The two-year fight to gain for alfalfa seed growers recognition that their product is comparable in quality to that grown in more favored seed zones, has come to an end with that recognition officially given by the Department of Agriculture, W. C. Pfander, assistant chief of the Seed Act Division has notified J. W. Thomas, county agent.

This is being done through the organization of a Northwest Texas Seed Zone, including all counties in this part of the state.

What this amounts to, Mr. Thomas explained, is that seed produced here is now recognized as being winter-hardy in alfalfa areas throughout the United States. Previously, due to the Panhandle's being classified in the Southern Seed Zone, the seed was not recognized as winter-hardy, and growers were handicapped by (Continued on Page Twelve)

## Funeral Rites For Mrs. J. E. Jones Held Here Tuesday

Mrs. John E. Jones, a resident of the county since 1914, died Sunday night, August 12, at 11 o'clock. Her death followed an illness of several years.

Funeral services were held at the First Baptist Church Tuesday afternoon at 4:00 p.m., with the Rev. Howard Jones, pastor, officiating.

This the fourth year the unit has been in Wellington in the drive to stamp out tuberculosis in Texas.

"We will not feel the campaign is a success unless every person in the county 15 years of age and over is X-rayed," Jack Gibson, general chairman, declared.

Schools of the county have been asked to co-operate by urging all students eligible to have chest x-ray.

It is pointed out that the 15-year minimum age is set because tuberculosis is seldom found in younger children and in addition, practically all children under that age will have the TB patch test some time during the school year.

This campaign, like others throughout the United States, has as its goal the elimination of tuberculosis, and it is only through the examination of every person that this can be accomplished.

Wellington doctors have been instrumental in bringing the mobile X-ray unit to Wellington each year and they urge strongly that every person have a chest x-ray.

It is pointed out that the x-rays are free but they are not charity. The unit is financed by the taxpayers money through the State Department of Health.

The individual does not undress and it takes only two minutes of his time.

The doctors further point out, in urging all people of the county

over 15 to be x-rayed, that one may appear healthy, yet have tuberculosis in an early and curable stage.

If the individual is free of any chest disease which may be revealed by x-ray, he will, several weeks after being x-rayed, receive a card from the state Health Department to this effect.

In case the x-ray shows the (Continued on Page Twelve)

Mrs. Warren's home was at Allison, and she had lived in that section of Wheeler county for the past 38 years.

Funeral services were held at 3:00 p.m. Sunday at the Methodist Church at Allison, with the Rev. J. F. Michael, pastor of the Methodist Church here, and the Rev. Gene Louder in charge. Burial was in the Zybach community cemetery under the direction of the Kelso Funeral Home.

He served in the first Legislature after Oklahoma was admitted to statehood and he was president when the state capital was moved by force from Guthrie to Oklahoma City.

Mr. and Mrs. Warren were married at Dempsey, Oklahoma, June 26, 1909, and a few years later they moved to Wheeler County. She had been a member of the Methodist Church since 1916, and was especially active in the Allison church.

In recent years, Mrs. Warren had visited in Wellington numerous times and had a number of friends here.

## OLD SETTLERS REUNION

The pioneers will observe their day by a pattern set when they gathered half a century and more ago, while they were settling a new land. Friday will be a day of old fashioned visiting at LaHue Grove three miles east of Wellington.

Pioneers may register at the

county library Thursday and to 10:00 a.m. Friday and receive their badges. After that, they will register at the grove. A basket dinner will be served at noon.

They will spend as much time as they like reliving the old days, then in the evening, they will gather at the community building for another meal to be served about 7:00 p.m. Later they will visit, or old-time music may be played.

J. D. Thomas, the moving spirit behind these reunions for many years, is again in charge.

The Dukes took an easy win in the first half of the schedule and the Owls have taken the second half. The teams are considered evenly matched, and every man will be out to win, Mr. Strong declared.

The last game in the Dukes schedule will be between Wellington and the Childress Orioles Thursday night at Marian Airport. This game, however, will have no bearing on the league standing.

### Jim Thompson Describes Explorer Scout Trip Through North Woods

By JIM THOMPSON  
Explorer Scout, Post 82

We left Berger about 8:30 in the morning on the 18th and went through Spearman and Perryton, picking up boys at both places. There were only 29 regular seats on the bus and small fold-up seats in the aisle and one extra chair in the front, which seated us all just perfect. Every two hours we rotated in order to give the fellows in the aisle seats a break, therefore, we all sat in the aisle for a two hour period at times.

We stopped at Liberal, Kansas about 10:00 for a stretch period, went on to Garden City, where we ate lunch and then on to Norton, where we ate supper, and to Hastings, Nebraska, where we spent the night. I say the night, from 11:00 p.m. till 5:00 a.m.

Of course, everyone was feeling good having lots of fun, so we yelled and whistled at every girl we thought good looking and people knew someone was coming when we hit every town. We made sure that with the help of Bill, the bus driver, and his little air horn. We went through Lincoln, Ne-

dle of town and one fellow stuck his head out the window and sang out, "The Eyes of Texas Are Upon You!"

I might mention that the bus wasn't running right on the way up there (and on the way back, for that matter) and we averaged about 30 miles per hour for the first couple of days.

We saw lots of wheat and grasses in Kansas and some corn. Most of the crops looked good, too.

In Nebraska, we saw lots of corn, wheat, grasses and several others. The country around there was really pretty, too.

As we got into Iowa, we began seeing more and more corn, along with good crops of wheat and grasses, and a plant that looked like peanuts to me.

There was also more corn in Minnesota than any other crop, along with crops of Canary grass, clover, lots of alfalfa and tobacco.

In Iowa and Minnesota the countrysides were covered with three of different varieties, such as pine, spruce, maple, birch and others.

We went to Ely, Minn., from Du- (Continued on Page Twelve)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-b, Article III, Constitution of Texas, be amended so that the same will hereafter read as follows:

"Section 49-b. There is hereby created a Board to be known as the Veterans' Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Veterans' Land Board may issue not to exceed One Hundred Million Dollars (\$100,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund. Such bonds shall be executed by said Board as an obligation of the State of Texas, in such form, denominations, and upon the terms as are now prescribed by Senate Bill No. 29, Chapter 318 of the Acts of the Fifty-first Legislature, provided, that when the limitation of Twenty-five Million Dollars (\$25,000,000) is used in said Senate Bill No. 29, the same shall hereafter be construed as One Hundred Million Dollars (\$100,000,000), or as said Act may be hereafter amended, or by other laws that the Legislature may hereafter enact; provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum, and that the same shall be sold for not less than par value and accrued interest.

"In the sale of any such bonds, a preferential right of purchase shall be given to the administrators of the various teacher retirement funds, the Permanent University Funds, and the Permanent School Funds; such bonds to be issued as needed, in the opinion of the Veterans' Land Board.

