May is shown getting lots of sympathy from the older heads but very little help. Preliminary examinations showed no injuries to May as a result of the fall. (AP Wirephoto).

CALLS FOR FIRM RESISTANCE

Marshall Says Berlin Riots Used To Upset Conferences

WASHINGTON, Sept. 8. (AP)—Secretary Marshall said today Communist attacks on the Berlin city government were largely intended to upset talks of the Big Four military governors on the crisis in the Soviet-blockaded capital.

Marshall said that the efforts to disrupt these talks must be firmly resisted. He declined at a news conference to say that any resistance involves military measures.

Just before seeing newsmen, the secretary of state received from the military high command at the Pentagon a detailed account of the situation in Germany and in Berlin.

This meeting followed a session yesterday of the national security council at which Marshall outlined the diplomatic picture in Berlin.

It was understood the meeting with the military chiefs today was called to give the secretary a precise briefing on the strength and capabilities of American armed forces in the area.

Questioned at his news conference, Marshall said the Berlin disorders followed a familiar Communist pattern. He said they were not inclined to aid efforts of the military governors to work out a settlement there.

After he noted the talks are proceeding, Marshall was asked whether the disorders climaxed by the kidnapping early today of 19 western zone Berlin policemen, cast a shadow on the negotiations.

The secretary said he would leave this deduction to the questioner.

Massive Quake Set In Fiji Isle Area

HONOLULU, Sept. 8. (AP)—The coast and geodetic survey reported today it had recorded a big earthquake which probably struck in the area of the Fiji Islands.

The first shock was recorded at 5:17:30 a. m. Honolulu time (8:17:30 Pacific daylight time) and two hours later the shocks were continuing.

LOS ANGELES COUNTY GRAND JURY INDICTS MITCHUM, THREE OTHERS

LOS ANGELES, Sept. 8. (AP)—Actor Robert Mitchum, Starlet Lila Leeds and two others will be re-booked today on narcotics charges as a result of grand jury indictments issued against them.

The four, including Dancer Vickie Evans and Robin Ford, a real estate agent, were indicted by the county grand jury yesterday on two counts—possessing marijuana and conspiring to possess the drug.

Mitchum, 31-year-old handsome leading man, and the other principals were invited to appear before the grand jury yesterday, but declined to do so. The jurors acted after hearing Capt. Lynn White, head of the police narcotics squad,

Reds Kidnap 19 Western Sector Police

BERLIN, Sept. 8. (AP)—Russian tommy guns and Soviet sector police kidnaped 19 western sector police today, after the Soviet commandant had guaranteed them safe passage from Berlin's besieged city hall.

They were taken from a French convoy at the Lustgarten, only a few blocks from the city hall—which is in the Soviet sector of this divided, blockaded city.

As the 19 policemen and their commander were being taken away, a German photographer was hauled away a French officer protested that the Russians were "pulling some funny business."

"You mean this is a plain double cross, don't you?" asked an American reporter.

"Yes," snapped the Frenchman.

The German release from the encircled city hall had been negotiated by the French.

Russian soldiers and their commander were taken away yesterday. They prevented anyone from entering the building or bringing in food.

It was an apparent effort to starve out the 19 western sector police who had been brought into the building to help protect the anti-Communist city assembly from communist-led demonstrators.

Both Senate Race Forces Request Probe

Justice Dept. Says Check-up Isn't Ordered

WASHINGTON, Sept. 8. (AP)—The Justice Department says both sides in Texas' hot Senate race have asked the department to investigate the voting.

But, "there has been no investigation ordered," Dean Schedler, department information officer said last night.

U. S. Rep. Lyndon Johnson and Former Gov. Coke Stevenson were opponents in the election. When the Texas Election Bureau ceased its unofficial tabulations Saturday, Johnson was ahead 162 votes. The votes will be canvassed officially Sept. 13.

Schedler said the department had no intention to move in on an election matter of only state concern. But, he added, "of course" the department would go to work on any election where there is an actual showing of a federal law violation.

Officials declined to say what charges were made by the opposing factions in Texas.

The Dallas Morning News in a story from Walter Hornaday of its Washington Bureau says Atty. Gen. Tom Clark yesterday "ordered the Justice Department criminal division to check reported irregularities" in the runoff election.

The news says Clark acted after receiving complaints from "Houston and other points in the state." It quotes Asst. Atty. Gen. Alexander Campbell, head of the criminal division, as saying an immediate study of complaints will be made by the election fraud section, headed by Abbott Rouse.

"Messages received by Clark mentioned Duval, Cass, Wharton, and Eastland as counties where checks should be made. Campbell said there were other counties listed," the news says.

Blunt Words Mark Presidential Race In Michigan Area

DETROIT, Sept. 8. (AP)—The opening Michigan skirmish between Republicans and Democrats forecast today a hot-warred presidential campaign.

President Truman and Harold E. Stassen, a substitute GOP opponent, handed out some tough political talk in their kickoff speeches in this industrial heart of America. Barring for Gov. Thomas E. Dewey, the Republican nominee, Stassen last night said the President had made "a record of failures—failures at home and failures abroad."

He called Mr. Truman "a complaining candidate" who used "an extreme demagogic appeal" and who was trying "to benefit politically by deceiving labor."

He said the President had followed Henry A. Wallace's economic theories, adding:

"Wallace followed those who had no faith in America and the American people suffered an inflation."

"With a record of little judgment and less faith," Stassen thundered, "he (the President) once again sets himself up as a prophet of doom and attempts to arouse in America and unreasonable, nameless fear of future depression, unemployment and chaos if he is not returned to office."

Tobacco-chewing Herman, disporting the same scariest suspensions his father wore, denounced President Truman's civil rights program as a menace to "white supremacy" and southern traditions. Rural followers rallied him with shouts of "You tell 'em, Hummon."

Clux Klan for his "white supremacy" stand. Cross-burnings in Negro residential sections of Perry and Valdosta marked the primary eve.

The controversy reached a burning pitch in a rough and tumble slant-bank campaign contest today came to the court in the resort—the people's vote in the primary, equivalent to election in Georgia.

The 35-year-old Talmadge received the endorsement of the Ku Klux Klan for his "white supremacy" stand. Cross-burnings in Negro residential sections of Perry and Valdosta marked the primary eve.

BOHUS BENES
... looking for job

Benes' Nephew Quits Position With Czechs

SAN FRANCISCO, Sept. 8. (AP)—After 20 years in Czechoslovakia's diplomatic service, Bohus Benes is a voluntary exile today—and looking for a job.

He resigned yesterday as Czech consul general here, predating his formal retirement to last Friday—the day his uncle, Dr. Eduard Benes, former Czech president, died in Prague.

"I am not and cannot be a Communist," the 47-year-old Benes explained to reporters. "Marxism makes use of the inhuman methods of Nazism and Fascism."

As newsmen gathered to hear his announcement, Dr. Erwyn Munk, Czech embassy counselor, stormed into Benes' office demanding to read the statement of resignation. Benes, bemused, left it with Munk in an adjacent room and told the reporters:

"He is a Communist and a member of the embassy in Washington. Perhaps he came to 'enlighten' me on the 'advantages' of the regime."

Munk later said he was just in San Francisco on vacation and knew nothing about the resignation. It was "suspected," however, he said, because "Benes is not in sympathy with the new government."

He telephoned Czech ambassador Ladimir Outrata in Washington and a few minutes later announced that J. Kyslyovsky would come from the New York consulate to replace Benes here.

Forty Coke Votes Found In Dallas

DALLAS, Sept. 8. (AP)—Forty more uncounted votes for Coke Stevenson in the U. S. Senate race were found on a Dallas voting machine today.

The machine showed 113 votes for Stevenson and 73 for Lyndon Johnson. The votes would reduce Johnson's lead in the unofficial tabulation to 122 votes.

The machine was at Precinct 131, at the Clinton P. Russell school in Dallas. Returns from one voting machine in the precinct had been previously signed by Mrs. L. C. Harris, election judge for that precinct. However, no returns whatever had been turned in, in the second voting machine in that precinct.

Rayburn To Speak For Loyal Demos

TEMPLE, Sept. 8. (AP)—Sam Rayburn will speak at a statewide rally of the loyal Texas Democrats Monday night in Fort Worth.

