Tuesday. He first said he had no comment, but then asserted that back in 1947 there was the same sort of barometer and it didn't work out. He did not specify his reference to 1947.

He said he hoped the steel companies and the CIO Steelworkers union will get together and settle their dispute.

## Do You Really Want to Take Off That Ugly Fat?

Recently there has been a number of new reducing preparations on the market, some of them based on the diet and vitamin "plan." It is obvious that vitamins will not reduce the body weight, so one must depend on diet to reduce. But it is also obvious that one cannot go on a strenuous diet over a protracted period, and any weight lost will be restored if the former eating habits are gone back to.

So what to do? Well, here is a tip to you "overweight gals" who want to fight "the Battle of the Bulges" in a different way. Ask any well stocked Texas drugist for four ounces of Barcenate. Mix with 12 ounces of grapefruit juice and take two tablespoonsful twice a day.

This preparation contains nothing harmful and the makers agree to refund your money on the very first bottle if it does not show you the way to lose ugly fat and help regain slender, more graceful curves.

Barcenate is low in cost and is not based on the diet and vitamin "plan." You need never know a hungry moment while reducing with Barcenate.

## Lewis Union Nears Showdown With Coal Operators In South

BLUEFIELD, W. VA.—(AP)—John L. Lewis and the Southern soft coal industry moved nearer Thursday to a showdown battle over non-payment of the miners' welfare-pension royalty.

Lewis apparently lost a round in a lawsuit to get the Cleveland Trust Company to pressure James D. Francis, leading Southern operator, into paying overdue installments to the welfare fund.

Francis, head of the Island Creek and Pond Creek Pocahontas Coal Companies in West Virginia, has been classed by Lewis as the ringleader in a Southern revolt against the 20-cents-a-ton royalty which feeds his pension fund.

It was learned also that the powerful Pocahontas Fuel Company, headed by O. L. Alexander of New York, and the Tierney Mining Interests headed by the brothers Laurence E. Tierney, Jr., and Lewis C. Tierney of Bluefield, have held back their July payments.

These and Francis' firms together produce nearly 20 million tons yearly. With other Southern companies also believed to be holding out, the miners' fund may be losing \$500,000 to \$1,000,000 in July payments alone.

## Truman Okays Navy Action On Crommelin

WASHINGTON—(AP)—President Truman Thursday gave a nod of approval for the Navy's decision against disciplining Navy Capt. John Crommelin for his recent public scolding of the military high command.

The President told a news conference Secretary of the Navy Matthews has handled the matter capably, and that it will remain in Matthews' hands.

## Details Of World Series Announced

NEW YORK—(AP)—The World Series will open October 5 in the park of the American League representative and will be seen by the largest number of people in history.

These were a couple of the more important details worked out at a meeting here Wednesday of Commissioner A. B. Chandler and the high brass of those teams still clutching pennant hopes.

The commissioner announced the series would be televised by all the networks.

Here's the World Series schedule, granting a playoff isn't necessary in either of the close races.

October 5-8—American League park.  
October 7—Open for travel.  
October 8-9-10—National League park.

October 11—Open for travel (if series still alive).  
October 12-13—American League park.  
The open dates for travel will be used only in case of an East-West series—New York Yankees and St. Louis Cardinals, say.

## School—

(Continued From Page One) about 400 more students next Fall than now.

Discussing the new state program for schools, he said Midland will receive about the state average payment. He said the Midland schools have adopted the state salary scale and by going under the program, they can't lower the tax rate or tax valuations for two years. The state will apportion the money to school districts on the basis of average daily attendance in schools rather than on scholastic census figures.

## Minimum Program

The new law sets up a minimum program for schools in Texas and Monroe said it had resulted in more qualified persons seeking teaching positions in the schools, and that Midland and most other cities have been able to get the best faculties since before World War II.

The school district's building program was discussed also by Monroe, who said it is nearing completion. He asserted the high school gymnasium should be completed about November 1 and that all buildings, including the 1,800-seat auditorium, should be ready for use by January 1.

The school superintendent also called attention to the election November 8 of a state school board of 21 members and urged Midland citizens to go to the polls and vote. Hilton Kaderli, club president, presided at the meeting. Floyd O. Boles was program chairman and R. W. Hamilton introduced the speaker.