"The Veterans' Land Fund shall be used by the Board for the sole purpose of purchasing lands suitable for the purpose hereinafter stated, situated in this State, (a) owned by the United States, or any governmental agency thereof; (b) owned by the Texas Prison System, or any other governmental agency of the State of Texas; or (c) owned by any person, firm, or corporation.

"All lands thus purchased shall

be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of the Veterans' Land Fund.

"The lands of the Veterans' Land Fund shall be sold by the State to Texas Veterans of the present war or wars, commonly known as World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now provided by law, or as may hereafter be provided by law.

"All moneys received which have been received and which have not been used for repurchase of land as provided herein by the Veterans' Land Board from the sale of lands and for interest on deferred payments, shall be credited to the Veterans' Land Fund for use in purchasing additional lands to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in like manner as provided for the sale of lands purchased with the proceeds from the sales of the bonds, provided for herein, for a period ending December 1, 1959; provided, however, that so much of such moneys as may be necessary during the period ending December 1, 1959, to pay principal of and interest on the bonds heretofore issued and on bonds hereafter issued by the Veterans' Land Board shall be set aside for that purpose. After December 1, 1959, all moneys received by the Veterans' Land Board from the sale of the lands and interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of said bonds and to pay interest thereon, and any of such moneys not so needed shall not later than the maturity date of the last maturing bond or bonds be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All bonds issued hereunder shall, after approval by the Attorney General of Texas, registration by the Comptroller of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute obligations of the State under the Constitution of Texas. Of the total One Hundred Million Dollars (\$100,000,000) of bonds herein authorized, the sum of Twenty-five Million Dollars (\$25,000,000) has heretofore been issued; said bonds are

hereby in all respects validated and declared to be obligations of the State of Texas. This amendment shall become effective upon its adoption."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to this State at an election to be held throughout the State of Texas on the second Tuesday in November, 1951, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

FOR the Amendment to Section 49-b, Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."

Those opposing said proposed Amendment shall write or have printed on their ballots the following words:

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation thereof.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this State.

**Boys Ranch Rodeo Sept. 3**

Many cowhands will be scratchin' leather, come Sunday, September 2nd and Labor Day, September 3rd, the two big days of the Boys' Ranch Rodeo. Practice is in full swing for the 7th Annual show, which will be held at the Ranch, and the smell of liniment and iodine can be detected almost any hour.

The boys take their task seriously, for the Rodeo stock will be furnished by the Buetler Brothers of Elk City, Oklahoma, who have promised a bunch of ornery critters. The boys plan on showing the Buetler Brothers how to ride, starting at 2:30 each day. They will be assisted by the Amarillo Range Riders, who are sponsoring the show, as in the past.

Preparations have been going on for some time, and the boys have piped spring water into the 20 acre park for the benefit of those who bring their lunch, or buy sandwiches and pop on the grounds. The highway officials have promised completion of the highway from Channing which means paved roads all the way to the Ranch via Channing.

Good entertainment, easy accessibility, comfort, plenty of cold drinks and sandwiches are in store for patrons who attend the Boys' Ranch Rodeo over the Labor Day week-end.

# NOTICE

In another part of this paper will be found the Captions of two ordinances that are now before the City Council for a second reading. Full copies of these may be obtained at the City Hall and you are invited to acquaint yourself with their provisions.

The first of the ordinances regulates the sale of food of any sort in the City of Wellington and requires the dealers whether retail or wholesale to secure a permit from the City secretary, and to conform to some twenty provisions regulating the handling and sale of food, and empowers the city health officer to enforce the provisions of the ordinance.

The second ordinance regulates the sale of milk and milk products in the City of Wellington, and also requires producers and dealers to obtain a permit and to observe certain definite sanitary standards.

There has recently become a necessity for the passage of the above two ordinances because of some adulterated milk which is now being sold in Wellington and which is harmful to the health of those using it and there has been no way in

the past to distinguish between the pure milk which is being sold and the adulterated milk. This milk ordinance will set up a standard for all those who produce and sell milk in the City of Wellington and this has as its purpose the protection of the citizens of Wellington.

There has been no ordinance in the past which required food handlers to have a health examination and to present a certificate from a Doctor stating that they were free from all communicable disease. It is the aim of the city council in passing this ordinance to require all persons handling food to have a certificate for the protection of their customers. It is believed that this will not work a hardship on anyone but will merely set up a uniform system to control contagious diseases which become more prevalent in the fall and winter season when there are many transit persons in Wellington.

Your co-operation in studying these ordinances before the final reading and your observation of them if and when they are passed will be appreciated. Full Copies may be obtained at the City Hall.

Naval Reserve Fighter Squadrons 781, 783, and 874 of Oakland and Los Angeles, Calif., has celebrated their return to active duty, a year ago this month, by blasting Korean Communists with some of the deadliest explosives known to man—fiery napalm bombs, rockets, and other assortments of hot lead.

Coming from all walks of civilian life, the reserves proved the value of their weekend training by helping turn the tide against the North Korean invaders. This value was further proved by the rapid transition the squadron was able to make when they were ordered back to the active military service.

# Deck's DIDACTICS

—By Deskins Wells

There is going to be a lot of talk of other days when the ex-students of Wellington High School meet here next Saturday. There will be a business meeting in the community building followed by open house in various homes for various classes.

Then from 5 p.m. to 7 p.m. the B & P.W. will serve a buffet dinner in the community room. The price of a ticket is \$1.25 and may be obtained from any member or at the Chamber of Commerce, the county library and any number of firms. The buffet dinner is being served as a convenience to those attending the reunion and to give those from away more time to be with their friends.

Jimmy Joy and his orchestra will play for the dance that evening. I used to know him when he had a band at the University of Texas and he was plenty good long before he got to the big time.

And for those who care to stay over for it, there will be the flight barbecue at the Community Building on Sunday, choice of seeing the air exhibitions, attending a ball game or swimming in one of the best pools in the Panhandle.

Let's just hope that we have a little bit more moderate weather than we have been experiencing for the past three weeks.

A group of Wellington people went down to the coast and caught 350 pounds of red snapper in a single day. Mr. and Mrs. John King drove down in a pick-up and Jackie Strong, Beryl Faulkner, Bobby Jack Watson and Wayne Henard flew down. They went out on one of the A. W. Upchurch boats at Port Isabel and all of them made the fishing trip together. Hope to have a picture of a couple of the fish in the paper next week.

This is the time of the year when I would like to be away from here. These dog days are the worst time to stay. I feel confident that it will rain in time to bring much of the cotton back to full fruiting; but it hurts me physically and spiritually to stay here and see it burn. However, cotton is a wonderful semi-tropical plant. It can take a lot of hot, dry weather and then if the general rains do fall, ground soakers that is, the cotton will revive and start to put on squares and bolls in an astonishing manner. We may not do it this time; but it was in years just like these that this area has made some of its best cotton crops.