Byron Skelton, state chairman of the loyal democratic organization, last night announced that Rayburn had "accepted with pleasure" the invitation.

The rally on the eve of the state democratic convention will be held in a downtown church. The time has not yet been set but Rayburn's speech will be carried on a statewide broadcast, Skelton said.

Commenting on the States Rights Democratic meeting in Dallas today, Skelton said: "I think that all who subscribe to those beliefs should go to that meeting. They should have their own party—they are not Democrats."

Midland Engineer Also A Fatality

Two Big Spring men were among the victims of a head-on collision which claimed three lives five miles east of Midland Tuesday evening.

Melton Doris Lepard, 23, driver of a tobacco company truck, died at 3:30 a. m. today in a Midland hospital, and his companion, tentatively identified as Havner Tucker, also of Big Spring, was killed instantly.

D. B. Snider, 69, Midland, veteran Diesel engineer for Texas Electric Service company, driver of a pick-up truck, died at 9:30 a. m. today at Midland of injuries sustained in the crash.

Snider had been in Big Spring to work on some Diesel equipment for TES company and was returning to his home in Midland, where he had lived for 19 years. He had been with TES for 32 years.

Officers at Midland said that the two machines met almost head on at about 8 p. m.

W. B. Baldwin, Odessa, who topped a rise where the crash occurred seconds after the impact narrowly escaped injury when a pile of equipment from the pick-up toppled on to his car. While his automobile was damaged, he escaped injury.

Identification of the man in the car with Lepard was not positive, but Midland authorities said that a registered letter receipt found in his pocket showed him to be Havner Tucker. The letter had been sent to Mrs. G. L. Tucker in Manchester, Red River county.

It was not possible to identify him by phone and relatives were said enroute to Midland to view the body. Routine sources here had no record of Tucker's residence in Big Spring and the return address on his letter gave general delivery as the place to receive his mail.

Lepard's body was brought to Nalley Funeral home here Wednesday morning to await completion of arrangements. Efforts to contact his parents, Mr. and Mrs. Carl Lepard, who were enroute to Hot Springs, N. M., had not been successful at noon Wednesday.

His survivors include his wife, Mrs. Patsy Sue Lepard, 1104 E. 13th; his parents; two brothers, Alton Eugene Lepard, Midland, and Richard Leon Lepard, Big Spring; a sister, Mary Lou Lepard, Big Spring; his grandparents, Mr. and Mrs. Dick Miller; uncles Dayton, E. D. and T. L. Miller and W. C. Lepard of Big Spring and Idis Lepard of Oakland, Calif. and aunts Mrs. Frances Crews and Mrs. M. L. Madden, Big Spring.

Lepard was an employee of the Liggett-Myers Tobacco company. The business reported service listed 94 failures last week, compared with 96 in the previous week.

DALLAS CONVENTION

States' Righters Organize As Party

DALLAS, Sept. 8. (AP)—States Rights Democrats acted today to see that their presidential ticket would be on the Texas General Election ballot.

Statewide convention had these purposes:

1. Organization of a States Rights Democrats Party in Texas.
2. Naming Governor J. Strom Thurmond of South Carolina as that party's candidate for president, and Mississippi as its candidate for vice president.
3. Selection of 23 presidential electors with a States' Rights label.

Thurmond was here to accept his nomination in a speech at a night rally.

He arrived by plane yesterday with Mrs. Thurmond, predicting: "We expect to carry enough states in November to send the election to the House of Representatives where we will have as strong a voice as the northern states."

The strategy of Texas States' Rights Democrats includes a battle for control of the state's regular Democratic Party organization. They will try to take over that organization at the State Democratic convention in Fort Worth Sept. 14. If they do they will have to endorse Thurmond and Wright instead of Truman and Barkley.

Thurmond made a brief speech after his arrival yesterday from South Carolina.

"Even if Truman gets less support than Landon did in 1936, and the election does not go to Congress, the placing of Texas and other southern states in the States Rights column will make us a strong minority party—a group which can not be ignored by the gang trying to foist on us some of Joe Stalin's favorite laws," Thurmond said in the broadcast.

JAPS BAN STRIKE
TOKYO, Sept. 8. (AP)—The government's ban against strikes by its workers is quelling Communist strikes, labor leaders said today.

Gov. Thurmond speaks in Dallas tonight, will deliver another address in Lubbock Thursday night. He primarily is stamping the South with an attack on the proposed FEPC laws, and is declaring that the projected civil rights program is "lifted bodily from the All States law authorized by Joseph R. Lindley, about 20, was due to an overdose of phenobarbital. The body was found in a hotel room here Sunday. The body was sent to Nixon, Tex., for burial.

Armed police were seen patrolling public buildings, including the postoffice, which houses international communications.

Phenobarbital Death
ODESSA, Sept. 8. (AP)—Justice today the Peace M. Newman yesterday said the death of William Robert Lindley, about 20, was due to an overdose of phenobarbital. The body was found in a hotel room here Sunday. The body was sent to Nixon, Tex., for burial.

Labor Outlook In U. S. Appears Darker Today

Three Strikes Continue, Phone Walkout Seen

By the Associated Press

The nation's labor outlook appeared darker today with continuation of three major strikes and the threatened tieup of the country's telephone service.

Some 64,000 workers remained idle in work stoppages in the oil, trucking and shipping industries while a CIO union set Sept. 17 as a strike date for 25,000 telephone workers.

The CIO Association of Communications Equipment Workers, installers of telephone equipment said the walkout would affect 2,300 Bell Telephone Co. locations in 43 states. The strike was called against the Western Electric Manufacturing Co., over wages and working conditions.

The eight-day-old trucking strike in New York City and Northern New Jersey by some 15,000 AFL teamsters showed little signs of early settlement.

The strike affected many segments of business and industry. A "critical" situation in New York's milk supply because of a shortage of fiber containers was reported, and consumers were finding dwindling food supplies on grocery store shelves. The city's huge garment industry was reported 50 per cent behind in making deliveries and continuation of the walkout may force the layoff of 38,000 textile workers.

Baylor To Get \$1 Million Grant

DALLAS, Sept. 8. (AP)—Baylor University is scheduled to receive \$1 million of the \$10 million denominational budget to be shared by fourteen Texas Baptist institutions in 1949.

The executive board of the Baptist General Convention of Texas yesterday approved recommendations on how the institutions would share in the budget.

The board's suggestion must be approved by the Baptist General Convention at Houston in November. In the past the board's recommendations have been followed.

The amount awarded to Baylor includes the main university at Waco, the schools of nursing and dentistry in Dallas and the school of medicine in Houston.

The budget adopted by the board yesterday represents a six-million dollar increase over the 1948 budget.

Other allotments: Hardin-Simmons University, Abilene, \$500,000; Howard Payne College, Brownwood, \$400,000; East Texas Baptist College, Marshall, \$366,666; Mary Hardin-Baylor College, Belton, \$333,333; Wayland Baptist College, Plainview, \$333,333; San Marcos Baptist Academy, San Marcos, \$166,666; Decatur Baptist College, Decatur, \$133,333; and University of Corpus Christi, \$100,000. All these figures are dependent on the total budget figure being raised.

Also included are \$2,900,000 for what was described as "southern causes" and \$1,100,000 for "state causes."

Police Guard Set For Rites

PRAGUE, Czechoslovakia, Sept. 8. (AP)—State funeral services will be held under close police surveillance today for former President Eduard Benes.

Strict security precautions have been taken throughout Prague following interior ministry reports that attempts would be made to "desecrate" the funeral. Sokol—a conservative cultural and gymnastic organization—was mentioned by the ministry as likely to hold demonstrations. Incitement from "abroad" was blamed.

Benes' body was removed this morning from the Hall of Resistance, where his mourning countrymen had marched past steadily for two days, to the Hall of Fame in Prague museum.

Several thousand persons kept vigil outside the hall to see the body taken away.

Scores of police guarded the center areas of the city. They kept large groups from assembling in the lower part of the square, but let spectators mass around the museum.

Armed police were seen patrolling public buildings, including the postoffice, which houses international communications.