P. V. Thorson, Boy Scout executive, asserted a meeting of the Midland Community Chest board will be held Thursday afternoon and asked Rotarians if they wanted the Community Chest continued. A majority expressed the opinion that the chest should continue, after short talks were made by Delbert Downing and Tom Sealy.

## Wife Of Accused Slayer Reported Moving To Mexico

LAREDO—(AP)—Mrs. George Ochoa and her four children will move shortly to Vera Cruz, Mexico, to make their home there, friends at Laredo reported Thursday.

They said Mrs. Ochoa had sold two of her automobiles in San Antonio and was preparing to make the trip to the coastal city.

Contacted at her home in Laredo by telephone, Mrs. Ochoa said she had no statement to make. She would not verify or deny the report. George Ochoa is sought in connection with two sensational slayings at a downtown hotel here more than six weeks ago. Ochoa, a Laredo business man, disappeared into Mexico July 31, the day two men were shot to death.

## MOLTS STOMACH WALLS

The yellow-billed cuckoo, unlike most birds, eats furry capillaria. After a time, its stomach becomes coated with this fuzz, and the bird is able to molt the lining of the stomach walls.

## North Snyder Offset Is Trying To Unload

Castleman & O'Neil, J. R. Hunter and Walter Duncan No. 1 Huxkabee, on the southeast side of the latest southeast extension of the North Snyder field in North-Central Scurry County, was reported showing heavy gas pressure from lime section above 6,161 feet, and operators were pumping in heavy mud to keep the project under control.

It is reported that the venture is trying to unload, but so far that has been prevented.

This exploration is a one location east flanker to the Moncrief, Hope, Crosby, and Teas No. 1 Huxkabee, recently completed Canyon lime producer which extended the North Snyder field one and one-half miles to the southeast.

It is 467 feet from north and west lines of the northeast quarter of section 180, block 3, H&G survey and is to drill on down until it tests the producing ability of the Canyon lime.

So far it has not been determined definitely whether the gas and oil being shown in the venture is from the top of the Canyon or from a lime string in the Pennsylvanian above the Canyon. If the Canyon has been reached the project is extra high on the structure.

When the threatened blowout is satisfactorily controlled, the prospector will drill deeper.

## Oil And Gas Log—

(Continued From Page One) was completed from the Ellenburger. The No. 1 Flanagan showed for production in the Elbar Fork and also indicated possible production in the Devonian.

Shell No. 1 Andrews, five-eighths of a mile north of the Flanagan-Ellebarger discovery, and 600 feet from south and west lines of section 2, block A-23, psi survey, had reached 11,778 feet in lime and chert and was making more hole.

## Second Cravens Well Finished In Lubbock

Slick-Moorman Oil Company and C. W. Chancellor No. 1 Floyd Cloud, Central-North Lubbock County wildcat ten miles north and two miles west of the city of Lubbock, has been completed from the Tubb section of the lower Permian, for the second producer in the Cravens field.

The new well pumped 35.87 barrels of oil in a 24-hour period, plus 70 per cent water. Gravity of the new oil was 28 degrees and the gas-oil ratio was 119-1.

The production was from open hole between the top of the pay at 6,100 feet and the total depth at 6,144 feet after that section had been treated with 10,500 gallons of acid.

The well is 660 feet from east and 1,980 feet from south lines of section 22, block D, L&SV survey.

## E-C Upton Prospect Flowing Oil On Test

Cox and Hamon No. 1 Dixon, on the southwest side of the Benedum field in Central-East Upton County, treated the Ellenburger zone between 11,340 feet and the total depth at 11,514 feet with 10,000 gallons of acid.

After the acid and residue from the injection had been swabbed out the well kicked off and was flowing at the estimated rate of 20 barrels of new oil per hour through a three-eighth inch bottom hole choke. No water was reported in the oil.

Testing was continuing. This venture has shown some possibilities of making commercial petroleum from the Fuselman zone of the Silurian. That horizon has not yet been tested.

The well is 330 feet from north and east lines of the southwest quarter of the C. Bendle survey.

## Pure Completes Big N-C Scurry Producer

The Pure Oil Company has completed its No. 2 C. B. Whately on the south side of the North Snyder field of North Central Scurry County.

From the Canyon lime it flowed for a calculated 24-hour potential of 2,408.16 barrels of 43-gravity oil through a three-quarters inch tubing choke. Gas-oil ratio of the new petroleum was 720-1. The flow was natural and there was no formation water.

Flowing casing pressure was 850 pounds and the flowing tubing pressure was 500 pounds.

