RAIN NO DAMPER FOR HAM MEETING

GREAT CROWDS TURNED OUT TO
HEAR EVANGELIST DESPITE
UNPLEASANT WEATHER.

HEROES AND COWARDS

Ringling Appeal to All That is Highest
and Noblest in the Manliest of
Men.

Evangelist Ham filled the pulpit at the Baptist Church yesterday morning, preaching on the subject of "Witnessing for Jesus." As a result of this service there were six professions of faith in Christ and twenty-one additions to the church by profession, letter, and otherwise. All the churches report good services at the morning hour.

At 3:30 in the afternoon, while the rain was falling slowly, but without interruption, several hundred men gathered at the big tent to hear Evangelist Ham speak from the subject "Heroes and Cowards," and it is safe to say that at least a few of those present were disappointed in that they did not hear a talk that was filled with vulgarities and suggestive language, but on the contrary heard a ringing appeal to all that is high and noble in the manliest of men with no language used anywhere in the service that would have offended the most refined lady in the city. At the close of this service practically every Christian man in the tent went forward pledging himself to greater efforts in the Christian life and to a firmer stand for the right under all circumstances. A call to the unsaved was responded to by a number and of those who came forward four made a public profession of the faith in Christ as their Savior.

Last night the service was held in the First M. E. Church, South, at the corner of Tenth and Lamar. In spite of the poor opportunity to make the change generally known the house was well filled all the while in the main auditorium being filled and the capacity of the balcony well taxed.

Evangelist Ham preached from the time worn, but little heeded, warning of "Be not deceived. God is not mocked, for whatsoever a man sows that shall he also reap." His observation from history and his personal observation were piled up in convincing rapidity to show that the harvest of just the kind of life that one lives is sure to come upon them and their prosperity. A short after service was held in the interest of those who were interested in themselves.

He spoke at the same building this afternoon at 3:30 to the ladies of the city. There will be services each morning at 10:00 and every night at 7:30 at the tent unless heavy rains make it necessary to move. The noon meetings for men will be held at the Colonial Theatre each day from 12:30 to 12:50, and it has been announced that those with business will be allowed to attend.

(Continued on Page Five)

METHODIST MINISTER STRICKEN WITH PARALYSIS

Editor Shuffler, of the Olney Epitaph, passed through the city en route to Clarendon today, where he was called by the death of his father. Rev. C. M. Shuffler, conference missionary evangelist of the Northwest Texas Evangelical conference of the M. E. Church, South, Mr. Shuffler received a message yesterday stating that his father had been stricken with paralysis and started for his bedside. He received another message this morning stating that his father died at two o'clock this morning.

Rev. Shuffler had been in the Methodist ministry in Texas about 20 years, and was on his way to the meeting of a conference at Plaquemine, when he was stricken.

His body will be taken to Olney, where the funeral service will be held next Tuesday.

LOS ANGELES WOMEN ARE INDIFFERENT

By Associated Press. Los Angeles, Cal., Oct. 30.—Many women have shown indifference regarding their privilege of voting by refusing to register for the coming municipal election, unless the registration books could be brought to their homes. Suffragette leaders have met the demand by calling for volunteers who are making a house-to-house canvass.

Heads of Tobacco Trust, Whose Plans For Reorganization To Conform With Court Decree Will be Heard Today

Tobacco Trust Heads. From left to right, James B. Duke, president of the monopoly, Thomas F. Ryan, Peter A. B. Widener and Oliver H. Payne.

Hearing on Tobacco Reorganization Plan.

New York, Oct. 30.—A remarkable array of legal talent that included the attorneys general of the principal Southern tobacco-growing states, filed the United States Circuit Court today at the beginning of hearings on the reorganization plan of the American Tobacco Company. Today the court hears the views of the federal department of justice and the supreme court declared it an illegal monopoly. The tobacco corporations tentative proposition calls for dividing the enterprises it controls into four separate companies. Objections to this plan already filed by independent producers declare that it does not carry out the intention of the supreme court decision, which is a prevention of monopoly in the restraint of trade. They contend a unity of interest would be maintained would stifle competition.

FORT WORTH AND DENVER PASSENGER IS WRECKED

DASTARDLY WORK OF WRECKER
RESULTS IN DEATH OF ENGINEER
AND INJURY OF
FORTY MORE.

FISH PLATE WAS REMOVED

Rail Gave Way When Engine Struck
It and Heavily Loaded Train Goes
Off Embankment.

Engineer Gus Cunningham of Fort Worth, instantly killed, Freeman W. Yates of Fort Worth, seriously injured, and perhaps fatally hurt, half a dozen others seriously and thirty-five or forty more less seriously injured in the result of the dastardly work of train wreckers who last night removed the fish plate from one of the rails on the Fort Worth & Denver tracks at mile post 75, one and a half miles east of Bellevue, the one northbound passenger train due here at 11:45 o'clock Sunday night, and the track and down a ten foot embankment.

That scores were not killed or fearfully maimed was the fault of the train wreckers. It was those who viewed the scene and have thought was the merest mischance of Providence.

The wreck happened at about 11 o'clock. The train which was heavily loaded with excursionists was moving at a rate of about twenty-five miles when the engine struck the joint from which the fish plate had been removed. The rail spread out and the engine shot off down the embankment pulling the tender and baggage car after it. The big locomotive fell on its side, sinking the ground at the bottom of the embankment with a terrific impact.

Freeman Yates was thrown from the cab, he lay about twenty feet from the engine with a broken arm, several scalp and serious bruises, which may prove fatal.

Engineer Gus Cunningham, a veteran with twenty years service for the Denver, who a few years ago lost a leg in a wreck at Rhinoceros, was less fortunate and was caught in his cab and crushed to death.