Cotton Crop Of 15 Million Bales Forecast

WASHINGTON, Sept. 8. (AP)—A cotton crop of 15,219,000 bales of 500 pounds gross weight was forecast today by the Agriculture Department.

This estimate is 50,000 bales more than the 15,169,000 bales forecast a month ago for seventh largest of record.

It compared also with 11,815,000 bales produced last year and 12,014,000 for the 10-year (1937-46) average.

The department estimated the acreage for harvest at 23,323,000 acres, compared with 21,148,000 harvested last year and 23,845,000 for the 10-year average.

The percentage of the acreage in cultivation on July 1 which is expected to be abandoned was put at 1.4 per cent. This compared with 1.1 per cent abandonment last year and 1.9 for the 10-year average.

Condition of the cotton crop on Sept. 1 was put at 82 per cent of normal compared with 73 a year ago and 71 for the 10-year average. The yield of lint cotton per acre was indicated at 313.2 pounds compared with 267.3 last year and 254.2 for the 10-year average.

The indicated percentage abandonment, the acreage for harvest condition of the crop, the yield per acre and production, respectively, for the southwestern states were reported as follows:

Arkansas 1.3; 2,295,000; 89; 429; and 2,050,000; Louisiana 0.9; 932,000; 79; 373; and 725,000; Oklahoma 4.0; 1,032,000; 74; 163; and 176; and 3,300,000; New Mexico 0.6; 214,000; 94; 550; and 245,000.

Dewey Will Open Campaign In Iowa

ALBANY, N. Y., Sept. 8. (AP)—Gov. Thomas E. Dewey will open his campaign for the presidency Sept. 20 with a speech in Des Moines, Iowa.

The Republican presidential nominee's campaign manager, Herbert Brownell, Jr., said in announcing this today that the address would be delivered at Drake Stadium.

The subject matter of Dewey's first speech was not disclosed.

The New York governor will speak from 8 to 8:30 p. m. Central standard time. The address will be broadcast over the CBS and Mutual networks.

'HUMMON' PRESSES FOR COMEBACK

Georgia Voters Write Their Decision In Strange Double-Governor Case

ATLANTA, Sept. 8. (AP)—Georgia voters wrote their decision today in the strange case of the two governors.

A record total of 1,195,183, among them 138,870 Negroes, were registered to decide a flaming, 20-month-old issue between Herman Talmadge and Gov. M. E. Thompson in a Democratic primary.

These men were the "two governors" who blazoned the state in headlines across the continent early in 1947.

First, Talmadge won the job by a legislative vote as successor to his fiery, red-gallused father, "Old Gene," who had been elected in 1946 but died before he could take office.

Thompson, a school man with a Ph. D. Degree, claimed the office because he had been elected lieutenant governor. The state supreme court backed him up, and Talmadge, after sitting in the governor's chair for three months, left with a defiant "I'll be back."

The two have been at it ever since, bandying back and forth between them such issues as "white supremacy," civil rights, racial segregation and Thompson's record in office.

The controversy reached a burning pitch in a rough and tumble slant-bank campaign contest today came to the court in the resort—the people's vote in the primary, equivalent to election in Georgia.

The 35-year-old Talmadge received the endorsement of the Ku Klux Klan for his "white supremacy" stand. Cross-burnings in Negro residential sections of Perry and Valdosta marked the primary eve.

Packards Parts Available

H. M. Rowe, Big Spring's new Packard dealer, has announced the opening of a complete parts department at his present location, 214 East Second street.

Although space is limited in the quarters currently occupied by Rowe, a full line of genuine Packard parts is being made available at the local outlet. The department will carry all items required for a Packard dealer installation. Included on the list are all types of parts for Packard models dating back to 1937 and 1938, and many will be available for older models.

Rowe, who was appointed Packard dealer here several weeks ago is in the process of arranging for larger quarters, but in the meantime he will continue to operate his establishment at the present address. He is handling sales of new Packards in this area as they become available, and at the same time maintains a complete repair shop for all makes of automobiles. Although he has had many years of experience in the automobile repair business, the Packard agency is the first dealership for Rowe, and he already has become an enthusiastic booster of the new Packards. At present he is anxiously awaiting release of a new advertising series which the company is sponsoring but which does not mention the name of the automobile.

WHAT GIVES 'ROUND TOWN

By Leatrice Ross

This is how we spent the Labor Day holiday—we and our telephone. Clark Sunday called to ask if we knew where Juanita Sewell was. Wanting to know how long Bill VanCrunk was going to be here, G. C. Broughton was next on the line. Mary Ann Goodson phoned to say that Jimmy Carter had spent the weekend here from Lubbock. Junior Gay had a gripe to get off his chest; we listened.

An anonymous soul phoned to ask "if this was where the little boy lived who cuts grass for \$50" (it isn't, so sit back down).

Labor Day wouldn't be the same if someone didn't go to Carlsbad Caverns—this year it was Vevagene Apple. Dick Clifton came home this weekend from New Orleans, where he spent two weeks with a Naval Reserve outfit. Jim Nummy spent the holiday in Abilene. Gene Green, former resident, was here Sunday from Sunday.

Other visitors here during the holiday: Herbert Kidder, former resident, was here from Port Arthur. Stewart Smith, Odessa, spent the weekend with Joe Bruce Cunningham. Jack Guiley of Monahan was in town Saturday. Getting away this weekend for New York City and school was Cornelia Frazier.

Twosomes out over the weekend: Francis Weir, O. F. Priest, Jr.; Evelyn Merrill, Jack Guiley; Mae Barnaby, Bobo Hardy; Babe Lytle and Gill Barnett; Jo Barnaby, Gerald Burrus; Helor Blount, Jack Riggs; Robbie Piner, Murray Patterson; Betty Lou McGinnis, John Bill Gary; Wanda Richardson, Cecil Heath; Anna Claire Waters, Ed Boulton.

Among early registrants for the fall semester at Howard County Junior college: Bill Hix, Billy Wozencraft, Rogers Miller, Beverly King, Roland Evans, Leroy Christoffer, Gil Barnett, John Rudeseal, Jr., T. D. Weaver, Dean Curlee, Louis Manely and Jack Griffin.

Leroy Christoffer is home after spending the summer in Oregon.

Disa and daughter Joyce Sewell had her fortune told some weeks ago (unprofessionally by Jimmy Carter) and was warned that she would meet many new men. She did. She's working at the draft register office. Time is ripe for making plans to attend the Texas State Fair in Big D, Oct. 9-24. A weekend in Dallas is well worth anybody's planning.

Big Spring High school opened its door for the fall Tuesday. Registration is set at HCJC for Sept.

Jennie Kimbrough, Minnie Murphy, Amanda Hughes, Beatrice Mitchell, Jacqueline Wilson, L. M. Parker, Gene Crenshaw, A. C. Wilkerson, Eugene Thomas, Mozell Herring, Sonora Murphy, Gertrude Cline, Tracy Thomason, Albert Gilliland and Lois Foresyth.

Initiation was held for William Pindell and Dora Miller at the John A. Kee Rebekah Lodge at the Settles hotel, with Mae Darrow, noble grand presiding.

Billie Blitch, visitor and 34 members were present.

Cliff Dunagan, manager of Montgomery Ward's in Laredo, is visiting here with Mr. and Mrs. Harold Canning and other friends and relatives.

Mrs. C. E. Johnson, Jr. Wins High Score At Bridge

Mrs. C. E. Johnson, Jr. was high scorer at the Nite Out Bridge club Wednesday in the home of Mrs. Ode Henson.

Other winners were Mrs. "rentia Bass, second high; and Mrs. James C. Jones, bingo.

Refreshments were served to Mrs. Durwood McCright, Mrs. Arthur Caywood, Mrs. Garrett Patton, Mrs. Jack Terry, Mrs. Johnson, Mrs. Bass, Mrs. Jones and the hostess.

Mrs. Johnson will be the next hostess.

Big Spring Has Fine Team, Players And Swell Pilot

Play-off in the Longhorn baseball league gets underway this evening, and Big Spring will be out to take double honors.

For the second consecutive year, the Bronchos have won first place in regular season play. The championship is settled in the play-off between the four top teams, but the pennant—the honor of winning day in and day out over the rugged stretch is the property of the Big Spring team.

