Baptist Workers Conference To Be At Sparenberg

The Baptist Workers Conference will meet with the Sparenberg Baptist Church on Thursday, June 10. The following program for the day:

Theme: Soul Winning.
 10:00—Song Service and Devotional—C. J. Coffman.
 10:30—The Church at Work Winning Souls to Christ—W. C. Williamson.
 11:00—Hay May Souls be Won?—Alton Green.
 11:30—Announcements.
 11:45—Sermon—L. O. McGallion.
 12:30—Lunch—Plenty for all.
 2:00—W. M. U. and Board Meeting.
 3:00—Assembly.
 3:15—Sermon—Cecil Rhodes, (Knott).

Lions Three Day Carnival Starts On Thursday

Plans are almost completed for the annual Lions Club Carnival scheduled for June 10, 11, 12, according to Earl Goen, Carnival Committeeman. All proceeds above expenses will go to some form of charity with emphases on the club's Sight Conservation and Blind activities.

This will be the third consecutive year the Rainey Carnival has appeared under the auspices of the Lions Club. In the past years enough profit has been made to enable the club to supply every needy child in Dawson County with glasses besides making substantial contributions to other worthy causes.

A committee headed by Leslie C. Pratt and consisting of Stansell Clement, Leonard Scott, Earl Goen, Earnest Barrett, and J. H. Norris has made plans for a complete carnival. The various attractions will be a Farres-Wheel, Merry-Mixup, Bingo, Doll Racks, Kitty Car Ride, African Dip, Penny Pitch Game, a Judge Bean Court and probably a wrestling match. The carnival will be held on the south side of the square as in the past.

W. L. MARR SUFFERS HEART ATTACK

W. L. Marr, pioneer citizen of Lamesa, suffered a heart attack at his home early last Thursday morning. According to reports his condition is satisfactory, and his many friends wish for him a speedy recovery. At his bedside for several days were his son and wife, Dr. and Mrs. John Marr of Minneapolis, Minn. and his daughter and husband, Mr. and Mrs. Allen Forbis of Bula.

JUANA JEAN COX GRADUATES AT TEXAS UNIVERSITY

Miss Juana Jean Cox, daughter of Mrs. Bryan Cox of this city received a Bachelor of Arts degree from the University of Texas on the graduation exercises on May 31.

DEPUTY TAX COLLECTOR HERE DURING WEEK

Deputy Collector William H. Harrison will be in Lamesa during this week, June 7 to 12, and taxpayers with Federal Tax problems are invited to discuss such matters with him during that period.

Miss Cecilia Westerman of Big Spring is visiting here this week with Miss Jean Stanfield.

WAACs Arrive At Perrin Field.

These girls, representing all sections of the country, were all smiles as they arrived at Perrin Field, Tex., to find a brand new barracks building fitted out for them. They are the first WAACs assigned to the field and came to Texas direct from the organization's big training school at Fort Oglethorpe, Ga.

Lt. Smith Saluted On "Thanks To Yanks" Program

Lt. Robert H. Smith, of Lamesa, was saluted on Bob Hawk's "Thanks to the Yanks" program Saturday evening, June 5th, via CBS.

Lt. Smith and the entire crew of his Flying Fortress, which took part in the American raid of Wilhelmshaven and Emden were saluted for heroic action. After releasing its bombs, Lt. Smith's Fortress was engaged by swarms of Nazi fighter planes and though crippled by their fire, continued shooting until eleven enemy planes were shot down—an all-time record for a single Fortress on a single raid! Though the bomber was forced into the North Sea, all crew members took to rubber rafts and were saved.

The makers of Camel Cigarettes, sponsors of "Thanks To The Yanks," are sending 300,000 Camel cigarettes to the members of our Armed Forces in England in their honor.

Plans Progressing For 'Open House' At Lamesa Field

Plans are now underway for the official opening of the Clent Breedlove Aerial Service and Liaison School on Sunday afternoon, June 13, between the hours of 2 and 5 p. m.