The tender was left leaning upon one end about twenty feet from the engine. The baggage car evidently held at the front by the tender and forced from behind, broke in the middle and stood almost straight up with both ends resting on the ground. How the baggage man escaped is a mystery, but he is reported not to have been seriously hurt.

The smoker and two day coaches following west of the side of the

embankment falling on their sides at the bottom. In these two coaches, containing smoking compartment and the compartments for negroes were most of those hurt. The passengers were thrown from their seats by a succession of shocks and some of them rolled about the coaches as they slid down the embankment, finally resting on their sides. The passengers in these coaches were compelled to escape through the windows on the upper side.

The tampered rail was a little more than a car length west of a culvert, over a small ravine and the last two coaches, a day coach and a sleeper, stayed on the tracks and none of the passengers in these two coaches were seriously hurt. The sleeper was left standing directly over the culvert. The front trucks of the day coach ahead of it were raised off of the track.

The dazed passengers some of whom were rendered unconscious by the shock of the coaches as they fell, could or were dragged out. After this a search was made for Engineer Cunningham and his body was dug from beneath his engine fifteen minutes later.

When the track was examined it was found that the fish plates had been removed from one of the rails. The plates were found stacked between the rails and the bolts lay on one side and the taps on the other.

The threads in the bolts were bright and clean showing they had been unscrewed and not broken off. Several spikes were also pulled from the ties on which the rail was laid, showing that the train wreckers had gone about his work in a deliberate manner.

Following the wreck a runner was sent to Bellevue for aid and relief trains with physicians aboard were dispatched from Wichita Falls and Fort Worth.

The train from Wichita Falls carrying Doctors Bunnside, Walker and Jones, reached the scene about 12 o'clock and the wounds of most of the victims were dressed by the time the relief train from Fort Worth arrived.

The body of Cunningham and Yates, the injured Freeman were taken to Fort Worth while the passengers and the remainder of the injured were brought here—arriving shortly after three o'clock.

Wrecking trains were sent from Wichita Falls and Fort Worth and at 9:30 o'clock this morning the tracks were cleared and opened for traffic. More than thirty persons were injured, but it has been impossible to learn the names of those injured.

(Continued on page 4)

RENEW CONTEST OVER TALESMEN

By Associated Press. Los Angeles, Cal., Oct. 30.—There was a renewal of the contest between counsel over the qualifications of talesmen, A. C. Winter, and W. N. Frampton, when court convened today in the McNamara case. Frampton and Winter were previously challenged for cause by the defense on account of their opposition to union labor and a belief in the guilt of the defendant. They were again under challenge for their views on capital punishment.

For the first time during the trial the defense had lodged objection to a talesman on account of an objection to the inflicting death penalty. The State heretofore obtained disqualification of talesmen opposed to death penalty in almost every instance. The prosecution is prepared to resist the challenges against Frampton and Winter on the grounds that such charges are properly within the privilege of the prosecution and they have been waived.

HOLLANDERS WILL COME TO TEXAS

San Antonio, Tex., Oct. 30.—Four hundred and sixty families of Hollanders are now making preparations to leave their country and settle on irrigated lands below the Medina River dam, this number is likely to be increased before the day of departure. It is expected the Medina Irrigation Company, which is the company promoted by Dr. F. S. Pearson, the great hydraulic engineer and dam builder who has between \$6,000,000 and \$8,000,000 of British capital to develop this enterprise, will be ready to receive the new settlers by January 1, 1913.

About 70,000 acres of land will be divided into tracts of about 40 acres each, having water, and a house will be erected for each family settling there. The fame of the irrigated lands of Texas is spreading over Europe, and it is said many applications from European countries are being received by the irrigation company for information about the lands.

FALLING CHURCH WALLS KILLED A PARISHIONER.

Denison, Oct. 30.—Tim Corcoran lost his life trying to save the furniture from St. Patrick's Catholic church and paragonage, which burned early this morning. The walls fell on Corcoran. The loss is \$60,000. Father Donahue had a narrow escape from the falling walls.

During the period from June 7, 1911, to September 1, 1911, eighteen state banks have been authorized to do business in Texas.

CHINA WILL HAVE A CONSTITUTIONAL GOV'T

Men and Religion Forward Movement
Plans Aid.

At the big tent at the corner of Tenth and Scott yesterday afternoon several hundred men gathered even though it was raining continuously, and heard the Men and Religion Forward Movement discussed by Dr. J. L. McKee and H. A. Fairchild. Following their talks J. W. Bradley spoke briefly concerning the organization of a sub-committee of 100 in accordance with the general plan of the movement to have such committee in each city to look after the interests of the organization.

It was decided to appoint a committee on membership and that committee was announced last night as follows: W. J. Bullock, J. C. Hunt, J. M. Bland, J. W. Pond, E. G. Cook, W. W. Brown, Mark Walker, H. J. Bachman, G. A. Stuart, and B. M. Bullard. "Let each man secure ten men to work for God. Blank lists at J. W. Bradley's office."

Railroad Extension

San Antonio, Oct. 30.—The St. Louis, Brownsville & Mexico Railroad has accepted the bonus offered by the city of Victoria to extend the Port O'Connor branch of the road from Bloomington to Victoria. This is in line with improvements of the Texas coast country proposed by H. F. Younk, chairman of the Frisco Railroad board. This extension will put San Antonio in close touch with Port O'Connor without the necessity of several changes on the way, as at present.

Literature to be placed in the Y. M. C. A. reading room has now arrived, and this room was opened up for the use of the public last Saturday afternoon. A large number of the current magazines and other periodicals are among the number to be found in the new reading room, and the association extends a hearty invitation not only to the members of the Y. M. C. A. in general, but to the public in general, to make use of this reading room at any time convenient. It is expected that many will avail themselves of this opportunity.