Remember what I wrote for Wes Izzard's column last spring about crop crowding — trying to make a row crop after wheat had failed. Well, a lot of farmers on the plains tried to do it. With the exception of the irrigated farms, their maize is gone. Have not heard from the dry land cotton; but it was puny and sick enough ten days ago. And now the land is not in shape to take care of the moisture that may come this fall. My observation was that farmers, who having lost one crop, try to crowd the seasons in a region where rainfall is a limiting factor generally win up by not only losing one crop but by losing three in a row.

We ship grain to India; but over there monkeys are sacred and the critters are destroying 10c worth of grain per day per monkey. That is enough grain to keep an Indian alive. They are starving on the streets; but they won't kill the monkeys for they are sacred creatures. In another part of India the cattle we know as Brahmas roam the streets and fields eating precious plants that the natives could eat; but they won't kill and eat the cattle because the cattle are also sacred like the monkeys. Yet we send them grain. And if we will only send them enough their birth rate, girls are married off at 12 years, will increase to such an extent that starvation will be even worse than it was before.

we sent extra food. (That has been the Red Cross experience with the Chinese through the years.) Our only hope of helping other people is to help them help themselves; and if they can't or won't then we should cut them off and try to make an effort to save our own economy and our own civilization.

I must get down to the VFW hall one of these nights and see what is going on. Members tell me that Bud Manzer is decorating the inside of the building. One told me that he is spending his own money and doing all the work himself and that frequently he worked until 2 o'clock in the morning. Another member said that he had been informed that Bud had spent \$3,000 on the project. I went over to see him and ask him about it. He said that he was working out there and that he was doing it to suit himself. Well, that business of doing it to suit himself sounds like the old Bud — I must get out and see it.

Pat O'Hair says that he is not going to meet with the Commissioners Court again on tax levying matters until they balance the budget. He says that no taxes can be levied unless all four commissioners are there. He does say that they may summon him and force him to be there. The row seems to be that the other three commissioners voted him down on the budget. Don't know much about this as yet. The other commissioners have said nothing. Perhaps there will be more in the paper about it next week after we have had a chance to make a careful check of the facts as we find them. The controversy stemmed from the budget hearing, and Pat, who was first to mention it, declares that the approved budget represents deficit spending to the sum of \$3,000.

What happens when, just before supper time, the housewife finds herself in need of a quart of milk or a loaf of bread? Why she sends Junior down to the local grocer for them. And Junior finds Mr. Grocer with a welcome smile on his face, eager to serve, even for a purchase measured in pennies.

That friendly smile is the secret of PLEASANT, CONVENIENT, ECONOMICAL BUYING, whether your need is for a loaf of bread or a new washing machine! First of all it's a reminder that your home town merchant is your NEIGHBOR. His reputation—his business success depends on how well he pleases

YOU. So his service and his products are BETTER. Then too, you can TAKE YOUR TIME making purchases right here at home . . . . and when you buy from a local merchant, you're always sure that he will stand behind the products he sells, 100%!

**DOZIER**

By MRS. E. L. RANKIN

The showers of last week missed this community, but came near enough to bring cooler weather, and that helps a lot. We need a good rain badly.

The revival meeting that has been in progress at the Church of Christ the past week, closed Sunday night. Minister Taylor brought some very inspiring messages and a great deal of interest was shown in the meeting.

Rev. and Mrs. Fred Stockton of Seattle, Washington, are visiting his sister, Mr. and Mrs. Bill Davis. Rev. Stockton delivered an address at the Methodist Church Sunday morning in the absence of the pastor, Rev. Bean, who is away on a revival.

Misses Dale and LeDuana Bradley of San Diego, California, are here visiting their aunt and uncle, Mr. and Mrs. Pat Bradley and family, Mrs. Gussie Cornell and family, and other friends and relatives.

Mrs. Jim Jones had as her house guest last week an old friend, Mrs. Lucas, of Bowie. With Mrs. Lucas was a grandson.

A. J. Shield and daughter, Peggy, of Portales, New Mexico spent the week end visiting his mother, Mrs. Jennie Shields, and his brother, Charles Shields and family. Charles Shields who had been visiting in Portales for some time returned home with his uncle.

Mr. and Mrs. C. H. Caperton

had as their week end guests their son, Claude, who is a student at Texas Oech, and Mr. and Mrs. Robert Caperton of Shamrock.

Mr. and Mrs. Hedgecock and daughters, Caroline and Kay, of Endee, New Mexico, were here last week to visit their uncle, James Murray and family.

Mrs. Alex Coleman and daughter, Aletta and Leverne, and Mr. and Mrs. Jimmy Ray visited Mr. and Mrs. Jock Hooten, who lives on their ranch near Amarillo. Mr. Hooten is Mrs. Coleman's brother.

The Elbert Rankin guests Sunday afternoon were her nephew, Mr. and Mrs. Frank Luce and daughter, Jean, and Mrs. Luce's mother, Mrs. Critser, all of Hollis, Oklahoma, and Mrs. Rankin's brother, J. B. Goodnight and wife, of Wellington.

Mr. and Mrs. Roy Billingsley and son, Jerry and Doyle; Mrs.

Billingsley Sr. and Leverne Devinson, Claude, who is a student at Texas Oech, and Mr. and Mrs. Robert Caperton of Shamrock.

A recent marriage of interest to many here was that of Edwina Brown, daughter of Mr. and Mrs. Ed Brown, and J. T. Johnson Jr., son of Mr. and Mrs. J. T. Johnson of Wheeler. Both young couple graduated from Wheeler high school and will make their home on the Johnson farm near there.

Mr. and Mrs. James Throckmorton are spending their vacation in cool Colorado. Mrs. C. H. Caperton is in charge of the Post Office and Miss Myrdis Phillips is in charge of the store during the absence of the Throckmortons.

Mr. and Mrs. Wesley Boggs of Hollis, Oklahoma, visited his sister, Mr. and Mrs. Billy Ray Bledsoe, Monday.

## THINGS YOU SHOULD KNOW ABOUT "SLIPPED DISCS"!

While Chiropractors agree that surgery may be desirable in extreme "slipped disc" cases, there is a preponderance of evidence that "slipped disc" is a catch-all phrase often used to explain many back ailments, that in reality are caused by vertebral subluxation. The outward symptoms of a "slipped disc" case and one which is the result of a vertebral subluxation (slightly displaced vertebra) are often the same. The Science of Chiropractic has specialized in the treatment of such spinal conditions for more than fifty years and has developed methods which have afforded relief to many "back-sufferers" without resort to surgery. This fact is attested to by the results of a recent nation-wide survey involving thousands of cases.

