VOL. 21 NO. 259 SNYDER, TEXAS (79549) THURSDAY, March 25, 1971 10 PAGES — PRICE 10c

The SDN Column

The city has come up with a list of "Do's" and "Don'ts" for dog owners as it prepares for its second big registration roundup Saturday at the Central Fire Station.

Here are the "Do's": Teach your dog to be obedient and well-behaved; walk your dog on a leash and curb him when necessary; teach him to stay in your yard; train your dog to stay quietly within his kennel or crate while you are away; train your dog to walk quietly at heel on a loose leash.

Now for the "Don'ts": Let your dog roam the neighborhood; let your dog bark excessively; let your dog soil your neighbor's shrubbery or lawn, or tear up his flower garden; let your dog chase cars or bicycles; let your dog frighten or bite the postman, milkman, or other service people; let your leashed dog lunge at or jump on passers-by; let your dog howl for hours while you are gone.

Dogs, of course, must depend upon human beings to set the standards and enforce them. And, ironically, those who have direct responsibility for enforcing rules and regulations governing dogs have long observed that owners who really care for their dogs usually control their animals voluntarily. It is those who don't give a hang about their pets in the first place who permit their dogs to become nuisances and cause problems.

★ ★ ★

The dog registration day last year, complete with free dog tags, helped to alleviate the problem here for a time. However, it is a continuing thing and must be repeated periodically to be effective.

Over the past five months the city animal warden here has averaged picking up 61 dogs per month. Of that number, only eight were claimed and redeemed by owners, which tends to confirm the observation that those who really care for their pets usually make certain that the rules are obeyed.

During the same five-months period, the animal warden also picked up 22 dead animals per month. An average of seven persons per month were assessed fines for allowing dogs to run loose after warning.

★ ★ ★

Among other things, this is National Wildlife Week, and the theme this year is "Wildlife—Who Needs It?" The National Wildlife Federation reports that the answer, "We all do," is the focus of federation activities across the country during the special week.

The 1971 theme illustrates that people have the same needs as wildlife, but wildlife show the effect of pollution and destruction of environment sooner than people do, said Thomas L. Kimbell, executive director of the federation.—WACIL McNAIR.

Today In History

By THE ASSOCIATED PRESS

Today is Thursday, March 25, the 84th day of 1971. There are 281 days left in the year.

Today's highlight in history:

On this date in 1821, Greek patriots began a revolt against domination by the Ottoman Empire. The uprising ended 12 years later with the establishment of the independent kingdom of Greece.

On this date:

In 1634, colonists under Lord Baltimore reached Maryland.

In 1865, in the Civil War, Confederate forces captured Ft. Stedman in Virginia.

In 1964, Great Britian donated an acre of land at Runnymede, the site of the signing of the Magna Carta, for a memorial for President John F. Kennedy.

Ten years ago—The United Nations Adopted an international convention on narcotics. The convention needed ratification by 40 nations to become a treaty.

Five years ago—U. S. Marines and South Vietnamese troops were credited with killing or wounding 1,236 of the enemy in an offensive on the central coastal plains of South Vietnam.

One year ago—Casualty lists showed nearly 40,000 American deaths in nearly nine years of fighting in Vietnam.

THE WEATHER

SNYDER TEMPERATURES: High reading Wednesday, 71 degrees; low reading, 40 degrees; reading at 7 a.m. today, 40 degrees.

Northwest Texas: Clear to partly cloudy tonight and Friday. Cooler in southeast tonight. Warmer Friday, high 65 to 75. Low tonight 28 in north to 42 in south.

North Central Texas: Decreasing cloudiness and cooler tonight. Clear to partly cloudy and warmer Friday, high 64 to 74. Low tonight 37 in north to 47 in south.

Northeast Texas: Decreasing cloudiness tonight and cooler in north. Friday clear to partly cloudy and warmer, high in 60s. Low tonight 39 in north to 50 in south.

Southwest Texas: Fair tonight and Friday. A little warmer afternoons. High Friday 78 to 90. Low tonight 42 in northwest to 64 in southeast.

South Central Texas: Considerable night and morning cloudiness, otherwise parlty cloudy and a little warmer through Friday. High Friday 78 to 92. Low tonight 60 to 75.

Southeast Texas: Considerable night and morning cloudiness, otherwise partly cloudy and a little warmer through Friday. High Friday 66 to 78. Low tonight 58 to 74.

Coast: South to southeast winds 8 to 18 knots tonight and Friday.

West of the Pecos: Fair tonight and Friday. A little warmer afternoons. High Friday 84 to 94. Low tonight 45 to 63.

Nixon Requests Reorganization Of Cabinet

WASHINGTON (AP) — President Nixon, declaring that "good people cannot do good things with bad mechanisms," asked Congress today to consolidate 11 Cabinet departments into eight—four of which would be brand new.

In an unusually long special message, Nixon complained that federal responsibilities now are so fragmented that various agencies often "trip over one another as they move to meet a common problem" and sometimes "step on one another's toes."

Nixon called for the creation of new departments of Natural Resources, Community Development, Human Resources, and Economic Affairs.

These would absorb the existing departments of Agriculture, Commerce, Labor, Transportation, Housing and Urban Development, Interior, and Health, Education and Welfare.

The proposals face an uncertain fate in Congress.

Much of the message was devoted to arguments for Nixon's general aim of grouping departments and their responibilities around cohesive goals.

"Nine different federal departments and 20 independent agencies are now involved in education matters," he said. "Seven departments and eight independent agencies are involved in Health. While we cannot eliminate all of this diffusion we can do a great deal to bring similar functions under common commands."

The existing departmental system, he contended, hobbles elected leaders. As things stand, he said, neither he nor the Congress can determine, in many instances, who should be held accountable for the success or failure of government programs.

IN WAKE OF ORDER

AM Keeps Trying For Cleaner Air

American Magnesium Company's plant west of Snyder will continue to press for methods to reduce air pollution as it has in the past and will continue operation as efficiently as possible.

This report came this morning in the wake of an order by the Texas Air Control Board that the AM plant comply with state pollution laws.

The board handed down its order Wednesday following a hearing in Austin. The board, however, has no direct enforcement powers and any move to actually reduce or halt operations at the plant would have to come through the courts.

"We have the biggest burner company in the world working on it," said Joe Pitts, AM general manager this morning, in commenting on the air pollution problem at the plant.

Pitts said that AM has been concerned about pollution, and that the company has been making a costly effort to bring the plant into compliance with all air pollution regulations.

Community leaders and AM officials were disappointed, however, over the fact that intensive efforts, which have resulted in substantial improvement since last October, apparently got little consideration in the hearing.

Pitts said that the efforts had reduced the pollution by more than 40 per cent since October.

During this period, it was brought out at the hearing AM has spent over $600,000 on pollution control equipment. Some of this equipment has not performed as well as had been hoped, or as well as had been indicated in tests prior to actual use at the plant, Pitts said.

"We've got to do something more on our evaporators," Pitts said. The company picked one when the plant was installed that had performed well in various industries in the Southwest, but it obviously has not been good enough under new air pollution regulations, Pitts said. Pitts said progress had been made on new dryers. A pilot unit "looked good" in tests at Tulsa, but did not work well under actual production conditions in big units at the plant.

John Thomas, mayor pro tem, and Mel Gilbert, President of the Snyder Chamber of Commerce, testified at the hearing in Austin. They urged that AM be given

JOHN MENGWASSER

Mengwasser Rites Set

John J. Mengwasser, 75, died unexpectedly at 7:30 p.m. Wednesday at his home at 3103 Hill Avenue.

A native of Joplin, Mo., Mr. Mengwasser came to Scurry County 24 years ago and was employed as foreman for Diamond M Oil Co.

Mr. Mengwasser was married on Aug. 25, 1920, at Electra to Miss Frances Reis. Mrs. Mengwasser survives.

Also surviving are four daughters, Mrs. John Bindel of Wichita Falls, Mrs. W. A. Foster of Lawton, Okla., Mrs. Leon Davidson of Lubbock and Mrs. Jim Cummins of Odessa; a son, Bob Mengwasser of Odessa; three sisters, Mrs. Margaret Reis of Vernon, Mrs. Clara Eckelkamp of Edcouch, and Mrs. Sophie Ecklekamp of Electra; a brother, Leon Mengwasser of Electra; 24 grandchildren and one great-grandchild. A son preceded him in death in 1930.

Rosary will be said at 8 o'clock tonight in the Bolger Funeral Home Chapel.

Funeral rites have been set for 11 a.m. Saturday at St. Elizabeth's Catholic Church. Fr. Herman Laux will officiate. Burial will be in Hillside Memorial Gardens, under direction of Bolger Funeral Home.

S-Viets Losses Heavy In Laos

SAIGON (AP) — The 45-day campaign in Laos cost the South Vietnamese nearly 10,000 casualties or almost 50 per cent of the total force committed, highly placed military sources said today.

The sources said 3,800 South Vietnamese troops were killed, 775 missing and 5,200 wounded, nearly double what the Saigon government has reported.

These sources said the communiques from South Vietnamese headquarters being given to newsmen are lagging or are deliberately not reporting the true losses.

The latest official figures list 1,146 troops killed, 245 missing and 4,235 wounded.

At the same time, South Vietnamese headquarters is reporting nearly 14,000 North Vietnamese troops killed. A large proportion of these are credited to U.S. bombers and helicopter gunships, but the U.S. Command in a report last Saturday said "cumulative results of U.S. air operations in support of the South Vietnamese ... indicate 3,600 enemy troops reported killed by air."

The American command said the tabulation was based on reports from air crews, forward air controllers and South Vietnamese forces.

Lt. Col. Do Viet, an official spokesman, announced that the last of the 22,000 South Vietnamese troops who invaded Laos had returned to South Vietnam.

But Associated Press correspondent Michael Putzel reported from the front that South Vietnamese marines were ordered back to the Co Roc ridge just inside Laos this afternoon to prevent the enemy from using it to shell allied bases on the Vietnamese side of the border.