Every person in the county has a special invitation to attend the "Open House." An interesting program is being planned for the occasion by both the Army and civilians. A citizens committee composed of Conway King, Mrs. A. G. Barnard and Mrs. Carl Rountree are working with Army officials and civilian personal of the school in arranging the program.

The complete program will be printed in Thursday Courier.

Ordovician Wildcat Test To Be Made On Dean Ranch

Deepest of the explorations for production in Dawson County was learned that the Gulf Oil Corporation had applied for permit to drill an Ordovician wildcat in the eastern part of the county, 12 miles northeast of Lamesa.

On a block of approximately 35,000 acres, the greater part of which was taken on assignment from Ray A. Albaugh of Lamesa, the Gulf has applied for permit to drill its No. 1 Dean, 1,980 feet from the west and north lines of section 30, block 1, T-6-N, J. Poitevent survey. In order to explore the Ordovician, the operation will be carried to around 9,500 feet.

The large Gulf block centers around the J. Poitevent survey and block 2, T-6-N, T&T survey, with the principal landowners being Carrie S. Dean and Della S. Wright of Dallas. The block was assembled after extensive seismograph work.

Pioneer Wildcatter

Albaugh, pioneer Dawson County wildcatter, assembled approximately 78,000 acres, of which 35,200 acres are out of the Dean Ranch. After assigning acreage to the Gulf, it is understood that Albaugh turned several protection blocks to other firms.

Albaugh has drilled seven wildcats in the county, one of which still is producing. Another exploration developed small production, which was produced for a time before the project was abandoned. In addition to his activity in Dawson, Albaugh has been active in Pennsylvania having arranged to drill three wildcats in the old Titusville district of that State.

June 10 Last Day To Mail Ration Book Application

Applications for War Book No. 3, must be in the mails by Thursday, June 10, the post office reminds the public. If these applications are not mailed by the 10th, you will have to wait until a much later date to receive your new ration book.

If any family failed to receive the application, one may be had by calling at the Post Office by Thursday. After Thursday these blank will only be available from the Dallas OPA office.

A number of people have been careless filling in these applications according to the Dallas Mailing Center, therefore Howard Gohlsen, District Director of OPA gives the following points to be kept in mind while filling out the application forms:

1. Print or type your name and return address so that it is easy to read.
2. List names and birth dates of all members of family unit on same application.
3. Sign application in your own handwriting.
4. Tear off identification stub and keep it carefully. It is your receipt.
5. Add correct postage.
6. Check each item carefully for mistakes.
7. Mail application before June 10.

CORRECTION

In last Thursday's Courier in "Rationing At A Glance" it was stated that Blue Food Stamps K, L and M expired June 7. This should have been, Processed Foods—Blue G, H, and J Stamps valid through June 7, Blue K, L, and M Stamps (48 points) valid through July 7.

Judge Urges All To Observe Flag Week, June 7-12

County Judge Kilmer B. Corbin urges all citizens to observe this week as "Flag Week" in Lamesa in connection with a proclamation issued by President Roosevelt and Governor Coke Stevenson calling a nation wide observance during which time the American Flag will be displayed and the citizens will be asked to buy more War Bonds than usual.

Judge Corbin suggests that all business firms in Lamesa put out their flags, and if possible leave them up each day during this week.

Lamesa Women Urged To Join Womens Army

An urgent call to women of Lamesa to investigate the advantages of joining the Women's Army Auxiliary Corps for service with the Army, was issued today by Mrs. A. G. Barnard, local civilian WAAC Recruiter, who added that the Corps needs many more than its present number to fill the requests for WAACs by commanders of Army units.

"Our goal is 150,000 enrolled members by this summer. Requests already on hand in Washington for the assignment of WAACs amount to an even greater total," she said. "So you can see that we need every woman whose patriotism and desire to speed our soldiers back makes her want to spend her full time for victory."