The production was from open hole between the five and one-half inch oil string cemented at 6,849 feet and the total depth at 6,987 feet.

This new source of oil is 660 feet from north and west lines of section 394, block 97, H&TC survey.

## Casing Is Recovered At Upton Exploration

Republic Natural Gas Company No. 1 Powell, Central-North Upton County wildcat, two miles southeast of the discovery of the Pegasus-Ellebarger field, was completed out of the hole with nine joints of 7-inch casing which had been dropped when operator started to set a string of pipe at 12,960 feet, the top of the Ellenburger.

When the fish is out and the hole conditioned the pipe running job will be started again. Total depth is at 12,975 feet in the Ellenburger.

The 15 feet of that formation so far drilled had some oil fluorescence and it appeared to be fractured. When the casing is set and securely cemented the hole will be deepened.

The prospector is 660 feet from north and west lines of section 44, block 40, TP survey, T-4-S.

## For The Outdoors Man...

### Suede and Gabardine Jackets and Windbreakers

#### Tackle Twill Windbreakers

The ideal lightweight sports utility garment.

## Nation's Polio Rate Reported Dropping

WASHINGTON—(AP)—The nation's polio rate is going down, and the Public Health Service says the epidemic has passed its seasonal peak.

The agency reported a drop in the number of new cases for the third week in a row—from 3,119 in the week ended September 3 to 2,628 in the week ended September 10. The figures do not include Pennsylvania, which has not reported.

Up to last Saturday, cases reported for the year (except in Pennsylvania) totaled 26,384, compared with 14,132 during the same period last year.

## Soldier Is Injured In Highway Mishap

STANTON—An automobile and pickup truck collided three miles west of Stanton about 4:30 a. m. Thursday, injuring a passenger in the auto.

The injured man, who was identified only as Revilla, was given emergency treatment here and removed to a Big Spring hospital. He reportedly suffered a broken leg. He was one of five soldiers stationed at El Paso who were riding in the auto.

## Mexican JayCee To Speak Here Friday

Chaquer Rohanase, a leader in Junior Chamber of Commerce activities in Mexico, will address Midland JayCees at the meeting in the Crystal Ballroom of Hotel Scharbauer Friday noon.

Rohanase, prominent beverage distributor in Quito, Chiuhauha, is here with his Carta Blanca baseball team which engages the Midland Colts in a two-game series.

## MoPac Strike Outlook Is Brighter Thursday

ST. LOUIS—(AP)—Union officials Thursday studied a company proposal for ending the Missouri Pacific Railroad strike.

The proposal was submitted at a joint session of representatives of the railroad and striking brotherhoods Wednesday. Both sides said they were optimistic after the meeting.

## Son, Discharge Arrive Same Day

Wednesday was a big day for Charley Patten, former Midlander, who has been in the U. S. Navy the last four years.

At 4:30 a. m. Wednesday, a son weighing six pounds, six and a half ounces, was born to Mr. and Mrs. Patten at Baldwin Park, Calif. He was named Richard Michael.

Then a little later in the day, Patten received his honorable discharge from the Navy. Next week he plans to enroll as a student in Pasadena, Calif. Junior College.

Despite all the excitement, the father, mother and youngster are "doing fine," according to reports received here by Richard Michael's paternal grand parents, Mr. and Mrs. Hugh McChure who reside on the Andrews Road.

## COTTON

NEW YORK—(AP)—Thursday noon cotton prices were 10 to 20 cents a bale lower than the previous close. October 29.96, December 29.78 and March 29.69.

## ATTEND FUNERAL

Mr. and Mrs. Frank Dale and Mrs. Bob Baker attended the funeral of James Brown in Ackerly Wednesday.

## How To Hold FALSE TEETH

More Firmly in Place Do your false teeth annoy and embarrass when you eat, laugh or talk? Just sprinkle a little FASTERITE on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy soap, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTERITE today at any drug store.