Pilgrim Rites Are Held Today

Funeral service was held at 10 a.m. today at the Green Hill Baptist Church for Roy Pilgrim, 68, who died Thursday morning in Cogdell Memorial Hospital.

The Rev. Quniton Montgomery and the Rev. Jerry Speer officiated.

Graveside rites and burial were set for 4 p.m. today at the Sturdivant Cemetery at Mineral Wells, with Bell-Seale Funeral Home in charge. Masonic rites were to be conducted at the grave.

Bands Set Concert

The 1971 Snyder High School Black and Gold Band and Stage Band will be presented in Concert Friday at 7:30 p.m. in the High School Auditorium.

Tickets may be obtained at the door or from any High School Band Member. Tickets are priced at $1 for adults, and 50 cents for students.

All proceeds will be used to help defray expenses to the Six Flags Over Texas band festival, which the band will attend in May.

Fronts Touch Off Showers

By THE ASSOCIATED PRESS

A combination of a new cool front and an old warm front touched off welcome, but limited moisture scattered over about the northeast third of Texas today.

Occasional showers, drizzle and fog developed through that sector in early morning while dust still settled from the sky in far West Texas.

As official observers explained it, a center of low pressure near Midland provided a sort of hinge for the two-ply weather system.

A cool front extended from that point westward into New Mexico, and a stationary warm front lay along a line linking Midland, San Antonio and Palacios.

Winds heralding the arrival of the cooler air ripped across the El Paso area and raised clouds of dust over several counties late Wednesday. Sustained winds up to 54 miles per hour were clocked, and gusts reached 63 m.p.h. in Guadalupe Pass east of El Paso.

By this morning there was light rain or drizzle over parts of Central and East Texas to the north of the warm front, and skies already were clearing in West Texas.

Points in the moisture belt included Mineral Wells, Fort Worth, Dallas, Paris, Mount Vernon, Texarkana, Tyler, College Station, Waco, San Antonio and Beaumont.

Senate Buries SST Transport

By LAWRENCE L. KNUTSON
Associated Press Writer

WASINGTON (AP) — The Senate has completed the congressional burial of the supersonic transport in a vote that halted nearly a decade of federal SST spending and ignored the pleas of President Nixon, industry and organized labor.

Stunned and demoralized after Wednesday's, 51-46 roll call vote, SST boosters and planners said chances for revival of the development program are slight. The House last week also voted to kill further SST subsidies.

Sen. John Tower, R-Tex., voted for continuance of the SST. Sen. Lloyd Bentsen, D-Tex., voted against continuing the program.

The congressional veto battered the prestige of the President who, after a fruitless attempt at first-person lobbying with wavering senators, called the outcome "distressing, disappointing" and "a severe blow."

Leaders of an environmental coalition greeted their victory with heady jubilation and [illegible] William Proxmire, D-Wis., the project's most relentless congressional foe, with champagne sipped from plastic cups.

At the same time their opponents, the Senate's pro SST wing, said the decision will cause the waste of more than $1 billion in federal funds, trigger the immediate loss of up to 15,000 jobs, and jeopardize American supremacy in the world's aviation markets.

An SST opponent said the March 24 vote will be remembered as "Day One in the ecological calendar." An SST supporter said the date will be remembered as a victory for the "know-nothings."

Proxmire, smiling and conciliatory after the biggest achievement of a 13-year Senate career, said he had toyed with the possibility of announcing for the presidency on an anti-SST, anti-waste in defense-spending platform, had the Senate rejected his two-year campaign to kill the program he branded economic and environmental folly.

From Tokyo came reports that Japanese firms are interested in buying construction rights, prototypes, blueprints, mockups and tools at a price quoted at 10 cents on the dollar or $100 million for a $1 billion [illegible] private investment.

But an official of SST developer, Boeing Aircraft Co., said there has been no offer, no discussion, no contact at all with Japanese firms.

Political shockwaves touched off by the decision reverberated in both Republican and Democratic circles.

Democratic presidential hopefuls, nearly all of whom are now senators, hastened to assure organized labor their anti-SST votes do not mean they are ignoring the issues of jobs and unemployment.

On the GOP side, the vote came as the year's first big test of the President's ability to weld an "ideological majority" from Republicans and conservative Democrats.

Such a majority on this issue at least, did not materialize as rejection come on the votes of 34 Democrats and 17 Republicans. Twenty-seven Republicans and 19 Democrats voted to restore the SST funds in the total $7.2 billion transportation appropriations bill.

Permanent Registration Bill OK'd

AUSTIN (AP) — Texas senators tentatively approved today a permanent voter registration bill that would let a voter register every four years merely by marking a ballot.

A final vote will be needed before the bill goes to the House.

The House postponed for several days an expected fight over demands for a legislative investigation of the part state legislators and officials played in a federal stock fraud case. Rep. Carl Parker of Port Arthur called off debate on his resolution until Monday to give other members time to prepare amendments.

The Senate engrossment, or tentative approval, of permanent voter registration came on voice vote. Eight senators asked later to be recorded as voting against the measure offered by Sen. Mike McKool of Dallas.

Basically the McKool bill would allow year-round voter registration with a cutoff date 30 days before an election. Once a voter has registered, either in person or by mail, he could re-register automatically by voting at least once every four years in a party primary or November general election for state and county officers.

Her sex life not his 'affair'

By Abigail Van Buren

(© 1971 by Chicago Tribune-N. Y. News Synd., Inc.)

DEAR ABBY: I have a very intelligent friend whose company I enjoy a lot until he starts asking personal questions which make me very uncomfortable. For instance, he wants to know how I feel about sex. Then he asks about my dreams, my earlier years, and other highly personal things which always end up with sex. Abby, I want to be perfectly truthful in all discussions, but I think some of the things he asks are none of his business.

What should I do? I hate to tell him off and lose his friendship. I know you are supposed to like people in spite of their faults. Can you give a confused young lady some hints on proper conduct in this situation? I am unmarried and so is he. JOAN OF ARC

DEAR JOAN: Tell him that you prefer to keep your "ideas" about some subjects strictly personal, and sex is one of them. His questions sound to me like a prelude to other intimacies. Keep him in his place and don't be drawn into discussions which make you uneasy. And if you lose him, you lose him. The woodwork is full of men like him.

DEAR ABBY: My husband of nearly one year will not go visiting with me to see my family, and particularly my parents. He has no objections to my going, but he would rather go fishing or sit home alone than go with me.

He refuses to go to church with me and has recently stated that he will not attend my sister's wedding. Why should a man who used to court me from my parents' home and used to attend church regularly suddenly decide he doesn't want to see my family anymore and church is out?

He loathes wearing a tie. I am going to have a baby next month and he has just told me he will not attend the christening. Any help you can give me will be greatly appreciated. Thank you. BAFFLED

DEAR BAFFLED: If your husband changed "suddenly"—something could be physically or mentally wrong with him. He'll need a doctor to determine that. If he has simply decided that now that he has you, he doesn't have to put up with anything that displeases him, he is behaving like a spoiled little boy. If you can't get him to listen to some fair counseling, you will either have to get rid of him or get used to him.

DEAR ABBY: About three years ago I was in such a serious mental state that I was guilty of actually inflicting physical abuse on my helpless child. This would occur only when I was terribly depressed, but these depressions were becoming more and more frequent. Many would have said, "Put her in prison and take her child away from her."

Fortunately I must have seen a ray of light, as I telephoned our Community Mental Health Service. Instead of condemning me, they said, "Come let us help you."

It has taken three years of treatment for me to reach this point, and I have more ahead of me yet, but I have come a long, long way.

To your readers who are experiencing the same or similar problems, I say, seek help now. Don't be disheartened by the slowness of your recovery, since it probably took more than just a few months to acquire the problems which are surfacing now. Stay with the treatment in seach of mental health as I did, and you, too, will enjoy being a mother. HAPPY IN SEATTLE

DEAR HAPPY: Unfortunately you will never know how many have been helped by your letter. Thank you for writing.

CONFIDENTIAL TO "CEDAR RAPIDS, IOWAN": Retirement means, to most wives, twice as much husband on half as much income.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

For Abby's new booklet, "What Teen-Agers Want to Know," send $1 to Abby, Box 69700, Los Angeles, Cal. 90069.

Two Vehicles Are In Mishap

Minor damage resulted from a two-car collision in the 1800 block of Avenue E at 6:16 p.m. Wednesday.

Involved were the 1964 Model Chevrolet of Alicia Espaiza Guzman, Route 3, and the 1964 Model Rambler of Sonya Sue Bogle, 126 Milburn. Damage was minor.

Officer Brian Blair investigated the mishap.

DR. JAS. S. GRANBERRY

Lubbock Mayor To Speak At Kiwanis Meet

Dr. James S. Granberry, Mayor of Lubbock, will be guest speaker Friday night at a "Ladies Night" meeting of the Kiwanis Club of Snyder.

The dinner meeting, which will be attended by Kiwanis members, their wives and guests, will be held in the Scurry County Coliseum, beginning at 7:15 p.m.

Dr. Granberry, a dentist, is associated with a number of civic and professional organizations.

A native of Tyler, he is a graduate of Lindale High School, Tyler Junior College and North Texas State University. He received the DDS degree at Baylor University College of Dentistry in 1961.

Dr. Granberry was named Lubbock's Outstanding Young Man of 1963 by Lubbock Jaycees, and in 1964 was named one of the Five Outstanding Young Texans by the Texas Jaycees. He served on the Lubbock City Council from 1966 to 1970 when he was elected mayor.

Letters To Editor

To The Daily News:

As a former youth of your city and county I feel, with considerable conviction your readers should know that:

Mr. Paul Harvey, in his noon KABC Radio News of 3-22-71, exposed how a minister (sic) performed a marriage ceremony and gave his blessings to the couple...TWO MEN.

Will the Women's Lib, accept one of them in their membership? If so, then how will they determine the eligible "thing"?

If that minister was ordained, then what caliber Christians tolerate him?

For God, Country and Family
Aaron E. Coffee
EOC, USN, Retired

Camarillo, Calif.