Of course, all of us would like to win the play-off series, too, and we have high hopes that we will. But regardless of what happens in these short series—and anything can happen—a word of praise ought to be said for our players and the management.

Time To Strike Is While The Paving Iron Is Still Hot

Hearings have been ordered on 112 blocks of paving for the city of Big Spring.

How much of this will materialize remains to be seen after residents have had an opportunity to testify whether they wish the improvements. Some of that included in the plans frankly represents areas of need rather than demand. Some few blocks are in areas where people want but honestly cannot afford the paving.

However, all of these may not amount to so very many blocks. In addition, an effort will be made to take in other

Last year's team was predominantly Cuban. These young men have acquitted themselves well, both on and off the playing field. They can count many, many people here as friends as well as admirers. Both their native country and Big Spring can share pride in them.

And to Manager Pat Stasey is due a hearty word of thanks. Ball clubs are like newspapers—almost anyone can run them better than the guys who are actually on the firing line. But when a man wins a couple of pennants in a row—no matter how much talent made available—and when he clouts the hide off the ball in the process—well, he's just a pretty good egg—that's what.

streets where owners of abutting property are anxious to have the improvement. In all, it is not improbable that the final project will be right around 100 blocks. That would give us about 200 for the year and would certainly transform our street situation.

The city has had to proceed on warrants to finance its portion of the anticipated program. It may be argued that paving should be on a pay as you go basis. Equally realistic is the probability that paving fever might subside. The iron is hot; now is the time to strike.

Death Wears A Thousand Faces While On Highway

By JAMES MARLOW
WASHINGTON, SEPT. 7. (U.S.)—DEATH has a thousand faces, and he wore a lot of them on the highways the past few days.

At least 400 people were killed in automobile accidents over the labor day week end.

I've just come back from a 2,800-mile automobile trip through the South and some of the things I saw would make your heart stand still.

I didn't see death outright. But I saw some of his disguises as he waited for a chance to pounce.

He was in the wind in the hair of a girl on the back of a motorcycle; he was in an old jalopy trudging wormlike up a busy hill; he was in a car that passed another on a curve; he was in a limp left arm.

I saw maybe a dozen girls on the back of motorcycles, their arms tight around the man driver in front of them.

The wind was in their hair, thrilling them, as they rocketed along, doing 60 or 65 miles an hour on a highway where the limit was 50.

AT THAT SPEED ON A BUSY ROAD one slight twist of the front wheel, one brief skid, one ugly hole in the road could crash them into a ravine or an oncoming car.

The faces of some of the girls were tense. Some were laughing. But why did they take a chance like that?

Maybe they loved the man who drove them. Or maybe he dared them. Or maybe they didn't have enough imagination to know how bloody death can be.

Then there were the old jalopies, one of the worst menaces on the highway. There were plenty of them.

Tired, broken down old cars inched along at 20 or 25 miles an hour on an open highway where everything else was doing 50 or 75 miles an hour.

They held up traffic. The routine was always the same. They came to a hill. They wheezed up it.

Faster cars, knowing better than to try

to pass on a hill, slowed up behind them until all were crawling over the hill.

OVER THE HILL THEY WENT, IN single file. There was a dip in the road and another hill a little way beyond.

Those slowed up faster cars wanted to pass the jalopy before the crawl up the next hill began.

One by one they peeled off, pulled out into the opposite lane. They had to build up speed fast to cut around the jalopy and get back into their own lane. If they didn't they'd crash into an oncoming car.

Nearly every jalopy on the road was a hazard.

Then there were the bright boys. The ones who ignored all the traffic signs whether they were going up a hill or around a curve.

When they did that they had to move out into the on-coming lane although they couldn't see what was coming over the hill or around the curve in that lane.

BUT THEY TOOK A CHANCE. ALL that I saw escaped without a collision but that was only because at that instant no other car was coming over the hill or around the curves.

One of the worst dangers on the road was the driver with the limp and lazy left arm.

He'd be doing 50, maybe, and stick out his left arm. But which way was he going to turn, left or right off the highway?

If you were behind him, you couldn't tell from the way he used that left arm.

It tilted upward just a little bit from the elbow—instead of straight up when he was making a right turn, or straight out, with the finger pointing left, when he was making a left turn.

Worse than that driver was the one who didn't use his arm at all but suddenly turned left or right without any warning to the cars behind him.

But the boys who really raised your hair were the ones who suddenly shot into a busy highway from a hidden side road without any pause to see what was coming.

U.S. Musicals Have Grown Up And Taken On Stature

By CHERYL CRAWFORD
For JACK O'BRIAN

It's all a matter of viewpoint, of course. It used to be that you talked about musicals and you thought about legs, girls, comedians. Today—well, not so long ago someone introduced me to someone else as "Miss Crawford, the producer of musicals." And this someone else said, "What kind of musicals?"

Which gives one to think. Musical have grown up and taken on stature. They are, today, a distinct and important art form. As a matter of fact, it seems to me,

producing musicals today has become an intellectual challenge. There are some exceptions, naturally, but by and large, audiences will no longer accept shows premised entirely on a lavish display of costume and femininity. Nor will audiences accept (and, again, there are exceptions) the saccharine never-never-land operettas which used to have fairly easy sledding. Audiences today insist on adult entertainment—with or without music.

You want proof? "Porgy and Bess," "One Touch of Venus," "Street Scene," "Oklahoma," "Carousel." And not to be unduly modest, "Brigadoon."

When I first began to work on the production of "Porgy and Bess," some well-meaning friends were much worried. "It's too drab a story," they told me. "You can't do things like that—the story's not pleasant enough." Well, of course, they were wrong. And largely as a result of my experience with that production, I have evolved a sort of pattern. When plays are submitted to me now—whether or not they are in the musical form—I first investigate the story. Does it hold me? Is it good theatre? Does it intrigue me? Is it kind, from a simple dramatic standpoint. If the answer is yes, I go on from there. What can be done with it? How and under what circumstances should it be produced?

Each show presents its own particular challenge. In the case of "Brigadoon," I felt that we didn't need stars; we needed bright young people who could both sing and act.

Washington Merry-Go-Round — Drew Pearson

Senator Robert Taft Has His Eye On Foreign Relations Group Seat

By ROBERT S. ALLEN
For Drew Pearson

WASHINGTON — Sen. Robert Taft has a big surprise up his sleeve for the Dewey high command.

The able, forthright Ohioan intends to become a member of the crucial Senate Foreign Relations Committee in the next Congress.

There will be two committee vacancies. Sen. Arthur Capper, Kan., and Sen. Wallace White, Me., long-time committee members, are retiring from public life. Taft's high seniority entitles him to one of these places if he wants it.

He wants it. He is prepared to give up his chairmanship of the Labor and Education Committee or his seat on the Finance Committee to shift to Foreign Relations.

If Dewey is elected, Taft's presence on this key committee will mean headaches for the Republican administration. Taft has firm views on large-scale foreign spending and foreign ties. These views, in a number of respects, do not square with those held by Dewey and his two principal foreign-affairs advisers, John Foster Dulles and Sen. Arthur Vandenberg. Also, Taft has no peer in Congress as a resourceful and determined fighter.

IN THE PAST YEAR, Under Vandenberg's deft chairmanship, the Foreign Relations committee has been overwhelmingly "internationalist." Practically every important vote has been 13 to 0 that way.

That unanimity will cease with Taft on the committee.

Last spring, he reluctantly bowed to Vandenberg's stand on Marshall spending and other foreign questions because of the split in GOP command in the Senate. Taft was in charge of domestic affairs, and Vandenberg the foreign field. Also, both were presidential possibilities and for the sake of party harmony, Taft accepted Vandenberg's leadership in his special field as the latter did Taft's in his area.

But those factors will not exist in the next Congress. Taft will have a free hand, and he plans to use it where he thinks it will do the most good.

Note: Taft does not aspire to the role of Senate GOP floor leader. He can have it if he wants it. He doesn't. His choice is Sen. Kenneth Wherry, Neb.

DIFFERENT RABBITS When Baron Gilverguy, dapper Belgian ambassador, was invited to attend the 35th Infantry Division reunion in Omaha, he was advised to wear his ornate official attire.