**Tucker To Assist Men's Groups**  
 Mrs. Tucker, chairman of the P-T-A, charity benevolent organizations in the area will be glad to learn they get Meadolake Margarine for dinners without cost, according to an announcement made week by the Mrs. Tucker's sewing folks, who make Meadolake Margarine.  
 Appreciating the efforts of men who serve such dinners, Tucker is happy to furnish Meadolake Margarine for event. Organization president or chairmen of serving committees are urged to write Mrs. Tucker, Sherman, Texas, giving name of organization, date of dinner and number of guests expected. Tucker will mail back an order at local dealers for enough yellow sticks of Meadolake Margarine to serve each guest.  
 Mrs. Tucker asks in return that the pairs of golden-yellow marine be served in Meadolake's elegant cardboard pattie-shells sends with the order. She will local dealers their full retail plus all taxes for the Meadolake used.  
 Those responsible for serving are invited to write Mrs. Tucker's Home-makers Department, Sherman, Texas, for free menus, and helps in preparing for a crowd.

# Scurry, Pecos Get Majority Of 89 New WT Oil Projects

A total of 89 new locations for petroleum developments in West Texas were reported to the oil and gas division of the Railroad Commission of Texas at its district office in Midland, during the last week.  
 Included in the 89 new locations were two wildcats, both in Ector County.  
 Scurry County led the list of new field locations with 29 new explorations. Pecos County was second with sites reported for 22 new projects.  
 Nine new drillsites were staked in Cochran County. Four new projects each were listed in Gaines and Hockley Counties.  
 Borden and Ector Counties each reported three new explorations. Drillsites were staked for two new projects each in Andrews and Garza Counties.  
 The remaining new locations were distributed one each to Dawson, Loving and Ward Counties.  
 Five amended applications were filed. They were divided one each among Borden, Cochran, Crane, Garza and Glasscock Counties.

Andrews County  
 Sinclair No. 11-154 University, 555 feet from south and 2,089.95 feet from west lines of north half of section 24, block 13, University survey, rotary, 12,000 feet depth, Shafter Ellenburger field, starting immediately.  
 Sinclair No. 12-154 University, 785 feet from north and 2,089.95 feet from west lines of north half of section 24, block 13, University survey, rotary, 12,000 feet depth, Shafter Ellenburger field, starting immediately.  
 Borden County  
 Condon Petroleum Company No. 1-38 T. J. Good, 680 feet from north and east lines of southeast quarter of section 38, block 33, T-4-N, T&P survey, rotary, 8,500 feet depth, Good field, starting at once.  
 Amended: Condon Petroleum Company No. 1-37 T. J. Good, 670.3 feet from west and 667.6 feet from north lines of southeast quarter of section 37, block 33, T-4-N, T&P survey, rotary, 8,500 feet depth, Good field, starting at once. Changed location and depth.  
 Cochran County  
 Amended: Sunray No. 4 O'Neal,

440 feet from north and 287 feet from east lines of labor 1, league 59, Martin CSL survey, rotary, 5,000 feet depth, Levallan field, starting at once. Changed location.

# Intangible Wealth-Spirit Of Midland And Its Citizens Is Described By Visiting New York Newsman

By DONALD O'CONNOR  
 (Editor's Note—Donald O'Connor, on leave-of-absence as a staff member of the New York Herald-Tribune, spent the last two months in Midland and vicinity, engaging in oil field work, and meeting and visiting with residents of the vast Permian Basin Empire. He left this week for Hollywood, Calif., where a script written by him is being considered for movie adaptation. In the following article, O'Connor gives his impressions of Midland, the Midland area and its citizens.)

Unlike Topsy, Midland did not just "growed." There were reasons and factors in this growth: reasons economic, yes, but more important there were human factors. Let it be said at the outset that the articles written on Midland and featured in national-wide publications since the war years were superficial and misleading representations of the life to be found in West Texas.

The articles seemingly contented themselves with descriptions and cynicisms. This was a journalism of both error and omission. And it certainly did not portray with justice the pulse of your growing city. Then, too, it was noted that these articles were written in a vein which smacked of cosmopolitan and undisciplined. Perhaps it escaped publicity because that which is intangible, because it is hard to put one's finger on, more realistically perhaps because it is ineffable. Although the intangible wealth of Midland has eluded description, it is to be found everywhere in this corner of America. Call it the spirit of Midland; that dynamic spirit of this land and the people who call it home.

Greatest Wealth  
 Unlike the oil and cattle wealth, this intangible is owned and shared by all Midlanders. This, it seems to me, is your greatest wealth; greatest in the sense that spirit makes all things under God possible. West Texas seems especially rich in the traditions of human freedom. It was only yesterday that the free and open hospitality of a pioneer country prevailed. In that day, every man's door was open and the weary traveler was expected to come in and share the warmth and friendship which even then were characteristic of the Southwest. Today, all this has not been changed.