Museum Assn. Survey Okayed

Harold Bennett and Ernest Sears, representing the Scurry County Museum Association, asked county commissioners this morning for permission to conduct a survey of items in the courthouse that could possibly be included in a county museum.

The commissioners approved the request for items not used in the remodeling program.

Progress Report Given Directors Of Water District

Good progress is being made in developing an additional water supply for this area this summer, but Colorado River Municipal Water District director considered reports Tuesday on plans for operational patterns to most effectively meet deliveries in the interim.

If there is no runoff into the lakes, May can be a close month, O. H. Ivie, general manager, told the board in a meeting at the District headquarters in Big Spring. The new supply from wells, designed to yield up to 24,000,000 gallons per day, is due to be available not later than June 1.

Odessa and Martin County wells have been brought on earlier than usual in order to protect reserves in Lake J. B. Thomas. Additional wells will be brought on at Big Spring and Snyder soon. Meanwhile, pumping from Lake E. V. Spence continues in order to maintain reserves in Moss Creek Lake, where they will be more readily available to the main supply lines at the Big Spring hub.

Directors may take another look at the situation within about a month. Delivery of the Ward County water to Odessa will relieve a lot of pressure, but other steps could be taken such as developing additional ground water in the Snyder vicinity if necessary.

The board authorized a water purchase agreement between the district and Dr. Virgil Sanders, who has water wells adjacent to the district (City of Big Spring) line to the O'Barr field in northern Glasscock County. The district wants to supplement present supplies from the O'Barr area so that the capacity of 2,000,000 gallons per day can be realized. A booster station modification might push the potential delivery up to 3,000,000 gallons per day.

By a majority vote, the board also decided to join with other districts and river authorities in Texas to form the Texas Water Pollution Control Compact. This would be intended as an interim agency, whose components could become the intermediary financing agency for municipalities applying for federal aid under the anti-pollution act. In event Constitutional Amendment No. 4, authorizing issuance of $100 million in bonds for this purpose, is approved May 15, the compact would cease to exist. The CRMWD board reserved the right to withdraw from the compact at any time, and specifically limited any obligation only to those contractural arrangements it might elect to make. By going through the compact (or perhaps the state), cities could qualify for a 55 per cent grant rather than 32 per cent on their own.

Regarding construction progress, Ivie said that 13.2 miles of the 23-inch supply line to Ward County are in the ground and that three crews are picking up the tempo. Soon a fourth pipe crew will be pressed into service. Test holes have been drilled on all well sites and the indicated production appears in sight. Delivery of pumps and other equipment is on schedule, and so is the installation of gathering lines to wells.

The only other item of business was to authorize an interfund transfer.

Local Team Place Second

Despite the dust storm last week Tony Hayley, Pete Rasco, Leonard Klopperslanger Koening and Pete Sterling were able to take second place in the Sweetwater Rattlesnake Hunt. They turned in 620 pounds of live snakes. It was the fourth consecutive year for them to take second place award. Their last two year total was two thousand pounds. Many of these came from Snyder, Camp Springs and [illegible]

AM

(Continued from page 1)

more time to reduce pollution within the limits permitted by the state pollution laws.

"There is no intent to violate the law," Thomas said. He urged the board to consider the money already spent and the work that had been done by AM in its efforts to comply.

Gilbert said that the economic impact would be serious if the AM plant should be shut down.

At the close of the session, Gilbert also protested the atmosphere in which the hearing was held. It was conducted in Thompson auditorium on the University of Texas Campus, and local witnesses said that there were frequent outbursts of whistles, cheers, etc., in response to barbed remarks of Dick Brown, a control board staff member, and some board members who apparently were hostile to AM.

Gilbert said he felt that it was unfortunate that the hearing had to be conducted in such an atmosphere of comedy, when the question before the board was so serious to AM and others involved as well. He said it appeared that a number of university students assembled in the auditorium for the hearing.

Mrs. John Meadows, whose home is near the AM plant, said that emissions from the plant were destructive and that on occasion her family had been driven from their house by chlorine fumes. She said that metal fences were corroded and that crops and pastures were damaged by pollutants from the AM plant. She read letters from two other nearby residents to the effect that cotton crops had been damaged and grass in pastures had been turned brown.

Howard Rose, attorney for AM, told the board that the company was "honestly making an attempt to comply with your regulations" but that the plant was having difficulty in obtaining pollution control equipment because it is an experimental plant.

Snyderite On Tech Honor Roll

LUBBOCK—Patricia R. O'Banion, daughter of Dr. and Mrs. J. W. O'Banion Jr., has made the dean's list at Texas Tech for the past semester. A student has to maintain a 3.0 grade average to be eligible for this honor.

THE MUTSCHER FAMILY — House Speaker Gus Mutscher gives his wife Donna a kiss as he visited her and his new son in her hospital room Wednesday. The baby, born Monday, weighed 8 lbs. and 10 ounces. Mrs. Mutscher, the former Donna Axum was Miss America of 1964. (AP Wirephoto)

Three Hurt In Mishap

Three persons sustained injuries in a two-car collision on U. S. 84 about five miles north of town at 3:25 p.m. Wednesday.

Taken to Cogdell Memorial Hospital by Snyder Ambulance Service were Mr. and Mrs. Samuel Louis Williams of Lubbock and Mr. and Mrs. E. J. (Doc) Richardson of Snyder. Mrs. Samuel (Esther) Williams, 57, was treated for facial lacerations and possible back injuries. She was later transferred to Lubbock. Williams sustained possible rib injuries. Mrs. Richardson sustained facial lacerations and a possible ankle injury. Mr. Richardson was not injured, but he is recovering from a heart attack he suffered previously.

Investigating Highway Patrolemen said Williams was driving a 1966 Model Buick and Mrs. Richardson was driving a 1970 Model Ford. Their spouses were passengers. Both vehicles sustained heavy damage. Mrs. Richardson was attempting to make a left turn prior to the collision, officers indicated. Both vehicles were going north prior to the mishap.

Officers Search For Helicopter

FT. HOOD, Tex. (AP) — Officers searched today for a helicopter feared downed in the Ft. Hood area with three men aboard.

Capt. Ludwig Dulka, Ft. Hood spokesman, said last radio contact with the observation helicopter from the 1st Armored Division was shortly after 11 p.m. Wednesday. He said that at that time the craft was in the vicinity of Manning Mountain in the northeast quadrant of the Ft. Hood reservation.

Poor visibility because of mist and fog hampered the search.

Dulka did not identify the the three men aboard.

When you promised to share and share alike, did that mean your wife could use up all the hot water?

You could get up earlier. Then you'd be sure to beat her to it. Of course she wouldn't be too impressed with your chivalry.

Another alternative is a larger gas water heater. Gas water heaters are easy to buy, easy to install, and recover hot water up to twice as fast as comparable electric models.

So stop competing with your better half. Get a larger capacity hot water heater. For fewer fights and lots more hot water.

CAKE FROM CALIFORNIA — Angel food is split and filled and frosted with whipped cream and a delicious candy called Coffee Crisp.

Here's Another Coffee Crunch Cake

Coffee Crunch Cake is going the rounds. The first recipe for it we ever encountered appeared in a Colorado cookbook.

Now we find another version of this dessert in "Our Best," a collection of about 600 recipes compiled by the Volunteer League of San Fernando Valley, Calif.

Here's our version of the Coffee Crunch Cake in the "Our Best" cookbook.

COFFEE CRUNCH CAKE

1 package (14½ ounces) angel food cake mix

Coffee Cream Frosting, see recipe

Coffee Crisp, see recipe

Prepare and bake cake in a 10-inch angel food cake pan according to package directions. Cool completely. Cut into 4 layers.

Stack layers spreading about 1 cup Coffee Cream Frosting and about 1 cup Coffee Crisp between each layer and remaining Coffee Cream Frosting and Coffee Crisp on top of cake.

Chill until ready to serve, but no longer than 2 to 3 hours; if chilled longer Coffee Crisp will begin to melt.

Makes 12 to 16 servings.

COFFEE CREAM FROSTING

2 containers (each ½ pint) heavy cream

2 tablespoons sugar

1 teaspoon instant powdered or freeze-dried coffee

2 teaspoons vanilla

Whip cream until slightly thick; gradually beat in sugar; add coffee and vanilla; and continue to beat until cream is very stiff. Makes about 4 cups.

COFFEE CRISP

1 tablespoon instant powdered or freeze-dried coffee

¼ cup hot water

1¼ cups sugar

½ cup light corn syrup

1 teaspoon baking soda

In a heavy 3-quart saucepan dissolve the coffee in the hot water; stir in the sugar and corn syrup.

Over medium heat bring to a boil, stirring until sugar dissolves. Continue cooking, stirring occasionally to keep from scorching, until temperature reaches 300 degrees on a candy thermometer or until a small amount of mixture dropped into very cold water separates into threads that are hard and brittle. Remove from heat. Add baking soda. Stir until light colored and thick; do not destroy foam.

Pour into an ungreased square cake pan (9 by 9 by 2 inches); do not spread. Cool. Pound candy into small pieces.

Makes about ¾ pound or 4 cups pieces.

NOTE: If the Coffee Crisp is made ahead, leave it in large pieces and store in a tightly covered tin box or tightly closed plastic bag. Pound it into small pieces shortly before using on cake.

Minister's Wife Has "Car Fever"

DALLAS, Tex. (AP) — Dottie Rogers got the sports car urge 10 years ago and hasn't been able to shake the mania since. Which is something unexpected for a minister's wife, mother of six and grandmother of two.

"I don't drive in races. I just work the timing and scoring," she said recently.

Her form of sports car mania is a rally, which depends on getting to a certain place at the right time, rather than speed racing.

Mrs. Rogers describes rallies as "a form of precision driving. It's worlds of fun, and a challenge. It's a disease, I guess. That's what my husband calls it."

A rally, Mrs. Rogers continues, is a kind of "cross-country excursion—over the hill and through the frost to grandmother's house, but you don't really know where the house is." Rally drivers and their aides get instructions only 15 minutes before the start.