"The Army Air Forces alone have asked for thousands of WAACs. They want them for important duties so that they can count on more men for flying duty. They'll be awful glad to see them when they report for duty."

With the approach of summer, Mrs. A. G. Barnard suggested, many women are thinking about outdoor activities.

"The WAAC is no vacation," she said, "but it's fun as well as work. It's an outdoor life and a healthy one. Women couldn't do better than be in the WAAC this summer."

Aviation Cadet Lee R. Farmer At Altus, Okla.

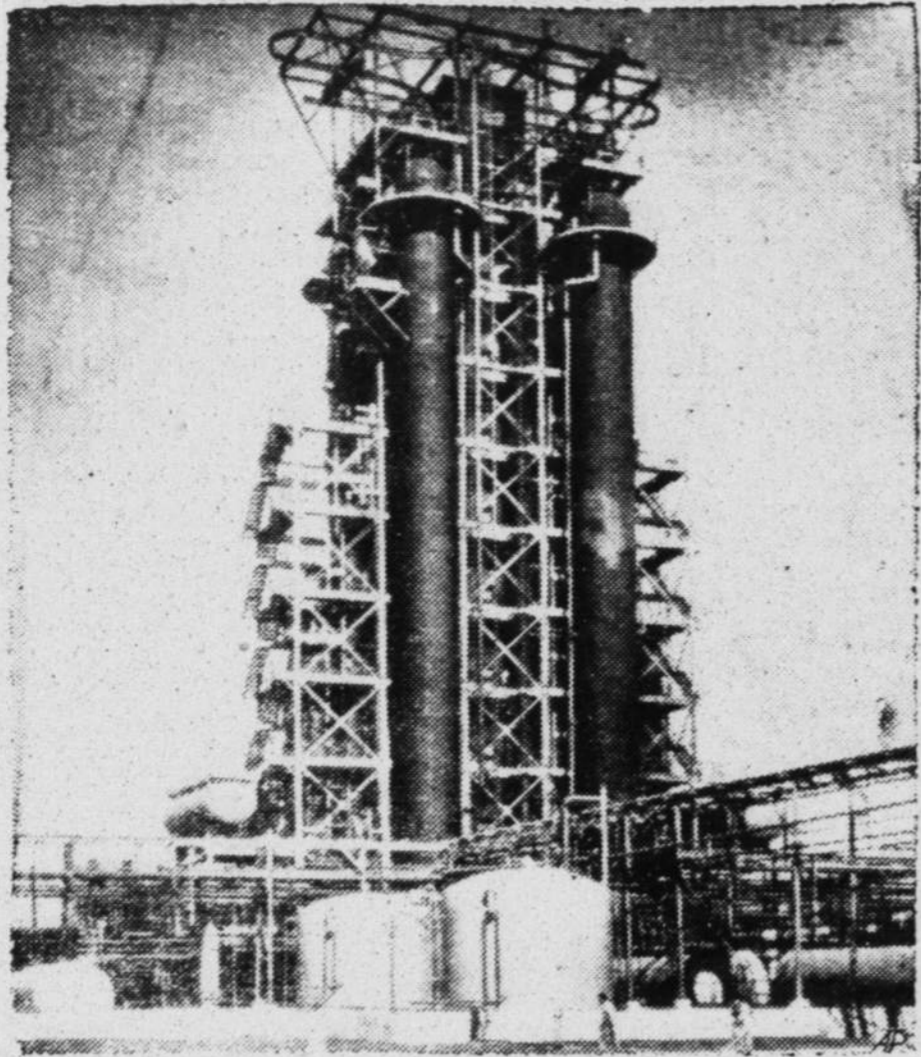

Aviation Cadet Lee R. Farmer, 22, son of Mr. and Mrs. Henry L. Farmer Rt. 1, Lamesa, has arrived at the Altus, Army Flying Field, Altus, Oklahoma, to begin the final nine-weeks phase of his Military Pilot training. After flying approximately 70 hours in two-engine training planes and taking 70 lecture hours of combat subjects in ground school, Farmer will be awarded the silver wings of Army Air Forces' pilot and appointed a flight officer or commissioned a second lieutenant.