Only here have I found that a stranger is welcomed as a friend and that man is trusted so long as he justifies that trust. It makes strangers feel warm and happy to be welcomed so hospitably. It is reassuring that the pioneer spirit still prevails in America. And it is that spirit which made our country mighty and immortal. But nowhere in our land will one find the human trust and warmth of friendship stronger than right here in your own community. Yesterday, this was cattle country. But today it also is oil country. There is an unmistakable something about these two fields of human endeavor which seems to

create a strong spirit of independence. Cattlemen and oil men have in their blood and in common a surging impulse to be free. They have established human freedom as their highest value. It is most reassuring to see in these troubled times when everywhere this freedom is being challenged that here it still flourishes.

Dynamic Self Reliance  
 The yearning to be free was the force that prompted the pioneers to conquer "the plains country." This force made America possible. Nowhere will one find to this day the spirit of self reliance and independence more dynamic than here. One has found that Midlanders, not unlike a plant, have partaken of the character of the soil—they have drawn its strength up into their own strength. Only with that realization did a stranger come to grasp the strength and the great promise of Midland. If a man has the capacity for hard work, the guts and ability he can succeed here. Searchers for an Utopia will find disappointment.

The courage, resourcefulness and imagination of you people transformed this semi-arid land into Midland. You should be and are proud of this achievement. One finds it difficult to believe, at first, that so much has been accomplished. Not only is yours a bustling city, but also it is clean and sturdy in character. You have erected churches to nourish and sustain faith in God and in yourselves. You have built western sky-scrapers; you have seen to most all the conveniences and luxuries of cosmopolitan life. You are lacking in many cultural facilities. If one judges correctly, it will not be long before one will find the theater, musical concerts and the arts springing up in this center. Regardless of the early roots of (Continued on Page Eight)

We're Proud...

to be members of the Super Market Institute, a national organization of leaders in the super market industry, devoted to the principle of "more for all." That's why this month, we along with every other member of the Super Market Institute, are bringing you bumper crops of fruits and vegetables at low prices. We're working for you — and for the farmer too — to keep the cost of distribution low. To give you everyday low prices through better methods of selling, and to give you specials like our bumper fruits, when the farmer asks the super market to help him out.

*Low prices every day* **FURR'S SUPER MARKETS**

CARNIVAL

"Our marriage was made in heaven, all right—in the thunderbolt department!"

DADDY RINGTAIL

Daddy Ringtail And Surprise Finish

Daddy Ringtail and Mugwump Monkey, and the Huffen Puffen, were playing like the story of the Gingerbread Man. Right at the end the fox goes "Snip! Snip! Snip!" with his wicked white teeth, and that is the end of the Gingerbread Man. But Mugwump was being the Gingerbread Man, play-like, and of course he didn't want the Huffen, who was the play-like fox, to be really dangerous.

Gingerbread Man story. The Huffen began to swim across, but how he laughed to think his thoughts of the end of the play-like story. He was going to snip and snap with his teeth. Oh, he was not going to do it to be really dangerous, but only to frighten Mugwump. Why, he was going to make Mugwump think that was the end of him. Said the Huffen: "See heah, little Gingerbread Man, this water is powerful deep where we are. You better climb from my back to my head — so you won't get yourself wet."

FUNNY BUSINESS

PASSES AS GERMAN

RENNES, FRANCE—(P)—Robert Hockett, 37-year-old Alsatian wanted by the gendarmerie in connection with the alleged theft of a motorcycle and 32,000 francs in 1945, has been found working as a German on a farm in Brittany. He said he managed to get admitted to a camp as a German prisoner, claiming he had escaped from England. Later, when German prisoners in France were released, he remained as a volunteer worker and was issued an identity card under the name of Karl Luecke.