"The folks out there don't often see a foreign ambassador," he was told, "and they'll expect something extra special. You must take along all your fancy gear."

"I believe I understand what you mean," the bachelor diplomat replied. "They have a lot of jack-rabbits out there, but no Belgian hares."

HARD DECISION President Truman is gingerly grappling with a new kind of "Red" issue.

It involves making a choice between two conflicting personal friendships and doing justice to the Alaskan Indians. The president, apparently, is finding it a hard decision because he has been stalling on it for weeks.

Interior Department officials drew up an order to establish these lands under provisions of

the Alaskan Purchase Treaty. The Federal Council of Churches and other organizations are vigorously supporting the red men's demands.

But northwestern fishing and timber interests vehemently oppose the reservations. They will cut into their lush profits. And fronting for these interests is dapper young Sen. Warren Magnuson, Wash., who makes a great pretense of being a staunch New Dealer. A White House crony, Magnuson has exerted potent undercover pressure to stall creation of the reservations.

But down in New Mexico another White House crony is very irate over this. He is former secretary of agriculture Clinton Anderson, running for the Senate against flamboyant Maj. Gen. Pat Hurley. Anderson is clamoring for speedy approval of the reservation order.

New Mexican Indians vote this year, and in the close contest their ballots could be decisive. Further, Hurley is ready to pounce on the issue as an example of the president's "indecency" in his Civil-Rights pronouncements.

It will be interesting to see which way the president and Interior Secretary Krug jump on this question.

HOUSING CRISIS The big Greco-Roman National Archives building, on lower Pennsylvania Avenue, is up against a serious housing shortage. It is running out of space to store the endless flood of government records and files. Archives officials see no other alternative but to ask Congress for

a new building.

The bulging condition of National Archives is an illuminating commentary of the stupendous amount of paper-work ground out by government agencies. The archives building is only 14 years old. Starting with 1,000,000 cubic feet of storage space, the structure is fast filling up its last 150,000 feet. Meanwhile, permanent government records that national archives must preserve are piling up at the rate of 250,000 cubic feet a year.

Rep. Sam Rayburn, Tex., former speaker, is in heavy demand as a campaigner. The Democratic National Committee has more requests for him than for any other member of the House—Maryland veterans of the famed 28th Infantry Division are blasting the Army for demoting their wartime commander, Maj. Gen. Charles H. Gerhardt, to the grade of colonel. Leon Henderson former OPA director and head of the Anti-Communist Americans for Democratic Action, is the economic consultant for a number of the largest industries in the country. While the U. S. is sending millions of dollars' worth of machinery and other supplies to China, the Chiang Kai-Shek government is allowing huge quantities of surplus war goods to rust untouched on Pacific Islands. U. S. Justice Department officials say positively there will be a perjury indictment in the Chambers-Riss case, but won't indicate which one will be prosecuted.

Hollywood — Bob Thomas

Goddard And Meredith Planning Film In France

HOLLYWOOD, (U.S.)—That international couple, Paulette Goddard and Burgess Meredith, are planning to produce their own pictures in France.

Meredith is leaving for Paris to appear in "The Man on the Eiffel Tower" with Charles Laughton and Franchot Tone. Paulette will join them soon as she finishes "The Mack of Lucretia" and then they hope to materialize their dream of producing a picture abroad.

John Lund appears to be happy in his "Lucretia" role, the one Ray Milland turned down and took a suspension for. "The part has been rewritten," says John, "and it's not so flimsy as it was." The original role was too swishy for Ray.

Elizabeth Taylor and army's Glenn Davis are a surprise and intriguing twosome. Not that I'm predicting a romance—but I hear they've been together quite a bit prior to his appearance at the Rams-Redskins game. It's reported they even played some touch football at her beach home.

Loretta Young is back at 20th-Fox after an eight-year absence and she has her old gang working with her again. When we speculated about whether her "Rachel and the Stranger" (with Bob Mitchell and Bill Holden) would make money, she replied: "That's why I don't produce my own pictures—So I won't have to worry about whether they make money."

Jennifer Jones says she'd like to do the "Romeo and Juliet" or "Toss of the D'Urbervilles"

next. I asked if her long-run "Portrait of Jenny" is finally finished. "I think so," she answered, "but you never can be sure."

"The Heiress," another Marathon production, is expected to wheeze to a halt this week. It will show you how long it has been shooting—Mona Freeman started her role in it, then did a big western, "Streets of Laredo." Now she's back finishing up her role in "Heiress."

Cereal King Founded Post City As A Colony Project

If you are a cereal eater or listen to the radio or follow the papers and magazines, the name of C. W. Post is certainly not unfamiliar. His inventive genius and tremendous initiative pioneered the breakfast food field and netted him a whopping fortune.

What many people do not know is that Charles William Post executed near here a colonization effort second only to the Texas colony of Stephen Austin.

As a young man, Post settled down to the prosaic task of earning a living as a salesman for a hardware company. So clever was he with developing new wrinkles for machinery that he became manager of an implement company. Internal troubles threw the concern into an uproar, and in the midst of it all, Post's health failed.

Far and wide he searched for a climate and conditions which would restore his vitality. In his wanderings, he came upon and fell in love with West Texas. Then a wilderness, the sprawling plains and rugged brake country unfolded in the imagination of Post as a prosperous and busy area. If someone only would make the land available, if someone would only build houses and industries to employ people and process products of the rich soil—these were things that C. W. Post pondered.

Later he went to Battle Creek, Mich., and there hit upon his cereal manufacturing idea. He not only regained health, but unbounded wealth as well. He knew what he wanted to do with his money.

Back to Texas he came in 1906. From the Slaughters, Connells, and Loftins, he bought 350,000 acres of land, mostly on the plains of Garza and Lynn counties for \$3.50 an acre or a cool \$1,225,000. His

original dream called for a city on the plains and he pitched his tent and established a commissary for the beginnings of Closs City named in honor of his son-in-law Harry Closs. Because of the tents, it came to be known as Ragtown. Somehow, Post shifted his attention to a new location which became Post City.

First he erected a large block of stone buildings, a stone hotel and large office building. Then he turned his attention to residences and long mule teams freighted great volumes of material from Big Spring to Post. The philanthropist and pioneer developer organized a company to construct modern homes which sold for \$2,500 at only \$25 a month plus four per cent interest, the latter unheard of in those days. He also broke up his holdings into 150-acre tracts and promised to sell, complete with a new home, for only \$2 per acre down and 75 cents per acre annually at four per cent until amortized.

He built himself a beautiful home to which he came two or three times a year. He also established what was then—and still is for that matter—one of the best small textile mills in the country. Today the famous Garza sheets are products of the concern. Through his efforts largely, the Santa Fe railroad built through Post City. Today also many men operate business houses which they bought originally from Post, who was ready to finance those who shared his faith in his model town.

For a frontier country, his development of Post City is probably unequalled in the annals of the country. His work done, he moved on and prepared to tackle other dreams. Death, however, stilled his pioneering spirit in Santa Barbara, Calif. on May 9, 1914.—JOE PICKLE

House That Reds Built Is Beginning To Show Flaws

By DEWITT MACKENZIE
THE STURDY DEFIANCE OF MOSCOW by Yugoslav's tough dictator, Marshall Tito, is echoing sensationally in another important Russian satellite state, and that none other than Poland—one of the pillars of the Bolshevik clan.

The Polish Communist party, with a membership of 1 million is split so wide open that the Red grip on the country is threatened. As high as 50 per cent of the membership is in open revolt. The dissidents are fiercely opposed in general to toeing the party line as laid down by the Cominform and specifically to the socialization of production in Polish peasant villages.

The rebels stand for nationalism as opposed to the internationalism demanded by the totalitarian dictatorship of Moscow. That also is the basis of the row between Tito and the Soviet. These two big nations of Poland and Yugoslavia, whose fierce love of independence has been written in their blood time and again through the generations, want an individual and sovereign existence, although they haven't asked for a severance of the tie with Russia.