If you suffer from frequently recurring low back pain, which may extend into the legs or if you have been told that you have "slipped disc", consult a Chiropractor and have him examine your spine.

The Chiropractors today are licensed by the State of Texas, and are required to meet high educational standards.

**CAUSES**  
The three most probable causes of true rupture of a disc are:

1. Great traumatic force, such as a fall.
2. Pathological weakness of a disc resulting from diminished nerve energy supply.
3. A combination of the two above conditions.

The drawing here shows the normal position of a disc and a "herniated disc." The intervertebral disc consists of an outside capsule which normally is a tough white fibrous tissue holding an elastic pulpy mass. It functions as a shock absorber, and holds the vertebrae apart. The disc allows great flexibility of the spine, but at the same time helps hold the vertebrae in good alignment. You will notice in the drawing how a part of the disc has the appearance of being "squeezed".

\*Information contained in this ad was based on a study by a committee on research, International Chiropractic Assn., of 1,000 herniated and slipped disc cases cared for by Chiropractors during the past three years.

### Loco News

By Mrs. John C. Wolf

The farmers here surely are busy plowing over their cotton, and some are hoeing in spots. The little weeds are sure coming up since that rain of a week ago. The boll worms and leaf worms have moved in here this week, and some extensive damage has been reported. The farmers are spraying from daylight to dark trying to check them.

Mrs. L. H. Wolf and her daughters, Mrs. Thomas Barnes of Wellington, Misses Neva Jo and Juanel Wolf of Pampa, and her granddaughter, Donna Barnes of Wellington, spent four days last week visiting relatives in East Texas, Arkansas, Louisiana, and Oklahoma. Neva Jo and Juanel were home on a week's vacation from their work at the Pampa Telephone Company. They returned home Sunday.

Mrs. Wolf's sister, Miss Dolly Storey of Hooks, returned with them for a short visit.

Mrs. Jim Downing confessed chickeria for the Loco school cafeteria this week.

G. T. Austin, Miss Zora Dell Austin of Denton, and Rev. and Mrs. Tommy Austin and family of Duncanville, returned this week from several days vacation in Carlsbad, New Mexico, and other points of interest in Texas and New Mexico.

A number of residents of this community have been attending the large furniture auctions held in Hollis each night of the past week.

Mr. and Mrs. H. C. Brown, Mr. and Mrs. George Patterson and Judy, Mr. and Mrs. R. J. Branch, Mrs. G. K. Patterson, Mrs. R. P. Scott, and Rev. and Mrs. Cogdill, all of Wellington, enjoyed homemade ice cream in the home of Mr. and Mrs. Jack Brown and family Sunday afternoon.

Mr. and Mrs. Eddie Boggs of Dodson spent Sunday afternoon in

the M. L. Adkins home. Mrs. W. D. Durfey and Mr. and Mrs. V. E. Warrick and children of Wellington were dinner guests in the home of Mr. and Mrs. Dean Durfey and children of Wichita Falls Sunday.

Miss Dorothy Harbin of Abilene spent the week end here with her parents, Mr. and Mrs. W. F. Harbin. She also visited her aunt and uncle, Mr. and Mrs. C. B. Bearden.

Several here are cutting their second crop of alfalfa this week.

Mr. and Mrs. Marvin Martin of Quitaque and Mr. and Mrs. Bob Devenport of House, New Mexico, are here visiting J. C. Devenport, who remains in a critical condition in St. Joseph hospital in Wellington following an auto accident several weeks ago.

Visiting in the home of Mr. and Mrs. Ted Wheeler and family Sunday were Mr. and Mrs. Orvell Wheeler of Memphis, and A. T. James of the Cee Vee Ranch.

Bill Durfey and five other boys from Childress went to Camp Perkins at Wichita Falls, July 30, for the district boys 4-H camp. In the absence of V. E. Hefner, County Agent for Childress County, the boys were supervised by Lefty Thomas of Wellington.

Mr. Morris of Wellington was guest speaker at the Bethel Methodist Church Sunday. His topic was "What A Layman Should Be and Do in The Church." He delivered a very good talk, which was enjoyed by everyone attending.

The highway department has had a crew working on the road here most of the week. The grass and weeds have been mowed and raked from the edge of the highway.

### Cotton Loan Rate For Collingsworth County Announced

The Production and Marketing Administration has announced the 1951 crop cotton loan rate for Collingsworth County, which is 31.52 cents per pound for Middling 15/16 inch cotton, gross weight. Premiums and discounts for the various grade and staple length will be calculated in relation to the loan rate on Middling 15/16 inch cotton.

### Dodson Nazarene Church Revival Under Way

The summer revival at the Church of the Nazarene in Dodson is under way by the Rev. Miss Lottie Phillips of New Castle, Indiana, August 15-26, the Rev. Charles Ogden, pastor, has announced.

Speaking from the subject, "Are Revivals Possible?" at the first service, Miss Phillips said: "In a world that is filled with chaos and confusion people are seeking for peace and security. Peace will never be in the world until the Prince of Peace Himself shall come. Only Christians can feel and know the joy of having peace and security."

Miss Phillips also remarked during the course of her sermon that "What life means to any individual is determined by the attitude he takes toward it. Jesus never found life boring."

Miss Phillips is an evangelist in the Church of the Nazarene and is a graduate of Trevecca Nazarene College in Nashville, Tennessee. During her college days she was active in student affairs.

Her evangelistic tours have taken her through Alabama, Tennessee, Kentucky, North Carolina, South Carolina, Indiana, Ohio, West Virginia, and Oklahoma. She has been engaged for a number of years in evangelistic work. During her revival at the Dodson Church she will speak from such subjects as "Peace and Security can be had in a Remuddled World," "Do You Bear the Blood-Mark?" and "Does God Answer Prayer Today?"

The special music for this revival series will be under the direction of Rev. and Mrs. Charles Ogden, the local pastor. Rev. and Mrs. Ogden spent some time in the field of evangelism and have had considerable experience in the field of song evangelism as well. They came to Dodson to pastor the local church in June.

The services will begin each evening at 8:00.

her home. She and Mr. Jones were married March 2, 1919, at Lawton, Oklahoma.

For many years, Mrs. Jones was a leader in Home Demonstration Club affairs and in this type of work she was especially talented.

She became a member of the First Baptist Church here in 1918, and took an active part in its activities over a long period.

Mrs. Jones is survived by her husband, John E. Jones of Wellington; her mother, Mrs. Minnie Leffel of Fort Scott, Kansas; two sisters and two brothers: Mrs. Floyd Gifford of Amarillo, Miss Rena Leffel of Kansas City, Joe Leffel of Lyncan, Colo., and George Leffel of Kansas City.

presence of some chest ailment the individual's family doctor is notified. He is then, if he desires, given a thorough examination by the physician of his choice and this examination may reveal tuberculosis or some other chest condition that needs attention.