with the **MULTI-MILLION DOLLAR GUARANTEE**

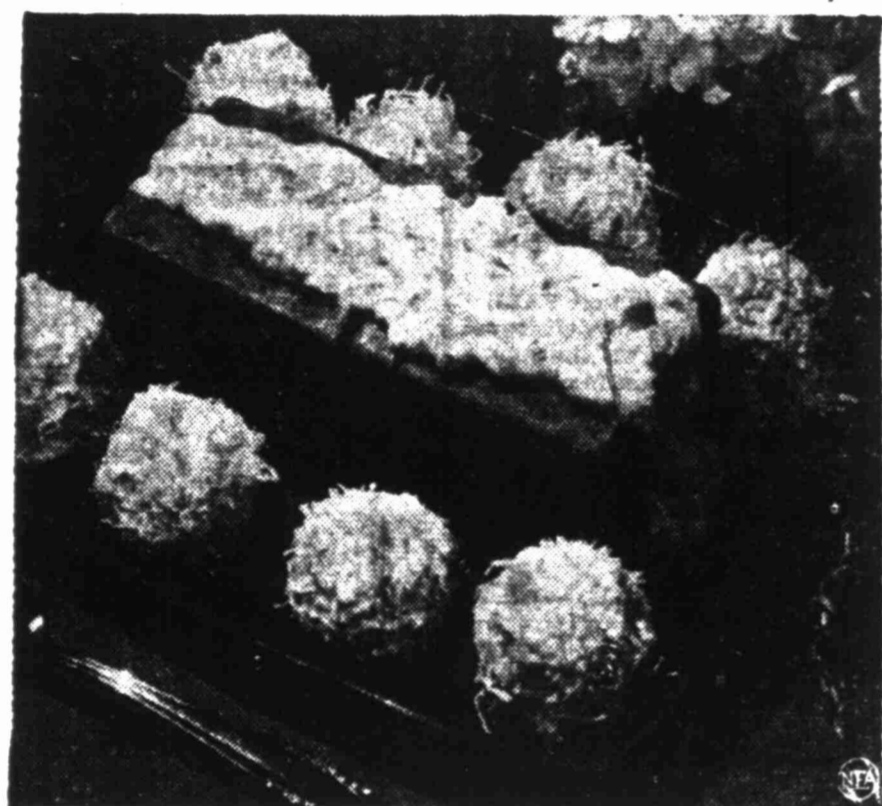

If you do not like my Meadolake Margarine (colored or uncolored) better than ANY margarine you have ever tasted, return unused portion to your DEALER and I will buy you two pounds of ANY margarine you prefer. Mrs. Tucker

Yes, Meadolake Margarine is backed by the Multi-Million Dollar resources and reputation of the Mrs. Tucker's organization.

Sadie Taylor literally has her hands full as baby-sitter to three pet gorillas. Lady Congo, Congo, and Oka were hers to feed, bathe, and even chest-rub for a whole month. Miss Taylor then accompanied the trio from New York to the San Diego, Calif., zoo. "More fun than a barrel of monkeys," she said.

**Marshmallow Mixtures Are Showy**

**DESSERT BOON**—Chocolate ice cream with mallow ice cream sauce is neatly garnished with coconut mallow balls. **By Mrs. J. M. ZAFRAN, NEA Staff Writer**  
If you go in for super desserts, then these marshmallow recipes are what you've been looking for:  
**Coconut Mallow Balls** (Yield: 12 mallow balls)  
One envelope unflavored gelatin, 1 1/2 cup cold water, 1/2 cup sugar, 2/3 cup light corn syrup, 1 teaspoon vanilla, 12 cupcake, one-inch diameter, 2 cups shredded coconut.  
Soften gelatin in cold water; place over boiling water and stir until dissolved. Add sugar and stir until dissolved. Remove from heat. Place corn syrup and vanilla in

**Pioneer Schedules Lubbock Sales Meet**

**HOUSTON**—Headed by Harding L. Lawrence, Pioneer Air Lines vice president of traffic and sales, ten of the company's salesmen will converge on Lubbock Sunday afternoon to prepare for a three-day sales canvass of that city.  
At the Sunday night meeting, Eugene Thummel, Lubbock-Amarillo district traffic manager, and Lewis M. Zafran, Fort Worth, regional traffic and sales manager, will assign calls to the group to be made during Monday, Tuesday and Wednesday.  
Lawrence said those who would attend include Jack T. Cobon, Houston; I. M. Harper, Dallas; William Spradley, Fort Worth; Hershel Smith, Austin; Les Newman, San Angelo; Dave Clark, Midland; and Lloyd Kelley, Albuquerque, all district traffic managers. John Force, Dallas, eastern regional traffic and sales manager, and Jack Kemp, Houston, director of public relations, also will attend.