LEST THERE BE ANY DOUBT ABOUT the relationship between the Yugoslav and Polish defiance of the master it can be recorded that a Communist party resolution presented at an emergency meeting in Warsaw Monday blamed the "Yugoslav incident" for causing dissension among the Polish Reds. And this, I take it, is a reminder that "a little leaves leaveneth the whole lump." It also is an invitation for us to watch for the working of the leaven in other Russian satellite states.

Polish Communist party leaders from all parts of the country rushed to Warsaw Monday for a council of war on how to deal with the split in the party. This conference assembled shortly after Wladyslaw Gomulka, vice premier of Poland, had been "freed" from his position as secretary general of the party. He had backed the Yugoslav revolt against the Moscow dominated Cominform. His place was taken by Boleslaw Bierut, president of the Polish National Council.

IN CONJUNCTION WITH THE EMERGENCY conference a public communique was issued by the executive committee, notifying the public that there must be "full liquidation" of all members who refuse to follow the Marxist-Leninist line as handed down by Moscow. Furthermore the executive committee slammed down its fist and made known that the Communists intend to jam through socialization of production in peasant villages come hell or high water. This of course was a direct challenge to the dissidents.

Well now, anyone who has followed the course of Communism knows what "full liquidation" can mean. In the past it has meant on many occasions the literal extermination of rebellious elements. In other cases it has meant prison or slave camps or Siberia. Whatever way you look at it, the connotation of that "liquidation" is savage.

THIS GRIM SITUATION GIVES RISE to pertinent questions: Will the liberty loving Poles and Yugoslav dissidents on their intensely nationalistic peoples like the discontented Czechoslovakians? How will it strike these nations of western Europe which are the object of Communist aggression?

There can be no doubt that it will mean a hardening of the defense against the Bolshevik drive. Appropos of this, Miss Florence Hancock, president of Britain's powerful Trades Union Congress, speaking at the annual meeting in Margate Monday, called for a purge of Communists in Britain's organized labor.

The house that Bolshevism has been building in Europe is beginning to display dangerous weaknesses in structure.

Strain Of Modern Living Similar To War Fatigue

By HAL BOYLE
NEW YORK, (U.S.)—PEACE FATIGUE — was any man ever sent to the hospital for that? No.

Yet that has worn out more men than all the worries of wartime.

What breaks a man down? What causes him to be less than he needs to be to keep his version of civilization going?

This is really the key question of the modern world—why do people crack up? It boils down to one word: Strain.

Look at it again: S-T-R-A-I-N. That is one of the most important words in the American vocabulary today. And there is a word for it in every language in the world.

Yet you hardly ever see it in the medical realm. The closest modern doctor comes to it is this new-fangled thing called a "psycho-somatic" ailment.

THIS IS REALLY ONLY A MUMBO-JUMBO word for something the old-time family doctor recognized long ago—that someone with a mental problem too big for him to solve ended up by coming down with a physical ailment, even though he previously had been healthy as a horse is supposed to be.

Actually horses aren't healthy. They are very nervous. But those who bet on horses—humans— are even more freaked.

I fret, for instance, over the insistence by some members of the Army's Medical Corps that there is no such thing as "shell shock."

Having seen men collapse from fear of injury during a bombardment of artillery shells, I know that "shell shock" existed. What you see you know.

BUT BACK TO THE MEN WHO FALL apart in peacetime. Why? Maybe it is an "I-can't-stand-my-wife complex," "I-hate-my-job phobia," "is-this-all-there-is-to-life complex," or "nothing-matters-anyway delusion."

The main thing is strain, the test of spiritual valor at any time. S-T-R-A-I-N. Politicians now call it "tension." But if all who succumb to fear or boredom in wartime are called "combat fatigue" cases, then those who can't stand the post-war gaff are surely entitled to be known as "peace fatigue" victims.

I have in mind harried housewives trying to meet the high cost of living and weary bus drivers crossing a crowded intersection while trying to tear off a transfer for a bewildered old lady still fumbling at her pocketbook to pay the fare. They have "peace fatigue." Who doesn't?

U. S. Immigration Gates Will Be Reopened To Germans

WASHINGTON, Sept. 8. (U.P.)—The United States is getting ready to reopen the immigration gates to Germans living in the Reich. The war-affected bars have been up for more than seven years.

The first of 25,957 Germans to be eligible for admission each year will be chosen soon after a mass registration of applicants in the western occupation zones of Germany and Austria.

State Department officials said today the registration may start this month. The actual date will be set as soon as American consular officials give the word that they are ready to handle the inevitable rush. Two million registration forms have been printed in Switzerland.

The biggest group of applicants

is expected to come from the 600,000 or so displaced persons—those left homeless by the war. Congress has voted to admit 205,000 of these during the next two years.

The new legislation also opened the way for restoring the prewar German quota.

Next to the British, it is the largest of all the national allotments set by the basic 1924 Immigration Act.

School Land Board Considers High Bids On Mineral Leases

AUSTIN, Sept. 8. (U.P.)—The state school land board today had under consideration high bids totaling \$180,777 offered in a mineral lease sale yesterday on 14,568 acres of public school lands.

Sun Oil Co., submitted the sale's highest bid, \$20,304. It was offered on 87 acres in Jefferson County.

The sale included surveyed acreage in Hansford, Jefferson, Pecos, Presidio, Stonewall, Webb, Duval, Eastland, Jim Wells, Yoakum, and Howard counties, submerged tracts in Lavaca Bay in Calhoun County and in Red Fish Bay in Nueces County, and river bed tracts in Goliad, Karnes, Matagorda, Colorado, Palo Pinto, Anderson and Leon counties.

Polio Sets High Mark During '48

AUSTIN, Sept. 8. (U.P.)—Polio set an all-time high record in Texas this year.

The State Department of Public Health reported yesterday that 52 new cases in 27 counties last week boosted the year's total to 1,308 cases. The highest previous record was in 1943 when 1,274 cases were reported for the entire year.

What To Do For That Sluggish, Down-and-Out Feeling

Remember the time when you could eat like a horse, bubbled over with energy, felt happy as a lark? Was it not because you ate the right food? What was it? Digestion was fast and strong as an ox? As age advances the "old stomach" and the "old-churning blood" need help. Now you may again release vibrant energy to every muscle, fibre, cell.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that 888 Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the 888 Tonic formula which contains special, and potent activating ingredients.

Also, 888 Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to grieve with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on 888 Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. 888 Tonic helps Build Sturdy Health.

The CHIROPRACTOR and You

This is One Of A Series Of Articles Published In The Public Interest To Explain And Illustrate The Practice Of Chiropractic

CASE HISTORY No. 541. A former athlete who had been forced out of sport by an apparent injury to the left knee. The knee gave great pain whenever the limb was exerted, even in walking. For 7 years the condition persisted and in the patient's own words: "I spent a small fortune trying to get the knee fixed, but no luck." A few weeks ago the patient read Article No. 2 of this series and visited a Chiropractor. Analysis revealed a pinched nerve in the knee which was traced to a displacement of a segment of the spine. A series of adjustments realigned the spine, released the pinched nerve and thereby removed the cause of the pain.

CASE HISTORY No. 37. A prominent business man who suffered from severe headaches at frequent intervals. Had great difficulty in obtaining sleep. Physical examinations had failed to reveal any abnormality and the headaches and sleeplessness were put down to "nervous tension." However, during a particularly severe headache he was persuaded to visit a Chiropractor. A spinal adjustment was given and the headache ceased immediately. Chiropractic analysis revealed an acute condition of constipation due to interference with the nerves supplying the intestines. The interference was removed by spinal adjustment, and as a result, bowel action became natural and the headaches went.

CASE HISTORY No. 16. A munitions worker suffering from severe "gas pains" in the stomach. Constipation and violent headaches were present. Actually afraid to eat because of the distress that followed. Had not worked a full day for seven months when he brought his case to a Chiropractor. Pressure on the nerves controlling the action of the stomach was located in the spine. Chiropractic adjustments relieved the pressure and within a short time nature restored the digestive rhythm to normal.