"It helps if you have a good navigator," she said, "and if it's not snowing."

She added, "Last year, I got caught in a freak snow storm. My navigator and I got lost and never found a single check point."

Another rally was at night so she and the navigator took along a spotlight to help in finding the check points.

That ended abruptly when the sheriff of the county didn't look with favor on their using a hand-held spotlight during hunting season.

Planning Can Cut Food Bill

COLLEGE STATION—Take advantage of special sales, and buy foods in heaviest supply to help keep your food costs down, advises Mrs. Gwendolyne Clyatt, Extension consumer marketing specialist at Texas A&M University.

And planning before your shopping trip is a good habit to develop if you are sincere about getting the most food for your money, she adds.

Since the 1970 turkey crop was an especially large one, turkeys are still available at attractive prices. Consider turkey as a special mealtime treat for your family.

Fryers remain at the same economical levels as last week, but you may find frequent specials on eggs. Remember that the Grade A Large size is the best combination of economy and quality.

The beef counter should be well stocked, with more attractive prices this week. Best values include arm and blade pot roasts, round steaks and roasts, chuck steaks and roasts, rib steaks and roasts, ground beef, and liver.

Ample supplies of pork are to be found, with best values on Boston butt roasts, hams, picnics, chops, shoulder steaks, loin roasts, and bacon.

At the fruit counter, you will find good values on still-plentiful supplies of grapefruit and apples. Prices on winter pears and avocadoes remain moderate, and the supplies are larger than a year ago. Other good selections include oranges, bananas, and strawberries.

Broccoli, cabbage, carrots, celery, yellow onions, potatoes, sweet potatoes, turnips, and some varities of cooking greens are the more economical fresh vegetable choices. Fresh asparagus is available, but the price levels are relatively high.

Altrurian Club Gives To WTC Scholarship Fund

In the business session of the Altrurian Club meeting on March 19, the president, Mrs. Ross Blanchard, welcomed Mrs. Clyde Hall as a new member. Mrs. Hall comes from Brady, Tex. where she was a former president of the Tuesday Club, a federated club of that city.

The treasurer of the club was instructed to send $100 as a contribution to the scholarship fund of Texas Western College, the money to be used as the college deems most appropriate.

In the committee reports Mrs. Charles Miller, chairman of the committee on international affairs, brought a report of recent archaeological finds in Iran which gives proof of a civilazation dating back to 5500 B. C.

In further business, plans were discussed for the next meeting on Friday, April 2, which is guest day. All members of federated clubs are invited to the Federation Day Program.

Honored guests who will provide a musical prelude to the program of the day are award winning members of the Snyder High School choir who will sing under the direction of Mr. J. D. Smith.

Mrs. M. K. Stevenson gave a review of a recent, timely book entitled "And Then There Grew Up a Generation" by Thyra Bjorn. Although the book deals with some of America's most bewildering problems such as radical changes in family relationships, and the accepted role of the church in the average community, the review was given in such an entertaining way that the listeners were carried along with delight in the story.

The lack of understanding between parents and teenage children were presented in such an unprejudiced way that they did not seem unsolvable and the minister of the church and the members with such varying opinions were united in the eternal principles.

Mrs. Stevenson was hostess to eighteen members and three guests. Mrs. K. R. Russell of Duncan, Okla., was introduced by her sister, Mrs. C. C. Miller. Mrs. Wayne Boren and Miss Enid Irving were also present.

OFFICE MANAGER — Nadine Groves, a former Snyder resident, has been named general manager of the Herring Plaza, a newly converted office building in Amarillo which houses U. S. government agencies and private business offices. Mrs. Groves is the mother of three daughters and the daughter of Josephine Eubanks of Rt. 3 Snyder.

POW LETTERS — Faydean Hart, chairman of the local Prisoners of War Letters for Iota Psi chapter of Epsilon Sigma Alpha, is preparing to pack letters to be sent to the United We Stand office in Dallas. ESA chapters all over the United States are working to send 1 million letters to the North Vietnamese delegation in Paris.

Samantha Eggar Granted Divorce

LOS ANGELES (AP) — British actress Samantha Eggar, 31, has been granted a divorce from actor-producer Tom Stern, 37, and given token alimony of $1 a year for five years.

The couple married in London in 1964 and separated five years later. Under the Superior Court settlement Wednesday, Miss Eggar agreed to give Stern $25,000 and to support their two children, Nicholas, 5, and Jenna-Louise, 3, whose custody was awarded to her.

Miss Eggar told the court her income exceeded $200,000 a year.

Publishers Review Alternate Means Of Delivery

By JOHN HENRY
AP Business Writer

NEW YORK (AP) — A proposed 142 per cent increase in mailing costs for magazines and newspapers is prompting publishers to raise subscription prices, cut page size and study alternate means of delivery.

"I'm considering every alternative to the U.S. Post Office from newsboys to milkmen to large dogs with dry mouths," says John Mack Carter, editor of the Ladies' Home Journal.

Mail delivery costs now account for about 5 per cent of the total cost of the average magazine, according to the Magazine Publishers Association.

The proposed rate boost, which would be made in stages over the next five years, would raise mailing costs for magazines and newspapers from an average of 2.4 per cent per copy to slightly under 6 cents at the end of the period, the association says.

And the increase could drive some marginally profitable magazines out of business, the association claims.

Reader's Digest, which in Britain distributes more than 50 per cent of its magazines outside the postal system, is reviewing alternate delivery systems here. The magazine says it expects a $1.4 million jump in magazine delivery costs in the first year if the proposed rates if it uses only the Post Office.

Some magazines are now using multiple mailing points as a way to cut existing postage costs.

Thus, if a magazine is printed in Chicago, it might be trucked in bulk to Cleveland, Denver and Memphis for mailing at post offices in those cities.

Such a practice reduces mailing distances and saves postage, magazines say.

Esquire met its increasing postal cost problem by reducing its page size more than 30 per cent to dimensions of the newsweek and boosting subscription prices 13 per cent and rates to advertisers 5 per cent. McCall's and Holiday also have trimmed their publications to the smaller size.

"If you can reduce weight 5 per cent, postage will go down 5 per cent," says David G. Jensen, vice president of manufacturing for McGraw-Hill, the giant business magazine publishers. The company's Business Week is now being printed on less heavy stock than five years ago.

"I intend to pass along most increases to the reader," says Carter, who has announced a 50 per cent in subscription increase prices at the Ladies' Home Journal.

Program Announced

DALLAS (AP) — A 10-year master plan aimed at transforming a mountain 160 miles northwest of Denver into one of North America's major year-round recreation centers has been announced.

Nucleus of the massive program is Steamboat Village, a relatively small winter resort nestled at the base of two-mile-high Mt. Werner, two miles south of 2,500-population Steamboat Springs.

"By 1980, the plan calls for Steamboat Village to be a fully developed 1,600-acre recreation complex offering vacationers a wide variety of winter and summer activities to suit nearly any taste and pocketbook," according to Forbes Mann, president of Dallas-based LTV Aerospace Corp., which owns the resort.

"When the plan has been fully implemented, the resort will have overnight lodgings for about 8,000 guests. Our recreation, entertainment and transportation facilities will comfortably handle nearly twice that number so that we can also accommodate our permanent residents and the influx of other visitors we expect to get from the surrounding area," Mann said.

A VETERAN OF THE RANGE — This oil painting by Tom Ryan of Lubbock is titled "Sixty Years in The Saddle." It will be in the traveling art exhibit of the Cowboy Hall of Fame which will be shown at the Scurry County Coliseum. The art exhibit is being brought here by the Diamond M Foundation, which will sponsor a public showing from 1 p.m. to 5 p.m. Sunday. The exhibit will remain here through next Wednesday, with the Snyder Palette Club, the Ranch Headquarters Association and local garden clubs serving as hosts for their own special showings on Monday, Tuesday and Wednesday.

Civil Law Revision Bill To House Floor

AUSTIN (AP)—Civil cases in which liability is based on fault could be decided by a majority vote of 10 jurors in state courts under a bill approved by the House State Affairs Committee.

Four members of the 21-member committee voted against the bill Wednesday night.

The bill now goes to the House floor for action.

Supporters of the measure say it will help clear court dockets in metropolitan areas that are crowded with automobile accident cases.

Opponents say it would result in higher automobile insurance rates.

A second major provision of the bill is the substitution of a comparative negligence rule for the present rule that bars recovery by a plaintiff who can be shown to have been himself negligent in the accident that caused his injury.

The Texas guest statute, which prohibits recovery by a car passenger who cannot show the driver was grossly negligent, is specifically retained in the proposed law.

The committee also approved and sent to the House floor a bill requiring industry to obtain a permit from the Texas Air Control Board before building or expanding a plant. The legislation is necessary for the board to continue to receive federal funds, which amounted to $619,869 last year.

The committee heard and referred to a subcommittee a major revision of the law regulating funeral directors and embalmers.

The proposed revision includes a section authorizing the revocation of a funeral director's license for conduct "offensive to the common conscience and moral standards of the community."

This section is aimed at situations such as the Harris County case last year where the head of a deceased person allegedly was sewn onto another deceased person's body without the knowledge of either family, said Johnny B. Rogers, Austin lawyer representing the Texas Funeral Directors and Embalmers Association.

Rep. James Slider, committee chairman, three times asked Rogers if he objected to making three members of the six-member state board of morticians laymen. These members could represent the public, Slider suggested.

Rogers repeatedly said six funeral directors or embalmers could do as good a job representing the public on the board.

"You don't think it would be wise to name someone to represent the public?" Slider persisted.

"I guess the time has come for me to say no," Rogers finally replied.

Also referred to subcommittees were bills that would:

—Prohibit members of the State Insurance Board or the board's employes from taking a job or receiving any compensation from an insurance company for a period of six years after leaving his state job.

—Establish the Texas Housing Corporation to provide financing for low-income housing developments.

THA Criticized

HOUSTON (AP) — Houston area physicians have accused the Texas Hospital Association of trying to take over complete control of all medical care provided in hospitals.