The first year the x-rays were given here, 1,500 countians were x-rayed and from this 70 showed chest ailments. In 1949, 2,025 x-rays were made, and from these 84 cases of tuberculosis and 8 other chest ailments were discovered.

Last year, approximately 3,000 chest x-rays were made.

Mr. and Mrs. George Scarberry and son, Dale, of Pantex spent the week end with his brother, Mr. and Mrs. Lee Scarberry and family.

### Negro Returned To Washington

James Harris, Washington, D. C., negro who, exhausted and unable to remember his whereabouts, was picked up by the Sheriff's office near Elm Creek Bridge, Tuesday, August 7, boarded a bus at Shamrock Sunday August 12 for his home, just one week after his trip was interrupted at that same point one week earlier, Sheriff Huber Mauldin said.

Part of the incidents returned to Harris' memory. Others were furnished by Sheriff Mauldin and Sheriff E. Cantrell of Canyon.

Sheriff Cantrell said that Harris apparently fell from a train near Canyon Saturday, August 4, and that marks were found showing where his body hit the ground. The engineer estimated the speed at about 70 miles per hour. Cantrell learned that Harris had been traveling with a negro sailor from Chicago, later located at Belen, N. M., who told him that Harris left his seat to go to the water cooler and that was the last he saw of the Washington man.

Harris was released Saturday night and taken to Amarillo and put on a bus by the claim agent of the MKT railroad. He was later able to recall to Sheriff Mauldin that when he reached Shamrock, "It seemed like everybody started closing in around him," and he ran.

Sheriff Mauldin took the man back to Elm Creek vicinity, and he was able to identify several places he saw during his two days in that area.

His mother, who lives in Washington D. C., sent the sheriff money for his return ticket, and Mr. Mauldin Sunday put Harris on the bus at Shamrock and marked closed to a case that fascinated Wellington for a full week.

### Mother of Clyde Drake Dies

Mrs. Charles Drake, 67, a resident of Hall County for 61 years, died in a hospital there Saturday morning, August 11, about 3:00 o'clock after an illness of several months. She was the mother of Clyde Drake of Wellington.

Funeral services were conducted at the First Baptist Church at Memphis at 2:30 Sunday with the Rev. Roy Shahan, pastor, officiating. Burial was in Fairview Cemetery, Memphis.

Mrs. Drake was born at Buffalo, Mo., in 1884. She came to Texas with her parents to Hall County in 1890, settling near Salsbury, before the city of Memphis was founded.

Her husband is also a pioneer of the county. He and his father operated a bank and hardware store at Memphis, and later he operated the bank at Newlin. He had been Hall County treasurer since 1937.

Mrs. Drake was active in the work of the Baptist Church and the American Legion Auxiliary.

Survivors are her husband and five children: Clyde Drake, Wellington; Jack Drake, El Paso; Mrs. U. C. Ervin, Nashville, Tennessee; Mrs. Tom Draper, Amarillo and Mrs. Albert Tinsley, Dallas; four sisters and four brothers: Mrs. W. H. Morman, Otie Jones and Oren Jones, Memphis; Mrs. C. W. Carter, Amarillo; Mrs. G. S. Sigler, Brownwood; Mrs. H. B. Gilmore, Dallas; I. E. Jones, Sumner, Wash., and E. B. Jones, Pampa.

A number of family friends from Wellington attended the funeral.

a lack of demand for their seed in these attractive northern markets where seed must be brought in.

Verification of origin of the seed is the immediate step to be taken in connection with the seed crop

just coming on, and this will be handled primarily by the seed buyer from the farmer.

The growers part is simply signing a form telling where the seed was grown. The dealer will be responsible for tagging and verifying the origin of the seed.

No seed house handling seed grown in the newly created Northwest Texas District will be allowed to handle seed grown in the southern seed zone, or in other words, seed grown in other parts of Texas or out of this district.

Seed cleaners must call in a federal seed inspector and the inspector will set up the method for handling and tagging the seed.

"Setting up the new district will allow growers in this area, and especially at the Experiment Station at Chillicothe, where experimental work is being done, to grow their own foundation and registered seed and not have to go north for a seed stock every six years," Mr. Thomas said.

Farmers will enjoy another advantage after this year in that seed certification can be run in conjunction with the verification of origin, the county agent pointed out. The deadline for making application for certification was mid-June.

### Judy Lyn Simpson Dies Friday

Mrs. C. W. Roberts was called to the bedside of her son, J. Solomon at St. Joseph's Hospital, Fort Worth. Mr. Solomon received serious injuries at a three-alarm fire August 3, and it was thought he was doing well until his condition changed Friday, August 10. Mrs. Roberts received word Saturday morning and left immediately for Fort Worth.

Mr. Solomon's condition remained serious at the time the last word was received, 7:15 p.m. Monday.

Mr. Solomon had hoped to be able to attend the Old Settlers Reunion in Wellington, as he had for the last six years, his mother said.

"He looked forward to this each

year, as he and his family enjoyed it so much. He loves old people and likes to hear their life's history," she added.

Mrs. Roberts is remaining at her son's bedside until he is gaining his way back. She lost a son by fire nine years ago, when he was 29 years of age. Mr. Solomon will be 37 on August 27.

Best way for you to tell whether the Farmall Super C will do what you want in a tractor is to get on it and try it. We will be glad to demonstrate it on any job you want to see it do.

We will get five ONLY of the Johnson Cotton Harvester for this Fall. This is just a glorified stripper, made up to hook on about any tricycle tractor. It's built simple and in competition with some other boll pullers or strippers, has saved more of the cotton than any of them. These five are ALL we will get, and they will be here before September first. They will be sold to the first five men who want them. No lists and no lay-aways.

Have a couple of the new low-wheel type McCormick grain drills. These are 16 x 10 size, and can be bought at last year's prices, which is better than you can do on lots of other things.

International Harvester sells about sixty per cent of ALL home freezers sold in the United States. Tests show these freezers operate more economically than most others—take less electricity to keep cold. Better see International Harvester freezers and

Right now, when you are just about through with your heavy work for the year is the best time to have your Farmall overhauled. It's easier to remember all the little things you aim to have fixed, and we have more time to do you a better job. Also a little more anxious for the business right now and price accordingly.

get the story on them before you buy a home freezer. Especially right now, during this slack season. We actually have more people waiting to be sure of their crop to buy, than we have or can get freezers and refrigerators. It always will pay you to buy when your neighbors are not quite ready, because you can get a better deal.