The suit of Sam Hiegar vs. S. E. Treverthan and J. Milton Irwin, was withdrawn when called for trial in Justice Brothers court this morning, and an effort is being made to effect a settlement by compromise this afternoon. The suit arose over a difference of opinion in reference to the title of a team of mules used by the defendants on a hunting trip.

The Galveston causeway will soon be completed. It is 10,675 feet long and 273 feet wide. It has accommodations for a wide road, street cars tracks and railroads.

EDICT ISSUED BY THE THRONE OFFERS FREE PARDON FOR REBELS.

APOLOGY FOR NEGLECT

Hideous Brutality Marks Advance of
Government Forces at Hankow.

Peking, Oct. 30.—The throne has acceded to the demand of the national assembly for complete constitutional government. In an edict issued, the throne grants an immediate constitution and free pardon for rebels and political offenders. The throne humbly apologizes for its past neglect.

Rebel Reverses Not Serious.

Tokio, Oct. 30.—The reverses of the rebels at Hankow is not considered here as serious. Strategically the city is valueless and its possession would hardly handicap the rebels. It is probable they will strongly fortify Wu Chang and make it their headquarters.

Plan to Follow Pp Victory.

Hankow, Oct. 30.—The Imperial forces are preparing to follow up their victory over the rebels last week by an attack on Wu Chang, and Han Yang. The latter is of the utmost importance on account of the arsenal there. The loyalists are now in undisputed possession of Hankow. Al Kepler, an American missionary, who was wounded in Friday's fighting is in a serious condition. The missionary was watching the fighting from the top of a building in the Japanese concessions and he was hit by a stray bullet. In Friday's battle at Kilometer there was a splendid exhibition of the pluck of the rebels. Outnumbered two to one by the imperialists in front of them and subjected to a raking cross fire from Admiral Saha's warships, they held their ground until five hundred had been killed and 1,500 wounded. There were 5,000 of the rebel troops. These were behind fortifications and had little to fear from the attack of troops. It was guns from the fleet which finally routed them. The gunners mercilessly poured their shells and the slaughter was appalling. The rebel batteries replied ineffectually. The royalists losses were slight. They advanced on the abandoned trenches in splendid order, captured 15 field guns and took 50 prisoners.

Rebels not yet satisfied returned in the afternoon with reinforcements and field guns. They advanced on the odious quick cheering like school boys.

JOSEPH PULITZER, JOURNALIST, DEAD

STROKE OF HEART FAILURE
COMES WHILE ABOARD HIS
YACHT.

FUNERAL IN NEW YORK

Deceased Was Owner of the World
Published in New York, and the
Post-Dispatch in St. Louis.

Charleston, S. C., Oct. 30.—Joseph Pulitzer, proprietor of the New York World and the St. Louis Post-Dispatch, died at 1:40 o'clock yesterday aboard his yacht, the Liberty, in Charleston Harbor. The immediate cause of Mr. Pulitzer's death was heart failure. He had been in ill health for several days, but until a few hours before the end none of those around him had any suspicion of the gravity of his condition.

The change for the worse came about 2 o'clock yesterday morning, when he suffered an attack of severe pain. By daylight he appeared to be better and fell asleep soon after 10:30. He awoke at 1 o'clock, complained of pain in his heart, fell into a faint and expired at 1:40 o'clock. Mrs. Pulitzer, who had been sent for, arrived from New York today and reached the yacht shortly before her husband died. She was at his bedside when the end came, as also was his youngest son, Herbert, who has been cruising with his father during the present trip.

Mr. Pulitzer's body will be taken north this evening at 4:30 on a special Pullman car. The funeral will be held at Woodlawn cemetery, in New York probably toward the end of this week.

Mr. Pulitzer's son, Joseph, Jr., is now on his way from St. Louis with his wife, and one of his daughters will come from Florida. Joseph Pulitzer's mind remained perfectly clear. His German secretary had been reading to him an account of the reign of Louis XI. of France, in whose career Mr. Pulitzer had always taken the liveliest interest.

As the secretary neared the end of his chapter and came to the death of the French King, Mr. Pulitzer said to him: "Laise ganz laise (softly, quite softly)." These words were the last which he spoke.

Some members of Mr. Pulitzer's party will go north this evening on the train with Mrs. Pulitzer, Herbert and the body of the dead journalist. The other members of the party will remain on the yacht, which will probably set sail for New York late this evening. Mr. Pulitzer's yacht was on her way to Jekyll Island, near Brunswick, Ga., where Mr. Pulitzer owned a winter home.

There also had been some talk of taking a cruise to the West Indies, and but for the fact that the yacht was detained in port by the threatened West Indian hurricane, Mr. Pulitzer's end, probably would have come upon the high seas.

He was attended during the illness that resulted in his death by Dr. Robert Wilson of Charleston and by Dr. Gothmann, his yacht physician.

SWANSON COUPLES MUST BE MARRIED AGAIN

Licences Issued in County That Never
Existed Legally Are Declared
Void.

Snyder, Okla., Oct. 30.—More than a hundred marriages which have occurred in Swanson since the supreme court of the state issued its mandate for the county's dissolution, are now found to be void, and struck with chagrin that they have been living together without authority of law. Newlyweds in the southern part of Nowata county are already beginning a hasty pilgrimage to Hobart to secure new licenses and take anew the marriage vows. Wedding bells, however, will ring with muffled sound. "County Judge" J. F. Bryan continued to issue licenses, after Swanson was dissolved. Many victims of Dan Cupid, however, especially in the Comanche strip, went to the parent counties for license to wed.

CHINESE IN LOS ANGELES SYMPATHIZE WITH REBELS

By Associated Press. Los Angeles, Cal., Oct. 30.—One thousand Chinese in native and American dress with United States and Chinese flags, participated in a great demonstration in Chinatown yesterday in celebration of the recent victory of the revolutionary army in China.