Dr. Eugene L. Slataper, president of the Harris County Medical Association, pledged Wednesday night the groups will fight the hospitals' efforts to pass what two physicians called "phony" legislation.

Their sharp criticism of proposed state legislation, which hospital leaders say would strengthen licensing laws, came during a special session called by the county medical society.

They protested House Bill 627 sponsored by Rep. Jack Ogg of Houston and Senate Bill 526 introduced by Don Kennard of Fort Worth.

LTV Inc. Losses Reported

DALLAS (AP) — Ling-Temco-Vought, Inc., one time greatest of the U. S. conglomerates, lost more than $69.6 million in 1970 after taking into account extraordinary item charges of more than $18 million.

The company issued its annual report Wednesday.

On a comparable basis, the year of 1969 showed a net loss of $38,294,000 after extraordinary item charges of $40,630,000.

Consolidated net sales in 1970 were $3,709,587,000, excluding $62,137,000 for operations either sold or discontinued during the year. In 1969, net sales were $3,452,564,000, excluding $297,700,000 for discontinued operations.

Included in the extraordinary item charges for the two years are provisions of $30 million in 1969 and $36,735,000 in 1970 for possible losses on sales of investments anticipated principally as a result of the settlement of the government antitrust suit arising out of LTV's acquisition of Jones & Laughlin Steel Corp.

For the fourth quarter ended Dec. 31, 1970, the company had a net loss of $26,425,000 after extraordinary charges of $8,569,000. This compares with a fourth quarter 1969 net loss of $38,381,000 after extraordinary charges of $29,203,000.

Nixon To Fly To California

WASHINGTON (AP) — President Nixon plans to fly Friday to the Western White House in San Clemente, Calif., for a stay lasting until April 4.

The White House said Wednesday he would spend his time on the West Coast working mainly on national domestic problems.

Yarborough Undecided

HOUSTON (AP) — Former U.S. Sen. Ralph Yarborough says he is receiving mail from supporters urging him to run for office.

He said some of the mail urges him to run for the U.S. Senate and some ask him to seek the gubernatorial slot. "I haven't been back long enough to decide," he said Wednesday. "I naturally thought after the last campaign that would be the last campaign." Yarborough was defeated in the May Democratic Primary by Sen. Lloyd Bentsen of Houston.

Yarborough was in the city to address the 1,000 delegates to the national convention of Pi Kappa Delta, a professional public speakers fraternity.

At a news conference, he said what he called the latest defeat of American-supported troops in Laos "one of the most calamitous America has suffered."

He said President Nixon has not lived up to the promises he made about ending the war in Vietnam.

"Nixon defeated us (Democrats) by saying he would settle the war," Yarborough said. "He hasn't settled it. He has expanded it all over Cambodia. Now he's trying to expand it all over Laos and got the stuffing beat out of him."

The convention elected Fred B. Goodwin of Southeast Missouri State College in Cape Girardeau, Mo. as president. James Grissinger of Otterbein College in Westerville, Ohio, was re-elected vice president.

The convention continues through Friday. The delegates represent 55 colleges and universities in 33 states.

Agnew Jokes At Dinner

WASHINGTON (AP) — Vice President Spiro T. Agnew surveyed the $1,000-a-plate crowd, and allowed that he wasn't worried about rumors Secretary of the Treasury John B. Connally might supplant him on the 1972 Republican ticket—"have you ever heard a Texan pronounce pusillanimous?"

That word, of course, was a hit of the Agnew repertoire in the last campaign. Wednesday night, Agnew came on as a deadpan political humorist, and noted Sen. Robert J. Dole, the national chairman, is the Republican doing the partisan slugging now.

"Who does he think he is? Me?" said Agnew.

The Agnew routine began just after dessert with an acid remark about a familiar vice presidential target.

"As avid readers of Time, Newsweek, the New York Times, and the Washington Post, and as avid listeners to the networks, you must be curious about what's going on in the world."

Then on to the leading Democratic prospect for the 1972 presidential nomination, Sen. Edmund S. Muskie of Maine.

"Just last week Sen. Muskie spoke up decisively and set Dec. 31 as the deadline for the end of the year."

Then on to the State Department, and the relative roles of the secretary and of the President's adviser on national security affairs.

"I want you to know that the President has complete confidence in Secretary of State Kissinger . . . Henry Kissinger's not trying to usurp the powers of Bill Rogers or anyone else. He made that perfectly clear in his State of the World address."

Agnew on Agnew:

"Some people say the President is considering dropping me in 1972 because of my poor golf. Mr. President, I'm not worried about that. You owe me something. After all, I recommended Hagenowerth, Carswell and Wally Hickel."

Man Charged In Houston

HOUSTON (AP)— Police said today they may have in custody the man known the past four months as Houston's "southwest rapist."

Harold Wilson Jarrell, 39, an unemployed [illegible] was charged with eight counts of rape Wednesday night.

Police said the charges were filed after five victims of the man called the "southwest rapist" viewed a police line-up and identified Jarrell as the man who attacked them.

Jarrell also was charged with two counts of sodomy, four counts of robbery by firearms, two counts of assault with attempt to rape, one count of attempted robbery by firearms, four counts of burglary and three counts of misdemeanor theft.

Jarrell was arrested last Sunday after a high speed auto chase with police.

SST Death May Boost Concorde

LONDON (AP) — Some British commentaors today viewed the congressional rejection of the American supersonic transport as a boost for the British-French Concorde. Others think it gives the Concorde's opponents fresh ammunition and hope.

Robert Holtz, editor of Aviation Week, said the U.S. Senate decision Wednesday to cut off government funds for the SST "gives Concorde a head, shoulders and chest start."

"Unless something goes seriously wrong, it should have people lining up with orders for the rest of the decade," Holtz told the Daily Express.

But David Fairhall, aviation correspondent of the Guardian, said cancellation of the American project could jeopardize the Concorde's chances for survival.

"He said the British-French plane must overcome the hurdles on which the Boeing project fall: political resistance to spending vast sums on an airliner that benefits only a minority, the reluctance of major airlines to place firm orders and the powerful transatlantic pollution lobby.

The cutoff of the eight-year-old American project left the Concorde and the Soviet TU144 in the supersonic jet field. The Russians, who don't have to worry about complaints from ecology-minded members of the public or showing a profit, are going ahead full speed. But the British and French governments still have not given the final green light. Representatives of the two governments are to discuss the matter at a meeting April 22.

The TU-144 was first in the air, on Dec. 31, 1968. It also is expected to be first in service, probably next year over the 4,000-mile route between Moscow and Khabarovsky. The Concorde, whose development costs have doubled from original estimates, was scheduled to start commercial flights in 1970, but that date has been put back to 1974. It was flown first in 1969.

Delegates Discussing Quotas

MEXICO CITY (AP) — U.S. and Mexican delegates are in the midst of negotiations on new import quotas for Mexican cotton textiles, with this country asking a larger share of the American market.

The negotiations, beginning Wednesday, are to find a replacement for the agreement signed between the United States and Mexico May 1, 1967, which limited Mexico to an initial export to the United States of 75 million square yards of cotton textiles.

Ruben Gonzalez Sosa, under secretary, told the four U. S. delegates in his opening remarks that after four years of the life of the agreement, "not regulates our cotton textile exports to the United States, we can say that this agreement has operated to the prejudice of Mexico. It has only served to artificially limit the Mexican offering."

Gonzalez Sosa claimed that U. S. importers have directed their purchases to other countries, "some of which are not even producers of cotton," because the importers wanted to limit the free access of Mexican textiles to the U. S. market.

Gonzalez Sosa said he expected the negotiations to be carried out in "the highest spirit of cooperation" and said Mexico only wants fair and just treatment.

Wimpress Has New Program

DALLAS (AP) — Dr. Duncan Wimpress, president of Trinity University, San Antono, has a plan to free students to take more courses in their major field of study instead of wasting time on material they knew before they walked into the classroom.

Under his plan, which he believes is the only one of its kind in the country, Dr. Wimpress says students must meet three primary requirements for a degree:

1. Have a major field of study;

2. Complete a certain number of semester hours; and,

3. Fulfill nine of 10 basic goals of a liberal education.

"If a student already has a great deal of knowledge of one of the 10 goals when he enters the university, he may take a proficiency test," Wimpress told a recent meeting here.

The program calls for each student to draw his own degree plan according to his aims, talents and future career plans.

"Under the old system, time was wasted by subjecting students to material they knew before they walked into the classroom," he said. "And at some schools students can go and pick from a smorgasboard of courses taking just whatever they want to take. When they have enough hours, the administration says 'okay. You're educated.' One system is just as bad as the other. We think we've found a good middle-ground with this plan."

Thieves Prefer Pickups

DALLAS (AP) — Car thieves in Texas and the Southwest go first for pickup trucks now, according to former New York police commissioner Michael J. Murphy, who is president of the National Automobile Theft Bureau.

Addressing NATB's annual meeting here Wednesday, Murphy said pickups were preferred because they are easily disposed of and sought as campers.

Murphy said that to fight the thieves, who now grab 930,000 cars worth over $1 billion in the United States each year, NATB has to become as specialized as they are.

The bureau, which represents 440 insurance company members, now has both national and regional computer centers for tracing stolen cars.

"So far the existence of 39 car rings operating in the Southwest has been confirmed," Murphy said. "Many appear to have definite links with other types of organized crime groups."

Oklahoma Tightens Watch On Arsonists

By THE ASSOCIATED PRESS

Oklahoma Crime Bureau agents tightened their watch for arsonists in fire-scarred timber areas of Clayton in eastern Oklahoma today and a reward for the capture of arsonists was increased.

Weary fire fighters were able to relax as lower humidities and close watch for more arsonists apparently kept the number of new blazes low.

"We're in pretty good shape," said Al Engstrom, director of the state forestry division.

Engstrom said a new fire was burning late Wednesday near Clayton, already hard-hit and a fire in Sequoyah County was still raging.

As many as 50,000 acres of timber have been destroyed since last week.