Wellington High School Graduates Now Live in Many Parts of World

1931

Sixty-three seniors received diplomas from Wellington high school in 1931... Anna Jane Clement. Don Van Pelt - Wellington. Bill Combs - Wellington. Doris Copeland - Mrs. Bill Combs, Wellington.

1948

While a majority of the members of the class of 1948 still live in or near Wellington, several of the boys are now in the armed services and a few of the girls have married.

1933

The present addresses of the class of 1933 and the married names of the girls were not compiled this year, but that class had 69 members, and a review of the list shows a number of prominent local business and professional men, along with others who have gained prominence in their line of work in other places.

1922

Only nine graduates are listed in the class of 1922, and of this group, five still make their homes in Wellington. The group included: John M. Carpenter. John Coleman - Wellington.

1941

The last class to get diplomas before World War II broke was that of 1941. Of the 65 members, almost half still live in or near Wellington, there were no war casualties in this class, but only two are now in the armed forces, and most sections of the United States—New England, the Middle West, Deep South, Southwest and Northwest—are represented in the present addresses.

1921

Members of the class of 1921 will hold open house at the home of Mrs. Esdel F. Bartlett, at the corner of Amarillo and 15th Sts., it was announced this week.

1945

The class of 1945 was gearing ready for its graduation exercises when the war in Europe ended. This was one of the smallest classes of recent years for Wellington high school. Most of the boys had a period of service in the armed forces just ahead, most of the girls went to work, either here, or in still going defense plants.

1942

Like other classes graduating during the war years, that of 1942 was quickly absorbed by the armed forces or defense work, although a few went to college to prepare for professions.

1928

Of the forty-six boys and girls who graduated in 1928, only five have moved outside the state, and most of the Texans have remained in the Panhandle. Several of the group however, left here shortly after their graduation and have lost contact with their former schoolmates.

1923

Seventeen boys and girls were members of the graduating class of 1923. A majority of these left Wellington a number of years ago and several have dropped from sight. The class was:

1949

Fifty-nine members are listed for the class of 1949. Several boys from this class are in the armed forces, and a number of others are attending college. A look around the square will find others working in stores and offices here.

EDITORIAL COMMENT — THE WELLINGTON LEADER  
Thursday, August 16, 1951

**Cost of Hot Check Writing Higher**

From now on it's going to cost a lot more to write hot checks.

County officials over the state believe that the new hot check law, which became effective May 28 after passage by the State Legislature, is going to make prosecution of hot check writers simpler and result in stiffer penalties against habitual offenders.

Under the old law, it was almost impossible to prove intent to defraud on checks given for labor, charge accounts and post-dated checks.

The new law provides that if the check writer does not make good the check within ten days after he receives notice that the check is bad, "his failure to pay shall be prima-facie evidence of his intent to defraud."

Business men have been advised to give notice of hot check by registered mail in each check case to perfect the evidence against the writer.

Here are some of the penalties provided in the new statute.

First conviction for a bad check \$5 or less is a fine not exceeding \$200. Checks written in excess of \$5 but less than \$50 can result in jail sentences not exceeding two years or a fine up to \$1,000, or both.

A jail sentence ranging from 30 days to two years and a fine not exceeding \$2,000 is provided for checks less than \$50 upon second conviction. A third conviction carries a penitentiary sentence from two to ten years and a fine not exceeding \$5,000.

Any felony conviction for a hot check of more than \$50 carries a penalty of not less than two nor more than ten years in prison and a fine not exceeding \$10,000.

Hot checks have been a troublesome matter to county officials here, and elsewhere as well, for the last year or more, and a law with teeth in it is one way to correct the offense.

**Military Spending to Avert Defeat if War Comes**

At the same time the Reds were refusing compromise on their demands at the Kaesong meeting, Texas Representative George H. Mahon sounded a pessimistic note before Congress—that while we are spending fantastic sums in an attempt to prevent war, the chances, he believes, of preventing an all-out shooting affair with Russia are gloomy.

Mr. Mahon is chairman of the House Ap-

propriations subcommittee that drafted the proposed bill calling for fifty-six billion military spending.

This money, with the nineteen billion dollars actually spent by the Defense Department during the year ending June 30, is being used not only to avert war, but to avert defeat if war comes.

"Trends from cold to hot war, from little wars to big wars, do not have a tendency to reverse themselves short of an all-out explosion," the Texas Congressman said.

Passage of this bill, congress believes, will strengthen the nation's hands in the truce negotiations in Korea, and will show the temper of the American people and their determination to prepare.

Mr. Mahon does not mean to say that war is inevitable. There have been hopeless situations that have been worked out of before now, but he does say the hope is at a minimum. He sounds this warning at a time that when the war in Korea is beginning to take second place in many of our minds.

Rep. Richard B. Wigglesworth of Massachusetts, a member of Mahon's committee, goes on to declare.

"This 56-billion dollar appropriation bill represents a down payment on tragic errors in judgement made at the conference tables at Tehran, Yalta and Potsdam." And he urges, with other members of the committee that expenditures essential to military power must be made as rapidly as possible.

But with its urgency for speed, spending of these huge funds for military purposes call for cool heads, for judgement, and for that yankee quality of seeing that the government, which includes every one of us, gets the most and best for every dollar spent. This can be one of the biggest contributions to preparedness and to peace.

### Lord Jim Says--

By Bill Hughes

Will America awaken before it is too late? Will our people come to their senses soon enough to keep from plunging head long down the dark, bloody, starving, misery-riddled road of Europe, Asia, Africa and India?

Jesus Christ died on the cross to teach man that his integrity, as an individual, is worth more to God and to man himself than every thing else put all together, including man's carcass.

The history of Christ's life and death demonstrated that love for, and faith in God are the only two powers available to man that can destroy fear and transcend death.

The promised security of Socialism, Communism, Dictatorships, Capitalists, Laborites, even of Democracies has no such power.

Furthermore, no system designed by man ever produced the standard of living on so high a level as has Americanism which was conceived by integrity and freedom, seeking guidance and answering to the will of God alone.

America was born of clay that held every color in the rainbow, nearly every living creed and every political doctrine known to man. Americans of that day were no less hard headed, argumentative, and quarrelsome than they are today. But they created a melting pot of differences that jelled and have held fast as steel for 176 years. Why?

They had a common denominator greater than the sum of all their differences, faith in God, belief in the worth of the individual and the desire, above all others, to be free.

America grew by reason of holding morally strong with integrity to the truth of these principals.

Today there is a growing tendency to shift faith from God to dollars, to shift belief in individual worth to government paternalism and to trade freedom for slavery.

These are the very conditions that drove men from Europe, Asia and Africa to America in the first place and the very reasons why we are being called on to finance them today.

Integrity of faith in God and self, integrity of the will to be free are the principals that made America and created Americanism — not a thing less, not democracy of which there have been many kinds in the past and of which there still are several today

that are vastly different and much less than America. They do not have the same meaning, or purpose or goal as does your Americanism.