Young Blood

wants to look youngish, it's wonderful what effect the correct angle to a lapel, the right curve to a sleeve, and the right flap to a pocket have in giving a suit snap and dash. Our Mother Brand New York made clothes have all the snap and dash that young blood wants, because they are designed to produce just the proper effect that brings to the wearer the meaning sense of being dressed in the latest fashion.

Concerning the Comet Family Now Visiting in This Section

Austin, Texas, Oct. 30.—Dr. H. V. Benedict, instructor in astronomy in the University of Texas, gives out some interesting facts in regard to the comets now wandering through the heavens. Comets may now be said to be in the public eye. Halley's comet about a year ago, was a source of interest to people all over the United States, although expectation was soon replaced by disappointment because the comet did not show up well when at the perihelion. Just now in the mornings at about 4 or 5 o'clock, two comets, one of which is very conspicuous, is visible a little north of east in the sky. A great many people have seen the bright comet, and because of the numerous inquiries, Dr. Benedict, who has spent years in the study of astronomy, submits substantially the succeeding items relative to the family of comets which is now paying Texas a visit.

So far during the year 1911 five new comets have been discovered, and at the present time nine comets are telescopically visible, of which three are visible to the naked eye. Wolf's periodic comet was rediscovered on June 4 by Prof. Max Wolff of Konigsberg. It was found photographed close to its predicted place. Comet B 1911, Kels, was discovered for the first time, photographically, on July 6 by Mr. C. C. Kels of the Lick Observatory of the University of California. It is now barely visible to the naked eye. Its orbit is very nearly a parabola, and as a consequence it has been many centuries since it approached the sun. It will be many more centuries before it again gets close enough to the earth to be seen. Its minimum distance from the sun is 65,000,000 miles, which it attained on June 20. The comet and the earth were within 10,000,000 miles of each other on Aug. 25, and had the new comet been about three weeks further along in its orbit it would have afforded a brilliant spectacle.

Comet C 1911, Brooks, a new comet, was discovered on July 20 by Prof. William R. Brooks of Geneva, N. Y. It was then visible in a three-inch glass. This comet came closest to the sun on October 27, when it was 22,000,000 miles from the sun and 35,000,000 miles from the earth. On October 1 this comet and the earth were only about 8,000,000 miles apart but the comet was not then favorably situated for observation.

Comet F 1911, Quenisset, was discovered on September 26 by the

French astronomer Quenisset. It was then easily visible in an opera glass and is the conspicuous comet which so many observers are now seeing in the early morning hours. Details concerning its orbit are not yet available at the University of Texas, hence the actual size of the comet and its tail and its distance from the earth at the present time can not be given. Comet C 1911 and comet D 1911 have not been visible to the naked eye. Comet A 1911 (named out to be Wolf's periodic comet above referred to, but comets B, C, D, E and F 1911 were new comets to us.

On the average, about five or six new comets are discovered every year. Prof. Brooks has about 20 to his credit and expects to find some more. It is not often, however, that two comets are visible at once to the naked eye, in the same part of the sky. In 1882 two brilliant comets were visible close together at the same time. Halley's comet has just disappeared from the view of the largest telescopes. Brooks' comet is now in the constellation Draco, the present diameter of its head being about 500,000 miles. Its tail is now about 8,000,000 miles in length. It is to be remembered that when a comet is near the sun its size undergoes continued and rapid variations. Jorley's periodic comet was first seen, upon its return, by Prof. Khazian of Helwan, Egypt, on September 1. This comet is visible only in the large telescopes. Jorley's periodic comet was rediscovered on July 31 by Director F. Gonnexiat of the Algiers observatory. It is not favorably situated for observation at this time, though visible in a 2-inch glass. Its period is about three and a half years. Mr. J. Franz of Breslau has published the statement that on July 22 he discovered a nebulous object which moved in the sky at the same unprecedented rate of seven degrees an hour. This rapid change in direction indicated a body very close to the earth, very close, perhaps within 100,000 miles. Mr. Franz was unable to find the body on the night of July 23, nor has any other observer been able to find it. It is, however, probable that the body was a small comet, which passed very close to the earth. Perhaps, like Biela's comet, it was torn to pieces by the attraction of the earth, perhaps the attraction of the earth detected it from a straight line so sharply that Mr. Franz was not able to find it from inability to examine the whole sky while the comet was near enough to the earth to be visible.

DIAMOND VETERANS TO PLAY AT SAN ANTONIO

Special to The Times.

San Antonio, Texas, Oct. 30.—One of the greatest games of baseball ever played in the south is being arranged for the entertainment of delegates and visitors to the National Baseball convention in this city November 15-18. It will be between the east and west and the players on each team will be veterans of the baseball diamond, some of them stars of the present day and some stars of previous years. It will be an aggregation of baseball stars such as would be difficult to get together except at a baseball convention.

T. H. Murnane, sporting editor of the Boston Globe, will be manager of the East team, and Norris O'Neal of the West team. Both are members of the Board of Arbitration of the National Association of Professional Baseball Leagues. John M. Vard will captain and probably pitch for the East team, and "Pop" Anson, said to be the greatest all-around ball player this country has ever known, will captain the West team. The selection of players for each team will be left to the discretion of the manager and captain of each team. It is known, however, that James H. D'Rourke of Bridgeport, Conn., secretary and treasurer of the Connecticut baseball league, who has played in past years with the Boston Red Stockings, with Providence, R. I., team, with the New York Giants and the Buffalo and Washington Nationals, will be a member of the East team, and Al J. Reach will be chosen for a place on the West team. The selection of other players for each team will be watched with interest by the whole country.

Denver Switchman Lost Arm.