The Broken Bow Lions Club, which had posted a $100 reward for anyone catching persons setting fires in McCurtain County, raised the ante Wednesday to $850. Fires were burning in McCurtain County and also in the Buffalo Mountain area near Talihina.

Self-Service Gasoline Stations Have Tripled

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — In somewhat the same manner as self-service laundries caught on in the immediate post-World War II years and automatic carwashers some years later, self-service gasoline stations now show signs of growing popularity.

There is little evidence yet of a business boom, the statistics are beginning to look very bullish.

In 1969 there were about 2,500 such stations, according to industry sources. Now the figure is estimated to be probably as high as 7,500, out of a national total of 220,000 stations.

In addition, several big name companies now are taking the development more seriously than just a few years ago, when most of the stations were manned by small proprietors, including many grocers.

The greatest activity so far has been in the West and South, and the chief reason given for acceptance there generally involve the availability and cost of labor, remote locations, and entrepreneurial spirit.

For the proprietor, self-service is a labor-saving device, but for the customer it is hardly that. More accurately, the self-service station is a labor-transfer device, relieving the seller of chores by passing them on the the buyer.

This concept, ingenious in its simplicity, already has rewarded many thousands of small businessmen who note that while labor for hire costs money, customer labor often is plentiful, inexpensive, uncomplaining and easily exploited.

Consider this suggestive copy that Jersey Standard's subsidiary, AMF Tel Tron, uses to sell its story in the rapidly growing South California market, and then judge for yourself if customer labor pays off:

"About 35 per cent (of installations) are convenience stores with a couple of pumps or more outside as an extra business. Some of these stores are pumping enough gasoline to clear $500 profit per month. This rate would pay for equipment in less than a year.

"The only work of the owner or operator is to fill the water squirter once a day and install a fresh supply of wiper towels."

Broadly speaking, two types are being used. In one, the flow of fuel is controlled from within the store by an electric device. The customer fills up and then comes in to pay.

In the other, a money counter is attached to the pump, restricting the flow to the amount paid for.

Emperor To Visit

TOKYO (AP) — Emperor Hirohito and Empress Nagako may visit the United States after making an 18-day tour of Western Europe this fall, a spokesman of the Imperial Household said today.

Junior Editors Quiz on RIDDLES

QUESTION: *How did riddles originate?*

* * *

ANSWER: "Riddle me, riddle me, riddle me, ree. Perhaps you can tell me what this may be!" Riddles are puzzling questions or statements. The one just quoted doesn't have any meaning but most riddles have answers which it is fun to "riddle" out. Here's an example: "Old Mother Twitchett had but one eye, And a long tail which she let fly, And every time she went over a gap, She left a bit of her tail in the trap." Get the answer? It means a needle and thread. Riddles may be originated in ancient days when oracles and soothsayers tried to mystify people who sought wisdom from them. "Quit talking in riddles!" we often say to people who try to mystify us. Many ancient riddles had reasonable answers. "What flies forever and rests never?" asked an ancient Greek riddle maker, the answer being the wind. Later, riddles became more funny and were often a play on words. For example: When is a door not a door? Answer: When it's ajar. Here are the answers to the riddles in the picture: (1) the letter T. (2) It's time to fix it. (3) A candle. Here's still another: "Riddle and riddle, just fiddle and fiddle." Meaning: write one yourself.

3-25

(Stephen Rucker of Sanrornton, N.H., wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

Boyle Lists Ideal Jobs

By HAL BOYLE

NEW YORK (AP) — Jobs of almost every kind are getting harder to find.

But if you could choose, what would you consider the ideal job?

It would depend, of course on your temperament and the fringe benefits it provided. But here is a list of possible jobs that most people would find it difficult to turn down:

Barber in hippie commune.

Scorekeeper for a soccer league made up of teams of centenarians.

Mayor of a Western ghost town.

Wardrobe designer for a nude Broadway musical.

Overnight janitor in a brewery.

Mattress tester in a furniture factory.

Front door guard in an Arabian harem.

Rear door guard in an Arabian harem.

Official tester in a bourbon distillery.

Keymaker for the vaults in Ft. Knox.

Placard salesman on the campus of almost any major American university.

Bodyguard for Elizabeth Taylor.

Baggage master for a flea circus.

Engraver for a gang of counterfeiters peddling fake Confederate money.

Press agent for Howard Hughes.

Interpreter for Casey Stengel.

Campaign manager for Harold Stassen in 1972.

Director of charm school for bus drivers, subway guards and railroad passenger conductors.

Spelling teacher in a school for sky writers.

Timekeeper for Congress during a recess.

Cruise director for the rowboat fleet in Manhattan's famed Central Park.

A monopoly on the trial balloon floating concession in Washington, D.C.

Chief pilot on an unbuilt SST.

Broadcaster for an invisible network.

Gag writer for a Chinese fortune cookie factory.

Yes, there are plenty of interesting jobs around—if you just have the pluck and luck to find the right one.

Life Has Price For Holt Kids

AUSTIN (AP) — Life has a price for pretty Paula Holt, 17, and her college student brother, Gary.

Three years for $100,000, say lawyers for a foundation set up at Pleasant Hill Baptist Church here to raise the money needed to keep the two alive.

Both have a rare inherited Kidney disease that killed three of their sisters—two in the past five years, and also their grandmother and their aunt.

Their father, Vernon, is a bread company driver. He is scheduled to give Gary one of his kidneys, but doctors say he has cancer and may not live that long.

Paula and Gary depend on a kidney machine about the size of a picnic ice chest to keep them alive, a day at a time.

But their medical needs cost over $1,000 a month, and the family's income is about $900 a month.

Paula's medical insurance has nearly run out. Gary can't get any. The family says it is more than $20,000 in debt for medication and supplies, and they have been notified that no more will be provided unless a "substantial" payment on the bill is made.

Concerned neighbors, who know the Holt children will die unless they get financial help, started the fund drive for the family (Holt Family Fund, P.O. Box 96, Austin 78767).

Paula has been through three major operations in 18 months —two without a general anesthetic.

"Paula's been great. She never complains. She takes it all like a trouper," her mother brags.

Barging Costs To Increase

HOUSTON (AP) — Bulk barge shipments which fuel the Gulf Coast economy are going to get more expensive because of the inadequate Gulf Intracoastal Canal, the president of the water Transport Association says.

"Unless something is done to modernize facilities to get lower rates, you can't take advantage of technological advantages that are coming to barging on the bigger rivers," says John A. Creedy.

The Gulf Canal, he says, has inadequate locks, needs to be widened from its present 125 feet to 300 feet at the bottom and should be 15 feet deep rather than the sometimes 12 feet of depth it now has, he said.

"Currently you can't double up on barges on the canal, add more barges or use the bigger horsepower rugs. So there's no way way to achieve efficiency through economies of scale," he said.

Nationally, barging costs three mills per ton mile."

Water carriers move commodities for which transportation is a substantial part of the total price, Creedy says. As a result, higher rates affect product cost proportionately.

WANT ADS DO THE JOB FAST!

ExpertSays Program Has Failed

SAN ANTONIO (AP) — Drug abuse education has been a "horrible flop," a Galveston drug expert says.

"The crash programs are not the answer," Dr. Robert B. White said in an interview. "This sort of approach is essentially futile."

He recommended "small group discussion with knowledgeable teachers that youth know and respect."

The use of marijuana has reached "more than epidemic proportions among high school and college age young people," he asserted, adding that it is "foolish" to believe marijuana is harmless.

White is director of post graduate education in psychiatry at the University of Texas Medical School in Galveston. He has conducted research there on such drugs as LSD and marijuana.

"Upcoming 10 to 14 years olds will see enough tragedy and heartache in friends and relatives" to lead them to avoid drugs, White said.

He added: "But we lose a great number of people through this method of "education.""

White was here Wednesday to address the Texas Nurses' Association convention.

Turning to the legal aspects of controlling drug abuse, he said that "everyone should be asking why law enforcement is so unsuccessful in stopping or controlling the sources of supply."

As for marijuana, he said it is a drug "with serious abuse potential. It alters the mind in a way much different than alcohol."

There is evidence, he said, that marijuana "significantly disturbs brain functions even for some weeks and months after smoking it is stopped."

He said the use of heroin, amphetamines and LSD is "on the rise, and I call that suicide on the installment plan. The dangers are well known but the tragedy is many young people simple won't believe it."

Proxmire May Seek Presidency

WASHINGTON (AP) — Sen. William Proxmire of Wisconsin says he may make a serious run for the Democratic presidential nomination in 1972.

Nixon Denied Private Beach

WASHINGTON (AP) — There isn't going to be a federally financed beach behind President Nixon's Key Biscayne, Fla., vacation home. His neighbors complained too much.

They said it could harm the ecology of Biscayne Bay and would violate state landfill law—and questioned government claims the sandfill was needed to protect electronic gear and security hedges.

The proposal had been in the works since December. Attempts by newsmen to get progress reports had generally met with cautious referrals to other offices.

A principal opponent of the project said, "They became so secretive you began to suspect something clandestine."

But Wednesday, J.E. Smith, Atlanta regional director of the General Services Administration's public-buildings service, said in response to a telephoned question: "There are no plans to go forth at this time. "The project was primarily deferred because of objections of people in the area. We may do something else or we may never do anything."

The project involved laying 2,000 cubic yards of sand beyond a concrete retaining wall behind Nixon's home on the bay side of Key Biscayne.

The government said the beach, on state-owned land, was needed to cut down on salt spray that is interfering with electronic security devices and killing a hedge used to block public view of the President's house.

The Florida Department of Natural Resources waived its permit requirements for the project and drew the ire of Nixon's neighbors.

The Key Biscayne Property Taxpayers' Association, Inc., said in a letter to the state government: "In view of the fact that electronic equipment can be maintained on the moon, in submarines, aboard ships and in other areas subject to even greater attack by the elements, and the fact that salt-resistant shrubbery flourishes on Key Biscayne, the announced reasons leave a large credibility gap and fail to demonstrate any overriding public necessity for the fill."