In most of Europe, Asia, Africa and India governments rule by reason of doubled-tongued propaganda and purpose, by reason of force. The people serve the government.

In America the people serve, or once did serve, God. The government served the will of the people.

However, remember that government in every case is nothing more than a fistful of men. If you Americans continue to turn from serving God's will and taking care of yourselves to serve your own will and to sell your freedom for the political promises of a fistful of misguided, ambitious men who arrived and remain in your government by cleverly twisting wrong to look right, men who waste your resources and your labor to make their promises look good today so as to stay in power tomorrow, you will wake up one day to find that you have joined your brothers of Europe, Asia, Africa and India in not only poverty, but slavery.

The stupidity of trying to buy Allies by priming their old antiquated pumps is as ridiculous as trying to buy peace from the Communist dictators.

This endless pump priming abroad is going to eventually wreck your own economy. It is not going to save those old pumps.

If your Allies will jump the fence because you do not join their hands to the bottom of your pocket, what is going to keep them with you when the pocket is empty?

Appeasement is not going to keep the dictators from jumping on you when they get ready. They will simply scream that you failed to kiss the exact right spot, or perhaps you forgot to shave.

The American colonies in 1776 did not stop to weigh their unpreparedness, their tiny man power and industry against the vast empires and might of Europe that might possibly have been thrown against them. They did not base their revolt upon the hope that France would help them.

A mere handful of men and women did not tremble before odds gigantically greater than they are today against you.

They did not apologize for their faith in God and for their belief

in the worth of individual man, for their belief in freedom which were heresy almost the world over.

They gave no thought to losing and they had no fear of being labeled an aggressor.

The integrity of the individual, the belief in Americanism, where is it? When did we quit serving God and when did we place our leadership into the hands of little fearful men?

People of America, why not send delegates to the Conventions with authority and instructions to tell the party bosses who will be the candidates rather than the bosses telling the peoples' delegates whom they shall nominate. Tell them you want leaders with statesmanship, integrity and who understand and will champion Americanism.

People of America go back to teaching your children at home that integrity of faith in God and in self is the only road to true security and that determination to remain free is the only road to peace and happiness.

Teach them not by word alone, but by your own example, by practicing it yourself. This is the only thing you can do that will alter the fatal course you as a nation are pursuing. Success or failure depends upon the weight and force generated by the sum total created by each individual's effort added together from East to West and North to South.

The slave labor of Egypt by the sum total of individuals efforts built the Pyramids to bury their kings under. Surely the free men and women of America can do better than that by integrity to Americanism and freedom establish a solid base for future living generations to build upon in peace and happiness?

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Section 51a of Article III of the Constitution of the State of Texas be amended, and the same is hereby amended so that the same shall hereafter read as follows:

"Section 51a. The Legislature shall have the power, by general laws to provide, subject to limitations and restrictions herein contained, and such other limitations, restrictions, and regulations as may be by the Legislature be deemed expedient for assistance to, and for the payment of assistance to: "(1) Needy aged persons who are over the age of sixty-five (65)

years; provided that no such assistance shall be paid to any inmate of any State-supported institution, while such inmate; and provided that any resident of the State, if otherwise eligible, may not be excluded who has resided in the State for five (5) years during the nine (9) years immediately preceding the filing of the application for such assistance including the one (1) year continuously immediately preceding the filing of such application; provided that the maximum payment per month from State funds shall not be more than Thirty Dollars (\$30) per month.

"Any applicant for or recipient of assistance, including the spouse in each instance, who shall dispose of any property after June 1, 1952, and any person who initially applies for assistance after June 1, 1957, who has disposed of any property within five (5) years prior to the date of application, shall be ineligible to receive assistance; provided, that if such property was disposed of by bona fide sale and conveyance, and for value commensurate with the actual market value thereof, such disposition shall not affect eligibility for assistance if it be shown that all proceeds from such sale have been used by such person and spouse for normal living expenses, or for the purchase of other real property of like value. If any recipient of assistance or spouse shall sell any real property, neither such recipient nor spouse shall thereafter receive assistance until all net proceeds of said sale have been expended for normal living expenses; and in case of disposition of such property by gifts or for an amount less than its actual market value, such person and spouse shall not thereafter receive assistance until the expiration of the period of time during which the net proceeds of said sale would have paid their normal living expenses had the actual market value been realized therefrom.

"(2) Needy blind persons who are over the age of sixteen (16) years; provided that no such assistance shall be paid to any inmate of any State-supported institution, while such inmate; and provided that any resident of the State, if otherwise eligible, may not be excluded who has resided in the State for five (5) years during the nine (9) years immediately preceding the filing of the application for such assistance including the one (1) year continuously immediately preceding the filing of such application; provided that the maximum payment per month from State funds shall not be more than Thirty Dollars (\$30) per month.

"(3) Needy children who are under the age of sixteen (16) years; provided that any child, if otherwise eligible, may not be excluded who has resided in the State for one (1) year immediately preceding the filing of the application for such assistance, or if said child is under the age of one (1) year, whose parent or other relative with whom the child is living has resided in the State for one (1) year immediately preceding the birth of such child.

"The Legislature shall have the authority to accept from the Federal Government of the United States such financial aid for the assistance of the needy aged, needy blind, and needy children as such Government may offer not inconsistent with restrictions herein set forth; provided, however, that the amount of such assistance out of State funds to each person assisted shall never exceed the amount so expended out of Federal funds; and provided further that the total amount of money to be expended out of State funds for such assistance to the needy aged, needy blind and needy children shall never exceed the sum of Forty-two Million Dollars (\$42,000,000) per year.

**SURE**, a trim new Buick makes a mighty pretty picture when you see it in your driveway, or watch it wheel by.

But if you could get a mechanic's-eye view of this big, broad beauty as it sits on a lift, you'd see an impressive picture of rugged brawn that makes good-to-look-at Buicks give such a good account of themselves on the road.

You'd see the full-length torque-tube drive that firms the whole power relay system, and steadies your going like a giant hand beneath you.

You'd see big sturdy wheels with really wide rims that provide surer footing, give better car control, make tires last longer.

You'd see all four wheels cushioned by stout coil springs that are completely service-free, practically breakproof — and a principal reason for the ever-level Buick ride.

But mainly, you'd see the massive foundation that backbones every Buick —

the deep, wide, X-member frame that's rugged as a rock, and a brute for strength.

So when you look at the beauty of a Buick—the big mileage power of its valve-in-head Fireball Engine—and the moneysaving ability of its Dynaflo Drive\*—don't overlook the tough stamina that goes with it all.

And don't overlook the fact that a new '51 Buick, with all its heft, costs less per pound than any other car of comparable size, structure and weight.