WHY YOU ARE ILL! Chiropractors have found that illness and disease are most often caused by pressure upon the nerves which carry vital nerve force from the brain to various parts of the body. The nervous system radiates from the spinal column, and it is here that even slight pressure from a displaced segment of the spine can impede the flow of nerve force from the brain, thus interfering with the function of one or more parts of the body. This nerve interference can be located accurately by the Chiropractic technique. The Chiropractor can then remove the pressure by a simple adjustment with his hands only. Drugs and surgery are not employed. Once the cause of the illness is removed, Nature itself restores the affected part to normal. **FOR FURTHER INFORMATION** concerning the modern Chiropractor and what he can do for you, Phone 419. Appointment only.

Can Black-Draught Help You When You Feel Lousy?

Yes, Black-Draught may help that lousy feeling if the only reason you feel lousy is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental distress, bad breath—and if these symptoms are due only to constipation—then see what Black-Draught may do for you. To keep your car going great... make a date to OIL-PLATE with Conoco Nth Motor Oil!

A special, added ingredient in Nth oil (Patented) fastens extra lubricant magnet-like to your engine's working parts. So strongly is this extra film attached to cylinder walls, it won't all drain down, even overnight!

That means your engine's fine-finished metal surfaces are extra-protected from corrosive combustion acids... from destructive "dry" friction starts. You're extra-protected, too, from power-clogging sludge and carbon.

For great performance, full-time protection, more miles per quart, make a date for...

SCHOOL PROBLEM GROWS

Preliminary Checks Indicate Gain Of 150 Local Students

Preliminary and incomplete checks Wednesday indicated a first day gain in school enrollment of about 150 pupils.

There were no figures available on high school and the eighth grade but there was a gain of about 120 in the elementary grades and 25 in the Lakeview (colored) school.

Dean Bennett, supervisor of elementary education, said that on the whole enrollments had stacked up on space in various schools and can seek to remedy some situations by transfers.

The combined total of West Ward and Airport schools was 519 against

487 for the first day in West Ward last year when this school handled in such a manner that a minimum of rearrangement would be necessary.

First day figures are not always dependable because of low enrollments, he said. By the end of the week administrators will have a fairly clear picture of all the children in the western part and outskirts of the city.

Troop Five Sweeps Scout Court Awards

Troop No. 5 captured both the regular court award and the Shick advancement award at the Big Spring Boy Scout Court of Honor Tuesday night.

The troop is sponsored by the First Baptist church, and Arnold Seydler is Scoutmaster.

Advancements listed by the winning aggregate included Ardis M. McDonald, star award; Paul Jenkins and Jimmy Jenkins, life awards; Carl McDonald, silver palm; Nathan Richardson and Charles Lovelace, double bronze; Charles Seydler, triple bronze. Merit badges went to Charles Seydler, Nathan Richardson, Charles Lovelace, Carl McDonald, Paul Jenkins, Wayne Brown and Jimmy Jenkins. Receiving recognition for 100 hours of civic service were Bill Earley, Pat McKinney, Frank House and Billy Martin, while 10-hour camping awards went to Donald Richardson, Howard Washburn, Jr., Frank House, Jimmy Jenkins, Charles Lovelace and Nathan Richardson.

Other awards presented at the court included first class advancements to Don Anderson and Warren Anderson, both of Troop No. 2; star award to Billy Tubb, Troop No. 4; life awards to Loy Carroll and Glen Perkins, both of Troop No. 4.

Merit badges went to Don Anderson and Warren Anderson of Troop No. 2, and to Jack Little, Bobby Leonard, Glen Perkins, Billy Tubb, and Loy Carroll, all of Troop No. 4. Jack Little, Troop No. 4, received the 10-night camping award.

Scouts Return From Camping Convention

Don Williams of Boy Scout Troop No. 2 and Gilbert Sawtelle of Troop No. 1 have returned from Bloomington, Ind., where they attended the 15th annual meeting of the National Lodge Order of the Arrow.

The annual session which attracted 1,500 members of the Order of the Arrow from 36 states, was held at Indiana University.

On the return trip, the two Big Spring delegates stopped at Ponca, City, Okla., where they witnessed a real Indian celebration. Some 1,600 Indians representing eight tribes participated in the celebration which included tribal dances and other activity.

College Heights, one of the hot spots of congestion, jumped from 259 to 310 for the initial day; central Ward was up from 300 to 318; South Ward gained from 184 to 195; East Ward from 163 to 200; North Ward from 183 to 192. Kate Morrison school in the Latin-American sector alone was down showing 180 the first day of school as compared to 200 last year. Enrollment in this school, however, fluctuates sharply with the harvest.

Lakeview school had 110 pupils for the first day of school as compared to 87 the first day last year. Indications were that the eighth grade total would be somewhere between 180 and 200 and that the high school figure would stack up in excess of 700. Approximately a score new students enrolled the first two days in high school.

The big problem said Bennett, is how to attempt to balance enrollments in the various sections of the various schools. Most schools already are in fair shape for a solution of the problem, but a few have such pressing congestion in some sections that considerable transfers will be necessary because of lack of building space to accommodate further sections.

Virtually all spots on the faculty have been filled with regular teachers.

Plans For Youth Week Shaped

Definite plans have been mapped for several feature activities to be conducted here in connection with "Salute to Youth Week" Sept. 20-25, Lee Milling, committee chairman, reported at a brief meeting this morning.

Other features may be added to the program following another adult leaders session Friday morning, at which time a special film on planning such activities will be shown at the Ritz theatre. The Friday session has been scheduled for 10 a. m. and Milling expressed hope that all adults who are assisting in the planning will attend.

Definitely set up on the schedule are speakers contests, a doll style show for younger girls, a "youth in government" project, a special motion picture for youth, service club participation, and a youth rally designed to climax the program in the city auditorium.

The High Heel Slipper club will assume sponsorship of the doll show. The sponsoring organization will draft rules and regulations and arrange for judging of entries.

The special motion picture, which will be free to youngsters, has tentatively been scheduled for the morning of Sept. 18 at the Ritz. H. D. Norris has accepted chairmanship of the speakers contest committee, and the Business and Professional Women's club will sponsor the youth rally.

Plans are being made for recognition of youth in church services, and some type of competitive event is expected to be arranged for younger boys.

Suspect Held In Local Burglary

City Police this morning were holding a man who is due to be charged with burglary, following recovery of loot which was reported missing from the Banner Creamery's ice station on East Third street.

Officers said the suspect was arrested this morning, shortly after the burglary was reported by employees of the firm.

A screen door was torn from the office at the ice dock and slightly over \$25 in cash and ice coupons valued at approximately \$100 were reported missing, police said. Chief Pete Green said the loot was recovered after the suspect was questioned.

Medical Gadget Racket Running Rampant In U. S.

WASHINGTON, Sept. 8 (U-P)—A food and drug administration official declared today that "unprincipled adventures in the business of furnishing cure-all therapeutic gadgets are rampant."

"The violations encountered in the (health) device field are of a serious character," Dr. Iryin Kerlan, FDA medical officer told the opening general scientific session of the American Congress of Physical medicine.

Although he stressed in a prepared report that most manufacturers are complying with regulations, Kerlan said the persistence of offenders seems to be "directly proportionate to the increasing absurdity of the claims they make for their contraptions."

"Even more tragic," he added, "is the fact that persons turn to these fraudulent prices of equipment for the treatment of serious diseases which require immediate competent diagnosis and rational treatment by a physician."

Describing a few devices he called "A vapor-bath system, consisting of certain non-volatile drugs and plumbing connections between a generator and bath cabinets which could be purchased for \$2,200 was represented recklessly as effective for diabetes, abscess of the lungs, decay of the jawbones, lumbago, and for good measure a host of ills that heretofore have been obscure."

Two Groups Hunting For Red Evidence

WASHINGTON, Sept. 8 (U-P)—Two congressional groups hunted today for new evidence of Communist activities in the United States.

One began probing into the CIO Fur Workers Union, whose president is an avowed Red. The other lined up a whole new set of witnesses to go over claims that Soviet-directed spy rings have been operating both in and out of Washington.

Meanwhile, plans were being laid to re-open the Red-Holly-wood case before the end of next month.

The fur union investigation was launched by a House labor subcommittee headed by Rep. Max Schwabe (R-Mo). He called the

first of 40 witnesses listed for hearings expected to last through next week.

Chairman Hartley (R-NJ) of the full labor committee was told of complaints that Communists "have gained control of the entire fur processing industry."