W. W. Swearingen, a switchman in the Fort Worth & Denver yards, met with a serious accident shortly before midnight Friday night which cost him an arm. The yard men were switching a train when the accident occurred and the engine was running back and forth kicking out and picking up cars. Swearingen, who was known as a field man, was standing on the track with his arm at his side as the engine approached. The engine crew supposed that he was expecting to catch the front step of the engine until they were within about ten feet of him when they saw that his back was turned. They sounded the warning signal, but it seems that the noise of cars on another track prevented his hearing it and he was not conscious that the engine was approaching till just at the instant it struck him. He was knocked down and dragged about ten feet before the engine could be stopped. The front wheels had passed over an arm. He was conscious when he was picked up, and

Texas Industrial Notes

There is \$100,000,000 invested in the oil industry in Texas and there are 1250 miles of pipe line in the state.

Galveston, Chambers and Jefferson counties will jointly construct an inter-county highway in the near future.

A half million dollar bond issue for road improvement is being planned in Bowie county.

Corpus Christi is to have new water works soon at a cost of \$250,000.

The Texas Cotton Mill Company of McKinney, a corporation of all home capital, has had to materially enlarge its plant on account of the increasing demand for its products.

One hundred farmers near San Angelo have formed a company for raising and milking purposes.

Randall county is represented by our cars of fine cattle at the Kansas City Fat Stock Show.

Rock salt in paying quantities has been found about forty miles west of Amarillo.

The Southern Pacific Railroad and the Nona Mills Company, which is opening up a tract of land for settlement in Hardin county, will operate an experimental car at Nona.

The first cargo of lumber shipped from Port Bolivar to Havana was made early in October on the steamship Llanapopolis, which carried a million and a half feet of yellow pine.

Houston and Texas Central surveyors have completed a survey from Giddens to Stone City and construction work will begin immediately.

Through the efforts of the Spur Commercial Club a state experimental farm has been established near that city.

The county commissioners of Nacogdoches county have recently bought a steam tractor for county road work.

The Texas Midcoast Industrial Congress has planned to give lectures, illustrated with colored moving pictures, at the Chicago Land Show.

About December first work will begin on a three thousand foot well at San Angelo, the money for the work being raised by public subscription.

Construction has begun on a dam across the Medina river about thirty miles west of San Antonio that will furnish enough water to irrigate 70,000 acres of land.

Port Arthur business men have plans under consideration by which they expect to make that city one of the Gulf terminals of the Morgan lines.

The Amarillo Real Estate Exchange is a new organization composed of the leading real estate dealers of the Panhandle. The development of that section of the state is the aim of the exchange.

Baltimore capitalists have closed a contract to finance the construction of the terminal railroad from the city of Aransas Pass to the port and the building of docks and ware houses along the water front.

Vanderbilt-Georgia football game,
at Nashville, Tenn.

A FAIR OFFER.

Your Money Back if You Are Not
Satisfied.

We pay for all the medicine used
during the trial, if our remedy fails to
completely relieve you of consti-
pation. We take all the risk. You
are not obligated to us in any way
whatever, if you accept our offer.
That's a mighty broad statement, but
we mean every word of it. Could any-
thing be more fair for you?

A most scientific, common sense
treatment is Rexall Orderlies, which
are eaten like candy. Their active
principle is a recent scientific discov-
ery that is odorless, colorless, and
tasteless; very pronounced, yet gen-
tle and pleasant in action, and par-
ticularly agreeable in every way.
They do not cause diarrhoea, nausea,
flatulence, griping, or any inconve-
nience whatever. Rexall Orderlies are
particularly good for children, aged
and delicate persons.

If you suffer from chronic or habit-
ual constipation, or the associate or
dependent chronic ailments, we urge
you to try Rexall Orderlies at our
risk. Remember, you can get them
in Wichita Falls only at our store
12 tablets 10 cents; 36 tablets 25
cents; 80 tablets 50 cents. Sold only
at our store—The Rexall Store. O.
P. Marchman, Drug Store.

Father and Three Sons Face Trial.
Jackson, Ga., Oct. 20.—A special ses-
sion of the Butts County Superior
court convened today for the trial of
William Turner and his three sons
who are charged with murder. The
four men are accused of having fired
from ambush upon a party of Butts
county citizens returning to their
homes from Indian Spring on the night
of August 25th, killing one of the party
and seriously wounding another.

CATARH OF STOMACH.

Indigestion and Stomach Agony is
Quickly Ended.

If you want to thirty doctors and
paid each his fee for a prescription
for indigestion or stomach misery it
is ten chances to one you wouldn't
get such a good prescription as the
one from which MIONA stomach tab-
lets are made.

How can such a thing be? you
naturally ask.

Simply because the man who wrote
the prescription from which MIONA
tablets are made knows more about
stomach diseases than 96 per cent of
all the physicians in America, and he
gets paid for knowing.

And when you can get a large box
of tablets made from this doctor's
prescription for only 50 cents, are
you going to continue to suffer? Sold
by O. F. Marchman and druggists
everywhere.

During the past thirty years 29,962,
000,000 feet of timber were cut in Tex-
as.

100 "HOOSIERS" Reach Wichita from Indiana

303 WICHITA FALLS 303

Wichita Falls, Texas, October 30, 1911.

Morris Sheppard and Tom Campbell have had a conference, and the result is evidently not very comforting to the other candidates for the governorship.

Last Saturday at 6:25 p. m. Dallas recorded her 4th homicide for the year 1911. The man with the gun refused to make a statement as to what caused him to take the life of his fellow man, but enough has leaked out to suspicion that there was a woman in the case.

"Who's a Democrat, anyhow?" is the question of the day in politics, with the election of a Democratic president almost in sight. It may be that the question will not be finally settled until after the election, and then, no doubt, all factions can get together by agreeing on the Jacksonian doctrine: that "to the victors belong the spoils."