In civilian life Farmer was engaged in farming. Prior to his cadet training, he was in the Army Air Forces Ground Forces.

Mrs. Jo Hall returned Saturday from a months vacation in Chicago, Ill., and Dallas, Texas.

Texas City Styrene Plant

Towering into the sky as high as a 20-story office building is this distillation tower of the Monsanto Chemical Company's styrene producing plant at Texas City, Texas. Styrene is a raw material used in the manufacturing of synthetic rubber.

Bud Speck Writes Time Extended To June 30 For Seed From Africa Peanut Purchases

EDITORS NOTE: The following letter was received by Bryant-Link employees this week from Bud Speck, who was employed at the local store before entering the army.

DEAR GANG:

To let you know that I have arrived in North Africa. The boat trip over was plenty rough and rugged. Coming over the boat was so crowded we had to eat and sleep in shifts. We had lots of engine trouble on the way over. The convoy ran off and left us 4 days and nights. We were out on the foamy blue with only 2 sub chasers. I think we are plenty lucky to be here and I am very thankful I have my feet on the ground. We had a good many alerts coming over.

The climate here is hot in the day time and it is kind of cold at night. The Country is very mountainous and looking down upon the sea from the hill ride, it is pretty.

They still do things over here like they did one hundred years ago. The people are ragged and dirty looking people. Living conditions here are terrible. This sleeping on the ground and eating out of tin cans is plenty rough.

Love to all,

BUD SPECK.

P. S. Give my regards to Mr. Duke.

The French Sudan in West Africa has a population of nearly 3,000,000.

The Australian monitor, largest of lizards, reaches a length of six to seven feet.

Texas peanut producers have until June 30 in which to purchase seed for planting instead of May 31, according to the state USDA War Board.

Due to dry weather and the late planting season in the major producing areas, many farmers have not completed planting and would be handicapped in obtaining sufficient seed by the original deadline.

Under a plan whereby producers are guaranteed sufficient seed for planting purposes, county AAA committees have been cooperating with farmers in issuing planting certificates. The certificates, which are issued only to peanut growers, then are presented to dealers, where the seed are purchased.

The cash price to peanut producers obtaining seed for planting is \$139 per ton for U. S. Spanish type No. 1 farmers' stock peanuts and \$155 per ton for Spanish type cleaned.

Texas farmers were assured fair prices for this year's crop when the price support recently was increased from \$129 per ton to an average of \$140 per ton for Spanish type peanuts.

In addition, producers also have been assured that additional pickers will be available for harvesting the 1943 crop. Approximately 320 pickers are being made available now and others will be released later. A total of 1,731 pickers were used in the state during 1942.

As the new machines are receiv-

Seed Purchase Plan Announced By State AAA

A purchase program for eight additional types of pasture and winter legume seeds for planting this fall and to meet next year's demands for increased acreage of forage crops has been announced by the state AAA office.

The seed will be purchased from farmers by the Commodity Credit Corporation and all purchases will be on the basis of bagged, packaged seed in serviceable cotton bags of approved quality. Fumigation will be required where necessary.

All varieties of seed purchased must meet base specifications which include purity and germination. AAA officials pointed out.

The principle varieties of seed grown in Texas which are included under the 1943 purchase program are common and sericea lespedeza and yellow hop clover. The purchase price for these varieties will be 19 cents, 16 cents and 35 cents per pound, respectively.

Other varieties of seed to be purchased but which are not grown extensively in Texas are blue lupine, white clover, wild winter peas and kobe and Tennessee 76 lespedeza.