with coconut mallow balls. **Large bowl of electric mixer.** Add gelatin and sugar mixture and beat on highest speed until mixture becomes thick and of soft marshmallow consistency, about 15 minutes. Measure 2 cups of the mallow mixture. (Reserve remainder for mallow ice cream sauce.) Dip cupcakes in mallow mixture and then roll in coconut.  
**Mallow Ice Cream Sauce** (Yield: about 2 cups)  
One 9-ounce can crushed pineapple, 1 tablespoon lemon juice, remaining mallow mixture (about 2 cups).  
Add crushed pineapple and lemon juice to mallow mixture. Use as ice cream or cake frosting.  
**Apricot Mallow Pie** (Yield: One 9-inch pie)  
One cup dried apricots, 1 envelope gelatin, 1 1/2 cup cold water, 1/2 cup sugar, 2/3 cup light corn syrup, 1 teaspoon vanilla, 1 cup heavy cream, whipped, one 9-inch baked pastry shell.  
Cover apricots with water and simmer slowly in covered pan until tender. If all water is not absorbed, uncover to evaporate liquid. Remove from heat and mash to a paste; cool. Soften gelatin in cold water and stir until dissolved. Add sugar and stir until dissolved. Remove from heat.  
Place corn syrup and vanilla in large bowl of electric mixer. Add gelatin and sugar mixture and beat on highest speed until mixture becomes thick and of soft marshmallow consistency, about 15 minutes. Measure 2 cups of the mallow mixture; fold in mashed apricots and whipped cream. Turn into baked pastry shell. Chill in refrigerator 4 to 6 hours until firm.

Help is on the way for the home painter. A Cleveland, Ohio, inventor has perfected a new drips-proof brush which is expected to go a long way toward taking the drip out of amateur work. It's not on the market just yet, but should be at an early date.

### Russian Hack Writer Is Given Reprimand

MOSCOW—(P)—Writer I. Vsevolodsky has been severely criticized in "Komsomol Pravda" for a book described as "rubbish."

"How could it happen," asked the critic, "that such a harmful book, such base hackwork which has obviously been written on the model of foreign boulevard literature could be published here in the Soviet Union, where the most progressive literature in the world, highly artistic and highly ideological has been created, where the rank of author has been raised to unprecedented heights?"

### Growth Of Trees In Maine Getting Meticulous Care

AP Newsfeature  
 PRINCETON, ME.—There's a growth of trees in the Maine woods that is receiving meticulous attention.

Everything noteworthy in the life of the trees is recorded—growth, effect of insects, and the hazards of lightning and wind included.

The trees are in "sample woodlots" in Indian Township where 63 University of Maine forestry students have a 17,000-acre woodland laboratory. For 10 weeks each summer the students receive practical training in forestry and wildlife conservation.

Just as a young medical interne works under the watchful eye of veterans of his profession, the students work in the woods with forest experts.

The purpose of the training, says Prof. Arthur Randall, director of the camp, is to enable the student to "take charge of an area of forest land and manage it for perpetual production of forest crops."

All of the trees in the sample woodlots are numbered with bright orange-painted labels.

Year after year the record is kept, studies are made and each year a new group of young foresters learns under actual conditions what happens—or doesn't happen—to a cross section of the trees of Maine.

The 17,000-acre forest is on land held in trust for the Passamaquoddy Indian tribe.

### Social Democrats Organized In India

NEW DELHI—(P)—Free India's first parliamentary opposition was formed here recently under the name of the Social Democratic Party. It consists of one Socialist leader, three congressmen who recently resigned from the party, and five former Muslim League members. K. T. Shah, Bombay professor of economics, is leader of the new party.

The party spokesman claimed that it has 20 adherents in a house of about 300. It is scheduled to function when the constituent assembly meets on November 21 to do parliamentary work.

The party's aims are reported to be: Progressive nationalization of all key industries, public utilities and social services; free and universal compulsory basic education up to 14 years of age; free and universal health services; maintenance of all civil liberties; securing decent standard of living and civilized conditions of work and amenities of life to every industrial and agricultural laborer; adult franchise and direct election; decentralization of all power; full support to all efforts for world peace.

### Mexico Desires More Trade With Italians

MEXICO CITY—(P)—Mexico would be glad to trade more goods with Italy. She might even take small complete industries from Italy, machinery, materials and workers with the know-how. One of these barter deals—Mexican sugar for Italian rayon yarn—has been successfully concluded. It was for a value of "several million dollars."

Both sides were satisfied but the deal will not be renewed. Mexico now produces all the rayon she needs and Italy has found a cheaper place to buy sugar.