Gov. Wilson of New Jersey was given a most cordial reception at Dallas and Fort Worth on last Saturday, and judging from those who made up the crowd—particularly those who sat on the stage at the Coliseum at the Dallas fair grounds, it would seem that Democrats of all factions in Texas were rallying to Wilson and clamoring for room in the Wilson band wagon. "It is true that some notables were conspicuous for their absence, but it is time yet for them to drop into line, and they seemingly have been careful enough to burn no bridges behind that would make it difficult for them to leap in at the proper time. He is not an orator, but that he is a strong man—perhaps the strongest that the Democrats can select to head their presidential ticket next year, there is hardly a doubt.

Wichita county has within its borders the greatest producing oil field in the great State of Texas, and that of itself is a distinction to be proud of. There are now 27 producing wells in the Electra field today, and according to the Oil and Gas Journal, these 27 wells, at a low estimate, are producing 7000 barrels of oil daily. A well is being brought in today that will extend the field at least one mile east and there is every reason to believe that within the next six months the field will be extended five or six miles to the east and north, making it the greatest oil field in the west.

THIS DATE IN HISTORY.

OCTOBER 30.

- 1632—Henry de Montmorency, admiral of France, beheaded for conspiracy.
- 1783—England declared war against Spain.
- 1810—Mexicans under Hidalgo defeated the Spaniards in battle of Los Cruces, the first battle of the Mexican revolution.
- 1829—Roscoe Conkling, American statesman, born. He died April 18, 1888.
- 1862—The French government proposed joint mediation to Great Britain and Russia in the American civil war.
- 1864—Peace was concluded at Vienna among Austria, Prussia and Denmark.
- 1867—John A. Andrew, war governor of Massachusetts, died. Born May 31, 1818.
- 1881—Tragic death of Captain De Long in the Arctic region.
- 1892—World's Columbian Exposition at Chicago officially closed.
- 1902—Violent eruption of the volcano Santa Maria in Guatemala.

CALUMET BAKING POWDER

The wonder of baking powder—Calumet. Wonderful in its raising powers—its uniformity, its never failing results, its purity.

Wonderful in its economy. It costs less than the high-price trust brands, but it is worth as much. It costs a trifle more than the cheap and big can kinds—it is worth more. But proves its real economy in the baking.

Use CALUMET—the Modern Baking Powder.

At all Grocers.

Ousley Proposes Joint Cotton Bureau By Southern States

New Orleans, Oct. 30.—Governors of several Southern states with commissioners of agriculture gathered here for the purpose of discussing ways and means of increasing the price of cotton and formulating more economic plans for putting "it" on the market, were called to order by Governor Colquhoun this morning who started the object of the meeting. An effort will be made to make the conference a yearly affair.

"Cut down the acreage and practice diversification" is the admonition of Commissioner of Agriculture Edwards from Texas. "If the farmers of the country would raise such things as the families are compelled to have and make cotton a strictly money crop that they can hold indefinitely, it would render speculation and manipulation of the crop impossible and make the farmers masters of the situation," he said.

In his address, Clarence Ousley, editor of the Fort Worth Record, reviewed conditions and suggested as a remedial factor the establishing of a joint bureau of statistics by the Southern states. He criticized the government's plan of issuing statistics on the cotton industry.

"Another innovation I wish inaugurated is that the federal government's cotton reporting service be improved to the extent that when it is announced what the cotton crop will be, it will at the same time announce what the world's demand will be for this crop."

A rigid investigation is to be made into the cause of the wreck by the railroad company and the authorities of Clay county and every effort will be made to trace down and punish the person or persons responsible.

EXCHANGE LIVERY STABLE BURNED

Last Saturday night, about 8:15 o'clock, fire supposed to have been caused by defective electric wiring, completely destroyed the frame building occupied by the Exchange Livery stable, 510 Ohio avenue, and the most of its contents were consumed. The loss being between \$2500.00 and \$4000.00, partly covered by insurance. All of the horses, were saved, but most of the remaining equipment was lost. The building was owned by the Wiley Brothers, who also operated the Exchange Livery Stable.

When first discovered, the fire was raging near the center of the stable, close to some electric light wires located there. It had already gained so great a headway that it was realized that the building was doomed, and a number of men at once began to work frantically to save as much as possible of the contents. All of the horses were at first taken to a place of safety, and a few buggies were then saved. The remainder of the equipment, consisting mostly of harness, feed and buggies, was all consumed by the flames.

The fire department early reached the scene with all of its members, every one of whom was obliged to fight nobly in order to prevent the further spread of the flames. But for a combination of circumstances, it is quite probable that the fire would have spread to adjacent property, and the loss, if such had been the case, would have been enormous. However, the water pressure was good, the engine working fine, and all other conditions—favorable for fire fighting. This being so, the department was able to confine the fire to the one building, and no further damage was done other than the destruction of that building, a result which was considered most fortunate by all who witnessed the fire, and were familiar with the circumstances.

Cole's Story of the Wreck.
J. M. Cole, of Dallas, Deputy Grand Protector of the Knights and Ladies of Honor, on his way to Wichita Falls, was a passenger on the Wichita Valley train, that was wrecked one and one-half miles beyond Bellevue last night. Mr. Cole received bruises on his neck, head and back, but is able to walk around, and is the guest of his friend V. E. Stampfl.

Mr. Cole said that the first intimation that he had of the accident was the car's tilting over on its side and rolling down a fifteen foot embankment, knocking him unconscious. When he came to his right mind again, everything was in a state of chaos and confusion around him. He was unable to secure much of the details of the wreck. After crawling out of the debris, his wounds were dressed along with the other wounded receiving medical aid.

Mr. Cole says, as near as he can learn the cause of the accident the fishplates securing the rails at one of the joints had been removed and the end of one of the rails forced to the

outside allowing the car wheels to leave the track, which if true, shows a premeditated plan to wreck the train. Mr. Cole of his own knowledge, don't know how many people were injured. He thinks that the body of Engineer Cunningham was removed from beneath the wrecked engine and that the injured fireman was found on the right of way some distance from the locomotive.