Gus Ollos, president of the association, said in an interview: "If they wanted to stop salt spray, they would put in rock which would dissipate the waves."

Holyoake To Meet With Nixon

WELLINGTON, New Zealand (AP) — Prime Minister Sir Keith Holyoake says he plans to meet President Nixon in Washington next month.

Holyoake will stop over in the U.S. capital en route to London to attend five-nation Anglo-Malaysian defense talks and a meeting of the council of the Southeast Asian Treaty Organization—SEATO.

Man Killed In Plane Crash

NEWTON, Tex. (AP) — A Stamford, Conn., resident—Robert G. DuPont, 61—was killed Wednesday when his small aircraft crashed and burned about seven miles southeast of Newton in Southeast Texas.

DuPont apparently was alone in the plane, sheriff's officers said, when it lost power, hit a power line and crashed in flames.

Cards Clip ChiSox 3-2

By HAL BOCK
Associated Press Sports Writer

The Chicago White Sox needed a little while to do it but they finally came up with a way to cool off red-hot Jose Cardenal.

Cardenal had strung three straight hits together in St. Louis' 3-2 victory over the Sox on Wednesday after coming into the game with a streak of four hits in Tuesday's game against Cincinnati.

That gave the speedy outfielder seven hits in a row—a streak the Sox halted the easy way. They used the old intentional walk play on the Cardinals' Cardenal.

Forced to look at four wide pitches, Cardenal did not manage an eighth straight hit. He only walked.

Elsewhere in exhibition baseball Wednesday, it was Cincinnati 8, Houston 4; Kansas City 6, Minnesota 3; Detroit 7, Baltimore 2; Montreal 6, Atlanta 2; Los Angeles 10, Washington 9; Pittsburgh 9, Philadelphia 2; the New York Yankees 9, Boston 5; Cleveland 7, the Chicago Cubs 2; San Francisco 10, Oakland 7; and California 2, Salt Lake City of the Pacific Coast League 0.

Hal McRae and Tommy Helms ripped three hits each and Milt Wilcox fired seven shutout innings as Cincinnati rapped Houston. McRae drove in three runs with two singles and a double, as the Reds strafed Astro ace Larry Dierker for seven runs.

Dick Drago went seven innings for Kansas City, allowing Minnesota just four hits as the Royals trimmed the Twins. KC collected 10 hits with Fred Patek, Amos Otis, Gail Hopkins and Cookie Rojas getting two each.

Al Kaline reached Baltimore ace Dave McNally for a three-run homer and Detroit dropped the Orioles. Kaline's shot and a two-run double by Ed Brinkman were the big hits for the Tigers. Boog Powell homered for Baltimore.

Carl Morton pitched a four-hit complete game for Montreal against Atlanta and the Expos got home run punch from Mack Jones and Ron Fairly. Morton also had an RBI single for the Expos.

Tom Murphy allowed three hits in seven innings and struck out eight as California blanked Salt Lake City. The Angels scored both their runs on errors.

Richie Allen had four hits including a double and triple and drove in two runs as the Dodgers whipped Washington. Bill Buckner's two-run triple delivered LA's winning runs in the seventh inning.

Dave Cash had four hits and Bob Robertson tagged a three-run homer as Pittsburgh routed Philadelphia. John Briggs homered for the Phils.

Bobby Murcer drove in four runs and Murcer and Thurman Munson both tagged homers for New York against Boston. The Yanks bunched five hits for four runs against Jim Lonborg in the first inning.

Cleveland rapped Ken Holtzman for six runs in the first inning and went on to rout the Cubs. The runs ended a 17-inning scoreless streak for Chicago pitchers.

Homers by Willie McCovey and Bobby Bonds led San Francisco past Oakland.

A FLIGHTY JOCKEY — His feet still in the irons, jockey Don Sunderland flies through the air after his mount Secret Myth fell at open ditch in Barcombe Novices Steeplechase at Plumpton race course Wednesday. Neither was hurt. The horse at fence in background, Rebel Song, with jockey R. Champion, also fell. (AP Wirephoto via cable from London)

Padres Are Improving

By JACK STEVENSON
Associated Press Sports Writer

YUMA, Ariz. (AP) — "Overall, I think we will be better than last year," says San Diego Padres' Manager Preston Gomez hopefully, "with competition at most positions."

Going through spring training, only first baseman Nate Colbert, right fielder Ollie Brown and center fielder Clarence Gaston could be assured positions in the batting order.

San Diego's expansion club finished last in the National League West a year ago but the 63 victories were 11 more than in the inaugural 1969 season.

"Improvement this year comes in defense mostly," observes Gomez. "I have been impressed with Enzo Hernandez and we also got Don Mason."

Hernandez, rated one of the best shortstops in the minor leagues at Rochester last year, came to San Diego along with Tom Phoebus, Fred Benne and Al Severinsen for Pat Dobson, who won 14 games last season, and Tom Dukes.

After that trade with Baltmore's world champions, the Padres traded with San Francisco for Mason, a reserve infielder with the Giants.

Even with those swaps, Gomez feels the Padres must build through their own organization. He estimated 75 to 80 per cent "of our good ball players are being developed in our own organization."

Gaston proved the big gun for San Diego last year with a .318 average, improving from .230 the previous season. His average led the team and he also has the most RBI, 93; most runs, 92 and most hits, 186. His 29 homers were second only to Colbert's 38.

Gomez expects Bob Barton and Chris Cannizzaro to share the catching assignments while Fred Kendall, listed as a reliever, can also play first base or third base.

Left-handed pitcher Danny Coombs and right-hander Clay Kirby each won 10 games for the Padres last season while Dave Roberts won eight. At one point in the season, Sept. 10-29, Roberts pitched 28 1-3 scoreless innings, including two victories over Atlanta and one over Los Angeles.

Severinsen and Gary Ross are slated for bullpen duty as Gomez must rebuild his relief hurling corps.

At all of the infield positions, with the exception of first base, the Padres went into spring training with at least three candidates.

Baseball Team At Eunice

Snyder's Tigers tangle with Lovington, N. M. at 8:30 p.m. (New Mexico time) today in the first round of the Euncie, N. M. Baseball Tournament.

If they win, they'll play at 8:30 Friday. If they lose, they'll play at 3:30 Friday.

Other first round pairing pit Eunice against Crane at 1 p.m., Kermit against Brownfield at 3:30 p.m. and Monahans against Hobbs at 6 p.m.

Coach Speedy Moffett has named a starting lineup, according to batting order, as follows: Stewart Sims 3b, Marvin McClanahan 2b, Larry Wall c, David Thompson cf, Butch Buchanan 1b, Tommy Washington ss, Albert Hernandez rf, Charles Anderson lf, and Bobby Schrader p.

The Tigers are 8-4 for the season.

Premier Mile Race Slated

EL PASO, Tex. AP — Jim Ryun and Marty Liquori, America's premier milers, will meet in a head-to-head duel next May 22 in the first annual El Paso Invitational track meet it was announced here Wednesday night.

It will mark the first time since Ryun began his comeback this year that he will have competed against Liquori.

Adolph Rupp Disappointed

HOUSTON (AP) — Veteran Kentucky basketball coach Adolph Rupp says his reaction to the reported signing of an undergraduate by an American Basketball Association team is one of "bitter disappointment."

Rupp commented on the report the Memphis Pros of the ABA were signing Johnny Neumann, the sophomore who was the NCAA scoring champion from Mississippi.

Rupp is the retiring president of the National Association of Basketball Coaches, which is meeting here this week in conjunction with the NCAA basketball championships.

Darrell Royal, University of Texas football coach and athletic director, was to discuss recruiting problems at today's session.

Rupp said he believes Neumann has made a mistake.

"Johnny Neumann and I have been personal friends," he said. "I had hoped he would remain in our conference. He is truly a great athlete and I am sorry to see him take this route.

"I am hopeful this is not a trend because I have assurances from Walter Kennedy (the National Basketball Association commissioner) they would not violate their agreement with the coaches association.

"Jack Dolph (the ABA commissioner) told me the same thing and put it into writing. I am bitterly disappointed that the ABA is raiding colleges, because that is not in the true spirit of collegiate athletics and I do not believe pro athletics will survive if these rules on the college undergraduates continue."

Gary Player Is Airline Favorite

MIAMI (AP) — South African Gary Player never has won two golf tournaments in a row in the United States, but he notes that "consistency has been my biggest asset."

The tough-minded but very personable little physical fitness faddist, winner of last week's Greater Jacksonville Open, was one of the top favorites for the $40,000 first prize today going into the first round in the rich, $200,000 National Airlines Open Golf Tournament.

"Last week's over," he said of his sudden death playoff victory in Jacksonville. "I can only say I played very well last week. That doesn't mean I'll play well this week. Golf's a humbling game, a fractional game."

LA Lakers Comeback, Sink Bulls

By THE ASSOCIATED PRESS

Apparently spurred on by the booing of their fans the Los Angeles Lakers wiped out a 17-point deficit and beat the Chicago Bulls in the opening of the National Basketball Association Playoffs.

The score was 100-99 as the Lakers took a 1-0 lead in the best-of-7 Western Conference semifinals. In the start of the Eastern Conference seimfinals the Philadelphia 76ers walloped the Baltimore Bullets 126-112.

The booing at the Forum in Los Angeles came near the end of the first half Wednesday night when the Lakers trailed by 15 points at 54-39.

The Lakers, playing without their injured star, Jerry West, fell 17 points behind at 56-39 soon after the start of the second half before executing an about-face.

Led by Jim McMillian, former Columbia star, the Lakers gained the lead at 94-93 on a three-point play by Gail Goodrich. They fell behind again before two free throws by Goodrich wrapped it up for LA.

McMillian scored a career high of 26 points, including 20 in the Lakers' second half rally. Goodrich finished with 24 and Keith Erickson 23. Big Wilt Chamberlain added 18 and grabbed 21 rebounds. Bob Love led Chicago with 24 points.

Behind by 62-61 Philadelphia went on a 13-point burst to go ahead of the Bullets for good at Baltimore. Veteran Hal Greer paced the 76ers with 30 points. Gus Johnson and Kevin Loughery topped the Bullets with 19 each.