ROMANCE IN REVERSE

WINSTON-SALEM, N. C. (AP)—There was no lost motion in this divorce suit. The complaint, as filed in court here, alleged that the couple was separated two days before the date on which they were married.

ed. they will be routed into peanut producing areas and applications for their purchase approved by county USDA war boards. Cooperation of USDA war boards in routing the pickers aims at maximum use of all pickers during the harvesting season.

Texas WAVES In Training

Portfolios under arms, these WAVES—all from Texas—swing into step as they cross the Oklahoma A. & M. campus at Stillwater to their classrooms. They are (front row, left to right) Carma Rushing, Texarkana; Mary McDonald, Leonard; (Second row, left to right) Squad Leader Julia Hamilton, Frankston; Mortha McDade, Sugar Land; Joanne Bailey, Wichita Falls; (Third row, left to right) Gerry Polanksy, Austin, and Margaret Martin, Houston. About 200 Texas girls already have graduated.

Protect Fruit Trees From Insect Damage

There's no point in spraying a fruit tree to control weevils, or curculios, until the presence of the pest is known. According to Paul Gregg, assistant entomologist for the A. and M. College Extension Service, jarring the tree with a four-foot pole padded at the striking end will bring them down. Spread a canvas to catch them for identification.

The curculios come out of hibernation soon after the tree starts blooming. They lay eggs in the tiny fruit and worms hatch in about 10 days. Jarring, if done every two or three days starting soon after blooming begins, will control curculios if trees are few. Larger orchards should be sprayed when one insect is found in every three or four trees. If none fall from the first jarring, try again in six days. If found, see the county agricultural agent about a spraying schedule. Shallow disking or plowing during summer will

destroy many immature curculios.

The tiny scale insect, which clings to the bark and sucks the trees juices, kills more fruit trees than any other pests, Gregg says. It is best controlled by thoroughly spraying trees in winter with either lime sulphur or oil emulsion after pruning. However, in case of heavy infestation in the spring or summer, summer oil emulsion or lime sulphur spray may be used with safety.

But this is only a part of the predators. White worms with brown heads tunnel under the bark of peach and plum trees two or three inches below the ground and eight or 10 inches above. Shot hole borers, or bark beetles, drill little holes in the bark, and the lesser peach borer feeds underneath the bark of branches. Finally, the twig borer feeds underneath the bark on twigs.

Certain sprays will discourage activities of these pests, and full information on their control may be obtained from Extension Service bulletin, B-73, "Orchard Management," or from the county agricultural agent.

Deer, oxen and sheep have four-chambered stomachs.

Fighting Baer Boys Are Serious In The Army

AP Features

McCELLAN FIELD, Calif. — Private Max Baer wears his khaki uniform in a different manner than he ever wore prize fight togs. He's serious and businesslike and intense—three things no one could accuse him of when he was a challenger, champion or ex-champion. Yes, the Army's Air Service Command has a man in Max, not a play-boy with one eye on his opponent and the other wandering to the Broadway show girls sitting at ringside.

Max is on his first assignment since completing basic training. He's an instructor in the physical training division of Sacramento Air Depot Control Area Command, teaching boxing and wrestling to thousands of enlisted men at many installations in central and northern California as well as in Nevada.

It has been just a short time since the former world champion heavyweight and his brother, Buddy,

enlisted in the Air Service Command. Now both are based here. Neither of the Baers were on call in the draft. In fact, both have children and probably would not have been called for some time to come.

Max finished basic training ahead of Buddy because the latter underwent a knee operation shortly after induction and only recently reported for duty at McClellan.

The two cause a lot of comment wherever they go — so big that special uniforms had to be built for them. And, of course, there's the well known Baer charm that made the fighters popular with the crowds during their civilian days.

Where once Max swaggered and was boastful of his prowess in the ring or laughed at his defeats, he's more dignified, as befits his uniform, yet he's talkative about the part boxing and wrestling training can play in war.