Mr. Cole says that if the train had left the track immediately over the removed fishplates the cars would have fallen into a deep ravine and probably killed a great many passengers, but fortunately the train ran across the ravine before turning over.

Mr. Cole is in Wichita Falls to attend a meeting of the newly organized lodge of the Knights and Ladies of Honor.

CARELESS ABOUT APPENDICITIS IN WICHITA FALLS.
Many Wichita Falls people have stomach or bowel trouble which is likely to turn into appendicitis. If you have constipation, sour stomach, or gas on the stomach, try simple buckthorn bark, glycerine, etc., as compounded in Adierika, the new German appendicitis remedy. Wichita Falls druggist states that a SINGLE DOSE of this simple remedy relieves bowel or stomach trouble almost INSTANTLY. O. F. Marchman sells it.

Electra Oil Land for Sale!

To a quick purchaser I can offer 140 acres of fine, level land in the heart of the new Electra oil district for the very low price of \$50.00 per acre. Capitalized at \$22,500.00 stands thus:

160 acres of land	\$12,800
Stock now subscribed	5,000
Stock to be raised	5,000
\$3,000 to \$10,000 will put down the well; some wells now yield \$500 to \$800 per day.	

This land lies about midway between the big producing wells of Electra and the well where oil was first discovered in North Texas and in the direct trend of the oil bearing sands.

"NOTHING BUT FIRST-CLASS WORK"

OIL LOTS FOR SALE

ELECTRA OIL FIELD \$10.00 EACH

The Powell Oil and Development Company owns in fee simple 311 acres of land situated about three miles south, 63 degrees east from the Electra Oil Fields. This company is putting 87 acres of this land on the market for the purpose of developing holdings. The land is a part of the H. & G. N. R. Survey of land located in Wichita County, Texas, Survey No. 21, Abstract No. 142.

Oil men of experience consider holdings as being in the heart of the oil bearing territory for the reason that the geological survey marked by the government shows that the oil strata runs northwest and southeast from the town of Electra.

The first shallow oil encountered is about three and a half miles southeast from our holdings. This 87 acres of land is near enough the railroad to afford shipping facilities. It is also within one mile of a two hundred acre tract bought by the Fordyce Oil Company for tankage purposes.

OUR PLAN.
There are 6188 oil lots as shown by plat on file with the county clerk of Wichita County. Each lot contains 600 square feet. The purchaser of each lot is entitled to one share of capital stock of the company, when same is finally organized. When one half of the lots are sold we will at once begin operations on a deep well to be put down to a depth of 2000 feet, unless oil or gas in paying quantities is found at a less depth, and when well is completed it will be turned over to the stockholders to be managed by a Board of Directors. 100 lots in the center of the field will be reserved for the deep well. The price of these lots is \$10 cash in hand.

Contracts for the purchase of these lots can be had from C. W. Snider, cashier of the City National Bank, who has authority to draw up all necessary papers conveying title, etc.

SHERIFF'S SALE

The State of Texas, County of Wichita. By virtue of a certain execution is out of the Honorable District Court of Wichita County, on the 15th day of August 1914, by A. F. Kerr, Clerk of said Court, against the defendant Clark Fowler for the sum of One Hundred (\$100.00) Dollars with interest and costs of suit in cause No. 4111 n said Court, styled Miss Ivey Fowler versus Clark Fowler and placed in my hands for service, I, B. L. Randolph, Sheriff of Wichita County, Texas, do hereby give notice to the said Clark Fowler, that he is to appear in said Court on the 7th day of October 1914, to answer a certain real estate situated in Wichita County, described as follows, to-wit: The entire undivided one-half interest of Clark Fowler in and to lot number two in block One hundred for y one of the City of Wichita Falls a Wichita County, Texas, and levied on as the property of said Clark Fowler. And on Tuesday the 7th day of November 1914 at the court house of Wichita County, in the city of Wichita Falls, Texas, between the ours of ten A. M. and four P. M., I will sell said property at public vendue, or cash to the highest bidder as the property of said Clark Fowler by virtue of said levy and said execution. And in compliance with law I give notice by publication in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Wichita Daily Times a newspaper published in Wichita County.

Witness my hand this 7th day of October 1914.

R. L. RANDOLPH,
Sheriff Wichita County, Texas.

RAIN OYSTER FOR MAN MEETING

(Continued from page 1)

dens are especially invited to come and let others share them there.

Revival Echoes.

You don't need a religion you will have to keep as bad as you need a Savior who will keep you. To be effective there must be behind your speech the triumph of a transfigured life.

Some of your souls are so small they could be turned around in a thimble and never touch side, edge or bottom. Cloths go in bunches; heroes stand alone.

Heroes have stood at the initiation of every great movement. The cowards trail along in the next two or three generations.

One reason you have whiskey in Wichita Falls is that you love dollars better than you do manhood.

There's no difference between the man who votes against what he knows to be right to save his business and the negro who sells his vote for \$2.

The man who sows a damnable whiskey habit will reap a drunken son or son-in-law as sure as God reigns in heaven.

If you doubt any of my statements telegraph and ask folks at the other end, I am mistaken. I'll pay for the message. If I am right, you pay for it. You think that because you are a liar everybody else is.

All Wichita Falls gets out of its whiskey business is big headaches, sour stomachs and poor looks. The bulk of the money goes to Schiltz, Budweiser, Buschmacker & Co.

Jacob worked seven years for his wife. Some of you scoundrels won't work a day for yours now.

You are a heathen if you have not a Sabbath. No actor who is respectable will let his children see any kind of a theatrical performance until he has thoroughly investigated it.

"Critic" Roasted.