Barter deals are not as easy to arrange as they seem. Two countries first must find products they can export and which the other needs. Then they have to agree on the value of these goods for trading purposes.

In using new detergents on the market, most housewives are inclined to use too much of the cleaner. A little experimentation aimed at cutting down the amount of the detergent used will give better results and make the cleaner go a lot further.

### Hamwiches Make Easy Suppers

**FALL SUPPER SPECIALTY**—For quick "hamwiches," combine biscuit mix, milk, sliced ham and Dijon-type mustard.

By GAYNOR MADDOX  
 NEA Staff Writer

For a simple Fall supper, try this easy on the budget and easy to make dish—quick hamwiches. A prepared biscuit mix plus Dijon-style mustard makes for a filling meal. Hamwiches go well with practically any side dish or vegetable. They are very good with a simple French dressing.

**Quick Hamwiches**  
 (Serves 6)

Two cups prepared biscuit mix, 1/2 cup milk, 8 slices boiled ham, 1/2 cup Dijon-style mustard.

Mix biscuit mix and milk. Roll out into round shape about 1/8-inch thick. Cut into 12 pie-shaped pieces. Cut ham slices in half diagonally to form 24 wedges. Place slice of ham on wedge of dough. Spread ham thinly with mustard. Roll, starting at wide end and press tip firmly to fasten. Place on greased pan with tip on bottom. Bake 20 minutes in 425 degrees F. oven. Note: These may be served with mushroom sauce if desired. Tiny "hamwiches" make unusual hot hors d'oeuvres.

**Dijon Salad Dressing**  
 (Makes about 1 cup dressing)

Three-quarters cup salad oil, 1/4 cup vinegar, 1/2 teaspoon salt, dash black pepper, 1/4 teaspoon onion salt, 1/8 teaspoon paprika, 3 teaspoons Dijon style mustard, 1 tablespoon sugar.

Mix all ingredients together in bottle and shake vigorously. Chill. Shake well before serving.

**Mr. Mustard's Deviled Pork Chops**  
 (Serves 4)

Four pork chops 1-inch thick, salt, pepper, 1 tablespoon fat, 3 tablespoons butter, 2 tablespoons catsup, 2 teaspoons Dijon-style mustard, dash tabasco sauce, 1/4 teaspoon onion salt, 1/8 teaspoon garlic salt, 1/2 teaspoon paprika, 1/3 cup boiling water.

Trim excess fat from chops. Sprinkle with salt and pepper. Sauté slowly in fat until golden brown on both sides, turning several times. Place in baking pan. Add remaining ingredients to drippings in pan and stir well. Pour over chops. Bake in moderate oven (350 degrees F.) about 20 minutes or until well done. Cover dish first 15 minutes. Baste chops once or twice with sauce in pan.

### Video In Automobile Curbed By 15 States

CHICAGO—(P)—If you want to stay out of trouble, don't look at a television show while you drive your car.

It shouldn't be necessary to pass this warning along to anybody who can count without using his fingers. But 15 states are taking no chances. They adopted laws this year that either (1) prohibit operation of a motor vehicle equipped with a TV set in view of the driver, or (2) forbid installation of a set in a place where a driver can see it.

The American Public Works Association says the states with such laws are Colorado, Connecticut, Indiana, Illinois, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, North Carolina, Oklahoma, Pennsylvania, Vermont, and Washington and Wisconsin.

A lemon-flavored grass, that is used for flavoring pies and custards, grows in South Africa.

### Spirit—

(Continued From Page Two)

most of your settlers there are aspects of their early life which are missed in Midland. Perhaps it is the green countryside of the east, the mountains of the north, the plains of the middle west, the picturesque northwest. These natural riches are never to be yours, Midland. But the happiness of your people testifies to the fact that here they have found something more stimulating and more satisfying than their early roots. They have found your secret—the spirit of Midland.

Perhaps the authors of previous articles on Midland did not remain here long enough to catch the spirit of the land. I hope that I have. I know that knowing Midland has made me the richer for the experience. It is here where all can find opportunity. It was once pointed out to me that "to know your own character you must know your country's character."

Midland, and all that the name shall henceforth suggest to me, contributes richly to our American tradition. Midland is a reaffirmation and a reassurance of the faith that is America. Whenever I hear tell of this your town, it shall call to mind the happy days spent among you. It will call to mind the spirit of Midlanders.