"You gotta keep cool — you gotta let a cold hate grow in you, if you want to win, either when you got them gloves on in a prizefight ring or if you're out there facing the enemy," Max said, pulling his mouth down at the corners, gesturing with his big hands.

"When a man gets mad, he gets flustered. He doesn't know what to do. He gets off balance and throws the fight. We're going to teach the men of the Air Service Command to keep their heads, keep their balance, keep their lives."

Dirty Judo — commando tactics in official circles — will be Max's prize lesson for the boys, the first several thousand of whom he organized at the Army Air Base in Reno, Nev., the first week he was out on a physical training assignment.

"We'll teach 'em the most vulnerable spots, we'll teach 'em all the foul punches, how to kill with their bare hands just in case they get in a spot where that's all they've left with which to defend themselves.

Simplified Plan Offered Farmers

WASHINGTON, June 1. (AP)—The War Production board today provided simple priority procedure by which farmers can purchase 178 kinds of hard-to-get supplies.

Under a program worked out by WPB's office of civilian requirements, a farmer may buy up \$25 worth of any of the named items simply by giving his dealer a signed certificate stating:

"I certify to the War Production board that I am a farmer and that the supplies covered by this order are needed now and will be used

PROCLAMATION

—by the—
GOVERNOR OF THE STATE OF TEXAS

TO ALL TO WHOM THESE PRESENTS SHALL COME:

WHEREAS, the date of June 14 is the anniversary of the adoption of the Flag of the United States of America; and

WHEREAS, it is customary and entirely fitting that the week preceding that date be devoted to patriotic celebration and observance; and

WHEREAS, in this time of war it is even more appropriate that we once again pledge our allegiance to the Flag and to the principles which it symbolizes:

NOW, THEREFORE, I, Coke Stevenson, Governor of the State of Texas, do hereby proclaim the week of June 8-14, 1943, to be

FLAG WEEK IN TEXAS

and FURTHERMORE, I urge our local defense organizations, patriotic societies and the citizenship generally to observe this week by displaying our Flag at homes, places of business, and elsewhere; by patriotic exercises appropriate to the times; and by investing and causing others to invest in additional War Bonds and Stamps as a tribute to our armed forces, who, with total unselfishness and self-sacrifice, are serving on the battlefronts of the world in defense of the rights and principles which we cherish.

IN TESTIMONY WHEREOF I have hereunto signed my name officially and caused the Seal of State to be impressed hereon at Austin, Texas, this the 14th day of May, A. D., 1943.

COKE R. STEVENSON, Governor of Texas.

New Farm Labor Program Turned Over To Agents

Texas' 236 county agricultural agents have been assigned the responsibility of administering the farm labor program within their counties. H. H. Williamson, director of the A. and M. College Extension Service has announced.

Recruiting, training, and placement of all farm labor within the county, and of directing labor centers and the few camps for migratory workers in the state, will be among the responsibilities of the county agricultural agent. If and when war prisoners are available for farm labor in Texas this additional phase of the program also will be under the jurisdiction of the agents.

Quoting Lt. Colonel Jay L. Taylor, Panhandle rancher and business man who is the deputy administrator of the War Food Administration in charge of labor programs, Director Williamson said that "99 per cent of the program will be carried on in the State of Texas and the counties, and one per cent in Washington." He emphasized, "There'll be no cotton chopped, pigs slopped or berries picked in Washington or College Station. The problem and the job belong to the county."

The national farm labor act assigned the administration of the farm labor program to the Extension Services of the land grant colleges in the 48 states. President T. O. Walton of A. and M., chairman of the executive committee of the Land Grant College Association, recently pointed out that the Extension groups had not sought the program but would accept the responsibility "like good soldiers."

While farmers will not be able to obtain the type of labor to which they are accustomed, the Extension Service will help them obtain and make best use of the available workers.