Those asked to appear first were Joseph Bernstein, attorney for the Fur Linings Manufacturers, and Sol Rosenberg, president of the Fur Manufacturers Assn., both of New York.

Union witnesses, expected to appear next week, will be headed by Ben Gold, president of the international union and a member of the CIO executive board. Gold also is a member of the Communist Party national executive committee.

As this hearing tuned up, the House Un-American Activities Committee settled down for three days of closed-door questioning of between 20 and 25 witnesses in preparation for new public hearings set to begin Sept. 15.

Army Places Big Emphasis On Education

Headquarters of the Fourth Army recently stated that a sizeable portion of time used for the basic training of new soldiers will be devoted to lectures, discussions and motion pictures covering broad phases of good citizenship and subjects designed to foster quick adjustments from civil to military life. Capt. O. T. Ham, commander of the local recruiting station, was informed today.

This was made known when the Department of the Army revealed that a comprehensive program has been prepared by the Troop Information and Education Division in Washington, which drew on its wide experiences in World War II in selecting and outlining topics.

The basic Troop Information Program consists of 12 discussion periods spread out over the eight week basic training. Training officers in all eight of the Army training centers will adhere to the same programs and all new troops will cover the same educational ground.

Because of its strong emphasis placed on Troop Information and Education by the army, the soldier will be informed as to his advantages and obligations as an American citizen at the same time as he is learning the rudiments of military life. He will also get a better understanding of American ideals and an adequate and intelligent explanation of Army process, which will tend to foster the dignity and integrity of the individual soldier.

C. B. South, Jr. Rites Set Sunday

MISS AMERICA PAGEANT

Double-Barreled Debut Is Planned By 'Miss Texas'

ATLANTIC CITY, N. J., Sept. 8. (AP)—Blonde Bonnie Jean Bland of Orange, Tex., will make a double-barreled debut tonight in the 1948 Miss America pageant.

The slim, green-eyed miss, who graduates from the University of Texas in February, will display some of her oil paintings and then sing two songs in the talent division of the contest.

Not the least bit awed by all the hoopla that goes with the beauty contest, Miss Bland said "I feel right at home here."

The 20-year-old "Miss Texas" said the climate at this resort is just about what it is in Orange. Her biggest thrill so far came yesterday in the pageant's two-hour Mardi Gras parade. On the boardwalk, Miss Bland said several persons in the 100,000 who lined the way called out they were from Texas.

Many children and some grown-

ups caused her amusement, she said by yelling:

"Miss Texas, where are your six shooters."

"Hey, where'd you leave your horse."

"Don't you wear those Texas boots."

Miss Bland will wear gowns she designed herself. In the parade, she wore a white evening gown set off by lace at the shoulder. She would not say just what the gowns she'll wear tonight and throughout the rest of the contest will look like. She hopes they'll get nods of approval from the judges.

If she comes through to the finals in which 15 girls are chosen from the 55 in the pageant, she'll qualify for a part of the \$25,000 worth of scholarship offered as prizes. She hopes, of course to carry off the

\$5,000 scholarship that goes with Miss America title.

"I plan to go to the Academy of Fine Arts at Chicago if I win a scholarship," she said.

About romance? Well, she's got a fellow, but she's keeping his name secret. About the University of Texas? "Just watch our football team this fall."

Roy Acuff Pelted With Eggs, Fruit At Political Rally

KINGSPORT, Tenn., Sept. 8. (AP)—Eggs, fruit, and vegetables were hurled at candidates Roy Acuff and B. Carroll Reece, republican national committeemen, at a political rally here last night.

Acuff, the hillbilly singer and republican candidate for governor, was struck by a grapefruit. Reece, who is running for the United States Senate, was hit by an unidentified missile.

Other missiles striking near Reece scattered the suit of the former Republican national chairman.

"One sustained shower of the missiles descended on and about the speakers platform and the culprits vanished into the crowd," reported police chief Charles Still.

An observer noted that "the hoodlums placed their shots carefully." Acuff was speaking when the grapefruit struck him.

Other victims were a woman who was splattered by a tomato, and two Kingsport newspapermen—William Freehoff, Jr., political writer, and Photographer Ellis Binkley, both of the Kingsport Times-News. Binkley's camera was so badly damaged he was unable to take a picture of the incident.

Royal Party Goes On Night Club Spree

AMSTERDAM, The Netherlands, Sept. 8. (AP)—Princess Margaret danced into the wee hours this morning at an Amsterdam night club.

Her partners included Prince Bernhard, consort of Queen Juliana; Prince Aschwin, his brother; Crown Prince Olaf of Norway and Crown Prince Jean of Luxembourg.

The royal party, which went dancing after a state concert on the occasion of Queen Juliana's enthronement, included Princess Martha of Norway, Juliana returned to her palace after the concert.

Princess Margaret represented the British royal family at Queen Juliana's investiture Monday.

War Material Map

Moscow, Sept. 8. (AP)—Red Star Russian army newspaper, published yesterday a map of Germany showing 39 centers where it claimed German war factories are producing war material. It said these factories are in the American, British and French zones.

FIREMEN FINALLY GET QUIET DAY

NEW YORK, Sept. 8. (AP)—A new fire alarm system, designed to ease the strain on the jangled nerves of city firemen, goes into effect today.

Formerly, every alarm—an average of 250 a day—sounded in every firehouse, with the firebell clanging an average of 80 times for each alarm.

This clanging, the department said, has been a "decided factor in the high rate of cardiac and hypertension cases among firemen."

A new selective transmission hook-up, to be used only at night until tested, will restrict the firebell ringing to stations in the one where a fire is reported.

Midwest Is Well Off, Declares SCS Expert

Al Jordan, local SCS expert, who returned last weekend from a week's trip that carried him as far north as Illinois, said he saw some corn growing in Illinois that would yield 140 bushels to the acre.

Crops appear to be good northward from Wichita Falls and the rain-fall has been quite ample throughout the Midwest, Jordan said he was told.

While in St. Louis, Jordan saw the huge Veterans' parade which took place there.

PLAINVIEW POLIO DEATH

PLAINVIEW, Sept. 8. (AP)—Delbert Fox, 12, son of Mr. and Mrs. Thomas B. Fox of Borger, died here Monday of bulbar-type polio. He was the fifth fatality among 68 cases treated at the area polio center here this year. Funeral services will be held at Higgins today.

DIES ON SOVIET SHIP—Gen. Feng Yu Hsiang (above), China's "Christian General," died in an accidental fire aboard the Russian motorship Pobeda near the end of a voyage from New York to Odessa. It has been announced in Moscow. His daughter also died in a fire which resulted from careless handling of a movie film, Moscow reported. The former war lord was 67. (AP Wire-photo).

'Christian General' Gets Soviet Funeral

MOSCOW, Sept. 8. (AP)—Pravda announced today the cremation of Gen. Feng Yu Hsiang, China's "Christian general." Moscow papers previously reported his death in a fire aboard the ship Pobeda en route from New York to Odessa.

Pravda said the body was brought to Moscow for cremation at the request of the general's widow. There were present at the cremation, Pravda reported, "representatives of the Soviet armed forces and the Soviet armed forces and society."

The paper said Gen. Feng was accorded military honors. The urn containing his ashes was turned over to his widow. There was no mention of his daughter, who also was reported to have died in the ship-board blaze.

Clare Boothe Luce's Brother Is Believed Killed In Air Crash

SANTA MONICA, Calif., Sept. 8. (AP)—The only brother of former Congresswoman Clare Boothe Luce is believed to have perished in a plane crash off the Pacific Coast.

David F. Boothe, a commercial pilot about 48, disappeared in a rented plane Sunday. A party of seascouts reported seeing a similar plane crash into the ocean two miles offshore and six miles south of Santa Monica.

The Coast Guard planned to start dragging the area today after propeller fragments and aircraft seat cushions were found.

A veteran of both world wars, Boothe won the air medal, four bronze stars, purple heart and a presidential citation for his service as an Air Corps pilot in the recent war.

Mrs. Luce, former representative from Connecticut, is believed to be Boothe's lone survivor. He had been living at nearby Ocean Park.