Editor Times: We noticed in The Times a "Severe Criticism" of Nat Goodwin, written by one of our city's most versatile and talented young men, a young man who is authority on literature in general, and Napoleon Bonaparte, bird dogs and greener guns in particular.

We are not willing to accept his criticism because every one who witnessed the play, with the exception of John, says it was the best ever staged in Wichita.

According to John, the first act was all the second state and the third did not attempt to describe. One in appreciate John's bitter disappointment, his "aesthetic" taste being highly cultivated by having witnessed 20 annual tours of Mollie Bailey's greatest show, and then to have to sit through three long acts without seeing his old friend, the title, appear on the scene for someone to ride. It was truly heart-rending and to quote Mr. Robertson, no words are adequate, silence alone is adequate.

Again John says the gallery gods were displeased with the play and one of "these steamers of all criticism" cried out "raw work." Well, we did not hear it, but we feel sure John did as he was "up there," although he management does not believe he was there, and even deny selling John a ticket. However, we think he management wrong and believe John was really in the house, as John earned in early life by his experience with Mollie Bailey's show, that they are other ways of getting into a show than by the ticket window. The Wichita Theatre has three fire escapes. Yes, we are sure John saw this show.

We further believe that John Robertson's criticism was prompted more by that green-eyed monster, jealousy, than anything else inasmuch as Nat Goodwin has married six of the most beautiful women of America, while John is still trying and hasn't so far landed one, and is nearly 39 years of age, the time of life that Byron wrote "My days are in the yellow leaf, the flower and fruits of love are gone, The worm, the canker and grief Are mine alone."

Yes, we confess John has a reason for being envious and jealous of Nat Goodwin. Nat Goodwin has had one of the good things of life that John John's other complaint is that Nat Goodwin is growing old and could no longer act. The writer heard, Mr. Jack Jones—who by the way has been further under the house looking for eggs than John has been away from home—say that Nat Goodwin was better in the play the other night than he was 15 years ago. Old age is a legacy bequeathed to mortals who linger long upon this old world. We must all be an opening bud and at last—a blooming flower. Age will plow deep furrows on the fairest brow and renowned time will touch caven locks with snow, and one day life shadows will grow long for John too, and he will stand tottering before an open grave so why criticize a man for what he cannot help or prevent?

John is like the old woman whose only son, also named John, just "died" the army, and as the regiment of 1200 men marched by, pointed proudly to her "John" as being the only man in the regiment keeping step. Everybody else enjoyed "Nat Goodwin's play except John and John—well, he's stubborn."

"ANOTHER."

Shipments of tobacco from the demonstration farm at Nacogdoches have been forwarded to Washington for fumigation and tests.

Don't you need new Clothes?

Look at last winter's, or maybe winter-before-last's overcoat; see if it will stand you through this whole long winter. Is not your coat shiny? Are not your trousers baggy at the knee? Are not your hats greasy, your collars "broken" and neckties frayed? Haven't your socks got holes in them? Is not your underwear "gone"?

Then come to us; let us fix you up for fall and winter. We sell "up-grade," All-Wool Clothing and up-grade furnishings and hats.

When we put figures on our goods, we figure on seeing our customers again.

BRING HER

to the Palace Drug Store and order the chap in the snow white habiliments to remember his mission on earth, he will slip you a cup of rich, hot chocolate topped with a stack of whipped cream or some other of the taste inducing palate tickling liquid foods hot from the steaming urn, such as hot beef, consomme, tomato bouillon, vigorous and every wrinkle in your throat will say thank you at every sip.

Our white robed temperance today's taster is always on the job with the smile that won't come off. We give you your money's worth, and no charge for the smile. No grouches on our pay roll; when we get one we give him a vacation of one hundred years as soon as we find it out.

In good drug store service our batting average is hanging around close to a million.

Neals and Morris in singing and talking, is the vaudeville number at the Colonial Theatre the first three nights of this week.

Dr. M. R. Garrison, Dentist; office First National Bank Bldg. Phone 49.

Walter Priddy came in from Fort Worth this morning and said when he passed the wreck on the Denver near Bellevue, men examining the wreckage reported that twenty-six persons had been injured in addition to the engineer and fireman. The engine he said had rolled over twice and was completely demolished, except the boiler.

Bargains in slightly used and second hand pianos. Harrison-Everton Music Co. 140-tfc

Sheriff Ray, of Tarrant county, came up Sunday and took back with him, John Parks, who is wanted at Fort Worth on a charge of forgery.

Parks will be brought back to Wichita Falls for trial on a similar charge here.

THE
GOSSARD
CORSET

They Lace in Front.
Easily lead the world of corsetry. Their strength is in the satisfaction they give, the marked improvement they make in the figure, and withal, their comfort. You have heard / promised yourself a Gossard Corset—your excuse for changing was never so good. Our models were never so good.

NOW IS THE TIME

to abandon obsolete back lacing methods, they will appear ridiculous to you when you try the Gossard front laced. Decide that you will try a fitting now.

double quick cheering like school boys and made a vigorous attack, but the fight was one-sided. The rebels were not participants in the afternoon engagement. Red Cross hospitals here are packed with wounded. A visit to Staoken after the fighting revealed the fact that the losses of the royalists for the week past have been underestimated. A correspondent saw three carloads of dead. Four hundred imperial soldiers recruited from Honan province were found after the battle to have purchased strips of white cloth.

Dr. W. P. Bolding, dentist, suite 206 Kemp and Kell Bldg. Phone 206

W. W. Clark of this city was one of those so unfortunate as to sustain injuries last night in the wreck near Bellevue. Mr. Clark was not injured in the actual wreck itself, but after the cars had been overturned, he set out to help rescue some of the injured people, and during the excitement stepped off a twelve-foot trestle near the scene, alighting on his back. His injuries were very painful, but not likely to prove serious.