The Colossus of Rhodes, erected in 280 B. C. and destroyed in 224 B. C., cost about \$258,000.

for the operation of a farm." The certificate is not a WPB form — it may be furnished by the farmer himself or the retailer. The farmer may buy more than \$25 worth if he has the certificate approved by his local county farm rationing committee.

Among the most urgent items are batteries, chains, cold chisels, pitchforks, hoes, harness leather, galvanized pails, pipe, horsecollars, pliers, rope, shovels, barbed wire and bale wire, wrenches, tubs and poultry netting.

AN OLDSTER'S WORLD
CHATTANOOGA, Tenn. (AP) — Attorney F. L. Dixon, 60, had only one regret when he joined the Tennessee State Guard. "There're two guys in here older than I am," he lamented, "and I was hoping to be the oldest man in the unit."

Ammunition—

Due to Government Requirements those who have signed applications for ammunition with us will now have to sign a new form. Please come in and sign at earliest convenience. Can also take new applications from farmers and ranchmen.

Quarterly Income Tax Payment Due By June Fifteenth

Regardless of the plan of Congress to forgive a portion of 1942 income taxes of individuals, the quarterly payment due June 15th must be paid. Statements now being received by taxpayers are somewhat different from those sent in the past. Heretofore the original tax liability was shown on the statements. The new type of statement shows only the balance outstanding. One third of this balance should be sent in as the quarterly payment. The new statement form is perforated. The right hand portion of the statement should be torn off, taxpayer's name and address and the amount of the remittance should be inserted in the proper spaces and this attached to check or money order payable to Collector of Internal Revenue and mailed to Collector of Internal Revenue, Dallas, Texas, so as to reach this office by June 15, 1943. The other portion of the statement should be retained and attached to money order receipt or the cancelled check as evidence of payment.

Taxpayers are urged not to send cash through the mails as there is always a possibility that it might be lost and the taxpayer would have no evidence of proof that it had been sent.

PERSONALS

Captain Doyle Ranson of Camp Gerbur, Oklahoma and Guy Ranson of Louisville, Kentucky, are visiting here this week in the home of their parents, Mr. and Mrs. J. M. Ranson.

Mr. and Mrs. Jack Munn of Big Lake, spent Sunday here visiting in the home of Mr. and Mrs. J. M. Ranson.

Mr. and Mrs. W. O. Reeves Jr. returned to their home in Dallas after a weeks visiting here with his parents, Mr. and Mrs. W. O. Reeves Sr., Donald Deeves and Miss Dor-

Army Faster Than Solons

By SPOON RIVER SAM

Just as things got to looking good in North Africa, a new crisis sprung up in Washington. Two senate committees were racing to see who could get to the front first. The crisis being that the North Africa fighting might end before the committees could get there.

When a battlefront can be cleaned up by the Allies before a senate committee can get there to investigate it, that's progress. Until action gets hot somewhere else, I reckon the senators will just have to investigate each other.

The Army argues these committees would take up too much shipping space, not taking into account the wonders of dehydration.

Personally I favor sending some committees from Congress to the front—as far up front as possible.

If we don't get an official okay on our victories, the war is liable to get clear out of hand.

SCHOOL KIDS LEARN HOW TO LAY AN EGG

CHARLOTTE, N. C. (AP)—First grade pupils of the Eastover school here are mixing theory and practice. A hen is sitting in a nest by the teacher's desk so the pupils can see how chickens hatch.

othy Jones returned home with them for a visit.

Raymond Reeves of O'Donnell, Texas, is visiting here with his grandparents, Mr. and Mrs. W. O. Reeves.

Mrs. D. O. Huddleston, Mrs. Bill Ridgway, Mrs. M. J. Roberts and Mrs. Bill Britt spent Friday in Lubbock attending to business.

Joe Haney of Odessa spent the week end here visiting in the home of Mrs. Alice Banta.