Johnson and Wes Unseld played for Baltimore, but were hampered by the injuries that had kept them out of several games. In addition, Earl Monroe of the Bullets suffered bruised ribs and played only 11 minutes.

Chicago plays the Lakers at Los Angeles again on Friday night. Baltimore is at Philadelphia that night.

The champion New York Knicks play their first playoff game today against Atlanta. The other playoff series, Milwaukee vs. San Francisco, starts Saturday in Oakland.

Cage Signing Stirs Football

PALM BEACH, Fla. (AP) — Pro football cinged again today at the happenings in pro basketball with commissioner Pete Rozelle of the National Football League foreseeing possible congressional legislation aimed at curbing the signing of college undergraduates.

"I can't speak for what the colleges or Congress might or might not do," said Rozelle, "but I would think there would be some bills in the hopper soon."

Rozelle's latest comments on the world of pro basketball stemmed from the signing by the Memphis Pros of Mississippi sophomore Johnny Neumann for a reported five-year contract in excess of $2 million.

The contract was approved, according to Commissioner Jack Dolph of the American Basketball Association, in light of a California judge's decision in the Spencer Haywood case which said that limiting the signing of players by the pros to college graduates violates anti-trust laws.

Rozelle said earlier in the week that if the Haywood decision were upheld, it could become a problem for pro football since "an adverse decision in one sport could have a ruboff effect on any other."

He also said at the time that the continuation of the signing of undergraduates by pro teams could lead to the destruction of collegiate sports programs. The latest incident obviously has led him to believe colleges will seek relief through Congress.

While they seemed to be spending a good deal of time watching the pro basketball situation, the NFL owners nevertheless took care of their own business Wednesday by considering several rule change proposals.

In the major one, a proposal to have the NFL adopt the old American Football League two-point conversion rule was defeated by a 17-9 vote that owner Lamar Hunt of the Kansas City Chiefs said was decided very much along former league lines.

The owners put off until today a decision on a field goal proposal that would bring the ball back to the line of scrimmage on any attempts from outside the 20-yard line that fail and are not returned. The attempt would be to curb the number of long distance field goal attempts.

Jones Beats Nancy Richey

NEW YORK (AP) — Ann Haydon Jones, who as a seven-time Wimbledon semifinalist and 1969 champion has played her share of winning tennis, might have a new mark for excellence.

Mrs. Jones, of England, defeated Mrs. Nancy Richey Gunter of San Angelo, Tex., 6-7, 7-6, 6-4 in a grueling 2 hour, 33 minute match in which the first two sets were decided by nine-point, sudden-death tie-breakers.

The match, played in the opening round of the Virginia Slims Invitational Tournament advanced Mrs. Jones to the quarter finals Thursday.

Also advancing to the quarter-finals were: top-seeded Billi Jean King, Long Beach, Calif. defeated Mrs. Carole Graebner New York, 6-2, 6-3; Julie Heldman, New York, defeated Betty Ann Hansen, Santa Monica, Calif. 6-4, 6-0; Kerry Melville, Australia, defeated Kristy Pigeon, San Mateo, Calif., 6-4, 6-2.

Other quarter-finalists are: Francoise Durr, France, defeated Karen Krantzke, Australia, 6-4, 6-3; Ceci Martinez, San Francisco, defeated Tory Ann Fretz, Los Angeles, 3-6, 6-1, 6-4; Janes "Peaches" Bartkowicz, Hamtramck, Mich., defeated Val Ziegenfuss, San Diego, 6-1, 6-1; and Rosemary Casals, San Francisco, defeated Judy Tegart Dalton, Australia, 6-4, 6-4.

Kansas Has Big Plans

HOUSTON, Tex. (AP) — Kansas basketball coach Ted Owens has a formula for doing what no other team has been able to do in six of the past NCAA championship tournaments—defeat defending champion UCLA. "There are three basic things we need to do to beat UCLA," Owens said. "First, we need to try to keep them from getting their second and third shot.

"Second, we need to defeat their press. And, third, on offense, we need to hit a good percentage of our shots."

It sounds simple enough. But the midwest champion Jayhawks, who have a 21-game winning streak and a 27-1 record, are heavy underdogs against the Bruins, who are aiming for their fifth straight NCAA crown.

UCLA, fueled by All-American Sidney Wicks and Curtis Rows, are expected to gain the finals berth in the second game at 8:40 p.m. CST tonight while Western Kentucky, with 7-foot All-American Jim McDaniels, is favored to earn a finals spot in its semifinals match with Villanova at 6:40 p.m. CST.

The championship game is scheduled Saturday.

Western Kentucky head coach Johnny Oldham said he would put his standout defensive specialist Clarance Glover on Villanova's high scoring Howard Porter.

The Western Kentucky-Villanova game could be a run and shoot affair.

Villanova coach Jack Kraft shuns all favorite and underdog labels. "The teams that puts two games together is going to be the winner," Kraft said.

Villanova, the eastern champion, powered its way into the championship tournament with a 90-47 victory over Pennsylvania.

The Wildcats, 26-6, will suit up only nine players for the game. Their depth problem was evident Wednesday when they suited up the manager to scrimmage in their only practice in the Astrodome.

"Don't let our numbers fool you," Kraft said. "We suited up two managers and one publicity man to practice today." The Wildcats were riddled by early injuries.

Western Kentucky's attack centers around McDaniels who leads all scorers in the tournament with a 29.2 average. Glover is averaging only 7.4 points but has been trenendous on defense.

Astro Pitcher Works Hard

TAMPA, Fla. (AP) — Rookie Houston Astros pitcher Walter (Buddy) Harris is laboring hard to earn a spot in the bullpen.

The 6-foot-7, 238-pound right-hander didn't hurt his chances any Wednesday although the Cincinnati Reds defeated the Astros 8-4 in an exhibition game.

The Reds hopped on Larry Dierker for seven runs, five of them earned, and 12 hits in six innings.

Then Harris came out of the bullpen. He challenged the hitters with strikes and yielded a solo run in the eighth on singles by Jimmy Stewart and Frank Duffy, a walk and an error.

"I know I've got a chance to make the club," Harris said, "and I'm just giving it all I've got."

The Astros, blanked on seven hits by Milt Wilcox for seven innings, managed four runs in the last two off Joe Gibbon.

Cesar Cedeno, Ray Busse and Jesus Alou hit home runs to account for three Astros tallies.

Golf Team In Match At C. City

The Snyder High School golf team will be in Colorado City Friday and Saturday for the first of three District 3-AAA golf matches.

Coach Milton Ham said the boys who will make the trip are Glenn Rambin, Sammy Baker, Art Kidd, Marty Pate and Mark Hargrove.

The second district match will be here in a couple of weeks, and the third one will be the following weekend in Sweetwater.

Bonnies Beat Hawaii, 73-64

NEW YORK (AP) — Hawaii tried to go over the rainbow once too often. When the storm clouds gathered it was muscle and experience that gave St. Bonaventure the pot of gold—a semifinal berth in the National Invitational Tournament.

"The guys just got too cautious," Coach Red Rocha said of the Rainbows who, after storming back from a 14-point first-half deficit, held a three-point lead with five minutes to play before caving in and losing to the Bonnies 73-64 Wednesday night.

In the nightcap of the doubleheader before 9,442 fans at Madison Square Garden, Georgia Tech rode RichiYunkus' 27 points to an unimpressive 78-70 triumph over Michigan that completed quarter-final play.

Tech will meet the Bonnies in tonight's second game of the semifinals. The opener will feature Atlantic Coast Conference colleagues North Carolina and Duke.

St. Bonaventure, making its eighth NIT appearance in the tourney's 34-year history, seemed bent on blowing the Rainbows back to their Pacific Ocean home before the first half was half over.

Greg Gary finished with 20, Hoffman had 18 and Carl Jackson added 15 for the Bonnies. John Penebacker hit 18 for Hawaii.

For a while it seemed no one really wanted to win the second game. Neither Georgia Tech nor Michigan could get a steady offense going —and only consistent defensive lapses on both sides kept the score slowly climbing. The spread was never wider than six points and Tech led 33-31 at the intermission.

The Engineers finally began to put the pieces together in the second half, outscored the Wolverines 12-6 in a five-minute stretch to go ahead 47-41, then held off Michigan the rest of the way.

Yunkus, Tech's 6-foot-9½ center, lived up to his advance billing. Along with his 27 points—16 in the second half—he grabbed 16 rebounds.

Michigan was led by Ken Brady, with 20, and 18 by Henry Wilmore, who showed only occasional flashes of ball-handling brilliance.

Little Dribbler All-Stars Named

The Snyder Little Dribblers completed their basketball season, and the coaches of the eight teams voted on All-Stars.

Twenty All-Stars were selected, and will compose two teams to play an All-Star game on Friday, April 2, in the high school gym.

The Green team will be coached by Ira Riggs and Dub Preston. The Green All-Stars are Charles Cobb, Rickey Beard, Mike O'Day, Tony Cobb, Tim Falls, Brad Francis, Mike McClure, Kerry Young, Alvin Ollison and Dale Hobbs. Managers and alternates are Greg Early and Calvin Reese.

The White All-Star team will be coached by Grady Gafford and Bill Murray. The White All-Stars are Robert Riggins, Anthony Lewis, Brad Browning, Lucious Jeffery, Darrell Lester, Macus Anderson, Jessie Villareal, Lee Allen Jerrell, Kirk Johnson and David Rice. Managers and alternates are Randy Courtney and Doug Vaughn.

All of the boys that played Little Dribblers Basketball are currently in a contest to sell tickets to the All-Star game with prizes for the four boys who sell the most tickets. Proceeds from the All-Star game will be used to cover expenses for a Regional Little Dribblers Tournament to be held in Snyder on April 16-17 to determine the team from this region that will advance to the National Tournament in Levelland on April 29-30 and [illegible] other towns to be represented in the Regional Tournament are Andrews, Brownfield and Breckenridge.