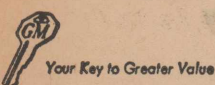

Better come see us first chance you get—and find out what a smart buy this is—from every angle.

SALT FORK By MRS. R. H. ISBELL

The rains have all missed this community. We're glad for the good breeze though. The cotton is faring yet though the feed is suffering.

Sunday was meeting day. Brother Long filled his regular appointment here Sunday morning and also Sunday night. He and his family were dinner guests of Mr. and Mrs. J. P. Cummings.

Mrs. C. A. Wright and Edna Ellen spent Friday afternoon in the Ray Maxwell home in Wellington. They took care of the Maxwell children while Mrs. Maxwell attended her grandmother's funeral. We want to express our sympathy to the loved ones of Grandmother Bledsoe who passed away this week.

Our Sunday school group met last Thursday afternoon and gave the church and yard a general cleaning. After some hard work supper was spread and enjoyed. The children roasted weiners and marshmallows around the camp fire. After supper a few gathered inside and sang. The young folks and children played flying dutchman and drop the handkerchief until a late hour. A good time was had by all.

Quarterly conference was well attended Saturday. All four churches on the circuit were represented. Rev. Hamilton delivered two inspiring messages. We regretted very much the absence of Mrs. Hamilton who is ill with a heart ailment. R. H. and Ted Isbell attended singing at Shamrock Sunday afternoon. Mr. and Mrs. Bill Clifton was also there. Mr. and Mrs. U. S. Bolton and children came down for Mrs. G. C. Wright last Thursday. Mrs. Wright is taking treatments from a Dr. in Dumas. Mrs. Ben Morriss, Mrs. Viola Sisk and Benny and Sheri Graham of Marella visited in the J. P. Cummings home Sunday afternoon. Mr. and Mrs. Tom Bolton and family of Cordell, Oklahoma, visited her mother, Mrs. Maxwell, in the C. A. Wright home Sunday afternoon. We are expecting a large crowd Sunday afternoon for the homecoming and singing.

Mr. and Mrs. George Cristy of Canyon spent the week end with their parents, Mr. and Mrs. W. E. Leach and Mr. and Mrs. Jack Cristy. They took her niece, Andera Leach, home with them to spend a week vacation.

Mr. and Mrs. Joe Baumgardner, Miss Priscilla Baumgardner and David Baumgardner were in Lubbock during the latter part of last week to be with three other sons and their families, Capt. and Mrs. Haynes Baumgardner and two sons of Lubbock; Capt. and Mrs. J. H. Baumgardner, their son and two daughters of Lubbock; and Mr. and Mrs. Robert Baumgardner and son and daughter of Brownfield.

Mrs. J. M. Gibson of Amarillo visited her sister, Odell Fenley, over the week end.

Recent guests in the home of Mr. and Mrs. Edd Crawford were Mr. and Mrs. Lee Harris and Sharon, Mr. and Mrs. Bill Harris of Vernon, Mr. and Mrs. W. V. Huffman of Wellington, Mr. and Mrs. Merle Walker and Cheryl of Idalou, Mr. and Mrs. Barney Walker

and Mr. and Mrs. Bill Powell of Pecos. Mr. and Mrs. Dan Austin and daughter of Lamesa, Texas, visited her mother, Mrs. Dean Perkins, and his father, G. T. Austin, over the week end.

Official Memorandum

BY ALLAN SHIVERS Governor of Texas

AUSTIN, TEXAS

GREETINGS:

The percentage of farm homes in Texas receiving central station electric service has increased from 2.3 per cent to 90 per cent during the past 16 years, largely through the stimulation of the Rural Electrification Administration (REA) program.

More than 282,000 rural families of Texas now enjoy the benefits of electric lights and power through cooperatives which they themselves own and operate.

Each of the 77 rural electric cooperatives in Texas is a free and independent, tax-paying business enterprise, chartered under the laws of the state of Texas, and owned and controlled by the farmers and ranchers who receive service along its lines.

The availability of electricity has brought about a wholesome revolution in farm methods, production and living standards; has lightened the drudgery of farm tasks and increased farm output and profits; has been instrumental in keeping young people on the land, and has promoted the general welfare not only of rural people, but of urban residents as well whose prosperity and well-being depends upon a sound and prosperous agriculture.

THEREFORE I, as Governor of Texas, do hereby proclaim the week of August 19th to 25th, inclusive, as

RURAL ELECTRIFICATION WEEK

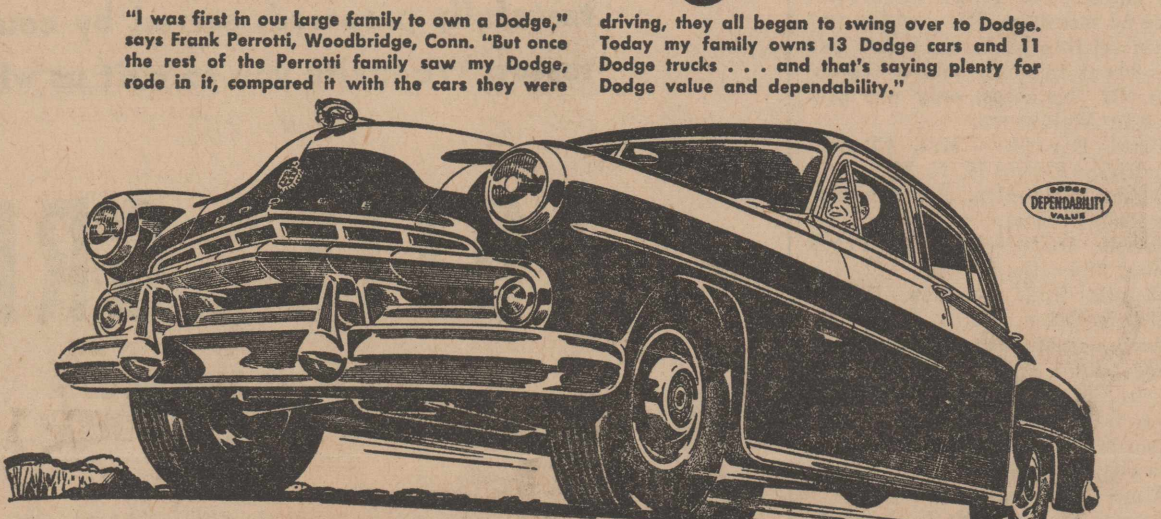

in Texas, and call upon all citizens of the state to observe during this week the splendid progress that has been made in electrifying rural areas during the past 16 years, and to resolve anew that the program shall continue to expand until every farm family in the state shall enjoy the blessings of electric lights and power.

In official recognition whereof, I hereby affix my signature this 18th day of July, 1951.
